(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration ((of 0.02 or more)) in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. However, in those instances where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility in which a breath testing instrument is not present or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(4). The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver that:

(a) His or her license, permit, or privilege to drive will be revoked or denied if he or she refuses to submit to the test;

(b) His or her license, permit, or privilege to drive will be suspended, revoked, denied, or placed in probationary status if the test is administered and the test indicates the alcohol concentration of the person's breath or blood is ((0.10)) 0.08 or more, in the case of a person age twenty-one or over, or ((0.02 or more)) in violation of RCW 46.61.502, 46.61.503, or 46.61.504 in the case of a person under age twenty-one; and

(c) His or her refusal to take the test may be used in a criminal trial.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to

another person, a breath or blood test may be administered without the consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is ~~((0.10))~~ 0.08 or more if the person is age twenty-one or over, or is ~~((0.02 or more))~~ in violation of RCW 46.61.502, 46.61.503, or 46.61.504 if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, deny, or place in probationary status the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration ~~((of 0.02 or more))~~ in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was ~~((0.10))~~ 0.08 or more if the person is age twenty-one or over, or was ~~((0.02 or more))~~ in violation of RCW 46.61.502, 46.61.503, or 46.61.504 if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, deny, or place in probationary status the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, denial, or placement in probationary status to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within thirty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of one hundred dollars as part of the request. If the request is mailed, it must be postmarked within thirty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required one hundred dollar fee, the department shall afford the person an opportunity for a hearing. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration ~~((of 0.02 or more))~~ in violation of RCW 46.61.503 and was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was ~~((0.10))~~ 0.08 or more if the person was age twenty-one or over at the time of the arrest, or was ~~((0.02 or more))~~ in violation of RCW 46.61.502, 46.61.503, or 46.61.504 if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration ~~((of 0.02 or more))~~ in violation of RCW 46.61.503 and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, denial, or placement in probationary status either be rescinded or sustained.

(9) If the suspension, revocation, denial, or placement in probationary status is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, denied, or placed in probationary status has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, denial, or placement in probationary status. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension,

revocation, denial, or placement in probationary status as expeditiously as possible. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, denial, or placement in probationary status it may impose conditions on such stay.

(10) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, denied, or placed in probationary status under subsection (7) of this section, other than as a result of a breath test refusal, and who has not committed an offense within the last five years for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, the court may direct the department to stay any actual or proposed suspension, revocation, denial, or placement in probationary status for at least forty-five days but not more than ninety days. If the court stays the suspension, revocation, denial, or placement in probationary status, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

**Sec. 2.** RCW 46.20.3101 and 1995 c 332 s 3 are each amended to read as follows:

Pursuant to RCW 46.20.308, the department shall suspend, revoke, or deny the arrested person's license, permit, or privilege to drive as follows:

(1) In the case of a person who has refused a test or tests:

(a) For a first refusal within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, revocation or denial for one year;

(b) For a second or subsequent refusal within five years, or for a first refusal where there has been one or more previous incidents within five years that have resulted in administrative action under this section, revocation or denial for two years or until the person reaches age twenty-one, whichever is longer. A revocation imposed under this subsection (1)(b) shall run consecutively to the period of any suspension, revocation, or denial imposed pursuant to a criminal conviction arising out of the same incident.

(2) In the case of an incident where a person has submitted to or been administered a test or tests indicating that the alcohol concentration of the person's breath or blood was ~~((0.10))~~ 0.08 or more:

(a) For a first incident within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, placement in probationary status as provided in RCW 46.20.355;

(b) For a second or subsequent incident within five years, revocation or denial for two years.

(3) In the case of an incident where a person under age twenty-one has submitted to or been administered a test or tests indicating that the alcohol concentration of the person's breath or blood was ~~((0.02 or more))~~ in violation of RCW 46.61.502, 46.61.503, or 46.61.504:

- (a) For a first incident within five years, suspension or denial for ninety days;
- (b) For a second or subsequent incident within five years, revocation or denial for one year or until the person reaches age twenty-one, whichever is longer.

**Sec. 3.** RCW 46.61.502 and 1994 c 275 s 2 are each amended to read as follows:

(1) A person is guilty of driving while under the influence of intoxicating liquor or any drug if the person drives a vehicle within this state:

- (a) And the person has, within two hours after driving, an alcohol concentration of ~~((0.10))~~ 0.08 or higher as shown by analysis of the person's breath or blood made under RCW 46.61.506; or
- (b) While the person is under the influence of or affected by intoxicating liquor or any drug; or
- (c) While the person is under the combined influence of or affected by intoxicating liquor and any drug.

(2) The fact that a person charged with a violation of this section is or has been entitled to use a drug under the laws of this state shall not constitute a defense against a charge of violating this section.

(3) It is an affirmative defense to a violation of subsection (1)(a) of this section which the defendant must prove by a preponderance of the evidence that the defendant consumed a sufficient quantity of alcohol after the time of driving and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol concentration to be ~~((0.10))~~ 0.08 or more within two hours after driving. The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.

(4) Analyses of blood or breath samples obtained more than two hours after the alleged driving may be used as evidence that within two hours of the alleged driving, a person had an alcohol concentration of ~~((0.10))~~ 0.08 or more in violation of subsection (1)(a) of this section, and in any case in which the analysis shows an alcohol concentration above 0.00 may be used as evidence that a person was under the influence of or affected by intoxicating liquor or any drug in violation of subsection (1)(b) or (c) of this section.

(5) A violation of this section is a gross misdemeanor.

**Sec. 4.** RCW 46.61.503 and 1995 c 332 s 2 are each amended to read as follows:

(1) Notwithstanding any other provision of this title, a person is guilty of driving a motor vehicle after consuming alcohol if the person operates a motor vehicle within this state and the person:

- (a) Is under the age of twenty-one;
- (b) Has, within two hours after operating the motor vehicle, an alcohol concentration of ~~((0.02 or more))~~ at least 0.02 but less than the concentration specified in RCW 46.61.502, as shown by analysis of the person's breath or blood made under RCW 46.61.506.

(2) It is an affirmative defense to a violation of subsection (1) of this section which the defendant must prove by a preponderance of the evidence that the defendant consumed a sufficient quantity of alcohol after the time of driving and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol concentration to be ~~((0.02 or more))~~ in violation of subsection (1) of this section within two hours after driving. The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the earlier of: (a) Seven days prior to trial; or (b) the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.

(3) Analyses of blood or breath samples obtained more than two hours after the alleged driving may be used as evidence that within two hours of the alleged driving, a person had an alcohol concentration ~~((of 0.02 or more))~~ in violation of subsection (1) of this section.

(4) A violation of this section is a misdemeanor.

**Sec. 5.** RCW 46.61.504 and 1994 c 275 s 3 are each amended to read as follows:

(1) A person is guilty of being in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug if the person has actual physical control of a vehicle within this state:

(a) And the person has, within two hours after being in actual physical control of the vehicle, an alcohol concentration of ~~((0.10))~~ 0.08 or higher as shown by analysis of the person's breath or blood made under RCW 46.61.506; or

(b) While the person is under the influence of or affected by intoxicating liquor or any drug; or

(c) While the person is under the combined influence of or affected by intoxicating liquor and any drug.

(2) The fact that a person charged with a violation of this section is or has been entitled to use a drug under the laws of this state does not constitute a defense against any charge of violating this section. No person may be convicted under this section if, prior to being pursued by a law enforcement officer, the person has moved the vehicle safely off the roadway.

(3) It is an affirmative defense to a violation of subsection (1)(a) of this section which the defendant must prove by a preponderance of the evidence that the defendant consumed a sufficient quantity of alcohol after the time of being in actual physical control of the vehicle and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol concentration to be ~~((0.10))~~ 0.08 or more within two hours after being in such control. The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.

(4) Analyses of blood or breath samples obtained more than two hours after the alleged being in actual physical control of a vehicle may be used as evidence that within two hours of the alleged being in such control, a person had an alcohol concentration of ~~((0.10))~~ 0.08 or more in violation of subsection (1)(a) of this section, and in any case in which the analysis shows an alcohol concentration above 0.00 may be used as evidence that a person was under the influence of or affected by intoxicating liquor or any drug in violation of subsection (1)(b) or (c) of this section.

(5) A violation of this section is a gross misdemeanor.

**Sec. 6.** RCW 46.61.506 and 1995 c 332 s 18 are each amended to read as follows:

(1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of intoxicating liquor or any drug, if the person's alcohol concentration is less than ~~((0.10))~~ 0.08, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or any drug.

(2) The breath analysis shall be based upon grams of alcohol per two hundred ten liters of breath. The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under the provisions of this section or RCW 46.61.502 or 46.61.504 shall have been performed according to methods approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist is directed to approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits which shall be subject to termination or revocation at the discretion of the state toxicologist.

(4) When a blood test is administered under the provisions of RCW 46.20.308, the withdrawal of blood for the purpose of determining its alcoholic or drug content may be performed only by a physician, a registered nurse, or a qualified technician. This limitation shall not apply to the taking of breath specimens.

(5) The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

(6) Upon the request of the person who shall submit to a test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to him or her or his or her attorney.

**Sec. 7.** RCW 88.12.025 and 1993 c 244 s 8 are each amended to read as follows:

(1) It shall be unlawful for any person to operate a vessel in a reckless manner.

(2) It shall be a violation for a person to operate a vessel while under the influence of intoxicating liquor or any drug. A person is considered to be under the influence of intoxicating liquor or any drug if:

(a) The person has ~~((0.10))~~ 0.08 grams or more of alcohol per two hundred ten liters of breath, as shown by analysis of the person's breath made under RCW 46.61.506; or

(b) The person has ~~((0.10))~~ 0.08 percent or more by weight of alcohol in the person's blood, as shown by analysis of the person's blood made under RCW 46.61.506; or

(c) The person is under the influence of or affected by intoxicating liquor or any drug; or

(d) The person is under the combined influence of or affected by intoxicating liquor and any drug.

The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this state shall not constitute a defense against any charge of violating this section. A person cited under this subsection may upon request be given a breath test for breath alcohol or may request to have a blood sample taken for blood alcohol analysis. An arresting officer shall administer field sobriety tests when circumstances permit.

(3) A violation of this section is a misdemeanor, punishable as provided under RCW 9.92.030. In addition, the court may order the defendant to pay restitution for any damages or injuries resulting from the offense.

NEW SECTION. **Sec. 8.** If this act mandates an increased level of service by local governments, the local government may, under RCW 43.135.060 and chapter 4.92 RCW, submit claims for reimbursement by the legislature. 2SSB 6264 Prime Sponsor, Senate Committee on Ways & Means: Providing for the mass marking of chinook salmon. Reported by Committee on Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that mass marking of hatchery-raised salmon is an effective tool for implementing selective salmon fisheries in this state. Mass marking of coho salmon is currently underway and holds great promise for maintaining both recreational and commercial fishing opportunities while protecting wild stocks. In view of the anticipated listing of Puget Sound chinook salmon as endangered under the federal endangered species act, the legislature finds that it is essential to expeditiously proceed with implementing a mass marking program for chinook salmon in Puget Sound and elsewhere in the state.

Through a cooperative effort by state and federal agencies and private enterprise, appropriate technologies have been developed for marking chinook salmon. It is the intent of the legislature to use these newly developed tools to implement chinook salmon mass marking beginning in April 1999.

**Sec. 2.** RCW 75.08.510 and 1995 c 372 s 2 are each amended to read as follows:

The department shall mark appropriate coho salmon that are released from department operated hatcheries and rearing ponds in such a manner that the fish are externally recognizable as hatchery origin salmon by fishers for the purpose of maximized catch while sustaining wild and hatchery reproduction.

The department shall mark all appropriate chinook salmon targeted for contribution to the Washington catch that are released from department operated hatcheries and rearing ponds in such a manner that the fish are externally recognizable as hatchery origin salmon by fishers.

The goal of the marking program is: (1) The annual marking by June 30, 1997, of all appropriate hatchery origin ((~~chinook and~~) coho salmon produced by the department with marking to begin with the 1994 Puget Sound coho brood; and (2) the annual marking by June 30, 1999, of all appropriate hatchery origin chinook salmon produced by the department with marking to begin with the 1998 chinook brood. The department may experiment with different methods for marking hatchery salmon with the primary objective of maximum survival of hatchery marked fish, maximum contribution to fisheries, and minimum cost consistent with the other goals.

The department shall coordinate with other entities that are producing hatchery chinook and coho salmon for release into public waters to enable the broadest application of the marking program to all hatchery produced chinook and coho salmon. The department shall work with the treaty Indian tribes in order to reach mutual agreement on the implementation of the mass marking program. The department shall report to the appropriate legislative committees by January 1, 1999, on the progress made in reaching mutual agreement with the treaty Indian tribes and any Pacific coast state or province to achieve the goal of coast-wide marking of chinook and coho salmon. The ultimate goal of the program is the coast-wide marking of appropriate hatchery origin chinook and coho salmon, and the protection of all wild chinook and coho salmon, where appropriate."

charges, dealer preparation charges, or any other charges for service contracts, undercoating, rustproofing, or factory or dealer installed options.

(3) "Condition" means a general problem that results from a defect or malfunction of one or more parts, or their improper installation by the manufacturer, its agents, or the new motor vehicle dealer.

(5) "Court" means the superior court in the county where the consumer resides, except if the consumer does not reside in this state, then the superior court in the county where an arbitration hearing or determination was conducted or made pursuant to this chapter.

(6) "Incidental costs" means any reasonable expenses incurred by the consumer in connection with the repair of the new motor vehicle, including any towing charges and the costs of obtaining alternative transportation.

(7) "Manufacturer" means any person engaged in the business of constructing or assembling new motor vehicles or engaged in the business of importing new motor vehicles into the United States for the purpose of selling or distributing new motor vehicles to new motor vehicle dealers. "Manufacturer" does not include any person engaged in the business of set-up of motorcycles as an agent of a new motor vehicle dealer if the person does not otherwise construct or assemble motorcycles.

(8) "Motorcycle" means any motorcycle as defined in RCW 46.04.330 which has an engine displacement of at least seven hundred fifty cubic centimeters.

(9) "Motor home" means a vehicular unit designed to provide temporary living quarters for recreational, camping, or travel use, built on or permanently attached to a self-propelled motor vehicle chassis or on a chassis cab or van that is an integral part of the completed vehicle.

(10) "Motor home manufacturer" means the first stage manufacturer, the component manufacturer, and the final stage manufacturer.

(a) "First stage manufacturer" means a person who manufactures incomplete new motor vehicles such as chassis, chassis cabs, or vans, that are directly warranted by the first stage manufacturer to the consumer, and are completed by a final stage manufacturer into a motor home.

(b) "Component manufacturer" means a person who manufactures components used in the manufacture or assembly of a chassis, chassis cab, or van that is completed into a motor home and whose components are directly warranted by the component manufacturer to the consumer.

(c) "Final stage manufacturer" means a person who assembles, installs, or permanently affixes a body, cab, or equipment to an incomplete new motor vehicle such as a chassis, chassis cab, or van provided by a first stage manufacturer, to complete the vehicle into a motor home.

(11) "New motor vehicle" means any new self-propelled vehicle, including a new motorcycle, primarily designed for the transportation of persons or property over the public highways that was originally purchased or leased at retail from a new motor vehicle dealer or leasing company in this state, and that was initially registered in this state or for which a temporary motor vehicle license was issued pursuant to RCW 46.16.460, but does not include vehicles purchased or leased by a business as part of a fleet of ten or more vehicles at one time or under a single purchase or lease agreement. If the motor vehicle is a motor home, this chapter shall apply to the self-propelled vehicle and chassis, but does not include those portions of the vehicle designated, used, or maintained primarily as a mobile dwelling, office, or commercial space. The term "new motor vehicle" does not include trucks with nineteen thousand pounds or more gross vehicle weight rating. The term "new motor vehicle" includes a demonstrator or lease-purchase vehicle as long as a manufacturer's warranty was issued as a condition of sale.

~~((10))~~ (12) "New motor vehicle dealer" means a person who holds a dealer agreement with a manufacturer for the sale of new motor vehicles, who is engaged in the business of purchasing, selling, servicing, exchanging, or dealing in new motor vehicles, and who is licensed or required to be licensed as a vehicle dealer by the state of Washington.

~~((11))~~ (13) "Nonconformity" means a defect, serious safety defect, or condition that substantially impairs the use, value, or safety of a new motor vehicle, but does not include a defect or

(a) "Purchase price" in the instance of a lease means the actual written capitalized cost disclosed to the consumer contained in the lease agreement. If there is no disclosed capitalized cost in the lease agreement the "purchase price" is the manufacturer's suggested retail price including manufacturer installed accessories or items of optional equipment displayed on the manufacturer label, required by 15 U.S.C. Sec. 1232.

(b) "Purchase price" in the instance of both a vehicle purchase or lease agreement includes any allowance for a trade-in vehicle but does not include any manufacturer-to-consumer rebate appearing in the agreement or contract that the consumer received or that was applied to reduce the purchase or lease cost.

Where the consumer is a subsequent transferee and the consumer selects repurchase of the motor vehicle, "purchase price" means the consumer's subsequent purchase price. Where the consumer is a subsequent transferee and the consumer selects replacement of the motor vehicle, "purchase price" means the original purchase price.

~~((13))~~ (15) "Reasonable offset for use" means the definition provided in RCW 19.118.041(1)(c) for a new motor vehicle other than a new motorcycle. The reasonable offset for use for a new motorcycle shall be computed by the number of miles that the vehicle traveled before the manufacturer's acceptance of the vehicle upon repurchase or replacement multiplied by the purchase price, and divided by twenty-five thousand.

~~((14))~~ (16) "Reasonable number of attempts" means the definition provided in RCW 19.118.041.

~~((15))~~ (17) "Replacement motor vehicle" means a new motor vehicle that is identical or reasonably equivalent to the motor vehicle to be replaced, as the motor vehicle to be replaced existed at the time of original purchase or lease, including any service contract, undercoating, rustproofing, and factory or dealer installed options.

~~((17))~~ (19) "Subsequent transferee" means a consumer who acquires a motor vehicle, within the warranty period, as defined in this section, with an applicable manufacturer's written warranty and where the vehicle otherwise met the definition of a new motor vehicle at the time of original retail sale or lease.

~~((18))~~ (20) "Substantially impair" means to render the new motor vehicle unreliable, or unsafe for ordinary use, or to diminish the resale value of the new motor vehicle below the average resale value for comparable motor vehicles.

~~((19))~~ (21) "Warranty" means any implied warranty, any written warranty of the manufacturer, or any affirmation of fact or promise made by the manufacturer in connection with the sale of a new motor vehicle that becomes part of the basis of the bargain. The term "warranty" pertains to the obligations of the manufacturer in relation to materials, workmanship, and fitness of a new motor vehicle for ordinary use or reasonably intended purposes throughout the duration of the warranty period as defined under this section.

~~((20))~~ (22) "Warranty period" means the period ending two years after the date of the original delivery to the consumer of a new motor vehicle, or the first twenty-four thousand miles of operation, whichever occurs first.

**Sec. 3.** RCW 19.118.031 and 1995 c 254 s 2 are each amended to read as follows:

(1) The manufacturer shall publish an owner's manual and provide it to the new motor vehicle dealer or leasing company. The owner's manual shall include a list of the addresses and phone numbers for the manufacturer's customer assistance division, or zone or regional offices. A manufacturer shall provide to the new motor vehicle dealer or leasing company all applicable manufacturer's written warranties. The dealer or leasing company shall transfer to the consumer, at

the time of original retail sale or lease, the owner's manual and applicable written warranties as provided by a manufacturer.

(2) At the time of purchase, the new motor vehicle dealer shall provide the consumer with a written statement that explains the consumer's rights under this chapter. The written statement shall be prepared and supplied by the attorney general and shall contain a toll-free number that the consumer can contact for information regarding the procedures and remedies under this chapter.

(3) For the purposes of this chapter, if a new motor vehicle does not conform to the warranty and the consumer reports the nonconformity during the term of the warranty period or the period of coverage of the applicable manufacturer's written warranty, whichever is less, to the manufacturer, its agent, or the new motor vehicle dealer who sold the new motor vehicle, the manufacturer, its agent, or the new motor vehicle dealer shall make repairs as are necessary to conform the vehicle to the warranty, regardless of whether such repairs are made after the expiration of the warranty period. Any corrections or attempted repairs undertaken by a new motor vehicle dealer under this chapter shall be treated as warranty work and billed by the dealer to the manufacturer in the same manner as other work under the manufacturer's written warranty is billed. For purposes of this subsection, the manufacturer's written warranty shall be at least one year after the date of the original delivery to the consumer of the vehicle or the first twelve thousand miles of operation, whichever occurs first.

(4) Upon request from the consumer, the manufacturer or new motor vehicle dealer shall provide a copy of any report or computer reading compiled by the manufacturer's field or zone representative regarding inspection, diagnosis, or test-drive of the consumer's new motor vehicle, or shall provide a copy of any technical service bulletin issued by the manufacturer regarding the year and model of the consumer's new motor vehicle as it pertains to any material, feature, component, or the performance thereof.

(5) The new motor vehicle dealer shall provide to the consumer each time the consumer's vehicle is returned from being diagnosed or repaired under the warranty, a fully itemized, legible statement or repair order indicating any diagnosis made, and all work performed on the vehicle including but not limited to, a general description of the problem reported by the consumer or an identification of the defect or condition, parts and labor, the date and the odometer reading when the vehicle was submitted for repair, and the date when the vehicle was made available to the consumer.

(6) No manufacturer, its agent, or the new motor vehicle dealer may refuse to diagnose or repair any nonconformity covered by the warranty for the purpose of avoiding liability under this chapter.

(7) For purposes of this chapter, consumers shall have the rights and remedies, including a cause of action, against manufacturers as provided in this chapter.

(8) The warranty period and thirty-day out-of-service period, and sixty-day out-of-service period in the case of a motor home, shall be extended by any time that repair services are not available to the consumer as a direct result of a strike, war, invasion, fire, flood, or other natural disaster.

**Sec. 4.** RCW 19.118.041 and 1995 c 254 s 3 are each amended to read as follows:

(1) If the manufacturer, its agent, or the new motor vehicle dealer is unable to conform the new motor vehicle to the warranty by repairing or correcting any nonconformity after a reasonable number of attempts, the manufacturer, within forty calendar days of a consumer's written request to the manufacturer's corporate, dispute resolution, zone, or regional office address shall, at the option of the consumer, replace or repurchase the new motor vehicle.

(a) The replacement motor vehicle shall be identical or reasonably equivalent to the motor vehicle to be replaced as the motor vehicle to be replaced existed at the time of original purchase or lease, including any service contract, undercoating, rustproofing, and factory or dealer installed options. Where the manufacturer supplies a replacement motor vehicle, the manufacturer shall be responsible for sales tax, license, registration fees, and refund of any incidental costs. Compensation for a reasonable offset for use shall be paid by the consumer to the manufacturer in the event that the consumer accepts a replacement motor vehicle.

(b) When repurchasing the new motor vehicle, the manufacturer shall refund to the consumer the purchase price, all collateral charges, and incidental costs, less a reasonable offset for use. When repurchasing the new motor vehicle, in the instance of a lease, the manufacturer shall refund to the

consumer all payments made by the consumer under the lease including but not limited to all lease payments, trade-in value or inception payment, security deposit, all collateral charges and incidental costs less a reasonable offset for use. The manufacturer shall make such payment to the lessor and/or lienholder of record as necessary to obtain clear title to the motor vehicle and upon the lessor's and/or lienholder's receipt of that payment and payment by the consumer of any late payment charges, the consumer shall be relieved of any future obligation to the lessor and/or lienholder.

(c) The reasonable offset for use shall be computed by multiplying the number of miles that the vehicle traveled directly attributable to use by the consumer times the purchase price, and dividing the product by one hundred twenty thousand, except in the case of a motor home, in which event it shall be divided by ninety thousand. However, the reasonable offset for use calculation total for a motor home is subject to modification by the board by decreasing or increasing the offset total up to a maximum of one-third of the offset total. The board may modify the offset total in those circumstances where the board determines that the wear and tear on those portions of the motor home designated, used, or maintained primarily as a mobile dwelling, office, or commercial space are significantly greater or significantly less than that which could be reasonably expected based on the mileage attributable to the consumer's use of the motor home. Where the consumer is a second or subsequent purchaser, lessee, or transferee of the motor vehicle and the consumer selects repurchase of the motor vehicle, "the number of miles that the vehicle traveled" shall be calculated from the date of purchase or lease by the consumer. Where the consumer is a second or subsequent purchaser, lessee, or transferee of the motor vehicle and the consumer selects replacement of the motor vehicle, "the number of miles that the vehicle traveled" shall be calculated from the original purchase, lease, or in-service date.

(2) Reasonable number of attempts, except in the case of a new motor vehicle that is a motor home acquired after June 30, 1998, shall be deemed to have been undertaken by the manufacturer, its agent, or the new motor vehicle dealer to conform the new motor vehicle to the warranty within the warranty period, if: (a) The same serious safety defect has been subject to diagnosis or repair two or more times, at least one of which is during the period of coverage of the applicable manufacturer's written warranty, and the serious safety defect continues to exist; (b) the same nonconformity has been subject to diagnosis or repair four or more times, at least one of which is during the period of coverage of the applicable manufacturer's written warranty, and the nonconformity continues to exist; or (c) the vehicle is out-of-service by reason of diagnosis or repair of one or more nonconformities for a cumulative total of thirty calendar days, at least fifteen of them during the period of the applicable manufacturer's written warranty. For purposes of this subsection, the manufacturer's written warranty shall be at least one year after the date of the original delivery to the consumer of the vehicle or the first twelve thousand miles of operation, whichever occurs first.

(3)(a) In the case of a new motor vehicle that is a motor home acquired after June 30, 1998, a reasonable number of attempts shall be deemed to have been undertaken by the motor home manufacturers, their respective agents, or their respective new motor vehicle dealers to conform the new motor vehicle to the warranty within the warranty period, if: (i) The same serious safety defect has been subject to diagnosis or repair one or more times during the period of coverage of the applicable motor home manufacturer's written warranty, plus a final attempt to repair the vehicle as provided for in (b) of this subsection, and the serious safety defect continues to exist; (ii) the same nonconformity has been subject to repair three or more times, at least one of which is during the period of coverage of the applicable motor home manufacturer's written warranty, plus a final attempt to repair the vehicle as provided for in (b) of this subsection, and the nonconformity continues to exist; or (iii) the vehicle is out of service by reason of diagnosis or repair of one or more nonconformities for a cumulative total of sixty calendar days aggregating all motor home manufacturer days out-of-service, and the motor home manufacturers have had at least one opportunity to coordinate and complete an inspection and any repairs of the vehicle's nonconformities after receipt of notification from the consumer as provided for in (c) of this subsection. For purposes of this subsection, each motor home manufacturer's written warranty must be at least one year after the date of the original delivery to the consumer of the vehicle or the first twelve thousand miles of operation, whichever occurs first.

(b) In the case of a new motor vehicle that is a motor home, after one attempt has been made to repair a serious safety defect, or after three attempts have been made to repair the same nonconformity, the consumer shall give written notification of the need to repair the nonconformity to each of the motor home manufacturers at their respective corporate, zone, or regional office addresses to allow the motor home manufacturers to coordinate and complete a final attempt to cure the nonconformity. The motor home manufacturers each have fifteen days, commencing upon receipt of the notification, to respond and inform the consumer of the location of the facility where the vehicle will be repaired. If the vehicle is unsafe to drive due to a serious safety defect, or to the extent the repair facility is more than one hundred miles from the motor home location, the motor home manufacturers are responsible for the cost of transporting the vehicle to and from the repair facility. The motor home manufacturers have a cumulative total of thirty days, commencing upon delivery of the vehicle to the designated repair facility by the consumer, to conform the vehicle to the applicable motor home manufacturer's written warranty. This time period may be extended if the consumer agrees in writing. If a motor home manufacturer fails to respond to the consumer or perform the repairs within the time period prescribed, that motor home manufacturer is not entitled to a final attempt to cure the nonconformity.

(c) In the case of a new motor vehicle that is a motor home, if the vehicle is out of service by reason of diagnosis or repair of one or more nonconformities by the motor home manufacturers, their respective agents, or their respective new motor vehicle dealers for a cumulative total of thirty or more days aggregating all motor home manufacturer days out of service, the consumer shall so notify each motor home manufacturer in writing at their respective corporate, zone, or regional office addresses to allow the motor home manufacturers, their respective agents, or their respective new motor vehicle dealers an opportunity to coordinate and complete an inspection and any repairs of the vehicle's nonconformities. The motor home manufacturers have fifteen days, commencing upon receipt of the notification, to respond and inform the consumer of the location of the facility where the vehicle will be repaired. If the vehicle is unsafe to drive due to a serious safety defect, or to the extent the repair facility is more than one hundred miles from the motor home location, the motor home manufacturers are responsible for the cost of transporting the vehicle to and from the repair facility. Once the buyer delivers the vehicle to the designated repair facility, the inspection and repairs must be completed by the motor home manufacturers either (i) within ten days or (ii) before the vehicle is out of service by reason of diagnosis or repair of one or more nonconformities for sixty days, whichever time period is longer. This time period may be extended if the consumer agrees in writing. If a motor home manufacturer fails to respond to the consumer or perform the repairs within the time period prescribed, that motor home manufacturer is not entitled to at least one opportunity to inspect and repair the vehicle's nonconformities after receipt of notification from the buyer as provided for in this subsection (3)(c).

(4) No new motor vehicle dealer may be held liable by the manufacturer for any collateral charges, incidental costs, purchase price refunds, or vehicle replacements. Manufacturers shall not have a cause of action against dealers under this chapter. Consumers shall not have a cause of action against dealers under this chapter, but a violation of any responsibilities imposed upon dealers under this chapter is a per se violation of chapter 19.86 RCW. Consumers may pursue rights and remedies against dealers under any other law, including chapters 46.70 and 46.71 RCW. Manufacturers and consumers may not make dealers parties to arbitration board proceedings under this chapter.

**Sec. 5.** RCW 19.118.061 and 1995 c 254 s 4 are each amended to read as follows:

(1) A manufacturer shall be prohibited from reselling any motor vehicle determined or adjudicated as having a serious safety defect unless the serious safety defect has been corrected and the manufacturer warrants upon the first subsequent resale that the defect has been corrected.

(2) Before any sale or transfer of a vehicle that has been replaced or repurchased by the manufacturer that was determined or adjudicated as having a nonconformity or to have been out of service for thirty or more calendar days, or sixty or more calendar days in the case of a motor home, under this chapter, the manufacturer shall:

(a) Notify the attorney general and the department of licensing, by certified mail or by personal service, upon receipt of the motor vehicle;

(b) Attach a resale disclosure notice to the vehicle in a manner and form to be specified by the attorney general. Only the retail purchaser may remove the resale disclosure notice after execution of the disclosure form required under subsection (3) of this section; and

(c) Notify the attorney general and the department of licensing if the nonconformity in the motor vehicle is corrected.

(3) Upon the first subsequent resale, either at wholesale or retail, or transfer of title of a motor vehicle and which was previously returned after a final determination, adjudication, or settlement under this chapter or under a similar statute of any other state, the manufacturer, its agent, or the new motor vehicle dealer who has actual knowledge of said final determination, adjudication or settlement, shall execute and deliver to the buyer before sale an instrument in writing setting forth information identifying the nonconformity in a manner to be specified by the attorney general, and the department of licensing shall place on the certificate of title information indicating the vehicle was returned under this chapter.

(4) Upon receipt of the manufacturer's notification under subsection (2) of this section that the nonconformity has been corrected and upon the manufacturer's request and payment of any fees, the department of licensing shall issue a new title with information indicating the vehicle was returned under this chapter and that the nonconformity has been corrected. Upon the first subsequent resale, either at wholesale or retail, or transfer of title of a motor vehicle, as provided under subsection (2)(c) of this section, the manufacturer shall warrant upon the resale that the nonconformity has been corrected, and the manufacturer, its agent, or the new motor vehicle dealer who has actual knowledge of the corrected nonconformity, shall execute and deliver to the buyer before sale an instrument in writing setting forth information identifying the nonconformity and indicating that it has been corrected in a manner to be specified by the attorney general.

(5) After repurchase or replacement and following a manufacturer's receipt of a vehicle under this section and prior to a vehicle's first subsequent retail transfer by resale or lease, any intervening transferor of a vehicle subject to the requirements of this section who has received the disclosure, correction and warranty documents, as specified by the attorney general and required under this chapter, shall deliver the documents with the vehicle to the next transferor, purchaser or lessee to ensure proper and timely notice and disclosure. Any intervening transferor who fails to comply with this subsection shall, at the option of the subsequent transferor or first subsequent retail purchaser or lessee: (a) Indemnify ~~((and [any]))~~ any subsequent transferor or first subsequent retail purchaser for all damages caused by such violation; or (b) repurchase the vehicle at the full purchase price including all fees, taxes and costs incurred for goods and services which were included in the subsequent transaction.

**Sec. 6.** RCW 19.118.090 and 1995 c 254 s 6 are each amended to read as follows:

(1) A consumer may request arbitration under this chapter by submitting the request to the attorney general. Within ten days after receipt of an arbitration request, the attorney general shall make a reasonable determination of the cause of the request for arbitration and provide necessary information to the consumer regarding the consumer's rights and remedies under this chapter. The attorney general shall assign the dispute to a board, except that if it clearly appears from the materials submitted by the consumer that the dispute is not eligible for arbitration, the attorney general may refuse to assign the dispute and shall explain any required procedures to the consumer.

(2) Manufacturers shall submit to arbitration if such arbitration is requested by the consumer within thirty months from the date of the original delivery of the new motor vehicle to a consumer at retail and if the consumer's dispute is deemed eligible for arbitration by the board. In the case of a motor home, the thirty-month period will be extended by the amount of time it takes the motor home manufacturers to complete the final repair attempt at the designated repair facility as provided for in RCW 19.118.041(3)(b).

(3) The new motor vehicle arbitration board may reject for arbitration any dispute that it determines to be frivolous, fraudulent, filed in bad faith, res judicata or beyond its authority. Any dispute deemed by the board to be ineligible for arbitration due to insufficient evidence may be reconsidered by the board upon the submission of other information or documents regarding the dispute that would allegedly qualify for relief under this chapter. Following a second review, the

board may reject the dispute for arbitration if evidence is still clearly insufficient to qualify the dispute for relief under this chapter. A rejection by the board is subject to review by the attorney general or may be appealed under RCW 19.118.100.

A decision to reject any dispute for arbitration shall be sent by certified mail to the consumer and the manufacturer, and shall contain a brief explanation as to the reason therefor.

(4) The manufacturer shall complete a written manufacturer response to the consumer's request for arbitration. The manufacturer shall provide a response to the consumer and the board within ten calendar days from the date of the manufacturer's receipt of the board's notice of acceptance of a dispute for arbitration. The manufacturer response shall include all issues and affirmative defenses related to the nonconformities identified in the consumer's request for arbitration that the manufacturer intends to raise at the arbitration hearing.

(5) The arbitration board shall award the remedies under RCW 19.118.041 if it finds a nonconformity and that a reasonable number of attempts have been undertaken to correct the nonconformity. The board shall award reasonable costs and attorneys' fees incurred by the consumer where the manufacturer has been directly represented by counsel: (a) In dealings with the consumer in response to a request to repurchase or replace under RCW 19.118.041; (b) in settlement negotiations; (c) in preparation of the manufacturer's statement; or (d) at an arbitration board hearing or other board proceeding.

In the case of an arbitration involving a motor home, the board may allocate liability among the motor home manufacturers.

(6) It is an affirmative defense to any claim under this chapter that: (a) The alleged nonconformity does not substantially impair the use, value, or safety of the new motor vehicle; or (b) the alleged nonconformity is the result of abuse, neglect, or unauthorized modifications or alterations of the new motor vehicle.

(7) The board shall have forty-five calendar days from the date the board receives the consumer's request for arbitration to hear the dispute. If the board determines that additional information is necessary, the board may continue the arbitration proceeding on a subsequent date within ten calendar days of the initial hearing. The board shall decide the dispute within sixty calendar days from the date the board receives the consumer's request for arbitration.

The decision of the board shall be delivered by certified mail or personal service to the consumer and the manufacturer, and shall contain a written finding of whether the new motor vehicle meets the standards set forth under this chapter.

(8) The consumer may accept the arbitration board decision or appeal to superior court, pursuant to RCW 19.118.100. Upon acceptance by the consumer, the arbitration board decision shall become final. The consumer shall send written notification of acceptance or rejection to the arbitration board within sixty days of receiving the decision and the arbitration board shall immediately deliver a copy of the consumer's acceptance to the manufacturer by certified mail, return receipt requested, or by personal service. Failure of the consumer to respond to the arbitration board within sixty calendar days of receiving the decision shall be considered a rejection of the decision by the consumer. The consumer shall have one hundred twenty calendar days from the date of rejection to file a petition of appeal in superior court. At the time the petition of appeal is filed, the consumer shall deliver, by certified mail or personal service, a conformed copy of such petition to the attorney general.

(9) Upon receipt of the consumer's acceptance, the manufacturer shall have forty calendar days to comply with the arbitration board decision or thirty calendar days to file a petition of appeal in superior court. At the time the petition of appeal is filed, the manufacturer shall deliver, by certified mail or personal service, a conformed copy of such petition to the attorney general. If the attorney general receives no notice of petition of appeal after forty calendar days, the attorney general shall contact the consumer to verify compliance.

SSB 6306 Prime Sponsor, Senate Committee on Ways & Means: Creating the school employees' retirement system. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature recognizes that teachers and school district employees share the same educational work environment and academic calendar.

It is the intent of the legislature to achieve similar retirement benefits for all educational employees by transferring the membership of classified school employees in the public employees' retirement system plan II to the Washington school employees' retirement system plan II. The transfer of membership to the Washington school employees' retirement system plan II is not intended to cause a diminution or expansion of benefits for affected members. It is enacted solely to provide public employees working under the same conditions with the same options for retirement planning.

As members of the Washington school employees' retirement system plan II, classified employees will have the same opportunity to transfer to the Washington school employees' retirement system plan III as their certificated coworkers. The ability to transfer to the Washington school employees' retirement system plan III offers members a new public retirement system that balances flexibility with stability; provides increased employee control of investments and responsible protection of the public's investment in employee benefits; and encourages the pursuit of public sector careers without creating barriers to other public or private sector employment.

**NEW SECTION. Sec. 2.** The definitions in this section apply throughout this chapter, unless the context clearly requires otherwise:

(1) "Retirement system" means the Washington school employees' retirement system provided for in this chapter.

(2) "Department" means the department of retirement systems created in chapter 41.50 RCW.

(3) "State treasurer" means the treasurer of the state of Washington.

(4) "Employer," for plan II and plan III members, means a school district or an educational service district.

(5) "Member" means any employee included in the membership of the retirement system, as provided for in section 4 of this act.

(6)(a) "Compensation earnable" for plan II and plan III members, means salaries or wages earned by a member during a payroll period for personal services, including overtime payments, and shall include wages and salaries deferred under provisions established pursuant to sections 403(b), 414(h), and 457 of the United States internal revenue code, but shall exclude nonmoney maintenance compensation and lump sum or other payments for deferred annual sick leave, unused accumulated vacation, unused accumulated annual leave, or any form of severance pay.

(b) "Compensation earnable" for plan II and plan III members also includes the following actual or imputed payments, which are not paid for personal services:

(i) Retroactive payments to an individual by an employer on reinstatement of the employee in a position, or payments by an employer to an individual in lieu of reinstatement, which are awarded or

granted as the equivalent of the salary or wage which the individual would have earned during a payroll period shall be considered compensation earnable to the extent provided in this subsection, and the individual shall receive the equivalent service credit;

(ii) In any year in which a member serves in the legislature, the member shall have the option of having such member's compensation earnable be the greater of:

(A) The compensation earnable the member would have received had such member not served in the legislature; or

(B) Such member's actual compensation earnable received for nonlegislative public employment and legislative service combined. Any additional contributions to the retirement system required because compensation earnable under (b)(ii)(A) of this subsection is greater than compensation earnable under this (b)(ii)(B) of this subsection shall be paid by the member for both member and employer contributions;

(iii) Assault pay only as authorized by RCW 27.04.100, 72.01.045, and 72.09.240;

(iv) Compensation that a member would have received but for a disability occurring in the line of duty only as authorized by RCW 41.40.038;

(v) Compensation that a member receives due to participation in the leave sharing program only as authorized by RCW 41.04.650 through 41.04.670; and

(vi) Compensation that a member receives for being in standby status. For the purposes of this section, a member is in standby status when not being paid for time actually worked and the employer requires the member to be prepared to report immediately for work, if the need arises, although the need may not arise.

(7) "Service" for plan II and plan III members, means periods of employment by a member in an eligible position or positions for one or more employers for which compensation earnable is paid. Compensation earnable earned for ninety or more hours in any calendar month shall constitute one service credit month except as provided in section 19 of this act. Compensation earnable earned for at least seventy hours but less than ninety hours in any calendar month shall constitute one-half service credit month of service. Compensation earnable earned for less than seventy hours in any calendar month shall constitute one-quarter service credit month of service. Time spent in standby status, whether compensated or not, is not service.

Any fraction of a year of service shall be taken into account in the computation of such retirement allowance or benefits.

(a) Service in any state elective position shall be deemed to be full-time service.

(b) A member shall receive a total of not more than twelve service credit months of service for such calendar year. If an individual is employed in an eligible position by one or more employers the individual shall receive no more than one service credit month during any calendar month in which multiple service for ninety or more hours is rendered.

(ii) Eleven or more days but less than twenty-two days equals one-half service credit month;

(iii) Twenty-two days equals one service credit month;

(iv) More than twenty-two days but less than thirty-three days equals one and one-quarter service credit month; and

(13) "Accumulated contributions" means the sum of all contributions standing to the credit of a member in the member's individual account, including any amount paid under RCW 41.50.165(2), together with the regular interest thereon.

(14) "Average final compensation" for plan II and plan III members means the member's average compensation earnable of the highest consecutive sixty months of service credit months prior to such member's retirement, termination, or death. Periods constituting authorized leaves of absence may not be used in the calculation of average final compensation except under RCW 41.40.710(2).

(15) "Final compensation" means the annual rate of compensation earnable by a member at the time of termination of employment.

(16) "Annuity" means payments for life derived from accumulated contributions of a member. All annuities shall be paid in monthly installments.

(22) "Eligible position" means any position that, as defined by the employer, normally requires five or more months of service a year for which regular compensation for at least seventy hours is earned by the occupant thereof. (24) "Leave of absence" means the period of time a member is authorized by the employer to be absent from service without being separated from membership.

**NEW SECTION. Sec. 3.** A retirement system is hereby created for the employees of school districts or educational service districts. The administration and management of the retirement system, the responsibility for making effective the provisions of this chapter, and the authority to make all rules necessary therefor are hereby vested in the department. All such rules shall be governed by the provisions of chapter 34.05 RCW. This retirement system shall be known as the Washington school employees' retirement system.

**NEW SECTION. Sec. 4.** Membership in the retirement system shall consist of all regularly compensated classified employees and appointive and elective officials of employers, as defined in this chapter, with the following exceptions:

(1) Persons in ineligible positions;

(2)(a) Persons holding elective offices or persons appointed directly by the governor:

PROVIDED, That such persons shall have the option of applying for membership during such periods of employment: AND PROVIDED FURTHER, That any persons holding or who have held elective offices or persons appointed by the governor who are members in the retirement system and who have, prior to becoming such members, previously held an elective office, and did not at the start of such initial or successive terms of office exercise their option to become members, may apply for membership to be effective during such term or terms of office, and shall be allowed to establish the service credit applicable to such term or terms of office upon payment of the employee contributions therefor by the employee with interest as determined by the director and employer contributions therefor by the employer or employee with interest as determined by the director: AND PROVIDED FURTHER, That all contributions with interest submitted by the employee under this subsection shall be placed in the employee's individual account in the employee's savings fund and be treated as any other contribution made by the employee, with the exception that any contributions submitted by the employee in payment of the employer's obligation, together with the interest the director may apply to the employer's contribution, shall not be considered part of the member's annuity for any purpose except withdrawal of contributions;

(b) A member holding elective office who has elected to apply for membership pursuant to (a) of this subsection and who later wishes to be eligible for a retirement allowance shall have the option of ending his or her membership in the retirement system. A member wishing to end his or her membership under this subsection must file on a form supplied by the department a statement indicating that the member agrees to irrevocably abandon any claim for service for future periods served as an elected official. A member who receives more than fifteen thousand dollars per year in compensation for his or her elective service, adjusted annually for inflation by the director, is not eligible for the option provided by this subsection (2)(b);

(3) Retirement system retirees: PROVIDED, That following reemployment in an eligible position, a retiree may elect to prospectively become a member of the retirement system if otherwise eligible;

(8) Employees who are citizens of the United States and who reside and perform duties for an employer outside of the United States: PROVIDED, That unless otherwise excluded under this chapter or chapter 41.04 RCW, the employee may apply for membership (a) within thirty days after employment in an eligible position and membership service credit shall be granted from the first day of membership service, and (b) after this thirty-day period, but membership service credit shall be granted only if payment is made for the noncredited membership service under RCW 41.50.165(2), otherwise service shall be from the date of application.

**NEW SECTION.** **Sec. 5.** Any person who has been employed in a nonelective position for at least nine months and who has made member contributions required under this chapter throughout such period, shall be deemed to have been in an eligible position during such period of employment.

**NEW SECTION.** **Sec. 6.** Within thirty days after his or her employment or his or her acceptance into membership each employee or appointive or elective official shall submit to the department a statement of his or her name and such other information as the department shall require. Compliance with the provisions set forth in this section shall be considered to be a condition of employment and failure by an employee to comply may result in separation from service.

**NEW SECTION.** **Sec. 7.** (1)(a) If a retiree enters employment with an employer sooner than one calendar month after his or her accrual date, the retiree's monthly retirement allowance will be reduced by five and one-half percent for every eight hours worked during that month. This reduction will be applied each month until the retiree remains absent from employment with an employer for one full calendar month.

(b) The benefit reduction provided in (a) of this subsection will accrue for a maximum of one hundred sixty hours per month. Any benefit reduction over one hundred percent will be applied to the benefit the retiree is eligible to receive in subsequent months.

(2) A retiree who has satisfied the break in employment requirement of subsection (1) of this section, may work up to five months per calendar year in an eligible position without suspension of his or her benefit.

(3) If the retiree opts to reestablish membership under section 4 of this act, he or she terminates his or her retirement status and becomes a member. Retirement benefits shall not accrue during the period of membership and the individual shall make contributions and receive membership credit. Such a member shall have the right to again retire if eligible in accordance with section 103 or 209 of this act. However, if the right to retire is exercised to become effective before the member has rendered two uninterrupted years of service, the retirement formula and survivor options the member had at the time of the member's previous retirement shall be reinstated.

**NEW SECTION.** **Sec. 8.** Those members subject to this chapter who became disabled in the line of duty and who received or are receiving benefits under Title 51 RCW or a similar federal workers' compensation program shall receive or continue to receive service credit subject to the following:

(1) No member may receive more than one month's service credit in a calendar month.

(2) No service credit under this section may be allowed after a member separates or is separated without leave of absence.

(3) Employer contributions shall be paid by the employer at the rate in effect for the period of the service credited.

(4) Employee contributions shall be collected by the employer and paid to the department at the rate in effect for the period of service credited.

(5) Contributions shall be based on the regular compensation which the member would have received had the disability not occurred. If contribution payments are made retroactively, interest shall be charged at the rate set by the director on both employee and employer contributions. No service credit shall be granted until the employee contribution has been paid.

(6) The service and compensation credit shall not be granted for a period to exceed twelve consecutive months.

(7) Should the legislature revoke the service credit authorized under this section or repeal this section, no affected employee is entitled to receive the credit as a matter of contractual right.

**NEW SECTION. Sec. 9.** The deductions from the compensation of members, provided for in section 104 of this act, shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for in this chapter and receipt in full for his or her salary or compensation, and payment, less the deductions, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by the person during the period covered by the payment, except as to benefits provided for under this chapter.

**NEW SECTION. Sec. 10.** (1) The director shall report to each employer the contribution rates required for the ensuing biennium or fiscal year, whichever is applicable.

(2) Beginning September 1, 1990, the amount to be collected as the employer's contribution shall be computed by applying the applicable rates established in chapter 41.45 RCW to the total compensation earnable of employer's members as shown on the current payrolls of the employer. Each employer shall compute at the end of each month the amount due for that month and the same shall be paid as are its other obligations.

(3) In the event of failure, for any reason, of an employer other than a political subdivision of the state to have remitted amounts due for membership service of any of the employer's members rendered during a prior biennium, the director shall bill such employer for such employer's contribution together with such charges as the director deems appropriate in accordance with RCW 41.50.120. Such billing shall be paid by the employer as, and the same shall be, a proper charge against any moneys available or appropriated to such employer for payment of current biennial payrolls.

**NEW SECTION. Sec. 11.** (1) Subject to subsections (2) and (3) of this section, the right of a person to a pension, an annuity, or retirement allowance, any optional benefit, any other right accrued or accruing to any person under the provisions of this chapter, the various funds created by this chapter, and all moneys and investments and income thereof, are hereby exempt from any state, county, municipal, or other local tax, and shall not be subject to execution, garnishment, attachment, the operation of bankruptcy or insolvency laws, or other process of law whatsoever, and shall be unassignable.

(2) This section does not prohibit a beneficiary of a retirement allowance from authorizing deductions therefrom for payment of premiums due on any group insurance policy or plan issued for the benefit of a group comprised of public employees of the state of Washington or its political subdivisions and which has been approved for deduction in accordance with rules that may be adopted by the state health care authority and/or the department. This section also does not prohibit a beneficiary of a retirement allowance from authorizing deductions therefrom for payment of dues and other membership fees to any retirement association or organization the membership of which is composed of retired public employees, if a total of three hundred or more of such retired employees have authorized such deduction for payment to the same retirement association or organization.

(3) Subsection (1) of this section does not prohibit the department from complying with (a) a wage assignment order for child support issued pursuant to chapter 26.18 RCW, (b) an order to

withhold and deliver issued pursuant to chapter 74.20A RCW, (c) a notice of payroll deduction issued pursuant to RCW 26.23.060, (d) a mandatory benefits assignment order issued by the department, (e) a court order directing the department of retirement systems to pay benefits directly to an obligee under a dissolution order as defined in RCW 41.50.500(3) which fully complies with RCW 41.50.670 and 41.50.700, or (f) any administrative or court order expressly authorized by federal law.

NEW SECTION. **Sec. 12.** A member shall not receive a disability retirement benefit under section 105 or 210 of this act if the disability is the result of criminal conduct by the member committed after April 21, 1997.

NEW SECTION. **Sec. 13.** Any person who knowingly makes any false statements, or falsifies or permits to be falsified any record or records of this retirement system in any attempt to defraud the retirement system as a result of such act, is guilty of a gross misdemeanor.

NEW SECTION. **Sec. 14.** (1) Any person who was a member of the state-wide city employees' retirement system governed by chapter 41.44 RCW and who was never reemployed by an employer as defined in RCW 41.40.010 and who is employed by an employer as defined in section 2 of this act, may, in a writing filed with the director, elect to:

(a) Transfer to this retirement system all service currently credited under chapter 41.44 RCW;  
(b) Reestablish and transfer to this retirement system all service which was previously credited under chapter 41.44 RCW but which was canceled by discontinuance of service and withdrawal of accumulated contributions as provided in RCW 41.44.190. The service may be reestablished and transferred only upon payment by the member to the employees' savings fund of this retirement system of the amount withdrawn plus interest thereon from the date of withdrawal until the date of payment at a rate determined by the director. No additional payments are required for service credit described in this subsection if already established under this chapter; and

(c) Establish service credit for the initial period of employment not to exceed six months, prior to establishing membership under chapter 41.44 RCW, upon payment in full by the member of the total employer's contribution to the benefit account fund of this retirement system that would have been made under this chapter when the initial service was rendered. The payment shall be based on the first month's compensation earnable as a member of the state-wide city employees' retirement system and as defined in RCW 41.44.030(13). However, a person who has established service credit under RCW 41.40.010(13) (c) or (d) shall not establish additional credit under this subsection nor may anyone who establishes credit under this subsection establish any additional credit under RCW 41.40.010(13) (c) or (d). No additional payments are required for service credit described in this subsection if already established under this chapter.

(2) The written election must be filed and the payments must be completed in full within one year after employment by an employer.

(3) Upon receipt of the written election and payments required by subsection (1) of this section from any retiree described in subsection (1) of this section, the department shall recompute the retiree's allowance in accordance with this section and shall pay any additional benefit resulting from such recomputation retroactively to the date of retirement from the system governed by this chapter.

(4) Any person who was a member of the state-wide city employees' retirement system under chapter 41.44 RCW and also became a member of the public employees' retirement system established under chapter 41.40 RCW or the Washington school employees' retirement system established under this chapter, and did not make the election under RCW 41.40.058 or subsection (1) of this section because he or she was not a member of the public employees' retirement system prior to July 27, 1987, or did not meet the time limitations of RCW 41.40.058 or subsection (2) of this section, may elect to do any of the following:

(a) Transfer to this retirement system all service currently credited under chapter 41.44 RCW;

(c) Establish service credit for the initial period of employment not to exceed six months, prior to establishing membership under chapter 41.44 RCW.

To make the election or elections, the person must pay the amount required under RCW 41.50.165(2) prior to retirement from this retirement system.

**NEW SECTION. Sec. 15.** Any person aggrieved by any decision of the department affecting his or her legal rights, duties, or privileges must, before he or she appeals to the courts, file with the director by mail or personally within sixty days from the day the decision was communicated to the person, a notice for a hearing before the director's designee. The notice of hearing shall set forth in full detail the grounds upon which the person considers the decision unjust or unlawful and shall include every issue to be considered by the department, and it must contain a detailed statement of facts upon which the person relies in support of the appeal. These persons shall be deemed to have waived all objections or irregularities concerning the matter on which the appeal is taken, other than those specifically set forth in the notice of hearing or appearing in the records of the retirement system.

**NEW SECTION. Sec. 16.** Following its receipt of a notice for hearing in accordance with section 15 of this act, a hearing shall be held by the director or a duly authorized representative, in the county of the residence of the claimant at a time and place designated by the director. Such hearing shall be conducted and governed in all respects by the provisions of chapter 34.05 RCW.

**NEW SECTION. Sec. 17.** Judicial review of any final decision and order by the director is governed by the provisions of chapter 34.05 RCW.

**NEW SECTION. Sec. 18.** No bond of any kind shall be required of a claimant appealing to the superior court, the court of appeals, or the supreme court from a finding of the department affecting the claimant's right to retirement or disability benefits.

**NEW SECTION. Sec. 19.** (1) Except for any period prior to the member's employment in an eligible position, a plan II or plan III member who is employed by a school district or districts or an educational service district:

(a) Shall receive a service credit month for each month of the period from September through August of the following year if he or she is employed in an eligible position, earns compensation earnable for eight hundred ten hours or more during that period, and is employed during nine months of that period;

(b) If a member in an eligible position for each month of the period from September through August of the following year does not meet the hours requirements of (a) of this subsection, the member is entitled to one-half service credit month for each month of the period if he or she earns earnable compensation for at least six hundred thirty hours but less than eight hundred ten hours during that period, and is employed nine months of that period;

(c) In all other instances, a member in an eligible position is entitled to service credit months as follows:

(i) One service credit month for each month in which compensation is earned for ninety or more hours;

(ii) One-half service credit month for each month in which compensation is earned for at least seventy hours but less than ninety hours; and

(iii) One-quarter service credit month for each month in which compensation is earned for less than seventy hours.

(2) The department shall adopt rules implementing this section.

**NEW SECTION. Sec. 20.** RCW 43.01.044 shall not result in any increase in retirement benefits. The rights extended to state officers and employees under RCW 43.01.044 are not intended to and shall not have any effect on retirement benefits under this chapter.

**NEW SECTION. Sec. 21.** (1) The annual compensation taken into account in calculating retiree benefits under this system shall not exceed the limits imposed by section 401(a)(17) of the federal internal revenue code for qualified trusts.

(2) The department shall adopt rules as necessary to implement this section.

**NEW SECTION. Sec. 22.** Beginning July 1, 1979, and every year thereafter, the department shall determine the following information for each retired member or beneficiary whose retirement allowance has been in effect for at least one year:

(1) The original dollar amount of the retirement allowance;

(2) The index for the calendar year prior to the effective date of the retirement allowance, to be known as "index A";

(3) The index for the calendar year prior to the date of determination, to be known as "index B"; and

(4) The ratio obtained when index B is divided by index A.

The value of the ratio obtained shall be the annual adjustment to the original retirement allowance and shall be applied beginning with the July payment. In no event, however, shall the annual adjustment:

(a) Produce a retirement allowance which is lower than the original retirement allowance;

(b) Exceed three percent in the initial annual adjustment; or

(c) Differ from the previous year's annual adjustment by more than three percent.

For the purposes of this section, "index" means, for any calendar year, that year's average consumer price index--Seattle, Washington area for urban wage earners and clerical workers, all items, compiled by the bureau of labor statistics, United States department of labor.

**NEW SECTION. Sec. 23.** (1) Upon retirement for service as prescribed in section 103 or 209 of this act or retirement for disability under section 105 or 210 of this act, a member shall elect to have the retirement allowance paid pursuant to one of the following options, calculated so as to be actuarially equivalent to each other.

(a) Standard allowance. A member electing this option shall receive a retirement allowance payable throughout such member's life. However, if the retiree dies before the total of the retirement allowance paid to such retiree equals the amount of such retiree's accumulated contributions at the time of retirement, then the balance shall be paid to the member's estate, or such person or persons, trust, or organization as the retiree shall have nominated by written designation duly executed and filed with the department; or if there be no such designated person or persons still living at the time of the retiree's death, then to the surviving spouse; or if there be neither such designated person or persons still living at the time of death nor a surviving spouse, then to the retiree's legal representative.

(b) The department shall adopt rules that allow a member to select a retirement option that pays the member a reduced retirement allowance and upon death, such portion of the member's reduced retirement allowance as the department by rule designates shall be continued throughout the life of and paid to a person nominated by the member by written designation duly executed and filed with the department at the time of retirement. The options adopted by the department shall include, but are not limited to, a joint and one hundred percent survivor option and a joint and fifty percent survivor option.

(2)(a) A member, if married, must provide the written consent of his or her spouse to the option selected under this section, except as provided in (b) of this subsection. If a member is married and both the member and the member's spouse do not give written consent to an option under this section, the department shall pay a joint and fifty percent survivor benefit calculated to be actuarially equivalent to the benefit options available under subsection (1) of this section unless spousal consent is not required as provided in (b) of this subsection.

(b) If a copy of a dissolution order designating a survivor beneficiary under RCW 41.50.790 has been filed with the department at least thirty days prior to a member's retirement:

(i) The department shall honor the designation as if made by the member under subsection (1) of this section; and

(ii) The spousal consent provisions of (a) of this subsection do not apply.

**NEW SECTION. Sec. 24.** (1) Except as provided in section 7 of this act, no retiree under the provisions of plan II shall be eligible to receive such retiree's monthly retirement allowance if he or she is employed in an eligible position as defined in section 2 of this act, RCW 41.40.010 or 41.32.010, or as a law enforcement officer or fire fighter as defined in RCW 41.26.030, except that a retiree who ends his or her membership in the retirement system pursuant to RCW 41.40.023(3)(b) is not subject to this section if the retiree's only employment is as an elective official.

(2) If a retiree's benefits have been suspended under this section, his or her benefits shall be reinstated when the retiree terminates the employment that caused his or her benefits to be suspended. Upon reinstatement, the retiree's benefits shall be actuarially recomputed pursuant to the rules adopted by the department.

(3) The department shall adopt rules implementing this section.

**NEW SECTION. Sec. 25.** Sections 1 through 24 of this act apply to members of plan II and plan III.

**NEW SECTION. Sec. 101.** A member of the retirement system shall receive a retirement allowance equal to two percent of such member's average final compensation for each service credit year of service.

**NEW SECTION. Sec. 102.** (1) The director may pay a member eligible to receive a retirement allowance or the member's beneficiary, subject to the provisions of subsection (5) of this section, a lump sum payment in lieu of a monthly benefit if the initial monthly benefit computed in accordance with section 101 of this act would be less than fifty dollars. The lump sum payment shall be the greater of the actuarial equivalent of the monthly benefits or an amount equal to the individual's accumulated contributions plus accrued interest.

(2) A retiree or a beneficiary, subject to the provisions of subsection (5) of this section, who is receiving a regular monthly benefit of less than fifty dollars may request, in writing, to convert from a monthly benefit to a lump sum payment. If the director approves the conversion, the calculation of the actuarial equivalent of the total estimated regular benefit will be computed based on the beneficiary's age at the time the benefit initially accrued. The lump sum payment will be reduced to reflect any payments received on or after the initial benefit accrual date.

(3) Persons covered under the provisions of RCW 41.40.625 or subsection (1) of this section may upon returning to member status reinstate all previous service by depositing the lump sum payment received, with interest as computed by the director, within two years of returning to service or prior to rereading, whichever comes first. In computing the amount due, the director shall exclude the accumulated value of the normal payments the member would have received while in beneficiary status if the lump sum payment had not occurred.

(4) If a member fails to meet the time limitations under subsection (3) of this section, reinstatement of all previous service will occur if the member pays the amount required under RCW 41.50.165(2). The amount, however, shall exclude the accumulated value of the normal payments the member would have received while in beneficiary status if the lump sum payment had not occurred.

(5) Only persons entitled to or receiving a service retirement allowance under section 101 of this act or an earned disability allowance under section 105 of this act qualify for participation under this section.

(6) It is the intent of the legislature that any member who receives a settlement under this section shall be deemed to be retired from this system.

**NEW SECTION. Sec. 103.** (1) **NORMAL RETIREMENT.** Any member with at least five service credit years who has attained at least age sixty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of section 101 of this act.

(2) **EARLY RETIREMENT.** Any member who has completed at least twenty service credit years and has attained age fifty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of section 101 of this act, except that a member retiring pursuant

to this subsection shall have the retirement allowance actuarially reduced to reflect the difference in the number of years between age at retirement and the attainment of age sixty-five.

**NEW SECTION. Sec. 104.** The required contribution rates to the retirement system for both members and employers shall be established by the director from time to time as may be necessary upon the advice of the state actuary. The state actuary shall use the aggregate actuarial cost method to calculate contribution rates. The employer contribution rate calculated under this section shall be used only for the purpose of determining the amount of employer contributions to be deposited in the plan II fund from the total employer contributions collected under section 10 of this act.

Contribution rates required to fund the costs of the retirement system shall always be equal for members and employers, except as herein provided. Any adjustments in contribution rates required from time to time for future costs shall likewise be shared equally by the members and employers.

Any increase in the contribution rate required as the result of a failure of an employer to make any contribution required by this section shall be borne in full by the employer not making the contribution.

The director shall notify all employers of any pending adjustment in the required contribution rate and such increase shall be announced at least thirty days prior to the effective date of the change.

Members contributions required by this section shall be deducted from the members compensation earnable each payroll period. The members contribution and the employers contribution shall be remitted directly to the department within fifteen days following the end of the calendar month during which the payroll period ends.

**NEW SECTION. Sec. 105.** (1) A member of the retirement system who becomes totally incapacitated for continued employment by an employer as determined by the department upon recommendation of the department shall be eligible to receive an allowance under the provisions of sections 101 through 112 of this act. The member shall receive a monthly disability allowance computed as provided for in section 101 of this act and shall have this allowance actuarially reduced to reflect the difference in the number of years between age at disability and the attainment of age sixty-five.

Any member who receives an allowance under the provisions of this section shall be subject to comprehensive medical examinations as required by the department. If these medical examinations reveal that a member has recovered from the incapacitating disability and the member is offered reemployment by an employer at a comparable compensation, the member shall cease to be eligible for the allowance.

(2) If the recipient of a monthly retirement allowance under this section dies before the total of the retirement allowance paid to the recipient equals the amount of the accumulated contributions at the date of retirement, then the balance shall be paid to the member's estate, or the person or persons, trust, or organization as the recipient has nominated by written designation duly executed and filed with the director, or, if there is no designated person or persons still living at the time of the recipient's death, then to the surviving spouse, or, if there is no designated person or persons still living at the time of his or her death nor a surviving spouse, then to his or her legal representative.

**NEW SECTION. Sec. 106.** Any member or beneficiary eligible to receive a retirement allowance under the provisions of section 103, 105, or 107 of this act shall be eligible to commence receiving a retirement allowance after having filed written application with the department.

(1) Retirement allowances paid to members under the provisions of section 103 of this act shall accrue from the first day of the calendar month immediately following such member's separation from employment.

(2) Retirement allowances paid to vested members no longer in service, but qualifying for such an allowance pursuant to section 103 of this act, shall accrue from the first day of the calendar month immediately following such qualification.

(3) Disability allowances paid to disabled members under the provisions of section 105 of this act shall accrue from the first day of the calendar month immediately following such member's separation from employment for disability.

(4) Retirement allowances paid as death benefits under the provisions of section 107 of this act shall accrue from the first day of the calendar month immediately following the member's death.

**NEW SECTION. Sec. 107.** (1) Except as provided in RCW 11.07.010, if a member or a vested member who has not completed at least ten years of service dies, the amount of the accumulated contributions standing to such member's credit in the retirement system at the time of such member's death, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to the member's estate, or such person or persons, trust, or organization as the member shall have nominated by written designation duly executed and filed with the department. If there be no such designated person or persons still living at the time of the member's death, such member's accumulated contributions standing to such member's credit in the retirement system, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to the member's surviving spouse as if in fact such spouse had been nominated by written designation, or if there be no such surviving spouse, then to such member's legal representatives.

(2) If a member who is eligible for retirement or a member who has completed at least ten years of service dies, the surviving spouse or eligible child or children shall elect to receive either:

(a) A retirement allowance computed as provided for in section 103 of this act, actuarially reduced by the amount of any lump sum benefit identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670 and actuarially adjusted to reflect a joint and one hundred percent survivor option under section 23 of this act and if the member was not eligible for normal retirement at the date of death a further reduction as described in section 103 of this act; if a surviving spouse who is receiving a retirement allowance dies leaving a child or children of the member under the age of majority, then such child or children shall continue to receive an allowance in an amount equal to that which was being received by the surviving spouse, share and share alike, until such child or children reach the age of majority; if there is no surviving spouse eligible to receive an allowance at the time of the member's death, such member's child or children under the age of majority shall receive an allowance, share and share alike, calculated as herein provided making the assumption that the ages of the spouse and member were equal at the time of the member's death; or

(b) The member's accumulated contributions, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670.

(3) If a member who is eligible for retirement or a member who has completed at least ten years of service dies and is not survived by a spouse or an eligible child, then the accumulated contributions standing to the member's credit, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid:

(a) To a person or persons, estate, trust, or organization as the member shall have nominated by written designation duly executed and filed with the department; or

(b) If there is no such designated person or persons still living at the time of the member's death, then to the member's legal representatives.

**NEW SECTION. Sec. 108.** (1) A member who is on a paid leave of absence authorized by a member's employer shall continue to receive service credit as provided for under the provisions of sections 101 through 112 of this act.

(2) A member who receives compensation from an employer while on an authorized leave of absence to serve as an elected official of a labor organization, and whose employer is reimbursed by the labor organization for the compensation paid to the member during the period of absence, may also be considered to be on a paid leave of absence. This subsection shall only apply if the member's leave of absence is authorized by a collective bargaining agreement that provides that the member retains seniority rights with the employer during the period of leave. The compensation earnable reported for

a member who establishes service credit under this subsection may not be greater than the salary paid to the highest paid job class covered by the collective bargaining agreement.

(3) Except as specified in subsection (4) of this section, a member shall be eligible to receive a maximum of two years service credit during a member's entire working career for those periods when a member is on an unpaid leave of absence authorized by an employer. Such credit may be obtained only if:

(a) The member makes both the plan II employer and member contributions plus interest as determined by the department for the period of the authorized leave of absence within five years of resumption of service or prior to retirement whichever comes sooner; or

(b) If not within five years of resumption of service but prior to retirement, pay the amount required under RCW 41.50.165(2).

The contributions required under (a) of this subsection shall be based on the average of the member's compensation earnable at both the time the authorized leave of absence was granted and the time the member resumed employment.

(4) A member who leaves the employ of an employer to enter the armed forces of the United States shall be entitled to retirement system service credit for up to five years of military service. This subsection shall be administered in a manner consistent with the requirements of the federal uniformed services employment and reemployment rights act.

(a) The member qualifies for service credit under this subsection if:

(i) Within ninety days of the member's honorable discharge from the United States armed forces, the member applies for reemployment with the employer who employed the member immediately prior to the member entering the United States armed forces; and

(ii) The member makes the employee contributions required under section 104 of this act within five years of resumption of service or prior to retirement, whichever comes sooner; or

(iii) Prior to retirement and not within ninety days of the member's honorable discharge or five years of resumption of service the member pays the amount required under RCW 41.50.165(2).

(b) Upon receipt of member contributions under (a)(ii) of this subsection, the department shall establish the member's service credit and shall bill the employer for its contribution required under section 104 of this act for the period of military service, plus interest as determined by the department.

(c) The contributions required under (a)(ii) of this subsection shall be based on the compensation the member would have earned if not on leave, or if that cannot be estimated with reasonable certainty, the compensation reported for the member in the year prior to when the member went on military leave.

**NEW SECTION. Sec. 109.** A member who separates or has separated after having completed at least five years of service may remain a member during the period of such member's absence from service for the exclusive purpose only of receiving a retirement allowance under the provisions of section 103 of this act if such member maintains the member's accumulated contributions intact.

**NEW SECTION. Sec. 110.** A member who ceases to be an employee of an employer except by service or disability retirement may request a refund of the member's accumulated contributions. The refund shall be made within ninety days following the receipt of the request and notification of termination through the contribution reporting system by the employer; except that in the case of death, an initial payment shall be made within thirty days of receipt of request for such payment and notification of termination through the contribution reporting system by the employer. A member who files a request for refund and subsequently enters into employment with another employer prior to the refund being made shall not be eligible for a refund. The refund of accumulated contributions shall terminate all rights to benefits under sections 101 through 112 of this act.

**NEW SECTION. Sec. 111.** (1) A member, who had left service and withdrawn the member's accumulated contributions, shall receive service credit for such prior service if the member restores all withdrawn accumulated contributions together with interest since the time of withdrawal as determined by the department.

The restoration of such funds must be completed within five years of the resumption of service or prior to retirement, whichever occurs first.

(2) If a member fails to meet the time limitations of subsection (1) of this section, the member may receive service credit destroyed by the withdrawn contributions if the amount required under RCW 41.50.165(2) is paid.

NEW SECTION. **Sec. 112.** Sections 101 through 111 and 114 of this act apply only to plan II members.

NEW SECTION. **Sec. 113.** A new section is added to chapter 41.40 RCW to read as follows:

(1) Effective September 1, 2000, the membership of all plan II members currently employed in eligible positions in a school district or educational service district and all plan II service credit for such members, is transferred to the Washington school employees' retirement system plan II. Plan II members who have withdrawn their member contributions for prior plan II service may restore contributions and service credit to the Washington school employees' retirement system plan II as provided under RCW 41.40.740.

(2) The membership and previous service credit of a plan II member not employed in an eligible position on September 1, 2000, will be transferred to the Washington school employees' retirement system plan II when he or she becomes employed in an eligible position. Plan II members not employed in an eligible position on September 1, 2000, who have withdrawn their member contributions for prior plan II service may restore contributions and service credit to the Washington school employees' retirement system plan II as provided under RCW 41.40.740.

(3) Members who restore contributions and service credit under subsection (1) or (2) of this section shall have their contributions and service credit transferred to the Washington school employees' retirement system.

NEW SECTION. **Sec. 114.** (1) Every plan II member employed by an employer in an eligible position has the option to make an irrevocable transfer to plan III.

(2) All service credit in plan II shall be transferred to the defined benefit portion of plan III.

(the obligee) . . . . . dollars from such payments or . . . percent of such payments. If the obligor's debt is expressed as a percentage of his or her periodic retirement payment and the obligee does not have a survivorship interest in the obligor's benefit, the amount received by the obligee shall be the percentage of the periodic retirement payment that the obligor would have received had he or she selected a standard allowance.

If . . . . . (the obligor) requests or has requested a withdrawal of accumulated contributions as defined in RCW 41.50.500, or becomes eligible for a lump sum death benefit, the department of retirement systems shall pay to . . . . . (the obligee) . . . . . dollars plus interest at the rate paid by the department of retirement systems on member contributions. If the department is required to withhold a portion of the member's benefit pursuant to 26 U.S.C. Sec. 3402 and the sum of that amount plus the amount owed to the obligee exceeds the total benefit, the department shall satisfy the withholding requirements under 26 U.S.C. Sec. 3402 and then pay the remainder to the obligee. The provisions of this subsection do not apply to amounts withheld pursuant to 26 U.S.C. Sec. 3402(i).

The survivor benefit designated in the dissolution order must be consistent with the survivor benefit options authorized by statute or administrative rule.

(2) The obligee's entitlement to a survivor benefit pursuant to a dissolution order filed with the department in compliance with subsection (1) of this section shall cease upon the death of the obligee.

(3)(a) A subsequent dissolution order may order the department to divide a survivor benefit between a survivor beneficiary and an alternate payee. In order to divide a survivor benefit between more than one payee, the dissolution order must:

(i) Be ordered by a court of competent jurisdiction following notice to the survivor beneficiary;

(ii) Contain a provision that complies with subsection (1) of this section designating the survivor beneficiary;

(iii) Contain a provision clearly identifying the alternate payee or payees; and

(iv) Specify the proportional division of the benefit between the survivor beneficiary and the alternate payee or payees.

(b) The department will calculate actuarial adjustment for the court-ordered survivor benefit based upon the life of the survivor beneficiary.

(c) If the survivor beneficiary dies, the department shall terminate the benefit. If the alternate payee predeceases the survivor beneficiary, all entitlement of the alternate payee to a benefit ceases and the entire benefit will revert to the survivor beneficiary.

(d) For purposes of this section, "survivor beneficiary" means:

(i) The obligee designated in the provision of dissolution filed in compliance with subsection (1) of this section; or

(ii) In the event of more than one dissolution order, the obligee named in the first decree of dissolution received by the department.

(5) If a dissolution order directing designation of a survivor beneficiary has been previously filed with the department in compliance with this section, no additional obligation shall arise on the part of the department upon filing of a subsequent dissolution order unless the subsequent dissolution order:

(a) Specifically amends or supersedes the dissolution order already on file with the department; and

(b) Is filed with the department by registered or certified mail at least thirty days prior to the member's retirement.

(6) The department shall designate a court-ordered survivor beneficiary pursuant to a dissolution order filed with the department before June 6, 1996, only if the order:

(a) Specifically directs the member or department to make such selection;

(b) Specifies the survivor option to be selected; and

(c) The member retires after June 6, 1996.

The committee shall create collector art prints and related artwork, utilizing the same design as provided to the department. The administration, sale, distribution, and other matters relating to the prints and sales of stamps with prints and related artwork shall be the responsibility of the migratory waterfowl art committee.

The costs of producing and marketing of prints and related artwork, including administrative expenses mutually agreed upon by the committee and the director, shall be paid out of the total amount brought in from sales of those same items. Net funds derived from the sale of prints and related artwork shall be used by the director to contract with one or more appropriate individuals or nonprofit organizations for the development of waterfowl propagation projects within Washington which specifically provide waterfowl for the Pacific flyway. The department shall not contract with any individual or organization that obtains compensation for allowing waterfowl hunting except if the individual or organization does not permit hunting for compensation on the subject property.

SSB 6420 Prime Sponsor, Senate Committee on Commerce & Labor: Allowing an application for initial determination to be in writing or in another form determined by the commissioner of the employment security department. Reported by Committee on Commerce & Labor

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that the shift by the employment security department from in-person written initial applications for unemployment insurance benefits to a call center approach creates opportunities for improved service but also raises serious concerns. Eliminating face-to-face contact may increase the potential for fraud and reduce the probability that claimants will utilize existing reemployment resources. Therefore, it is the intent of the legislature that if the written application process is to be eliminated, the employment security department must ensure that unemployment insurance claimants remain actively involved in reemployment activities and that an independent evaluation be conducted of the call center approach to unemployment insurance.

**Sec. 2.** RCW 50.20.140 and 1951 c 215 s 4 are each amended to read as follows:

An application for initial determination, a claim for waiting period, or a claim for benefits shall be filed in accordance with such ~~((regulations))~~ rules as the commissioner may prescribe. An application for an initial determination may be made by any individual whether unemployed or not. Each employer shall post and maintain printed statements of such ~~((regulations))~~ rules in places readily accessible to individuals in his or her employment and shall make available to each such individual at the time he or she becomes unemployed, a printed statement of such ~~((regulations))~~ rules and such notices, instructions, and other material as the commissioner may by ~~((regulation))~~ rule prescribe. Such printed material shall be supplied by the commissioner to each employer without cost to ~~((him))~~ the employer.

The term "application for initial determination" shall mean a request in writing, or by other means as determined by the commissioner, for an initial determination. The term "claim for waiting period" shall mean a certification, after the close of a given week, that the requirements stated herein for eligibility for waiting period have been met. The term "claim for benefits" shall mean a certification, after the close of a given week, that the requirements stated herein for eligibility for receipt of benefits have been met.

A representative designated by the commissioner shall take the application for initial determination and for the claim for waiting period credits or for benefits. When an application for initial determination has been made, the employment security department shall promptly make an initial determination which shall be a statement of the applicant's base year wages, his or her weekly benefit amount, his or her maximum amount of benefits potentially payable, and his or her benefit year. Such determination shall fix the general conditions under which waiting period credit shall be

granted and under which benefits shall be paid during any period of unemployment occurring within the benefit year fixed by such determination.

**NEW SECTION. Sec. 3.** A new section is added to chapter 50.20 RCW to read as follows:

The employment security department will ensure that within a reasonably short period of time after the initiation of benefits, all unemployment insurance claimants, except those with employer attachment, union referral, in commissioner approved training, or the subject of antiharassment orders, register for job search in an electronic labor exchange system that supports direct employer access for the purpose of selecting job applicants.

**NEW SECTION. Sec. 4.** A new section is added to chapter 50.20 RCW to read as follows:

To ensure that following the initial application for benefits, an individual is actively engaged in searching for work, effective July 1, 1999, the employment security department shall implement a job search monitoring program. Except for those individuals with employer attachment or union referral, and individuals in commissioner-approved training, an individual who has received five or more weeks of benefits under this title must provide evidence of seeking work, as directed by the commissioner or commissioner's agents, for each week beyond five in which a claim is filed. The evidence must demonstrate contacts with at least three employers per week or documented in-person job search activity at the local reemployment center. In developing the requirements for the job search monitoring program, the commissioner or the commissioner's agents shall utilize an existing advisory committee having equal representation of employers and workers.

**NEW SECTION. Sec. 5.** (1) The joint legislative audit and review committee, in consultation with members of the senate and house of representatives commerce and labor committees and the unemployment insurance advisory committee, shall conduct an evaluation of the new call center approach to unemployment insurance. The evaluation shall review the performance of the call center system, including, but not limited to, the: (a) Promptness of payments; (b) number and types of errors; (c) amount and types of fraud; and (d) level of overpayments and underpayments, compared with the current system.

(2) The joint legislative audit and review committee is directed to contract with a private entity consistent with the provisions of chapter 39.29 RCW. The committee shall consult with the unemployment insurance advisory committee in the design of the request for proposals from potential contractors and shall use the advisory committee to evaluate the responses. The joint legislative audit and review committee shall provide a report on its findings and recommendations to the appropriate standing committee of the senate and house of representatives by September 1, 2001.

**NEW SECTION. Sec. 6.** The employment security department is authorized to expend funds provided under RCW 50.24.014(1)(b) for the purposes of the evaluation provided for in section 5 of this act.

**Sec. 7.** RCW 50.24.014 and 1994 c 187 s 3 are each amended to read as follows:

(1)(a) A separate and identifiable account to provide for the financing of special programs to assist the unemployed is established in the administrative contingency fund. Contributions to this account shall accrue and become payable by each employer, except employers as described in RCW 50.44.010 and 50.44.030 who have properly elected to make payments in lieu of contributions, taxable local government employers as described in RCW 50.44.035, and those employers who are required to make payments in lieu of contributions, at a basic rate of two one-hundredths of one percent. The amount of wages subject to tax shall be determined under RCW 50.24.010.

(b) For the first calendar quarter of 1994 only, the basic two one-hundredths of one percent contribution payable under (a) of this subsection shall be increased by one-hundredth of one percent to a total rate of three one-hundredths of one percent. The proceeds of this incremental one-hundredth of one percent shall be used solely for the purposes described in section 22, chapter 483, Laws of 1993, and for the purposes ~~((described in RCW 50.40.060))~~ of conducting an evaluation of the call center

approach to unemployment insurance under section 5 of this act. Any surplus from contributions payable under this subsection (b) will be deposited in the unemployment compensation trust fund.

(2)(a) Contributions under this section shall become due and be paid by each employer under rules as the commissioner may prescribe, and shall not be deducted, in whole or in part, from the remuneration of individuals in the employ of the employer. Any deduction in violation of this section is unlawful.

(b) In the payment of any contributions under this section, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

(3) If the commissioner determines that federal funding has been increased to provide financing for the services specified in chapter 50.62 RCW, the commissioner shall direct that collection of contributions under this section be terminated on the following January 1st."

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 50.04.320 and 1995 c 296 s 1 are each amended to read as follows:

(1) For the purpose of payment of contributions, "wages" means the remuneration paid by one employer during any calendar year to an individual in its employment under this title or the unemployment compensation law of any other state in the amount specified in RCW 50.24.010. If an employer (hereinafter referred to as a successor employer) during any calendar year acquires substantially all the operating assets of another employer (hereinafter referred to as a predecessor employer) or assets used in a separate unit of a trade or business of a predecessor employer, and immediately after the acquisition employs in the individual's trade or business an individual who immediately before the acquisition was employed in the trade or business of the predecessor employer, then, for the purposes of determining the amount of remuneration paid by the successor employer to the individual during the calendar year which is subject to contributions, any remuneration paid to the individual by the predecessor employer during that calendar year and before the acquisition shall be considered as having been paid by the successor employer.

(2) For the purpose of payment of benefits, "wages" means the remuneration paid by one or more employers to an individual for employment under this title during his base year: PROVIDED, That at the request of a claimant, wages may be calculated on the basis of remuneration payable. The department shall notify each claimant that wages are calculated on the basis of remuneration paid, but at the claimant's request a redetermination may be performed and based on remuneration payable.

(3) For the purpose of payment of benefits and payment of contributions, the term "wages" includes tips which are received after January 1, 1987, while performing services which constitute employment, and which are reported to the employer for federal income tax purposes.

(4)(a) "Remuneration" means all compensation paid for personal services including commissions and bonuses and the cash value of all compensation paid in any medium other than cash. The reasonable cash value of compensation paid in any medium other than cash and the reasonable value of gratuities shall be estimated and determined in accordance with rules prescribed by the commissioner. Remuneration does not include payments to members of a reserve component of the armed forces of the United States, including the organized militia of the state of Washington, for the performance of duty for periods not exceeding seventy-two hours at a time.

(b) Previously accrued compensation, other than severance pay or payments received pursuant to plant closure agreements, when assigned to a specific period of time by virtue of a collective bargaining agreement, individual employment contract, customary trade practice, or request of the individual compensated, shall be considered remuneration for the period to which it is assigned. Assignment clearly occurs when the compensation serves to make the individual eligible for all regular fringe benefits for the period to which the compensation is assigned.

(c) Settlements or other proceeds received by an individual as a result of a negotiated settlement for termination of an individual written employment contract (~~((with a public agency))~~) prior to its expiration date shall be considered remuneration. The proceeds shall be deemed assigned in the same intervals and in the same amount for each interval as compensation was allocated under the contract.

(d) Except as provided in (c) of this subsection, the provisions of this subsection (4) pertaining to the assignment of previously accrued compensation shall not apply to individuals subject to RCW 50.44.050.

NEW SECTION. Sec. 2. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state or the eligibility of employers in this state for federal unemployment tax credits, the conflicting part of this act is inoperative solely to the extent of the conflict, and the finding or determination does not affect the operation of the remainder of this act. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state or the granting of federal unemployment tax credits to employers in this state.

NEW SECTION. Sec. 3. ESSB 6431 Prime Sponsor, Senate Committee on Law & Justice: Providing for impoundment and forfeiture of vehicles operated by persons driving a vehicle or in actual physical control of a vehicle while under the influence of intoxicating liquor. Reported by Committee on Law & Justice

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that in 1996 drunk drivers were involved in two hundred eighty-five fatal accidents killing three hundred thirty-one people and six thousand four hundred fifty injury accidents injuring ten thousand three hundred twenty-six people. The legislature has increased criminal penalties, including longer mandatory minimum jail sentences and fines, in order to punish and deter drunk driving. In addition to criminal sanctions, however, the legislature finds that authorizing the immediate impoundment of vehicles driven by drunk drivers is reasonably necessary to increase traffic safety and reduce the carnage caused by drunk driving. A number of studies in states that have adopted impound laws have found them effective in reducing drunk driving and related fatalities. Repeat drunk drivers are more likely to continue to reoffend and are substantially more likely to cause a fatal collision than first-time offenders. Temporary impoundment for first-time offenders will reduce drunk drivers' access to vehicles and help both prevent and deter drunk driving. The impoundment of a vehicle operated in violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, is intended to be a civil in rem action against the vehicle in order to remove it from the public highways and reduce the risk posed to traffic safety by a vehicle accessible to a driver who is reasonably believed to have violated these laws.

**Sec. 2.** RCW 46.55.113 and 1997 c 66 s 7 are each amended to read as follows:

Whenever the driver of a vehicle is arrested for a violation of RCW 46.61.502 or 46.61.504, ~~or of RCW 46.61.520 or 46.61.522 if committed while under the influence, the ((arresting officer may take custody of the vehicle and provide for its prompt removal to a place of safety))~~ vehicle is subject to impoundment, pursuant to applicable local ordinance or state agency rule at the direction of a law enforcement officer. In addition, a police officer may take custody of a vehicle and provide for its prompt removal to a place of safety under any of the following circumstances:

- (1) Whenever a police officer finds a vehicle standing upon the roadway in violation of any of the provisions of RCW 46.61.560, the officer may provide for the removal of the vehicle or require the driver or other person in charge of the vehicle to move the vehicle to a position off the roadway;
- (2) Whenever a police officer finds a vehicle unattended upon a highway where the vehicle constitutes an obstruction to traffic or jeopardizes public safety;
- (3) Whenever a police officer finds an unattended vehicle at the scene of an accident or when the driver of a vehicle involved in an accident is physically or mentally incapable of deciding upon steps to be taken to protect his or her property;
- (4) Whenever the driver of a vehicle is arrested and taken into custody by a police officer;
- (5) Whenever a police officer discovers a vehicle that the officer determines to be a stolen vehicle;
- (6) Whenever a vehicle without a special license plate, card, or decal indicating that the vehicle is being used to transport a disabled person under RCW 46.16.381 is parked in a stall or space clearly and conspicuously marked under RCW 46.61.581 which space is provided on private property without charge or on public property;
- (7) Upon determining that a person is operating a motor vehicle without a valid driver's license in violation of RCW 46.20.005 or with a license that has been expired for ninety days or more, or with a suspended or revoked license in violation of RCW 46.20.342 or 46.20.420.

Nothing in this section may derogate from the powers of police officers under the common law. For the purposes of this section, a place of safety may include the business location of a registered tow truck operator.

**Sec. 3.** RCW 46.55.120 and 1996 c 89 s 2 are each amended to read as follows:

(1) Vehicles or other items of personal property registered or titled with the department that are impounded by registered tow truck operators pursuant to RCW 46.55.080, 46.55.085, or 46.55.113 may be redeemed only under the following circumstances:

(a) Only the legal owner, the registered owner, a person authorized in writing by the registered owner or the vehicle's insurer, a person who is determined and verified by the operator to

have the permission of the registered owner of the vehicle or other item of personal property registered or titled with the department, or one who has purchased a vehicle or item of personal property registered or titled with the department from the registered owner who produces proof of ownership or written authorization and signs a receipt therefor, may redeem an impounded vehicle or items of personal property registered or titled with the department. In addition, any person redeeming a vehicle impounded because the driver was arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, must prior to redemption establish with the agency that ordered the vehicle impounded that he or she has a valid driver's license and is in compliance with RCW 46.30.020. A vehicle impounded because the driver is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, may be released only pursuant to a written order from the agency that ordered the vehicle impounded, or pursuant to a provision of an applicable state agency rule or local ordinance authorizing release on the basis of economic or personal hardship to the spouse of the operator, taking into consideration public safety factors, including the operator's criminal history and driving record. If a vehicle is impounded because the operator is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, the vehicle may be held at the written direction of the agency ordering the vehicle impounded for up to thirty days if the operator has no prior offense as defined in RCW 46.61.5055(8), for up to sixty days if the operator has one such prior offense, and for up to ninety days if the operator has two or more such prior offenses. If a vehicle is impounded because the operator is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, the vehicle may not be released until a person eligible to redeem it pays all towing, removal, and storage fees, notwithstanding the fact that the impoundment was ordered by a government agency.

(b) The vehicle or other item of personal property registered or titled with the department shall be released upon the presentation to any person having custody of the vehicle of commercially reasonable tender sufficient to cover the costs of towing, storage, or other services rendered during the course of towing, removing, impounding, or storing any such vehicle. Commercially reasonable tender shall include, without limitation, cash, major bank credit cards, or personal checks drawn on in-state banks if accompanied by two pieces of valid identification, one of which may be required by the operator to have a photograph. If the towing firm can determine through the customer's bank or a check verification service that the presented check would not be paid by the bank or guaranteed by the service, the towing firm may refuse to accept the check. Any person who stops payment on a personal check or credit card, or does not make restitution within ten days from the date a check becomes insufficient due to lack of funds, to a towing firm that has provided a service pursuant to this section or in any other manner defrauds the towing firm in connection with services rendered pursuant to this section shall be liable for damages in the amount of twice the towing and storage fees, plus costs and reasonable attorney's fees.

(2)(a) The registered tow truck operator shall give to each person who seeks to redeem an impounded vehicle, or item of personal property registered or titled with the department, written notice of the right of redemption and opportunity for a hearing, which notice shall be accompanied by a form to be used for requesting a hearing, the name of the person or agency authorizing the impound, and a copy of the towing and storage invoice. The registered tow truck operator shall maintain a record evidenced by the redeeming person's signature that such notification was provided.

(b) Any person seeking to redeem an impounded vehicle under this section has a right to a hearing in the district or municipal court for the jurisdiction in which the vehicle was impounded to contest the validity of the impoundment or the amount of towing and storage charges. The district court has jurisdiction to determine the issues involving all impoundments including those authorized by the state or its agents. The municipal court has jurisdiction to determine the issues involving impoundments authorized by agents of the municipality. Any request for a hearing shall be made in writing on the form provided for that purpose and must be received by the district or municipal court within ten days of the date the opportunity was provided for in subsection (2)(a) of this section. At the time of the filing of the hearing request, the petitioner shall pay to the court clerk a filing fee in the same amount required for the filing of a suit in the small claims department of a district court. If the hearing request is not received by the district or municipal court within the ten-day period, the right to

a hearing is waived and the registered owner is liable for any towing, storage, or other impoundment charges permitted under this chapter. Upon receipt of a timely hearing request, the ((~~district~~)) court shall proceed to hear and determine the validity of the impoundment.

(3)(a) The ((~~district~~)) court, within five days after the request for a hearing, shall notify the registered tow truck operator, the person requesting the hearing if not the owner, the registered and legal owners of the vehicle or other item of personal property registered or titled with the department, and the person or agency authorizing the impound in writing of the hearing date and time.

(b) At the hearing, the person or persons requesting the hearing may produce any relevant evidence to show that the impoundment, towing, or storage fees charged were not proper. The court ((~~may~~)) shall consider a written report made under oath by the officer who authorized the impoundment in lieu of the officer's personal appearance at the hearing.

(c) At the conclusion of the hearing, the ((~~district~~)) court shall determine whether the impoundment was proper, whether the towing or storage fees charged were in compliance with the posted rates, and who is responsible for payment of the fees. The court may not adjust fees or charges that are in compliance with the posted or contracted rates.

(d) If the impoundment is found proper, the impoundment, towing, and storage fees as permitted under this chapter together with court costs shall be assessed against the person or persons requesting the hearing, unless the operator did not have a signed and valid impoundment authorization from a private property owner or an authorized agent.

(e) If the impoundment is determined to be in violation of this chapter, then the registered and legal owners of the vehicle or other item of personal property registered or titled with the department shall bear no impoundment, towing, or storage fees, and any security shall be returned or discharged as appropriate, and the person or agency who authorized the impoundment shall be liable for any towing, storage, or other impoundment fees permitted under this chapter. The court shall enter judgment in favor of the registered tow truck operator against the person or agency authorizing the impound for the impoundment, towing, and storage fees paid. In addition, the court shall enter judgment in favor of the registered and legal owners of the vehicle, or other item of personal property registered or titled with the department, for the amount of the filing fee required by law for the impound hearing petition as well as reasonable damages for loss of the use of the vehicle during the time the same was impounded, for not less than fifty dollars per day, against the person or agency authorizing the impound. However, if an impoundment arising from an alleged violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, is determined to be in violation of this chapter, then the law enforcement officer directing the impoundment and the government employing the officer are not liable for damages if the officer had probable cause to believe the driver of the vehicle was in violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence. If any judgment entered is not paid within fifteen days of notice in writing of its entry, the court shall award reasonable attorneys' fees and costs against the defendant in any action to enforce the judgment. Notice of entry of judgment may be made by registered or certified mail, and proof of mailing may be made by affidavit of the party mailing the notice. Notice of the entry of the judgment shall read essentially as follows:

(4) Any impounded abandoned vehicle or item of personal property registered or titled with the department that is not redeemed within fifteen days of mailing of the notice of custody and sale as required by RCW 46.55.110(2) shall be sold at public auction in accordance with all the provisions

and subject to all the conditions of RCW 46.55.130. A vehicle or item of personal property registered or titled with the department may be redeemed at any time before the start of the auction upon payment of the applicable towing and storage fees.

**NEW SECTION. Sec. 4.** A new section is added to chapter 46.55 RCW to read as follows:

(1) This section applies to any impoundment of a vehicle when a driver is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, as provided for in RCW 46.55.113 and 46.55.120.

(2) Any local government ordinance or state agency rule that provides for impoundment and redemption of vehicles may allow for alternative home impoundment of vehicles for all or part of the impoundment periods authorized in RCW 46.55.120. Home impoundment is an alternative to impoundment by a registered tow truck operator. Home impoundment consists of removing a vehicle to the registered owner's residence or other property, or to another place authorized by the ordinance or rule, and placing a boot or other device on the vehicle to render it immobile. The jurisdiction authorizing home impoundment may charge a reasonable rental fee for the use of the boot or other device during the period of home impoundment. The local government ordinance or state agency rule may provide that the owner or driver of the vehicle may elect whether to be subject to impoundment under RCW 46.55.120 or home impoundment under this section.

(3) Before any home impoundment is begun, the vehicle must be redeemed as provided for in RCW 46.55.120 if any impoundment has occurred under that section, and any towing fee incurred in getting the vehicle to the place of home impoundment must be paid.

(4) At the end of the period of home impoundment, the vehicle may be released only after all rental fees have been paid and only to a person who would qualify to redeem an impounded vehicle under RCW 46.55.120.

(5) A local ordinance or state agency rule may provide for impoundment by a registered tow truck operator if at the end of the period of home impoundment there is no qualified person to whom the vehicle may be released.

(6) A local ordinance or state agency rule may provide that if the boot or other device on a vehicle in home impoundment is tampered with, damaged, removed, or rendered inoperative, the vehicle may be released only upon payment of all applicable rental fees plus payment of a fee equal to the impoundment costs that would have been incurred had the vehicle been impounded under RCW 46.55.120 during the period of home impoundment.

**Sec. 5.** RCW 46.12.095 and 1969 ex.s. c 170 s 16 are each amended to read as follows:

A security interest in a vehicle other than one held as inventory by a manufacturer or a dealer and for which a certificate of ownership is required is perfected only by compliance with the requirements of section 7 of this act under the circumstances provided for therein or by compliance with the requirements of this section:

(1) A security interest is perfected (~~(only)~~) by the department's receipt of: (a) The existing certificate, if any, and (b) an application for a certificate of ownership containing the name and address of the secured party, and (c) tender of the required fee.

(2) It is perfected as of the time of its creation: (a) If the papers and fee referred to in (~~(the preceding)~~) subsection (1) of this section are received by this department within (~~(eight department business)~~) twenty calendar days (~~(exclusive)~~) of the day on which the security agreement was created; or (b) if the secured party's name and address appear on the outstanding certificate of ownership; otherwise, as of the date on which the department has received the papers and fee required in subsection (1) of this section.

(3) If a vehicle is subject to a security interest when brought into this state, perfection of the security interest is determined by the law of the jurisdiction where the vehicle was when the security interest was attached, subject to the following:

(a) If the security interest was perfected under the law of the jurisdiction where the vehicle was when the security interest was attached, the following rules apply:

(b) If the name of the secured party is shown on the existing certificate of ownership issued by that jurisdiction, the security interest continues perfected in this state. The name of the secured party

shall be shown on the certificate of ownership issued for the vehicle by this state. The security interest continues perfected in this state upon the issuance of such ownership certificate.

(c) If the security interest was not perfected under the law of the jurisdiction where the vehicle was when the security interest was attached, it may be perfected in this state; in that case, perfection dates from the time of perfection in this state.

**Sec. 6.** RCW 46.12.101 and 1991 c 339 s 19 are each amended to read as follows:

A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. ~~((Within five days, excluding Saturdays, Sundays, and state and federal holidays,))~~ The owner shall notify the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, the license plate number, or both, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b).

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW ~~((46.12.120))~~ 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

- (a) The department requesting additional supporting documents;
- (b) Extended hospitalization or illness of the purchaser;
- (c) Failure of a legal owner to release his or her interest;
- (d) Failure, negligence, or nonperformance of the department, auditor, or subagent.

Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor.

(7) Upon receipt of an application for reissue or replacement of a certificate of ownership and transfer of license registration, accompanied by the endorsed certificate of ownership or other documentary evidence as is deemed necessary, the department shall, if the application is in order and if all provisions relating to the certificate of ownership and license registration have been complied with, issue new certificates of title and license registration as in the case of an original issue and shall transmit the fees together with an itemized detailed report to the state treasurer, to be deposited in the motor vehicle fund.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place.

NEW SECTION. **Sec. 7.** A new section is added to chapter 46.12 RCW to read as follows:

(1) The purpose of a transitional ownership record is to enable a security interest in a motor vehicle to be perfected in a timely manner when the certificate of ownership is not available at the time the security interest is created, and to provide for timely notification to security interest holders under chapter 46.55 RCW.

(2) A transitional ownership record is only acceptable as an ownership record for vehicles currently stored on the department's computer system and if the certificate of ownership or other authorized proof of ownership for the motor vehicle:

(a) Is not in the possession of the selling vehicle dealer or new security interest holder at the time the transitional ownership record is submitted to the department; and

(b) To the best of the knowledge of the selling dealer or new security interest holder, the certificate of ownership will not be received for submission to the department within twenty calendar days of the date of sale of the vehicle, or if no sale is involved, within twenty calendar days of the date the security agreement or contract is executed.

(3) A person shall submit the transitional ownership record to the department or to any of its agents or subagents. Agents and subagents shall immediately electronically transmit the transitional ownership records to the department. A transitional ownership document processed and recorded by an agent or subagent may be subject to fees as specified in RCW 46.01.140(4)(a) or (5)(b).

(4) "Transitional ownership record" means a record containing all of the following information:

(a) The date of sale;

(b) The name and address of each owner of the vehicle;

(c) The name and address of each security interest holder;

(d) If there are multiple security interest holders, the priorities of interest if the security interest holders do not jointly hold a single security interest;

(e) The vehicle identification number, the license plate number, if any, the year, make, and model of the vehicle;

(f) The name of the selling dealer or security interest holder who is submitting the transitional ownership record; and

(g) The transferee's driver's license number, if available.

(5) The report of sale form prescribed or approved by the department under RCW 46.12.101 may be used by a vehicle dealer as the transitional ownership record.

(6) Notwithstanding RCW 46.12.095 (1) and (2), compliance with the requirements of this section shall result in perfection of a security interest in the vehicle as of the time the security interest was created. Upon receipt of the certificate of ownership for the vehicle, or upon receipt of written confirmation that only an electronic record of ownership exists or that the certificate of ownership has been lost or destroyed, the selling dealer or new security interest holder shall promptly submit the same to the department together with an application for a new certificate of ownership containing the name and address of the secured party and tender the required fee as provided in RCW 46.12.095(1)."

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds and declares that a contracting procedure that facilitates construction of transportation facilities in a more timely manner may occasionally be needed to ensure that construction can proceed simultaneously with the design of the facility.

NEW SECTION. **Sec. 2.** The department of transportation shall develop, by January 1, 1999, a process for awarding competitively bid highway construction contracts for projects over ten million dollars that may be constructed using a design-build procedure. As used in this section, "design-build procedure" means a method of contracting under which the department of transportation contracts with another party for such party to both design and build the structures, facilities, and other items specified in the contract.

The process developed by the department shall, at a minimum, include the scope of services required under the design-build procedure, contractor prequalification requirements, criteria for evaluating technical information and project costs, contractor selection criteria, and an issue resolution procedure. If a request for proposal will be used, the requirements of RCW 39.10.050 (4), (5), and (6) apply.

NEW SECTION. **Sec. 3.** RCW 39.10.080, 39.10.090, and 39.10.100 and the notice requirements of RCW 39.10.030 (2), (3), and (4) apply to this act.

NEW SECTION. **Sec. 4.** The department may use the design-build procedure for public works projects over ten million dollars where:

(1) The construction activities are highly specialized and a design-build approach, as defined in section 2 of this act, is critical in developing the construction methodology; or

(2) The projects selected provide opportunity for greater innovation and efficiencies between the designer and the builder; or

(3) Significant savings in project delivery time would be realized.

NEW SECTION. **Sec. 5.** Sureties are not responsible for damages, including corrective work, attributable to the design aspect of a design-build project.

NEW SECTION. **Sec. 6.** A demonstration program consisting of two projects must be implemented using the design-build method of contracting, as prescribed under a process developed by the department of transportation under section 2 of this act. The department shall select projects valued over ten million dollars for the demonstration program.

The department shall present progress reports on the demonstration projects to the legislative transportation committee and the alternative public works oversight committee during the course of the performance of the demonstration projects. The department shall present a final detailed report to the legislative transportation committee within one year of completion of the demonstration projects. The report must detail the advantages and disadvantages of the design-build construction process and make recommendations for possible changes in law, and in how the process may be used for future department projects.

NEW SECTION. **Sec. 7.** This act expires April 30, 2001, unless extended by the legislature."

E2SSB 6445 Prime Sponsor, Senate Committee on Ways & Means: Modifying provisions relating to children placed in community facilities. Reported by Committee on Criminal Justice & Corrections

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** It is the intent of the legislature to:

(1) Enhance public safety and maximize the rehabilitative potential of juvenile offenders through modifications to licensed community residential placements for juveniles;

(2) Ensure community support for community facilities by enabling community participation in decisions involving these facilities and assuring the safety of communities in which community facilities for juvenile offenders are located; and

(3) Improve public safety by strengthening the safeguards in placement, oversight, and monitoring of the juvenile offenders placed in the community, and by establishing minimum standards for operation of licensed residential community facilities. The legislature finds that community support and participation is vital to the success of community programming.

**Sec. 2.** RCW 72.05.020 and 1979 c 141 s 178 are each amended to read as follows:

As used in this chapter, unless the context requires otherwise:

(1) "Community facility" means a group care facility operated for the care of juveniles committed to the department under RCW 13.40.185. A county detention facility that houses juveniles committed to the department under RCW 13.40.185 pursuant to a contract with the department is not a community facility.

(1) No person may distribute a ~~((commercial))~~ bulk fertilizer in this state ~~((, except packaged fertilizers,))~~ until a license to distribute has been obtained by that person. An annual license is required for each out-of-state or in-state location that distributes ~~((nonpackaged commercial))~~ bulk fertilizer in Washington state. An application for each location shall be filed on forms provided by the master license system and shall be accompanied by an annual fee of twenty-five dollars per location. The license shall expire on the master license expiration date.

(2) An application for license shall include the following:

(a) The name and address of licensee.

(b) Any other information required by the department by rule.

(3) The name and address shown on the license shall be shown on all labels, pertinent invoices, and storage facilities for fertilizer distributed by the licensee in this state.

(4) If an application for license renewal provided for in this section is not filed prior to ~~((the))~~ the master license expiration date, a delinquency fee of twenty-five dollars shall be assessed and added to the original fee and shall be paid by the applicant before the renewal license shall be issued. The assessment of this delinquency fee shall not prevent the department from taking any other action as provided for in this chapter. The penalty shall not apply if the applicant furnishes an affidavit that he or she has not distributed this commercial fertilizer subsequent to the expiration of his or her prior license.

**Sec. 4.** RCW 15.54.325 and 1993 c 183 s 3 are each amended to read as follows:

(1) No person may distribute in this state a ~~((packaged))~~ commercial fertilizer until it ~~((is))~~ has been registered with the department by the ~~((distributor whose name appears on the label))~~ producer, importer, or packager of that product. A bulk fertilizer does not require registration if all commercial fertilizer products contained in the final product are registered.

All customer-formula fertilizers sold under one brand name shall be considered one product. (~~Upon the approval of an application by the department, a copy of the registration shall be furnished to the applicant. All registrations expire on June 30th of each year except that for the period beginning January 1, 1994, the registration shall expire on June 30, 1995.~~)

~~(2))~~ (3) An application for registration shall include the following:

(g) Identification of the fertilizer components in the commercial fertilizer product and verification that all the components are registered. If any of the components are not registered, then the application must include the concentration of each metal in each fertilizer component, for which standards are established under RCW 15.54.800;

(h) Waste-derived fertilizers and micronutrient fertilizers shall include at a minimum, information to ensure the product complies with chapter 70.105 RCW and the resource conservation and recovery act, 42 U.S.C. Sec. 6901 et seq.; and

~~((3))~~ (4) If an application for renewal of the product registration provided for in this section is not filed prior to July 1st of any one year, a penalty of ten dollars per product shall be assessed and added to the original fee and shall be paid by the applicant before the renewal registration shall be issued. The assessment of this late collection fee shall not prevent the department from taking any other action as provided for in this chapter. The penalty shall not apply if the applicant furnishes an affidavit that he or she has not distributed this commercial fertilizer subsequent to the expiration of his or her prior registration.

**Sec. 5.** RCW 15.54.330 and 1993 c 183 s 4 are each amended to read as follows:

(1) The department shall examine the (~~packaged~~) commercial fertilizer product registration application form and labels for conformance with the requirements of this chapter. If the application and appropriate labels are in proper form and contain the required information, the particular (~~packaged~~) commercial fertilizer products shall be registered by the department and a certificate of registration shall be issued to the applicant. All registrations expire June 30th of each year.

(2) In reviewing the (~~packaged~~) commercial fertilizer product registration application, the department may consider experimental data, manufacturers' evaluations, data from agricultural experiment stations, product review evaluations, or other authoritative sources to substantiate labeling claims. The data shall be from statistically designed and analyzed trials representative of the soil, crops, and climatic conditions found in the northwestern area of the United States.

(3) In determining whether approval of a labeling statement or guarantee of an ingredient is appropriate, the department may require the submission of a written statement describing the methodology of laboratory analysis utilized, the source of the ingredient material, and any reference material relied upon to support the label statement or guarantee of ingredient.

(4) Before registering a waste-derived fertilizer or micronutrient fertilizer, the department shall obtain written approval from the department of ecology as provided in RCW 15.54.800. Once a waste-derived fertilizer or micronutrient fertilizer has been approved by the department of ecology, its subsequent use in another product during that registration cycle shall not require department of ecology review. This subsection shall apply to new and renewal registration applications for periods beginning July 1, 1999, and thereafter.

**Sec. 6.** RCW 15.54.340 and 1993 c 183 s 5 are each amended to read as follows:

(1) Waste-derived soil amendments that meet the standards and criteria in this section may apply for exemption from solid waste permitting as required under RCW 70.95.170. The application shall be submitted to the department in a format determined by the department or an equivalent format. The application shall include:

(a) Analytical data showing that the waste-derived soil amendments meet standards established under RCW 15.54.800; and

Every complete application shall be approved or disapproved by the department within ninety days after receipt.

(3) The department, after providing opportunity for comments from the jurisdictional health departments, may at any time revoke an exemption granted under this section if the quality or use of the waste-derived soil amendment changes or the management, storage, or end use of the waste-derived soil amendment constitutes a threat to human health or the environment.

This section ~~((shall))~~ does not:

(a) Prohibit a person from dumping or depositing solid waste resulting from his or her own activities onto or under the surface of ground owned or leased by him or her when such action does not violate statutes or ordinances, or create a nuisance; ~~((or))~~

~~(b) ((Apply to a person using a material or materials on the land as commercial fertilizer if (i) the department of ecology has issued written approval for the use of the material or materials as commercial fertilizer as provided in RCW 70.95.830, (ii) the registration of the material or materials as a packaged commercial fertilizer has not been canceled under RCW 15.54.335, and (iii) the distribution of the material or materials as a commercial fertilizer has not been prohibited by the department of agriculture under RCW 15.54.335))~~ Apply to a person using a waste-derived soil amendment that has been approved by the department under section 18 of this act; or

E2SSB 6509 Prime Sponsor, Senate Committee on Ways & Means: Requiring training for reading instruction. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that the ability to read fluently, accurately, and with comprehension is critical to success in school and in life. Research has found that reading instruction and curriculum in the early grades must consist of a comprehensive program that builds upon the firm foundational skills of phonemic awareness, decoding, and reading comprehension, to provide students with the skills necessary to engage in rich literature activities, and further develop thinking and application skills. Schools and school districts should review their reading programs to verify they are using a comprehensive approach to teaching reading.

The role of professional development in supporting and sustaining a high-quality teaching force is critical. The legislature finds that many primary grade teachers would benefit from additional professional development instruction in beginning reading skills and access to current information regarding research-based, scientifically proven instructional strategies to assist students in meeting the benchmarks established for the essential academic learning requirements.

The legislature also recognizes that when students are experiencing difficulties in advancing their reading skills, the use of volunteers to provide individualized tutoring and mentoring to those

students will improve students' ability to overcome those difficulties and increase their reading achievement.

NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.415 RCW to read as follows:

Schools interested in providing assistance to improve student learning in reading may apply for the following opportunities to provide professional development in beginning reading instructional strategies and related curriculum and to implement volunteer tutoring programs for students throughout their school.

(1) To the extent funds are appropriated in accordance with this section, elementary schools interested in providing professional development and the purchase of related curriculum or materials in accordance with (b) of this subsection for certificated instructional staff that provide direct instructional services to students in kindergarten, first, and second grade may apply for and receive funding from the superintendent of public instruction. The application for funding shall be limited to:

(a) Verification that the school has developed or makes a commitment to develop a comprehensive school-wide reading improvement plan that includes, but is not limited to, a beginning reading-language arts program for use in kindergarten through second grade. In addition to other elements of the comprehensive school-wide reading improvement plan, the primary, but not sole, elements of the beginning reading-language arts program must:

(i) Provide numerous daily opportunities for teachers in kindergarten and first grade to read to students from a variety of printed materials including rich literature and expository text;

(ii) Provide explicit and sequential instruction in phonemic awareness for all students in kindergarten and first grade;

(iii) Provide explicit systematic decoding instruction and practice in using those skills in decodable text materials;

(iv) Provide explicit instruction in reading comprehension skills and opportunities for students to apply them;

(v) Require diagnosis of a student's ability to decode in first and second grade;

(vi) Provide explicit and systematic instruction in spelling; and

(vii) Provide students with structured assistance in learning to write with ample opportunities to engage in writing activities;

(b) Verification that the intended professional development and related curriculum or materials include primary emphasis on the following beginning reading skills:

(i) Phonemic awareness strategies;

(ii) Explicit and systematic decoding instruction and how to assess a student's ability to decode;

(iii) Explicit spelling instruction;

(iv) Explicit instruction in reading comprehension strategies; and

(v) Research findings on the skills needed by beginning and proficient readers, and how beginning reading skills are acquired; and

(c) Verification that grant funds expended in accordance with this section will not be used for staff development, intervention, or remediation programs.

(2) The training in reading instruction shall be provided by public or private nonsectarian contractors that provide training in the methods defined in this section. Priority for reading instruction grants shall be given to those schools in which less than one-quarter of all students tested on the fourth grade assessment in reading met the state-wide standard, or in schools where average performance on the reading component of the state-wide standardized test required in RCW 28A.230.190 were in the bottom quartile for the previous three years. Priority shall then be given to those schools in which less than one-third of all students tested on the fourth grade assessment in reading met the state-wide standard, or in schools where average performance on the reading component of the state-wide standardized test required in RCW 28A.230.190 were in the bottom third for the previous three years. Priority shall then be given to schools in which one-half of all students tested on the fourth grade assessment in reading met the state-wide standard, or in schools where average performance on the

reading component of the state-wide standardized test required in RCW 28A.230.190 were in the bottom half for the previous three years.

(3) Reading instruction grants provided under subsection (1) of this section may be used to provide additional professional development materials for interested school principals and classroom volunteers providing assistance in kindergarten, first, and second grades, interested in attending the professional development opportunity identified in this section.

(4) An elementary school receiving funding in accordance with this section shall certify and provide documentation to the superintendent of public instruction that funds received were expended for professional development and curriculum and related materials in accordance with this section.

(5) Schools or school districts that received funds under RCW 28A.300.330 are not eligible to apply for funding in accordance with subsection (1) of this section.

(6) The definitions in this section apply throughout this section unless the context clearly requires otherwise.

(a) "Phonemic awareness instruction" means teaching awareness of letter sounds, and segmenting and blending phonemes, syllables, and words in a sequential progression.

(b) "Explicit systematic decoding instruction" means direct, sequential teaching of how to read words fluently and automatically that includes instruction in letter-sound correspondences, letter combinations, multisyllabic words, blending, and structural elements, and initially incorporates the use of decodable text. "Explicit systematic decoding instruction" does not include the use of context and syntax as word identification strategies in teaching beginning reading skills.

(c) "Decodable text" means connected text containing a high percentage of words that provide practice on the letter-sound correspondences and letter combinations previously taught.

(d) "Diagnosis of a student's ability to decode" means regularly assessing the student's mastery of word recognition, fluency and automaticity, and word analysis in order to plan future instructional activities.

(e) "Explicit and systematic instruction in spelling" means teaching a logical scope and sequence of word knowledge, spelling patterns, syllabication, and frequently used words connected to the sequence used in reading and writing instruction.

(f) "Instruction in reading comprehension skills" means explicit, systematic teaching of vocabulary development, text structure, context, syntax, and syntactic patterns, including but not limited to, strategies for higher order thinking skills such as interpretation, summarization, prediction, clarification, and question generation.

(7) To the extent funds are appropriated in accordance with this section, elementary schools interested in providing teacher training in the use of volunteer tutors and mentors to assist struggling readers in kindergarten through fourth grade may apply for grants from the superintendent of public instruction for volunteer tutoring and mentoring programs that are research based and have proven effectiveness in improving student reading performance. The programs must include the following elements:

(a) Teacher training in program planning and in the use of classroom volunteers;

(b) Training for tutor and mentor volunteers in working with students to overcome reading difficulties before their participation in the program;

(c) An established goal for a minimum number of volunteer contact hours for students to receive individual instruction per week;

(d) An established goal for a minimum number of volunteer contact hours during normal school hours for students to receive individual instruction per week;

(e) Teacher training in recruiting and retaining tutor and mentor volunteers for reading instruction; and

(f) A plan to assess student reading performance before entering the program and upon exit or at the end of the year as appropriate. The results must be compiled and reported to the superintendent of public instruction. The superintendent of public instruction shall provide a preliminary report to the legislature by March 1, 1999, and a final report to the legislature by December 1999 on the effectiveness of the various programs.

(8) By April 15th, the superintendent of public instruction shall notify all school districts that the funds under this section are available. Funding provided must be available to schools no later than June 1, 1998. Elementary schools may apply and become eligible for both funding opportunities.

(9) Teachers participating in the programs will receive a stipend from the funds.

(10) This section expires July 30, 2005.

ESSB 6515 Prime Sponsor, Senate Committee on Energy & Utilities: Regulating franchises and the use of public rights of way. Reported by Committee on Energy & Utilities

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that technological developments have made telecommunications evermore important to the health, safety, and welfare of the people of this state and to the efficient and cost-effective conduct of the state's economy. The pace of technological change is expected to continue and increase in the future. Massive investment in telecommunications infrastructure will be required to make the benefits of technological development available to the people of the state. This is particularly true if the modern infrastructure is to reach all parts of the state, rural as well as urban.

The legislature also finds it necessary to clarify policies on use of public rights of way in order to recognize and foster the changes that are occurring in telecommunications.

The legislature declares that government policies for the use of public rights of way should preserve a safe and efficient transportation system and encourage investment in and development of the infrastructure needed for leading-edge applications in telecommunications. These policies will also serve as an important means of economic development, allowing the state to remain competitive in national and international markets and to attract jobs to, and develop robust economies in, its rural and underdeveloped areas.

The legislature further declares that growth in economic activity resulting from right of way policies that are consistent with the state's transportation needs and encourage the deployment of telecommunications infrastructure will create new jobs and business opportunities as well as bring better service and lower prices to consumers. State and local government will benefit by the availability of improved services and the creation of a larger and more stable revenue base.

The legislature declares that rights of way are dedicated to and purchased or held by the government for the use of the public in transportation, the delivery of utility services, and commerce; that government is responsible for protecting these rights of way for these public purposes; and that the use of these rights of way by telecommunications facilities is important for the protection and advancement of the public's welfare.

The legislature intends that governments rely on construction and development regulations that apply generally and uniformly to construction both inside and outside the public right of way to the extent possible in connection with use of the public right of way for telecommunication facilities. It is the intent of the legislature that if franchises are used, they only be used to coordinate construction and development regulations, permits, and the requirements of such other laws as specifically apply to rights of way and that franchises not be used to impose duplicative requirements on authorized users of the rights of way.

It is the intent of the legislature to promote policies that recognize the introduction of competition in telecommunications, and that will result in new entrants into this industry, without needlessly changing or supplanting existing codes, regulations, and standards. As additional companies seek to locate their facilities in public rights of way, it is incumbent on local government to establish uniform, clear, competitively neutral, and nondiscriminatory rules for use of the public right of way. However, the legislature does not intend for any provision of this act to be construed as changing existing authority of counties, cities, or towns to regulate through local zoning authority consistent with these principles.

It is the policy of the legislature that fees and charges levied by local governments on the telecommunications industry for use of public rights of way and for permits and licenses required for construction, repair, maintenance, use, and operation of facilities for telecommunications shall not be a means of raising general revenue. It is the intent of the legislature and the policy of this state that fees for necessary permits and licenses do not exceed the actual costs incurred in receiving, considering, and issuing the permits and licenses, and inspecting work in the right of way. It is the intent of the legislature and the policy of this state that fees for necessary permits and licenses do not exceed the actual costs incurred in receiving, considering, and issuing permits and licenses, in inspecting plans for and construction in the right of way, in maintaining the records necessary to identify facilities located in the right of way and to prevent interferences among facilities, and in preparing a detailed statement under chapter 43.21C RCW. The legislature does not intend this act to change the law governing repair and restoration of the right of way made necessary by construction, repair maintenance, and other work in the right of way by authorized users.

It is the intent of the legislature that no provision of this act be construed as changing existing authority of the state, counties, cities, and towns to regulate by the exercise of local or state police power in the furtherance of the public health, safety, and welfare.

**NEW SECTION.** **Sec. 2.** Unless the context clearly requires otherwise, the definitions in this section apply throughout chapter . . . , Laws of 1998 (this act).

(1) "Authorized facilities" means all of the plant, equipment, fixtures, appurtenances, antennas, and other facilities necessary to furnish and deliver telecommunications services, including but not limited to poles with crossarms, poles without crossarms, wires, lines, conduits, cables, communication and signal lines and equipment, braces, guys, anchors, vaults, and all attachments, appurtenances, and appliances necessary or incidental to the distribution and use of telecommunications services.

(2) "Authorized user" means any person providing telecommunications or cable television service for hire, sale, or resale to the general public, consistent with federal, state, and local law.

(3) "Cable television service" means the one-way broadcast or cable transmission of television or radio signals.

(4) "Public right of way" means roads, streets, and highways, including limited access highways but does not include structures located within the right of way, lands managed by the state parks and recreation commission, federally granted trust lands, or forest board trust lands. "Public right of way" does not include private property except to the extent easement rights have been granted for roads, streets, and highways.

(5) "Telecommunications service" means the transmission of information by wire, radio, optical cable, electromagnetic, or other similar means for the public. For the purpose of this subsection, "information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or any other symbols.

**NEW SECTION. Sec. 3.** (1) An authorized user may erect, construct, support, attach, connect, stretch authorized facilities between, maintain, repair, replace, and operate and use authorized facilities in, upon, over, under, along, across, and through public rights of way at its own expense. These authorized facilities shall be installed and maintained within public rights of way in such a manner and at such points as not to incommode the public use of the rights of way, and in accordance with federal and state laws and appropriate and applicable codes, regulations, and standards adopted by the state and by counties, cities, and towns not inconsistent with those laws. In addition, a personal wireless communication facility may not obstruct or otherwise interfere with views of significant features observable from a highway, road, or street. An authorized user shall ensure that its authorized facilities meet, and are maintained in a manner so that the facilities continue to meet, applicable federal and state safety laws and standards including, but not limited to, collision standards.

(2) Nothing in this section amends, repeals, or otherwise modifies any law requiring authorized users to obtain all permits required for the installation of authorized facilities as required by the state and by counties, cities, and towns.

(3) Nothing in this section creates, modifies, or diminishes the priority of use for authorized facilities over other users of the right of way for utility purposes or other purposes subject to local franchise or permit.

(4) Nothing in this section creates a right to attach to or use a facility or structure, or to use public property that is not a public right of way, without the explicit approval of, and under such conditions as may be agreed to by, the owner of such a facility, structure, or property.

(5) Nothing in this section shall be construed as creating or expanding: (a) Liabilities of the state, counties, cities, or towns regarding the construction, installation, maintenance, or removal of authorized facilities; or (b) duties owed by the state, counties, cities, or towns to authorized users to construct, install, maintain, or remove authorized facilities. In addition, nothing in this section shall be construed as extending any liability of the state, counties, cities, or towns to any third party user of authorized facilities.

**NEW SECTION. Sec. 4.** (1) Neither the state nor any county, city, or town may adopt or enforce regulations relating to authorized users in public rights of way that:

(a) Discriminate or have the effect of discriminating among similarly situated authorized users or authorized facilities;

(b) Conflict with: (i) Federal and state public service laws; (ii) federal or state laws, rules, and regulations that specifically apply to the design, construction, and operation of authorized facilities; or (iii) federal or state worker safety and public safety laws, rules, and regulations;

(d) Impose regulatory requirements that regulate the services and business operations of the authorized user, except where specifically authorized in state or federal law; or

(e) Provide for a period that exceeds one hundred twenty days between filing a complete application for a permit and issuance or denial of the permit, or otherwise unreasonably delay work by authorized users on authorized facilities in the public right of way except that this subsection does not preclude (i) specific procedures to assure cooperation of and among authorized users doing work within the right of way that provide reasonable opportunities for scheduling of work, including advance notice of planned work, and do not impose unreasonable barriers to entry; and (ii) a schedule established with the agreement of the applicant. Before issuing a permit, the state, county, city, or town shall make a finding that approval of the permit is consistent with easement rights, if any, granted for public right of way.

(2) To the maximum extent feasible, if franchises are applicable to telecommunications companies, they shall be used only to coordinate construction and development regulations and permits, and requirements imposed and permits required under other laws relating to streets, roads, and highways. Franchises shall not be used to require additional permits, conditions, or requirements that duplicate those required under other laws.

(3) Counties, cities, and towns are encouraged to develop procedures to provide interim authorizations for the installation of authorized facilities and process a complete permit, where the timeline to complete such a permit or an agreement is expected to exceed one hundred twenty days, but the issuance and renewals of franchises and related permits for cable television service shall be governed by federal law.

(4) Counties, cities, and towns are encouraged to work together with industry, using the experience of the industry and those counties, cities, and towns that have adopted wireless regulations, to develop by January 1, 1999, a model ordinance for the siting of wireless telecommunications facilities.

**NEW SECTION. Sec. 5.** (1) Except as provided in subsection (2) of this section, neither the state nor any county, city, or town shall place a moratorium on the acceptance and processing of applications, permitting, construction, maintenance, repair, replacement, extension, operation, or use of any personal wireless communication facility that is authorized under sections 2 through 6 of this act following the effective date of this section. (4) This section expires April 1, 2004.

**NEW SECTION. Sec. 6.** (1) Neither the state nor any county, city, or town may impose, demand, or accept any compensation from an authorized user, whether by fee, charge, license, rent, franchise, or use of authorized facilities at other than established, industry standard charges, provision of in-kind services by authorized users without compensation or at below-market rates, or by any other manner for the use or occupancy of public rights of way for authorized facilities.

(2) Except as otherwise provided in this section, no fee, charge, or other compensation permitted for any act authorized by sections 2 through 6 of this act may recover more than the direct administrative expenses actually incurred by the state, county, city, or town in: (a) Receiving and approving a construction or development permit, including notifying adjoining property owners as required by section 7 of this act; (b) inspecting plans and construction; (c) maintaining records of facilities located in the right of way; or (d) preparing a detailed statement under chapter 43.21C RCW.

(5) This section does not amend, repeal, or modify any law governing the taxing authority of cities or towns.

(6) The limitations in this section do not apply to agreements for the use of public property that is not a public right of way or for the use of facilities in the right of way.

**NEW SECTION. Sec. 7.** A local government by ordinance or resolution shall provide for administrative review and approval and exclude the following project permits from the provisions of RCW 36.70B.060 through 36.70B.090, 36.70B.110, and 36.70B.130: (1) Siting of a personal

NEW SECTION. **Sec. 8.** A county, city, or town shall notify adjoining property owners when an authorized facility is to be erected or constructed in, upon, over, under, along, across, or through a public right of way.

NEW SECTION. **Sec. 9.** Any person with a concern about an authorized facility located in a public right of way may file a report of the concern with the clerk of the board of county commissioners if the right of way is located in an unincorporated area, with the city clerk, if the right of way is located in a city, or with the town clerk if the right of way is located in a town. If the authorized facility that is the subject of the concern is located in a public right of way managed by a state agency, the clerk shall forward a copy of the report to that agency.

NEW SECTION. **Sec. 10.** A new section is added to chapter 35.21 RCW to read as follows: Each city or town is subject to the requirements and restrictions regarding telecommunications services and public rights of way under sections 2 through 9 of this act. 2SSB 6544 Prime Sponsor, Senate Committee on Ways & Means: Providing for adult family home and boarding home training. Reported by Committee on Health Care

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that many residents of long-term care facilities and recipients of in-home personal care services are exceptionally vulnerable and their health and well-being are heavily dependent on their caregivers. The legislature further finds that the quality of staff in long-term care facilities is often the key to good care. The need for well-trained staff and well-managed facilities is growing as the state's population ages and the acuity of the health care problems of residents increases. In order to better protect and care for residents, the legislature directs that the minimum training standards be reviewed for management and caregiving staff serving residents with special needs, such as mental illness, dementia, or a developmental disability, that management and caregiving staff receive appropriate training, and that the training delivery system be improved.

NEW SECTION. Sec. 2. A new section is added to chapter 18.20 RCW to read as follows:

(1) The department of social and health services shall review, in coordination with the department of health, the nursing care quality assurance commission, adult family home providers, boarding home providers, in-home personal care providers, and long-term care consumers and advocates, training standards for administrators and resident caregiving staff. The departments and the commission shall submit to the appropriate committees of the house of representatives and the senate by December 1, 1998, specific recommendations on training standards and the delivery system, including necessary statutory changes and funding requirements. Any proposed enhancements shall be consistent with this section, shall take into account and not duplicate other training requirements applicable to boarding homes and staff, and shall be developed with the input of boarding home and resident representatives, health care professionals, and other vested interest groups. Training standards and the delivery system shall be relevant to the needs of residents served by the boarding home and recipients of long-term in-home personal care services and shall be sufficient to ensure that administrators and caregiving staff have the skills and knowledge necessary to provide high quality, appropriate care.

(2) The recommendations on training standards and the delivery system developed under subsection (1) of this section shall be based on a review and consideration of the following: Quality of care; availability of training; affordability, including the training costs incurred by the department of social and health services and private providers; portability of existing training requirements; competency testing; practical and clinical course work; methods of delivery of training; standards for management and caregiving staff training; and necessary enhancements for special needs populations

and resident rights training. Residents with special needs include, but are not limited to, residents with a diagnosis of mental illness, dementia, or developmental disability.

(3) The department of social and health services shall report to the appropriate committees of the house of representatives and the senate by December 1, 1998, on the cost of implementing the proposed training standards for state-funded residents, and on the extent to which that cost is covered by existing state payment rates.

**NEW SECTION. Sec. 3.** A new section is added to chapter 70.128 RCW to read as follows:

(1) The department of social and health services shall review, in coordination with the department of health, the nursing care quality assurance commission, adult family home providers, boarding home providers, in-home personal care providers, and long-term care consumers and advocates, training standards for providers, resident managers, and resident caregiving staff. The departments and the commission shall submit to the appropriate committees of the house of representatives and the senate by December 1, 1998, specific recommendations on training standards and the delivery system, including necessary statutory changes and funding requirements. Any proposed enhancements shall be consistent with this section, shall take into account and not duplicate other training requirements applicable to adult family homes and staff, and shall be developed with the input of adult family home and resident representatives, health care professionals, and other vested interest groups. Training standards and the delivery system shall be relevant to the needs of residents served by the adult family home and recipients of long-term in-home personal care services and shall be sufficient to ensure that providers, resident managers, and caregiving staff have the skills and knowledge necessary to provide high quality, appropriate care.

(2) The recommendations on training standards and the delivery system developed under subsection (1) of this section shall be based on a review and consideration of the following: Quality of care; availability of training; affordability, including the training costs incurred by the department of social and health services and private providers; portability of existing training requirements; competency testing; practical and clinical course work; methods of delivery of training; standards for management; uniform caregiving staff training; necessary enhancements for special needs populations; and resident rights training. Residents with special needs include, but are not limited to, residents with a diagnosis of mental illness, dementia, or developmental disability. Development of training recommendations for developmental disabilities services shall be coordinated with the study requirements in section 5 of this act.

(3) The department of social and health services shall report to the appropriate committees of the house of representatives and the senate by December 1, 1998, on the cost of implementing the proposed training standards for state-funded residents, and on the extent to which that cost is covered by existing state payment rates.

ESSB 6600 Prime Sponsor, Senate Committee on Education: Establishing an education program for juveniles incarcerated in adult correctional facilities. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. A new section is added to chapter 28A.150 RCW to read as follows:

(1) The legislature finds that the state is not required to provide basic or special education through the common schools to juveniles in adult correctional facilities of the department of corrections or local governments. The legislature intends to provide some education services to these inmates as part of their correctional services, doing so under difficult circumstances in an adult penal system because these inmates chose to commit crimes that cause society to treat them as adults.

(2) School districts shall not be required to provide any education services to inmates of local adult correctional facilities or department of corrections facilities even when the inmates are under age twenty-one.

NEW SECTION. Sec. 2. A new section is added to chapter 72.09 RCW to read as follows:

(1) To the extent the department is required or chooses to provide education services to juvenile inmates of its adult correctional facilities under RCW 72.09.460(2) and to the extent funds are appropriated, the department may contract with school districts, educational service districts, community and technical colleges, or private vendors to provide those educational programs. If a contract is not entered into with a willing and capable education provider, the department shall operate and staff its own educational programs.

(2) The department may consult with the superintendent of public instruction, the state board for community and technical colleges, and others, in finding willing and capable education providers and in designing programs to provide access to education services at its facilities.

(3) School districts shall not be required to provide any education services to inmates of department of corrections adult correctional facilities even when the inmates are under age twenty-one.

NEW SECTION. Sec. 3. A new section is added to chapter 70.48 RCW to read as follows:

(1) To the extent a local adult correctional facility chooses or is required to provide education services to juvenile inmates of its facilities, the local facility may, if the local school district chooses not to provide education services upon request of the facility, request that the local educational service district provide educational services. The educational service district may deny the request or may choose to provide education services and may request funds under section 4 of this act. The local adult correctional facility also may choose to provide the education services itself.

(2) The education services provided under this section necessarily may be limited services because the juvenile is housed at the facility generally for less than a year, there may be few juveniles at that facility, and the facility may be remote. The legislature intends to provide these limited

education services to help enable the juvenile to make some educational progress while confined for a year or less, and help to resume his or her education in more traditional methods upon release from the facility.

(3) The services may include some special education services to inmates as may be required by federal law.

(4) School districts shall not be required to provide any education services to inmates of local adult correctional facilities even when the inmates are under age twenty-one.

NEW SECTION. **Sec. 4.** A new section is added to chapter 28A.305 RCW to read as follows:

To the extent funds are appropriated for the purposes of section 3(1) of this act, the superintendent of public instruction shall provide funds to educational service districts that have been requested by a local adult correctional facility to provide education services for its juvenile inmates.

NEW SECTION. **Sec. 5.** (1) The department of corrections, with the assistance of the superintendent of public instruction and the administrator for the courts, shall conduct a study to determine the educational needs of inmates under the age of twenty-one incarcerated in jail and prison, the impact of providing educational services to those inmates on the security and penological interests of the correctional institutions that incarcerate those inmates, and the ability of local school districts, the community and technical colleges, private vendors, juvenile detention centers, and the correctional institutions to provide those educational services.

(2) The department, the superintendent of public instruction, and the administrator for the courts shall consult with the following groups:

- (a) The Washington association of school administrators;
- (b) The individual school districts and educational service districts in which the department or a county jail may operate a school for inmates under age twenty-one;
- (c) The Washington state association of counties;
- (d) The state board for community and technical colleges;
- (e) The higher education coordinating board;
- (f) The United States department of education office of special education programs and the office for civil rights;

- (h) The juvenile court administrators;
- (i) The attorney general;
- (j) The Washington association of prosecuting attorneys;
- (k) The school districts that provide educational services to juvenile offenders incarcerated in state juvenile residential schools; and

(l) Any other person or association that in the opinion of the department, the superintendent of public instruction, or the administrator for the courts may assist in the study.

(3) No later than May 1, 1998, the department and the superintendent of public instruction shall provide to the house of representatives and senate committees on education, the house of representatives committee on criminal justice and corrections, the senate committee on human services and corrections, and the house of representatives and senate fiscal committees, a profile of all offenders under the age of twenty-one who are incarcerated in a department of corrections facility.

The profile shall identify the offenders individually by the following:

- (a) Age;
- (b) Offense or offenses of commitment;
- (c) Criminal history;
- (d) Anticipated length of stay;
- (e) The number of serious infractions committed by the offender during incarceration and the number of times, if any, the offender has been placed in an intensive management unit;
- (f) The offender's custody level;
- (g) Whether the offender has a high school diploma or a GED;
- (h) The last grade the offender completed;

(i) Whether the offender, in the educational placement before incarceration, was identified as a child with a disability or had an individualized education program;

(j) Whether the offender would qualify for transition planning and services under 20 U.S.C. Sec. 1414(d)(6);

(k) Whether the department has security or penological interests that warrant modification of an existing individualized education program or placement as provided by 20 U.S.C. Sec. 1414(d)(6);

(l) Whether the offender has participated in any educational programs offered by the department; and

(m) Whether the offender may be in need of special education and related services. This subsection (3)(m) does not require the department or the superintendent to evaluate an offender to determine if the offender is a child with disabilities in need of special education and related services.

(4) No later than September 1, 1998, the department of corrections, the superintendent of public instruction, and the administrator for the courts shall provide to the committees identified in subsection (3) of this section a profile of inmates under the age of twenty-one confined in county jails between the effective date of this section and August 1, 1998. The profile shall identify the inmates' characteristics as listed in subsection (3) of this section and shall include all inmates detained in a county correctional facility whether arrested, charged, pending trial, or convicted. The department, the superintendent of public instruction, and the administrator for the courts shall assist the counties in gathering this information.

(5) No later than September 1, 1998, the department, the superintendent of public instruction, and the administrator for the courts shall make a preliminary report to the committees listed in subsection (3) of this section, identifying the educational needs of inmates under the age of twenty-one in adult correctional facilities, the impact of providing educational services to those inmates on the security and penological interests of the correctional institutions that incarcerate those inmates, and the ability of local school districts, the community and technical colleges, private vendors, juvenile detention centers, and the correctional institutions to provide those educational services. The department and the superintendent, in consultation with the office of financial management, shall estimate the various capital and operating costs of providing educational services equivalent to a basic education or basic skills education to offenders under age twenty-one, and special education and related services to all inmates under age twenty-one or to only those inmates under age eighteen and between the ages of eighteen and twenty-one who were identified as a child with a disability or had an individualized education program in the educational placement before incarceration in an adult correctional facility. The department and the superintendent of public instruction shall inform the committees as to which educational entity or entities are able and willing to provide those educational services.

(6) No later than November 1, 1998, the department, the superintendent of public instruction, and the administrator for the courts shall make final recommendations to the legislative committees identified in subsection (3) of this section.

**Sec. 6.** RCW 72.09.460 and 1997 c 338 s 43 are each amended to read as follows:

(1) The legislature intends that all inmates be required to participate in department-approved education programs, work programs, or both, unless exempted under subsection (4) of this section. Eligible inmates who refuse to participate in available education or work programs available at no charge to the inmates shall lose privileges according to the system established under RCW 72.09.130. Eligible inmates who are required to contribute financially to an education or work program and refuse to contribute shall be placed in another work program. Refusal to contribute shall not result in a loss of privileges. The legislature recognizes more inmates may agree to participate in education and work programs than are available. The department must make every effort to achieve maximum public benefit by placing inmates in available and appropriate education and work programs.

(2)(a) The department shall provide a program of education to all offenders who are under the age of eighteen and who have not met high school graduation or general equivalency diploma requirements. The program of education established by the department for offenders under the age of eighteen must provide each offender a ~~((choice of))~~ curriculum that will assist the inmate in achieving a high school diploma or general equivalency diploma; the department shall determine the most

appropriate path depending on age, education history, inmate preference, and other considerations. The program of education may be coordinated with prevocational training, work ethic skills, conflict resolution counseling, substance abuse intervention, and anger management counseling. The curriculum may balance these and other rehabilitation, work, and training components.

(b) Access to special education in connection with education programs under (a) of this subsection may be provided for those under the age of twenty-two to the extent required by federal law.

(3) The department shall, to the extent possible and considering all available funds, prioritize its resources to meet the following goals for inmates in the order listed:

(a) Achievement of basic academic skills through obtaining a high school diploma or its equivalent and achievement of vocational skills necessary for purposes of work programs and for an inmate to qualify for work upon release;

(b) Additional work and education programs based on assessments and placements under subsection (5) of this section; and

(c) Other work and education programs as appropriate.

(4) The department shall establish, by rule, objective medical standards to determine when an inmate is physically or mentally unable to participate in available education or work programs. When the department determines an inmate is permanently unable to participate in any available education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section. When the department determines an inmate is temporarily unable to participate in an education or work program due to a medical condition, the inmate is exempt from the requirement of subsection (1) of this section for the period of time he or she is temporarily disabled. The department shall periodically review the medical condition of all temporarily disabled inmates to ensure the earliest possible entry or reentry by inmates into available programming.

(5) The department shall establish, by rule, standards for participation in department-approved education and work programs. The standards shall address the following areas:

(a) Assessment. The department shall assess all inmates for their basic academic skill levels using a professionally accepted method of scoring reading, math, and language skills as grade level equivalents. The department shall determine an inmate's education history, work history, and vocational or work skills. The initial assessment shall be conducted, whenever possible, within the first thirty days of an inmate's entry into the correctional system, except that initial assessments are not required for inmates who are sentenced to life without the possibility of release, assigned to an intensive management unit within the first thirty days after entry into the correctional system, are returning to the correctional system within one year of a prior release, or whose physical or mental condition renders them unable to complete the assessment process. The department shall track and record changes in the basic academic skill levels of all inmates reflected in any testing or assessment performed as part of their education programming;

(b) Placement. The department shall follow the policies set forth in subsection (1) of this section in establishing criteria for placing inmates in education and work programs. The department shall, to the extent possible, place all inmates whose composite grade level score for basic academic skills is below the eighth grade level in a combined education and work program. The placement criteria shall include at least the following factors:

(i) An inmate's release date and custody level, except an inmate shall not be precluded from participating in an education or work program solely on the basis of his or her release date;

(ii) An inmate's education history and basic academic skills;

(iii) An inmate's work history and vocational or work skills;

(iv) An inmate's economic circumstances, including but not limited to an inmate's family support obligations; and

(v) Where applicable, an inmate's prior performance in department-approved education or work programs;

(c) Performance and goals. The department shall establish, and periodically review, inmate behavior standards and program goals for all education and work programs. Inmates shall be notified of applicable behavior standards and program goals prior to placement in an education or work

program and shall be removed from the education or work program if they consistently fail to meet the standards or goals;

(d) Financial responsibility. (i) The department shall establish a formula by which inmates, based on their ability to pay, shall pay all or a portion of the costs or tuition of certain programs. Inmates shall, based on the formula, pay a portion of the costs or tuition of participation in:

(A) Second and subsequent vocational programs associated with an inmate's work programs; and

(B) An associate of arts or baccalaureate degree program when placement in a degree program is the result of a placement made under this subsection;

(ii) Inmates shall pay all costs and tuition for participation in:

(A) Any postsecondary academic degree program which is entered independently of a placement decision made under this subsection; and

(B) Second and subsequent vocational programs not associated with an inmate's work program.

Enrollment in any program specified in (d)(ii) of this subsection shall only be allowed by correspondence or if there is an opening in an education or work program at the institution where an inmate is incarcerated and no other inmate who is placed in a program under this subsection will be displaced; and

(e) Notwithstanding any other provision in this section, an inmate sentenced to life without the possibility of release:

(i) Shall not be required to participate in education programming; and

(ii) May receive not more than one postsecondary academic degree in a program offered by the department or its contracted providers.

If an inmate sentenced to life without the possibility of release requires prevocational or vocational training for a work program, he or she may participate in the training subject to this section.

(6) The department shall coordinate education and work programs among its institutions, to the greatest extent possible, to facilitate continuity of programming among inmates transferred between institutions. Before transferring an inmate enrolled in a program, the department shall consider the effect the transfer will have on the inmate's ability to continue or complete a program. This subsection shall not be used to delay or prohibit a transfer necessary for legitimate safety or security concerns.

(7) Before construction of a new correctional institution or expansion of an existing correctional institution, the department shall adopt a plan demonstrating how cable, closed-circuit, and satellite television will be used for education and training purposes in the institution. The plan shall specify how the use of television in the education and training programs will improve inmates' preparedness for available work programs and job opportunities for which inmates may qualify upon release.

(8) The department shall adopt a plan to reduce the per-pupil cost of instruction by, among other methods, increasing the use of volunteer instructors and implementing technological efficiencies. The plan shall be adopted by December 1996 and shall be transmitted to the legislature upon adoption. The department shall, in adoption of the plan, consider distance learning, satellite instruction, video tape usage, computer-aided instruction, and flexible scheduling of offender instruction.

(9) Following completion of the review required by section 27(3), chapter 19, Laws of 1995 1st sp. sess. the department shall take all necessary steps to assure the vocation and education programs are relevant to work programs and skills necessary to enhance the employability of inmates upon release.

**Sec. 7.** RCW 28A.155.020 and 1995 c 77 s 8 are each amended to read as follows:

There is established in the office of the superintendent of public instruction an administrative section or unit for the education of children with disabling conditions.

Children with disabilities are those children in school or out of school who are temporarily or permanently retarded in normal educational processes by reason of physical or mental disability, or by

reason of emotional maladjustment, or by reason of other disability, and those children who have specific learning and language disabilities resulting from perceptual-motor disabilities, including problems in visual and auditory perception and integration.

Except as provided in section 1 of this act, the superintendent of public instruction shall require each school district in the state to insure an appropriate educational opportunity for all children with disabilities between the ages of three and twenty-one(~~(, but)~~). When ((the)) a child's twenty-first birthday occurs during the school year, the educational program may be continued until the end of that school year. The superintendent of public instruction, by rule, shall establish for the purpose of excess cost funding, as provided in RCW 28A.150.390, 28A.160.030, and 28A.155.010 through 28A.155.100, functional definitions of the various types of disabling conditions and eligibility criteria for special education programs for students with disabilities. For the purposes of RCW 28A.155.010 through 28A.155.100, an appropriate education is defined as an education directed to the unique needs, abilities, and limitations of the children with disabilities. School districts are strongly encouraged to provide parental training in the care and education of the children and to involve parents in the classroom.

Nothing in this section shall prohibit the establishment or continuation of existing cooperative programs between school districts or contracts with other agencies approved by the superintendent of public instruction, which can meet the obligations of school districts to provide education for children with disabilities, or prohibit the continuation of needed related services to school districts by the department of social and health services.

This section shall not be construed as in any way limiting the powers of local school districts set forth in RCW 28A.155.070.

No child shall be removed from the jurisdiction of juvenile court, a local jail, or the department of corrections for training or education under RCW 28A.155.010 through 28A.155.100 without the approval of the superior court of the county.

**Sec. 8.** RCW 28A.225.010 and 1996 c 134 s 1 are each amended to read as follows:

(1) All parents in this state of any child eight years of age and under eighteen years of age shall cause such child to attend the public school of the district in which the child resides and such child shall have the responsibility to and therefore shall attend for the full time when such school may be in session unless:

(a) The child is attending an approved private school for the same time or is enrolled in an extension program as provided in RCW 28A.195.010(4);

(b) The child is receiving home-based instruction as provided in subsection (4) of this section;

(c) The child is attending an education center as provided in chapter 28A.205 RCW;

(d) The school district superintendent of the district in which the child resides shall have excused such child from attendance because the child is physically or mentally unable to attend school, is attending a residential school operated by the department of social and health services, is incarcerated in an adult correctional facility of the department of corrections or a local government, or has been temporarily excused upon the request of his or her parents for purposes agreed upon by the school authorities and the parent: PROVIDED, That such excused absences shall not be permitted if deemed to cause a serious adverse effect upon the student's educational progress: PROVIDED FURTHER, That students excused for such temporary absences may be claimed as full time equivalent students to the extent they would otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260 and shall not affect school district compliance with the provisions of RCW 28A.150.220; or

(e) The child is sixteen years of age or older and:

(i) The child is regularly and lawfully employed and either the parent agrees that the child should not be required to attend school or the child is emancipated in accordance with chapter 13.64 RCW;

(ii) The child has already met graduation requirements in accordance with state board of education rules and regulations; or

(iii) The child has received a certificate of educational competence under rules and regulations established by the state board of education under RCW 28A.305.190.

(2) A parent for the purpose of this chapter means a parent, guardian, or person having legal custody of a child.

(3) An approved private school for the purposes of this chapter and chapter 28A.200 RCW shall be one approved under regulations established by the state board of education pursuant to RCW 28A.305.130.

(4) For the purposes of this chapter and chapter 28A.200 RCW, instruction shall be home-based if it consists of planned and supervised instructional and related educational activities, including a curriculum and instruction in the basic skills of occupational education, science, mathematics, language, social studies, history, health, reading, writing, spelling, and the development of an appreciation of art and music, provided for a number of hours equivalent to the total annual program hours per grade level established for approved private schools under RCW 28A.195.010 and 28A.195.040 and if such activities are:

(a) Provided by a parent who is instructing his or her child only and are supervised by a certificated person. A certificated person for purposes of this chapter and chapter 28A.200 RCW shall be a person certified under chapter 28A.410 RCW. For purposes of this section, "supervised by a certificated person" means: The planning by the certificated person and the parent of objectives consistent with this subsection; a minimum each month of an average of one contact hour per week with the child being supervised by the certificated person; and evaluation of such child's progress by the certificated person. The number of children supervised by the certificated person shall not exceed thirty for purposes of this subsection; or

(b) Provided by a parent who is instructing his or her child only and who has either earned forty-five college level quarter credit hours or its equivalent in semester hours or has completed a course in home-based instruction at a postsecondary institution or a vocational-technical institute; or

(c) Provided by a parent who is deemed sufficiently qualified to provide home-based instruction by the superintendent of the local school district in which the child resides.

(5) The legislature recognizes that home-based instruction is less structured and more experiential than the instruction normally provided in a classroom setting. Therefore, the provisions of subsection (4) of this section relating to the nature and quantity of instructional and related educational activities shall be liberally construed.

**NEW SECTION.** **Sec. 9.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

**NEW SECTION.** **Sec. 10.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION.** **Sec. 11.** Funding for the education programs in this act for juveniles incarcerated in adult correctional facilities shall be provided in the omnibus appropriations act and shall be considered sufficient for the education needs of juveniles incarcerated in adult correctional facilities."

ESSB 6622 Prime Sponsor, Senate Committee on Energy & Utilities: Implementing the federal telecommunications act of 1996. Reported by Committee on Energy & Utilities

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The commission shall plan and prepare to implement a program for the preservation and advancement of universal telecommunications service which shall not take effect until the legislature approves the program. The purpose of the universal service program is to benefit telecommunications ratepayers in the state by minimizing implicit sources of support and maximizing explicit sources of support that are specific, sufficient, competitively neutral, and technologically neutral to support basic telecommunications services for customers of telecommunications companies in high-cost locations.

(2) In preparing a universal service program for approval by the legislature, the commission shall:

(a) Estimate the cost of supporting all lines located in high-cost locations and the cost of supporting one primary telecommunications line for each residential or business customer located in high-cost locations;

(b) Determine the assessments that must be made on all telecommunications carriers, and the manner of collection, to provide support for:

(i) All residential and business lines located in high-cost locations;

(ii) Only one primary line for each residential or business customer located in high-cost locations;

(c) Designate those telecommunications carriers serving high-cost locations that are eligible to receive support for the benefit of their customers in those locations;

(d) Adopt or prepare to adopt all necessary rules for administration of the program; and

(e) Provide a schedule of all fees and payments proposed or expected to be proposed by the commission under subsection (4)(d) of this section.

(3) The commission shall report by November 1, 1998, to the legislature on these steps taken to prepare for implementation and shall inform the legislature of the estimated cost to support all lines located in high-cost locations and the estimated cost to support only one primary line for each residential or business customer located in high-cost locations under a universal service program.

(4) Once a program is approved by the legislature and subsequently established, the following provisions apply unless otherwise directed by the legislature:

(a) All transfers of money necessary to provide the support shall be outside the state treasury and not be subject to appropriation;

(b) The commission may delegate to the commission secretary or other staff the authority to resolve disputes or make other decisions necessary to the administration of the program;

(c) The commission may contract with an independent program administrator subject to the direction and control of the commission and may authorize the establishment of an account or accounts in independent financial institutions should that be necessary for administration of the program;

(d) The expenses of an independent program administrator shall be authorized by the commission and shall be paid out of contributions by the telecommunications carriers participating in the program;

(e) The commission may require the carriers participating in the program, as part of their contribution, to pay into the public service revolving fund the costs of the commission attributable to supervision and administration of the program that are not already recovered through existing fees paid to the commission.

(5) The commission shall establish standards for review or testing of all telecommunications carriers' compliance with the program for the purpose of ensuring the support received by a telecommunications carrier is used only for the purposes of the program and that each telecommunications carrier is making its proper contribution to the program. The commission may conduct the review or test, or contract with an independent administrator or other person to conduct the review or test.

(6) The commission shall coordinate administration of the program with any federal universal service program and may administer the federal fund in conjunction with the state program if so authorized by federal law.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Telecommunications carrier" has the same meaning as defined in 47 U.S.C. Sec. 153(44).

(b) "Basic telecommunications services" means the following services:

(i) Single-party service;

(ii) Voice grade access to the public switched network;

(iii) Support for local usage;

(iv) Dual tone multifrequency signaling (touch-tone);

(v) Access to emergency services (911);

(vi) Access to operator services;

- (vii) Access to interexchange services;
- (viii) Access to directory assistance; and
- (ix) Toll limitation services.

(c) "High-cost location" means a location where the cost of providing telecommunications services is greater than a benchmark established by the commission by rule.

**NEW SECTION. Sec. 2.** (1) The commission is authorized to take actions, conduct proceedings, and enter orders as permitted or contemplated for a state commission under the federal telecommunications act of 1996, P.L. 104-104 (110 Stat. 56), but the commission's authority to either establish a new state program or to adopt new rules to preserve and advance universal service under section 254(f) of the federal act is limited to the actions expressly authorized by section 1 of this act. The commission may establish by rule fees to be paid by persons seeking commission action under the federal act, and by parties to proceedings under that act, to offset in whole or part the commission's expenses that are not already recovered through existing fees in implementing the act, but new fees or assessments charged telecommunications carriers to either establish a state program or to adopt rules to preserve and advance universal service under section 254(f) of the federal act do not take effect until the legislature has approved a state universal service program.

(2) The legislature intends that under the future universal service program established in this state:

(a) Every telecommunications carrier that provides intrastate telecommunications services shall contribute, on an equitable and nondiscriminatory basis, to the preservation and advancement of universal service in the state;

(b) The contributions shall be competitively and technologically neutral; and

(c) The universal service program to be established in accordance with section 1 of this act shall not be inconsistent with the requirements of 47 U.S.C. Sec. 254.

**NEW SECTION. Sec. 3.** Any rules regarding universal service adopted by the utilities and transportation commission shall comply with the purpose, as stated in section 1 of this act, for establishing a program for the preservation and advancement of universal telecommunications service. Services to be supported are only those basic services defined in section 1(7) of this act.

**Sec. 4.** RCW 80.36.310 and 1989 c 101 s 14 are each amended to read as follows:

(1) Telecommunications companies may petition to be classified as competitive telecommunications companies under RCW 80.36.320 or to have services classified as competitive telecommunications services under RCW 80.36.330. The commission may initiate classification proceedings on its own motion. The commission may require all regulated telecommunications companies potentially affected by a classification proceeding to appear as parties for a determination of their classification.

(2) Any company petition or commission motion for competitive classification shall state an effective date not sooner than thirty days from the filing date. The company must provide notice and publication of the proposed competitive classification in the same manner as provided in RCW 80.36.110 for tariff changes. The proposed classification shall take effect on the stated effective date unless suspended by the commission and set for hearing under chapter 34.05 RCW or set for a formal investigation and fact-finding under RCW 80.36.145. The commission shall enter its final order with respect to any suspended classification within ((ten)) six months from the date of filing of a company's petition or the commission's motion.

**Sec. 5.** RCW 80.36.320 and 1989 c 101 s 15 are each amended to read as follows:

(1) The commission shall classify a telecommunications company (~~providing service in a relevant market~~) as a competitive telecommunications company if (~~it finds, after notice and hearing, that the telecommunications company has demonstrated that~~) the services it offers are subject to effective competition. Effective competition means that the company's customers have reasonably available alternatives and that the company does not have a significant captive customer base. In

determining whether a company is competitive, factors the commission shall consider include but are not limited to:

- (a) The number and sizes of alternative providers of service;
- (b) The extent to which services are available from alternative providers in the relevant market;
- (c) The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and
- (d) Other indicators of market power which may include market share, growth in market share, ease of entry, and the affiliation of providers of services.

The commission shall conduct the initial classification and any subsequent review of the classification in accordance with such procedures as the commission may establish by rule.

(2) Competitive telecommunications companies shall be subject to minimal regulation. Minimal regulation means that competitive telecommunications companies may file, instead of tariffs, price lists (~~(which)~~) that shall be effective after ten days' notice to the commission and customers. The commission shall prescribe the form of notice. The commission may also waive other regulatory requirements under this title for competitive telecommunications companies when it determines that competition will serve the same purposes as public interest regulation. The commission may waive different regulatory requirements for different companies if such different treatment is in the public interest. A competitive telecommunications company shall at a minimum:

- (a) Keep its accounts according to regulations as determined by the commission;
- (b) File financial reports with the commission as required by the commission and in a form and at times prescribed by the commission;
- (c) Keep on file at the commission such current price lists and service standards as the commission may require; and
- (d) Cooperate with commission investigations of customer complaints.

(3) When a telecommunications company has demonstrated that the equal access requirements ordered by the federal district court in the case of U.S. v. AT&T, 552 F. Supp. 131 (1982), or in supplemental orders, have been met, the commission shall review the classification of telecommunications companies providing inter-LATA interexchange services. At that time, the commission shall classify all such companies as competitive telecommunications companies unless it finds that effective competition, as defined in subsection (1) of this section, does not then exist.

(4) The commission may revoke any waivers it grants and may reclassify any competitive telecommunications company if (~~(such)~~) the revocation or reclassification would protect the public interest.

(5) The commission may waive the requirements of RCW 80.36.170 and 80.36.180 in whole or in part for a competitive telecommunications company if it finds that competition will serve the same purpose and protect the public interest.

**Sec. 6.** RCW 80.36.330 and 1989 c 101 s 16 are each amended to read as follows:

(1) The commission may classify a telecommunications service provided by a telecommunications company as a competitive telecommunications service if (~~(it finds, after notice and hearing, that)~~) the service is subject to effective competition. Effective competition means that customers of the service have reasonably available alternatives and that the service is not provided to a significant captive customer base. In determining whether a service is competitive, factors the commission shall consider include but are not limited to:

- (a) The number and size of alternative providers of services;
- (b) The extent to which services are available from alternative providers in the relevant market;
- (c) The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and
- (d) Other indicators of market power, which may include market share, growth in market share, ease of entry, and the affiliation of providers of services.

(2) When the commission finds that a telecommunications company has demonstrated that a telecommunications service is competitive, the commission may permit the service to be provided

under a price list effective on ten days notice to the commission and customers. The commission shall prescribe the form of notice. The commission may adopt procedural rules necessary to implement this section.

(3) Prices or rates charged for competitive telecommunications services shall cover their cost. The commission shall determine proper cost standards to implement this section, provided that in making any assignment of costs or allocating any revenue requirement, the commission shall act to preserve affordable universal telecommunications service.

(4) The commission may investigate prices for competitive telecommunications services upon complaint. In any complaint proceeding initiated by the commission, the telecommunications company providing the service shall bear the burden of proving that the prices charged cover cost, and are fair, just, and reasonable.

(5) Telecommunications companies shall provide the commission with all data it deems necessary to implement this section.

(6) No losses incurred by a telecommunications company in the provision of competitive services may be recovered through rates for noncompetitive services. The commission may order refunds or credits to any class of subscribers to a noncompetitive telecommunications service which has paid excessive rates because of below cost pricing of competitive telecommunications services.

(7) The commission may reclassify any competitive telecommunications service if reclassification would protect the public interest.

(8) The commission may waive the requirements of RCW 80.36.170 and 80.36.180 in whole or in part for a service classified as competitive if it finds that competition will serve the same purpose and protect the public interest.

NEW SECTION. **Sec. 7.** Sections 1 through 3 of this act are each added to chapter 80.36 RCW.

NEW SECTION. **Sec. 8.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

ESB 6628 Prime Sponsor, Senator Benton: Clarifying transportation planning. Reported by Committee on Transportation Policy & Budget

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 47.06.040 and 1994 c 258 s 5 are each amended to read as follows:

The department shall develop a state-wide multimodal transportation plan under RCW 47.01.071(3) and in conformance with federal requirements, to ensure the continued mobility of people and goods within regions and across the state in a safe, cost-effective manner. The state-wide multimodal transportation plan shall consist of:

(1) A state-owned facilities component, which shall guide state investment for state highways including bicycle and pedestrian facilities, and state ferries; and

(2) A state-interest component, which shall define the state interest in aviation, marine ports and navigation, freight rail, intercity passenger rail, bicycle transportation and pedestrian walkways, and public transportation, and recommend actions in coordination with appropriate public and private transportation providers to ensure that the state interest in these transportation modes is met.

The plans developed under each component must be consistent with the state transportation policy plan and with each other, reflect public involvement, be consistent with regional transportation planning, high-capacity transportation planning, and local comprehensive plans prepared under chapter 36.70A RCW, and include analysis of intermodal connections and choices. A primary emphasis for these plans shall be the relief of congestion, the preservation of existing investments, the improvement of traveler safety, the efficient movement of freight and goods, and the improvement and integration of all transportation modes to create a seamless intermodal transportation system for people and goods.

In the development of the state-wide multimodal transportation plan, the department shall identify and document potential affected environmental resources, including, but not limited to, wetlands, storm water runoff, flooding, air quality, fish passage, and wildlife habitat. The department shall conduct its environmental identification and documentation in coordination with all relevant environmental regulatory authorities, including, but not limited to, local governments. The department shall give the relevant environmental regulatory authorities an opportunity to review the department's environmental plans. The relevant environmental regulatory authorities shall provide comments on the department's environmental plans in a timely manner. Environmental identification and documentation as provided for in RCW 47.01.300 and this section is not intended to create a private right of action or require an environmental impact statement as provided in chapter 43.21C RCW.

**Sec. 2.** RCW 47.06.050 and 1993 c 446 s 5 are each amended to read as follows:

The state-owned facilities component of the state-wide transportation plan shall identify the most cost-effective combination of highway, ferry, passenger rail, and high-capacity transportation improvements that maximizes the efficient movement of people, freight, and goods within state transportation corridors and will consist of:

(1) The state highway system plan, which identifies program and financing needs and recommends specific and financially realistic improvements to preserve the structural integrity of the state highway system, ensure acceptable operating conditions, and provide for enhanced access to scenic, recreational, and cultural resources. The state highway system plan shall contain the following elements:

(a) A system preservation element, which shall establish structural preservation objectives for the state highway system including bridges, identify current and future structural deficiencies based upon analysis of current conditions and projected future deterioration, and recommend program funding levels and specific actions necessary to preserve the structural integrity of the state highway system consistent with adopted objectives. This element shall serve as the basis for the preservation component of the six-year highway program and the two-year biennial budget request to the legislature;

(b) A capacity and operational improvement element, which shall establish operational objectives, including safety considerations, for moving people and goods on the state highway system, identify current and future capacity, operational, and safety deficiencies, and recommend program funding levels and specific improvements and strategies necessary to achieve the operational objectives. In developing capacity and operational improvement plans the department shall first assess strategies to enhance the operational efficiency of the existing system before recommending system expansion. Congestion relief must be a primary emphasis of the capacity and operational improvement element. Strategies to enhance the operational efficiencies include but are not limited to access

management, transportation system management, demand management, and high-occupancy vehicle facilities. The capacity and operational improvement element must conform to the state implementation plan for air quality and be consistent with regional transportation plans adopted under chapter 47.80 RCW, and shall serve as the basis for the capacity and operational improvement portions of the six-year highway program and the two-year biennial budget request to the legislature;

(c) A scenic and recreational highways element, which shall identify and recommend designation of scenic and recreational highways, provide for enhanced access to scenic, recreational, and cultural resources associated with designated routes, and recommend a variety of management strategies to protect, preserve, and enhance these resources. The department, affected counties, cities, and towns, regional transportation planning organizations, and other state or federal agencies shall jointly develop this element;

(d) A paths and trails element, which shall identify the needs of nonmotorized transportation modes on the state transportation systems and provide the basis for the investment of state transportation funds in paths and trails, including funding provided under chapter 47.30 RCW.

(2) The state ferry system plan, which shall guide capital and operating investments in the state ferry system. The plan shall establish service objectives for state ferry routes, forecast travel demand for the various markets served in the system, and develop strategies for ferry system investment that consider regional and state-wide vehicle and passenger needs, support local land use plans, and assure that ferry services are fully integrated with other transportation services. The plan shall assess the role of private ferries operating under the authority of the utilities and transportation commission and shall coordinate ferry system capital and operational plans with these private operations. The ferry system plan must be consistent with the regional transportation plans for areas served by the state ferry system, and shall be developed in conjunction with the ferry advisory committees.

**Sec. 3.** RCW 47.06.090 and 1993 c 446 s 9 are each amended to read as follows:

The state-interest component of the state-wide multimodal transportation plan shall include an intercity passenger rail plan, which shall analyze existing intercity passenger rail service and recommend improvements to that service under the state passenger rail service program including depot improvements, potential service extensions, and ways to achieve higher train speeds. The plan must include:

(1) A service preservation element that outlines the trackage, depots, and train investments needed to maintain established service levels; and

(2) A service improvement element that establishes service improvement objectives and outlines the trackage, depot, and train investments needed to meet improvement service objectives.

**Sec. 4.** RCW 81.75.030 and 1977 ex.s. c 217 s 3 are each amended to read as follows:

(1) To the extent feasible, the services available to the public at any transportation center may include taxi, auto rental, passenger trains, motor buses, ~~((travel agents,))~~ restrooms, food, ~~((telegraph,))~~ baggage handling, transfer and delivery of light freight and packages, commercial airlines, air charter, place of temporary rest for citizens and travelers (but not overnight), mail, private auto parking for users of public transportation through the transportation center, local transit, limousine, ~~((and any other use necessary to the foregoing))~~ limited retail services, professional services, limited banking services, day care services, and any other use necessary and convenient for the users of the public transportation system operating at the transportation center.

(2) Any city, town, county, public transportation benefit area authority, or municipal corporation, which elects to operate a transportation center shall operate the center for the general public good. The operator may establish the terms of usage for the various modes of transportation and for others that utilize its facilities, may make reasonable rules concerning public and private use, and may exclude all persons therefrom who refuse to comply with the terms or rules of use. The operator may own, operate, maintain, and manage a transportation center, but shall not engage in providing a transportation or other related service at the center unless otherwise authorized by law."

SSB 6655 Prime Sponsor, Senate Committee on Higher Education: Changing the Spokane intercollegiate research and technology institute. Reported by Committee on Higher Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** It is the intent of the legislature to provide the necessary access to quality upper division and graduate higher education opportunities for the citizens of Spokane. The

legislature intends that the Spokane branch campus of Washington State University, offering upper-division and graduate programs, be located at the Riverpoint Higher Education Park and that Washington State University be the administrative and fiscal agent for the Riverpoint Higher Education Park. In addition, those programs offered by Eastern Washington University that meet the rules and guidelines established by the higher education coordinating board's program approval process may serve students at the Riverpoint Higher Education Park. The legislature intends to streamline the program planning and approval process in Spokane by eliminating the joint center for higher education; thereby treating the Spokane higher education community like other public higher education communities in Washington that receive program approval from the higher education coordinating board. However, the legislature encourages partnerships, collaboration, and avoidance of program duplication through regular communication among the presidents of Spokane's public and private institutions of higher education. The legislature further intends that the residential mission of Eastern Washington University in Cheney be strengthened and that Eastern Washington University focus on the excellence of its primary campus in Cheney.

In addition, the legislature finds that the Spokane intercollegiate research and technology institute is a vital and necessary element in the academic and economic future of eastern Washington. The legislature also finds that it is in the interest of the state of Washington to support and promote applied research and technology in areas of the state that, because of geographic or historic circumstances, have not developed fully balanced economies. It is the intent of the legislature that institutions of higher education and the department of community, trade, and economic development work cooperatively with the private sector in the development and implementation of a technology transfer and integration program to promote the economic development and enhance the quality of life in eastern Washington.

**NEW SECTION. Sec. 2.** (1) The higher education coordinating board shall manage an assessment that determines the current higher education resources of the greater Spokane area and the current and future capital and programmatic higher education needs of the Spokane area, including the balance among anticipated, unmet, and fully met higher education needs. This assessment shall be coordinated with an economic analysis of the greater Spokane area.

(2) The higher education coordinating board, in coordination with the office of financial management, the employment security department, and the department of community, trade, and economic development, shall oversee the administration of an economic assessment of the greater Spokane area. This assessment shall reference previous economic studies of the greater Spokane area and include:

(a) Input from Spokane area civic leaders as well as the higher education and business communities;

(b) An evaluation of the current economic situation in the greater Spokane area and potential sectors and subsectors for significant job expansion;

(c) An analysis of the possible transformation of the economic base toward high technology and opportunities for industries producing higher wages; and

(d) An evaluation of the basic and applied research resources and needs of the present and future economy of the area.

(3) The assessments in subsections (1) and (2) of this section shall be completed by July 1, 1998, and a final report submitted to the higher education and fiscal committees of the legislature by October 1, 1998.

(4) By December 1, 1998, based on the findings of the assessments in subsections (1) and (2) of this section, the higher education coordinating board shall evaluate and develop a plan for the disposition of the Eastern Washington University Spokane Center Building.

(5)(a) By December 1, 1998, based on the findings of the assessments in subsections (1) and (2) of this section, Washington State University shall develop and deliver to the higher education coordinating board for approval a plan for the management of the Riverpoint Higher Education Park, excluding the land and the Spokane Intercollegiate Research and Technology Institute, that includes:

(i) Capital facilities maintenance and development;

(ii) Coordination of upper-division course offerings; and

(iii) The coordination of graduate programs in Spokane.

(b) In developing the plan in (a) of this subsection, Washington State University shall:

(i) Assume that Eastern Washington University students enrolled in Eastern Washington University courses will pay Eastern Washington University tuition rates; and

(ii) Emphasize and implement a maximum level of collaboration and partnerships by Eastern Washington University, Washington State University, and private institutions of higher education at the Riverpoint Higher Education Park.

(c) Washington State University shall submit a preliminary higher education services plan for the Riverpoint Higher Education Park to the higher education coordinating board by September 1, 1998, and a final plan to the higher education coordinating board and the office of financial management by October 15, 1998. The plan shall incorporate, but not be limited to:

(i) Relocation of all Spokane-based upper-division and graduate course offerings and academic programs offered by public universities in the city of Spokane to the Riverpoint Higher Education Park, using existing and planned structures at the Riverpoint Higher Education Park, except that the nursing courses and programs located in the intercollegiate center for nursing education facility shall remain at that location; and

(ii) A plan to establish an intercollegiate health sciences consortium that would be modeled on the intercollegiate center for nursing education. The intercollegiate health sciences consortium shall include, but not be limited to, programs offered through the intercollegiate center for nursing education and public and private institutions of higher education. Programs offered by Eastern Washington University in physical therapy, communication disorders, nursing, and dental hygiene shall continue to be offered by Eastern Washington University in Spokane.

(6) Washington State University, in consultation with the higher education coordinating board, shall write a new mission statement and operations plan for its Spokane branch campus. The draft mission statement and plan shall be submitted to the higher education coordinating board by September 1, 1998, and a final mission statement and plan shall be submitted to the higher education coordinating board for approval by October 15, 1998. The academic mission and plan shall include, but not be limited to the following elements:

(a) Identifying those academic centers of excellence on which Washington State University Spokane branch campus should focus, build, and expand in order to enhance its upper-division and graduate enrollment;

(b) Reflecting that programs in physical therapy, communications disorders, nursing, and dental hygiene continue to be offered through Eastern Washington University in Spokane;

(c) Including a requirement that Washington State University identify and report to the higher education coordinating board programs that should be offered in Spokane because of documented demand, unique partnerships, demonstrated efficiency, and other considerations. The draft of the report shall be submitted to the higher education coordinating board by September 1, 1998, and the final report shall be submitted to the higher education coordinating board by October 15, 1998;

(d) Ensuring that undergraduate programs that are offered at Washington State University Spokane branch campus do not duplicate undergraduate programs offered by Eastern Washington University at Cheney;

(e) Describing and targeting Washington State University Spokane branch campus's primary student audience;

(f) Ensuring that Washington State University Spokane branch campus's admission standards complement the primary student audience;

(g) Describing circumstances under which it is appropriate for Washington State University Spokane branch campus programs to serve nonprimary students;

(h) Establishing projected enrollment levels for Washington State University Spokane branch campus that reflect the needs of an upper-division and graduate level branch campus and that account for the demographic qualities and growth patterns associated with the areas from which the branch campus draws its students;

(i) Describing how Washington State University Spokane branch campus's enrollment levels will be consistent with state enrollment levels;

(j) Developing financial projections for serving these projected enrollment levels; and

(k) Analyzing and reviewing all capital and capacity information regarding the Washington State University Spokane branch campus, with particular attention to the current state of the existing physical plant and to the realistic enrollment capacity of the campus.

(7) Eastern Washington University, in consultation with the higher education coordinating board, shall write a new mission statement and operations plan for Eastern Washington University as a comprehensive, Cheney-based public institution of higher education. The draft mission statement and plan shall be submitted to the higher education coordinating board by September 1, 1998, and a final mission statement and plan shall be submitted to the higher education coordinating board for approval by October 15, 1998. The academic mission and plan shall include, but not be limited to the following elements:

(a) Identifying those academic centers of excellence on which Eastern Washington University should focus, build, and expand in order to enhance its enrollment and reaffirm its reputation for academic excellence;

(b) Reflecting that programs in physical therapy, communications disorders, nursing, and dental hygiene continue to be offered through Eastern Washington University in Spokane;

(c) Including a requirement that Eastern Washington University identify and report to the higher education coordinating board program offerings in Spokane that should be returned to the Cheney campus, discontinued, or continued to be offered in Spokane because of documented demand, unique partnerships, demonstrated efficiency, and other considerations. The draft of the report shall be submitted to the higher education coordinating board by September 1, 1998, and the final report shall be submitted to the higher education coordinating board by October 15, 1998;

(d) Ensuring that every effort is made to protect the academic interests of and minimize adverse impacts on Eastern Washington University students;

(e) Describing and targeting Eastern Washington University's primary student audience;

(f) Ensuring that Eastern Washington University's admission standards complement the primary student audience;

(g) Describing circumstances under which it is appropriate for Eastern Washington University programs to serve nonprimary students;

(h) Establishing projected enrollment levels for Eastern Washington University that reflect the needs of a comprehensive university and that account for the demographic qualities and growth patterns associated with the areas from which Eastern Washington University draws its students;

(i) Describing how Eastern Washington University's enrollment levels will be consistent with state enrollment levels;

(j) Developing financial projections for serving these reconfigured enrollment levels; and

SSB 6751 Prime Sponsor, Senate Committee on Health & Long-Term Care: Ensuring a choice of service and residential options for citizens with developmental disabilities. Reported by Committee on Children & Family Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 71A.10 RCW to read as follows:

It is the intent of the legislature to affirm its longtime commitment to secure for eligible persons with developmental disabilities in partnership with their families or legal guardians the opportunity to choose where they live. Consistent with this commitment, the legislature supports the existence of a complete spectrum of options, including community support services and residential habilitation centers.

The choice of service options must be supported by state policy, whether the choice is residential habilitation centers or community support services. The intent of the legislature is to ensure choice of service options to persons with developmental disabilities allowing, to the maximum extent possible, that they not have to leave their home or community.

The legislature supports the respective roles that both residential habilitation centers and community support services play in providing options and resources for people with developmental disabilities and their families who need services. The legislature recognizes that services must ensure credibility, responsiveness, and reasonable quality, whether they are state, county, or community funded.

**Sec. 2.** RCW 71A.10.020 and 1988 c 176 s 102 are each amended to read as follows:

As used in this title, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Community residential support services," or "community support services," and "in-home services" means one or more of the services listed in RCW 71A.12.040.

(2) "Department" means the department of social and health services.

~~((2))~~ (3) "Developmental disability" means a disability attributable to mental retardation, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to mental retardation or to require treatment similar to that required for individuals with mental retardation, which disability originates before the individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial handicap to the individual. By January 1, 1989, the department shall promulgate rules which define neurological or other conditions in a way that is not limited to intelligence quotient scores as the sole ~~((determinate [determinant]))~~ determinant of these conditions, and notify the legislature of this action.

~~((3))~~ (4) "Eligible person" means a person who has been found by the secretary under RCW 71A.16.040 to be eligible for services.

~~((4))~~ (5) "Habilitative services" means those services provided by program personnel to assist persons in acquiring and maintaining life skills and to raise their levels of physical, mental, social, and vocational functioning. Habilitative services include education, training for employment, and therapy.

~~((5))~~ (6) "Legal representative" means a parent of a person who is under eighteen years of age, a person's legal guardian, a person's limited guardian when the subject matter is within the scope of the limited guardianship, a person's attorney at law, a person's attorney in fact, or any other person who is authorized by law to act for another person.

~~((6))~~ (7) "Notice" or "notification" of an action of the secretary means notice in compliance with RCW 71A.10.060.

~~((7))~~ (8) "Residential habilitation center" means a state-operated facility for persons with developmental disabilities governed by chapter 71A.20 RCW.

~~((8))~~ (9) "Secretary" means the secretary of social and health services or the secretary's designee.

~~((9))~~ (10) "Service" or "services" means services provided by state or local government to carry out this title.

(11) "Vacancy" means an opening at a residential habilitation center, which when filled, would not require the center to exceed its biannually budgeted capacity.

**Sec. 3.** RCW 71A.16.010 and 1988 c 176 s 401 are each amended to read as follows:

(1) It is the intention of the legislature in this chapter to establish a single point of referral for persons with developmental disabilities and their families so that they may have a place of entry and continuing contact for services authorized under this title to persons with developmental disabilities. Eligible persons with developmental disabilities, whether they live in the community or residential habilitation centers, should have the opportunity to choose where they live.

(2) Until June 30, 2003, and subject to subsection (3) of this section, if there is a vacancy in a residential habilitation center, the department shall offer admittance to the center to any eligible adult, or eligible adolescent on an exceptional case-by-case basis, with developmental disabilities if his or her assessed needs require the funded level of resources that are provided by the center.

(3) The department shall not offer a person admittance to a residential habilitation center under subsection (2) of this section unless the department also offers the person appropriate community support services listed in RCW 71A.12.040.

(4) Community support services offered under subsection (3) of this section may only be offered using funds specifically designated for this purpose in the state operating budget. When these funds are exhausted, the department may not offer admittance to a residential habilitation center, or community support services under this section.

(5) Nothing in this section shall be construed to create an entitlement to state services for persons with developmental disabilities.

(6) Subsections (2) through (6) of this section expire June 30, 2003.

**Sec. 4.** RCW 71A.16.030 and 1988 c 176 s 403 are each amended to read as follows:

(1) The department will develop an outreach program to ensure that any eligible person with developmental disabilities services in homes, the community, and residential habilitation centers will be made aware of these services. This subsection (1) expires June 30, 2003.

(2) The secretary shall establish a single procedure for persons to apply for a determination of eligibility for services provided to persons with developmental disabilities.

~~((2))~~ (3) Until June 30, 2003, the procedure set out under subsection (1) of this section must require that all applicants and all persons with developmental disabilities currently receiving services from the division of developmental disabilities within the department be given notice of the existence and availability of residential habilitation center and community support services. For genuine choice to exist, people must know what the options are. Available options must be clearly explained, with services customized to fit the unique needs and circumstances of developmentally disabled clients and their families. Choice of providers and design of services and supports will be determined by the individual in conjunction with the department. When the person cannot make these choices, the person's legal guardian may make them, consistent with chapter 11.88 or 11.92 RCW. This subsection (3) expires June 30, 2003.

(4) An application may be submitted by a person with a developmental disability, by the legal representative of a person with a developmental disability, or by any other person who is authorized by rule of the secretary to submit an application.

**NEW SECTION. Sec. 5.** A new section is added to chapter 71A.12 RCW to read as follows:

(1) The legislature recognizes that residential habilitation center and community support services should be available to each eligible person with developmental disabilities in our state within appropriated funds.

(2) The legislature recognizes that there have been substantially increasing demands for all of these services. Therefore, the legislature believes that any reductions in the capacity of these services could jeopardize a needed balance in the developmental disabilities system. The legislature intends to stabilize the capacity of community support services and residential habilitation center services. The capacity of the residential habilitation centers shall not be reduced below the number of persons budgeted to be served in residential habilitation centers in chapter 149, Laws of 1997, subject to

budget direction from the governor or reductions needed to adhere to an agreement with the federal department of justice regarding Fircrest School. The capacity of community support services shall not be reduced below the capacity provided for by the appropriation specified in chapter 149, Laws of 1997, subject to budget direction from the governor. If the direction from the governor requires reductions in the division of developmental disabilities, the budgets of both the residential habilitation centers and community support services shall be given equal consideration.

(3) If such capacity is not needed for current clients of the department, any vacancies that may occur in community support services or residential habilitation center services shall be used to expand services to eligible persons with developmental disabilities not now receiving services. If a vacancy is created it will be made available to any eligible individual who is seeking and desires the services of a residential habilitation center pursuant to section 3 of this act. If residential habilitation center capacity is not being used for permanent residents, the department shall make any residential habilitation center vacancies available for respite care and any other services needed to care for this population in residential habilitation centers, other than permanent residence.

**NEW SECTION.** **Sec. 6.** A new section is added to chapter 71A.12 RCW to read as follows:  
Any restrictions in staffing ratios that may be needed to implement section 5 of this act within available resources may not result in reductions to direct care staff.

**NEW SECTION.** **Sec. 7.** A new section is added to chapter 71A.20 RCW to read as follows:  
As a means of implementing a choice-oriented system for people with developmental disabilities, staff of residential habilitation centers will continue to increase vocational and community access for current residents. Likewise, specialized residential habilitation services will be more easily accessed by community residents within available funds.

**NEW SECTION.** **Sec. 8.** A new section is added to chapter 71A.12 RCW to read as follows:  
The department shall conduct an analysis whereby it identifies all persons with developmental disabilities who are eligible for services under Title 71A RCW, and whether they are served, unserved, or underserved. The department will gather data on the services and supports required by this population, their families or their guardians, and the cost of providing these services. This analysis will include assessing services such as those at residential habilitation centers, those community support services listed in RCW 71A.12.040, and including, but not limited to, supported employment, family support, post high school transition programs, crisis intervention services, supports for persons who have a developmental disability and also a mental illness, alternative uses for residential habilitation centers, community vocational services, respite care, specialized medical treatment, and appropriate placements for persons with developmental disabilities who are also offenders. The assessment shall be done with the participation of the developmental disabilities stakeholders work group. The assessment will commence no later than July 1, 1998.

The assessment data will not be used to determine or allocate services for individual people. It will be used by the department, with the participation of the developmental disabilities stakeholder work group, to develop a long-term strategic plan. The plan will include three phases, the first one beginning December 1, 1998; the second beginning December 1, 2000; and the third beginning December 1, 2002. For each phase the department will provide incremental data and assessment of programs, services, and funding for persons with developmental disabilities and their families. For each phase the plan must also include budget and statutory recommendations intended to secure for all persons with developmental disabilities the opportunity to choose where they live, and shall support the existence of a complete spectrum of options including community support services, and residential habilitation centers that are consistent with those needs.

**NEW SECTION.** **Sec. 9.** A new section is added to chapter 71A.12 RCW to read as follows:  
For the purposes of section 8 of this act, the developmental disabilities stakeholder work group is the division of developmental disabilities strategies for the future stakeholder work group established by the secretary in 1997 to develop recommendations on future directions and strategies for service delivery improvement, resulting in an agreement on the directions the department should follow in

considering the respective roles of the residential habilitation centers and community support services, including a focus on the resources for people in need of services.

NEW SECTION. **Sec. 10.** Sections 1 and 5 through 9 of this act expire June 30, 2003.

NEW SECTION. **Sec. 11.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

MAJORITY recommendation: Do pass as amended.

Strike everything after line 7 and insert the following:

"Article XI, section ... In addition to the methods of framing a county home rule charter which are contained in section 4 of this Article, a charter may be framed as provided in this section. The legislature shall without unreasonable delay enact legislation creating and appropriating funds for a temporary county home rule committee of fifteen members. The committee shall draft five alternative county "Home Rule" charters, a copy of which shall be submitted to the legislative authority of each county, and shall be retained by the state in its permanent records. Any one of the five alternative charters may include one or more sets of alternative articles or propositions that are selected by voters separately from the basic question of whether the charter should be approved or rejected. The committee shall exist not more than one year. Committee members shall be appointed by the governor with at least one-third of the members to consist of members of the legislature and elected county officials. A new county home rule committee with the same membership qualifications, which shall exist no longer than a one-year period, shall be appointed by the governor to redraft any of the alternative "Home Rule" charters whenever the legislature enacts legislation calling for the creation of a new temporary home rule committee. As far as practical, all committees created under this section shall be representative of major geographic areas of the state and the state's demographic distribution.

Any one alternative charter may be submitted at an election to voters of any county for their approval and ratification, or rejection, upon either: (1) An ordinance adopted by the county legislative authority; or (2) the filing of a petition calling for an election which is signed by registered voters of the county equal in number to ten percent of the voters voting at the last preceding general election in the county. Upon approval and ratification of a charter by the voters of the county under this section, the charter shall become the organic law of the county. If voters approve and ratify a charter with alternative articles or provisions, the charter that is approved and ratified shall include those alternative articles or provisions that were selected by the voters.

BE IT FURTHER RESOLVED, That the secretary of state shall cause notice of the foregoing constitutional amendment to be published at least four times during the four weeks next preceding the election in every legal newspaper in the state and that the ballot title of the foregoing constitutional amendment shall be: "Shall an additional procedure be permitted to simplify the process by which a proposed county charter is placed upon the ballot?"

2SSB 6190 Prime Sponsor, Senate Committee on Transportation: Strengthening laws on disabled persons' parking permits. Reported by Committee on Transportation Policy & Budget

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 46.16.381 and 1995 c 384 s 1 are each amended to read as follows:

(1) The director shall grant special parking privileges to any person who has a disability that limits or impairs the ability to walk and meets one of the following criteria, as determined by a licensed physician:

- (a) Cannot walk two hundred feet without stopping to rest;
- (b) Is severely limited in ability to walk due to arthritic, neurological, or orthopedic condition;
- (c) Is so severely disabled, that the person cannot walk without the use of or assistance from a brace, cane, another person, prosthetic device, wheelchair, or other assistive device;
- (d) Uses portable oxygen;
- (e) Is restricted by lung disease to such an extent that forced expiratory respiratory volume, when measured by spirometry is less than one liter per second or the arterial oxygen tension is less than sixty mm/ hg on room air at rest;
- (f) Impairment by cardiovascular disease or cardiac condition to the extent that the person's functional limitations are classified as class III or IV under standards accepted by the American Heart Association; or

(g) Has a disability resulting from an acute sensitivity to automobile emissions which limits or impairs the ability to walk. The personal physician of the applicant shall document that the disability is comparable in severity to the others listed in this subsection.

(2) The applications for disabled parking permits and temporary disabled parking permits are official state documents. Knowingly providing false information in conjunction with the application is a gross misdemeanor punishable under chapter 9A.20 RCW. The following statement must appear on each application form immediately below the physician's signature and immediately below the applicant's signature: "A disabled parking permit may be issued only for a medical necessity that severely affects mobility (RCW 46.16.381). Knowingly providing false information on this application is a gross misdemeanor. The penalty is up to one year in jail and a fine of up to \$5,000 or both."

(3) Those individuals who have one or both legs amputated and do not use a prosthetic device are exempt from the physician certification requirement necessary to receive special parking privileges. In order to qualify for special parking privileges, leg amputees must apply at a licensing office and the licensing office supervisor must visually confirm the amputation. Based on this confirmation, the certification of the person's disability is satisfied.

(4) Persons who qualify for special parking privileges are entitled to receive from the department of licensing a removable windshield placard bearing the international symbol of access and

an individual serial number, along with a special identification card bearing the photograph and name of the person to whom the placard is issued, and the placard's serial number. The department shall design the placard to be displayed when the vehicle is parked by suspending it from the rearview mirror, or in the absence of a rearview mirror the card may be displayed on the dashboard of any vehicle used to transport the disabled person. Instead of regular motor vehicle license plates, disabled persons are entitled to receive special license plates bearing the international symbol of access for one vehicle registered in the disabled person's name. Disabled persons who are not issued the special license plates are entitled to receive a second special placard upon submitting a written request to the department. Persons who have been issued the parking privileges and who are using a vehicle or are riding in a vehicle displaying the special license plates or placard may park in places reserved for mobility disabled persons. The director shall adopt rules providing for the issuance of special placards and license plates to public transportation authorities, nursing homes licensed under chapter 18.51 RCW, boarding homes licensed under chapter 18.20 RCW, senior citizen centers, private nonprofit agencies as defined in chapter 24.03 RCW, and vehicles registered with the department as cabulances that regularly transport disabled persons who have been determined eligible for special parking privileges provided under this section. The director may issue special license plates for a vehicle registered in the name of the public transportation authority, nursing home, boarding homes, senior citizen center, private nonprofit agency, or cabulance service if the vehicle is primarily used to transport persons with disabilities described in this section. Public transportation authorities, nursing homes, boarding homes, senior citizen centers, private nonprofit agencies, and cabulance services are responsible for insuring that the special placards and license plates are not used improperly and are responsible for all fines and penalties for improper use.

~~((3))~~ (5) Whenever the disabled person transfers or assigns his or her interest in the vehicle, the special license plates shall be removed from the motor vehicle. If another vehicle is acquired by the disabled person and the vehicle owner qualifies for a special plate, the plate shall be attached to the vehicle, and the director shall be immediately notified of the transfer of the plate. If another vehicle is not acquired by the disabled person, the removed plate shall be immediately surrendered to the director.

~~((4))~~ (6) The special license plate shall be renewed in the same manner and at the time required for the renewal of regular motor vehicle license plates under this chapter. No special license plate may be issued to a person who is temporarily disabled. A person who has a condition expected to improve within six months may be issued a temporary placard for a period not to exceed six months. ~~((The director may issue a second temporary placard during that period if requested by the person who is temporarily disabled.))~~ If the condition exists after six months a new temporary placard shall be issued upon receipt of a new certification from the disabled person's physician. The permanent parking placard and photo identification card of a disabled person shall be renewed~~((when))~~ at least every five years, as required by the director, by satisfactory proof of the right to continued use of the privileges. In the event of the permit holder's death, the parking placard and photo identification card must be immediately surrendered to the department. The department shall match and purge its disabled permit data base with available death record information at least every twelve months.

~~((5))~~ (7) Each person who has been issued a permanent disabled parking permit on or before July 1, 1998, must renew the permit no later than July 1, 2003, subject to a schedule to be set by the department, or the permit will expire.

(8) Additional fees shall not be charged for the issuance of the special placards or the photo identification cards. No additional fee may be charged for the issuance of the special license plates except the regular motor vehicle registration fee and any other fees and taxes required to be paid upon registration of a motor vehicle.

~~((6))~~ (9) Any unauthorized use of the special placard ~~((or the)),~~ special license plate, or photo identification card is a ~~((misdemeanor))~~ traffic infraction with a monetary penalty of two hundred fifty dollars.

~~((7))~~ (10) It is a parking infraction, with a monetary penalty of one hundred seventy-five dollars for a person to make inaccessible the access aisle located next to a space reserved for physically disabled persons. The clerk of the court shall report all violations related to this subsection to the department.

(11) It is a parking infraction, with a monetary penalty of one hundred seventy-five dollars for any person to park a vehicle in a parking place provided on private property without charge or on

public property reserved for physically disabled persons without a special license plate or placard. If a person is charged with a violation, the person shall not be determined to have committed an infraction if the person produces in court or before the court appearance the special license plate or placard required under this section. A local jurisdiction providing nonmetered, on-street parking places reserved for physically disabled persons may impose by ordinance time restrictions of no less than four hours on the use of these parking places. A local jurisdiction may impose by ordinance time restrictions of no less than four hours on the use of nonreserved, on-street parking spaces by vehicles displaying the special parking placards. All time restrictions must be clearly posted.

~~((8))~~ (12) The ~~(penalty)~~ penalties imposed under subsections ~~((7))~~ (10) and (11) of this section shall be used by that local jurisdiction exclusively for law enforcement. The court may also impose an additional penalty sufficient to reimburse the local jurisdiction for any costs it may have incurred in removal and storage of the improperly parked vehicle.

~~((9))~~ (13) Except as provided by subsection (2) of this section, it is a ~~(misdemeanor)~~ traffic infraction with a monetary penalty of two hundred fifty dollars for any person ~~((to))~~ willfully to obtain a special license plate ~~((or))~~ placard, or photo identification card in a manner other than that established under this section.

(14)(a) A law enforcement agency authorized to enforce parking laws may appoint volunteers to issue notices of infractions for violations of this section or RCW 46.61.581. Volunteers must be at least twenty-one years of age. The law enforcement agency appointing volunteers may establish any other qualifications the agency deems desirable.

(b) An agency appointing volunteers under this section must provide training to the volunteers before authorizing them to issue notices of infractions.

(c) A notice of infraction issued by a volunteer appointed under this subsection has the same force and effect as a notice of infraction issued by a police officer for the same offense.

(d) A police officer or a volunteer may request a person to show the person's photo identification card or special parking placard when investigating the possibility of a violation of this section. If the request is refused, the person in charge of the vehicle may be issued a notice of infraction for a violation of this section.

(e) A police officer or a volunteer may confiscate the special parking placard and photo identification card from a person who fraudulently obtains or uses the placard or photo identification card.

(15) For second or subsequent violations of this section, in addition to a monetary fine, the violator must complete a minimum of forty hours of:

(a) Community service for a nonprofit organization that serves the disabled community or persons having disabling diseases; or

(b) Any other community service that may sensitize the violator to the needs and obstacles faced by persons who have disabilities.

**Sec. 2.** RCW 46.61.581 and 1988 c 74 s 1 are each amended to read as follows:

A parking space or stall for a disabled person shall be indicated by a vertical sign, between thirty-six and eighty-four inches off the ground, with the international symbol of access, whose colors are white on a blue background, described under RCW 70.92.120 and the notice "State disabled parking permit required."

Failure of the person owning or controlling the property where required parking spaces are located to erect and maintain the sign is a class ~~((4))~~ 2 civil infraction under chapter 7.80 RCW for each parking space that should be so designated. The person owning or controlling the property where the required parking spaces are located shall ensure that the parking spaces are not blocked or made inaccessible, and failure to do so is a class 2 civil infraction.

SB 6220 Prime Sponsor, Senator Horn: Allowing airline employees to trade shifts without overtime pay. Reported by Committee on Transportation Policy & Budget

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that employees in the airline industry have a long-standing practice and tradition of trading shifts voluntarily among themselves. The legislature also finds that federal law exempts airline and other employees from the provisions of federal overtime regulations. This act is intended to specify that airline industry employers are not required to pay overtime compensation to an employee agreeing to work additional hours for a coemployee.

**Sec. 2.** RCW 49.46.130 and 1997 c 311 s 1 and 1997 c 203 s 2 are each reenacted and amended to read as follows:

(1) Except as otherwise provided in this section, no employer shall employ any of his employees for a work week longer than forty hours unless such employee receives compensation for his employment in excess of the hours above specified at a rate not less than one and one-half times the regular rate at which he is employed.

(2) This section does not apply to:

(a) Any person exempted pursuant to RCW 49.46.010(5). The payment of compensation or provision of compensatory time off in addition to a salary shall not be a factor in determining whether a person is exempted under RCW 49.46.010(5)(c);

(b) Employees who request compensating time off in lieu of overtime pay;

(c) Any individual employed as a seaman whether or not the seaman is employed on a vessel other than an American vessel;

(d) Seasonal employees who are employed at concessions and recreational establishments at agricultural fairs, including those seasonal employees employed by agricultural fairs, within the state provided that the period of employment for any seasonal employee at any or all agricultural fairs does not exceed fourteen working days a year;

(e) Any individual employed as a motion picture projectionist if that employee is covered by a contract or collective bargaining agreement which regulates hours of work and overtime pay;

(f) An individual employed as a truck or bus driver who is subject to the provisions of the Federal Motor Carrier Act (49 U.S.C. Sec. 3101 et seq. and 49 U.S.C. Sec. 10101 et seq.), if the compensation system under which the truck or bus driver is paid, which may be an hourly based wage system, includes overtime pay, reasonably equivalent to that required by this subsection, for working longer than forty hours per week;

(g) Any individual employed (i) on a farm, in the employ of any person, in connection with the cultivation of the soil, or in connection with raising or harvesting any agricultural or horticultural commodity, including raising, shearing, feeding, caring for, training, and management of livestock, bees, poultry, and furbearing animals and wildlife, or in the employ of the owner or tenant or other operator of a farm in connection with the operation, management, conservation, improvement, or maintenance of such farm and its tools and equipment; or (ii) in packing, packaging, grading, storing or delivering to storage, or to market or to a carrier for transportation to market, any agricultural or horticultural commodity; or (iii) commercial canning, commercial freezing, or any other commercial processing, or with respect to services performed in connection with the cultivation, raising, harvesting, and processing of oysters or in connection with any agricultural or horticultural commodity after its delivery to a terminal market for distribution for consumption;

(h) Any industry in which federal law provides for an overtime payment based on a work week other than forty hours. However, the provisions of the federal law regarding overtime payment based on a work week other than forty hours shall nevertheless apply to employees covered by this section without regard to the existence of actual federal jurisdiction over the industrial activity of the particular employer within this state. For the purposes of this subsection, "industry" means a trade, business, industry, or other activity, or branch, or group thereof, in which individuals are gainfully employed (section 3(h) of the Fair Labor Standards Act of 1938, as amended (Public Law 93-259));

(i) Any hours worked by an employee of a carrier by air subject to the provisions of subchapter II of the Railway Labor Act (45 U.S.C. Sec. 181 et seq.), when such hours are voluntarily worked by the employee pursuant to a shift-trading practice under which the employee has the opportunity in the same or in other work weeks to reduce hours worked by voluntarily offering a shift for trade or reassignment.

(3) No employer shall be deemed to have violated subsection (1) of this section by employing any employee of a retail or service establishment for a work week in excess of the applicable work week specified in subsection (1) of this section if:

(a) The regular rate of pay of the employee is in excess of one and one-half times the minimum hourly rate required under RCW 49.46.020; and

(b) More than half of the employee's compensation for a representative period, of not less than one month, represents commissions on goods or services.

In determining the proportion of compensation representing commissions, all earnings resulting from the application of a bona fide commission rate is to be deemed commissions on goods or services without regard to whether the computed commissions exceed the draw or guarantee.

(4) No employer of commissioned salespeople primarily engaged in the business of selling automobiles, trucks, recreational vessels, recreational vessel trailers, recreational vehicle trailers, recreational campers, manufactured housing, or farm implements to ultimate purchasers shall violate subsection (1) of this section with respect to such commissioned salespeople if the commissioned salespeople are paid the greater of:

(a) Compensation at the hourly rate, which may not be less than the rate required under RCW 49.46.020, for each hour worked up to forty hours per week, and compensation of one and one-half times that hourly rate for all hours worked over forty hours in one week; or

(b) A straight commission, a salary plus commission, or a salary plus bonus applied to gross salary.

(5) No public agency shall be deemed to have violated subsection (1) of this section with respect to the employment of any employee in fire protection activities or any employee in law enforcement activities (including security personnel in correctional institutions) if: (a) In a work period of twenty-eight consecutive days the employee receives for tours of duty which in the aggregate exceed two hundred forty hours; or (b) in the case of such an employee to whom a work period of at least seven but less than twenty-eight days applies, in his or her work period the employee receives for tours of duty which in the aggregate exceed a number of hours which bears the same ratio to the number of consecutive days in his or her work period as two hundred forty hours bears to twenty-eight days; compensation at a rate not less than one and one-half times the regular rate at which he or she is employed.

NEW SECTION. Sec. 3. This act does not alter the terms, conditions, or practices contained in any collective bargaining agreement.

NEW SECTION. Sec. 4. This act is remedial in nature and applies retroactively.

NEW SECTION. Sec. 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(b)(i), the court may order not less than thirty days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. Thirty days of imprisonment and sixty days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

Forty-five days of imprisonment and ninety days of electronic home monitoring may not be suspended or deferred unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended or deferred, the court shall state in writing the reason for granting the suspension or deferral and the facts upon which the suspension or deferral is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended or deferred unless the court finds the offender to be indigent; and

(6) After expiration of any period of suspension or revocation of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

SSB 6306 Prime Sponsor, Senate Committee on Ways & Means: Creating the Washington school employees' retirement system. Reported by Committee on Appropriations.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature recognizes that teachers and school district employees share the same educational work environment and academic calendar.

It is the intent of the legislature to achieve similar retirement benefits for all educational employees by transferring the membership of classified school employees in the public employees' retirement system plan II to the Washington school employees' retirement system plan II. The transfer of membership to the Washington school employees' retirement system plan II is not intended to cause

a diminution or expansion of benefits for affected members. It is enacted solely to provide public employees working under the same conditions with the same options for retirement planning.

As members of the Washington school employees' retirement system plan II, classified employees will have the same opportunity to transfer to the Washington school employees' retirement system plan III as their certificated coworkers. The ability to transfer to the Washington school employees' retirement system plan III offers members a new public retirement system that balances flexibility with stability; provides increased employee control of investments and responsible protection of the public's investment in employee benefits; and encourages the pursuit of public sector careers without creating barriers to other public or private sector employment.

**NEW SECTION. Sec. 2.** The definitions in this section apply throughout this chapter, unless the context clearly requires otherwise:

(1) "Retirement system" means the Washington school employees' retirement system provided for in this chapter.

(2) "Department" means the department of retirement systems created in chapter 41.50 RCW.

(3) "State treasurer" means the treasurer of the state of Washington.

(4) "Employer," for plan II and plan III members, means a school district or an educational service district.

(5) "Member" means any employee included in the membership of the retirement system, as provided for in section 4 of this act.

(6)(a) "Compensation earnable" for plan II and plan III members, means salaries or wages earned by a member during a payroll period for personal services, including overtime payments, and shall include wages and salaries deferred under provisions established pursuant to sections 403(b), 414(h), and 457 of the United States internal revenue code, but shall exclude nonmoney maintenance compensation and lump sum or other payments for deferred annual sick leave, unused accumulated vacation, unused accumulated annual leave, or any form of severance pay.

(b) "Compensation earnable" for plan II and plan III members also includes the following actual or imputed payments, which are not paid for personal services:

(i) Retroactive payments to an individual by an employer on reinstatement of the employee in a position, or payments by an employer to an individual in lieu of reinstatement, which are awarded or granted as the equivalent of the salary or wage which the individual would have earned during a payroll period shall be considered compensation earnable to the extent provided in this subsection, and the individual shall receive the equivalent service credit;

(ii) In any year in which a member serves in the legislature, the member shall have the option of having such member's compensation earnable be the greater of:

(A) The compensation earnable the member would have received had such member not served in the legislature; or

(B) Such member's actual compensation earnable received for nonlegislative public employment and legislative service combined. Any additional contributions to the retirement system required because compensation earnable under (b)(ii)(A) of this subsection is greater than compensation earnable under this (b)(ii)(B) of this subsection shall be paid by the member for both member and employer contributions;

(iii) Assault pay only as authorized by RCW 27.04.100, 72.01.045, and 72.09.240;

(iv) Compensation that a member would have received but for a disability occurring in the line of duty only as authorized by RCW 41.40.038;

(v) Compensation that a member receives due to participation in the leave sharing program only as authorized by RCW 41.04.650 through 41.04.670; and

(vi) Compensation that a member receives for being in standby status. For the purposes of this section, a member is in standby status when not being paid for time actually worked and the employer requires the member to be prepared to report immediately for work, if the need arises, although the need may not arise.

(7) "Service" for plan II and plan III members, means periods of employment by a member in an eligible position or positions for one or more employers for which compensation earnable is paid. Compensation earnable earned for ninety or more hours in any calendar month shall constitute one service credit month except as provided in section 19 of this act. Compensation earnable earned for at least seventy hours but less than ninety hours in any calendar month shall constitute one-half service credit month of service. Compensation earnable earned for less than seventy hours in any calendar

month shall constitute one-quarter service credit month of service. Time spent in standby status, whether compensated or not, is not service.

Any fraction of a year of service shall be taken into account in the computation of such retirement allowance or benefits.

(a) Service in any state elective position shall be deemed to be full-time service.

(b) A member shall receive a total of not more than twelve service credit months of service for such calendar year. If an individual is employed in an eligible position by one or more employers the individual shall receive no more than one service credit month during any calendar month in which multiple service for ninety or more hours is rendered.

(c) For purposes of plan II and III "forty-five days" as used in RCW 28A.400.300 is equal to two service credit months. Use of less than forty-five days of sick leave is creditable as allowed under this subsection as follows:

(i) Less than eleven days equals one-quarter service credit month;

(ii) Eleven or more days but less than twenty-two days equals one-half service credit month;

(iii) Twenty-two days equals one service credit month;

(iv) More than twenty-two days but less than thirty-three days equals one and one-quarter service credit month; and

(12) "Regular interest" means such rate as the director may determine.

(13) "Accumulated contributions" means the sum of all contributions standing to the credit of a member in the member's individual account, including any amount paid under RCW 41.50.165(2), together with the regular interest thereon.

(14) "Average final compensation" for plan II and plan III members means the member's average compensation earnable of the highest consecutive sixty months of service credit months prior to such member's retirement, termination, or death. Periods constituting authorized leaves of absence may not be used in the calculation of average final compensation except under RCW 41.40.710(2).

(15) "Final compensation" means the annual rate of compensation earnable by a member at the time of termination of employment.

(16) "Annuity" means payments for life derived from accumulated contributions of a member. All annuities shall be paid in monthly installments.

All such rules shall be governed by the provisions of chapter 34.05 RCW. This retirement system shall be known as the Washington school employees' retirement system.

(3) In the event of failure, for any reason, of an employer other than a political subdivision of the state to have remitted amounts due for membership service of any of the employer's members rendered during a prior biennium, the director shall bill such employer for such employer's contribution together with such charges as the director deems appropriate in accordance with RCW 41.50.120. Such billing shall be paid by the employer as, and the same shall be, a proper charge against any moneys available or appropriated to such employer for payment of current biennial payrolls.

This section also does not prohibit a beneficiary of a retirement allowance from authorizing deductions therefrom for payment of dues and other membership fees to any retirement association or organization the membership of which is composed of retired public employees, if a total of three hundred or more of such retired employees have authorized such deduction for payment to the same retirement association or organization.

The service may be reestablished and transferred only upon payment by the member to the employees' savings fund of this retirement system of the amount withdrawn plus interest thereon from the date of withdrawal until the date of payment at a rate determined by the director. No additional payments are required for service credit described in this subsection if already established under this chapter; and

(c) Establish service credit for the initial period of employment not to exceed six months, prior to establishing membership under chapter 41.44 RCW, upon payment in full by the member of the total employer's contribution to the benefit account fund of this retirement system that would have been made under this chapter when the initial service was rendered. The payment shall be based on the first month's compensation earnable as a member of the state-wide city employees' retirement system and as defined in RCW 41.44.030(13). However, a person who has established service credit under RCW 41.40.010(13) (c) or (d) shall not establish additional credit under this subsection nor may anyone who establishes credit under this subsection establish any additional credit under RCW 41.40.010(13) (c) or (d). No additional payments are required for service credit described in this subsection if already established under this chapter.

(2) The written election must be filed and the payments must be completed in full within one year after employment by an employer.

(3) Upon receipt of the written election and payments required by subsection (1) of this section from any retiree described in subsection (1) of this section, the department shall recompute the retiree's allowance in accordance with this section and shall pay any additional benefit resulting from such recomputation retroactively to the date of retirement from the system governed by this chapter.

(4) Any person who was a member of the state-wide city employees' retirement system under chapter 41.44 RCW and also became a member of the public employees' retirement system established under chapter 41.40 RCW or the Washington school employees' retirement system established under this chapter, and did not make the election under RCW 41.40.058 or subsection (1) of this section because he or she was not a member of the public employees' retirement system prior to July 27, 1987, or did not meet the time limitations of RCW 41.40.058 or subsection (2) of this section, may elect to do any of the following:

The notice of hearing shall set forth in full detail the grounds upon which the person considers the decision unjust or unlawful and shall include every issue to be considered by the department, and it must contain a detailed statement of facts upon which the person relies in support of the appeal. These persons shall be deemed to have waived all objections or irregularities concerning the matter on which the appeal is taken, other than those specifically set forth in the notice of hearing or appearing in the records of the retirement system.

**NEW SECTION. Sec. 16.** Following its receipt of a notice for hearing in accordance with section 15 of this act, a hearing shall be held by the director or a duly authorized representative, in the county of the residence of the claimant at a time and place designated by the director. Such hearing shall be conducted and governed in all respects by the provisions of chapter 34.05 RCW.

**NEW SECTION. Sec. 17.** Judicial review of any final decision and order by the director is governed by the provisions of chapter 34.05 RCW.

**NEW SECTION. Sec. 18.** No bond of any kind shall be required of a claimant appealing to the superior court, the court of appeals, or the supreme court from a finding of the department affecting the claimant's right to retirement or disability benefits.

**NEW SECTION. Sec. 19.** (1) Except for any period prior to the member's employment in an eligible position, a plan II or plan III member who is employed by a school district or districts or an educational service district:

(a) Shall receive a service credit month for each month of the period from September through August of the following year if he or she is employed in an eligible position, earns compensation earnable for eight hundred ten hours or more during that period, and is employed during nine months of that period;

(b) If a member in an eligible position for each month of the period from September through August of the following year does not meet the hours requirements of (a) of this subsection, the member is entitled to one-half service credit month for each month of the period if he or she earns earnable compensation for at least six hundred thirty hours but less than eight hundred ten hours during that period, and is employed nine months of that period;

(c) In all other instances, a member in an eligible position is entitled to service credit months as follows:

(i) One service credit month for each month in which compensation is earned for ninety or more hours;

(ii) One-half service credit month for each month in which compensation is earned for at least seventy hours but less than ninety hours; and

(iii) One-quarter service credit month for each month in which compensation is earned for less than seventy hours.

(2) The department shall adopt rules implementing this section.

**NEW SECTION. Sec. 20.** RCW 43.01.044 shall not result in any increase in retirement benefits. The rights extended to state officers and employees under RCW 43.01.044 are not intended to and shall not have any effect on retirement benefits under this chapter.

**NEW SECTION. Sec. 21.** (1) The annual compensation taken into account in calculating retiree benefits under this system shall not exceed the limits imposed by section 401(a)(17) of the federal internal revenue code for qualified trusts.

(2) The department shall adopt rules as necessary to implement this section.

**NEW SECTION. Sec. 22.** Beginning July 1, 1979, and every year thereafter, the department shall determine the following information for each retired member or beneficiary whose retirement allowance has been in effect for at least one year:

(1) The original dollar amount of the retirement allowance;

(2) The index for the calendar year prior to the effective date of the retirement allowance, to be known as "index A";

(3) The index for the calendar year prior to the date of determination, to be known as "index B"; and

(4) The ratio obtained when index B is divided by index A.

The value of the ratio obtained shall be the annual adjustment to the original retirement allowance and shall be applied beginning with the July payment. In no event, however, shall the annual adjustment:

(a) Produce a retirement allowance which is lower than the original retirement allowance;

(b) Exceed three percent in the initial annual adjustment; or

(c) Differ from the previous year's annual adjustment by more than three percent.

For the purposes of this section, "index" means, for any calendar year, that year's average consumer price index--Seattle, Washington area for urban wage earners and clerical workers, all items, compiled by the bureau of labor statistics, United States department of labor.

**NEW SECTION. Sec. 23.** (1) Upon retirement for service as prescribed in section 103 or 209 of this act or retirement for disability under section 105 or 210 of this act, a member shall elect to have the retirement allowance paid pursuant to one of the following options, calculated so as to be actuarially equivalent to each other.

(a) Standard allowance. A member electing this option shall receive a retirement allowance payable throughout such member's life. However, if the retiree dies before the total of the retirement allowance paid to such retiree equals the amount of such retiree's accumulated contributions at the time of retirement, then the balance shall be paid to the member's estate, or such person or persons, trust, or organization as the retiree shall have nominated by written designation duly executed and filed with the department; or if there be no such designated person or persons still living at the time of the retiree's death, then to the surviving spouse; or if there be neither such designated person or persons still living at the time of death nor a surviving spouse, then to the retiree's legal representative.

(b) The department shall adopt rules that allow a member to select a retirement option that pays the member a reduced retirement allowance and upon death, such portion of the member's reduced retirement allowance as the department by rule designates shall be continued throughout the life of and paid to a person nominated by the member by written designation duly executed and filed with the department at the time of retirement. The options adopted by the department shall include, but are not limited to, a joint and one hundred percent survivor option and a joint and fifty percent survivor option.

(2)(a) A member, if married, must provide the written consent of his or her spouse to the option selected under this section, except as provided in (b) of this subsection. If a member is married and both the member and the member's spouse do not give written consent to an option under this section, the department shall pay a joint and fifty percent survivor benefit calculated to be actuarially equivalent to the benefit options available under subsection (1) of this section unless spousal consent is not required as provided in (b) of this subsection.

(b) If a copy of a dissolution order designating a survivor beneficiary under RCW 41.50.790 has been filed with the department at least thirty days prior to a member's retirement:

(i) The department shall honor the designation as if made by the member under subsection (1) of this section; and

(ii) The spousal consent provisions of (a) of this subsection do not apply.

**NEW SECTION. Sec. 24.** (1) Except as provided in section 7 of this act, no retiree under the provisions of plan II shall be eligible to receive such retiree's monthly retirement allowance if he or she is employed in an eligible position as defined in section 2 of this act, RCW 41.40.010 or 41.32.010, or as a law enforcement officer or fire fighter as defined in RCW 41.26.030, except that a retiree who ends his or her membership in the retirement system pursuant to RCW 41.40.023(3)(b) is not subject to this section if the retiree's only employment is as an elective official.

(2) If a retiree's benefits have been suspended under this section, his or her benefits shall be reinstated when the retiree terminates the employment that caused his or her benefits to be suspended. Upon reinstatement, the retiree's benefits shall be actuarially recomputed pursuant to the rules adopted by the department.

(3) The department shall adopt rules implementing this section.

**NEW SECTION. Sec. 25.** Sections 1 through 24 of this act apply to members of plan II and plan III.

**NEW SECTION. Sec. 101.** A member of the retirement system shall receive a retirement allowance equal to two percent of such member's average final compensation for each service credit year of service.

**NEW SECTION. Sec. 102.** (1) The director may pay a member eligible to receive a retirement allowance or the member's beneficiary, subject to the provisions of subsection (5) of this section, a lump sum payment in lieu of a monthly benefit if the initial monthly benefit computed in accordance with section 101 of this act would be less than fifty dollars. The lump sum payment shall be the greater of the actuarial equivalent of the monthly benefits or an amount equal to the individual's accumulated contributions plus accrued interest.

(2) A retiree or a beneficiary, subject to the provisions of subsection (5) of this section, who is receiving a regular monthly benefit of less than fifty dollars may request, in writing, to convert from a monthly benefit to a lump sum payment. If the director approves the conversion, the calculation of the actuarial equivalent of the total estimated regular benefit will be computed based on the beneficiary's age at the time the benefit initially accrued. The lump sum payment will be reduced to reflect any payments received on or after the initial benefit accrual date.

(3) Persons covered under the provisions of RCW 41.40.625 or subsection (1) of this section may upon returning to member status reinstate all previous service by depositing the lump sum payment received, with interest as computed by the director, within two years of returning to service or prior to rereading, whichever comes first. In computing the amount due, the director shall exclude the accumulated value of the normal payments the member would have received while in beneficiary status if the lump sum payment had not occurred.

(4) If a member fails to meet the time limitations under subsection (3) of this section, reinstatement of all previous service will occur if the member pays the amount required under RCW 41.50.165(2). The amount, however, shall exclude the accumulated value of the normal payments the member would have received while in beneficiary status if the lump sum payment had not occurred.

(5) Only persons entitled to or receiving a service retirement allowance under section 101 of this act or an earned disability allowance under section 105 of this act qualify for participation under this section.

(6) It is the intent of the legislature that any member who receives a settlement under this section shall be deemed to be retired from this system.

**NEW SECTION. Sec. 103.** (1) **NORMAL RETIREMENT.** Any member with at least five service credit years who has attained at least age sixty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of section 101 of this act.

(2) EARLY RETIREMENT. Any member who has completed at least twenty service credit years and has attained age fifty-five shall be eligible to retire and to receive a retirement allowance computed according to the provisions of section 101 of this act, except that a member retiring pursuant to this subsection shall have the retirement allowance actuarially reduced to reflect the difference in the number of years between age at retirement and the attainment of age sixty-five.

**NEW SECTION. Sec. 104.** The required contribution rates to the retirement system for both members and employers shall be established by the director from time to time as may be necessary upon the advice of the state actuary. The state actuary shall use the aggregate actuarial cost method to calculate contribution rates. The employer contribution rate calculated under this section shall be used only for the purpose of determining the amount of employer contributions to be deposited in the plan II fund from the total employer contributions collected under section 10 of this act.

Contribution rates required to fund the costs of the retirement system shall always be equal for members and employers, except as herein provided. Any adjustments in contribution rates required from time to time for future costs shall likewise be shared equally by the members and employers.

Any increase in the contribution rate required as the result of a failure of an employer to make any contribution required by this section shall be borne in full by the employer not making the contribution.

The director shall notify all employers of any pending adjustment in the required contribution rate and such increase shall be announced at least thirty days prior to the effective date of the change.

Members contributions required by this section shall be deducted from the members compensation earnable each payroll period. The members contribution and the employers contribution shall be remitted directly to the department within fifteen days following the end of the calendar month during which the payroll period ends.

**NEW SECTION. Sec. 105.** (1) A member of the retirement system who becomes totally incapacitated for continued employment by an employer as determined by the department upon recommendation of the department shall be eligible to receive an allowance under the provisions of sections 101 through 112 of this act. The member shall receive a monthly disability allowance computed as provided for in section 101 of this act and shall have this allowance actuarially reduced to reflect the difference in the number of years between age at disability and the attainment of age sixty-five.

Any member who receives an allowance under the provisions of this section shall be subject to comprehensive medical examinations as required by the department. If these medical examinations reveal that a member has recovered from the incapacitating disability and the member is offered reemployment by an employer at a comparable compensation, the member shall cease to be eligible for the allowance.

(2) If the recipient of a monthly retirement allowance under this section dies before the total of the retirement allowance paid to the recipient equals the amount of the accumulated contributions at the date of retirement, then the balance shall be paid to the member's estate, or the person or persons, trust, or organization as the recipient has nominated by written designation duly executed and filed with the director, or, if there is no designated person or persons still living at the time of the recipient's death, then to the surviving spouse, or, if there is no designated person or persons still living at the time of his or her death nor a surviving spouse, then to his or her legal representative.

**NEW SECTION. Sec. 106.** Any member or beneficiary eligible to receive a retirement allowance under the provisions of section 103, 105, or 107 of this act shall be eligible to commence receiving a retirement allowance after having filed written application with the department.

(1) Retirement allowances paid to members under the provisions of section 103 of this act shall accrue from the first day of the calendar month immediately following such member's separation from employment.

(2) Retirement allowances paid to vested members no longer in service, but qualifying for such an allowance pursuant to section 103 of this act, shall accrue from the first day of the calendar month immediately following such qualification.

(3) Disability allowances paid to disabled members under the provisions of section 105 of this act shall accrue from the first day of the calendar month immediately following such member's separation from employment for disability.

(4) Retirement allowances paid as death benefits under the provisions of section 107 of this act shall accrue from the first day of the calendar month immediately following the member's death.

**NEW SECTION. Sec. 107.** (1) Except as provided in RCW 11.07.010, if a member or a vested member who has not completed at least ten years of service dies, the amount of the accumulated contributions standing to such member's credit in the retirement system at the time of such member's death, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to the member's estate, or such person or persons, trust, or organization as the member shall have nominated by written designation duly executed and filed with the department. If there be no such designated person or persons still living at the time of the member's death, such member's accumulated contributions standing to such member's credit in the retirement system, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to the member's surviving spouse as if in fact such spouse had been nominated by written designation, or if there be no such surviving spouse, then to such member's legal representatives.

(2) If a member who is eligible for retirement or a member who has completed at least ten years of service dies, the surviving spouse or eligible child or children shall elect to receive either:

(a) A retirement allowance computed as provided for in section 103 of this act, actuarially reduced by the amount of any lump sum benefit identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670 and actuarially adjusted to reflect a joint and one hundred percent survivor option under section 23 of this act and if the member was not eligible for normal retirement at the date of death a further reduction as described in section 103 of this act; if a surviving spouse who is receiving a retirement allowance dies leaving a child or children of the member under the age of majority, then such child or children shall continue to receive an allowance in an amount equal to that which was being received by the surviving spouse, share and share alike, until such child or children reach the age of majority; if there is no surviving spouse eligible to receive an allowance at the time of the member's death, such member's child or children under the age of majority shall receive an allowance, share and share alike, calculated as herein provided making the assumption that the ages of the spouse and member were equal at the time of the member's death; or

(b) The member's accumulated contributions, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670.

(3) If a member who is eligible for retirement or a member who has completed at least ten years of service dies and is not survived by a spouse or an eligible child, then the accumulated contributions standing to the member's credit, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid:

(a) To a person or persons, estate, trust, or organization as the member shall have nominated by written designation duly executed and filed with the department; or

(b) If there is no such designated person or persons still living at the time of the member's death, then to the member's legal representatives.

**NEW SECTION. Sec. 108.** (1) A member who is on a paid leave of absence authorized by a member's employer shall continue to receive service credit as provided for under the provisions of sections 101 through 112 of this act.

(2) A member who receives compensation from an employer while on an authorized leave of absence to serve as an elected official of a labor organization, and whose employer is reimbursed by the labor organization for the compensation paid to the member during the period of absence, may also be considered to be on a paid leave of absence. This subsection shall only apply if the member's leave of absence is authorized by a collective bargaining agreement that provides that the member retains seniority rights with the employer during the period of leave. The compensation earnable reported for a member who establishes service credit under this subsection may not be greater than the salary paid to the highest paid job class covered by the collective bargaining agreement.

(3) Except as specified in subsection (4) of this section, a member shall be eligible to receive a maximum of two years service credit during a member's entire working career for those periods when

a member is on an unpaid leave of absence authorized by an employer. Such credit may be obtained only if:

(a) The member makes both the plan II employer and member contributions plus interest as determined by the department for the period of the authorized leave of absence within five years of resumption of service or prior to retirement whichever comes sooner; or

(b) If not within five years of resumption of service but prior to retirement, pay the amount required under RCW 41.50.165(2).

The contributions required under (a) of this subsection shall be based on the average of the member's compensation earnable at both the time the authorized leave of absence was granted and the time the member resumed employment.

(4) A member who leaves the employ of an employer to enter the armed forces of the United States shall be entitled to retirement system service credit for up to five years of military service. This subsection shall be administered in a manner consistent with the requirements of the federal uniformed services employment and reemployment rights act.

(a) The member qualifies for service credit under this subsection if:

If there is no surviving spouse eligible to receive an allowance at the time of the member's death, such member's child or children under the age of majority shall receive an allowance, share and share alike. The allowance shall be calculated with the assumption that the age of the spouse and member were equal at the time of the member's death.

Sec. 213.** The required contribution rates to the retirement system for employers shall be established by the director from time to time as may be necessary upon the advice of the state actuary. The state actuary shall use the aggregate actuarial cost method to calculate contribution rates. The employer contribution rate calculated under this section shall be used only for the purpose of determining the amount of employer contributions to be deposited in the plan II fund from the total employer contributions collected under section 10 of this act.

Any increase in the contribution rate required as the result of a failure of an employer to make any contribution required by this section shall be borne in full by the employer not making the contribution.

The director shall notify all employers of any pending adjustment in the required contribution rate and such increase shall be announced at least thirty days prior to the effective date of the change.

The employer's contribution shall be remitted directly to the department within fifteen days following the end of the calendar month during which the payroll period ends.

Such sum is to be computed in an amount directly proportional to the estimated entire expense of the administration as the ratio of monthly salaries of the employer's members bears to the total salaries of all members in the entire system. It shall then be the duty of all such employers to include in their budgets or otherwise provide the amounts so required.

(3) The department shall compute and bill each employer, as defined in RCW 41.26.030, 41.32.010, section 2 of this act, or 41.40.010, at the end of each month for the amount due for that month to the department of retirement systems expense fund and the same shall be paid as are its other obligations. Such computation as to each employer shall be made on a percentage rate of salary established by the department. However, the department may at its discretion establish a system of billing based upon calendar year quarters in which event the said billing shall be at the end of each such quarter.

(4) The director may adjust the expense fund contribution rate for each system at any time when necessary to reflect unanticipated costs or savings in administering the department.

(5) An employer who fails to submit timely and accurate reports to the department may be assessed an additional fee related to the increased costs incurred by the department in processing the

deficient reports. Fees paid under this subsection shall be deposited in the retirement system expense fund.

(a) Every six months the department shall determine the amount of an employer's fee by reviewing the timeliness and accuracy of the reports submitted by the employer in the preceding six months. If those reports were not both timely and accurate the department may prospectively assess an additional fee under this subsection.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

(c) The department shall adopt rules implementing this section.

(6) Expenses other than those under RCW 41.34.060(2) shall be paid pursuant to subsection (1) of this section.

**Sec. 509.** RCW 41.50.150 and 1997 c 221 s 1 are each amended to read as follows:

The state actuary shall determine the estimated cost using the same method and procedure as is used in preparing fiscal note costs for the legislature. However, the director may in the director's discretion decline to bill the employer if the amount due is less than fifty dollars. Accounts unsettled within thirty days of the receipt of the billing shall be assessed an interest penalty of one percent of the amount due for each month or fraction thereof beyond the original thirty-day period.

(2) "Excess compensation," as used in this section, includes the following payments, if used in the calculation of the employee's retirement allowance:

(a) A cash out of unused annual leave in excess of two hundred forty hours of such leave.

"Cash out" for purposes of this subsection means:

(3) This section applies to the retirement systems listed in RCW 41.50.030 and to retirements occurring on or after March 15, 1984. Nothing in this section is intended to amend or determine the meaning of any definition in chapter 2.10, 2.12, 41.26, 41.32, 41.40, ~~41.-- (sections 1 through 25, 101 through 112, 114, and 201 through 213 of this act)~~, or 43.43 RCW or to determine in any manner what payments are includable in the calculation of a retirement allowance under such chapters.

(4) An employer is not relieved of liability under this section because of the death of any person either before or after the billing from the department.

(2) Any governing body entering into a contract that includes a compensation provision listed in subsection (1) of this section shall do so only after public notice in compliance with the open public meetings act, chapter 42.30 RCW. This notification requirement may be accomplished as part of the approval process for adopting a contract in whole, and does not require separate or additional open public meetings. At the public meeting, full disclosure shall be made of the nature of the proposed compensation provision, and the employer's estimate of the excess compensation billings under RCW 41.50.150 that the employing entity would have to pay as a result of the proposed compensation provision. The employer shall notify the department of its compliance with this section at the time the department bills the employer under RCW (~~41.40.150~~) 41.50.150 for the pension impact of compensation provisions listed in subsection (1) of this section that are adopted after July 23, 1995.

(1) Nothing in this chapter regarding mandatory assignment of benefits to enforce a spousal maintenance obligation shall abridge the right of an obligee to direct payments of retirement benefits to satisfy a property division obligation ordered pursuant to a court decree of dissolution or legal separation or any court order or court-approved property settlement agreement incident to any court decree of dissolution or legal separation as provided in RCW 2.10.180, 2.12.090, 41.04.310, 41.04.320, 41.04.330, 41.26.053, 41.32.052, section 11 of this act, 41.34.070(3), 41.40.052, 43.43.310, or 26.09.138, as those statutes existed before July 1, 1987, and as those statutes exist on and after July 28, 1991. The department shall pay benefits under this chapter in a lump sum or as a portion of periodic retirement payments as expressly provided by the dissolution order. If . . . . . (the obligor) receives periodic retirement payments as defined in RCW 41.50.500, the department of retirement systems shall pay to . . . . . (the obligee) . . . . . dollars from such payments or . . . percent of such payments. If the obligor's debt is expressed as a percentage of his or her periodic retirement payment and the obligee does not have a survivorship interest in the obligor's benefit, the amount received by the obligee shall be the percentage of the periodic retirement payment that the obligor would have received had he or she selected a standard allowance.

If . . . . . (the obligor) requests or has requested a withdrawal of accumulated contributions as defined in RCW 41.50.500, or becomes eligible for a lump sum death benefit, the department of retirement systems shall pay to . . . . . (the obligee) . . . . . dollars plus interest at the rate paid by the department of retirement systems on member contributions. Such interest to accrue from the date of this order's entry with the court of record.

(3) This section does not require a member to select a standard allowance upon retirement nor does it require the department to recalculate the amount of a retiree's periodic retirement payment based on a change in survivor option.

(4) A court order under this section may not order the department to pay more than seventy-five percent of an obligor's periodic retirement payment to an obligee.

(5) Persons whose court decrees were entered between July 1, 1987, and July 28, 1991, shall also be entitled to receive direct payments of retirement benefits to satisfy court-ordered property divisions if the dissolution orders comply or are modified to comply with this section and RCW 41.50.680 through 41.50.720 and, as applicable, RCW 2.10.180, 2.12.090, 41.26.053, 41.32.052, section 11 of this act, 41.34.070, 41.40.052, 43.43.310, and 26.09.138.

(6) The obligee must file a copy of the dissolution order with the department within ninety days of that order's entry with the court of record.

(7) A division of benefits pursuant to a dissolution order under this section shall be based upon the obligor's gross benefit prior to any deductions. If the department is required to withhold a portion of the member's benefit pursuant to 26 U.S.C. Sec. 3402 and the sum of that amount plus the amount owed to the obligee exceeds the total benefit, the department shall satisfy the withholding requirements under 26 U.S.C. Sec. 3402 and then pay the remainder to the obligee. The provisions of this subsection do not apply to amounts withheld pursuant to 26 U.S.C. Sec. 3402(i).

**Sec. 514.** RCW 41.50.790 and 1996 c 175 s 1 are each amended to read as follows:

(1) The department shall designate an obligee as a survivor beneficiary of a member under RCW 2.10.146, 41.26.460, 41.32.530, 41.32.785, section 23 of this act, 41.40.188, or 41.40.660 if the department has been served by registered or certified mail with a dissolution order as defined in RCW 41.50.500 at least thirty days prior to the member's retirement. The department's duty to comply with the dissolution order arises only if the order contains a provision that states in substantially the following form:

When . . . . . (the obligor) applies for retirement the department shall designate . . . . . (the obligee) as survivor beneficiary with a . . . . . survivor benefit.

The survivor benefit designated in the dissolution order must be consistent with the survivor benefit options authorized by statute or administrative rule.

(2) The obligee's entitlement to a survivor benefit pursuant to a dissolution order filed with the department in compliance with subsection (1) of this section shall cease upon the death of the obligee.

(3)(a) A subsequent dissolution order may order the department to divide a survivor benefit between a survivor beneficiary and an alternate payee. In order to divide a survivor benefit between more than one payee, the dissolution order must:

(i) Be ordered by a court of competent jurisdiction following notice to the survivor beneficiary;

(ii) Contain a provision that complies with subsection (1) of this section designating the survivor beneficiary;

(iii) Contain a provision clearly identifying the alternate payee or payees; and

(iv) Specify the proportional division of the benefit between the survivor beneficiary and the alternate payee or payees.

(b) The department will calculate actuarial adjustment for the court-ordered survivor benefit based upon the life of the survivor beneficiary.

(c) If the survivor beneficiary dies, the department shall terminate the benefit. If the alternate payee predeceases the survivor beneficiary, all entitlement of the alternate payee to a benefit ceases and the entire benefit will revert to the survivor beneficiary.

(d) For purposes of this section, "survivor beneficiary" means:

(i) The obligee designated in the provision of dissolution filed in compliance with subsection (1) of this section; or

(ii) In the event of more than one dissolution order, the obligee named in the first decree of dissolution received by the department.

(e) For purposes of this section, "alternate payee" means a person, other than the survivor beneficiary, who is granted a percentage of a survivor benefit pursuant to a dissolution order.

(4) The department shall under no circumstances be held liable for not designating an obligee as a survivor beneficiary under subsection (1) of this section if the dissolution order or amendment thereto is not served on the department by registered or certified mail at least thirty days prior to the member's retirement.

(5) If a dissolution order directing designation of a survivor beneficiary has been previously filed with the department in compliance with this section, no additional obligation shall arise on the part of the department upon filing of a subsequent dissolution order unless the subsequent dissolution order:

(a) Specifically amends or supersedes the dissolution order already on file with the department; and

(b) Is filed with the department by registered or certified mail at least thirty days prior to the member's retirement.

- (6) The department shall designate a court-ordered survivor beneficiary pursuant to a dissolution order filed with the department before June 6, 1996, only if the order:
- (a) Specifically directs the member or department to make such selection;
  - (b) Specifies the survivor option to be selected; and
  - (c) The member retires after June 6, 1996.

**NEW SECTION. Sec. 515.** A new section is added to chapter 41.50 RCW to read as follows:

Only service credit months and one-quarter service credit months shall be counted in the computation of any retirement allowance or other benefit provided for in this chapter. (i) Service by a state employee officially assigned by the state on a temporary basis to assist another public agency, shall be considered as service as a state employee: PROVIDED, That service to any other public agency shall not be considered service as a state employee if such service has been used to establish benefits in any other public retirement system.

Compensation earnable earned for less than seventy hours in any calendar month shall constitute one-quarter service credit month of service. Time spent in standby status, whether compensated or not, is not service.

Any fraction of a year of service shall be taken into account in the computation of such retirement allowance or benefits.

**"NEW SECTION. Sec. 6.** A new section is added to chapter 26.23 RCW to read as follows: The federal personal responsibility and work opportunity reconciliation act of 1996, P.L. 104-193, requires states to collect social security numbers as part of the application process for

professional licenses, driver's licenses, occupational licenses, and recreational licenses. The legislature finds that if social security numbers are accessible to the public, it will be relatively easy for someone to use another's social security number fraudulently to assume that person's identity and gain access to bank accounts, credit services, billing information, driving history, and other sources of personal information. Public Law 104-193 could compound and exacerbate the disturbing trend of social security number-related fraud. In order to prevent fraud and curtail invasions of privacy, the governor, through the department of social and health services, shall seek a waiver to the federal mandate to record social security numbers on applications for professional, driver's, occupational, and recreational licenses. If a waiver is not granted, the licensing agencies shall collect and disclose social security numbers as required under section 7 of this act.

**NEW SECTION. Sec. 7.** A new section is added to chapter 26.23 RCW to read as follows:

In order to assist in child support enforcement as required by federal law, all applicants for an original, replacement, or renewal of a professional license, driver's license, occupational license, or recreational license must furnish the licensing agency with the applicant's social security number, which shall be recorded on the application. The licensing agencies collecting social security numbers shall not display the social security number on the license document. Social security numbers collected by licensing agencies shall not be disclosed except as required by state or federal law or under RCW 26.23.120."

E2SSB 6509 Prime Sponsor, Senate Committee on Ways & Means: Requiring training for reading instruction. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended by Committee on Education (For amendment, see Journal 47th Day, February 27, 1998) as such amendment is amended by Committee on Appropriations.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the ability to read fluently, accurately, and with comprehension is critical to success in school and in life. Research has found that reading instruction in the early grades must consist of a comprehensive program that builds upon the firm foundational skills of phonemic awareness, decoding, and reading comprehension, to provide students with the skills necessary to engage in rich literature activities, and further develop thinking and application skills. Schools and school districts should review their reading programs to verify they are using a comprehensive approach to teaching reading.

The role of professional development in supporting and sustaining a high-quality teaching force is critical. The legislature finds that many primary grade teachers would benefit from additional professional development instruction in beginning reading skills and access to current information

regarding research-based, scientifically proven instructional strategies to assist students in meeting the benchmarks established for the essential academic learning requirements.

The legislature also recognizes that when students are experiencing difficulties in advancing their reading skills, the use of volunteers to provide individualized tutoring and mentoring to those students will improve students' ability to overcome those difficulties and increase their reading achievement.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28A.415 RCW to read as follows:

Schools interested in providing assistance to improve student learning in reading may apply for the following opportunities to provide professional development in beginning reading instructional strategies and related instructional materials and to implement volunteer tutoring programs for students throughout their school.

(1) To the extent funds are appropriated in accordance with this section, elementary schools interested in providing professional development and the purchase of related instructional materials in accordance with (a) of this subsection for certificated instructional staff that provide direct instructional services to students in kindergarten, first, and second grade may apply for and receive funding from the superintendent of public instruction. The application for funding shall be limited to:

(a) Verification that the intended professional development and related instructional materials include primary emphasis on the following beginning reading skills:

(i) Phonemic awareness strategies;  
(ii) Explicit and systematic decoding instruction and how to assess a student's ability to decode;

(iii) Explicit spelling instruction;  
(iv) Explicit instruction in reading comprehension strategies; and  
(v) Research findings on the skills needed by beginning and proficient readers, and how beginning reading skills are acquired; and

(b) Verification that grant funds expended in accordance with this section will not be used for staff development, intervention, or remediation programs.

(2) The training in reading instruction shall be provided by public or private nonsectarian contractors that provide training in the methods defined in this section. Priority for reading instruction grants shall be given to those schools in which less than one-quarter of all students tested on the fourth grade assessment in reading met the state-wide standard, or in schools where average performance on the reading component of the state-wide standardized test required in RCW 28A.230.190 were in the bottom quartile for the previous three years. Priority shall then be given to those schools in which less than one-third of all students tested on the fourth grade assessment in reading met the state-wide standard, or in schools where average performance on the reading component of the state-wide standardized test required in RCW 28A.230.190 were in the bottom third for the previous three years. Priority shall then be given to schools in which one-half of all students tested on the fourth grade assessment in reading met the state-wide standard, or in schools where average performance on the reading component of the state-wide standardized test required in RCW 28A.230.190 were in the bottom half for the previous three years.

(3) Reading instruction grants provided under subsection (1) of this section may be used to provide additional professional development materials for interested school principals and classroom volunteers providing assistance in kindergarten, first, and second grades, interested in attending the professional development opportunity identified in this section.

(4) An elementary school receiving funding in accordance with this section shall certify and provide documentation to the superintendent of public instruction that funds received were expended for professional development and related materials in accordance with this section.

(5) Schools or school districts that received funds under RCW 28A.300.330 are not eligible to apply for funding in accordance with subsection (1) of this section.

(6) The definitions in this section apply throughout this section unless the context clearly requires otherwise.

(a) "Phonemic awareness instruction" means teaching awareness of letter sounds, and segmenting and blending phonemes, syllables, and words in a sequential progression.

(b) "Explicit systematic decoding instruction" means direct, sequential teaching of how to read words fluently and automatically that includes instruction in letter-sound correspondences, letter

combinations, multisyllabic words, blending, and structural elements, and initially incorporates the use of decodable text. "Explicit systematic decoding instruction" does not include the use of context and syntax as word identification strategies in teaching beginning reading skills.

(c) "Decodable text" means connected text containing a high percentage of words that provide practice on the letter-sound correspondences and letter combinations previously taught.

(d) "Diagnosis of a student's ability to decode" means regularly assessing the student's mastery of word recognition, fluency and automaticity, and word analysis in order to plan future instructional activities.

(e) "Explicit and systematic instruction in spelling" means teaching a logical scope and sequence of word knowledge, spelling patterns, syllabication, and frequently used words connected to the sequence used in reading and writing instruction.

(f) "Instruction in reading comprehension skills" means explicit, systematic teaching of vocabulary development, text structure, context, syntax, and syntactic patterns, including but not limited to, strategies for higher order thinking skills such as interpretation, summarization, prediction, clarification, and question generation.

(7) To the extent funds are appropriated in accordance with this section, elementary schools interested in providing teacher training in the use of volunteer tutors and mentors to assist struggling readers in kindergarten through fourth grade may apply for grants from the superintendent of public instruction for volunteer tutoring and mentoring programs that are research based and have proven effectiveness in improving student reading performance. The programs must include the following elements:

(a) Teacher training in program planning and in the use of classroom volunteers;

(b) Training for tutor and mentor volunteers in working with students to overcome reading difficulties before their participation in the program;

(c) An established goal for a minimum number of volunteer contact hours for students to receive individual instruction per week;

(d) An established goal for a minimum number of volunteer contact hours during normal school hours for students to receive individual instruction per week;

(e) Teacher training in recruiting and retaining tutor and mentor volunteers for reading instruction; and

(f) A plan to assess student reading performance before entering the program and upon exit or at the end of the year as appropriate. The results must be compiled and reported to the superintendent of public instruction. The superintendent of public instruction shall provide a preliminary report to the legislature by March 1, 1999, and a final report to the legislature by December 1999 on the effectiveness of the various programs.

(8) By April 15th, the superintendent of public instruction shall notify all school districts that the funds under this section are available. Funding provided must be available to schools no later than June 1, 1998. Elementary schools may apply and become eligible for both funding opportunities.

(9) Teachers participating in the programs will receive a stipend from the funds.

(10) This section expires July 30, 2005.

NEW SECTION. **Sec. 3.** This act may be known and cited as the successful readers act.

NEW SECTION. **Sec. 4.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 1998, in the omnibus appropriations act, this act is null and void.

NEW SECTION. **Sec. 5.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

ESSB 6515 Prime Sponsor, Senate Committee on Energy & Utilities: Regulating franchises and the use of public rights of way. Reported by Committee on Transportation Policy & Budget

MAJORITY recommendation: Do pass as amended by Committee on Transportation Policy & Budget and without amendment by Committee on Energy & Utilities.

On page 1, beginning on line 7 of the amendment, strike the entire amendment and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that the federal telecommunications act of 1996 has provided the opportunity to expand the uses of publicly owned rights of way to allow for the provision of enhanced telecommunications services. Presently, providers of these services are confronted with differing development regulations and franchise requirements across this state's two hundred seventy-seven cities and thirty-nine counties. The legislature finds the array of varying regulations and requirements to be a significant barrier to enhancing the telecommunications services to the citizens of the state, and desires more uniformity and reasonableness in the application of these regulations. However, states that have recently enacted laws relating to the use of public rights of way for telecommunications services have been challenged in court. Court decisions and relevant federal communications commission rulings will be issued after the legislature adjourns. Therefore, the most prudent course of action requires further work and cooperation between public policymakers, government administrators, and the telecommunications industry to effectuate the policy of this state.

(2) The legislature hereby declares it the policy of the state of Washington to: Encourage the development of telecommunications infrastructure without violating the letter or spirit of Article VIII, sections 5 and 7 of the state Constitution; reduce regulatory obstacles that inhibit investment in the state's telecommunications system; maintain safe public roads, highways, and streets; and provide responsible stewardship of the public's investment in its rights of way.

**NEW SECTION. Sec. 2.** Unless the context clearly requires otherwise, the definitions in this section apply throughout chapter . . . , Laws of 1998 (this act).

(1) "Authorized facilities" means all of the plant, equipment, fixtures, appurtenances, antennas, and other facilities necessary to furnish and deliver telecommunications services and cable television services, including but not limited to poles with crossarms, poles without crossarms, wires, lines, conduits, cables, communication and signal lines and equipment, braces, guys, anchors, vaults, and all attachments, appurtenances, and appliances necessary or incidental to the distribution and use of telecommunications services and cable television services.

(2) "Authorized user" means every corporation, company, association, joint stock association, partnership, and person, their lessees, trustees, or receivers appointed by any court whatsoever, and every city or town owning, operating, or managing any facilities used to provide telecommunications for hire, sale, or resale to the general public within this state.

(3) "Cable television service" means the one-way transmission to subscribers of video programming or other programming service and subscriber interaction, if any, which is required for the selection of use of such video programming or other programming service.

(4) "Limited access highways" means those public rights of way designated as limited access under authority of the laws of the state of Washington.

(5) "Public right of way" means roads, streets, and highways, and does not include:

(a) Limited access highways;

(b) Unopened, unimproved land dedicated for roads, streets, and highways;

(c) Structures located within the right of way;

(d) Federally granted trust lands and the forest board trust lands;

(e) Federally granted railroad rights of way acquired under 43 U.S.C. Sec. 912 and related provisions of federal law; and

(f) Lands owned or managed by the state parks and recreation commission.

(6) "Telecommunications service" means the transmission of information by wire, radio, optical cable, electromagnetic, or other similar means for the general public. For the purpose of chapter . . . , Laws of 1998 (this act), telecommunications services excludes the over-the-air transmission of broadcast television or radio signals. For the purpose of this subsection, "information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or any other symbols.

**Sec. 3.** RCW 35.21.860 and 1983 2nd ex.s. c 3 s 39 are each amended to read as follows:

(1) No city or town may impose a franchise fee or any other fee (~~(( $\neq$ ))~~), charge, or compensation of whatever nature or description upon the light and power, or gas distribution businesses, as defined in RCW 82.16.010, or ((telephone business, as defined in RCW 82.04.065)) an authorized user for the use of public right of way, except that (a) a tax authorized by RCW 35.21.865 may be imposed and (b) ((a fee)) fees and other requirements may be ((charged to)) imposed on such businesses ((that recovers actual administrative expenses incurred by a city or town that are directly related to receiving and approving a permit, license, and franchise, to inspecting plans and construction, or to the preparation of a detailed statement pursuant to chapter 43.21C RCW)) as allowed in section 4 of this act.

(2) Subsection (1) of this section does not prohibit franchise fees imposed on an electrical energy, natural gas, or telephone business, by contract existing on April 20, 1982, with a city or town, for the duration of the contract, but the franchise fees shall be considered taxes for the purposes of the limitations established in RCW 35.21.865 and 35.21.870 to the extent the fees exceed the costs allowable under subsection (1) of this section.

NEW SECTION. **Sec. 4.** (1) Cities and towns may impose fees to recover:

(2)(a) A city or town incorporated after the effective date of this section shall be permitted to impose one moratorium that shall not exceed one hundred eighty days and shall not be extendable.

(b) Upon the expiration of the moratorium authorized by (a) of this subsection, the authorizing city or town is subject to subsection (1) of this section.

(3) Counties, cities, and towns are encouraged to work together with industry, using the experience of the industry and those counties, cities, and towns that have adopted wireless regulations,

to develop a model ordinance for the siting of wireless telecommunication facilities as part of the process required under section 7 of this act.

(4) Subsections (1) and (2) of this section apply to moratoriums one hundred twenty days after the adoption of a model ordinance under section 7 of this act or on April 1, 1999, whichever occurs first.

(5) This section expires October 1, 2003.

**NEW SECTION. Sec. 6.** (1) No county, city, or town shall install, or cause to be installed, equipment, facilities, or other infrastructure, including but not limited to conduit, for the purpose of allowing a county, city, or town to provide telecommunications or cable television services to the general public.

(2) This section expires October 1, 2003.

**NEW SECTION. Sec. 7.** (1) There is hereby created a telecommunications right of way advisory committee. The advisory committee shall:

(iv) Methods to restrict or eliminate moratoriums when used as a means of excluding telecommunications facilities from publicly owned rights of way; and

(v) Such other issues as may arise during the committee's deliberations.

(2) The advisory committee shall be comprised of:

Representative McMorris moved the adoption of amendment (1036):

On page 1, after line 4, insert the following:

**"NEW SECTION. Sec. 1.** It is the intent of the legislature to clarify requirements related to unemployment compensation for employees at educational institutions.

The legislature finds that, unless clarified, Washington's unemployment compensation law may be out of conformity with the federal unemployment tax act, which finding poses a significant economic risk to the state's private employers and to the administration of the state's unemployment insurance system. It is the intent of the legislature, by the 1998 chapter . . . amendments to RCW 50.44.050 and 50.44.053 (sections 1 and 2 of this act), to bring Washington's unemployment compensation law into conformity with federal law in these areas of concern.

The legislature finds that some instructional staff at the state's educational institutions receive an appointment of employment for an indefinite period while others may face circumstances that do not provide a reasonable expectation of employment during an ensuing academic year or term.

Therefore, it is the intent of the legislature that the employment security department continue to make determinations of educational employees' eligibility for unemployment compensation for the period between academic years or terms based on a finding of reasonable assurance that the employee will have employment for the ensuing academic year or term and that the determination in each employee's case is made on an individual basis, consistent with federal guidelines. This determination must take into consideration contingencies that may exist in fact in an individual case. The 1998 chapter . . . amendment to RCW 50.44.053 (section 2 of this act) is not intended to change the practice used by the employment security department when determining reasonable assurance. If, during fact-finding, there is a disagreement about whether an individual has reasonable assurance, the educational institution must provide documentation that reasonable assurance exists for that individual."

On page 3, after line 15, insert the following:

**"NEW SECTION. Sec. 3.** 1995 c 296 s 4 (uncodified) is repealed."

Renumber the remaining sections consecutively, correct any internal references accordingly and correct the title.

REPORTS OF STANDING COMMITTEES

March 3, 1998

ESSB 6533 Prime Sponsor, Committee on Ways & Means: Providing property tax exemptions and deferrals for senior citizens and persons retired for reasons of physical disability.  
Reported by Committee on Finance

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 84.36.381 and 1996 c 146 s 1 are each amended to read as follows:

A person shall be exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of the time of filing: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital or nursing home shall not disqualify the claim of exemption if:

(a) The residence is temporarily unoccupied;

(b) The residence is occupied by a spouse and/or a person financially dependent on the claimant for support; or

(c) The residence is rented for the purpose of paying nursing home or hospital costs;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or owned by

cotenants shall be deemed to be owned by each spouse or cotenant, and any lease for life shall be deemed a life estate;

(3) The person claiming the exemption must be sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of physical disability: PROVIDED, That any surviving spouse of a person who was receiving an exemption at the time of the person's death shall qualify if the surviving spouse is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person shall be exempt from an obligation to pay shall be calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the assessment year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the assessment year by reason of the death of the person's spouse, or when other substantial changes occur in disposable income that are likely to continue for an indefinite period of time, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person after such occurrences by twelve. If it is necessary to estimate income to comply with this subsection, the assessor may require confirming documentation of such income prior to May 31 of the year following application;

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income of twenty-eight thousand dollars or less shall be exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of ~~((eighteen))~~ nineteen thousand dollars or less but greater than ~~((fifteen))~~ sixteen thousand dollars shall be exempt from all regular property taxes on the greater of thirty thousand dollars or thirty percent of the valuation of his or her residence, but not to exceed fifty thousand dollars of the valuation of his or her residence; or

(ii) A person who otherwise qualifies under this section and has a combined disposable income of ~~((fifteen))~~ sixteen thousand dollars or less shall be exempt from all regular property taxes on the greater of thirty-four thousand dollars or fifty percent of the valuation of his or her residence; and

(6) For a person who otherwise qualifies under this section and has a combined disposable income of twenty-eight thousand dollars or less, the valuation of the residence shall be the assessed value of the residence on the later of January 1, 1995, or January 1st of the assessment year the person first qualifies under this section. If the person subsequently fails to qualify under this section only for one year because of high income, this same valuation shall be used upon requalification. If the person fails to qualify for more than one year in succession because of high income or fails to qualify for any other reason, the valuation upon requalification shall be the assessed value on January 1st of the assessment year in which the person requalifies. If the person transfers the exemption under this section to a different residence, the valuation of the different residence shall be the assessed value of the different residence on January 1st of the assessment year in which the person transfers the exemption.

In no event may the valuation under this subsection be greater than the true and fair value of the residence on January 1st of the assessment year.

This subsection does not apply to subsequent improvements to the property in the year in which the improvements are made. Subsequent improvements to the property shall be added to the value otherwise determined under this subsection at their true and fair value in the year in which they are made.

**Sec. 2.** RCW 84.36.383 and 1995 1st sp.s. c 8 s 2 are each amended to read as follows:

(6) "Cotenant" means a person who resides with the person claiming the exemption and who has an ownership interest in the residence.

**Sec. 3.** RCW 84.38.020 and 1997 c 93 s 1 are each amended to read as follows:

Unless a different meaning is plainly required by the context, the following words and phrases as hereinafter used in this chapter shall have the following meanings:

(1) "Claimant" means a person who either elects or is required under RCW 84.64.050 to defer payment of the special assessments and/or real property taxes accrued on the claimant's residence by filing a declaration to defer as provided by this chapter.

ESSB 6456 Prime Sponsor, Committee on Transportation: Funding transportation. Reported by Committee on Transportation Policy & Budget

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"LEGISLATIVE INTENT FOR 1998 TRANSPORTATION BUDGET

NEW SECTION. Sec. 1. PURPOSE OF ENHANCED STATE AND LOCAL TRANSPORTATION FUNDING PROGRAM. (1) The legislature finds and declares that it is essential for the economic, social and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient and effective transportation system.

(2) This act provides funding, beyond that already provided in the 1997-99 biennium, from currently available revenue that is needed to prepare for and advance the timely construction of essential transportation projects and improve transportation services in preparation for meeting the following objectives:

(a) Investment strategies that deal equitably with the transportation needs of both eastern and western Washington and local governments, critical to maintaining and expanding essential multimodal, motorized and nonmotorized, urban, suburban and rural transportation programs and systems;

(b) Cost-effective funding strategies that address the most critical state-wide transportation needs for: Highway congestion relief, economic development and freight mobility, highway safety and bridge improvements, flood mitigation and fish passages, local government funding, ferry system capital improvements, and passenger and freight rail capital improvements; and

(c) Greater reliance on funding partnerships between the public and private sectors to leverage the state's investment and assign transportation project costs to the entities to which benefits accrue.

(3) State and federal fiscal constraints have resulted in sprinkling limited resources over a wide variety of costly, critical transportation needs. This fragmented approach has hindered the development of a multimodal, state-wide system; failed to address regional transportation improvements essential to addressing congestion, expanding local economies, and maintaining environmental quality; and created competition for transportation dollars among various public beneficiaries. A legislative solution that addresses long-term funding for critical transportation priorities is highly dependent on public and private stakeholders coalescing to: Identify and prioritize those critical elements that must be addressed if the state is to continue to provide a transportation system that offers the level of safe, unfettered travel and economic and environmental well-being Washington's citizens expect and deserve; develop a funding strategy for the future that provides

adequacy and reliability; and develop policy and program changes that will ensure the timely, cost-effective delivery of transportation programs, projects, and services.

It is therefore the intent of the legislature to restore the number of enforcement officers to the level prior to the merger of the department of fisheries and the department of wildlife be directing the department to deploy more enforcement officers into the field, authorizing the establishment of a volunteer reserve corps of enforcement officers, and providing funding to retain current and hire additional enforcement officers.

(38) The director of the department of fish and wildlife shall consult with the exclusive bargaining representatives of employees of the department as well as representatives of local communities for the purpose of preparing a reorganization plan that results in the redeployment of staff from central office positions to field enforcement positions. **"NEW SECTION. Sec. 1.** The legislature, in fulfilling its role as stated in the state Constitution, namely, that "It is the paramount duty of the state to make ample provision for the education of all children residing within its borders...", finds that families with children enrolled in approved private schools are an integral part of fulfilling the state's educational mission.

The legislature further recognizes that a significant percentage of students attend approved private schools and frequently move between the state's publicly and privately funded schools. The parents of these children are subject to taxes and levies to fulfill the education provided through our common schools. In addition, these parents pay for student learning materials their child uses in the approved private school that would be free of additional charge in the common school. In acknowledgement of this additional burden and in recognizing the role of our state's approved private schools in helping to fulfill the constitutional mandate to provide a basic education to our children, the legislature recognizes the need for equalization. The sole purpose of this act is to assist children, not schools.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28A.195 RCW to read as follows:

Students attending state-approved private schools may receive loaned learning materials from the local school district in which the private school is located. To provide these materials to students, approved private schools shall submit annual requests for learning materials to the local school district in which the private school is located. The local school district may provide through a loan agreement the learning materials in accordance with the following guidelines:

- (1) Learning materials support shall not be limited, in any way, based on a student's economic status.
- (2) Learning materials eligible for loan shall be limited to textbooks.
- (3) The local school district shall not loan learning materials that are not available to the school district at the time of the request.
- (4) The local school district shall not loan learning materials that the local school district needs to educate public school students at the time of the request.
- (5) Only textbooks listed on the official adoption list of the local school district are eligible.
- (6) Loaned learning materials shall neither promote nor deter sectarian or religious activities of the private school.
- (7) No approved private school may be required to participate in learning materials support provided by the state.
- (8) Only students who attend state-approved private schools are eligible for learning materials support.
- (9) Student learning materials designed for religious instruction are not eligible for learning materials support.
- (10) No laws or rules may be added beyond those already in existence as of January 1, 1998, that have a direct or indirect impact on the autonomy of the private school as a result of the student's receipt of learning materials support.
- (11) The office of the superintendent of public instruction shall adopt guidelines for effective implementation of this section.
- (12) To assist the state, the office of the superintendent of public instruction may identify currently existing, nonsectarian, state-wide private school organizations to serve as the liaison with the state for eligible private schools whose students are receiving or are interested in receiving loaned learning materials.
- (13) Student learning materials loaned to students attending private schools under this section shall, at all times, be considered the property of the local school district.

NEW SECTION. **Sec. 3.** This act takes effect September 1, 1998.

**"Sec. 1.** RCW 90.64.005 and 1993 c 221 s 1 are each amended to read as follows:

The legislature finds that there is a need to establish a clear and understandable process that provides for the proper and effective management of dairy ~~((waste))~~ nutrients that affect((s)) the quality of surface or ground waters in the state of Washington. The legislature finds that there is a need for a program that will provide a stable and predictable business climate upon which dairy farms may base future investment decisions.

The legislature finds that federal regulations require a permit program for dairies ~~((with))~~ with over seven hundred head of mature cows and, other specified dairy farms that directly discharge into waters or are otherwise significant contributors of pollution. The legislature finds that significant work has been ongoing over a period of time and that the intent of this chapter is to take the consensus that has been developed and place it into statutory form.

It is also the intent of this chapter to establish an inspection and technical assistance program for dairy farms to address the discharge of pollution to surface and ground waters of the state that will lead to water quality compliance by the industry. A further purpose is to create a balanced program involving technical assistance, regulation, and enforcement with coordination and oversight of the program by a committee composed of industry, agency, and other representatives. Furthermore, it is the objective of this chapter to maintain the administration of the water quality program as it relates to dairy operations at the state level.

It is also the intent of this chapter to recognize the existing working relationships between conservation districts, the conservation commission, and the department of ecology in protecting water quality of the state. A further purpose of this chapter is to provide statutory recognition of the coordination of the functions of conservation districts, the conservation commission, and the department of ecology pertaining to development of dairy waste management plans for the protection of water quality.

**Sec. 2.** RCW 90.64.010 and 1993 c 221 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Advisory and oversight committee" means a balanced committee of agency, dairy farm, and interest group representatives convened to provide oversight and direction to the dairy nutrient management program.

(2) "Bypass" means the intentional diversion of waste streams from any portion of a treatment facility.

(3) "Catastrophic" means a tornado, hurricane, earthquake, flood, or other extreme condition that causes an overflow from a required waste retention structure.

(4) "Certification" means:

(a) The acknowledgment by a local conservation district that a dairy producer has constructed or otherwise put in place the elements necessary to implement his or her dairy nutrient management plan; and

(b) The acknowledgment by a dairy producer that he or she is managing dairy nutrients as specified in his or her approved dairy nutrient management plan.

(5) "Chronic" means a series of wet weather events that precludes the proper operation of a dairy nutrient management system that is designed for the current herd size.

(6) "Conservation commission" or "commission" means the conservation commission under chapter 89.08 RCW.

~~((2))~~ (7) "Conservation districts" or "district" means a subdivision of state government organized under chapter 89.08 RCW.

~~((3))~~ (8) "Concentrated dairy animal feeding operation" means a dairy animal feeding operation subject to regulation under this chapter which the director designates under RCW ~~(90.64.030)~~ 90.64.020 or meets the following criteria:

(a) Has more than seven hundred mature dairy cows, whether milked or dry cows, that are confined; or

(b) Has more than two hundred head of mature dairy cattle, whether milked or dry cows, that are confined and either:

(i) From which pollutants are discharged into navigable waters through a manmade ditch, flushing system, or other similar manmade device; or

(ii) From which pollutants are discharged directly into surface or ground waters of the state that originate outside of and pass over, across, or through the facility or otherwise come into direct contact with the animals confined in the operation.

~~((4))~~ (9) "Dairy animal feeding operation" means a lot or facility where the following conditions are met:

(a) Dairy animals that have been, are, or will be stabled or confined and fed for a total of forty-five days or more in any twelve-month period; and

(b) Crops, vegetation forage growth, or postharvest residues are not sustained in the normal growing season over any portion of the lot or facility. Two or more dairy animal feeding operations under common ownership are considered, for the purposes of this chapter, to be a single dairy animal feeding operation if they adjoin each other or if they use a common area for land application of wastes.

~~((5))~~ (10) "Dairy farm" means any farm that is licensed to produce milk under chapter 15.36 RCW.

(11) "Dairy nutrient" means any organic waste produced by dairy cows or a dairy farm operation.

(15) "Department" means the department of ecology under chapter 43.21A RCW.

~~((6))~~ (16) "Director" means the director of the department of ecology, or his or her designee.

(17) "Upset" means an exceptional incident in which there is an unintentional and temporary noncompliance with technology-based permit effluent limitations because of factors beyond the reasonable control of the dairy. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

(18) "Violation" means the following acts or omissions:

(a) A discharge of pollutants into the waters of the state, except those discharges that are due to a chronic or catastrophic event, or to an upset as provided in 40 C.F.R. Sec. 122.41, or to a bypass as provided in 40 C.F.R. Sec. 122.41, and that occur when:

(i) A dairy producer has a current national pollutant discharge elimination system permit with a wastewater system designed, operated, and maintained for the current herd size and that contains all process-generated wastewater plus average annual precipitation minus evaporation plus contaminated storm water runoff from a twenty-five year, twenty-four hour rainfall event for that specific location, and the dairy producer has complied with all permit conditions, including dairy nutrient management plan conditions for appropriate land application practices; or

(ii) A dairy producer does not have a national pollutant discharge elimination system permit, but has complied with all of the elements of a dairy nutrient management plan that: Prevents the discharge of pollutants to waters of the state, is commensurate with the dairy producer's current herd size, and is approved and certified under section 6 of this act;

(b) Failure to register as required under section 3 of this act; or

(c) The lack of an approved dairy nutrient management plan by July 1, 2002; or

(d) The lack of a certified dairy nutrient management plan for a dairy farm after December 31, 2003.

**NEW SECTION. Sec. 3.** (1) Every dairy producer licensed under chapter 15.36 RCW shall register with the department by September 1, 1998, and shall reregister with the department by September 1st of every even-numbered year. Every dairy producer licensed after September 1, 1998, shall register with the department within sixty days of licensing. The purpose of registration is to provide and update baseline information for the dairy nutrient management program.

(2) To facilitate registration, the department shall obtain from the food safety and animal health division of the department of agriculture a current list of all licensed dairy producers in the state and mail a registration form to each licensed dairy producer no later than July 15, 1998.

(3) At a minimum, the form shall require the following information as of the date the form is completed:

- (a) The name and address of the operator of the dairy farm;
- (b) The name and address of the dairy farm;
- (c) The telephone number of the dairy farm;
- (d) The number of cows in the dairy farm;
- (e) The number of young stock in the dairy farm;
- (f) The number of acres owned and rented in the dairy farm;
- (g) Whether the dairy producer, to the best of his or her knowledge, has a plan for managing dairy nutrient discharges that is commensurate with the size of his or her herd, and whether the plan is being fully implemented; and

(h) If the fields where dairy nutrients are being applied belong to someone other than the dairy producer whose farm operation generated the nutrients, the name, address, and telephone number of the owners of the property accepting the dairy nutrients.

(4) In the mailing to dairy producers containing the registration form, the department shall also provide clear and comprehensive information regarding the requirements of this chapter.

(5) The department shall require the registrant to provide only information that is not already available from other sources accessible to the department, such as dairy licensing information.

**NEW SECTION. Sec. 4.** Before October 1, 1998, the department and conservation commission shall jointly sponsor and hold an educational workshop for conservation districts from around the state. The purpose of the workshop is to inform local conservation districts about the requirements of this chapter, and for local conservation districts, the conservation commission, and the department to clearly understand their respective roles and responsibilities in carrying out these requirements.

**NEW SECTION. Sec. 5.** (1) By October 1, 1998, the department shall initiate an inspection program of all dairy farms in the state. The purpose of the inspections is to:

- (a) Survey for evidence of violations;
- (b) Identify corrective actions for actual or imminent discharges that violate or could violate the state's water quality standards;
- (c) Monitor the development and implementation of dairy nutrient management plans; and
- (d) Identify dairy producers who would benefit from technical assistance programs.

(2) Local conservation district employees may, at their discretion, accompany department inspectors on any scheduled inspection of dairy farms except random, unannounced inspections.

(3) Follow-up inspections shall be conducted by the department to ensure that corrective and other actions as identified in the course of initial inspections are being carried out. The department shall also conduct such additional inspections as are necessary to ensure compliance with state and federal water quality requirements, provided that all licensed dairy farms shall be inspected once within two years of the start of this program. The department, in consultation with the advisory and oversight committee established in section 8 of this act, shall develop performance-based criteria to determine the frequency of inspections.

(4) Dairy farms shall be prioritized for inspection based on the development of criteria that include, but are not limited to, the following factors:

- (a) Existence or implementation of a dairy nutrient management plan;
- (b) Proximity to impaired waters of the state; and
- (c) Proximity to all other waters of the state. The criteria developed to implement this subsection (4) shall be reviewed by the advisory and oversight committee.

**NEW SECTION. Sec. 6.** (1) Except for those producers who already have a certified dairy nutrient management plan as required under the terms and conditions of an individual or general national pollutant discharge elimination system permit, all dairy producers licensed under chapter 15.36 RCW, regardless of size, shall prepare a dairy nutrient management plan. If at any time a dairy nutrient management plan fails to prevent the discharge of pollutants to waters of the state, it shall be required to be updated.

(2) By November 1, 1998, the conservation commission, in conjunction with the advisory and oversight committee established under section 8 of this act shall develop a document clearly describing the elements that a dairy nutrient management plan must contain to gain local conservation district approval.

(3) In developing the elements that an approved dairy nutrient management plan must contain, the commission may authorize the use of other methods and technologies than those developed by the natural resources conservation service when such alternatives have been evaluated by the advisory and oversight committee. Alternative methods and technologies shall meet the standards and specifications of:

(a) The natural resources conservation service as modified by the geographically based standards developed under section 10 of this act; or

(b) A professional engineer with expertise in the area of dairy nutrient management.

(4) In evaluating alternative technologies and methods, the principal objectives of the committee's evaluation shall be determining:

(a) Whether there is a substantial likelihood that, once implemented, the alternative technologies and methods would not violate water quality requirements;

(b) Whether more cost-effective methods can be successfully implemented in some or all categories of dairy operations; and

(c) Whether the technologies and methods approved or provided by the natural resources conservation service for use by confined animal feeding operations are necessarily required for other categories of dairy operations.

In addition, the committee shall encourage the conservation commission and the conservation districts to apply in dairy nutrient management plans technologies and methods that are appropriate to the needs of the specific type of operation and the specific farm site and to avoid imposing requirements that are not necessary for the specific dairy producer to achieve compliance with water quality requirements.

(5) Such plans shall be submitted for approval to the local conservation district where the dairy farm is located, and shall be approved by conservation districts no later than by July 1, 2002. The conservation commission, in conjunction with conservation districts, shall develop a state-wide schedule of plan development and approval to ensure adequate resources are available to have all plans approved by July 1, 2002.

(6) If a dairy producer leases land for dairy production from an owner who has prohibited the development of capital improvements, such as storage lagoons, on the leased property, the dairy producer shall indicate in his or her dairy nutrient management plan that such improvements are prohibited by the landowner and shall describe other methods, such as land application, that will be employed by the dairy producer to manage dairy nutrients.

(7) If a plan contains the elements identified in subsection (2) of this section, a conservation district shall approve the plan no later than ninety days after receiving the plan. If the plan does not contain the elements identified in subsection (2) of this section, the local conservation district shall notify the dairy producer in writing of modifications needed in the plan no later than ninety days after receiving the plan. The dairy producer shall provide a revised plan that includes the needed modifications within ninety days of the date of the local conservation district notification. If the dairy producer does not agree with, or otherwise takes exception to, the modifications requested by the local conservation district, the dairy producer may initiate the appeals process described in section 7 of this act within thirty days of receiving the letter of notification.

(8) An approved plan shall be certified by a conservation district and a dairy producer when the elements necessary to implement the plan have been constructed or otherwise put in place, and are being used as designed and intended. A certification form shall be developed by the conservation commission for use state-wide and shall provide for a signature by both a conservation district representative and a dairy producer. Certification forms shall be signed by December 31, 2003, and a copy provided to the department for recording in the data base established in section 9 of this act.

(9) The ability of dairy producers to comply with the planning requirements of this chapter depends, in many cases, on the availability of federal and state funding to support technical assistance provided by local conservation districts. Dairy producers shall not be held responsible for noncompliance with the planning requirements of this chapter if conservation districts are unable to perform their duties under this chapter because of insufficient funding.

**NEW SECTION. Sec. 7.** (1) Conservation district decisions pertaining to denial of approval or denial of certification of a dairy nutrient management plan; modification or amendment of a plan; conditions contained in a plan; application of any dairy nutrient management practices, standards, methods, and technologies to a particular dairy farm; and the failure to adhere to plan review and approval timelines identified in section 6 of this act are appealable under this chapter. Department actions pertaining to water quality violations are appealable under chapter 90.48 RCW.

In addition, a dairy producer who is constrained from complying with the planning requirements of this chapter because of financial hardship or local permitting delays may request a hearing before the conservation commission and may request an extension of up to one year beyond the approval and certification dates prescribed in this chapter for plan approval and certification.

(2) Within thirty days of receiving a local conservation district notification regarding any of the decisions identified in subsection (1) of this section, a dairy producer who disagrees with any of these decisions may request an informal hearing before the conservation commission or may appeal directly to the pollution control hearings board. The commission shall issue a written decision no later than thirty days after the informal hearing.

(3) If the conservation commission upholds the decision of the local conservation district at the informal hearing, the decision of the local conservation district may be appealed to the pollution control hearings board according to the procedure in chapter 43.21B RCW within thirty days of receipt of the commission's decision.

(4) If the conservation commission reverses the decision of the conservation district, the conservation district may appeal this reversal to the pollution control hearings board according to the procedure in chapter 43.21B RCW within thirty days of receipt of the commission's decision.

(5) When an appeals process is initiated under this section, the length of time extending from the start of the appeals process to its conclusion shall be added onto the timelines provided in this chapter for plan development, approval, and certification only if an appeal is heard by the pollution control hearings board.

**NEW SECTION. Sec. 8.** (1) A dairy nutrient management program advisory and oversight committee is established. The committee shall be cochaired by the executive director of the conservation commission and a dairy industry representative. The purpose of the committee is to provide direction to and oversight of the dairy nutrient management inspection program, as well as to encourage the use of appropriate alternative technologies and methods for managing dairy nutrients.

(2) The committee shall include no less than eleven, and no more than thirteen members, including one representative from the department, one representative of the dairy industry from each of four geographic areas as referenced in section 10 of this act, one representative from the conservation commission, two representatives from local conservation districts, one representative from a local health department, one representative of an environmental organization, and one representative from the shellfish industry. In addition, the natural resources conservation service and the federal environmental protection agency shall each be invited to appoint a representative to the committee.

(3) The conservation commission shall contact agencies and organizations representing the interests identified in subsection (2) of this section and request that they notify their employees and membership of the opportunity to serve on the advisory and oversight committee. The commission shall also extend the invitations to the natural resources conservation service and the federal environmental protection agency. An association representing the dairy industry shall solicit interest broadly from both within and outside of the association. Persons interested in serving on the advisory and oversight committee shall submit their names to the conservation commission no later than May 1, 1998. By June 1, 1998, the commission shall appoint the required number of members from the nominations received.

(4) Advisory and oversight committee members shall be compensated under RCW 43.03.230 and shall be reimbursed for expenses as provided under RCW 43.03.050 and 43.03.060.

(5) The committee shall perform the following functions:

- (a) Meet at least four times per calendar year;
- (b) Maintain meeting minutes and account for the resolution of issues jointly identified by the committee chairs as needing to be addressed;
- (c) Review the development of the data base, the quarterly data base summary, and the annual report provided by the department under section 9 of this act and RCW 90.64.050;
- (d) Act as a forum to hear suggestions from any interested parties, including dairy farmers, regarding implementation of the dairy nutrient management program;
- (e) Review and recommend standardized dairy farm inspection procedures, prioritization criteria, and frequencies and a reporting format to be used by the department;
- (f) Assist the department and the conservation commission in developing reports to the legislature as required in section 18 of this act; and
- (g) Review and recommend dairy nutrient management technologies and methods other than those approved or provided by the natural resources conservation service for use as components of nutrient management plans under this chapter.

**NEW SECTION. Sec. 9.** (1) By October 1, 1998, the department, in consultation with the advisory and oversight committee, shall develop and maintain a data base to account for the implementation of this chapter.

(2) The data base shall track registrations; inspection dates and results, including findings of violations; regulatory and enforcement actions; and the status of dairy nutrient management plans. In addition, the number of dairy farm inspections by inspector shall be tallied by month. A summary of data base information shall be provided quarterly to the advisory and oversight committee.

(3) Any information entered into the data base by the department about any aspect of a particular dairy operation may be reviewed by the affected dairy producer upon request. The department shall correct any information in the data base upon a showing that the information is faulty or inaccurate. Complaints that have been filed with the department and determined to be unfounded, invalid, or without merit shall not be recorded in the data base. Appeals of decisions related to dairy nutrient management plans to the pollution control hearings board or to any court shall be recorded, as well as the decisions of those bodies.

**NEW SECTION. Sec. 10.** (1) The conservation commission shall establish four dairy nutrient management technical assistance teams by June 1, 1998. The teams shall be geographically located throughout the state. Each team shall consist of one or more professional engineers, local conservation district employees, and dairy nutrient management experts from Washington State University. The purpose of the teams is to:

- (a) Actively develop and promote new cost-effective approaches for managing dairy nutrients; and
- (b) Assist dairy farms in developing dairy nutrient management plans.

(2) By January 1, 1999, each team shall develop one or more initial sets of standards and specifications to assist dairy producers in developing and implementing dairy nutrient management plans. Standards and specifications developed by a technical assistance team shall be appropriate to the soils and other conditions within that geographic area and shall be reviewed by the advisory and oversight committee.

**Sec. 11.** RCW 90.64.030 and 1993 c 221 s 4 are each amended to read as follows:

~~((Upon receiving a complaint or upon its own determination that a dairy animal feeding operation is a likely source of water quality degradation,))~~ (1) Under the inspection program established in section 5 of this act, the department may investigate a dairy ((animal feeding operation)) farm to determine whether the operation is discharging ((directly)) pollutants or ((recently)) has ((discharged directly)) a record of discharging pollutants into surface or ground waters of the state. Upon concluding an investigation, the department shall make a written report of its findings, including the results of any water quality measurements, photographs, or other pertinent information, and provide a copy of the report to the dairy producer within twenty days of the investigation.

(2) The department shall investigate a written complaint filed with the department within ((ten)) three working days and shall make a written report of its findings including the results of any water quality measurements, photographs, or other pertinent information. A copy of the findings shall be provided ((upon request)) to the dairy ((animal feeding operation)) producer subject to the complaint

within twenty days. Only findings of violations shall be entered into the data base identified in section 9 of this act.

((Those dairy animal feeding operations that are)) (3) A dairy farm that is determined to be a significant contributor of pollution based on actual water quality tests, photographs, or other pertinent information ((if immediate corrective actions are not possible, shall be designated as a concentrated dairy animal feeding operation and shall be)) is subject to the provisions of this chapter and to the enforcement provisions of chapters 43.05 and 90.48 RCW, including civil penalties levied under RCW 90.48.144.

(4) For a violation of water quality laws that is a first offense for a dairy producer, the penalty may be waived to allow the producer to come into compliance with water quality laws. The department shall record all legitimate violations and subsequent enforcement actions.

(5) A discharge, including a storm water discharge, to surface waters of the state shall not be considered a violation of this chapter, chapter 90.48 RCW, or chapter 173-201A WAC, and shall therefore not be enforceable by the department of ecology or a third party, if at the time of the discharge, a violation is not occurring under RCW 90.64.010(18). In addition, a dairy producer shall not be held liable for violations of this chapter, chapter 90.48 RCW, chapter 173-201A WAC, or the federal clean water act due to the discharge of dairy nutrients to waters of the state resulting from spreading these materials on lands other than where the nutrients were generated, when the nutrients are spread by persons other than the dairy producer or the dairy producer's agent.

(6) As provided under RCW 7.48.305, agricultural activities associated with the management of dairy nutrients are presumed to be reasonable and shall not be found to constitute a nuisance unless the activity has a substantial adverse effect on public health and safety.

(7) This section specifically acknowledges that if a holder of a general or individual national pollutant discharge elimination system permit complies with the permit and the dairy nutrient management plan conditions for appropriate land application practices, the permit provides compliance with the federal clean water act and acts as a shield against citizen or agency enforcement for any additions of pollutants to waters of the state or of the United States as authorized by the permit.

(8) A dairy producer who fails to have an approved dairy nutrient management plan by July 1, 2002, or a certified dairy nutrient management plan by December 31, 2003, and for which no appeals have been filed with the pollution control hearings board, is in violation of this chapter. Each month beyond these deadlines that a dairy producer is out of compliance with the requirement for either plan approval or plan certification shall be considered separate violations of chapter 90.64 RCW that may be subject to penalties. Such penalties may not exceed one hundred dollars per month for each violation up to a combined total of five thousand dollars. Failure to register as required in section 3 of this act shall subject a dairy producer to a maximum penalty of one hundred dollars. Penalties shall be levied by the department.

**Sec. 12.** RCW 90.64.050 and 1993 c 221 s 6 are each amended to read as follows:

(1) The department has the following duties:

(a) Identify existing or potential water quality problems resulting from dairy farms through implementation of the inspection program in section 5 of this act;

(b) Inspect a dairy farm upon the request of a dairy producer;

(c) Receive, process, and verify complaints concerning discharge of pollutants from all dairy farms ((regardless of size));

((e)) (d) Determine if a dairy-related water quality problem requires immediate corrective action under the Washington state water pollution control laws, chapter 90.48 RCW, or the Washington state water quality standards adopted under chapter 90.48 RCW((, or other authorities)). The department shall maintain the lead enforcement responsibility;

((d)) (e) Administer and enforce national pollutant((s)) discharge elimination system permits for operators of concentrated dairy animal feeding operations, where required by federal regulations((,)) and ((administer)) state laws or upon request of a dairy producer;

((e) Appoint representatives, including dairy industry representatives, to participate in the compliance review committee that will annually review and update policy and disseminate information as needed;))

(f) Participate on the advisory and oversight committee;

(g) Encourage communication and cooperation between local department personnel and the appropriate conservation district personnel;

~~((g) Encourage)~~ (h) Require the use of ~~((federal soil conservation service standards and specifications in designing best management practices for))~~ dairy ~~((waste))~~ nutrient management plans ~~((to protect water quality))~~ as required under this chapter for entities required to plan under this chapter; and

~~((h))~~ (i) Provide to the commission and the advisory and oversight committee an annual report of dairy ~~((waste pollution))~~ farm inspection and enforcement activities.

(2) The department may not delegate its responsibilities in enforcement.

**Sec. 13.** RCW 90.64.060 and 1993 c 221 s 7 are each amended to read as follows:

~~((1) If the department determines that the operator of a dairy animal feeding operation has the means to correct a water quality problem in a manner that will prevent future contamination and does so promptly and such correction is maintained, the department shall cease pursuit of the complaint.~~

~~(2))~~ If the department determines that an unresolved water quality problem from a dairy ~~((animal feeding operation))~~ farm requires immediate corrective action, the department shall notify the ~~((operator))~~ producer and the district in which the problem is located. When corrective actions are required to address such unresolved water quality problems, the department shall provide copies of all final dairy farm inspection reports and documentation of all formal regulatory and enforcement actions taken by the department against that particular dairy farm to the local conservation district and to the appropriate dairy farm within twenty days.

~~((3) If immediate action is not necessary by the department, the handling of complaints will differ depending on the amount of information available and the compliance option selected by the conservation district involved.~~

~~(a) When the name and address of the party against whom the complaint was registered are known:~~

~~(i) Districts operating at levels 1 and 2 will receive a copy of complaint information, and compliance letter if one was sent out.~~

~~(ii) Districts operating at levels 3 and 4 will receive a copy of complaint information and the letter sent by the department to the operator informing the operator of the complaint and providing the operator with the opportunity to work with the conservation district on a voluntary basis.~~

~~(b) The department and the conservation district will work together at the local level to resolve complaints when the name and address of the party against whom the complaint was registered are unknown.)~~

**Sec. 14.** RCW 90.64.070 and 1993 c 221 s 8 are each amended to read as follows:

Fees shall be established in amounts to fully recover and not to exceed expenses incurred by the department in processing permit applications and modifications, monitoring and evaluating compliance with permits, conducting inspections, securing laboratory analysis of samples taken during inspections, reviewing plans and documents directly related to operations of permittees, overseeing performance of delegated pretreatment programs, and supporting the overhead expenses that are directly related to these activities.

(4) In establishing fees, the department shall consider the economic impact of fees on small dischargers and the economic impact of fees on public entities required to obtain permits for storm water runoff and shall provide appropriate adjustments.

(5) The fee for an individual permit issued for a dairy farm as defined under chapter 90.64 RCW shall be fifty cents per animal unit up to one thousand one hundred sixty-seven dollars for fiscal year 1998 and one thousand two hundred fourteen dollars for fiscal year 1999. The conservation commission shall include in the report to the legislature filed December 1, 1999, an evaluation of whether the fiscal resources available to the commission, to conservation districts, and to Washington State University dairy nutrient management experts are adequate to fund the technical assistance teams established under section 10 of this act and to develop and certify plans as required by the schedule established in section 6 of this act. Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that many residents of long-term care facilities and recipients of in-home personal care services are exceptionally vulnerable and their health and well-being are heavily dependent on their caregivers. The legislature further finds that the quality of staff in long-term care facilities is often the key to good care. The need for well-trained staff and well-managed facilities is growing as the state's population ages and the acuity of the health care problems of residents increases. In order to better protect and care for residents, the legislature directs that the minimum training standards be reviewed for management and caregiving staff, including those serving residents with special needs, such as mental illness, dementia, or a developmental disability, that management and caregiving staff receive appropriate training, and that the training delivery system be improved.

**NEW SECTION. Sec. 2.** A new section is added to chapter 18.20 RCW to read as follows:

(1) The department of social and health services shall review, in coordination with the department of health, the nursing care quality assurance commission, adult family home providers, boarding home providers, in-home personal care providers, and long-term care consumers and advocates, training standards for administrators and resident caregiving staff. The departments and the commission shall submit to the appropriate committees of the house of representatives and the senate by December 1, 1998, specific recommendations on training standards and the delivery system, including necessary statutory changes and funding requirements. Any proposed enhancements shall be consistent with this section, shall take into account and not duplicate other training requirements applicable to boarding homes and staff, and shall be developed with the input of boarding home and resident representatives, health care professionals, and other vested interest groups. Training standards and the delivery system shall be relevant to the needs of residents served by the boarding home and recipients of long-term in-home personal care services and shall be sufficient to ensure that administrators and caregiving staff have the skills and knowledge necessary to provide high quality, appropriate care.

(2) The recommendations on training standards and the delivery system developed under subsection (1) of this section shall be based on a review and consideration of the following: Quality of care; availability of training; affordability, including the training costs incurred by the department of social and health services and private providers; portability of existing training requirements; competency testing; practical and clinical course work; methods of delivery of training; standards for management and caregiving staff training; and necessary enhancements for special needs populations and resident rights training. Residents with special needs include, but are not limited to, residents with a diagnosis of mental illness, dementia, or developmental disability.

(3) The department of social and health services shall report to the appropriate committees of the house of representatives and the senate by December 1, 1998, on the cost of implementing the proposed training standards for state-funded residents, and on the extent to which that cost is covered by existing state payment rates.

**NEW SECTION. Sec. 3.** A new section is added to chapter 70.128 RCW to read as follows:

(1) The department of social and health services shall review, in coordination with the department of health, the nursing care quality assurance commission, adult family home providers, boarding home providers, in-home personal care providers, and long-term care consumers and advocates, training standards for providers, resident managers, and resident caregiving staff. The departments and the commission shall submit to the appropriate committees of the house of

representatives and the senate by December 1, 1998, specific recommendations on training standards and the delivery system, including necessary statutory changes and funding requirements. Any proposed enhancements shall be consistent with this section, shall take into account and not duplicate other training requirements applicable to adult family homes and staff, and shall be developed with the input of adult family home and resident representatives, health care professionals, and other vested interest groups. Training standards and the delivery system shall be relevant to the needs of residents served by the adult family home and recipients of long-term in-home personal care services and shall be sufficient to ensure that providers, resident managers, and caregiving staff have the skills and knowledge necessary to provide high quality, appropriate care.

(2) The recommendations on training standards and the delivery system developed under subsection (1) of this section shall be based on a review and consideration of the following: Quality of care; availability of training; affordability, including the training costs incurred by the department of social and health services and private providers; portability of existing training requirements; competency testing; practical and clinical course work; methods of delivery of training; standards for management; uniform caregiving staff training; necessary enhancements for special needs populations; and resident rights training. Residents with special needs include, but are not limited to, residents with a diagnosis of mental illness, dementia, or developmental disability. Development of training recommendations for developmental disabilities services shall be coordinated with the study requirements in section 5 of this act.

(3) The department of social and health services shall report to the appropriate committees of the house of representatives and the senate by December 1, 1998, on the cost of implementing the proposed training standards for state-funded residents, and on the extent to which that cost is covered by existing state payment rates.

~~(b) Homes licensed by the department shall be inspected at least every eighteen months, subject to available funds.~~

~~(c) The department may make an unannounced inspection of a licensed home at any time to assure that the home and provider are in compliance with this chapter and the rules adopted under this chapter.~~

~~((4)) (3) If the department finds that the home is not in compliance with this chapter, it shall require the home to correct any violations as provided in this chapter. ((If the department finds that the home is in compliance with this chapter and the rules adopted under this chapter, the department shall renew the license of the home.))~~

NEW SECTION. Sec. 8. A new section is added to chapter 18.48 RCW to read as follows:

Adult family homes have developed rapidly in response to the health and social needs of the aging population in community settings, especially as the aging population has increased in proportion to the general population. The growing demand for elder care with a new focus on issues affecting senior citizens, including persons with developmental disabilities, mental illness, or dementia, has prompted a growing professionalization of adult family home providers to address quality care and quality of life issues consistent with standards of accountability and regulatory safeguards for the health and safety of the residents. The establishment of an advisory committee to the department of health and the department of social and health services under section 9 of this act formalizes a stable process for discussing and considering these issues among residents and their advocates, regulatory officials, and adult family home providers. The dialogue among all stakeholders interested in maintaining a healthy option for the aging population in community settings assures the highest regard for the well-being of these residents within a benign and functional regulatory environment.

NEW SECTION. Sec. 9. A new section is added to chapter 18.48 RCW to read as follows:

(1) The secretary, in consultation with the secretary of social and health services, shall appoint an advisory committee on matters relating to the regulation, administrative rules, enforcement process, staffing, and training requirements of adult family homes. The advisory committee shall be composed of six members, of which two members shall be resident advocates, three members shall represent adult family home providers, and one member shall represent the public and serve as chair. The members shall generally represent the interests of aging residents, residents with dementia, residents with mental illness, and residents with developmental disabilities respectively. Members representing adult family home providers must have at least two years' experience as licensees. The membership must generally reflect urban and rural areas and western and eastern parts of the state. A member may not serve more than two consecutive terms.

(2) The secretary may remove a member of the advisory committee for cause as specified by rule adopted by the department. If there is a vacancy, the secretary shall appoint a member to serve for the remainder of the unexpired term.

(3) The advisory committee shall meet at the times and places designated by the secretary and shall hold meetings during the year as necessary to provide advice to the secretary on matters relating to the regulation of adult family homes. A majority of the members may request a meeting of the committee for any express purpose directly related to the regulation of adult family homes. A majority of members currently serving shall constitute a quorum.

(4) Establishment of the advisory committee shall not prohibit the department of health from utilizing other advisory activities that the department of health deems necessary for program development.

(5) Each member of the advisory committee shall serve without compensation but may be reimbursed for travel expenses as authorized in RCW 43.03.060.

(6) The secretary, members of the advisory committee, or individuals acting on their behalf are immune from civil liability for official acts performed in the course of their duties.

**NEW SECTION. Sec. 10.** A new section is added to chapter 70.128 RCW to read as follows:

Adult family homes have developed rapidly in response to the health and social needs of the aging population in community settings, especially as the aging population has increased in proportion to the general population. The growing demand for elder care with a new focus on issues affecting senior citizens, including persons with developmental disabilities, mental illness, or dementia, has prompted a growing professionalization of adult family home providers to address quality care and quality of life issues consistent with standards of accountability and regulatory safeguards for the health and safety of the residents. The establishment of an advisory committee to the department of health and the department of social and health services under section 9 of this act formalizes a stable process for discussing and considering these issues among residents and their advocates, regulatory officials, and adult family home providers. The dialogue among all stakeholders interested in maintaining a healthy option for the aging population in community settings assures the highest regard for the well-being of these residents within a benign and functional regulatory environment. The secretary shall be advised by an advisory committee on adult family homes established under section 9 of this act.

Establishment of the advisory committee shall not prohibit the department of social and health services from utilizing other advisory activities that the department of social and health services deems necessary for program development.

(3) Retail electric customers are not obligated for unauthorized charges resulting from an unwritten purchase and sale agreement or an unlawful charge, and electricity suppliers may not bill customers for the charges.

(4) An electricity supplier is liable to a retail electric customer for liquidated damages in the amount of one hundred dollars for each unauthorized change.

**NEW SECTION. Sec. 13.** It is an unfair or deceptive act or practice and a violation of this section for any electricity supplier to place a commercial telephone solicitation to any residence that will be received before 8:00 a.m. or after 5:00 p.m. at the retail electric customer's local time, notwithstanding the provisions of RCW 19.158.040(2).

**NEW SECTION. Sec. 14.** (1) Any person making an express or implied claim concerning an electricity product must, at the time the claim is made, possess and rely upon a reasonable basis substantiating the claim.

(3) Electricity suppliers may make express or implied marketing claims relating to their projected performance if, at the time the claim is made, they possess and rely upon a reasonable basis for substantiating the claim. If the actual performance differs from the projected performance in a material way during any six-month period that an agreement is in effect, the electricity service provider shall provide the retail electric customer, in a timely manner, with a brief, written explanation for the difference and a notice that as a result of the difference, the customer has the right to change suppliers without incurring any transfer charge.

**NEW SECTION. Sec. 15.** (1) All electricity distribution utilities and electricity suppliers shall protect the confidentiality of proprietary information of, and relating to, retail electric customers. An electricity distribution utility or electricity supplier that receives or obtains proprietary customer information from another electricity distribution utility or electricity supplier for the purposes of providing retail electric service shall use the information only for such a purpose, and shall not use the information for its own marketing efforts.

(2) Except as required by law or with the approval of the customer, an electricity distribution utility or electricity supplier that receives or obtains proprietary customer information by virtue of its provision of electricity or related services shall only use, disclose, or permit access to individually identifiable proprietary customer information in its provision of electricity from which the information is derived or services necessary to, or used in, the provision of electricity service. Nothing in this subsection shall be construed to prohibit an electricity distribution utility or electricity supplier from using, disclosing, or permitting access to proprietary customer information obtained from its customers to initiate, render, bill, or collect for electricity and related services.

(3) An electricity distribution utility or electricity supplier shall disclose proprietary customer information, upon affirmative written request by the customer, to any person designated by the customer.

(4) An electricity distribution utility or electricity supplier that receives or obtains proprietary customer information by virtue of its provision of electricity or related services may use, disclose, or permit access to aggregate customer information other than for the purposes described in subsection (2) of this section. An electricity distribution utility may use, disclose, or permit access to aggregate customer information other than for the purposes described in subsection (2) of this section only if it provides the information to other electricity suppliers on reasonable and nondiscriminatory terms and conditions upon reasonable request of the suppliers. For the purposes of this subsection, "aggregate information" means collective data that relates to a group or category of services or customers, from which individual customer identities and characteristics have been removed. Aggregate information shall not be released without permission of the affected customers when the information concerns a group of customers that is small enough to reveal the probable usage, billing, or payment behavior of any individual members of the customer group. There is a rebuttable presumption that a customer group with less than twenty-five members meets this criteria.

**NEW SECTION. Sec. 16.** (1) It is an unfair or deceptive act or practice and a violation of this section for any electricity supplier to engage in the following conduct:

(a) Failing to disclose in a clear and conspicuous manner, before a retail electric customer authorizes payment for an electricity product offered:

(i) The information required in section 10 of this act;

(ii) All material restrictions, limitations, or conditions to purchase, receive, or use the products or services that are the subject of the sales offer; and

(iii) In any one-time price inducements, all material restrictions, limitations, or conditions to receive or redeem the inducement that is the subject of the sales offer;

(b) Misrepresenting, directly or by implication, any of the following:

(i) The information required in section 10 of this act;

(ii) All material restrictions, limitations, or conditions to purchase, receive, or use the products or services that are the subject of the sales offer;

(iii) In any one-time price inducements, all material restrictions, limitations, or conditions to receive or redeem the inducement that is the subject of the sales offer; or

(iv) An electricity supplier's affiliation with, or endorsement by, any government or third-party organization; or

(c) Making a false or misleading statement to induce any person to pay for electricity or other related services.

(2) For the purposes of this section, an electricity supplier includes any person authorized by the electricity supplier to market, promote, or sell electricity or other related services.

**NEW SECTION. (c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. Representative Sheahan moved the adoption of amendment (1144):

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds that in 1996 drunk drivers were involved in two hundred eighty-five fatal accidents killing three hundred thirty-one people and six thousand four hundred fifty injury accidents injuring ten thousand three hundred twenty-six people. The legislature has increased criminal penalties, including longer mandatory minimum jail sentences and fines, in order to punish and deter drunk driving. In addition to criminal sanctions, however, the legislature finds that authorizing the immediate impoundment of vehicles driven by drunk drivers is reasonably necessary to increase traffic safety and reduce the carnage caused by drunk driving. A number of studies in states that have adopted impound laws have found them effective in reducing drunk driving and related fatalities. Repeat drunk drivers are more likely to continue to reoffend and are substantially more likely to cause a fatal collision than first-time offenders. Temporary impoundment for first-time offenders will reduce drunk drivers' access to vehicles and help both prevent and deter drunk driving. The impoundment of a vehicle operated in violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, is intended to be a civil in rem action against the vehicle in order to remove it from the public highways and reduce the risk posed to traffic safety by a vehicle accessible to a driver who is reasonably believed to have violated these laws.

**Sec. 2.** RCW 46.55.113 and 1997 c 66 s 7 are each amended to read as follows:

Whenever the driver of a vehicle is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, the ((arresting officer may take custody of the vehicle and provide for its prompt removal to a place of safety)) vehicle is subject to impoundment, pursuant to applicable local ordinance or state agency rule at the direction of a law enforcement officer. In addition, a police officer may take custody of a vehicle and provide for its prompt removal to a place of safety under any of the following circumstances:

(1) Whenever a police officer finds a vehicle standing upon the roadway in violation of any of the provisions of RCW 46.61.560, the officer may provide for the removal of the vehicle or require the driver or other person in charge of the vehicle to move the vehicle to a position off the roadway;

(2) Whenever a police officer finds a vehicle unattended upon a highway where the vehicle constitutes an obstruction to traffic or jeopardizes public safety;

(3) Whenever a police officer finds an unattended vehicle at the scene of an accident or when the driver of a vehicle involved in an accident is physically or mentally incapable of deciding upon steps to be taken to protect his or her property;

(4) Whenever the driver of a vehicle is arrested and taken into custody by a police officer;

(5) Whenever a police officer discovers a vehicle that the officer determines to be a stolen vehicle;

(6) Whenever a vehicle without a special license plate, card, or decal indicating that the vehicle is being used to transport a disabled person under RCW 46.16.381 is parked in a stall or space clearly and conspicuously marked under RCW 46.61.581 which space is provided on private property without charge or on public property;

(7) Upon determining that a person is operating a motor vehicle without a valid driver's license in violation of RCW 46.20.005 or with a license that has been expired for ninety days or more, or with a suspended or revoked license in violation of RCW 46.20.342 or 46.20.420.

Nothing in this section may derogate from the powers of police officers under the common law. For the purposes of this section, a place of safety may include the business location of a registered tow truck operator.

**Sec. 3.** RCW 46.55.120 and 1996 c 89 s 2 are each amended to read as follows:

(1) Vehicles or other items of personal property registered or titled with the department that are impounded by registered tow truck operators pursuant to RCW 46.55.080, 46.55.085, or 46.55.113 may be redeemed only under the following circumstances:

(a) Only the legal owner, the registered owner, a person authorized in writing by the registered owner or the vehicle's insurer, a person who is determined and verified by the operator to have the permission of the registered owner of the vehicle or other item of personal property registered or titled with the department, or one who has purchased a vehicle or item of personal property registered or titled with the department from the registered owner who produces proof of ownership or written authorization and signs a receipt therefor, may redeem an impounded vehicle or items of personal property registered or titled with the department. In addition, any person redeeming a vehicle impounded because the driver was arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, must prior to redemption establish with the agency that ordered the vehicle impounded that he or she has a valid driver's license and is in compliance with RCW 46.30.020. A vehicle impounded because the driver is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, may be released only pursuant to a written order from the agency that ordered the vehicle impounded, or pursuant to a provision of an applicable state agency rule or local ordinance authorizing release on the basis of economic or personal hardship to the spouse of the operator, taking into consideration public safety factors, including the operator's criminal history and driving record. If a vehicle is impounded because the operator is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, the vehicle may be held at the written direction of the agency ordering the vehicle impounded for up to thirty days if the operator has no prior offense as defined in RCW 46.61.5055(8), for up to sixty days if the operator has one such prior offense, and for up to ninety days if the operator has two or more such prior offenses. If a vehicle is impounded because the operator is arrested for a violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, the vehicle may not be released until a person eligible to redeem it pays all towing, removal, and storage fees, notwithstanding the fact that the impoundment was ordered by a government agency.

(b) The vehicle or other item of personal property registered or titled with the department shall be released upon the presentation to any person having custody of the vehicle of commercially reasonable tender sufficient to cover the costs of towing, storage, or other services rendered during the course of towing, removing, impounding, or storing any such vehicle. Commercially reasonable tender shall include, without limitation, cash, major bank credit cards, or personal checks drawn on in-state banks if accompanied by two pieces of valid identification, one of which may be required by the operator to have a photograph. If the towing firm can determine through the customer's bank or a check verification service that the presented check would not be paid by the bank or guaranteed by the service, the towing firm may refuse to accept the check. Any person who stops payment on a personal check or credit card, or does not make restitution within ten days from the date a check becomes insufficient due to lack of funds, to a towing firm that has provided a service pursuant to this section or in any other manner defrauds the towing firm in connection with services rendered pursuant to this section shall be liable for damages in the amount of twice the towing and storage fees, plus costs and reasonable attorney's fees.

(2)(a) The registered tow truck operator shall give to each person who seeks to redeem an impounded vehicle, or item of personal property registered or titled with the department, written notice of the right of redemption and opportunity for a hearing, which notice shall be accompanied by a form to be used for requesting a hearing, the name of the person or agency authorizing the impound, and a copy of the towing and storage invoice. The registered tow truck operator shall maintain a record evidenced by the redeeming person's signature that such notification was provided.

(b) Any person seeking to redeem an impounded vehicle under this section has a right to a hearing in the district or municipal court for the jurisdiction in which the vehicle was impounded to contest the validity of the impoundment or the amount of towing and storage charges. The district court has jurisdiction to determine the issues involving all impoundments including those authorized by the state or its agents. The municipal court has jurisdiction to determine the issues involving impoundments authorized by agents of the municipality. Any request for a hearing shall be made in writing on the form provided for that purpose and must be received by the district or municipal court within ten days of the date the opportunity was provided for in subsection (2)(a) of this section. At the time of the filing of the hearing request, the petitioner shall pay to the court clerk a filing fee in the same amount required for the filing of a suit in the small claims department of a district court. If the hearing request is not received by the district or municipal court within the ten-day period, the right to a hearing is waived and the registered owner is liable for any towing, storage, or other impoundment charges permitted under this chapter. Upon receipt of a timely hearing request, the ((district)) court shall proceed to hear and determine the validity of the impoundment.

(3)(a) The ((district)) court, within five days after the request for a hearing, shall notify the registered tow truck operator, the person requesting the hearing if not the owner, the registered and legal owners of the vehicle or other item of personal property registered or titled with the department, and the person or agency authorizing the impound in writing of the hearing date and time.

(b) At the hearing, the person or persons requesting the hearing may produce any relevant evidence to show that the impoundment, towing, or storage fees charged were not proper. The court ((may)) shall consider a written report made under oath by the officer who authorized the impoundment in lieu of the officer's personal appearance at the hearing.

(c) At the conclusion of the hearing, the ((district)) court shall determine whether the impoundment was proper, whether the towing or storage fees charged were in compliance with the posted rates, and who is responsible for payment of the fees. The court may not adjust fees or charges that are in compliance with the posted or contracted rates.

(d) If the impoundment is found proper, the impoundment, towing, and storage fees as permitted under this chapter together with court costs shall be assessed against the person or persons requesting the hearing, unless the operator did not have a signed and valid impoundment authorization from a private property owner or an authorized agent.

(e) If the impoundment is determined to be in violation of this chapter, then the registered and legal owners of the vehicle or other item of personal property registered or titled with the department shall bear no impoundment, towing, or storage fees, and any security shall be returned or discharged as appropriate, and the person or agency who authorized the impoundment shall be liable for any towing, storage, or other impoundment fees permitted under this chapter. The court shall enter judgment in favor of the registered tow truck operator against the person or agency authorizing the impound for the impoundment, towing, and storage fees paid. In addition, the court shall enter judgment in favor of the registered and legal owners of the vehicle, or other item of personal property registered or titled with the department, for the amount of the filing fee required by law for the impound hearing petition as well as reasonable damages for loss of the use of the vehicle during the time the same was impounded, for not less than fifty dollars per day, against the person or agency authorizing the impound. However, if an impoundment arising from an alleged violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence, is determined to be in violation of this chapter, then the law enforcement officer directing the impoundment and the government employing the officer are not liable for damages if the officer had probable cause to believe the driver of the vehicle was in violation of RCW 46.61.502 or 46.61.504, or of RCW 46.61.520 or 46.61.522 if committed while under the influence. If any judgment entered is not paid within fifteen days of notice in writing of its entry, the court shall award reasonable attorneys' fees and costs against the defendant in any action to enforce the judgment. Notice of entry of judgment may be made by registered or certified mail, and proof of mailing may be made by affidavit of the party mailing the notice. Notice of the entry of the judgment shall read essentially as follows:

(4) Any impounded abandoned vehicle or item of personal property registered or titled with the department that is not redeemed within fifteen days of mailing of the notice of custody and sale as required by RCW 46.55.110(2) shall be sold at public auction in accordance with all the provisions and subject to all the conditions of RCW 46.55.130. A vehicle or item of personal property registered or titled with the department may be redeemed at any time before the start of the auction upon payment of the applicable towing and storage fees.

**Sec. 4.** RCW 46.12.095 and 1969 ex.s. c 170 s 16 are each amended to read as follows:

A security interest in a vehicle other than one held as inventory by a manufacturer or a dealer and for which a certificate of ownership is required is perfected only by compliance with the requirements of section 6 of this act under the circumstances provided for therein or by compliance with the requirements of this section:

(1) A security interest is perfected (~~(only)~~) by the department's receipt of: (a) The existing certificate, if any, and (b) an application for a certificate of ownership containing the name and address of the secured party, and (c) tender of the required fee.

(2) It is perfected as of the time of its creation: (a) If the papers and fee referred to in ((the preceding)) subsection (1) of this section are received by this department within ((eight department business)) twenty calendar days ((exclusive)) of the day on which the security agreement was created; or (b) if the secured party's name and address appear on the outstanding certificate of ownership; otherwise, as of the date on which the department has received the papers and fee required in subsection (1) of this section.

(3) If a vehicle is subject to a security interest when brought into this state, perfection of the security interest is determined by the law of the jurisdiction where the vehicle was when the security interest was attached, subject to the following:

(a) If the security interest was perfected under the law of the jurisdiction where the vehicle was when the security interest was attached, the following rules apply:

(b) If the name of the secured party is shown on the existing certificate of ownership issued by that jurisdiction, the security interest continues perfected in this state. The name of the secured party shall be shown on the certificate of ownership issued for the vehicle by this state. The security interest continues perfected in this state upon the issuance of such ownership certificate.

(c) If the security interest was not perfected under the law of the jurisdiction where the vehicle was when the security interest was attached, it may be perfected in this state; in that case, perfection dates from the time of perfection in this state.

**Sec. 5.** RCW 46.12.101 and 1991 c 339 s 19 are each amended to read as follows:

A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. ~~((Within five days, excluding Saturdays, Sundays, and state and federal holidays,))~~ The owner shall notify the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, the license plate number, or both, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the

department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b).

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW ((46.12.120)) 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

- (a) The department requesting additional supporting documents;
- (b) Extended hospitalization or illness of the purchaser;
- (c) Failure of a legal owner to release his or her interest;
- (d) Failure, negligence, or nonperformance of the department, auditor, or subagent.

Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor.

(7) Upon receipt of an application for reissue or replacement of a certificate of ownership and transfer of license registration, accompanied by the endorsed certificate of ownership or other documentary evidence as is deemed necessary, the department shall, if the application is in order and if all provisions relating to the certificate of ownership and license registration have been complied with, issue new certificates of title and license registration as in the case of an original issue and shall transmit the fees together with an itemized detailed report to the state treasurer, to be deposited in the motor vehicle fund.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place.

**NEW SECTION. Sec. 6.** A new section is added to chapter 46.12 RCW to read as follows:

(1) The purpose of a transitional ownership record is to enable a security interest in a motor vehicle to be perfected in a timely manner when the certificate of ownership is not available at the time the security interest is created, and to provide for timely notification to security interest holders under chapter 46.55 RCW.

(2) A transitional ownership record is only acceptable as an ownership record for vehicles currently stored on the department's computer system and if the certificate of ownership or other authorized proof of ownership for the motor vehicle:

- (a) Is not in the possession of the selling vehicle dealer or new security interest holder at the time the transitional ownership record is submitted to the department; and
- (b) To the best of the knowledge of the selling dealer or new security interest holder, the certificate of ownership will not be received for submission to the department within twenty calendar days of the date of sale of the vehicle, or if no sale is involved, within twenty calendar days of the date the security agreement or contract is executed.

(3) A person shall submit the transitional ownership record to the department or to any of its agents or subagents. Agents and subagents shall immediately electronically transmit the transitional

ownership records to the department. A transitional ownership document processed and recorded by an agent or subagent may be subject to fees as specified in RCW 46.01.140(4)(a) or (5)(b).

(4) "Transitional ownership record" means a record containing all of the following information:

(a) The date of sale;

(b) The name and address of each owner of the vehicle;

(c) The name and address of each security interest holder;

(d) If there are multiple security interest holders, the priorities of interest if the security interest holders do not jointly hold a single security interest;

(e) The vehicle identification number, the license plate number, if any, the year, make, and model of the vehicle;

(f) The name of the selling dealer or security interest holder who is submitting the transitional ownership record; and

(g) The transferee's driver's license number, if available.

(5) The report of sale form prescribed or approved by the department under RCW 46.12.101 may be used by a vehicle dealer as the transitional ownership record.

(6) Notwithstanding RCW 46.12.095 (1) and (2), compliance with the requirements of this section shall result in perfection of a security interest in the vehicle as of the time the security interest was created. Upon receipt of the certificate of ownership for the vehicle, or upon receipt of written confirmation that only an electronic record of ownership exists or that the certificate of ownership has been lost or destroyed, the selling dealer or new security interest holder shall promptly submit the same to the department together with an application for a new certificate of ownership containing the name and address of the secured party and tender the required fee as provided in RCW 46.12.095(1)."

Home impoundment consists of removing a vehicle to the registered owner's residence or other property, or to another place authorized by the ordinance or rule, and placing a boot or other device on the vehicle to render it immobile. The rule or ordinance of a jurisdiction authorizing home impoundment may provide for implementation of the home impoundment program through the jurisdiction's own agencies and by means of its own impoundment devices, or through registered tow truck operators and by means of devices provided by registered tow truck operators, or by some combination of such methods. The rule or ordinance of a jurisdiction authorizing home impoundment shall allow the driver of the vehicle to elect whether to be subject to impoundment under RCW 46.5.120 or home impoundment under this section.

(3) Before any home impoundment is begun, the vehicle must be redeemed as provided for in RCW 46.55.120 if any impoundment has occurred under that section, and any towing fee incurred in getting the vehicle to the place of home impoundment must be paid.

(4) At the end of the period of home impoundment, the vehicle may be released only after all applicable fees have been paid and only after all other obligations imposed by rule or ordinance have been met, and only to a person who would qualify to redeem an impounded vehicle under RCW 46.55.120.

(5) A local ordinance or state agency rule may provide for impoundment by a registered tow truck operator if at the end of the period of home impoundment there is no qualified person to whom the vehicle may be released.

(6)(a) A local ordinance or state agency rule may provide that if the boot or other device on a vehicle in home impoundment is tampered with, damaged, removed or rendered inoperative, the vehicle may be immediately impounded and held for an additional period of time, not to exceed thirty days.

(b) Any person seeking to redeem a vehicle impounded by a registered tow truck operator under this section has a right to a hearing to contest the validity of the impoundment as provided in RCW 46.55.120.

(c) The vehicle may be released only upon payment of all applicable fees, including any fees for damage to the boot or other device, and upon compliance with the redemption requirements of RCW 46.55.120, including the payment of all towing, removal, and storage fees.

(d) A local ordinance may provide criminal penalties for tampering, damaging, removing or rendering inoperative the boot or other device used in a home impoundment."

#### SENATE AMENDMENTS TO HOUSE BILL

March 5, 1998

Mr. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 2894 with the following amendment(s):

On page 1, strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The purpose of this act is to reallocate the general fund portion of the state's motor vehicle excise tax revenues among the taxpayers, local governments, and the state's transportation programs. By reallocating motor vehicle excise taxes, the state revenue portion can be dedicated to increased transportation funding purposes. Since the general fund currently has a budget surplus, due to a strong economy, the legislature feels that this reallocation is an appropriate short-term solution to the state's transportation needs and is a first step in meeting longer-term transportation funding needs. These reallocated funds must be used to provide relief from traffic congestion, improve freight mobility, and increase traffic safety.

In reallocating general fund resources, the legislature also ensures that other programs funded from the general fund are not adversely impacted by the reallocation of surplus general fund revenues. The legislature also adopts this act to continue the general fund revenue and expenditure limitations contained in chapter 43.135 RCW after this one-time transfer of funds.

In order to develop a long-term and comprehensive solution to the state's transportation problems, a joint committee will be created to study the state's transportation needs and the appropriate sources of revenue necessary to implement the state's long-term transportation needs as provided in section 22 of this act.

**NEW SECTION. Sec. 2.** A new section is added to chapter 82.44 RCW to read as follows:

(1) Beginning with motor vehicle registrations that are due or become due in July 1999, a credit is authorized against the tax imposed under RCW 82.44.020(1) on each personal-use motor vehicle equal to the lesser of the tax otherwise due under RCW 82.44.020(1) or thirty dollars.

(2) For the purposes of this section, "personal-use motor vehicle" means a vehicle registered to a private individual, not owned by a business, and designated in one of the following use classes: (a) Passenger; (b) truck with a weight not to exceed six thousand pounds; or (c) motorcycle.

**Sec. 3.** RCW 82.44.020 and 1993 sp.s. c 23 s 61 are each amended to read as follows:

(1) An excise tax is imposed for the privilege of using in the state any motor vehicle, except those operated under reciprocal agreements, the provisions of RCW 46.16.160 (~~as now or hereafter amended~~), or dealer's licenses. The annual amount of such excise tax shall be two and two-tenths percent of the value of such vehicle.

~~(2) ((An additional excise tax is imposed, in addition to any other tax imposed by this section, for the privilege of using in the state any such motor vehicle, and the annual amount of such additional excise shall be two tenths of one percent of the value of such vehicle.~~

~~(3) Effective with October 1992 motor vehicle registration expirations,)) A clean air excise tax is imposed in addition to any other tax imposed by this section for the privilege of using in the state any motor vehicle as defined in RCW 82.44.010, except that farm vehicles as defined in RCW 46.04.181 shall not be subject to the tax imposed by this subsection. The ~~((annual amount of the additional excise tax shall be two dollars and twenty five cents. Effective with July 1994 motor vehicle registration expirations, the))~~ annual amount of additional excise tax shall be two dollars.~~

~~((4)) (3) An additional excise tax is imposed on truck-type power units that are used in combination with a trailer to transport loads in excess of forty thousand pounds combined gross weight. The annual amount of such additional excise tax shall be fifty-eight one-hundredths of one percent of the value of the vehicle.~~

The department shall distribute the additional tax collected under this subsection as follows:

(a) For each trailing unit subject to subsection ~~((5)) (4)~~ of this section, an amount equal to the clean air excise tax prescribed in subsection ~~((3)) (2)~~ of this section shall be distributed in the manner prescribed in RCW 82.44.110~~((3)) (2)~~;

(b) ~~((6))~~ The remainder of the additional excise tax collected under this subsection~~((, ten percent shall be distributed in the manner prescribed in RCW 82.44.110(2) and ninety percent))~~ shall be distributed in the manner prescribed in RCW 82.44.110(1). (1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) ~~((and (2)))~~ remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020~~((3))~~ (2) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the ~~((general fund, under RCW 82.44.110(1)(g)))~~ transportation fund under RCW 82.44.110, make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within each county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders; except that in a case of a municipality located in a county that has a population of one hundred seventy-five thousand or more that does not have an interstate highway located within its borders, that sum shall be deposited in the passenger ferry account;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, ~~((for revenues distributed after December 31, 1992,))~~ within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the

excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero; and

(c) To the public transportation systems account created in RCW 82.44.180, (~~for revenues distributed after December 31, 1992,~~) within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero(~~;~~ and

~~(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and RCW 82.14.046).~~

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under RCW 82.14.046; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and RCW 82.14.046 shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

**Sec. 7.** RCW 82.14.045 and 1991 c 363 s 158 are each amended to read as follows:

(1) The legislative body of any city pursuant to RCW 35.92.060, of any county which has created an unincorporated transportation benefit area pursuant to RCW 36.57.100 and 36.57.110, of any public transportation benefit area pursuant to RCW 36.57A.080 and 36.57A.090, of any county transportation authority established pursuant to chapter 36.57 RCW, and of any metropolitan municipal corporation within a county with a population of one million or more pursuant to chapter 35.58 RCW, may, by resolution or ordinance for the sole purpose of providing funds for the operation, maintenance, or capital needs of public transportation systems and in lieu of the excise taxes authorized by RCW 35.95.040, submit an authorizing proposition to the voters or include such authorization in a proposition to perform the function of public transportation and if approved by a majority of persons voting thereon, fix and impose a sales and use tax in accordance with the terms of this chapter: PROVIDED, That no such legislative body shall impose such a sales and use tax without submitting such an authorizing proposition to the voters and obtaining the approval of a majority of persons voting thereon: PROVIDED FURTHER, That where such a proposition is submitted by a county on behalf of an unincorporated transportation benefit area, it shall be voted upon by the voters residing within the boundaries of such unincorporated transportation benefit area and, if approved, the sales and use tax shall be imposed only within such area. Notwithstanding any provisions of this section to the contrary, any county in which a county public transportation plan has been adopted pursuant to RCW 36.57.070 and the voters of such county have authorized the imposition of a sales and use tax pursuant to the provisions of section 10, chapter 167, Laws of 1974 ex. sess., prior to July 1, 1975, shall be authorized to fix and impose a sales and use tax as provided in this section at not to exceed the rate so authorized without additional approval of the voters of such county as otherwise required by this section.

(2)(a) In the event a metropolitan municipal corporation shall impose a sales and use tax pursuant to this chapter no city, county which has created an unincorporated transportation benefit area, public transportation benefit area authority, or county transportation authority wholly within such metropolitan municipal corporation shall be empowered to levy and/or collect taxes pursuant to RCW 35.58.273, 35.95.040, and/or 82.14.045, but nothing herein shall prevent such city or county from imposing sales and use taxes pursuant to any other authorization.

(b) In the event a county transportation authority shall impose a sales and use tax pursuant to this section, no city, county which has created an unincorporated transportation benefit area, public transportation benefit area, or metropolitan municipal corporation, located within the territory of the authority, shall be empowered to levy or collect taxes pursuant to RCW 35.58.273, 35.95.040, or 82.14.045.

(3) Any local sales and use tax revenue collected pursuant to this section by any city or by any county for transportation purposes pursuant to RCW 36.57.100 and 36.57.110 shall not be counted as locally generated tax revenues for the purposes of apportionment and distribution, in the manner prescribed by chapter 82.44 RCW, of the proceeds of the motor vehicle excise tax authorized pursuant to RCW 35.58.273, except that the local sales and use tax revenue collected under this section by a city with a population greater than sixty thousand that as of January 1, 1998, owns and operates a municipal public transportation system shall be counted as locally generated tax revenues for the purposes of apportionment and distribution, in the manner prescribed by chapter 82.44 RCW, of the proceeds of the motor vehicle excise tax authorized under RCW 35.58.273 as follows:

(a) For fiscal year 2000, revenues collected under this section shall be counted as locally generated tax revenues for up to 25 percent of the tax collected under RCW 35.58.273;

(b) For fiscal year 2001, revenues collected under this section shall be counted as locally generated tax revenues for up to 50 percent of the tax collected under RCW 35.58.273;

**Sec. 8.** RCW 82.14.200 and 1997 c 333 s 2 are each amended to read as follows:

There is created in the state treasury a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110(~~(+)(f)~~). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, (~~as now or hereafter amended,~~) the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

The department of revenue shall establish a governmental price index as provided in this subsection. The base year for the index shall be the end of the third quarter of 1982. Prior to November 1, 1983, and prior to each November 1st thereafter, the department of revenue shall establish another index figure for the third quarter of that year. The department of revenue may use the implicit price deflators for state and local government purchases of goods and services calculated by the United States department of commerce to establish the governmental price index. Beginning on January 1, 1984, and each January 1st thereafter, the one hundred fifty thousand dollar base figure in this subsection shall be adjusted in direct proportion to the percentage change in the governmental price index from 1982 until the year before the adjustment. Distributions made under this subsection for 1984 and thereafter shall use this adjusted base amount figure.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, (~~as now or hereafter amended,~~) the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (6) and (7) of this section. When computing

distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, ~~((as now or hereafter amended,))~~ the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (2) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (2) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the total distribution under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) Subsequent to the distributions under subsection (4) of this section and at such times as distributions are made under RCW 82.44.150, ~~((as now or hereafter amended,))~~ the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a fourth distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (3) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the distributions under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(6) Revenues distributed under subsections (2) through (5) of this section in any calendar year shall not exceed an amount equal to seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties during the previous calendar year. If distributions under subsections (3) through (5) of this section cannot be made because of this limitation, then distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties.

(7) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsections (3) through (5) of this section, then the distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) through (5) of this section to the counties.

(8) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion an amount to the county public health account created in RCW 70.05.125 equal to the adjustment under RCW 70.05.125(2)(b).

(9) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) and (8) of this section, then the additional revenues shall be credited and transferred ~~((to the state general fund))~~ as follows:

(a) Fifty percent to the public facilities construction loan revolving account under RCW 43.160.080; and

(b) Fifty percent to the distressed county public facilities construction loan account under section 9 of this act, or so much thereof as will not cause the balance in the account to exceed twenty-five million dollars. Any remaining funds shall be deposited into the public facilities construction loan revolving account.

**NEW SECTION. Sec. 9.** A new section is added to chapter 43.160 RCW to read as follows:

The distressed county public facilities construction loan account is created in the state treasury. All funds provided under RCW 82.14.200 shall be deposited in the account. Moneys in the account may be spent only after appropriation. Moneys in the account shall only be used to provide financial assistance under this chapter to distressed counties that have experienced extraordinary costs due to the

location of a major new business facility or the substantial expansion of an existing business facility in the county.

For purposes of this section, the term "distressed counties" includes any county in which the average level of unemployment for the three years before the year in which an application for financial assistance is filed exceeds the average state employment for those years by twenty percent.

**NEW SECTION. Sec. 10.** A new section is added to chapter 82.14 RCW to read as follows:

(1) The distressed county assistance account is created in the state treasury. Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110. At such times as distributions are made under RCW 82.44.150, the state treasurer shall distribute the funds in the distressed county assistance account to each county imposing the sales and use tax authorized under RCW 82.14.370 in the same proportions as distributions of the tax imposed under RCW 82.14.370 for the previous quarter.

(2) Funds distributed from the distressed county assistance account shall be expended by the counties for criminal justice and other purposes.

**Sec. 11.** RCW 82.14.310 and 1995 c 398 s 11 are each amended to read as follows:

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer shall transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer shall increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under ~~((RCW 82.44.110))~~ subsection (4) of this section, shall be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city shall be as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iii) The annual number of criminal cases filed in the county superior court shall be determined by the most recent annual report of the courts of Washington, as published by the office of the administrator for the courts;

(iv) Distributions and eligibility for distributions in the 1989-91 biennium shall be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions shall be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar

year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures. (4) Not more than five percent of the funds deposited to the county criminal justice assistance account shall be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements shall not supplant existing funds from the state general fund.

**Sec. 12.** RCW 82.14.320 and 1995 c 398 s 12 and 1995 c 312 s 84 are each reenacted and amended to read as follows:

(1) The municipal criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer shall transfer into the municipal criminal justice assistance account for distribution under this section from the general fund the sum of four million six hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer shall increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) No city may receive a distribution under this section from the municipal criminal justice assistance account unless:

(a) The city has a crime rate in excess of one hundred twenty-five percent of the state-wide average as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs;

(b) The city has levied the tax authorized in RCW 82.14.030(2) at the maximum rate or the tax authorized in RCW 82.46.010(3) at the maximum rate; and

(c) The city has a per capita yield from the tax imposed under RCW 82.14.030(1) at the maximum rate of less than one hundred fifty percent of the state-wide average per capita yield for all cities from such local sales and use tax.

(3) The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under ~~((RCW 82.44.110))~~ subsection (7) of this section, shall be distributed at such times as distributions are made under RCW 82.44.150. The distributions shall be made as follows:

(a) Unless reduced by this subsection, thirty percent of the moneys shall be distributed ratably based on population as last determined by the office of financial management to those cities eligible under subsection (2) of this section that have a crime rate determined under subsection (2)(a) of this section which is greater than one hundred seventy-five percent of the state-wide average crime rate. No city may receive more than fifty percent of any moneys distributed under this subsection (a) but, if a city distribution is reduced as a result of exceeding the fifty percent limitation, the amount not distributed shall be distributed under (b) of this subsection.

(b) The remainder of the moneys, including any moneys not distributed in subsection (2)(a) of this section, shall be distributed to all cities eligible under subsection (2) of this section ratably based on population as last determined by the office of financial management.

(4) No city may receive more than thirty percent of all moneys distributed under subsection (3) of this section.

(5) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located.

(6) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and publications and public educational efforts

designed to provide information and assistance to parents in dealing with runaway or at-risk youth. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(7) Not more than five percent of the funds deposited to the municipal criminal justice assistance account shall be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements shall not supplant existing funds from the state general fund.

**Sec. 13.** RCW 82.14.330 and 1995 c 398 s 13 are each amended to read as follows:

(1) Beginning in fiscal year 2000, the state treasurer shall transfer into the municipal criminal justice assistance account for distribution under this section from the general fund the sum of four million six hundred thousand dollars divided into four equal deposits occurring on July 1, September 1, January 1, and March 1. For each fiscal year thereafter, the state treasurer shall increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year. The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under (~~RCW 82.44.110~~) subsection (4) of this section, shall be distributed to the cities of the state as follows:

(a) Twenty percent appropriated for distribution shall be distributed to cities with a three-year average violent crime rate for each one thousand in population in excess of one hundred fifty percent of the state-wide three-year average violent crime rate for each one thousand in population. The three-year average violent crime rate shall be calculated using the violent crime rates for each of the preceding three years from the annual reports on crime in Washington state as published by the Washington association of sheriffs and police chiefs. Moneys shall be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

(b) Sixteen percent shall be distributed to cities ratably based on population as last determined by the office of financial management, but no city may receive less than one thousand dollars.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection shall be distributed at such times as distributions are made under RCW 82.44.150.

Moneys distributed under this subsection shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(2) In addition to the distributions under subsection (1) of this section:

(a) Fourteen percent shall be distributed to cities that have initiated innovative law enforcement strategies, including alternative sentencing and crime prevention programs. No city may receive more than one dollar per capita under this subsection (2)(a).

(b) Twenty percent shall be distributed to cities that have initiated programs to help at-risk children or child abuse victim response programs. No city may receive more than fifty cents per capita under this subsection (2)(b).

(c) Twenty percent shall be distributed to cities that have initiated programs designed to reduce the level of domestic violence within their jurisdictions or to provide counseling for domestic violence victims. No city may receive more than fifty cents per capita under this subsection (2)(c).

(d) Ten percent shall be distributed to cities that contract with another governmental agency for a majority of the city's law enforcement services.

Moneys distributed under this subsection shall be distributed to those cities that submit funding requests under this subsection to the department of community, trade, and economic development based on criteria developed under RCW 82.14.335. Allocation of funds shall be in proportion to the population of qualified jurisdictions, but the distribution to a city shall not exceed the amount of funds requested. Cities shall submit requests for program funding to the department of community, trade, and economic development by November 1 of each year for funding the following year. The department shall certify to the state treasurer the cities eligible for funding under this subsection and the amount of each allocation.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection, less any moneys appropriated for purposes under ~~((RCW 82.44.110))~~ subsection (4) of this section, shall be distributed at the times as distributions are made under RCW 82.44.150. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

If a city is found by the state auditor to have expended funds received under this subsection in a manner that does not comply with the criteria under which the moneys were received, the city shall be ineligible to receive future distributions under this subsection until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund. The director may allow noncomplying use of moneys received under this subsection upon a showing of hardship or other emergent need.

(3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located. (4) Not more than five percent of the funds deposited to the municipal criminal justice assistance account shall be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements shall not supplant existing funds from the state general fund.

**NEW SECTION. Sec. 14.** A new section is added to chapter 43.135 RCW to read as follows:

(1) Initiative Measure No. 601 (chapter 43.135 RCW, as amended by chapter . . ., Laws of 1998 (this act) and the amendatory changes enacted by section 6, chapter 2, Laws of 1994) is hereby reenacted and reaffirmed. The legislature also adopts this act to continue the general fund revenue and expenditure limitations contained in this chapter 43.135 RCW after this one-time transfer of funds.

(2) RCW 43.135.035(4) does not apply to sections 5 through 13, chapter . . ., Laws of 1998 (sections 5 through 13 of this act).

**Sec. 15.** RCW 43.135.060 and 1994 c 2 s 5 are each amended to read as follows:

(1) After July 1, 1995, the legislature shall not impose responsibility for new programs or increased levels of service under existing programs on any political subdivision of the state unless the subdivision is fully reimbursed ~~((by specific appropriation))~~ by the state for the costs of the new programs or increases in service levels. Reimbursement by the state may be made by: (a) A specific appropriation; or (b) increases in state distributions of revenue to political subdivisions occurring after January 1, 1998.

(2) If by order of any court, or legislative enactment, the costs of a federal or local government program are transferred to or from the state, the otherwise applicable state expenditure limit shall be increased or decreased, as the case may be, by the dollar amount of the costs of the program.

(3) The legislature, in consultation with the office of financial management or its successor agency, shall determine the costs of any new programs or increased levels of service under existing programs imposed on any political subdivision or transferred to or from the state.

(4) Subsection (1) of this section does not apply to the costs incurred for voting devices or machines under RCW 29.04.200.

**NEW SECTION. Sec. 16.** In order to provide funds necessary for the location, design, right of way, and construction of state and local highway improvements, there shall be issued and sold upon the request of the Washington state transportation commission a maximum of one billion nine hundred million dollars of general obligation bonds of the state of Washington.

**NEW SECTION. Sec. 17.** Upon the request of the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by sections 16 through 21 of this act in accordance with chapter 39.42 RCW. Bonds authorized by sections 16 through 21 of this act shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

**NEW SECTION. Sec. 18.** The proceeds from the sale of bonds authorized by sections 16 through 21 of this act shall be deposited in the motor vehicle fund. The proceeds shall be available only for the purposes enumerated in section 16 of this act, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

**NEW SECTION. Sec. 19.** Bonds issued under the authority of sections 16 through 21 of this act shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in sections 16 through 21 of this act from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of sections 16 through 21 of this act, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of sections 16 through 21 of this act.

**NEW SECTION. Sec. 20.** Both principal and interest on the bonds issued for the purposes of sections 16 through 21 of this act shall be payable from the highway bond retirement fund. The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by sections 16 through 21 of this act shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and which is, or may be, appropriated to the department of transportation for state highway purposes. Funds required shall never constitute a

charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state in the motor vehicle fund proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state, counties, cities and towns, shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the motor vehicle fund not required for bond retirement or interest on the bonds.

**NEW SECTION. Sec. 21.** Bonds issued under the authority of sections 16 through 20 of this act and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle and special fuels excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuels excise taxes.

**NEW SECTION. Sec. 22.** (1) A joint committee is created to study the long-term transportation funding needs in the state. The committee shall consist of twenty members as follows:

(a) The chairpersons of the house transportation policy and budget committee and the senate transportation committee shall each appoint four of the members of their respective committees to serve on the joint committee. Of these, the chairpersons shall each appoint two members to represent the majority caucus and two members to represent the minority caucus. The chairpersons of the senate ways and means committee and the house appropriations committee shall each appoint one of the members of their respective committees to serve on the joint committee.

(b) The governor shall appoint one member to serve on the joint committee.

(c) The association of Washington counties shall appoint two members to the committee. One member shall be appointed to represent small counties and one member shall be appointed to represent large counties.

(e) The majority and minority leaders of the house of representatives and the senate shall each appoint one member to represent business and the governor shall appoint one member to represent business for a total of five members representing business.

The members of the joint committee shall elect a chairperson from the membership of the committee.

(2) The committee shall study the transportation needs of state and local government with the objective of developing a fair and predictable long-term funding system for state and local transportation needs, including any appropriate reforms and reprioritizations. The study may address differential funding sources for urban congestion districts, local option funding including possible modifications to the current local option taxing authority of counties and cities, public-private partnerships for new transportation projects, improvements to freight mobility, streamlining categorical funding mechanisms to emphasize high priority projects, and increased certainty from setting time limits on permitting processes.

(3) The office of financial management, the department of licensing, the department of community, trade and economic development, and the department of transportation shall provide assistance to the joint committee as needed.

(4) The joint committee shall provide an interim progress report to the governor and the house and senate fiscal committees by December 1, 1998. A travel trailer or camper shall be deemed licensed for the first time in this state when such vehicle was not previously licensed by this state for the registration year or any part thereof immediately preceding the registration year in which application for license is made or when it has been registered in another jurisdiction subsequent to any prior registration in this state.

**Sec. 24.** RCW 82.50.510 and 1991 c 199 s 227 are each amended to read as follows:

The rate of tax shall not exceed 1.944 percent. The rate of tax imposed under this subsection shall bear the same ratio to the 1.944 percent rate authorized that the rate imposed under ((RCW 82.08.020(2) as the excise tax rate imposed under) subsection (1) of this section bears to the ~~((excise tax))~~ rate ~~((imposed under RCW 82.44.020 (1) and (2)))~~ authorized under subsection (1) of this section. The base of the tax shall be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. **Sec. 26.** RCW 35.58.410 and 1993 c 240 s 11 are each amended to read as follows:

(1) On or before the third Monday in June of each year, each metropolitan municipal corporation shall adopt a budget for the following calendar year. Such budget shall include a separate section for each authorized metropolitan function. Expenditures shall be segregated as to operation and maintenance expenses and capital and betterment outlays. Administrative and other expense general to the corporation shall be allocated between the authorized metropolitan functions. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. The metropolitan council shall not be required to confine capital or betterment expenditures made from bond proceeds or emergency expenditures to items provided in the budget. The affirmative vote of three-fourths of all members of the metropolitan council shall be required to authorize emergency expenditures.

(2) Subsection (1) of this section shall not apply to a county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW. This subsection (2) shall apply only to each county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW.

Each county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW shall, on or before the third Monday in June of each year, prepare an estimate of all revenues to be collected during the following calendar year, including any surplus funds remaining unexpended from the preceding year for each authorized metropolitan function.

By June 30 of each year, the county shall adopt the rate for sewage disposal that will be charged to component cities and sewer districts during the following budget year.

As long as any general obligation indebtedness remains outstanding that was issued by the metropolitan municipal corporation prior to the assumption by the county, the county shall continue to impose the taxes authorized by RCW 82.14.045 and 35.58.273~~((5))~~ (4) at the maximum rates and on all of the taxable events authorized by law. If, despite the continued imposition of those taxes, the estimate of revenues made on or before the third Monday in June shows that estimated revenues will be

insufficient to make all debt service payments falling due in the following calendar year on all general obligation indebtedness issued by the metropolitan municipal corporation prior to the assumption by the county of the rights, powers, functions, and obligations of the metropolitan municipal corporation, the remaining amount required to make the debt service payments shall be designated as "supplemental income" and shall be obtained from component cities and component counties as provided under RCW 35.58.420.

The county shall prepare and adopt a budget each year in accordance with applicable general law or county charter. If supplemental income has been designated under this subsection, the supplemental income shall be reflected in the budget that is adopted. If during the budget year the actual tax revenues from the taxes imposed under the authority of RCW 82.14.045 and 35.58.273(~~(5)~~) (4) exceed the estimates upon which the supplemental income was based, the difference shall be refunded to the component cities and component counties in proportion to their payments promptly after the end of the budget year. A county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW shall not be required to confine capital or betterment expenditures for authorized metropolitan functions from bond proceeds or emergency expenditures to items provided in the budget.

**Sec. 27** RCW 43.160.070 and 1997 c 235 s 721 are each amended to read as follows:

Public facilities financial assistance, when authorized by the board, is subject to the following conditions:

(1) The moneys in the public facilities construction loan revolving (~~(fund)~~) account and the distressed county public facilities construction loan account shall be used solely to fulfill commitments arising from financial assistance authorized in this chapter or, during the 1989-91 fiscal biennium, for economic development purposes as appropriated by the legislature. The total outstanding amount which the board shall dispense at any time pursuant to this section shall not exceed the moneys available from the funds. The total amount of outstanding financial assistance in Pierce, King, and Snohomish counties shall never exceed sixty percent of the total amount of outstanding financial assistance disbursed by the board under this chapter without reference to financial assistance provided under section 9 of this act.

(2) On contracts made for public facilities loans the board shall determine the interest rate which loans shall bear. The interest rate shall not exceed ten percent per annum. The board may provide reasonable terms and conditions for repayment for loans as the board determines. The loans shall not exceed twenty years in duration.

(3) Repayments of loans made from the public facilities construction loan revolving account under the contracts for public facilities construction loans shall be paid into the public facilities construction loan revolving (~~(fund)~~) account. Repayments of loans made from the distressed county public facilities construction loan account under the contracts for public facilities construction loans shall be paid into the distressed county public facilities construction loan account. Repayments of loans from moneys from the new appropriation from the public works assistance account for the fiscal biennium ending June 30, 1999, shall be paid into the public works assistance account.

(4) When every feasible effort has been made to provide loans and loans are not possible, the board may provide grants upon finding that unique circumstances exist.

**Sec. 28.** RCW 43.160.076 and 1997 c 367 s 9 are each amended to read as follows:

(1) Except as authorized to the contrary under subsection (2) of this section, from all funds available to the board for financial assistance in a biennium under this chapter without reference to financial assistance provided under section 9 of this act, the board shall spend at least seventy-five percent for financial assistance for projects in distressed counties or rural natural resources impact areas. For purposes of this section, the term "distressed counties" includes any county, in which the average level of unemployment for the three years before the year in which an application for financial assistance is filed, exceeds the average state employment for those years by twenty percent.

(2) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in distressed counties or rural natural resources impact areas are clearly insufficient to use up the seventy-five percent allocation under subsection (1) of this

section, then the board shall estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for financial assistance to projects not located in distressed counties or rural natural resources impact areas.

**Sec. 29.** 1997 c 367 s 10 (uncodified) is each amended to read as follows:

RCW 43.160.076 and section 28 of this act, 1997 c 367 s 10, 1991 c 314 § 24, & 1985 c 446 s 6 are each repealed effective June 30, 2000.

**Sec. 30.** RCW 43.160.080 and 1992 c 235 s 10 are each amended to read as follows:

There shall be a fund in the state treasury known as the public facilities construction loan revolving account, which shall consist of all moneys collected under this chapter, except moneys of the board collected in connection with the issuance of industrial development revenue bonds and moneys deposited in the distressed county public facilities construction loan account under section 9 of this act, and any moneys appropriated to it by law: PROVIDED, That seventy-five percent of all principal and interest payments on loans made with the proceeds deposited in the account under section 901, chapter 57, Laws of 1983 1st ex. sess. shall be deposited in the general fund as reimbursement for debt service payments on the bonds authorized in RCW 43.83.184. Disbursements from the revolving account shall be on authorization of the board. In order to maintain an effective expenditure and revenue control, the public facilities construction loan revolving account shall be subject in all respects to chapter 43.88 RCW.

**Sec. 31.** RCW 43.160.210 and 1996 c 290 s 1 and 1996 c 51 s 10 are each reenacted and amended to read as follows:

(1) Except as authorized to the contrary under subsection (2) of this section, from all funds available to the board for financial assistance under this chapter without reference to financial assistance provided under section 9 of this act, the board shall designate at least twenty percent for financial assistance for projects in distressed counties. For purposes of this section, the term "distressed counties" includes any county, in which: (a) The average level of unemployment for the three years before the year in which an application for financial assistance is filed, exceeds the average state employment for those years by twenty percent; or (b) a county that has a median household income that is less than seventy-five percent of the state median household income for the previous three years.

(2) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in distressed counties are clearly insufficient to use up the twenty percent allocation under subsection (1) of this section, then the board shall estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for financial assistance for projects not located in distressed counties.

**Sec. 32.** RCW 46.16.068 and 1993 c 123 s 4 are each amended to read as follows:

The fee for this license plate is thirty-six dollars. Upon the sale, permanent removal from the state, or other disposition of a trailing unit bearing a permanent license plate the registered owner is required to return the license plate and registration certificate to the department. Violations of this section or misuse of a permanent license plate may subject the registered owner to prosecution or denial, or both, of future permanent registration of any trailing units. This section does not apply to any trailing units subject to the annual excise taxes prescribed in RCW 82.44.020. The department is authorized to adopt rules to implement this section for leased vehicles and other applications as necessary.

**Sec. 33.** RCW 70.94.015 and 1993 c 252 s 1 are each amended to read as follows:

In any county imposing a motor vehicle excise tax surcharge pursuant to RCW 81.100.060, the maximum tax rate under this section shall be reduced to a rate equal to eighty one-hundredths of one percent on the value less the equivalent motor vehicle excise tax rate of the surcharge imposed pursuant to RCW 81.100.060. The rate of tax shall not exceed 2.172 percent. The rate of tax imposed under this subsection shall bear the same ratio to the 2.172 percent rate authorized that the rate imposed under ((RCW 82.08.020(2) as the excise tax rate imposed under)) subsection (1) of this section bears to the ((excise tax)) rate ((imposed under RCW 82.44.020 (1) and (2))) authorized under subsection (1) of this section. The base of the tax shall be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. (1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each municipality imposing local transit taxes and the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW for the previous calendar year calculated for a sales and use tax rate of one-tenth percent. For purposes of this section, the department of revenue shall determine a local transit tax rate for each municipality for the previous calendar year. The tax rate shall be equivalent to the sales and use tax rate for the municipality that would have generated an amount of revenue equal to the amount of local transit taxes collected by the municipality.

(2) For each tenth of one percent of the local transit tax rate, the state treasurer shall apportion to each municipality receiving less than eighty percent of the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW as determined by the department of revenue under subsection (1) of this section, an amount when added to the per capita level of revenues received the previous calendar year by the municipality, to equal eighty percent of the state-wide weighted average per capita level of revenues determined under subsection (1) of this section. In no event may the sales and use tax equalization distribution to a municipality in a single calendar year exceed: (a) Fifty percent of the amount of local transit taxes collected during the prior calendar year; or (b) the maximum amount of revenue that could have been collected at a local transit tax rate of three-tenths percent in the prior calendar year.

(3) For a municipality established after January 1, 1995, sales and use tax equalization distributions shall be made according to the procedures in this subsection. Sales and use tax equalization distributions to eligible new municipalities shall be made at the same time as distributions are made under subsection (2) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new municipality has received a full year's worth of local transit tax revenues as of the January sales and use tax equalization distribution.

(a) Whether a newly established municipality determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October sales and use tax equalization distribution shall depend on the date the system first imposes local transit taxes.

(i) A newly established municipality imposing local transit taxes taking effect during the first calendar quarter shall be eligible to receive funds under this subsection beginning with the July sales and use tax equalization distribution of that year.

(ii) A newly established municipality imposing local transit taxes taking effect during the second calendar quarter shall be eligible to receive funds under this subsection beginning with the October sales and use tax equalization distribution of that year.

(iii) A newly established municipality imposing local transit taxes taking effect during the third calendar quarter shall be eligible to receive funds under this subsection beginning with the January sales and use tax equalization distribution of the next year.

(iv) A newly established municipality imposing local transit taxes taking effect during the fourth calendar quarter shall be eligible to receive funds under this subsection beginning with the April sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new municipality should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from local transit taxes that the new municipality would have received had the municipality received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (2) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the local transit taxes have been imposed.

(c) The department of revenue shall advise the state treasurer of the amounts calculated under (b) of this subsection and the state treasurer shall distribute these amounts to the new municipality from the motor vehicle excise tax ~~((distributed under RCW 82.44.150(2)(d)))~~ deposited into the transportation fund under RCW 82.44.110.

(4) A municipality whose governing body implements a tax change that reduces its local transit tax rate after January 1, 1994, may not receive distributions under this section.

**Sec. 38.** RCW 82.44.023 and 1994 c 227 s 3 are each amended to read as follows:

Rental cars as defined in RCW 46.04.465 are exempt from the taxes imposed in RCW 82.44.020(1) ~~((and (2)))~~. When a rental car ceases to be used for rental car purposes and at the time of its retail sale, the excise tax imposed in RCW 82.44.020(1) ~~((and (2)))~~ shall be imposed in an amount equal to one-twelfth of the annual excise tax then in effect, for each full month remaining in the vehicle's registration year.

When so apportioned, the amount payable to each such city and town shall be transmitted to the city treasurer thereof, and shall be used by the city or town for the purposes of police and fire protection in the city or town, and not otherwise. If it is adjudged that revenue derived from the excise ~~((taxes)) tax~~ imposed by RCW 82.44.020(1) ~~((and (2)))~~ cannot lawfully be apportioned or distributed to cities or towns, all moneys directed by this section to be apportioned and distributed to cities and towns shall be credited and transferred to the state general fund.

## MOTION

Representative Huff moved that the House concur in the Senate amendment(s) to Engrossed House Bill No. 2894 and advance the bill as amended by the Senate to final passage.

## POINT OF ORDER

Representative Appelwick requested a Scope and Object ruling on the Senate amendments to Engrossed House Bill No. 2894.

## SPEAKER'S RULING

Mr. Speaker: Representative Appelwick, the Speaker is prepared to rule on your request Point of Order which challenges the Scope and Object of the Senate striking amendment to Engrossed House Bill No. 2894.

The title of Engrossed House Bill No. 2894 is, "AN Act relating to the reallocation of motor vehicle excise tax and general fund resources for the purpose of providing transportation funding, local criminal justice funding, and tax reduction."

While the Senate striking amendment made a number of small changes to Engrossed House Bill No. 2894, the Speaker finds that the only portion of the amendment which might give rise to any scope and object concerns are sections 9 and 10, which can be found at pages 16 and 17 of the striking amendment.

Section 10 of the amendment reallocates motor vehicle excise taxes (MVET) to distressed cities for the purpose of local criminal justice funding. The Speaker is aware the amendment also suggests that the monies might be spent for other purposes. The language of the amendment must be read in light of the fact that the money transferred is not more than the local governments claim to need to meet their local criminal justice funding needs. The goal of section 10 is consistent with the scope and object of Engrossed House Bill No. 2894.

Section 9 of the amendment is more troubling. Section 9 creates a distressed county public facilities construction loan account in the state treasury. The amendment reallocates motor vehicle excise taxes to local transportation projects through the CERB program in those instances where the county has "experienced extraordinary costs due to the location of a major new business facility or the substantial expansion of an existing business facility in the county."

Major new business facilities or expansions often give rise to the need for transportation spending.

It is a very close call: Can this reallocation of motor vehicle excise taxes be found to be primarily for transportation purposes?

The Speaker, like every member of this House, is aware of the troubles that our distressed counties are having in providing employment opportunities to their citizens. A lack of transportation improvements in distressed counties too often means an absence of new jobs. The Speaker is convinced that the amendment found in Section 9 of the Senate striking amendment is intended to send MVET money toward some of the State's most pressing transportation needs.

Representative Appelwick, the Speaker finds that the Senate striking amendment is within the Scope and Object of Engrossed House Bill No. 2894.

Your Point of Order is not well taken.

ENGROSSED SUBSTITUTE SENATE BILL NO. 6600, by Senate Committee on Education (originally sponsored by Senators T. Sheldon, Hochstatter, Long, Kohl, Oke and Winsley; by request of Superintendent of Public Instruction)

Establishing an education program for juveniles incarcerated in adult correctional facilities.

There being no objection, the rules were suspended and Engrossed Substitute Senate Bill No. 6600 was returned to second reading for purpose of amendments.

There being no objection, the committee amendment by the Committee on Education as amended by the Committee on Appropriations was not adopted.

Representative Radcliff moved the adoption of amendment (1137):

On page 1, after line 6, strike the remaining sections of the amendment and insert the following:

**"NEW SECTION. Sec. 1.** The legislature intends to provide for the operation of education programs for the department of corrections' juvenile inmates. School districts, educational service districts, or any combination thereof should be the primary providers of the education programs. However, the legislature does not intend to preclude community and technical colleges, four-year institutions of higher education, or other qualified entities from contracting to provide all or part of these education programs if no school district or educational service district is willing to operate all or part of the education programs.

The legislature finds that this chapter fully satisfies any constitutional duty to provide education programs for juvenile inmates in adult correctional facilities. The legislature further finds that biennial appropriations for education programs under this chapter amply provide for any constitutional duty to educate juvenile inmates in adult correctional facilities.

**NEW SECTION. Sec. 2.** Any school district or educational service district may operate all or any portion of an education program for juveniles in accordance with this chapter, notwithstanding the fact the services or benefits provided extend beyond the geographic boundaries of the school district or educational service district providing the service.

**NEW SECTION. Sec. 3.** The superintendent of public instruction shall solicit an education provider for the department of corrections' juvenile inmates within sixty days as follows:

(1) The superintendent of public instruction shall notify and solicit proposals from all interested and capable school districts, educational service districts, institutions of higher education, private contractors, or any combination thereof. The notice shall describe the proposed education program's requirements and the appropriated amount. The selection of an education provider shall be in the following order:

(a) The school district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections has first priority to operate an education program for inmates at that site. The district may elect to operate an education program by itself or with another school district, educational service district, institution of higher education, private

contractor, or any combination thereof. If the school district elects not to exercise its priority, it shall notify the superintendent of public instruction within thirty calendar days of the day of solicitation.

(b) The educational service district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections has second priority to operate an education program for inmates at that site. The educational service district may elect to do so by itself or with a school district, another educational service district, institution of higher education, private contractor, or any combination thereof. If the educational service district elects not to exercise its priority, it shall notify the superintendent of public instruction within forty-five calendar days of the day of solicitation.

(c) If neither the school district nor the educational service district chooses to operate an education program for inmates as provided for in (a) and (b) of this subsection, the superintendent of public instruction may contract with an entity, including, but not limited to, school districts, educational service districts, institutions of higher education, private contractors, or any combination thereof, within sixty calendar days of the day of solicitation. The selected entity may operate an education program by itself or with another school district, educational service district, institution of higher education, or private contractor, or any combination thereof.

(2) If the superintendent of public instruction does not contract with an interested entity within sixty days of the day of solicitation, the educational service district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections shall begin operating the education program for inmates at the site within ninety days from the day of solicitation in subsection (1) of this section.

**NEW SECTION. Sec. 4.** Except as otherwise provided for by contract under section 7 of this act, the duties and authority of a school district, educational service district, institution of higher education, or private contractor to provide for education programs under this chapter are limited to the following:

(1) Employing, supervising, and controlling administrators, teachers, specialized personnel, and other persons necessary to conduct education programs, subject to security clearance by the department of corrections;

(2) Purchasing, leasing, or renting and providing textbooks, maps, audiovisual equipment, paper, writing instruments, physical education equipment, and other instructional equipment, materials, and supplies deemed necessary by the provider of the education programs;

(3) Conducting education programs for inmates under the age of eighteen in accordance with program standards established by the superintendent of public instruction. The education provider shall develop the curricula, instructional methods, and educational objectives of the education programs, subject to applicable requirements of state and federal law. The department of corrections shall establish behavior standards that govern inmate participation in education programs, subject to applicable requirements of state and federal law;

(4) Students age eighteen who have participated in an education program governed by this chapter may continue in the program with the permission of the department of corrections and the education provider, under the rules adopted by the superintendent of public instruction.

**NEW SECTION. Sec. 5.** School districts and educational service districts providing an education program to juvenile inmates in an adult corrections facility, notwithstanding that their geographical boundaries do not include the facility, may:

(1) Award appropriate diplomas or certificates to inmates who successfully complete graduation requirements;

(2) Spend only funds appropriated by the legislature and allocated by the superintendent of public instruction for the exclusive purpose of maintaining and operating education programs under this chapter, including direct and indirect costs of maintaining and operating the education programs, and funds from federal and private grants, bequests, and gifts made for that purpose. School districts may not expend excess tax levy proceeds authorized for school district purposes to pay costs incurred under this chapter.

**NEW SECTION. Sec. 6.** To support each education program under this chapter, the department of corrections and each superintendent or chief administrator of a correction facility shall:

(1) Through construction, lease, or rental of space, provide necessary building and exercise spaces for the education program that is secure, separate, and apart from space occupied by nonstudent inmates;

(2) Through construction, lease, or rental, provide vocational instruction machines; technology and supporting equipment; tools, building, and exercise facilities; and other equipment and fixtures deemed necessary by the department of corrections to conduct the education program;

(3) Provide heat, lights, telephone, janitorial services, repair services, and other support services for the building and exercise spaces, equipment, and fixtures provided under this section;

(4) Employ, supervise, and control security staff to safeguard agents of the education providers and inmates while engaged in educational and related activities conducted under this chapter;

(5) Provide clinical and medical evaluation services necessary for a determination by the education provider of the educational needs of inmates; and

(6) Provide such other support services and facilities as are reasonably necessary to conduct the education program.
