And, I understand that they were there with the family either late that night or the next morning and so this is a great organization that supports our law enforcement and their families. And I know they have an event every year, I hate to call it a gala, but it's a big party, I guess, to raise funds to help support the work of the *Behind the Badge Foundation*. I also want to mention that we have a law enforcement memorial behind the Temple of Justice, and Deputy Thompson's name will be added and that is the second name from Klickitat County. So, thank you Mr. President."

"NEW SECTION. Sec. 1. The legislature intends that the methodology for establishing the prevailing rates of wages under this act applies only to affordable housing, homeless and domestic violence shelters, and low-income weatherization and home rehabilitation programs.

Sec. 2. RCW 39.12.015 and 2018 c 248 s 1 and 2018 c 242 s 1 are each reenacted and amended to read as follows:

(1) All determinations of the prevailing rate of wage shall be made by the industrial statistician of the department of labor and industries.

(2) The time period for recovery of any wages owed to a worker affected by the determination is tolled until the prevailing wage determination is final.

(3)(a) Except as provided in section 3 of this act, and notwithstanding RCW 39.12.010(1), the industrial statistician shall establish the prevailing rate of wage by adopting the hourly wage, usual benefits, and overtime paid for the geographic jurisdiction established in collective bargaining agreements for those trades and occupations that have collective bargaining agreements. For trades and occupations with more than one collective bargaining agreement in the county, the higher rate will prevail.

~~((4))~~ (b) For trades and occupations in which there are no collective bargaining agreements in the county, the industrial statistician shall establish the prevailing rate of wage as defined in RCW 39.12.010 by conducting wage and hour surveys. In instances when there are no applicable collective bargaining agreements and conducting wage and hour surveys is not feasible, the industrial statistician may employ other appropriate methods to establish the prevailing rate of wage.

NEW SECTION. Sec. 3. A new section is added to chapter 39.12 RCW to read as follows:

(1) For residential construction, the industrial statistician shall establish the prevailing rate of wage by conducting wage and hour surveys. If the industrial statistician determines that information received from a survey is insufficient to determine the prevailing rate of wage for a trade under this subsection, the industrial statistician shall employ other appropriate methods to establish the prevailing rate of wage.

(a) The industrial statistician shall conduct the initial surveys required by this subsection (1) as soon as feasible after the effective date of this section. These surveys shall cover fiscal year 2018.

(b) The industrial statistician shall conduct a wage and hour survey following the initial survey or otherwise reestablish a prevailing rate of wage for each trade covered by this section at least every five years, and after the initial survey may stagger the surveys for workload purposes.

(2)(a) Until the industrial statistician has established a prevailing wage rate under subsection (1)(a) of this section and except as provided in (b) of this subsection, the industrial statistician shall establish the wage rate by:

(i) Identifying the residential prevailing wage rate in effect on August 30, 2018, for that trade (rate A);

(ii) Determining the year most recent to 2018, but not earlier than 2007, in which the wage rate for that trade was adjusted (year A);

(iii) Determining the percentage change in the annual average hourly wages reported for construction workers in Washington state, as calculated by the United States bureau of labor statistics' state and area employment, hours, and earnings estimates, from year A to 2019;

(iv) Adding the percentage change from (a)(iii) of this subsection to one hundred percent (percentage A); and

(v) Multiplying rate A by percentage A.

(b) If the residential construction wage rate in effect for a trade on August 31, 2018, is the same as the wage rate in effect on August 30, 2018, the industrial statistician must adopt the wage rate in effect for the trade on August 31, 2018, until a wage rate is established under subsection (1)(a) of this section.

(3) For purposes of this section:

(a) "Residential construction" means construction, alteration, repair, improvement, or maintenance of single-family dwellings, duplexes, apartments, condominiums, and other residential structures not to exceed four stories in height, including the basement, in the following categories:

(i) Affordable housing, including permanent supportive housing and transitional housing, which may include common spaces, community rooms, recreational spaces, a management office, or offices for the purposes of service delivery;

(ii) Weatherization and home rehabilitation programs for low-income households; and

(iii) Homeless shelters and domestic violence shelters.

(b) "Residential construction" does not include the utilities construction, such as water and sewer lines, or work on streets, or work on other structures unrelated to the housing.

NEW SECTION. Sec. 4. The industrial statistician must establish and publish wage rates under section 3(2) of this act within thirty days after the effective date of this section. The wage rates take effect thirty days after publication.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

On page 1, line 4 of the title, after "works;" strike the remainder of the title and insert "reenacting and amending RCW 39.12.015; adding a new section to chapter 39.12 RCW; creating new sections; and declaring an emergency."

(1) ~~((Consistent with federal law,))~~ The commissioner, in consultation with the board and the health care authority, shall, by rule, select the largest small group plan in the state by enrollment as the benchmark plan for the individual and small group market for purposes of establishing the essential health benefits in Washington state ~~((under P.L. 111-148 of 2010, as amended))~~.

(2) If the essential health benefits benchmark plan for the individual and small group market does not include all of the ten essential health benefits categories ~~((specified by section 1302 of P.L. 111-148, as amended))~~, the commissioner, in consultation with the board and the health care authority, shall, by rule, supplement the benchmark plan benefits as needed ~~((to meet the minimum requirements of section 1302))~~.

(3) ~~((A))~~ All individual and small group health plans ~~((required to offer))~~ must cover the ten essential health benefits categories, other than a health plan offered through the federal basic health program, a grandfathered health plan, or medicaid ~~((under P.L. 111-148 of 2010, as amended))~~. Such a health plan may not be offered in the state unless the commissioner finds that it is substantially equal to the benchmark plan. When making this determination, the commissioner:

(a) Must ensure that the plan covers the ten essential health benefits categories ~~((specified in section 1302 of P.L. 111-148 of 2010, as amended))~~;

(b) May consider whether the health plan has a benefit design that would create a risk of biased selection based on health status and whether the health plan contains meaningful scope and level of benefits in each of the ten essential health benefits categories ~~((specified by section 1302 of P.L. 111-148 of 2010, as amended))~~;

(c) Notwithstanding ~~((the foregoing))~~ (a) and (b) of this subsection, for benefit years beginning January 1, 2015, ~~((and only to the extent permitted by federal law and guidance,))~~ must establish by rule the review and approval requirements and procedures for pediatric oral services when offered in stand-alone dental plans in the nongrandfathered individual and small group markets outside of the exchange; and

(d) ~~((Unless prohibited by federal law and guidance,))~~ Must allow health carriers to also offer pediatric oral services within the health benefit plan in the nongrandfathered individual and small group markets outside of the exchange.

(4) Beginning December 15, 2012, and every year thereafter, the commissioner shall submit to the legislature a list of state-

mandated health benefits, the enforcement of which will result in federally imposed costs to the state related to the plans sold through the exchange because the benefits are not included in the essential health benefits designated under federal law. The list must include the anticipated costs to the state of each state-mandated health benefit on the list and any statutory changes needed if funds are not appropriated to defray the state costs for the listed mandate. The commissioner may enforce a mandate on the list for the entire market only if funds are appropriated in an omnibus appropriations act specifically to pay the state portion of the identified costs.

(3) For purposes of this section, "the premium adjustment percentage for the calendar year" means the percentage, if any, by which the average per capita premium for health insurance in Washington for the preceding year, as estimated by the commissioner no later than April 1st of such preceding year, exceeds such average per capita premium for 2020 as determined by the commissioner.

traditions, to ask that we get to a better place in our community, in our country and try to stop these senseless acts of gun violence, and violence generally, that hurt so many in our communities? Thank you Mr. President.”

PERSONAL PRIVILEGE

MOMENT OF SILENCE

Senator Honeyford: “Thank you Mr. President. I am very concerned about the apparent lack of respect for the members of this body. This past Wednesday, our session ran until approximately 2:15 p.m. We had no advance notice that the session would run so long. We had no lunch break. I had a school superintendent and a board member in a meeting in my office at 1:00, which I could not attend. I had a hearing in the House at 1:30 which I had to attend and miss votes here in the Senate. Without advance notice I don't know how we can plan. And Mr. President, this is my twenty-fifth year in the Legislature and I have never seen such a total disregard of members. And I ask that in the future the Senate receive advance notification of the approximate length of the session so that we may plan accordingly. Thank you Mr. President and I hope that you will support this request.”

The Senate rose and observed a moment of silence in memory of Mr. Richard Lee and Dr. Robert Hassan, who were killed during a random act of violence in Seattle and in solidarity with Ms. Deborah Judd and Mr. Eric Stark who were recovering from injuries received during the attack.

PERSONAL PRIVILEGE

Senator Frockt: “Briefly, I forgot in my remarks, I just wanted to also commend the Seattle Police Department and the EMTs, but in particular the police department, who took this deranged individual into custody without any further shots fired after these horrible incidents. They did a terrific job. Thank you Mr. President.”

PERSONAL PRIVILEGE

EDITOR'S NOTE: Mr. Richard T. Lee, of Seattle's Lake City neighborhood, was shot and killed during a random act of violence on the afternoon of Wednesday, March 27, 2019, in Seattle. Dr. Robert M. “Bob” Hassan, a retired physician and Air Force colonel died as a result of injuries received during a vehicle collision caused by the suspect in an attempt to flee Seattle Police officers in Mr. Lee's vehicle. Ms. Deborah Judd, second-grade teacher at Laurelhurst Elementary School, was also shot multiple times during the incident but survived her injuries. The attack also injured Mr. Eric Stark, a Metro bus driver, who, despite his wounds, heroically backed the Route 75 bus out of the area, driving his passengers to safety.

Senator Frockt: “Thank you Mr. President. On Wednesday afternoon, while many of us were in the Ways & Means Committee, hearing the capital budget, I received a text from my legislative assistant informing me that there was an active shooter incident occurring in Lake City in the heart of the 46th District, an area that I know very well. And, I wanted to just take a moment, if I could, to ask the Senate to think of the victims of this random act of violence and also briefly commemorate some of the notable people that were involved in it and what they did. A gunman had come out into the street and, apparently in a deranged fashion, had started shooting. Shot at a bus. It is a bus route that I know very well. My nephew and my daughter sometimes ride that route and sometimes her friends have ridden that route. It is on Sandpoint Way, which is an area that is a main thoroughfare that I'm on. You know, anytime that I am not in Olympia, there is a good chance I am on that road, up in that part of north Seattle. My wife is on there. And it just so happens that there were, unfortunately, other people who just happened to be at the wrong place at the wrong time. Dr. Robert Hassan was carjacked and was a retired Air Force Colonel and was shot and killed by the gunman. And then, when he commandeered the vehicle, another individual was killed when the car ran over the line and killed a gentleman who was a long-time Lake City resident, Mr. Lee, Richard Lee, who was apparently on, I think, back on his way home – totally normal thing. It brought back very poor memories because something like this happened to my own grandparents twenty-five years ago and when they were killed in an incident like this. There was a second-grade teacher who was also shot in this incident at Laurelhurst Elementary, Ms. Judd. The story in the paper this morning, in *The Seattle Times*, she indicated she wanted to make sure her story was out so that her second-graders would know that she was okay and that even though bad things can happen that it's, ... Try not to be afraid, I think, was her message. And then of course, there was Eric Stark, the heroic metro bus driver, that drove his passengers out of harms way. And I think Senator Salomon will be offering a resolution soon, I just found out this morning, to more formally honor him and bus drivers for their very great work that they do for our communities in many instances. He was actually shot and backed his bus up and out of the way. So, I was wondering if we could just take a very brief moment to remember those and to think, in any way you feel fit and is consistent with your values and your

MOTION

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the purpose of this act is to improve the regulation of egg production and sales in order to protect the health and welfare of consumers, promote food safety, advance animal welfare, and protect against the negative fiscal effects on the state associated with the lack of effective regulation of egg production and sales.

Sec. 2. RCW 69.25.010 and 1975 1st ex.s. c 201 s 2 are each amended to read as follows:

Eggs and egg products are an important source of the state's total supply of food, and are used in food in various forms. They are consumed throughout the state and the major portion thereof moves in intrastate commerce. It is essential, in the public interest, that the health and welfare of consumers be protected by the adoption of measures prescribed herein for assuring that eggs and egg products distributed to them and used in products consumed by them are wholesome, otherwise not adulterated, and properly labeled and packaged. Lack of effective regulation for the handling or disposition of unwholesome, otherwise adulterated, or improperly labeled or packaged egg products and certain qualities of eggs is injurious to the public welfare and destroys markets for wholesome, unadulterated, and properly labeled and packaged eggs and egg products and results in sundry losses to producers and processors, as well as injury to consumers. Unwholesome, otherwise adulterated, or improperly labeled or packaged products can be sold at lower prices and compete unfairly with the wholesome, unadulterated, and properly labeled and packaged products, to the detriment of consumers and the public generally. It is also essential to protect the health and

welfare of consumers, promote food safety, advance animal welfare, and protect against the negative fiscal effects on the state associated with the lack of effective regulation of egg production and sales. It is hereby found that all egg products and the qualities of eggs which are regulated under this chapter are either in intrastate commerce, or substantially affect such commerce, and that regulation by the director, as contemplated by this chapter, is appropriate to protect the health and welfare of consumers.

Sec. 3. RCW 69.25.020 and 2013 c 144 s 44 are each reenacted and amended to read as follows:

(b) If it bears or contains any added poisonous or added deleterious substance (other than one which is: (i) A pesticide chemical in or on a raw agricultural commodity; (ii) a food additive; or (iii) a color additive) which may, in the judgment of the director, make such article unfit for human food;

(c) If it is, in whole or in part, a raw agricultural commodity and such commodity bears or contains a pesticide chemical ~~((which is unsafe within the meaning of RCW 69.04.392, as enacted or hereafter amended))~~ that renders it adulterated within the meaning of RCW 15.130.200(2);

(j) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;

(k) If it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect ~~((pursuant to RCW 69.04.394))~~ under chapter 15.130 RCW; or

(l) If any valuable constituent has been in whole or in part omitted or abstracted therefrom; or if any substance has been substituted, wholly or in part therefor; or if damage or inferiority has been concealed in any manner; or if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

WHEREAS, Edgar Martinez became a fan favorite throughout the Northwest and a team icon as a result of his loyalty and dedication to the Mariners and the Northwest, his quiet team

WHEREAS, Major League Baseball Commissioner Allan H. "Bud" Selig paid fitting tribute to Edgar Martinez's remarkable status as the most prolific designated hitter in the history of Major League Baseball when he announced on October 2, 2004, that the American League Designated Hitter of the Year Award had been officially renamed "The Edgar Martinez Award"; and

WHEREAS, Edgar Martinez retired at the end of the 2004 season with the same team with which he began, a rarity among major league ballplayers, ending his 18-year career with a .312 batting average, 309 home runs, 1,261 runs batted in and 2,247 hits, including 514 doubles; and

WHEREAS, Edgar Martinez is one of nine players to retire with a .300+ batting average, 500 doubles, 300 home runs, 1,000 walks, and a .400+ on-base percentage – an on-base percentage better than the great Stan Musial; and

WHEREAS, Edgar had his number 11 retired by the Mariners, and it hangs in left field alongside Jackie Robinson's 42 and Ken Griffey Jr.'s 24; and next to Edgar's Cantina in T-Mobile Park; and

WHEREAS, Edgar Martinez Drive is located next to the stadium; and

to the offender's last known address. A certificate of discharge issued under this subsection (1) is effective on the date the offender completed all conditions of his or her sentence.

~~((b)(i))~~ (2)(a) When an offender has reached the end of his or her supervision with the department and has completed all the requirements of the sentence except his or her legal financial obligations, the secretary's designee shall provide the county clerk with a notice that the offender has completed all nonfinancial requirements of the sentence. The notice must list the specific sentence requirements that have been completed, so that it is clear to the sentencing court that the offender is entitled to discharge upon completion of the legal financial obligations of the sentence.

~~((i))~~ (b) When the department has provided the county clerk with notice under (a) of this subsection showing that an offender has completed all the requirements of the sentence and the offender subsequently satisfies all legal financial obligations under the sentence, the county clerk shall promptly notify the sentencing court (including the notice from the department, which). Upon receipt of the notice under this subsection (2)(b), the court shall discharge the offender and provide the offender with a certificate of discharge (by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address). A certificate of discharge issued under this subsection (2) is effective on the date the offender completed all conditions of his or her sentence.

~~((e) When an offender who is subject to requirements of the sentence in addition to the payment of legal financial obligations either is not subject to supervision by the department or does not complete the requirements while under supervision of the department, it is the offender's responsibility to provide the court with verification of the completion of the sentence conditions other than the payment of legal financial obligations. When the offender satisfies all legal financial obligations under the sentence, the county clerk shall notify the sentencing court that the legal financial obligations have been satisfied. When the court has received both notification from the clerk and adequate verification from the offender that the sentence requirements have been completed, the court shall discharge the offender and provide the offender with)~~

(3) In the absence of a certificate of discharge issued under subsection (1) or (2) of this section, the offender may file a motion with the sentencing court for a certificate of discharge. The sentencing court shall issue a certificate of discharge upon verification of completion of all sentencing conditions, including any and all legal financial obligations. A certificate of discharge issued under this subsection (3) is effective on the date the offender completed all conditions of his or her sentence.

(4) In the absence of a certificate of discharge issued under subsection (1), (2), or (3) of this section, the offender may file a motion with the sentencing court for a certificate of discharge and shall provide verification of completion of all nonfinancial conditions of his or her sentence, unless the court finds good cause to waive this requirement. A certificate of discharge issued under this subsection (4) is effective on the later of: (a) Five years after completion of community custody, or if the offender was not required to serve community custody, after the completion of full and partial confinement; or (b) the date any and all legal financial obligations were satisfied.

(5) The court shall issue a certificate of discharge by issuing the certificate to the offender in person or by mailing the certificate to the offender's last known address.

~~((2))~~ (6)(a) ((For purposes of this subsection (2),)) A no-contact order is not a requirement of the offender's sentence. An offender who has completed all requirements of the sentence,

including any and all legal financial obligations, is eligible for a certificate of discharge even if the offender has an existing no-contact order that excludes or prohibits the offender from having contact with a specified person or ~~(business))~~ entity or coming within a set distance of any specified location.

~~((b))~~ In the case of an eligible offender who has a no-contact order as part of the judgment and sentence, the offender may petition the sentencing court to issue a certificate of discharge and a separate no-contact order (by filing a petition in the sentencing court and), which must include paying the appropriate filing fee (associated with the petition) for the separate no-contact order. This filing fee does not apply to an offender seeking a certificate of discharge when the offender has a no-contact order separate from the judgment and sentence.

~~((i)(A) The court shall issue a certificate of discharge and a separate no-contact order under this subsection (2) if the court determines that the offender has completed all requirements of the sentence, including all legal financial obligations.)~~ The court shall reissue the no-contact order separately under a new civil cause number for the remaining term and under the same conditions as contained in the judgment and sentence.

~~((B))~~ (b) The clerk of the court shall send a copy of the new no-contact order to the individuals or entities protected by the no-contact order, along with an explanation of the reason for the change, if there is an address available in the court file. If no address is available, the clerk of the court shall forward a copy of the order to the prosecutor, who shall send a copy of the no-contact order with an explanation of the reason for the change to the last known address of the protected individuals or entities.

~~((ii) Whenever an order under this subsection (2) is issued,)~~ (c) The clerk of the court shall forward a copy of the order to the appropriate law enforcement agency specified in the order on or before the next judicial day. The clerk shall also include a cover sheet that indicates the case number of the judgment and sentence that has been discharged. Upon receipt of the copy of the order and cover sheet, the law enforcement agency shall enter the order into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. The order shall remain in this system until it expires. The new order, and case number of the discharged judgment and sentence, shall be linked in the criminal intelligence information system for purposes of enforcing the no-contact order.

~~((iii))~~ (d) A separately issued no-contact order may be enforced under chapter 26.50 RCW.

~~((iv))~~ (e) A separate no-contact order issued under this subsection ((2)) (6) is not a modification of the offender's sentence.

~~((3))~~ (7) Every signed certificate and order of discharge shall be filed with the county clerk of the sentencing county. In addition, the court shall send to the department a copy of every signed certificate and order of discharge for offender sentences under the authority of the department. The county clerk shall enter into a database maintained by the administrator for the courts the names of all felons who have been issued certificates of discharge, the date of discharge, and the date of conviction and offense.

~~((4))~~ (8) An offender who is not convicted of a violent offense or a sex offense and is sentenced to a term involving community supervision may be considered for a discharge of sentence by the sentencing court prior to the completion of community supervision, provided that the offender has completed at least one-half of the term of community supervision and has met all other sentence requirements.

~~((5))~~ (9) The discharge shall have the effect of restoring all civil rights not already restored by RCW 29A.08.520, and the certificate of discharge shall so state. Nothing in this section prohibits the use of an offender's prior record for purposes of determining sentences for later offenses as provided in this chapter. Nothing in this section affects or prevents use of the offender's prior conviction in a later criminal prosecution either as an element of an offense or for impeachment purposes. A certificate of discharge is not based on a finding of rehabilitation.

~~((6))~~ (10) Unless otherwise ordered by the sentencing court, a certificate of discharge shall not terminate the offender's obligation to comply with an order that excludes or prohibits the offender from having contact with a specified person or coming within a set distance of any specified location that was contained in the judgment and sentence. An offender who violates such an order after a certificate of discharge has been issued shall be subject to prosecution according to the chapter under which the order was originally issued.

~~((7))~~ (11) Upon release from custody, the offender may apply to the department for counseling and help in adjusting to the community. This voluntary help may be provided for up to one year following the release from custody.

Sec. 3. RCW 9.94A.640 and 2012 c 183 s 3 are each amended to read as follows:

(1) Every offender who has been discharged under RCW 9.94A.637 may apply to the sentencing court for a vacation of the offender's record of conviction. If the court finds the offender meets the tests prescribed in subsection (2) of this section, the court may clear the record of conviction by: (a) Permitting the offender to withdraw the offender's plea of guilty and to enter a plea of not guilty; or (b) if the offender has been convicted after a plea of not guilty, by the court setting aside the verdict of guilty; and (c) by the court dismissing the information or indictment against the offender.

(2) An offender may not have the record of conviction cleared if:

(a) There are any criminal charges against the offender pending in any court of this state or another state, or in any federal court;

(b) The offense was a violent offense as defined in RCW 9.94A.030;

~~(e) the offense was a~~ or crime against persons as defined in RCW 43.43.830, except the following offenses may be vacated if the conviction did not include a firearm, deadly weapon, or sexual motivation enhancement: (i) Assault in the second degree under RCW 9A.36.021; (ii) assault in the third degree under RCW 9A.36.031 when not committed against a law enforcement officer or peace officer; and (iii) robbery in the second degree under RCW 9A.56.210;

~~((4))~~ (c) The offense is a class B felony and the offender has been convicted of a new crime in this state, another state, or federal court in the ten years prior to the application for vacation;

(d) The offense is a class C felony and the offender has been convicted of a new crime in this state, another state, or federal court ((since the date of the offender's discharge under RCW 9.94A.637)) in the five years prior to the application for vacation;

(e) The offense is a class B felony and less than ten years have passed since the ((date the applicant was discharged under RCW 9.94A.637)) later of: (i) The applicant's release from community custody; (ii) the applicant's release from full and partial confinement; or (iii) the applicant's sentencing date;

(f) The offense was a class C felony, other than a class C felony described in RCW 46.61.502(6) or 46.61.504(6), and less than five years have passed since the ((date the applicant was discharged under RCW 9.94A.637)) later of: (i) The applicant's release from community custody; (ii) the applicant's release from

full and partial confinement; or (iii) the applicant's sentencing date; or

(g) The offense was a ((class C)) felony described in RCW 46.61.502((6)) or 46.61.504((6)).

(3)(a) Except as otherwise provided, once the court vacates a record of conviction under subsection (1) of this section, the fact that the offender has been convicted of the offense shall not be included in the offender's criminal history for purposes of determining a sentence in any subsequent conviction, and the offender shall be released from all penalties and disabilities resulting from the offense. For all purposes, including responding to questions on employment applications, an offender whose conviction has been vacated may state that the offender has never been convicted of that crime. A conviction that has been vacated under this section may not be disseminated or disclosed by the state patrol or local law enforcement agency to any person, except other criminal justice enforcement agencies. Nothing in this section affects or prevents the use of an offender's prior conviction in a later criminal prosecution, and nothing in this section affects the requirements for restoring a right to possess a firearm under RCW 9.41.040.

(b) A conviction vacated on or after the effective date of this section qualifies as a prior conviction for the purpose of charging a present recidivist offense occurring on or after the effective date of this section, and may be used to establish an ongoing pattern of abuse for purposes of RCW 9.94A.535.

Sec. 4. RCW 9.96.060 and 2017 c 336 s 2, 2017 c 272 s 9, and 2017 c 128 s 1 are each reenacted and amended to read as follows:

(1) Every person convicted of a misdemeanor or gross misdemeanor offense who has completed all of the terms of the sentence for the misdemeanor or gross misdemeanor offense may apply to the sentencing court for a vacation of the applicant's record of conviction for the offense. If the court finds the applicant meets the tests prescribed in subsection (2) of this section, the court may in its discretion vacate the record of conviction by: (a)(i) Permitting the applicant to withdraw the applicant's plea of guilty and to enter a plea of not guilty; or (ii) if the applicant has been convicted after a plea of not guilty, the court setting aside the verdict of guilty; and (b) the court dismissing the information, indictment, complaint, or citation against the applicant and vacating the judgment and sentence.

(2) An applicant may not have the record of conviction for a misdemeanor or gross misdemeanor offense vacated if any one of the following is present:

(a) There are any criminal charges against the applicant pending in any court of this state or another state, or in any federal or tribal court, at the time of application;

(b) The offense was a violent offense as defined in RCW 9.94A.030 or an attempt to commit a violent offense;

(c) The offense was a violation of RCW 46.61.502 (driving while under the influence), 46.61.504 (actual physical control while under the influence), 9.91.020 (operating a railroad, etc. while intoxicated), or the offense is considered a "prior offense" under RCW 46.61.5055 and the applicant has had a subsequent alcohol or drug violation within ten years of the date of arrest for the prior offense or less than ten years has elapsed since the date of the arrest for the prior offense;

(d) The offense was any misdemeanor or gross misdemeanor violation, including attempt, of chapter 9.68 RCW (obscenity and pornography), chapter 9.68A RCW (sexual exploitation of children), or chapter 9A.44 RCW (sex offenses), except for failure to register as a sex offender under RCW 9A.44.132;

(e) The applicant was convicted of a misdemeanor or gross misdemeanor offense as defined in RCW 10.99.020, or the court

determines after a review of the court file that the offense was committed by one family member or household member against another, or the court, after considering the damage to person or property that resulted in the conviction, any prior convictions for crimes defined in RCW 10.99.020, or for comparable offenses in another state or in federal court, and the totality of the records under review by the court regarding the conviction being considered for vacation, determines that the offense involved domestic violence, and any one of the following factors exist:

(i) The applicant has not provided written notification of the vacation petition to the prosecuting attorney's office that prosecuted the offense for which vacation is sought, or has not provided that notification to the court;

(ii) The applicant has ~~((previously had a conviction for domestic violence))~~ two or more domestic violence convictions stemming from different incidents. For purposes of this subsection, however, if the current application is for more than one conviction that arose out of a single incident, none of those convictions counts as a previous conviction;

(iii) The applicant has signed an affidavit under penalty of perjury affirming that the applicant has not previously had a conviction for a domestic violence offense, and a criminal history check reveals that the applicant has had such a conviction; or

(iv) Less than five years have elapsed since the person completed the terms of the original conditions of the sentence, including any financial obligations and successful completion of any treatment ordered as a condition of sentencing;

(f) For any offense other than those described in (e) of this subsection, less than three years have passed since the person completed the terms of the sentence, including any financial obligations;

(g) The offender has been convicted of a new crime in this state, another state, or federal or tribal court ~~((since the date of conviction))~~ in the three years prior to the vacation application; or

(h) ~~((The applicant has ever had the record of another conviction vacated; or~~

~~((i))~~ The applicant is currently restrained~~((, or has been restrained within five years prior to the vacation application.))~~ by a domestic violence protection order, a no-contact order, an antiharassment order, or a civil restraining order which restrains one party from contacting the other party or was previously restrained by such an order and was found to have committed one or more violations of the order in the five years prior to the vacation application.

(3) Subject to RCW 9.96.070, every person convicted of prostitution under RCW 9A.88.030 who committed the offense as a result of being a victim of trafficking, RCW 9A.40.100, promoting prostitution in the first degree, RCW 9A.88.070, promoting commercial sexual abuse of a minor, RCW 9.68A.101, or trafficking in persons under the trafficking victims protection act of 2000, 22 U.S.C. Sec. 7101 et seq. may apply to the sentencing court for vacation of the applicant's record of conviction for the prostitution offense. An applicant may not have the record of conviction for prostitution vacated if any one of the following is present:

(a) There are any criminal charges against the applicant pending in any court of this state or another state, or in any federal court, for any crime other than prostitution; or

(b) The offender has been convicted of another crime, except prostitution, in this state, another state, or federal court since the date of conviction. The limitation in this subsection (3)(b) does not apply to convictions where the offender proves by a preponderance of the evidence that he or she committed the crime as a result of being a victim of trafficking, RCW 9A.40.100, promoting prostitution in the first degree, RCW 9A.88.070,

promoting commercial sexual abuse of a minor, RCW 9.68A.101, or trafficking in persons under the trafficking victims protection act of 2000, 22 U.S.C. Sec. 7101 et seq., according to the requirements provided in RCW 9.96.070 for each respective conviction.

(4) Every person convicted prior to January 1, 1975, of violating any statute or rule regarding the regulation of fishing activities, including, but not limited to, RCW 75.08.260, 75.12.060, 75.12.070, 75.12.160, 77.16.020, 77.16.030, 77.16.040, 77.16.060, and 77.16.240 who claimed to be exercising a treaty Indian fishing right, may apply to the sentencing court for vacation of the applicant's record of the misdemeanor, gross misdemeanor, or felony conviction for the offense. If the person is deceased, a member of the person's family or an official representative of the tribe of which the person was a member may apply to the court on behalf of the deceased person. Notwithstanding the requirements of RCW 9.94A.640, the court shall vacate the record of conviction if:

(a) The applicant is a member of a tribe that may exercise treaty Indian fishing rights at the location where the offense occurred; and

(b) The state has been enjoined from taking enforcement action of the statute or rule to the extent that it interferes with a treaty Indian fishing right as determined under *United States v. Washington*, 384 F. Supp. 312 (W.D. Wash. 1974), or *Sohappy v. Smith*, 302 F. Supp. 899 (D. Oregon 1969), and any posttrial orders of those courts, or any other state supreme court or federal court decision.

(5)(a) Except as provided in (c) of this subsection, once the court vacates a record of conviction under this section, the person shall be released from all penalties and disabilities resulting from the offense and the fact that the person has been convicted of the offense shall not be included in the person's criminal history for purposes of determining a sentence in any subsequent conviction. For all purposes, including responding to questions on employment or housing applications, a person whose conviction has been vacated under this section may state that he or she has never been convicted of that crime. However, nothing in this section affects the requirements for restoring a right to possess a firearm under RCW 9.41.040. Except as provided in (b) of this subsection, nothing in this section affects or prevents the use of an offender's prior conviction in a later criminal prosecution.

(b) When a court vacates a record of domestic violence as defined in RCW 10.99.020 under this section, the state may not use the vacated conviction in a later criminal prosecution unless the conviction was for: (i) Violating the provisions of a restraining order, no-contact order, or protection order restraining or enjoining the person or restraining the person from going on to the grounds of or entering a residence, workplace, school, or day care, or prohibiting the person from knowingly coming within, or knowingly remaining within, a specified distance of a location (RCW 10.99.040, 10.99.050, 26.09.300, 26.10.220, ~~((26.26.138))~~ 26.26B.050, 26.44.063, 26.44.150, 26.50.060, 26.50.070, 26.50.130, 26.52.070, or 74.34.145); or (ii) stalking (RCW 9A.46.110). A vacated conviction under this section is not considered a conviction of such an offense for the purposes of 27 C.F.R. 478.11.

~~((6)) All costs incurred by the court and probation services shall be paid by the person making the motion to vacate the record unless a determination is made pursuant to chapter 10.101 RCW that the person making the motion is indigent, at the time the motion is brought.~~

~~((7))~~ (c) A conviction vacated on or after the effective date of this section qualifies as a prior conviction for the purpose of

charging a present recidivist offense as defined in RCW 9.94A.030 occurring on or after the effective date of this section.

(6) The clerk of the court in which the vacation order is entered shall immediately transmit the order vacating the conviction to the Washington state patrol identification section and to the local police agency, if any, which holds criminal history information for the person who is the subject of the conviction. The Washington state patrol and any such local police agency shall immediately update their records to reflect the vacation of the conviction, and shall transmit the order vacating the conviction to the federal bureau of investigation. A conviction that has been vacated under this section may not be disseminated or disclosed by the state patrol or local law enforcement agency to any person, except other criminal justice enforcement agencies.

Sec. 5. RCW 9.94A.030 and 2018 c 166 s 3 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed as part of a sentence under this chapter and served in the community subject to controls placed on the offender's movement and activities by the department.

(6) "Community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.

(7) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(8) "Confinement" means total or partial confinement.

(9) "Conviction" means an adjudication of guilt pursuant to Title 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(10) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(11) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere, and any issued certificates of restoration of opportunity pursuant to RCW 9.97.020.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the

length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon. However, when a defendant is charged with a recidivist offense, "criminal history" includes a vacated prior conviction for the sole purpose of establishing that such vacated prior conviction constitutes an element of the present recidivist offense as provided in RCW 9.94A.640(3)(b) and 9.96.060(5)(c).

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal street gang activity. This definition does not apply to employees engaged in concerted activities for their mutual aid and protection, or to the activities of labor and bona fide nonprofit organizations or their members or agents.

(13) "Criminal street gang associate or member" means any person who actively participates in any criminal street gang and who intentionally promotes, furthers, or assists in any criminal act by the criminal street gang.

(14) "Criminal street gang-related offense" means any felony or misdemeanor offense, whether in this state or elsewhere, that is committed for the benefit of, at the direction of, or in association with any criminal street gang, or is committed with the intent to promote, further, or assist in any criminal conduct by the gang, or is committed for one or more of the following reasons:

(a) To gain admission, prestige, or promotion within the gang;

(b) To increase or maintain the gang's size, membership, prestige, dominance, or control in any geographical area;

(c) To exact revenge or retribution for the gang or any member of the gang;

(d) To obstruct justice, or intimidate or eliminate any witness against the gang or any member of the gang;

(e) To directly or indirectly cause any benefit, aggrandizement, gain, profit, or other advantage for the gang, its reputation, influence, or membership; or

(f) To provide the gang with any advantage in, or any control or dominance over any criminal market sector, including, but not limited to, manufacturing, delivering, or selling any controlled substance (chapter 69.50 RCW); arson (chapter 9A.48 RCW); trafficking in stolen property (chapter 9A.82 RCW); promoting prostitution (chapter 9A.88 RCW); human trafficking (RCW 9A.40.100); promoting commercial sexual abuse of a minor (RCW 9.68A.101); or promoting pornography (chapter 9.68 RCW).

(15) "Day fine" means a fine imposed by the sentencing court that equals the difference between the offender's net daily income and the reasonable obligations that the offender has for the support of the offender and any dependents.

(16) "Day reporting" means a program of enhanced supervision designed to monitor the offender's daily activities and compliance with sentence conditions, and in which the offender is required to report daily to a specific location designated by the department or the sentencing court.

(17) "Department" means the department of corrections.

EIGHTIETH DAY, APRIL 3, 2019

2019 REGULAR SESSION

(18) "Determinate sentence" means a sentence that states with exactitude the number of actual years, months, or days of total confinement, of partial confinement, of community custody, the number of actual hours or days of community restitution work, or dollars or terms of a legal financial obligation. The fact that an offender through earned release can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

(19) "Disposable earnings" means that part of the earnings of an offender remaining after the deduction from those earnings of any amount required by law to be withheld. For the purposes of this definition, "earnings" means compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonuses, or otherwise, and, notwithstanding any other provision of law making the payments exempt from garnishment, attachment, or other process to satisfy a court-ordered legal financial obligation, specifically includes periodic payments pursuant to pension or retirement programs, or insurance policies of any type, but does not include payments made under Title 50 RCW, except as provided in RCW 50.40.020 and 50.40.050, or Title 74 RCW.

(20) "Domestic violence" has the same meaning as defined in RCW 10.99.020 and 26.50.010.

(21) "Drug offender sentencing alternative" is a sentencing option available to persons convicted of a felony offense other than a violent offense or a sex offense and who are eligible for the option under RCW 9.94A.660.

(22) "Drug offense" means:

(a) Any felony violation of chapter 69.50 RCW except possession of a controlled substance (RCW 69.50.4013) or forged prescription for a controlled substance (RCW 69.50.403);

(b) Any offense defined as a felony under federal law that relates to the possession, manufacture, distribution, or transportation of a controlled substance; or

(c) Any out-of-state conviction for an offense that under the laws of this state would be a felony classified as a drug offense under (a) of this subsection.

(d) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(3)(a) \$71,000 of the high occupancy toll lanes operations account—state appropriation, \$1,238,000 of the state route number 520 corridor account—state appropriation, \$532,000 of the Tacoma Narrows toll bridge account—state appropriation, \$460,000 of the Interstate 405 express toll lanes operations account—state appropriation, and \$699,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to finish implementing a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701 of this act.

information officer on an ongoing basis during system implementation.

(4) The department shall make detailed quarterly reports to the transportation committees of the legislature and the public on the department's web site on the following:

(a) The use of consultants in the tolling program, including the name of the contractor, the scope of work, the type of contract, timelines, deliverables, any new task orders, and any extensions to existing consultant contracts;

(6) In calendar year 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2019-2021 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

(7) \$19,300,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected share of collecting toll revenues, operating customer services, and maintaining toll collection systems. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number

99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.

Further, the department shall work with the city of Seattle and existing permit processes to facilitate vendor access to and use of the area in the vicinity of the Montlake property.

(ii) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), WSDOT shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

(13) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(14) \$265,100,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(c) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(d) It is the legislature's intent that the department shall construct a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the funding gap on the base project is closed, the funds must

first be applied toward the completion of these two full single-point urban interchanges.

(15) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(16) \$950,000 of the transportation partnership account—state appropriation is provided solely for the U.S. 2 Trestle IJR project (L1000158).

(17) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2021, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(18)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2021-2023 fiscal biennium, the department may, on a pilot basis, apply funding from a project in this section with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

(i) I-82 Yakima - Union Gap Economic Development Improvements (T21100R);

(ii) I-5 Federal Way - Triangle Vicinity Improvements (T20400R); or

(iii) SR 522/Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering) (NPARADI).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) For connecting Washington projects that have already begun and are eligible for the authority granted in section 601 of this act, the department shall prioritize advancing the following projects if expected reappropriations become available:

(i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);

(ii) SR 305 Construction - Safety Improvements (N30500R);

(iii) SR 14/Bingen Overpass (L2220062);

(iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);

(v) US Hwy 2 Safety (N00200R); or

(vi) US-12/Walla Walla Corridor Improvements (T20900R).

(d) To the extent practicable, the department shall use the flexibility and authority granted in this section and in section 601 of this act to minimize the amount of reappropriations needed each biennium.

(19) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its

EIGHTY FIRST DAY, APRIL 4, 2019

2019 REGULAR SESSION

determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(20) \$8,500,000 of the motor vehicle account—state appropriation is provided solely for staffing of a project office to replace the Interstate 5 bridge across the Columbia river (G2000088). The work of this project office should include, but is not limited to, the reevaluation of the purpose and need identified for the project previously known as the Columbia river crossing, the reevaluation of permits and development of a finance plan, the reengagement of key stakeholders, and the reevaluation of scope, schedule, and budget for a reinvigorated bistate effort for replacement of the Interstate 5 Columbia river bridge. When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. Within the amount provided in this subsection, the department must implement chapter . . . (Engrossed Substitute House Bill No. 1994) (projects of statewide significance), Laws of 2019. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts. The department shall reengage project stakeholders, and reevaluate the purpose and need and environmental permits by July 1, 2020. The department must have developed a finance plan by December 1, 2020, and have made significant progress towards beginning the supplemental environmental impact statement process by June 30, 2021. The department shall provide a progress report on these activities to the governor and the transportation committees of the legislature by December 1, 2019, and a final report to the governor and the transportation committees of the legislature by December 1, 2020.

(21) \$6,823,000 of the motor vehicle account—state appropriation, \$36,500,000 of the connecting Washington account—state appropriation, \$44,961,000 of the motor vehicle account—federal appropriation, and \$185,716,000 of the forward Washington account—state appropriation are provided solely for the Fish Passage Barrier project (OBI4001) with the intent of fully complying with the court injunction by 2030. The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach to maximize habitat gain by replacing both state and local culverts.

(22) \$14,750,000 of the connecting Washington account—state appropriation and \$8,900,000 of the motor vehicle account—local appropriation are provided solely for the I-90/Barker to Harvard – Improve Interchanges & Local Roads project (L2000122). The connecting Washington appropriation

may only be expended if the city of Liberty Lake agrees to cover any project costs above the \$18,000,000 of state appropriation provided for the total project in LEAP Transportation Document 2019-1 as developed March 26, 2019, Program – Highway Improvements (I).

The member contribution rate shall be based on the adjusted total contribution rate described in subsection (2) of this section. Beginning July 1, 2007, the required member contribution rate for members of the Washington state patrol retirement system shall be the lesser of the following: (a) One-half of the adjusted total contribution rate for the system; or (b) seven percent, plus fifty percent of the contribution rate increase caused by any benefit improvements effective on or after July 1, 2007.

From July 1, 2009, through June 30, 2011, the minimum total contribution rate shall equal the total contribution rate required to fund fifty percent of the Washington state patrol retirement system's normal cost as calculated under the entry age normal cost method. Beginning July 1, 2011, the minimum total contribution rate shall equal the total contribution rate required to fund seventy percent of the Washington state patrol retirement system's normal cost as calculated under the entry age normal cost method. This minimum rate, when applicable, shall be collected in addition to any contribution rate required to amortize any unfunded costs attributable to distributions under RCW 43.43.270(2) for survivors of members who became disabled under RCW 43.43.040(2) prior to July 1, 2006.

(5) Upon completion of each biennial actuarial valuation, the state actuary shall review the appropriateness of this minimum total contribution rate and recommend to the council any adjustments as may be needed. Any changes adopted by the council shall be subject to revision by the legislature.

(6) The legislature recognizes the short-term volatility of projected employer contribution rates for the Washington state

Consistent with this intent, the legislature revises the basic employer contribution rate for the Washington state patrol retirement system from 22.13 percent to 17.5 percent during the 2019-2021 biennium. By June 30, 2020, the state actuary shall calculate and report to the council the expected change to the basic employer contribution rates for the 2021-2023 and 2023-2025 biennia that continue this phase-in.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$1,300,000 of the Tacoma Narrows toll bridge account—state appropriation and \$9,048,000 of the state route number 520 corridor account—state appropriation are provided solely for the purposes of addressing unforeseen operations and maintenance costs on the Tacoma Narrows bridge and the state route number 520 bridge, respectively. The office of financial management shall place the amounts provided in this subsection, which represent a portion of the required minimum fund balance under the policy of the state treasurer, in unallotted status. The office may release the funds only when it determines that all other funds designated for operations and maintenance purposes have been exhausted.

(2) \$3,100,000 of the Interstate 405 express toll lanes operations account—state appropriation, \$1,498,000 of the state route number 520 corridor account—state appropriation, and \$1,802,000 of the high occupancy toll lanes operations account—state appropriation are provided solely for the operation and maintenance of roadside toll collection systems.

(3) ~~(\$4,131,000)~~ \$4,129,000 of the state route number 520 civil penalties account—state appropriation, \$2,192,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$1,191,000 of the Interstate 405 express toll lanes operations account—state appropriation are provided solely for expenditures related to the toll adjudication process.

(4) The department shall make detailed quarterly expenditure reports available to the Washington state transportation commission and to the public on the department’s web site using current resources. The reports must include a summary of toll revenue by facility on all operating toll facilities and high occupancy toll lane systems, and an itemized depiction of the use of that revenue.

(5) As long as the facility is tolled, the department must provide quarterly reports to the transportation committees of the

legislature on the Interstate 405 express toll lane project performance measures listed in RCW 47.56.880(4). These reports must include:

(a) Information on the travel times and travel time reliability (at a minimum, average and 90th percentile travel times) maintained during peak and nonpeak periods in the express toll lanes and general purpose lanes for both the entire corridor and commonly made trips in the corridor including, but not limited to, northbound from Bellevue to Rose Hill, state route number 520 at NE 148th to Interstate 405 at state route number 522, Bellevue to Bothell (both NE 8th to state route number 522 and NE 8th to state route number 527), and a trip internal to the corridor (such as NE 85th to NE 160th) and similar southbound trips;

(b) A month-to-month comparison of travel times and travel time reliability for the entire corridor and commonly made trips in the corridor as specified in (a) of this subsection since implementation of the express toll lanes and, to the extent available, a comparison to the travel times and travel time reliability prior to implementation of the express toll lanes;

(c) Total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane (i) compared to total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane, on this segment of Interstate 405 prior to implementation of the express toll lanes and (ii) compared to total express toll lane and total general purpose lane traffic volumes, as well as per lane traffic volumes for each type of lane, from month to month since implementation of the express toll lanes; and

(d) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(6) ~~(\$666,000)~~ \$595,000 of the high occupancy toll lanes operations account—state appropriation, ~~(\$11,527,000)~~ \$10,289,000 of the state route number 520 corridor account—state appropriation, ~~(\$4,955,000)~~ \$4,423,000 of the Tacoma Narrows toll bridge account—state appropriation, ~~(\$4,286,000)~~ \$3,826,000 of the Interstate 405 express toll lanes operations account—state appropriation, and ~~(\$6,506,000)~~ \$5,807,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to implement a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701, chapter 313, Laws of 2017.

(a) The office of financial management shall place \$2,000,000 of the amounts provided in this subsection in unallotted status, to be distributed between the facilities using the account proportions in this subsection. If the vendors selected as the successful bidders for the new tolling customer service toll collection system or the operator of the new system are different than the vendor as of January 1, 2017, the office of financial management may release portions of this amount as transition costs.

(b) The funds provided in this subsection from the Alaskan Way viaduct replacement project account—state appropriation are provided through a transfer from the motor vehicle account—state in section 408(26), chapter 313, Laws of 2017. These funds are a loan to the Alaskan Way viaduct replacement project account—state, and the legislature assumes that these funds will be reimbursed to the motor vehicle account—state at a later date when the portion of state route number 99 that is the deep bore tunnel is operational.

(c) The department must provide a project status report to the office of financial management and the transportation committees of the legislature on at least a calendar quarterly basis. The report must include, but is not limited to:

(i) Detailed information about the planned and actual scope, schedule, and budget;

(ii) Status of key vendor and other project deliverables; and

(iii) A description of significant changes to planned deliverables or system functions over the life of the project.

(d) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(7) The department shall make detailed quarterly reports to the governor and the transportation committees of the legislature on the following:

(a) The use of consultants in the tolling program, including the name of the contractor, the scope of work, the type of contract, timelines, deliverables, any new task orders, and any extensions to existing consultant contracts;

(b) The nonvendor costs of administering toll operations, including the costs of staffing the division, consultants and other personal service contracts required for technical oversight and management assistance, insurance, payments related to credit card processing, transponder purchases and inventory management, facility operations and maintenance, and other miscellaneous nonvendor costs; and

(c) The vendor-related costs of operating tolled facilities, including the costs of the customer service center, cash collections on the Tacoma Narrows bridge, electronic payment processing, and toll collection equipment maintenance, renewal, and replacement.

(d) The toll adjudication process, including a summary table for each toll facility that includes:

(i) The number of notices of civil penalty issued;

(ii) The number of recipients who pay before the notice becomes a penalty;

(iii) The number of recipients who request a hearing and the number who do not respond;

(iv) Workload costs related to hearings;

(v) The cost and effectiveness of debt collection activities; and

(vi) Revenues generated from notices of civil penalty.

(8) (~~(\$13,179,000)~~) \$13,180,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for operational costs related to the express toll lane facility. The office of financial management shall place \$6,808,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department upon the passage of a 2018 supplemental transportation budget.

(9) In 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2017-2019 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point-of-payment technologies that lower costs or improve operational efficiencies.

(10) (~~(\$5,583,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected proportional share of collecting toll revenues, operating customer services, and maintaining toll collection systems for the last seven months of the biennium. Due to the uncertainty of the new state route number 99 tunnel toll facility timeline, the legislature is holding the other tolled facilities' administrative cost shares constant for this biennium. The legislature expects to see appropriate reductions to the other toll facility accounts once tolling on the new state route number 99 tunnel toll facility commences and any previously incurred costs for start-up of the new facility are charged back to the Alaskan Way viaduct replacement project account. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.~~)

(~~(\$1,849,000)~~) \$849,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the costs associated with the sale of transponders for the opening of the new state route number 99 tunnel toll facility in Seattle. (~~The office of financial management shall place \$510,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department if it determines the transponder inventory will otherwise not be sufficient for facility ramp up.~~)

The appropriations in this section are subject to the following conditions and limitations:

(1) \$300,000 of the motor vehicle account—state appropriation is provided solely for the completion of property value determinations for surplus properties to be sold. The value determinations must be completed by agency staff if available; otherwise, the agency may contract out for these services. The real estate services division of the department must recover the cost of its efforts from the sale of surplus property. Proceeds for surplus property sales must fund additional future sales, and the real estate services division shall prioritize staff resources to meet revenue assumptions for surplus property sales.

(2) The legislature recognizes that the trail known as the Rocky Reach Trail, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on state route number 2 and the coincident section of state route number 97. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer

(5) \$75,000 of the multimodal transportation account—state appropriation is provided solely for the department to contract with the Puget Sound Clean Air Agency to conduct a study that identifies and evaluates opportunities to facilitate low-income utilization of electric vehicles. The study must include, but is not limited to, development and evaluation of an electric vehicle car-sharing program for low-income housing sites that is designed to maximize the use of electric vehicles by residents of these sites, and that must consider any infrastructure needs that will need to be met to support the use of electric vehicles at these sites. The department must provide a report detailing the findings of this study to the transportation committees of the legislature by December 1, 2018.

(5)(a) During the 2017-2019 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle:

(i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. (c) The department shall expand the high occupancy vehicle lane access pilot program to private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, wheelchair-accessible taxicabs that are clearly and identifiably marked as such on all sides of the vehicle are considered public transportation vehicles and must be authorized to use the reserved portion of the highway.

(d) Nothing in this subsection (5) is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for high occupancy toll lanes.

The public information campaign must primarily focus on making the consumer aware of the road deterioration, financial impact for taxpayers, the safety implications for other drivers, and, secondarily, the alternatives to studded tires. The pilot must begin by September 1, 2018. By January 14, 2019, the department shall provide the transportation committees of the legislature an update on the pilot public information program. The department shall review all projects receiving grant awards under this program at least semiannually to determine whether the projects are making satisfactory progress. Any project that has been awarded funds, but does not report activity on the project within one year of the grant award, must be reviewed by the department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been completed, and any remaining funds must be used only to fund projects identified in the LEAP transportation document referenced in this subsection. The department shall provide annual status reports on December 15, 2017, and December 15, 2018, to the office of financial management and the transportation committees of the legislature regarding the projects receiving the grants. The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ~~((2018))~~ 2019-1 as developed March ~~((5))~~ 26, ~~((2018))~~ 2019, Program - Highway Improvements Program (I). (11) \$12,500,000 of the multimodal transportation account—state appropriation is provided solely for transit mitigation for the SR 99/Viaduct Project - Construction Mitigation project (809940B).

(12) Within existing resources, during the regular sessions of the legislature, the department of transportation shall participate in work sessions, before the transportation committees of the house of representatives and senate, on the Alaskan Way viaduct replacement project. These work sessions must include a report on current progress of the project, timelines for completion, outstanding claims, the financial status of the project, and any other information necessary for the legislature to maintain appropriate oversight of the project. The parties invited to present may include the department of transportation, the Seattle tunnel partners, and other appropriate stakeholders.

(13) \$7,769,000 of the transportation partnership account—state appropriation, \$6,744,000 of the transportation 2003 account (nickel account)—state appropriation, \$215,000 of the motor vehicle account—federal appropriation, and \$5,000,000 of the special category C account—state appropriation are provided solely for the US 395/North Spokane Corridor project (600010A). Any future savings on the project must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor project or any future phase of the project in 2017-2019.

(14) (~~(\$27,415,000)~~) \$4,220,000 of the transportation partnership account—state appropriation, \$16,000 of the motor vehicle account—local appropriation, and (~~(\$13,158,000)~~) \$353,000 of the transportation 2003 account (nickel account)—state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8B11002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C), the I-405 Renton to Bellevue project (M00900R), or the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) in the 2017-2019 fiscal biennium.

(15) \$4,960,000 of the transportation partnership account—state appropriation and \$3,000,000 of the Interstate 405 express toll lanes operations account—state appropriation are provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project. The transportation partnership account—state appropriation funding is a transfer or a reappropriation of a transfer from the I-405/Kirkland Vicinity Stage 2 - Widening project due to savings, and will start an additional phase of this I-405 project.

(16)(a) The SR 520 Bridge Replacement and HOV project (8B11003) is supported over time from multiple sources, including a \$300,000,000 TIFIA loan, \$924,615,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) (~~(\$78,958,000)~~) \$49,353,000 of the transportation partnership account—state appropriation, \$12,296,000 of the motor vehicle account—federal appropriation, and (~~(\$232,000)~~) \$50,000 of the motor vehicle account—local appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8B11003).

(c) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) Any advisory group that the department convenes during the 2017-2019 fiscal biennium must consider the interests of the entire state of Washington.

(19) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(20) (~~(\$93,651,000)~~) \$133,651,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(21)(a) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(b) The secretary of transportation must develop a memorandum of understanding with local project stakeholders that identifies a schedule for stakeholders to provide local matching funds for the Puget Sound Gateway project. Criteria for eligibility of local match includes matching funds and equivalent in-kind contributions including, but not limited to, land donations. The memorandum of understanding must be finalized by July 1, 2018. The department must submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on the status of the requirements outlined in this subsection (21)(b) and (c) of this subsection.

(c) During the course of developing the memorandum of understanding, the department must evaluate the project schedules to determine if there are any benefits to be gained by moving the project schedule forward. It is the legislature's intent that if the department identifies any savings after the funding gap on the base project is closed as part of the proposal to expedite the project, that these cost savings shall go toward construction of a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the funding gap on the base project is closed, the funds must be applied toward the completion of these two full single-point urban interchanges.

(d) For the SR 167/SR 509 Puget Sound Gateway project (M00600R) the department is strongly encouraged to work to relocate any significant businesses currently located within the planned path of the state route number 509/Interstate 5 undercrossing to a location within the Kent city limits. The department shall provide regular updates on its progress to the joint transportation committee and affected stakeholders.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(22) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(23)(a) (~~(\$2,000,000)~~) \$1,050,000 of the transportation partnership account—state appropriation and \$942,000 of the motor vehicle account—state appropriation are provided solely for the U.S. 2 Trestle IJR project (L1000158).

(b) Of the amounts provided in this subsection, \$942,000 of the motor vehicle account—state appropriation is provided solely for the department to complete an interchange justification report

EIGHTY FIRST DAY, APRIL 4, 2019

2019 REGULAR SESSION

(IJR) for the U.S. 2 trestle, covering the state route number 204 and 20th Street interchanges at the end of the westbound structure.

((~~(c)~~)) (c) The department shall develop the IJR in close collaboration with affected local jurisdictions, including Snohomish county and the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

((~~(d)~~)) (d) Within the amount provided for the IJR, the department must address public outreach and the overall operational approval of the IJR.

((~~(e)~~)) (e) The department shall complete the IJR and submit the final report to the governor and the transportation committees of the legislature by July 1, 2018.

(24)(a) The legislature recognizes that the city of Mercer Island has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/Two-Way Transit and HOV Improvements project. One of the most heavily traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access provided to Mercer Island by the Island Crest Way on-ramp, and thus grandfather in the current use of the on-ramp for both high occupancy vehicles as well as vehicles seeking to access the general purpose lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island Crest Way on-ramp to access the new high occupancy vehicle lane with a reasonable and safe distance provided for single-occupancy vehicles to merge into the general purpose lanes.

(b) A final access solution for Mercer Island must consider the following criteria: Safety; operational effects on all users, including maintaining historic access to Interstate 90 provided from Mercer Island by Island Crest Way; enforcement requirements; and compliance with state and federal law.

(c) The department may not restrict by occupancy the westbound on-ramp from Island Crest Way until a final access solution that meets the criteria in (b) of this subsection has been reached.

(25) (~~(\$3,258,000)~~) \$3,222,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for the I-405 NB Hard Shoulder Running – SR 527 to I-5 project (L1000163).

(26) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department’s switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(27) For the SR 526 Corridor Improvements project (N52600R), the department shall look holistically at the state route number 526 corridor from the state route number 526/Interstate 5 interchange at the east end to the southwest Everett industrial area and Boeing’s west access road on the west end. The department, working with affected jurisdictions and stakeholders, shall select project elements that best maximize mobility and congestion relief in the corridor and draw from project elements identified in a practical solutions process.

(28)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

- (i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);
- (ii) I-5/Marvin Road/SR 510 Interchange (L1100110);
- (iii) I-5/Northbound On-ramp at Bakerview (L2000119);
- (iv) US 395/Ridgeline Intersection (L2000127);
- (v) I-90/Eastside Restripe Shoulders (L2000201);
- (vi) SR 240/Richland Corridor Improvements (L2000202);
- (vii) SR 14/Bingen Overpass (L2220062);
- (viii) US Hwy 2 Safety (N00200R);
- (ix) SR 520/148th Ave NE Overlake Access Ramp (L1100101);
- (x) SR 28/SR 285 North Wenatchee Area Improvements (L2000061);
- (xi) I-5/Rebuild Chamber Way Interchange Improvements (L2000223);
- (xii) SR 28 East Wenatchee Corridor Improvements (T10300R);
- (xiii) SR 3 Freight Corridor (T30400R); or
- (xiv) SR 510/Yelm Loop Phase 2 (T32700R).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(29) Within existing resources and in consultation with local communities, the department shall begin planning efforts, including traffic data collection, analysis and evaluation, scoping, and environmental review, for roundabouts at the intersection of state route number 900 and SE May Valley Road and at the intersection of state route number 169 and Cedar Grove Road SE.

(30) The legislature continues to prioritize the replacement of the state’s aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system.

To accomplish Washington state’s sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its direction to the department to lead the way in advancing the reuse and recycling of construction aggregate and recycled concrete materials whenever readily available, to use these recycled products when cost competitive, and to work with industry implementation partners to remove obstacles that unnecessarily preclude or inhibit their use and implement strategies for the reuse and recycling of construction aggregate and recycled concrete materials.

Specific steps and efforts made to achieve these objectives and accomplishments shall be included in the annual report to the legislature as required by RCW 70.95.807.

(31) Within existing resources, the department shall implement a safety solution after evaluating barrier and mitigation options on state route number 167 between the intersections with 50th Ave E and E 40th Street in Pierce county to prevent vehicles from leaving the roadway and entering private property below the grade of the highway.

(32) \$350,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter 288 (Substitute Senate Bill No. 5806), Laws of 2017 (I-5 Columbia river bridge), listed as Replacement Bridge on

Interstate 5 across the Columbia River project number (L2000259).

(33) For the SR 520 Seattle Corridor Improvements – West End project (M00400R), the legislature recognizes the department must acquire the entirety of parcel number 1-23190 for construction of the project. The department shall work with its design-build contractor to ensure to the maximum extent practicable that the building housing any grocery store or market currently located on parcel number 1-23190 will be preserved. The legislature recognizes the city of Seattle has requirements in the project area that the department must address and that those requirements may affect the use of parcel number 1-23190 and may affect the ability of the department to preserve any grocery store or market currently located on the property. The department shall meet and confer regularly with residents in the vicinity of the parcel regarding the status of the project and its effects on any grocery store or market currently located on the property. The legislature strongly encourages the city to utilize maximum flexibility in how the department meets the city's requirements and to be an equal partner in efforts to preserve any grocery store or market on parcel number 1-23190.

Projects submitted must include estimated costs for preliminary engineering, rights-of-way, and construction and must also consider the timing of any available funding for weigh station projects.

(12) The department must consult with the Washington state patrol and the office of financial management during the design phase of any improvement or preservation project that could impact Washington state patrol weigh station operations. During the design phase of any such project, the department must estimate the cost of designing around the affected weigh station’s current operations, as well as the cost of moving the affected weigh station.

The amounts provided in this subsection are not a commitment for future legislatures, but it is the legislature’s intent that future legislatures will work to approve biennial appropriations until the full \$7,337,000 cost of this project is reimbursed.

(5)(a) \$686,000 of the essential rail assistance account—state appropriation, \$422,000 of the multimodal transportation account—state appropriation, and \$21,000 of the transportation infrastructure account—state appropriation are provided solely for the purpose of the rehabilitation and maintenance of the Palouse river and Coulee City railroad line (F01111B).

The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. The report must include any information technology projects impacting coalition organizations and, in collaboration with the office of the chief information officer, provide: (a) The status of any information technology projects currently being developed or implemented that affect the coalition; (b) funding needs of these current and future information technology projects; and (c) next steps for the coalition’s information technology projects. (b) A direction to increase the dental provider network;

(c) A commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program;

(d) A program to reduce emergency room use for dental purposes;

(e) A requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care;

(g) A provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care.

The plan or plans awarded this contract must absorb all start-up costs associated with moving the program from fee-for-service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. In order to ensure compliance with the provisions of this subsection, any contracts awarded must be reviewed and signed by the director of the office of financial management or their designee. Starting January 31, 2020, and every year thereafter through December 2025, the authority shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients' primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved-out dental managed care needs to be replaced with a different delivery model. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the 2019-2021 omnibus appropriations act will be used to increase dental provider reimbursement rates.

(6) \$1,805,727,000 of the general fund—state appropriation for fiscal year 2020 and \$1,876,135,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for the authority to implement the recommendations of the centers for medicare and medicaid services center for program integrity as provided to the authority in the January 2019 Washington focused program integrity review final report. The authority is directed to:

(a) Organize all program integrity activities into a centralized unit or under a common protocol addressing provider enrollment, fraud and abuse detection, investigations, and law enforcement referrals that is more reflective of industry standards;

(b) Ensure appropriate resources are dedicated to prevention, detection, investigation, and suspected provider fraud at both the authority and at contracted managed care organizations;

(c) Ensure all required federal regulations are being followed and are incorporated into managed care contracts;

(d) Directly audit managed care encounter data to identify fraud, waste, and abuse issues with managed care organization providers;

(e) Initiate data mining activities in order to identify fraud, waste, and abuse issues with managed care organization providers;

(f) Implement proactive data mining and routine audits of validated managed care encounter data;

(g) Assess liquidated damages to managed care organizations when fraud, waste, or abuse with managed care organization providers is identified;

(h) Require managed care organizations submit accurate reports on overpayments, including the prompt reporting of overpayments identified or recovered, specifying overpayments due to fraud, waste, or abuse;

(i) Implement processes to ensure integrity of data used for rate setting purposes;

(j) Refine payment suspension policies; and

(k) Ensure all federal database exclusion checks are performed at the appropriate intervals. The authority shall update managed care contracts as appropriate to reflect these requirements.

(7) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(8) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(9) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(10) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(11) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(12) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(13) \$4,261,000 of the general fund—state appropriation for fiscal year 2020, \$4,261,000 of the general fund—state appropriation for fiscal year 2021, and \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(14) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(15) \$6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost

settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(16) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2019-2021 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$537,000 of the general fund—state appropriation for fiscal year 2020 and \$522,000 of the general fund—state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

(17) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts

(18) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(19) The authority shall submit reports to the governor and the legislature by September 15, 2020, and no later than September 15, 2021, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(20) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(22) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(24) \$90,000 of the general fund—state appropriation for fiscal year 2020, \$90,000 of the general fund—state appropriation for fiscal year 2021, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

Additionally, the report shall include the status of rural health clinic reconciliations for calendar years 2014-2017, including anticipated amounts owed to or from rural health clinics from the reconciliation process for those calendar years. The authority shall not recover the state portion of rural health reconciliations for calendar years 2011-2013 for which no general fund state accrual was made. The authority shall not pursue recoveries for calendar years 2014-2017 until after the legislature has an opportunity to take action during the 2020 legislative session. TOTAL APPROPRIATION	\$3,212,920,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380 and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) \$8,777,000 of the general fund—state appropriation for fiscal year 2020, \$10,424,000 of the general fund—state appropriation for fiscal year 2021, and \$20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may

allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (4) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(5) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(6) \$1,204,000 of the general fund—state appropriation for fiscal year 2020 and \$1,204,000 of the general fund—state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(7) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. (5) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(6) After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Counties must receive sixty percent of the distribution, which must be disbursed based on each county's total proportional population. Funds may only be distributed to jurisdictions that do not prohibit the siting of any state licensed marijuana producer, processor, or retailer.

(ii) Distribution amounts allocated to each county, city, and town must be distributed in four installments by the last day of each fiscal quarter.

(iii) By September 15th of each year, the state liquor and cannabis board must provide the state treasurer the annual distribution amount, if any, for each county and city as determined in (g)(i) of this subsection (2).

(iv) The total share of marijuana excise tax revenues distributed to counties and cities in (g)(i) of this subsection (2) may not exceed fifteen million dollars in fiscal years 2018 and 2019 and twenty million dollars per fiscal year thereafter. It is the intent of the legislature that the policy for the maximum distributions in the subsequent fiscal biennia will be no more than fifteen million dollars per fiscal year.

For the purposes of this section, "marijuana products" means "useable marijuana," "marijuana concentrates," and "marijuana-infused products" as those terms are defined in RCW 69.50.101.

Sec. 984. RCW 70.155.120 and 2016 sp.s. c 38 s 2 are each amended to read as follows:

(1) The youth tobacco and vapor products prevention account is created in the state treasury. All fees collected pursuant to RCW 82.24.520, 82.24.530, 82.26.160, and 82.26.170 and funds collected by the liquor and cannabis board from the imposition of monetary penalties shall be deposited into this account, except that ten percent of all such fees and penalties shall be deposited in the state general fund.

(2) Moneys appropriated from the youth tobacco and vapor products prevention account to the department of health shall be used by the department of health for implementation of this chapter, including collection and reporting of data regarding enforcement and the extent to which access to tobacco products and vapor products by youth has been reduced.

(3) The department of health shall enter into interagency agreements with the liquor and cannabis board to pay the costs incurred, up to thirty percent of available funds, in carrying out its enforcement responsibilities under this chapter. Such agreements shall set forth standards of enforcement, consistent with the funding available, so as to reduce the extent to which tobacco products and vapor products are available to individuals under the age of eighteen. The agreements shall also set forth requirements for data reporting by the liquor and cannabis board regarding its enforcement activities. During the 2019-2021 fiscal biennium, the department of health shall pay the costs incurred, up to twenty-three percent of available funds, in carrying out its enforcement responsibilities.

(4) The department of health, the liquor and cannabis board, and the department of revenue shall enter into an interagency agreement for payment of the cost of administering the tobacco retailer licensing system and for the provision of quarterly documentation of tobacco wholesaler, retailer, and vending machine names and locations.

(5) The department of health shall, within up to seventy percent of available funds, provide grants to local health departments or other local community agencies to develop and implement coordinated tobacco and vapor product intervention strategies to prevent and reduce tobacco and vapor product use by youth. During the 2019-2021 fiscal biennium, the department of health shall, within up to seventy-seven percent of available funds, provide grants to local health departments or other local community agencies to develop and implement coordinated tobacco and vapor product intervention strategies to prevent and reduce tobacco and vapor product use by youth.

Sec. 985. RCW 71.24.580 and 2018 c 205 s 2 and 2018 c 201 s 4044 are each reenacted and amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. ~~((It is the intent of the legislature to continue in the 2019-2021 biennium the policy of transferring to the state general fund such amounts as reflect the excess fund balance of the account.))~~ During the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the home security fund account created in RCW 43.185C.060. It is the intent of the legislature to continue the policy of transferring moneys from the criminal justice treatment account to the home security fund account in subsequent biennia. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a

representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

Sec. 986. RCW 76.04.610 and 2018 c 299 s 912 are each amended to read as follows:

(1)(a) If any owner of forestland within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

Year	Number of Parcels
2002	10 or more parcels
2003	8 or more parcels
2004 and thereafter	6 or more parcels

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forestlands.

(4) For the purpose of this chapter, the department may divide the forestlands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forestlands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forestlands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660. During the 2017-2019 and 2019-2021 fiscal (~~biennium~~) biennia, the legislature may appropriate moneys from the account for department of natural resources wildfire response and forest health activities. It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forestland included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forestlands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Receipts from appropriations, the surcharge imposed under RCW 82.04.261, and other sources must be deposited into the account. Expenditures from the account may be made only after appropriation by the legislature. During the 2019-2021 fiscal biennium, the legislature may appropriate moneys from the account for activities to implement this chapter.

Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2015-2017 ~~((and)),~~ 2017-2019, and 2019-2021 fiscal biennia, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. HUMAN SERVICES**

Sec. 1101. 2018 c 299 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state

moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled,

EIGHTY FIRST DAY, APRIL 4, 2019

2019 REGULAR SESSION

times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and 208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2018))~~ 2019, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year ~~((2018))~~ 2019 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2018))~~ 2019 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, foster care, adoption support, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year ~~((2018))~~ 2019.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year ~~((2018))~~ 2019.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) \$2,841,000 of the general fund—state appropriation for fiscal year 2018 and \$2,841,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for grants to county juvenile courts for the following juvenile justice programs identified by the Washington state institute for public policy (institute) in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." Additional funding for this purpose is provided through an interagency agreement with the health care authority. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(3) \$1,537,000 of the general fund—state appropriation for fiscal year 2018 and \$1,537,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for expansion of the following juvenile justice treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(4)(a) \$6,198,000 of the general fund—state appropriation for fiscal year 2018 and \$6,198,000 of the general fund—state appropriation for fiscal year 2019 are provided solely to implement evidence- and research-based programs through community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants. (b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration

shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for the assessment of low, moderate, and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency and mental health disposition alternative; and (vi) two percent for the suspended dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(c) If Second Substitute House Bill No. 1280 (referred and diverted youth) is enacted, then the administration must implement a stop-loss policy when allocating funding under (b) of this subsection in the 2017-2019 fiscal biennium. Under the stop-loss policy, funding formula changes may not result in a funding loss for any juvenile court of more than two percent from one year to the next. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 – 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. If the bill is not enacted by July 31, 2017, this subsection is null and void.

(d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts must work collaboratively to develop program outcomes that reinforce the greatest cost/benefit to the state in the implementation of evidence-based practices and disposition alternatives.

Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services on the youth and the community.

(9) The juvenile rehabilitation institutions may use funding appropriated in this subsection to purchase goods and supplies through hospital group purchasing organizations when it is cost-effective to do so.

The department and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the department shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) \$1,760,000 of the general fund—federal appropriation is provided solely for the department to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The department must collect data and submit a report to the office of financial management and the appropriate committees of the legislature on the impact of peer staff on state hospital discharges and community placements by December 1, 2017.

(e) \$11,405,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The department must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. The department must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive

behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The department must apply for a waiver from the center for medicaid and medicare services to allow for the full cost of stays in institutions of mental diseases to be included in fiscal year 2019 behavioral health organization capitation rates. The department may tailor the fiscal year 2019 waiver to specific populations for which the center for medicaid and medicare services has indicated they are likely to approve and work to further expand the waiver to other populations in fiscal year 2020. The department must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2017.

(f) \$81,930,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) \$1,125,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) \$1,204,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$2,291,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The department must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(l) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(m) The department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) \$2,309,000 of the general fund—state appropriation for fiscal year 2018 and \$2,169,000 of the general fund—federal appropriation are provided solely for the department to increase rates for community hospitals that provide a minimum of 200 medicaid psychiatric inpatient days. The department must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The department shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rate for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(o) \$100,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the department to collaborate with tribal governments and develop a plan for establishing an evaluation and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The plan must include options for maximizing federal participation and, ensure that utilization will be based on medical necessity, and identify a specific geographic location where a tribal evaluation and treatment facility will be built.

(p) \$1,466,000 of the general fund—state appropriation for fiscal year 2018 and \$1,663,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide up to forty-eight long-term inpatient care beds as defined in RCW 71.24.025. The department must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The department must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. The department must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(q) \$4,983,000 of the general fund—state appropriation for fiscal year 2018 and \$10,849,000 of the general fund—federal appropriation are provided solely for the department to increase medicaid capitation payments for behavioral health organizations. The department must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the department must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The department must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(r) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be 557 per day. In fiscal year 2019, the department must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by 30 beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(s) \$11,405,000 of the general fund—state appropriation for fiscal year 2018 and \$8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows individuals to be diverted or transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term

In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

(t) \$200,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for clubhouse programs. The department must develop options and cost estimates for implementation of clubhouse programs statewide through a medicaid state plan amendment or a medicaid waiver and submit a report to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

The department, in collaboration with the health care authority, shall provide a report by October 15, 2018, to the office of financial management and the appropriate fiscal and policy committees of the legislature to include the number of individuals served, outcomes to include reduced use of inpatient treatment and state hospital stays, and recommendations for further implementation based on lessons learned and best practices identified by the pilot projects.

(v) The department, in collaboration with the health care authority, shall work to ensure that a single platform provider credentialing system is implemented. The authority and department shall ensure that appropriate cost offsets and cost avoidance are assumed for reduced staff time required for provider credentialing activity and reductions in improper billing activity when implementing provider credentialing systems.

(w) No more than \$6,464,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the department and the health care authority shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the

(iii) When reviewing placement options, the department must consider the safety of other residents, as well as the safety of staff, in a facility. An initial evaluation of each placement, including any documented safety concerns, must occur within thirty days of a client leaving one of the state psychiatric hospitals and entering one of the community placement options described in (j)(i) of this subsection. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the ~~((2017-2019))~~ 2019-2021 omnibus appropriations act will be used to increase dental provider reimbursement rates. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (ii) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (iii) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (iv) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services. Prior to the 2018 legislative session, the human services, health care, and judiciary committees of the legislature will convene a joint work session to review models in the delivery system and the impacts on medical liability. The work sessions should include integrated delivery models with multiple health care providers and medical malpractice insurance carriers. Beginning May 1, 2019, participation in all initiatives under the medicaid transformation demonstration waiver is frozen at current participation levels. No new participants may be added to any initiative under this demonstration waiver without further federal approval.

(f) No more than \$38,425,000 of the general fund—federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund—state expenditures under this initiative. (h) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(i) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(j) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(k) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (i) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2015, (ii) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (iii) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$359,000 of the general fund—state appropriation for fiscal year 2018 and (~~(\$361,000)~~) \$553,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

EIGHTY FIRST DAY, APRIL 4, 2019

2019 REGULAR SESSION

(a) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the health care authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the health care authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380.

(b) \$6,590,000 of the general fund—state appropriation for fiscal year 2019 and \$3,810,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under (f) of this subsection. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) From the general fund—state appropriations in this subsection, the authority shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(d) \$1,760,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities.

The authority must seek proposals from behavioral health organizations for the use of these funds based on regional priorities. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(f) \$81,930,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates

unless including these costs are specifically allowed under federal law or an approved waiver."

(g) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(h) \$1,125,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(j) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$2,291,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a

corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(n) \$3,079,000 of the general fund—state appropriation for fiscal year 2019 and \$2,892,000 of the general fund—federal appropriation are provided solely for the authority to increase rates for community hospitals that provide a minimum of two hundred medicaid psychiatric inpatient days. The authority must increase both medicaid and nonmedicaid psychiatric per-diem reimbursement rates for these providers within these amounts. The amounts in this subsection include funding for additional hold harmless payments resulting from the rate increase. The authority shall prioritize increases for hospitals not currently paid based on provider specific costs using a similar methodology used to set rates for existing inpatient facilities and the latest available cost report information. Rate increases for providers must be set so as not to exceed the amounts provided within this subsection. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

(o) \$100,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority to collaborate with tribal governments and develop a plan for establishing an evaluation and treatment facility that will specialize in providing care specifically to the American Indian and Alaska Native population. The authority must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The authority must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

(q) \$1,133,000 of the general fund—state appropriation for fiscal year 2019 and \$1,297,000 of the general fund—federal appropriation are provided solely to increase the number of psychiatric residential treatment beds for individuals transitioning from psychiatric inpatient settings. The authority must seek proposals from behavioral health organizations for the use of these amounts and coordinate with the department of social and health services in awarding these funds. The authority must not allow for any of the amounts provided under this subsection to be used for services in facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

The authority must work with the actuaries responsible for certifying behavioral health capitation rates to adjust average salary assumptions in order to implement this increase. In developing further updates for medicaid managed care rates for behavioral health services, the authority must require the contracted actuaries to: (i) Review and consider comparison of salaries paid by government agencies and hospitals that compete with community providers for behavioral health workers in developing salary assumptions; and (ii) review data to see whether a specific travel assumption for high congestion areas is warranted. The authority must include and make available all applicable documents and analysis to legislative staff from the fiscal committees throughout the process. The authority must require the actuaries to develop and submit rate ranges for each behavioral health organization prior to certification of specific rates.

(s) The number of beds allocated for use by behavioral health organizations at eastern state hospital shall be one hundred ninety two per day. The number of nonforensic beds allocated for use by behavioral health organizations at western state hospital shall be five hundred fifty-seven per day. In fiscal year 2019, the authority must reduce the number of beds allocated for use by behavioral health organizations at western state hospital by thirty beds to allow for the repurposing of a civil ward at western state hospital to provide forensic services. The contracted beds provided under (p) of this subsection shall be allocated to the behavioral health organizations in lieu of beds at the state hospitals and be incorporated in their allocation of state hospital patient days of care for the purposes of calculating reimbursements pursuant to RCW 71.24.310. It is the intent of the legislature to continue the policy of expanding community based alternatives for long term civil commitment services that allow for state hospital beds to be prioritized for forensic patients.

(t) \$11,405,000 of the general fund—state appropriation for fiscal year 2019 and \$8,840,000 of the general fund—federal appropriation are provided solely to maintain enhancements of community mental health services. In contracting for community evaluation and treatment services, the authority may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the authority is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting for that service in another region that has the need for such service.

This funding must be allocated to behavioral health organizations proportionate to their regional population. In order to receive these funds, each region must submit a plan to address the following issues: (i) Reduction in their use of long-term commitment beds through community alternatives; (ii) compliance with RCW 71.05.365 requirements for transition of state hospital patients into community settings within fourteen days of the determination that they no longer require active psychiatric treatment at an inpatient level of care; (iii) improvement of staff recruitment and retention in community behavioral health facilities; (iv) diversion of individuals with behavioral health issues from the criminal justice system; and (v) efforts to improve recovery oriented services, including, but not limited to, expansion of clubhouse models. The plans are not limited to the amounts in this subsection and may factor in all resources available for behavioral health. The authority must identify metrics for tracking progress in each of the areas identified. The authority must collect information on the metrics and outcomes and submit a report summarizing the findings to the office of financial management and the appropriate committees of the legislature by June 30, 2020. Twenty percent of the general fund—state appropriation amounts for each behavioral health organization must be used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates up to but not exceeding the top of each behavioral health organizations medicaid rate range.

(qq) \$11,023,000 of the general fund—state appropriation for fiscal year 2019 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The authority must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2019 capitation rates because they exceeded the amounts allowed under federal regulations. The authority must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee-for-service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health

organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The authority must explore options for continuing to expand waivers which allow for federal matching funds to be used in these facilities. The authority must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2018.

(rr) \$14,500,000 of the general fund—state appropriation for fiscal year 2019 is provided solely to ensure a smooth transition to integrated managed care for behavioral health regions and to maintain the existing level of regional behavioral health crisis and diversion programs, and other required behavioral health administrative service organization services. These amounts must be used to support the regions transitioning to become mid-adopters for full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is \$3,175 per 1,000 residents. These amounts must be used to provide a reserve for nonmedicaid services in the region and to stabilize the new crisis services system. The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for start-up costs in full integration regions. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers.

(ss) \$806,000 of the general fund—federal appropriation is provided solely for the authority to develop a peer support program for individuals with substance use disorders. These amounts must be used for development of training and certification of peers specialists. The authority must submit a state plan amendment which provides for these services to be included in behavioral health capitation rates beginning in fiscal year 2020 and allows for federal matching funds to be leveraged for these services.

(tt) \$200,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority, in collaboration with the department of social and health services, to further develop efforts to shift funding and risk for most civil long-term inpatient commitments into fully integrated care contracts beginning in January 2020. The funding and risk for patients at the state hospitals who have been committed pursuant to dismissal of felony charges after being determined incompetent to stand trial shall not be incorporated into integrated care contracts.

(i) By December 1, 2018, the authority, in coordination with the department of social and health services, must submit a report to the office of financial management and the appropriate committees of the legislature on the following: (A) Actuarial estimates on the impact to per member per month payments and estimated annual state and federal costs for medicaid managed care organizations with fully integrated contracts; (B) actuarial estimates on the estimated annual costs for administrative services organizations; (C) estimates of the per-diem cost at the state hospitals that will be charged to entities with responsibility for paying for long-term civil inpatient commitments once these are incorporated into fully integrated care contracts; and (D) estimates of the amount of funding that can be reduced from direct

appropriations for the state hospitals to reflect the shift in financial responsibility.

(ii) The authority must also explore and report on options for fully leveraging the state’s share of federal medicaid disproportionate share funding allowed for institutions of mental diseases, including but not limited to: (A) Prioritizing the use of this funding for forensic patients and those civilly committed pursuant to dismissal of a felony charge; (B) obtaining an institution for mental diseases—disproportionate share hospital waiver to allow for regular medicaid federal financial participation to be used at the state hospitals; and (C) shifting some of the state’s current disproportionate share funding used at the state hospitals to community-based institutions for mental diseases to reduce the state cost of patients for whom regular federal medicaid match is not allowed.

(uu) \$2,732,000 of the general fund—state appropriation for fiscal year 2019 and \$9,026,000 of the general fund—federal appropriation are provided solely for the authority to implement strategies to improve access to prevention and treatment of opioid use disorders. The authority must coordinate these activities with the department of health to avoid duplication of effort and must work to identify additional federal resources that can be used to maintain and expand these efforts. The authority must submit a report to the office of financial management and the appropriate committees of the legislature on the status of these efforts by December 1, 2018. The report must include identification of any increase in behavioral health federal block grants or other federal funding awards received by the authority and the plan for the use of these funds.

(vv) \$150,000 of the general fund—state appropriation for fiscal year 2019 is provided solely for the authority to contract with actuaries to develop estimates for the cost of implementing new behavioral health service types in the medicaid state plan. The authority must coordinate with behavioral health organizations to identify: (i) Eligible behavioral health service types that are currently provided to medicaid enrollees without federal funding and are dependent on state, local, or other funds; and (ii) eligible behavioral health service types that are not currently available to medicaid enrollees due to the lack of federal funding. The authority must contract with the actuaries responsible for certifying state behavioral health capitation rates to develop estimates for the cost of implementing each of these services. The estimates must identify the cost of implementing each service statewide, the estimated state and federal medicaid cost, and any estimated offset in state non-medicaid spending. The authority must submit a report to the office of financial management and the appropriate committees of the legislature identifying the services and costs estimates by November 1, 2018.

(ww) \$446,000 of the general fund—state appropriation for fiscal year 2019 and \$89,000 of the general fund—federal appropriation are provided solely for the University of Washington’s evidence-based practice institute which supports the identification, evaluation, and implementation of evidence-based or promising practices. Under this initiative, the department and the health care authority shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The department shall not increase general fund—state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the student achievement council, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.

Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

(iii) Stormwater pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(iv) Hazardous waste plans and programs under chapter 70.105 RCW;

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government stormwater planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those

actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (c)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 and the 2015-2017 fiscal biennia, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the stormwater financial assistance program administered by the department of ecology.

(11) During the 2017-2019 fiscal biennium:

(a) The state toxics control account, the local toxics control account, and the environmental legacy stewardship account may be used for interchangeable purposes and funds may be transferred between accounts to accomplish those purposes.

I think we've done, until this last speech, I think we're doing a great job of debating a controversial topic without personalities and I want to point out that we are required, all of you are required of your own rules to debate the amendment that's before you and not to engage in speculation about what is relatively important to the governor one thing versus another that's not even within the scope of the topic of this amendment not to mention the larger issue of amity and appropriateness So what is asked that we continue to be respectful as we continue this debate."

I did not hear Senator Darneille suggest that this was brought in in bad faith or that Senator Brown does not wish to have this policy pass but I would ask everyone on both – Senator Short your point, I do I think it's it is well taken in the sense that we all need to be careful to ask everyone on both sides of the aisle to just be delicate We are I think on amendment five of forty five right now. MOTION

EIGHTY FIRST DAY, APRIL 4, 2019

2019 REGULAR SESSION

On page 75, line 14, increase the general fund—state appropriation for fiscal year 2020 by \$19,907,000

On page 75, line 16, increase the general fund—federal appropriation by \$19,908,000

On page 75, line 23, correct the total

On page 385, after line 31, insert the following:

"Sec. 995. RCW 74.46.561 and 2017 c 286 s 2 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be set so that a nursing home provider's direct care rate does not exceed one hundred eighteen percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using county wide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the ~~((RS means))~~ RSMMeans rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census

from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility ~~((RS means))~~ RSMMeans construction index value per square foot for Washington state. The department may use updated ~~((RS means))~~ RSMMeans construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average ~~((FRV [fair rental value]))~~ fair rental value rate is not less than ten dollars and eighty cents ~~((ppd [per patient day]))~~ per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or

changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average ((~~CMS [centers for medicare and medicaid services]~~)) centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure ((~~QM~~)) point determinants of eighty ((~~QM~~)) quality measure points, sixty ((~~QM~~)) quality measure points, forty ((~~QM~~)) quality measure points, and twenty ((~~QM~~)) quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the center for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average ((~~CMS [centers for medicare and medicaid services]~~)) centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient ((~~CMS [centers for medicare and medicaid services]~~)) centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average ((~~CMS [centers for medicare and medicaid services]~~)) centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine

the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. In addition, rates paid beginning July 1, 2019, must be rebased on the 2017 calendar year cost report. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019."
