By June 30, 2016, the department shall report to the governor and the house of representatives and senate transportation committees on where practical design has been applied or is intended to be applied in the department and the cost savings resulting from the use of practical design. This subsection takes effect if chapter . . . (Substitute House Bill No. 2012), Laws of 2015 is not enacted by June 30, 2015.

NEW SECTION. **Sec. 601. FUND TRANSFERS**

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in the LEAP list titled 2015-1 as developed May 26, 2015, which consists of a list of specific projects by fund source and amount over a ten-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a ten-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section does not apply to the I-5/Columbia River Crossing project (400506A). For the 2015-2017 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2016 supplemental omnibus transportation appropriations act, any unexpended 2013-2015 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;

(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;

(e) Transfers may not occur for projects not identified on the applicable project list;

(f) Transfers may not be made while the legislature is in session; and

(g) Transfers between projects may be made, without the approval of the director of the office of financial management, by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

(2) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(4) The office of financial management shall document approved transfers and schedule changes in the transportation executive information system, compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP transportation documents referenced in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. **Sec. 602. FOR THE DEPARTMENT OF TRANSPORTATION**

As part of its 2016 supplemental budget submittal, the department shall provide a report to the legislature and the office of financial management that:

(2) Identifies, for each project, the amount of cost savings or increases in funding that have been identified as compared to the 2013 enacted omnibus transportation appropriations act.

(3) As part of the agency request for capital programs, the department shall load reappropriations separately from funds that were assumed to be required for the 2015-2017 fiscal biennium into budgeting systems.

NEW SECTION. **Sec. 603. FOR THE DEPARTMENT OF TRANSPORTATION**

(1) The department shall submit a report to the transportation committees of the legislature detailing engineering errors on highway construction projects resulting in project cost increases in excess of five hundred thousand dollars. The department must submit a full report within ninety days of the negotiated change order resulting from the engineering error.

(2) The department's full report must include an assessment and review of:

(a) How the engineering error happened;

(b) The department of the employee or employees responsible for the engineering error, without disclosing the name of the employee or employees;

(c) What corrective action was taken;

(d) The estimated total cost of the engineering error and how the department plans to mitigate that cost;

(e) Whether the cost of the engineering error will impact the overall project financial plan; and

(f) What action the secretary has recommended to avoid similar engineering errors in the future.

NEW SECTION. **Sec. 605.** To the extent that any appropriation authorizes expenditures of state funds from the motor vehicle account, special category C account, Tacoma Narrows toll bridge account, transportation 2003 account (nickel account), transportation partnership account, transportation improvement account, Puget Sound capital construction account, multimodal transportation account, state route number 520 corridor account, or other transportation capital project account in the state treasury for a state transportation program that is specified to be funded with proceeds from the sale of bonds authorized in chapter 47.10 RCW, the legislature declares that any such expenditures made prior to the issue date of the applicable transportation bonds for that state transportation program are intended to be reimbursed from proceeds of those transportation bonds in a maximum amount equal to the amount of such appropriation.

NEW SECTION. **Sec. 607. VOLUNTARY RETIREMENT AND SEPARATION INCENTIVES**

As a management tool to reduce costs and make more effective use of resources, while improving employee productivity and morale, agencies may implement a voluntary retirement and/or separation program that is cost neutral or results in cost savings, including costs to the state pension systems, over a two-year period following the commencement of the program, provided that the program is approved by the director of financial management. Agencies participating in this authorization may offer voluntary retirement and/or separation incentives and options according to procedures and guidelines established by the office of financial management, in consultation with the office of the state human resources director and the department of retirement systems. The options may include, but are not limited to, financial incentives for voluntary separation or retirement. An employee does not have any contractual right to a financial incentive offered pursuant to this section. Offers must be reviewed and monitored jointly by the office of the state human resources director and the department of retirement systems. Agencies must submit a report by June 30, 2017, to the legislature and the office of financial management on the outcome of their approved incentive program. The report should include information on the details of the program, including the incentive payment amount for each participant, the total cost to the state, and the projected or actual net dollar savings over the two-year period.

The department of retirement systems may collect from employers the actuarial cost of any incentive provided under this program, or any other incentive to retire provided by employers to members of the state's pension systems, for deposit in the appropriate pension account.

Sec. 702. RCW 46.63.170 and 2013 c 306 s 711 are each amended to read as follows:

(1) The use of automated traffic safety cameras for issuance of notices of infraction is subject to the following requirements:

(a) The appropriate local legislative authority must prepare an analysis of the locations within the jurisdiction where automated traffic safety cameras are proposed to be located: (i) Before enacting an ordinance allowing for the initial use of automated traffic safety cameras; and (ii) before adding additional cameras or relocating any existing camera to a new location within the jurisdiction. Automated traffic safety cameras may be used to detect one or more of the following: Stoplight, railroad crossing, or school speed zone violations. At a minimum, the local ordinance must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to enact an authorizing ordinance. Beginning one year after June 7, 2012, cities and counties using automated traffic safety cameras must post an annual report of the number of traffic accidents that occurred at each location where an automated traffic safety camera is located as well as the number of notices of infraction issued for each camera and any other relevant information about the automated traffic safety cameras that the city or county deems appropriate on the city's or county's web site.

(b) Use of automated traffic safety cameras is restricted to the following locations only: (i) Intersections of two arterials with traffic control signals that have yellow change interval durations in accordance with RCW 47.36.022, which interval durations may not be reduced after placement of the camera; (ii) railroad crossings; and (iii) school speed zones.

(c) During the ((~~2011-2013 and~~)) 2013-2015 and 2015-2017 fiscal biennia, automated traffic safety cameras may be used to detect speed violations for the purposes of ((~~section 201(2), chapter 367, Laws of 2011 and~~)) section 201(4), chapter 306, Laws of 2013 and section 201(1) of this act if the local legislative authority first enacts an ordinance authorizing the use of cameras to detect speed violations.

(d) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle. The primary purpose of camera placement is to take pictures of the vehicle and vehicle license plate when an infraction is occurring. Cities and counties shall consider installing cameras in a manner that minimizes the impact of camera flash on drivers.

(e) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter's name and address under subsection (3)(a) of this section. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(f) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(d) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (3) of this section. If appropriate under the circumstances, a renter identified under subsection (3)(a) of this section is responsible for an infraction.

(g) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(h) All locations where an automated traffic safety camera is used must be clearly marked at least thirty days prior to activation of the camera by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic safety camera. Signs placed in automated traffic safety camera locations after June 7, 2012, must follow the specifications and guidelines under the manual of uniform traffic control devices for streets and highways as adopted by the department of transportation under chapter 47.36 RCW.

(i) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(2) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(((~~3~~))) (2). The amount of the fine issued for an infraction generated through the use of an automated traffic safety camera shall not exceed the amount of a fine issued for other parking infractions within the jurisdiction. However, the amount of the fine issued for a traffic control signal violation detected through the use of an automated traffic safety camera shall not exceed the monetary penalty for a violation of RCW 46.61.050 as provided under RCW 46.63.110, including all applicable statutory assessments.

(3) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(4) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(5) For the purposes of this section, "automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit in a school speed zone as detected by a speed measuring device. During the ((~~2011-2013 and~~)) 2013-2015 and 2015-2017 fiscal biennia, an automated traffic safety camera includes a camera used to detect speed violations for the purposes of ((~~section 201(2), chapter 367, Laws of 2011 and~~)) section 201(4), chapter 306, Laws of 2013 and section 201(1) of this act.

(6) During the 2011-2013 and 2013-2015 fiscal biennia, this section does not apply to automated traffic safety cameras for the purposes of section 216(5), chapter 367, Laws of 2011 and section 216(6), chapter 306, Laws of 2013.

(2) Beginning September 2011, by the last day of September, December, March, and June of each year, the state treasurer shall transfer from the multimodal transportation account to the rural mobility grant program account two million five hundred thousand dollars.

(3) During the ((~~2011-2013 and~~)) 2013-2015 and 2015-2017 fiscal biennia, the legislature may transfer from the rural mobility grant program account to the multimodal transportation account such amounts as reflect the excess fund balance of the rural mobility grant program account.

Sec. 704. RCW 47.29.170 and 2013 c 306 s 708 are each amended to read as follows:

Before accepting any unsolicited project proposals, the commission must adopt rules to facilitate the acceptance, review, evaluation, and selection of unsolicited project proposals. These rules must include the following:

(1) Provisions that specify unsolicited proposals must meet predetermined criteria;

(2) Provisions governing procedures for the cessation of negotiations and consideration;

(3) Provisions outlining that unsolicited proposals are subject to a two-step process that begins with concept proposals and would only advance to the second step, which are fully detailed proposals, if the commission so directed;

(4) Provisions that require concept proposals to include at least the following information: Proposers' qualifications and experience; description of the proposed project and impact; proposed project financing; and known public benefits and opposition; and

(5) Provisions that specify the process to be followed if the commission is interested in the concept proposal, which must include provisions:

(a) Requiring that information regarding the potential project would be published for a period of not less than thirty days, during which time entities could express interest in submitting a proposal;

(b) Specifying that if letters of interest were received during the thirty days, then an additional sixty days for submission of the fully detailed proposal would be allowed; and

(c) Procedures for what will happen if there are insufficient proposals submitted or if there are no letters of interest submitted in the appropriate time frame.

The commission may adopt other rules as necessary to avoid conflicts with existing laws, statutes, or contractual obligations of the state.

The commission may not accept or consider any unsolicited proposals before July 1, ((~~2015~~)) 2017.

Sec. 705. RCW 47.56.403 and 2013 c 306 s 709 are each amended to read as follows:

(1) The department may provide for the establishment, construction, and operation of a pilot project of high occupancy toll lanes on state route 167 high occupancy vehicle lanes within King county. The department may issue, buy, and redeem bonds, and deposit and expend them; secure and remit financial and other assistance in the construction of high occupancy toll lanes, carry insurance, and handle any other matters pertaining to the high occupancy toll lane pilot project.

(2) Tolls for high occupancy toll lanes will be established as follows:

(a) The schedule of toll charges for high occupancy toll lanes must be established by the transportation commission and collected in a manner determined by the commission.

(b) Toll charges shall not be assessed on transit buses and vanpool vehicles owned or operated by any public agency.

(c) The department shall establish performance standards for the state route 167 high occupancy toll lane pilot project. The department must automatically adjust the toll charge, using dynamic tolling, to ensure that toll-paying single-occupant vehicle users are only permitted to enter the lane to the extent that average vehicle speeds in the lane remain above forty-five miles per hour at least ninety percent of the time during peak hours. The toll charge may vary in amount by time of day, level of traffic congestion within the highway facility, vehicle occupancy, or other criteria, as the commission may deem appropriate. The commission may also vary toll charges for single-occupant inherently low-emission vehicles such as those powered by electric batteries, natural gas, propane, or other clean burning fuels.

(d) The commission shall periodically review the toll charges to determine if the toll charges are effectively maintaining travel time, speed, and reliability on the highway facilities.

(3) The department shall monitor the state route 167 high occupancy toll lane pilot project and shall annually report to the transportation commission and the legislature on operations and findings. At a minimum, the department shall provide facility use data and review the impacts on:

(a) Freeway efficiency and safety;

(b) Effectiveness for transit;

(c) Person and vehicle movements by mode;

(d) Ability to finance improvements and transportation services through tolls; and

(e) The impacts on all highway users. The department shall analyze aggregate use data and conduct, as needed, separate surveys to assess usage of the facility in relation to geographic, socioeconomic, and demographic information within the corridor in order to ascertain actual and perceived questions of equitable use of the facility.

(4) The department shall modify the pilot project to address identified safety issues and mitigate negative impacts to high occupancy vehicle lane users.

(5) Authorization to impose high occupancy vehicle tolls for the state route 167 high occupancy toll pilot project expires if either of the following two conditions apply:

(a) If no contracts have been let by the department to begin construction of the toll facilities associated with this pilot project within four years of July 24, 2005; or

(b) If high occupancy vehicle tolls are being collected on June 30, ((~~2015~~)) 2017.

(6) The department of transportation shall adopt rules that allow automatic vehicle identification transponders used for electronic toll collection to be compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits.

(7) The conversion of a single existing high occupancy vehicle lane to a high occupancy toll lane as proposed for SR-167 must be taken as the exception for this pilot project.

(8) A violation of the lane restrictions applicable to the high occupancy toll lanes established under this section is a traffic infraction.

(9) Procurement activity associated with this pilot project shall be open and competitive in accordance with chapter 39.29 RCW.

Sec. 706. RCW 47.56.876 and 2013 c 306 s 710 are each amended to read as follows:

A special account to be known as the state route number 520 civil penalties account is created in the state treasury. All state route number 520 bridge replacement and HOV program civil penalties generated from the nonpayment of tolls on the state route number 520 corridor must be deposited into the account, as provided under RCW 47.56.870(4)(b)(vii). Moneys in the account may be spent only after appropriation. Expenditures from the account may be used to fund any project within the state route number 520 bridge replacement and HOV program, including mitigation. During the ((~~2011-2013 and~~)) 2013-2015 and 2015-2017 fiscal biennia, the legislature may transfer from the state route number 520 civil penalties account to the state route number 520 corridor account such amounts as reflect the excess fund balance of the state route number 520 civil penalties account. Funds transferred must be used solely for capital expenditures for the state route number 520 bridge replacement and HOV project (((~~8BI1003~~))).

Sec. 707. RCW 47.64.170 and 2013 c 306 s 521 are each amended to read as follows:

(1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of the employer or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with anyone other than the person who has been appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined

by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the commencement of the biennial budget year during which the agreements are to be in effect. After the expiration date of a collective bargaining agreement negotiated under this chapter, except to the extent provided in subsection (11) of this section and RCW 47.64.270(4), all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) The office of financial management shall conduct a salary survey, for use in collective bargaining and arbitration, which must be conducted through a contract with a firm nationally recognized in the field of human resources management consulting except during the 2015-2017 fiscal biennium.

(9) Except as provided in subsection (11) of this section:

(a) The governor shall submit a request either for funds necessary to implement the collective bargaining agreements including, but not limited to, the compensation and fringe benefit provisions or for legislation necessary to implement the agreement, or both. Requests for funds necessary to implement the collective bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(b) The governor shall submit a request either for funds necessary to implement the arbitration awards or for legislation necessary to implement the arbitration awards, or both. Requests for funds necessary to implement the arbitration awards shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(c) The legislature shall approve or reject the submission of the request for funds necessary to implement the collective bargaining agreements or arbitration awards as a whole for each agreement or award. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement and award or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 47.64.210 and 47.64.300.

(10) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(11)(a) For the collective bargaining agreements negotiated for the 2011-2013 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement even if the request for funds was not received by the office of financial management by October 1st and was not transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

(b) For the 2013-2015 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee must be a separate agreement for which the governor may request funds necessary to implement the agreement. The legislature may act upon a 2013-2015 collective bargaining agreement related to employee health care benefits if an agreement is reached and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(c) For the collective bargaining agreements negotiated for the 2013-2015 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement reached after October 1st after a determination of financial infeasibility by the director of the office of financial management if the request for funds is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

Sec. 708. RCW 82.70.020 and 2014 c 222 s 704 are each amended to read as follows:

(1) Employers in this state who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to their own or other employees for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before July 1, ((~~2015~~)) 2017, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed sixty dollars per employee per fiscal year.

(2) Property managers who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to persons employed at a worksite in this state managed by the property manager for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before July 1, ((~~2015~~)) 2017, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of these persons for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed sixty dollars per person per fiscal year.

(3) The credit under this section is equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per fiscal year. No refunds may be granted for credits under this section.

(4) A person may not receive credit under this section for amounts paid to or on behalf of the same employee under both chapters 82.04 and 82.16 RCW.

Sec. 709. RCW 82.70.040 and 2014 c 222 s 705 are each amended to read as follows:

(1)(a)(i) The department shall keep a running total of all credits allowed under RCW 82.70.020 during each fiscal year. The department shall not allow any credits that would cause the total amount allowed to exceed two million seven hundred fifty thousand dollars in any fiscal year. This limitation includes any deferred credits carried forward under subsection (2)(b)(i) of this section from prior years.

(ii) During the 2013-2015 and 2015-2017 fiscal ((~~biennium~~)) biennia, the department shall not allow any credits that would cause the total amount allowed to exceed one million five hundred thousand dollars in any fiscal year. (b) If the total amount of credit applied for by all applicants in any year exceeds the limit in this subsection, the department shall ratably reduce the amount of credit allowed for all applicants so that the limit in this subsection is not exceeded. If a credit is reduced under this subsection, the amount of the reduction may not be carried forward and claimed in subsequent fiscal years.

(2)(a) Tax credits under RCW 82.70.020 may not be claimed in excess of the amount of tax otherwise due under chapter 82.04 or 82.16 RCW.

(b)(i) Through June 30, 2005, a person with taxes equal to or in excess of the credit under RCW 82.70.020, and therefore not subject to the limitation in (a) of this subsection, may elect to defer tax credits for a period of not more than three years after the year in which the credits accrue. No credits deferred under this subsection (2)(b)(i) may be used after June 30, 2008. A person deferring tax credits under this subsection (2)(b)(i) must submit an application as provided in RCW 82.70.025 in the year in which the deferred tax credits will be used. This application is subject to the provisions of subsection (1) of this section for the year in which the tax credits will be applied. If a deferred credit is reduced under subsection (1)(b) of this section, the amount of deferred credit disallowed because of the reduction may be carried forward as long as the period of deferral does not exceed three years after the year in which the credit was earned.

(ii) For credits approved by the department after June 30, 2005, the approved credit may be carried forward to subsequent years until used. Credits carried forward as authorized by this subsection are subject to the limitation in subsection (1)(a) of this section for the fiscal year for which the credits were originally approved.

(3) No person shall be approved for tax credits under RCW 82.70.020 in excess of two hundred thousand dollars in any fiscal year. This limitation does not apply to credits carried forward from prior years under subsection (2)(b) of this section.

(4) No person may claim tax credits after June 30, ((~~2015~~)) 2017.

(5) Credits may not be carried forward other than as authorized in subsection (2)(b) of this section.

(6) No person is eligible for tax credits under RCW 82.70.020 if the additional revenues for the multimodal transportation account created by Engrossed Substitute House Bill No. 2231 are terminated.

The goal is to enable the department of transportation to construct bridge and highway projects more quickly and to build and operate them at a lower cost, while ensuring that appropriate environmental and regulatory protections are maintained and a quality project is delivered. The joint transportation committee must convene an advisory panel to provide study guidance and discuss potential efficiencies and recommendations. The scope of the study must be limited to state-level policies and practices relating to the planning, design, permitting, construction, financing, and operation of department of transportation roadway and bridge projects. The study must:

(iii) Recommend changes to improve efficiency and save money; and

(iv) Identify potential savings to be achieved by adopting changes in practice or policy.

(b) The joint transportation committee shall issue a report of its findings to the house of representatives and senate transportation committees by December 31, 2013.

(2) The joint transportation committee shall coordinate a work group comprised of the department of licensing, the department of revenue, county auditors or other agents, and subagents to identify possible issues relating to the administration of, compliance with, and enforcement of the existing statutory requirement for a person to provide an unexpired driver's license when registering a vehicle. The work group shall provide recommendations on how administration and enforcement may be modified, as needed, to address any identified issues, including whether statutory changes may be needed. A report presenting the recommendations must be presented to the house of representatives and senate transportation committees by December 31, 2013.

The citizen appointee must be a Washington state resident of the area served by the bridge. At least two of the legislative members must be from the legislative districts served by the bridge. In addition to reviewing project and financing information, the subcommittee must also coordinate with the Oregon legislative oversight committee for the Columbia river crossing bridge.

(4) The joint transportation committee shall convene a work group to identify and evaluate internal refinance opportunities for the Tacoma Narrows bridge. The study must include a staff work group, including staff from the office of financial management, the transportation commission, the department of transportation, the office of the state treasurer, and the legislative transportation committees. The joint transportation committee shall issue a report of its findings to the house of representatives and the senate transportation committees by December 31, 2013.

(5) The joint transportation committee shall study and review the use of surplus property proceeds to fund facility replacement projects, and the possibility of using the north central region as a pilot. The joint transportation committee shall consult with the department of transportation and the office of financial management regarding the department's current process for prioritizing and funding facility improvement and replacement projects.

(6) $250,000 of the motor vehicle account—state appropriation is for the joint transportation committee to evaluate the current status of electric vehicle charging stations in Washington, and to make recommendations regarding potential business models for financially-sustainable electric vehicle charging networks and alternative roles for public and private sector participation in those business models. Public sector participation may include public financing, funding, facilitation, and other incentives to encourage installation of electric vehicle charging stations. In conducting the study, the committee must coordinate with the department of transportation and consult with local governments and stakeholders in the electric vehicle industry. The goal and related outcomes of the work group review are to provide recommendations to streamline processes, modernize policies, and identify potential information technology opportunities. Members of the work group shall only include county auditors, subagents, agents, and the department of licensing. The work group shall submit a report to the transportation committees of the legislature on or before December 1, 2014.

(8) The joint transportation committee shall coordinate a work group comprised of representatives from the department of licensing, the Washington state traffic safety commission, and other stakeholders as deemed necessary, along with interested legislators, to develop parameters for and make recommendations regarding a pilot program that would allow students to meet traffic safety education requirements online. Sec. 905. 2014 c 222 s 205 (uncodified) is amended to read as follows:

FOR THE TRANSPORTATION COMMISSION

Motor Vehicle Account—State Appropriation ..... ((~~$3,516,000~~))
$3,389,000

Multimodal Transportation Account—State
Appropriation..... $112,000

TOTAL APPROPRIATION ..... ~~$3,628,000~~
$3,501,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315, during the 2013-2015 fiscal biennium, the legislature authorizes the transportation commission to periodically review and, if necessary, adjust the schedule of fares for the Washington state ferry system only in

amounts not greater than those sufficient to generate the amount of revenue required by the biennial transportation budget. When adjusting ferry fares, the commission must consider input from affected ferry users by public hearing and by review with the affected ferry advisory committees, in addition to the data gathered from the current ferry user survey.

(2) Consistent with RCW 43.135.055 and 47.46.100, during the 2013-2015 fiscal biennium, the legislature authorizes the transportation commission to periodically review and, if necessary, adjust the schedule of toll charges applicable to the Tacoma Narrows bridge only in amounts not greater than those sufficient to support (a) any required costs for operating and maintaining the toll bridge, including the cost of insurance, (b) any amount required by law to meet the redemption of bonds and applicable interest payments, and (c) repayment of the motor vehicle fund.

(3) Consistent with RCW 43.135.055 and 47.56.880, during the 2013-2015 fiscal biennium, the legislature authorizes the transportation commission to set, periodically review, and, if necessary, adjust the schedule of toll charges applicable to the Interstate 405 express toll lanes.

(4)(a) $400,000 of the motor vehicle account—state appropriation is provided solely for the development of the business case for the transition to a road usage charge system as the basis for funding the state transportation system, from the current motor fuel tax system. The funds are provided for fiscal year 2014 only.

(b) The legislature finds that the efforts started in the 2011-2013 fiscal biennium regarding the transition to a road usage charge system represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012, augmented with participation by the joint transportation committee. The legislature further intends that the department of transportation continue to address administrative, technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the commission's efforts.

(c) For the purposes of this subsection (4), the commission shall:

(i) Develop preliminary road usage charge policies that are necessary to develop the business case, as well as supporting research and data that will guide the potential application in Washington;

(ii) Develop the preferred operational concept or concepts that reflect the preliminary policies;

(iii) Evaluate the business case for the road usage charge system that would result from implementing the preliminary policies and preferred operational concept or concepts. The evaluation must assess likely financial outcomes if the system were to be implemented; and

(iv) Identify and document policy and other issues that are deemed important to further refine the preferred operational concept or concepts and to gain public acceptance. These identified issues should form the basis for continued work beyond this funding cycle.

(d) The commission shall convene a steering committee to guide the development of the business case. The membership must be the same as provided in chapter 86, Laws of 2012, except that the membership must also include the joint transportation committee executive members.

(e) The commission shall submit a report of the business case to the governor and the transportation committees of the legislature by December 15, 2013. The report must also include a proposed budget and work plan for fiscal year 2015. A progress report must be submitted to the governor and the joint transportation committee by November 1, 2013, including a presentation to the joint transportation committee.

(5) $174,000 of the motor vehicle account—state appropriation is provided solely for the voice of Washington survey program. The funding must be utilized for continued program maintenance and two transportation surveys for the 2013-2015 fiscal biennium.

(6)(a) $450,000 of the motor vehicle account—state appropriation is provided solely for a work plan to further develop the concept of a road usage charge system. The work plan must include: Refinement of initial policy analysis and development, a concept of operations that incorporates refined policy inputs, and a financial analysis evaluating the operational concept. The refinement of initial policy analysis and development funded under this subsection must be supplemented by the products of complementary policy refinement tasks delegated to the department of transportation in section 214 ((~~of this act~~)), chapter 222, Laws of 2014 and the office of the state treasurer in section 703 ((~~of this act~~)), chapter 222, Laws of 2014. It is the intent of the legislature that consideration for potential planning for a pilot project and any risk analysis occur in the 2015 legislative session.

(b)(i) For the purposes of the refinement of initial policy analysis and development, the work plan must consider phasing and staging of how a road usage charge would be implemented as it relates to the types of vehicles that would be subject to a road usage charge and the nature and manner of a transition period.

(ii) For the purposes of this subsection (6)(b), the legislature intends that the commission focus its analysis by assuming that the exemptions under a road usage charge would be the same as those under the motor vehicle fuel and special fuel taxes. In addition, the commission must engage the road usage charge steering committee, which was reauthorized in chapter 306, Laws of 2013 for fiscal year 2014 and is hereby reauthorized in this act with the same membership, to continue in its role and, at a minimum, to guide the work specified in (a) of this subsection, including the following: Assessing and recommending the type of vehicles that would be subject to the road usage charge, and assessing and recommending the options for the timing and duration of the transition period. The steering committee shall report its findings and guidance to the commission by December 1, 2014.

(c)(i) For the purposes of the development of the concept of operations, the development must incorporate the products of (b) of this subsection, and, to the extent practicable, the products of work conducted by the department of transportation in section 214 ((~~of this act~~)), chapter 222, Laws of 2014 and the office of the state treasurer in section 703 ((~~of this act~~)), chapter 222, Laws of 2014.

(ii) To reduce system development and operational costs, for road user charge options that rely on in-vehicle devices to record mileage, the work plan must recommend how the state can utilize the technology and back-office platforms that are scheduled to be provided by commercial account managers under the Oregon road usage charge program.

(iii) In addition to a time permit and an odometer charge, the concept of operations recommendation must be developed to include a means for periodic payments based on mileage reporting utilizing methods other than onboard diagnostic in-vehicle devices.

(d) The work plan and recommendations, along with a proposed work plan and budget for the 2015-2017 fiscal biennium, must be submitted by the commission to the transportation committees of the legislature by January 15, 2015.

(7) Within existing resources, the commission shall undertake a study of the urban and rural financial and equity implications of a potential road usage charge system in Washington. The commission shall work with the department of transportation and the department of licensing to conduct this analysis. For any survey work that is considered, the commission should utilize the existing voice of Washington survey panel and budget to inform the study. The results must be presented to the governor and the legislature by January 15, 2015.

The appropriations in this section are subject to the following conditions and limitations:

(2) The real estate services division of the department must recover the cost of its efforts from sale proceeds and fund additional future sales from those proceeds.

(3) The legislature recognizes that the Dryden pit site (WSDOT Inventory Control (IC) No. 2-04-00103) is unused state-owned real property under the jurisdiction of the department, and that the public would benefit significantly from the complete enjoyment of the natural scenic beauty and recreational opportunities available at the site. Therefore, pursuant to RCW 47.12.080, the legislature declares that transferring the property to the department of fish and wildlife for recreational use and fish and wildlife restoration efforts is consistent with the public interest in order to preserve the area for the use of the public and the betterment of the natural environment. The department shall work with the department of fish and wildlife and transfer and convey the Dryden pit site to the department of fish and wildlife as-is for an adjusted fair market value reflecting site conditions, the proceeds of which must be deposited in the motor vehicle fund. The department is not responsible for any costs associated with the cleanup or transfer of this property. This subsection expires June 30, 2014.

(4) The legislature recognizes that the trail known as the Apple Capital Loop, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on existing state route number 28. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537 and 2-09-04569 to Douglas county and the city of East Wenatchee is consistent with the public interest. The legislature directs the department to transfer the property to Douglas county and the city of East Wenatchee. The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes. Douglas county and the city of East Wenatchee must agree to accept responsibility for trail segments within their respective jurisdictions and sign an agreement with the state that the transfer of these parcels to their respective jurisdictions extinguishes any state obligations to improve, maintain, or be in any way responsible for these assets. This subsection expires June 30, 2014.

(5) The legislature recognizes that the SR 20/Cook Road realignment and extension project in the city of Sedro-Woolley will enhance the state and local highway systems by providing a more direct route from state route number 20 and state route number 9 to Interstate 5, and will reduce traffic on state route number 20 and state route number 9, improving the capacity of each route. Furthermore, the legislature declares that certain portions of the department's property held for highway purposes located primarily to the north and west of state route number 20, between state route number 20 to the south and F and S Grade Road to the north, in the incorporated limits of Sedro-Woolley in Skagit county, can help facilitate completion of the project. Therefore, consistent with RCW 47.12.063, 47.12.080, and 47.12.120, it is the intent of the legislature that the department sell, transfer, or lease, as appropriate, to the city of Sedro-Woolley only those portions of the property necessary to construct the project, including necessary staging areas. However, any staging areas should revert to the department within three years of completion of the project.

(6) Within the amounts provided in this section, the department shall create a quality assurance position. This position must provide independent project quality assurance validation and ensure that quality assurance audit functions are accountable at the highest level of the organization.

(((~~(8)~~))) (7) $1,453,000 of the motor vehicle account—state appropriation is provided solely to support increased departmental efforts to dispose of surplus property as directed in subsection (2) of this section. By December 1, 2014, the department shall report to the governor and the chairs and ranking members of the senate and house of representatives transportation committees on the number of surplus property parcels sold and the amount of revenue generated from those sales during 2014.

Sec. 914. 2014 c 222 s 214 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION—ECONOMIC PARTNERSHIPS—PROGRAM K

Motor Vehicle Account—State Appropriation ..... (($~~$589,000~~)) $588,000

The appropriation in this section is subject to the following conditions and limitations:

(1) The legislature finds that the efforts started in the 2011-2013 fiscal biennium regarding the transition to a road usage charge system represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the transportation commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012 for the transportation commission, augmented with participation by the joint transportation committee. The legislature further intends that, through the economic partnerships program, the department continue to address administrative, technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the transportation commission's efforts.

(2) The economic partnerships program must continue to explore retail partnerships at state-owned park-and-ride facilities, as authorized in RCW 47.04.295.

(3) The department, in collaboration with the transportation commission, shall work with the office of the state treasurer and the state's bond counsel to explore legal approaches for ensuring that any reduction, refunding, crediting, or repeal of the motor vehicle fuel tax, in whole or in part, can be accomplished without unlawfully impairing the legal rights of motor vehicle fuel tax bond holders. The results of this work must be shared with the transportation committees of the legislature and the office of financial management by September 1, 2014.

(4) $21,000 of the motor vehicle account—state appropriation is provided solely as matching funds for the department to partner with other transportation agencies located in the western region of North America to develop strategies and methods for reporting, collecting, crediting, and remitting road usage charges resulting from inter-jurisdictional travel. At least one partnering jurisdiction must share a common border with Washington. The results of this work must be reported to the governor, the transportation commission, and the transportation committees of the legislature by September 1, 2014.

(2) $2,605,000 of the motor vehicle account—state appropriation is provided solely for utility fees assessed by local governments as authorized under RCW 90.03.525 for the mitigation of storm water runoff from state highways.

(3) The department shall submit a budget decision for the 2014 legislative session package that details all costs associated with utility fees assessed by local governments as authorized under RCW 90.03.525.

(4) $50,000 of the motor vehicle account—state appropriation is provided solely for clearing and pruning dangerous trees along state route number 542 between mile markers 43 and 48 to prevent safety hazards and delays.

(5) $2,277,000 of the motor vehicle account—state appropriation is provided solely to replace or rehabilitate critical equipment needed to perform snow and ice removal activities and roadway maintenance. These funds may not be used to purchase passenger cars as defined in RCW 46.04.382.

Motor Vehicle Account—Federal Appropriation $2,050,000
Motor Vehicle Account—Private/Local Appropriation $250,000
TOTAL APPROPRIATION ..... ~~$52,355,000~~
$52,179,000

The appropriations in this section are subject to the following conditions and limitations:

(1) $6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. The department shall prioritize low-cost enhancement projects on a statewide rather than regional basis. By September 1st of each even-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects prioritized on a statewide rather than regional basis completed in the prior year.

(2) $9,000,000 of the motor vehicle account—state appropriation is provided solely for the department's incident response program.

(3) During the 2013-2015 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (a) Auto transportation company vehicles regulated under chapter 81.68 RCW; (b) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (c) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (d) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(4) The department shall work with the cities of Lynnwood and Edmonds to provide traffic light synchronization on state route number 524.

(5) The department, in consultation with the Washington state patrol, must continue a pilot program for the state patrol to issue infractions based on information from automated traffic safety cameras in roadway construction zones on state highways. For the purpose of this pilot program, during the 2013-2015 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors may be present or where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. The department shall use the following guidelines to administer the program:

(a) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle;

(b) The department shall plainly mark the locations where the automated traffic safety cameras are used by placing signs on locations that clearly indicate to a driver that he or she is entering a roadway construction zone where traffic laws are enforced by an automated traffic safety camera;

(c) Notices of infractions must be mailed to the registered owner of a vehicle within fourteen days of the infraction occurring;

(d) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

(e) For purposes of the 2013-2015 fiscal biennium pilot program, infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras must be processed in the same manner as parking infractions for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the fine issued under this subsection (5) for an infraction generated through the use of an automated traffic safety camera is one hundred thirty-seven dollars. The court shall remit thirty-two dollars of the fine to the state treasurer for deposit into the state patrol highway account; and

(f) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction must be dismissed against the business if it mails to the patrol, within fourteen days of receiving the notice, a declaration under penalty of perjury of

the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the patrol within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic safety camera infraction notice issued, along with instructions for its completion and use.

(6) $102,000 of the motor vehicle account—state appropriation is provided solely to replace or rehabilitate critical equipment needed to perform traffic control. These funds may not be used to purchase passenger cars as defined in RCW 46.04.382.

The department shall promptly close out grants when projects have been completed, and any remaining funds must be used only to fund projects identified in the LEAP transportation document referenced in this subsection. The department shall provide annual status reports on December 15, 2013, and December 15, 2014, to the office of financial management and the transportation committees of the legislature regarding the projects receiving the grants. It is the intent of the legislature to appropriate funds through the regional mobility grant program only for projects that will be completed on schedule. A grantee may not receive more than twenty-five percent of the amount appropriated in this subsection. The department shall not approve any increases or changes to the scope of a project for the purpose of a grantee expending remaining funds on an awarded grant.

(b) In order to be eligible to receive a grant under (a) of this subsection during the 2013-2015 fiscal biennium, a transit agency must establish a process for private transportation providers to apply for the use of park and ride facilities. For purposes of this subsection, (i) "private transportation provider" means: An auto transportation company regulated under chapter 81.68 RCW; a passenger charter carrier regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; a private nonprofit transportation provider regulated under chapter 81.66 RCW; or a private employer transportation service provider; and (ii) "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees.

(6) Funds provided for the commute trip reduction (CTR) program may also be used for the growth and transportation efficiency center program.

(7) $6,424,000 of the total appropriation in this section is provided solely for CTR grants and activities. Of this amount:

(c) $754,000 of the state vehicle parking account—state appropriation is provided solely for CTR-related expenditures, including all expenditures related to the guaranteed ride home program and the STAR pass program.

(8) An affected urban growth area that has not previously implemented a commute trip reduction program as of the effective date of this section is exempt from the requirements in RCW 70.94.527.

(9) $200,000 of the multimodal transportation account—state appropriation is contingent on the timely development of an annual report summarizing the status of public transportation systems as identified under RCW 35.58.2796.

(10) $160,000 of the motor vehicle account—federal appropriation is provided solely for King county metro to study demand potential for a state route number 18 and Interstate 90 park and ride location, to size the facilities appropriately, to perform site analysis, and to develop preliminary design concepts. When studying potential park and ride locations pursuant to this subsection, King county metro must take into consideration the effect of the traffic using the weigh station at the Interstate 90 and state route number 18 interchange at exit 25 and, to the

maximum extent practicable, choose a park and ride location that minimizes traffic impacts for the Interstate 90 and state route number 18 interchange and the weigh station.

The appropriations in this section are subject to the following conditions and limitations:

(1) The office of financial management budget instructions require agencies to recast enacted budgets into activities. The Washington state ferries shall include a greater level of detail in its 2013-2015 supplemental and 2015-2017 omnibus transportation appropriations act requests, as determined jointly by the office of financial management, the Washington state ferries, and the transportation committees of the legislature. This level of detail must include the administrative functions in the operating as well as capital programs.

(2) Until a reservation system is operational on the San Juan islands inter-island route, the department shall provide the same priority loading benefits on the San Juan islands inter-island route to home health care workers as are currently provided to patients traveling for purposes of receiving medical treatment.

(3) For the 2013-2015 fiscal biennium, the department may enter into a distributor controlled fuel hedging program and other methods of hedging approved by the fuel hedging committee.

(4) ((~~$113,157,000~~)) $106,497,000 of the Puget Sound ferry operations account—state appropriation is provided solely for auto ferry vessel operating fuel in the 2013-2015 fiscal biennium, which reflect cost savings from a reduced biodiesel fuel requirement and, therefore, are contingent upon the enactment of section 701, chapter 306, Laws of 2013. The amount provided in this subsection represent the fuel budget for the purposes of calculating any ferry fare fuel surcharge. The department shall develop a fuel reduction plan to be submitted as part of its 2014 supplemental budget proposal. The plan must include fuel saving proposals, such as vessel modifications, vessel speed reductions, and changes to operating procedures, along with anticipated fuel saving estimates.

Consistent with the 2012 facilities oversight plan, the department shall strive to consolidate office space in downtown Seattle by the end of 2015. The department shall consider renewing the lease for the ferry division's current headquarters building only if the lease rate is reduced at least ((~~fifty~~)) forty percent and analysis shows that this is the least cost and risk option for the department. Consolidation with other divisions or state agencies, or a reduction in leased space, must also be considered as part of any headquarters lease renewal analysis.

(8) $5,000,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the purchase of a 2013-2015 marine insurance policy. Within this amount, the department is expected to purchase a policy with the lowest deductible possible, while maintaining at least existing coverage levels for ferry vessels, and providing coverage for all terminals.

(9) Within existing resources, the department must evaluate the feasibility of using re-refined used motor oil processed in Washington state as a ferry fuel source. The evaluation must include, but is not limited to, research on existing entities currently using the process for re-refined fuel, any required combustible engine modifications, additional needed equipment on the vessels or fueling locations, cost analysis, compatibility with B-5 blended diesel, and meeting engine performance specifications. The department must establish an evaluation group that includes, but is not limited to, persons experienced in the re-refined motor oil industry. The department must deliver a report containing the results of the evaluation to the transportation committees of the legislature and the office of financial management by December 1, 2014.

In recognition of the increased costs the state is expected to absorb due to changes in federal law, the department is directed to analyze the Amtrak contract proposal and find cost saving alternatives. The department shall report to the transportation committees of the legislature before the 2014 regular legislative session on its revisions to the Amtrak contract, including a review of the appropriate costs within the contract for concession services, policing, host railroad incentives, and station services and staffing needs. Within thirty days of each annual cost/revenue reconciliation under the Amtrak service contract, the department shall report any changes that would affect the state subsidy amount appropriated in this subsection. Through a competitive process, the department may contract with a private entity for services related to operations and maintenance of the Amtrak Cascades route, including, but not limited to, concession services.

(2) Amtrak Cascades runs may not be eliminated.

(3) The department shall continue a pilot program by partnering with the travel industry on the Amtrak Cascades service between Vancouver, British Columbia, and Seattle to test opportunities for increasing ridership, maximizing farebox recovery, and stimulating private investment. The appropriations in this section are subject to the following conditions and limitations:

(1) The legislature recognizes that the Marginal Way site (King county parcel numbers 3024049182 & 5367202525) is surplus state-owned real property under the jurisdiction of the department and that the public would benefit significantly if this site is used to provide important social services. Therefore, the legislature declares that committing the Marginal Way site to this use is consistent with the public interest.

Pursuant to RCW 47.12.063, the department shall work with the owner of King county parcel number 7643400010, which abuts both parcels of the Marginal Way site, and shall convey the Marginal Way site to that abutting property owner for the appraised fair market value of the parcels, the proceeds of which must be deposited in the motor vehicle fund. The conveyance is conditional upon the purchaser's agreement to commit the use of the Marginal Way site to operations with the goal of ending hunger in western Washington. The department may not make this conveyance before September 1, 2013, and may not make this conveyance after September 1, 2014.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((~~2014-1~~)) 2015-1 as developed ((~~March 10, 2014~~)) May 26, 2015, Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section ((~~601 of this act~~)) 1201, chapter . . . (Engrossed Substitute House Bill No. 1299), Laws of 2015 1st sp. sess.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((~~2014-2~~)) 2015-2 ALL PROJECTS as developed ((~~March 10, 2014~~)) May 26, 2015, Program - Highway Improvements Program (I). The department shall apply any federal funds gained through efficiencies or the redistribution process in an amount up to $27,200,000 for cost overruns related to the pontoon design errors on the SR 520 Bridge Replacement and HOV project (8BI1003) as described in subsection (12)(f) of this section. Any federal funds gained through efficiencies or the redistribution process that are in excess of $27,200,000 must then be applied to the "Contingency (Unfunded) Highway Preservation Projects" as identified in LEAP Transportation Document 2014-2 ALL PROJECTS as developed March 10, 2014, Program - Highway Preservation Program (P). However, no additional federal funds may be allocated to the I-5/Columbia River Crossing project (400506A).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act.

(4) The transportation 2003 account (nickel account)—state appropriation includes up to ((~~$246,710,000~~)) $189,996,000 in proceeds from the sale of bonds authorized by RCW 47.10.861.

(5) The transportation partnership account—state appropriation includes up to ((~~$811,595,000~~)) $564,989,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(6) The motor vehicle account—state appropriation includes up to ((~~$30,000,000~~)) $14,997,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

(7)(a) ((~~$6,174,000~~)) $1,514,000 of the motor vehicle account—federal appropriation and ((~~$269,000~~)) $21,000 of the motor vehicle account—state appropriation are provided solely for the I-90 Comprehensive Tolling Study and Environmental Review project (100067T). The department shall prepare a detailed environmental impact statement that complies with the national environmental policy act regarding tolling Interstate 90 between Interstate 5 and Interstate 405 for the purposes of both managing traffic and providing funding for the construction of the unfunded state route number 520 from Interstate 5 to Medina project. As part of the preparation of the statement, the department must review any impacts to the network of highways and roads surrounding Lake Washington. In developing this statement, the department must provide significant outreach to potential affected communities. The department may consider traffic management options that extend as far east as Issaquah.

(b)(i) As part of the project in this subsection (7), the department shall perform a study of all funding alternatives to tolling Interstate 90 to provide funding for construction of the unfunded state route number 520 and explore and evaluate options to mitigate the effect of tolling on affected residents and all other users of the network of highways and roads surrounding Lake Washington including, but not limited to:

(A) Allowing all Washington residents to traverse a portion of the tolled section of Interstate 90 without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island;

(B) Assessing a toll only when a driver traverses, in either direction, the entire portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing east of Mercer Island; and

(C) Allowing affected residents to choose one portion of the tolled section of Interstate 90 upon which they may travel without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island.

(ii) The department may also consider any alternative mitigation options that conform to the purpose of this subsection (7).

(iii) For the purposes of this subsection (7), "affected resident" means anyone who must use a portion of Interstate 90 west of Interstate 405 upon which tolling is considered in order to access necessary medical services, such as a hospital.

(8) ((~~$490,796,000~~)) $203,317,000 of the transportation partnership account—state appropriation, ((~~$156,979,000~~)) $156,879,000 of the motor vehicle account—federal appropriation, ((~~$132,191,000~~)) $131,327,000 of the motor vehicle account—private/local appropriation, and ((~~$123,305,000~~)) $86,401,000 of the transportation 2003 account (nickel account)—state appropriation are provided solely for the SR 99/Alaskan Way Viaduct - Replacement project (809936Z). Amounts appropriated in this subsection may not be spent for the purpose of public transportation mitigation, except pursuant to an agreement or agreements between the department and King county as that agreement or agreements existed on January 1, 2013.

(9) The department shall reconvene an expert review panel of no more than three members as described under RCW 47.01.400 for the purpose of updating the work that was previously completed by the panel on the Alaskan Way viaduct replacement project and to ensure that an appropriate and viable financial plan is created and regularly reviewed. The expert review panel must be selected cooperatively by the chairs of the senate and house of representatives transportation committees, the secretary of transportation, and the governor. The expert review panel must report findings and recommendations to the transportation committees of the legislature, the governor's Alaskan Way viaduct project oversight committee, and the transportation commission annually until the project is operationally complete. This subsection takes effect if chapter ... (Substitute House Bill No. 1957), Laws of 2013 is not enacted by June 30, 2013.

(10) ((~~$7,103,000~~)) $6,955,000 of the transportation partnership account—state appropriation, ((~~$22,774,000~~)) $23,285,000 of the transportation 2003 account (nickel account)—state appropriation, ((~~$1,000,000 of the multimodal transportation account—state appropriation~~)) $3,776,000 of the motor vehicle account—state appropriation, $70,000 of the motor vehicle account—private/local appropriation, and ((~~$51,712,000~~)) $45,688,000 of the motor vehicle account—federal appropriation are provided solely for the US 395/North Spokane Corridor projects (600010A & 600003A). Any future savings on the projects must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor projects or any future phase of the projects.

(11) ((~~$129,952,000~~)) $115,807,000 of the transportation partnership account—state appropriation, $145,000 of the motor vehicle account—private/local appropriation, and ((~~$58,583,000~~)) $48,227,000 of the transportation 2003 account (nickel account)—state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project.

(12)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a $300,000,000 TIFIA loan, $923,000,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) The state route number 520 corridor account—state appropriation includes up to $814,784,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account—federal appropriation includes up to $300,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(d) $165,175,000 of the transportation partnership account—state appropriation, $300,000,000 of the state route number 520 corridor account—federal appropriation, and $880,111,000 of the state route number 520 corridor account—state appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003). Of the amounts appropriated in this subsection (12)(d), $84,001,000 of the

state route number 520 corridor account—federal appropriation and $354,411,000 of the state route number 520 corridor account—state appropriation must be put into unallotted status and are subject to review by the office of financial management. The director of the office of financial management shall consult with the joint transportation committee prior to making a decision to allot these funds.

(e) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(f) The legislature finds that the most appropriate way to pay for the cost overruns related to change orders, additional sales tax, and future risks associated with pontoon design errors is for the state to issue triple pledge bonds in the 2015-2017 fiscal biennium resulting in $110,961,000 in proceeds, and use efficiencies, including the use of least cost planning or practical design, and favorable bids in the highway construction program to generate an additional $61,066,000 towards paying for the estimated project overruns. Of this additional $61,066,000, $33,866,000 should come from the transportation partnership account—state appropriation and $27,200,000 should come from federal funds. As the department identifies savings in federal funds during the 2013-2015 fiscal biennium, the department shall prioritize the use of these funds towards the anticipated $27,200,000 in federal funds needed to address cost overruns before expending state funds during this fiscal biennium. The legislature assumes that issuing bonds to complete this project as listed in LEAP Transportation Document 2014-1 as developed March 10, 2014, does not require a comprehensive financial plan for a project that completes the state route number 520 corridor to Interstate 5.

(g) The department's 2014 supplemental budget allotment submittal must include a project-specific plan detailing how the department will achieve the mandatory budget savings in (f) of this subsection, including the use of least cost planning or practical design as a means to generate savings, as referenced in subsection (23) of this section. The use of least cost planning or practical design may result in a reduction of project cost, but not a reduction of functional scope. The director of financial management shall notify the transportation committees of the legislature in writing seven days prior to approving any allotment modifications under this subsection.

(13) Within the amounts provided in this section, the department must continue to work with the Seattle department of transportation in their joint planning, design, outreach, and operation of the remaining west side elements including, but not limited to, the Montlake lid, the bicycle/pedestrian path, the effective network of transit connections, and the Portage Bay bridge of the SR 520 Bridge Replacement and HOV project.

(14) ((~~$1,062,000~~)) $514,000 of the motor vehicle account—federal appropriation ((~~is~~)) and $19,000 of the motor vehicle account—state appropriation are provided solely for the 31st Ave SW Overpass Widening and Improvement project (L1100048).

(15) ((~~$25,243,000~~)) $18,016,000 of the motor vehicle account—state appropriation is provided solely to advance the design, preliminary engineering, and rights-of-way acquisition for the priority projects identified in LEAP Transportation Document 2014-3 as developed March 10, 2014. Funds must be used to advance the emergent, initial development of these projects for the purpose of expediting delivery of the associated major investments when funding for such investments becomes available. Funding may be reallocated between projects to maximize the accomplishment of design and preliminary engineering work and rights-of-way acquisition, provided that all projects are addressed. It is the intent of the legislature that, while seeking to maximize the outcomes in this section, the department shall provide for continuity of both the state and consulting engineer workforce, while strategically utilizing private sector involvement to ensure consistency with the department's business plan for staffing in the highway construction program in the current fiscal biennium.

(16) If a planned roundabout in the vicinity of state route number 526 and 84th Street SW would divert commercial traffic onto neighborhood streets, the department may not proceed with improvements at state route number 526 and 84th Street SW until the traffic impacts in the vicinity of state route number 526 and 40th Avenue West are addressed.

(17) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2015, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(18) The legislature finds that "right-sizing" is a lean, metric-based approach to determining project investments. This concept entails compromise between project cost and design, incorporating local community needs, desired outcomes, and available funding. Furthermore, the legislature finds that the concepts and principles the department has utilized in the safety analyst program have been effective tools to prioritize projects and reduce project costs. Therefore, the department shall establish a pilot project on the SR 3/Belfair Bypass - New Alignment (300344C) to begin implementing the concept of "right-sizing" in the highway construction program.

(19) For urban corridors that are all or partially within a metropolitan planning organization boundary, for which the department has not initiated environmental review, and that require an environmental impact statement, at least one alternative must be consistent with the goals set out in RCW 47.01.440.

(20) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2014 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(21) $19,513,000 of the motor vehicle account—state appropriation and $9,450,000 of the motor vehicle account—federal appropriation are provided solely for improvement program support activities (095901X). $18,000,000 of this amount must be held in unallotted status until the office of financial management certifies that the department's 2014 supplemental budget request conforms to the terms of subsection (20) of this section.

(22) Any new advisory group that the department convenes during the 2013-2015 fiscal biennium must be representative of the interests of the entire state of Washington.

(23) Practical design offers targeted benefits to a state transportation system within available fiscal resources. This delivers value not just for individual projects, but for the entire system. Applying practical design standards will also preserve and enhance safety and mobility. The department shall implement a practical design strategy for transportation design standards. By June 30, 2015, the department shall report to the governor and the house of representatives and senate transportation committees on where practical design has been applied or is intended to be applied in the department and the cost savings resulting from the use of practical design.

(5) The department shall examine the use of electric arc furnace slag for use as an aggregate for new roads and paving projects in high traffic areas and report back to the legislature on its current use in other areas of the country and any characteristics that can provide greater wear resistance and skid resistance in new pavement construction.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed in LEAP Transportation Document ((~~2014-2~~)) 2015-2 ALL PROJECTS as developed ((~~March 10, 2014~~)) May 26, 2015, Program - Washington State Ferries Capital Program (W).

Within the multimodal transportation account—state appropriation amount provided in this subsection, the department shall lease to the city in which the project is located a portion of the department's property associated with this project to provide safe, temporary public access from the easterly terminus of First Street to the vicinity of Front Street. The department shall provide the lease at no cost in recognition of the impacts of this project to the city and require appropriate liability and maintenance coverage in the terms of the lease. Public access must be installed and removed at no cost to the state prior to construction of the multimodal terminal project.

(5) ((~~$4,935,000~~)) $7,000,000 of the Puget Sound capital construction account—state appropriation is provided solely for emergency capital repair costs (((~~project~~)) 999910K). Funds may only be spent after approval by the office of financial management.

(6) Consistent with RCW 47.60.662, which requires the Washington state ferry system to collaborate with passenger-only ferry and transit providers to provide service at existing terminals, the department shall ensure that multimodal access, including for passenger-only ferries and transit service providers, is not precluded by any future modifications at the terminal.

(7) ((~~$4,026,000~~)) $4,788,000 of the Puget Sound capital construction account—state appropriation is provided solely for the reservation and communications system projects (L200041 & L200042).

(8) $4,210,000 of the Puget Sound capital construction account—state appropriation is provided solely for the capital program share of $7,259,000 in lease payments for the ferry division's headquarters building. Consistent with the 2012 facilities oversight plan, the department shall strive to consolidate office space in downtown Seattle by the end of 2015. The department shall consider renewing the lease for the ferry division's current headquarters building only if the lease rate is reduced at least ((~~fifty~~)) forty percent and analysis shows that this is the least cost and risk option for the department. Consolidation with other divisions or state agencies, or a reduction in leased space, must also be considered as part of any headquarters lease renewal analysis.

(9) ((~~$23,737,000 of the total appropriation is for preservation work on the Hyak super class vessel (project 944431D), including installation of a power management system and more efficient propulsion systems, that in combination are anticipated to save up to twenty percent in fuel and reduce maintenance costs. Upon completion of this project, the department shall provide a report to the transportation committees of the legislature on the fuel and maintenance savings achieved for this vessel and the potential to save additional funds through other vessel conversions.~~

~~(10)~~)) The transportation 2003 account (nickel account)—state appropriation includes up to $50,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.861.

(((~~(12)~~)) (11) If the department pursues a conversion of the existing diesel powered Issaquah class fleet to a different fuel source or engine technology or the construction of a new vessel powered by a fuel source or engine technology that is not diesel powered, the department must use a design-build procurement process.

Of the amounts provided in this subsection:

(a) $100,000 of the Puget Sound capital construction account—state appropriation is for the department to issue a request for proposals for a design-build contract consistent with RCW 47.20.780 to convert six Issaquah class vessels to be powered by liquefied natural gas. Consistent with RCW 47.56.030(2)(c), the legislature finds that the performance needs of the department in converting to liquefied natural gas are for engines with the lowest life-cycle costs, and the department must weigh this criteria as a priority when evaluating the proposals. To encourage cost saving ideas, the department shall limit prescribing design elements in the proposal to those approved or required by the United States coast guard in the liquefied natural gas waterways suitability assessment or those otherwise essential to provide clear direction to bidders. The request for proposals must include a process for evaluating proposals that may include alternative financing arrangements that are in compliance with state private financing law. When evaluating the financial merits of any liquefied natural gas conversion request for proposals, the department shall give consideration to the inability of the state to fund a liquefied natural gas conversion using currently available public resources. The department shall issue the request for proposals within forty-five days of rejecting the liquefied natural gas request for proposals issued under section 308(11), chapter 86, Laws of 2012 or receiving final findings from the United States coast guard on the liquefied natural gas waterways suitability assessment, whichever is later.

(b) $250,000 of the Puget Sound capital construction account—state appropriation is for the entity awarded the contract pursuant to this subsection.

The department shall complete an evaluation and assessment of future maintenance needs on the line to ensure appropriate levels of state investment.

(b) Expenditures from the essential rail assistance account—state appropriation in this section may not exceed the combined total of:

(i) Revenues deposited into the essential rail assistance account from leases and sale of property pursuant to RCW 47.76.290; and

(ii) Revenues transferred from the miscellaneous program account to the essential rail assistance account, pursuant to RCW 47.76.360, for the purpose of sustaining the grain train program by maintaining the Palouse river and Coulee City railroad line.

IMPLEMENTING PROVISIONS

Sec. 1201. 2014 c 222 s 601 (uncodified) is amended to read as follows:

FUND TRANSFERS

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in the LEAP list titled ((~~2014-1~~)) 2015-1 as developed ((~~March 10, 2014~~)) May 26, 2015, which consists of a list of specific projects by fund source and amount over a ten-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a ten-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section does not apply to the I-5/Columbia River Crossing project (400506A). For the 2011-2013 and 2013-2015 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2014 supplemental omnibus transportation appropriations act, any unexpended 2011-2013 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;

(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;

(e) Transfers may not occur for projects not identified on the applicable project list;

(f) Transfers may not be made while the legislature is in session; and

(g) Transfers between projects may be made, without the approval of the director of the office of financial management, by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project,

whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

(2) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(4) The office of financial management shall document approved transfers and schedule changes in the transportation executive information system, compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP transportation documents referenced in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. **Sec. 1202.** A new section is added to 2013 c 306 (uncodified) to read as follows:

The appropriations to the department of transportation in chapter 222, Laws of 2014 and this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2015, unless specifically prohibited, the department may transfer state appropriations for the 2013-2015 fiscal biennium among operating programs after approval by the director of the office of financial management. However, the department shall not transfer state moneys that are provided solely for a specific purpose. The department shall not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds and not federal funds. The director of the office of financial management shall notify the appropriate transportation committees of the legislature no fewer than ten business days before approving any allotment modifications or transfers under this section. The written notification must include a narrative explanation and justification of the changes, along with expenditures and allotments by program and appropriation, both before and after any allotment modifications or transfers.

MISCELLANEOUS

NEW SECTION. **Sec. 1301.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 1302.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Increasing academic rigor and streamlining assessment requirements for high school students.

The bill was read the second time.

Representative Magendanz moved the adoption of amendment (503):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1303.** (1) The legislature finds that high school students in Washington have been required to meet a standard on high school assessments since 2008 to earn a certificate of academic achievement and graduate. The majority of high school students have taken these assessments for the first time by the conclusion of tenth grade. Over time, the state has adopted several alternative methods to allow students who do not meet the standard on the tenth grade assessment to demonstrate their competency to graduate. These alternatives include the opportunity to retake the assessment, a comparison of grades earned, collections of evidence, and college entrance or dual credit course exams.

(2) The legislature recognizes that, in today's competitive global economy, it is not enough for Washington's students to meet a minimum level of competency. Success in postsecondary education, gainful employment, and citizenship requires increased rigor and achievement. To that end, the state has recently adopted new, academically rigorous policies to better prepare students for future success. Starting in spring 2015, Washington students will be tested using a comprehensive assessment system developed with a multistate consortium. This system, the smarter balanced assessment, will evaluate students in grades three through eight and grade eleven on their college and career readiness based on the Washington state learning standards in English language arts and mathematics, and will be used for state and federal accountability purposes. In addition, students beginning with the graduating class of 2019 will also have the requirement to earn twenty-four credits for high school graduation to obtain a more meaningful diploma. Schools also have put a great deal of time and effort into ensuring quality instruction through the teacher and principal evaluation program, a four-tiered system that establishes eight new criteria for teachers' and principals' evaluations. Finally, Washington adopted new, academically rigorous next generation science standards (NGSS) in 2013. A comprehensive science assessment of the next generation science standards is being developed and is expected to become operational statewide in spring 2017 or 2018.

(3) The legislature further finds that the transition to the smarter balanced assessment system has markedly complicated the development and administration of the statewide assessment graduation requirement and the state's confusing array of alternative assessments. The classes of 2016 through 2018 are required to take end-of-course exams or comprehensive assessments in the tenth grade to fulfill graduation requirements for English language arts, mathematics, and biology. In addition, they are required to take the smarter balanced assessments in the eleventh grade to determine if they are college and career ready and for school and district accountability.

(4) The legislature finds that requiring schools to administer six high school assessments—the smarter balanced English language arts assessment, smarter balanced mathematics, the end-of-course assessment for biology, two mathematics end-of-course assessments, and the English language arts exit exam—creates a

costly system in which too much classroom time and too many state resources are devoted to taking and retaking tests for graduation purposes. The time and funding that are now invested in Washington's current state graduation assessments do not result in students meeting a college or career ready measure accepted by postsecondary institutions and organizations.

(5) The legislature further finds that locally directed remediation and intervention strategies, including twelfth grade transition courses, opportunities to retake courses, and more sustained focus on providing college and career guidance through students' high school and beyond plans, would better prepare students for postsecondary college and career opportunities. State and local resources that are now directed to develop and administer alternative graduation assessments should be redirected to courses and programs better suited for student needs during high school.

(6) The legislature further finds that taxpayers and tuition payers can save substantial money by avoiding remedial courses taught at public institutions of higher education. An unprecedented agreement among Washington's public institutions of higher education now ensures that high school graduates who meet the standard on the smarter balanced assessment or who successfully complete twelfth grade high school transition courses in English language arts and mathematics will move directly to college-level English and mathematics courses at participating institutions without remediation or additional placement testing.

(7)(a) The legislature therefore intends to eliminate the tenth grade assessments in reading, writing, and mathematics and the myriad of alternative assessments that students may use to obtain a certificate of academic achievement. In their place, students will be required to either meet the standard on the smarter balanced English language arts and mathematics assessments administered in high school, or demonstrate by the beginning of their senior year that they have met state standards using the SAT or ACT. The legislature further intends for students who fail to meet the standard to take and pass locally determined courses in their senior year that align with their college or career goals, including, when available, high school transition courses.

(b) The legislature recognizes that many students in the graduating class of 2016 have already satisfied current requirements for obtaining a certificate of academic achievement and does not intend that these efforts go for naught. The legislature intends to allow students in the graduating class of 2016 who have, by the beginning of the 2015-16 school year, already met the standard on the tenth grade assessments in reading, writing, and mathematics, or satisfied the alternative assessments, to earn a certificate of academic achievement by these means, by the means identified in section 101(3) of this act, or by a combination of the two in the event that a student has, by the beginning of the 2015-16 school year, already met the standard or satisfied an alternative in one, but not both, of the content areas.

(8) It is the intent of the legislature for Washington to administer only three statewide assessments for high school graduation: The smarter balanced assessment in English language arts; the smarter balanced assessment in mathematics; and the statewide assessment in science, including, when operational, the comprehensive next generation science standards assessment.

PART I

STUDENT ASSESSMENTS, GRADUATION, AND ASSOCIATED REQUIREMENTS—GENERAL PROVISIONS

NEW SECTION. **Sec. 101.** A new section is added to chapter 28A.655 RCW to read as follows:

(1) The high school assessment system shall include the statewide student assessment and opportunities for a student to retake the content areas of the assessment in which the student was not successful.

(2) Subject to the conditions in this section, students shall obtain a certificate of academic achievement as evidence that they have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045, acquisition of the certificate is required for graduation from a public high school but is not the sole requirement for graduation.

(3) Beginning with the graduating class of 2016, a student shall earn a certificate of academic achievement if the student:

(a) Earns a score of level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070;

(b) Before the beginning of the student's senior year, earns a score on the mathematics, reading or English, or writing portion of the SAT or the ACT that is identified by the state board of education as meeting the state standard in the relevant content area on the high school English language arts and mathematics assessments; or

(c) Takes and passes a locally determined course in English language arts or mathematics under RCW 28A.230.090(1)(e).

(4)(a) The state board of education shall identify the scores on the mathematics, reading or English, or writing portions of the SAT or ACT that are equivalent to a level 3 on both the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

(b) The state board of education shall promptly notify school districts of the scores identified under (a) of this subsection.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6)(a) If a student does not earn a score of level 3 or level 4 in one or more content areas required for the certificate of academic achievement, the student may retake the assessment in the content area at least once a year and at no charge to the student. If the student earns a score of level 3 or level 4 on a retake of the assessment, the student shall earn a certificate of academic achievement.

(b) School districts must make available to students at no charge, the following options:

(i) If the student is enrolled in a public school, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4; or

(ii) If the student is enrolled in a high school completion program at a community or technical college, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(c) Students who achieve the standard in a content area of the high school English language arts or mathematics assessments identified in RCW 28A.655.070, but who wish to improve their results, must be assessed a charge for retaking the assessment according to a uniform cost determined by the superintendent of public instruction.

(7) A student may retain and use the highest result from each successfully completed content area of the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

Sec. 102. RCW 28A.230.090 and 2014 c 217 s 202 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under ((~~RCW 28A.655.061~~)) section 101 of this act or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and prepare the student for postsecondary education or training and career.

(ii) A high school and beyond plan must be initiated for each student during the eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(iii) The plan must be updated annually during the high school grades to review transcripts, assess progress toward identified goals, and revise as necessary for changing interests, goals, and needs. School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan.

(iv) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) A four-year plan for course-taking that fulfills state and local graduation requirements and aligns with the student's career and educational goals;

(D) Identification of assessments needed to graduate from high school and achieve postsecondary goals identified in the high school and beyond plan; and

(E) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i)(A) Beginning in the 2015-16 school year, students who have not earned a certificate of academic achievement under section 101 or 201 of this act before the beginning of grade twelve must take and pass a locally determined course in the content area in which the student was not successful. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in English language arts or mathematics adopted pursuant to RCW 28A.230.097.

(B) A course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(C) School districts should prioritize enrolling students who must take and pass locally determined courses under this subsection (1)(e)(i) in available high school transition courses.

(ii) School districts shall record students' participation in locally determined courses under this section in the statewide individual data system. Separate data codes must be provided for high school transition courses and other locally determined courses.

(iii) As used in this subsection (1)(e), "high school transition course" means an English language arts, mathematics, or science course offered in high school whose successful completion by a high school student will ensure the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must, in accordance with this section, satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to any institution of higher education as defined in RCW 28B.10.016.

(iv) This subsection (1)(e) does not apply to students satisfying the provisions of RCW 28A.155.045.

(f) Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

(((~~(d)~~))) (g)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(((~~(d)~~))) (g). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(((~~(d)~~))) (g) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district that has implemented the career and college ready graduation requirements must update the high school and beyond plans for each student in grade nine who failed to earn a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 for the purpose of ensuring that the student takes one or more credits of mathematics coursework in each of grades nine, ten, and eleven. These courses may include career and technical education

equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under RCW 28A.290.010. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 103. RCW 28A.305.130 and 2013 2nd sp.s. c 22 s 7 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment ((~~and, for high school students, to obtain a certificate of academic achievement~~)). The board shall also determine student scores that identify levels of student performance below and beyond the standard. ((~~The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates.~~)) The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.

(ii) ((~~By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the tenth grade English language arts assessment and the end-of-course mathematics assessments developed in accordance with RCW 28A.655.070 to be used as the state transitions to high school assessments developed with a multistate consortium.~~

~~(iii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium-developed assessments, examine the student scores used in other states that are administering the~~

~~consortium-developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.~~

~~(iv) The legislature shall be advised of the initial performance standards for the high school statewide student assessment. Any changes recommended by the board in the performance standards for the high school assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature.~~)) The legislature shall be advised of the initial performance standards and any changes made to the elementary ((~~level performance standards and the~~)), middle, and high school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

Sec. 104. RCW 28A.655.068 and 2013 2nd sp.s. c 22 s 4 are each amended to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2)(a) The superintendent of public instruction may develop or adopt science end-of-course assessments or a comprehensive science assessment ((~~that includes subjects in addition to biology for purposes of RCW 28A.655.061,~~)) when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. ((~~The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.~~))

(b) The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(((~~(c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.~~))

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) ((~~The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061.~~)) After the superintendent of public instruction adopts a comprehensive science assessment under this section and RCW 28A.655.070, there shall be a two-year transition period, including one year to pilot the comprehensive science assessment and a second year to administer the assessment statewide, before students are required to meet the standard on the comprehensive assessment to earn a certificate of academic achievement.

Sec. 105. RCW 28A.655.070 and 2015 c 211 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding

assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of ((~~reading, writing~~)) English language arts, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) ((~~Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.~~

~~(c) By the 2014-15 school year,~~)) (i) The superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium((~~, as provided in this subsection:~~

~~(i)~~)).

(ii) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(((~~(ii)~~))) (iii) The high school ((~~assessments in~~)) English language arts and mathematics ((~~in (c)(i) of this subsection~~)) assessments developed with the multistate consortium shall be used for the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in ((~~RCW 28A.655.061~~)) section 101 of this act and for assessing student career and college readiness.

(((~~(iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.~~))

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(14) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d).

NEW SECTION. **Sec. 106.** A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning with the graduating class of 2015, and until the first graduating class following the transition period identified in RCW 28A.655.068(4), a student is not required to meet the state standard in science in order to earn a certificate of academic achievement.

(2)(a) Beginning with the first graduating class following the transition period identified in RCW 28A.655.068(4), a student must meet the state standard on the comprehensive science assessment, in addition to the other content areas required under section 101 of this act, to earn a certificate of academic achievement.

(b)(i) Students in grade twelve who have not met the state standard on the comprehensive science assessment must take and pass a locally determined course in science to earn a certificate of academic achievement. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in science pursuant to RCW 28A.230.097.

(ii) For purposes of this subsection (2)(b), a course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(c) When available, school districts should prioritize enrolling students who must take and pass a locally determined course in science in a high school transition course.

(d) For the purpose of this section, "high school transition course" has the definition in RCW 28A.230.090(1)(e)(iii).

Sec. 107. RCW 28A.230.125 and 2014 c 102 s 3 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

(4) If a student has earned a level 3 or level 4 score on the high school English language and mathematics assessments identified in RCW 28A.655.070, the student's standardized high school transcript must include a notation of "career and college ready high honors." School districts are encouraged to also include a notation of "career and college ready high honors" on the student's diploma.

NEW SECTION. **Sec. 108.** A new section is added to chapter 28A.300 RCW to read as follows:

(1) The superintendent of public instruction shall conduct a study of the locally determined courses in English language arts or mathematics under RCW 28A.230.090(1)(e) offered by school districts in the 2015-16 and 2016-17 school years to students in grade twelve who are participating in locally determined courses. The study shall analyze how the transition courses and other locally determined courses are aligned with the Washington state learning standards in English language arts and mathematics. The study shall also determine whether the state has an adequate number of certificated teachers qualified to teach transition courses and other locally determined courses aligned with the Washington state learning standards in English language arts and mathematics. The superintendent of public instruction shall submit a report on the results of this study to the legislature, in accordance with RCW 43.01.036, before January 1, 2018.

(2) Beginning in 2018, the superintendent of public instruction, in consultation with the education data center in RCW 43.41.400, shall annually produce a summary report of the outcomes of Washington state high school graduates who earned a certificate of academic achievement under section 101 of this act. The report must include data identifying students' employment, participation in higher education, and workforce training after a period of one year following graduation from high school. The report must also include data identifying remedial precollege coursework that students take in postsecondary institutions following graduation from high school. The data must be disaggregated into the following categories: (a) Students who earned a certificate of academic achievement by earning a level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070; (b) students who earned a certificate of academic achievement by earning equivalent scores on the SAT or ACT; (c) students who earned a certificate of academic achievement by taking and passing transition courses in English language arts or mathematics in grade twelve; and (d) students who earned a certificate of academic achievement by taking and passing other locally determined courses in English language arts or mathematics in grade twelve.

Sec. 109. RCW 28A.320.195 and 2013 c 184 s 2 are each amended to read as follows:

(1) Each school district board of directors is encouraged to adopt an academic acceleration policy for high school students as provided under this section.

(2) Under an academic acceleration policy:

(a) The district automatically enrolls any student who meets the state standard on the high school statewide student assessment in the next most rigorous level of advanced courses offered by the high school. Students who successfully complete such an advanced course are then enrolled in the next most rigorous level of advanced course, with the objective that students will eventually be automatically enrolled in courses that offer the opportunity to earn dual credit for high school and college.

(b) The subject matter of the advanced courses in which the student is automatically enrolled depends on the content area or areas of the statewide student assessment where the student has met the state standard. Students who meet the state standard on (i) both end-of-course mathematics assessments or (ii) the high school mathematics assessment identified in RCW 28A.655.070 are considered to have met the state standard for high school mathematics. Students who meet the state standard ((~~in both reading and writing~~)) on the high school English language arts assessment identified in RCW 28A.655.070 are eligible for enrollment in advanced courses in English, social studies, humanities, and other related subjects.

(c) The district must notify students and parents or guardians regarding the academic acceleration policy and the advanced courses available to students.

(d) The district must provide a parent or guardian with an opportunity to opt out of the academic acceleration policy and enroll a student in an alternative course.

Sec. 110. RCW 28A.700.080 and 2008 c 170 s 301 are each amended to read as follows:

(1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall develop and conduct an ongoing campaign for career and technical education to increase awareness among teachers, counselors, students, parents, principals, school administrators, and the general public about the opportunities offered by rigorous career and technical education programs. Messages in the campaign shall emphasize career and technical education as a high quality educational pathway for students, including for students who seek advanced education that includes a bachelor's degree or beyond. In

particular, the office shall provide information about the following:

(a) The model career and technical education programs of study developed under RCW 28A.700.060;

(b) Career and technical education course equivalencies and dual credit for high school and college;

(c) ((~~The career and technical education alternative assessment guidelines under RCW 28A.655.065;~~

~~(d)~~)) The availability of scholarships for postsecondary workforce education, including the Washington award for vocational excellence, and apprenticeships through the opportunity grant program under RCW 28B.50.271, grants under RCW 28A.700.090, and other programs; and

(((~~(e)~~))) (d) Education, apprenticeship, and career opportunities in emerging and high-demand programs.

(2) The office shall use multiple strategies in the campaign depending on available funds, including developing an interactive web site to encourage and facilitate career exploration; conducting training and orientation for guidance counselors and teachers; and developing and disseminating printed materials.

(3) The office shall seek advice, participation, and financial assistance from the workforce training and education coordinating board, higher education institutions, foundations, employers, apprenticeship and training councils, workforce development councils, and business and labor organizations for the campaign.

Increasing academic rigor and streamlining assessment requirements for high school students.

The bill was read the second time.

Representative Magendanz moved the adoption of amendment (508):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 310.** (1) The legislature finds that high school students in Washington have been required to meet a standard on high school assessments since 2008 to earn a certificate of academic achievement and graduate. The majority of high school students have taken these assessments for the first time by the conclusion of tenth grade. Over time, the state has adopted several alternative methods to allow students who do not meet the standard on the tenth grade assessment to demonstrate their competency to graduate. These alternatives include the opportunity to retake the assessment, a comparison of grades earned, collections of evidence, and college entrance or dual credit course exams.

(2) The legislature recognizes that, in today's competitive global economy, it is not enough for Washington's students to meet a minimum level of competency. Success in postsecondary education, gainful employment, and citizenship requires increased rigor and achievement. To that end, the state has recently adopted new, academically rigorous policies to better prepare students for future success. Starting in spring 2015, Washington students will be tested using a comprehensive assessment system developed with a multistate consortium. This system, the smarter balanced assessment, will evaluate students in grades three through eight and grade eleven on their college and career readiness based on the Washington state learning standards in English language arts and mathematics, and will be used for state and federal accountability purposes. In addition, students beginning with the graduating class of 2019 will also have the requirement to earn twenty-four credits for high school graduation to obtain a more meaningful diploma. Schools also have put a great deal of time and effort into ensuring quality instruction through the teacher and principal evaluation program, a four-tiered system that establishes eight new criteria for teachers' and principals' evaluations. Finally, Washington adopted new, academically rigorous next generation science standards (NGSS) in 2013. A comprehensive science assessment of the next generation science standards is being developed and is expected to become operational statewide in spring 2017 or 2018.

(3) The legislature further finds that the transition to the smarter balanced assessment system has markedly complicated the development and administration of the statewide assessment graduation requirement and the state's confusing array of alternative assessments. The classes of 2016 through 2018 are required to take end-of-course exams or comprehensive assessments in the tenth grade to fulfill graduation requirements for English language arts, mathematics, and biology. In addition, they are required to take the smarter balanced assessments in the eleventh grade to determine if they are college and career ready and for school and district accountability.

(4) The legislature finds that requiring schools to administer six high school assessments—the smarter balanced English language arts assessment, smarter balanced mathematics, the end-of-course assessment for biology, two mathematics end-of-course assessments, and the English language arts exit exam—creates a costly system in which too much classroom time and too many state resources are devoted to taking and retaking tests for graduation purposes. The time and funding that are now invested in Washington's current state graduation assessments do not result in students meeting a college or career ready measure accepted by postsecondary institutions and organizations.

(5) The legislature further finds that locally directed remediation and intervention strategies, including twelfth grade transition courses, opportunities to retake courses, and more sustained focus on providing college and career guidance through st75(uie)13(nt)5(set) 0.6 08g ganizations.i556(r)-43.72(z)11(a)1MCID 25 >>BD

satisfied the alternative assessments, to earn a certificate of academic achievement by these means, by the means identified in section 101(3) of this act, or by a combination of the two in the event that a student has, by the beginning of the 2015-16 school year, already met the standard or satisfied an alternative in one, but not both, of the content areas.

(8) It is the intent of the legislature for Washington to administer only three statewide assessments for high school graduation: The smarter balanced assessment in English language arts; the smarter balanced assessment in mathematics; and the statewide assessment in science, including, when operational, the comprehensive next generation science standards assessment.

PART I
STUDENT ASSESSMENTS, GRADUATION, AND ASSOCIATED REQUIREMENTS—GENERAL PROVISIONS

NEW SECTION. **Sec. 101.** A new section is added to chapter 28A.655 RCW to read as follows:

(1) The high school assessment system shall include the statewide student assessment and opportunities for a student to retake the content areas of the assessment in which the student was not successful.

(2) Subject to the conditions in this section, students shall obtain a certificate of academic achievement as evidence that they have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045, acquisition of the certificate is required for graduation from a public high school but is not the sole requirement for graduation.

(3) Beginning with the graduating class of 2016, a student shall earn a certificate of academic achievement if the student:

(a) Earns a score of level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070;

(b) Before the beginning of the student's senior year, earns a score on the mathematics, reading or English, or writing portion of the SAT or the ACT that is identified by the state board of education as meeting the state standard in the relevant content area on the high school English language arts and mathematics assessments; or

(c) Takes and passes a locally determined course in English language arts or mathematics under RCW 28A.230.090(1)(e).

(d) A student may use the means identified in (b) and (c) of this subsection for purposes of earning a certificate of academic achievement if the student has taken, at least once, the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

(4)(a) The state board of education shall identify the scores on the mathematics, reading or English, or writing portions of the SAT or ACT that are equivalent to a level 3 on both the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

(b) The state board of education shall promptly notify school districts of the scores identified under (a) of this subsection.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6)(a) If a student does not earn a score of level 3 or level 4 in one or more content areas required for the certificate of academic achievement, the student may retake the assessment in the content area at least once a year and at no charge to the student. If the student earns a score of level 3 or level 4 on a retake of the assessment, the student shall earn a certificate of academic achievement.

(b) School districts must make available to students at no charge, the following options:

(i) If the student is enrolled in a public school, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4; or

(ii) If the student is enrolled in a high school completion program at a community or technical college, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(c) Students who achieve the standard in a content area of the high school English language arts or mathematics assessments identified in RCW 28A.655.070, but who wish to improve their results, must be assessed a charge for retaking the assessment according to a uniform cost determined by the superintendent of public instruction.

(7) A student may retain and use the highest result from each successfully completed content area of the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

Sec. 102. RCW 28A.230.090 and 2014 c 217 s 202 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under ((~~RCW 28A.655.061~~)) section 101 of this act or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and prepare the student for postsecondary education or training and career.

(ii) A high school and beyond plan must be initiated for each student during the eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(iii) The plan must be updated annually during the high school grades to review transcripts, assess progress toward identified goals, and revise as necessary for changing interests, goals, and needs. School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan.

(iv) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) A four-year plan for course-taking that fulfills state and local graduation requirements and aligns with the student's career and educational goals;

(D) Identification of assessments needed to graduate from high school and achieve postsecondary goals identified in the high school and beyond plan; and

(E) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i)(A) Beginning in the 2015-16 school year, students who have not earned a certificate of academic achievement under section 101 or 201 of this act before the beginning of grade twelve must take and pass a locally determined course in the content area in which the student was not successful. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in English language arts or mathematics adopted pursuant to RCW 28A.230.097.

(B) A course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(C) School districts should prioritize enrolling students who must take and pass locally determined courses under this subsection (1)(e)(i) in available high school transition courses.

(ii) School districts shall record students' participation in locally determined courses under this section in the statewide individual data system. Separate data codes must be provided for high school transition courses and other locally determined courses.

(iii) As used in this subsection (1)(e), "high school transition course" means an English language arts, mathematics, or science course offered in high school whose successful completion by a high school student will ensure the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must, in accordance with this section, satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to any institution of higher education as defined in RCW 28B.10.016.

(iv) This subsection (1)(e) does not apply to students satisfying the provisions of RCW 28A.155.045.

(f) Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

((~~(d)~~)) (g)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)((~~(d)~~)) (g). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)((~~(d)~~)) (g) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district that has implemented the career and college ready graduation requirements must update the high school and beyond plans for each student in grade nine who failed to earn a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 for the purpose of ensuring that the student takes one or more credits of mathematics coursework in each of grades nine, ten, and eleven. These courses may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under RCW 28A.290.010. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency

examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 103. RCW 28A.305.130 and 2013 2nd sp.s. c 22 s 7 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment ((~~and, for high school students, to obtain a certificate of academic achievement~~)). The board shall also determine student scores that identify levels of student performance below and beyond the standard. ((~~The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates.~~)) The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.

(ii) ((~~By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the tenth grade English language arts assessment and the end-of-course mathematics assessments developed in accordance with RCW 28A.655.070 to be used as the state transitions to high school assessments developed with a multistate consortium.~~

~~(iii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium-developed assessments, examine the student scores used in other states that are administering the consortium-developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.~~

~~(iv) The legislature shall be advised of the initial performance standards for the high school statewide student assessment. Any changes recommended by the board in the performance standards for the high school assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature.~~)) The legislature shall be advised of the initial performance standards and any changes made to the elementary ((~~level performance standards and the~~)), middle, and high school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(5) Accredit, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board

including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

Sec. 104. RCW 28A.655.068 and 2013 2nd sp.s. c 22 s 4 are each amended to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2)(a) The superintendent of public instruction may develop or adopt science end-of-course assessments or a comprehensive science assessment ((~~that includes subjects in addition to biology for purposes of RCW 28A.655.061,~~)) when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. ((~~The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.~~))

(b) The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(((~~(c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.~~))

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) ((~~The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061.~~)) After the superintendent of public instruction adopts a comprehensive science assessment under this section and RCW 28A.655.070, there shall be a two-year transition period, including one year to pilot the comprehensive science assessment and a second year to administer the assessment statewide, before students are required to meet the standard on the comprehensive assessment to earn a certificate of academic achievement.

Sec. 105. RCW 28A.655.070 and 2015 c 211 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of ((~~reading, writing~~)) English language arts, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) ((~~Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.~~

~~(c) By the 2014-15 school year,~~)) (i) The superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium((~~, as provided in this subsection:~~

(ii) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

(((~~(ii)~~))) (iii) The high school ((~~assessments in~~)) English language arts and mathematics ((~~in (c)(i) of this subsection~~)) assessments developed with the multistate consortium shall be used for the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in ((~~RCW~~

(((~~iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.~~))

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(14) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d).

The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

Conditions of release—Requirements—Ignition interlock device—24/7 sobriety program monitoring

Sec. 306. RCW 10.21.055 and 2013 2nd sp.s. c 35 s 1 are each amended to read as follows:

(i) Have a functioning ignition interlock device installed on all motor vehicles operated by the person, with proof of installation filed with the court by the person or the certified interlock provider within five business days of the date of release from custody or as soon thereafter as determined by the court based on availability within the jurisdiction; or ((~~(b)~~))

(ii) Comply with 24/7 sobriety program monitoring, as defined in RCW 36.28A.330; or ((~~both~~))

(iii) Have an ignition interlock device on all motor vehicles operated by the person pursuant to (a)(i) of this subsection and submit to 24/7 sobriety program monitoring pursuant to (a)(ii) of this subsection, if available, or alcohol monitoring, at the expense of the person, as provided in RCW 46.61.5055(5) (b) and (c); or

Under this subsection (1)(a)(iv), the person must file a sworn statement with the court upon release at arraignment that states the person will not operate any motor vehicle without an ignition interlock device while the ignition interlock restriction is imposed by the court. Such person must also submit to 24/7 sobriety program monitoring pursuant to (a)(ii) of this subsection, if available, or alcohol monitoring, at the expense of the person, as provided in RCW 46.61.5055(5) (b) and (c).

(b) The court shall immediately notify the department of licensing when an ignition interlock restriction is imposed: (i) As a condition of release pursuant to (a) of this subsection; or (ii) in instances where a person is charged with, or convicted of, a violation of RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522, and the offense involves alcohol. If the court imposes an ignition interlock restriction, the department of licensing shall attach or imprint a notation on the driving record of any person restricted under this section stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device.

(2)(a) Upon acquittal or dismissal of all pending or current charges relating to a violation of RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522, or equivalent local ordinance, the court shall authorize removal of the ignition interlock device and lift any requirement to comply with electronic alcohol/drug monitoring imposed under subsection (1) of this section. Nothing in this section limits the authority of the court or department under RCW 46.20.720.

(b) If the court authorizes removal of an ignition interlock device imposed under (a) of this subsection the court shall immediately notify the department of licensing regarding the lifting of the ignition interlock restriction and the department of licensing shall release any attachment, imprint, or notation on such person's driving record relating to the ignition interlock requirement imposed under this section.

Ignition interlock driver's license—Application—Eligibility—Cancellation—Costs—Rules

Sec. 307. RCW 46.20.385 and 2013 2nd sp.s. c 35 s 20 are each amended to read as follows:

(1)(a) ((~~Beginning January 1, 2009,~~)) Any person licensed under this chapter or who has a valid driver's license from another state, who is convicted of: (i) A violation of RCW 46.61.502 or 46.61.504 or an equivalent local or out-of-state statute or ordinance, or (ii) a violation of RCW 46.61.520(1)(a) or an equivalent local or out-of-state statute or ordinance, or (iii) a conviction for a violation of RCW 46.61.520(1) (b) or (c) if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.520(1)(a), or (iv) RCW 46.61.522(1)(b) or an equivalent local or out-of-state statute or ordinance, or (v) RCW 46.61.522(1) (a) or (c) if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.522(1)(b) committed while under the influence of intoxicating liquor or any drug, or (vi) who has had or will have his or her license suspended, revoked, or denied under RCW 46.20.3101, or who is otherwise permitted under subsection (8) of this section, may submit to the department an application for an ignition interlock driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is eligible to receive the license, may issue an ignition interlock driver's license.

(b) A person may apply for an ignition interlock driver's license anytime, including immediately after receiving the notices under RCW 46.20.308 or after his or her license is suspended, revoked, or denied. ((~~A person receiving an ignition interlock driver's license waives his or her right to a hearing or appeal under RCW 46.20.308.~~))

(c) An applicant under this subsection shall provide proof to the satisfaction of the department that a functioning ignition interlock device has been installed on all vehicles operated by the person.

(i) The department shall require the person to maintain the device on all vehicles operated by the person and shall restrict the person to operating only vehicles equipped with the device, for the remainder of the period of suspension, revocation, or denial. Subject to the provisions of RCW 46.20.720(3)(b)(ii), the installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction of a person's employer as a requirement of employment during working hours. The person must provide the

department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours.

(ii) Subject to any periodic renewal requirements established by the department under this section and subject to any applicable compliance requirements under this chapter or other law, an ignition interlock driver's license granted upon a suspension or revocation under RCW 46.61.5055 or 46.20.3101 extends through the remaining portion of any concurrent or consecutive suspension or revocation that may be imposed as the result of administrative action and criminal conviction arising out of the same incident.

(iii) The time period during which the person is licensed under this section shall apply on a day-for-day basis toward satisfying the period of time the ignition interlock device restriction is required under RCW 46.20.720 ((~~and~~)), 46.61.5055, 10.05.140, 46.61.500(3), and 46.61.5249(4). Beginning with incidents occurring on or after September 1, 2011, when calculating the period of time for the restriction under RCW 46.20.720 (2) or (3), the department must also give the person a day-for-day credit for the time period, beginning from the date of the incident, during which the person kept an ignition interlock device installed on all vehicles the person operates. For the purposes of this subsection (1)(c)(iii), the term "all vehicles" does not include vehicles that would be subject to the employer exception under RCW 46.20.720(3).

(2) An applicant for an ignition interlock driver's license who qualifies under subsection (1) of this section is eligible to receive a license only if the applicant files satisfactory proof of financial responsibility under chapter 46.29 RCW.

(3) Upon receipt of evidence that a holder of an ignition interlock driver's license granted under this subsection no longer has a functioning ignition interlock device installed on all vehicles operated by the driver, the director shall give written notice by first-class mail to the driver that the ignition interlock driver's license shall be canceled. If at any time before the cancellation goes into effect the driver submits evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver, the cancellation shall be stayed. If the cancellation becomes effective, the driver may obtain, at no additional charge, a new ignition interlock driver's license upon submittal of evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver.

(4) A person aggrieved by the decision of the department on the application for an ignition interlock driver's license may request a hearing as provided by rule of the department.

(5) The director shall cancel an ignition interlock driver's license after receiving notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, no longer meets the eligibility requirements, or has been convicted of or found to have committed a separate offense or any other act or omission that under this chapter would warrant suspension or revocation of a regular driver's license. The department must give notice of the cancellation as provided under RCW 46.20.245. A person whose ignition interlock driver's license has been canceled under this section may reapply for a new ignition interlock driver's license if he or she is otherwise qualified under this section and pays the fee required under RCW 46.20.380.

(6)(a) Unless costs are waived by the ignition interlock company or the person is indigent under RCW 10.101.010, the applicant shall pay the cost of installing, removing, and leasing the ignition interlock device and shall pay an additional fee of twenty dollars per month. Payments shall be made directly to the ignition interlock company. The company shall remit the additional twenty dollar fee to the department.

(b) The department shall deposit the proceeds of the twenty dollar fee into the ignition interlock device revolving account. Expenditures from the account may be used only to administer and operate the ignition interlock device revolving account program. The department shall adopt rules to provide monetary assistance according to greatest need and when funds are available.

(7) The department shall adopt rules to implement ignition interlock licensing. The department shall consult with the administrative office of the courts, the state patrol, the Washington association of sheriffs and police chiefs, ignition interlock companies, and any other organization or entity the department deems appropriate.

(8)(a) Any person licensed under this chapter who is convicted of a violation of RCW 46.61.500 when the charge was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, may submit to the department an application for an ignition interlock driver's license under this section.

(b) A person who does not have any driver's license under this chapter, but who would otherwise be eligible under this section to apply for an ignition interlock license, may submit to the department an application for an ignition interlock license. The department may require the person to take any driver's licensing examination under this chapter and may require the person to also apply and qualify for a temporary restricted driver's license under RCW 46.20.391.

Sec. 308. RCW 46.20.740 and 2010 c 269 s 8 are each amended to read as follows:

(1) The department shall attach or imprint a notation on the driving record of any person restricted under RCW 46.20.720, 46.61.5055, or 10.05.140 stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device. The department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. If, based upon notification from the interlock provider or otherwise, the department determines that an ignition interlock required under this section is no longer installed or functioning as required, the department shall suspend the person's license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(2) It is a gross misdemeanor for a person with such a notation on his or her driving record to operate a motor vehicle that is not so equipped, unless the notation resulted from a restriction imposed as a condition of release and the restriction has been released by the court prior to driving.

(3) Any sentence imposed for a violation of subsection (2) of this section shall be served consecutively with any sentence imposed under RCW 46.20.750, 46.61.502, 46.61.504, or 46.61.5055.

Implied consent—Test refusal—Procedures

Sec. 309. RCW 46.20.308 and 2013 2nd sp.s. c 35 s 36 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath for the purpose of determining the alcohol concentration((~~, THC concentration, or presence of any drug~~)) in his or her breath if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503. ((~~Neither consent nor this section precludes a police~~

~~officer from obtaining a search warrant for a person's breath or blood.~~))

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol ((~~or THC~~)) in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. Prior to administering a breath test pursuant to this section, the officer shall inform the person of his or her right under this section to refuse the breath test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if:

(i) The driver is age twenty-one or over and the test indicates either that the alcohol concentration of the driver's breath is 0.08 or more ((~~or that the THC concentration of the driver's blood is 5.00 or more~~)); or

(ii) The driver is under age twenty-one and the test indicates either that the alcohol concentration of the driver's breath is 0.02 or more ((~~or that the THC concentration of the driver's blood is above 0.00~~)); or

(iii) The driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) ((~~Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of felony driving under the influence of intoxicating liquor or drugs under RCW 46.61.502(6), felony physical control of a motor vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6), vehicular homicide as provided in RCW 46.61.520, or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the consent of the individual so arrested pursuant to a search warrant, a valid waiver of the warrant requirement, or when exigent circumstances exist.~~

~~(4)~~)) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested ((~~refuses~~)) exercises the right, granted herein, by refusing upon the request of a law enforcement officer to submit to a test or tests of his or her breath, no test shall be given except as otherwise authorized by ((~~a search warrant~~)) law.

(4) Nothing in subsection (1), (2), or (3) of this section precludes a law enforcement officer from obtaining a person's blood to test for alcohol, marijuana, or any drug, pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law. Any blood drawn for the purpose of determining the person's alcohol, marijuana levels, or any drug, is drawn pursuant to this section when the officer has reasonable grounds to believe that the person is in physical control or driving a vehicle under the influence or in violation of RCW 46.61.503.

(5) If, after arrest and after ((~~the~~)) any other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more, or the THC concentration of the person's blood is 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood is 0.02 or more, or the THC concentration of the person's blood is above 0.00, if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law

report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary ((~~marked~~)) license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(10) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Circumventing ignition interlock—Penalty

Sec. 310. RCW 46.20.750 and 2005 c 200 s 2 are each amended to read as follows:

(1) A person who is restricted to the use of a vehicle equipped with an ignition interlock device ((~~and who tampers with the device or directs, authorizes, or requests another to tamper with the device, in order to circumvent the device by modifying, detaching, disconnecting, or otherwise disabling it,~~)) is guilty of a gross misdemeanor if the restricted driver:

(a) Tampers with the device by modifying, detaching, disconnecting, or otherwise disabling it to allow the restricted driver to operate the vehicle;

(b) Uses or requests another person to use a filter or other device to circumvent the ignition interlock or to start or operate the vehicle to allow the restricted driver to operate the vehicle;

(c) Has, directs, authorizes, or requests another person to tamper with the device by modifying, detaching, disconnecting, or otherwise disabling it to allow the restricted driver to operate the vehicle; or

(d) Has, allows, directs, authorizes, or requests another person to blow or otherwise exhale into the device in order to circumvent the device to allow the restricted driver to operate the vehicle.

(2) A person who knowingly assists another person who is restricted to the use of a vehicle equipped with an ignition interlock device to circumvent the device or to start and operate that vehicle ((~~in violation of a court order~~)) is guilty of a gross misdemeanor. The provisions of this subsection do not apply if the starting of a motor vehicle, or the request to start a motor vehicle, equipped with an ignition interlock device is done for the purpose of safety or mechanical repair of the device or the vehicle and the person subject to the court order does not operate the vehicle.

(3) Any sentence imposed for a violation of subsection (1) of this section shall be served consecutively with any sentence imposed under RCW 46.20.740, 46.61.502, 46.61.504, 46.61.5055, 46.61.520(1)(a), or 46.61.522(1)(b).

Commercial vehicles—Test for alcohol or drugs—Disqualification for refusal of test or positive test—Procedures

Sec. 311. RCW 46.25.120 and 2013 2nd sp.s. c 35 s 12 are each amended to read as follows:

(1) A person who drives a commercial motor vehicle within this state is deemed to have given consent, subject to RCW 46.61.506, to take a test or tests of that person's ((~~blood or~~)) breath for the purpose of determining that person's alcohol concentration ((~~or the presence of other drugs~~)).

(2) A test or tests may be administered at the direction of a law enforcement officer, who after stopping or detaining the commercial motor vehicle driver, has ((~~probable cause~~)) reasonable grounds to believe that driver was driving a commercial motor vehicle while having alcohol in his or her system or while under the influence of any drug.

(3) The law enforcement officer requesting the test under subsection (1) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person being disqualified from operating a commercial motor vehicle under RCW 46.25.090.

(4) A law enforcement officer who at the time of stopping or detaining a commercial motor vehicle driver has reasonable grounds to believe that driver was driving a commercial motor vehicle while having alcohol, marijuana, or any drug in his or her system or while under the influence of alcohol, marijuana, or any drug may obtain a blood test pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law.

(5) If the person refuses testing, or ((~~submits to~~)) a test is administered that discloses an alcohol concentration of 0.04 or more or any measurable amount of THC concentration, the law enforcement officer shall submit a sworn report to the department certifying that the test was requested pursuant to subsection (1) of this section or a blood test was administered pursuant to subsection (4) of this section and that the person refused to submit to testing, or ((~~submitted to~~)) a test was administered that disclosed an alcohol concentration of 0.04 or more or any measurable amount of THC concentration.

(((~~(5)~~))) (6) Upon receipt of the sworn report of a law enforcement officer under subsection (((~~(4)~~))) (5) of this section, the department shall disqualify the driver from driving a commercial motor vehicle under RCW 46.25.090, subject to the hearing provisions of RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a commercial motor vehicle within this state while having alcohol in the person's system or while under the influence of any drug, whether the person refused to submit to the test or tests upon request of the officer after having been informed that the refusal would result in the disqualification of the person from driving a commercial motor vehicle, if applicable, and, if the test was administered, whether the results indicated an alcohol concentration of 0.04 percent or more or any measurable amount of THC concentration. The department shall order that the disqualification of the person either be rescinded or sustained. Any decision by the department disqualifying a person from driving a commercial motor vehicle is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during the pendency of the hearing and appeal. If the disqualification of the person is sustained after the hearing, the person who is disqualified may file a petition in the superior court of the county of arrest to review the final order of disqualification by the department in the manner provided in RCW 46.20.334.

(((~~(6)~~))) (7) If a motor carrier or employer who is required to have a testing program under 49 C.F.R. 382 knows that a commercial driver in his or her employ has refused to submit to

testing under this section and has not been disqualified from driving a commercial motor vehicle, the employer may notify law enforcement or his or her medical review officer or breath alcohol technician that the driver has refused to submit to the required testing.

(((~~(7)~~))) (8) The hearing provisions of this section do not apply to those persons disqualified from driving a commercial motor vehicle under RCW 46.25.090(7).

Open container law for marijuana

NEW SECTION. **Sec. 312.** A new section is added to chapter 46.61 RCW to read as follows:

(1)(a) It is a traffic infraction:

(i) For the registered owner of a motor vehicle, or the driver if the registered owner is not then present, or passengers in the vehicle, to keep marijuana in a motor vehicle when the vehicle is upon a highway, unless it is (A) in the trunk of the vehicle, (B) in some other area of the vehicle not normally occupied or directly accessible by the driver or passengers if the vehicle does not have a trunk, or (C) in a package, container, or receptacle that has not been opened or the seal broken or contents partially removed. A utility compartment or glove compartment is deemed to be within the area occupied by the driver and passengers;

(ii) To consume marijuana in any manner including, but not limited to, smoking or ingesting in a motor vehicle when the vehicle is upon the public highway; or

(iii) To place marijuana in a container specifically labeled by the manufacturer of the container as containing a nonmarijuana substance and to then violate (a)(i) of this subsection.

(b) There is a rebuttable presumption that it is a traffic infraction if the original container of marijuana is incorrectly labeled and there is a subsequent violation of (a)(i) of this subsection.

(2) As used in this section, "marijuana" or "marihuana" means all parts of the plant *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or resin. The term does not include the mature stalks of the plant, fiber produced from the stalks, oil or cake made from the seeds of the plant, any other compound, manufacture, salt, derivative, mixture, or preparation of the mature stalks, except the resin extracted therefrom, fiber, oil, or cake, or the sterilized seed of the plant which is incapable of germination.

(a) **Penalty for alcohol concentration less than 0.15.** In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one day nor more than three hundred sixty-four days. Twenty-four consecutive hours of the imprisonment may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based. In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(a)(i), the court may order not less than fifteen days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device or other separate alcohol monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

Forty-eight consecutive hours of the imprisonment may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. The person shall pay for the cost of the monitoring, unless the court specifies that the cost of monitoring will be paid with funds that are available from an alternative source identified by the court. The county or

(9) **Driver's license privileges of the defendant.** The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) **Penalty for alcohol concentration less than 0.15.** If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be suspended or denied by the department for ninety days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for two years; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed under RCW 46.20.3101 arising out of the same incident.

Upon its own motion or upon motion by a person, a court may find, on the record, that notice to the department under RCW 46.20.270 has been delayed for three years or more as a result of a clerical or court error. If so, the court may order that the person's license, permit, or nonresident privilege shall not be revoked, suspended, or denied for that offense. The court shall send notice of the finding and order to the department and to the person. Upon receipt of the notice from the court, the department shall not revoke, suspend, or deny the license, permit, or nonresident privilege of the person for that offense.

For purposes of this subsection (9), the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(10) **Probation of driving privilege.** After expiration of any period of suspension, revocation, or denial of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

(11) **Conditions of probation.** (a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes up to three hundred sixty-four days in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive ((~~and~~)); (ii) not driving a motor vehicle within this state without proof of liability insurance or other financial responsibility for the future pursuant to RCW 46.30.020; (((~~(ii)~~))) (iii) not driving or being in physical control of a motor vehicle within this state while having an alcohol concentration of 0.08 or more or a THC concentration of 5.00 nanograms per milliliter of whole blood or higher, within two hours after driving; ((~~and (iii)~~)) (iv) not refusing to submit to a test of his or her breath or blood to determine alcohol or drug concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical

control of a motor vehicle within this state while under the influence of intoxicating liquor or drug; and (v) not driving a motor vehicle in this state without a functioning ignition interlock device as required by the department under RCW 46.20.720(3). The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i), (ii), ((~~or~~)) (iii), (iv), or (v) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(12) **Waiver of electronic home monitoring.** A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system. However, if a court determines that an alcohol monitoring device utilizing wireless reporting technology is reasonably available, the court may require the person to obtain such a device during the period of required electronic home monitoring;

(b) The offender does not reside in the state of Washington; or

(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, use of an ignition interlock device, the 24/7 sobriety program monitoring, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-four days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-four days.

(13) **Extraordinary medical placement.** An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in RCW 9.94A.728((~~(3)~~)) (1)(c).

(1) The state patrol shall by rule provide standards for the certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices, as defined under RCW 46.04.215, and equipment as outlined under this section, and may inspect the records and equipment of manufacturers and vendors during regular business hours for compliance with statutes and rules and may suspend or revoke certification for any noncompliance.

(2)(a) When a certified service provider or individual installer of ignition interlock devices is found to be out of compliance, the installation privileges of that certified service provider or individual installer may be suspended or revoked until the certified service provider or individual installer comes into compliance. During any suspension or revocation period, the certified service provider or individual installer is responsible for notifying affected customers of any changes in their service agreement.

(b) A certified service provider or individual installer whose certification is suspended or revoked for noncompliance has a right to an administrative hearing under chapter 34.05 RCW to contest the suspension or revocation, or both. For the administrative hearing, the procedure and rules of evidence are as specified in chapter 34.05 RCW, except as otherwise provided in this chapter. Any request for an administrative hearing must be made in writing and must be received by the state patrol within twenty days after the receipt of the notice of suspension or revocation.

Such coordinates must be displayed within the data log that is downloaded by the manufacturer and must be made available to the state patrol to be used for circumvention and tampering investigations.

(((~~(c)~~))) (b) To be certified, an ignition interlock device must:

(i) Meet or exceed the minimum test standards according to rules adopted by the state patrol. Only a notarized statement from a laboratory that is accredited and certified ((~~by~~)) under the current edition of ISO (the international organization of standardization) 17025 standard for testing and calibration laboratories and is capable of performing the tests specified will be accepted as proof of meeting or exceeding the standards. (C) Upon request of the person named in the abstract provided under this subsection, and upon that same person furnishing copies of court records ruling that the person was not at fault in a motor vehicle accident, the department must indicate on any abstract provided under this subsection that the person was not at fault in the motor vehicle accident.

(D) No employer or prospective employer, nor any agent of an employer or prospective employer, may use information contained in the abstract related to an adjudication that is subject to a court order sealing the juvenile record of an employee or prospective employee for any purpose unless required by federal regulation or law. The employee or prospective employee must furnish a copy of the court order sealing the juvenile record to the employer or prospective employer, or the agent of the employer or prospective employer, as may be required to ensure the application of this subsection.

(ii) In addition to the methods described in (b)(i) of this subsection, the director may enter into a contractual agreement with an employer or its agent for the purpose of reviewing the driving records of existing employees for changes to the record during specified periods of time. The department shall establish a fee for this service, which must be deposited in the highway safety fund. The fee for this service must be set at a level that will not result in a net revenue loss to the state. This does not apply to any situation where the vehicle was used in the commission of a misdemeanor or felony;

(B) Include convictions under RCW 46.61.5249 and 46.61.525, except that the abstract must report the convictions only as negligent driving without reference to whether they are for first or second degree negligent driving; and

(C) Exclude any deferred prosecution under RCW 10.05.060, except that if a person is removed from a deferred prosecution under RCW 10.05.090, the abstract must show the deferred prosecution as well as the removal.

(3) **Release to third parties prohibited.** Any person or entity receiving an abstract of a person's driving record under subsection (2)(b) through (i) of this section shall use the abstract exclusively for his, her, or its own purposes or as otherwise expressly permitted under this section, and shall not divulge any information contained in the abstract to a third party.

(4) **Fee.** The director shall collect a thirteen dollar fee for each abstract of a person's driving record furnished by the department. Fifty percent of the fee must be deposited in the highway safety fund, and fifty percent of the fee must be deposited according to RCW 46.68.038.

Sec. 317. RCW 9.94A.589 and 2002 c 175 s 7 are each amended to read as follows:

(1)(a) Except as provided in (b) ((~~or~~)), (c), or (d) of this subsection, whenever a person is to be sentenced for two or more current offenses, the sentence range for each current offense shall be determined by using all other current and prior convictions as if they were prior convictions for the purpose of the offender score: PROVIDED, That if the court enters a finding that some or all of the current offenses encompass the same criminal conduct then those current offenses shall be counted as one crime. Sentences imposed under this subsection shall be served concurrently. Consecutive sentences may only be imposed under the exceptional sentence provisions of RCW 9.94A.535. "Same criminal conduct," as used in this subsection, means two or more crimes that require the same criminal intent, are committed at the same time and place, and involve the same victim. This definition applies in cases involving vehicular assault or vehicular homicide even if the victims occupied the same vehicle.

(b) Whenever a person is convicted of two or more serious violent offenses arising from separate and distinct criminal conduct, the standard sentence range for the offense with the highest seriousness level under RCW 9.94A.515 shall be determined using the offender's prior convictions and other current convictions that are not serious violent offenses in the offender score and the standard sentence range for other serious violent offenses shall be determined by using an offender score of zero. The standard sentence range for any offenses that are not serious violent offenses shall be determined according to (a) of this subsection. All sentences imposed under ((~~(b) of~~)) this subsection (1)(b) shall be served consecutively to each other and concurrently with sentences imposed under (a) of this subsection.

(c) If an offender is convicted under RCW 9.41.040 for unlawful possession of a firearm in the first or second degree and for the felony crimes of theft of a firearm or possession of a stolen firearm, or both, the standard sentence range for each of these current offenses shall be determined by using all other current and prior convictions, except other current convictions for the felony crimes listed in this subsection (1)(c), as if they were prior convictions. The offender shall serve consecutive sentences for each conviction of the felony crimes listed in this subsection (1)(c), and for each firearm unlawfully possessed.

(d) All sentences imposed under RCW 46.61.502(6), 46.61.504(6), or 46.61.5055(4) shall be served consecutively to any sentences imposed under RCW 46.20.740 and 46.20.750.

(2)(a) Except as provided in (b) of this subsection, whenever a person while under sentence for conviction of a felony commits another felony and is sentenced to another term of confinement, the latter term shall not begin until expiration of all prior terms.

(b) Whenever a second or later felony conviction results in community supervision with conditions not currently in effect, under the prior sentence or sentences of community supervision the court may require that the conditions of community supervision contained in the second or later sentence begin during the immediate term of community supervision and continue throughout the duration of the consecutive term of community supervision.

(3) Subject to subsections (1) and (2) of this section, whenever a person is sentenced for a felony that was committed while the person was not under sentence for conviction of a felony, the sentence shall run concurrently with any felony sentence which has been imposed by any court in this or another state or by a federal court subsequent to the commission of the crime being sentenced unless the court pronouncing the current sentence expressly orders that they be served consecutively.

(4) Whenever any person granted probation under RCW 9.95.210 or 9.92.060, or both, has the probationary sentence revoked and a prison sentence imposed, that sentence shall run consecutively to any sentence imposed pursuant to this chapter, unless the court pronouncing the subsequent sentence expressly orders that they be served concurrently.

(5) In the case of consecutive sentences, all periods of total confinement shall be served before any partial confinement, community restitution, community supervision, or any other requirement or conditions of any of the sentences. Except for exceptional sentences as authorized under RCW 9.94A.535, if two or more sentences that run consecutively include periods of community supervision, the aggregate of the community supervision period shall not exceed twenty-four months.

Sec. 318. RCW 46.61.503 and 2013 c 3 s 34 are each amended to read as follows:

(1) Notwithstanding any other provision of this title, a person is guilty of driving or being in physical control of a motor vehicle after consuming alcohol or marijuana if the person operates or is in physical control of a motor vehicle within this state and the person:

(a) Is under the age of twenty-one; and

"**Sec. 3.** RCW 74.66.070 and 2012 c 241 s 207 are each amended to read as follows:

(1)(a) Subject to (b) of this subsection, if the attorney general proceeds with a qui tam action, the relator must receive at least fifteen percent but not more than twenty-five percent of the proceeds of the action or settlement of the claim, depending upon the extent to which the relator substantially contributed to the prosecution of the action.

(b) Where the action is one which the court finds to be based primarily on disclosures of specific information, other than information provided by the relator, relating to allegations or transactions in a criminal, civil, or administrative hearing, in a legislative or administrative report, hearing, audit, or investigation, or from the news media, the court may award an amount it considers appropriate, but in no case more than ten percent of the proceeds, taking into account the significance of the information and the role of the relator in advancing the case to litigation.

(c) Any payment to a relator under (a) or (b) of this subsection must be made from the proceeds. The relator must also receive an amount for reasonable expenses which the court finds to have been necessarily incurred, plus reasonable attorneys' fees and costs. All expenses, fees, and costs must be awarded against the defendant.

(2) If the attorney general does not proceed with a qui tam action, the relator shall receive an amount which the court decides is reasonable for collecting the civil penalty and damages. The amount may not be less than twenty-five percent and not more than thirty percent of the proceeds of the action or settlement and must be paid out of the proceeds. The relator must also receive an amount for reasonable expenses, which the court finds to have been necessarily incurred, plus reasonable attorneys' fees and costs. All expenses, fees, and costs must be awarded against the defendant.

(3) Whether or not the attorney general proceeds with the qui tam action, if the court finds that the action was brought by a person who planned and initiated the violation of RCW 74.66.020 upon which the action was brought, then the court may, to the extent the court considers appropriate, reduce the share of the proceeds of the action which the person would otherwise receive under subsection (1) or (2) of this section, taking into account the role of that person in advancing the case to litigation and any relevant circumstances pertaining to the violation. If the person bringing the action is convicted of criminal conduct arising from his or her role in the violation of RCW 74.66.020, that person must be dismissed from the civil action and may not receive any share of the proceeds of the action. The dismissal may not prejudice the right of the state to continue the action, represented by the attorney general.

(4) If the attorney general does not proceed with the qui tam action and the relator conducts the action, the court ((~~may~~)) shall award to the defendant reasonable attorneys' fees and expenses if the defendant prevails in the action ((~~and the court finds that the claim of the relator was clearly frivolous, clearly vexatious, or brought primarily for purposes of harassment~~)).

(5) Any funds recovered that remain after calculation and distribution under subsections (1) through (3) of this section must be deposited into the medicaid fraud penalty account established in RCW 74.09.215."

(13) The false claims act investigator conducting the examination shall exclude from the place where the examination is held all persons except the person giving the testimony, the attorney for and any other representative of the person giving the testimony, the attorney general, any person who may be agreed upon by the attorney for the government and the person giving the testimony, the officer before whom the testimony is to be taken, and any stenographer taking the testimony.

(14) The oral testimony of any person taken pursuant to a civil investigative demand served under this section must be taken in the county within which such person resides, is found, or transacts business, or in another place as may be agreed upon by the false claims act investigator conducting the examination and the person.

(15) When the testimony is fully transcribed, the false claims act investigator or the officer before whom the testimony is taken must afford the witness, who may be accompanied by counsel, a reasonable opportunity to examine and read the transcript, unless the examination and reading are waived by the witness. Any changes in form or substance which the witness desires to make must be entered and identified upon the transcript by the officer or the false claims act investigator, with a statement of the reasons given by the witness for making the changes. The transcript must then be signed by the witness, unless the witness in writing waives the signing, is ill, cannot be found, or refuses to sign. If the transcript is not signed by the witness within thirty days after being afforded a reasonable opportunity to examine it, the officer or the false claims act investigator must sign it and state on the record the fact of the waiver, illness, absence of the witness, or the refusal to sign, together with the reasons given.

(16) The officer before whom the testimony is taken must certify on the transcript that the witness was sworn by the officer and that the transcript is a true record of the testimony given by the witness, and the officer or false claims act investigator must promptly deliver the transcript, or send the transcript by registered or certified mail, to the custodian.

(17) Upon payment of reasonable charges therefor, the false claims act investigator must furnish a copy of the transcript to the witness only, except that the attorney general, the deputy attorney general, or an assistant attorney general may, for good cause, limit the witness to inspection of the official transcript of the witness' testimony.

(18)(a) Any person compelled to appear for oral testimony under a civil investigative demand issued under subsection (1) or (2) of this section may be accompanied, represented, and advised by counsel. Counsel may advise the person, in confidence, with respect to any question asked of the person. The person or counsel may object on the record to any question, in whole or in part, and

must briefly state for the record the reason for the objection. An objection may be made, received, and entered upon the record when it is claimed that the person is entitled to refuse to answer the question on the grounds of any constitutional or other legal right or privilege, including the privilege against self-incrimination. The person may not otherwise object to or refuse to answer any question, and may not directly or through counsel otherwise interrupt the oral examination. If the person refuses to answer any question, a special injury proceeding petition may be filed in the superior court under subsection (25) of this section for an order compelling the person to answer the question.

(b) If the person refuses to answer any question on the grounds of the privilege against self-incrimination, the testimony of the person may be compelled in accordance with the provisions of the superior court civil rules.

(19) Any person appearing for oral testimony under a civil investigative demand issued under subsection (1) or (2) of this section is entitled to the same fees and allowances which are paid to witnesses in the superior courts.

(20) The attorney general must designate a false claims act investigator to serve as custodian of documentary material, answers to interrogatories, and transcripts of oral testimony received under this section, and must designate such additional false claims act investigators as the attorney general determines from time to time to be necessary to serve as deputies to the custodian.

(21)(a) A false claims act investigator who receives any documentary material, answers to interrogatories, or transcripts of oral testimony under this section must transmit them to the custodian. The custodian shall take physical possession of the material, answers, or transcripts and is responsible for the use made of them and for the return of documentary material under subsection (23) of this section.

(b) The custodian may cause the preparation of the copies of the documentary material, answers to interrogatories, or transcripts of oral testimony as may be required for official use by any false claims act investigator, or employee of the attorney general. The material, answers, and transcripts may be used by any authorized false claims act investigator or other officer or employee in connection with the taking of oral testimony under this section.

(c)(i) Except as otherwise provided in this subsection (21), no documentary material, answers to interrogatories, or transcripts of oral testimony, or copies thereof, while in the possession of the custodian, may be available for examination by any individual other than a false claims act investigator or other officer or employee of the attorney general authorized under (b) of this subsection.

(ii) The prohibition in (c)(i) of this subsection on the availability of material, answers, or transcripts does not apply if consent is given by the person who produced the material, answers, or transcripts, or, in the case of any product of discovery produced pursuant to an express demand for the material, consent is given by the person from whom the discovery was obtained. Nothing in this subsection \\sanjuan\ATLASMACROS\DATA\2015 JOURNAL\Journal2015\LegDay027\(21).doc(c)(ii) is intended to prevent disclosure to the legislature, including any committee or subcommittee for use by such an agency in furtherance of its statutory responsibilities.

(d) While in the possession of the custodian and under the reasonable terms and conditions as the attorney general shall prescribe:

(i) Documentary material and answers to interrogatories must be available for examination by the person who produced the material or answers, or by a representative of that person authorized by that person to examine the material and answers; and

(ii) Transcripts of oral testimony must be available for examination by the person who produced the testimony, or by a representative of that person authorized by that person to examine the transcripts.

(22) Whenever any official has been designated to appear before any court, special inquiry judge, or state administrative judge in any case or proceeding, the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony received under this section may deliver to the official the material, answers, or transcripts for official use in connection with any case or proceeding as the official determines to be required. Upon the completion of such a case or proceeding, the official must return to the custodian any material, answers, or transcripts so delivered which have not passed into the control of any court, grand jury, or agency through introduction into the record of such a case or proceeding.

(23) If any documentary material has been produced by any person in the course of any false claims act investigation pursuant to a civil investigative demand under this section, and:

(a) Any case or proceeding before the court or special inquiry judge arising out of the investigation, or any proceeding before any administrative judge involving the material, has been completed; or

(b) No case or proceeding in which the material may be used has been commenced within a reasonable time after completion of the examination and analysis of all documentary material and other information assembled in the course of the investigation:

Then, the custodian shall, upon written request of the person who produced the material, return to the person the material, other than copies furnished to the false claims act investigator under subsection (10) of this section or made for the attorney general under subsection (21)(b) of this section, which has not passed into the control of any court, grand jury, or agency through introduction into the record of the case or proceeding.

(24)(a) In the event of the death, disability, or separation from service of the attorney general of the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony produced pursuant to civil investigative demand under this section, or in the event of the official relief of the custodian from responsibility for the custody and control of the material, answers, or transcripts, the attorney general must promptly:

(i) Designate another false claims act investigator to serve as custodian of the material, answers, or transcripts; and

(ii) Transmit in writing to the person who produced the material, answers, or testimony notice of the identity and address of the successor so designated.

(b) Any person who is designated to be a successor under this subsection (24) has, with regard to the material, answers, or transcripts, the same duties and responsibilities as were imposed by this section upon that person's predecessor in office, except that the successor may not be held responsible for any default or dereliction which occurred before that designation.

(25) Whenever any person fails to comply with any civil investigative demand issued under subsection (1) or (2) of this section, or whenever satisfactory copying or reproduction of any material requested in the demand cannot be done and the person refuses to surrender the material, the attorney general may file, in any superior court of the state of Washington for any county in which the person resides, is found, or transacts business, and serve upon the person a petition for an order of the court for the enforcement of the civil investigative demand.

(26)(a) Any person who has received a civil investigative demand issued under subsection (1) or (2) of this section may file, in the superior court of the state of Washington for the county

within which the person resides, is found, or transacts business, and serve upon the false claims act investigator identified in the demand a petition for an order of the court to modify or set aside the demand. In the case of a petition addressed to an express demand for any product of discovery, a petition to modify or set aside the demand may be brought only in the district court of the United States for the judicial district in which the proceeding in which the discovery was obtained is or was last pending. Any petition filed under this subsection (26)(a) must be filed:

(i) Within thirty days after the date of service of the civil investigative demand, or at any time before the return date specified in the demand, whichever date is earlier; or

(ii) Within a longer period as may be prescribed in writing by any false claims act investigator identified in the demand.

(b) The petition must specify each ground upon which the petitioner relies in seeking relief under (a) of this subsection, and may be based upon any failure of the demand to comply with the provisions of this section or upon any constitutional or other legal right or privilege of the person. During the pendency of the petition in the court, the court may stay, as it deems proper, the running of the time allowed for compliance with the demand, in whole or in part, except that the person filing the petition shall comply with any portions of the demand not sought to be modified or set aside.

(27)(a) In the case of any civil investigative demand issued under subsection (1) or (2) of this section which is an express demand for any product of discovery, the person from whom the discovery was obtained may file, in the superior court of the state of Washington for the county in which the proceeding in which the discovery was obtained is or was last pending, and serve upon any false claims act investigator identified in the demand and upon the recipient of the demand, a petition for an order of the court to modify or set aside those portions of the demand requiring production of any product of discovery. Any petition under this subsection (27)(a) must be filed:

(i) Within twenty days after the date of service of the civil investigative demand, or at any time before the return date specified in the demand, whichever date is earlier; or

(ii) Within a longer period as may be prescribed in writing by any false claims act investigator identified in the demand.

(b) The petition must specify each ground upon which the petitioner relies in seeking relief under (a) of this subsection, and may be based upon any failure of the portions of the demand from which relief is sought to comply with the provisions of this section, or upon any constitutional or other legal right or privilege of the petitioner. During the pendency of the petition, the court may stay, as it deems proper, compliance with the demand and the running of the time allowed for compliance with the demand.

(28) At any time during which any custodian is in custody or control of any documentary material or answers to interrogatories produced, or transcripts of oral testimony given, by any person in compliance with any civil investigative demand issued under subsection (1) or (2) of this section, the person, and in the case of an express demand for any product of discovery, the person from whom the discovery was obtained, may file, in the superior court of the state of Washington for the county within which the office of the custodian is situated, and serve upon the custodian, a petition for an order of the court to require the performance by the custodian of any duty imposed upon the custodian by this section.

(29) Whenever any petition is filed in any superior court of the state of Washington under this section, the court has jurisdiction to hear and determine the matter so presented, and to enter an order or orders as may be required to carry out the provisions of this section. Any final order so entered is subject to appeal under the rules of appellate procedure. Any disobedience of any final order entered under this section by any court must be punished as a contempt of the court.

(30) The superior court civil rules apply to any petition under this section, to the extent that the rules are not inconsistent with the provisions of this section.

(31) Any documentary material, answers to written interrogatories, or oral testimony provided under any civil investigative demand issued under subsection (1) or (2) of this section are exempt from disclosure under the public records act, chapter 42.56 RCW.

WHEREAS, Dr. Elson S. Floyd became the 10th president of Washington State University in 2007, after 29 years in higher education and presidencies at two other universities; and

WHEREAS, President Floyd epitomized the belief of his hardworking parents, particularly his mother, that education is the ticket to a better life, with his academic performance leading to scholarships at the University of North Carolina at Chapel Hill, in his home state; and

WHEREAS, President Floyd earned a bachelor of arts degree in political science, a master of education degree in adult education, and a doctorate in higher and adult education at the University of North Carolina before embarking on a career that included leadership posts at Eastern Washington University and the Washington State Higher Education Coordinating Board; and

WHEREAS, President Floyd was highly sought after for leadership positions at higher education institutions around the nation until he and his wife, Carmento, finally came back "home" to Washington eight years ago for what he called "the best job in the country"—that of leading Washington State University; and

WHEREAS, In Pullman, the man who became known affectionately as President "E Flo" recognized and acknowledged that there is something special about Washington State University and something even more special about being a Coug, a quality that endeared himself to students and staff; and

WHEREAS, As an administrator, President Floyd expertly steered Washington State University through some of the most difficult financial times ever faced by the university, all while strengthening its academic programs, enhancing its reputation, and resolving to meet new levels of excellence; and

WHEREAS, President Floyd worked to eliminate boundaries to higher education, even when the barrier was a mountain range, expanding Washington State University's footprint beyond Pullman to reach every corner of the state—from Spokane and the Tri-Cities, to Vancouver and Everett—and increasing enrollment to record highs, including a record high number of students from diverse backgrounds; and

WHEREAS, President Floyd's tenure included many substantial accomplishments that will serve as lasting legacies for Washington State University, including the installation of the Edward R. Murrow College of Communication, the completion of the Ste. Michelle Wine Estates Wine Science Center, the opening of the Paul G. Allen School for Global Animal Health, and increasing research funding by an astounding 57.5 percent; and

WHEREAS, President Floyd's final contribution to Washington State University would prove to be his tireless and successful advocacy in Olympia for a change in the law that limited Washington to one medical school; and

WHEREAS, President Floyd undertook this initiative out of the belief that his adopted state would be better if more students could stay in Washington to attend medical school and have opportunities to learn and practice east of the Cascades, benefiting smaller communities where medical professionals are scarce; and

WHEREAS, It is now apparent that in recent months President Floyd served his beloved Cougar nation tirelessly while battling the disease that claimed his life so unexpectedly on June 20, 2015, just over two weeks after he took medical leave; and

WHEREAS, Even more importantly, President Floyd's devotion to his cherished wife Carmento, his children, his parents, and even his brothers will serve as his lasting personal legacy; and

WHEREAS, Great accomplishments aside, all who knew President Floyd knew him to be a genuine and kind man of strong faith who spoke his mind and treated those around him with the same respect and care, regardless of whether they were students, university staff, elected officials, or influential business leaders; and

WHEREAS, President Floyd always supported Washington State University in academics, community leadership, and athletics, and meant it when he said, "Go Cougs!";

NOW, THEREFORE, BE IT RESOLVED, That with great sadness the Washington State House of Representatives honor and remember the life and legacy of Dr. Elson S. Floyd, Washington State University president and dedicated public servant and leader, who will be missed by his family, friends, students, and colleagues more than words and a shout of "GO COUGS!" in his honor can convey; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to President Floyd's wife, Carmento Floyd; his two children, Jessica and Kenneth; his mother, Dorothy; and the Washington State University Board of Regents.

NEW SECTION. **Sec. 202.** A new section is added to chapter 69.50 RCW under the subchapter heading "article V" to read as follows:

(1) Whenever the board determines that a limited liability business entity has collected trust fund taxes and has failed to remit those taxes to the board and that business entity has been terminated, dissolved, or abandoned, or is insolvent, the board may pursue collection of the entity's unpaid trust fund taxes, including penalties on those taxes, against any or all of the responsible individuals. For purposes of this subsection, "insolvent" means the condition that results when the sum of the entity's debts exceeds the fair market value of its assets. The board may presume that an entity is insolvent if the entity refuses to disclose to the board the nature of its assets and liabilities.

(2)(a) For a responsible individual who is the current or a former chief executive or chief financial officer, liability under this section applies regardless of fault or whether the individual was or should have been aware of the unpaid trust fund tax liability of the limited liability business entity.

(b) For any other responsible individual, liability under this section applies only if he or she willfully failed to pay or to cause to be paid to the board the trust fund taxes due from the limited liability business entity.

(3)(a) Except as provided in this subsection (3)(a), a responsible individual who is the current or a former chief executive or chief financial officer is liable under this section only for trust fund tax liability accrued during the period that he or she was the chief executive or chief financial officer. However, if the responsible individual had the responsibility or duty to remit payment of the limited liability business entity's trust fund taxes to the board during any period of time that the person was not the chief executive or chief financial officer, that individual is also liable for trust fund tax liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the board but was not the chief executive or chief financial officer.

(b) All other responsible individuals are liable under this section only for trust fund tax liability that became due during the period he or she had the responsibility or duty to remit payment of the limited liability business entity's taxes to the board.

(4) Persons described in subsection (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the limited liability business entity's trust fund taxes was due to reasons beyond their control as determined by the board by rule.

(5) Any person having been issued a notice of unpaid trust fund taxes under this section is entitled to an administrative hearing under RCW 69.50.334 and any such rules the board may adopt.

(6) This section does not relieve the limited liability business entity of its trust fund tax liability or otherwise impair other tax collection remedies afforded by law.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Board" means the state liquor and cannabis board.

(b) "Chief executive" means: The president of a corporation or for other entities or organizations other than corporations or if the corporation does not have a president as one of its officers, the highest ranking executive manager or administrator in charge of the management of the company or organization.

(c) "Chief financial officer" means: The treasurer of a corporation or for entities or organizations other than corporations or if a corporation does not have a treasurer as one of its officers, the highest senior manager who is responsible for overseeing the financial activities of the entire company or organization.

(d) "Limited liability business entity" means a type of business entity that generally shields its owners from personal liability for the debts, obligations, and liabilities of the entity, or a business entity that is managed or owned in whole or in part by an entity that generally shields its owners from personal liability for the debts, obligations, and liabilities of the entity. Limited liability business entities include corporations, limited liability companies, limited liability partnerships, trusts, general partnerships and joint ventures in which one or more of the partners or parties are also limited liability business entities, and limited partnerships in which one or more of the general partners are also limited liability business entities.

(e) "Manager" has the same meaning as in RCW 25.15.005.

(f) "Member" has the same meaning as in RCW 25.15.005, except that the term only includes members of member-managed limited liability companies.

(g) "Officer" means any officer or assistant officer of a corporation, including the president, vice president, secretary, and treasurer.

(h)(i) "Responsible individual" includes any current or former officer, manager, member, partner, or trustee of a limited liability business entity with unpaid trust fund tax liability.

(ii) "Responsible individual" also includes any current or former employee or other individual, but only if the individual had the responsibility or duty to remit payment of the limited liability business entity's unpaid trust fund tax liability.

(iii) Whenever any taxpayer has one or more limited liability business entities as a member, manager, or partner, "responsible individual" also includes any current and former officers, members, or managers of the limited liability business entity or entities or of any other limited liability business entity involved directly in the management of the taxpayer. For purposes of this subsection (7)(h)(iii), "taxpayer" means a limited liability business entity with unpaid trust fund taxes.

(i) "Trust fund taxes" means taxes collected from buyers and deemed held in trust under RCW 69.50.535.

(j) "Willfully failed to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

Sec. 203. RCW 69.50.357 and 2015 c 70 s 12 are each amended to read as follows:

~~(3)~~)) (a) There is levied and collected a marijuana excise tax equal to ((~~twenty-five~~)) thirty-seven percent of the selling price on each retail sale in this state of marijuana concentrates, useable marijuana, and marijuana-infused products. This tax is ((~~the obligation of the licensed marijuana retailer, is~~)) separate and in addition to general state and local sales and use taxes that apply to retail sales of tangible personal property, and is not part of the total retail price to which general state and local sales and use taxes apply. The tax must be separately itemized from the state and local retail sales tax on the sales receipt provided to the buyer.

(b) The tax levied in this section must be reflected in the price list or quoted shelf price in the licensed marijuana retail store and in any advertising that includes prices for all useable marijuana, marijuana concentrates, or marijuana-infused products.

The tax collected as required by this section is deemed to be held in trust by the seller until paid to the board. If any seller fails to collect the tax imposed in this section or, having collected the tax, fails to pay it as prescribed by the board, whether such failure is the result of the seller's own acts or the result of acts or conditions beyond the seller's control, the seller is, nevertheless, personally liable to the state for the amount of the tax.

(c) The board is not required to report to the legislature as required in (b) of this subsection after January 1, 2025.

(6) The legislature does not intend and does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal antitrust laws including, but not limited to, agreements among retailers as to the selling price of any goods sold.

The state liquor and cannabis board may submit the criminal history record information check to the Washington state patrol and to the identification division of the federal bureau of investigation in order that these agencies may search their records for prior arrests and convictions of the individual or individuals who filled out the forms. (1) Except as provided in subsections (2) through (6) of this section, no city, town, or county may enact or enforce a moratorium or prohibition on the production, processing, researching, or retail sale of marijuana under this chapter.

(2)(a) Any registered voter of a city, town, or county may submit a petition calling for the city, town, or county to prohibit the siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana under this chapter. The petition must be signed by thirty percent or more of the voters of the jurisdiction and must be filed with the legislative authority of the applicable city, town, or county. With respect to petitions to be filed with a county under this subsection, only registered voters in the unincorporated area of the county may initiate and sign the petition.

(b) If the legislative authority determines the petition to be sufficient, it must, within sixty days of determining the petition to be sufficient, hold a public hearing on the petition and an implementing ordinance. Following the public hearing, the legislative authority of the city, town, or county must submit the question of prohibiting siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana products under this chapter to the voters of the jurisdiction at a general election.

(c) If a majority of the voters of the city, town, or county voting in the election approves the prohibition, the prohibition will take effect on the date specified in the petition. If no effective date is specified in the petition, the prohibition takes effect sixty days after the election.

(3) As an alternative to the petition process established in subsection (2) of this section, the legislative authority of any city, town, or county may initiate an ordinance provided for in subsection (2) of this section by submitting a ballot proposition at a general election prohibiting the siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana under this chapter. If a majority of the voters of the county, city, or town voting in the election approves the prohibition, the prohibition takes effect on the date specified in the ballot proposition. If no effective date is specified in the ballot proposition, the prohibition takes effect sixty days after the election.

(4) With respect to a county enacting an ordinance under this section, the ordinance may only apply to unincorporated areas of the county. No voters within the boundaries of an incorporated city or town may participate in a county election under this section.

(5) Following the passage of an ordinance under subsections (2) and (3) of this section, the state liquor control board may not issue or renew any license under RCW 69.50.325 or section 1501 of this act for the production, processing, researching, or retail sale of marijuana with respect to businesses that are either located or proposed to be located within an area subject to the ordinance.

(6) The legislative authority of a city, town, or county may, by ordinance, repeal a prohibition enacted under this section not less than two years after the prohibition's effective date. After a repeal under this subsection, the state liquor control board may issue and renew licenses under RCW 69.50.325 or section 1501 of this act within the area that had been subject to a prohibition.

(7) Nothing in this section may be construed to extend powers to cities, towns, or counties beyond the power to prohibit the siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana.

NEW SECTION. **Sec. 1602.** A new section is added to chapter 36.01 RCW to read as follows:

NEW SECTION. **Sec. 1703.** (1) Subject to appropriation, if, in addition to any distributions required by section 206 of this act, funding of at least six million dollars per fiscal year for fiscal years 2016 and 2017 is not provided by June 30, 2015, in the omnibus appropriations act for distribution to local governments for marijuana enforcement, this section is null and void. The appropriation in the omnibus appropriations act must reference this section by bill and section number. Distributions to local governments are based on the distribution formula in subsection (2) of this section.

"Eligible city" means any city or town in which sales of marijuana products are attributable to a marijuana retailer, as defined in RCW 69.50.101, located within the boundaries of the city or town.

(d) By September 15th of each year, the state liquor and cannabis board must provide the state treasurer the annual distribution amount, if any, for each county and city as determined in subsection (2) of this section.

(iii) Cultural competence.

(5) The building bridges work group shall make recommendations to the governor and the legislature by December 1, 2010, on a state-level and regional infrastructure for coordinating services for vulnerable youth. Recommendations must address the following issues:

(a) Whether to adopt an official conceptual approach or framework for all entities working with vulnerable youth that can support coordinated planning and evaluation;

Sec. 10. RCW 28A.230.090 and 2014 c 217 s 202 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

(d)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(d). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(d) to an applying school district at the next subsequent meeting of the board after receiving an application.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review ((~~and to the quality education council established under RCW 28A.290.010~~)). The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American

sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 11. RCW 28A.300.136 and 2013 c 23 s 49 are each amended to read as follows:

(1) An educational opportunity gap oversight and accountability committee is created to synthesize the findings and recommendations from the 2008 achievement gap studies into an implementation plan, and to recommend policies and strategies to the superintendent of public instruction, the professional educator standards board, and the state board of education to close the achievement gap.

(2) The committee shall recommend specific policies and strategies in at least the following areas:

(g) Exploring innovative school models that have shown success in closing the achievement gap.

(3) Taking a multidisciplinary approach, the committee may seek input and advice from other state and local agencies and organizations with expertise in health, social services, gang and violence prevention, substance abuse prevention, and other issues that disproportionately affect student achievement and student success.

(4) The educational opportunity gap oversight and accountability committee shall be composed of the following members:

(a) The chairs and ranking minority members of the house and senate education committees, or their designees;

(5) The governor and the tribes are encouraged to designate members who have experience working in and with schools.

(6) The committee may convene ad hoc working groups to obtain additional input and participation from community members. Members of ad hoc working groups shall serve without compensation and shall not be reimbursed for travel or other expenses.

Sec. 12. RCW 28A.400.201 and 2011 1st sp.s. c 43 s 468 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the human resources director in the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the office of financial management, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature ((~~and the quality education council created in RCW 28A.290.010~~)). The working group shall make an initial report to the legislature by June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

Representatives Lytton and Magendanz spoke in favor of the adoption of the amendment.

Amendment (526) was adopted.

Representative Magendanz moved the adoption of amendment (518):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1706.** INTENT. (1) In its January 2012 ruling in *McCleary v. State*, the state supreme court declared that Engrossed Substitute House Bill No. 2261 (chapter 548, Laws of 2009), "if fully funded," constituted a "promising reform" that would remedy deficiencies in the state's compliance with its paramount duty to make ample provision for the education of its children. In Engrossed Substitute House Bill No. 2261, the legislature revised its previous formulas to establish the prototypical school model, and it directed the quality education council and its technical working groups to recommend the details of necessary formula enhancements to the prototypical school model. The following year, the legislature enacted Substitute House Bill No. 2776 (chapter 236, Laws of 2010), which provided in statute quantification of the formula enhancements and established statutory deadlines for funding and implementation of these deadlines. Specifically, Substitute House Bill No. 2776 called for (a) full funding of the expected cost transportation formula by the 2013-2015 biennium, which the legislature implemented in the budget for the 2013-2015 biennium, fully funding the model in the 2014-15 school year; (b) full funding of the enhanced formula for materials, supplies, and operating costs by the 2015-16 school year, which both houses of the legislature have funded in the respective 2015-2017 proposed budgets that have passed each chamber; (c) full funding for all-day kindergarten by the 2017-18 school year, which both houses of the legislature have funded in the respective 2015-2017 budgets that have passed each chamber, one year ahead of the statutory deadline; and (d) full funding for K-3 class size reduction by the 2017-18 school year, which both houses of the legislature have funded in a phase-in schedule in the respective 2015-2017 proposed budgets that have passed each chamber, with full implementation planned for the 2017-18 school year.

(2) In its September 2014 order in *McCleary*, the court indicated that it expects the legislature to provide the court with a plan against which to measure the state's progress toward full implementation. As described in subsection (1) of this section, in Substitute House Bill No. 2776 the legislature enacted a comprehensive plan for funding the enhancements to the prototypical school formula, and the legislature has not failed to meet a statutorily prescribed deadline. These enhancements to the funding formula address transportation and materials, supplies, and operating costs, two of the areas identified by the court in which state funding allocations were insufficient to support the state's program of basic education, thereby causing school districts to rely on local levies for implementation of the state's basic education program.

(3) The 2012 *McCleary* ruling also identified a constitutional flaw in the funding formula that predated Engrossed Substitute House Bill No. 2261 and Substitute House Bill No. 2776: State allocations for state-funded staff salaries were insufficient to provide districts with adequate funding to hire and retain teachers for the state's program of basic education. To correct the identified inadequacies of the state salary allocation formulas, the legislature intends to review and quantify the need for additional state allocations so that the state may implement its new salary funding formula in the 2018-19 school year. As a starting point for this task, the legislature finds that the review process should begin with the assumption that the minimum salary cost for the state's program of basic education is the sum of total statewide salary allocations for state-funded employees in the 2014-15 school year plus eighty-five percent of the difference between that amount and total statewide

school district actual salary expenditures for state-funded employees in the 2014-15 school year.

(4) The legislature further finds that increased state salary allocations, while a necessary part of the solution, are not a complete solution. The legislature intends to correct the inadequate state salary allocations identified by the court, but it cannot do so without simultaneously addressing the use of and accountability for local levies for enrichments to the state-funded program of basic education, as well as state-funded levy equalization to mitigate the effect of above-average property tax rates for local levies. Revisions to local levy laws must consider sensitivity to tax rates for districts that have relatively low property values. The intricacies of these entwined topics mean that a piecemeal or interim solution is not feasible. Further, due to the complexity of any plan that requires changes to property taxes, a solution requires sufficient lead time to align local levy and state property tax revisions with school year allocations in the state budget.

(5) To fund the constitutionally required revisions to state salary allocations for state-funded employees, and to prevent local levies from being used for the state's program of basic education, the legislature must revise the state property tax while decreasing the amount that school districts may collect in local levies. The changes to total property tax collections must be revenue-neutral on a statewide basis.

(6) For these reasons, the legislature intends to enact a schedule for researching and enacting policies for fully funding all elements of Engrossed Substitute House Bill No. 2261 on September 1, 2018. As set forth in this act, the legislature intends to review and enact legislation on:

(a)(i) State salary allocations. The state must quantify the portion of salaries for state-funded employees that is part of the state's program of basic education. To ensure that each district receives sufficient state allocations to hire and retain state-funded staff without obligating the state to fund all districts at the highest district cost level, new state funding formulas must contain a localization mechanism. Further, new state funding formulas must eliminate the practice of "grandfathering" salary allocations based on outdated historical funding practices, and they must contain mechanisms for inflationary adjustment; and

(ii) State allocations and purchasing methods for health insurance benefits.

(b) Enrichment and TRI. The state must enact definitions of "enrichment" and authorized TRI that provide school districts with sufficient flexibility to implement local education priorities beyond the state's program of basic education while protecting the state's ability to demonstrate that its allocations fund the state's program of basic education.

(c) State property taxes and local levies. The state must enact new laws governing local levy collections, including local levy bases, rates, or lids, with reductions to local levies offset by changes to the state property tax that are revenue-neutral on a statewide basis. The new local levy system must eliminate the practice of "grandfathering" levy formulas based on outdated historical funding formulas.

(d) State levy equalization. The state must make corresponding changes to its system of levy equalization to mitigate the effect that above-average property tax rates for local levies have on districts' ability to fund enrichments beyond the state's program of basic education.

(e) Transparency and accountability. The state must establish accountability procedures to provide greater clarity and transparency for expenditures of state, federal, and local revenues, including expenditures for the state program of basic education and for local enrichment beyond this program.

PART I

WASHINGTON EDUCATION FUNDING COUNCIL

NEW SECTION. **Sec. 101.** DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise. These definitions apply only for purposes of establishing the duties of the council and the legislature under this chapter. As provided elsewhere in this chapter, the legislature recognizes that some of the terms defined in this section are expressly intended to be redefined by the legislature in future legislation.

(1) "Council" means the Washington education funding council created in section 102 of this act.

(2) "Enrichment" means additional services, instruction, supplies, or similar expenditures that supplement and are not within the state's program of basic education, and that may be funded by local levies consistent with *Seattle School District v. State* (1978) and *McCleary v. State* (2012).

(3) "Levy equalization" means a state-funded program of aid that assists school districts in funding enrichment that supplements the state's program of basic education, and that is intended to mitigate the effect that variations in local property values might have on the ability to fund these supplements locally. The program of local effort assistance established in chapter 28A.500 RCW is an example of "levy equalization."

(4) "Local levies" means maintenance and operation levies collected by school districts under RCW 84.52.053 and 84.52.0531.

(5) "Localization" means a methodology for adjusting state salary allocations to reflect local or regional differences in the cost of salaries necessary to allow school districts to hire and retain state-funded employees for the state's program of basic education.

(6) "State-funded employees" means school district employees for which the state allocates funding pursuant to the prototypical school formula in RCW 28A.150.260 and the omnibus operating appropriations act.

(7) "State's program of basic education" means the instructional program of basic education defined in RCW 28A.150.220.

(8) "TRI" means separate contracts for additional time, responsibility, or incentive, which pursuant to RCW 28A.400.200, may not be used for the provision of services that are part of the state's program of basic education.

NEW SECTION. **Sec. 102.** WASHINGTON EDUCATION FUNDING COUNCIL CREATED. (1) The legislature intends to fulfill its obligations under Article IX of the state Constitution by completing its implementation of all aspects of chapter 548, Laws of 2009 by September 1, 2018. The funding formulas under chapter 28A.150 RCW to support the state's instructional program must be revised and fully implemented by that date under the schedule of annual benchmarks prescribed in this chapter.

(2) The Washington education funding council is created to advise the legislature as the state moves toward full implementation of the state's program of basic education established pursuant to chapter 548, Laws of 2009 and the financing and revenues necessary to support such program. The council must make recommendations on how the legislature should meet the requirements outlined in chapter 548, Laws of 2009 by September 1, 2018, thereby fulfilling the requirements of the state supreme court in *McCleary v. State*. As provided in this chapter, the council must submit to the legislature recommended changes to state salary allocation formulas and state tax laws to support the state's program of basic education as established under chapter 548, Laws of 2009, along with corresponding recommendations on the state property tax, local levy laws, levy equalization, and other state laws.

(3) As provided in sections 201 and 203 of this act, the council shall submit reports to the governor and the legislature detailing its recommendations, including recommendations for resolving issues or decisions requiring legislative action during the 2016 and 2017 legislative sessions, and recommendations for any funding necessary to complete development and implementation of chapter

548, Laws of 2009. The recommendations must also include the technical details for implementing the recommendations.

(4)(a) The council consists of the following members:

(i) Eight legislators, with two members from each of the two largest caucuses of the senate appointed by the president of the senate and two members from each of the two largest caucuses of the house of representatives appointed by the speaker of the house of representatives;

(ii) The governor, or the governor's designee; and

(iii) The state superintendent of public instruction, or the superintendent's designee.

(b) The council shall select cochairs from among its legislative members.

(c) The council is staffed by the house of representatives office of program research, senate committee services, and the office of financial management, with additional staff support provided by the state entities with representatives on the council.

(5) Recommendations of the council require the affirmative vote of seven of its members.

(6) Legislative members of the council must be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(7) The expenses of the council must be paid jointly by the senate and the house of representatives. Council expenditures are subject to approval by the senate facilities and operations committee and the house of representatives executive rules committee, or their successor committees.

NEW SECTION. **Sec. 103.** WASHINGTON EDUCATION FUNDING COUNCIL MAY ESTABLISH TECHNICAL WORKING GROUPS. (1) The council may also establish technical working groups to advise the task force on technical and practical aspects of proposed policies and formulas.

(2) The technical working group or groups may include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance or state revenue.

PART II

SCHEDULE FOR COUNCIL RECOMMENDATIONS AND LEGISLATIVE ENACTMENTS

NEW SECTION. **Sec. 201.** WASHINGTON EDUCATION FUNDING COUNCIL RECOMMENDATIONS TO THE 2016 LEGISLATURE. By December 1, 2015, the council shall provide the legislature and governor with a report that contains:

(1) Preliminary recommendations for statewide minimum and average salary allocations for certificated instructional staff, certificated administrative staff, and classified staff, including recommendations on localization, to take effect with the 2018-19 school year;

(2) Preliminary recommendations for amount of and mechanisms for state allocations for state-funded school district employee health insurance benefits. In making the recommendations, the council must consider data and analysis submitted by the health care authority to the legislature in June 2015 pursuant to chapter 3, Laws of 2012 2nd sp. sess. to consider the adequacy of and mechanisms for these allocations;

(3)(a) Research describing the current use of TRI and supplemental contracts, broken down by use and estimated dollar amount per use. This research must distinguish among (i) additional services, such as coaching, or similar services rendered outside the school day; (ii) additional services performed during the school day, such as service as a department head; (iii) salary supplements for work "deemed done" or work such as grading papers that would ordinarily be considered part of the teacher's job; (iv) supplemental contracts that are part of the state's program of basic education, such as preparation of individualized education plans; (v) other types of supplemental contracts; and (vi) extra time for professional development;

(b) Research describing, and quantifying if possible, other factors that affect TRI and other supplemental contracts including, but not limited to: Difficulty of attracting staff to particular schools or programs, collective bargaining laws and practices, local compensation philosophy, local cost-of-living differences, and community expectations;

(c) Research describing local levy expenditures on items other than salaries, broken down into specific categories, such as technology, the transitional bilingual instruction program, special education, the highly capable program, athletics, extracurricular activities, other intermural activities, or equipment;

(4) In light of the research in subsection (3) of this section, recommendations for a statutory definition of enrichment and authorized TRI. The recommendations must be sufficiently specific to provide guidance to school districts and auditors while being sufficiently flexible to allow local innovation. The recommended definition of enrichment may not prohibit use of local levies to hire additional staff for class size reduction beyond that specified in the omnibus appropriations act;

(5) Recommendations on protections for the state to ensure that local levy funding is used only for enrichment, in addition to the provisions of sections 301 through 310 of this act. These may include additional auditing requirements, additional requirements for school district accounting, additional reporting by school districts, and changes to collective bargaining laws or practices; and

(6) Recommendations on policies for levy equalization.

NEW SECTION. **Sec. 202.** LEGISLATION TO BE ENACTED DURING THE 2016 LEGISLATIVE SESSION. By June 30, 2016, the legislature shall enact legislation that:

(1) Quantifies the portion of locally funded salaries that is the responsibility of the state's program of basic education and establishes preliminary policy guidance for the council to develop a new state salary model for implementation in the 2018-19 school year, which (a) must include localization, (b) may include simplification or elimination of the state certificated instructional staff salary grid, or both, and (c) may include a mechanism for inflationary adjustment;

(2) Establishes preliminary policy guidance for the amount of and mechanisms for state allocations for health insurance benefits for state-funded school district employees. The legislation must consider the work of the joint legislative audit and review committee under chapter 3, Laws of 2012 2nd sp. sess.;

(3) Effective September 1, 2018:

(a) Defines "enrichment";

(b) Defines appropriate use of local levy funding to supplement salaries for state-funded employees; and

(c) Establishes protections that allow the state to demonstrate its funding of the state's program of basic education and that ensures local levy expenditures are outside the state's program of basic education;

(4) Establishes preliminary policy guidance for state property taxes for collection beginning in calendar year 2018. Taken together with the guidance on local levies, the policies must be revenue-neutral on a statewide basis;

(5) Establishes preliminary policy guidance for local levies for collection beginning in calendar year 2018, including a combination of rates, bases, or lids, or any of these. The local levy policy must reflect the newly enacted definition of "enrichment" and the new

policies regarding use of local levies to supplement state salary allocations for the state's program of basic education. Taken together with the guidance on state property taxes, the policies must be revenue-neutral on a statewide basis; and

(6) Establishes preliminary policy guidance for any use of state funding as levy equalization beginning in calendar year 2018.

NEW SECTION. **Sec. 203.** WASHINGTON EDUCATION FUNDING COUNCIL RECOMMENDATIONS TO THE 2017 LEGISLATURE. By December 1, 2016, the council and its technical working groups must make recommendations in a report to the legislature on the following:

(1) Quantification, including methods for future adjustment, of a new salary model for implementation in the 2018-19 school year, including quantification and methods for localization and simplification or elimination of the existing grid;

(2) Quantification of state property tax rates and local levy bases, rates, or lids, with recommended legislation for collection in calendar year 2019, and any necessary state property tax rates or local levy policies to address any need for transition in calendar year 2018; and

(3) Quantification of formulas for levy equalization, beginning by calendar year 2019.

NEW SECTION. **Sec. 204.** LEGISLATION TO BE ENACTED IN THE 2017 LEGISLATIVE SESSION. By June 30, 2017, the legislature must enact legislation that accomplishes the following:

(1) Enacts a new salary allocation model for the 2018-19 school year, which must include localization, and makes appropriations in the 2017-2019 operating budget for distribution to districts under this model;

(2) Beginning with the 2017-18 school year, establishes a statutory mechanism and appropriates funding for state allocations for health insurance benefits for state-funded employees, which may include a state-operated school employees' benefits board;

(3) Establishes state property tax rates and new bases, rates, or lids for local levies for collection beginning in calendar year 2018 or calendar year 2019, depending on any need for a transitional year in calendar year 2018. These changes to property tax rates must be revenue-neutral on a statewide basis; and

(4) Enacts formulas and makes appropriations for the program of levy equalization, beginning by calendar year 2019.

PART III

Sec. 404. RCW 28A.400.201 and 2011 1st sp.s. c 43 s 468 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the human resources director in the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries,

average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the office of financial management, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature ((~~and the quality education council created in RCW 28A.290.010~~)). The working group shall make an initial report to the legislature by June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

"NEW SECTION. **Sec. 505.** INTENT. (1) The legislature finds that quality early care and education builds the foundation for a child's success in school and in life. The legislature acknowledges that a quality framework is necessary for the early care and education system in Washington. The legislature recognizes that empirical evidence supports the conclusion that high quality programs consistently yield more positive outcomes for children, with the strongest positive impacts on the most vulnerable children. The legislature acknowledges that critical developmental windows exist in early childhood, and low quality child care has damaging effects for children. The legislature further understands that the proper dosage, duration of programming, and stability of care are critical to enhancing program quality and improving child outcomes. The legislature acknowledges that the early care and education system should strive to address the needs of Washington's culturally and linguistically diverse populations. The legislature understands that parental choice and provider diversity are guiding principles for early learning programs.

(2) The legislature intends to prioritize the integration of child care and preschool in an effort to promote full day programming. The legislature further intends to reward quality and create incentives for providers to participate in a quality rating and improvement system that will also provide valuable information to parents regarding the quality of care available in their communities.

Sec. 506. RCW 43.215.100 and 2013 c 323 s 6 are each amended to read as follows:

EARLY ACHIEVERS, QUALITY RATING, AND IMPROVEMENT SYSTEM.

(1) ((~~Subject to the availability of amounts appropriated for this specific purpose,~~)) The department, in collaboration with tribal governments and community and statewide partners, shall implement a ((~~voluntary~~)) quality rating and improvement system, called the early achievers program((~~, that~~)). The early achievers program provides a foundation of quality for the early care and education system. The early achievers program is applicable to licensed or certified child care centers and homes and early ((~~education~~)) learning programs such as working connections child care and early childhood education and assistance programs.

(2) The ((~~purpose~~)) objectives of the early achievers program ((~~is~~)) are to:

(a) ((~~To~~)) Improve short-term and long-term educational outcomes for children as measured by assessments including, but not limited to, the Washington kindergarten inventory of developing skills in RCW 28A.655.080;

(b) Give parents clear and easily accessible information about the quality of child care and early education programs((~~,~~));

(c) Support improvement in early learning and child care programs throughout the state((~~,~~));

(d) Increase the readiness of children for school((~~, and~~));

(e) Close the ((~~disparity~~)) disparities in access to quality care;

(f) Provide professional development and coaching opportunities to early child care and education providers; and ((~~(b) to~~))

(g) Establish a common set of expectations and standards that define, measure, and improve the quality of early learning and child care settings.

(3)(a) Licensed or certified child care centers and homes serving nonschool age children and receiving state subsidy payments must participate in the early achievers program by the required deadlines established in RCW 43.215.135.

(b) Approved early childhood education and assistance program providers receiving state-funded support must participate in the early achievers program by the required deadlines established in RCW 43.215.415.

(c) Participation in the early achievers program is voluntary for:

(i) Licensed or certified child care centers and homes not receiving state subsidy payments; and

(ii) Early learning programs not receiving state funds.

(d) School age child care providers are exempt from participating in the early achievers program. By July 1, 2017, the department and the office of the superintendent of public instruction shall jointly design a plan to incorporate school age child care providers into the early achievers program or other appropriate quality improvement system. To test implementation of the early achievers system for school age child care providers the department and the office of the superintendent of public instruction shall implement a pilot program.

(4) ((~~By fiscal year 2015, Washington state preschool programs receiving state funds must enroll in the early achievers program and maintain a minimum score level.~~

~~(5) Before final implementation of the early achievers program, the department shall report on program progress, as defined within the race to the top federal grant award, and expenditures to the appropriate policy and fiscal committees of the legislature.~~)) There are five levels in the early achievers program. Participants are expected to actively engage and continually advance within the program.

(5) The department has the authority to determine the rating cycle for the early achievers program. The department shall streamline and eliminate duplication between early achievers standards and state child care rules in order to reduce costs associated with the early achievers rating cycle and child care licensing.

(a) Early achievers program participants may request to be rated at any time after the completion of all level 2 activities.

(b) The department shall provide an early achievers program participant an update on the participant's progress toward completing level 2 activities after the participant has been enrolled in the early achievers program for fifteen months.

(c) The first rating is free for early achievers program participants.

(d) Each subsequent rating within the established rating cycle is free for early achievers program participants.

(6)(a) Early achievers program participants may request to be rerated outside the established rating cycle.

(b) The department may charge a fee for optional rerating requests made by program participants that are outside the established rating cycle.

(c) Fees charged are based on, but may not exceed, the cost to the department for activities associated with the early achievers program.

(7)(a) The department must create a single source of information for parents and caregivers to access details on a provider's early achievers program rating level, licensing history, and other indicators of quality and safety that will help parents and caregivers make informed choices.

(b) The department shall publish to the department's web site, or offer a link on its web site to, the following information:

(i) By November 1, 2015, early achievers program rating levels 1 through 5 for all child care programs that receive state subsidy,

early childhood education and assistance programs, and federal head start programs in Washington; and

(ii) New early achievers program ratings within thirty days after a program becomes licensed or certified, or receives a rating.

(c) The early achievers program rating levels shall be published in a manner that is easily accessible to parents and caregivers and takes into account the linguistic needs of parents and caregivers.

(d) The department must publish early achievers program rating levels for child care programs that do not receive state subsidy but have voluntarily joined the early achievers program.

(e) Early achievers program participants who have published rating levels on the department's web site or on a link on the department's web site may include a brief description of their program, contingent upon the review and approval by the department, as determined by established marketing standards.

(8)(a) The department shall create a professional development pathway for early achievers program participants to obtain a high school diploma or equivalency or higher education credential in early childhood education, early childhood studies, child development, or an academic field related to early care and education.

(b) The professional development pathway must include opportunities for scholarships and grants to assist early achievers program participants with the costs associated with obtaining an educational degree.

(c) The department shall address cultural and linguistic diversity when developing the professional development pathway.

(9) The early achievers quality improvement awards shall be reserved for participants offering programs to an enrollment population consisting of at least five percent of children receiving a state subsidy.

(10) In collaboration with tribal governments, community and statewide partners, and the early achievers review subcommittee created in RCW 43.215.090, the department shall develop a protocol for granting early achievers program participants an extension in meeting rating level requirement timelines outlined for the working connections child care program and the early childhood education and assistance program.

(a) The department may grant extensions only under exceptional circumstances, such as when early achievers program participants experience an unexpected life circumstance.

(b) Extensions shall not exceed six months, and early achievers program participants are only eligible for one extension in meeting rating level requirement timelines.

(c) Extensions may only be granted to early achievers program participants who have demonstrated engagement in the early achievers program.

(11)(a) The department shall accept national accreditation that meets the requirements of this subsection (11) as a qualification for the early achievers program ratings.

(b) Each national accreditation agency will be allowed to submit its most current standards of accreditation to establish potential credit earned in the early achievers program. The department shall grant credit to accreditation bodies that can demonstrate that their standards meet or exceed the current early achievers program standards.

(c) Licensed child care centers and child care home providers must meet national accreditation standards approved by the department for the early achievers program in order to be granted credit for the early achievers program standards. Eligibility for the early achievers program is not subject to bargaining, mediation, or interest arbitration under RCW 41.56.028, consistent with the legislative reservation of rights under RCW 41.56.028(4)(d).

(12) The department shall explore the use of alternative quality assessment tools that meet the culturally specific needs of the federally recognized tribes in the state of Washington.

(13) A child care or early learning program that is operated by a federally recognized tribe and receives state funds shall participate in the early achievers program. The tribe may choose to participate through an interlocal agreement between the tribe and the department. The interlocal agreement must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty. The interlocal agreement must provide that:

(a) Tribal child care facilities and early learning programs may volunteer, but are not required, to be licensed by the department;

(b) Tribal child care facilities and early learning programs are not required to have their early achievers program rating level published to the department's web site or through a link on the department's web site; and

(c) Tribal child care facilities and early learning programs must provide notification to parents or guardians who apply for or have been admitted into their program that early achievers program rating level information is available and provide the parents or guardians with the program's early achievers program rating level upon request.

(14) The department shall consult with the early achievers review subcommittee on all substantial policy changes to the early achievers program.

(15) Nothing in this section changes the department's responsibility to collectively bargain over mandatory subjects or limits the legislature's authority to make programmatic modifications to licensed child care and early learning programs under RCW 41.56.028(4)(d).

NEW SECTION. **Sec. 507.** A new section is added to chapter 43.215 RCW to read as follows:

SINGLE SET OF LICENSING STANDARDS.

(1) No later than November 1, 2016, the department shall implement a single set of licensing standards for child care and the early childhood education and assistance program. The department shall produce the single set of licensing standards within the department's available appropriations. The new licensing standards must:

(a) Provide minimum health and safety standards for child care and preschool programs;

(b) Rely on the standards established in the early achievers program to address quality issues in participating early childhood programs;

(c) Take into account the separate needs of family care providers and child care centers; and

(d) Promote the continued safety of child care settings.

(2) Private schools that operate early learning programs and do not receive state subsidy payments shall be subject only to the minimum health and safety standards in subsection (1)(a) of this section and the requirements necessary to assure a sufficient early childhood education to meet usual requirements needed for transition into elementary school. The state, and any agency thereof, shall not restrict or dictate any specific educational or other programs for early learning programs operated by private schools except for programs that receive state subsidy payments.

Sec. 508. RCW 43.215.200 and 2011 c 359 s 2 and 2011 c 253 s 3 are each reenacted and amended to read as follows:

DIRECTOR'S LICENSING DUTIES.

It shall be the director's duty with regard to licensing:

(1) In consultation and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of child care facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages and other characteristics of the children served, variations in the purposes and services offered or size or structure of the agencies to be licensed, or because of any other factor relevant thereto;

(2)(a) In consultation with the state fire marshal's office, the director shall use an interagency process to address health and safety requirements for child care programs that serve school age children and are operated in buildings that contain public or private schools that safely serve children during times in which school is in session;

(b) Any requirements in (a) of this subsection as they relate to the physical facility, including outdoor playgrounds, do not apply to before-school and after-school programs that serve only school age children and operate in the same facilities used by public or private schools;

(3) In consultation and with the advice and assistance of parents or guardians, and persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed under this chapter;

(4) In consultation with law enforcement personnel, the director shall investigate the conviction record or pending charges of each agency and its staff seeking licensure or relicensure, and other persons having unsupervised access to children in care;

(5) To satisfy the shared background check requirements provided for in RCW 43.215.215 and 43.20A.710, the department of early learning and the department of social and health services shall share federal fingerprint-based background check results as permitted under the law. The purpose of this provision is to allow both departments to fulfill their joint background check responsibility of checking any individual who may have unsupervised access to vulnerable adults, children, or juveniles. Neither department may share the federal background check results with any other state agency or person;

(6) To issue, revoke, or deny licenses to agencies pursuant to this chapter. Licenses shall specify the category of care that an agency is authorized to render and the ages and number of children to be served;

(7) To prescribe the procedures and the form and contents of reports necessary for the administration of this chapter and to require regular reports from each licensee;

(8) To inspect agencies periodically to determine whether or not there is compliance with this chapter and the requirements adopted under this chapter;

(9) To review requirements adopted under this chapter at least every two years and to adopt appropriate changes after consultation with affected groups for child day care requirements; and

(10) To consult with public and private agencies in order to help them improve their methods and facilities for the care and early learning of children.

Amounts appropriated for the encouragement of culturally diverse and low-income center and family home child care provider participation shall be appropriated separately from the other funds appropriated for the department, are the only funds that may be used for the protocol, and may not be used for any other purposes. Funds appropriated for the protocol shall be considered an ongoing program for purposes of future departmental budget requests.

(b) During the first thirty months of implementation of the early achievers program the department shall prioritize the resources authorized in this section to assist providers rating at a level 2 in the early achievers program to help them reach a level 3 rating wherever access to subsidized care is at risk.

(2) The protocol should address barriers to early achievers program participation and include at a minimum the following:

(a) The creation of a substitute pool;

(b) The development of needs-based grants for providers at level 2 in the early achievers program to assist with purchasing curriculum development, instructional materials, supplies, and equipment to improve program quality. Priority for the needs-based grants shall be given to culturally diverse and low-income providers;

WORKING CONNECTIONS CHILD CARE.

(1) The department shall establish and implement policies in the working connections child care program to promote stability and quality of care for children from low-income households. These policies shall focus on supporting school readiness for young learners. Policies for the expenditure of funds constituting the working connections child care program must be consistent with the outcome measures defined in RCW 74.08A.410 and the standards established in this section intended to promote ((~~continuity of care for children~~)) stability, quality, and continuity of early care and education programming.

The twelve-month certification applies only if the enrollments in the child care subsidy or working connections child care program are capped.~~

~~(3) Subject to the availability of amounts appropriated for this specific purpose, beginning September 1, 2013, working connections child care providers shall receive a five percent increase in the subsidy rate for enrolling in level 2 in the early achievers programs. Providers must complete level 2 and advance to level 3 within thirty months in order to maintain this increase~~)) beginning July 1, 2016, unless an earlier date is provided in the omnibus appropriations act.

(5) If a child care provider does not rate at a level 3 or higher following the remedial period, the provider is no longer eligible to receive state subsidy under this section.

(6) If a child care provider serving nonschool age children and receiving state subsidy payments has successfully completed all level 2 activities and is waiting to be rated by the deadline provided in this section, the provider may continue to receive a state subsidy pending the successful completion of the level 3 rating activity.

(7) The department shall implement tiered reimbursement for early achievers program participants in the working connections child care program rating at level 3, 4, or 5.

(8) The department shall account for a child care copayment collected by the provider from the family for each contracted slot and establish the copayment fee by rule.

"NEW SECTION. **Sec. 534.** The central Puget Sound is projected to grow considerably, in both population and jobs, over the course of the next several decades. It is thus critical that all its transportation infrastructure be well planned and coordinated, including its transit systems. It is the intent of the legislature to encourage this planning and coordination on the part of central Puget Sound transit systems in order to improve the user experience, increase ridership, and make the most effective use of tax dollars.

Sec. 535. RCW 35.58.2796 and 2011 c 371 s 2 are each amended to read as follows:

(1)(a) The department of transportation shall develop an annual report summarizing the status of public transportation systems in the state for the previous calendar year. By December 1st of each year, the report must be made available to the transportation committees of the legislature and to each municipality, as defined in RCW 35.58.272, and to individual members of the municipality's legislative authority.

(((~~(2)~~))) (b) To assist the department with preparation of the report, each municipality shall file a system report by September 1st of each year with the state department of transportation identifying its public transportation services for the previous calendar year and its objectives for improving the efficiency and effectiveness of those services. The system report shall address those items required for each public transportation system in the department's report.

(((~~(3)~~))) (c) The department report shall describe individual public transportation systems, including contracted transportation services and dial-a-ride services, and include a statewide summary of public transportation issues and data. The descriptions shall include the following elements and such other elements as the department deems appropriate after consultation with the municipalities and the transportation committees of the legislature:

(((~~(a)~~))) (i) Equipment and facilities, including vehicle replacement standards;

(((~~(b)~~))) (ii) Services and service standards;

(((~~(c)~~))) (iii) Revenues, expenses, and ending balances, by fund source;

(((~~(d)~~))) (iv) Policy issues and system improvement objectives, including community participation in development of those objectives and how those objectives address statewide transportation priorities;

Operating indicators shall include operating cost per passenger trip, operating cost per revenue vehicle service hour, passenger trips per revenue service hour, passenger trips per vehicle service mile, vehicle service hours per employee, and farebox revenue as a percent of operating costs.

(((~~(4)~~))) (d) To the extent that information is available, the department report must include descriptive information on any other modes of public transportation, the impact of public transportation on transportation system performance, and how public transportation helps the state meet the transportation system policy goals described in RCW 47.04.280.

(2)(a) The department of transportation shall develop an annual report summarizing the status of public transportation system coordination in and between counties with a population of seven hundred thousand or more that border Puget Sound for the previous calendar year. By December 1st of each year, the report must be made available to the transportation committees of the legislature and to each municipality, as defined in RCW 35.58.272, located in a county with a population of seven hundred thousand or more that borders Puget Sound and to individual members of the municipality's legislative authority.

(b) To assist the department with preparation of the report required under this subsection, each municipality, as defined in RCW 35.58.272, located in a county with a population of seven hundred thousand or more that borders Puget Sound shall file a report by September 1st of each year with the department identifying its coordination efforts in the previous calendar year with other municipalities, as defined in RCW 35.58.272, located in counties with a population of seven hundred thousand or more that border Puget Sound in the following areas:

Sec. 536. RCW 47.66.030 and 2005 c 318 s 4 are each amended to read as follows:

(1)(a) The department shall establish a regional mobility grant program. The purpose of the grant program is to aid local

governments in funding projects such as intercounty connectivity service, park and ride lots, rush hour transit service, and capital projects that improve the connectivity and efficiency of our transportation system. The department shall identify cost-effective projects that reduce delay for people and goods and improve connectivity between counties and regional population centers. The department shall submit a prioritized list of all projects requesting funding to the legislature by December 1st of each year.

(b) Once the department has a prioritized list, pursuant to (a) of this subsection and RCW 47.66.040, of all projects requesting funding, the department shall reprioritize the projects in counties with a population of seven hundred thousand or more that border Puget Sound based on the same criteria used for the prioritized list as well as the additional criteria of coordination and integration. After this reprioritization, the department shall integrate these reprioritized projects with the prioritized projects from all other counties while ensuring that the prioritized projects from all other counties do not move to a lower relative position on this integrated list or, if a prioritized project from all other counties is in the funded portion of the prioritized list, out of the funded portion of this integrated list.

(2) The department may establish an advisory committee to carry out the mandates of this chapter.

(3) The department must report annually to the transportation committees of the legislature on the status of any grants projects funded by the program created under this section.

Concerning the implementation of practical design by the department of transportation.

The bill was read the second time.

Representative Clibborn moved the adoption of amendment (562):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 539.** A new section is added to chapter 47.01 RCW to read as follows:

(1)(a) For projects identified as connecting Washington projects and supported by revenues under chapter . . . (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 3rd sp. sess., it is the priority of the legislature that the department deliver the named projects. The legislature encourages the department to continue to institutionalize innovation and collaboration in design and project delivery with an eye toward the most efficient use of resources. In doing so, the legislature expects that, for some projects, costs will be reduced during the project design phase due to the application of practical design. However, significant changes to a project title or scope arising from the application of practical design requires legislative approval. The legislature will utilize existing mechanisms and processes to ensure timely and efficient approval. Practical design-related changes to the scope may be proposed by the department, for the legislature's approval, only if the project's intended performance is substantially unchanged and the local governments and interested stakeholders impacted by the project have been consulted and have reviewed the proposed changes.

(b) To the greatest extent practicable, a contract for the construction of a project with any change to the title or scope, whether significant or not, arising from the application of practical design must not be let until the department has provided a detailed notice describing the change to the chairs and ranking members of the house of representatives and senate transportation committees or, if during the interim, to the joint transportation committee.

(c) To determine the savings attributable to practical design, each connecting Washington project must be evaluated. For design-bid-build projects, the evaluation must occur at the end of the project design phase. For design-build projects, the evaluation must occur at the completion of thirty percent design. Each year as a part of its annual budget submittal, the department must include a detailed summary of how practical design has been applied and the associated savings gained. The annual summary must also include for each project: Details regarding any savings gained specifically through changes in the cost of materials, changes in the scope of a project and associated impacts on risk, the retirement of any risk reserves, and unused contingency funds.

(2)(a) The transportation future funding program is intended to provide for future emergent transportation projects, accelerating the schedule for existing connecting Washington projects, and highway preservation investments, beginning in fiscal year 2024, based on savings accrued from the application of practical design and any retired risk or unused contingency funding on connecting Washington projects.

(b) Beginning July 1, 2016, the department must submit a report to the state treasurer and the transportation committees of the legislature once every six months identifying the amount of savings attributable to the application of practical design, retired risk, and unused contingency funding, and report when the savings become available. The state treasurer must transfer the available amounts identified in the report to the transportation future funding program account created in section 2 of this act.

(c) Beginning in fiscal year 2024, as a part of its budget submittal, the department may provide a list of highway improvement projects or preservation investments for potential legislative approval as part of the transportation future funding program. Highway improvement projects considered for inclusion under the transportation future funding program may include new connecting Washington projects, or accelerate the schedule for existing connecting Washington projects, and must: Address significant safety concerns; alleviate congestion and advance mobility; provide compelling economic development gains; leverage partnership funds from local, federal, or other sources; or require a next phase of funding to build upon initial investments provided by the legislature.

(d) It is the intent of the legislature that if savings attributable to the application of practical design are used to accelerate existing connecting Washington projects, savings must also be used for new connecting Washington projects of equal cost.

NEW SECTION. **Sec. 540.** A new section is added to chapter 46.68 RCW to read as follows:

The transportation future funding program account is created in the connecting Washington account established in chapter . . . (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 3rd sp. sess. Moneys in the account may be spent only after appropriation. Expenditures from the account must be used only for preservation projects, to accelerate the schedule of connecting Washington projects identified in chapter . . . (Engrossed Substitute Senate Bill No. 5988), Laws of 2015 3rd sp. sess., for new connecting Washington projects, and for principal and interest on bonds authorized for the projects. It is the legislature's intent that moneys not be appropriated from the account until 2024 and that moneys in the account be expended in equal amounts between preservation and improvement projects. Moneys in the account may not be expended on the state route number 99 Alaskan Way viaduct replacement project.

Sec. 541. RCW 43.84.092 and 2014 c 112 s 106, 2014 c 74 s 5, and 2014 c 32 s 6 are each reenacted and amended to read as follows:

SECOND READING

ENGROSSED HOUSE BILL NO. 2266, by Representative Sullivan

Deferring implementation of class size reduction and school employee staffing formula changes.

The bill was read the second time.

Representative Sullivan moved the adoption of amendment (555):

On page 1, after line 5, insert the following:

"NEW SECTION. **Sec. 1.** At the 2014 general election, the voters approved Initiative 1351, which proposed to amend the formulas by which the state allocates funding for state-funded school district employees. Initiative 1351 increased the state's obligation to fund teachers for class size reduction in excess of the class size reduction in grades K-3 already enacted by the legislature in chapter 548, Laws of 2009 (ESHB 2261) and chapter 236, Laws of 2010 (SHB 2776). Initiative 1351 also increased the state's obligation to provide funding for other types of school district employees beyond teachers.

In 2012, the state supreme court ruled in *McCleary v. State* that the state has failed to comply with its Article IX duty to make ample provision for the state's program of basic education. In its ruling, the court declared that ESHB 2261 constituted a "promising reform" that would bring the state into compliance with Article IX "if fully funded[.]" In the time since the original *McCleary* ruling, the state has continued to implement ESHB 2261 and SHB 2776, with full implementation scheduled for the statutory deadline of 2018.

For two sets of educational reasons, the legislature finds that it is appropriate to delay implementation of Initiative 1351 for four years.

First, the legislature finds, based on research reviewed by the Basic Education Funding Task Force and the Quality Education Council, that the greatest improvements in student outcomes in the common schools can be achieved in the near term by focusing the investment of state fiscal resources in the areas identified in ESHB 2261 and SHB 2776, which emphasize fund class size reduction in early grades. The legislature further finds that the court in its *McCleary* ruling and orders has identified investments in these areas as the funding reforms that are needed to bring the state into compliance with its Article IX obligations, which provides an educational reason for focusing on funding the reforms of ESHB 2261 and SHB 2776 in the 2015-17 and 2017-19 fiscal biennia.

Second, the legislature finds that there are practical educational reasons to temporarily defer implementation of increased staffing ratios and the portion of class size reduction that is beyond the reductions called for in SHB 2776. Data from the Superintendent of Public Instruction and the Professional Educator Standards Board indicate that Washington's teacher education programs are not estimated to produce sufficient teachers to achieve the class size reductions on the schedule established by Initiative 1351. Further, the experience of other states indicates that the need to hire teachers quickly for rapid implementation of class size reductions may exacerbate recruiting difficulties for schools or districts that are at a relative disadvantage in attracting staff. Finally, implementing class size reduction requires time to plan and build new classrooms.

For these reasons, the legislature intends to temporarily defer implementation of Initiative 1351."

Renumber the remaining sections consecutively and correct internal references accordingly.

Beginning on page 13, line 7, strike all of section 303 and insert the following:

"**Sec. 303.** RCW 41.05.050 and 2009 c 537 s 5 are each amended to read as follows:

(1) Every: (a) Department, division, or separate agency of state government; (b) county, municipal, school district, educational service district, or other political subdivisions; and (c) tribal governments as are covered by this chapter, shall provide contributions to insurance and health care plans for its employees and their dependents, the content of such plans to be determined by the authority. Contributions, paid by the county, the municipality, other political subdivision, or a tribal government for their employees, ((~~shall~~)) must include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.

(2) ((~~If the authority at any time determines that the participation of a county, municipal, other political subdivision, or a tribal government covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, other political subdivisions, or a tribal government.~~)) To account for increased cost of benefits for the state and state employees the authority may develop a rate surcharge applicable to participating counties, municipalities, other political subdivisions, and tribal governments.

(3) The contributions of any: (a) Department, division, or separate agency of the state government; (b) county, municipal, or other political subdivisions; and (c) any tribal government as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. Insurance and health care contributions for ferry employees shall be governed by RCW 47.64.270.

(4)(a) The authority ((~~shall~~)) must collect from each participating school district and educational service district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans. The authority may collect these amounts in accordance with the district fiscal year, as described in RCW 28A.505.030.

(b) For all groups of district employees enrolling in authority plans for the first time after September 1, 2003, the authority shall collect from each participating school district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and by family size as would be charged to state employees, only if the authority determines that this method of billing the districts will not result in a material difference between revenues from districts and expenditures made by the authority on behalf of districts and their employees. The authority may collect these amounts in accordance with the district fiscal year, as described in RCW 28A.505.030.

(c) If the authority determines at any time that the conditions in (b) of this subsection cannot be met, the authority shall offer enrollment to additional groups of district employees on a tiered rate structure until such time as the authority determines there would be no material difference between revenues and expenditures under a composite rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:

(i) "District" means school district and educational service district; and

(ii) "Tiered rates" means the amounts the authority must pay to insuring entities by plan and by family size.

(f) Notwithstanding this subsection and RCW 41.05.065(4), the authority may allow districts enrolled on a tiered rate structure prior to September 1, 2002, to continue participation based on the same rate structure and under the same conditions and eligibility criteria.

(5) The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature."

Sec. 305. RCW 28A.660.050 and 2015 1st sp.s. c 3 s 4 are each amended to read as follows:

Subject to the availability of amounts appropriated for these purposes, the conditional scholarship programs in this chapter are created under the following guidelines:

(1) The programs shall be administered by the student achievement council. In administering the programs, the council has the following powers and duties:

(a) To adopt necessary rules and develop guidelines to administer the programs;

(b) To collect and manage repayments from participants who do not meet their service obligations; and

(c) To accept grants and donations from public and private sources for the programs.

(2) Requirements for participation in the conditional scholarship programs are as provided in this subsection (2).

(a) The alternative route conditional scholarship program is limited to interns of professional educator standards board-approved alternative routes to teaching programs under RCW 28A.660.040. (iii) Receive no more than the annual amount of the scholarship, not to exceed eight thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The council may adjust the annual award by the average rate of resident undergraduate tuition and fee increases at the state universities as defined in RCW 28B.10.016.

(b) The pipeline for paraeducators conditional scholarship program is limited to qualified paraeducators as provided by RCW 28A.660.042. In order to receive conditional scholarship awards, recipients shall:

The student achievement council may adjust the annual award by the average rate of tuition and fee increases at the state community and technical colleges.

(c) The educator retooling conditional scholarship program is limited to current K-12 teachers. In order to receive conditional scholarship awards:

(i) Individuals currently employed as teachers shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education; or

(ii) Individuals who are certificated with an elementary education endorsement shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education; and

(iii) Individuals shall use one of the pathways to endorsement processes to receive an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education, which shall include passing an endorsement test plus observation and completing applicable coursework to attain the proper endorsement; and

(iv) Individuals shall receive no more than the annual amount of the scholarship, not to exceed three thousand dollars, for the cost of tuition, test fees, and educational expenses, including books, supplies, and transportation for the endorsement pathway being pursued.

(3) The Washington professional educator standards board shall select individuals to receive conditional scholarships. In selecting recipients, preference shall be given to eligible veterans or national guard members. In awarding conditional scholarships to support additional bilingual education or English language learner endorsements, the board shall also give preference to teachers assigned to schools required under state or federal accountability measures to implement a plan for improvement, and to teachers assigned to schools whose enrollment of English language learner students has increased an average of more than five percent per year over the previous three years.

(4) For the purpose of this chapter, a conditional scholarship is a loan that is forgiven in whole or in part in exchange for service as a certificated teacher employed in a Washington state K-12 public school. The state shall forgive one year of loan obligation for every two years a recipient teaches in a public school. Recipients who fail to continue a course of study leading to residency teacher certification or cease to teach in a public school in the state of Washington in their endorsement area are required to repay the remaining loan principal with interest.

(5) Recipients who fail to fulfill the required teaching obligation are required to repay the remaining loan principal with interest and any other applicable fees. The student achievement council shall adopt rules to define the terms for repayment, including applicable interest rates, fees, and deferments.

(6) The student achievement council may deposit all appropriations, collections, and any other funds received for the program in this chapter in the future teachers conditional scholarship account authorized in RCW 28B.102.080."

"NEW SECTION. **Sec. 306.** For the purpose of providing funds to finance the projects described and authorized by the legislature in the omnibus capital and operating appropriations acts for the 2015-2017 fiscal biennium, and all costs incidental thereto, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two billion three hundred thirty-two million four hundred fifty-six thousand dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. **Sec. 307.** (1) The proceeds from the sale of bonds authorized in section 1 of this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as follows:

(a) Two billion one hundred eighty-five million five hundred sixty-two thousand dollars to remain in the state building construction account created by RCW 43.83.020;

(b) One hundred twenty-three million eight hundred thousand dollars to the state taxable building construction account. All receipts from taxable bonds issued are to be deposited into the account. If the state finance committee deems it necessary or advantageous to issue more than the amount specified in this subsection (1)(b) as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds or in order to reduce the total financing costs for bonds issued, the proceeds of such additional taxable bonds shall be transferred to the state taxable building construction account in lieu of any transfer otherwise provided by this section. If the state finance committee determines that a portion of the amount specified in this subsection (1)(b) as taxable bonds may be issued as nontaxable bonds in compliance with federal internal revenue

service rules and regulations pertaining to the use of nontaxable bond proceeds, then such bond proceeds shall be transferred to the state building construction account in lieu of the transfer to the state taxable building construction account otherwise provided by this subsection (1)(b). The state treasurer shall submit written notice to the director of financial management if it is determined that any such additional transfer to the state taxable building construction account is necessary or that a transfer from the state taxable building construction account to the state building construction account may be made. Moneys in the account may be spent only after appropriation.

(c) The treasurer shall transfer bond proceeds deposited in the state building construction account into the outdoor recreation account created by RCW 79A.25.060, the habitat conservation account created by RCW 79A.15.020, the riparian protection account created by RCW 79A.15.120, and the farmlands preservation account created by RCW 79A.15.130 at various times and in various amounts necessary to support authorized expenditures from those accounts.

(2) These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

NEW SECTION. **Sec. 308.** (1) The debt-limit general fund bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in section 2(1) (a) through (c) of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 2(1) (a) through (c) of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 2(1) (a) through (c) of this act the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the debt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. **Sec. 309.** (1) Bonds issued under sections 1 through 3 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. **Sec. 310.** The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 1 of this act, and sections 2 and 3 of this act shall not be deemed to provide an exclusive method for the payment.

NEW SECTION. **Sec. 311.** Sections 1 through 5 of this act constitute a new chapter in Title 43 RCW.

NEW SECTION. **Sec. 312.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 313.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Concerning the capital budget.

FORMATTING CHANGED TO ACCOMMODATE TEXT

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 314.** (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2017, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2016" or "FY 2016" means the period beginning July 1, 2015, and ending June 30, 2016.

(b) "Fiscal year 2017" or "FY 2017" means the period beginning July 1, 2016, and ending June 30, 2017.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2017-2019 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2015, from the 2013-2015 biennial appropriations for each project.

Washington Wildlife Recreation Grants (30000220)

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations in this section are provided solely for the list of projects in LEAP capital document No. 2015-1, developed June 30, 2015.

(2)(a) $60,000 of the appropriation is provided solely for the Washington state recreation and conservation office to convene and facilitate a stakeholder process to review and make recommendations for statutory revisions to the Washington wildlife and recreation program. The review must be conducted with consideration of the potential impacts to existing and future relationships with local governments, the federal government, and Tribal Nations. The review must include analysis of the program design, including criteria, information and coordination required for projects to proceed through the ranking and selection processes. Existing allocation categories and percentages must be evaluated to determine how well the system balances the many current statewide needs, including effectiveness in assessing and serving the needs of smaller and traditionally underserved populations, as well as communities with lower per-capita income levels. The ability of the general public to access program-funded projects must also be considered, as well as support for projects and landscapes with multiple values. The review must include examination of ways in which lands are acquired by state agencies through the program, such as gifts, mitigation, acquisition through direct negotiation with landowners, acquisition from land trusts and other

nongovernmental organizations that are intermediaries or short-term owners for which long-term ownership and management by a public agency was the purpose of the nongovernmental organization's acquisition, easement acquisitions, and other pathways by which habitat lands are either acquired or managed, or both, by the state. Advantages and disadvantages of all approaches used by the program must be considered, including acquisition and stewardship costs, timing of land availability when compared to funding availability by the state, and other conservation alternatives that could be considered instead of state ownership, such as long-term management by a nongovernmental organization, another public agency, or conservation through less-than-fee approaches such as by easement or other landowner agreements.

(b) The recreation and conservation office may convene stakeholders and facilitate activities as needed. The agency must seek input and meaningfully involve a broad base of interested stakeholders that includes Tribal governments and those with specific subject-matter expertise relevant to the project categories of the Washington wildlife and recreation program. They shall seek broad and diverse legislative input and invite interested legislators to provide information and ideas, including, at a minimum, the majority and minority leadership of the capital committees in the senate and house of representatives. They shall coordinate with the appropriate standing committees of the legislature and may consult with other interested parties, as may be appropriate, for technical advice and assistance.

(c) The final report must include recommended statutory and policy changes to the appropriate committees of the legislature on or before December 1, 2015.

Trust Land Transfer (30000200)
The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely to the department to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, department of natural resources community forest open space, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2015-3, developed June 30, 2015.

(2) Property transferred under this section must be appraised and transferred at fair market value. By September 30, 2015, the department must deposit in the common school construction account the portion of the appropriation in this section that represents the estimated value of the timber on the transferred properties. This transfer must be made in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The portion of the appropriation in this section that represents the value of the land transferred must be deposited in the natural resources real property replacement account.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and may not exceed one and nine-tenths percent of the appropriation.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Fee transfer agreements for properties identified in subsection (1) of this section must include terms that perpetually restrict the use of the property to the intended purpose. Lease agreements for properties identified in subsection (1) of this section must include terms that restrict use of the property to the intended purpose for the term of the lease. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the originally intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) By June 30, 2017, the state treasurer shall transfer to the common school construction account any unexpended balance of the appropriation in this section.

STEM Pilot Program (91000402)

The appropriation in this section is subject to the following conditions and limitations:

(1) The amounts in this section are provided solely for the superintendent of public instruction to provide STEM pilot project grants to school districts. These grants constitute the districts' local funding for purposes of eligibility for the school construction assistance program under RCW 28A.525.166. Subject to the terms in this section, school districts are eligible to receive grants if they have a special housing burden due to lack of sufficient space for science classrooms and labs to enable students to meet statutory graduation requirements.

(2) The superintendent shall award grants to eligible school districts under the following conditions:

(a) A district must demonstrate a lack of sufficient space of science classrooms and labs to facilitate meeting statutory graduation requirements;

(b) The district has secured private donations of cash, like-kind, or equipment in a value of no less than $100,000. Before the superintendent may provide funding assistance through the school construction assistance program, the district must provide verification of the donation to the superintendent;

(c) At least one grant award is made to school districts located in southwest Washington;

(d) At least one grant award is made to school districts located in the Puget Sound region; and

(e) At least two grant awards are made to school districts located east of the Cascade mountains.

(3) The STEM pilot project grants program must be administered by the superintendent of public instruction in consultation with the STEM education innovation alliance specified in RCW 28A.188.030 and the statewide STEM organization specified in RCW 28A.188.050. The superintendent of public instruction must develop grant application materials and criteria in consultation with the statewide STEM organization, must review applications for accuracy and financial reasonableness, and must administer awarded grants. With funds specifically appropriated for this purpose, the superintendent of public instruction must contract with the statewide STEM organization specified in RCW 28A.188.050 to evaluate applications against the criteria developed for the program and develop a single prioritized list. The superintendent of public instruction must award grants within the appropriated funding and may only depart from the recommended prioritized list after notifying the office of financial management and the appropriate committees of the legislature with an explanation of the reasons for departing from the list. The criteria must include, but are not limited to, the following:

(a) Priority for school districts that secure private donations of cash, like-kind, or equipment in value no less than $100,000 weighted by the ratio of school district enrollments to value of donation;

(b) A district's ability to raise funds through levies or bonds in the prior ten-year period;

(c) Priority for applicants with a high percentage of students who are eligible and enrolled in the free and reduced-price meals program;

(d) The extent that existing STEM facilities are inadequate including the lack of adequate STEM facilities to meet graduation requirements in RCW 28A.150.220;

(e) A demonstration that existing STEM faculty are in place and are qualified to deliver an interactive, project-based STEM curriculum in the proposed specialized STEM facilities, or a plan and budget are in place to recruit or train such STEM faculty;

(4) For purposes of grant applications made in the 2015-2017 biennium, additional square footage funded through this grant program is excluded from the school district's inventory of available educational space for determining eligibility for state assistance for new construction for (a) five years following acceptance of the project by the school district board of directors, or (b) the date of the final review of the latest study and survey of the affected school district following acceptance of the project by the school district board of directors; whichever date is earliest.

(5) Each school district is limited to one grant award of no more than $4,000,000.

(6) The office of the superintendent of public instruction may charge fees consistent with capital budget guidelines established by the office of financial management for administering the grants.

(7) The superintendent of public instruction must report to the appropriate committees of the legislature and the office of financial management on the timing and use of the funds by the end of each fiscal year, until the funds are fully expended.

(8) $200,000 of the appropriation is provided for the contract with the statewide STEM organization specified in RCW 28A.188.050.

The appropriation in this section is subject to the following conditions and limitations:

(1) Funding is provided solely for capital improvements, infrastructure, and equipment, to support: (a) A transformative program in earth-abundant materials to accelerate the development of next generation clean energy and transportation technologies in Washington; (b) a coordinated framework and resources that can facilitate and promote multi-institution collaborations to drive research, development, and deployment efforts in the use of earth-abundant materials for manufactured clean technologies or recycling of advanced materials used in clean technologies; and (c) environmentally responsible processes in the areas of manufacturing and recycling of advanced materials used in clean technologies.

(2) Administration of the appropriation is under the authority of the Washington State University in collaboration with the University of Washington. Inventory and Condition of Schools Data Collection (91000033)

The appropriation in this section is subject to the following conditions and limitations:

(1) The legislature intends to complete the data collection, input, and verification of the inventory and condition of public school facilities in order to make informed decisions about K-12 school facility data collection processes and classroom capacity needs to fulfill current educational graduation requirements and class-size ratios. These decisions are best made when based on accurate data collected in a thorough and consistent manner by professionals experienced in making such inventory and condition assessments for public institutions.

(2) The appropriation is provided solely for the Washington State University extension energy office to complete collection, input, and verification of selected data of public school facilities, including skill centers, in the inventory and condition of schools system administered and maintained by the superintendent of public instruction.

(3) The Washington State University extension energy office shall conduct on-site visits to assess inventory and condition of all facilities for school districts that have no current study and survey as defined in RCW 28A.525.050 on file with the superintendent of public instruction as of July 1, 2015, or no pending study and survey to be filed with the superintendent through an outstanding study and survey grant award. The data collected, sufficient to meet the study and survey requirements for school facilities space inventory and condition analysis, through on-site visits must be input into the inventory and condition of schools system.

(4) The Washington State University extension energy office shall input into the inventory and condition of schools system applicable data of inventory and condition of school facilities from all current studies and surveys on file with the superintendent of public instruction as of July 1, 2015. The data must be input into the system in a manner that captures older information and data first. As studies and surveys from outstanding grant awards are filed with the superintendent, the Washington State University extension energy office shall input data into the system once current study and survey data has been input. Activities conducted pursuant to this subsection must occur concurrently with activities in subsection (3) of this section.

(5) The Washington State University extension energy office shall conduct on-site verification of data for school districts whose current studies and surveys on file with the superintendent will expire by June 30, 2017. Data verification must be conducted to evaluate the study and survey process as a tool to collect accurate inventory and condition of schools data upon which policymakers can make informed decisions regarding school facility and capacity needs. Activities conducted pursuant to this subsection must occur concurrently with activities in

subsection (3) of this section and once sufficient data has been input into the system per subsection (4) of this section to conduct on-site visits to verification.

(6)(a) The Washington State University extension energy office, concurrent with activities conducted in subsections (3), (4), and (5) of this section, must collect data to determine the information in (c)(i) through (vii) of this subsection. Additional on-site data collection for this task or collection of data from "as-built" documents or other valid sources must be accomplished to produce a valid sample for determining:

(b) The accuracy of reported number of classrooms in the most recent survey of classrooms and building data by the office of the superintendent of public instruction; and

(c) The variation in the size of schools and the allocation of space to the categories described in (c)(i) through (vii) of this subsection. The sample must be sufficient to determine this information for elementary, middle, high schools, and skills centers in districts of different sizes, growth rates, age, and relative property values.

(i) The square footage and number of classrooms. Classrooms are rooms that are used as classrooms or that could be used as classrooms under building code requirements and must include labs, shops, computer rooms used for instruction, art, and music classrooms. For this purpose, a music classroom is not a room designed to seat an audience;

(ii) The square footage of libraries;

(iii) The square footage of cafeteria and kitchen space;

(iv) The square footage of gymnasiums, locker rooms, and other indoor athletic facilities;

(v) The square footage of auditoriums and other performing arts space not counted as classrooms;

(vi) The square footage of administrative offices, and space used primarily by staff; and

(vii) The square footage of other space such as bathrooms, general circulation, mechanical rooms, and the balance of the total facility square footage not included in (c)(i) through (vi) of this subsection;

(d) The data included in (c)(i) through (vii) of this subsection must indicate whether the space is in a structure with a permanent foundation or not.

(7) As a general condition of appropriations provided to the superintendent of public instruction in this act, the superintendent of public instruction and each state school district shall provide requested facilities information and access to facilities in a timely manner to enable the Washington State University extension energy office to complete the tasks, oversight, and reporting requirements assigned in this section.

(8) The Washington State University extension energy office shall report progress of data collection, input, and verification to the appropriate committees of the legislature no later than December 1, 2015. The Washington State University extension energy office must complete all work in this section and make a final report to the appropriate committees of the legislature no later than December 1, 2016.

The appropriations in this section are subject to the following conditions and limitations:

(1) All expenditures from the state taxable building construction account—state appropriation in this section must be used for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions or otherwise increase energy independence for the state. All expenditures must be used for projects that develop and acquire assets that have a useful life of at least thirteen years. These requirements must be specified in funding agreements issued by the department.

(2) For any project funded from the state taxable building construction account—state appropriation in this section, state funds must not exceed fifty percent of the estimated cost of a project, and funding preference must be provided to projects that offer a higher percentage of nonstate match funds.

(3)(a) $15,000,000 of the state taxable building construction account—state appropriation in this section is provided solely to create a revolving loan fund to support the widespread use of proven building energy efficiency and renewable energy technologies now inhibited by lack of access to capital.

(b) To create the loan fund, the department shall provide grant funds to a competitively selected nonprofit lender that will provide matching private capital and will administer the loan fund. The department must select the loan fund administrator through a competitive process, with scoring conducted by a group of qualified experts, applying criteria specified by the department.

(c) The department must establish guidelines for the lender related to applicant eligibility, the screening process, and evaluation and selection criteria. Applications for loans from the revolving fund must disclose all sources of public funding to be provided for a project. The nonprofit lender must use the revolving loan fund to make affordable loans for projects including, but not limited to: Residential and commercial energy retrofits, residential and community-scale solar installations, anaerobic digesters to treat dairy and organic waste, and combined heat and power projects using woody biomass as a fuel source.

(d) The department must conduct due diligence activities associated with the use of public funds, including oversight of the project selection process and project monitoring.

The department shall develop a grant application process to competitively select projects for grant awards, to include scoring conducted by a group of qualified experts with application of criteria specified by the department. Applications for grants must disclose all sources of public funding to be provided for a project. The grant funds must be used to fund projects that demonstrate how to: Integrate intermittent renewables through energy storage and information technology, dispatch energy storage resources from utility control rooms, use the thermal properties and electric load of commercial buildings and district energy systems to store energy, or otherwise improve the reliability and reduce the costs of intermittent or distributed renewable energy.

(5) $6,000,000 of the state taxable building construction account—state appropriation in this section is provided solely for grants to match federal funds used to develop and demonstrate clean energy technologies. The department shall work with the University of Washington, Washington State University, and the Pacific Northwest National Laboratory to offer matching funds for projects including, but not limited to: Advancing energy storage and solar technologies, and federal manufacturing innovation centers related to use of light-weight carbon fiber components to advance energy efficiency in the aeronautical, automotive, and marine sectors.

NEW SECTION. **Sec. 7003.** (1) The legislature finds that use of life-cycle cost analysis will aid public entities, architects, engineers, and contractors in making design and construction decisions that positively impact both the initial construction cost and the ongoing operating and maintenance cost of a project. To ensure that the total cost of a project is accounted for and the most reasonable and cost efficient design is used, agencies shall develop life-cycle costs for any construction project over $10,000,000. The life-cycle costs must represent the present value sum of capital costs, installation costs, operating costs, and maintenance costs over the life expectancy of the project. The legislature further finds the most effective approach to the life-cycle cost analysis is to integrate it into the early part of the design process.

(2) Agencies shall develop a minimum of three project alternatives for use in the life-cycle cost analysis. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative must be the most reasonable and cost-effective solution. A brief description of each project alternative and why it was chosen must be included in the life-cycle cost analysis section of the predesign.

(3) The office of financial management shall: (a) Make available a life-cycle cost model to be used for analysis; (b) in consultation with the department of enterprise services, provide assistance in using the life-cycle cost model; and (c) update the life-cycle cost model annually including assumptions for inflation rates, discount rates, and energy rates.

(4) Agencies shall consider architectural and engineering firms' and general contractors' experience using life-cycle costs, operating costs, and energy efficiency measures when selecting an architectural and engineering firm, or when selecting contractors using alternative contracting methods.

NEW SECTION. **Sec. 7004.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of $10,000,000 may not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document must include, but not be limited to, program, site, and cost analysis, including life-cycle cost, in accordance with the predesign manual adopted by the office of financial management. The results of life-cycle cost analysis must be a primary consideration in the selection of a building design. Construction may proceed only upon providing to the office of financial management the life-cycle costs. To improve monitoring of major construction projects, progress reports must be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports must be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. **Sec. 7005.** (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. **Sec. 7006.** (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under $250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. **Sec. 7007.** (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. **Sec. 7008.** (1) Any building project that receives over $10,000,000 in funding from the capital budget must be built to sustainable standards. "Sustainable building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity. The following design and construction attributes must be integrated into the building project:

(a) Employ integrated design principles: Use a collaborative, integrated planning and design process that initiates and maintains an integrated project team in all stages of a project's planning and delivery. Establish performance goals for siting, energy, water, materials, and indoor environmental quality along with other comprehensive design goals and ensures incorporation of these goals throughout the design and life-cycle of the building. Considers all stages of the building's life-cycle, including deconstruction.

(b) Commissioning: Employ commissioning practices tailored to the size and complexity of the building and its system components in order to verify performance of building components and systems and help ensure that design requirements are met. This should include an experienced commissioning provider, inclusion of commissioning requirements in construction documents, a commissioning plan, verification of the installation and performance of systems to be commissioned, and a commissioning report.

(c) Optimize energy performance: Establish a whole building performance target that takes into account the intended use, occupancy, operations, plug loads, other energy demands, and design to earn the ENERGY STAR targets for new construction and major renovation where applicable. For new construction target low energy use index. For major renovations, reduce the energy use by fifty percent below pre-renovations baseline.

(d) On-site renewable energy: Meet at least thirty percent of the hot water demand through the installation of solar hot water heaters, when life-cycle cost effective. Implement renewable energy generation projects on agency property for agency use, when life-cycle cost effective.

(e) Measurement and verification: Install building level electricity meters in new major construction and renovation projects to track and continuously optimize performance. Include equivalent meters for natural gas and steam, where natural gas and steam are used. Install dashboards inside buildings to display and incentivize occupants on energy use.

(f) Benchmarking: Compare actual performance data from the first year of operation with the energy design target. Verify that the building performance meets or exceeds the design target. For other building and space types, use an equivalent benchmarking tool for laboratory buildings. Web-based data collection and dashboards must also be provided.

NEW SECTION. **Sec. 7009.** State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. **Sec. 7010.** Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. **Sec. 7011.** PUGET SOUND PROTECTION AND RESTORATION. Consistent with RCW 90.71.340, when expending appropriations under this act that contribute to Puget Sound protection and recovery, agencies shall consult with the Puget Sound partnership to ensure that projects and expenditures are either in, or consistent with the 2020 action agenda. These consultations shall include the exchange of information on specific actions, projects, associated funding, performance measures, and other information necessary to track project implementation and ensure alignment with the action agenda. In situations where the Puget Sound partnership finds that a project is not in, or is not consistent with the action agenda, Puget Sound partnership shall document this finding and report back to the governor and legislative fiscal committees.

NEW SECTION. **Sec. 7012.** FOR THE ARTS COMMISSION—ART WORK ALLOWANCE. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency identified in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2015-2017 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. (5) The executive director of the arts commission shall appoint a study group to review the operations of the one-half of one percent for works of art purchased or commissioned as required by RCW 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review must be reported annually to the office of financial management and the fiscal committees of the legislature by August 15th. NEW SECTION. **Sec. 7013.** It is confirmed that the director of the department of enterprise services is authorized under chapter 35A.14 RCW to petition for annexation of the former northern state hospital property to the city of Sedro-Woolley upon the director's determination that such annexation is appropriate and in furtherance of the interests of the state. The director shall consult with the office of financial management prior to making such determination.

Sec. 7014. RCW 27.34.330 and 2006 c 371 s 232 are each amended to read as follows:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the superintendent.

(2) The state funding assistance percentage for a school district shall be computed by the following formula:

The ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil shall be subtracted from three, and then the result of the foregoing shall be divided by three plus (the ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil).

$$\text{Computed State Ratio} = \frac{\text{District adjusted 3-valuation per pupil} \div \text{Total state adjusted valuation per pupil}}{\text{District adjusted 3+valuation per pupil} \div \text{Total state adjusted valuation per pupil}} = -\,\% \text{ State Funding Assistance}$$

PROVIDED, That in the event the state funding assistance percentage to any school district based on the above formula is less than twenty percent and such school district is otherwise eligible for state funding assistance under RCW 28A.525.162 through 28A.525.180, the superintendent may establish for such district a state funding assistance percentage not in excess of twenty percent of the approved cost of the project, if the superintendent finds that such additional assistance is necessary to provide minimum facilities for housing the pupils of the district.

(3) In addition to the computed state funding assistance percentage developed in subsection (2) of this section, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed state funding assistance percentage for each percent of growth, with a maximum of twenty percent.

(4) In computing the state funding assistance percentage in subsection (2) of this section and adjusting the percentage under subsection (3) of this section, students residing outside the school district who are enrolled in alternative learning experience courses under RCW 28A.232.010 shall be excluded from the count of total pupils. In lieu of the exclusion in this subsection, a district may submit an alternative calculation for excluding students enrolled in alternative learning experience courses. The alternative calculation must show the student headcount use of district classroom facilities on a regular basis for a reasonable duration by out-of-district alternative learning experience students subtracted by the headcount of in-district alternative learning experience students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The approved cost of the project determined in the manner prescribed in this section multiplied by the state funding assistance percentage derived as provided for in this section shall be the amount of state funding assistance to the district for the financing of the project: PROVIDED, That need therefor has been established to the satisfaction of the superintendent: PROVIDED, FURTHER, That additional state funding assistance may be allowed if it is found by the superintendent, considering policy recommendations from the school facilities citizen advisory panel that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from projects of statewide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state funding assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state funding assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d), and (e) of this subsection, creating a like emergency.

(6) For the 2015-2017 biennium, schools determined to have a lack of sufficient space to provide science classrooms or labs, to meet the requirements of law, have a special housing burden condition similar to those defined under subsection (5)(b) of this section, creating a like emergency. For the 2015-2017 biennium, school districts are entitled to additional percentage points for school construction projects that have a special housing burden condition only and have received private donations in the form of cash, in-kind, or equipment of more than one hundred thousand dollars. The additional percentage points are determined by (a) school district student enrollments in the free and reduced-price meals program, (b) school district class as defined by RCW 28A.300.065, and (c) the funding assistance percentage as calculated in subsection (2) of this section. The additional percentage points under (a) of this subsection are twenty percent of the percent of student enrollments eligible and enrolled in the free and reduced-price meals program. The additional percentage points under (b) of this subsection are ten for second class school districts. The additional percentage points under (c) of this subsection are ten for school districts with funding assistance percentages of more than fifty percent.

Land stewardship includes, but is not limited to, restoring or developing the land to meet the objectives of the acquisition, suppressing invasive weeds, securing the property to prevent damage, and maintaining the land to prevent wildfires.

(6) In undertaking the review, the joint legislative audit and review committee may contract with experts in measuring the outcomes of regulatory and funding programs to protect and conserve habitat.

(1) To qualify for financial assistance under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board must develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board must attempt to assure a geographical balance in assigning priorities to projects. The board must consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance;

(f) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(g) The cost of the project compared to the size of the local government and amount of loan money available;

(h) The number of communities served by or funding the project;

(i) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(j) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(k) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(l) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(m) Other criteria that the board considers advisable.

(5) For the ((~~2013-2015~~)) 2015-2017 fiscal biennium, in place of the criteria, ranking, and submission processes for construction loan lists provided in subsections (4) and (7) of this section:

(a) The board must develop a process for numerically ranking applications for construction loans submitted by local governments. The board must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages nonstate funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(v) Whether the project promotes the sustainable use of resources and environmental quality;

(vi) Whether the project consolidates or regionalizes systems;

(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;

(viii) Whether the system is being well-managed in the present and for long-term sustainability;

(ix) Achieving equitable distribution of funds by geography and population;

(x) The extent to which the project meets the following state policy objectives:

(A) Efficient use of state resources;

(B) Preservation and enhancement of health and safety;

(C) Abatement of pollution and protection of the environment;

(D) Creation of new, family wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;

(E) Fostering economic development consistent with chapter 36.70A RCW;

(F) Efficiency in delivery of goods and services, public transit, and transportation;

(G) Avoidance of additional costs to state and local governments that adversely impact local residents and small businesses; and

(H) Reduction of the overall cost of public infrastructure; and

(xi) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before November 1, ((~~2014~~)) 2016, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a ranked list of qualified public works projects which have been evaluated by the board and are recommended for funding by the legislature. The maximum amount of funding that the board may recommend for any jurisdiction is ten million dollars per biennium. For each project on the ranked list, as well as for eligible projects not recommended for funding, the board must document the numerical ranking that was assigned.

(6) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(7) Before November 1st of each even-numbered year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list must include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list must also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(8) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature may not change the order of the priorities recommended for funding by the board.

(9) Subsection (8) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section.

(10) Loans made for the purpose of capital facilities plans are exempted from subsection (8) of this section.

(11) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(12) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(13) During the ((~~2013-2015~~)) 2015-2017 fiscal biennium, for projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan.

(14)(a) ((~~For public works assistance account application rounds conducted during the 2013-2015 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federally funded drinking water and clean water state revolving funds operated by the state departments of health and ecology. The board, department of ecology, and department of health must jointly develop evaluation criteria and application procedures that will increase access of eligible drinking water and wastewater projects to the public works assistance account for short-term preconstruction financing and to the federally funded state revolving funds for construction financing. The procedures must also strengthen coordinated funding of preconstruction and construction projects.~~)) For public works assistance account application rounds conducted during the 2015-2017 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federal funds to finance local infrastructure including, but not limited to, drinking water and clean water state revolving funds operated by the state departments of health and ecology. Projects that are eligible for the drinking water and clean water state revolving funds may receive public works board preconstruction loans. Projects that are eligible for the drinking water and clean water state revolving funds are not eligible for public works board construction loans. For purposes of this subsection "eligible for drinking water and clean water state revolving funds" means:

(i) Projects that have applied to the state revolving funds and are awaiting a funding decision;

(ii) Projects that have been rejected for funding solely due to not meeting readiness requirements; and

(iii) Projects that have not applied, but would likely be eligible if the project applied and met the project readiness requirements.

(b) For all construction loan projects proposed to the legislature for funding during the ((~~2013-2015~~)) 2015-2017 fiscal biennium, the board must base interest rates on the average daily market interest rate for tax-exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle. For projects with a repayment period between five and twenty years, the rate must be sixty percent of the market rate. For projects with a repayment period under five years, the rate must be thirty percent of the market rate. The board must also provide reduced interest rates, extended repayment periods, or forgivable principal loans for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship.

(((~~(c) By December 1, 2013, the board must recommend to the appropriate committees of the legislature statutory language to make permanent these new criteria, procedures, and financing policies.~~))

Sec. 7034. RCW 43.160.080 and 2010 1st sp.s. c 36 s 6011 are each amended to read as follows:

There shall be a fund in the state treasury known as the public facilities construction loan revolving account, which shall consist of all moneys collected under this chapter and any moneys appropriated to it by law. Disbursements from the revolving account shall be on authorization of the board. In order to maintain an effective expenditure and revenue control, the public facilities construction loan revolving account shall be subject in all respects to chapter 43.88 RCW. ((~~During the 2009-2011 biennium, sums in the public facilities construction loan revolving account may be used for community economic revitalization board export assistance grants and loans in section 1018, chapter 36, Laws of 2010 1st sp. sess. and for matching funds for the federal energy regional innovation cluster in section 1017, chapter 36, Laws of 2010 1st sp. sess.~~)) During the 2015-2017 biennium, sums in the public facilities construction loan revolving account may be used to continue and enhance the animal disease traceability project in section 3247, chapter 19, Laws of 2013 2nd sp. sess., administered by the department of agriculture. (((~~x~~))) (y) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be transferred to the radioactive mixed waste account.

(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under (((~~(c)\\sanjuan\ATLASMACROS\DATA\2015 JOURNAL\Journal2015\LegDay003\(e).doc~~)) (e)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under (((~~(c)\\sanjuan\ATLASMACROS\DATA\2015 JOURNAL\Journal2015\LegDay003\(e).doc~~)) (e)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Storm water pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(iv) Hazardous waste plans and programs under chapter 70.105 RCW;

(v) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) Petroleum-based plastic or expanded polystyrene foam debris cleanup activities in fresh or marine waters; and

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (((~~(e)[(e)]~~))) (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(((~~(d) [(f)]~~))) (f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 fiscal biennium, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. ((~~effects [affects]~~)) affects the ability of a potentially liable person to receive public funding.

(10) During the ((~~2013-2015~~)) 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program ((~~and for storm water grants~~)) and for the storm water financial assistance program administered by the department of ecology.

NEW SECTION. **Sec. 7036.** (1) Funds appropriated in this act for minor works may not be allotted until final project lists are submitted to the office of financial management. Revisions to the project lists are allowed for projects not anticipated at the time of budget development but must be submitted to the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee for review and comment and must include an explanation of variances from the prior lists before funds may be expended on the revisions. Any project list revisions must be approved by the office of financial management before funds may be expended from the minor works appropriation.

(2)(a) Minor works project lists are single line appropriations that include multiple projects of a similar nature and that are valued between $25,000 and $1,000,000 each, with the exception of higher education minor works projects that may be valued up to $2,000,000.

All projects must meet the criteria included in this subsection (2)(a) with the exception of minor works appropriations for the department of fish and wildlife for the 2015-2017 biennium. These projects should be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed $1,000,000, or $2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the minor works categories.

(b) Minor works appropriations may not be used for the following: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock; computers; or to supplement funding for projects with funding shortfalls unless expressly authorized. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

Public works assistance account—state: For transfer to the drinking water assistance account, $4,000,000 for fiscal year 2016 and $4,000,000 for fiscal year 2017 ..... $8,000,000

NEW SECTION. **Sec. 7038. STATE TREASURER TRANSFER AUTHORITY**

State toxics control account: For transfer to the environmental legacy trust account $24,000,000

(1) As directed by the department of ecology in consultation with the office of financial management, the state treasurer shall transfer amounts among the state toxics control account, the local toxics control account, and the environmental legacy stewardship account as needed during the 2015-2017 fiscal biennium to maintain positive account balances in all three accounts.

(2) As directed by the department of ecology in consultation with the office of financial management, the state treasurer shall transfer amounts from the cleanup settlement account established in RCW 70.105D.130 to the state toxics control account, the local toxics control account or the environmental legacy stewardship account to maintain positive account balances up to an amount not to exceed $13,000,000 that must be considered an inter fund loan that must be repaid with interest to the cleanup settlement account in three equal repayments in fiscal years 2018, 2019, and 2020.

(3) If, after using the inter-fund transfer authority granted in this section, the department of ecology determines that further reductions are needed to maintain positive account balances in the state toxics control account, the local toxics control account, and the environmental legacy stewardship account, the department is authorized to delay the start of clean-up projects based on acuity of need, readiness to proceed, cost-efficiency, or need to ensure geographic distribution. If the department uses this authority, the department must submit a prioritized list of projects that may be delayed to the office of financial management and the appropriate fiscal committees of the legislature.

NEW SECTION. **Sec. 7039.** To the extent that any appropriation authorizes expenditures of state funds from the state building construction account, or from any other capital project account in the state treasury, for a capital project or program that is specified to be funded with proceeds from the sale of bonds, the legislature declares that any such expenditures for that project or program made prior to the issue date of the applicable bonds are intended to be reimbursed from proceeds of those bonds in a maximum amount equal to the amount of such appropriation.

NEW SECTION. **Sec. 7040.** Fiscal or related staff from the office of financial management shall form a four-year prioritized capital project list technical work group with staff from the office of program research, senate committee services, four-year institutions of higher education receiving appropriations in this act, and the council of presidents. The work group shall report options and alternatives to the appropriate legislative committees by December 15, 2015.

Sec. 7041. RCW 43.131.413 and 2010 c 245 s 12 are each amended to read as follows:

The alternative process for awarding contracts established in RCW 28B.20.744 terminates June 30, ((~~2015~~)) 2017, as provided in RCW 43.131.414.

Sec. 7042. RCW 43.131.414 and 2010 c 245 s 13 are each amended to read as follows:

RCW 28B.20.744, as now existing or hereafter amended, is repealed, effective June 30, ((~~2016~~)) 2018.

Sec. 7043. RCW 28B.20.744 and 2010 c 245 s 11 are each amended to read as follows:

(1) This section provides an alternative process for awarding contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of university buildings and facilities in which critical patient care or highly specialized medical research is located. These provisions may be used, in lieu of other procedures to award contracts for such work, when the estimated cost of the work is equal to or less than five million dollars and the project involves construction, renovation, remodeling, or alteration of improvements within a building that is used directly for critical patient care or highly specialized medical research.

(2) The university may create a single critical patient care or specialized medical research facilities roster or may create multiple critical patient care or specialized medical research facilities rosters for different trade specialties or categories of anticipated work. At least once a year, the university shall publish in a newspaper of general circulation a notice of the existence of the roster or rosters and solicit a statement of qualifications from contractors who wish to be on the roster or rosters of prime contractors. In addition, qualified contractors shall be

added to the roster or rosters at any time they submit a written request, necessary records, and meet the qualifications established by the university. The university may require eligible contractors desiring to be placed on a roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the university as a condition of being placed on a roster or rosters. Placement on a roster shall be on the basis of qualifications.

(3) The public solicitation of qualifications shall include but not be limited to:

(a) A description of the types of projects to be completed and where possible may include programmatic, performance, and technical requirements and specifications;

(b) The reasons for using the critical patient care and specialized medical research roster process;

(c) A description of the qualifications to be required of a contractor, including submission of an accident prevention program;

(d) A description of the process the university will use to evaluate qualifications, including evaluation factors and the relative weight of factors;

(e) The form of the contract to be awarded;

(f) A description of the administrative process by which the required qualifications, evaluation process, and project types may be appealed; and

(g) A description of the administrative process by which decisions of the university may be appealed.

(4) The university shall establish a committee to evaluate the contractors submitting qualifications. Evaluation criteria for selection of the contractor or contractors to be included on a roster shall include, but not be limited to:

(a) Ability of a contractor's professional personnel;

(b) A contractor's past performance on similar projects, including but not limited to medical facilities, and involving either negotiated work or other public works contracts;

(c) The contractor's ability to meet time and budget requirements;

(d) The contractor's ability to provide preconstruction services, as appropriate;

(e) The contractor's capacity to successfully complete the project;

(f) The contractor's approach to executing projects;

(g) The contractor's approach to safety and the contractor's safety history; and

(h) The contractor's record of performance, integrity, judgment, and skills.

(5) Contractors meeting the evaluation committee's criteria for selection must be placed on the applicable roster or rosters.

(6) When a project is selected for delivery through this roster process, the university must establish a procedure for securing written quotations from all contractors on a roster to assure that a competitive price is established. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. Plans and specifications must be included in the invitation but may not be detailed. Award of a project must be made to the responsible bidder submitting the lowest responsive bid.

(7) The university shall make an effort to solicit proposals from certified minority or certified woman-owned contractors to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(8) Beginning in September 2010 and every other ((~~year~~)) September thereafter, the university shall provide a report to the capital projects advisory review board which must, at a minimum, include a list of rosters used, contracts awarded, and a description of outreach to and participation by women and minority-owned businesses.

(9) Beginning in September 2015 and every September thereafter, the university shall report to the office of minority and women's business enterprises and to the appropriate legislative fiscal committees the number of qualified women and minority-owned business contractors on the roster or rosters and the number of contracts awarded to women and minority-owned businesses.

NEW SECTION. **Sec. 7044.** (1) The office of financial management shall develop a master plan for museums and research facilities to address the statewide need for providing storage, research, and display space for collections of art and artifacts, archaeological research materials, DNA tissue samples, tribal artifacts, and other related items of an historical nature.

(2) The office of financial management shall identify the following: (a) Types of space needed to store, research, and display items and collections depending on types of items; (b) an inventory of existing spaces that the state may utilize to fill storage, research, and display needs; (c) recommendations regarding the highest and best use of the capital museum in Olympia; (d) collections and other state assets that may be divested or transferred to more appropriate entities for storage, research, and display; (e) database systems used or needed to inventory collections of items of an historical nature and the ability to display those collections on the internet; and (f) other items related to the storage, research, and display of collections of an historical nature.

(3) The office of the financial management or its contractor must consult with the following agencies in developing the statewide master plan for museums and research centers: (a) The Washington state historical society; (b) state parks and recreation; (c) the burke museum; (d) the eastern Washington state historical society; and (e) other entities as necessary.

GOVERNOR'S VETO MESSAGES

Sixty Fourth Legislature
2015 Legislative Session

VETO MESSAGE ON HB 2181

April 22, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, House Bill No. 2181 entitled:

"AN ACT Relating to the maximum speed limit on highways."

This bill presumes that there are portions of Interstate 90 -and other portions of the state highway system -where the speed limit could be increased to 75 mph without compromising safety.

According to the Washington Traffic Safety Commission, speeding or driving too fast for conditions accounts for more than one-third of all deadly crashes in Washington. It's a fact that as vehicle speed increases, the amount of energy generated increases exponentially, and the risk of death and injury increases substantially as collision speed increases. Our state's Target Zero Plan aims to reduce traffic death and serious injuries to zero by 2030. Although the number of speeding-involved crashes is declining due to the Target Zero program, there are still far too many people dying on our roadways. An increase in allowable speeds *before* a thorough safety assessment is performed is simply premature.

Therefore, I am vetoing Section 1 of House Bill 2181.

However, I am directing the Department of Transportation to consult with the Traffic Safety Commission and the State Patrol to assess whether the speed limit could be increased without any compromise in safety.

Moreover, I strongly encourage the Legislature to reconsider the Traffic Safety Commission's distracted driving bill in the upcoming session as a way to further reduce traffic fatalities. It's vital that we make progress improving safety this year.

For these reasons I have vetoed Section 1 of House Bill No. 2181.

With the exception of Section 1, House Bill No. 2181 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON HB 2055

May 6, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, House Bill No. 2055 entitled:

"AN ACT Relating to statements on ballot measures in voters' pamphlets."

The intent of this bill is to provide voters with more information about the potential fiscal impact of a ballot initiative. The bill moves forward the deadline for the Attorney General to prepare the explanatory statement and the Office of Financial Management to prepare the fiscal impact statement so that the information is available to the pro and con committees when drafting their statements for the voter's pamphlet.

In addition to moving forward the deadline for the Office of Financial Management to prepare the fiscal impact statement, Section 3 also creates a new cause of action for any person dissatisfied with the fiscal impact statement to challenge the statement in superior court. This new cause of action would frustrate the intent of this bill and cause unnecessary delay. It would also place the court in the untenable position of having to make advisory rulings on the initiative at issue in the fiscal impact statement. The Office of Financial Management identifies the assumptions made in preparation of the fiscal impact statement. Under this new cause of action, the court would have to make a legal ruling on these assumptions, which would constitute an advisory opinion on the initiative. There are current legal options available to those who wish to challenge a fiscal impact statement without creating a new cause of action. For these reasons, I am vetoing section 3 of House Bill 2055.

While I am vetoing Section 3, I am instructing the Office of Financial Management to work cooperatively with the Secretary of State to ensure any fiscal impact statement is completed in time to share with the pro and con committees before they complete their statements for the voters' pamphlet. This will ensure the intent of the legislation is fulfilled.

For these reasons I have vetoed Section 3 of House Bill No. 2055.

With the exception of Section 3, House Bill No. 2055 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON HB 1940

May 6, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 7, House Bill No. 1940 entitled:

"AN ACT Relating to exempting levies imposed by qualifying flood control zone districts from certain limitations upon regular property tax levies."

Section 7 of House Bill No. 1940 expires the protection of flood control zone district levies from prorationing on January 1, 2023. This expiration date is problematic and restricts the flexibility of flood control zone districts to elect and appropriately finance flood control projects. With the expiration date, any bonds will very likely be more expensive for flood control zone districts. There is also greater risk of insufficient revenues for flood control projects regardless of financing method in the event the levy is prorationed. To allow for maximum flexibility in financing flood control projects to protect the citizens of Washington State from flooding, I am vetoing section 7 of this bill.

For these reasons I have vetoed Section 7 of House Bill No. 1940.

With the exception of Section 7, House Bill No. 1940 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON ESHB 1980

May 11, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed Substitute House Bill No. 1980 entitled:

"AN ACT Relating to implementing recommendations of the sunshine committee."

Guardian Ad Litems undergo a rigorous evaluation of their backgrounds and qualifications, which include background checks that are required by law. There is no need for this information to be distributed to parties. I believe that enactment of this law would have a chilling effect on

GAL programs and their ability to recruit volunteers if this information were shared with parties in dependency actions.

For these reasons I have vetoed Section 1 of Engrossed Substitute House Bill No. 1980.

With the exception of Section 1, Engrossed Substitute House Bill No. 1980 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON 2ESHB 1299

June 11, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 102, page 2, lines 29-36, and page 3, lines 1-8; 103(1); 213(3); 920(4); 1005, page 113, lines 26-27 and 1005(2); 1005(4); 1005(5); and 1005(6), Second Engrossed Substitute House Bill No. 1299 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 102, page 2, lines 29-36, and page 3, lines 1 -8, Utilities and Transportation Commission, State Agency Workgroup

This proviso directs the Utilities and Transportation Commission (UTC) to coordinate a state agency workgroup to identify issues related to consolidating rail employee safety and regulatory functions within the UTC. Funding for this activity would come from the Grade Crossing Protective Account, which is used to install and maintain equipment to make grade crossings safer. Because this is not the appropriate fund source for coordinating a workgroup on the topic identified in the proviso, I have directed the UTC to conduct this activity with other existing resources. For this reason, I have vetoed Section 102, page 2, lines 29-36, and page 3, lines 1-8.

Section 103(1), page 3. Office of .Financial Management, Study of Fund Exchange

This proviso directs the Office of Financial Management to perform a study on the feasibility of establishing a fund exchange where federal funds are exchanged for state funds to reduce the administrative burden on local governments which use federal funds. The funding is likely insufficient to provide a thorough report on the issues. In addition, the Joint Transportation Committee is a more appropriate entity to perform this analysis, not the Office of Financial Management. Therefore, I have vetoed Section 103(1).

Section 21 3(3), pages 18-19, Department of Transportation. Beaver Dams

This proviso creates a complicated process for managing beaver dams on private property that pose a threat to Washington state highways, individual personal property, and public safety. The proposed process would require the Washington State Department of Transportation to notify private property owners of impending threats from beaver dam failure, to produce wildlife management plans, and to provide potential remedies that could create liability for the state. In addition, no funding is provided for this effort. For these reasons, I have vetoed Section 213(3).

Section 920(4), pages 105-106, Department of Transportation, Public Transportation

This proviso prevents the Washington State Department of Transportation from continuing work on regional mobility grant projects previously authorized by the Legislature. The department needs authority to work on these projects to support local efforts to improve transit mobility and reduce congestion on our roadways. The majority of the projects are not yet complete, and expenditures have already been made. Therefore, I have vetoed Section 920(4).

Section 1005, page 113, lines 26-27, and Section 1005(2), page 114, Department of Transportation, Highway Improvements Program

Due to changes in the timing of expenditures for highway improvement projects and insufficient flexibility in the capital program budgets, this reduced appropriation would result in an estimated shortfall of $3.5 million in expenditure authority in the Highway Improvements program. The Washington State Department of Transportation must have ongoing expenditure authority to keep projects within the total spending plan. Therefore, I have vetoed Section 1005, page 113, lines 26- 27, and Section 1005(2).

Section 1005(4), 1005(5) and 1005(6), page 115, Department of Transportation, Proceeds from Bond Sales

Section 605 provides the flexibility needed to retroactively assign bond proceeds received in the 2015-17 biennium to associated costs that occurred in the 2013-15 biennium. The reduced appropriations in Section 1005(4), Section 1005(5), and Section 1005(6) negate the flexibility provided in Section 605. For this reason, I have vetoed Section 1005(4), Section 1005(5), and Section 1005(6).

For these reasons I have vetoed Sections 102, page 2, lines 29-36, and page 3, lines 1-8; 103(1); 213(3); 920(4); 1005, page 113, lines 26-27 and 1005(2); 1005(4); 1005(5); and 1005(6) of Second Engrossed Substitute House Bill No. 1299.

With the exception of Sections 102, page 2, lines 29-36, and page 3, lines 1-8; 103(1); 213(3); 920(4); 1005, page 113, lines 26-27 and 1005(2); 1005(4); 1005(5); and 1005(6), Second Engrossed Substitute House Bill No. 1299 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON 2EHB 1115

June 30, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 3241 and 7044, Second Engrossed House Bill No. 1115 entitled:

"AN ACT Relating to the capital budget."

Section 3241, pages 158-159, Department of Natural Resources, Research on Transfer for Federal Lands to Washington State

This proviso directs the Department of Natural Resources to study the feasibility of acquiring certain federal lands for possible inclusion in the various trust lands managed by the Department. Although additional information about land acquisitions is always helpful, the negative effects of forest health, and the resulting fire danger, are well documented. The Department's primary responsibility is to support the trust beneficiaries, and this study will not support its obligation to generate revenue for school construction. For these reasons, I have vetoed Section 3241.

Section 7044, pages 278-279, Office of Financial Management, Master Plan for Museums and Research Facilities

This proviso requires the Office of Financial Management (OFM) to develop a master plan to address the storage and preservation requirements of the state's historical collections by December 31, 2015. While ensuring the preservation of our state's historical and cultural collections is a priority, this proviso does not provide funding or enough time for a thorough plan to be developed. For these reasons, I have vetoed Section 7044. However, I have directed OFM to work with the Washington State Historical Society and the Eastern Washington Historical Society to address this issue.

For these reasons I have vetoed Sections 3241 and 7044 of Second Engrossed House Bill No. 1115. With the exception of Sections 3241 and 7044, Second Engrossed House Bill No. 1115 is approved.

Respectfully submitted,
Jay Inslee
Governor

VETO MESSAGE ON 2E2SHB 1276

June 30, 2015

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 25, Second Engrossed Second Substitute House Bill No. 1276 entitled:

"AN ACT Relating to impaired driving."

The Department of Health has a Medical Assistant-phlebotomist credential that is currently available to law enforcement and corrections personnel. Creating a new sub-category is therefore unnecessary. MA-phlebotomist training programs specific to law enforcement forensic needs can be developed without a change in current law or rules and MA-phlebotomist training is typically on- the-job, and can be completed in a few days.

Section 25 also creates substantial new responsibilities and costs as it requires the Department to inspect every police station, jail, corrections facility, or other location where a law enforcement MA- phlebotomist may take blood samples. The section also sets new ongoing training and minimum procedure standards for law enforcement MA-phlebotomists that no other medical assistants have, and that must be regulated by the Department. For these reasons, I am vetoing this section.

For these reasons I have vetoed Section 25 of Second Engrossed Second Substitute House Bill No. 1276.

With the exception of Section 25, Second Engrossed Second Substitute House Bill No. 1276 is approved.

Respectfully submitted,
Jay Inslee
Governor

GOVERNOR'S PARDONS AND COMMUTATIONS

Sixty Fourth Legislature
2015 Legislative Session

FULL AND UNCONDITIONAL PARDON OF ANTONY LOLO XCZAR

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, on July 25, 2001, Antony' Lolo Xczar assaulted an acquaintance. Mr. Xczar arrived home that evening and found a homeless acquaintance-who Mr. Xczar had allowed to stay at his home-and his acquaintance's guest using drugs in Mr. Xczar's apartment. After the two refused to leave Mr. Xczar's apartment, he announced that he was going to phone the police. Mr. Xczar's acquaintance then grabbed Mr. Xczar and began choking him. Mr. Xczar reached for a nearby golf club and swung it over his shoulder, striking his acquaintance in the head.

WHEREAS, on February 21, 2002, Mr. Xczar pleaded guilty to third degree assault in King County Superior Court, Cause No. 01-1-9798-5. The trial court sentenced Mr. Xczar to 90 days of confinement, including 60 days in partial confinement, and 30 days of community service under the supervision of the Department of Corrections. The trial court also imposed $1,920.00 in restitution to the victim and $10,919.07 to the Department of Social and Health Services.

WHEREAS, Mr. Xczar has accepted full responsibility for his actions and satisfied all of his sentence requirements. Following his sentence, he continued his education, earning two associate's degrees from Seattle Central Community College, a bachelor's degree from
The Evergreen State College, and a master's degree from the University of Washington. He has also devoted his life to serving others.

WHEREAS, Mr. Xczar has had no further criminal law violations since this 2001 incident.

WHEREAS, the Clemency and Pardons Board reviewed Mr. Xczar's petition for a pardon. The testimony before the Board was that Mr. Xczar has committed his life to service through a variety of church programs and social work. He also excelled in the classroom, achieving high academic marks and earning over 30 certificates of continued education in addition to his degrees.

WHEREAS, Mr. Xczar's conviction prevet;tts him from pursuing a career in counseling, his desired profession. Some of the counseling-related licenses that Mr. Xczar obtained are temporary and only become permanent through completion of a given number of work hours. But many employers of counselors maintain policies that bar convicted felons from employment because those counselors must work in facilities in which convicted felons may not work.

WHEREAS, over 25 faith community members, school colleagues and instructors, potential employers, and friends voiced support for Mr. Xczar before the Clemency and Pardons Board either in person or in writing.

WHEREAS, the Clemency and Pardons Board voted unanimously to recommend that Mr. Xczar be granted a full pardon.

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the crime, and the favorable recommendation of the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Jay Inslee, by virtue of the power vested in me as Governor of the state of Washington, hereby grant to Antony Lolo Xczar this FULL AND UNCONDITIONAL pardon of his conviction for third degree assault, King County Cause No. 01-1-09798-5.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the state of Washington to be affixed at Olympia on this 10th day of February, A.D., two thousand and fourteen.

Jay Inslee
Governor of Washington

FULL AND UNCONDITIONAL PARDON OF TIMO TOIVO TORISTOJA

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, on November 28, 1995, Timo Toivo Toristoja sold a baggy of what he believed to be a controlled substance to an undercover detective from the Clark Skamania Drug Task Force.

WHEREAS, on October 7, 1996, Mr. Toristoja pleaded guilty to the amended charge, unlawful delivery of a controlled substance, amphetamine, in Clark County, Cause No. 95- 1-02099-2. The trial court sentenced Mr. Toristoja to 135 days in Clark County jail with credit for 10 days served, and he served the remaining 125 days in a work release program.

WHEREAS, Mr. Toristoja accepted full responsibility for his actions and completed all of his sentence requirements, including a successful term in his work release program.

WHEREAS, Mr. Toristoja has had no further criminal law violations since this 1995 incident.

WHEREAS, the Clemency and Pardons Board twice reviewed Mr. Toristoja's petition for a pardon. The testimony before the Board was that upon completion of his work release program, he secured employment for six years at a local shipyard. In the years since, Mr. Toristoja has started two Clark County businesses that employ approximately 60 people and generate approximately $7 million for the local economy. Mr Toristoja works seven days a week to support his immediate family and many members of his extended family.

WHEREAS, Mr. Toristoja has partnered his businesses with the Clark County Work Release program, and he has hired 15 to 20 former felons as a work release program employer. He requires work release employees to pass urinalysis tests; and Mr. Toristoja estimates that half of his work release employees have not lapsed into criminal behavior. Though one of Mr. Toristoja's businesses does not generate enough profit for him to take a salary, he continues to operate the business to provide these employment opportunities for others.

WHEREAS, Mr. Toristoja's conviction prevents him from pursuing federal government contracts or securing larger lines of credit, opportunities that would otherwise allow his businesses to further expand and provide greater opportunities for employees in the Clark County area.

WHEREAS, community members, family members, employees, business clients and partners, and friends all voiced support for Mr. Toristoja before the Clemency and Pardons Board either in person or in writing.

WHEREAS, Joseph Scott Wharton was convicted on April 22, 1997, of five counts of Robbery in the Second Degree in King County Superior Court Cause Number 97-1-

00657- 7 and sentenced to serve life without the possibility of parole under Washington's persistent offender law, otherwise known as the "Three Strikes" law.

WHEREAS, Mr. Wharton submitted a petition to the Washington State Clemency and Pardons Board in 2012, requesting that his Life Sentence without the Possibility of Parole on Cause Number 97-1-00657-7 be commuted by Governor Christine Gregoire.

WHEREAS, Mr. Wharton showed considerable rehabilitation during his period of incarceration. Even though Mr. Wharton had no reason to believe he would ever be released from prison, he proactively sought out and participated in whatever classes or programs were available to improve his life skills and enhance his education, in addition to counseling and treatment for his previous substance abuse and his ongoing recovery from addiction.

WHEREAS, following Mr. Wharton's Clemency and Pardons Board hearing on December 7, 2012, the Board issued a unanimous recommendation in support of a commutation of Mr. Wharton's life without the possibility of parole sentence. King County Prosecutor Daniel Satterberg supported his conditional release; and the sentencing judge for his "third strike" offense, then-retired King County Superior Court Judge Michael J. Fox, supported a commutation.

WHEREAS, on July 30, 2013, I granted Mr. Wharton a conditional commutation subject to his completing a 24-month community custody term following his release and complying with numerous community custody conditions. These conditions required Mr. Wharton to, among other things, refrain from drug and alcohol use, participate in a residential treatment program, and regularly report with a community corrections officer and subject himself to random urinalysis testing.

WHEREAS, in early October 2013, Mr. Wharton left his residential substance treatment program without permission. Following Mr. Wharton's departure from his program, the Department of Corrections had reason to believe that he had consumed drugs and alcohol.

FULL AND UNCONDITIONAL PARDON OF ANGUS BRENT TATE

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, Angus Brent Tate pleaded guilty to SECOND DEGREE ARSON in July 1968, Yakima County Superior Court Cause No. 14894. He also pleaded guilty to SECOND DEGREE BURGLARY in February 1972, Yakima County Superior Court Cause No. 16735.

WHEREAS, Mr. Tate accepts full responsibility for his past conduct in these incidents, expresses remorse, and has satisfied the conditions of his judgments and sentences.

WHEREAS, Mr. Tate has had no further criminal law violations since the 1972 burglary, and following his release from prison, he has devoted his life to improving the lives of others in his community.

WHEREAS, Mr. Tate is married and has 16 grandchildren, 13 of whom he and his wife have helped raise. Mr. Tate and his wife currently have temporary custody of three of their young grandchildren whose parents suffer from addiction and are in and out of the justice system. When Mr. Tate and his wife took custody of these three grandchildren, the grandchildren were underweight and developmentally behind where they should be at their age. Since moving in with Mr. Tate and his wife, the grandchildren have made significant strides and are doing much better.

WHEREAS, the Clemency and Pardons Board reviewed Mr. Tate's pardon petition, which included over 40 letters of support from friends, family, and community members. The testimony before the Board was that, since his release from incarceration, Mr. Tate has dedicated his life to serving his community. He has been continuously employed for roughly 40 years. He has worked as a social worker for the state since 1986 and served as his church's pastor for over 20 years.

WHEREAS, the presence of these two convictions on Mr. Tate's record may prevent him from obtaining full legal custody of his grandchildren; and, if he does not obtain permanent custody, the grandchildren may be forced into foster care.

WHEREAS, the Clemency and Pardons Board voted unanimously to recommend that Mr. Tate receive a full pardon. The Yakima County Prosecuting Attorney does not object to pardoning Mr. Tate and commends his commitment to the community. WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the involved crimes, and the favorable recommendation of

the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that the best interests of justice will be served by this action.

FULL AND UNCONDITIONAL PARDON OF TAYLOR ROBINSON CHOYCE

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, Taylor Robinson Choyce pleaded guilty to SECOND DEGREE ASSAULT in April 2001, Thurston County Superior Court Cause No. 00-1-1733-6. He was 18 years old at the time of the assault, when he chased, with a decorative sword, his two college roommates and their associate who had broken into his bedroom and were rummaging through his private belongings. In the course of the chase, Mr. Choyce stabbed the victim in the lower back with his sword, causing a two to three centimeter wound which resulted in no permanent damage.

WHEREAS, Mr. Choyce accepts full responsibility for his conduct in this incident, expresses remorse, and he has satisfied the conditions of his judgment and sentence, including paying all fines and costs.

WHEREAS, Mr. Choyce had no prior criminal conduct and has had no further criminal law violations in his life, aside from this single incident.

WHEREAS, the Clemency and Pardons Board reviewed Mr. Choyce's pardon petition, which included numerous letters of support from friends, family, and community members. The testimony before the Board was that, since this incident, Mr. Choyce has flourished, completing his education, finding steady employment, and starting a family.

WHEREAS, the sentencing judge, Judge Richard Strophy, testified at Mr. Choyce's clemency hearing. He characterized Mr. Choyce's conviction as "a miscarriage of justice," given Mr. Choyce's lack of criminal history and the circumstances of the offense. During the case's prosecution, Judge Strophy felt so compelled by what be perceived as an injustice, that he did something he had never done before and would never do again during his 24 years on the Superior Court bench-he encouraged the parties

to work out a deal whereby Mr. Choyce could avoid facing a felony. And because Judge Strophy felt so passionately that the State had overstepped its bounds by prosecuting Mr. Choyce for a felony, Judge Strophy testified on Mr. Choyce's behalf before the Board.

WHEREAS, this conviction's presence on Mr. Choyce's record prevents him from pursuing his desired career opportunities. The conviction also prevents Mr. Choyce the opportunity to volunteer at Big Brothers.

WHEREAS, the Clemency and Pardons Board voted to recommend that Mr. Choyce receive a full pardon. The Thurston County Prosecuting Attorney expressed no objection to the pardon.

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the involved crime, and the favorable recommendation of the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that he best interests of justice will be served by this action.

NOW, THEREFORE, I, Jay Inslee, by virtue of the power vested in me as Governor of the state of Washington, hereby grant to Taylor Robinson Choyce this FULL AND UNCONDITIONAL pardon of his 2001 conviction for SECOND DEGREE ASSAULT.

COMMUTATION OF SHAYNE LYLE ROCHESTER

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, Shayne Lyle Rochester was found guilty of ATTEMPTED FIRST DEGREE ROBBERY including a firearm enhancement, in January 2010, King County Superior Court Cause No. 09-C-4235-3-SEA. Mr. Rochester drove to his former roommate's residence with two women, who he knew were both armed with handguns, and directed them to collect money that Mr. Rochester's former roommate owed him. The women entered the roommate's home without permission and, after refusing to leave, produced their weapons and demanded money, before discharging an errant shot and fleeing. The State prosecuted Mr. Rochester as an attempted robbery accomplice; Mr. Rochester was found guilty and sentenced to 37 months for the robbery and 36 months on the firearm enhancement.

WHEREAS, Mr. Rochester successfully challenged an alleged jury instruction error on direct appeal, and Division One of the Court of Appeals overturned his firearm

enhancement and its 36 month sentence, basing its decision on the Washington Supreme Court's opinion in State v. Bashaw, 169 Wn.2d 133, 234 P.3d 195 (2010). The State then appealed Division One's ruling to the Washington Supreme Court, where it was stayed pending an anticipated ruling in a case that would reconsider the Bashaw opinion, State v. Nunez, 174 Wn.2d 707, 285 P.3d 21 (2012).

WHEREAS, following his successful direct appeal at Division One, Mr. Rochester was released from prison on his own personal recognizance, pending the stay in his case. At the time of his release, Mr. Rochester had served approximately 28 months of his 37 month sentence on his attempted first degree robbery conviction. The Department of Corrections, after factoring his earned release time, determined that Mr. Rochester had completed his robbery sentence.

WHEREAS, the Washington Supreme Court subsequently issued its anticipated decision in Nunez, overturning the decision in Bashaw. Consequently, our Supreme Court remanded Mr. Rochester's case to Division One for action consistent with the Nunez opinion, and Division One affirmed Mr. Rochester's firearm enhancement, along with its 36 month sentence. When Division One issued its opinion on remand, Mr. Rochester had been out of prison on his own personal recognizance for over 13 months. Mr. Rochester has now been out of custody since October 2011, pending ongoing appeals associated with his case. Since his release from custody, Mr. Rochester has complied with the terms of his release.

WHEREAS, Mr. Rochester accepts full responsibility for his conduct in this incident and has expressed remorse. He has taken affirmative steps to confront and overcome his substance abuse addictions, which led to this offense. Mr. Rochester has also established custody of his young son and has cultivated a strong relationship. He has dedicated himself to community groups that provide social rehabilitative support to parents in the child welfare and prison system.

WHEREAS, the Clemency and Pardons Board reviewed Mr. Rochester's clemency petition, which included several letters of support from his family, social workers, and other community members, including retired King County Superior Court Judge Anthony Wartnik. The victim of the offense and the King County Prosecuting Attorney's Office also support Mr. Rochester's clemency petition.

WHEREAS, denial of this clemency petition would return Mr. Rochester to prison for 36 months and cause great upheaval to his family. In a letter supporting Mr. Rochester's petition, the Department of Social and Health Services expressed that the best interests of Mr. Rochester's son would be served if Mr. Rochester were not returned to prison.

WHEREAS, at a March 14, 2014, clemency hearing, the Clemency and Pardons Board unanimously voted to recommend that Mr. Rochester's 36 month sentence on his firearm enhancement be commuted; and,

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this

matter, the circumstances of the involved crime, and the favorable recommendation of the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Jay Inslee, by virtue of the power vested in me as Governor of the state of Washington, adopt the recommendation of the Clemency and Pardons Board and hereby COMMUTE Shayne Lyle Rochester's 36 month sentence for his 2010 firearm enhancement on his ATTEMPTED FIRST DEGREE ROBBERY conviction.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the state of Washington to be affixed at Olympia on this 23rd day of July, A.D., two thousand and fourteen.

FULL AND UNCONDITIONAL PARDON OF JAMIE STEPHEN SETTLE

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, in 1997, Jamie Stephen Settle pleaded guilty to THIRD DEGREE ASSAULT in Thurston County Superior Court, Cause No. 97-1-2163-8 and was sentenced to confinement for 30 days, community supervision for 12 months, and $610.00 in fines. This felony charge arose from a 1997 incident in which Mr. Settle unlawfully entered the victim's home, searching for his ex-girlfriend, and struck the victim with his fists.

WHEREAS, Mr. Settle accepts full responsibility for his conduct and expresses remorse, and he has satisfied all the conditions of his judgment and sentence, including completion of an anger management program and prompt payment of his legal financial obligations. Since this offense, he has had no further criminal convictions.

WHEREAS, Mr. Settle is now married and raising two young children, and he built the home in which they currently live. In February 2013, Mr. Settle was diagnosed with terminal Glioblastoma Multiform Stage IV brain cancer. Prior to his diagnosis, Mr. Settle was a full-time student at Centralia Community College pursuing a career in electrical engineering.

The Clemency and Pardons Board voted unanimously to recommend that Mr. Settle receive a full pardon. The Thurston County Prosecuting Attorney expressed no objection to Mr. Settle's petition.

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the involved crime, and the favorable recommendation of the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that the best interests of justice will be served by this action.

FULL AND UNCONDITIONAL PARDON OF SIGIFREDO BUENO

WHEREAS, in 2005, Sigifredo Bueno pleaded guilty to CONSPIRACY TO DELIVER A CONTROLLED SUBSTANCE-METHAMPHETAMINE in Yakima County Superior Court, Cause No. 04-1-01707-1. Mr. Bueno had been riding in a vehicle with his brother-in-Jaw, when they picked up two other individuals, who were then dropped off and picked up again later after participating in a methamphetamine delivery. Mr. Bueno pleaded guilty to conspiring to commit the delivery, in large part on the advice of his counsel, who had expressed that a conspiracy conviction would not be a deportable offense.

WHEREAS, Mr. Bueno accepts full responsibility for his past conduct and expresses remorse, and he has satisfied all the conditions of his judgment and sentence, including paying $2,810 in legal financial obligations.

WHEREAS, Mr. Bueno's conviction puts him at risk for deportation. And, Mr. Bueno's wife was severely injured years ago.in a work accident; now disabled, she relies on

WHEREAS, the Clemency and Pardons Board reviewed Mr. Bueno's pardon petition, which included numerous letters of support from community members. The Yakima County Prosecuting Attorney does not oppose his petition.

WHEREAS, the Clemency and Pardons Board voted unanimously to recommend that Mr. Bueno be granted a fu11 pardon. In recommending a pardon, the Board noted the disproportionate effect that this relatively minor crime would have on Mr. Bueno, his family, and his community, were he to be deported; and,

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the involved crime, and the favorable recommendation of the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Jay Inslee, by virtue of the power vested in me as Governor of the state of Washington, hereby grant to Sigifredo Bueno this FULL AND UNCONDITIONAL PARDON of his conviction for CONSPIRACY TO DELIVER A CONTROLLED SUBSTANCE-METHAMPHETAMINE, in Yakima County Superior Court Cause No. 04-1-01707-1.

WHEREAS, the Clemency and Pardons Board unanimously voted to recommend that Mr. Nevers be pardoned; and,

Offender Accountability Act, otherwise known as the "Three Strikes" law. These convictions are the last of four total second degree robbery convictions on Mr. Wheeler's record that date to 1988. During none of Mr. Wheeler's robberies did he carry a firearm, nor did he ever cause serious physical injury to any victim.

WHEREAS, Mr. Wheeler accepts full responsibility for his conduct in this incident, and he expresses remorse. He has overcome the chemical addictions that contributed to his criminal behavior. He has been in prison since 1999, and since 2001, Mr. Wheeler has been a model prisoner, receiving no infractions. Mr. Wheeler has also seized numerous opportunities to improve himself while in prison, completing various classes and programs; and, in 2000 he earned his General Education Diploma.

WHEREAS, Mr. Wheeler is now 65 years old, and suffers from diabetes, mild hypertension, and Hepatitis C.

WHEREAS, the Clemency and Pardons Board reviewed Mr. Wheeler's clemency petition, which included several letters of support from his family and other community members. The King County Prosecuting Attorney's Office .also supported Mr. Wheeler's commutation petition and testified at his hearing, explaining that Mr. Wheeler has served a disproportionately lengthy sentence for the low-level strike offenses that he committed, and he currently exhibits a low-risk of recidivism.

WHEREAS, the testimony before the Board was that Mr. Wheeler's support network will not only support him emotionally and help him transition to life outside of prison, but it will provide him a place to live and employment opportunities upon release.

WHEREAS, the Clemency and Pardons Board unanimously voted to recommend that the Governor conditionally COMMUTE Mr. Wheeler's sentence, contingent upon his completion of a substance abuse class. Since his clemency hearing, Mr. Wheeler has completed this substance abuse class; and,

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the involved crime, and the favorable recommendation of the Washington State Clemency and Pardons Board and, in light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Jay Inslee, by virtue of the power vested in me as Governor of the state of Washington, adopt the recommendation of the Clemency and Pardons Board and hereby COMMUTE John William Wheeler's 1999 sentence for two SECOND DEGREE ROBBERY convictions, conditioned on his agreement to comply with all terms outlined by the Department of Corrections (DOC) in a transition plan. Under this transition plan, Mr. Wheeler will complete 12 months in custody, to terminate no later than January 1, 2016. Following this in-custody period, Mr. Wheeler will serve an additional 12 months of community custody, to end no later than January 1, 2017. During this transition, Mr. Wheeler will comply with any conditions set forth by the DOC and its community corrections officers (CCO). These conditions shall include, but not be limited

to the following:

Mr. Wheeler shall:

1. Report as directed and be available for contact with the DOC;
2. Remain in a geographic area as directed by his CCO;
3. Participate in DOC-approved education, employment and/or community service obligations, to include additional chemical dependency treatment if appropriate;
4. Receive prior approval from DOC for living arrangements and residence locations;
5. Notify his CCO before changing residence or employment;
6. Abide by written or verbal instructions issued by the CCO;
7. Not possess, receive, ship, or transport any explosive device, dangerous weapons, ammunition or firearms;
8. Not consume or possess controlled substances without a legal prescription;
9. Abstain from alcohol and marijuana use and possession;
10. Have no direct or indirect contact with any victims and/or their families;
11. Participate in electronic monitoring as directed by the CCO; and
12. Comply with all conditions of community custody as directed by the CCO.

PROVIDED that Mr. Wheeler shall remain under the supervision of the DOC and explicitly follow conditions established by that agency during the term of his community custody. Violation of any of the above conditions shall result in sanctions as deemed appropriate by the DOC and may result in the termination of this conditional commutation as provided below. The Department may require Mr. Wheeler to perform affirmative acts deemed appropriate to monitor compliance with the conditions and may issue warrants or detain Mr. Wheeler if he violates a condition.

ADDITIONALLY PROVIDED that in the event Mr. Wheeler is convicted anywhere at any time of any offense the elements of which would classify the crime as a gross misdemeanor or felony in the state of Washington or violates the conditions of this conditional commutation as determined by the Governor, this conditional commutation is revoked and the sentence of the court reinstated, whereupon Mr. Wheeler will be immediately returned to a corrections facility as the Secretary of the DOC deems appropriate. The DOC shall provide a written report to the Governor regarding any violation of this conditional commutation. A written notice of the Governor's intent to revoke the conditional commutation will be mailed to the most recent address Mr. Wheeler has provided to the Office of the Governor or, if Mr. Wheeler is in custody, to his place of detention. If within 14 calendar days of the mailing of the notice Mr. Wheeler submits a sworn statement made under penalty of perjury that he has complied with all conditions of this commutation, the Governor shall appoint a hearing officer. The hearing officer will provide Mr. Wheeler an opportunity to be heard and to present witnesses and documentary evidence that he has met all conditions upon which the conditional commutation is granted. The hearing officer shall present findings of fact and a transcript of the hearing to the Governor for the Governor's final and conclusive decision on whether Mr. Wheeler has violated the conditions of this conditional commutation.

ADDITIONALLY PROVIDED that Mr. Wheeler may be detained pending judicial disposition of any new criminal charge or a final determination of whether a condition of this conditional commutation has been violated if the Governor determines there are reasonable grounds to believe he has violated the above conditions of this conditional commutation, reason to be concerned that he would pose a risk to any person or to the community, or that there is a possibility that Mr. Wheeler may abscond if not detained. If detained, Mr. Wheeler will be provided a preliminary hearing, as promptly as convenient after arrest, to determine whether there are reasonable grounds to believe he has violated the above conditions.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the state of Washington be affixed at Olympia on this 7th day of January, A.D., two thousand and fifteen.
