Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.08.0273 and 2011 c 7 s 1 are each amended to read as follows:

(1) Subject to the conditions and limitations in this section, an exemption from the tax levied by RCW 82.08.020 (~~does not apply to~~) in the form of a remittance from the department is provided for sales to nonresidents of this state of tangible personal property, digital goods, and digital codes(~~(-when)~~). The exemption only applies if:

(a) The property is for use outside this state;

(b) The purchaser is a bona fide resident of a province or territory of Canada or a state, territory, or possession of the United States, other than the state of Washington; and

(i) Such state, possession, territory, or province does not impose, or have imposed on its behalf, a generally applicable retail sales tax, use tax, value added tax, gross receipts tax on retailing activities, or similar generally applicable tax, of three percent or more; or

(ii) If imposing a tax described in (b)(i) of this subsection, provides an exemption for sales to Washington residents by reason of their residence; and

(c) The purchaser agrees, when requested, to grant the department of revenue access to such records and other forms of verification at (~~his or her~~) the purchaser's place of residence to assure that such purchases are not first used substantially in the state of Washington.

(2) Notwithstanding anything to the contrary in this chapter, if parts or other tangible personal property are installed by the seller during the course of repairing, cleaning, altering, or improving motor vehicles, trailers, or campers and the seller makes a separate charge for the tangible personal property, the tax levied by RCW 82.08.020 does not apply to the separately stated charge to a nonresident purchaser for the tangible personal property but only if the separately stated charge does not exceed either the seller's current publicly stated retail price for the tangible personal property or, if no publicly stated retail price is available, the seller's cost for the tangible personal property. However, the exemption provided by this section does not apply if tangible personal property is installed by the seller during the course of repairing, cleaning, altering, or improving motor vehicles, trailers, or campers and the seller makes a single nonitemized charge for providing the tangible personal property and service. All of the (~~requirements~~) provisions in subsections (1) and (3) through (~~(6)~~) (7) of this section apply to this subsection.

(3)(a) Any person claiming exemption from retail sales tax under the provisions of this section must (~~display proof of his or her current nonresident status as provided in this section~~) pay the state and local sales tax to the seller at the time of purchase and then request a remittance from the department in accordance with this subsection and subsection (4) of this section. A request for remittance must include proof of the person's status as a nonresident at the time of the purchase for which a remittance is requested. The request for a remittance must also include any additional information and documentation as required by the department, which may include a description of the item purchased for which a remittance is requested, the sales price of the item, the amount of state and local sales tax paid on the item, the date of the purchase, the name of the seller and the physical address where the sale took place, and copies of sales receipts showing the qualified purchases.

(b) Acceptable proof of a nonresident person's status includes one piece of identification such as a valid driver's license from the jurisdiction in which the out-of-state residency is claimed or a valid identification card which has a photograph of the holder and is issued by the out-of-state jurisdiction. Identification under this subsection (3)(b) must show the holder's residential address and have as one of its legal purposes the establishment of residency in that out-of-state jurisdiction.

((c) In lieu of furnishing proof of a person's nonresident status under (b) of this subsection (3), a person claiming exemption from retail sales tax under the provisions of this section may provide the

seller with an exemption certificate in compliance with subsection (4)(b) of this section.)

(4)(a) ((Nothing in this section requires the vendor to make tax exempt retail sales to nonresidents. A vendor may choose to make sales to nonresidents, collect the sales tax, and remit the amount of sales tax collected to the state as otherwise provided by law. If the vendor chooses to make a sale to a nonresident without collecting the sales tax, the vendor must examine the purchaser's proof of nonresidence, determine whether the proof is acceptable under subsection (3)(b) of this section, and maintain records for each nontaxable sale which shall show the type of proof accepted, including any identification numbers where appropriate, and the expiration date, if any.

(b) In lieu of using the method provided in (a) of this subsection to document an exempt sale to a nonresident, a seller may accept from the purchaser a properly completed uniform exemption certificate approved by the streamlined sales and use tax agreement governing board or any other exemption certificate as may be authorized by the department and properly completed by the purchaser. A nonresident purchaser who uses an exemption certificate authorized in this subsection (4)(b) must include the purchaser's driver's license number or other state-issued identification number and the state of issuance.

(c) In lieu of using the methods provided in (a) and (b) of this subsection to document an exempt sale to a nonresident, a seller may capture the relevant data elements as allowed under the streamlined sales and use tax agreement.

(5)(a) Any person making fraudulent statements, which includes the offer of fraudulent identification or fraudulently procured identification to a vendor, in order to purchase goods without paying retail sales tax is guilty of perjury under chapter 9A.72 RCW.

(b) Any person making tax exempt purchases under this section by displaying proof of identification not his or her own, or counterfeit identification, with intent to violate the provisions of this section, is guilty of a misdemeanor and, in addition, is liable for the tax and subject to a penalty equal to the greater of one hundred dollars or the tax due on such purchases.

(6)(a) Any vendor who makes sales without collecting the tax and who fails to maintain records of sales to nonresidents as provided in this section is personally liable for the amount of tax due.

(b) Any vendor who makes sales without collecting the retail sales tax under this section and who has actual knowledge that the purchaser's proof of identification establishing out-of-state residency is fraudulent is guilty of a misdemeanor and, in addition, is liable for the tax and subject to a penalty equal to the greater of one thousand dollars or the tax due on such sales. In addition, both the purchaser and the vendor are liable for any penalties and interest assessable under chapter 82.32 RCW.) (i) Beginning January 1, 2014, through December 31, 2014, a person may request a remittance from the department for state and local sales taxes paid by the person on qualified retail purchases made in Washington between August 1, 2013, and December 31, 2013.

(ii) Beginning January 1, 2015, a person may request a remittance from the department during any calendar year for state and local sales taxes paid by the person on qualified retail purchases made in Washington during the immediately preceding calendar year only. No application may be made with respect to purchases made before the immediately preceding calendar year.

(b) The remittance request, including proof of nonresident status and any other documentation and information required by the department, must be provided in a form and manner as prescribed by the department. Only one remittance request may be made by a person per calendar year.

(c) The total amount of a remittance request must be at least twenty-five dollars. The department must deny any request for a remittance that is less than twenty-five dollars.

(d) The department will examine the applicant's proof of

nonresident status and any other documentation and information as required in the application to determine whether the applicant is entitled to a remittance under this section.

(5)(a) Any person making fraudulent statements to the department, which includes the offer of fraudulent or fraudulently procured identification or fraudulent sales receipts, in order to receive a remittance of retail sales tax is guilty of perjury under chapter 9A.72 RCW.

(b) Any person requesting a remittance of sales tax from the department by providing proof of identification or sales receipts not the person's own, or counterfeit identification or sales receipts, with intent to violate the provisions of this section, is guilty of a misdemeanor and, in addition, is liable for the tax and subject to a penalty equal to the greater of one hundred dollars or the tax due on such purchases.

(6) The exemption provided by this section is for both state and local sales taxes. For purposes of this section, "local sales tax" means a sales tax imposed by a local government under the authority of chapter 82.14 RCW, RCW 81.104.170, or other provision of law, and which is imposed on the same taxable event as the state sales tax imposed in this chapter.

(7) A nonresident who receives a refund of sales tax from the seller for any reason with respect to a purchase made in this state is not entitled to a remittance for the tax paid on the purchase. A person who receives both a remittance under this section and a refund from the seller with respect to the same purchase must immediately repay the remittance to the department. Interest as provided in chapter 82.32 RCW applies to amounts due under this section from the date that the department made the remittance until the amount due under this subsection is paid to the department. A person who receives a remittance with respect to a purchase for which the person had, at the time the person submitted the application for a remittance, already received a refund of sales tax from the seller is also liable for the evasion penalty in RCW 82.32.090(7) and is ineligible to receive any further remittances from the department under this section.

NEW SECTION. Sec. 2. A new section is added to chapter 82.32 RCW to read as follows:

(1) By the last workday of the second and fourth calendar quarters, the state treasurer must transfer the amount specified in subsection (2) of this section from the general fund to the education legacy trust account. The first transfer under this subsection (1) must occur by December 31, 2013.

(2) By December 15th and by June 15th of each year, the department must estimate the increase in state general fund revenues from the changes made under section 1 of this act for the current and prior calendar quarters and notify the state treasurer of the increase.

NEW SECTION. Sec. 3. A new section is added to chapter 43.135 RCW to read as follows:

RCW 43.135.034(4) does not apply to the transfers under section 2 of this act.

NEW SECTION. Sec. 4. A new section is added to chapter 39.42 RCW to read as follows:

The purpose of narrowing the tax preference in section 1 of this act is to support education-related expenditures from the education legacy trust account. For this reason, general state revenues transferred to the education legacy trust account under section 2 of this act are excluded from the calculation of general state revenues for purposes of Article VIII, section 1 of the state Constitution and RCW 39.42.130 and 39.42.140.

Sec. 5. RCW 82.14.050 and 2012 1st sp.s. c 9 s 1 are each amended to read as follows:

(1) The counties, cities, and transportation authorities under RCW 82.14.045, public facilities districts under chapters 36.100 and 35.57 RCW, public transportation benefit areas under RCW 82.14.440, regional transportation investment districts, and transportation benefit districts under chapter 36.73 RCW must contract, prior to the

effective date of a resolution or ordinance imposing a sales and use tax, the administration and collection to the state department of revenue, which must deduct a percentage amount, as provided by contract, not to exceed two percent of the taxes collected for administration and collection expenses incurred by the department. The remainder of any portion of any tax authorized by this chapter that is collected by the department of revenue must be deposited by the state department of revenue in the local sales and use tax account hereby created in the state treasury. Beginning January 1, 2013, the department of revenue must make deposits in the local sales and use tax account on a monthly basis on the last business day of the month in which distributions required in (a) of this subsection are due. Moneys in the local sales and use tax account may be withdrawn only for:

(a) Distribution to counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts imposing a sales and use tax; and

(b) Making refunds of taxes imposed under the authority of this chapter and RCW 81.104.170 and exempted under RCW 82.08.273, 82.08.962 (~~and~~), or 82.12.962.

(2) All administrative provisions in chapters 82.03, 82.08, 82.12, and 82.32 RCW, as they now exist or may hereafter be amended, insofar as they are applicable to state sales and use taxes, are applicable to taxes imposed pursuant to this chapter.

(3) Counties, cities, transportation authorities, public facilities districts, and regional transportation investment districts may not conduct independent sales or use tax audits of sellers registered under the streamlined sales tax agreement.

(4) Except as provided in RCW 43.08.190 and subsection (5) of this section, all earnings of investments of balances in the local sales and use tax account must be credited to the local sales and use tax account and distributed to the counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts monthly.

(5) Beginning January 1, 2013, the state treasurer must determine the amount of earnings on investments that would have been credited to the local sales and use tax account if the collections had been deposited in the account over the prior month. When distributions are made under subsection (1)(a) of this section, the state treasurer must transfer this amount from the state general fund to the local sales and use tax account and must distribute such sums to the counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts.

Sec. 6. RCW 82.14.060 and 2009 c 469 s 108 are each amended to read as follows:

(1)(a) Monthly, the state treasurer must distribute from the local sales and use tax account to the counties, cities, transportation authorities, public facilities districts, and transportation benefit districts the amount of tax collected on behalf of each taxing authority, less:

(i) The deduction provided for in RCW 82.14.050; and

(ii) The amount of any refunds of local sales and use taxes exempted under RCW 82.08.273, 82.08.962 (~~and~~), or 82.12.962, which must be made without appropriation.

(b) The state treasurer shall make the distribution under this section without appropriation.

(2) In the event that any ordinance or resolution imposes a sales and use tax at a rate in excess of the applicable limits contained herein, such ordinance or resolution shall not be considered void in toto, but only with respect to that portion of the rate which is in excess of the applicable limits contained herein.

NEW SECTION. Sec. 7. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the

(b) The department may waive the requirement for an exemption certificate in the event of disaster or similar circumstance.

NEW SECTION. Sec. 108. A new section is added to chapter 82.12 RCW to read as follows:

The provisions of this chapter do not apply in respect to the use of bottled water by persons whose primary source of drinking water is unsafe as provided in section 107 of this act.

Sec. 109. RCW 82.04.4452 and 2010 c 114 s 114 are each amended to read as follows:

(1) In computing the tax imposed under this chapter, a credit is allowed for each person whose research and development spending during the year in which the credit is claimed exceeds 0.92 percent of the person's taxable amount during the same calendar year.

(2)(a) The credit is calculated as follows:

~~((a))~~ (i) Determine the greater of the amount of qualified research and development expenditures of a person or eighty percent of amounts received by a person other than a public educational or research institution in compensation for the conduct of qualified research and development;

~~((b))~~ (ii) Subtract 0.92 percent of the person's taxable amount from the amount determined under (a)(i) of this subsection;

~~((c))~~ (iii) Multiply the amount determined under ~~((b))~~ (a)(ii) of this subsection by ~~((the following:~~

(v) For the calendar year ending December 31, 2010, and thereafter,) 1.50 percent.

(b) For purposes of calculating the credit, if a person's reporting period is less than annual, the person may use an estimated average tax rate for the calendar year for which the credit is claimed by using the person's average tax rate for each reporting period. A person who uses an estimated average tax rate must make an adjustment to the total credit claimed for the calendar year using the person's actual average tax rate for the calendar year when the person files its last return for the calendar year for which the credit is claimed.

(3) Any person entitled to the credit provided in subsection (2) of this section as a result of qualified research and development conducted under contract may assign all or any portion of the credit to the person contracting for the performance of the qualified research and development.

(4) The credit, including any credit assigned to a person under subsection (3) of this section, must be claimed against taxes due for the same calendar year in which the qualified research and development expenditures are incurred. The credit, including any credit assigned to a person under subsection (3) of this section, for each calendar year may not exceed the lesser of two million dollars or the amount of tax otherwise due under this chapter for the calendar year.

(5) For any person claiming the credit, including any credit assigned to a person under subsection (3) of this section, whose research and development spending during the calendar year in which the credit is claimed fails to exceed 0.92 percent of the person's taxable amount during the same calendar year or who is otherwise ineligible, the department must not declare the taxes against which the credit was claimed to be immediately due and payable. The department must assess interest, but not penalties, on the taxes against which the credit was claimed. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and accrues until the taxes against which the credit was claimed are repaid. Any credit assigned to a person under subsection (3) of this section that is disallowed as a result of this section may be claimed by the person who performed the qualified research and development subject to the limitations set forth in subsection (4) of this section.

(6) A person may not claim a credit under this section if the person reported an annual gross amount, as reported on the state combined excise tax return, of ten million dollars or more in the prior calendar year. Taxpayers disallowed from claiming the credit under this subsection (6) are not required to refund any credit claimed in calendar year 2013 prior to the effective date of this section.

(7) A person claiming the credit provided in this section must file a complete annual survey with the department under RCW 82.32.585.

~~((7) For the purpose of this section:))~~ The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(8)(a) "Average tax rate" means a person's total tax liability under this chapter for the calendar year for which the credit is claimed divided by the taxpayer's total taxable amount under this chapter for the calendar year for which the credit is claimed.

(b) "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership as determined under rules adopted by the department, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the credit provided in this section. ~~((8))~~ (9) This section expires January 1, 2015.

Sec. 110. RCW 82.63.030 and 2008 c 15 s 4 are each amended to read as follows:

(4) Nothing contained in this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.

(5) Each school district's kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten, to be increased to a minimum of one hundred eighty school days per school year according to the implementation schedule under RCW 28A.150.315. However, schools administering the Washington kindergarten inventory of developing skills may use up to three school days at the beginning of the school year to meet with parents and families as required in the parent involvement component of the inventory. In addition, effective May 1, 1979, a school district may schedule the last five school days of the one hundred and eighty day school year for noninstructional purposes in the case of students who are graduating from high school, including, but not limited to, the observance of graduation and early release from school upon the request of a student, and all such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260.

(6) Nothing in this section precludes a school district from enriching the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district's students.

(7) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and such related supplemental program approval requirements as the state board may establish.

Sec. 210. RCW 28A.150.260 and 2011 1st sp.s. c 27 s 2 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

General education average class size	
Grades K-3	25.23
Grade 4	27.00
Grades 5-6	27.00
Grades 7-8	28.53
Grades 9-12	28.74

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

Career and technical education average class size
 Approved career and technical education offered at the middle school and high school level 26.57
 Skill center programs meeting the standards established by the office of the superintendent of public instruction 22.76

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and

(ii) A specialty average class size for laboratory science, advanced placement, and international baccalaureate courses.

(e) To support the increase in instructional hours required under RCW 28A.150.220(2)(a), beginning with the 2014-15 school year, the minimum allocation for each prototypical middle school and high school must provide resources to provide an additional 0.5556 hours of instruction per week per annual average full-time equivalent student enrolled in grades seven through twelve, based on the general education average class sizes specified in (a) of this subsection, which shall be increased in equal annual increments until an additional 2.2222 hours of instruction is provided in the 2017-18 school year and thereafter.

(5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 1.5156 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the following:

(i) The head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4.7780 hours per week in extra instruction with fifteen transitional bilingual instruction program students per teacher. (~~(Notwithstanding other provisions of this subsection (10), the actual per student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.)~~)

(ii) The head count number of students in each school who have exited the transitional bilingual instruction program within the previous two years based on their performance on the English proficiency assessment approved by the superintendent of public instruction under RCW 28A.180.090. Beginning with the 2013-14 school year, the minimum allocation under this subsection (10)(b)(ii) for each level of prototypical school must provide resources to provide, on a statewide average, 1.0 hours per week in extra instruction with fifteen exited transitional bilingual instruction program students per teacher, based on students who exited within the previous school year. Beginning with the 2014-15 school year, the minimum allocation must be based on students who exited within the previous two school years.

(iii) School districts may not receive allocations under both (b)(i) and (ii) of this subsection for the same student in a single school year.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on two and three hundred fourteen one- thousandths percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2.1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a) (~~and~~), (b), ~~and~~ (c), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building- level and district-wide support services for the 2013-14 and 2014-15 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2013-14 and 2014-15 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent student for the materials, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

(a) MSOC funding for general education students are allocated at the following per student rates:

FORMAT CHANGED TO ACCOMMODATE TEXT.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2015, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2014" or "FY 2014" means the period beginning July 1, 2013, and ending June 30, 2014.

(b) "Fiscal year 2015" or "FY 2015" means the period beginning July 1, 2014, and ending June 30, 2015.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2015-2017 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2013, from the 2011-2013 biennial appropriations for each project.

NEW SECTION. Sec. 3022. FOR THE DEPARTMENT OF ECOLOGY
 Kittitas Groundwater Study (30000029)

The reappropriation in this section is subject to the following conditions and limitations:

(1) Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

(2) Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference must be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long-term water supply lease agreements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

(3) A portion of the reappropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs must be fully recovered from participating domestic water users for their prorated portion of the cost, including, but not limited to, the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. Funds recovered in this manner must be deposited in the state and local improvements revolving account and may be used for any purpose provided in this section.

NEW SECTION. Sec. 3140. FOR THE DEPARTMENT OF NATURAL RESOURCES
Replacing State Forest Lands with Productive Forests (91000029)

The reappropriation in this section is subject to the following conditions and limitations:

(1) The total reappropriation is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of 25,000 or less that are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act. The approved list of properties for transfer is identified in the LEAP capital document No. 2011-5A, revised April 10, 2013.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110, in the same manner as valuable material revenues from other state forest lands in the applicable counties. The value of the land transferred must be deposited in the park land trust revolving account and be solely used to buy replacement state forest land within the same county as the property transferred, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. However, the department or applicable counties may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the state forest trust or the natural resources conservation area program.

Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 6002. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include, but not be limited to, program, site, and cost analysis, including life cycle cost, in accordance with the predesign manual adopted by the office of financial management. The results of life cycle cost analysis shall be a primary consideration in the selection of a building design. Construction shall proceed only upon providing to the office of financial management the life cycle costs. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 6003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock, computers or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6006. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 6007. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 6008. PUGET SOUND PROTECTION AND RESTORATION. Consistent with RCW 90.71.340, when expending appropriations under this act that contribute to Puget Sound protection and recovery, agencies shall consult with the Puget Sound partnership to ensure that projects and expenditures are either in, or consistent with the 2020 action agenda. These consultations shall include the exchange of information on specific actions, projects, associated funding, performance measures, and other information necessary to track project implementation and ensure alignment with the action agenda. In situations where the Puget Sound partnership finds that a project is not in, or is not consistent with the action agenda Puget Sound partnership shall document this finding and report back to the governor and legislative fiscal committees.

NEW SECTION. Sec. 6009. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2015-2017 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6010. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 6011. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 6012. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 6013. The office of financial management, in consultation with the fiscal committees of the legislature, may select capital projects that have completed predesign to undergo a budget evaluation study. The budget evaluation study team approach using value engineering techniques and life cycle cost analysis must be utilized by the office of financial management in conducting the studies. The office of financial management shall select the budget evaluation team members, contract for the study, and report the results to the legislature and agencies in a timely manner following the study. Funds from the project appropriation must be used by the office of financial management through an interagency agreement with the affected agencies to cover the cost of the study.

NEW SECTION. Sec. 6014. COLUMBIA RIVER BASIN NONTAXABLE AND TAXABLE BOND PROCEEDS.

Portions of the appropriation authority granted by this act from the Columbia river basin water supply development account may be transferred to the Columbia river basin taxable bond water supply development account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the Columbia

river basin water supply development account and the Columbia river basin taxable bond water supply development account is necessary, or that a shift of appropriation authority from the Columbia river basin taxable bond water supply development account to the Columbia river basin water supply development account may be made.

MESSAGE FROM THE SENATE

June 12, 2013

MR. SPEAKER:

The Senate has adopted:

HOUSE CONCURRENT RESOLUTION NO. 4410
and the same is herewith transmitted.

Hunter G. Goodman, Secretary

There being no objection, the House advanced to the sixth order of business.

SECOND READING

ENGROSSED HOUSE BILL NO. 2075, by Representatives Carlyle and Roberts

Preserving funding deposited into the education legacy trust account used to support common schools and access to higher education by restoring the application of the Washington estate and transfer tax to certain property transfers while modifying the estate and transfer tax to provide tax relief for certain estates.

The bill was read the second time.

Representative Carlyle moved the adoption of amendment (523).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) In 2005, to address an unexpected significant loss of tax revenue resulting from the *Estate of Hemphill* decision and to provide additional funding for public education, the legislature enacted a stand-alone estate and transfer tax, effective May 17, 2005. The stand-alone estate and transfer tax applies to the transfer of property at death. By defining the term "transfer" to mean a "transfer as used in section 2001 of the internal revenue code," the legislature clearly expressed its intent that a "transfer" for purposes of determining the federal taxable estate is also a "transfer" for purposes of determining the Washington taxable estate.

(2) In *In re Estate of Bracken*, Docket No. 84114-4, the Washington supreme court narrowly construed the term "transfer" as defined in the Washington estate tax code.

(3) The legislature finds that it is well established that the term "transfer" as used in the federal estate tax code is construed broadly and extends to the "shifting from one to another of any power or privilege incidental to the ownership or enjoyment of property" that occurs at death. *Fernandez v. Wiener*, 326 U.S. 340, 352 (1945).

(4) The legislature further finds that: The Bracken decision held certain qualified terminable interest property (QTIP) of married couples was transferred without incurring Washington state estate tax liability, which: (a) Creates an inequity never intended by the legislature because unmarried individuals did not enjoy any similar opportunities to avoid or greatly reduce their potential Washington estate tax liability; and (b) may create disparate treatment between QTIP property and other property transferred between spouses that is eligible for the marital deduction.

(5) Therefore, the legislature finds that it is necessary to reinstate the legislature's intended meaning when it enacted the estate tax, restore parity between married couples and unmarried individuals, restore parity between QTIP property and other property eligible for the marital deduction, and prevent the adverse fiscal impacts of the Bracken decision by reaffirming its intent that the term "transfer" as used in the Washington estate and transfer tax is to be given its broadest possible meaning consistent with established United States supreme court precedents, subject only to the limits and exceptions expressly provided by the legislature.

(6) As curative, clarifying, and remedial, the legislature intends for this act to apply both prospectively and retroactively to estates of decedents dying on or after May 17, 2005.

Sec. 2. RCW 83.100.020 and 2013 c 23 s 341 are each amended to read as follows:

~~(As used in this chapter.)~~ The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1)(a) "Applicable exclusion amount" means:

(i) One million five hundred thousand dollars for decedents dying before January 1, 2006;

(ii) Two million dollars for estates of decedents dying on or after January 2006, and before January 1, 2014; and

(iii) For estates of decedents dying in calendar year 2014 and each calendar year thereafter, the amount in (a)(ii) of this subsection must be adjusted annually, except as otherwise provided in this subsection (1)(a)(iii). The annual adjustment is determined by multiplying two million dollars by one plus the percentage by which the most recent October consumer price index exceeds the consumer price index for October 2012, and rounding the result to the nearest one thousand dollars. No adjustment is made for a calendar year if the adjustment would result in the same or a lesser applicable exclusion amount than the applicable exclusion amount for the immediately preceding calendar year. The applicable exclusion amount under this subsection (1)(a)(iii) for the decedent's estate is the applicable exclusion amount in effect as of the date of the decedent's death.

(b) For purposes of this subsection, "consumer price index" means the consumer price index for all urban consumers, all items, for the Seattle-Tacoma-Bremerton metropolitan area as calculated by

the United States bureau of labor statistics.

~~((2))~~ (2) "Decedent" means a deceased individual((§)).

~~((2))~~ (3) "Department" means the department of revenue, the director of that department, or any employee of the department exercising authority lawfully delegated to him or her by the director((§)).

~~((3))~~ (4) "Federal return" means any tax return required by chapter 11 of the internal revenue code((§)).

~~((4))~~ (5) "Federal tax" means a tax under chapter 11 of the internal revenue code((§)).

~~((5))~~ (6) "Gross estate" means "gross estate" as defined and used in section 2031 of the internal revenue code((§)).

~~((6))~~ (7) "Person" means any individual, estate, trust, receiver, cooperative association, club, corporation, company, firm, partnership, joint venture, syndicate, or other entity and, to the extent permitted by law, any federal, state, or other governmental unit or subdivision or agency, department, or instrumentality thereof((§)).

~~((7))~~ (8) "Person required to file the federal return" means any person required to file a return required by chapter 11 of the internal revenue code, such as the personal representative of an estate((§)).

~~((8))~~ (9) "Property" means property included in the gross estate((§)).

~~((9))~~ (10) "Resident" means a decedent who was domiciled in Washington at time of death((§)).

~~((10))~~ (11) "Taxpayer" means a person upon whom tax is imposed under this chapter, including an estate or a person liable for tax under RCW 83.100.120((§)).

~~((11))~~ (12) "Transfer" means "transfer" as used in section 2001 of the internal revenue code and includes any shifting upon death of the economic benefit in property or any power or legal privilege incidental to the ownership or enjoyment of property. However, "transfer" does not include a qualified heir disposing of an interest in property qualifying for a deduction under RCW 83.100.046 or ceasing to use the property for farming purposes((§)).

~~((12))~~ (13) "Internal revenue code" means ~~(for the purposes of this chapter and RCW 83.110.010,)~~ the United States internal revenue code of 1986, as amended or renumbered as of January 1, 2005((§)).

~~((13))~~ (14) "Washington taxable estate" means the federal taxable estate ~~(less: (a) One million five hundred thousand dollars for decedents dying before January 1, 2006; and (b) two million dollars for decedents dying on or after January 1, 2006; and (c) the amount of any deduction allowed under RCW 83.100.046; and (d) and~~ includes, but is not limited to, the value of any property included in the gross estate under section 2044 of the internal revenue code, regardless of whether the decedent's interest in such property was acquired before May 17, 2005, (a) plus amounts required to be added to the Washington taxable estate under RCW 83.100.047, (b) less: (i) The applicable exclusion amount; (ii) the amount of any deduction allowed under RCW 83.100.046; (iii) amounts allowed to be deducted from the Washington taxable estate under RCW 83.100.047; and (iv) the amount of any deduction allowed under section 3 of this act.

~~((14))~~ (15) "Federal taxable estate" means the taxable estate as determined under chapter 11 of the internal revenue code without regard to: (a) The termination of the federal estate tax under section 2210 of the internal revenue code or any other provision of law, and (b) the deduction for state estate, inheritance, legacy, or succession taxes allowable under section 2058 of the internal revenue code.

NEW SECTION. Sec. 3. A new section is added to chapter 83.100 RCW to read as follows:

(1) For the purposes of determining the tax due under this chapter, a deduction is allowed for the value of the decedent's qualified family-owned business interests, not to exceed two million five hundred thousand dollars, if:

(a) The value of the decedent's qualified family-owned business interests exceed fifty percent of the decedent's Washington taxable estate determined without regard to the deduction for the applicable exclusion amount;

(b) During the eight-year period ending on the date of the decedent's death, there have been periods aggregating five years or more during which:

(i) Such interests were owned by the decedent or a member of the decedent's family;

(ii) There was material participation, within the meaning of section 2032A(e)(6) of the internal revenue code, by the decedent or a member of the decedent's family in the operation of the trade or business to which such interests relate;

(c) The qualified family-owned business interests are acquired by any qualified heir from, or passed to any qualified heir from, the decedent, within the meaning of RCW 83.100.046(2), and the decedent was at the time of his or her death a citizen or resident of the United States; and

(d) The value of the decedent's qualified family-owned business interests is not more than six million dollars.

(2)(a) Only amounts included in the decedent's federal taxable estate may be deducted under this subsection.

(b) Amounts deductible under RCW 83.100.046 may not be deducted under this section.

(3)(a) There is imposed an additional estate tax on a qualified heir if, within three years of the decedent's death and before the date of the qualified heir's death:

(i) The material participation requirements described in section 2032A(c)(6)(b)(ii) of the internal revenue code are not met with respect to the qualified family-owned business interest which was acquired or passed from the decedent;

(ii) The qualified heir disposes of any portion of a qualified family-owned business interest, other than by a disposition to a member of the qualified heir's family or a person with an ownership interest in the qualified family-owned business or through a qualified conservation contribution under section 170(h) of the internal revenue code;

(iii) The qualified heir loses United States citizenship within the meaning of section 877 of the internal revenue code or with respect to whom section 877(e)(1) applies, and such heir does not comply with the requirements of section 877(g) of the internal revenue code; or

(iv) The principal place of business of a trade or business of the qualified family-owned business interest ceases to be located in the United States.

(b) The amount of the additional estate tax imposed under this subsection is equal to the amount of tax savings under this section with respect to the qualified family-owned business interest acquired or passed from the decedent.

(c) Interest applies to the tax due under this subsection for the period beginning on the date that the estate tax liability was due under this chapter and ending on the date the additional estate tax due under this subsection is paid. Interest under this subsection must be computed as provided in RCW 83.100.070(2).

(d) The tax imposed by this subsection is due the day that is six months after any taxable event described in (a) of this subsection occurred and must be reported on a return as provided by the department.

(e) The qualified heir is personally liable for the additional tax imposed by this subsection unless he or she has furnished a bond in favor of the department for such amount and for such time as the department determines necessary to secure the payment of amounts due under this subsection. The qualified heir, on furnishing a bond satisfactory to the department, is discharged from personal liability for any additional tax and interest under this subsection and is entitled to a receipt or writing showing such discharge.

(f) Amounts due under this subsection attributable to any qualified family-owned business interest are secured by a lien in favor of the state on the property in respect to which such interest relates. The lien under this subsection (3)(f) arises at the time the Washington return is filed on which a deduction under this section is taken and continues in effect until: (i) The tax liability under this subsection has been satisfied or has become unenforceable by reason of lapse of time; or (ii) the department is satisfied that no further tax liability will arise under this subsection.

(g) Security acceptable to the department may be substituted for the lien imposed by (f) of this subsection.

(h) For purposes of the assessment or correction of an assessment for additional taxes and interest imposed under this subsection, the limitations period in RCW 83.100.095 begins to run on the due date of the return required under (d) of this subsection.

(i) For purposes of this subsection, a qualified heir may not be treated as disposing of an interest described in section 2057(e)(1)(A) of the internal revenue code by reason of ceasing to be engaged in a trade or business so long as the property to which such interest relates is used in a trade or business by any member of the qualified heir's family.

(4)(a) The department may require a taxpayer claiming a deduction under this section to provide the department with the names and contact information of all qualified heirs.

(b) The department may also require any qualified heir to submit to the department on an ongoing basis such information as the department determines necessary or useful in determining whether the qualified heir is subject to the additional tax imposed in subsection (3) of this section. The department may not require such information more frequently than twice per year. The department may impose a penalty on a qualified heir who fails to provide the information requested within thirty days of the date the department's written request for the information was sent to the qualified heir. The amount of the penalty under this subsection is five hundred dollars and may be collected in the same manner as the tax imposed under subsection (3) of this section.

(5) For purposes of this section, references to section 2057 of the internal revenue code refer to section 2057 of the internal revenue code, as existing on December 31, 2003.

(6) For purposes of this section, the following definitions apply:

(a) "Member of the decedent's family" and "member of the qualified heir's family" have the same meaning as "member of the family" in RCW 83.100.046(10).

(b) "Qualified family-owned business interest" has the same meaning as provided in section 2057(e) of the internal revenue code of 1986.

(c) "Qualified heir" has the same meaning as provided in section 2057(i) of the internal revenue code of 1986.

(7) This section applies to the estates of decedents dying on or after January 1, 2014.

Sec. 4. RCW 83.100.040 and 2010 c 106 s 234 are each amended to read as follows:

(1) A tax in an amount computed as provided in this section is imposed on every transfer of property located in Washington. For the purposes of this section, any intangible property owned by a resident is located in Washington.

(2)(a) Except as provided in (b) of this subsection, the amount of tax is the amount provided in the following table:

(b) If any property in the decedent's estate is located outside of Washington, the amount of tax is the amount determined in (a) of this subsection multiplied by a fraction. The numerator of the fraction is the value of the property located in Washington. The denominator of the fraction is the value of the decedent's gross estate. Property qualifying for a deduction under RCW 83.100.046 must be excluded from the numerator and denominator of the fraction.

(3) The tax imposed under this section is a stand-alone estate tax that incorporates only those provisions of the internal revenue code as amended or renumbered as of January 1, 2005, that do not conflict with the provisions of this chapter. The tax imposed under this chapter is independent of any federal estate tax obligation and is not affected by termination of the federal estate tax.

Sec. 5. RCW 83.100.047 and 2005 c 516 s 13 are each amended to read as follows:

(1) If the federal taxable estate on the federal return is determined by making an election under section 2056 or 2056A of the internal revenue code, or if no federal return is required to be filed, the department may provide by rule for a separate election on the Washington return, consistent with section 2056 or 2056A of the internal revenue code, for the purpose of determining the amount of tax due under this chapter. The election ~~((shall be))~~ is binding on the estate and the beneficiaries, consistent with the internal revenue code. All other elections or valuations on the Washington return ~~((shall))~~ must be made in a manner consistent with the federal return, if a federal return is required, and such rules as the department may provide.

(2) Amounts deducted for federal income tax purposes under section 642(g) of the internal revenue code of 1986 ~~((, shall))~~ are not ~~((be))~~ allowed as deductions in computing the amount of tax due under this chapter.

(3) Notwithstanding any department rule, if a taxpayer makes an election consistent with section 2056 of the internal revenue code as permitted under this section, the taxpayer's Washington taxable estate, and the surviving spouse's Washington taxable estate, must be adjusted as follows:

(a) For the taxpayer that made the election, any amount deducted by reason of section 2056(b)(7) of the internal revenue code is added to, and the value of property for which a Washington election under this section was made is deducted from, the Washington taxable estate.

(b) For the estate of the surviving spouse, the amount included in the estate's gross estate pursuant to section 2044 (a) and (b)(1)(A) of

the internal revenue code is deducted from, and the value of any property for which an election under this section was previously made is added to, the Washington taxable estate.

Sec. 6. RCW 83.100.047 and 2009 c 521 s 192 are each amended to read as follows:

(1)(a) If the federal taxable estate on the federal return is determined by making an election under section 2056 or 2056A of the internal revenue code, or if no federal return is required to be filed, the department may provide by rule for a separate election on the Washington return, consistent with section 2056 or 2056A of the internal revenue code and (b) of this subsection, for the purpose of determining the amount of tax due under this chapter. The election (~~(shall be)~~) is binding on the estate and the beneficiaries, consistent with the internal revenue code and (b) of this subsection. All other elections or valuations on the Washington return (~~(shall)~~) must be made in a manner consistent with the federal return, if a federal return is required, and such rules as the department may provide.

(b) The department (~~(shall)~~) must provide by rule that a state registered domestic partner is deemed to be a surviving spouse and entitled to a deduction from the Washington taxable estate for any interest passing from the decedent to his or her domestic partner, consistent with section 2056 or 2056A of the internal revenue code but regardless of whether such interest would be deductible from the federal gross estate under section 2056 or 2056A of the internal revenue code.

(2) Amounts deducted for federal income tax purposes under section 642(g) of the internal revenue code of 1986 (~~(shall)~~) are not (~~(be)~~) allowed as deductions in computing the amount of tax due under this chapter.

(3) Notwithstanding any department rule, if a taxpayer makes an election consistent with section 2056 of the internal revenue code as permitted under this section, the taxpayer's Washington taxable estate, and the surviving spouse's Washington taxable estate, must be adjusted as follows:

(a) For the taxpayer that made the election, any amount deducted by reason of section 2056(b)(7) of the internal revenue code is added to, and the value of property for which a Washington election under this section was made is deducted from, the Washington taxable estate.

(b) For the estate of the surviving spouse, the amount included in the estate's gross estate pursuant to section 2044 (a) and (b)(1)(A) of the internal revenue code is deducted from, and the value of any property for which an election under this section was previously made is added to, the Washington taxable estate.

(1)(a) Except as otherwise provided in this subsection, any personal representative who distributes any property without first paying, securing another's payment of, or furnishing security for payment of the taxes due under this chapter is personally liable for the taxes due to the extent of the value of any property that may come or may have come into the possession of the personal representative. Security for payment of the taxes due under this chapter (~~(shall)~~) must be in an amount equal to or greater than the value of all property that is or has come into the possession of the personal representative, as of the time the security is furnished.

(b) For the estates of decedents dying prior to April 9, 2006, a personal representative is not personally liable for taxes due on the value of any property included in the gross estate and the Washington taxable estate as a result of section 2044 of the internal revenue code unless the property is located in the state of Washington or the property has or will come into the possession or control of the personal representative.

(2) Any person who has the control, custody, or possession of any property and who delivers any of the property to the personal representative or legal representative of the decedent outside

Washington without first paying, securing another's payment of, or furnishing security for payment of the taxes due under this chapter is liable for the taxes due under this chapter to the extent of the value of the property delivered. Security for payment of the taxes due under this chapter (~~(shall)~~) must be in an amount equal to or greater than the value of all property delivered to the personal representative or legal representative of the decedent outside Washington by such a person.

(3) For the purposes of this section, persons who do not have possession of a decedent's property include anyone not responsible primarily for paying the tax due under this section or their transferees, which includes but is not limited to mortgagees or pledgees, stockbrokers or stock transfer agents, banks and other depositories of checking and savings accounts, safe-deposit companies, and life insurance companies.

(4) For the purposes of this section, any person who has the control, custody, or possession of any property and who delivers any of the property to the personal representative or legal representative of the decedent may rely upon the release certificate or the release of nonliability certificate, furnished by the department to the personal representative, as evidence of compliance with the requirements of this chapter, and make such deliveries and transfers as the personal representative may direct without being liable for any taxes due under this chapter.

NEW SECTION. Sec. 8. Sections 2 and 5 of this act apply both prospectively and retroactively to all estates of decedents dying on or after May 17, 2005.

NEW SECTION. Sec. 9. This act does not affect any final judgment, no longer subject to appeal, entered by a court of competent jurisdiction before the effective date of this section.

SUBSTITUTE HOUSE BILL NO. 1957, by House Committee on Transportation (originally sponsored by Representatives Clibborn, Liias, Moscoso and Fey)

Concerning department of transportation project delivery.

The bill was read the second time.

Representative Clibborn moved the adoption of the striking amendment (545).

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** A new section is added to chapter 47.04 RCW to read as follows:

(1) The legislature intends the department to deliver the projects and activities listed in LEAP Transportation Document 2013-L1, as developed June 23, 2013, as funded by new revenues provided in chapter . . . (Substitute House Bill No. 1954), Laws of 2013 2nd sp.

sess. or chapter . . . (Senate Bill No. 5920), Laws of 2013 2nd sp. sess., and for which appropriations of such funds are provided every two years in the omnibus transportation appropriations act, in a manner that exemplifies the stewardship goal in RCW 47.04.280.

(2) To allow the department the flexibility to deliver the projects in the most expeditious and efficient manner, while at the same time honoring the intent of the legislature under chapter . . . (Substitute House Bill No. 1955), Laws of 2013 2nd sp. sess. or chapter . . . (Senate Bill No. 5921), Laws of 2013 2nd sp. sess., the department's stewardship in delivering the projects and activities under this section is subject to the following limitations:

(a) The department must allocate funding to projects in a manner that optimizes efficient management of project spending and delivery. If the most recent engineer's estimate of a project cost differs from the most recent project budget approved by the legislature by ten percent or two hundred fifty thousand dollars, whichever is greater, the department must seek approval before proceeding as provided in this subsection (2).

(b) The legislative scope of a project may not be changed to a material degree except:

(i) By the legislature; or

(ii) When a more efficient, less expensive, or more expeditious scope would provide an equivalent functional outcome. If such an alternative scope is identified, the department must seek approval before proceeding as provided in this subsection (2).

(c)(i) To the extent possible within budgetary and financial planning constraints, the department must adhere to the capital delivery plan schedule adopted by the legislature and as referenced in the LEAP transportation document identified in subsection (1) of this section.

(ii) If adherence to the original capital delivery plan schedule would result in failure to substantively meet the stewardship, efficiency, and expediency objectives of this section, the department may seek approval of reasonable changes in project scheduling so as to meet the objectives as provided in this subsection (2).

(d) To seek approval of project changes under this subsection (2), the department must submit a request to the office of financial management. At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature. The office of financial management must work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(e) The department must develop by the end of each calendar quarter a report with updates of any changes under (a), (b), or (c) of this subsection. The report must be submitted to the office of financial management and the transportation committees of the legislature.

(3) The legislature intends for the department to utilize a design-build or similar alternative public works contracting procedure whenever appropriate in highway construction, ferry vessel, or ferry terminal construction contracts on projects and activities under this section.

(4) For the delivery of projects and activities under this section, the legislature intends for the department to develop a management approach that minimizes the need to add additional permanent engineering staff and other permanent professional staff in the highway construction and ferry vessel and terminal construction programs. The baseline for staffing levels should be:

(a) For highway construction, the full-time equivalent level for such positions outlined by the secretary in the business plan for the department at the end of fiscal year 2015; and

(b) For the ferry vessel and terminal construction program, the full-time equivalent level for such positions at the end of fiscal year 2012.

(5)(a) In January of each year that precedes the next fiscal biennium, beginning January 1, 2015, the department must submit a report to the governor and to the transportation committees of the legislature on progress made toward the delivery of all projects and activities subject to this section.

(b) The secretary must certify to the governor and the legislature the completion of the project package identified in the LEAP transportation document identified in subsection (1) of this section, or the most recent version approved by the legislature or the office of financial management under subsection (2)(d) of this section, on the date that the delivery of the projects and activities subject to this section is substantively complete.

(6) The changes for which the department may seek approval under subsection (2)(a), (b), or (c) of this section are changes to the cost, scope, or schedule of a project relative to the cost, scope, or schedule of the project in the LEAP transportation document identified in subsection (1) of this section or the most recent version approved by the legislature or the office of financial management under subsection (2)(d) of this section.

(7) This section expires June 30, 2023, or the date the secretary certifies that the delivery of the projects and activities listed in the LEAP transportation document identified in subsection (1) of this section, or the most recent version approved by the legislature or the office of financial management under subsection (2)(d) of this section, is substantively complete, whichever is later.

NEW SECTION. Sec. 2. A new section is added to chapter 47.01 RCW to read as follows:

(1) The department must convene three expert review panels of no more than three members to provide independent financial and technical review for the development of a finance plan and project implementation plan for the Columbia river crossing project, the state route number 520 bridge replacement and HOV project, and the Alaskan Way viaduct replacement project.

(2) The expert review panels must be selected cooperatively by the chairs of the senate and house of representatives transportation committees, the secretary of transportation, and the governor.

(3) The expert review panels must, with respect to completion of the project alternatives as described in the draft environmental impact statement of each project:

(a) Review the finance plan for the project to ensure that it clearly identifies secured and anticipated funding sources and is feasible and sufficient; and

(b) Review the project implementation plan covering all state and local permitting and mitigation approvals that ensure the most expeditious and cost-effective delivery of the project.

(4) The expert review panels must report their findings and recommendations on the items described under subsection (3) of this section to the transportation committees of the legislature by October 2013, and annually thereafter, until the projects are operationally complete.

(5) When convening the expert review panels, the department must be attentive to cost and consider ways to minimize expert review panel expenditures. Anticipated expenditures related to the expert review panels must be included in the panel's findings and recommendation reports.

Sec. 3. RCW 47.01.300 and 2012 c 62 s 1 are each amended to read as follows:

The department shall, in cooperation with environmental regulatory authorities:

(1) Identify and document environmental resources in the development of the statewide multimodal plan under RCW 47.06.040;

(2) Allow for public comment regarding changes to the criteria used for prioritizing projects under chapter 47.05 RCW before final adoption of the changes by the commission;

(3) Use an environmental review as part of the project prospectus identifying potential environmental impacts, mitigation, the utilization of the mitigation option available in RCW 90.74.040, and costs during the early project identification and selection phase, submit the prospectus to the relevant environmental regulatory authorities, and maintain a record of comments and proposed revisions received from the authorities;

(4) Actively work with the relevant environmental regulatory authorities during the design alternative analysis process and seek written concurrence from the authorities that they agree with the preferred design alternative selected;

(5) Develop a uniform methodology, in consultation with relevant environmental regulatory authorities, for submitting plans and specifications detailing project elements that impact environmental resources, and proposed mitigation measures including the mitigation option available in RCW 90.74.040, to the relevant environmental regulatory authorities during the preliminary specifications and engineering phase of project development;

(6) Use available technologies to minimize permit delays for, inform and interact with interested parties including relevant environmental regulatory authorities regarding, and optimize the effectiveness of proposed compensatory mitigation projects;

(7)(a) In addition to the mitigation programs specified in RCW 90.74.040(1)(a), the correction of fish passage barriers on city streets and county roads located within the same watershed as the proposed project must be considered for compensatory mitigation. The department shall consult with the department of fish and wildlife, the appropriate local government, and interested tribes to identify the existing fish passage barriers that, upon removal, will result in the greatest habitat benefit.

(b) The department shall submit a report to the transportation committees of the legislature by December 1, 2014, regarding the use and effectiveness of the mitigation option created in this subsection as well as recommendations for improvements;

(8) Screen construction projects to determine which projects will require complex or multiple permits. The permitting authorities shall develop methods for initiating review of the permit applications for the projects before the final design of the projects;

~~((7))~~ (9) Conduct special prebid meetings for those projects that are environmentally complex; and

~~((8))~~ (10) Review environmental considerations related to particular projects during the preconstruction meeting held with the contractor who is awarded the bid.

NEW SECTION. Sec. 4. This act takes effect if chapter . . . (Substitute House Bill No. 1954), Laws of 2013 2nd sp. sess. or chapter . . . (Senate Bill No. 5920), Laws of 2013 2nd sp. sess. is enacted by July 31, 2013."

(1) From time to time, but at least once each year, the state treasurer shall refund from the motor vehicle fund one percent of the motor vehicle fuel tax revenues collected under chapter 82.36 RCW, based on a tax rate of: (a) Nineteen cents per gallon of motor vehicle fuel from July 1, 2003, through June 30, 2005; (b) twenty cents per gallon of motor vehicle fuel from July 1, 2005, through June 30, 2007; (c) twenty-one cents per gallon of motor vehicle fuel from July 1, 2007, through June 30, 2009; (d) twenty-two cents per gallon of motor vehicle fuel from July 1, 2009, through June 30, 2011; (~~and~~) (e) twenty-three cents per gallon of motor vehicle fuel beginning July 1, 2011; (f) twenty-nine cents per gallon of motor vehicle fuel beginning August 1, 2013; (g) thirty-three and one-half cents per gallon of motor vehicle fuel beginning July 1, 2014; and (h) forty-eight cents per gallon of motor vehicle fuel beginning July 1, 2029, and thereafter, less proper deductions for refunds and costs of collection as provided in RCW 46.68.090.

(b) Three and one-half percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of fish and wildlife solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and the maintenance of nonhighway roads;

administered by the board for planning, acquisition, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and for education, information, and law enforcement programs. The funds under this subsection shall be expended in accordance with the following limitations:

(i) Not more than thirty percent may be expended for education, information, and law enforcement programs under this chapter;

The legislature finds that the appropriation of funds from the NOVA account during the 2009-2011 fiscal biennium for maintenance and operation of state parks or to improve accessibility for boaters and off-road vehicle users at state parks will benefit boaters and off-road vehicle users and others who use nonhighway and nonmotorized recreational facilities. The department shall continue to offer a standard driver's license and identicard. If the department chooses to issue an enhanced driver's license, the department must allow each applicant to choose between a standard driver's license or identicard, or an enhanced driver's license or identicard.

(b) The department shall implement a one-to-many biometric matching system for the enhanced driver's license or identicard. An applicant for an enhanced driver's license or identicard shall submit a biometric identifier as designated by the department. (b) Thirty-six dollars of each enhanced driver's license or identicard fee, or six dollars of the fee for each class for each year if the enhanced driver's license or enhanced identicard is issued, renewed, or extended for a period other than six years, must be deposited in the multimodal transportation account created in RCW 47.66.070.

LOCAL REVENUE OPTIONS

NEW SECTION. Sec. 401. (1) It is the intent of the legislature to provide diversified local revenue options that may be tailored to the needs of each jurisdiction, in addition to any increases in funding provided through already existing partnerships between the state and local communities, such as the motor vehicle fuel taxes. In the case of public transit systems in particular, there is a need for additional revenue sources beyond the current sales and use tax options, which may, on their own, not be sufficient to meet the funding challenges of a particular system.

(2) It is also the intent that local governments coordinate with other municipalities, transit systems, transportation benefit districts, planning organizations, and other transportation agencies. It is critical that all transportation infrastructure is well planned, coordinated, and maintained at the local levels to provide a seamless transportation infrastructure to enable people and goods to move safely and efficiently throughout the state and to bolster and improve the state's economy.

(3) The legislature finds that the purchasing power of funds to pay for local transportation needs continues to decline while costs have risen. Without additional funding, counties and cities will continue to struggle financially to preserve and maintain county roads, city streets, and bridges; pavement conditions will continue to decline; and public transit systems will be forced to cut services at a time when demand for transit services is increasing.

Sec. 402. RCW 36.73.015 and 2012 c 152 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "City" means a city or town.

(2) "District" means a transportation benefit district created under this chapter.

(3) "Low-income" means household income that is at or below forty- five percent of the median household income, adjusted for household size, for the district in which the fees, taxes, or tolls were imposed.

(4) "Rebate program" means an optional program established by a transportation benefit district that includes a city with a population of five hundred thousand persons or more for the purpose of providing rebates to low-income individuals for fees, taxes, and/or tolls imposed by such transportation benefit district for: (a) Vehicle fees imposed under RCW 36.73.040(3)(b); (b) sales and use taxes imposed under RCW 36.73.040(3)(a); and/or (c) tolls imposed under RCW 36.73.040(3)(d).

(5) "Supplemental transportation improvement" or "supplemental improvement" means any project, work, or undertaking to provide public transportation service, in addition to a district's existing or planned voter-approved transportation improvements, proposed by a participating city member of the district under RCW 36.73.180.

(6) "Transportation improvement" means a project contained in the transportation plan of the state, a regional transportation planning organization, city, county, or eligible jurisdiction as identified in RCW 36.73.020(2). A project may include, but is not limited to, investment in new or existing highways of statewide significance, principal arterials of regional significance, high capacity transportation, public transportation, and other transportation projects and programs of local, regional, or statewide significance including transportation demand management. Projects may also include the operation, preservation, and maintenance of these facilities or programs.

Sec. 403. RCW 36.73.020 and 2010 c 250 s 1 are each amended to read as follows:

(1) The legislative authority of a county or city may establish a transportation benefit district within the county or city area or within the area specified in subsection (2) of this section, for the purpose of acquiring, constructing, improving, providing, and funding a transportation improvement within the district that is consistent with any existing state, regional, or local transportation plans and necessitated by existing or reasonably foreseeable congestion levels. The transportation improvements shall be owned by the county of jurisdiction if located in an unincorporated area, by the city of jurisdiction if located in an incorporated area, or by the state in cases where the transportation improvement is or becomes a state highway. However, if deemed appropriate by the governing body of the transportation benefit district, a transportation improvement may be owned by a participating port district or transit district, unless otherwise prohibited by law. Transportation improvements shall be administered and maintained as other public streets, roads, highways, and transportation improvements. To the extent practicable, the district shall consider the following criteria when selecting transportation improvements:

- (a) Reduced risk of transportation facility failure and improved safety;
- (b) Improved travel time;
- (c) Improved air quality;
- (d) Increases in daily and peak period trip capacity;
- (e) Improved modal connectivity;
- (f) Improved freight mobility;
- (g) Cost-effectiveness of the investment;
- (h) Optimal performance of the system through time;
- (i) Improved accessibility for, or other benefits to, persons with special transportation needs as defined in RCW 47.06B.012; and
- (j) Other criteria, as adopted by the governing body.

(2) Subject to subsection (6) of this section, the district may include area within more than one county, city, port district, county transportation authority, reservation of a federally recognized tribe, or public transportation benefit area, if the legislative authority of each participating jurisdiction has agreed to the inclusion as provided in an interlocal agreement adopted pursuant to chapter 39.34 RCW. However, the boundaries of the district need not include all territory within the boundaries of the participating jurisdictions comprising the district.

(3) The members of the legislative authority proposing to establish the district, acting ex officio and independently, shall constitute the governing body of the district: PROVIDED, That where a district includes area within more than one jurisdiction under subsection (2) of this section, the district shall be governed under an interlocal agreement adopted pursuant to chapter 39.34 RCW, with the governing body being composed of (a) at least five members including at least one elected official from the legislative authority of each participating jurisdiction or (b) the governing body of the metropolitan planning organization serving the district, but only if the district boundaries are identical to the boundaries of the metropolitan planning organization serving the district.

(4) The treasurer of the jurisdiction proposing to establish the district shall act as the ex officio treasurer of the district, unless an interlocal agreement states otherwise.

(5) The electors of the district shall all be registered voters residing within the district.

(6) Prior to December 1, 2007, the authority under this section, regarding the establishment of or the participation in a district, shall not apply to:

- (a) Counties with a population greater than one million five hundred thousand persons and any adjoining counties with a population greater than five hundred thousand persons;
- (b) Cities with any area within the counties under (a) of this subsection; and

(c) Other jurisdictions with any area within the counties under (a) of this subsection.

Sec. 404. RCW 36.73.065 and 2012 c 152 s 3 are each amended to read as follows:

(1) Except as provided in subsection (4) of this section, taxes, fees, charges, and tolls may not be imposed by a district without approval of a majority of the voters in the district voting on a proposition at a general or special election. The proposition must include a specific description of: (a) The transportation improvement or improvements proposed by the district; (b) any rebate program proposed to be established under RCW 36.73.067; and (c) the proposed taxes, fees, charges, and the range of tolls imposed by the district to raise revenue to fund the improvement or improvements or rebate program, as applicable.

(2) Voter approval under this section must be accorded substantial weight regarding the validity of a transportation improvement as defined in RCW 36.73.015.

(3) A district may not increase any taxes, fees, charges, or range of tolls imposed or change a rebate program under this chapter once the taxes, fees, charges, tolls, or rebate program takes effect, unless authorized by the district voters pursuant to RCW 36.73.160 or up to forty dollars of the vehicle fee authorized in RCW 82.80.140 by the governing board of the district.

(4)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district, but not including territory in which a fee is currently being collected under RCW 82.80.140, may impose by a majority vote of the governing board of the district the following fees and charges:

(i) Up to ~~((twenty))~~ forty dollars of the vehicle fee authorized in RCW 82.80.140; or

(ii) A fee or charge in accordance with RCW 36.73.120.

(b) The vehicle fee authorized in (a) of this subsection may only be imposed for a passenger-only ferry transportation improvement if the vehicle fee is first approved by a majority of the voters within the jurisdiction of the district.

(c)(i) A district solely comprised of a city or cities ~~((shall))~~ may not impose the fees or charges identified in (a) of this subsection within one hundred eighty days after July 22, 2007, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection within the one hundred eighty-day period; or

(ii) A district solely comprised of a city or cities identified in RCW 36.73.020(6)(b) may not impose the fees or charges until after May 22, 2008, unless the county in which the city or cities reside, by resolution, declares that it will not impose the fees or charges identified in (a) of this subsection through May 22, 2008.

(5) If the interlocal agreement in RCW 82.80.140(2)(a) cannot be reached, a district that includes only the unincorporated territory of a county may impose by a majority vote of the governing body of the district up to ~~((twenty))~~ forty dollars of the vehicle fee authorized in RCW 82.80.140.

NEW SECTION. Sec. 405. A new section is added to chapter 82.80 RCW to read as follows:

(1) A county with a population of one million or more may impose, by approval of a majority of the registered voters of the county voting on the proposition at a general or special election, a local motor vehicle excise tax of up to one and one-half percent annually on the value of every motor vehicle registered to a person residing within the county based on any guidebook, report, or compendium of recognized standing in the automotive industry, such as the Kelley Blue Book or the National Automobile Dealers' Association Guide. A motor vehicle excise tax may not be imposed on vehicles licensed under RCW 46.17.355, except for motor vehicles with an unladen weight of six thousand pounds or less, RCW 46.16A.425, 46.17.335, or 46.17.350(1)(c).

(2) A county imposing a tax under this section must contract, before the effective date of the resolution or ordinance imposing the local motor vehicle excise tax, administration and collection to the department of licensing, as appropriate, which must deduct an amount, as provided by contract, for administration and collection expenses incurred by the department.

(3) If the department of licensing determines a value for a vehicle pursuant to subsection (1) of this section, any person who pays a locally imposed motor vehicle excise tax for that vehicle may appeal the valuation to the department of licensing under chapter 34.05 RCW. If the taxpayer is successful on appeal, the department must refund the excess tax.

(4) The tax imposed under this section applies only when renewing a vehicle registration, and is effective upon the registration renewal date as provided by the department of licensing.

(5)(a) A county imposing a tax under this section must use sixty percent of the net funds, after any deductions pursuant to subsection (2) of this section, for the operation, maintenance, or capital needs of public transportation systems.

(b) The remaining forty percent of the net funds, after any deductions pursuant to subsection (2) of this section, must be used for the operations and maintenance of local roads and must be distributed on a pro rata basis to the county imposing the local motor vehicle excise tax and to incorporated cities and towns within the county based upon the population of the unincorporated portion of the county, the population of an incorporated city, or the population of an incorporated town as a percentage of the total population of the county.

(6) For purposes of this section, the population of an incorporated city or town is the most recent population determined by the office of financial management.

Sec. 406. RCW 82.14.045 and 2008 c 86 s 102 are each amended to read as follows:

(1) The legislative body of any city pursuant to RCW 35.92.060, of any county which has created an unincorporated transportation benefit area pursuant to RCW 36.57.100 and 36.57.110, of any public transportation benefit area pursuant to RCW 36.57A.080 and 36.57A.090, of any county transportation authority established pursuant to chapter 36.57 RCW, ~~(and)~~ of any metropolitan municipal corporation within a county with a population of one million or more pursuant to chapter 35.58 RCW, and of any enhanced public transportation zone pursuant to section 408 of this act, may, by resolution or ordinance for the sole purpose of providing funds for the operation, maintenance, or capital needs of public transportation systems or public transportation limited to persons with special needs under RCW 36.57.130 and 36.57A.180, and in lieu of the excise taxes authorized by RCW 35.95.040, submit an authorizing proposition to the voters or include such authorization in a proposition to perform the function of public transportation or public transportation limited to persons with special needs under RCW 36.57.130 and 36.57A.180, and if approved by a majority of persons voting thereon, impose a sales and use tax in accordance with the terms of this chapter. Where an authorizing proposition is submitted by a county on behalf of an unincorporated transportation benefit area, it shall be voted upon by the voters residing within the boundaries of such unincorporated transportation benefit area and, if approved, the sales and use tax shall be imposed only within such area. Notwithstanding any provisions of this section to the contrary, any county in which a county public transportation plan has been adopted pursuant to RCW 36.57.070 and the voters of such county have authorized the imposition of a sales and use tax pursuant to the provisions of section 10, chapter 167, Laws of 1974 ex. sess., prior to July 1, 1975, shall be authorized to fix and impose a sales and use tax as provided in this section at not to exceed the rate so authorized without additional approval of the voters of such county as otherwise required by this section.

The tax authorized by this section shall be in addition to the tax authorized by RCW 82.14.030 and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within such city, public transportation benefit area, county, ~~((or))~~ metropolitan municipal corporation, or enhanced public transportation zone as the case may be. The rate of such tax shall be one-tenth, two-tenths, three-tenths, four-tenths, five-tenths, six-tenths, seven-tenths, eight-tenths, or nine-tenths of one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax). The rate of such tax shall not exceed the rate authorized by the voters unless such increase shall be similarly approved.

(2)(a) In the event a metropolitan municipal corporation imposes a sales and use tax pursuant to this chapter no city, county which has created an unincorporated transportation benefit area, public transportation benefit area authority, or county transportation authority wholly within such metropolitan municipal corporation shall be empowered to impose and/or collect taxes under RCW 35.95.040 or this section, but nothing herein shall prevent such city or county from imposing sales and use taxes pursuant to any other authorization.

(b) In the event a county transportation authority imposes a sales and use tax under this section, no city, county which has created an unincorporated transportation benefit area, public transportation benefit area, or metropolitan municipal corporation, located within the territory of the authority, shall be empowered to impose or collect taxes under RCW 35.95.040 or this section.

(c) In the event a public transportation benefit area imposes a sales and use tax under this section, no city, county which has created an unincorporated transportation benefit area, or metropolitan municipal corporation, located wholly or partly within the territory of the public transportation benefit area, shall be empowered to impose or collect taxes under RCW 35.95.040 or this section.

(3) The legislative body of a public transportation benefit area located in a county with a population of seven hundred thousand or more that also contains a city with a population of seventy-five thousand or more operating a transit system pursuant to chapter 35.95 RCW may submit an authorizing proposition to the voters and, if approved by a majority of persons voting on the proposition, impose a sales and use tax in accordance with the terms of this chapter of one-tenth, two-tenths, or three-tenths of one percent of the selling price, in the case of a sales tax, or value of the article used, in the case of a use tax, in addition to the rate in subsection (1) of this section.

Sec. 407. RCW 82.80.140 and 2010 c 161 s 917 are each amended to read as follows:

(1) Subject to the provisions of RCW 36.73.065, a transportation benefit district under chapter 36.73 RCW may fix and impose an annual vehicle fee, not to exceed one hundred dollars per vehicle registered in the district, for each vehicle subject to vehicle license fees under RCW 46.17.350(1) (a), (c), (d), (e), (g), (h), (j), or (n) through (q) and for each vehicle subject to gross weight license fees under RCW 46.17.355 with a scale weight of six thousand pounds or less.

(2)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district, but not including territory in which a fee is currently being collected under this section, may impose by a majority vote of the governing board of the district up to ~~((twenty))~~ forty dollars of the vehicle fee authorized in subsection (1) of this section.

(i) If the district is countywide, the revenues of the fee ((shall)) must be distributed to each city within the ((county)) district by interlocal agreement that must be effective prior to imposition of the fee. The interlocal agreement is effective when approved by the ((county)) district and sixty percent of the cities representing seventy-five percent of the population of the cities within the ((county)) district in which the countywide fee is collected.

(ii) If the district is less than countywide, the revenues of the fee must be distributed to each city within the district by interlocal agreement that must be effective prior to imposition of the fee.

(b) A district may not impose a fee under this subsection (2):

(i) For a passenger-only ferry transportation improvement unless the vehicle fee is first approved by a majority of the voters within the jurisdiction of the district; or

(ii) That, if combined with the fees previously imposed by another district within its boundaries under RCW 36.73.065(4)(a)(i), exceeds (~~twenty~~) forty dollars.

If a district imposes or increases a fee under this subsection (2) that, if combined with the fees previously imposed by another district within its boundaries, exceeds (~~twenty~~) forty dollars, the district shall provide a credit for the previously imposed fees so that the combined vehicle fee does not exceed (~~twenty~~) forty dollars.

(3) The department of licensing shall administer and collect the fee. The department shall deduct a percentage amount, as provided by contract, not to exceed one percent of the fees collected, for administration and collection expenses incurred by it. The department shall remit remaining proceeds to the custody of the state treasurer. The state treasurer shall distribute the proceeds to the district on a monthly basis.

(4) No fee under this section may be collected until six months after approval under RCW 36.73.065.

(5) The vehicle fee under this section applies only when renewing a vehicle registration, and is effective upon the registration renewal date as provided by the department of licensing.

(6) The following vehicles are exempt from the fee under this section:

(a) Campers, as defined in RCW 46.04.085;

(b) Farm tractors or farm vehicles, as defined in RCW 46.04.180 and 46.04.181;

(c) Mopeds, as defined in RCW 46.04.304;

(d) Off-road and nonhighway vehicles, as defined in RCW 46.04.365;

(e) Private use single-axle trailer, as defined in RCW 46.04.422;

(f) Snowmobiles, as defined in RCW 46.04.546; and

(g) Vehicles registered under chapter 46.87 RCW and the international registration plan.

NEW SECTION. Sec. 408. A new section is added to chapter 82.14 RCW to read as follows:

(1)(a) The tax authorized under RCW 82.14.045 may also be imposed by the legislative body of an enhanced public transportation zone established under subsection (2) of this section if approved by the voters in the enhanced public transportation zone in the manner provided for in this section. The establishing transit agency must consult with the department on sales tax collection methods when establishing the boundaries of the enhanced public transportation zone.

(b) A tax imposed under (a) of this subsection, when combined with the rate of tax imposed by the establishing transit agency under RCW 82.14.045, may not exceed the maximum rate allowed under RCW 82.14.045, and expires either (i) three years after imposition, unless reauthorized by the voters in the enhanced public transportation zone in the manner provided for in this section, or (ii) upon failure of a reauthorization. Prior to reauthorization, the enhanced public transportation zone boundaries must be readjusted, if necessary, to meet the provisions under subsection (2)(c) of this section. A tax imposed under (a) of this subsection must be imposed only in the territory of the enhanced public transportation zone. The revenue from the tax imposed under (a) of this subsection must be expended only for public transportation service within the enhanced public transportation zone and must not supplant existing revenues allocated to the enhanced public transportation zone.

(c) Six months prior to the voter authorization or reauthorization of the tax authorized under (a) of this subsection, the establishing

transit agency must determine a baseline level of fixed-route public transportation service. This baseline level of service must be publicly posted on the web site of the establishing transit agency. Upon the collection of the tax imposed under (a) of this subsection, fixed-route public transportation service within the enhanced public transportation zone must increase proportionally to additional revenue generated within the enhanced public transportation zone. Service hours within the enhanced public transportation zone must increase from the baseline level in accordance with the establishing transit agency's most recent cost of fixed-route public transportation per service hour, as approved by the national transit database. A report on the increase in public transportation service must be publicly posted annually on the establishing transit agency's web site.

(2)(a) The legislative body of a transit agency may establish an enhanced public transportation zone within a portion of the boundaries of the transit agency establishing the enhanced public transportation zone. An enhanced public transportation zone may include all or a portion of any county, city, or town as long as all or a portion of the county, city, or town is within the territory of the establishing transit agency. However, the legislative body of a city, town, or county may pass a resolution removing all or a portion of its jurisdiction from the enhanced public transportation zone, prior to creation of the zone, or at the time of reauthorization of the zone. The boundaries of any enhanced public transportation zone must follow election precinct lines as far as practicable. When creating the zone boundaries, the establishing transit agency must attempt to include a significant amount of the population that the establishing transit agency designated as low income or minority for purposes of Title VI of the federal civil rights act of 1964. An enhanced public transportation zone may not include more than forty-nine percent of the population of the establishing transit agency.

(b) The members of the legislative body of the transit agency proposing to establish the enhanced public transportation zone, acting ex officio and independently, constitutes the legislative body of the enhanced public transportation zone.

(c) An enhanced public transportation zone may establish, finance, and provide a public transportation system within its boundaries in the same manner as authorized for the transit agency establishing the enhanced public transportation zone. However, the establishing transit agency must adopt a resolution or ordinance finding that the enhanced public transportation zone warrants consistent and sustainable transportation service levels of passenger capacity, speed, and service frequency to serve persons within the enhanced public transportation zone that would otherwise be substantially disadvantaged if the enhanced public transportation zone were not created.

(d) An enhanced public transportation zone constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may be conferred by statute including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. Public works contract limits applicable to the transit agency that established the enhanced public transportation zone also apply to the enhanced public transportation zone.

(e) An enhanced public transportation zone may be dissolved by a majority vote of its legislative body when all contractual obligations of the enhanced public transportation zone have either been discharged or assumed by another governmental entity.

(3) For the purposes of this section:

(a) "Enhanced public transportation zone" means a quasi-municipal corporation and independent taxing authority within the meaning of Article VII, section 1 of the state Constitution, and a taxing district within the meaning of Article VII, section 2 of the state Constitution, created by the legislative body of a transit agency.

(b) "Transit agency" means a city-owned transit system, an unincorporated transportation benefit area, a county transportation authority, a metropolitan municipal corporation within a county with a population of one million or more, and a public transportation benefit area.

NEW SECTION. Sec. 409. A new section is added to chapter 36.57A RCW to read as follows:

(1) A governing body of a public transportation benefit area may establish one or more passenger-only ferry service districts within all or a portion of the boundaries of the public transportation benefit area establishing the passenger-only ferry service district. A passenger-only ferry service district may include all or a portion of a city or town as long as all or a portion of the city or town boundaries are within the boundaries of the establishing public transportation benefit area. The members of the public transportation benefit area governing body proposing to establish the passenger-only ferry service district, acting ex officio and independently, shall constitute the governing body of the passenger-only ferry service district.

(2) A passenger-only ferry service district may establish, finance, and provide passenger-only ferry service, and associated services to support and augment passenger-only ferry service operation, within its boundaries in the same manner as authorized for public transportation benefit areas under this chapter.

(3) A passenger-only ferry service district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may be conferred by statute including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, to acquire, hold, and dispose of real and personal property, and to sue and be sued. Public works contract limits applicable to the public transportation benefit area that established the passenger-only ferry service district apply to the area. For purposes of this section, "passenger-only ferry service district" means a quasi-municipal corporation and independent taxing authority within the meaning of Article VII, section 1 of the state Constitution, and a taxing district within the meaning of Article VII, section 2 of the state Constitution, created by the legislative body of a public transportation benefit area.

(4) A passenger-only ferry service district may exercise the power of eminent domain to obtain property for its authorized purposes in the same manner as authorized for the public transportation benefit area that established the passenger-only ferry service district.

(5) Before a passenger-only ferry service district may provide passenger-only ferry service, it must develop a passenger-only ferry investment plan including elements: To operate or contract for the operation of passenger-only ferry services; to purchase, lease, or rent ferry vessels and dock facilities for the provision of transit service; and to identify other activities necessary to implement the plan. The plan must set forth terminal locations to be served, projected costs of providing services, and revenues to be generated from tolls, locally collected tax revenues, and other revenue sources. The plan must ensure that services provided under the plan are for the benefit of the residents of the passenger-only ferry service district. The passenger-only ferry service district may use any of its powers to carry out this purpose, unless otherwise prohibited by law. In addition, the passenger-only ferry service district may enter into contracts and agreements to operate passenger-only ferry service and public-private partnerships and design-build, general contractor/construction management, or other alternative procurement processes substantially consistent with chapter 39.10 RCW.

(6) A passenger-only ferry service district may be dissolved by a majority vote of the governing body when all obligations under any general obligation bonds issued by the passenger-only ferry service district have been discharged and any other contractual obligations of the passenger-only ferry service district have either been discharged or assumed by another governmental entity.

NEW SECTION. Sec. 410. A new section is added to chapter 36.57A RCW to read as follows:

(1) A passenger-only ferry service district may, as part of a passenger-only ferry investment plan, recommend some or all of the following revenue sources as provided in this chapter:

(a) A sales and use tax, as provided in section 411 of this act;

(b) A parking tax, as provided in RCW 82.80.030;

(c) Tolls for passengers and packages and, where applicable, parking; and

(d) Charges or licensing fees for advertising, leasing space for services to ferry passengers, and other revenue generating activities.

(2) Taxes may not be imposed without an affirmative vote of the majority of the voters within the boundaries of the passenger-only ferry service district voting on a single ballot proposition to both approve a passenger-only ferry investment plan and to approve taxes to implement the plan. Revenues from these taxes and fees may be used only to implement the plan and must be used for the benefit of the residents of the passenger-only ferry service district. A district may contract with the department of revenue or other appropriate entities for administration and collection of any of the taxes or charges authorized in this section.

NEW SECTION. Sec. 411. A new section is added to chapter 82.14 RCW to read as follows:

Passenger-only ferry service districts providing passenger-only ferry service as provided in section 409 of this act may submit an authorizing proposition to the voters and, if approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter, solely for the purpose of providing passenger-only ferry service and associated services to support and augment passenger-only ferry service operation.

The tax authorized under this section is in addition to other taxes authorized by law and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of a taxable event within the taxing district. The maximum rate of the tax must be approved by the voters and may not exceed six-tenths of one percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

Sec. 412. RCW 82.80.005 and 2002 c 56 s 415 are each amended to read as follows:

For the purposes of this chapter, "district" means a regional transportation investment district created under chapter 36.120 RCW or a passenger-only ferry service district created under chapter 36.57A RCW.

NEW SECTION. Sec. 413. A new section is added to chapter 36.57A RCW to read as follows:

(1) A passenger-only ferry service district may form a local improvement district to provide any transportation improvement it has the authority to provide, impose special assessments on all property specially benefited by the transportation improvements, and issue special assessment bonds or revenue bonds to fund the costs of the transportation improvement. Local improvement districts must be created and assessments must be made and collected pursuant to chapters 35.43, 35.44, 35.49, 35.50, 35.51, 35.53, and 35.54 RCW.

(2) The governing body of the passenger-only ferry service district shall by resolution establish for each special assessment bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and

any coupons. The maximum term of any special assessment bonds may not exceed thirty years beyond the date of issue. Special assessment bonds issued pursuant to this section may not be an indebtedness of the passenger-only ferry service district issuing the bonds, and the interest and principal on the bonds may only be payable from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund that the passenger-only ferry service district has created. The owner or bearer of a special assessment bond or any interest coupon issued pursuant to this section shall not have any claim against the passenger-only ferry service district arising from the bond or coupon except for the payment from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund the passenger-only ferry service district has created. The passenger-only ferry service district issuing the special assessment bonds is not liable to the owner or bearer of any special assessment bond or any interest coupon issued pursuant to this section for any loss occurring in the lawful operation of its local improvement guaranty fund. The substance of the limitations included in this subsection must be plainly printed, written, or engraved on each special assessment bond issued pursuant to this section.

(3) Assessments must reflect any credits given by the passenger-only ferry service district for real property or property right donations made pursuant to RCW 47.14.030.

(4) The governing body of the passenger-only ferry service district may establish and pay moneys into a local improvement guaranty fund to guarantee special assessment bonds issued by the passenger-only ferry service district.

NEW SECTION. Sec. 414. A new section is added to chapter 36.57A RCW to read as follows:

(1) To carry out the purposes of this chapter, a passenger-only ferry service district may issue general obligation bonds, not to exceed an amount, together with any other outstanding nonvoter-approved general obligation indebtedness, equal to one and one-half percent of the value of the taxable property within the area, as the term "value of the taxable property" is defined in RCW 39.36.015. A passenger-only ferry service district may also issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to five percent of the value of the taxable property within the area, as the term "value of the taxable property" is defined in RCW 39.36.015, when authorized by the voters of the area pursuant to Article VIII, section 6 of the state Constitution.

(2) General obligation bonds with a maturity in excess of twenty-five years may not be issued. The governing body of the passenger-only ferry service district shall by resolution determine for each general obligation bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, manner of execution, manner of sale, callable provisions, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. Refunding general obligation bonds may be issued in the same manner as general obligation bonds are issued.

(3) Whenever general obligation bonds are issued to fund specific projects or enterprises that generate revenues, charges, user fees, or special assessments, the passenger-only ferry service district may specifically pledge all or a portion of the revenues, charges, user fees,

or special assessments to refund the general obligation bonds. The passenger-only ferry service district may also pledge any other revenues that may be available to the area.

(4) In addition to general obligation bonds, a passenger-only ferry service district may issue revenue bonds to be issued and sold in accordance with chapter 39.46 RCW.

TOLLING

NEW SECTION. Sec. 501. In order to provide funds necessary for the location, design, right-of-way, and construction of the Columbia river crossing project, there shall be issued and sold upon the request of the department of transportation up to six hundred fifty million dollars of toll revenue bonds of the state of Washington in accordance with sections 502 through 505 of this act. Each such bond shall contain a recital that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a direct pledge and charge upon toll revenue and is not a general obligation of the state to which the full faith and credit of the state is pledged.

Toll revenue is hereby pledged to the payment of any bonds and the interest thereon issued under the authority of this act, and the legislature agrees to continue to impose or cause to be imposed these toll charges on the Columbia river crossing project, in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of this act.

NEW SECTION. Sec. 502. Upon the request of the department of transportation, and in consultation with the tolling authority, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by this act in accordance with chapter 39.42 RCW. Bonds authorized by this act shall be sold in the manner, at time or times, in amounts, and at the price as the state finance committee shall determine. No bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 503. The proceeds from the sale of bonds authorized by this act shall be deposited in the Columbia river crossing project account created under RCW 47.56.894 and shall be available only for the purposes enumerated in section 501 of this act, for the payment of bond anticipation notes or other interim financing, if any, capitalizing interest on the bonds, and for the payment of bond issuance costs, including the costs of underwriting.

NEW SECTION. Sec. 504. The state finance committee may determine and include in any resolution authorizing the issuance of any bonds under this act such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds including, among other things:

- (1) Provisions regarding the maintenance and operation of eligible toll facilities;
- (2) The pledges, uses, and priorities of application of toll revenue;
- (3) Provisions that bonds shall be payable from and secured solely by toll revenue as provided by this act;
- (4) In consultation with the department of transportation and the tolling authority, financial covenants requiring that the eligible toll facilities must produce specified coverage ratios of toll revenue to debt service on bonds;
- (5) The purposes and conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by any toll revenue on an equal basis with previously issued and outstanding bonds payable from and secured by toll revenue;

(6) Provisions that bonds for which any toll revenue are pledged, or for which a pledge of any toll revenue may be reserved, may be structured on a senior, parity, subordinate, or special lien basis in relation to any other bonds for which toll revenue is pledged, with respect to toll revenue only; and

(7) Provisions regarding reserves, credit enhancement, liquidity facilities, and payment agreements with respect to bonds.

Notwithstanding the foregoing, covenants and conditions detailing the character of management, maintenance, and operation of eligible toll facilities, insurance for eligible toll facilities, financial management of toll revenue, and disposition of eligible toll facilities must first be approved by the department of transportation.

The owner of any bond may by mandamus or other appropriate proceeding require and compel performance of any duties imposed upon the tolling authority and the department of transportation and their respective officials, including any duties imposed upon or undertaken by them or by their respective officers, agents, and employees, in connection with the construction, maintenance, and operation of eligible toll facilities and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and toll revenue.

NEW SECTION. Sec. 505. For the purposes of this act, "toll revenue" means all toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of transportation facilities in the state, including eligible toll facilities. However, for the purpose of any pledge of toll revenue to the payment of particular bonds issued under this act, "toll revenue" means and includes only such toll revenue or portion thereof that is pledged to the payment of those bonds in the resolution authorizing the issuance of such bonds. Toll revenue constitutes "fees and revenues derived from the ownership or operation of any undertaking, facility, or project" as that phrase is used in Article VIII, section 1(c)(1) of the state Constitution.

For the purposes of this act, "tolling authority" has the same meaning as in RCW 47.56.810.

Sec. 506. RCW 47.10.882 and 2011 c 377 s 3 are each amended to read as follows:

The toll facility bond retirement account is created in the state treasury for the purpose of payment of the principal of and interest and premium on bonds. Both principal of and interest on the bonds issued for the purposes of chapter 498, Laws of 2009 (~~and~~), chapter 377, Laws of 2011, and this act shall be payable from the toll facility bond retirement account. The state finance committee may provide that special subaccounts be created in the account to facilitate payment of the principal of and interest on the bonds. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings.

Sec. 507. RCW 47.56.894 and 2012 c 36 s 3 are each amended to read as follows:

(1) A special account to be known as the Columbia river crossing project account is created in the state treasury.

(2) Deposits to the account must include:

(a) All proceeds of bonds and loans issued for the Columbia river crossing project, including any capitalized interest;

(b) All tolls and other revenues received from the operation of the Columbia river crossing project as a toll facility to be deposited at least monthly;

(c) Any interest that may be earned from the deposit or investment of those revenues;

(d) Notwithstanding RCW 47.12.063, proceeds from the sale of any surplus real property acquired for the Columbia river crossing project; and

(e) All damages, liquidated or otherwise, collected under any contract involving the Columbia river crossing project.

(3) Subject to the covenants made by the state in the bond proceedings authorizing the issuance and sale of bonds for the Columbia river crossing project, toll charges, other revenues, and interest received from the operation of the Columbia river crossing project as a toll facility may be used to pay any required costs allowed under RCW 47.56.820. The state treasurer may establish subaccounts for the purpose of segregating toll charges, bond sale proceeds, and other revenues.

Sec. 508. RCW 47.56.892 and 2012 c 36 s 4 are each amended to read as follows:

For the Columbia river crossing project, the tolling authority may set, adjust, and review toll rates and may enter into agreements with the Oregon state transportation commission regarding the mutual or joint setting, adjustment, and review of toll rates as the tolling authority may find necessary to carry out the purposes of this section. Any agreement between the tolling authority and the Oregon state transportation commission made pursuant to this section takes effect, and is not binding and enforceable until, thirty days after adjournment of the ~~((next ensuing))~~ 2013 regular legislative session. To receive a grant, the transit agency must, to the greatest extent practicable, have a maintenance of effort for special needs transportation that is no less than the previous year's maintenance of effort for special needs transportation. Grants for transit agencies must be prorated based on the amount expended for demand response service and route deviated service in calendar year 2011 as reported in the "Summary of Public Transportation - 2011" published by the department of transportation. Any project that has been awarded funds, but does not report activity on the project within one year of the grant award, must be reviewed by the department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been completed, and any remaining funds must be used only to fund projects identified in the LEAP transportation document referenced in this subsection. The department shall provide annual status reports on December 15, 2013, and December 15, 2014, to the office of financial management and the transportation committees of the legislature regarding the projects receiving the grants. The department shall prepare a detailed environmental impact statement that complies with the national environmental policy act regarding tolling Interstate 90 between Interstate 5 and Interstate 405 for the purposes of both managing traffic and providing funding for the construction of the unfunded state route number 520 from Interstate 5 to Medina project. As part of the preparation of the statement, the department must review any impacts to the network of highways and roads surrounding Lake Washington. In developing this statement, the department must provide significant outreach to potential affected communities. The department may consider traffic management options that extend as far east as Issaquah.

(b)(i) As part of the project in this subsection (8), the department shall perform a study of all funding alternatives to tolling Interstate 90 to provide funding for construction of the unfunded state route number 520 and explore and evaluate options to mitigate the effect of tolling on affected residents and all other users of the network of highways and roads surrounding Lake Washington including, but not limited to:

(A) Allowing all Washington residents to traverse a portion of the tolled section of Interstate 90 without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island;

(B) Assessing a toll only when a driver traverses, in either direction, the entire portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing east of Mercer Island; and

(C) Allowing affected residents to choose one portion of the tolled section of Interstate 90 upon which they may travel without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island.

(ii) The department may also consider any alternative mitigation options that conform to the purpose of this subsection (8) .

(iii) For the purposes of this subsection (8), "affected resident" means anyone who must use a portion of Interstate 90 west of Interstate 405 upon which tolling is considered in order to access necessary medical services, such as a hospital.

(9) \$541,901,000 of the transportation partnership account--state appropriation, \$144,954,000 of the motor vehicle account--federal appropriation, \$129,779,000 of the motor vehicle account--private/local appropriation, and \$78,004,000 of the transportation 2003 account (nickel account)--state appropriation are provided solely for the SR 99/Alaskan Way Viaduct - Replacement project (809936Z).

(10) The department shall reconvene an expert review panel of no more than three members as described under RCW 47.01.400 for the purpose of updating the work that was previously completed by the panel on the Alaskan Way viaduct replacement project and to ensure that an appropriate and viable financial plan is created and regularly reviewed. The expert review panel must be selected cooperatively by the chairs of the senate and house of representatives transportation committees, the secretary of transportation, and the governor. The expert review panel must report findings and recommendations to the transportation committees of the legislature, the governor's Alaskan Way viaduct project oversight committee, and the transportation commission annually until the project is operationally complete. This subsection takes effect if chapter . . . (Substitute House Bill No. 1957), Laws of 2013 2nd sp. sess. is not enacted by June 30, 2013.

(11) \$7,408,000 of the transportation partnership account--state appropriation, \$14,594,000 of the transportation 2003 account (nickel account)--state appropriation, \$3,730,000 of the motor vehicle account--state appropriation, \$1,000,000 of the multimodal transportation account--state appropriation, and \$41,395,000 of the motor vehicle account--federal appropriation are provided solely for the US 395/North Spokane Corridor projects (600010A & 600003A). Any future savings on the projects must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor projects or any future phase of the projects.

(12) \$114,369,000 of the transportation partnership account--state appropriation and \$53,755,000 of the transportation 2003 account (nickel account)--state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project.

(13)(a) The SR 520 Bridge Replacement and HOV project (0BI1003) is supported over time from multiple sources, including a \$300,000,000 TIFIA loan, \$819,524,625 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) The state route number 520 corridor account--state appropriation includes up to \$668,142,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account--federal appropriation includes up to \$300,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(d) \$153,124,000 of the transportation partnership account--state appropriation, \$300,000,000 of the state route number 520 corridor account--federal appropriation, and \$737,205,000 of the state route number 520 corridor account--state appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (0BII003). Of the amounts appropriated in this subsection (13)(d), \$105,085,000 of the state route number 520 corridor account--federal appropriation and \$227,415,000 of the state route number 520 corridor account--state appropriation must be put into unallotted status and are subject to review by the office of financial management. The director of the office of financial management shall consult with the joint transportation committee prior to making a decision to allot these funds.

(e) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(14) \$1,100,000 of the motor vehicle account--federal appropriation is provided solely for the 31st Ave SW Overpass Widening and Improvement project (L1100048).

(15) \$22,602,000 of the motor vehicle account--state appropriation is provided solely to advance the design, preliminary engineering, and rights-of-way acquisition for the priority projects identified in LEAP Transportation Document 2013-3 as developed April 23, 2013. Funds must be used to advance the emergent, initial development of these projects for the purpose of expediting delivery of the associated major investments when funding for such investments becomes available. Funding may be reallocated between projects to maximize the accomplishment of design and preliminary engineering work and rights-of-way acquisition, provided that all projects are addressed. It is the intent of the legislature that, while seeking to maximize the outcomes in this section, the department shall provide for continuity of both the state and consulting engineer workforce, while strategically utilizing private sector involvement to ensure consistency with the department's business plan for staffing in the highway construction program in the current fiscal biennium.

(16) If a planned roundabout in the vicinity of state route number 526 and 84th Street SW would divert commercial traffic onto neighborhood streets, the department may not proceed with improvements at state route number 526 and 84th Street SW until the traffic impacts in the vicinity of state route number 526 and 40th Avenue West are addressed.

(17) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2015, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(18) The legislature finds that "right-sizing" is a lean, metric-based approach to determining project investments. This concept entails compromise between project cost and design, incorporating local community needs, desired outcomes, and available funding. Furthermore, the legislature finds that the concepts and principles the department has utilized in the safety analyst program have been effective tools to prioritize projects and reduce project costs. Therefore, the department shall establish a pilot project on the SR 3/Belfair Bypass - New Alignment (300344C) to begin implementing the concept of "right-sizing" in the highway construction program.

(19) For urban corridors that are all or partially within a metropolitan planning organization boundary, for which the department has not initiated environmental review, and that require an environmental impact statement, at least one alternative must be consistent with the goals set out in RCW 47.01.440.

(20) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2014 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(21) \$28,963,000 of the motor vehicle account--state appropriation is provided solely for improvement program support activities (095901X). \$18,000,000 of this amount must be held in unallotted status until the office of financial management certifies that the department's 2014 supplemental budget request conforms to the terms of subsection (20) of this section.

~~((23))~~ (22) Any new advisory group that the department convenes during the 2013-2015 fiscal biennium must be representative of the interests of the entire state of Washington.

~~(23)(a) Except as otherwise provided in this section, the entire connecting Washington account--state appropriation is provided solely for the Program I projects and activities listed in LEAP Transportation Document 2013-L1, as developed June 23, 2013, and is subject to the limitations in chapter . . . (Substitute House Bill No. 1957), Laws of 2013 2nd sp. sess.~~

~~(b) \$100,000,000 of the connecting Washington account--state appropriation is provided solely for the SR 509/I-5/SR 167 Freight Corridor project (M00600R). The secretary of transportation must work with the freight mobility strategic investment board to ensure that the project is a priority project within the state freight mobility plan required under the federal moving ahead for progress in the 21st century act.~~

~~(c) \$200,000 of the connecting Washington account--state appropriation is provided solely for the study of the state route number 162 and state route number 410 corridors (L1100068). The study must look at state route number 162 and state route number 410 and their relationship to state route number 167, corridor improvements to accommodate planned growth, and the identification of multimodal options to alleviate congestion and transit demands in eastern Pierce county communities.~~

~~(d) \$200,000 of the connecting Washington account--state appropriation is provided solely for the department to study the feasibility of added high occupancy vehicles lanes on Interstate 5 between Joint Base Lewis-McChord and South 38th Street in Tacoma (L1100069). The study must include a cost estimate and be submitted to the transportation committees of the legislature by January 2015.~~

~~(e) In the development of projects within the US 395/North Spokane corridor, the associated planning staff shall review the department's project design plans in any draft environmental impact statement for conformance with the following legislative goals regarding the final design for additional projects within the corridor:~~

~~(i) Minimization of the project impact on surrounding neighborhoods, including minimizing any increases in additional traffic volumes through such neighborhoods; and~~

~~(ii) Incorporation of the recommendations of a health impact assessment to calculate the project's impact on air quality, carbon emissions, and~~

other public health issues, conducted by the Spokane regional transportation council and the Spokane county public health department.

(24)(a) \$26,000,000 of the connecting Washington account--state appropriation is provided solely for storm water retrofits, including enhanced treatment retrofits, to build on and expand the department's storm water program. In completing storm water retrofits, the department shall use low-impact development (LID) techniques when feasible. Advance treatment and LID storm water retrofits shall be integrated with improvement project life-cycle, ranking, and construction, where such retrofits geographically coincide with planned improvement projects. To accomplish this directive, the department must develop LID retrofit project lists and incorporate project lists into relevant capital plans. The department must consult with the Washington state department of ecology to certify that the retrofit projects have high water quality and environmental benefits.

(b) The department, in consultation with the Washington state department of ecology, shall develop comprehensive criteria to coordinate, rate, and rank improvement projects and storm water retrofit projects. The system must be designed to provide a funding preference to LID retrofit projects that reduce water pollution from existing transportation infrastructure.

(c) The department must incorporate statewide storm water retrofit project lists into ten-year capital project plans and create a biennial project list for the design and construction of LID storm water retrofit projects. The department will coordinate the design and construction of improvement and storm water retrofit projects to ensure efficient and effective use of funds. By December 31, 2013, and biennially thereafter, the department shall provide to the legislature a storm water retrofit project list to maintain and enhance the capacity of the department's storm water program and construct LID retrofits. The department must also provide a report regarding how much funding is allocated to improvement and storm water retrofit projects, identifying the water quality and environmental benefits created from the storm water projects, and summarizing how improvement and storm water retrofit projects are coordinated and integrated.

(25) \$161,000,000 of the connecting Washington account--state appropriation and \$101,400,000 of the connecting Washington account--federal appropriation are provided solely for the I-5/Columbia River crossing project (M00200R). It is the intent of the legislature that no amounts other than the amounts provided in this subsection be expended for the I-5/Columbia River crossing project until the following requirements are met: (a) The United States coast guard approves the I-5/Columbia River crossing project's permit; and (b) C-TRAN and TriMet enter into the necessary agreement or agreements for the ownership, operations, and maintenance of the light rail service to be jointly provided by C-TRAN and TriMet upon the completion of the I-5/Columbia River crossing project, which agreement or agreements must ensure that C-TRAN is not responsible for any preexisting debt, pensions, or other obligations of TriMet and that C-TRAN only pays for the operations and maintenance of the light rail service from Vancouver, Washington to the Washington border.

(26) The department shall prioritize storm water retrofit projects based on the projected benefit for compliance with the department's national pollution discharge elimination system permit.

(27) \$20,000,000 of the connecting Washington account--state appropriation is provided solely for the purposes of removing fish passage barriers related to the transportation system that are identified by the department pursuant to any legal obligation.

SECOND READING

ENGROSSED HOUSE BILL NO. 1450, by Representatives Hunt and Pollet

Regarding assessments in public schools.

The bill was read the second time.

Representative Hunt moved the adoption of amendment (573).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the superintendent of public instruction was authorized to align the state essential academic learning requirements for mathematics, reading, writing, and communication with the common set of standards for students in grades kindergarten through twelve, known as the common core state standards, which were initiated by the governors and chief school officers of forty-five states, including Washington. The legislature further finds that Washington has joined one of two multistate consortia using a federal grant to develop new English language arts and mathematics assessments in grades three through eight and grade eleven that are, among other factors, aligned with the common core state standards and intended to demonstrate a student's career and college readiness. The legislature further finds that the assessments are required to be ready for use by the 2014-15 school year.

The legislature intends to reduce the overall costs of the state assessment system by implementing the eleventh grade English language arts and mathematics assessments being developed by a multistate consortium in which Washington is participating, maximize use of the consortium assessments by developing a tenth grade high school English language arts assessment and modifying the algebra I and geometry end-of-course assessment to be used only during the transition to the consortium-developed assessments, and reduce to three the number of assessments that will be required for students to graduate beginning with the class of 2019.

The legislature further intends that the eleventh grade consortium-developed assessments have two different student performance standards: One for the purposes of high school graduation that will be established by the state board of education and one that is intended to demonstrate a student's career and college readiness.

Sec. 2. RCW 28A.655.061 and 2011 1st sp.s. c 22 s 2 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the statewide student assessment, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and, if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained ~~((by most students at about the age of sixteen,))~~ and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3)(a) Beginning with the graduating class of 2008 through the graduating class of 2015, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics ~~((content areas of the))~~ high school statewide student assessment shall earn a certificate of academic achievement. The mathematics assessment shall be the end-of-course assessment for the first year of high school mathematics that assesses the standards common to algebra I and integrated mathematics I or the end-of-course assessment for the second year of high school mathematics that assesses standards common to geometry and integrated mathematics II.

(b) As the state transitions from reading and writing assessments to an English language arts assessment and from end-of-course

assessments to a comprehensive assessment for high school mathematics, a student in a graduating class of 2016 through 2018 shall earn a certificate of academic achievement if the student meets the state standard as follows:

(i) Students in the graduating class of 2016 may use the results from:

(A) The reading and writing assessment or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the end-of-course assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(ii) Students in the graduating classes of 2017 and 2018 may use the results from:

(A) The tenth grade English language arts assessment developed by the superintendent of public instruction using resources from the multistate consortium or the English language arts assessment developed with the multistate consortium; and

(B) The end-of-course assessment for the first year of high school mathematics, the end-of-course assessment for the second year of high school mathematics, or the comprehensive mathematics assessment developed with the multistate consortium.

(c) Beginning with the graduating class of 2019, a student who meets the state standards on the high school English language arts assessment developed with the multistate consortium and the comprehensive mathematics assessment developed with the multistate consortium shall earn a certificate of academic achievement.

(d) If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area ~~((up to four times))~~ at least twice a year at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the statewide student assessment at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning with the graduating class of 2015, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the statewide student assessment, a retake, or the objective alternative assessments in order to earn a certificate of academic achievement.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the statewide student assessment ~~((up to four times))~~ at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the statewide student assessment ~~((up to four times))~~ at least twice a year in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the statewide student assessment and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the statewide student assessment. A student's score on the science portion of the ACT or the science subject area tests of the SAT may be used as an objective alternative assessment under this section as soon as the state board of education determines that sufficient data is available to identify reliable equivalent scores for the science content area of the statewide student assessment. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the statewide student assessment; and for the English language arts portion of the assessment developed with the multistate consortium, once established in the 2014-15 school year. A score of three on the AP examination in biology, physics, chemistry, or environmental science may be used as an alternative assessment for the science portion of the statewide student assessment.

(iii) A student who scores at least a four on selected externally administered international baccalaureate (IB) examinations may use the score as an objective alternative assessment under this section for demonstrating that the student has met or exceeded state standards for the certificate of academic achievement. A score of four on the higher level IB examinations for any of the IB English language and literature courses or for any of the IB individuals and societies courses may be used as an alternative assessment for the reading, writing, or

English language arts portions of the statewide student assessment. A score of four on the higher level IB examinations for any of the IB mathematics courses may be used as an alternative assessment for the mathematics portion of the statewide student assessment. A score of four on the higher level IB examinations for IB biology, chemistry, or physics may be used as an alternative assessment for the science portion of the statewide student assessment.

~~(11) ((By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.~~

~~—(12))~~ To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

- (a) The student's results on the state assessment;
- (b) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;
- (c) Any credit deficiencies;
- (d) The student's attendance rates over the previous two years;
- (e) The student's progress toward meeting state and local graduation requirements;

Sec. 3. RCW 28A.655.066 and 2011 c 25 s 2 are each amended to read as follows:

(1)(a) In consultation with the state board of education, the superintendent of public instruction shall develop statewide end-of-course assessments for high school mathematics that measure student achievement of the state mathematics standards. The superintendent shall take steps to ensure that the language of the assessments is responsive to a diverse student population. The assessments shall be implemented statewide in the 2010-11 school year.

(b) The superintendent shall develop end-of-course assessments for the first year of high school mathematics that include the standards common to algebra I and integrated mathematics I and for the second year of high school mathematics that include the standards common to geometry and integrated mathematics II. The assessments under this subsection (1)(b) shall be used to demonstrate that a student meets the state standard on the mathematics content area of the high

school (~~(Washington)~~) statewide student assessment (~~(of student learning)~~) for purposes of RCW 28A.655.061.

(c) The superintendent of public instruction shall also develop subtests for the end-of-course assessments that measure standards for the first two years of high school mathematics that are unique to algebra I, integrated mathematics I, geometry, and integrated mathematics II. The results of the subtests shall be reported at the student, teacher, school, and district level.

~~(2) ((For the graduating classes of 2013 and 2014 and for purposes of the certificate of academic achievement under RCW 28A.655.061, a student may use: (a) Results from the end-of-course assessment for the first year of high school mathematics or the results from the end-of-course assessment for the second year of high school mathematics; or (b) results from a high school mathematics retake assessment.~~

~~— (3) Beginning with the graduating class of 2015 and for purposes of the certificate of academic achievement under RCW 28A.655.061, the mathematics content area of the Washington assessment of student learning shall be assessed using the end-of-course assessment for the first year of high school mathematics plus the end-of-course assessment for the second year of high school mathematics, or results from a high school mathematics retake assessment for the end-of-course assessments in which the student did not meet the standard.~~

~~— (4)) All of the objective alternative assessments available to students under RCW 28A.655.061 and 28A.655.065 shall be available to any student who has taken ((the sequence of) an end-of-course assessment((s)) once but does not meet the state mathematics standard on ((the sequence of) an end-of-course assessment((s)).~~

~~((5)) (3) The superintendent of public instruction shall report at least annually or more often if necessary to keep the education committees of the legislature informed on each step of the development and implementation process under this section.~~

Sec. 4. RCW 28A.655.068 and 2011 1st sp.s. c 22 s 3 are each amended to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2)(a) The superintendent of public instruction may develop or adopt science end-of-course assessments ((#)) or a comprehensive science assessment that includes subjects in addition to biology for purposes of RCW 28A.655.061, when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.

(b) The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public

instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061.

Sec. 5. RCW 28A.655.070 and 2008 c 163 s 2 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the ~~((Washington))~~ statewide student assessment (~~(of student learning)~~) and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the ~~((Washington))~~ statewide student assessment (~~(of student learning)~~).

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.

(c) By the 2014-15 school year, the superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium, as provided in this subsection:

(i) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(ii) The high school assessments in English language arts and mathematics in (c)(i) of this subsection shall be used for the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in RCW 28A.655.061 and for assessing student career and college readiness.

(iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

NEW SECTION. Sec. 6. By December 1, 2013, the superintendent of public instruction shall report to the education committees of the house of representatives and the senate on the process that was used by the superintendent, the multistate consortium in which Washington is participating, and by other states, to prevent bias in the state assessments and assure fairness to students who take the assessments.

Sec. 7. RCW 28A.305.130 and 2011 1st sp.s. c 6 s 1 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment and, for high school students, to obtain a certificate of academic achievement. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates. The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.

(ii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the tenth grade English language arts assessment and the end-of-course mathematics assessments developed in accordance with RCW 28A.655.070 to be used as the state transitions to high school assessments developed with a multistate consortium.

(iii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium- developed assessments, examine the student scores used in other states that are administering the consortium-developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.

(iv) The legislature shall be advised of the initial performance standards for the high school statewide student assessment. Any changes recommended by the board in the performance standards for the high school assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature. The legislature shall be advised of the initial performance standards and any changes made to the elementary level performance standards and the middle school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(5) Accredited, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may

delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

NEW SECTION. Sec. 8. A new section is added to chapter 28A.320 RCW to read as follows:

(1) At the beginning of each school year, school districts must notify parents and guardians of enrolled students from eighth through twelfth grade about each student assessment required by the state, the minimum state-level graduation requirements, and any additional school district graduation requirements. The information may be provided when the student is enrolled, contained in the student or parent handbook, or posted on the school district's web site. The notification must include the following:

(a) When each assessment will be administered;

(b) Which assessments will be required for graduation and what options students have to meet graduation requirements if they do not pass a given assessment;

(c) Whether the results of the assessment will be used for program placement or grade-level advancement;

(d) When the assessment results will be released to parents or guardians and whether there will be an opportunity for parents and teachers to discuss strategic adjustments; and

(e) Whether the assessment is required by the school district, state, federal government, or more than one of these entities.

(2) The office of the superintendent of public instruction shall provide information to the school districts to enable the districts to provide the information to the parents and guardians in accordance with subsection (1) of this section.

Sec. 9. RCW 28A.655.185 and 2005 c 495 s 1 are each amended to read as follows:

(1) It is the intent of the legislature, through the creation of the apple award, to honor and reward students in Washington's public elementary schools who have shown significant improvement in their school's results on the ~~((Washington))~~ statewide student assessment ~~((of student learning))~~.

(2) The apple award program is created to honor and reward public elementary schools that have the greatest combined average increase in the percentage of students meeting the fourth grade reading, mathematics, and writing standards on the ~~((Washington))~~ statewide student assessment ~~((of student learning))~~ each school year. Beginning in the 2014-15 school year, the award shall be based on the percentage of students meeting the fourth grade English language arts and mathematics standards. The program shall be administered by the ~~((state board of education))~~ superintendent of public instruction.

(3) Within the amounts appropriated for this purpose, each school that receives an apple award shall be provided with a twenty-five thousand dollar grant to be used for capital construction purposes that have been selected by students in the school and approved by the district's school directors. The funds may be used exclusively for capital construction projects on school property or on other public property in the community, city, or county in which the school is located.

Sec. 10. RCW 28B.105.010 and 2007 c 214 s 1 are each amended to read as follows:

(1) The GET ready for math and science scholarship program is established. The purpose of the program is to provide scholarships to students who achieve level four on the mathematics or science portions of the ~~((tenth grade Washington))~~ high school statewide student assessment ~~((of student learning))~~ or achieve a score in the

math section of the SAT or the math section of the ACT that is above the ninety-fifth percentile, major in a mathematics, science, or related field in college, and commit to working in mathematics, science, or a related field for at least three years in Washington following completion of their bachelor's degree. The program shall be administered by the nonprofit organization selected as the private partner in the public-private partnership.

(2) The total annual amount of each GET ready for math and science scholarship may vary, but shall not exceed the annual cost of resident undergraduate tuition fees and mandatory fees at the University of Washington. An eligible recipient may receive a GET ready for math and science scholarship for up to one hundred quarter credits, or the semester equivalent, or for up to five y whichever comes first.

(3) Scholarships shall be awarded only to the extent that state funds and private matching funds are available for that purpose in the GET ready for math and science (~~(scholarship)~~) scholarship account established in RCW 28B.105.110.

Sec. 11. RCW 28B.105.030 and 2007 c 214 s 3 are each amended to read as follows:

(1) An eligible student is a student who:

(a) Is eligible for resident tuition and fee rates as defined in RCW 28B.15.012;

(b) Achieved level four on the mathematics or science portion of the (~~(tenth-grade Washington)~~) high school statewide student assessment (~~(of student learning)~~) or achieved a score in the math section of the SAT or the math section of the ACT that is above the ninety-fifth percentile;

(c) Has a family income at or below one hundred twenty-five percent of the state median family income at the time the student applies for a GET ready for math and science scholarship and for up to the two previous years;

(d) Has declared an intention to complete a qualified program or qualified major or has entered a qualified program or declared a qualified major at an institution of higher education;

(e) Has declared an intention to work in a mathematics, science, or related field in Washington for at least three years immediately following completion of a bachelor's degree or higher degree.

(2) An eligible recipient is an eligible student who:

(a) Has been awarded a scholarship in accordance with the selection criteria and process established by the (~~(board)~~) student achievement council and the program administrator;

(b) Enrolls at an institution of higher education within one year of graduating from high school;

(c) Maintains satisfactory academic progress, as defined by the institution of higher education where the student is enrolled;

(d) Takes at least one college-level mathematics or science course each term since enrolling in an institution of higher education; and

(e) Enters a qualified program or qualified major no later than the end of the first term in which the student has junior level standing.

Sec. 12. RCW 28B.105.060 and 2007 c 214 s 6 are each amended to read as follows:

The office of the superintendent of public instruction shall:

(1) Notify elementary, middle, junior high, high school, and school district staff and administrators, and the children's administration of the department of social and health services about the GET ready for math and science scholarship program using methods in place for communicating with schools and school districts; and

(2) Provide data showing the race, ethnicity, income, and other available demographic information of students who achieve level four (~~(of)~~) on the math and science (~~(Washington)~~) high school statewide student assessment (~~(of student learning in the tenth grade)~~); compare those data with comparable information on the (~~(tenth grade)~~) student population as a whole(~~(-)~~); and submit a report with the analysis to the

TABLE 3

DRUG OFFENSE SENTENCING GRID

Seriousness Level	Offender Score 0 to 2	Offender Score 3 to 5	Offender Score 6 to 9 or more
III	51 to 68 months	68+ to 100 months	100+ to 120 months
II	12+ to 20 months	20+ to 60 months	60+ to 120 months
I	0 to 6 months	6+ to (18) 12 months	12+ to 24 months

References to months represent the standard sentence ranges. 12+ equals one year and one day.

(2) The court may utilize any other sanctions or alternatives as authorized by law, including but not limited to the special drug offender sentencing alternative under RCW 9.94A.660 or drug court under RCW 2.28.170.

(3) Nothing in this section creates an entitlement for a criminal defendant to any specific sanction, alternative, sentence option, or substance abuse treatment.

Sec. 2. RCW 9.94A.729 and 2011 1st sp.s. c 40 s 4 are each amended to read as follows:

(1)(a) The term of the sentence of an offender committed to a correctional facility operated by the department may be reduced by earned release time in accordance with procedures that shall be developed and adopted by the correctional agency having jurisdiction in which the offender is confined. The earned release time shall be for good behavior and good performance, as determined by the correctional agency having jurisdiction. The correctional agency shall not credit the offender with earned release credits in advance of the offender actually earning the credits.

(b) Any program established pursuant to this section shall allow an offender to earn early release credits for presentence incarceration. If an offender is transferred from a county jail to the department, the administrator of a county jail facility shall certify to the department the amount of time spent in custody at the facility and the ~~(amount)~~ number of days of ~~(time)~~ earned early release ~~(time)~~ credits lost or not

earned. The department may approve a jail certification from a correctional agency that calculates ~~(earned)~~ early release time based on the actual amount of confinement time served by the offender before sentencing when an erroneous calculation of confinement time served by the offender before sentencing appears on the judgment and sentence. The department must adjust an offender's rate of early release listed on the jail certification to be consistent with the rate applicable to offenders in the department's facilities. However, the department is not authorized to adjust the number of presentence early release days that the jail has certified as lost or not earned.

(2) An offender who has been convicted of a felony committed after July 23, 1995, that involves any applicable deadly weapon enhancements under RCW 9.94A.533 (3) or (4), or both, shall not receive any good time credits or earned release time for that portion of his or her sentence that results from any deadly weapon enhancements.

(3) An offender may earn early release time as follows:

(a) In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 1990, and before July 1, 2003, the aggregate earned release time may not exceed fifteen percent of the sentence.

(b) In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 2003, the aggregate earned release time may not exceed ten percent of the sentence.

(c) An offender is qualified to earn up to fifty percent of aggregate earned release time if he or she:

(i) Is not classified as an offender who is at a high risk to reoffend as provided in subsection (4) of this section;

(ii) Is not confined pursuant to a sentence for:

(A) A sex offense;

(B) A violent offense;

(E) A violation of RCW 9A.52.025 (residential burglary);

(F) A violation of, or an attempt, solicitation, or conspiracy to violate, RCW 69.50.401 by manufacture or delivery or possession with intent to deliver methamphetamine; or

(G) A violation of, or an attempt, solicitation, or conspiracy to violate, RCW 69.50.406 (delivery of a controlled substance to a minor);

(iii) Has no prior conviction for the offenses listed in (c)(ii) of this subsection;

(iv) Participates in programming or activities as directed by the offender's individual reentry plan as provided under RCW 72.09.270 to the extent that such programming or activities are made available by the department; and

(v) Has not committed a new felony after July 22, 2007, while under community custody.

(d) In no other case shall the aggregate earned release time exceed one-third of the total sentence.

(4) The department shall perform a risk assessment of each offender who may qualify for earned early release under subsection (3)(c) of this section utilizing the risk assessment tool recommended by the Washington state institute for public policy. Subsection (3)(c) of this section does not apply to offenders convicted after July 1, 2010.

(5)(a) A person who is eligible for earned early release as provided in this section and who will be supervised by the department pursuant to RCW 9.94A.501 or 9.94A.5011, shall be transferred to community custody in lieu of earned release time;

(b) The department shall, as a part of its program for release to the community in lieu of earned release, require the offender to propose a release plan that includes an approved residence and living arrangement. All offenders with community custody terms eligible

for release to community custody in lieu of earned release shall provide an approved residence and living arrangement prior to release to the community;

(c) The department may deny transfer to community custody in lieu of earned release time if the department determines an offender's release plan, including proposed residence location and living arrangements, may violate the conditions of the sentence or conditions of supervision, place the offender at risk to violate the conditions of the sentence, place the offender at risk to reoffend, or present a risk to victim safety or community safety. The department's authority under this section is independent of any court-ordered condition of sentence or statutory provision regarding conditions for community custody;

(d) If the department is unable to approve the offender's release plan, the department may do one or more of the following:

(i) Transfer an offender to partial confinement in lieu of earned early release for a period not to exceed three months. The three months in partial confinement is in addition to that portion of the offender's term of confinement that may be served in partial confinement as provided in RCW 9.94A.728(5);

(ii) Provide rental vouchers to the offender for a period not to exceed three months if rental assistance will result in an approved release plan. The voucher must be provided in conjunction with additional transition support programming or services that offender to participate in services including, but not li substance abuse treatment, mental health treatment, sex offender treatment, educational programming, or employment programming;

(e) For each offender who is the recipient of a rental voucher, the department shall include, concurrent with the data that the department otherwise obtains and records, the housing status of the offender for the duration of the offender's supervision.

(6) An offender serving a term of confinement imposed under RCW 9.94A.670(5)(a) is not eligible for earned release credits under this section.

Sec. 3. RCW 9.92.151 and 2009 c 28 s 3 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, the sentence of a prisoner confined in a county jail facility for a felony, gross misdemeanor, or misdemeanor conviction may be reduced by earned release credits in accordance with procedures that shall be developed and promulgated by the correctional agency having jurisdiction. The earned early release time shall be for good behavior and good performance as determined by the correctional agency having jurisdiction. Any program established pursuant to this section shall allow an offender to earn early release credits for presentence incarceration. The correctional agency shall not credit the offender with earned early release credits in advance of the offender actually earning the credits. In the case of an offender convicted of a serious violent offense or a sex offense that is a class A felony committed on or after July 1, 1990, the aggregate earned early release time may not exceed fifteen percent of the sentence. In no other case may the aggregate earned early release time exceed one-third of the total sentence.

NEW SECTION. Sec. 4. Pursuant to RCW 9.94A.729, the department shall recalculate the earned release date for any offender currently serving a term in a facility or institution either operated by the state or utilized under contract. The earned release date shall be recalculated whether the offender is currently incarcerated or is sentenced after the effective date of this section, and regardless of the

offender's date of offense. For offenders whose offense was committed prior to the effective date of this section, the recalculation shall not extend a term of incarceration beyond that to which an offender is currently subject.

NEW SECTION. Sec. 5. The legislature declares that section 4 of this act does not create any liberty interest. The department is authorized to take the time reasonably necessary to complete the recalculations of section 4 of this act after the effective date of this section.

NEW SECTION. Sec. 6. Section 1 of this act applies to sentences imposed on or after July 1, 2013, regardless of the date of offense.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 8. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2013."

HOUSE BILL NO. 2043, by Representatives Hunter and Sullivan

Temporarily suspending inflationary increases in educational employee compensation.

There being no objection, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

Representatives Hunter, Reykdal, Appleton and Dahlquist spoke in favor of the passage of the bill.

Representatives Liias and Manweller spoke against the passage of the bill.

POINT OF PARLIAMENTARY INQUIRY

Representative Stonier: "Apart from my duties as a legislator, I am a certificated educational instructor employed by the Evergreen School District. House Bill 2043 affects compensation for educational staff, including certificated K-12 instructors. Do I

have a private interest in the proposed legislation which requires my recusal from voting?"

SPEAKER'S RULING

Mr. Speaker: "Thank you Representative Stonier for bringing this question to the body. House Rule 19 (D), which is based on article 2, section 30 of our state constitution, states that "no member shall vote on any question which affects that member privately or particularly." The Washington Legislature is, by constitutional design, a citizen legislature.

The design is based on the premise that the people of our state are best represented by legislators who are currently engaged in outside employment and activities, and can bring real-world experience and expertise to bear on the issues before this body.

The question as to whether outside employment and activities require recusal from voting turns on whether a legislator is affected privately or particularly, or as a member of a class.

House Bill 2043 temporarily suspends the state's obligation to provide cost of living increases to K-12 and higher education staff as required by Initiative 732. According to the Office of Superintendent of Public Instruction, there are more than 60,000 certified K-12 instructional staff in Washington. Representative Stonier, given the size of the class of persons affected, the Speaker finds that the interest you have is neither private nor particular, and does not warrant your recusal under House Rules of the State Constitution."

POINT OF PARLIAMENTARY INQUIRY

Representative Bergquist "Apart from my duties as a legislator, I am a certificated teacher employed by the Renton School District. House Bill 2043 affects compensation for educational staff, including certificated K-12 instructors. Do I have a private interest in the proposed legislation which requires my recusal from voting?"

SPEAKER'S RULING

Mr. Speaker: "Thank you Representative Bergquist for bringing this question to the body. The Speaker finds that the interest you have is neither private nor particular, and does not warrant your recusal under House Rules or the State Constitution, for the same reasons as expressed in response to the question posed by Representative Stonier."

The Speaker (Representative Moeller presiding) stated the question before the House to be the final passage of House Bill No. 2043.

ROLL CALL

The Clerk called the roll on the final passage of House Bill No. 2043, and the bill passed the House by the following vote: Yeas, 54; Nays, 36; Absent, 0; Excused, 7.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature intends to fund a plan to carry out the reforms enacted in chapter 548, Laws of 2009, and chapter 236, Laws of 2010, and to make the statutory changes necessary to support this plan.

Sec. 2. RCW 28A.150.220 and 2013 c 323 s 2 are each amended to read as follows:

(1) In order for students to have the opportunity to develop the basic education knowledge and skills under RCW 28A.150.210, school districts must provide instruction of sufficient quantity and quality and give students the opportunity to complete graduation requirements that are intended to prepare them for postsecondary education, gainful employment, and citizenship. The program established under this section shall be the minimum instructional program of basic education offered by school districts.

(2) Each school district shall make available to students the following minimum instructional offering each school year:

(a) For students enrolled in grades one through twelve, at least a district-wide annual average of one thousand hours, which shall be increased to at least one thousand eighty instructional hours for students enrolled in each of grades seven through twelve and at least one thousand instructional hours for students in each of grades one through six according to an implementation schedule adopted by the legislature, but not before the 2014-15 school year; and

(b) For students enrolled in kindergarten, at least four hundred fifty instructional hours, which shall be increased to at least one thousand instructional hours according to the implementation schedule under RCW 28A.150.315.

(3) The instructional program of basic education provided by each school district shall include:

(a) Instruction in the essential academic learning requirements under RCW 28A.655.070;

(b) Instruction that provides students the opportunity to complete twenty-four credits for high school graduation, subject to a phased-in implementation of the twenty-four credits as established by the legislature. Course distribution requirements may be established by the state board of education under RCW 28A.230.090;

(c) If the essential academic learning requirements include a requirement of languages other than English, the requirement may be met by students receiving instruction in one or more American Indian languages;

(d) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(e) Supplemental instruction and services for eligible and enrolled students and exited students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(f) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020; and

(g) Programs for highly capable students under RCW 28A.185.010 through 28A.185.030.

(4) Nothing contained in this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.

(5) Each school district's kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten, to be increased to a minimum of one hundred eighty school days per school year according to the implementation schedule under RCW 28A.150.315. However, schools administering the Washington kindergarten inventory of developing skills may use up to three school days at the beginning of the school year to meet with parents and families as required in the parent involvement component of the inventory. In addition, effective May 1, 1979, a school district may schedule the last five school days of the one hundred and eighty day school year for noninstructional purposes in the case of students who are graduating from high school, including, but not limited to, the observance of graduation and early release from school upon the request of a student, and all such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260.

(6) Nothing in this section precludes a school district from enriching the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district's students.

(7) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and such related supplemental program approval requirements as the state board may establish.

LEARNING TO READ, READING TO LEARN

NEW SECTION. Sec. 101. A new section is added to chapter 28A.300 RCW to read as follows:

In support of reading and early literacy, the office of the superintendent of public instruction is responsible for:

(1) Continuing to work collaboratively with state and regional partners such as the department of early learning and the educational service districts to establish early literacy benchmarks and standards and to implement the Washington state comprehensive literacy plan;

(2) Disseminating research and information to school districts about evidence-based programs and practices in reading readiness skills, early literacy, and reading instruction;

(3) Providing statewide models to support school districts that are implementing response to intervention initiatives, positive behavior intervention support systems, or other similar comprehensive models of data-based identification and early intervention; and

(4) Within available funds and in partnership with the educational service districts, providing technical assistance and professional development opportunities for school districts.

NEW SECTION. Sec. 102. A new section is added to chapter 28A.320 RCW to read as follows:

School districts are responsible for providing a comprehensive system of instruction and services in reading and early literacy to kindergarten through fourth grade students that is based on the degree

of student need for additional support. Reading and early literacy systems provided by school districts must include:

(1) Annual use of screening assessments and other tools to identify at-risk readers in kindergarten through fourth grade, such as the Washington kindergarten inventory of developing skills, the Washington state early learning and development guidelines for birth through third grade, the second grade reading assessment under RCW 28A.300.310, and locally used assessments and other tools; and

(2) Research-based family involvement and engagement strategies, including strategies to help families and guardians assist in improving students' reading and early literacy skills at home.

NEW SECTION. Sec. 103. A new section is added to chapter 28A.415 RCW to read as follows:

(1) High-quality professional development is essential for educators to keep abreast of the important advances in research that are occurring regarding instructional strategies and curriculum. Professional development in early literacy is especially important to support the instruction of young readers since reading proficiency is a crucial element for student academic success.

(2) Subject to funds appropriated for this specific purpose, the office of the superintendent of public instruction shall create partnerships with the educational service districts and public or private institutions of higher education with approved educator preparation programs to develop and deliver research-based professional development learning opportunities in reading instruction and early literacy for teachers of kindergarten through fourth grade students.

NEW SECTION. Sec. 104. A new section is added to chapter 28A.320 RCW to read as follows:

(1) Each school district shall require that report cards for students in kindergarten through fourth grade include information regarding how the student is progressing on acquiring reading skills and whether the student is at grade level in reading.

(2) If a student is not reading at or above grade level, the teacher, with the support of other school personnel as appropriate, must explain to the parent or guardian which interventions and strategies will be used to help improve the student's reading skills and must provide strategies for parents or guardians to assist with improving the student's reading skills at home.

(3) Each school shall report to the school district the number of students in grades kindergarten through four who are reading below grade level and the interventions that are being provided to improve the reading skills of the students, with the information disaggregated by subgroups of students. The school district shall aggregate the reports from the schools and provide the reports to the office of the superintendent of public instruction. The office of the superintendent of public instruction shall submit a statewide report annually to the education committees of the legislature and the educational opportunity gap oversight and accountability committee.

NEW SECTION. Sec. 105. A new section is added to chapter 28A.655 RCW to read as follows:

(1) The definitions in this subsection apply throughout this section and section 106 of this act unless the context clearly requires otherwise.

(a) "Basic" means a score on the statewide student assessment at a level two in a four-level scoring system.

(b) "Below basic" means a score on the statewide student assessment at a level one in a four-level scoring system.

(c) "Not meet the state standard" means a score on the statewide student assessment at either a level one or a level two in a four-level scoring system.

(2) Beginning in the 2014-15 school year, for any student who receives a score of below basic on the third grade statewide student assessment in English language arts, a meeting must be scheduled before the end of the school year between the student's parent or guardian, teacher, and the principal of the school the student attends

or the principal's designee to discuss appropriate grade placement and recommended intensive strategies to improve the student's reading skills. For students to be placed in fourth grade, the strategies discussed must include an intensive improvement strategy provided, supported, or contracted by the school district that includes a summer program or other option identified by the parents, teacher, principal, or principal's designee as appropriately meeting the student's need to prepare for fourth grade. The parents or guardians must be fully informed about the strategies and the parent's or guardian's consent must be obtained regarding the appropriate grade placement and the intensive improvement strategy to be implemented. The school district must implement the strategy selected in consultation with the student's parents or guardians.

(3) If a student does not have a score in English language arts on the third grade statewide student assessment but the district determines, using district or classroom-based diagnostic assessments or another standardized assessment, that the student's performance is equivalent to below basic in English language arts, the policy in subsection (2) of this section applies.

(4) Students participating in the transitional bilingual instruction program are exempt from the policy in subsection (2) of this section, unless the student has participated in the transitional bilingual instruction program for three school years and receives a score of below basic on the third grade statewide student assessment in English language arts.

(5) Students with disabilities whose individualized education program includes specially designed instruction in reading or English language arts are exempt from subsections (2), (3), and (4) of this section. Communication and consultation with parents or guardians of such students shall occur through the individualized education program process required under chapter 28A.155 RCW and associated administrative rules.

NEW SECTION. Sec. 106. A new section is added to chapter 28A.655 RCW to read as follows:

(1)(a) Beginning in the 2015-16 school year, except as otherwise provided in this subsection (1), for any student who received a score of basic or below basic on the third grade statewide student assessment in English language arts in the previous school year, the school district must implement an intensive reading and literacy improvement strategy from a state menu of best practices established in accordance with subsection (3) of this section or an alternative strategy in accordance with subsection (4) of this section.

(b) Reading and literacy improvement strategies for students with disabilities whose individualized education program includes specially designed instruction in reading or English language arts shall be as provided in the individualized education program.

(2)(a) Also beginning in the 2015-16 school year, in any school where more than forty percent of the tested students received a score of basic or below basic on the third grade statewide student assessment in English language arts in the previous school year, as calculated under this subsection (2), the school district must implement an intensive reading and literacy improvement strategy from a state menu of best practices established in accordance with subsection (3) of this section or an alternative strategy in accordance with subsection (4) of this section for all students in grades kindergarten through four at the school.

(b) For the purposes of this subsection (2), the office of the superintendent of public instruction shall exclude the following from the calculation of a school's percentage of tested students receiving a score of basic or below basic on the third grade statewide student assessment:

(i) Students enrolled in the transitional bilingual instruction program unless the student has participated in the transitional bilingual instruction program for three school years;

(ii) Students with disabilities whose individualized education program specifies a different standard to measure reading

performance than is required for the statewide student assessment; and

(iii) Schools with fewer than ten students in third grade.

(3) The office of the superintendent of public instruction shall convene a panel of experts, including the Washington state institute for public policy, to develop a state menu of best practices and strategies for intensive reading and literacy improvement designed to assist struggling students in reaching grade level in reading by the end of fourth grade. The state menu must also include best practices and strategies to improve the reading and literacy of students who are English language learners and for system improvements that schools and school districts can implement to improve reading instruction for all students. The office of the superintendent of public instruction shall publish the state menu by July 1, 2014, and update the state menu by each July 1st thereafter.

(4) School districts may use an alternative practice or strategy that is not on a state menu developed under subsection (3) of this section for two school years initially. If the district is able to demonstrate improved outcomes for participating students over the previous two school years at a level commensurate with the best practices and strategies on the state menu, the office of the superintendent of public instruction must approve use of the alternative practice or strategy by the district for one additional school year. Subsequent annual approval by the superintendent of public instruction to use the alternative practice or strategy is dependent on the district continuing to demonstrate an increase in improved outcomes for participating students.

~~((4))~~ (d) Consultant teachers to assist in implementing effective instructional practices by teachers serving participating students;

~~((5))~~ (e) Tutoring support for participating students; ~~((and~~

~~((6))~~ (f) Outreach activities and support for parents of participating students, including employing parent and family engagement coordinators; and

(g) Up to five percent of a district's learning assistance program allocation may be used for development of partnerships with community-based organizations, educational service districts, and other local agencies to deliver academic and nonacademic supports to participating students who are significantly at risk of not being successful in school to reduce barriers to learning, increase student engagement, and enhance students' readiness to learn. The office of the superintendent of public instruction must approve any community-based organization or local agency before learning assistance funds may be expended.

(3) In addition to the state menu developed under section 106 of this act, the office of the superintendent of public instruction shall convene a panel of experts, including the Washington state institute for public policy, to develop additional state menus of best practices and strategies for use in the learning assistance program to assist struggling students at all grade levels in English language arts and mathematics and reduce disruptive behaviors in the classroom. The office of the superintendent of public instruction shall publish the state menus by July 1, 2015, and update the state menus by each July 1st thereafter.

(4)(a) Beginning in the 2016-17 school year, except as provided in (b) of this subsection, school districts must use a practice or strategy that is on a state menu developed under subsection (3) of this section or section 106 of this act.

(b) Beginning in the 2016-17 school year, school districts may use a practice or strategy that is not on a state menu developed under subsection (3) of this section for two school years initially. If the

district is able to demonstrate improved outcomes for participating students over the previous two school years at a level commensurate with the best practices and strategies on the state menu, the office of the superintendent of public instruction shall approve use of the alternative practice or strategy by the district for one additional school year. Subsequent annual approval by the superintendent of public instruction to use the alternative practice or strategy is dependent on the district continuing to demonstrate increased improved outcomes for participating students.

(c) Beginning in the 2016-17 school year, school districts may enter cooperative agreements with state agencies, local governments, or school districts for administrative or operational costs needed to provide services in accordance with the state menus developed under this section and section 106 of this act.

(5) School districts are encouraged to implement best practices and strategies from the state menus developed under this section and section 106 of this act before the use is required.

NEW SECTION. Sec. 204. A new section is added to chapter 28A.165 RCW to read as follows:

(1) Beginning with the 2014-15 school year, school districts shall record in the statewide individual student data system annual entrance and exit performance data for each student participating in the learning assistance program according to specifications established by the office of the superintendent of public instruction.

(2) By August 1, 2014, and each August 1st thereafter, school districts shall report to the office of the superintendent of public instruction, using a common format prepared by the office:

(a) The amount of academic growth gained by students participating in the learning assistance program;

(b) The number of students who gain at least one year of academic growth; and

(c) The specific practices, activities, and programs used by each school building that received learning assistance program funding.

(3) The office of the superintendent of public instruction shall compile the school district data and report annual and longitudinal gains for the specific practices, activities, and programs used by the school districts to show which are the most effective. The data must be disaggregated by student subgroups.

Sec. 205. RCW 28A.165.055 and 2009 c 548 s 703 are each amended to read as follows:

~~((Each school district with an approved program is eligible for state funds provided for the learning assistance program.))~~ The funds for the learning assistance program shall be appropriated ~~((for the learning assistance program))~~ in accordance with RCW 28A.150.260 and the omnibus appropriations act. The distribution formula is for school district allocation purposes only, but funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.065 and section 106 of this act.

Sec. 206. RCW 28A.165.065 and 2004 c 20 s 7 are each amended to read as follows:

To ensure that school districts are meeting the requirements of ~~((an approved program))~~ this chapter, the superintendent of public instruction shall monitor ~~((such))~~ learning assistance programs no less than once every four years. ~~((Individual student records shall be maintained at the school district.))~~ The primary purpose of program monitoring is to evaluate the effectiveness of a district's allocation and expenditure of resources and monitor school district fidelity in implementing best practices. The office of the superintendent of public instruction may provide technical assistance to school districts to improve the effectiveness of a learning assistance program.

PART III

STUDENT DISCIPLINE

NEW SECTION. Sec. 301. A new section is added to chapter 28A.600 RCW to read as follows:

(1) The office of the superintendent of public instruction shall convene a discipline task force to develop standard definitions for causes of student disciplinary actions taken at the discretion of the school district. The task force must also develop data collection standards for disciplinary actions that are discretionary and for disciplinary actions that result in the exclusion of a student from school. The data collection standards must include data about education services provided while a student is subject to a disciplinary action, the status of petitions for readmission to the school district when a student has been excluded from school, credit retrieval during a period of exclusion, and school dropout as a result of disciplinary action.

(2) The discipline task force shall include representatives from the K-12 data governance group, the educational opportunity gap oversight and accountability committee, the state ethnic commissions, the governor's office of Indian affairs, the office of the education ombudsman, school districts, and other education and advocacy organizations.

(3) The office of the superintendent of public instruction and the K-12 data governance group shall revise the statewide student data system to incorporate the student discipline data collection standards recommended by the discipline task force, and begin collecting data based on the revised standards in the 2015-16 school year.

Sec. 302. RCW 28A.600.015 and 2006 c 263 s 701 are each amended to read as follows:

(1) The superintendent of public instruction shall adopt and distribute to all school districts lawful and reasonable rules prescribing the substantive and procedural due process guarantees of pupils in the common schools. Such rules shall authorize a school district to use informal due process procedures in connection with the short-term suspension of students to the extent constitutionally permissible: PROVIDED, That the superintendent of public instruction deems the interest of students to be adequately protected. When a student suspension or expulsion is appealed, the rules shall authorize a school district to impose the suspension or expulsion temporarily after an initial hearing for no more than ten consecutive school days or until the appeal is decided, whichever is earlier. Any days that the student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student suspension or expulsion. An expulsion or suspension of a student may not be for an indefinite period of time.

(2) Short-term suspension procedures may be used for suspensions of students up to and including, ten consecutive school days.

(3) Emergency expulsions must end or be converted to another form of corrective action within ten school days from the date of the emergency removal from school. Notice and due process rights must be provided when an emergency expulsion is converted to another form of corrective action.

Sec. 303. RCW 28A.600.020 and 2006 c 263 s 706 are each amended to read as follows:

(1) The rules adopted pursuant to RCW 28A.600.010 shall be interpreted to ensure that the optimum learning atmosphere of the classroom is maintained, and that the highest consideration is given to the judgment of qualified certificated educators regarding conditions necessary to maintain the optimum learning atmosphere.

(2) Any student who creates a disruption of the educational process in violation of the building disciplinary standards while under a teacher's immediate supervision may be excluded by the teacher from his or her individual classroom and instructional or activity area for all or any portion of the balance of the school day, or up to the following two days, or until the principal or designee and teacher have conferred, whichever occurs first. Except in emergency

circumstances, the teacher first must attempt one or more alternative forms of corrective action. In no event without the consent of the teacher may an excluded student return to the class during the balance of that class or activity period or up to the following two days, or until the principal or his or her designee and the teacher have conferred.

(3) In order to preserve a beneficial learning environment for all students and to maintain good order and discipline in each classroom, every school district board of directors shall provide that written procedures are developed for administering discipline at each school within the district. Such procedures shall be developed with the participation of parents and the community, and shall provide that the teacher, principal or designee, and other authorities designated by the board of directors, make every reasonable attempt to involve the parent or guardian and the student in the resolution of student discipline problems. Such procedures shall provide that students may be excluded from their individual classes or activities for periods of time in excess of that provided in subsection (2) of this section if such students have repeatedly disrupted the learning of other students. The procedures must be consistent with the rules of the superintendent of public instruction and must provide for early involvement of parents in attempts to improve the student's behavior.

(4) The procedures shall assure, pursuant to RCW 28A.400.110, that all staff work cooperatively toward consistent enforcement of proper student behavior throughout each school as well as within each classroom.

(5)(a) A principal shall consider imposing long-term suspension or expulsion as a sanction when deciding the appropriate disciplinary action for a student who, after July 27, 1997:

((a)) (i) Engages in two or more violations within a three-year period of RCW 9A.46.120, 28A.320.135, 28A.600.455, 28A.600.460, 28A.635.020, 28A.600.020, 28A.635.060, 9.41.280, or 28A.320.140; or

((b)) (ii) Engages in one or more of the offenses listed in RCW 13.04.155.

(b) The principal shall communicate the disciplinary action taken by the principal to the school personnel who referred the student to the principal for disciplinary action.

(6) Any corrective action involving a suspension or expulsion from school for more than ten days must have an end date of not more than one calendar year from the time of corrective action. Districts shall make reasonable efforts to assist students and parents in returning to an educational setting prior to and no later than the end date of the corrective action. Where warranted based on public health or safety, a school may petition the superintendent of the school district, pursuant to policies and procedures adopted by the office of the superintendent of public instruction, for authorization to exceed the one calendar year limitation provided in this subsection. The superintendent of public instruction shall adopt rules outlining the limited circumstances in which a school may petition to exceed the one calendar year limitation, including safeguards to ensure that the school district has made every effort to plan for the student's return to school. School districts shall report to the office of the superintendent of public instruction the number of petitions made to the school board and the number of petitions granted on an annual basis.

(7) Nothing in this section prevents a public school district, educational service district, the Washington state center for childhood deafness and hearing loss, or the state school for the blind if it has suspended or expelled a student from the student's regular school setting from providing educational services to the student in an alternative setting or modifying the suspension or expulsion on a case-by-case basis.

Sec. 304. RCW 28A.600.410 and 1992 c 155 s 1 are each amended to read as follows:

The state of Washington excludes tens of thousands of students from school each year due to out-of-school suspensions and expulsions. Out-of-school suspensions and expulsions contribute to poor

academic achievement, lower graduation rates, and higher dropout rates. It is the intent of the legislature to minimize the use of out-of-school suspension and expulsion and its impact on student achievement by reducing the number of days that students are excluded from school due to disciplinary action. Student behavior should not result in the loss of educational opportunity in the public school system.

School districts are encouraged to find alternatives to suspension including reducing the length of a student's suspension conditioned by the commencement of counseling or other treatment services. Consistent with current law, the conditioning of a student's suspension does not obligate the school district to pay for the counseling or other treatment services except for those stipulated and agreed to by the district at the inception of the suspension.

Sec. 305. RCW 28A.600.460 and 1997 c 266 s 9 are each amended to read as follows:

(1) School district boards of directors shall adopt policies that restore discipline to the classroom. Such policies must provide for at least the following: Allowing each teacher to take disciplinary action to correct a student who disrupts normal classroom activities, abuses or insults a teacher as prohibited by RCW 28A.635.010, willfully disobeys a teacher, uses abusive or foul language directed at a school district employee, school volunteer, or another student, violates school rules, or who interferes with an orderly education process. Disciplinary action may include but is not limited to: Oral or written reprimands; written notification to parents of disruptive behavior, a copy of which must be provided to the principal.

(2) A student committing an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW when the activity is directed toward the teacher, shall not be assigned to that teacher's classroom for the duration of the student's attendance at that school or any other school where the teacher is assigned.

(3) A student who commits an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW, when directed toward another student, may be removed from the classroom of the victim for the duration of the student's attendance at that school or any other school where the victim is enrolled. A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(4) Nothing in this section is intended to limit the authority of a school under existing law and rules to expel or suspend a student for misconduct or criminal behavior.

(5) All school districts must collect data on disciplinary actions taken in each school and must record these actions using the statewide student data system, based on the data collection standards established by the office of the superintendent of public instruction and the K-12 data governance group. The information shall be made available to the public (~~upon request. This collection of~~), but public release of the data shall not include personally identifiable information including, but not limited to, a student's social security number, name, or address.

Sec. 306. RCW 28A.300.046 and 2011 c 288 s 10 are each amended to read as follows:

(1)(a) The superintendent of public instruction shall adopt rules establishing a standard definition of student absence from school. In adopting the definition, the superintendent shall review current practices in Washington school districts, definitions used in other states, and any national standards or definitions used by the national center for education statistics or other national groups. The superintendent shall also consult with the building bridges work group established under RCW 28A.175.075.

(b) Using the definition of student absence adopted under this section, the superintendent shall establish an indicator for measuring student attendance in high schools for purposes of the PASS program under RCW 28A.175.130.

(2)(a) The K-12 data governance group under RCW 28A.300.507 shall establish the parameters and an implementation schedule for statewide collection through the comprehensive education and data research system of: (i) Student attendance data using the definitions of student absence adopted under this section; and (ii) student discipline data with a focus on suspensions and expulsions from school.

(b) (~~At a minimum,~~) Student suspension and expulsion data collected for the purposes of this subsection (2) must be:

(i) Made publicly available and easily accessible on the superintendent of public instruction's web site; and

(ii) Disaggregated and cross-tabulated as established under RCW 28A.300.042.

(c) School districts must collect and submit student attendance data and student discipline data for high school students through the comprehensive education and data research system for purposes of the PASS program under RCW 28A.175.130 beginning in the 2012-13 school year.

Sec. 307. RCW 28A.300.042 and 2009 c 468 s 4 are each amended to read as follows:

(1) All student data-related reports required of the superintendent of public instruction in this title must be disaggregated by at least the following subgroups of students: White, Black, Hispanic, American Indian/Alaskan Native, Asian, Pacific Islander/Hawaiian Native, low income, transitional bilingual, migrant, special education, and students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794).

(2) All student data-related reports required of the superintendent of public instruction regarding student suspensions and expulsions as required in RCW 28A.300.046 are subject to disaggregation by subgroups including:

(a) Gender;

(b) Foster care;

(c) Homeless, if known;

(d) School district;

(e) School;

(f) Grade level;

(g) Behavior infraction code, including:

(i) Bullying;

(ii) Tobacco;

(iii) Alcohol;

(iv) Illicit drug;

(v) Fighting without major injury;

(vi) Violence without major injury;

(vii) Violence with major injury;

(viii) Possession of a weapon; and

(ix) Other behavior resulting from a short-term or long-term suspension, expulsion, or interim alternative education setting intervention;

(h) Intervention applied, including:

(i) Short-term suspension;

(ii) Long-term suspension;

(iii) Emergency expulsion;

(iv) Expulsion;

(v) Interim alternative education settings;

(vi) No intervention applied; and

(vii) Other intervention applied that is not described in this subsection (2)(h);

(i) Number of days a student is suspended or expelled, to be counted in half or full days; and

(j) Any other categories added at a future date by the data governance group.

(3) All student data-related reports required of the superintendent of public instruction regarding student suspensions and expulsions as required in RCW 28A.300.046 are subject to cross-tabulation at a minimum by the following:

(a) School and district;

(b) Race, low income, special education, transitional bilingual, migrant, foster care, homeless, students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794), and categories to be added in the future;

(c) Behavior infraction code; and

(d) Intervention applied.

NEW SECTION. Sec. 308. A new section is added to chapter 28A.600 RCW to read as follows:

(1) School districts should make efforts to have suspended or expelled students return to an educational setting as soon as possible. School districts should convene a meeting with the student and the student's parents or guardians within twenty days of the student's long-term suspension or expulsion, but no later than five days before the student's enrollment, to discuss a plan to reengage the student in a school program.

(2) In developing a reengagement plan, school districts should consider shortening the length of time that the student is suspended or expelled, other forms of corrective action, and supportive interventions that aid in the student's academic success and keep the student engaged and on track to graduate. School districts must create a reengagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion. The plan should aid the student in taking the necessary steps to remedy the situation that led to the student's suspension or expulsion.

(3) Any reengagement meetings conducted by the school district involving the suspended or expelled student and his or her parents or guardians are not intended to replace a petition for readmission.

NEW SECTION. Sec. 309. Nothing in chapter . . . , Laws of 2013 2nd sp. sess. (this act) prevents a public school district, law enforcement agencies, or law enforcement personnel from enforcing laws protecting health and human safety.

PART IV

EDUCATOR SUPPORT PROGRAM

NEW SECTION. Sec. 401. A new section is added to chapter 28A.415 RCW to read as follows:

(1) The educator support program is established to provide professional development and mentor support for beginning educators and educators on probation under RCW 28A.405.100, to be composed of the beginning educator support team for beginning educators and continuous improvement coaching for educators on probation, as provided in this section.

(2)(a) Subject to funds appropriated for this specific purpose, the office of the superintendent of public instruction shall allocate funds for the beginning educator support team on a competitive basis to individual school districts or consortia of districts. School districts are encouraged to include educational service districts in creating regional consortia. In allocating funds, the office of the superintendent of public instruction shall give priority to school districts with low-performing schools identified under RCW 28A.657.020 as being challenged schools in need of improvement. A portion of the appropriated funds may be used for program coordination and provision of statewide or regional professional development through the office of the superintendent of public instruction.

(b) A beginning educator support team must include the following components:

(i) A paid orientation or individualized assistance before the start of the school year for beginning educators;

(ii) Assignment of a trained and qualified mentor for the first three years for beginning educators, with intensive support in the first year and decreasing support over the following years depending on the needs of the beginning educator;

(iii) Professional development for beginning educators that is designed to meet their unique needs for supplemental training and skill development;

(iv) Professional development for mentors;

(v) Release time for mentors and their designated educators to work together, as well as time for educators to observe accomplished peers; and

(vi) A program evaluation using a standard evaluation tool provided from the office of the superintendent of public instruction that measures increased knowledge, skills, and positive impact on student learning for program participants.

(3) Subject to funds separately appropriated for this specific purpose, the beginning educator support team components under subsection (2) of this section may be provided for continuous improvement coaching to support educators on probation under RCW 28A.405.100.

Sec. 402. RCW 28A.415.010 and 2006 c 263 s 807 are each amended to read as follows:

It shall be the responsibility of each educational service district board to establish a center for the improvement of teaching. The center shall administer, coordinate, and act as fiscal agent for such programs related to the recruitment and training of certificated and classified K-12 education personnel as may be delegated to the center by the superintendent of public instruction under RCW 28A.310.470. To assist in these activities, each educational service district board shall establish an improvement of teaching coordinating council to include, at a minimum, representatives as specified in RCW 28A.415.040. An existing in-service training task force, established pursuant to RCW 28A.415.040, may serve as the improvement of teaching coordinating council. The educational service district board shall ensure coordination of programs established pursuant to RCW 28A.415.030, 28A.410.060, and (~~28A.415.250~~) section 401 of this act.

The educational service district board may arrange each year for the holding of one or more teachers' institutes and/or workshops for professional staff preparation and in-service training in such manner and at such time as the board believes will be of benefit to the teachers and other professional staff of school districts within the educational service district and shall comply with rules of the professional educator standards board pursuant to RCW 28A.410.060 or the superintendent of public instruction (~~pursuant to RCW 28A.415.250~~). The board may provide such additional means of teacher and other professional staff preparation and in-service training as it may deem necessary or appropriate and there shall be a proper charge against the educational service district general expense fund when approved by the educational service district board.

Educational service district boards of contiguous educational service districts, by mutual arrangements, may hold joint institutes and/or workshops, the expenses to be shared in proportion to the numbers of certificated personnel as shown by the last annual reports of the educational service districts holding such joint institutes or workshops.

In local school districts employing more than one hundred teachers and other professional staff, the school district superintendent may hold a teachers' institute of one or more days in such district, said institute when so held by the school district superintendent to be in all respects governed by the provisions of this title and rules relating to teachers' institutes held by educational service district superintendents.

PART V**ALTERNATIVE LEARNING EXPERIENCES**

Sec. 501. 2011 1st sp.s. c 34 s 1 (uncodified) is amended to read as follows:

(1) Under Article IX of the Washington state Constitution, all children are entitled to an opportunity to receive a basic education. Although the state must assure that students in public schools have opportunities to participate in the instructional program of basic education, there is no obligation for either the state or school districts to provide that instruction using a particular delivery method or through a particular program.

(2) The legislature finds ample evidence of the need to examine and reconsider policies under which alternative learning that occurs outside the classroom using an individual student learning plan may be considered equivalent to full-time attendance in school, including for funding purposes. Previous legislative studies have raised questions about financial practices and accountability in alternative learning experience ~~((programs))~~ courses. Since 2005, there has been significant enrollment growth in alternative learning experience online ~~((programs))~~ courses, with evidence of unexpected financial impact when large numbers of nonresident students enroll in ~~((programs))~~ courses. Based on this evidence, there is a rational basis on which to conclude that there are different costs associated with providing ~~((a program))~~ courses not primarily based on full-time, daily contact between teachers and students and not primarily occurring on-site in a classroom.

(3) For these reasons, the legislature intends to allow for continuing review and revision of the way in which state funding allocations are used to support alternative learning experience ~~((programs))~~ courses.

Sec. 502. RCW 28A.150.325 and 2011 1st sp.s. c 34 s 2 are each amended to read as follows:

(1) ~~((For purposes of this chapter,))~~ The definitions in this subsection apply throughout this chapter unless the context clearly requires otherwise.

~~((a))~~ "Alternative learning experience ~~((program))~~ course" means a course ~~((or set of courses)), or for grades kindergarten through eight grade-level coursework, that is a delivery method for the program of basic education and is:~~

~~((a))~~ (i) Provided in whole or in part independently from a regular classroom setting or schedule, but may include some components of direct instruction;

~~((b))~~ (ii) Supervised, monitored, assessed, evaluated, and documented by a certificated teacher employed by the school district or under contract as permitted by applicable rules; and

~~((c))~~ (iii) Provided in accordance with a written student learning plan that is implemented pursuant to the school district's policy and rules adopted by the superintendent of public instruction for alternative learning experiences.

~~((b))~~ "In-person" means face-to-face instructional contact in a physical classroom environment.

~~((c))~~ "Instructional contact time" means instructional time with a certificated teacher. Instructional contact time must be for the purposes of actual instruction, review of assignments, testing, evaluation of student progress, or other learning activities or requirements identified in the student's written student learning plan. Instructional contact time must be related to an alternative learning experience course identified in the student's written student learning plan. Instructional contact time may occur in a group setting between the teacher and multiple students and may be delivered either in-person or remotely using technology.

~~((d))~~ "Online course" means an alternative learning experience

course that has the same meaning as provided in RCW 28A.250.010.

~~((e))~~ "Remote course" means an alternative learning experience course that is not an online course where the student has in-person instructional contact time for less than twenty percent of the total weekly time for the course. No minimum in-person instructional contact time is required.

~~((f))~~ "Site-based course" means an alternative learning experience course where the student has in-person instructional contact time for at least twenty percent of the total weekly time for the course.

~~((g))~~ "Total weekly time" means the estimated average hours per school week the student will engage in learning activities to meet the requirements of the written student learning plan.

~~((The broad categories of alternative learning experience programs include, but are not limited to:~~

~~((a))~~ Online programs as defined in RCW 28A.150.262;

~~((b))~~ Parent partnership programs that include significant participation and partnership by parents and families in the design and implementation of a student's learning experience; and

~~((c))~~ Contract-based learning programs)) School districts may claim state funding under section 503 of this act, to the extent otherwise allowed by state law including the provisions of RCW 28A.250.060, for students enrolled in remote, site-based, or online alternative learning experience courses. High school courses must meet district or state graduation requirements and be offered for high school credit.

(3) School districts that offer alternative learning experience ~~((programs))~~ courses may not provide any compensation, reimbursement, gift, reward, or gratuity to any parents, guardians, or students for participation in the courses. School district employees are prohibited from receiving any compensation or payment as an incentive to increase student enrollment of out-of-district students in ~~((an))~~ alternative learning experience ~~((program))~~ courses. This prohibition includes, but is not limited to, providing funds to parents, guardians, or students for the purchase of educational materials, supplies, experiences, services, or technological equipment. A district may purchase educational materials, equipment, or other nonconsumable supplies for students' use in alternative learning experience ~~((programs))~~ courses if the purchase is consistent with the district's approved curriculum, conforms to applicable laws and rules, and is made in the same manner as such purchases are made for students in the district's regular instructional program. Items so purchased remain the property of the school district upon program completion. School districts may not purchase or contract for instructional or cocurricular experiences and services that are included in an alternative learning experience written student learning plan, including but not limited to lessons, trips, and other activities, unless substantially similar experiences and services are available to students enrolled in the district's regular instructional program. School districts that purchase or contract for such experiences and services for students enrolled in an alternative learning experience ~~((program))~~ course must submit an annual report to the office of the superintendent of public instruction detailing the costs and purposes of the expenditures. These requirements extend to contracted providers of alternative learning experience ~~((programs))~~ courses, and each district shall be responsible for monitoring the compliance of its providers with these requirements. However, nothing in this ~~((section))~~ subsection shall prohibit school districts from contracting with school district employees to provide services or experiences to students, or from contracting with online providers approved by the office of the superintendent of public instruction pursuant to chapter 28A.250 RCW.

~~((4))~~ (Part-time enrollment in alternative learning experiences is subject to the provisions of RCW 28A.150.350.

~~((5))~~ The superintendent of public instruction shall adopt rules defining minimum requirements and accountability for alternative learning experience programs)) Each school district offering or

contracting to offer alternative learning experience courses must:

(a) Report annually to the superintendent of public instruction regarding the course types and offerings, and number of students participating in each;

(b) Document the district of residence for each student enrolled in an alternative learning experience course; and

(c) Beginning in the 2013-14 school year and continuing through the 2016-17 school year, pay costs associated with a biennial measure of student outcomes and financial audit of the district's alternative learning experience courses by the office of the state auditor.

(5) A school district offering or contracting to offer an alternative learning experience course to a nonresident student must inform the resident school district if the student drops out of the course or is otherwise no longer enrolled.

(6) School districts must assess the educational progress of enrolled students at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the school district. Part-time students must also be assessed at least annually. However, part-time students who are either receiving home-based instruction under chapter 28A.200 RCW or who are enrolled in an approved private school under chapter 28A.195 RCW are not required to participate in the assessments required under chapter 28A.655 RCW. The rules must address how students who reside outside the geographic service area of the school district are to be assessed.

(7) Beginning with the 2013-14 school year, school districts must designate alternative learning experience courses as such when reporting course information to the office of the superintendent of public instruction under RCW 28A.300.500.

(8)(a) The superintendent of public instruction shall adopt rules necessary to implement this section.

(b) Rules adopted for weekly direct personal contact requirements and monthly progress evaluation must be flexible and reflect the needs of the student and the student's individual learning plan rather than specifying an amount of time. In addition, the rules must reduce documentation requirements, particularly for students making satisfactory progress, based on the unique aspects of the alternative learning experience course types defined in this section and taking into consideration the technical and system capabilities associated with the different course types.

(c) The rules must establish procedures that address how the counting of students must be coordinated by resident and nonresident districts for state funding so that no student is counted for more than one full-time equivalent in the aggregate.

NEW SECTION. Sec. 503. The superintendent of public instruction shall separately calculate and allocate moneys appropriated under RCW 28A.150.260 to school districts for each full-time equivalent student enrolled in an alternative learning experience course. The calculation shall be based on the estimated statewide annual average allocation per full-time equivalent student in grades nine through twelve in general education, excluding small high school enhancements, and including applicable rules and provisions of the omnibus appropriations act.

Sec. 504. RCW 28A.250.010 and 2011 1st sp.s. c 34 s 5 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(b) "Multidistrict online provider" does not include a school district online learning program in which fewer than ten percent of the students enrolled in the program are from other districts under the interdistrict student transfer provisions of RCW 28A.225.225.

"Multidistrict online provider" also does not include regional online learning programs that are jointly developed and implemented by two or more school districts or an educational service district through an interdistrict cooperative program agreement that addresses, at minimum, how the districts share student full-time equivalency for state basic education funding purposes and how categorical education programs, including special education, are provided to eligible students.

(2)(a) "Online course" means a course or grade-level coursework where:

(i) More than half of the course content is delivered electronically using the internet or other computer-based methods; ~~(and)~~

(ii) More than half of the teaching is conducted from a remote location through an online course learning management system or other online or electronic tools;

(iii) A certificated teacher has the primary responsibility for the student's instructional interaction. Instructional interaction between the teacher and the student includes, but is not limited to, direct instruction, review of assignments, assessment, testing, progress monitoring, and educational facilitation; and

(iv) Students have access to the teacher synchronously, asynchronously, or both.

(b) "Online school program" means a school program that ~~(:~~
~~(i) Offers courses or grade-level coursework that is delivered primarily electronically using the internet or other computer-based methods;~~

~~(ii) Offers courses or grade-level coursework that is taught by a teacher primarily from a remote location using online or other electronic tools. Students enrolled in an online program may have access to the teacher synchronously, asynchronously, or both;~~

~~(iii) Offers a sequential set of online courses or grade-level coursework that may be taken in a single school term or throughout the school year in a manner that could provide a full-time basic education program if so desired by the student. Students may enroll in the program as part-time or full-time students ~~(:~~ and~~

~~(iv) Has an online component of the program with online lessons and tools for student and data management).~~

(c) An online course or online school program may be delivered to students at school as part of the regularly scheduled school day. An online course or online school program also may be delivered to students, in whole or in part, independently from a regular classroom schedule, but such courses or programs must comply with RCW ~~((28A.150.262))~~ 28A.150.325 (as recodified by this act) and associated rules adopted by the superintendent of public instruction to qualify for state basic education funding.

(3) "Online provider" means any provider of an online course or program, including multidistrict online providers, all school district online learning programs, and all regional online learning programs.

Sec. 505. RCW 28A.250.020 and 2011 1st sp.s. c 34 s 6 are each amended to read as follows:

(1) The superintendent of public instruction, in collaboration with the state board of education, shall develop and implement approval criteria and a process for approving online providers; a process for monitoring and if necessary rescinding the approval of courses or programs offered by an online provider; and an appeals process. The criteria and processes for multidistrict online providers shall be adopted by rule by December 1, 2009.

(2) When developing the approval criteria, the superintendent of public instruction shall require that providers offering online courses

or programs have accreditation, or are candidates for accreditation, through the Northwest accreditation commission or another national, regional, or state accreditation program listed by the office of the superintendent of public instruction (~~(after consultation with the Washington coalition for online learning)~~). In addition to other criteria, the approval criteria shall include the degree of alignment with state academic standards and require that all teachers be certificated in accordance with Washington state law. When reviewing online providers that offer high school courses, the superintendent of public instruction shall assure that the courses offered by the provider are eligible for high school credit. However, final decisions regarding whether credit meets the school district's graduation requirements shall remain the responsibility of the school districts.

(3) Initial approval of online providers by the superintendent of public instruction shall be for four years. The superintendent of public instruction shall develop a process for the renewal of approvals and for rescinding approvals based on noncompliance with approval requirements. Any multidistrict online provider that was approved by the digital learning commons or accredited by the Northwest association of accredited schools before July 26, 2009, and that meets the teacher certification requirements of subsection (2) of this section, is exempt from the initial approval process under this section until August 31, 2012, but must comply with the process for renewal of approvals and must comply with approval requirements.

(4) The superintendent of public instruction shall make the first round of decisions regarding approval of multidistrict online providers by April 1, 2010. The first round of decisions regarding approval of online providers that are not multidistrict online providers shall be made by April 1, 2013. Thereafter, the superintendent of public instruction shall make annual approval decisions no later than November 1st of each year.

The committee shall include a representative of each of the following groups: Private and public online providers, parents of online students, accreditation organizations, educational service districts, school principals, teachers, school administrators, school board members, institutions of higher education, and other individuals as determined by the superintendent. Members of the advisory committee shall be selected by the superintendent based on nominations from statewide organizations, shall serve three-year terms, and may be reappointed. The superintendent shall select the chair of the committee.

Sec. 506. RCW 28A.250.050 and 2011 1st sp.s. c 34 s 11 are each amended to read as follows:

(1) By August 31, 2010, all school district boards of directors shall develop policies and procedures regarding student access to online courses and online learning programs. The policies and procedures shall include but not be limited to: Student eligibility criteria; the types of online courses available to students through the school district; the methods districts will use to support student success, which may include a local advisor; when the school district will and will not pay course fees and other costs; the granting of high school credit; and a process for students and parents or guardians to formally acknowledge any course taken for which no credit is given. The policies and procedures shall take effect beginning with the 2010-11 school year. School districts shall submit their policies to the superintendent of public instruction by September 15, 2010. By December 1, 2010, the superintendent of public instruction shall summarize the school district policies regarding student access to online courses and submit a report to the legislature.

(2) School districts must award credit and grades for online high school courses successfully completed by a student that meet the

school district's graduation requirements and are provided by an approved online provider.

(3) School districts shall provide students with information regarding online courses that are available through the school district. The information shall include the types of information described in subsection (1) of this section.

(4) When developing local or regional online learning programs, school districts shall incorporate into the program design the approval criteria developed by the superintendent of public instruction under RCW 28A.250.020.

Sec. 507. RCW 28A.250.060 and 2011 1st sp.s. c 34 s 8 are each amended to read as follows:

(1) Beginning with the 2011-12 school year, school districts may claim state funding under ~~((RCW 28A.150.260))~~ section 503 of this act, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are:

(a) Offered by a multidistrict online provider approved under RCW 28A.250.020 by the superintendent of public instruction;

(b) Offered by a school district online learning program if the program serves students who reside within the geographic boundaries of the school district, including school district programs in which fewer than ten percent of the program's students reside outside the school district's geographic boundaries; or

(c) Offered by a regional online learning program where courses are jointly developed and offered by two or more school districts or an educational service district through an interdistrict cooperative program agreement.

(2) Beginning with the 2013-14 school year, school districts may claim state funding under ~~((RCW 28A.150.260))~~ section 503 of this act, to the extent otherwise allowed by state law, for students enrolled in online courses or programs only if the online courses or programs are offered by an online provider approved under RCW 28A.250.020 by the superintendent of public instruction.

(3) Criteria shall be established by the superintendent of public instruction to allow online courses that have not been approved by the superintendent of public instruction to be eligible for state funding if the course is in a subject matter in which no courses have been approved and, if it is a high school course, the course meets Washington high school graduation requirements.

Sec. 508. RCW 28A.250.070 and 2009 c 542 s 8 are each amended to read as follows:

Nothing in this chapter is intended to diminish the rights of students to attend a nonresident school district in accordance with RCW 28A.225.220 through 28A.225.230 for the purposes of enrolling in online courses or online school programs. The office of online learning under RCW 28A.250.030 shall develop a standard form, which must be used by all school districts, for releasing a student to a nonresident school district for the purposes of enrolling in an online course or online school program.

NEW SECTION. Sec. 509. A new section is added to chapter 28A.250 RCW to read as follows:

An online school program may request a waiver from the office of the superintendent of public instruction to administer one or more sections of the statewide student assessment for grades three through eight for some or all students enrolled in the program on alternate days or on an alternate schedule, as long as the administration is within the testing period established by the office. The office may deny a request for a waiver if the online school program's proposal does not maintain adequate test security or would reduce the reliability of the assessment results by providing an inequitable advantage for some students.

Sec. 510. RCW 28A.225.220 and 1995 c 335 s 602 and 1995 c 52 s 2 are each reenacted and amended to read as follows:

(1) Any board of directors may make agreements with adults choosing to attend school, and may charge the adults reasonable tuition.

(2) A district is strongly encouraged to honor the request of a parent or guardian for his or her child to attend a school in another district or the request of a parent or guardian for his or her child to transfer as a student receiving home-based instruction.

(3) A district shall release a student to a nonresident district that agrees to accept the student if:

(a) A financial, educational, safety, or health condition affecting the student would likely be reasonably improved as a result of the transfer; or

(b) Attendance at the school in the nonresident district is more accessible to the parent's place of work or to the location of child care; or

(c) There is a special hardship or detrimental condition; or

(d) The purpose of the transfer is for the student to enroll in an online course or online school program offered by an online provider approved under RCW 28A.250.020.

(4) A district may deny the request of a resident student to transfer to a nonresident district if the release of the student would adversely affect the district's existing desegregation plan.

(5) For the purpose of helping a district assess the quality of its education program, a resident school district may request an optional exit interview or questionnaire with the parents or guardians of a child transferring to another district. No parent or guardian may be forced to attend such an interview or complete the questionnaire.

(6) Beginning with the 1993-94 school year, school districts may not charge transfer fees or tuition for nonresident students enrolled under subsection (3) of this section and RCW 28A.225.225. Reimbursement of a high school district for cost of educating high school pupils of a nonhigh school district shall not be deemed a transfer fee as affecting the apportionment of current state school funds.

Sec. 511. RCW 28A.225.225 and 2013 c 192 s 2 are each amended to read as follows:

(1) Except for students who reside out-of-state and students under RCW 28A.225.217, a district shall accept applications from nonresident students who are the children of full-time certificated and classified school employees, and those children shall be permitted to enroll:

(a) At the school to which the employee is assigned;

(b) At a school forming the district's K through 12 continuum which includes the school to which the employee is assigned; or

(c) At a school in the district that provides early intervention services pursuant to RCW 28A.155.065 or preschool services pursuant to RCW 28A.155.070, if the student is eligible for such services.

(2) A district may reject applications under this section if:

(a) The student's disciplinary records indicate a history of convictions for offenses or crimes, violent or disruptive behavior, or gang membership;

(b) The student has been expelled or suspended from a public school for more than ten consecutive days. Any policy allowing for readmission of expelled or suspended students under this subsection (2)(b) must apply uniformly to both resident and nonresident applicants; ~~((c))~~

(c) Enrollment of a child under this section would displace a child who is a resident of the district, except that if a child is admitted under subsection (1) of this section, that child shall be permitted to remain enrolled at that school, or in that district's kindergarten through twelfth grade continuum, until he or she has completed his or her schooling; or

(d) The student has repeatedly failed to comply with requirements for participation in an online school program, such as participating in

weekly direct contact with the teacher or monthly progress evaluations.

(3) A nonhigh district that is participating in an innovation academy cooperative may not accept an application from a high school student that conflicts with RCW 28A.340.080.

(4) Except as provided in subsection (1) of this section, all districts accepting applications from nonresident students or from students receiving home-based instruction for admission to the district's schools shall consider equally all applications received. Each school district shall adopt a policy establishing rational, fair, and equitable standards for acceptance and rejection of applications by June 30, 1990. The policy may include rejection of a nonresident student if:

(a) Acceptance of a nonresident student would result in the district experiencing a financial hardship;

(b) The student's disciplinary records indicate a history of convictions for offenses or crimes, violent or disruptive behavior, or gang membership;

(c) Accepting of the nonresident student would conflict with RCW 28A.340.080; or

(d) The student has been expelled or suspended from a public school for more than ten consecutive days. Any policy allowing for readmission of expelled or suspended students under this subsection (4)(d) must apply uniformly to both resident and nonresident applicants.

For purposes of subsections (2)(a) and (4)(b) of this section, "gang" means a group which: (i) Consists of three or more persons; (ii) has identifiable leadership; and (iii) on an ongoing basis, regularly conspires and acts in concert mainly for criminal purposes.

(5) The district shall provide to applicants written notification of the approval or denial of the application in a timely manner. If the application is rejected, the notification shall include the reason or reasons for denial and the right to appeal under RCW 28A.225.230(3).

Sec. 512. RCW 28A.150.100 and 2011 1st sp.s. c 34 s 10 are each amended to read as follows:

(1) For the purposes of this section and RCW 28A.150.410 and 28A.400.200, "basic education certificated instructional staff" means all full-time equivalent classroom teachers, teacher librarians, guidance counselors, certificated student health services staff, and other certificated instructional staff in the following programs as defined for statewide school district accounting purposes: Basic education, secondary vocational education, general instructional support, and general supportive services.

(2) Each school district shall maintain a ratio of at least forty- six basic education certificated instructional staff to one thousand annual average full-time equivalent students. This requirement does not apply to that portion of a district's annual average full-time equivalent enrollment that is enrolled in alternative learning experience ~~((programs))~~ courses as defined in RCW 28A.150.325 (as recodified by this act).

Sec. 513. RCW 28A.525.162 and 2012 c 244 s 2 are each amended to read as follows:

(1) Funds appropriated to the superintendent of public instruction from the common school construction fund shall be allotted by the superintendent of public instruction in accordance with this chapter.

(2) No allotment shall be made to a school district until such district has provided local funds equal to or greater than the difference between the total approved project cost and the amount of state funding assistance to the district for financing the project computed pursuant to RCW 28A.525.166, with the following exceptions:

(a) The superintendent of public instruction may waive the local requirement for state funding assistance for districts which have provided funds for school building construction purposes through the authorization of bonds or through the authorization of excess tax

levies or both in an amount equivalent to two and one-half percent of the value of its taxable property, as defined in RCW 39.36.015.

(b) No such local funds shall be required as a condition to the allotment of funds from the state for the purpose of making major or minor structural changes to existing school facilities in order to bring such facilities into compliance with the barrier free access requirements of section 504 of the federal rehabilitation act of 1973 (29 U.S.C. Sec. 706) and rules implementing the act.

(3) For the purpose of computing the state funding assistance percentage under RCW 28A.525.166 when a school district is granted authority to enter into contracts, adjusted valuation per pupil shall be calculated using headcount student enrollments from the most recent October enrollment reports submitted by districts to the superintendent of public instruction, adjusted as follows:

(a) In the case of projects for which local bonds were approved after May 11, 1989:

(i) For districts which have been designated as serving high school districts under RCW 28A.540.110, students residing in the nonhigh district so designating shall be excluded from the enrollment count if the student is enrolled in any grade level not offered by the nonhigh district;

(ii) The enrollment of nonhigh school districts shall be increased by the number of students residing within the district who are enrolled in a serving high school district so designated by the nonhigh school district under RCW 28A.540.110, including only students who are enrolled in grade levels not offered by the nonhigh school district; and

(iii) The number of preschool students with disabilities included in the enrollment count shall be multiplied by one-half;

(b) In the case of construction or modernization of high school facilities in districts serving students from nonhigh school districts, the adjusted valuation per pupil shall be computed using the combined adjusted valuations and enrollments of each district, each weighted by the percentage of the district's resident high school students served by the high school district;

(c) The number of kindergarten students included in the enrollment count shall be counted as one headcount student; and

(d) The number of students residing outside the school district who are enrolled in alternative learning experience (~~(programs)~~) courses under RCW 28A.150.325 (as recodified by this act) shall be excluded from the total.

(4) In lieu of the exclusion in subsection (3)(d) of this section, a district may submit an alternative calculation for excluding students enrolled in alternative learning experience (~~(programs)~~) courses. The alternative calculation must show the student headcount use of district classroom facilities on a regular basis for a regular duration by out-of-district alternative learning experience (~~(program)~~) students subtracted by the headcount of in-district alternative learning experience (~~(program)~~) students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The superintendent of public instruction, considering policy recommendations from the school facilities citizen advisory panel, shall prescribe such rules as are necessary to equate insofar as possible the efforts made by school districts to provide capital funds by the means aforesaid.

(6) For the purposes of this section, "preschool students with disabilities" means children of preschool age who have developmental disabilities who are entitled to services under RCW 28A.155.010 through 28A.155.100 and are not included in the kindergarten enrollment count of the district.

Sec. 514. RCW 28A.525.166 and 2012 c 244 s 3 are each amended to read as follows:

Allocations to school districts of state funds provided by RCW 28A.525.162 through 28A.525.180 shall be made by the superintendent of public instruction and the amount of state funding assistance to a school district in financing a school plant project shall be determined in the following manner:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the superintendent.

(2) The state funding assistance percentage for a school district shall be computed by the following formula:

The ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil shall be subtracted from three, and then the result of the foregoing shall be divided by three plus (the ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil).

		District adjusted		Total state	
		3-valuation	÷	adjusted valuation	
Computed		per pupil		per pupil	State
State	=	_____			= % Funding
Ratio		District adjusted		Total state	Assistance
		3+valuation	÷	adjusted valuation	
		per pupil		per pupil	

PROVIDED, That in the event the state funding assistance percentage to any school district based on the above formula is less than twenty percent and such school district is otherwise eligible for state funding assistance under RCW 28A.525.162 through 28A.525.180, the superintendent may establish for such district a state funding assistance percentage not in excess of twenty percent of the approved cost of the project, if the superintendent finds that such additional assistance is necessary to provide minimum facilities for housing the pupils of the district.

(3) In addition to the computed state funding assistance percentage developed in subsection (2) of this section, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed state funding assistance percentage for each percent of growth, with a maximum of twenty percent.

(4) In computing the state funding assistance percentage in subsection (2) of this section and adjusting the percentage under subsection (3) of this section, students residing outside the school district who are enrolled in alternative learning experience (~~(programs)~~) courses under RCW 28A.150.325 (as recodified by this act) shall be excluded from the count of total pupils. In lieu of the exclusion in this subsection, a district may submit an alternative calculation for excluding students enrolled in alternative learning experience (~~(programs)~~) courses. The alternative calculation must show the student headcount use of district classroom facilities on a regular basis for a reasonable duration by out-of-district alternative learning experience (~~(program)~~) students subtracted by the headcount

of in- district alternative learning experience (~~program~~) students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The approved cost of the project determined in the manner prescribed in this section multiplied by the state funding assistance percentage derived as provided for in this section shall be the amount of state funding assistance to the district for the financing of the project: PROVIDED, That need therefor has been established to the satisfaction of the superintendent: PROVIDED, FURTHER, That additional state funding assistance may be allowed if it is found by the superintendent, considering policy recommendations from the school facilities citizen advisory panel that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from projects of statewide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state funding assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state funding assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d), and (e) of this subsection, creating a like emergency.

NEW SECTION. Sec. 515. (1) The office of financial management shall conduct a study, in consultation with, at minimum, one representative each from school districts that administer remote, site- based, and online alternative learning experience courses; the office of the superintendent of public instruction; the Washington state institute for public policy; individuals with expertise in based public school funding models; a Washington state non organization with expertise in alternative learning education; and the legislative evaluation and accountability program committee.

(2) The purpose of the study is to create a proposal for efficiently and sustainably funding alternative learning experience courses and to recommend steps to increase the focus on educational outcomes. The study may recommend the funding method established in section 503 of this act or another method of funding. The study shall review alternative learning funding models used in other states and consider the advantages and disadvantages of applying state policies, including funding policies, differentially depending on the type of alternative learning experience course. The study should also include but not be limited to, recommendations for establishing baseline data regarding alternative learning experience student proficiency and achievement in relation to students in a comparable demographic, identifying outcome targets and methods to measure progress toward targets, identifying methods to ensure ongoing evaluation of outcomes that account for the student demographics being served, and improving alternative learning experience accountability.

(3) The office of financial management shall report its findings from the study to the quality education council by November 1, 2013. The quality education council shall review the findings and make recommendations to the education and fiscal committees of the legislature by December 15, 2013.

NEW SECTION. Sec. 301. A new section is added to chapter 28A.600 RCW to read as follows:

(1) The office of the superintendent of public instruction shall convene a discipline task force to develop standard definitions for causes of student disciplinary actions taken at the discretion of the school district. The task force must also develop data collection standards for disciplinary actions that are discretionary and for disciplinary actions that result in the exclusion of a student from school. The data collection standards must include data about education services provided while a student is subject to a disciplinary action, the status of petitions for readmission to the school district when a student has been excluded from school, credit retrieval during a period of exclusion, and school dropout as a result of disciplinary action.

(2) The discipline task force shall include representatives from the K-12 data governance group, the educational opportunity gap oversight and accountability committee, the state ethnic commissions, the governor's office of Indian affairs, the office of the education

ombudsman, school districts, and other education and advocacy organizations.

(3) The office of the superintendent of public instruction and the K-12 data governance group shall revise the statewide student data system to incorporate the student discipline data collection standards recommended by the discipline task force, and begin collecting data based on the revised standards in the 2015-16 school year.

Sec. 302. RCW 28A.600.015 and 2006 c 263 s 701 are each amended to read as follows:

(1) The superintendent of public instruction shall adopt and distribute to all school districts lawful and reasonable rules prescribing the substantive and procedural due process guarantees of pupils in the common schools. Such rules shall authorize a school district to use informal due process procedures in connection with the short-term suspension of students to the extent constitutionally permissible: **PROVIDED**, That the superintendent of public instruction deems the interest of students to be adequately protected. When a student suspension or expulsion is appealed, the rules shall authorize a school district to impose the suspension or expulsion temporarily after an initial hearing for no more than ten consecutive school days or until the appeal is decided, whichever is earlier. Any days that the student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student suspension or expulsion and shall not limit or extend the term of the student suspension or expulsion. A suspension or expulsion of a student may not be for an indefinite period of time, and a school district may not suspend the provision of educational services to a student as a disciplinary measure.

(2) Short-term suspension procedures may be used for suspensions of students up to and including, ten consecutive school days.

(3) Emergency expulsions must end or be converted to another form of corrective action within ten school days from the date of the emergency removal from school. Notice and due process rights must be provided to students when an emergency expulsion is converted to another form of corrective action.

(4) A school district may not impose a disciplinary action that results in the suspension of educational services to a student. A student may be excluded from a particular classroom or instructional or activity area for the period of suspension, but the school district must provide an opportunity for the student to receive educational services in an alternative manner, which may include services provided through an alternative program, at an alternative school, or at an alternative location within the student's regular school.

Sec. 303. RCW 28A.600.020 and 2006 c 263 s 706 are each amended to read as follows:

(1) The rules adopted pursuant to RCW 28A.600.010 shall be interpreted to ensure that the optimum learning atmosphere of the classroom is maintained, and that the highest consideration is given to the judgment of qualified certificated educators regarding conditions necessary to maintain the optimum learning atmosphere.

(2) Any student who creates a disruption of the educational process in violation of the building disciplinary standards while under a teacher's immediate supervision may be excluded by the teacher from his or her individual classroom and instructional or activity area for all or any portion of the balance of the school day, or up to the following two days, or until the principal or designee and teacher have conferred, whichever occurs first. Except in emergency circumstances, the teacher first must attempt one or more alternative forms of corrective action. In no event without the consent of the teacher may an excluded student return to the class during the balance of that class or activity period or up to the following two days, or until the principal or his or her designee and the teacher have conferred.

(3) In order to preserve a beneficial learning environment for all students and to maintain good order and discipline in each classroom, every school district board of directors shall provide that written

procedures are developed for administering discipline at each school within the district. Such procedures shall be developed with the participation of ~~((parents))~~ families and the community, and shall provide that the teacher, principal or designee, and other authorities designated by the board of directors, make every reasonable attempt to involve the ~~((parent))~~ family or guardian and the student in the resolution of student discipline problems. Such procedures shall provide that students may be excluded from their individual classes or activities for periods of time in excess of that provided in subsection (2) of this section if such students have repeatedly disrupted the learning of other students. The procedures must be consistent with the rules of the superintendent of public instruction and must provide for early involvement of ~~((parents))~~ families in attempts to improve the student's behavior.

(4) The procedures shall assure, pursuant to RCW 28A.400.110, that all staff work cooperatively toward consistent enforcement of proper student behavior throughout each school as well as within each classroom.

(5)(a) A principal ~~((shall))~~ may consider imposing long-term suspension or expulsion as a sanction when deciding the appropriate disciplinary action for a student who, after July 27, 1997:

~~((a))~~ (i) Engages in two or more violations within a three-year period of RCW 9A.46.120, 28A.320.135, 28A.600.455, 28A.600.460, 28A.635.020, 28A.600.020, 28A.635.060, or 9.41.280 ~~((, or 28A.320.140))~~; or

~~((b))~~ (ii) Engages in one or more of the offenses listed in RCW 13.04.155.

(b) The principal shall communicate the disciplinary action taken by the principal to the school personnel who referred the student to the principal for disciplinary action.

(6) Any corrective action involving a suspension or expulsion from school for more than ten days must have an end date no later than the end of the academic term in which the student exhibited behavior leading to a corrective action. In consultation with families and guardians of students subject to corrective action, school districts shall make reasonable efforts to assist students in returning to an educational setting prior to and no later than the end date of the corrective action. Where warranted based on public health or safety, a school district may petition the local school board, pursuant to policies and procedures adopted by the superintendent of public instruction, for authorization to exceed the term limitation provided in this subsection. The superintendent of public instruction shall adopt rules outlining the limited circumstances in which a school district may petition the local school board to exceed the academic term limitation, including safeguards to ensure that the district has made every effort to plan for the student's return to school and that the student's extended expulsion from the district does not impair the student's constitutional right to education. In adopting rules and reviewing petitions to exceed the academic term limitation, the superintendent of public instruction must assure that students receive educational services while serving a suspension or expulsion. A petition to exceed the academic term limitation shall not be granted by the superintendent of public instruction if a school district does not provide educational services to a student serving a suspension or expulsion.

(7) As provided in RCW 28A.600.015, a school district may not impose disciplinary action that results in the suspension of educational services to a student.

Sec. 304. RCW 28A.600.410 and 1992 c 155 s 1 are each amended to read as follows:

It is the intent of the legislature to minimize the use of out-of-school suspension and expulsion and its impact on student achievement by reducing the number of days that students are excluded from school due to disciplinary action. Student discipline should not impair a student's constitutional right to education.

School districts are encouraged to find alternatives to suspension including reducing the length of a student's suspension conditioned by the commencement of counseling or other treatment services. Consistent with current law, the conditioning of a student's suspension does not obligate the school district to pay for the counseling or other treatment services except for those stipulated and agreed to by the district at the inception of the suspension.

Sec. 305. RCW 28A.600.460 and 1997 c 266 s 9 are each amended to read as follows:

(1) School district boards of directors shall adopt policies that restore discipline to the classroom. Such policies must provide for at least the following: Allowing each teacher to take disciplinary action to correct a student who disrupts normal classroom activities, abuses or insults a teacher as prohibited by RCW 28A.635.010, willfully disobeys a teacher, uses abusive or foul language directed at a school district employee, school volunteer, or another student, violates school rules, or who interferes with an orderly education process. Disciplinary action may include but is not limited to: Oral or written reprimands; written notification to parents of disruptive behavior, a copy of which must be provided to the principal.

(2) A student committing an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW when the activity is directed toward the teacher, shall not be assigned to that teacher's classroom for the duration of the student's attendance at that school or any other school where the teacher is assigned.

(3) A student who commits an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW, when directed toward another student, may be removed from the classroom of the victim for the duration of the student's attendance at that school or any other school where the victim is enrolled. A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(4) Nothing in this section is intended to limit the authority of a school under existing law and rules to expel or suspend a student for misconduct or criminal behavior. However, as provided in RCW 28A.600.015, a school district may not impose disciplinary action that results in the suspension of educational services to a student.

(5) All school districts must collect data on disciplinary actions taken in each school and must record such actions using the statewide student data system, based on the data collection standards established by the office of the superintendent of public instruction and the K-12 data governance group. The information shall be made available to the public upon request (~~(- This collection of)~~), but any public release of such data shall not include personally identifiable information including, but not limited to, a student's social security number, name, or address.

Sec. 306. RCW 43.41.400 and 2012 c 229 s 585 are each amended to read as follows:

(c) Collaborate with the legislative evaluation and accountability program committee and the education and fiscal committees of the legislature in identifying the data to be compiled and analyzed to ensure that legislative interests are served;

(d) Annually provide to the K-12 data governance group a list of data elements and data quality improvements that are necessary to answer the research and policy questions identified by the education data center and have been identified by the legislative committees in (c) of this subsection. Within three months of receiving the list, the K-12 data governance group shall develop and transmit to the education data center a feasibility analysis of obtaining or improving the data, including the steps required, estimated time frame, and the financial and other resources that would be required. Based on the analysis, the education data center shall submit, if necessary, a recommendation to the legislature regarding any statutory changes or resources that would be needed to collect or improve the data;

(e) Monitor and evaluate the education data collection systems of the organizations and agencies represented in the education data center ensuring that data systems are flexible, able to adapt to evolving needs for information, and to the extent feasible and necessary, include data that are needed to conduct the analyses and provide answers to the research and policy questions identified in (a) of this subsection;

(i) Prepare a regular report on the educational and workforce outcomes of youth in the juvenile justice system, using data disaggregated according to RCW 28A.300.042, and by age; and

(j) Make recommendations to the legislature as necessary to help ensure the goals and objectives of this section and RCW 28A.655.210 and 28A.300.507 are met.

(3) The department of early learning, superintendent of public instruction, professional educator standards board, state board of education, state board for community and technical colleges, workforce training and education coordinating board, student achievement council, public four-year institutions of higher education, department of social and health services, and employment security department shall work with the education data center to develop data-sharing and research agreements, consistent with applicable security and confidentiality requirements, to facilitate the work of the center. The education data center shall also develop data-sharing and research agreements with the administrative office of the courts to conduct research on educational and workforce outcomes using data maintained under RCW 13.50.010(11) related to juveniles. Private, nonprofit institutions of higher education that provide programs of education beyond the high school level leading at least to the baccalaureate degree and are accredited by the Northwest association of schools and colleges or their peer accreditation bodies

The education data center shall make data from collaborative analyses available to the education agencies and institutions that contribute data to the education data center to the extent allowed by federal and state security and confidentiality requirements applicable to the data of each contributing agency or institution.

NEW SECTION. Sec. 307. A new section is added to chapter 28A.600 RCW to read as follows:

(1) School districts should make efforts to have suspended or expelled students return to the educational setting they were suspended or expelled from as soon as possible. School districts should convene a school reenrollment meeting with the student and the student's family or guardians within twenty days of the student's long-term suspension or expulsion, but no later than five days before the student's enrollment, to discuss a plan to reenroll and reengage the student in a school program.

(2) In developing a reenrollment and reengagement plan, school districts should consider shortening the length of time that the student is suspended or expelled, other forms of corrective action, and supportive interventions that aid in the student's academic success and keep the student engaged and on track to graduate. School districts must create a reenrollment and reengagement plan tailored to the student's individual circumstances, including consideration of the incident that led to the student's long-term suspension or expulsion. The plan should aid the student in taking the necessary steps to remedy the situation that led to the student's suspension or expulsion.

(3) Any reenrollment meetings conducted by the school district involving the suspended or expelled student and his or her family or guardians are not intended to replace a petition for readmission.

NEW SECTION. Sec. 308. Nothing in chapter . . . , Laws of 2013 (this act) prevents a public school district, law enforcement agencies, or law enforcement personnel from enforcing laws protecting health and human safety."

(4) The task force must design an accountability system for the program that includes reporting and monitoring of benchmark performance and tiered levels of support and technical assistance for schools and districts based on benchmark performance. The design of the system must also include a reduction in requirements for schools and districts to submit program applications and program plans for state approval, to be replaced with a focus on program outcomes.

(5) The task force must submit a report first to the educational opportunity gap oversight and accountability committee and the quality education council, and then to the education committees of the legislature, with recommendations for the design of the accountability system and any policy changes, statutory changes, or resources necessary for its implementation. An interim report is due to the legislative education committees by January 15, 2014, and a final report is due by September 30, 2014.

Results of these assessments shall be made available to both the superintendent of public instruction and the school district;

(2) Require school districts to annually assess all eligible pupils at the end of the school year using an English proficiency assessment or assessments as specified by the superintendent of public instruction.

Results of these assessments shall be made available to both the superintendent of public instruction and the school district;

GOVERNOR'S VETO MESSAGES

Sixty Third Legislature
2013 Legislative Session

VETO MESSAGE ON SHB 1422

May 1, 2013

To the Honorable Speaker and Members ,
The House of Representatives of the State of Washington Ladies and Gentlemen:

I am returning herewith , without my approval , Substitute House Bill No. 1422 entitled: "AN ACT Relating to the beer and wine tasting endorsement for grocery stores."

This bill authorizes grocery stores licensed by the Washington State Liquor Control Board to sell beer and wine to apply to the Board for an endorsement to offer beer and wine tasting, if they operate a fully enclosed retail area encompassing at least 10,000 square feet. The intent and policy of this bill is fully covered in Substitute Senate Bill 5517, which I previously signed into law on April 23, 2013. This bill , therefore , is unnecessary.

For this reason I have vetoed Substitute House Bill 1422 in its entirety.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESHB 1341

May 8, 2013

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 10 and 13, Engrossed Substitute House Bill 1341 entitled:

"AN ACT Relating to creating a claim for compensation for wrongful conviction and imprisonment."

I am pleased to join 27 states and the District of Columbia to provide compensation to individuals who have been wrongly convicted in Washington state of a felony offense and imprisoned as a result. While the impact on the person and his or her family cannot be quantified, some measure of compensation will help those wrongly convicted get back on their feet.

Under this bill, persons who clearly demonstrate that they have been wrongly convicted of a felony offense in superior court and subsequently imprisoned may bring a claim for compensation. Those individuals will receive monetary compensation based on the amount of time spent in prison and be eligible for other assistance programs to help them reintegrate in the community.

Sections 10 and 13 of the bill require payment of any wrongful conviction and imprisonment claims to be made from the state's liability account. This account is a self-insurance pool used to pay state tort claims, judgments, and settlements. State agencies pay premiums to the account based on an analysis for the claim loss history of the state agency. This methodology has passed state and federal audit scrutiny because it is based on the sound actuarial principle of examining actual claims experience. However, payments of wrongful conviction and imprisonment claims from this fund

could draw a challenge from state and federal auditors because there is no state agency engaged in the conduct for which compensation is awarded under the bill. To avoid this risk, I am vetoing Sections 10 and 13 of this bill. Payments of such claims will be paid out of the General Fund and handled in accordance with RCW 4.92.040.

For these reasons, I have vetoed Sections 10 and 13 of Engrossed Substitute House Bill 1341.

With the exception of Sections 10 and 13, Engrossed Substitute House Bill 1341 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON HB 1471

May 21, 2013

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, House Bill 1471 entitled:

"AN ACT Relating to updating and aligning with federal requirements hospital health care- associated infection rate reporting."

This bill requires the Department of Health to update hospital reporting requirements for health care-associated infections to align with nationally recommended measures. These measures add value to the public and advance patient safety. The bill also gives the Department important rule-making authority to stay consistent with federal requirements.

However, I am vetoing Section 3 of the bill because Section 3 would make Section 1 expire in 2017. Section 1 makes needed substantive changes that I do not believe should expire, nor was that the intent of the legislature.

For these reasons I have vetoed Section 3 of House Bill 1471. With the exception of bill 1471 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON 2SHB 1723

May 21, 2013

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington Ladies and Gentlemen:

I am returning, herewith, without my approval as to Section 4, Second Substitute House Bill 1723 entitled:

"AN ACT Relating to expanding and streamlining early learning services and programs"

Section 4 creates a technical working group to review child care and preschool funding sources, eligibility requirements, and system design. A related task force is established in Second Substitute Senate Bill 5595, which involves broader stakeholder participation and a larger scope of the analysis. I am therefore vetoing this section to avoid duplicating efforts that will likely achieve similar results.

I will direct both the Department of Early Learning and Department of Social and Health Services to collaborate with the appropriate legislative committees in developing options to further integrate child care services toward a system that is coordinated, complementary, and user-friendly to parents.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESHB 1552

May 21, 2013

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 34, Engrossed Substitute House Bill 1552 entitled:

"AN ACT Relating to the reduction of metal theft."

Metal theft causes substantial and often expensive property damage harming, among others, businesses, utilities, state and local governments, and individual citizens. Under certain circumstances, metal theft can also lead to significant safety hazards. Our state has enacted laws over the past several years to curb metal theft by increasing penalties and regulation of businesses purchasing or receiving metal.

This bill is the result of recommendations from a wide array of stakeholders, including businesses, metal recyclers, utilities, local governments, and local law enforcement to enhance our laws to prevent metal theft. New licensing, purchasing, and records retention regulations are instituted. Further, changes are made to penalties associated with metal theft and illegal purchasing of scrap metal, and grants are established for enforcement.

Pursuant to Section 34 of this bill, if \$1.5 million for the purposes of this act is not provided by June 30, 2013, in the omnibus appropriations act, this act is null and void. Unfortunately, the Legislature has not passed a budget at this time. It is my expectation that by passing this bill, the Legislature intends to provide the funding. It is also my expectation that the stakeholders who worked on this act, and will benefit from its enactment, will continue their efforts to secure funding to support the law enforcement grant provisions. To ensure the important, new regulatory provisions of this act are put in place as a means of combating metal theft, I am vetoing Section 34 of this bill.

For these reasons, I have vetoed Section 34 of Engrossed Substitute House Bill 1552. With the exception of Section 34, Engrossed Substitute House Bill 1552 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESHB 1652
May 21, 2013

To the Honorable Speaker and Members ,
The House of Representatives of the State of Washington Ladies and Gentlemen:

I am returning herewith, without my approval , Engrossed Substitute House Bill 1652 entitled:

"AN ACT Relating to establishing a process for the payment of impact fees through provisions stipulated in recorded covenants."

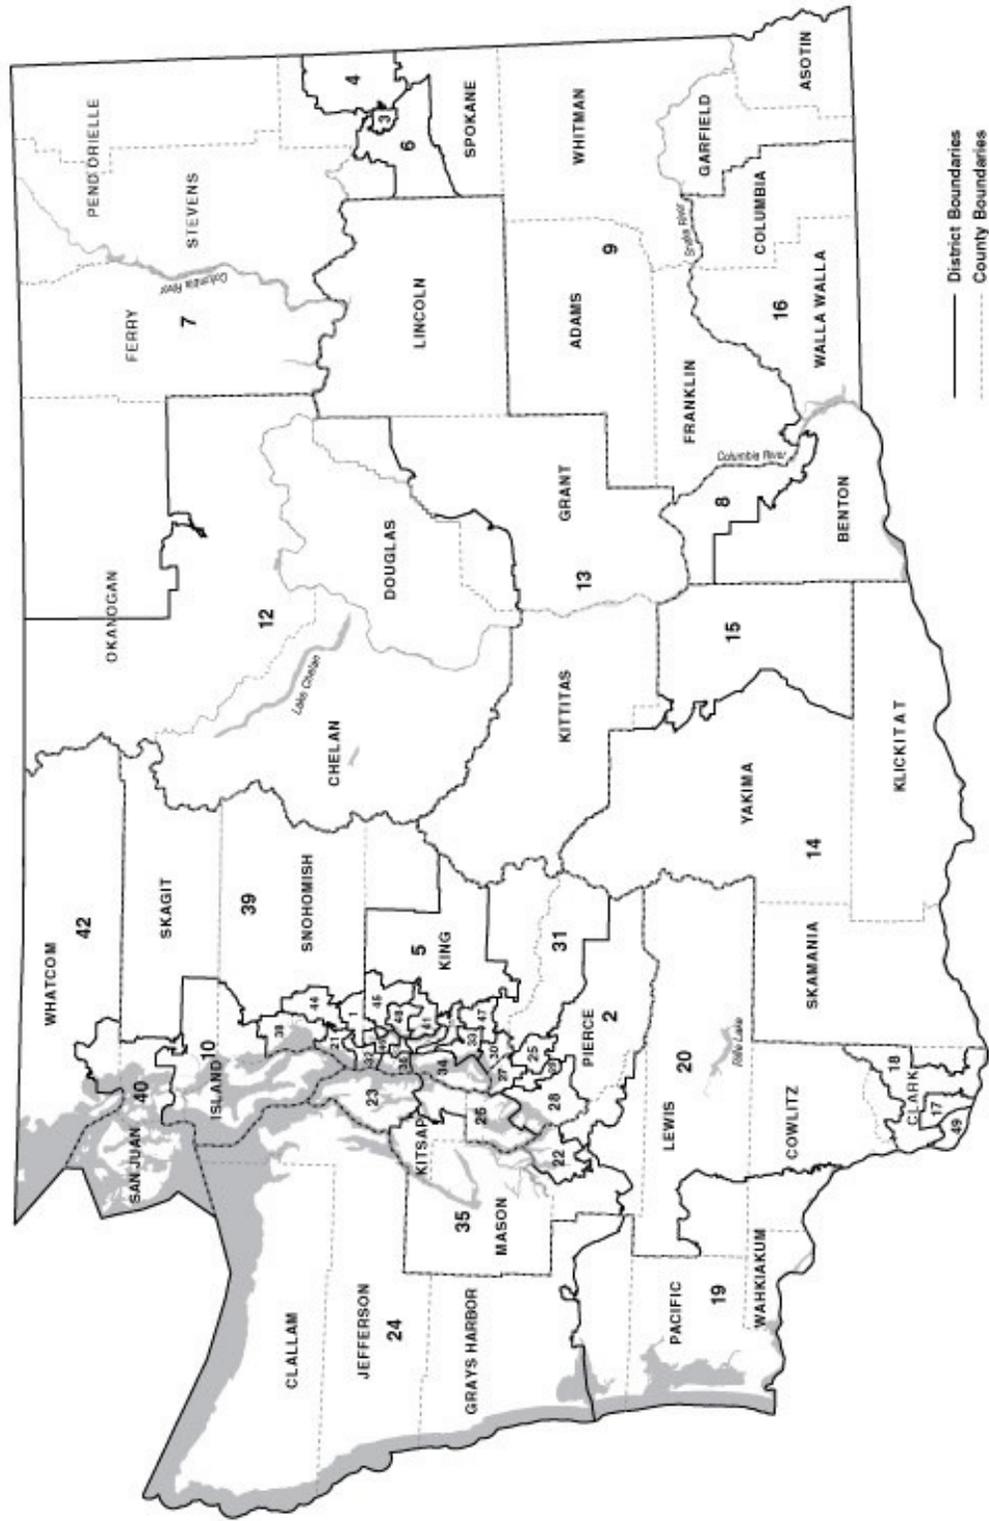

This bill requires local governments that collect impact fees from applicants for residential building permits, pursuant to the Growth Management Act, to adopt a system that defers the payment of the fees.

The deferral of impact fees under the bill would delay funding for schools when the state's paramount duty is to fund education. Many schools require impact fee revenue s early in the calendar year to secure portable classrooms needed by the start of the new school year to ensure that students have appropriate classroom sizes and a healthy learning environment. Delayed payment of the fees can also adversely affect local transportation and fire protection services and other amenities needed to support growth.

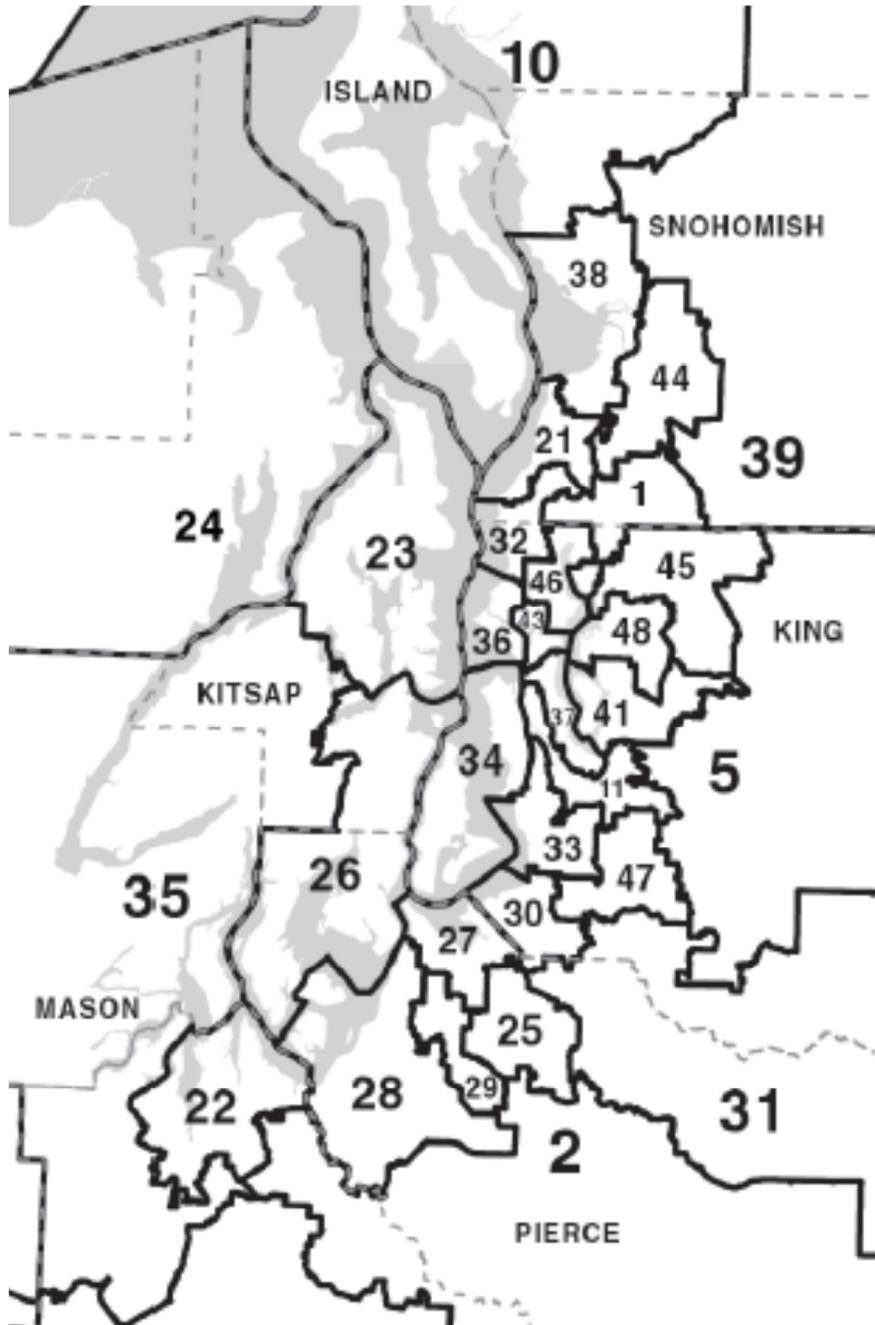

I recognize that our construction industry has not fully recovered from the recession. While the number of new building projects is up, many builders have not returned to work, especially smaller builders who are unable to secure financing. I would support a bill that is targeted to provide assistance to small builders. Because the majority of construction is done by larger builders, a more targeted bill would minimize the effect on schools, cities and others that depend on impact fees. I am prepared to work with the Legislature to pass a new bill during the current Special Session that defers impact fees for small builders.

For these reasons I have vetoed Engrossed Substitute House Bill 1652 in its entirety.

Respectfully submitted,
Jay Inslee
Governor
