**SIXTY FOURTH LEGISLATURE - REGULAR SESSION****FIRST DAY**

House Chamber, Olympia, Monday, January 11, 2016

The House was called to order at 12:00 p.m. by the Speaker. The Clerk called the roll and a quorum was present.

The flags were escorted to the rostrum by the Henry Foss High School Air Force Junior Reserve Officer Corps in Tacoma. The Speaker led the Chamber in the Pledge of Allegiance. The National Anthem was performed by the Spanaway Lake High School Music Company, led by Sara Forte. The prayer was offered by Pastor Fred Williams, Snohomish Community Church, Snohomish, Washington.

Pastor Fred Williams: "Our Heavenly Father, you and no other sit as King of kings and Lord of lords. You sit above us knowing all and directing all. Not one small detail escapes your knowledge. And yet, even while you have this perfect knowledge you also call on those who follow you to speak to you and to even plead with you.

That is our aim this morning.

It is the great state of Washington and fellow elected representatives that takes center stage in our hearts today. As servant-leaders of this state we recognize that we are blessed more than most. And we are part of a union that is blessed more than any nation on earth. I stand with and among the many here that proudly call themselves Washington residents. And yet, we are ever mindful that while these are here doing the job they were called on to do that real life is taking place outside these walls. Please keep their families well and safe. Be especially with the representative here who has recently lost his son. Comfort him with the comfort that only you can provide.

God, you know well that there are issues and agendas represented in this room that will, in some cases bind people together, and in other cases, threaten this house with division. Father, would your view of those issues be loudest opinion. And as your will is observed and recognized would you bless this room with peace and unity.

I am concerned though Father that our state finds herself adrift morally and spiritually. I fear that our blessed state is in trouble and while I know that no mere man or woman, and no political party or politician is the answer I would plead with you that you would work in the hearts of all those present... work in such a way that your just demands are clear and respected. Exert your righteous and loving will in this room all session long in such a way that it is unmistakable.

May this legislature be historic in that they did not ignore your Word; that they refused to call evil good and good evil. But it is here that these servants need your presence and even intervention in the most powerful and gracious way.

They are tugged at from all sides. Every assembly person in the room has the unenviable task of knowing that when they say yes to one they so no to another. Such a difficult responsibility.

Guide and bless these men and women who have been sent here by the people of Washington and who have been ordained by You to govern this great state. Grant them Your

wisdom to rule, and may their decisions direct us to the center of Your will.

I ask it in the name of your son, the living savior, Jesus Christ. Amen."

The Spanaway Lake High School Music Company performed "The World is Ours".

**SPEAKER'S PRIVILEGE**

The Speaker asked the body to welcome its new members.

The Speaker further introduced his wife, Nancy Long, and asked the members to acknowledge her.

Mr. Speaker: "Welcome back to the people's House! I want to thank all the House members for their dedication to being citizen legislators! I want to thank Dan Kristiansen for his work! Let us also thank the families and loved ones who are making a sacrifice for all of us. And of course, please recognize my wife, Nancy Long, for her many years of support!

In our line of work, there are many positive experiences, but also a lot of difficulties and challenges. Long hours, long committee meetings, long sessions. So it is appropriate as we begin this session, to mention a few examples of what we accomplished last year for the people of Washington.

To prepare our kids to learn and succeed, we approved the largest expansion of early childhood education in state history, \$160 million over the next two years. And we enacted the Early Start Act to improve the quality of care in early learning and child care centers. To improve basic education as a path to a better life, we invested \$1.3 billion in new funding for K-12 schools, expanded full-day kindergarten, and reduced class sizes in kindergarten through 3rd grade. We carried out the commitments we made a few years ago with House Bills 2261 and 2776, as part of our "paramount duty" to our schools. And we provided teachers and public school workers with a wage increase above the cost of living, recognizing the value of their work, and helping to catch up after several years without an increase.

To help students pursue opportunity, we increased College Bound Scholarships, an incentive for low-income students to graduate from high school and then attend a public college, tuition-free. We also expanded Opportunity Scholarships for middle class and low-income students who are earning degrees in high-demand fields, with matching contributions from the private sector.

To provide health care for all, we expanded Washington Apple Health, which now covers 1.6 million people, including 800,000 kids. We invested over \$100 million for improvements in mental health care, providing community-based treatment, more inpatient beds, and better crisis intervention across the state. We approved important reforms, including Joel's Law, which empowers families when a loved one is in crisis. And we maintained our national leadership role linking people to health care by continuing the State Health Care Exchange.

To strengthen the safety net for people who have fallen on hard times, we increased assistance for families, restored the State Food Assistance Program, and expanded services and support for children in foster care.

And we adopted a new Home Care contract, providing workers with the first-in-the-nation retirement benefit. They care so well for our elderly and people with disabilities. They deserve a secure retirement.

To create jobs for a recovering economy, our transportation package was the largest state investment in public works in state history. It will fix aging infrastructure, increase public transit, and create tens of thousands of jobs over the next decade. In addition, we created jobs by approving the largest capital budget in state history, with increased funding for school construction and projects that strengthen communities across the state.

The House of Representatives led the way on each of these accomplishments. But our pride in what we accomplished does not give us an excuse to sit back. We need to keep moving forward. Together we can find practical solutions to meet the next set of challenges. There will be many issues we will review: Department of Corrections, State Auditor, and Court decisions.

But for this session, let us focus on the basics:

**Basic education.** We must continue investing in our public schools, not because the Supreme Court says so, but because it's our job! This includes working to reform the school employee compensation system and addressing the shortage of teachers. And we must build the classrooms to carry out the decision we already made to reduce class sizes. All of these actions will provide hope for a better future through education.

**Basic Health.** We should continue our progress towards the simple notion that health care is a fundamental human right. Who among us would deny care to a child? Who among us would turn our backs on those who are ill, or old, or disabled? There is no doubt that we have made major progress in extending health care. But we have so much more to do. Even though we enacted mental health parity years ago, we need to stop separating the brain from the body in our funding formulas and health coverage. And we must have a heart. It is imperative that we improve mental health care, which suffered during the Great Recession. We need accountability and more resources. We must provide our state mental health hospitals with the staff and the tools to care for those we are committed to help.

**Basic emergencies.** We must help communities devastated by some of the worst fires in our history. And we should use our rainy day fund to cover the costs of the drought and work to prevent these disasters. But there are other emergencies as well. There are many fires we face. In

particular, tens of thousands of young people are homeless. That is a moral tragedy.

We cannot look away from the fact that many young people are dying from suicide, abuse, and other tragedies. Solving youth homelessness is basic: we need to get them off the streets and into a safe home. The same is true for people with mental illness. We can prescribe drugs and treatment, but that is for naught if the person leaves the clinic and is left to spend the night on the street.

When you add it all up, these three basics are really about having hope, health, and a home. One of the most powerful truths about America is our capacity for change and improvement. There was a time when children went to work, instead of school. There was a time when hard-working families had no access to health care. There was a time when people with mental illness faced shame, instead of hope. But over time, things changed.

If we continue to make progress there will be a time when we can be proud of our mental health system, with parity for all. There will be a time when a doctor can write a prescription for a home, as part of a treatment plan for mental illness. There will be a time when high school graduation rates will be close to 100%, with opportunity for all. And there will be a time, and that time must be SOON, when we fulfill our paramount duty to the education of our kids!

We don't have a lot of time this session, so let's make the most of it. Thank you."

#### **POINT OF PERSONAL PRIVILEGE**

Representative Kristiansen: "Thank you Mr. Speaker. First of all I would like to thank you. I want to thank you for the words, it is always hard following someone else who gives a nice speech like that when you are supposed to talk about the same things, so thank you for doing most of my speech. Let's hear it for the Speaker. And now that we know you are really good at karaoke we expect you to show up.

On a personal note, I would like to thank you Mr. Speaker for the time we have been able to spend together. Over the course of the last few years, when it comes to talking about and negotiating the tough issues that you mentioned in your speech, you know we all know that we are under a tremendous amount of pressure down here not just by the courts predominately by our citizens. The citizens send us down here and they hire us to do this job. They are given opportunities to vote for us and somebody else, we were chosen, we were the ones who were chosen to represent them and the question that I guess I have every time I come down here and every time I face an issue is how am I going to serve my constituents best. One of the things for those of you who have never done it, I would encourage you to go to the fourth floor of the building and walk through the halls, I do it every year two or three times actually. It's the class pictures of those legislative bodies that have gone before us and I like to go through that hall because as a state we were founded in 1889, and I like to walk up there and I like to look at key dates in time and take a look at the faces of the people who were there dealing with challenges not dissimilar to what we are doing but in many cases far more serious challenges. Who were those legislators who were dealing with the 1929 crash in our economy, who were those

legislators who were there post December 7, 1941, and so on and so on and so on. I'm kind of a history buff, but I do think it is important for us to learn from our history. I do also think it is important for us to acknowledge that despite those tremendous challenges that were before them, they made it. They became unified at a time when it was very difficult and we can get really focused in on what divides us down here and I hate to say it but that is part of politics, but my hope and my prayer is that we will also find and we will make it a bigger priority on those areas that unite us and unify us. Every one of us in here are Americans and I am proud of that. I am proud not only that I am an American, but everybody in here, we serve together because this constitution has put together a system in place that we can do this. We have a representative form of government and the people that hire us to do this job are expecting us to come down here and govern.

We all know, as mentioned by Pastor Willams, and I want to thank the pastor too for his kind prayer and words this morning, but when he was talking about your making enemies and friends, when you push that yes button or that no button, this is my fourteenth session and I got to tell you it is always difficult pushing those buttons but we were hired to do that job. And sometimes we are going to be faced with very difficult personal decisions that we are going to have to make. I've said before that I encourage every legislator to come down here and draw that line in the sand, draw that line in the sand that represents your moral compass, your ethical compass, and don't cross over that line. You don't need to but you do need to work with people on the other issues, and my hope and my prayer, is that as we come together for this legislative session, sixty days right, or less, absolutely well you told me 105 last year I'm going to hold you to 60 this year. But my point is that my prayer, as we move forward, is that we will come together on these tough issues like classes, like legislators before us that had tremendous challenges, we've got some tremendous challenges ahead of us but I do believe that the system works. People complain about the system all the time, but I don't know if you're like me when I have looked at other systems of government around the world, as bad and as complicated and sometimes stinky as this place can be it is still in my opinion the best form of government in the world. Because it truly reflects, I believe, the public. Because that is why we were sent here. Every one of us represents approximately 137,000 people. Think about that. Have you always agreed with or condoned the actions of your own family members? And yet these people are hopefully going to agree with you and condone your actions most of the time, and that's the challenge before us Mr. Speaker. I want to thank you for the comments and all the statistics and all the great work that we have done over the past few years, because we haven't always agreed on those things but that's part of politics. But there are some tremendous challenges before us, not unlike education. We've got a lot of things we've got to do on education, not just on the funding end, but on reform. We want to make sure that the outcomes of these kids is first and foremost our priority. That our kids get a world class education period. That we create safer atmospheres for our families. That we have job opportunities for those students when they come out of school, more than half of our college graduates are

unemployed. That is wrong. We have 39 counties in Washington State and only two, two of thirty nine counties, have below the national average of unemployment. Two. Thirty seven counties are operating at above and sometimes double or more the national average of unemployment. That is great for Seattle and the Bellevue metropolitan area but it really excuse me sucks for the rest of the state. I'm becoming more politically incorrect, is sucked ok? Yeah it is going to have to be. TVW can you edit that out for me. My point being, is that we need to take a look at, it's been talked about one Washington, but one Washington just isn't a ten mile corridor. Its 300 miles approximately from the ocean to the Idaho border and its 300 miles approximately. from Idaho excuse me from Oregon to Canada. Ten miles isn't doing it. We've got to do better in the rest of the state and that's one of the things we want to make sure that we unite with you Mr. Speaker and colleagues across the aisle to make sure that the rest of Washington is being treated properly as well.

Mental health, we've got a lot of things going on in the greater metropolitan area on mental health, which you know Mr. Speaker we've talked about, this is a huge focus of mine personally but the things we are doing for mental health and other social programs in Seattle is not happening in the rest of the state

Transportation, while we made the largest transportation investment last year, most of the state is just going to be paying, and not receiving. We've got to take that into consideration. So my hope is to move forward Mr. Speaker, as if we are going to be able to look at the whole state, because the whole state is represented in this body. Seven million people are represented by us and my challenge to all of us is that we are going to be able to find those areas that we can unite, that we can do the best we can for the citizens of the state of Washington at all levels Mr. Speaker. I want to thank you so much for your service. Despite our differences, I truly enjoy working with you and my colleagues here, all 97 of you. You're actually a sharp looking bunch by the way, but I do enjoy working with all of you despite our differences. I would be remiss if I didn't acknowledge life happens away from this place. Former member Carol Gregory lost her husband right after the election, and my condolences, our condolences to her and her family. I've got a member, I know we are not supposed to name names, but Norm Johnson lost his son. Sometimes we can get so caught up in this legislative process, in this beautiful building, that we forget life is happening around here. So let's try and be patient with each other. Let's realize that real life is happening to us in the process of doing this job and with that Mr. Speaker lets move forward. 59 days and counting, right? Thank you very much."

The results of the motion are as follows: If determined in the negative, the consideration goes on as if the motion had never been made; if decided in the affirmative it shall have the effect of cutting off all debate and bringing the house to a direct vote upon the motion or amendment on which it has been ordered: PROVIDED HOWEVER, That when a bill is on final passage or when the motion to postpone indefinitely is pending, one of the sponsors of the bill or the chair of the committee may have the privilege of closing debate after the previous question has been ordered.

If an adjournment is had after the previous question is ordered, the motion or proposition on which the previous question was ordered shall be put to the house immediately following the approval of the journal on the next working day, thus making the main question privileged over all other business, whether new or unfinished.

The statement may not exceed fifty words and must be submitted to the chief clerk on the same day the member returns.

#### **Reconsideration**

**Rule 20.** Notice of a motion for reconsideration on the final passage of bills shall be made on the day the vote to be reconsidered was taken and before the house has voted to transmit the bill to the senate.

The motion to proceed with business under the call of the house and the motion to excuse absent members shall not be adopted unless a majority of the members elected vote in favor thereof. Committee members shall be selected by each party's caucus. Membership on appropriations subcommittees is restricted to the membership of the appropriations committee. The majority party caucus shall select all committee chairs.

**Duties of Committees**

**Rule 24.** House committees shall operate as follows:

(A) **NOTICE OF COMMITTEE MEETING.** The chief clerk shall make public the time, place and subjects to be discussed at committee meetings. All public hearings held by committees shall be scheduled at least five (5) days in advance and shall be given adequate publicity: PROVIDED, That when less than eight (8) days remain for action on a bill, the Speaker may authorize a reduction of the five-day notice period when required by the circumstances, including but not limited to the time remaining for action on the bill, the nature of the subject, and the number of prior hearings on the subject.

(B) COMMITTEE QUORUM. A majority of any committee shall constitute a quorum for the transaction of business.

(C) SESSION MEETINGS. No committee shall sit while the house is in session without special leave of the speaker.

(D) DUTIES OF STANDING COMMITTEES.

(1) Only such bills as are included on the written notice of a committee meeting may be considered at that meeting except upon the vote of a majority of the entire membership of the committee to consider another bill.

(2) A majority recommendation of a committee must be signed by a majority of the entire membership of the committee in a regularly called meeting before a bill, memorial, or resolution may be reported out: PROVIDED, That by motion under the eighth order of business, a majority of the members elected to the house may relieve a committee of a bill and place it on the second reading calendar.

Majority recommendations of a committee can only be "do pass," "do pass as amended," or that "the substitute bill be substituted therefor and that the substitute bill do pass."

(3) Members of the committee not concurring in the majority report may prepare a written minority report containing a recommendation of "do not pass" or "without recommendation," which shall be signed by those members of the committee subscribing thereto, and submitted with the majority report.

(4) All committee reports shall be spread upon the journal. The journal of the house shall contain an exact copy of all committee reports, together with the names of the members signing such reports.

(5) Every vote to report a bill out of committee shall be taken by the yeas and nays, and the names of the members voting for and against, as well as the names of members absent, shall be recorded on the committee report. Any member may call for a recorded vote, which shall include the names of absent members, on any substantive question before the committee. A copy of all recorded committee votes shall be kept by the chief clerk and shall be available for public inspection.

(6) All bills having a direct appropriation shall be referred to the appropriate fiscal committee before their final passage.

(7) No standing committee shall vote by secret written ballot on any issue.

(8) During its consideration of or vote on any bill, resolution, or memorial, the deliberations of any standing committee of the house of representatives shall be open to the public.

(9) A standing committee to which a bill was originally referred shall, prior to voting the bill out of committee, consider whether the bill authorizes rule-making powers or requires the exercise of rule-making powers and, if so, consider:

(a) The nature of the new rule-making powers; and

(b) To which agencies the new rule-making powers would be delegated and which agencies, if any, may have related rule-making powers.

(10) Standing committee subcommittees established in Rule 23 have the same powers and duties as standing committees.

(11) Insofar as practicable, testimony in public hearings should be balanced between those in support of and in opposition to proposed legislation, with consideration given to providing an opportunity for members of the public to testify within available time.

#### **Standing Committees - Expenses - Subpoena Power**

**Rule 25.** Regardless of whether the legislature is in session, members of the house may receive from moneys appropriated for the legislature, reimbursement for necessary travel expenses, and payments in lieu of subsistence and lodging for conducting official business of the house.

The standing committees of the house may have the powers of subpoena, the power to administer oaths, and the power to issue commissions for the examination of witnesses in accordance with the provisions of chapter 44.16 RCW. Before a standing committee of the house may issue any process, the committee chairperson shall submit for approval of the executive rules committee a statement of purpose setting forth the name or names of those subject to process. The process shall not be issued prior to approval by the executive rules committee. The process shall be limited to the named individuals.

#### **Vetoed Bills**

**Rule 26.** Veto messages of the governor shall be read in the house and entered upon the journal. It shall then be in order to proceed to reconsider the bill, refer it, lay it on the table, or postpone its consideration to a day certain.

The merits of the bill may be debated before the vote is taken, but the vote on a vetoed bill cannot be reconsidered.

In case of a bill containing several sections or items, one or more of which has been objected to by the governor, each section or item so objected to shall be voted upon separately by the house. Action by the house upon all vetoed bills shall be endorsed upon the bill and certified by the speaker.

Vetoed bills originating in the house, which have not been passed notwithstanding the veto of the governor, shall remain in the custody of the officers of the house until the close of the term, after which they shall be filed with the secretary of state.

#### **Suspension of Compensation**

**Rule 27.** (1) Any member of the house of representatives convicted and sentenced for any felony punishable by death or by imprisonment in a Washington state penal institution shall, as of the time of sentencing, be denied the legislative salary for future service and be denied per diem, compensation for expenses, office space facilities, and assistance. Any member convicted of a felony and sentenced therefor under any federal law or the law of any other state shall, as of the time of sentencing, be similarly denied such salary, per diem, expenses, facilities, and assistance if either (a) such crime would also constitute a crime punishable under the laws of Washington by death or by imprisonment in a state penal institution, or (b) the conduct resulting in the conviction and sentencing would also constitute a crime punishable under the laws of Washington by death or by imprisonment in a state penal institution.

(2) At any time, the house may vote by a constitutional majority to restore the salary, per diem, expenses, facilities,

and assistance denied a member under subsection (1). If the conviction of a member is reversed, then the salary, per diem, and expense amounts denied the member since sentencing shall be forthwith paid, and the member shall thereafter have the rights and privileges of other members.

#### **Smoking**

**Rule 28.** Smoking of cigarettes, pipes, or cigars shall not be permitted at any public meeting of any committee of the house of representatives or within House facilities.

"No smoking" signs shall be posted so as to give notice of this rule.

#### **Liquor**

**Rule 29.** The House of Representatives shall strictly adhere to the liquor laws of the state of Washington, including provisions relating to banquet and special occasion permits. The proper permits must always be obtained before consumption of liquor in any house facility.

#### **Parliamentary Rules**

**Rule 30.** The rules of parliamentary practice comprised in Reed's Parliamentary Rules shall govern all cases in which they are not inconsistent with the standing rules and orders of the house.

#### **Standing Rules Amendment**

Any standing rule may be suspended temporarily by a two-thirds (2/3) vote of the members present except as provided in Rule 10.

From the arid Snake River Canyon to the temperate rainforest of the western Olympic Peninsula. From the Salmon-Priest Wilderness Area to the Willapa National Wildlife Refuge. From Mount Adams to Mount Baker. From the Blues Mountains to the San Juan Islands. From the waves of grain on the Palouse to the waves of the ocean on the Pacific Coast. From the Spokane Valley to the Puget Sound. From the Columbia River’s entrance near Northport to its delta near Ilwaco.

You entrusted your world to us as a gift. Help us to care for it and all people, that we may live in right relationship--with You, with ourselves, with one another, and with creation.

You created human beings in your image and likeness. Help us to imitate your love for the human family by recognizing that we are all connected—to our brothers and sisters around our state, around our nation, around our world, and to past and future generations.

Giver of wisdom and love, You breathe life in us and guide us. Help us to hear the cry of those in need, and the cry of creation, so that we may care for our common home.

Help us as a state to be merciful as You are merciful. May all who live in poverty be nourished, sheltered, clothed, and cared for. May families be strengthened, and workers who support those families receive just compensation and treatment. May all children have access to a quality education. May the immigrant, refugee and unborn be welcomed. May the physically and mentally ill receive adequate medical care, and the healthy have access to preventative care. May the imprisoned be rehabilitated. May the elderly and vulnerable be revered and respected.

Help us to live according to your vision, stirring to action the hearts of all—individuals and families, communities of faith and good will, and civil and political leaders.

Spirit of God, In your goodness, guide those in authority. Bless our governor and the servants of our State who are engaged in the noble profession of legislation for the common good of all. Give them wisdom in all of their decision-making, so that people throughout our state may enjoy freedom, security and peace.

Amen.”

## STATE OF THE STATE

Governor Inslee: “Thank you, Father Werner, for those inspirational words.

Thank you to the Ballard High School Concert Choir for that beautiful rendition of our national anthem.

Mr. President, Mr. Speaker, Madam Chief Justice, distinguished justices of the court, honored officials, members of the Washington State Legislature, tribal leaders, local government officials, members of the Consular Corps and my fellow Washingtonians.

It is an honor to stand here once again to talk about the great state of Washington.

I consider it a tremendous privilege to serve as governor of the most innovative, most forward-thinking, most dynamic state in the nation.

And I couldn't do this job without the incredible support of the people who are constant reminders of why everything we do here matters: My family, especially my wife, Trudi, and my three grandchildren.

Since we all last met, we've celebrated some big moments in the state of Washington. I want to begin today by taking a moment to highlight some of these.

We witnessed a new milestone in space exploration. Remember those incredible photos of Pluto last year? We know how that spacecraft got there. Nine years ago, propulsion engineers over at Aerojet Rocketdyne in Redmond were working on the rockets for the New Horizons mission.

And now we're at the forefront with companies like Blue Origin and Space X. They've brought the future of space travel to our state, successfully launching — and landing — rockets over the past year. It's exciting these companies recognize that the greatest aerospace workers in the world are found right here in the state of Washington.

We saluted the accomplishments of educators like Jennifer Cullison, a science teacher from Woodland High School in Clark County. She was named a Claes Nobel Educator of the Year. Isn't it great this prestigious honor was given to one of our own outstanding, hard-working teachers? Please join me in recognizing her achievements.

We also celebrated the nation's oldest working registered nurse, SeeSee Rigney, who is still practicing at 90 years of age. If you want to be inspired, go see Nurse SeeSee making the rounds at Tacoma General Hospital, where she has worked for nearly 70 years.

We also had some sad moments over the past year. For me, one of those moments was when we said goodbye to Washington State University President Elson Floyd.

Elson was one of my most-trusted advisers. He played a key role in shaping my administration. I miss him. I know we all miss him. But his legacy will live on in our state's second medical school, a school that will carry his name.

We are honored to have Elson's widow, Carmenta Floyd, here with us today. Please join me in recognizing Carmenta and her contributions to education in our state.

We also lost a member of our Washington State National Guard in Afghanistan last week, Staff Sergeant Matthew McClintock. Our thoughts and prayers are with his family, especially his wife and infant son in Des Moines. Please join me in a moment of silence to honor his service and sacrifice.

Thank you.

One year ago, I stood here and said it was time to reinvest in ourselves, in our future and in our children's future. To do these things, we'd have to work in a bipartisan way. Let's be honest — that's not always easy.

But I'm happy to say that we did just that. We accomplished some big things last year in a bipartisan fashion, like transportation.

Back in the fall of 2014, there were those who thought we ought to just fix a few potholes and call it good.

But I didn't give up. And I continued working together with the House and Senate, with Republicans and Democrats, with business and labor. And together, we passed a \$16 billion package, the largest — and the greenest — transportation package in Washington state history.

We also authorized another \$15 billion for Sound Transit light rail expansion.

Not only will this help congestion, this package supports 200,000 family-wage jobs across our state.

We've been out formally kicking off these projects. I've been to Everett, I've been to Tacoma, and tomorrow, I'll be in Vancouver, celebrating the projects funded by this package. It's a great feeling. And we were able to get that done because we worked together.

Speaking of investments, let's talk about the most important investment we know we can make, and that's in our children. Last year we put an additional \$2.3 billion in early learning, K-12 and higher education funding in the budget on a bipartisan basis. Since 2013, education funding increased by 35 percent.

It is altogether fitting and proper we take a moment to recognize this incredible investment. We should be proud that we made the largest dollar-amount investment in education in Washington state history.

At the same time, no one should believe we're done. We have more work to do, and I'll talk about that in a moment. But we have taken major steps that will have major impacts for our kids.

We've given nearly 7,000 more children access to high-quality early learning over the past three years.

We've provided funding for every child to have all-day kindergarten. This and early learning were some of my highest priorities because they are critical educational opportunities that come along only once in the life of a child.

Of all the things we do, I believe this will have the most impact in our communities, and do the most to close the opportunity gap.

In our state, every single child deserves a great education in our public schools.

We've reduced class sizes in our kindergarten-through-third grade classrooms.

And because we know a high-quality teacher is the single most important asset in every classroom, we provided funding for more teacher mentoring opportunities, especially for new teachers.

And we were able to provide them with a cost-of-living adjustment — the first since 2008. It was a modest increase. I recognize that.

We also did something to make paying for college easier on family budgets.

Isn't it great we're the only state in the nation that passed a tuition cut last year?

Republicans had a great idea to do that. I gladly give them credit.

I also gladly give Democrats credit for coming in and saying we ought to cut tuition for everyone, including for students at our community and technical colleges. And together, we found a way to pay for that. That's something everyone here can celebrate.

And finally, we restored funding for one of our most precious public assets, our state parks. It is heartbreaking to have even considered having to close these parks.

You know, one day last year I stopped at Twanoh State Park on Hood Canal and there was a family there with a young kid, just playing in this little swim area. It took me back to my own childhood, when my dad and mom would throw us in the back of the station wagon and take us to Twanoh for the day.

Just knowing this tradition will continue is extremely gratifying, and it keeps with the spirit of one of our state's biggest outdoor recreation proponents, my friend, the late Doug Walker. Doug's deep love of Washington's wilderness will continue to be felt through the impact of his philanthropic efforts and his work on the Blue Ribbon Task Force on Parks and Outdoor Recreation. Our thoughts are with the Walker family as they mourn his recent passing.

Finally, we gave state employees their first wage increase since 2008, and I'd like to speak directly to them for a moment.

A lot of you are doing really great work. I was happy to finally be able to get you a modest raise.

Under my Results Washington initiative, our state has become a national leader in using performance management strategies to improve government. John Shook, who is known for being the godfather of Lean management in America, has told us that he believes Washington is at the very forefront of this effort. Thousands of you are showing the world how the public sector can use Lean thinking to manage growing workloads, increase efficiency and improve quality. I commend you for that.

Those of you on the front lines of our state agencies really do important work. Part of this effort is that we hold ourselves to the highest standards. So if the public trust is violated, we blow the whistle on it, and we provide absolute accountability. And that's what's happening with the sentencing errors that went on for 13 years at the Department of Corrections.

You are often the first ones to see when something is not working right. That's why you should feel empowered to bring these things to management's attention and know you are being heard. I expect all state employees, and especially your managers, to act responsibly in this regard, and you can expect those who do not to be held accountable.

We always have to remember that our core mission is serving the people of Washington. Every single thing we do ought to reflect that mission.

Now, I came into office focused on creating jobs and growing our economy. It's why I've pushed for these investments in education, in transportation, and in our quality of life. So let's look at how we're doing.

I'm pleased to report that Washington continues to rank in the top five states for job growth.

We have the fastest GDP growth in the nation, more than twice the national growth rate.

And over the past few years, Washington exports grew a whopping 20 percent — more than any other state. California, New York, Texas — we beat them all.

Look, I've been focused on jobs since I took office. So it's very gratifying to be able to say that we've added nearly a quarter million jobs since 2013.

There are 30,000 more people working in the building trades sector than there were three years ago. I'm so glad they are able to get up every day and go to good-paying jobs, building our economy.

Although our economic growth has not been uniform, we do know that unemployment in all our state's counties is now, for the first time in eight years, in the single digits.

Folks, there is a lot of good economic news in the state of Washington these days. And it means we're doing something right.

And we should have confidence, because we know what we've already achieved together the past three years.

So with all of us gathered here, I want to talk about what I think our business is for the next 60 days. Between now and March 10th, there are four things that must get done.

First, we have a serious statewide teacher shortage from Kennewick to Kent, from Yakima to Everett. All told, we need about 7,000 more teachers in our schools.

Now, I've proposed a way to do this. It's a small but important first step to address this very real problem.

To recruit and retain teachers, my plan would raise their beginning salary from just under \$36,000 to \$40,000 per year. Nearly 8,800 beginning teachers would see a raise next year under this proposal.

Then, to help make all teacher salaries more competitive, my plan also provides a minimum 1 percent raise to all other teachers. It also increases funding for our teacher mentoring program, so teachers in their first or second year on the job have the support they need and don't end up leaving the profession, which half are doing.

And I propose we pay for it through elimination of some tax breaks whose benefits simply do not outweigh our obligations to our students, to our teachers and to our schools.

For those who wonder how we're going to get this done, here's a reminder that we've done it before. In the past three years, we've closed tax breaks on a bipartisan basis that generate \$1.1 billion over six years. We did it because we had some critical needs in our state. We can do it again.

Because it doesn't matter if we have the best mentors for our teachers, or the smallest class sizes in the nation. If nobody is standing in front of the classroom, we have zip.

The second thing we need to focus on is last year's record-setting wildfires.

A million acres of our state were scorched — an area larger than the state of Delaware. More than 300 homes — primarily in Eastern Washington — were destroyed. And tragically, three firefighters lost their lives.

I've proposed using our Budget Stabilization Account to cover the \$180 million in costs related to battling these wildfires. It's exactly what these reserves were meant for.

Additionally, I've proposed using \$29 million from the Disaster Response Account to help communities recover from these devastating fires and to ensure we are better prepared for our next fire season.

The third thing we need to focus on is our mental health system. During the Great Recession, the state made devastating cuts to services for our most vulnerable, and we continue to be hobbled by those cuts.

While we have acted together to add more than \$700 million to our state's mental health system, we still have significant work to do.

It is not acceptable to let people with severe mental illness languish in our emergency rooms and jails.

In the last legislative session, we added hundreds of treatment beds, psychologists and psychiatrists, nurses and other staff to get people treated more quickly.

My December supplemental budget also included a number of investments to keep people out of our hospitals and keep them safely in their communities, with family and friends.

After all, only 3 percent of the people who access mental health services in this state go to our state hospitals. The other 97 percent are served in our communities, and we need to make sure that we have the appropriate services in place for them.

These aren't nameless, faceless people. They are our loved ones. They are our colleagues. They are our friends. We're talking about the elderly person with dementia, or the college freshman who experiences a psychotic break, or the wounded veteran with a traumatic brain injury. And we need to make sure they get the treatment to stabilize and help them.

This is why my budget proposal funds four new 16-bed crisis triage facilities and three new mobile crisis teams across the state to reach those in need.

But all the investments we've made require skilled staff to set them up and keep them running. Right now, we have a serious staffing shortage, particularly at our state psychiatric hospitals.

We need to ensure we have enough doctors, nurses, social workers and treatment staff so that everyone is safe — patients and staff.

These are investments we ought to have confidence in, because we know when people get the mental health treatment they need, they can improve dramatically. People walk out of Western State Hospital and go on to have great, productive lives.

So we have urgent short-term needs. But we also need to take the long view on how to organize and deliver a stronger mental health system for our citizens. That's why my budget includes funding for just this purpose.

Our aim is simple: timely access to high-quality treatment in the appropriate setting.

We've all known someone struggling with mental illness. Let's get this done for them this year.

Now, let's talk about our fourth pressing need. We need to put in place a framework for our future K-12 education investments. This is absolutely necessary this session.

We are on track. I convened a bipartisan group of legislators who met during the summer and fall to develop this framework for the next — and the most complex — part of our K-12 financing plan. Legislation has been introduced that contains the first step so we can be successful when we return next year.

I'm confident we'll take the second step next year because legislators have met every deadline they've set for themselves. Our next deadline requires the legislature to fully fund basic education in the 2017 legislative session, and there's no reason we can't do that too. We're not going to just fix a few potholes, we're going to finish the job. That means actually financing these critical investments so our kids and grandkids get the education they deserve.

And we are going to do this not just because it's a constitutional imperative, not just because it's a judicial decree, but because it's the right thing for our kids.

I also want to talk today about other issues that engage people beyond this chamber, and are important enough for a statewide conversation.

There are a variety of ways our state can move forward, and one way is the voters take things into their own hands through the initiative process.

First and foremost is the issue of working families not being able to keep up, even as our economy improves.

Our economy is not working for everyone. On the one hand, we have the biggest boomtown in North America. On the other hand, we have working families and communities falling behind even though they're working hard and doing a great job.

I'm seeing Washingtonians — hard-working people in every corner of this state — struggling with rising housing prices, with student loan debt, with medical bills.

That's why I'm supporting the initiative that was filed yesterday that phases in a true minimum wage and provides paid sick leave for hard-working Washingtonians.

I stand on this rock-solid belief: if you work 40 hours a week, you deserve a wage that puts a roof over your head and food on the table. Period. And you shouldn't have to give up a day's pay if you or your kids get sick.

But it is not just minimum-wage workers who are falling behind. The problem is most workers are not sharing in the fruits of their own increased productivity. Workers are producing more goods and services per hour than at any other time in our state's history.

In a nutshell: People are working harder, they're working longer hours and they're getting paid less in real dollars.

Now, this is not true for corporate executives. The CEO-to-worker pay ratio was 20-to-1 in 1965. Today it's more than 300-to-1.

Look, I'm fine paying for exceptional results and investing in talent. I believe in that. But I also believe that these gaps and practices should be transparent.

I think the State Investment Board can help.

As a shareholder in companies, the board currently votes against executive compensation packages if they do not align with the company's financial performance.

I've asked the investment board to go further, and exercise its voting authority to reduce the widening pay gap between CEOs and their workers.

I'm encouraging the board to promote this policy with other states and institutional investors.

Small steps like this can be the beginnings of bigger journeys. I started a different journey last week with my new executive order on public health and firearms.

More people in Washington are dying from firearm fatalities than even from traffic accidents. We have a public health crisis in need of a public health solution. Every single day, someone in our state dies from gun violence. We can and must find effective ways to reduce the rates of accidental shootings, gun crime and suicide by gun.

My executive order would strengthen the background check system approved by voters in 2014. It will also allow us to collect information that will drive smart, data-driven solutions to gun violence. And it implements the statewide Suicide Prevention Plan recommended by a task force I convened.

No matter how this conversation advances, these are important actions we can take now.

We also need to continue to take action on protecting our clean air and clean water, particularly from the threat of carbon pollution.

In my mind's eye, the older I get, the more beautiful Washington state becomes. Our verdant, healthy place for

our kids to grow up is just a wonder. So I'm glad the needle is moving on this because the problem of carbon pollution is not going away.

Everyone knows I'm a technology optimist about this. We need more of our homegrown leaders and innovators devising solutions.

I'm also heartened by the engagement we're getting from the business community as our Department of Ecology drafts its Clean Air Rule. People are robustly participating in the process. They're looking for solutions. I'm really excited about that progress, and invite anyone not yet involved to be part of this.

And in this effort, we know we're not alone. The world is moving on this, and so are we.

Three years ago, I stood up here as the newly inaugurated governor and said that as Washington moves forward, we need to remember who we are as a state.

Looking at what we've accomplished together, I believe we've stayed true to the values we cherish as Washingtonians.

We've remained confident in our ability to innovate, because we're continually recognized for the groundbreaking things our businesses and our universities are doing.

We've remained confident in the brightness of our future because we invested record amounts of money in our children's education — the truest measure of our commitment.

We've remained confident in the inclusiveness that built our economy and today is building our communities. Whether it's at big companies or at small businesses, we're one of the most successful economies in the world because we embrace diversity and welcome all people to our great state.

This is a confident state. It deserves a confident Legislature. It deserves a confident governor. And I have to tell you, as a fifth-generation Washingtonian, I stand here today with confidence.

I see the greatness of this state. I feel it. I believe it. It's who we are.

And that is how we're going to approach this session. Not with temerity. But with confidence. With recognition of the depths of our challenges, and with confidence that together we can solve them.

So now — together — let's get to work."

The President thanked the Governor for his remarks and asked the special committee to escort Governor Inslee from the House Chamber.

## SIXTY FOURTH LEGISLATURE - REGULAR SESSION

## TWELFTH DAY

The House was called to order at 9:55 a.m. by the Speaker (Representative Orwall presiding).

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

**MESSAGE FROM THE SECRETARY OF STATE****CERTIFICATION OF INITIATIVE TO THE LEGISLATURE NO. 732**

Pursuant to Article II, Section 1 of the Washington State Constitution, RCW 29A.72.230, and WAC 434-379-010, the Office of the Secretary of State has caused the signatures submitted in support of Initiative to the Legislature No. 732 to be examined in the following manner:

1. It was determined that 363,126 signatures were submitted by the sponsors of the initiative. A random sample of 11,061 signatures was taken from those submitted;
2. Each sampled signature was examined to determine if the signer was a registered voter of the state, if the signature was reasonably similar to the one appearing on the record of that voter, and if the same signature appeared more than once in the sample. We found 9,187 valid signatures, 1,837 signatures that were invalid and 37 pairs of duplicated signatures in the sample;
3. We calculated an allowance for the chance error of sampling (64) by multiplying the square root of the number of invalid signatures by 1.5;
4. We estimated the upper limit of the number of signatures on the initiative petition which were invalid (62,418) by dividing the sum of the number of invalid signatures in the sample and allowance for the chance of error of sampling by the sampling ratio;
5. We determined the maximum allowable number of duplicate pairs of signatures on the petition (54,336) by subtracting the sum of the number of signatures required by Article 11, Section 1 of the Washington State Constitution (246,372) and the estimate of the upper limit of the number of invalid signatures on the petition from the number of signatures submitted;
6. We determined the expected number of duplicate pairs of signatures in the sample (SO) by multiplying the square of the sampling ratio by the maximum allowable number of pairs of signatures on the initiative petition;
7. We determined the acceptable number of duplicate pairs of signatures in the sample (39) by subtracting 1.65 times the square root of the expected number of pairs of signatures in the sample from the expected number of pairs of signatures in the sample; and

House Chamber, Olympia, Friday, January 22, 2016

8. The number of duplicate pairs of signatures in the sample is less than the acceptable number of duplicate pairs of signatures in the sample.

Therefore, I hereby declare Initiative to the Legislature No. 732 to contain sufficient signatures.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Seal of the State of Washington this 21<sup>st</sup> day of January, 2016

Kim Wyman  
Secretary of State

(5) Neither an authorizer, individuals who comprise the membership of an authorizer in their official capacity, nor the employees of an authorizer are liable for acts or omissions of a charter school they authorize.

(6) No employee, trustee, agent, or representative of an authorizer may simultaneously serve as an employee, trustee, agent, representative, vendor, or contractor of a charter school under the jurisdiction of that authorizer.

**Sec. 911.** RCW 28A.710.110 and 2013 c 2 s 211 are each reenacted and amended to read as follows:

(1) The state board of education shall establish a statewide formula for an authorizer oversight fee, which ~~((shall))~~ must be calculated as a percentage of the state operating funding ~~((allocated))~~ distributed to charter schools under RCW 28A.710.220 to each charter school under the jurisdiction of an authorizer, but may not exceed four percent of each charter school's annual funding. ~~((The office of the superintendent of public instruction shall deduct the oversight fee from each charter school's allocation under RCW 28A.710.220 and transmit the fee to the appropriate authorizer.))~~

(2) The state board of education may establish a sliding scale for the authorizer oversight fee, with the funding percentage decreasing after the authorizer has achieved a certain threshold, such as after a certain number of years of authorizing or after a certain number of charter schools have been authorized.

(3) The office of the superintendent of public instruction shall deduct the oversight fee from each charter

school's distribution under RCW 28A.710.220 and transmit the fee to the appropriate authorizer.

(4) An authorizer must use its oversight fee exclusively for the purpose of fulfilling its duties under RCW 28A.710.100.

~~((4))~~ (5) An authorizer may provide contracted, fee-based services to charter schools under its jurisdiction that are in addition to the oversight duties under RCW 28A.710.100. An authorizer may not charge more than market rates for the contracted services provided. An authorizer may not require a charter school ~~((may not be required))~~ to purchase contracted services ~~((from))~~ provided by an authorizer. Fees collected by the authorizer under this subsection must be separately accounted for and reported annually to the state board of education.

**Sec. 912.** RCW 28A.710.120 and 2013 c 2 s 212 are each reenacted and amended to read as follows:

(1) The state board of education is responsible for overseeing the performance and effectiveness of all authorizers approved under RCW 28A.710.090.

(2) Persistently unsatisfactory performance of an authorizer's portfolio of charter schools, a pattern of well-founded complaints about the authorizer or its charter schools, or other objective circumstances may trigger a special review by the state board of education.

(3) In reviewing or evaluating the performance of authorizers, the state board of education must apply nationally recognized principles and standards for quality charter authorizing. Evidence of material or persistent failure by an authorizer to carry out its duties in accordance with ~~((the))~~ these principles and standards constitutes grounds for revocation of the authorizing contract by the state board of education, as provided under this section.

(4) If at any time the state board of education finds that an authorizer is not in compliance with a charter contract, its authorizing contract, or the authorizer duties under RCW 28A.710.100, the board must notify the authorizer in writing of the identified problems, and the authorizer ~~((shall))~~ must have reasonable opportunity to respond and remedy the problems.

(5) If ~~((an authorizer persists))~~, after due notice from the state board of education, an authorizer persists in violating a material provision of a charter contract or its authorizing contract, or fails to remedy other identified authorizing problems, the state board of education shall notify the authorizer, within a reasonable amount of time under the circumstances, that it intends to revoke the authorizer's chartering authority unless the authorizer demonstrates a timely and satisfactory remedy for the violation or deficiencies.

(6) In the event of revocation of any authorizer's chartering authority, the state board of education shall manage the timely and orderly transfer of each charter contract held by that authorizer to another authorizer in the state, with the mutual agreement of each affected charter school and proposed new authorizer. The new authorizer shall assume the existing charter contract for the remainder of the charter term.

(7) The state board of education must establish timelines and a process for taking actions under this section in response to performance deficiencies by an authorizer.

**Sec. 913.** RCW 28A.710.130 and 2013 c 2 s 213 are each reenacted and amended to read as follows:

(1)(a) Each authorizer must annually issue and broadly publicize a request for proposals for charter school applicants by the date established by the state board of education under RCW 28A.710.140.

(b) Each authorizer's request for proposals must:

(3) In the case of ~~((an application to establish))~~ a conversion charter school, the applicant must also demonstrate support for the proposed conversion ~~((by))~~ through a petition signed by either a majority of teachers assigned to the school or ~~((a petition signed by))~~ a majority of parents of students in the school.

(4) ~~((In the case of an application where the proposed charter school))~~ If an applicant intends to contract with a nonprofit education service provider for substantial educational services, management services, or both, the applicant must:

(a) Provide evidence of the nonprofit education service provider's success in serving student populations similar to the targeted population, including demonstrated academic

achievement as well as successful management of nonacademic school functions if applicable;

(b) Provide a term sheet setting forth: (i) The proposed duration of the service contract; (ii) the roles and responsibilities of the governing board, the school staff, and the service provider; (iii) the scope of services and resources to be provided by the service provider; (iv) performance evaluation measures and timelines; (v) the compensation structure, including clear identification of all fees to be paid to the service provider; (vi) methods of contract oversight and enforcement; (vii) investment disclosure; and (viii) conditions for renewal and termination of the contract; and

(5) ~~(In the case of an application from)~~ If an applicant ~~((that))~~ operates one or more schools in any state or nation, the applicant must provide evidence of ~~((past))~~ the performance of those schools, including evidence of the applicant's success in serving at-risk students, and capacity for growth.

(6) Applicants may submit a proposal for a particular ~~((public))~~ charter public school to no more than one authorizer at a time.

**Sec. 914.** RCW 28A.710.140 and 2013 c 2 s 214 are each reenacted and amended to read as follows:

(1) The state board of education must establish an annual statewide timeline for charter application submission and approval or denial ~~((, which))~~ that must be followed by all authorizers.

(2) In reviewing and evaluating charter applications, authorizers shall employ procedures, practices, and criteria consistent with nationally recognized principles and standards for quality charter authorizing. Authorizers shall give preference to applications for charter schools that are designed to enroll and serve at-risk student populations ~~((: PROVIDED, That))~~. However, nothing in this chapter may be construed as intended to limit the establishment of charter schools to those that serve a substantial portion of at-risk students, or to in any manner restrict, limit, or discourage the establishment of charter schools that enroll and serve other pupil populations under a nonexclusive, nondiscriminatory admissions policy. The application review process must include thorough evaluation of each application, an in-person interview with the applicant group, and an opportunity to learn about and provide input on each application in a public forum including, without limitation, parents, community members, local residents, and school district board members and staff ~~((, to learn about and provide input on each application))~~.

(3) In deciding whether to approve an application, authorizers must:

(a) Grant charters only to applicants that have demonstrated competence in each element of the authorizer's published approval criteria and are likely to open and operate a successful ~~((public))~~ charter public school;

(b) Base decisions on documented evidence collected through the application review process;

(c) Follow charter-granting policies and practices that are transparent and based on merit; and

(d) Avoid any conflicts of interest, whether real or apparent.

(4) An approval decision may include, if appropriate, reasonable conditions that the charter applicant must meet before a charter contract may be executed.

(5) For any denial of an application, the authorizer shall clearly state in writing its reasons for denial. A denied applicant may subsequently reapply to that authorizer or apply to another authorizer in the state.

**Sec. 915.** RCW 28A.710.150 and 2013 c 2 s 215 are each reenacted and amended to read as follows:

(1) A maximum of forty ~~((public))~~ charter public schools may be established under this chapter ~~((;))~~ over ~~((a))~~ the five-year period commencing with the effective date of this section. No more than eight charter schools may be established in any ~~((single))~~ year during the five-year period, except that if in any ~~((single))~~ year fewer than eight charter schools are established, ~~((then))~~ additional charter schools, equal in number to the difference between the number established in that year and eight, may be established in subsequent years during the five-year period.

(2) (a) To ensure compliance with the limits for establishing new charter schools, certification from the state board of education must be obtained before final authorization of a charter school.

(b) Within ten days of taking action to approve or deny an application under RCW 28A.710.140, an authorizer must submit a report of the action to the applicant and ~~((;))~~ the state board of education ~~((, which))~~. The report must include a copy of the authorizer's resolution setting forth the action taken, the reasons for the decision, and assurances of compliance with the procedural requirements and application elements under RCW 28A.710.130 and 28A.710.140. The authorizer must also indicate whether the charter school is designed to enroll and serve at-risk student populations. The state board of education must establish, for each year in which charter schools may be authorized as part of the timeline to be established pursuant to RCW 28A.710.140, the ~~((last))~~ latest annual date by which the authorizer ~~((must))~~ may submit the report. The state board of education must send to each authorizer notice of the date ~~((to each authorizer no later than))~~ by which a report must be submitted at least six months before the date established by the board.

(3) Upon the receipt of notice from an authorizer that a charter school has been approved, the state board of education shall certify whether the approval is in compliance with the limits on the maximum number of charters allowed under subsection (1) of this section. If the board receives simultaneous notification of approved charters that exceed the annual allowable limits in subsection (1) of this section, the board must select approved charters for implementation through a lottery process, and must assign implementation dates accordingly.

(4) The state board of education must notify authorizers when the maximum allowable number of charter schools has been reached.

**Sec. 916.** RCW 28A.710.160 and 2013 c 2 s 216 are each reenacted and amended to read as follows:

(1) The purposes of the charter application submitted under RCW 28A.710.130 are to present the proposed charter school's academic and operational vision and plans, and to demonstrate and provide the authorizer with a clear basis for evaluating the applicant's capacities to execute the proposed

vision and plans. An approved charter application does not serve as the school's charter contract.

(2) Within ninety days of approval of a charter application, the authorizer and the governing board of the approved charter school must execute a charter contract. The contract must establish the terms by which ~~(fundamentally,)~~ the ~~((public))~~ charter school agrees to provide educational services that, at a minimum, meet basic education standards, in return for ~~((an allocation))~~ a distribution of public funds ~~((to))~~ that will be used for ~~((such))~~ the purposes ~~((all as set forth))~~ established in the contract and in this and other applicable statutes ~~((and in the charter contract))~~. The charter contract must clearly set forth the academic and operational performance expectations and measures by which the charter school will be ~~((judged))~~ evaluated and the administrative relationship between the authorizer and charter school, including each party's rights and duties. The performance expectations and measures set forth in the charter contract must include, but need not be limited to, applicable federal and state accountability requirements. The performance provisions may be refined or amended by mutual agreement after the charter school is operating and has collected baseline achievement data for its enrolled students.

(3) If the charter school is authorized by a school district board of directors, the charter contract must be signed by the president of the applicable school district board of directors ((if the school district board of directors is the authorizer or the chair of the commission if the commission is the authorizer and by)) and the president of the charter school board. If the charter school is authorized by the commission, the charter contract must be signed by the chair of the commission and the president of the charter school board. Within ten days of executing a charter contract, the authorizer must submit to the state board of education written notification of the charter contract execution, including a copy of the executed charter contract and any attachments.

(4) A charter contract may govern one or more charter schools to the extent approved by the authorizer. A single charter school board may hold one or more charter contracts. However, each charter school that is part of a charter contract must be separate and distinct from any others and, for purposes of calculating the maximum number of charter schools that may be established under this chapter, each charter school must be considered a single charter school regardless of how many charter schools are governed under a particular charter contract.

(5) An initial charter contract must be granted for a term of five operating years. The contract term must commence on the charter school's first day of operation. An approved charter school may delay its opening for one school year in order to plan and prepare for the school's opening. If the school requires an opening delay of more than one school year, the school must request an extension from its authorizer. The authorizer may grant or deny the contract extension depending on the school's circumstances.

(6) Authorizers may establish reasonable preopening requirements or conditions to monitor the start-up progress of newly approved charter schools ~~((and))~~, ensure that they are prepared to open smoothly on the date agreed, and ~~((to))~~

ensure that each school meets all building, health, safety, insurance, and other legal requirements for school opening.

(7) No charter school may commence operations without a charter contract executed in accordance with this section.

(8) In accordance with section 938(4) of this act:

(a) The state board of education must take all reasonable and necessary steps to provide parties to contracts entered into under or in accordance with chapter 2, Laws of 2013 that were in effect on December 1, 2015, with an opportunity to reexecute the contracts with the same terms and duration or substantially the same terms and duration as were in effect on December 1, 2015; and

(b) Each authorizer must take all reasonable and necessary steps to provide parties to contracts entered into under or in accordance with chapter 2, Laws of 2013 that were in effect on December 1, 2015, with an opportunity to reexecute the contracts with the same terms and duration or substantially the same terms and duration as were in effect on December 1, 2015.

(9) Contracts executed pursuant to subsection (8) of this section do not count against the annual cap established in RCW 28A.710.150(1).

(10) For purposes of this section, "substantially the same terms and duration" includes contract modifications necessary to comply with the provisions of this chapter or other applicable law.

**Sec. 917.** RCW 28A.710.170 and 2013 c 2 s 217 are each reenacted and amended to read as follows:

(1) The performance provisions within a charter contract must be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures, and metrics that will guide an authorizer's evaluations of ~~((each))~~ a charter school within its jurisdiction.

(2) At a minimum, the performance framework must include indicators, measures, and metrics for:

- (a) Student academic proficiency;
- (b) Student academic growth;
- (c) Achievement gaps in both proficiency and growth between major student subgroups;
- (d) Attendance;
- (e) Recurrent enrollment from year to year;
- (f) High school graduation rates and student postsecondary readiness~~((for high schools))~~;
- (g) Financial performance and sustainability; and
- (h) Charter school board performance and stewardship, including compliance with all applicable laws, rules, and terms of the charter contract.

(3) Annual performance targets must be set by each charter school in conjunction with its authorizer and must be designed to help each school meet applicable federal, state, and authorizer expectations.

(4) The authorizer and charter school may also include additional rigorous, valid, and reliable indicators in the performance framework to augment external evaluations of the charter school's performance.

(5) The performance framework must require the disaggregation of all student performance data by major student subgroups, including gender, race and ethnicity, poverty status, special education status, English language learner status, and highly capable status.

(6) Multiple schools operating under a single charter contract or overseen by a single charter school board must report their performance as separate schools, and each school shall be held independently accountable for its performance.

**Sec. 918.** RCW 28A.710.180 and 2013 c 2 s 218 are each reenacted and amended to read as follows:

(1) Each authorizer must continually monitor the performance and legal compliance of the charter schools (~~(# oversees)~~) under its jurisdiction, including collecting and analyzing data to support ongoing evaluation according to the performance framework in the charter contract.

(2) An authorizer may conduct or require oversight activities that enable the authorizer to fulfill its responsibilities under this chapter, including conducting appropriate inquiries and investigations, (~~(so long as)~~) if those activities are consistent with the intent of this chapter, adhere to the terms of the charter contract, and do not unduly inhibit the autonomy granted to charter schools.

(3) In the event that a charter school's performance or legal compliance appears unsatisfactory, the authorizer must promptly notify the school of the perceived problem and provide reasonable opportunity for the school to remedy the problem(~~(, unless)~~). However, if the problem warrants revocation (~~(in which case)~~) of the charter contract, the revocation procedures under RCW 28A.710.200 apply.

(4) An authorizer may take appropriate corrective actions or exercise sanctions short of revocation in response to apparent deficiencies in charter school performance or legal compliance. (~~(Such)~~) These actions or sanctions may include, if warranted, requiring a school to develop and execute a corrective action plan within a specified time frame.

**Sec. 919.** RCW 28A.710.190 and 2013 c 2 s 219 are each reenacted and amended to read as follows:

(1) A charter contract may be renewed by the authorizer, at the request of the charter school, for successive five-year terms(~~(, although)~~). The authorizer, however, may vary the term based on the performance, demonstrated capacities, and particular circumstances of a charter school, and may grant renewal with specific conditions for necessary improvements to a charter school.

(2) No later than six months before the expiration of a charter contract, the authorizer must issue a performance report and charter contract renewal application guidance to (~~(that)~~) the charter school. The performance report must summarize the charter school's performance record to date based on the data required by the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the charter school that may, if not timely rectified, jeopardize its position in seeking renewal (~~(if not timely rectified)~~). The charter school has thirty days to respond to the performance report and submit any corrections or clarifications for the report.

(3) The renewal application guidance must, at a minimum, provide an opportunity for the charter school to:

(a) Present additional evidence, beyond the data contained in the performance report, supporting its case for charter contract renewal;

(b) Describe improvements undertaken or planned for the school; and

(c) Detail the school's plans for the next charter contract term.

(4) The renewal application guidance must include or refer explicitly to the criteria that will guide the authorizer's renewal decisions, (~~(which shall)~~) and this criteria must be based on the performance framework set forth in the charter contract.

(5) In making charter renewal decisions, an authorizer must:

(a) (~~(Ground)~~) Base its decisions in evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(b) Ensure that data used in making renewal decisions are available to the school and the public; and

(c) Provide a public report summarizing the evidence basis for its decision.

**Sec. 920.** RCW 28A.710.200 and 2013 c 2 s 220 are each reenacted and amended to read as follows:

(1) An authorizer may revoke a charter contract (~~(may be revoked)~~) at any time, or (~~(not renewed)~~) may refuse to renew it, if the authorizer determines that the charter school did any of the following or otherwise failed to comply with the provisions of this chapter:

(a) Committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under this chapter or the charter contract;

(b) Failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) Failed to meet generally accepted standards of fiscal management; or

(d) Substantially violated any material provision of law from which the charter school is not exempt.

(2) Except as provided otherwise by this subsection (2), an authorizer may not renew a charter contract (~~(may not be renewed)~~) if, at the time of the renewal application, the charter school's performance falls in the bottom quartile of schools on the (~~(accountability)~~) Washington achievement index developed by the state board of education under RCW 28A.657.110(~~(, unless)~~). A contract may be renewed without violating this subsection (2), however, if the charter school demonstrates exceptional circumstances that the authorizer finds justifiable.

(3) Each authorizer must develop revocation and nonrenewal processes that:

(a) Provide the charter school board with a timely notification of the prospect of and reasons for revocation or nonrenewal;

(b) Allow the charter school board a reasonable amount of time in which to prepare a response;

(c) Provide the charter school board with an opportunity, at a recorded public proceeding held for that purpose, to submit documents and give testimony challenging the rationale for closure and in support of the continuation of the school (~~(at a recorded public proceeding held for that purpose)~~);

(d) Allow the charter school board to be represented by counsel and to call witnesses on its behalf; and

(e) After a reasonable period for deliberation, require a final determination to be made and conveyed in writing to the charter school board.

(4) If an authorizer revokes or does not renew a charter contract, the authorizer must clearly state in a resolution the reasons for the revocation or nonrenewal.

(5) Within ten days of taking action to renew, not renew, or revoke a charter contract, an authorizer must submit a report of the action to the ~~((applicant))~~ charter school and ~~((to))~~ the state board of education ~~((, which))~~. The report must include a copy of the authorizer's resolution setting forth the action taken, the reasons for the decision, and assurances of compliance with the procedural requirements established by the authorizer under this section.

**Sec. 921.** RCW 28A.710.210 and 2013 c 2 s 221 are each reenacted and amended to read as follows:

(1) Before making a decision to not renew or to revoke a charter contract, an authorizer ~~((s))~~ must develop a charter school termination protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, as necessary, and proper disposition of public school funds, property, and assets. The protocol must specify tasks, timelines, and responsible parties, including delineating the respective duties of the charter school and the authorizer.

(2) ~~((In the event that))~~ If the nonprofit corporation ~~((applicant))~~ operator of a charter school should dissolve for any reason including, without limitation, because of the termination of the charter contract, the public school funds of the charter school that have been provided pursuant to RCW 28A.710.220 must be returned to the state or local account from which the public funds originated. If the charter school has commingled the funds, the funds must be returned in proportion to the proportion of those funds received by the charter school from the public accounts in the last year preceding the dissolution. The dissolution of ~~((an applicant))~~ a nonprofit corporation shall otherwise proceed as provided by law.

(3) A charter contract may not be transferred from one authorizer to another or from one charter school ~~((applicant))~~ to another before the expiration of the charter contract term except by petition to the state board of education by the charter school or its authorizer. The state board of education must review such petitions on a case-by-case basis and may grant transfer requests in response to special circumstances and evidence that such a transfer would serve the best interests of the charter school's students.

**Sec. 922.** RCW 28A.710.220 and 2013 c 2 s 222 are each reenacted and amended to read as follows:

(1) Charter schools must report student enrollment in the same manner, and based on the same definitions of enrolled students and annual average full-time equivalent enrollment, as other public schools. Charter schools must comply with applicable reporting requirements to receive state or federal funding that is ~~((allocated))~~ distributed based on student characteristics.

(2) ~~((According to the schedule established under RCW 28A.510.250, the superintendent of public instruction shall allocate funding for a charter school including general apportionment, special education, categorical, and other nonbasic education moneys. Allocations must be based on the statewide average staff mix ratio of all noncharter public schools from the prior school year and the school's actual full-time equivalent enrollment. Categorical funding must be~~

~~allocated to a charter school based on the same funding criteria used for noncharter public schools and the funds must be expended as provided in the charter contract. A charter school is eligible to apply for state grants on the same basis as a school district))~~ In accordance with appropriations made under sections 927 and 928 of this act, the superintendent of public instruction shall distribute state funding to charter schools according to the schedule established in RCW 28A.510.250.

(3) ~~((Allocations for pupil transportation must be calculated on a per student basis based on the allocation for the previous school year to the school district in which the charter school is located. A charter school may enter into a contract with a school district or other public or private entity to provide transportation for the students of the school.~~

~~((4))~~ Amounts ~~((payable))~~ distributed to a charter school under this section in the school's first year of operation must be based on the projections of first-year student enrollment established in the charter contract. The office of the superintendent of public instruction must reconcile the amounts ~~((paid))~~ distributed in the first year of operation to the amounts that would have been ~~((paid))~~ distributed based on actual student enrollment and make adjustments to the charter school's ~~((allocations))~~ distributions over the course of the second year of operation.

~~((5))~~ For charter schools authorized by a school district board of directors, allocations to a charter school that are included in RCW 84.52.0531(3) (a) through (c) shall be included in the levy planning, budgets, and funding distribution in the same manner as other public schools in the district.

~~((6))~~ Conversion charter schools are eligible for local levy moneys approved by the voters before the conversion start-up date of the school as determined by the authorizer, and the school district must allocate levy moneys to a conversion charter school.

~~((7))~~ New charter schools are not eligible for local levy moneys approved by the voters before the start-up date of the school unless the local school district is the authorizer.

~~((8))~~ For levies submitted to voters after the start-up date of a charter school authorized under this chapter, the charter school must be included in levy planning, budgets, and funding distribution in the same manner as other public schools in the district.

~~((9))~~ (4) Any moneys received by a charter school from any source and remaining in the school's accounts at the end of ~~((any))~~ a budget year ~~((shall))~~ must remain in the school's accounts for use by the school during subsequent budget years.

**Sec. 923.** RCW 28A.710.230 and 2013 c 2 s 223 are each reenacted and amended to read as follows:

(1) Charter schools are eligible for state ~~((matching funds))~~ funding for ~~((common))~~ school construction. However, such appropriations may not be made from the common school construction fund.

(2) ~~((A))~~ If a school district decides to sell or lease the public school facility or property pursuant to RCW 28A.335.040 or 28A.335.120, a charter school ~~((has))~~ located within the boundaries of the district has a right of first refusal to purchase or lease at ~~((or below))~~ fair market value a closed public school facility or property or unused portions of a public school facility or property ~~((located in a~~

### SPEAKER'S RULING

Mr. Speaker (Representative Moeller presiding): "In ruling upon the point of order that the amendment is outside the scope and object of the underlying bill, the Speaker finds and rules as follows:

The title of Fourth Substitute House Bill 1541 is "An act relating to implementing strategies to close the educational opportunity gap, based on the recommendations of the educational opportunity gap oversight and accountability committee." The entire bill is related only to recommendations made by the Educational Opportunity Gap Oversight and Accountability Committee. None of those recommendations or provisions of this bill involve any aspect of charter schools, which is the subject of the amendment at issue. The flags were escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Adama James and Jonathan Holder. The Speaker (Representative Moeller presiding) led the Chamber in the Pledge of Allegiance. The prayer was offered by Pastor Keith Wilson, Hood Canal Community Church, Hoodspport, Washington.

**SPEAKER'S PRIVILEGE**

**MESSAGE FROM THE SECRETARY OF STATE****CERTIFICATION OF INITIATIVE TO THE LEGISLATURE NO. 735**

Pursuant to Article II, Section 1 of the Washington State Constitution, RCW 29A.72.230, and WAC 434-379-010, the Office of the Secretary of State has caused the signatures submitted in support of Initiative to the Legislature No. 735 to be examined in the following manner:

1. It was determined that 333,040 signatures were submitted by the sponsors of the initiative. A random sample of 10,124 signatures was taken from those submitted;
2. Each sampled signature was examined to determine if the signer was a registered voter of the state, if the signature was reasonably similar to the one appearing on the record of that voter, and if the same signature appeared more than once in the sample. We found 8,895 valid signatures, 1,209 signatures that were invalid and 20 pairs of duplicated signatures in the sample;
3. We calculated an allowance for the chance error of sampling (52) by multiplying the square root of the number of invalid signatures by 1.5;
4. We estimated the upper limit of the number of signatures on the initiative petition which were invalid (41,487) by

dividing the sum of the number of invalid signatures in the sample and allowance for the chance of error of sampling by the sampling ratio;

5. We determined the maximum allowable number of duplicate pairs of signatures on the petition (45,181) by subtracting the sum of the number of signatures required by Article 11, Section 1 of the Washington State Constitution (246,372) and the estimate of the upper limit of the number of invalid signatures on the petition from the number of signatures submitted;

6. We determined the expected number of duplicate pairs of signatures in the sample (42) by multiplying the square of the sampling ratio by the maximum allowable number of pairs of signatures on the initiative petition;

7. We determined the acceptable number of duplicate pairs of signatures in the sample (31) by subtracting 1.65 times the square root of the expected number of pairs of signatures in the sample from the expected number of pairs of signatures in the sample; and

8. The number of duplicate pairs of signatures in the sample is less than the acceptable number of duplicate pairs of signatures in the sample.

Therefore, I hereby declare Initiative to the Legislature No. 735 to contain sufficient signatures.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Seal of the State of Washington this 26<sup>th</sup> day of January, 2016.

Mark Neary  
Assistant Secretary of State

There being no objection, the House advanced to the fourth order of business.

**Enacting the equal pay opportunity act by amending and enhancing enforcement of the equal pay act and protecting worker communications about wages and employment opportunities.**

The bill was read the second time.

Representative Short moved the adoption of amendment (605):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1. INTENT.** According to census bureau data, forty percent of households in the United States rely on a woman as the leading or sole breadwinner. In addition, women hold a significant percentage of minimum wage jobs. Income disparities limit the ability of women to provide for their families, leading to higher rates of poverty among women and children.

The legislature finds that in order to establish equality among workers, men and women in the same job must be compensated as equals. The legislature finds that gaps in employee wages is a form of gender discrimination. Policies that encourage retaliation or discipline towards workers who discuss or inquire about compensation prevent workers from moving forward.

The legislature intends to update the existing Washington state equal pay act, not modified since 1943, to address income disparities, employer discrimination, and retaliation practices, and to reflect the equal status of all workers in Washington state.

**NEW SECTION. Sec. 2. DEFINITIONS.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Compensation" means discretionary and nondiscretionary wages and benefits provided by an employer to an employee as a result of the employment relationship.

(2) "Department," "director," "employee," and "employer" have the same meaning as defined in RCW 49.12.005.

**Sec. 3.** RCW 49.12.175 and 1943 c 254 s 1 are each amended to read as follows:

**EQUAL PAY OPPORTUNITY.**

(1) Any employer in this state(~~(-employing both males and females, who shall discriminate in any way in the payment of wages as between sexes or who shall pay any female a less wage, be it time or piece work, or salary, than is being paid to males)) who discriminates in providing compensation based on gender between individuals similarly employed(~~(-or in any employment formerly performed by males, shall be))~~ is guilty of a misdemeanor.~~

(2)(a) If any ((female)) employee ((shall)) receives less compensation because of being discriminated against on account of ((her sex, and)) gender in violation of this section, ((she shall be)) that employee is entitled to recover in a civil action the full amount of compensation that

((she)) the employee would have received had ((she)) the employee not been discriminated against. An employee is entitled to recover any actual damages, plus statutory damages equal to the amount of actual damages or five thousand dollars, whichever is greater, and costs and reasonable attorneys' fees. In addition, the court may order injunctive relief. In such action, however, the employer shall be credited with any compensation which has been paid to ((he#) the employee upon account.

(b) A differential in ((wages between employees)) compensation or employment opportunities based in good faith on a bona fide job-related factor or factors ((other than sex shall)), including but not limited to education, training, or experience, that is not based on gender, unless the differential is otherwise permitted by law, does not constitute discrimination within the meaning of ((RCW 49.12.010 through 49.12.180)) this section.

**NEW SECTION. Sec. 4. WORKPLACE PRACTICES.** (1) An employer may not:

(a) Require nondisclosure by an employee of his or her wages as a condition of employment; or

"**Sec. 18.** RCW 35.18.020 and 2015 c 53 s 32 are each amended to read as follows:

(1) The number of councilmembers in a city or town operating with a council-manager plan of government shall be based upon the latest population of the city or town that is determined by the office of financial management as follows:

(a) A city or town having not more than two thousand inhabitants, five councilmembers; and

(b) A city or town having more than two thousand, seven councilmembers.

(2) Except for the initial staggering of terms, if applicable, councilmembers shall serve for four-year terms of office. All councilmembers shall serve until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280. Councilmembers may be elected on a citywide or townwide basis, or from wards or districts, or any combination of these alternatives. Candidates shall run for specific positions. Wards or districts shall be redrawn as provided in chapter 29A.76 RCW. Wards or districts shall be used as follows: (a) Only a resident of the ward or district may be a candidate for, or hold office as, a councilmember of the ward or district; and (b) only voters of the ward or district may vote at a primary to nominate candidates for a councilmember of the ward or district. Voters of the entire city or town may vote at the general election to elect a councilmember of a ward or district, unless the city or town ~~((had prior to January 1, 1994, limited))~~ council has adopted an ordinance or the voters of the city or town have approved an initiative limiting the voting in the general election for any or all council positions to only voters residing within the ward or district associated with the council positions. ((If a city or town had so limited the voting in the general election to only voters residing within the ward or district, then the city or town shall be authorized to continue to do so.))

(3) When a city or town has qualified for an increase in the number of councilmembers from five to seven by virtue of the next succeeding population determination made by the office of financial management, two additional council positions shall be filled at the next municipal general election ~~((with))~~. If the voting at the election includes voters of the entire city and if the council positions are to be staggered terms, the person elected to one of the new council positions receiving the greatest number of votes ~~((being elected for))~~ shall serve a four-year term of office, and the person elected to the other additional council position ~~((being elected for))~~ shall serve a two-year term of office. The two additional councilmembers shall assume office immediately when qualified in accordance with RCW 29A.04.133, but the term of office shall be computed from the first day of January after the year in which they are

elected. Their successors shall be elected to four-year terms of office. The city or town may redistrict and create seven wards by ordinance or, if authorized, voter initiative, and conduct the appointment and election of the new councilmembers within the wards.

Prior to the election of the two new councilmembers, the city or town council shall fill the additional positions by appointment not later than forty-five days following the release of the population determination, and each appointee shall hold office only until the new position is filled by election.

(4) When a city or town has qualified for a decrease in the number of councilmembers from seven to five by virtue of the next succeeding population determination made by the office of financial management, two council positions shall be eliminated at the next municipal general election if four council positions normally would be filled at that election, or one council position shall be eliminated at each of the next two succeeding municipal general elections if three council positions normally would be filled at the first municipal general election after the population determination. The council shall by ordinance indicate which, if any, of the remaining positions shall be elected at-large or from wards or districts. The city or town may redistrict and create five wards by ordinance or, if authorized, voter initiative, and conduct the appointment and election of the new councilmembers within the wards.

(5) Vacancies on a council shall occur and shall be filled as provided in chapter 42.12 RCW.

(6) Any city or town may by ordinance or, if authorized, voter initiative, adopt a voting system for voters of the entire city or town at the general election for multiple council positions to:

(a) Limit the selection of candidates to fewer candidates than there are council positions to elect;

(b) Cumulate the number of votes a voter is entitled to cast for each council position, and to cast the total number of votes in favor of a single candidate or to distribute the total number of votes among multiple candidates; or

(c) Vote in a single transferable voting system where voters rank each candidate in order of preference, with their vote counting towards the highest ranked candidate, and preferences allocated among other candidates who are not elected on first place votes.

(7) If a city or town adopts a multiple council position alternative voting system described in subsection (6) of this section up to one hundred eighty days before a general election, it may subject any affected unexpired position to new elections at the next general election.

**Sec. 19.** RCW 35.23.051 and 2015 c 53 s 39 are each amended to read as follows:

General municipal elections in second-class cities shall be held biennially in the odd-numbered years and shall be subject to general election law.

The terms of office of the mayor, city attorney, clerk, and treasurer shall be four years and until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280: PROVIDED, That if the offices of city attorney, clerk, and treasurer are made appointive, the city attorney, clerk, and treasurer shall not be appointed for a definite term: PROVIDED FURTHER, That the term of the elected treasurer shall not commence in the same

biennium in which the term of the mayor commences, nor in which the terms of the city attorney and clerk commence if they are elected.

Council positions shall be numbered in each second-class city so that council position seven has a two-year term of office and council positions one through six shall each have four-year terms of office. Each councilmember shall remain in office until a successor is elected and qualified and assumes office in accordance with RCW 29A.60.280.

In its discretion the council of a second-class city may divide the city by ordinance, into a convenient number of wards, not exceeding six, fix the boundaries of the wards, and change the ward boundaries from time to time and as provided in RCW 29A.76.010. No change in the boundaries of any ward shall be made within one hundred twenty days next before the date of a general municipal election, nor within twenty months after the wards have been established or altered. However, if a boundary change results in one ward being represented by more councilmembers than the number to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant.

Whenever such city is so divided into wards, the city council shall designate by ordinance the number of councilmembers to be elected from each ward, apportioning the same in proportion to the population of the wards. Thereafter the councilmembers so designated shall be elected by the voters resident in such ward, or by general vote of the whole city as may be designated in such ordinance. Council position seven shall not be associated with a ward and the person elected to that position may reside anywhere in the city and voters throughout the city may vote at a primary to nominate candidates for position seven, when a primary is necessary, and at a general election to elect the person to council position seven. Additional territory that is added to the city shall, by act of the council, be annexed to contiguous wards without affecting the right to redistrict at the expiration of twenty months after last previous division. The removal of a councilmember from the ward for which he or she was elected shall create a vacancy in such office.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. **Sec. 20.** RCW 35.23.850 and 2015 c 53 s 41 are each amended to read as follows:

In any city initially classified as a second-class city prior to January 1, 1993, that retained its second-class city plan of government when the city reorganized as a noncharter code city, the city council may divide the city into wards, not exceeding six in all, or change the boundaries of existing wards at any time less than one hundred twenty days before a municipal general election. No change in the boundaries of wards shall affect the term of any councilmember, and councilmembers shall serve out their terms in the wards of their residences at the time of their elections. However, if these boundary changes result in one ward being represented by more councilmembers than the number to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant and shall serve until a ward resident is elected.

The representation of each ward in the city council shall be in proportion to the population as nearly as is practicable.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city ~~((had prior to January 1, 1994, limited))~~ council has adopted an ordinance or, if authorized, the voters of the city have approved an initiative limiting the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. ~~((If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so.))~~ The elections for ~~((the))~~ any remaining council position or council positions that are not associated with a ward shall be conducted as if the wards did not exist.

**NEW SECTION. Sec. 21.** A new section is added to chapter 35.23 RCW to read as follows:

(b) Cumulate the number of votes a voter is entitled to cast for each council position, and to cast the total number of votes in favor of a single candidate or to distribute the total number of votes among multiple candidates; or

(c) Vote in a single transferable voting system where voters rank each candidate in order of preference, with their vote counting towards the highest ranked candidate, and preferences allocated among other candidates who are not elected on first place votes.

The term of the treasurer shall not commence in the same biennium in which the term of the mayor commences. Candidates for the city council shall run for specific council positions. The staggering of terms of city officers shall be established at the first election, where the simple majority of the persons elected as councilmembers receiving the greatest numbers of votes shall be elected to four-year terms of office and the remainder of the persons elected as councilmembers and the treasurer shall be elected to two-year terms of office. Thereafter, all elected city officers shall be elected for four-year terms and until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280.

(3) An unclassified city may adopt a voting system for multiple council positions in accordance with section 4 of this act, and may eliminate the staggered terms of council positions in order to implement such a multiple council position voting system. **"NEW SECTION. Sec. 30.** A new section is added to chapter 43.10 RCW to read as follows:

(1) It is an unfair practice for any employer:

(a) To fail or refuse to make reasonable accommodation for an employee for pregnancy, childbirth, or a pregnancy-related health condition including, but not limited to, the need to express breast milk, unless the employer can demonstrate that doing so would impose an undue hardship on the employer's program, enterprise, or business, subject to subsection (2) of this section;

(b) To take adverse action against an employee who requests or uses an accommodation under this section that affects the terms, conditions, or privileges of employment;

(c) To deny employment opportunities to an otherwise qualified employee if such denial is based on the employer's need to make reasonable accommodation required by this section;

(d) To require an employee to take leave if another reasonable accommodation can be provided for the employee's pregnancy, childbirth, or pregnancy-related health condition, unless the employee declines to accept the accommodation offered in lieu of taking leave; or

(e) To require an employee who is pregnant, has a condition related to childbirth, or has a pregnancy-related health condition to accept an accommodation that the person chooses not to accept.

(2)(a) Except as provided in (b) of this subsection, an employer may request that the employee provide written certification from her treating health care professional regarding the need for reasonable accommodation if the need for reasonable accommodation is not apparent to a reasonable person.

(b) An employer may not require an employee to provide written certification, and the employer may not claim undue hardship, for the following accommodations:

(i) Longer, more frequent, or flexible restroom, food, or water breaks;

(ii) Seating;

(iii) Limits on lifting over twenty pounds; and

(iv) Flexible scheduling to accommodate for prenatal and postnatal health care visits.

"Reasonable accommodation" includes, but is not limited to:

(a) Allowing for time off to recover from childbirth;

(b) Acquiring or modifying equipment or an employee's work station;

(c) Providing for a temporary transfer to a less strenuous or less hazardous position;

(d) Providing assistance with manual labor; and

(e) Modifying work schedules.

(4)(a) This section does not require an employer to create additional employment that the employer would not otherwise have created, unless the employer does so or would do so for other classes of employees who need accommodation.

(b) This section does not require an employer to discharge any employee, transfer any employee with more seniority, or promote any employee who is not qualified to perform the job, unless the employer does so or would do so to accommodate other classes of employees who need accommodation.

(5) This section does not preempt, limit, diminish, or otherwise affect any other provision of law relating to sex discrimination or pregnancy, or in any way diminish or limit the coverage for a condition related to pregnancy, childbirth, or a pregnancy-related health condition.

(6) The attorney general shall investigate complaints and enforce this section. In addition to the complaint process with the attorney general, any person deeming himself or herself injured by any act in violation of this section shall have a civil cause of action in court to enjoin further violations, or to recover the actual damages sustained by the person, or both, together with the cost of suit including reasonable attorneys' fees or any other appropriate remedy authorized by state or federal law."

The employee must provide written notice to the employer stating that a health condition related to pregnancy or childbirth requires accommodation.

(2) Notwithstanding subsection (1) of this section, an employee who is pregnant or has a health condition

related to pregnancy or childbirth shall not be required to obtain the advice of her licensed health care provider, nor may an employer claim undue hardship, for the following accommodations: (a) More frequent, longer, or flexible restroom, food, and water breaks; (b) seating; and (c) limits on lifting over twenty pounds.

(3) The employee and employer shall engage in an interactive process with respect to an employee's request for a reasonable accommodation. The department of labor and industries shall include information in the "Your Rights as a Worker" poster, or similar required workplace poster, regarding these respective rights and responsibilities.

(4) Notwithstanding any other provision of this section, an employer shall not be required to create a new or additional position in order to accommodate an employee pursuant to this section, and shall not be required to discharge any employee, transfer any other employee with greater seniority, or promote any employee.

(5) An employer shall not require an employee who has a pregnancy-related or childbirth-related health condition to accept an accommodation, if such accommodation is unnecessary to enable the employee to perform her job.

(6) An employer shall not:

(a) Take adverse action against an employee who requests or uses an accommodation under this section that affects the terms, conditions, or privileges of employment;

(b) Deny employment opportunities to an otherwise qualified employee if such denial is based on the employer's need to make reasonable accommodation required by this section; or

(c) Require an employee to take leave if another reasonable accommodation can be provided for the employee's pregnancy-related or childbirth-related health condition.

(7) This section does not preempt, limit, diminish, or otherwise affect any other provision of law relating to sex discrimination or pregnancy, or in any way diminish or limit the coverage for pregnancy, childbirth, or a pregnancy-related health condition.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Employee" means an individual employed by an employer.

(b) "Employer" means a person engaged in an industry who has fifteen or more employees for each working day in each of twenty or more calendar weeks in the current or preceding calendar year, except that this section does not apply to an entity that is exempt from federal taxation under U.S.C. Title 26, section 501(c).

(c) "Reasonable accommodation" means:

(i) Making existing facilities used by employees readily accessible to and usable by employees who have a pregnancy-related or childbirth-related disability;

(ii) Job restructuring, part-time or modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices, appropriate adjustment or modifications of examinations;

(iii) Temporary transfer to a less strenuous or hazardous position; and

(iv) Limits on heavy lifting.

(d) "Undue hardship" means an action requiring significant difficulty or expense, when considered in light of the following factors:

- (i) The nature and cost of the accommodation needed;
- (ii) The overall financial resources of the facility or facilities involved in the provision of the reasonable accommodation; the number of persons employed by the employer; the effect on expenses and resources; or the impact otherwise of such accommodation upon the employer;
- (iii) The overall financial resources of the employer; the overall size of the business, including the number of employees; and the number, type, and location of its facilities; and
- (iv) The type of operation or operations of the employer, including the composition, structure, and functions of the workforce of such employer, the geographic separateness, and administrative or fiscal relationship of the facility or facilities in question to the employer.

(9) The attorney general shall investigate complaints and enforce this section. Prior to filing a civil cause of action, a person aggrieved by a violation of this section must file a complaint with the attorney general. The attorney general shall investigate to determine if there has been compliance with this section. If the investigation indicates there is evidence that a violation may have occurred, the attorney general shall issue a written determination stating that a violation may have occurred. If the investigation indicates that there is insufficient evidence that a violation has occurred, the attorney general shall issue a written determination stating that there is insufficient evidence to determine whether a violation has occurred. The attorney general's determination constitutes the final administrative action, but a person may seek judicial review of the determination. A person aggrieved by a violation of this section may pursue a civil cause of action in court only after exhausting the administrative remedy provided under this subsection.

(ii) Are between the ages of eighteen and twenty-one and have not graduated from high school.

Students and the students' parents or guardians shall also be notified of the requirements for award of the scholarship.

(3)(a) To be eligible for a Washington college bound scholarship, a student eligible under subsection (1)(a) of this section must sign a pledge during seventh or eighth grade that includes a commitment to graduate from high school with at least a C average and with no felony convictions. The pledge must be witnessed by a parent or guardian and forwarded to the office of student financial assistance by mail or electronically, as indicated on the pledge form.

(b)(i) Beginning in the 2016-17 academic year, the office of student financial assistance shall make multiple attempts to secure the signature of the student's parent or guardian for the purpose of witnessing the pledge.

(ii) If the signature of the student's parent or guardian is not obtained, the office of student financial assistance may partner with the school counselor or administrator to secure the parent's or guardian's signature to witness the pledge. The school counselor or administrator shall make multiple attempts via all phone numbers, email addresses, and mailing addresses on record to secure the parent's or guardian's signature.

(iii) If a parent's or guardian's signature is still not obtained, the school counselor or administrator shall indicate to the office of student financial assistance the nature of the unsuccessful efforts to contact the student's parent or guardian and the reasons the signature is not available. (c) A student eligible under subsection (1)(b) of this section shall be automatically enrolled, with no action necessary by the student or the student's family, and the enrollment form must be forwarded by the department of social and health services to the ~~((higher education coordinating board or its successor))~~ office of student financial assistance by mail or electronically, as indicated on the form.

(4)(a) Scholarships shall be awarded to eligible students graduating from public high schools, approved private high schools under chapter 28A.195 RCW, or who received home-based instruction under chapter 28A.200 RCW.

(5) A student's family income will be assessed upon graduation before awarding the scholarship.

(6) If at graduation from high school the student's family income does not exceed sixty-five percent of the state median family income, scholarship award amounts shall be as provided in this section.

(a) For students attending two or four-year institutions of higher education as defined in RCW 28B.10.016, the value of the award shall be (i) the difference between the student's tuition and required fees, less the value of any state-funded grant, scholarship, or waiver assistance the student receives; (ii) plus five hundred dollars for books and materials.

(b) For students attending private four-year institutions of higher education in Washington, the award amount shall be the representative average of awards granted to students in public research universities in Washington or the representative average of awards granted to students in public research universities in Washington in the 2014-15 academic year, whichever is greater.

(7) Recipients may receive no more than four full-time years' worth of scholarship awards.

(8) Institutions of higher education shall award the student all need-based and merit-based financial aid for which the student would otherwise qualify. The Washington college bound scholarship is intended to replace unmet need, loans, and, at the student's option, work-study award before any other grants or scholarships are reduced.

(9) The first scholarships shall be awarded to students graduating in 2012.

(10) The state of Washington retains legal ownership of tuition units awarded as scholarships under this chapter until the tuition units are redeemed. These tuition units shall remain separately held from any tuition units owned under chapter 28B.95 RCW by a Washington college bound scholarship recipient.

(11) The scholarship award must be used within five years of receipt. Any unused scholarship tuition units revert to the Washington college bound scholarship account.

(12) Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the scholarship tuition units shall revert to the Washington college bound scholarship account.

(5) Develop comprehensive social media outreach with grade-level specific information designed to keep students on track to graduate and leverage current tools such as the high school and beyond plan required by the state board of education and the ready set grad web site maintained by the student achievement council;

(6) Track scholarship recipients to ensure continued eligibility and determine student compliance for awarding of scholarships;

(7) Within existing resources, collaborate with college access providers and K-12, postsecondary, and youth-serving organizations to map and coordinate mentoring and advising resources across the state;

## SIXTY FOURTH LEGISLATURE - REGULAR SESSION

**POINT OF PERSONAL PRIVILEGE**

Representative Haler: "This is a great day for science. In the city of Richland, which is about 10 miles from the doorstep of my home, we have a facility called the laser interferometer gravitational observatory, LIGO. They made the headlines in the Wall Street Journal today, about two months ago they announced tentatively that they detected gravitational waves. Now a gravitational wave is only one-one thousandth the size of a proton, these gravitational waves that they detected are 1.3 billion light years away from our planet. That is equivalent of looking at a human hair from our closest star. If you could see that. The project itself cost 1.1 billion dollars nationwide for the last forty years, but this is such a great exploration that in proving this, they proved that time and space can be warped and that opens the door for a lot of imagination of how you can travel through space eventually. And Einstein's theory seems inapplicable but it really is coming home today. And I want to congratulate the great scientists from Cal Tech, MIT, and the National Science Foundation, who operate the facility, and my seatmate and I toured the facility and they were predicting that they would in October detect gravitational waves and they did and I think they deserve great thanks from this body as well as from this state for showing that we are the center for science in this state. Thank you Madam Speaker."

**Prohibiting certain limitations on the hosting of the homeless by religious organizations. (REVISED FOR ENGROSSED: Concerning the hosting of the homeless by religious organizations. )**

The bill was read the second time.

Representative McBride moved the adoption of amendment (641):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 6.** The legislature finds that residents in temporary encampments hosted by religious organizations are a particularly vulnerable population that do not have access to the same services as citizens with more stable housing. Residents in these encampments can be at increased risk of exploitation, theft, unsanitary living conditions, and physical harm. Therefore, it is the intent of the legislature that local municipalities have the authority and discretion to protect the health and safety of residents in temporary encampments hosted by religious organizations. Furthermore, the legislature finds and declares that tent encampments serve as a pathway for individuals experiencing homelessness to achieve financial stability, health, and permanent housing.

**Sec. 7.** RCW 36.01.290 and 2010 c 175 s 2 are each amended to read as follows:

(1) A religious organization may host temporary encampments for the homeless on property owned or controlled by the religious organization whether within buildings located on the property or elsewhere on the property outside of buildings.

(2) A county may not enact an ordinance or regulation or take any other action that:

(a) Imposes conditions other than those necessary to protect public health and safety and that do not substantially burden the decisions or actions of a religious organization regarding the location of housing or shelter for homeless persons on property owned by the religious organization;

(b) Requires a religious organization to obtain insurance pertaining to the liability of a municipality with respect to homeless persons housed on property owned by a religious organization or otherwise requires the religious organization to indemnify the municipality against such liability; ~~((#))~~

(c) Imposes permit fees in excess of the actual costs associated with the review and approval of the required permit applications;

(d) Limits a religious organization's availability to host a rotating, established tent encampment to fewer than eight months during any calendar year. However, a county may enact an ordinance or regulation that requires a three-month separation of time between established tent encampments;

(e) Limits a religious organization's hosting term to fewer than four months unless consented to by that religious organization for a specific instance;

(f) Limits the number of simultaneous religious organization hostings within the same municipality to one religious organization hosting during any given period of time. Simultaneous hostings by religious organizations may be prohibited if located within one thousand feet of other hosting religious organizations; or

(g) Limits a religious organization's availability to host safe parking efforts at its on-site parking lot, including limitations on any other church-sponsored uses and the parking available to support such uses during the hosting, except for limitations that are in accord with the following criteria that would govern if enacted by local ordinance:

(i) No less than one space may be devoted to safe parking per twenty on-site parking spaces;

(ii) Restroom access must be provided either within the buildings on the property or through use of portable facilities;

(iii) The host religious organization must ensure that the county sheriff has completed sex offender checks of all vehicle residents and must act as managing agency to inform vehicle residents how to comply with laws regarding the legal status of vehicles and drivers, and provide a written code of conduct consistent with area standards.

(3) A county must enact an ordinance or regulation or take any other action that requires a hosting religious organization and the managing agency, when the managing agency is not the hosting religious organization, to enter into a written agreement to protect the public health and safety of both the residents of the tent encampments and the residents of the county. At a minimum, the agreement must include information regarding: A tent encampment resident's right to seek public health and safety assistance, ability to access social services on site, ability to directly interact with the hosting religious organization, including the ability to express any concerns regarding the managing agency; a written code of conduct agreed to by the managing agency and hosting religious organization, as approved by the local jurisdiction; and the ability for the hosting religious organization to interact with residents of the tent encampment.

(4) Hosting religious organizations and tent encampment managing agencies are encouraged to work with the county to utilize Washington's homeless client management information system, as provided for in RCW 43.185C.180.

Representative Stanford moved the adoption of amendment (691):

Strike everything after the enacting clause and insert the following:

**NEW SECTION. Sec. 1.** The legislature finds that:

(1) Water is a finite resource, yet clean and plentiful water is essential to both healthy communities and ecosystems. Making better use of our existing water supplies will help ensure that more water remains available for agriculture, instream flows and fish, homes and businesses, and for other socially productive purposes;

(2) Plumbing fixtures, including faucets, showerheads, toilets, and urinals, are a major year-round source of water use;

(3) Water-efficient plumbing fixtures perform as well or better than standard models and save money on water and sewer bills for the state's families, businesses, schools, and local governments;

(4) Besides saving water and reducing a customer's costs, water efficiency offers other benefits:

(a) Substantial energy savings from more efficient faucets and showerheads;

(b) Less wastewater that requires collection, treatment, and disposal; and

(c) Less pollution from treated wastewater in our streams and waterways;

(5) Current Washington codes adopt nationally recognized performance and water efficiency standards by which plumbing fixtures and fitting efficiencies are measured. While Washington has not updated its water conservation standards since 1993, the current state building and plumbing codes do include standards that apply to defined types of plumbing fixtures "high efficiency toilet," "dual flush toilet," and "single flush toilet"; and

(6) The state building code council adopts and maintains the state building code and accordingly requires standards in terms of performance and nationally accepted standards. The state building code council regularly reviews updated versions of the model codes that comprise the state building code, and adopts and amends the state building code in a manner that is consistent with the state's interests as prescribed by law.

**Sec. 2.** RCW 90.54.180 and 2007 c 445 s 9 are each amended to read as follows:

Consistent with the fundamentals of water resource policy set forth in this chapter, state and local governments, individuals, corporations, groups and other entities shall be encouraged to carry out water use efficiency and conservation programs and practices consistent with the following:

(1) Water efficiency and conservation programs should utilize an appropriate mix of economic incentives, cost share programs, regulatory programs, and technical and public information efforts. Programs which encourage voluntary participation are preferred. Programs should also consider the water efficiency standards established in RCW 19.27.170 and should prioritize gaps that are not covered by state efficiency standards or rules and that possess substantial potential for water conservation achievements.

(2) Increased water use efficiency and reclaimed water should receive consideration as a potential source of water

in state and local water resource planning processes. In determining the cost-effectiveness of alternative water sources, consideration should be given to the benefits of conservation, waste water recycling, and impoundment of waters. Where reclaimed water is a feasible replacement source of water, it shall be used by state agencies and state facilities for nonpotable water uses in lieu of the use of potable water. For purposes of this requirement, feasible replacement source means (a) the reclaimed water is of adequate quality and quantity for the proposed use; (b) the proposed use is approved by the departments of ecology and health; (c) the reclaimed water can be reliably supplied by a local public agency or public water system; and (d) the cost of the reclaimed water is reasonable relative to the costs of conservation or other potentially available supplies of potable water, after taking into account all costs and benefits, including environmental costs and benefits.

(3) In determining the cost-effectiveness of alternative water sources, full consideration should be given to the benefits of storage which can reduce the damage to stream banks and property, increase the utilization of land, provide water for municipal, industrial, agricultural, and other beneficial uses, provide for the generation of electric power from renewable resources, and improve streamflow regimes for fishery and other instream uses.

(4) Entities receiving state financial assistance for construction of water source expansion or acquisition of new sources shall develop, and implement if cost-effective, a water use efficiency and conservation element of a water supply plan pursuant to RCW 43.20.230(1).

(5) State programs to improve water use efficiency should focus on those areas of the state in which water is overappropriated; areas that experience diminished streamflows or aquifer levels; regional areas that the governor has identified as high priority for investments in improved water quality and quantity, including the Spokane river, the Columbia river basin, and the Puget Sound; areas most likely to be affected by global warming; and areas where projected water needs, including those for instream flows, exceed available supplies.

(6) Existing and future generations of citizens of the state of Washington should be made aware of the importance of the state's water resources and the need for wise and efficient use and development of this vital resource. In order to increase this awareness, state agencies should integrate public information programs on increasing water use efficiency into existing public information efforts. This effort shall be coordinated with other levels of government, including local governments and Indian tribes.

**Sec. 3.** RCW 19.27.170 and 1991 c 347 s 16 are each amended to read as follows:

(1) The state building code council shall adopt rules under chapter 34.05 RCW, not later than during the 2018 code adoption period and to become effective by no later than July 1, 2019, that implement and incorporate the water conservation performance standards in this subsection and subsections (4) and (5) of this section. These standards shall apply to all new construction and all remodeling involving replacement of plumbing fixtures in all residential, hotel, motel, school, industrial, commercial use, or other occupancies determined by the council to use significant quantities of water.

(2) ~~((The legislature recognizes that a phasing in approach to these new standards is appropriate. Therefore, standards in subsection (4) of this section shall take effect on July 1, 1990. The standards in subsection (5) of this section shall take effect July 1, 1993.))~~ By July 1, 2018, all fixtures, fittings, and toilets sold, offered for sale, or distributed in the state shall meet the requirements of subsection (4) of this section, except the following:

- (a) Toilets used by children in day care facilities;
- (b) Toilets used in bariatric applications;
- (c) Toilets used in a correctional facility as defined in RCW 72.09.015 and juvenile confinement facilities pursuant to RCW 13.04.030; and
- (d) Toilets used in any state hospital established under RCW 72.23.020, any psychiatric unit of a hospital licensed under chapter 70.41 RCW, any licensed service provider licensed under chapter 71.24 RCW, or any evaluation and treatment facility as defined in RCW 71.05.020.

(3)(a) No individual, public or private corporation, firm, political subdivision, government agency, or other legal entity may, for purposes of use in this state, distribute, sell, offer for sale, import, install, or approve for installation any plumbing fixtures unless the fixtures meet the standards as provided for in this section.

(b) If a retailer is able to show proof that a product prohibited for sale under this subsection was in stock and physically in the retail location before the effective date of this section, that retail location may sell that product until it is depleted, or until January 1, 2019.

(4)(a) Standards for water use efficiency effective by no later than July 1, ~~((1990))~~ 2019.

Representative Cody moved the adoption of amendment (685):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 4.** (1) The legislature finds that the availability and use of nicotine vapor inhalation products, such as e-cigarettes, e-devices, and vape pens, have increased dramatically in recent years, and that the use of such products has become commonplace in this state on the part of both adults and youth. The low cost of e-cigarettes and nicotine liquids for vapor products, as compared to cigarettes, is a key factor with respect to the popularity of such products. Despite the increasing popularity of vapor products and the resultant rapid expansion of the vapor products market, commerce in such products is wholly unregulated at the state level and is not subject to the legal requirements regarding youth access, public health disclosures, licensing, or taxation, applicable to commerce in cigarettes and other tobacco products.

(2) The potential public health risks posed by vapor products are many-faceted, and include nicotine addiction, liquid nicotine poisoning, the potential inhalation of carcinogens and toxic substances, and the adverse effects of nicotine on adolescent brain development. When exposed to heat, the nicotine solutions used in vapor products can generate a range of chemical byproducts that may have adverse health consequences when inhaled. The specific chemistry of the liquid nicotine solutions used in vapor products is not standardized and neither manufacturers nor retailers are required to disclose the chemical contents of the solutions. Consumers, therefore, have no way of determining exactly what substances they are inhaling or what the health consequences of such inhalation might be.

(3) When absorbed through the skin liquid nicotine may be toxic to both adults and children. In Washington, poison center calls related to vapor products have increased from

two in 2010 to one hundred forty-four in the first nine months of 2014, ninety-seven of which involved children. Of the calls involving children, eighty-four percent were one to three years old. However, due to the current lack of regulation, vapor product manufacturers, distributors, and retailers are not subject to labeling and advertising requirements or other regulations designed to provide consumers with product safety warnings or other health-related information.

(4) The current easy access to vapor products is particularly problematic with respect to teenagers. A study conducted by the Centers for Disease Control and Prevention (CDC) reported that in 2013 more than a quarter of a million youth who had never smoked a cigarette had used vapor products. The CDC also noted that in 2011 this number was seventy-nine thousand, which increased to more than two hundred sixty-three thousand in 2013, thus reflecting a more than threefold increase in the number of youth using vapor products during this three-year period. Such statistics underscore the urgent need for the creation of a comprehensive regulatory framework governing commerce in vapor products, especially with respect to restricting access to such products by children and teenagers.

(5) It is well-understood that the ability to make rational decisions regarding risky behaviors such as smoking cigarettes and drinking alcohol is less developed in teenagers as compared to adults, and our legal system has traditionally responded by protecting teenagers from such risks through the restriction or prohibition of teen involvement in such activities. As is the case with commerce in cigarettes and alcohol, the vapor products market requires regulatory oversight that focuses upon preventing children and teenagers from accessing and using products that can cause addiction and other adverse health consequences.

(6) In order to ensure that youth access to vapor products is subject to comprehensive regulatory controls, it is imperative that the statutory framework for the regulation of vapor products includes a prohibition on the shipment or transportation of vapor products purchased at retail through the internet. Simply requiring motor carrier delivery companies to verify the age of the customer at the time of delivery is not an option, insofar as the United States supreme court has ruled that such state-imposed age verification procedures are preempted by federal laws regulating the services that may be provided by motor carriers. Furthermore, allowing consumers to make vapor products purchases via the internet would make it all but impossible to ensure that vapor products purchased by state residents meet state legal standards regarding child-resistant packaging and public health disclosure requirements. Accordingly, a complete ban on internet sales is the least restrictive, and most practical, means of preventing minors from making illegal purchases and ensuring that vapor products meet state packaging and product disclosure standards.

(7) Although it is clear that commerce in vapor products should be subject to stringent regulatory controls, the development of a regulatory framework must be tempered by an awareness of the potential for creating an illegal black market in vapor products. If regulatory measures related to licensing and taxation unduly restrict the development of the market, and thus cause extreme increases in retail prices,

then the stage will be set for the emergence of a black market similar to that experienced by the cigarette industry.

(8) The legislature finds, therefore, that this act is necessary to protect the public health, safety, and welfare by preventing youth from having access to addictive vapor products, ensuring that consumers have accurate information about potentially dangerous products, and protecting the public from nicotine poisoning.

**Sec. 5.** RCW 26.28.080 and 2013 c 47 s 1 are each amended to read as follows:

(1) ~~((Every))~~ A person who sells or gives, or permits to be sold or given, to ~~((any))~~ a person under the age of eighteen years any cigar, cigarette, cigarette paper or wrapper, tobacco in any form, or a vapor product is guilty of a gross misdemeanor.

(2) ~~It ~~((shall be no))~~ is not a~~ defense to a prosecution for a violation of this section that the person acted, or was believed by the defendant to act, as agent or representative of another.

(3) For the purposes of this section, "vapor product" ~~((means a noncombustible tobacco derived product containing nicotine that employs a mechanical heating element, battery, or circuit, regardless of shape or size, that can be used to heat a liquid nicotine solution contained in cartridges. Vapor product does not include any product that is regulated by the United States food and drug administration under chapter V of the federal food, drug, and cosmetic act))~~ has the same meaning as provided in RCW 70.155.010.

**Sec. 24.** RCW 70.155.130 and 1993 c 507 s 14 are each amended to read as follows:

(1) This chapter preempts political subdivisions from adopting or enforcing requirements for the licensure and regulation of tobacco product promotions and sales within retail stores, except that political subdivisions that have adopted ordinances prohibiting sampling by January 1, 1993, may continue to enforce these ordinances. No political subdivision may:

~~((1))~~ (a) Impose fees or license requirements on retail businesses for possessing or selling cigarettes or tobacco products, other than general business taxes or license fees not primarily levied on tobacco products; or

~~((2))~~ (b) Regulate or prohibit activities covered by RCW 70.155.020 through 70.155.080. This chapter does not otherwise preempt political subdivisions from adopting ordinances regulating the sale, purchase, use, or promotion of tobacco products not inconsistent with chapter 507, Laws of 1993.

(2) This chapter does not preempt political subdivisions from adopting ordinances regulating the sale, purchase, use, or promotion of vapor products, provided such ordinances are consistent with the provisions of this chapter and the administrative rules adopted by the board, and do not have the effect of prohibiting the sale, purchase, promotion, or reasonable use of vapor products. Any such ordinances must not create regulatory provisions that are more restrictive than those imposed on the commercial sale or personal use of tobacco products.

**NEW SECTION. Sec. 25.** A new section is added to chapter 70.155 RCW to read as follows:

The board, in consultation with the department, may adopt rules to implement and enforce the requirements of this chapter.

**NEW SECTION. Sec. 26.** A new section is added to chapter 70.155 RCW to read as follows:

(1) The licenses issuable by the board under this chapter are as follows:

- (a) A vapor product distributor's license; and
- (b) A vapor product retailer's license.

(2) Application for the licenses must be made through the business licensing system under chapter 19.02 RCW. The board may adopt rules regarding the regulation of the

licenses. The board may refuse to issue any license under this chapter if the board has reasonable cause to believe that the applicant has willfully withheld information requested for the purpose of determining the eligibility of the applicant to receive a license, or if the board has reasonable cause to believe that information submitted in the application is false or misleading or is not made in good faith. In addition, for the purpose of reviewing an application for a distributor's license or retailer's license and for considering the denial, suspension, or revocation of any such license, the board may consider criminal conduct of the applicant, including an administrative violation history record with the board and a criminal history record information check within the previous five years, in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions, and the provisions of RCW 9.95.240 and chapter 9.96A RCW do not apply to such cases. The board may, in its discretion, issue or refuse to issue the distributor's license or retailer's license, subject to the provisions of section 30 of this act.

(3) No person may qualify for a distributor's license or a retailer's license under this section without first undergoing a criminal background check. The background check must be performed by the board and must disclose any criminal conduct within the previous five years in any state, tribal, or federal jurisdiction in the United States, its territories, or possessions. If the applicant or licensee also has a license issued under chapter 66.24, 82.24, or 82.26 RCW, the background check done under the authority of chapter 66.24, 82.24, or 82.26 RCW satisfies the requirements of this subsection.

(4) Each license issued under this chapter expires on the business license expiration date. The license must be continued annually if the licensee has paid the required fee and complied with all the provisions of this chapter and the rules of the board adopted pursuant to this chapter.

(5) Each license and any other evidence of the license required under this chapter must be exhibited in each place of business for which it is issued and in the manner required for the display of a business license.

(6) License issuances and renewals are subject to board authority and the rules adopted under the board including, but not limited to, rights of cities, towns, county legislative authorities, the public, churches, schools, and public institutions that object to or prevent issuance of licenses.

**NEW SECTION. Sec. 27.** A new section is added to chapter 70.155 RCW to read as follows:

(1)(a) No person may engage in or conduct business as a distributor or retailer in this state without a valid license issued under this chapter, except as otherwise provided by law. Any person who sells vapor products to persons other than ultimate consumers or who meets the definition of "distributor" under this chapter must obtain a distributor's license under this chapter. Any person who sells vapor products to ultimate consumers must obtain a retailer's license under this chapter.

(b) A violation of this subsection (1) is punishable as a class C felony according to chapter 9A.20 RCW.

(2) No person engaged in or conducting business as a distributor or retailer in this state may refuse to allow the enforcement officers of the board, on demand, to make full inspection of any place of business or vehicle where any of the vapor products regulated under this chapter are sold,

stored, transported, or handled, or otherwise hinder or prevent such inspection. A person who violates this subsection (2) is guilty of a gross misdemeanor.

(3) Any person licensed under this chapter as a distributor, and any person licensed under this chapter as a retailer, may not operate in any other capacity unless the additional appropriate license is first secured, except as otherwise provided by law. A violation of this subsection (3) is a misdemeanor.

(4) The penalties provided in this section are in addition to any other penalties provided by law for violating the provisions of this chapter or the rules adopted under this chapter.

**NEW SECTION. Sec. 28.** A new section is added to chapter 70.155 RCW to read as follows:

A fee of six hundred fifty dollars must accompany each vapor product distributor's license application or license renewal application under section 23 of this act. If a distributor sells or intends to sell vapor products at two or more places of business, whether established or temporary, a separate license with a license fee of one hundred fifteen dollars is required for each additional place of business.

**NEW SECTION. Sec. 29.** A new section is added to chapter 70.155 RCW to read as follows:

A fee of two hundred fifty dollars must accompany each vapor product retailer's license application or license renewal application under section 23 of this act. A separate license is required for each separate location at which the retailer operates.

**Sec. 30.** RCW 82.24.530 and 2012 2nd sp.s. c 4 s 12 are each amended to read as follows:

A fee of (~~ninety-three~~) two hundred fifty dollars must accompany each retailer's license application or license renewal application. A separate license is required for each separate location at which the retailer operates. A fee of thirty additional dollars for each vending machine must accompany each application or renewal for a license issued to a retail dealer operating a cigarette vending machine. An additional fee of ninety-three dollars (~~shall~~) must accompany each application or renewal for a license issued to a retail dealer operating a cigarette-making machine.

**Sec. 31.** RCW 82.26.170 and 2005 c 180 s 13 are each amended to read as follows:

(1) A fee of (~~ninety-three dollars shall~~) two hundred fifty dollars must accompany each retailer's license application or license renewal application. A separate license is required for each separate location at which the retailer operates.

(2) The fee imposed under subsection (1) of this section does not apply to any person applying for a retailer's license or for renewal of a retailer's license if the person has a valid retailer's license under RCW 82.24.510 for the place of business associated with the retailer's license application or renewal application.

**NEW SECTION. Sec. 32.** A new section is added to chapter 70.155 RCW to read as follows:

(1) Every vapor product retailer licensed under section 23 of this act must procure itemized invoices of all vapor products purchased. The invoices must show the seller's name and address, the date of purchase, and all prices and discounts.

(2) The retailer must keep at each retail outlet copies of complete, accurate, and legible invoices for that retail outlet or place of business. All invoices required to be kept under this section must be preserved for five years from the date of purchase.

(3) At any time during usual business hours the department, board, or its duly authorized agents or employees may enter any retail outlet without a search warrant, and inspect the premises for invoices required to be kept under this section and the vapor products contained in the retail outlet, to determine whether or not all the provisions of this chapter are being fully complied with. If the department, board, or any of its agents or employees are denied free access or are hindered or interfered with in making the inspection, the registration certificate issued under RCW 82.32.030 of the retailer at the premises is subject to revocation by the department, and any licenses issued under this chapter or chapter 82.26 or 82.24 RCW are subject to suspension or revocation by the board.

**NEW SECTION. Sec. 33.** A new section is added to chapter 70.155 RCW to read as follows:

(1) The board must enforce this chapter. The board may adopt, amend, and repeal rules necessary to enforce this chapter.

(2) The department may adopt, amend, and repeal rules necessary to administer this chapter. The board may revoke or suspend the distributor's or retailer's license of any distributor or retailer of vapor products in the state upon sufficient cause showing a violation of this chapter or upon the failure of the licensee to comply with any of the rules adopted under it.

(3) A license may not be suspended or revoked except upon notice to the licensee and after a hearing as prescribed by the board. The board, upon finding that the licensee has failed to comply with any provision of this chapter or of any rule adopted under it, must, in the case of the first offense, suspend the license or licenses of the licensee for a period of not less than thirty consecutive business days, and in the case of a second or further offense, suspend the license or licenses for a period of not less than ninety consecutive business days but not more than twelve months, and in the event the board finds the licensee has been guilty of willful and persistent violations, it may revoke the license or licenses.

(4) Any licenses issued under chapter 82.24 or 82.26 RCW to a person whose license or licenses have been suspended or revoked under this section must also be suspended or revoked during the period of suspension or revocation under this section.

(5) Any person whose license or licenses have been revoked under this section may reapply to the board at the expiration of one year of the license or licenses. The license or licenses may be approved by the board if it appears to the satisfaction of the board that the licensee will comply with the provisions of this chapter and the rules adopted under it.

(6) A person whose license has been suspended or revoked may not sell vapor products, tobacco products, or cigarettes or permit vapor products, tobacco products, or cigarettes to be sold during the period of suspension or revocation on the premises occupied by the person or upon other premises controlled by the person or others or in any other manner or form.

(7) Any determination and order by the board, and any order of suspension or revocation by the board of the license or licenses issued under this chapter, or refusal to reinstate a license or licenses after revocation is reviewable by an appeal to the superior court of Thurston county. The superior court must review the order or ruling of the board and may hear the matter de novo, having due regard to the provisions of this chapter and the duties imposed upon the board.

(8) If the board makes an initial decision to deny a license or renewal, or suspend or revoke a license, the applicant may request a hearing subject to the applicable provisions under Title 34 RCW.

**NEW SECTION. Sec. 34.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 35.** If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

**NEW SECTION. Sec. 36.** This act takes effect October 1, 2016."

**SIXTY FOURTH LEGISLATURE - REGULAR SESSION****THIRTY SIXTH DAY**

House Chamber, Olympia, Monday, February 15, 2016

The House was called to order at 9:00 a.m. by the Speaker (Representative Orwall presiding). The Clerk called the roll and a quorum was present.

The flags were escorted to the rostrum by the Washington Youth Academy. The Speaker (Representative Orwall presiding) led the Chamber in the Pledge of Allegiance. The prayer was offered by Reverend Richmond Johnson, Mt. Zion Missionary Baptist Church, Bremerton, Washington.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

**POINT OF PERSONAL PRIVILEGE**

Representative Kilduff: "Thank you Madam Speaker. I rise today with great gratitude for the very special guests that we have within our midst today and up on the rostrum. First and foremost, we have some Gold Star Children. Six children with us today. For those of you who may not know they are children who have suffered the loss of a parent in service of our U. S. military, defending our country. Those are parents and soldiers who are our truths and heroes, parents and soldiers who gave the ultimate sacrifice, parents and soldiers who stood to safeguard our liberties.

So Chloe, Bryan, Brendan, Noel, Odessa and Joey, from the bottom of my heart, thank you for the sacrifice that your families have made, that your parents have made and that you continue to make.

Madam Speaker, I would also like to recognize another special guest, very well known to this body, to this state, number 15, Jermaine Kearse with the Seattle Seahawks. Mr. Kearse, you may not know beyond his Seahawks fame, is somebody who lived in a military family right on Joint Base Lewis McChord in the 28<sup>th</sup> legislative district and in addition to being an outstanding champion on the field he is a true champion off the field. A champion for the Gold Star Children and a champion for all military children in our state. So with that Madam Speaker, I thank you for the opportunity to recognize our very special guests and once again thank all of you for your commitment to our community, Mr. Kearse, and to these wonderful children for the sacrifices your families have made. Thank you Madam Speaker."

**POINT OF PERSONAL PRIVILEGE**

Representative Stambaugh: "Thank you Madam Speaker. I rise today with great appreciation for all of the individuals you are sharing the rostrum with. First the Gold Star Children, you are inspiring to every single one of the

members here on the floor. We just appreciate you for the sacrifice and the strength you have and you share with your families and you communities.

We also want to thank Jermaine Kearse for being here and for the inspiration that you provide to so many of us here in Washington, both young and old. I was a University of Washington Husky, getting to watch you on the field, it was truly an honor.

To have young people raising their abilities to the forefront for all of the state to be able to watch and rally behind, I know that you have people who are cheering for you in every step and walk you take both on and off the field, and these young Gold Star Children are also there and I know that as you carry each of us with you on and off the field, particularly these young kids, and I just appreciate your work on behalf of our community, on behalf of Pierce County being that the 25<sup>th</sup> is in Pierce County, and just on behalf of all young people inspired and aspiring to do great things with their lives. So, from the bottom of my heart, I just thank the Gold Star Children for your dedication and Jermaine Kearse for your dedication to our community. Thank you."

Yes, the good gentleman from the 8<sup>th</sup> district is correct: none of the services for which consent may be given in this bill relate in any way to abortion. **Sec. 3.** RCW 13.40.010 and 2004 c 120 s 1 are each amended to read as follows:

(1) This chapter shall be known and cited as the Juvenile Justice Act of 1977.

(2) It is the intent of the legislature that a system capable of having primary responsibility for, being accountable for, and responding to the needs of youthful offenders and their victims, as defined by this chapter, be established. It is the further intent of the legislature that youth, in turn, be held accountable for their offenses and that communities, families, and the juvenile courts carry out their functions consistent with this intent. To effectuate these policies, the legislature declares the following to be equally important purposes of this chapter:

(a) Protect the citizenry from criminal behavior;

(b) Provide for determining whether accused juveniles have committed offenses as defined by this chapter;

(c) Make the juvenile offender accountable for his or her criminal behavior;

(d) Provide for punishment commensurate with the age, crime, and criminal history of the juvenile offender;

(e) Provide due process for juveniles alleged to have committed an offense;

(f) Provide for the rehabilitation and reintegration of juvenile offenders;

(g) Provide necessary treatment, supervision, and custody for juvenile offenders;

~~((g))~~ (h) Provide for the handling of juvenile offenders by communities whenever consistent with public safety;

~~((h))~~ (i) Provide for restitution to victims of crime;

~~((i))~~ (j) Develop effective standards and goals for the operation, funding, and evaluation of all components of the juvenile justice system and related services at the state and local levels;

~~((j))~~ (k) Provide for a clear policy to determine what types of offenders shall receive punishment, treatment, or both, and to determine the jurisdictional limitations of the courts, institutions, and community services;

~~((k))~~ (l) Provide opportunities for victim participation in juvenile justice process, including court hearings on juvenile offender matters, and ensure that Article I, section 35 of the Washington state Constitution, the victim bill of rights, is fully observed; and

~~((l))~~ (m) Encourage the parents, guardian, or custodian of the juvenile to actively participate in the juvenile justice process.

**Sec. 4.** RCW 13.40.127 and 2015 c 265 s 26 are each amended to read as follows:

(1) A juvenile is eligible for deferred disposition unless he or she:

(a) Is charged with a sex or violent offense;

(b) Has a criminal history which includes any felony;

(c) Has a prior deferred disposition or deferred adjudication; or

(d) Has two or more adjudications.

(2) The juvenile court (~~((may))~~) shall, except as provided by subsection (3) of this section, upon motion at least fourteen days before commencement of trial and, after consulting the juvenile's custodial parent or parents or guardian and with the consent of the juvenile, continue the case for disposition for a period not to exceed one year from the date the juvenile is found guilty. (~~The court shall consider whether the offender and the community will benefit from a deferred disposition before deferring the disposition.~~) The court may waive the fourteen-day period anytime before the commencement of trial for good cause.

(3) If a juvenile offender is charged with animal cruelty in the first degree, the juvenile court may deny granting a deferred disposition to the juvenile, even if the juvenile otherwise may qualify for a deferred disposition. The judge shall consider whether the community will benefit from granting a deferred disposition to the juvenile offender.

(4) Any juvenile who agrees to a deferral of disposition shall:

- (a) Stipulate to the admissibility of the facts contained in the written police report;
- (b) Acknowledge that the report will be entered and used to support a finding of guilt and to impose a disposition if the juvenile fails to comply with terms of supervision;
- (c) Waive the following rights to: (i) A speedy disposition; and (ii) call and confront witnesses; and
- (d) Acknowledge the direct consequences of being found guilty and the direct consequences that will happen if an order of disposition is entered.

The adjudicatory hearing shall be limited to a reading of the court's record.

~~((4))~~ (5) Following the stipulation, acknowledgment, waiver, and entry of a finding or plea of guilt, the court shall defer entry of an order of disposition of the juvenile.

~~((5))~~ (6) Any juvenile granted a deferral of disposition under this section shall be placed under community supervision. The court may impose any conditions of supervision that it deems appropriate including posting a probation bond. Payment of restitution under RCW 13.40.190 shall be a condition of community supervision under this section.

The court may require a juvenile offender convicted of animal cruelty in the first degree to submit to a mental health evaluation to determine if the offender would benefit from treatment and such intervention would promote the safety of the community. After consideration of the results of the evaluation, as a condition of community supervision, the court may order the offender to attend treatment to address issues pertinent to the offense.

The court may require the juvenile to undergo a mental health or substance abuse assessment, or both. If the assessment identifies a need for treatment, conditions of supervision may include treatment for the assessed need that has been demonstrated to improve behavioral health and reduce recidivism.

The court shall require a juvenile granted a deferral of disposition for unlawful possession of a firearm in violation of RCW 9.41.040 to participate in a qualifying program as described in RCW 13.40.193(2)(b), when

available, unless the court makes a written finding based on the outcome of the juvenile court risk assessment that participation in a qualifying program would not be appropriate.

~~((6))~~ (7) A parent who signed for a probation bond has the right to notify the counselor if the juvenile fails to comply with the bond or conditions of supervision. The counselor shall notify the court and surety of any failure to comply. A surety shall notify the court of the juvenile's failure to comply with the probation bond. The state shall bear the burden to prove, by a preponderance of the evidence, that the juvenile has failed to comply with the terms of community supervision.

~~((7))~~ (8)(a) Anytime prior to the conclusion of the period of supervision, the prosecutor or the juvenile's juvenile court community supervision counselor may file a motion with the court requesting the court revoke the deferred disposition based on the juvenile's lack of compliance or treat the juvenile's lack of compliance as a violation pursuant to RCW 13.40.200.

(b) If the court finds the juvenile failed to comply with the terms of the deferred disposition, the court may:

- (i) Revoke the deferred disposition and enter an order of disposition; or
- (ii) Impose sanctions for the violation pursuant to RCW 13.40.200.

~~((8))~~ (9) At any time following deferral of disposition the court may, following a hearing, continue supervision for an additional one-year period for good cause.

~~((9))~~ (10)(a) At the conclusion of the period of supervision, the court shall determine whether the juvenile is entitled to dismissal of the deferred disposition only when the court finds:

- (i) The deferred disposition has not been previously revoked;
- (ii) The juvenile has completed the terms of supervision;
- (iii) There are no pending motions concerning lack of compliance pursuant to subsection ~~((7))~~ (8) of this section; and

(iv) The juvenile has either paid the full amount of restitution, or, made a good faith effort to pay the full amount of restitution during the period of supervision.

(b) If the court finds the juvenile is entitled to dismissal of the deferred disposition pursuant to (a) of this subsection, the juvenile's conviction shall be vacated and the court shall dismiss the case with prejudice, except that a conviction under RCW 16.52.205 shall not be vacated. Whenever a case is dismissed with restitution still owing, the court shall enter a restitution order pursuant to RCW 7.80.130 for any unpaid restitution. Jurisdiction to enforce payment and modify terms of the restitution order shall be the same as those set forth in RCW 7.80.130.

(c) If the court finds the juvenile is not entitled to dismissal of the deferred disposition pursuant to (a) of this subsection, the court shall revoke the deferred disposition and enter an order of disposition. A deferred disposition shall remain a conviction unless the case is dismissed and the conviction is vacated pursuant to (b) of this subsection or sealed pursuant to RCW 13.50.260.

~~((10))~~ (11)(a)(i) Any time the court vacates a conviction pursuant to subsection ~~((9))~~ (10) of this section, if the juvenile is eighteen years of age or older and the full amount of restitution owing to the individual victim named in the restitution order, excluding restitution owed to any insurance provider authorized under Title 48 RCW has been paid, the court shall enter a written order sealing the case.

(ii) Any time the court vacates a conviction pursuant to subsection ~~((9))~~ (10) of this section, if the juvenile is not eighteen years of age or older and full restitution ordered has been paid, the court shall schedule an administrative sealing hearing to take place no later than thirty days after the respondent's eighteenth birthday, at which time the court shall enter a written order sealing the case. The respondent's presence at the administrative sealing hearing is not required.

(iii) Any deferred disposition vacated prior to June 7, 2012, is not subject to sealing under this subsection.

(b) Nothing in this subsection shall preclude a juvenile from petitioning the court to have the records of his or her deferred dispositions sealed under RCW 13.50.260.

(c) Records sealed under this provision shall have the same legal status as records sealed under RCW 13.50.260.

#### Concerning biometric identifiers.

The bill was read the second time.

Representative Harmsworth moved the adoption of amendment (741):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that citizens of Washington are increasingly asked to disclose sensitive biological information that uniquely identifies them for commerce, security, and convenience. The commercial collection and marketing of biometric information about individuals, without consent or knowledge of the individual whose data is collected, is of increasing concern. The legislature intends to require a business to provide notice and obtain consent from an individual before enrolling an individual's biometric identifiers in a database for commercial purposes.

**NEW SECTION. Sec. 2.** (1) A person may not enroll a biometric identifier of an individual in a database for a commercial purpose without providing clear and conspicuous notice and obtaining the individual's affirmative consent.

(2) Clear and conspicuous notice is notice that is given through a procedure reasonably designed to be prominent, timely, relevant, and easily accessible. It should address the type of biometric identifier that the person is capturing, the commercial purposes for which the biometric identifier is being enrolled, and the circumstances in which the biometric identifier may be disclosed to third parties. The exact notice required to achieve this standard is context-dependent.

(3) A person who has enrolled an individual's biometric identifier may not sell, lease, or otherwise disclose the biometric identifier to another person for a commercial purpose unless the disclosure:

(a) Is consistent with the notice and consent described in subsections (1) and (2) of this section;

(b) Is necessary to provide a product or service requested by the individual;

(c) Is necessary to effect, administer, enforce, or complete a financial transaction that the individual requested, initiated, or authorized, and the third party to whom the biometric data is disclosed maintains confidentiality of the biometric data and does not further disclose the biometric data except as otherwise permitted under this subsection (3);

(d) Is required or expressly authorized by a federal or state statute, administrative code, or court order;

(e) Is made in good faith in response to a request from a law enforcement officer that has represented to the person that such disclosure is necessary to facilitate law enforcement's response to an ongoing incident in which there is an imminent threat of danger or harm to an individual;

(f) Is made to a third party who contractually promises that the biometric identifier will not be further disclosed and will not be enrolled in a database for a commercial purpose inconsistent with the notice provided to the individual under subsections (1) and (2) of this section; or

(g) Is made to prepare for litigation or to respond to or participate in judicial process.

(4) A person who possesses a biometric identifier of an individual that has been enrolled for a commercial purpose:

(a) Must take reasonable care to guard against unauthorized access to biometric identifiers that is in the possession or under the control of the person; and

(b) May retain the biometric identifier no longer than is reasonably necessary to:

(i) Comply with a court order, statute, or administrative rule;

(ii) Protect against or prevent actual or potential fraud, criminal activity, claims, security threats, or liability; or

(iii) Effectuate the purposes for which an individual has provided consent to the capture, enrollment, and disclosure of the biometric information.

(5) A person who enrolls a biometric identifier of an individual pursuant to this section may not use or disclose it in a manner that is materially inconsistent with the terms under which the biometric identifier was originally provided without obtaining consent.

(6) The limitations on disclosure and retention of biometric identifiers provided in this section do not apply to disclosure or retention of biometric identifiers that have been anonymized so as to prevent the possibility of ascertaining the identity of a unique individual.

**NEW SECTION. Sec. 3.** For purposes of this chapter, the following definitions apply unless the context clearly requires otherwise:

(1) "Biometric sample" means a measurable physical characteristic or personal behavioral trait obtained from a biometric sensor device that can be used for identification of the individual.

(2) "Biometric identifier" means data generated by automatic measurements of an individual's biological characteristics, such as a fingerprint, voice print, eye retinas or irises, or other unique biological characteristic, which are used by the person or licensee to uniquely authenticate an individual's identity when the individual accesses a system or account.

(3) "Biometric system" means an automated system capable of capturing a biometric sample from an individual, extracting and processing biometric data from that sample, storing the extracted information in a database, comparing the biometric data with data contained in one or more references, determining whether the biometric data matches the reference, and indicating whether or not an identification has been achieved.

(4) "Capture" means the process of using a sensor to collect a biometric sample and related contextual data from a scene or an individual, or both, with or without the individual's knowledge.

(5) "Commercial purpose" means a purpose in furtherance of the sale or disclosure of biometric data for the purpose of marketing of goods or services when such goods or services are unrelated to the initial commercial transaction in which a person first gains possession of an individual's biometric identifier. "Commercial purpose" does not include a security purpose.

(6) "Enroll" means to collect a biometric sample of an individual, convert it into a reference template, and store it in the biometric system's database for later comparison. Biometric samples converted in a reference template format cannot be reconstructed into the original output image.

(7) "Federal peace officer" has the meaning in RCW 10.93.020.

(8) "Identification" is the task by which a biometric system searches a database for a reference matching a biometric sample and, if found, returns a corresponding identity.

(9) "Law enforcement officer" means a law enforcement officer as defined in RCW 9.41.040 or a federal peace officer.

(10) "Person" has the meaning in RCW 19.345.010.

(11) "Security purpose" means the purpose of preventing shoplifting, fraud, or any other misappropriation or theft of a thing of value, including tangible and intangible goods and services.

**NEW SECTION. Sec. 4.** The legislature finds that the practices covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A material violation of this chapter is not reasonable in relation to the development and preservation of business, is an unfair or deceptive act in trade or commerce and an unfair method of competition, and may be enforced by the attorney general under the consumer protection act, chapter 19.86 RCW.

**NEW SECTION. Sec. 5.** (1) Nothing in this act shall be construed to apply in any manner to a financial institution or an affiliate of a financial institution that is subject to Title V of the federal Gramm-Leach-Bliley Act of 1999 and the rules promulgated thereunder.

(2) Nothing in this act shall be construed to expand or limit the authority of a law enforcement officer acting within the scope of his or her authority, including, but not limited to, the authority of a state law enforcement officer in executing lawful searches and seizures.

**NEW SECTION. Sec. 6.** Sections 2 through 5 constitute a new chapter in Title 19 RCW."

#### Concerning sexual assault protection orders.

The bill was read the second time.

Representative Goodman moved the adoption of amendment (737):

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 7.90.120 and 2013 c 74 s 3 are each amended to read as follows:

(1)(a) An ex parte temporary sexual assault protection order shall be effective for a fixed period not to exceed fourteen days. A full hearing, as provided in this chapter, shall be set for not later than fourteen days from the issuance of the temporary order or not later than twenty-four days if service by publication or service by mail is permitted. If the court permits service by publication or service by mail, the court shall also reissue the ex parte temporary protection order not to exceed

another twenty-four days from the date of reissuing the ex parte protection order. Except as provided in RCW 7.90.050, 7.90.052, or 7.90.053, the respondent shall be personally served with a copy of the ex parte temporary sexual assault protection order along with a copy of the petition and notice of the date set for the hearing.

(b) Any ex parte temporary order issued under this section shall contain the date and time of issuance and the expiration date and shall be entered into a statewide judicial information system by the clerk of the court within one judicial day after issuance.

(2) Except as otherwise provided in this section or RCW 7.90.150, a final sexual assault protection order shall be effective for a fixed period of time (~~(, not to exceed two years))~~ or be permanent.

(3) Any sexual assault protection order which would expire on a court holiday shall instead expire at the close of the next court business day.

(4) The practice of dismissing or suspending a criminal prosecution in exchange for the issuance of a sexual assault protection order undermines the purposes of this chapter. This section shall not be construed as encouraging that practice.

**Sec. 2.** RCW 7.90.121 and 2013 c 74 s 4 are each amended to read as follows:

(1) Any ex parte temporary or nonpermanent final sexual assault protection order may be renewed one or more times, as required.

(2) The petitioner may apply for renewal of the order by filing a motion for renewal at any time within the three months before the order expires. The motion for renewal shall state the reasons why the petitioner seeks to renew the protection order.

(3) ~~((If the motion for renewal is uncontested and the petitioner seeks no modification of the order, the order may be renewed on the basis of the petitioner's motion or affidavit stating that there has been no material change in relevant circumstances since entry of the order and stating the reason for the requested renewal.))~~ (a) The court shall grant the motion for renewal unless the respondent proves by a preponderance of the evidence that there has been a material change in circumstances such that the respondent is not likely to engage in or attempt to engage in physical or nonphysical contact with the petitioner when the order expires.

(b) For purposes of this subsection (3), a court shall determine whether there has been a material change in circumstances by considering only factors which address whether the respondent is likely to engage in or attempt to engage in physical or nonphysical contact with the petitioner when the order expires. The passage of time and compliance with the existing protection order shall not, alone, be sufficient to meet this burden of proof. The court may renew the sexual assault protection order for another fixed time period or may enter a permanent order as provided in this section.

(c) In determining whether there has been a material change in circumstances, the court may consider the following unweighted factors, and no inference is to be drawn from the order in which the factors are listed:

(i) Whether the respondent has committed or threatened sexual assault, domestic violence, stalking, or other violent acts since the protection order was entered;

(ii) Whether the respondent has violated the terms of the protection order and the time that has passed since the entry of the order;

(iii) Whether the respondent has exhibited suicidal ideation or attempts since the protection order was entered;

(iv) Whether the respondent has been convicted of criminal activity since the protection order was entered;

(v) Whether the respondent has either acknowledged responsibility for acts of sexual assault that resulted in entry of the protection order or successfully completed sexual assault perpetrator treatment or counseling since the protection order was entered;

(vi) Whether the respondent has a continuing involvement with drug or alcohol abuse, if such abuse was a factor in the protection order;

(vii) Whether the respondent or petitioner has relocated to an area more distant from the other party, giving due consideration to the fact that acts of sexual assault may be committed from any distance such as via cybercrime;

(viii) Other factors relating to a material change in circumstances.

(4)(a) If the motion is contested, upon receipt of the motion, the court shall order that a hearing be held not later than fourteen days from the date of the order.

(b) The court may schedule a hearing by telephone pursuant to local court rule, to reasonably accommodate a disability, or in exceptional circumstances to protect a petitioner from further nonconsensual sexual conduct or nonconsensual sexual penetration. The court shall require assurances of the petitioner's identity before conducting a telephonic hearing.

(c) The respondent shall be personally served not less than five court days prior to the hearing. If timely personal service cannot be made, the court shall set a new hearing date and shall either require additional attempts at obtaining personal service or permit service by publication as provided in RCW 7.90.052 or service by mail as provided in RCW 7.90.053. The court shall not require more than two attempts at obtaining personal service and shall permit service by publication or service by mail unless the petitioner requests additional time to attempt personal service. If the court permits service by publication or service by mail, the court shall set the hearing date not later than twenty-four days from the date of the order.

(5) Renewals may be granted only in open court." Correct the title.

SUBSTITUTE HOUSE BILL NO. 1130 was read the second time.

Representative Manweller moved the adoption of amendment (695):

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 90.16.050 and 2007 c 286 s 1 are each amended to read as follows:

(1) Every person, firm, private or municipal corporation, or association hereinafter called "claimant", claiming the right to the use of water within or bordering upon the state of Washington for power development, shall on or before the first day of January of each year pay to the state of Washington in advance an annual license fee, based upon the theoretical water power claimed under each and every separate claim to water according to the following schedule:

(a) For projects in operation: For each and every theoretical horsepower claimed up to and including one thousand horsepower, at the rate of eighteen cents per horsepower; for each and every theoretical horsepower in excess of one thousand horsepower, up to and including ten thousand horsepower, at the rate of three and six-tenths cents per horsepower; for each and every theoretical horsepower in excess of ten thousand horsepower, at the rate of one and eight-tenths cents per horsepower.

(b) For federal energy regulatory commission projects in operation that require certification under section 401 of the federal clean water act, the following fee schedule applies in addition to the fees in (a) of this subsection: For each theoretical horsepower of capacity up to and including one thousand horsepower, at the rate of thirty-two cents per horsepower; for each theoretical horsepower in excess of one thousand horsepower, up to and including ten thousand horsepower, at the rate of six and four-tenths cents per horsepower; for each theoretical horsepower in excess of ten thousand horsepower, at the rate of three and two-tenths cents per horsepower.

(c) To justify the appropriate use of fees collected under (b) of this subsection, the department of ecology

shall submit a progress report to the appropriate committees of the legislature prior to December 31, 2009, and biennially thereafter (~~until December 31, 2017~~).

(i) The progress report will: (A) Describe how license fees and other funds used for the work of the licensing program were expended in direct support of the federal energy regulatory commission licensing process and license implementation during the current biennium, and expected workload and full-time equivalent employees for federal energy regulatory commission licensing in the next biennium. In order to increase the financial accountability of the licensing, relicensing, and license implementation program, the report must include the amount of licensing fees and program funds that were expended on licensing work associated with each hydropower project. This project-specific program expenditure list must detail the program costs and staff time associated with each hydropower project during the time period immediately prior to license issuance process, the program costs and staff time deriving from the issuance or reissuance of a license to each hydropower project, and the program costs and staff time associated with license implementation after the issuance or reissuance of a license to a hydropower project. This program cost and staff time information must be collected beginning July 1, 2016, and included in biennial reports addressing program years 2016 or later. In addition, the report must provide sufficient information to determine that the fees charged are not for activities already performed by other state or federal agencies or tribes that have jurisdiction over a specific license requirement and that duplicative work and expense is avoided. Finally, the report must show that the work performed and allocated to a project is directly associated with the section 401 clean water act certification or implementation for the project and that the essential functions of the state's obligations under section 401 of the clean water act are being met in an efficient manner for each hydropower project; (B) include any recommendations based on consultation with the departments of ecology and fish and wildlife, hydropower project operators, and other interested parties; and (C) recognize hydropower operators that exceed their environmental regulatory requirements.

(ii) Based on the actual cost and work by project as provided in prior reports described in (c)(i) of this subsection, and the forecasted work by project, the 2019 biennial report must provide a recommendation to the appropriate committees of the legislature to modify the fee collection structure in (b) of this subsection, if necessary, to allocate the fees collected going forward proportionally to the hydropower projects based on the actual costs and staff time required by those projects.

(iii) The fees required in (b) of this subsection expire June 30, (~~2017~~) 2027. The biennial progress reports submitted by the department of ecology will serve as a record for considering the extension of the fee structure in (b) of this subsection.

(2) The following are exceptions to the fee schedule in subsection (1) of this section:

(a) For undeveloped projects, the fee shall be at one-half the rates specified for projects in operation; for projects partly developed and in operation the fees paid on that portion of any project that shall have been developed

and in operation shall be the full annual license fee specified in subsection (1) of this section for projects in operation, and for the remainder of the power claimed under such project the fees shall be the same as for undeveloped projects.

(b) The fees required in subsection (1) of this section do not apply to any hydropower project owned by the United States.

(c) The fees required in subsection (1) of this section do not apply to the use of water for the generation of fifty horsepower or less.

(d) The fees required in subsection (1) of this section for projects developed by an irrigation district in conjunction with the irrigation district's water conveyance system shall be reduced by fifty percent to reflect the portion of the year when the project is not operable.

(e) Any irrigation district or other municipal subdivision of the state, developing power chiefly for use in pumping of water for irrigation, upon the filing of a statement showing the amount of power used for irrigation pumping, is exempt from the fees in subsection (1) of this section to the extent of the power used for irrigation pumping.

(3) In order to ensure accountability in the licensing, relicensing, and license implementation programs of the department of ecology and the department of fish and wildlife, the departments must implement the following administrative requirements:

(a)(i) Both the department of ecology and the department of fish and wildlife must designate an employee as the manager of each department's hydropower licensing, relicensing, and license implementation program. The program manager designed by each department must be responsible for approving an annual work plan that addresses the work anticipated to be completed by each department's hydropower licensing and license implementation program.

(ii) Both the department of ecology and the department of fish and wildlife must assign one employee to each licensed hydropower project to act as each department's designated licensing and implementation lead for a hydropower project. The responsibility assigned by each department to hydropower project licensing and implementation leads must include resolving conflicts with the license applicant or license holder and the facilitation of department decision making related to license applications and license implementation for the particular hydropower project assigned to a licensing lead.

(b) The department of ecology and the department of fish and wildlife must host an annual meeting with parties interested in or affected by hydropower project licensing and the associated fees charged under this section. The purposes of the annual meeting must include soliciting information from interested parties related to the annual hydropower work plan required by (a) of this subsection and to the biennial progress report produced pursuant to subsection (1)(c)(i) of this section.

(c) Prior to the annual meeting each year required by (b) of this subsection, the department of fish and wildlife and the department of ecology must circulate a survey to hydropower licensees soliciting feedback on the responsiveness of department staff, clarity of staff roles and

responsibilities in the hydropower licensing and implementation process, and other topics related to the professionalism and expertise of department staff assigned to hydropower project licensing projects. This survey must be designed by the department of fish and wildlife and the department of ecology after consulting with hydropower licensees and the results of the survey must be included in the biennial progress report produced pursuant to subsection (1)(c)(i) of this section. Prior to the annual meeting, the department of ecology and the department of fish and wildlife must analyze the survey results. The departments must present summarized information based on their analysis of survey results at the annual meeting for purposes of discussion with hydropower project licensees."

~~(f)~~ Any applicant for a journey level electrician certificate of competency who has successfully completed a two-year program in the electrical construction trade at public community or technical colleges, or not-for-profit nationally accredited technical or trade schools licensed by the workforce training and education coordinating board under chapter 28C.10 RCW, may substitute up to two years of the technical or trade school program for two years of

work experience under a master journey level electrician or journey level electrician required under the apprenticeship program. The applicant shall obtain the additional two years of work experience required in industrial or commercial electrical installation prior to the beginning, or after the completion, of the technical school program. An applicant for a residential specialty certificate of competency may substitute work experience under this section only as part of an apprenticeship program.

~~((+))~~(h) The department must determine whether hours of training and experience in the armed services or school program are in the electrical construction trade and appropriate as a substitute for hours of work experience. The department must use the following criteria for evaluating the equivalence of classroom electrical training programs and work in the electrical construction trade:

- (i) A two-year electrical training program must consist of three thousand or more hours.
- (ii) In a two-year electrical training program, a minimum of two thousand four hundred hours of student/instructor contact time must be technical electrical instruction directly related to the scope of work of the electrical specialty. Student/instructor contact time includes lecture and in-school lab.
- (iii) The department may not allow credit for a program that accepts more than one thousand hours transferred from another school's program.
- (iv) Electrical specialty training school programs of less than two years will have all of the above student/instructor contact time hours proportionately reduced. Such programs may not apply to more than fifty percent of the work experience required to attain certification.
- (v) Electrical training programs of less than two years may not be credited towards qualification for journey level electrician unless the training program is used to gain qualification for a four thousand hour electrical specialty.

~~((+))~~(i) No other requirement for eligibility may be imposed.

(2) The department shall establish reasonable rules for the examinations to be given applicants for certificates of competency. In establishing the rules, the department shall consult with the board. If the person passes the examination, the person may work unsupervised for the balance of the minimum hours required for certification. A person may not be certified as a specialty electrician in the appliance repair specialty or in a specialty other than the designated specialties in (g)(i)(A) of this subsection, however, until the person has worked a minimum of two thousand hours in that specialty, or longer if set by rule by the department; or

(C) Successfully completed an approved apprenticeship program under chapter 49.04 RCW for the applicant's specialty in the electrical construction trade.

(ii) In meeting the training requirements for the pump and irrigation or domestic pump specialties, the individual shall be allowed to obtain the experience required by this section at the same time the individual is meeting the experience required by RCW 18.106.040(1)(c). After meeting the training requirements provided in this section, the individual may take the examination and upon passing the examination, meeting additional training requirements as may still be required for those seeking a pump and irrigation, or a domestic pump specialty certificate as defined by rule, and paying the applicable fees, the individual must be issued the appropriate

certificate. The department may include an examination for specialty plumbing certificate defined in RCW 18.106.010(10)(c) with the examination required by this section. The department, by rule and in consultation with the electrical board, may establish additional equivalent ways to gain the experience requirements required by this subsection. Individuals who are able to provide evidence to the department, prior to January 1, 2007, that they have been employed as a pump installer in the pump and irrigation or domestic pump business by an appropriately licensed electrical contractor, registered general contractor defined by chapter 18.27 RCW, or appropriate general specialty contractor defined by chapter 18.27 RCW for not less than eight thousand hours in the most recent six calendar years shall be issued the appropriate certificate by the department upon receiving such documentation and applicable fees. The department shall establish a single document for those who have received both an electrical specialty certification as defined by this subsection and have also met the certification requirements for the specialty plumber as defined by RCW 18.106.010(10)(c), showing that the individual has received both certifications. No other experience or training requirements may be imposed.

(iii) Before July 1, 2015, an applicant possessing an electrical training certificate issued by the department is eligible to apply one hour of every two hours of unsupervised telecommunications system installation work experience toward eligibility for examination for a limited energy system certificate of competency (as specified in WAC 296-46B-920(2)(e)), if:

(A) The telecommunications work experience was obtained while employed by a contractor licensed under this chapter as a general electrical contractor (as specified in WAC 296-46B-920(1)) or limited energy system specialty contractor (as specified in WAC 296-46B-920(2)(e)); and

(B) Evidence of the telecommunications work experience is submitted in the form of an affidavit prescribed by the department.

(iv)(A) Before January 1, 2019, an applicant possessing an electrical training certificate issued by the department is eligible to apply one hour of every two hours of unsupervised work experience in the electrical trade toward eligibility for examination for a limited energy certificate of competency (as specified in WAC 296-46B-920(2)(e)), a HVAC/refrigeration systems certificate of competency (as specified in WAC 296-46B-920(2)(f)(v)), or a nonresidential maintenance certificate of competency (as specified in WAC 296-46B-920(2)(g)) if:

(I) The work experience was obtained while employed by a school district as defined in RCW 28A.315.025; and

(II) Evidence of the work experience is submitted in the form of an affidavit prescribed by the department.

(B) An applicant under this subsection (1)(g)(iv) may apply for more than one certificate of competency; however, each hour of work experience may be applied toward eligibility for only one certificate of competency.

(h) Any applicant for a journey level electrician certificate of competency who has successfully completed a two-year program in the electrical construction trade at

public community or technical colleges, or not-for-profit nationally accredited technical or trade schools licensed by the workforce training and education coordinating board under chapter 28C.10 RCW, may substitute up to two years of the technical or trade school program for two years of work experience under a master journey level electrician or journey level electrician. The applicant shall obtain the additional two years of work experience required in industrial or commercial electrical installation prior to the beginning, or after the completion, of the technical school program. Any applicant who has received training in the electrical construction trade in the armed service of the United States may be eligible to apply armed service work experience towards qualification to take the examination for the journey level electrician certificate of competency.

(i) An applicant for a specialty electrician certificate of competency who, after January 1, 2000, has successfully completed a two-year program in the electrical construction trade at a public community or technical college, or a not-for-profit nationally accredited technical or trade school licensed by the workforce training and education coordinating board under chapter 28C.10 RCW, may substitute up to one year of the technical or trade school program for one year of work experience under a master journey level electrician, journey level electrician, master specialty electrician working in that electrician's specialty, or specialty electrician working in that electrician's specialty. Any applicant who has received training in the electrical construction trade in the armed services of the United States may be eligible to apply armed service work experience towards qualification to take the examination for an appropriate specialty electrician certificate of competency.

(j) The department must determine whether hours of training and experience in the armed services or school program are in the electrical construction trade and appropriate as a substitute for hours of work experience. The department must use the following criteria for evaluating the equivalence of classroom electrical training programs and work in the electrical construction trade:

(i) A two-year electrical training program must consist of three thousand or more hours.

(ii) In a two-year electrical training program, a minimum of two thousand four hundred hours of student/instructor contact time must be technical electrical instruction directly related to the scope of work of the electrical specialty. Student/instructor contact time includes lecture and in-school lab.

(iii) The department may not allow credit for a program that accepts more than one thousand hours transferred from another school's program.

(iv) Electrical specialty training school programs of less than two years will have all of the above student/instructor contact time hours proportionately reduced. Such programs may not apply to more than fifty percent of the work experience required to attain certification.

(v) Electrical training programs of less than two years may not be credited towards qualification for journey level electrician unless the training program is used to gain qualification for a four thousand hour electrical specialty.

(k) No other requirement for eligibility may be imposed.

(2) The department shall establish reasonable rules for the examinations to be given applicants for certificates of competency. In establishing the rules, the department shall consult with the board. Upon determination that the applicant is eligible to take the examination, the department shall so notify the applicant, indicating the time and place for taking the examination.

(3) No noncertified individual may work unsupervised more than one year beyond the date when the trainee would be eligible to test for a certificate of competency if working on a full-time basis after original application for the trainee certificate. For the purposes of this section, "full-time basis" means two thousand hours."

This information may not be made public or be subject to subpoena, other than by the commissioner and then only for the purpose of enforcement actions taken by the commissioner.

(a) Insure all service contracts under a reimbursement insurance policy issued by an insurer holding a certificate of authority from the commissioner or a risk retention group, as defined in 15 U.S.C. If the service contract provider's parent company's form 10-K, form 20-F, or audited financial statements are filed with the commissioner to meet the service contract provider's financial stability requirement, then the parent company shall agree to guarantee the obligations of the service contract provider relating to service contracts sold by the service contract provider in this state. A copy of the guarantee shall be filed with the commissioner. The guarantee shall be irrevocable as long as there is in force in

this state any contract or any obligation arising from service contracts guaranteed, unless the parent company has made arrangements approved by the commissioner to satisfy its obligations under the guarantee.

**ENGROSSED SUBSTITUTE HOUSE BILL NO. 1553, by House Committee on Public Safety (originally sponsored by Representatives Walkinshaw, MacEwen,**

**Ryu, Appleton, Moscoso, Holy, Gregerson, Zeiger, Peterson, Farrell, Walsh, Reykdal, Orwall, Pettigrew, Tharinger, Fitzgibbon and Kagi)**

**Encouraging certificates of restoration of opportunity.**

The bill was read the second time.

Representative Walkinshaw moved the adoption of amendment (792):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 5.** The legislature finds that employment is a key factor to the successful reintegration to society of people with criminal histories, and is critical to reducing recidivism, promoting public safety, and encouraging personal responsibility.

Occupational licensing and employment laws regulate many professions as well as unskilled and semiskilled occupations. Examples of regulated occupations include alcohol servers, barbers and cosmetologists, body piercers, commercial fishers, contractors, drivers, embalmers, engineers, health care workers, insurance adjusters, real estate professionals, tattoo artists, and waste management workers. Individuals with criminal histories may meet the competency requirements for these occupations through training, experience, or education, but may be disqualified from them based on their criminal history.

Certificates of restoration of opportunity help reduce some barriers to employment for adults and juveniles by providing an opportunity for individuals to become more employable and to more successfully reintegrate into society after they have served their sentence, demonstrated a period of law-abiding behavior consistent with successful reentry, and have turned their lives around following a conviction. Applicants for a certificate must also meet all other statutory licensing requirements.

Certificates of restoration of opportunity offer potential public and private employers or housing providers concrete and objective information about an individual under consideration for an opportunity. These certificates can facilitate the successful societal reintegration of individuals with a criminal history whose behavior demonstrates that they are taking responsibility for their past criminal conduct and pursuing a positive law-abiding future. A certificate of restoration of opportunity provides a process for people previously sentenced by a Washington court who have successfully changed their lives to seek a court document confirming their changed circumstances.

A certificate of restoration of opportunity does not affect any employer's or housing provider's discretion to individually assess every applicant and to hire or rent to the applicants of their choice. Employers will not have to forego hiring their chosen applicants because they face statutory bars that prevent obtaining the necessary occupational credentials.

**NEW SECTION. Sec. 6.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Qualified applicant" means any adult or juvenile who meets the following requirements:

(a)(i) One year has passed from sentencing for those sentenced by a Washington state court to probation, or receiving a deferred sentence or other noncustodial sentencing for a misdemeanor or gross misdemeanor offense or an equivalent juvenile adjudication; or

(ii) Eighteen months have passed from release from total or partial confinement from a Washington prison or jail or juvenile facility for those sentenced by a Washington state court to incarceration for a misdemeanor or gross misdemeanor or an equivalent juvenile adjudication; or

(iii) Two years have passed from sentencing for those sentenced by a Washington state court to probation, or receiving a deferred sentence or other noncustodial sentencing for a class B or C felony or an equivalent juvenile adjudication; or

(iv) Two years have passed from release from total or partial confinement from a Washington prison or jail or juvenile facility for those sentenced by a Washington state court for a class B or C felony or an equivalent juvenile adjudication; or

(v) Five years have passed from sentencing for those sentenced by a Washington state court to probation, or receiving a deferred sentence or other noncustodial sentencing for a violent offense as defined in RCW 9.94A.030 or an equivalent juvenile adjudication; or

(vi) Five years have passed from release from total or partial confinement from a Washington prison or jail or juvenile facility for those sentenced by a Washington state court for a violent offense as defined in RCW 9.94A.030 or an equivalent juvenile adjudication;

(b) Is in compliance with or has completed all sentencing requirements imposed by a court including:

(i) Has paid in full all court-ordered legal financial obligations;

(ii) Is fully compliant with a payment plan for court-ordered legal financial obligations; or

(c) Has never been convicted of a class A felony, an attempt to commit a class A felony, criminal solicitation of or criminal conspiracy to commit a class A felony, a sex offense as defined in RCW 9.94A.030, a crime that includes sexual motivation pursuant to RCW 9.94A.835, 13.40.135, or 9.94A.535(3)(f), extortion in the first degree under RCW 9A.56.120, drive-by shooting under RCW 9A.36.045, vehicular assault under RCW 46.61.522(1) (a) or (b), or luring under RCW 9A.40.090, and is not required to register as a sex offender pursuant to RCW 9A.44.130; and

(d) Has not been arrested for nor convicted of a new crime and has no pending criminal charge, and there is no information presented to a qualified court that such a charge is imminent.

(2) "Qualified court" means any Washington superior court in the county where an applicant resides or

that has sentenced or adjudicated the applicant. If the sentencing or adjudicating court was a court of limited jurisdiction then a qualified court is the superior court in the county of the applicant's conviction or adjudication.

**NEW SECTION. Sec. 7.** (1) Except as provided in this section, no state, county, or municipal department, board, officer, or agency authorized to assess the qualifications of any applicant for a license, certificate of authority, qualification to engage in the practice of a profession or business, or for admission to an examination to qualify for such a license or certificate may disqualify a qualified applicant, solely based on the applicant's criminal history, if the qualified applicant has obtained a certificate of restoration of opportunity and the applicant meets all other statutory and regulatory requirements, except as required by federal law or exempted under this subsection. Nothing in this section is interpreted as restoring or creating a means to restore any firearms rights or eligibility to obtain a firearm dealer license pursuant to RCW 9.41.110 or requiring the removal of a protection order.

(a)(i) Criminal justice agencies, as defined in RCW 10.97.030, and the Washington state bar association are exempt from this section.

(ii) This section does not apply to the licensing, certification, or qualification of the following professionals: Accountants, RCW 18.04.295; assisted living facilities employees, RCW 18.20.125; bail bond agents, RCW 18.185.020; escrow agents, RCW 18.44.241; long-term care workers, RCW 18.88B.080; nursing home administrators, RCW 18.52.071; nursing, chapter 18.79 RCW; physicians and physician assistants, chapters 18.71 and 18.71A RCW; private investigators, RCW 18.165.030; receivers, RCW 7.60.035; teachers, chapters 28A.405 and 28A.410 RCW; notaries public, chapter 42.44 RCW; private investigators, chapter 18.165 RCW; real estate brokers and salespersons, chapters 18.85 and 18.86 RCW; security guards, chapter 18.170 RCW; and vulnerable adult care providers, RCW 43.43.842.

(iii) To the extent this section conflicts with the requirements for receipt of federal funding under the adoption and safe families act, 42 U.S.C. Sec. 671, this section does not apply.

(b) Unless otherwise addressed in statute, in cases where an applicant would be disqualified under RCW 43.20A.710, and the applicant has obtained a certificate of restoration of opportunity, the department of social and health services may, after review of relevant factors, including the nature and seriousness of the offense, time that has passed since conviction, changed circumstances since the offense occurred, and the nature of the employment or license sought, at its discretion:

(i) Allow the applicant to have unsupervised access to children, vulnerable adults, or individuals with mental illness or developmental disabilities if the applicant is otherwise qualified and suitable; or

(ii) Disqualify the applicant solely based on the applicant's criminal history.

(c) If the practice of a profession or business involves unsupervised contact with vulnerable adults, children, or individuals with mental illness or

developmental disabilities, or populations otherwise defined by statute as vulnerable, the department of health may, after review of relevant factors, including the nature and seriousness of the offense, time that has passed since conviction, changed circumstances since the offense occurred, and the nature of the employment or license sought, at its discretion:

(i) Disqualify an applicant who has obtained a certificate of restoration of opportunity, for a license, certification, or registration to engage in the practice of a health care profession or business solely based on the applicant's criminal history; or

(ii) If such applicant is otherwise qualified and suitable, credential or credential with conditions an applicant who has obtained a certificate of restoration of opportunity for a license, certification, or registration to engage in the practice of a health care profession or business.

(d) The state of Washington, any of its counties, cities, towns, municipal corporations, or quasi-municipal corporations, the department of health, and its officers, employees, contractors, and agents are immune from suit in law, equity, or any action under the administrative procedure act based upon its exercise of discretion under this section. This section does not create a protected class; private right of action; any right, privilege, or duty; or change to any right, privilege, or duty existing under law. This section does not modify a licensing or certification applicant's right to a review of an agency's decision under the administrative procedure act or other applicable statute or agency rule. A certificate of restoration of opportunity does not remove or alter citizenship or legal residency requirements already in place for state agencies and employers.

(2) A qualified court has jurisdiction to issue a certificate of restoration of opportunity to a qualified applicant.

(a) A court must determine, in its discretion whether the certificate:

(i) Applies to all past criminal history; or

(ii) Applies only to the convictions or adjudications in the jurisdiction of the court.

(b) The certificate does not apply to any future criminal justice involvement that occurs after the certificate is issued.

(c) A court must determine whether to issue a certificate by determining whether the applicant is a qualified applicant as defined in section 2 of this act.

(3) An employer or housing provider may, in its sole discretion, determine whether to consider a certificate of restoration of opportunity issued under this chapter in making employment or rental decisions. An employer or housing provider is immune from suit in law, equity, or under the administrative procedure act for damages based upon its exercise of discretion under this section or the refusal to exercise such discretion. In any action at law against an employer or housing provider arising out of the employment of or provision of housing to the recipient of a certificate of restoration of opportunity, evidence of the crime for which a certificate of restoration of opportunity has been issued may not be introduced as evidence of negligence or intentionally tortious conduct on the part of

the employer or housing provider. This subsection does not create a protected class, private right of action, any right, privilege, or duty, or to change any right, privilege, or duty existing under law related to employment or housing except as provided in RCW 7.60.035.

(4)(a) Department of social and health services: A certificate of restoration of opportunity does not apply to the state abuse and neglect registry. No finding of abuse, neglect, or misappropriation of property may be removed from the registry based solely on a certificate. The department must include such certificates as part of its criminal history record reports, qualifying letters, or other assessments pursuant to RCW 43.43.830 through 43.43.838. The department shall adopt rules to implement this subsection.

(b) Washington state patrol: The Washington state patrol is not required to remove any records based solely on a certificate of restoration of opportunity. The state patrol must include a certificate as part of its criminal history record report.

(c) Court records:

(i) A certificate of restoration of opportunity has no effect on any other court records, including records in the judicial information system. The court records related to a certificate of restoration of opportunity must be processed and recorded in the same manner as any other record.

(ii) The qualified court where the applicant seeks the certificate of restoration of opportunity must administer the court records regarding the certificate in the same manner as it does regarding all other proceedings.

(d) Effect in other judicial proceedings: A certificate of restoration of opportunity may only be submitted to a court to demonstrate that the individual met the specific requirements of this section and not for any other procedure, including evidence of character, reputation, or conduct. A certificate is not an equivalent procedure under Rule of Evidence 609(c).

(e) Department of health: The department of health must include a certificate of restoration of opportunity on its public web site if:

(i) Its web site includes an order, stipulation to informal disposition, or notice of decision related to the conviction identified in the certificate of restoration of opportunity; and

(ii) The credential holder has provided a certified copy of the certificate of restoration of opportunity to the department of health.

(5) In all cases, an applicant must provide notice to the prosecutor in the county where he or she seeks a certificate of restoration of opportunity of the pendency of such application. If the applicant has been sentenced by any other jurisdiction in the five years preceding the application for a certificate, the applicant must also notify the prosecuting attorney in those jurisdictions. The prosecutor in the county where an applicant applies for a certificate shall provide the court with a report of the applicant's criminal history.

(6) Application for a certificate of restoration of opportunity must be filed as a civil action.

(7) A superior court in the county in which the applicant resides may decline to consider the application for certificate of restoration of opportunity. If the superior

court in which the applicant resides declines to consider the application, the court must dismiss the application without prejudice and the applicant may refile the application in another qualified court. The court must state the reason for the dismissal on the order. If the court determines that the applicant does not meet the required qualifications, then the court must dismiss the application without prejudice and state the reason(s) on the order. The superior court in the county of the applicant's conviction or adjudication may not decline to consider the application.

(8) Unless the qualified court determines that a hearing on an application for certificate of restoration is necessary, the court must decide without a hearing whether to grant the certificate of restoration of opportunity based on a review of the application filed by the applicant and pleadings filed by the prosecuting attorney.

(9) The clerk of the court in which the certificate of restoration of opportunity is granted shall transmit the certificate of restoration of opportunity to the Washington state patrol identification section, which holds criminal history information for the person who is the subject of the conviction. The Washington state patrol shall update its records to reflect the certificate of restoration of opportunity.

(10)(a) The administrative office of the courts shall develop and prepare instructions, forms, and an informational brochure designed to assist applicants applying for a certificate of restoration of opportunity.

(b) The instructions must include, at least, a sample of a standard application and a form order for a certificate of restoration of opportunity.

(c) The administrative office of the courts shall distribute a master copy of the instructions, informational brochure, and sample application and form order to all county clerks and a master copy of the application and order to all superior courts by January 1, 2017.

(d) The administrative office of the courts shall determine the significant non-English-speaking or limited English-speaking populations in the state. The administrator shall then arrange for translation of the instructions, which shall contain a sample of the standard application and order, and the informational brochure into languages spoken by those significant non-English-speaking populations and shall distribute a master copy of the translated instructions and informational brochures to the county clerks by January 1, 2017.

(e) The administrative office of the courts shall update the instructions, brochures, standard application and order, and translations when changes in the law make an update necessary.

**Sec. 9.** RCW 14.20.090 and 2010 c 8 s 5012 are each amended to read as follows:

The secretary shall refuse to issue an aircraft dealer's license or shall suspend or revoke an aircraft dealer's license whenever he or she has reasonable grounds to believe that the dealer has:

For the purpose of this section, the term "adjudged guilty" means, in addition to a final conviction in either a state or municipal court, an unvacated forfeiture of bail or collateral deposited to secure a defendant's appearance in court, the payment of a fine, a plea of guilty, or a finding of guilt regardless of whether the imposition of the sentence is deferred or the penalty is suspended.

If the person has continued to meet all other requirements for reinstatement during the suspension, reissuance of the license shall be automatic upon the department's receipt of a release issued by the department of social and health services stating that the licensee is in compliance with the order.

**Sec. 13.** RCW 18.39.410 and 2005 c 365 s 24 are each amended to read as follows:

(1) Solicitation of human remains by a licensee, registrant, endorsement, or permit holder, or agent, assistant, or employee of the licensee, registrant, endorsement, or permit holder whether the solicitation occurs after death or while death is impending. No further hearing or procedure is required, and the secretary has no discretion with regard to the revocation of the license or certification. The revocation shall be effective even though such conviction may be under appeal, or the time period for such appeal has not elapsed. However, upon presentation of a final appellate decision overturning such conviction, the license or certification shall be reinstated, unless grounds for disciplinary action have been found under chapter 18.130 RCW. No license or certification may be granted under this chapter to any person who has been convicted of violating RCW 9A.88.030, 9A.88.070, 9A.88.080, or 9A.88.090 or equivalent local ordinances within the eight years immediately preceding the date of application, except as provided in section 3 of this act. **Sec. 16.** RCW 18.130.055 and 2008 c 134 s 19 are each amended to read as follows:

(b) Has committed any act defined as unprofessional conduct for a license holder under RCW 18.130.180, except as provided in section 3 of this act;

(c) Has been convicted or is subject to current prosecution or pending charges of a crime involving moral turpitude or a crime identified in RCW 43.43.830, except as provided in section 3 of this act. For purposes of this section, conviction includes all instances in which a plea of guilty or nolo contendere is the basis for the conviction and all proceedings in which the prosecution or sentence has been deferred or suspended. At the request of an applicant for an original license whose conviction is under appeal, the disciplining authority may defer decision upon the application during the pendency of such a prosecution or appeal;

(d) Fails to prove that he or she is qualified in accordance with the provisions of this chapter, the chapters identified in RCW 18.130.040(2), or the rules adopted by the disciplining authority; or

The disciplining authority shall provide written notice of its requirement for a mental or physical examination that includes a statement of the specific conduct, event, or circumstances justifying an examination and a statement of the nature, purpose, scope, and content of the intended examination. If the applicant fails to submit to the examination or provide the results of the examination or any required waivers, the disciplining authority may deny the application.

(ii) An applicant governed by this chapter is deemed to have given consent to submit to a mental, physical, or psychological examination when directed in writing by the disciplining authority and further to have waived all objections to the admissibility or use of the examining health professional's testimony or examination reports by the disciplining authority on the grounds that the testimony or reports constitute privileged communications.

(2) The provisions of RCW 9.95.240 and chapter 9.96A RCW do not apply to a decision to deny a license under this section.

(3) The disciplining authority shall give written notice to the applicant of the decision to deny a license or grant a license with conditions in response to an application for a license. The notice must state the grounds and factual basis for the action and be served upon the applicant.

(4) A license applicant who is aggrieved by the decision to deny the license or grant the license with conditions has the right to an adjudicative proceeding. The application for adjudicative proceeding must be in writing, state the basis for contesting the adverse action, include a copy of the adverse notice, and be served on and received by the department within twenty-eight days of the decision. The license applicant has the burden to establish, by a preponderance of evidence, that the license applicant is qualified in accordance with the provisions of this chapter, the chapters identified in RCW 18.130.040(2), and the rules adopted by the disciplining authority.

**Sec. 17.** RCW 18.130.050 and 2013 c 109 s 1 and 2013 c 86 s 2 are each reenacted and amended to read as follows:

(8) To take emergency action ordering summary suspension of a license, or restriction or limitation of the license holder's practice pending proceedings by the disciplining authority. Within fourteen days of a request by the affected license holder, the disciplining authority must provide a show cause hearing in accordance with the requirements of RCW 18.130.135. In addition to the authority in this subsection, a disciplining authority shall, except as provided in section 3 of this act:

(a) Consistent with RCW 18.130.370, issue a summary suspension of the license or temporary practice permit of a license holder prohibited from practicing a health care profession in another state, federal, or foreign jurisdiction because of an act of unprofessional conduct that is substantially equivalent to an act of unprofessional conduct prohibited by this chapter or any of the chapters specified in RCW 18.130.040. The summary suspension

remains in effect until proceedings by the Washington disciplining authority have been completed;

(b) Consistent with RCW 18.130.400, issue a summary suspension of the license or temporary practice permit if, under RCW 74.39A.051, the license holder is prohibited from employment in the care of vulnerable adults based upon a department of social and health services' final finding of abuse or neglect of a minor or abuse, abandonment, neglect, or financial exploitation of a vulnerable adult. (10) To use a presiding officer as authorized in RCW 18.130.095(3) or the office of administrative hearings as authorized in chapter 34.12 RCW to conduct hearings. Disciplining authorities identified in RCW 18.130.040(2) shall make the final decision regarding disposition of the license unless the disciplining authority elects to delegate in writing the final decision to the presiding officer. Disciplining authorities identified in RCW 18.130.040(2)(b) may not delegate the final decision regarding disposition of the license or imposition of sanctions to a presiding officer in any case pertaining to standards of practice or where clinical expertise is necessary, including deciding any motion that results in dismissal of any allegation contained in the statement of charges. Presiding officers acting on behalf of the secretary shall enter initial orders. The secretary may, by rule, provide that initial orders in specified classes of cases may become final without further agency action unless, within a specified time period:

(a) The secretary upon his or her own motion determines that the initial order should be reviewed; or

(b) A party to the proceedings files a petition for administrative review of the initial order;

(11) To use individual members of the boards to direct investigations and to authorize the issuance of a citation under subsection (7) of this section. However, the member of the board shall not subsequently participate in the hearing of the case;

(14) To adopt standards of professional conduct or practice;

(15) To grant or deny license applications, and in the event of a finding of unprofessional conduct by an applicant or license holder, to impose any sanction against a license applicant or license holder provided by this chapter. After January 1, 2009, all sanctions must be issued in accordance with RCW 18.130.390;

(19) To review and audit the records of licensed health facilities' or services' quality assurance committee decisions in which a license holder's practice privilege or employment is terminated or restricted. Each health facility or service shall produce and make accessible to the disciplining authority the appropriate records and otherwise facilitate the review and audit. Information so gained shall not be subject to discovery or introduction into evidence in any civil action pursuant to RCW 70.41.200(3).

**Sec. 18.** RCW 18.235.110 and 2007 c 256 s 18 are each amended to read as follows:

(i) Denial of an initial or renewal license application for an interval of time; or

(j) Other corrective action.

(2) The disciplinary authority may require reimbursement to the disciplinary authority for the investigative costs incurred in investigating the matter that resulted in issuance of an order under this section, but only if any of the sanctions in subsection (1)(a) through (j) of this section is ordered.

(3) Any of the actions under this section may be totally or partly stayed by the disciplinary authority. In determining what action is appropriate, the disciplinary authority must first consider what sanctions are necessary to protect the public health, safety, or welfare. Only after these provisions have been made may the disciplinary authority consider and include in the order requirements designed to rehabilitate the license holder or applicant. All costs associated with compliance with orders issued under this section are the obligation of the license holder or applicant.

(4) The licensee or applicant may enter into a stipulated disposition of charges that includes one or more of the sanctions of this section, but only after a statement of charges has been issued and the licensee has been afforded the opportunity for a hearing and has elected on the record to forego such a hearing. The stipulation shall either contain one or more specific findings of unprofessional conduct or a statement by the licensee acknowledging that evidence is sufficient to justify one or more specified findings of unprofessional conduct. The stipulations entered into under this subsection are considered formal disciplinary action for all purposes.

- (j) Refund of fees billed to or collected from the consumer.

Any of the actions under this section may be totally or partly stayed by the director. In determining what action is appropriate, the director shall consider sanctions necessary to protect the public, after which the director may consider and include in the order requirements designed to rehabilitate the certificate holder or applicant. All costs associated with compliance to orders issued under this section are the obligation of the certificate holder or applicant.

the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal street gang activity. (2) The state director of fire protection shall revoke the license of a licensed fire protection sprinkler system contractor or the certificate of a certificate of competency holder who engages in the fire protection sprinkler system business while the license or certificate of competency is suspended.

(3) The state director of fire protection shall immediately suspend any license or certificate issued under this chapter if the holder has been certified pursuant to RCW 74.20A.320 by the department of social and health services as a person who is not in compliance with a support order or a residential or visitation order. If the person has continued to meet all other requirements for issuance or reinstatement during the suspension, issuance or reissuance of the license or certificate shall be automatic upon the director's receipt of a release issued by the department of social and health services stating that the person is in compliance with the order.

(4) Any licensee or certificate of competency holder who is aggrieved by an order of the state director of fire protection suspending or revoking a license may, within thirty days after notice of such suspension or revocation, appeal under chapter 34.05 RCW. This subsection does not apply to actions taken under subsection (3) of this section.

**Sec. 22.** RCW 18.130.160 and 2008 c 134 s 10 are each amended to read as follows:

Upon a finding, after hearing, that a license holder has committed unprofessional conduct or is unable to practice with reasonable skill and safety due to a physical or mental condition, the disciplining authority shall issue an order including sanctions adopted in accordance with the schedule adopted under RCW 18.130.390 giving proper consideration to any prior findings of fact under RCW 18.130.110, any stipulations to informal disposition under RCW 18.130.172, and any action taken by other in-state or out-of-state disciplining authorities. The order must provide for one or any combination of the following, as directed by the schedule, except as provided in section 3 of this act:

- (1) Revocation of the license;
- (2) Suspension of the license for a fixed or indefinite term;
- (3) Restriction or limitation of the practice;
- (4) Requiring the satisfactory completion of a specific program of remedial education or treatment;
- (5) The monitoring of the practice by a supervisor approved by the disciplining authority;
- (6) Censure or reprimand;
- (7) Compliance with conditions of probation for a designated period of time;
- (8) Payment of a fine for each violation of this chapter, not to exceed five thousand dollars per violation. Funds received shall be placed in the health professions account;

- (10) Corrective action;
- (11) Refund of fees billed to and collected from the consumer;
- (12) A surrender of the practitioner's license in lieu of other sanctions, which must be reported to the federal data bank.

Any of the actions under this section may be totally or partly stayed by the disciplining authority. Safeguarding the public's health and safety is the paramount responsibility of every disciplining authority. In determining what action is appropriate, the disciplining authority must consider the schedule adopted under RCW 18.130.390. Where the schedule allows flexibility in determining the appropriate sanction, the disciplining authority must first consider what sanctions are necessary to protect or compensate the public. Only after such provisions have been made may the disciplining authority consider and include in the order requirements designed to rehabilitate the license holder. All costs associated with compliance with orders issued under this section are the obligation of the license holder. The disciplining authority may order permanent revocation of a license if it finds that the license holder can never be rehabilitated or can never regain the ability to practice with reasonable skill and safety.

Surrender or permanent revocation of a license under this section is not subject to a petition for reinstatement under RCW 18.130.150.

The disciplining authority may determine that a case presents unique circumstances that the schedule adopted under RCW 18.130.390 does not adequately address. The disciplining authority may deviate from the

schedule adopted under RCW 18.130.390 when selecting appropriate sanctions, but the disciplining authority must issue a written explanation of the basis for not following the schedule.

The license holder may enter into a stipulated disposition of charges that includes one or more of the sanctions of this section, but only after a statement of charges has been issued and the license holder has been afforded the opportunity for a hearing and has elected on the record to forego such a hearing. The stipulation shall either contain one or more specific findings of unprofessional conduct or inability to practice, or a statement by the license holder acknowledging that evidence is sufficient to justify one or more specified findings of unprofessional conduct or inability to practice. The stipulation entered into pursuant to this subsection shall be considered formal disciplinary action for all purposes.

**NEW SECTION. Sec. 23.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 24.** If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

SECOND SUBSTITUTE HOUSE BILL NO. 1037 was read the second time.

Representative Shea moved the adoption of amendment (756):

On page 20, beginning after line 35, strike all material through "(" on page 21, at the beginning of line 9 and insert the following:

~~"((d) Residential schedule. The court may deviate from the standard calculation if the child spends a significant amount of time with the parent who is obligated to make a support transfer payment. The court may not deviate on that basis if the deviation will result in insufficient funds in the household receiving the support to meet the basic needs of the child or if the child is receiving temporary assistance for needy families. When determining the amount of the deviation, the court shall consider evidence concerning the increased expenses to a parent making support transfer payments resulting from the significant amount of time spent with that parent and shall consider the decreased expenses, if any, to the party receiving the support resulting from the significant amount of time the child spends with the parent making the support transfer payment."~~

On page 23, after line 27, insert the following:

"NEW SECTION. Sec. 7. A new section is added to chapter 26.19 RCW to read as follows:

(1) The court shall make an adjustment to the standard calculation for a shared residential schedule subject to the provisions in this section.

(2) An adjustment to the standard calculation based on the residential schedule may be made if there is a court order or findings made by an administrative law judge regarding the number of overnights the child or children spend with the obligor parent, and the number of overnights allocated to the obligor is equivalent to at least fourteen percent of annual overnights. The number of overnights in the court order or administrative law judge's findings must be used to calculate the residential adjustment. The findings made by an administrative law judge may be based upon a written agreement between the parents or upon sworn testimony provided by a party at the administrative hearing for child support.

(3) The adjustment must be based on the table in section 8 of this act and the formula set forth in the worksheet for calculating residential credit.

(4) An adjustment may not be made to the standard calculation based on the shared residential schedule if:

(a) The adjustment would result in insufficient funds in the household receiving the support transfer payment to meet the basic needs of the child;

(b) The obligee's net income before receiving the support transfer payment is at or below one hundred twenty-five percent of the federal poverty level guidelines for one person; or

(c) The child is receiving temporary assistance for needy families.

(5) To help parties estimate residential credit, the division of child support shall, if feasible and within available resources, create a residential credit calculator available online.

NEW SECTION. Sec. 8. A new section is added to chapter 26.19 RCW to read as follows:

Residential time table. The TOTAL column represents the anticipated total out-of-pocket expenses expressed as a percentage of the basic child support obligation that will be incurred by the parent who will pay child support. The total expenses are the sum of transferred and duplicated expenses. The DUPLICATED column represents the duplicated expenses and reflects the assumption that when there is an equal sharing of residential time, fifty percent of the basic child support obligation will be duplicated. The number of annual

overnights column will determine the particular fractions of TOTAL and DUPLICATED to be used in the residential time credit worksheet.

SECOND SUBSTITUTE HOUSE BILL NO. 2346 was read the second time.

Representative Morris moved the adoption of amendment (764):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds and declares that stimulating local investment in distributed renewable energy generation is an important part of a state energy strategy, helping to increase energy independence from fossil fuels, promote economic development, hedge against the effects of climate change, and attain environmental benefits. The legislature intends to increase the effectiveness of the existing renewable energy investment cost recovery program by reducing the maximum incentive rate provided for each kilowatt-hour of electricity generated by a renewable energy system over the period of the program and by creating opportunities for broader participation by low-income individuals and others who may not own the premises where a renewable energy system may be installed. The legislature intends to provide an incentive sufficient to promote installation of systems through 2020, at which point the legislature expects that the state's renewable energy industry will be capable of

sustained growth and vitality without the cost recovery incentive.

**NEW SECTION. Sec. 2.** A new section is added to chapter 82.16 RCW to read as follows:

(1) This section is the tax preference performance statement for the tax preference and incentives created under RCW 82.16.130 and section 7 of this act. This performance statement is only intended to be used for subsequent evaluation of the tax preference and incentives. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(2) The legislature categorizes the tax preference created under RCW 82.16.130 and incentive payments authorized in section 7 of this act as intended to:

(a) Induce participating utilities to make incentive payments to utility customers who invest in renewable energy systems; and

(b) By inducing utilities, nonprofit organizations, and utility customers to acquire and install renewable energy systems, retain jobs in the clean energy sector and create additional jobs.

(3) The legislature's public policy objectives are to:

(a) Increase energy independence from fossil fuels; and

(b) Promote economic development through increasing and improving investment in, development of, and use of clean energy technology in Washington; and

(c) Increase the number of jobs in and enhance the sustainability of the clean energy technology industry in Washington.

(4) It is the legislature's intent to provide the incentives in section 7 of this act and RCW 82.16.130 in order to ensure the sustainable job growth and vitality of the state's renewable energy sector. The purpose of the incentive is to reduce the costs associated with installing and operating solar energy systems by persons or entities receiving the incentive.

(5) As part of its 2019 tax preference reviews conducted under chapter 43.136 RCW, the joint legislative audit and review committee must review the tax preferences and incentives in section 7 of this act and RCW 82.16.130. The legislature intends for the legislative auditor to determine that the incentive has achieved its desired outcomes if the following objectives are achieved:

(a) Achievement of two hundred megawatts of solar photovoltaic capacity in Washington by 2020; and

(b) Growth of solar-related employment from 2015 levels, as evidenced by:

(i) An increased per capita rate of solar energy-related jobs in Washington, which may be determined by consulting a relevant trade association in the state; or

(ii) Achievement of an improved national ranking for solar energy-related employment and per capita solar energy-related employment, as reported in a nationally recognized report.

(6) In order to obtain the data necessary to perform the review, the joint legislative audit and review committee may refer to data collected by the Washington State University extension energy program and may obtain

employment data from the employment security department.

(7) The Washington State University extension energy program shall collect, through the application process, data from persons claiming the tax credit under RCW 82.16.130 and persons receiving the incentive payments created in section 7 of this act, as necessary, and may collect data from other interested persons as necessary to report on the performance of this act.

(8) All recipients of tax credits or incentive payments awarded under this chapter must provide necessary data requested by the Washington State University extension energy program or the joint legislative audit and review committee. Failure to comply may result in the loss of a tax credit award or incentive payment in the following year.

**Sec. 3.** RCW 82.16.120 and 2011 c 179 s 3 are each amended to read as follows:

(1)(a) Any individual, business, local governmental entity, not in the light and power business or in the gas distribution business, or a participant in a community solar project may apply to the light and power business serving the situs of the system, each fiscal year beginning on July 1, 2005, and ending June 30, 2016, for an investment cost recovery incentive for each kilowatt-hour from a customer-generated electricity renewable energy system.

(b) In the case of a community solar project as defined in RCW 82.16.110(2)(a)(i), the administrator must apply for the investment cost recovery incentive on behalf of each of the other owners.

(c) In the case of a community solar project as defined in RCW 82.16.110(2)(a)(iii), the company owning the community solar project must apply for the investment cost recovery incentive on behalf of each member of the company.

(2)(a) Before submitting for the first time the application for the incentive allowed under subsection (4) of this section, the applicant must submit to the department of revenue and to the climate and rural energy development center at the Washington State University, established under RCW 28B.30.642, a certification in a form and manner prescribed by the department that includes, but is not limited to, the ~~(following)~~ information ~~(=)~~ described in (c) of this subsection.

(b) No person may submit a certification to the department under (a) of this subsection after May 31, 2016.

(c) The certification must include:

(i) The name and address of the applicant and location of the renewable energy system.

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the certification must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the certification must also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) That the electricity produced by the applicant meets the definition of "customer-generated electricity" and that the renewable energy system produces electricity with:

- (A) Any solar inverters and solar modules manufactured in Washington state;
- (B) A wind generator powered by blades manufactured in Washington state;
- (C) A solar inverter manufactured in Washington state;
- (D) A solar module manufactured in Washington state;
- (E) A stirling converter manufactured in Washington state; or
- (F) Solar or wind equipment manufactured outside of Washington state;

(iv) That the electricity can be transformed or transmitted for entry into or operation in parallel with electricity transmission and distribution systems; and

(v) The date that the renewable energy system received its final electrical (~~(permit)~~) inspection from the applicable local jurisdiction.

~~((b))~~ (d) Within thirty days of receipt of the certification the department of revenue must notify the applicant by mail, or electronically as provided in RCW 82.32.135, whether the renewable energy system qualifies for an incentive under this section. The department may consult with the climate and rural energy development center to determine eligibility for the incentive. System certifications and the information contained therein are not confidential tax information under RCW 82.32.330 and are subject to disclosure (~~(under RCW 82.32.330(3)(1))~~).

(3)(a) By August 1st of each year ~~through August 1, 2016, the~~ application for the incentive must be made to the light and power business serving the situs of the system by certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system.

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the application must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the application must also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) The date of the notification from the department of revenue stating that the renewable energy system is eligible for the incentives under this section; and

(iv) A statement of the amount of kilowatt-hours generated by the renewable energy system in the prior fiscal year.

(b) Within sixty days of receipt of the incentive certification the light and power business serving the situs of the system must notify the applicant in writing whether the incentive payment will be authorized or denied. The business may consult with the climate and rural energy development center to determine eligibility for the incentive payment. Incentive certifications and the

information contained therein are not confidential tax information under RCW 82.32.330 and are subject to disclosure (~~(under RCW 82.32.330(3)(1))~~).

(c)(i) Persons, administrators of community solar projects, and companies receiving incentive payments must keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of incentive applied for and received. Such records must be open for examination at any time upon notice by the light and power business that made the payment or by the department. If upon examination of any records or from other information obtained by the business or department it appears that an incentive has been paid in an amount that exceeds the correct amount of incentive payable, the business may assess against the person for the amount found to have been paid in excess of the correct amount of incentive payable and must add thereto interest on the amount. Interest is assessed in the manner that the department assesses interest upon delinquent tax under RCW 82.32.050.

(ii) If it appears that the amount of incentive paid is less than the correct amount of incentive payable the business may authorize additional payment.

(4) Except for community solar projects, the investment cost recovery incentive may be paid fifteen cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For community solar projects, the investment cost recovery incentive may be paid thirty cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For the purposes of this section, the rate paid for the investment cost recovery incentive may be multiplied by the following factors:

(a) For customer-generated electricity produced using solar modules manufactured in Washington state or a solar stirling converter manufactured in Washington state, two and four-tenths;

(b) For customer-generated electricity produced using a solar or a wind generator equipped with an inverter manufactured in Washington state, one and two-tenths;

(c) For customer-generated electricity produced using an anaerobic digester, or by other solar equipment or using a wind generator equipped with blades manufactured in Washington state, one; and

(d) For all other customer-generated electricity produced by wind, eight-tenths.

(5)(a) No individual, household, business, or local governmental entity is eligible for incentives provided under subsection (4) of this section for more than five thousand dollars per year.

(b) Except as provided in (c) through (e) of this subsection (5), each applicant in a community solar project is eligible for up to five thousand dollars per year.

(c) Where the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), each owner is eligible for an incentive but only in proportion to the ownership share of the project, up to five thousand dollars per year.

(d) Where the applicant is a company owning a community solar project that has applied for an investment

cost recovery incentive on behalf of its members, each member of the company is eligible for an incentive that would otherwise belong to the company but only in proportion to each ownership share of the company, up to five thousand dollars per year. The company itself is not eligible for incentives under this section.

(e) In the case of a utility-owned community solar project, each ratepayer that contributes to the project is eligible for an incentive in proportion to the contribution, up to five thousand dollars per year.

~~(6) (If requests for the investment cost recovery incentive exceed the amount of funds available for credit to the participating light and power business, the incentive payments must be reduced proportionately.~~

~~(7))~~ The climate and rural energy development center at Washington State University energy program may establish guidelines and standards for technologies that are identified as Washington manufactured and therefore most beneficial to the state's environment.

~~((8))~~ (7) The environmental attributes of the renewable energy system belong to the applicant, and do not transfer to the state or the light and power business upon receipt of the investment cost recovery incentive.

~~((9))~~ (8) No incentive may be paid under this section for kilowatt-hours generated before July 1, 2005, or after June 30, ~~((2020))~~ 2016.

(9) Beginning July 1, 2016, program management, technical review, and tracking responsibilities of the department under this section are transferred to the Washington State University extension energy program. At the earliest date practicable and no later than June 30, 2016, the department must transfer all records necessary for the administration of the remaining incentive payments due under this section to the Washington State University extension energy program.

**NEW SECTION. Sec. 4.** A new section is added to chapter 82.16 RCW to read as follows:

(1) The legislature intends to allow participants in the renewable energy investment cost recovery program under RCW 82.16.120 to continue to receive payments for electricity produced through June 2020, at the rates they anticipated when they first received notice of eligibility from the department under RCW 82.16.120, unless and until requests for the incentive under RCW 82.16.120, this section, and section 7 of this act cumulatively exceed the amount of funds available for credit under RCW 82.16.130, as amended by this act.

(2) A person or community solar project administrator who has, before June 1, 2016, submitted a complete certification to the department under RCW 82.16.120(2) may apply to the Washington State University extension energy program to receive a certification authorizing the utility serving the situs of the renewable energy system to remit an investment cost recovery incentive for each kilowatt-hour generated by the renewable energy system beginning July 1, 2016, and ending June 30, 2020.

(a) The person or community solar project administrator must submit the application to the Washington State University extension energy program

before July 15, 2016, or within fifteen days of receiving a notice of eligibility from the department under RCW 82.16.120, whichever is later.

(b) The Washington State University extension energy program must review the data provided by the department under RCW 82.16.120(2) and the application requirements under section 7(7) of this act and establish an application process by which to collect system operation data including global positioning system coordinates, tilt, shading, and azimuth, and any additional information that it requires in order to issue the certification under this section. The Washington State University extension energy program must notify participants that providing such additional information is a condition of retaining certification to receive any payments otherwise due from utilities under this section beginning with the program year ending June 30, 2017.

(3) The Washington State University extension energy program must assess a fee of up to seventy-five dollars per applicant under this section. The fee must be deducted by each participating utility from the incentive payments due to such customers for the program year ending June 30, 2016, and must be remitted by the utility to the Washington State University extension energy program by September 30, 2016. The Washington State University extension energy program must deposit all revenue generated by this fee into the state general fund.

**Sec. 5.** RCW 82.16.130 and 2010 c 202 s 3 are each amended to read as follows:

(1) A light and power business shall be allowed a credit against taxes due under this chapter in an amount equal to ~~((investment cost recovery))~~ incentive payments made in any fiscal year under RCW 82.16.120 and section 7 of this act.

(2) The credits ~~((shall))~~ must be taken in a form and manner as required by the department. The credit under this section for the fiscal year may not exceed ~~((one-half))~~ two percent of the businesses' taxable power sales generated in calendar year 2014 and due under RCW 82.16.020(1)(b) or ~~((one))~~ two hundred fifty thousand dollars, whichever is greater. Incentive payments to participants in a ~~((utility-owned))~~ community solar project ~~((as defined in RCW 82.16.110(2)(a)(ii)))~~ may only account for up to twenty-five percent of the total allowable credit. Incentive payments ~~((to participants in a company owned community solar project as defined in RCW 82.16.110(2)(a)(iii) may only account for up to five percent of the total))~~ for electricity produced by commercial-scale systems may only account for up to twenty-five percent of the allowable credit.

(3) The credit may not exceed the tax that would otherwise be due under this chapter. Refunds shall not be granted in the place of credits. Expenditures not used to earn a credit in one fiscal year may not be used to earn a credit in subsequent years.

~~((2))~~ (4) For any business that has claimed credit for amounts that exceed the correct amount of the incentive payable under RCW 82.16.120, the amount of tax against which credit was claimed for the excess payments shall be

immediately due and payable. The department may deduct amounts due from future credits claimed by the business.

(a) Except as provided in (b) of this subsection, the department (~~shall~~) must assess interest but not penalties on the taxes against which the credit was claimed. Interest (~~shall~~) must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and (~~shall~~) accrues until the taxes against which the credit was claimed are repaid.

~~((3))~~ (b) A business is not liable for excess payments made in reliance on amounts reported by the Washington State University extension energy program as due and payable as provided under section 7(19) of this act, if such amounts are later found to be abnormal or inaccurate due to no fault of the business.

(5) The amount of credit taken under this section is not confidential taxpayer information under RCW 82.32.330 and is subject to disclosure.

(6) The right to earn tax credits under this section expires June 30, (~~(2020)~~) 2030. Credits may not be claimed after June 30, (~~(2024)~~) 2031.

**NEW SECTION. Sec. 6.** A new section is added to chapter 82.16 RCW to read as follows:

The definitions in this section apply throughout this section and sections 7 and 8 of this act unless the context clearly requires otherwise.

(1) "Certification" means the authorization issued by the Washington State University extension energy program establishing a person's eligibility to receive annual incentive payments from the person's utility for a term of ten years.

**NEW SECTION. Sec. 7.** A new section is added to chapter 82.16 RCW to read as follows:

(1) Beginning July 1, 2016, the following persons may apply to the Washington State University extension energy program to receive a certification authorizing the utility serving the situs of a renewable energy system in the state of Washington to remit an annual production incentive for each kilowatt-hour of alternating current electricity generated by the renewable energy system:

(a) The utility's customer who is the customer-owner of a residential-scale or commercial-scale renewable energy system; or

(b) The nonprofit organization or utility that administers a community solar project meeting the eligibility requirements outlined in section 8 of this act and applies for certification on behalf of each of the project participants.

(2) No person is eligible to receive incentive payments provided under subsection (1)(a) of this section of more than twenty-five thousand dollars per year.

(3)(a) No new certification may be issued under this section for a renewable energy system that was certified under RCW 82.16.120 and submitted a request for or received an annual incentive payment, or for a renewable energy system served by a utility that has elected not to participate in the incentive program, as provided in subsection (4) of this section.

(b) No new certification may be issued under this section for an additional system, either residential-scale or commercial-scale, if a residential-scale or commercial-scale system at the same situs or at the same billing meter has already been certified under this section. Instead, an applicant may seek recertification of an expanded system, as provided in (c) of this subsection.

(c) The Washington State University extension energy program may issue a recertification for a residential-scale or commercial-scale system if a customer makes investments resulting in an expansion of the system's nameplate capacity. Such recertification expires on the same day as the original certification for the residential-scale or commercial-scale system and applies to the entire system the incentive rates and program rules in effect as of the date of the recertification.

(4) A utility's participation in the incentive program provided in this section is voluntary.

(a) A utility electing to participate in the incentive program must notify the Washington State University extension energy program of such election in writing.

(b) The utility may terminate its voluntary participation in the production incentive program by providing notice in writing to the Washington State University extension energy program to cease issuing new certifications for renewable energy systems that would be served by that utility.

(c) Such notice of termination of participation is effective after fifteen days, at which point the Washington State University extension energy program may not accept new applications for certification of renewable energy systems that would be served by that utility.

(d) Upon receiving a utility's notice of termination of participation in the incentive program, the Washington State University extension energy program must report on its web site that customers of that utility are no longer eligible to receive new certifications under the program.

(e) A utility's termination of participation does not affect the utility's obligation to continue to make annual incentive payments for electricity generated by systems that were certified prior to the effective date of the notice. The Washington State University extension energy program must continue to process and issue certifications for renewable energy systems that were received by the Washington State University extension energy program before the effective date of the notice of termination.

(f) A utility that has terminated participation in the program may resume participation upon filing notice with the Washington State University extension energy program.

(5)(a) The Washington State University extension energy program may certify a renewable energy system that is connected to equipment capable of measuring the electricity production of the system and interconnecting with the utility's system in a manner that allows the utility, or the customer at the utility's option, to measure and report to the Washington State University extension energy program the total amount of electricity produced by the renewable energy system.

(b) If the utility opts to require the customer to report electricity production data to the Washington State University extension energy program or opts to provide the report by mail rather than in an electronic format, the utility must negotiate with the Washington State University extension energy program a fee-for-service arrangement that covers the program's costs of obtaining the electricity production data and incorporating it into an electronic format. The Washington State University extension energy program must deposit all revenue generated by this fee into the state general fund. This fee-for-service arrangement is also applicable to a utility's exercise of the option of requiring customer reporting or by mail reporting, described in subsection (18) of this section.

(6) The Washington State University extension energy program may issue a certification authorizing annual incentive payments up to the following annual dollar limits:

(a) For community solar projects, five thousand dollars per project participant;

(b) For residential-scale systems, five thousand dollars; and

(c) For commercial-scale systems, twenty-five thousand dollars.

(7) To obtain certification under this section, a person must submit to the Washington State University extension energy program an application, including:

(a) An affidavit that the applicant has not previously received a notice of eligibility from the department under RCW 82.16.120 entitling the applicant to receive annual incentive payments for electricity generated by the renewable energy system at the same meter location;

(b) System operation data including global positioning system coordinates, tilt, shading, and azimuth;

(c) Any other information the Washington State University extension energy program deems necessary in determining eligibility and incentive levels, administering the program, tracking progress toward achieving the limits on program participation established in RCW 82.16.130, or facilitating the review of the performance of the tax preferences by the joint legislative audit and review committee, as described in section 2 of this act; and

(d)(i) Except as provided in (d)(ii) of this subsection (7), the date that the renewable energy system received its final electrical inspection from the applicable local jurisdiction, as well as a copy of the permit or, if the permit is available online, the permit number.

(ii) The Washington State University extension energy program may waive the requirement in (d)(i) of this subsection (7), accepting an application and granting provisional certification prior to proof of final electrical inspection. Provisional certification expires one hundred eighty days after issuance, unless the applicant submits proof of the final electrical inspection from the applicable local jurisdiction or the Washington State University extension energy program extends the certification, for a term or terms of thirty days, due to extenuating circumstances.

(8) No incentive payments may be authorized or accrued until the final electrical inspection and executed interconnection agreement are submitted to the Washington State University extension energy program.

(9) Within thirty days of receipt of the application for certification, the Washington State University extension energy program must notify the applicant and, except when a utility is the applicant, the utility serving the situs of the system, by mail or electronically, whether certification has been granted. The certification notice must state the rate to be paid per kilowatt-hour of electricity generated by the renewable energy system, as provided in subsection (12) of this section, subject to any applicable cap on total annual payment provided in subsection (6) of this section.

(10) Certification is valid for ten years and may not be retroactively changed except to correct later discovered errors that were made during the original application or certification process.

(11) System certification follows the system if the following conditions are met using procedures established by the Washington State University extension energy program:

(a) The renewable energy system is transferred to a new owner who notifies the Washington State University extension energy program of the transfer; and

(b) The new owner provides an executed interconnection agreement with the utility serving the premises.

(12) The Washington State University extension energy program must determine the total incentive rate for a new renewable energy system certification by adding to the base rate any applicable made-in-Washington bonus rate. A made-in-Washington bonus rate is provided for a renewable energy system or a community solar project with solar modules made in Washington or with a wind turbine or tower that is made in Washington. Both the base rates and bonus rate vary, depending on the fiscal year in which the system is certified and the type of renewable energy system being certified, as provided in the following table:

Fiscal year of system certification	Base rate - residential-scale	Base rate - commercial-scale	Base rate - community solar	Base rate - Washington bonus
2017	\$0.13	\$0.08	\$0.13	\$0.05
2018	\$0.11	\$0.06	\$0.10	\$0.05
2019	\$0.09	\$0.04	\$0.07	\$0.04
2020	\$0.07	\$0.02	\$0.05	\$0.04

Certification of a renewable energy system entitles the recipient to receive incentive payments for electricity generated for a period of ten years from the date the system commences operation or the date the system is certified, whichever date is later. For purposes of this section, the Washington State University extension energy program must define when a renewable energy system commences operation and provide notice of such date to the recipient and the utility serving the situs of the system.

(13) The Washington State University extension energy program must cease to issue new certifications:

(a) For community solar projects in any fiscal year that twenty-five percent of available funds for credit that year under RCW 82.16.130 have been allocated to community solar projects; and

(b) For any additional renewable energy system served by a utility, if certification is likely to result in incentive payments by that utility exceeding the utility's available funds for credit under RCW 82.16.130, taking into consideration funds allocated for participants under RCW 82.16.120 and section 4 of this act.

(14) If the Washington State University extension energy program ceases issuing new certifications during a fiscal year or biennium as provided in subsection (13) of this section, in the following fiscal year or biennium, or when additional funds are available for credit such that the thresholds described in subsection (13) of this section are no longer exceeded, the Washington State University extension energy program shall resume issuing new certifications using a method of awarding certifications that results in equitable and orderly allocation of benefits to applicants.

(15) In order to begin to receive annual incentive payments, a person who has been issued a certification for the incentive as provided in subsection (9) of this section must submit the certification to the utility serving the situs of the system and must obtain an executed interconnection agreement with the utility.

(16) The Washington State University extension energy program must establish a list of equipment that is eligible for the bonus rates described in subsection (12) of this section. The Washington State University extension

energy program shall, in consultation with the department of commerce, develop technical specifications and guidelines to ensure consistent and predictable determination of eligibility. A solar module is made in Washington for purposes of receiving the bonus rate only if the lamination of the module takes place in Washington. A wind turbine is made in Washington only if it is powered by a turbine or built with a tower manufactured in Washington.

(17) The manufacturer of a renewable energy system component subject to a bonus rate under subsection (12) of this section may apply to the Washington State University extension energy program to receive a determination of eligibility for such bonus rates. The Washington State University extension energy program must publish a list of components that have been certified as eligible for such bonus rates. The Washington State University extension energy program may assess an equipment certification fee to recover its costs. The Washington State University extension energy program must deposit all revenue generated by this fee into the state general fund.

(18) Annually, the utility, or the customer at the utility's option, must report to the Washington State University extension energy program, by mail or electronically, the amount of gross kilowatt-hours generated by each renewable energy system since the prior annual report.

(19)(a) The Washington State University extension energy program must calculate for the year and provide to the utility the amount of the incentive payment due to each participant and the total amount of credit against tax due available to the utility under RCW 82.16.130 that has been allocated as annual incentive payments. Upon notice to the Washington State University extension energy program, a utility may opt to directly perform this calculation and provide its results to the Washington State University extension energy program.

(b) If the Washington State University extension energy program identifies an abnormal production claim, it must notify the utility, the department of revenue, and the applicant, and must recommend withholding payment until the applicant has demonstrated that the production claim is accurate and valid. The utility is not liable to the customer for withholding payments pursuant to such recommendation unless and until the Washington State University extension energy program notifies the utility to resume incentive payments.

(20)(a) The utility must issue the incentive payment within thirty days of receipt of the information required under subsection (19)(a) of this section from the Washington State University extension energy program. The utility must resume the incentive payments withheld under subsection (19)(b) of this section within thirty days of receiving notice from the Washington State University extension energy program that the claim has been demonstrated accurate and valid and payment should be resumed.

(b) A utility is not liable for incentive payments to a customer-owner if the utility has disconnected the customer due to a violation of a customer service

agreement, such as nonpayment of the customer's bill, or a violation of an interconnection agreement.

(21) Beginning January 1, 2017, the Washington State University extension energy program must post on its web site and update at least monthly a report, by utility, of:

(a) The number of certifications issued for renewable energy systems, including estimated system sizes, costs, and annual energy production and incentive yields for various system types; and

(b) An estimate of the amount of credit that has not yet been allocated for incentive payments under each utility's credit limit and remains available for new renewable energy system certifications.

(22) Persons receiving incentive payments under this section must keep and preserve, for a period of five years for the duration of the consumer contract, suitable records as may be necessary to determine the amount of incentive payments applied for and received. The Washington State University extension energy program may direct a utility to cease issuing incentive payments if the records are not made available for examination upon request. A utility receiving such a directive is not liable to the applicant for any incentive payments or other damages for ceasing payments pursuant to the directive.

(23) The nonpower attributes of the renewable energy system belong to the utility customer who owns or hosts the system or, in the case of a community solar project, the participant, and can be kept, sold, or transferred at the utility customer's discretion unless, in the case of a utility-owned system, a contract between the customer and the utility clearly specifies that the attributes will be retained by the utility.

(24) All lists, technical specifications, determinations, and guidelines developed under this section must be made publicly available online by the Washington State University extension energy program.

(25) No certification may be issued under this section after June 30, 2020.

(26) The Washington State University extension energy program must establish a one-time fee for applications under this section not to exceed seventy-five dollars per applicant. The Washington State University extension energy program must deposit all revenue generated by this fee into the state general fund. The Washington State University extension energy program must administer and budget for the program established in RCW 82.16.120, this section, and sections 4 and 8 of this act in a manner that ensures its administrative costs through June 30, 2021, are completely met by the revenues from this fee. If the Washington State University extension energy program determines that the fee authorized in this subsection is insufficient to cover the administrative costs through June 30, 2021, the Washington State University extension energy program must report to the legislature on costs incurred and fees collected and demonstrate why a different fee amount or funding mechanism should be authorized.

(27) The Washington State University extension energy program may, through a public process, develop any program requirements and policies necessary for the administration of this section, RCW 82.16.120, and sections 2, 6, and 8 of this act. The department is

authorized, in consultation with the Washington State University extension energy program, to adopt any rules necessary for administration of the program.

(28) Applications, certifications, requests for incentive payments under this section, and the information contained therein are not deemed tax information under RCW 82.32.330 and are subject to disclosure.

**NEW SECTION. Sec. 8.** A new section is added to chapter 82.16 RCW to read as follows:

(1) The purpose of the community solar project is to facilitate broad, equitable community investment in and access to solar power. Beginning July 1, 2016, a utility or nonprofit organization may organize and administer a community solar project as provided in this section.

(2) A community solar project must have a direct current nameplate capacity that is no more than five hundred kilowatts and must have at least ten participants. Except for community solar projects authorized under subsection (5) of this section, each participant must be a customer of the utility providing service at the situs of the community solar project.

(3) A utility or nonprofit administrator of a community solar project must administer the project in a transparent manner that allows for fair and nondiscriminatory opportunity for participation by utility customers.

(4) The utility or nonprofit administrator of a community solar project may establish a reasonable fee to cover costs incurred in organizing and administering the community solar project. Project participants, prior to making the commitment to participate in the project, must be given clear and conspicuous notice of the portion of the incentive payment that will be used for this purpose.

(5) A public utility district that is engaged in distributing electricity to more than one retail electric customer in the state and a joint operating agency organized under chapter 43.52 RCW on or before January 1, 2016, may enter into an agreement with each other to construct and own a community solar project that is located on property owned by a joint operating agency or on property that receives electric service from a participating public utility district. Each participant of a community solar project under this subsection must be a customer of at least one of the public utility districts that is a party to the agreement with a joint operating agency to construct and own a community solar project.

**NEW SECTION. Sec. 9. (1) Findings.** The legislature finds that a convenient, safe, and environmentally sound system for the recycling of solar modules, minimization of hazardous waste, and recovery of commercially valuable materials must be established. The legislature further finds that the responsibility for this system must be shared among all stakeholders, with manufacturers financing the takeback and recycling system.

(2) **Definitions.** For purposes of this section the following definitions apply:

(a) "Department" means the department of ecology.

(b) "Manufacturer" means any person in business or no longer in business but having a successor in interest who, irrespective of the selling technique used, including by means of distance or remote sale:

(i) Manufactures or has manufactured a solar module under its own brand names for sale in or into this state;

(ii) Assembles or has assembled a solar module that uses parts manufactured by others for sale in or into this state under the assembler's brand names;

(iii) Resells or has resold in or into this state under its own brand names a solar module produced by other suppliers, including retail establishments that sell solar modules under their own brand names;

(iv) Manufactures or has manufactured a cobranded solar module product for sale in or into this state that carries the name of both the manufacturer and a retailer;

(v) Imports or has imported a solar module into the United States that is sold in or into this state. However, if the imported solar module is manufactured by any person with a presence in the United States meeting the criteria of manufacturer under (a) through (d) of this subsection, that person is the manufacturer;

(vi) Sells at retail a solar module acquired from an importer that is the manufacturer and elects to register as the manufacturer for those products; or

(vii) Elects to assume the responsibility and register in lieu of a manufacturer as defined under (b)(i) through (vi) of this subsection.

(c) "Rare earth element" means lanthanum, cerium, praseodymium, neodymium, promethium, samarium, europium, gadolinium, terbium, dysprosium, holmium, erbium, thulium, ytterbium, lutetium, yttrium, or scandium.

(d) "Reuse" means any operation by which a solar module or a component of a solar module changes ownership and is used for the same purpose for which it was originally purchased.

(e) "Solar module" means the smallest nondivisible, environmentally protected, essentially planar assembly of solar cells, or other solar collector technology and ancillary parts intended to generate direct current power under sunlight, including but not limited to interconnections, terminals, and protective devices such as diodes, that is capable of interconnecting with the electric grid.

(f) "Stewardship plan" means the plan developed by a manufacturer or its designated stewardship organization for a self-directed stewardship program.

(g) "Stewardship program" means the activities conducted by a manufacturer or a stewardship organization to fulfill the requirements of this chapter and implement the activities described in its stewardship plan.

### (3) Program guidance, review, and approval.

The department must develop guidance for a solar module stewardship and takeback program to guide manufacturers in preparing and implementing a self-directed program to ensure the convenient, safe, and environmentally sound takeback and recycling of solar modules and their components and materials. By January 1, 2017, the department must establish a process to develop guidance for solar module stewardship plans by working with manufacturers, stewardship organizations, and other stakeholders on the content, review, and approval of

stewardship plans. The department's process must be fully implemented and stewardship plan guidance completed by January 1, 2018.

(4) **Stewardship organization as agent of manufacturer.** A stewardship organization may be designated to act as an agent on behalf of a manufacturer or manufacturers in operating and implementing the stewardship program required under this chapter. Any stewardship organization that has obtained such designation must provide to the department a list of the manufacturers and brand names that the stewardship organization represents within sixty days of its designation by a manufacturer as its agent, or within sixty days of removal of such designation.

(5) **Stewardship plans.** Each manufacturer must prepare and submit a stewardship plan to the department by the later of January 1, 2019, or within thirty days of its first sale of a solar module in or into the state.

(a) A stewardship plan must, at a minimum:

(i) Include an adequate funding mechanism to finance the costs of collection, management, and recycling of solar modules and residuals sold in or into the state by the manufacturer with a mechanism that ensures that solar modules can be delivered to takeback locations without cost to the last owner or holder;

(ii) Accept all solar modules sold in or into the state after July 1, 2016;

(iii) Describe how the program will minimize the release of hazardous substances into the environment and maximize the recovery of other components, including rare earth elements and commercially valuable materials;

(iv) Provide for takeback of solar modules at locations that are within the region of the state in which the solar modules were used and are as convenient as reasonably practicable, and if no such location within the region of the state exists, include an explanation for the lack of such location;

(v) Identify how relevant stakeholders, including consumers, installers, building demolition firms, and recycling and treatment facilities, will receive information required in order for them to properly dismantle, transport, and treat the end-of-life solar modules in a manner consistent with the objectives described in (a)(iii) of this subsection;

(vi) Establish performance goals, including a goal for the rate of combined reuse and recycling of collected solar modules as a percentage of the total weight of solar modules collected, which rate must be no less than eighty-five percent.

(b) A manufacturer must implement the stewardship plan.

(c) A manufacturer may periodically amend its stewardship plan. The department must approve the amendment if it meets the requirements for plan approval outlined in the department's guidance. When submitting proposed amendments, the manufacturer must include an explanation of why such amendments are necessary.

(6) **Plan approval.** The department shall approve a stewardship plan if it determines the plan addresses each element outlined in the department's guidance.

(7) **Annual report.** (a) Beginning April 1, 2021, and by April 1st in each subsequent year, a manufacturer,

or its designated stewardship organization, must provide to the department a report for the previous calendar year that documents implementation of the plan and assesses achievement of the performance goals established in subsection (5)(a)(vi) of this section.

(b) The report may include any recommendations to the department or the legislature on modifications to the program that would enhance the effectiveness of the program, including management of program costs and mitigation of environmental impacts of solar modules.

(c) The manufacturer or stewardship organization must post this report on a publicly accessible web site.

(8) **Enforcement.** Beginning January 1, 2020, no manufacturer may sell or offer for sale a solar module in or into the state unless the manufacturer has submitted to the department a stewardship plan and received plan approval. The department shall send a written warning to a manufacturer that is not participating in a plan. The written warning must inform the manufacturer that it must submit a plan or participate in a plan within thirty days of the notice. The department may assess a penalty of up to ten thousand dollars for each sale of a solar module in or into the state that occurs after the initial written warning. A manufacturer may appeal a penalty issued under this section to the superior court of Thurston county within one hundred eighty days of receipt of the notice.

(9) **Fee.** The department may collect a flat fee from participating manufacturers to recover costs associated with the plan guidance, review, and approval process described in subsection (3) of this section. Other administrative costs incurred by the department for program implementation activities, including stewardship plan review and approval, enforcement, and any rule making, may be recovered by charging every manufacturer an annual fee calculated by dividing department administrative costs by the manufacturer's pro rata share of the Washington state solar module sales in the most recent preceding calendar year, based on best available information. The sole purpose of assessing the fees authorized in this subsection is to predictably and adequately fund the department's costs of administering the solar module recycling program.

(10) **Account.** The solar module recycling account is created in the custody of the state treasurer. All fees collected from manufacturers under this chapter must be deposited in the account. Expenditures from the account may be used only for administering this chapter. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Funds in the account may not be diverted for any purpose or activity other than those specified in this section.

(11) **Rule making.** The department may adopt rules as necessary for the purpose of implementing, administering, and enforcing this chapter.

(12) **National program.** In lieu of preparing a stewardship plan and as provided by subsection (5) of this section, a manufacturer may participate in a national program for the convenient, safe, and environmentally sound takeback and recycling of solar modules and their components and materials. The department must determine that the manufacturer's participation in the national

program is likely to achieve environmental outcomes in the state of Washington substantially equivalent to those achieved by a departmentally approved stewardship plan and is likely to be more cost-effective for the manufacturer than participation in a departmentally approved stewardship plan. The department may determine substantial equivalence if it determines that the national program adequately addresses each of the elements of a stewardship plan outlined in subsection (5)(a) of this section and includes an enforcement mechanism reasonably calculated to ensure a manufacturer's compliance with the national program. Upon issuing a determination of substantial equivalence, the department must notify affected stakeholders including the manufacturer. If the national program is discontinued or the department determines the national program no longer provides equivalent environmental outcomes in Washington, the department must notify the manufacturer. The manufacturer must provide a stewardship plan as described in subsection (5)(a) of this section to the department for approval within thirty days of notification.

**Sec. 10.** RCW 82.08.962 and 2013 2nd sp.s. c 13 s 1502 are each amended to read as follows:

(1)(a) Except as provided in RCW 82.08.963, purchasers who have paid the tax imposed by RCW 82.08.020 on machinery and equipment used directly in generating electricity using fuel cells, wind, sun, biomass energy, tidal or wave energy, geothermal resources, anaerobic digestion, technology that converts otherwise lost energy from exhaust, or landfill gas as the principal source of power, or to sales of or charges made for labor and services rendered in respect to installing such machinery and equipment, are eligible for an exemption as provided in this section, but only if the purchaser develops with such machinery, equipment, and labor a facility capable of generating not less than one thousand watts of electricity.

(b) Beginning on July 1, 2009, through June 30, 2011, the tax levied by RCW 82.08.020 does not apply to the sale of machinery and equipment described in (a) of this subsection that are used directly in generating electricity or to sales of or charges made for labor and services rendered in respect to installing such machinery and equipment.

(c) Beginning on July 1, 2011, through January 1, 2020, the amount of the exemption under this subsection (1) is equal to seventy-five percent of the state and local sales tax paid. The purchaser is eligible for an exemption under this subsection (1)(c) in the form of a remittance.

(2) For purposes of this section and RCW 82.12.962, the following definitions apply:

(a) "Biomass energy" includes: (i) By-products of pulping and wood manufacturing process; (ii) animal waste; (iii) solid organic fuels from wood; (iv) forest or field residues; (v) wooden demolition or construction debris; (vi) food waste; (vii) liquors derived from algae and other sources; (viii) dedicated energy crops; (ix) biosolids; and (x) yard waste. "Biomass energy" does not include wood pieces that have been treated with chemical preservatives such as creosote, pentachlorophenol, or copper-chrome-arsenic; wood from old growth forests; or municipal solid waste.

(b) "Fuel cell" means an electrochemical reaction that generates electricity by combining atoms of hydrogen and oxygen in the presence of a catalyst.

(c) "Landfill gas" means biomass fuel, of the type qualified for federal tax credits under Title 26 U.S.C. Sec. 29 of the federal internal revenue code, collected from a "landfill" as defined under RCW 70.95.030.

(d)(i) "Machinery and equipment" means fixtures, devices, and support facilities that are integral and necessary to the generation of electricity using fuel cells, wind, sun, biomass energy, tidal or wave energy, geothermal resources, anaerobic digestion, technology that converts otherwise lost energy from exhaust, or landfill gas as the principal source of power.

(ii) "Machinery and equipment" does not include: (A) Hand-powered tools; (B) property with a useful life of less than one year; (C) repair parts required to restore machinery and equipment to normal working order; (D) replacement parts that do not increase productivity, improve efficiency, or extend the useful life of machinery and equipment; (E) buildings; or (F) building fixtures that are not integral and necessary to the generation of electricity that are permanently affixed to and become a physical part of a building.

(3)(a) Machinery and equipment is "used directly" in generating electricity by wind energy, solar energy, biomass energy, tidal or wave energy, geothermal resources, anaerobic digestion, technology that converts otherwise lost energy from exhaust, or landfill gas power if it provides any part of the process that captures the energy of the wind, sun, biomass energy, tidal or wave energy, geothermal resources, anaerobic digestion, technology that converts otherwise lost energy from exhaust, or landfill gas, converts that energy to electricity, and stores, transforms, or transmits that electricity for entry into or operation in parallel with electric transmission and distribution systems.

(b) Machinery and equipment is "used directly" in generating electricity by fuel cells if it provides any part of the process that captures the energy of the fuel, converts that energy to electricity, and stores, transforms, or transmits that electricity for entry into or operation in parallel with electric transmission and distribution systems.

(4)(a) A purchaser claiming an exemption in the form of a remittance under subsection (1)(c) of this section must pay the tax imposed by RCW 82.08.020 and all applicable local sales taxes imposed under the authority of chapters 82.14 and 81.104 RCW. The purchaser may then apply to the department for remittance in a form and manner prescribed by the department. A purchaser may not apply for a remittance under this section more frequently than once per quarter. The purchaser must specify the amount of exempted tax claimed and the qualifying purchases for which the exemption is claimed. The purchaser must retain, in adequate detail, records to enable the department to determine whether the purchaser is entitled to an exemption under this section, including: Invoices; proof of tax paid; and documents describing the machinery and equipment.

(b) The department must determine eligibility under this section based on the information provided by the purchaser, which is subject to audit verification by the department. The department must on a quarterly basis remit

exempted amounts to qualifying purchasers who submitted applications during the previous quarter.

The seller must retain a copy of the certificate for the seller's files. For sellers who electronically file their taxes, the department must provide a separate tax reporting line for exemption amounts claimed by a buyer under this section.

**"NEW SECTION. Sec. 1.** This section is the tax preference performance statement for the tax preferences contained in sections 2 and 3 of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes the tax preference as one intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to increase the use of clean alternative fuel vehicles in Washington. It is the legislature's intent to extend the existing sales and use tax exemption on certain clean alternative fuel vehicles in order to reduce the price charged to customers for clean alternative fuel vehicles.

(3) To measure the effectiveness of the tax preferences in sections 2 and 3 of this act in achieving the public policy objectives described in subsection (2) of this section, the joint legislative audit and review committee must evaluate the number of clean alternative fuel vehicles registered in the state.
