**NEW SECTION. Sec. 3203. FOR THE DEPARTMENT OF NATURAL RESOURCES**  
Trust Land Transfer (08-2-005)

The appropriations in this section are subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes. The approved list of projects is identified in the LEAP capital document 2007-4, developed March 20, 2007.

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring forest lands of equal value to be managed as common school trust land.

(3) Property subject to lease agreements under this section shall be appraised at fair market value. Lease payments shall be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and shall be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) On June 30, 2009, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

 Conversion Land Acquisition (08-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations are provided solely for acquisition of working forest lands at risk of conversion to nonforest uses. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products industry, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these conversion lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2008, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intention of the legislature to lease the development rights of these conversion lands and retain them as long-term working forest lands under the sustainable harvest plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan. The appropriation provided in this section shall lapse unless chapter . . . Preventive Facility Maintenance and Building System Repairs (08-1-150)

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Building maintenance, mechanical adjustments, repairs, and minor works for the facility or its major building systems and campus infrastructure must extend the remaining useful life of the facility or keep it safe and functioning normally.

(2) With this appropriation, the intent is to improve the average condition of state facilities as compared to the baseline conditions documented in report 03-1 of the joint legislative audit and review committee. Preventive facility maintenance project funds must be allocated at the state board's discretion to achieve the performance goal stated in this subsection (2), with particular attention given to buildings currently rated in superior to adequate condition so as to maximize useful life given both the passage of time and intensity with which the space is used.

(3) Section 6003 of this act does not apply to this appropriation.

(4) There is no intent to reappropriate amounts not expended by June 30, 2009.

 Higher Education Cost Escalation (08-2-850)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for the state board for community and technical colleges to establish a process for allocating funds to projects that have experienced unanticipated cost escalation for projects bid during the 2007-2009 biennium. Not more than \$750,000 shall be made available to any single project and amounts provided for this purpose must be matched equally from nonstate resources. The board shall manage the distribution of funds to ensure that the requesting college has managed its project within the current appropriation through preparation of bid documents and that the scope of the project is no greater than was originally specified in the design. The board will report to the office of financial management and the appropriate fiscal committees of the legislature on the use of these funds.

Future Biennia (Projected Costs) . . . . .	\$0
TOTAL . . . . .	\$5,000,000

**MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS**

**NEW SECTION. Sec. 6001.** (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management. No expenditure may be incurred or obligation entered into for appropriations in this act until the office of financial management has given final approval to the allotment of the funds to be expended or encumbered. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. Contracts shall not be executed that call for expenditures in excess of the approved allotment, and the total amount shown in such contracts for the cost of future work that has not been appropriated shall not exceed the amount identified for such work in the level of funding approved by the office of financial management at the completion of predesign.

(2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

**NEW SECTION. Sec. 6002.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

**NEW SECTION. Sec. 6003.** (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

**NEW SECTION. Sec. 6004.** (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

**NEW SECTION. Sec. 6005.** (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

**NEW SECTION. Sec. 6006.** The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The higher education coordinating board's biennial budget guidelines and the prioritization process shall place greater emphasis on:

(a) Early critical review of project proposals at the predesign phase, rather than deferring critical review and prioritization to the design or construction phases of a project; and

(b) The capital budget bow wave for a six-year period, beginning with the 2009-2011 biennium through the 2013-2015 biennium.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to section 6003(2)(a) of this act. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

(a) Implement a specific legislatively authorized program or planning priority;

(b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;

(c) Provide additional capacity or adaptation of space for high demand instructional or research programs;

(d) Provide additional instructional program capacity for under-served geographic regions or populations; and

(e) Reflect institutional planning priorities and areas of emphasis.

(7) The higher education coordinating board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

(8) The council of presidents, in consultation with the board, shall report by September 1, 2007, to the appropriate legislative fiscal committees on the use of a proportionality factor in the scoring and ranking of projects. The report shall include:

(a) A definition of proportionality as it has been used in the scoring and ranking of projects for funding in the 2007-2009 biennium and may be used for subsequent biennia;

(b) A method for measuring proportionality in a valid and consistent manner; and

(c) An explanation of how proportionality relates to the statewide priorities established in subsection (6) of this section, including an assessment of the extent to which it promotes the achievement of these statewide priorities.

**NEW SECTION. Sec. 6007.** The Washington state auditor shall perform an audit of the Seattle public library and the secretary of state with regard to expenditures related to the facility located at 2021 9th Avenue, Seattle, Washington that houses the Washington talking book and braille library and city of Seattle functions. The audit shall be completed and results available to the legislature by September 1, 2007.

**NEW SECTION. Sec. 6008.** Eastern Washington University is authorized to sell its Spokane center. Proceeds from the sale must be deposited into the higher education construction account. Proceeds may be used to acquire or design a facility on or adjacent to the Riverpoint higher education campus for the university's Spokane-based program offerings. Eastern Washington University must report to the office of financial management and the appropriate fiscal committees of the legislature upon the sale of the center and with regard to expenditure of the proceeds.

**NEW SECTION. Sec. 6009.** The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

**NEW SECTION. Sec. 6010.** The effective use of state-supported space in higher education is an important factor in assessing both effective management and priorities for capital funding. It is also recognized that the facilities of the state vary significantly among the

community colleges, the comprehensive regional universities, and the research universities. It is further recognized that the existing higher education coordinating board space study does a good job of highlighting the use of a portion of the space for a specific chosen set of uses.

In order for the legislature to have a better awareness of all uses of all state-supported space, the council of presidents shall prepare an assessment of facilities use that covers the full scope of uses for all types of state-funded spaces. This assessment should start with the higher education coordinating board report and build upon this to include additional uses, space types, and methodologies, including methodologies and practices used by other higher education institutions.

To the extent possible, it would be helpful for this assessment to use the same definitions of space types and uses. Based upon the differences in mission and function, the assessment may be divided to look at the comprehensive regional universities along with The Evergreen State College in one group and the research universities as a second group.

The council of presidents shall coordinate this effort with the office of financial management, staff from the appropriate fiscal and higher education committees of the legislature, and the higher education coordinating board. The assessment shall be completed and delivered to the legislature by January 1, 2008.

**NEW SECTION. Sec. 6011.** State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

**NEW SECTION. Sec. 6012.** Due to the intended replacement of the building adjoining Capital Way and 11th avenue, the department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in that facility during the 2007-2009 biennium.

**NEW SECTION. Sec. 6013.** Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

**NEW SECTION. Sec. 6014. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS.** The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency's financing plan approved by the state finance committee.

State agencies may enter into agreements with the department of general administration and the state treasurer's office to develop requests to the legislature for acquisition of properties and facilities through financial contracts. The agreements may include charges for services rendered.

Those noninstructional facilities of higher education institutions authorized in this section to enter into financial contracts are not eligible for state funded maintenance and operations. Instructional space that is available for regularly scheduled classes for academic transfer, basic skills, and workforce training programs may be eligible for state funded maintenance and operations.

The purchase price shall not exceed the appraised fair market value. A purchase agreement shall include the following requirements: (a) Upon completion of the purchase of the property, the buyer shall put \$5,750,000 of the purchase price in an interest-bearing escrow account that shall be released to the seller after the seller has raised sixty-five percent of the funds required to develop a museum within the city of Seattle and has executed a development agreement with the city of Seattle; and (b) in the event that the conditions of (a) of this subsection are not met by June 30, 2013, the entire amount in the escrow account shall be transferred to the state general fund and shall represent a recovery of the state's contribution towards the development of the museum. In the event of such a transfer, the rightful ownership of the property by the Washington state convention and trade center shall not be impaired.

(8) Department of general administration: Enter into a financing contract for an amount approved by the office of financial management for costs and financing expenses and required reserves pursuant to chapter 39.94 RCW to lease develop or lease purchase a state general office building and facilities for the department of information services on the state-owned property called "the Wheeler block" in Olympia. The office buildings shall be constructed and financed so that agencies occupancy costs will not exceed comparable private market rental rates. The comparable general office space rate shall be calculated based on recent Thurston county leases of new space of at least 100,000 rentable square feet adjusted for known escalation clauses, expected inflation, and differences in the level of service provided by the comparable leases as determined by the department of general administration. In addition to the department of information services, state agency tenants shall include the state patrol and other state agencies specified in LEAP capital document No. 2007-xx. The office of financial management shall

certify to the state treasurer: (a) The project description and dollar amount; and (b) that all requirements of this subsection (10) have been met. Should the department choose to use a financing contract that does not provide for the issuance of certificates of participation, the financing contract shall be subject to approval by the state finance committee as required by RCW 39.94.010. In approving a financing contract not providing for the use of certificates of participation, the state finance committee should be reasonably certain that the contract is excluded from the computation of indebtedness, particularly that the contract is not backed by the full faith and credit of the state, and the legislature is expressly not obligated to appropriate funds to make payments. For purposes of this section, "financing contract" includes but is not limited to a certificate of participation and tax exempt financing similar to that authorized in RCW 47.79.140.

(9) Office of the secretary of state: Enter into a financing contract for up to \$112,942,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct the heritage center. The authorization for financing under this subsection (9) shall lapse unless chapter ... ([House] [Senate] Bill No. .... (Z-0290/07, providing funding for the heritage building project)), Laws of 2007 is enacted by June 30, 2007.

(10) Department of general administration: Enter into a financing contract for up to \$75,863,000 plus financing expenses and required reserves pursuant to chapter 39.94 RCW to construct the executive office building. The authorization for financing under this subsection (10) shall lapse unless chapter ... ([House] [Senate] Bill No. .... (Z-0290/07, providing funding for the heritage building project)), Laws of 2007 is enacted by June 30, 2007.

**NEW SECTION. Sec. 6015.** FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2009-2011 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

**NEW SECTION. Sec. 6017.** (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

**NEW SECTION. Sec. 6023.** NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. - (xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority: (i) Remedial actions; (ii) hazardous waste plans and programs under chapter 70.105 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and (v) cleanup and disposal of hazardous substances from abandoned or derelict vessels that pose a threat to human health or the environment. (1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall transfer an amount from the state general fund to the emergency reserve fund. The amount transferred shall equal the amount by which total state revenue for the general fund and related funds exceeds the state expenditure limit, multiplied by the percentage that general fund expenditures are of total

expenditures from the general fund and related funds. Transfers shall be made at the end of each fiscal quarter based on projections of state revenues, expenditures, and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

Energy Freedom Program (06-2-851)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) The appropriation is provided solely for low-interest loans to political subdivisions for renewable energy projects including the development of biofuel oilseed crushers, supporting infrastructure, and facilities. The political subdivision may negotiate an appropriate agreement with the bioenergy industry for the use of the oilseed crushers, supporting infrastructure, and facilities.

(b) For purposes of this section, political subdivision means any port district, county, city, town, special purpose district, and any other municipal corporations or quasi-municipal corporations in the state.

(2) The appropriation is provided solely for the following list of projects:

<b>Project</b>	<b>Recommendation</b>
Spokane Conservation district	( <del>(\$2,000,000)</del> ) \$1,779,000
Port of Warden	\$2,500,000
Odessa public development authority	( <del>(\$2,500,000)</del> ) \$3,500,000
( <del>Port of Columbia county</del> )	<del>(\$2,500,000)</del> \$0
Port of Sunnyside	\$750,000
<u>A public subdivision working with the DeRuyter Farms anaerobic digester project</u>	<u>\$1,973,000</u>
Total	( <del>(\$10,250,000)</del> ) \$10,502,000

(3) All agreements negotiated between the political subdivision and the bioenergy industry for use of the oilseed crushers, supporting infrastructure, or facilities funded in this section must provide for at least a fifty percent match by the industry partner. The industry match may include, but is not limited to, investments in rail, buildings, refining capacity, or seed stock.

(4) All other project funds must be disbursed prior to energy freedom loans, except where required on a matching basis by other federal or state programs.

(5) The department shall disburse loans to the political subdivision on a reimbursement basis only.

(6) The department may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.

(7) Upon written notice to the political subdivision, the department may suspend or cancel its loans if any of the following occur:

(a) The political subdivision fails to make satisfactory and reasonable progress to complete the project, or the department concludes the political subdivision will be unable to complete the project or any portion of it; or

(b) The political subdivision or bioenergy industry partners have made misrepresentations in any information furnished to the department or the legislature in connection with the project.

(8) In the event that any portion of the loan has been paid to the political subdivision under this section at the time of breach, or failure of the political subdivision to satisfactorily perform, the department may require that the full amount of the loan, or a portion thereof, be repaid within a period specified by the department.

(9) Future loan repayments shall be deposited into the energy freedom account created in section 6, chapter . . . (Engrossed Third Substitute House Bill No. 2939), Laws of 2006.

(10) It is the intent of the legislature to provide loans for the development of a Washington state biodiesel industry based on Washington grown oilseed. The legislature is aware that in the development of this industry, the start-up process may necessitate the use of other oilseeds until Washington state growers plant sufficient crops to support this industry. The legislature also understands the realities of weather and market conditions in this process. The conversion to maximum Washington grown oilseed must be accomplished as quickly as possible. The political subdivision shall: (a) Develop a plan for outreach to local growers and an estimate of when maximum Washington state oilseed-based production will be reached; (b) develop a goal for the political subdivision to return a portion of the biofuel to local oilseed producers; and (c) report this information to the department of agriculture by December 1, 2006. The department shall report on the implementation of this section by January 1, 2007, to the appropriate committees of the legislature.

(11) If chapter . . . (House Bill No. 1303/Senate Bill No. 5586 (cleaner energy)), Laws of 2007 is enacted, then the amounts in this section are appropriated to the department of community, trade, and economic development.

HUMAN SERVICES**

**NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 13,000 persons during the 2007-2009 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the

department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(a) \$103,989,000 of the general fund--state appropriation for fiscal year 2008 and \$104,080,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for persons and services not covered by the medicaid program. These funds shall be distributed proportionally to each regional support network's percentage of the total state population.

(b) \$16,900,000 of the general fund--state appropriation for fiscal year 2008 and \$16,900,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches that the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(c) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 222 per day throughout fiscal year 2008. Beginning January 1, 2009, the number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. (d) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(f) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(g) \$5,000,000 of the general fund--state appropriation for fiscal year 2008 and \$5,000,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(k) \$2,250,000 of the general fund--state appropriation for fiscal year 2008, \$2,250,000 of the general fund--state appropriation for fiscal year 2009, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

Under the department's proposed rate system, effective August 1, 2007, each hospital's inpatient psychiatric payment rate would have been set at a percentage of that hospital's estimated per diem cost for psychiatric inpatient care during the most recent rebasing year. Within the amount provided in this subsection (1)(m), beginning August 1, 2007, each hospital's inpatient psychiatric payment rate shall instead be set at the greater of a percentage of: (i) The hospital's estimated per diem cost for psychiatric inpatient care during the most recent rebasing year; or (ii) the statewide average per diem cost for psychiatric inpatient care during the most recent rebasing year, adjusted for regional wage differences and for differences in medical education costs. At least thirty days prior to implementing adjustments to regional support network medicaid capitation rates and nonmedicaid allocations to account for changes in psychiatric inpatient payment rates, the department shall report on the proposed adjustments to the appropriations committee of the house of representatives and the ways and means committee of the senate.

(n) \$6,267,000 of the general fund--state appropriation for fiscal year 2008 and \$6,462,000 of the general fund--federal appropriation for fiscal year 2009 are provided solely to increase nonmedicaid psychiatric inpatient payment rates over fiscal year 2005 levels. TOTAL APPROPRIATION. . . . .	\$8,312,963,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(4) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(6) \$1,111,000 of the health services account appropriation for fiscal year 2008, \$1,110,000 of the health services account appropriation for fiscal year 2009, \$5,402,000 of the general fund--federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2008, and \$1,591,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) \$10,546,000 of the health services account appropriation for fiscal year 2008, \$10,546,000 of the health services account--state appropriation for fiscal year 2009, and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2007-2009 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit a report to the governor and legislature by November 1, 2007, that evaluates whether savings continue to exceed costs for this program. If the certified public expenditures program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2008 and fiscal year 2009, hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount that is the total of (a) the total payment for claims for services rendered during the fiscal year calculated according to the methodology employed by the legislature in the omnibus appropriations act for implementation in fiscal year 2008 and (b) disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 that pertain to fiscal year 2005. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and is subject to an interim cost settlement within eleven months after the end of the fiscal year. A final cost settlement shall be performed within two years after the end of the related fiscal year. To the extent that a final cost settlement determines that a hospital has received funds in excess of what it would have received under the methodology in place in fiscal year 2008 as described in this subsection, the hospital must repay these amounts to the state when requested. \$74,066,000 of the general fund--state appropriation for fiscal year 2008, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, and \$59,776,000 of the general fund--state appropriation for fiscal year 2009, of which \$6,570,000 is appropriated in section 204(1) of this act and the balance in this section, are provided solely for state grants for the participating hospitals.

The amounts are conditioned on the department satisfying the requirements of section 902 of this act.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(12) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(13) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings.

(14) \$1,688,000 of the general fund--state appropriation for fiscal year 2008 and \$1,689,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to incorporate a mental health service component to the pilot project established pursuant to subsection

(13) of this section. Addition of the mental health service component authorized in this subsection is contingent upon the managed care contractor or the participating counties providing, alone or in combination, matching funds in cash or in kind, in an amount equal to one-ninth of the amounts appropriated in this subsection. The mental health service component may include care coordination, mental health services, and integrated medical and mental health service delivery for general assistance clients with mental health disorders, as well as primary care provider training and education. The department shall provide a report to the appropriate committees of the legislature by January 1, 2009, on costs, savings, and any outcomes or quality measures associated with the pilot projects during calendar year 2007 and 2008. To the extent possible, the report shall address any impact that the mental health services component has had upon clients' use of medical services, including but not limited to primary care physician's visits, emergency room utilization, and prescription drug utilization.

If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse.

(16) \$6,529,000 of the general fund--state appropriation for fiscal year 2008 and \$6,651,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to provide full benefit dual eligible beneficiaries with medicare part D prescription drug copayment coverage in accordance with chapter 3, Laws of 2007 (part D copayment drug program).

(17) The department shall conduct a study to determine the financial impact associated with continuing to cover brand name medications versus the same medication in its generic form. The study shall account for all rebates paid to the state on each product studied up until the point where the generic form is less expensive, net of federally required rebates. The department shall submit its report to the legislative fiscal committees by December 1, 2007.

(18) \$198,000 of the general fund--state appropriation for fiscal year 2008 and \$268,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the first two years of a four-year project by the Seattle-King county health department to improve management of symptoms and reduce complications related to asthma among medicaid eligible children. The department shall contract with the Seattle-King county health department to have trained community health workers visit medicaid eligible children in their homes to identify and reduce exposure to asthma triggers, improve clients' self-management skills, and coordinate clients' care with their primary care and specialty providers. The contract shall include an evaluation of the impact of the services provided under the contract on urgent physician's visits, emergency room utilization, and inpatient hospitalization.

(19) \$2,450,000 of the general fund--state appropriation for fiscal year 2008 and \$1,950,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for development and implementation of an outreach program as provided in chapter 5, Laws of 2007 (Second Substitute Senate Bill No. 5093, health services for children). (b) Undertake, directly or by contract, a study to determine the cost-effectiveness of paying premiums for enrollment of full benefit dual eligible beneficiaries in medicare advantage plans in lieu of paying full benefit dual eligible beneficiaries' medicare cost-sharing. The study shall compare the cost and health outcomes experience, including rates of nursing home placement and costs for groups of full benefit dual eligible beneficiaries who are enrolled in medicare advantage plans, in medicare special needs plan or in medicare fee-for-service. The study shall compare the health status and utilization of health and long-term care services for the three groups, and the impact of access to a medical home and specialty care, over a period of two years to determine any differences in health status, health outcomes, and state expenditures that result. The department shall submit the results of the study to the governor and the legislature by June 30, 2009. The department is authorized to accept private cash and in-kind donations and grants to support the study and evaluation.

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.
- (d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
- (e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 2 and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180- day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school- wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

Allocations for these salary increases shall be provided to all 262 districts that are not grandfathered to receive salary allocations above the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule. These additional salary increases will result in a decrease in the number of grandfathered districts from the current thirty-four to twenty-four in the 2007-08 school year and to thirteen in the 2008-09 school year.

(c) Additional salary increases to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act. (f) The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(g) The appropriations in this section provide cost of living and incremental fringe benefit allocations based on formula adjustments as follows:

Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

**NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS**

General Fund--State Appropriation (FY 2008) . . . . .	\$532,192,000
General Fund--State Appropriation (FY 2009) . . . . .	\$566,174,000
General Fund--Federal Appropriation. . . . .	\$435,735,000
Education Legacy Trust Account--State Appropriation. . . . .	\$14,561,000
<b>TOTAL APPROPRIATION. . . . .</b>	<b>\$1,548,662,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall adopt the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006, and ensure that all school districts adopt the method beginning in the 2007-08 school year.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2007-08 and 2008-09 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$30,690,000 of the general fund--state appropriation and \$29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. (2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;

Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. **NEW SECTION. Sec. 959.** A new section is added to chapter 28A.630 RCW to read as follows:

(1)(a) Research has shown that early, intensive interventions can significantly improve reading, written language, and mathematics skills for children who are struggling academically. This early research-based assistance has been successful in reducing the number of children who

require specialized programs. Research further suggests that the disabilities of many students with mild and moderate disabilities are correctable through strategic early intervention and the students do not necessitate special education eligibility. However, by being effective in reducing the number of students eligible for these programs, school district funding is reduced.

(b) The purpose of the program in this section is to continue support to the existing pilot districts and to encourage other school districts to participate as pilot districts to improve the implementation of high quality general education research-based core instructional programs to meet the needs of students struggling academically, while reducing the number of students inappropriately referred and placed in special education under the specific learning disability eligibility category because of ineffective instructional practices. This will allow special education programs to concentrate specially designed instruction on students who truly require special education services. The goal of this assistance is to effectively address reading, written language, and mathematics difficulties resulting in a substantially greater proportion of students meeting the progressively increasing performance standards for both the aggregate and disaggregated subgroups under federal law.

(c) The participating pilot districts implementing the special services pilot program have met the goals of the pilot program resulting in (i) a substantial number of underachieving students meeting the progressively increasing reading performance standards and (ii) a reduction in the number of children who require special education.

(2) Seven school districts may participate in the special services pilot program, including two school districts already participating and five additional school districts. The special services pilot program shall begin in the 2007-08 school year and conclude in the 2010-11 school year.

(3) School districts participating in the pilot program shall receive state special education funding in accordance with state special education funding formulas and a separate pilot program appropriation from sources other than special education funds. The separate appropriation shall be: (a) The school district's estimated state special education funding for the current year based on the school district's average percentage of students age three through twenty-one who were eligible for special education services for the school year before participation as a pilot program as reported to the office of the superintendent of public instruction; minus (b) the school district's actual state special education funding based on the district's current percentage of students age three through twenty-one eligible for special education services as reported to the superintendent of public instruction.

The superintendent shall adjust the factors in (a) of this subsection for one or more participating school districts, where legislative changes to the special education funding formula impact the funding mechanism of this program.

(4) Participation in the pilot program shall not increase or decrease a district's ability to access the safety net for high-cost students by virtue of the district's participation in the program. Districts participating in the pilot program shall have access to the special education safety net using a modified application approach for the office of the superintendent of public instruction demonstration of financial need. The superintendent shall create a modified application to include all special education revenues received by the district, all pilot program funding, expenditures for students with individual education programs, and expenditures for students generating pilot program revenue. Districts participating in the pilot program that seek safety net funding shall convincingly demonstrate to the safety net committee that any change in demonstrated need is not attributable to their participation in this pilot program.

(5) School districts participating in the program must agree to:

(a) Implement the program as part of the school district's general education curriculum for all students;

(b) Use a multitiered service delivery system to provide scientific research-based instructional interventions addressing individual student needs in the areas of reading, written language, or mathematics;

(c) Develop and implement an assessment system to conduct universal screening, progress monitoring, targeted assessments, and outcome assessments to identify the reading, written language, or mathematics needs of each student and to monitor student progress;

(d) Incorporate student-specific data obtained through the pilot program when conducting an evaluation to determine if the student has a disability;

(e) Assure that parents are informed of: The amount and nature of student performance data that is collected and the general education services that are provided; the strategies for increasing the student's rate of learning; the parents' right to make a referral for special education evaluation if they suspect the student has a disability; and the parents' right to have input into designed interventions;

(f) Assure that parents are provided assessments of achievement at reasonable intervals addressing student progress during instruction;

(g) Actively engage parents as partners in the learning process;

(h) Comply with state special education requirements; and

(i) Participate and provide staff expertise in the design and implementation of an evaluation of the program as determined by the superintendent of public instruction. Districts shall annually review and report progress, including objective measures or indicators that show the progress towards achieving the purpose and goal of the program, to the office of the superintendent of public instruction.

(6) By December 15, 2010, the superintendent of public instruction shall submit a report to the governor and appropriate committees of the legislature that summarizes the effectiveness of the pilot program in this section. The report shall also include a recommendation as to whether or not the pilot program should be continued, expanded, or otherwise modified.

(7) This section expires June 30, 2011.

**NEW SECTION. Sec. 960.** The governor's committee on disability issues and employment is supported through resources provided by state agencies. Within appropriations contained in this act, the office of financial management shall direct agencies that report directly to the governor to enter into contracts with the governor's committee on disability issues and employment for a total level not to exceed \$377,000 for fiscal year 2008 and \$398,000 for fiscal year 2009.

Whenever possible, recommendations in the report shall site to specific evidence-based or promising programs to support the recommendation, or to sources such as the Washington institute for public policy, the national institute for justice, or the bureau of justice assistance.

(3) The task force shall submit its report and recommendations to the governor and the legislature by November 1, 2007.

**PART XI  
HUMAN SERVICES**

**Sec. 1101.** 2006 c 372 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ((2006)) 2007, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year ((2006)) 2007 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ((2006)) 2007 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose, other than family support appropriations for the developmental disabilities program in section 205(1)(e) of this act and family reconciliation services appropriations for the children and family services program in section 202(20) of this act, after approval by the director of financial management.

(c) The department shall not transfer funds, ((and the director of financial management shall not approve the transfer,)) unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds ((and not federal funds)). The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(4) The department is authorized to expend up to \$4,700,000 of its general fund--state appropriation for fiscal year 2007 for any reductions in federal funding in fiscal year 2006 for targeted case management services for children who are in the care of the state. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications under this subsection.

(5) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington Medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2005-2007 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the Medicaid and Medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(6) In accordance with RCW 74.39A.300, the appropriations to the department of social and health services in this act are sufficient to implement the compensation and fringe benefits of the collective bargaining agreement reached between the governor and the exclusive bargaining representative of individual providers of home care services.

The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) \$6,156,000 of the violence reduction and drug enforcement account appropriation is provided solely for the implementation of chapter 338, Laws of 1997 (juvenile code revisions). (4) \$2,997,000 of the violence reduction and drug enforcement account appropriation is provided solely to implement alcohol and substance abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. The juvenile rehabilitation administration shall develop criteria for evaluation of plans submitted and a timeline for awarding funding and shall assist counties in creating and submitting plans for evaluation.

(5) For the purposes of a pilot project, the juvenile rehabilitation administration shall provide a block grant, rather than categorical funding, for consolidated juvenile services, community juvenile accountability act grants, the chemically dependent disposition alternative, and the

special sex offender disposition alternative to the Pierce county juvenile court. To evaluate the effect of decategorizing funding for youth services, the juvenile court shall do the following:

- (a) Develop intermediate client outcomes according to the risk assessment tool (RAT) currently used by juvenile courts and in coordination with the juvenile rehabilitation administration;
- (b) Track the number of youth participating in each type of service, intermediate outcomes, and the incidence of recidivism within twenty-four months of completion of services;

(a) Only the following intervention service models shall be funded under the pilot program: (i) Functional family therapy; (ii) multi-systemic therapy; and (iii) aggression replacement training.

(b) Subject to (c) of this subsection, payments to counties in the pilot program shall be sixty-nine percent of the average service model cost per youth times the number of youth engaged by the selected service model. For the purposes of calculating the average service model cost per engaged youth for a county, the following costs will be included: Staff salaries, staff benefits, training, fees, quality assurance, and local expenditures on administration.

(c) Distribution of moneys to the charter county with a population of over eight hundred thousand residents shall be based upon the number of youth that are engaged by the intervention service models, up to six hundred thousand dollars for the biennium. The department may distribute the remaining grant moneys to the other counties selected to participate in the pilot program.

(d) The department shall provide recommendations to the legislature by June 30, 2006, regarding a cost savings calculation methodology, a funds distribution formula, and criteria for service model eligibility for use if the reinvesting in youth program is continued in future biennia.

<b>TOTAL APPROPRIATION . . . . .</b>	<b>(<del>(\$889,632,000)</del>)</b>
	<b>\$883,129,000</b>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$103,400,000 of the general fund--state appropriation for fiscal year 2006 is provided solely for persons and services not covered by the medicaid program. The department shall distribute this amount among the regional support networks according to a formula that, consistent with RCW 71.24.035(13), assures continuation of fiscal year 2003 levels of nonmedicaid service in each regional support network area for the following service categories in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance. The formula shall also ensure that each regional support network's combined state and federal allocation is no less than the amount it was due under the fiscal year 2005 allocation methodology. The remaining amounts shall be distributed based upon a formula that incorporates each regional support network's percentage of the state's population.

(b) \$100,959,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for persons and services not covered by the medicaid program. Consistent with RCW 71.24.035(13), these funds shall be distributed proportional to each regional support network's percentage of the total state population.

(c) (~~(\$10,882,000)~~) \$10,512,000 of the general fund--state appropriation for fiscal year 2007 and (~~(\$10,922,000)~~) \$10,550,000 of the general fund--federal appropriation are provided solely to increase medicaid capitation rates (i) by three and one-half percent, for regional support networks whose fiscal year 2006 capitation rates are above the statewide population-weighted average; and (ii) to the statewide population-weighted average, for regional support networks whose fiscal year 2006 capitation rates are below that level. Regional support networks may elect to receive all or a portion of the general fund--state share of the funding for which they qualify under this subsection (1)(c) as an increase in nonmedicaid rather than medicaid funding. Regional support networks choosing to obtain funding in this way must notify the department of their decision no later than June 1, 2006.

(d) (~~(\$359,000)~~) \$2,175,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to ensure that no regional support network's combined state and federal allocation is less than the amount it was due under the fiscal year 2006 allocation methodology.

(e) \$750,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for grants to hospitals that are unable to receive disproportionate share hospital funding due to the federal funding restrictions on "institutions for mental disease." These funds shall be allocated among eligible hospitals proportional to the amount the hospital would have received from the disproportionate share hospital grants funded under section 209 of this 2006 act if the federal funding restriction were not in effect.

(f) \$85,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for a contract with the national alliance for the mentally ill of greater Seattle to assist people who are recovering from a major mental illness to participate in development of a group residence for women.

(g) \$2,825,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to refund to regional support networks fifty percent of the "liquidated damages" amount that was withheld from payments to the regional support network during fiscal years 2002 through 2005 because the regional support network used more than its allocated number of state hospital days of care. The payments directed in this subsection (1)(g) are contingent upon agreement by the regional support network that the funds shall be used only for mental health services. The payments directed in this subsection do not apply to regional support networks to which such refunds have been directed by court order prior to the effective date of this 2006 act.

(h) The department shall refund to the regional support networks 100 percent of the "liquidated damages" that have been withheld from payments to the regional support network during fiscal year 2006 for periods prior to the effective date of this act. The payments directed in this subsection (1)(h) do not apply to regional support networks to which such refunds have been directed by court order prior to the effective date of this act.

(i) \$3,238,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(j) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall average 222 per day throughout fiscal year 2007. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall average 727 during the first quarter of fiscal year 2007, 757 during the second quarter of fiscal year 2007, and 777 during the third and fourth quarters of fiscal year 2007. During fiscal year 2007, the department shall not separately charge regional support networks for use of state hospital beds for short-term commitments, or for persons served in the program for adaptive living skills (PALS), but the days of care provided for such commitments and in the PALS program shall count against the regional support network's state hospital allocation. The legislature intends to authorize separate charges for the PALS program beginning in January 2008.

(k) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(l) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(m) \$3,100,000 of the general fund--state appropriation for fiscal year 2006 and \$3,375,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to establish a base community psychiatric hospitalization payment rate. The base payment rate shall be \$400 per indigent patient day at hospitals that accept commitments under the involuntary treatment act, and \$550 per medicaid patient day at free-standing psychiatric hospitals that accept commitments under the involuntary treatment act. The department shall allocate these funds among the regional support networks to reflect projected expenditures at the enhanced payment level by hospital and region.

(n) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(o) \$5,000,000 of the general fund--state appropriation for fiscal year 2006 and \$5,000,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. These amounts shall supplement, and not supplant, local or other funding or in-kind resources currently being used for these purposes. The department is authorized to transfer such amounts as are necessary, which are not to exceed \$418,000 of the general fund--state appropriation for fiscal year 2006 and \$418,000 of the general fund--state appropriation for fiscal year 2007, to the economic services program for the purposes of implementing section 12 of Engrossed Second Substitute House Bill No. 1290 (community mental health) related to reinstating and facilitating access to mental health services upon mentally ill offenders' release from confinement.

(p) \$1,500,000 of the general fund--state appropriation for fiscal year 2006 and \$1,500,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(q) The department is authorized to continue to expend federal block grant funds, and special purpose federal grants, through direct contracts, rather than through contracts with regional support networks; and to distribute such funds through a formula other than the one established pursuant to RCW 71.24.035(13).

(r) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(s) \$2,250,000 of the general fund--state appropriation for fiscal year 2006, \$2,250,000 of the general fund--state appropriation for fiscal year 2007, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration. The funds are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(t) \$750,000 of the general fund--state appropriation for fiscal year 2006 and \$750,000 of the general fund--state appropriation for fiscal year 2007 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who have been discharged from the state hospitals. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(u) \$539,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to assist with the one-time start-up costs of two evaluation and treatment facilities. Funding for ongoing program operations shall be from existing funds that would otherwise be expended upon short-term treatment in state or community hospitals.

(v) \$550,000 of the general fund--state appropriation for fiscal year 2006 and \$150,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for enhancing rates to a facility that (i) is a licensed nursing home; (ii) is considered to be an "Institution for Mental Diseases" under centers for medicare and medicaid services criteria; (iii) specializes in long-term rehabilitation services for people with chronic mental illness who are chronically medically-compromised; and (iv) provides services to a minimum of 48 consumers funded by a regional support network. These amounts shall be provided in coordination with and under the auspices of a regional support network and shall enhance, and not supplant, other funding or in-kind resources currently being used for these purposes. These funds shall be used to cover costs incurred throughout fiscal year 2006 and fiscal year 2007 and ensure adequate compensation for extra medical care services, personal care services, and other incidental costs that are not fully covered in the current rate paid to the facility.

(w) \$450,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the mental health division, in collaboration with the children's administration and the juvenile rehabilitation services administration, to establish a pilot program to provide evidence-based mental health services to children. The mental health service or services to be provided under the pilot program must be selected from a list of evidence-based service options developed by the department, in consultation with a broadly representative group of individuals with expertise in children's mental health.

(i) The program site shall be selected through a request for proposal (RFP) process, open to counties or groups of counties, and shall be operational by December 2006.

(ii) Pilot site proposals shall be required to include: A designated lead agency and a commitment to work with community partners, including consumer/family representatives and representatives of the local mental health, juvenile justice, and child welfare systems and, at the applicant's discretion, may also include representatives of other child-serving systems such as health care and education; identification of areas of potential need based upon input from community partners; identification of the service or services that the pilot site would implement based upon community needs and resources; and demonstration of a commitment to participate in efforts that will ensure adherence to the chosen evidence-based practices and evaluate outcomes of implementation of the evidence-based practices.

(iii) The department shall contract with the University of Washington school of medicine's department of psychiatry and behavioral sciences division of public behavioral health and justice to provide support and assistance in all phases of the pilot program, including initiating, implementing, training providers, providing quality assurance, and monitoring implementation and outcomes.

<b>TOTAL APPROPRIATION</b>	<del>(\$1,113,747,000)</del>
	<u>\$1,129,487,000</u>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The entire health services account appropriation, \$151,000 of the general fund--state appropriation for fiscal year 2006, \$427,000 of the general fund--state appropriation for fiscal year 2007, and \$1,482,000 of the general fund--federal appropriation are provided solely for health care benefits for agency home care workers who are employed through state contracts for at least twenty hours a week. The state contribution to the cost of health care benefits per participating worker per month shall be no greater than \$449.00 in fiscal year 2006 and \$532.00 in fiscal year 2007.

(b) Individuals receiving family support or high school transition payments as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(c) \$516,000 of the general fund--state appropriation for fiscal year 2006, ~~(\$1,917,000)~~ \$3,432,000 of the general fund--state appropriation for fiscal year 2007, and ~~(\$2,433,000)~~ \$3,954,000 of the general fund--federal appropriation are provided solely for community residential and support services. Funding in this subsection shall be prioritized for (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are at risk of institutionalization or who are aging out of other state services; and (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. 	<b><u>\$7,580,223,000</u></b>

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(6) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) \$2,221,000 of the health services account appropriation, \$5,402,000 of the general fund--federal appropriation, \$1,590,000 of the general fund--state appropriation for fiscal year 2006, and \$1,591,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) \$21,092,000 of the health services account appropriation and \$19,725,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating hospitals with the information and instructions needed by the hospital to certify the public expenditures required to qualify for the federal portions of both the medicaid inpatient fee-for-service payments and the disproportionate share hospital payments. In the event that any part of the program including, but not limited to, allowable certified public expenditures, is disallowed by the federal government, the department shall not seek recoupment of payments from the hospitals, provided the hospitals have complied with the directions of the department for participation in the program. The legislature intends that hospitals in the program receive no less in combined state and federal payments than they would have received under the methodology that was in place during fiscal year 2005. The department shall therefore make additional grant payments, not to exceed the amounts specified in this subsection, to hospitals whose total payments under the program would otherwise be less than the total state and federal payments they would have received under the methodology in effect during fiscal year 2005. Payments under these new state grant and upper payment limit programs shall not exceed \$54,054,000 from general fund--state appropriations in fiscal year 2006, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; (~~(\$47,474,000)~~) \$64,417,000 from general fund--state appropriations in fiscal year 2007, of which \$5,600,000 is appropriated in section 204(1) of this 2006 act and the balance in this section; and (~~(\$11,328,000)~~) \$7,386,000 from the general fund--federal appropriations in this section.

(10) \$4,077,000 of the general fund--state appropriation for fiscal year 2006, (~~(\$4,847,000)~~) \$3,294,000 of the general fund--state appropriation for fiscal year 2007, and (~~(\$70,100,000)~~) \$57,565,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system.

(11) \$188,000 of the general fund--state appropriation for fiscal year 2006, \$37,000 of the general fund--state appropriation for fiscal year 2007, and \$225,000 of the general fund--federal appropriation are provided solely for the department to contract for an independent analysis of the medical assistance administration's current system for establishing hospital inpatient payment rates, and for recommendations on a new or updated system. The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

(12) Payment rates for hospital inpatient and outpatient services shall be increased by an average of 1.3 percent effective July 1, 2005, and by an average of an additional 1.3 percent effective July 1, 2006. The inpatient increases shall be provided only on the portion of a hospital's rate that excludes medical education and outlier costs, and shall be allocated so that hospitals with lower costs of care (excluding medical education and outlier costs) receive larger percentage increases than those with higher costs of care. The inpatient increases shall be allocated in three percentage increments, with the lowest-cost hospitals receiving the largest percentage rate increase, highest-cost hospitals receiving the smallest percentage increase, and medium-cost hospitals receiving the average of the highest and the lowest percentage rate increase. Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(15) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(16) By October 1, 2005, the department shall recommend to the governor and legislature at least two pilot project designs which seem likely to reduce avoidable emergency room utilization at no net cost to the state within the projects' first eighteen months of operation.

(17) Within funds appropriated in this section, the department shall participate in the health technology assessment program required in section 213(6) of this act.

(18) The department is also required to participate in the joint health purchasing project described in section 213(7) of this act.

(19) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. The department shall provide a report to the appropriate committees of the legislature by January 1, 2006, on costs, savings, and any outcomes or quality measures associated with the pilot programs during the first year of operation.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

(21) By November 15, 2006, the department of social and health services, in consultation with the department of revenue and the health care authority, shall report to the health care and fiscal committees of the legislature on options for providing financial incentives for private practice physicians to serve uninsured, medicare, and medicaid patients. The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative

mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

(22) The department is directed to pursue all available administrative remedies to dispute and reverse recent large retroactive charges by the federal medicare program for payment of medicare part B premiums on behalf of medicaid recipients, to the extent that such premiums are for periods when medicare coverage was in fact never provided the beneficiaries, and their care was instead fully covered by the state medicaid program. The department shall report to the fiscal committees of the legislature by December 1, 2006, on the actions it has taken to dispute and reverse these charges.

(23) \$66,000 of the general fund--state appropriation for fiscal year 2007 and \$66,000 of the general fund--federal appropriation are provided solely to implement Second Substitute House Bill No. 2002 (foster care support services). The assessment will also determine how commercial forest, forest lands on the urban fringe, and small privately-owned forest lands that are managed according to Washington's forest and fish prescriptions, in combination with other forest management activities, function as wildlife habitat now and in the future.

~~((+7))~~ (16) \$50,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to establish a work group to study existing legislation affecting the oil and natural gas industry, and to make recommendations to that legal framework to improve the regulatory, technical, environmental, and financial framework of the oil and gas industry. (B) As a condition of the pilot grant program, the selected school districts must meet the following criteria: (I) Jointly develop, with staffed residential homes in their community, a model policy and plan for collaboration and information sharing, which includes an agreed upon routine of regular communication regarding each child's progress, including for special education students the development and regular updating of individualized education programs; (II) provide an annual progress report regarding the implementation of the model policy and plan and measured progress toward meeting the educational needs of students in staffed residential homes; and (III) provide information and data to the office of the superintendent of public instruction as required for the study detailed in (D) of this subsection (c)(xviii).

(C) \$40,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the office of the superintendent of public instruction, with the assistance of the department of social and health services, to prepare a report to the appropriate policy and fiscal committees of the legislature and the office of financial management on: (I) The number of students residing at each staffed residential home by school district; (II) the specific types of needs of students residing at each staffed residential home; and (III) an overview of the differences in the programs being offered at staffed residential homes and the ranges of costs associated with these programs; and (IV) a summary of the current types of collaboration between school districts and staffed residential homes. This report shall be submitted by November 30, 2006.

(D) \$15,000 of the general fund--state appropriation for fiscal year 2007 is provided solely for the office of the superintendent of public instruction to report to the appropriate policy and fiscal committees of the legislature and the office of financial management on the results of the pilot grant program established in this subsection (c)(xviii), including a description of the impact on the educational services delivered to the students residing at each staffed residential home. Based on the results of the pilot grant program, the office of the superintendent of public instruction may make recommendations regarding best practices for meeting the needs of students residing in staffed residential homes, and fostering collaboration with staffed residential homes. This report shall be submitted by June 30, 2007.

(E) For those students (~~residing in staffed residential homes~~) for whom a school district receives a pilot grant application and who are special education eligible, school districts are eligible to pursue safety net funding beyond the pilot grant program amounts so that the combined basic education allocation, special education excess cost allocation, pilot grant amount, and safety net grants recognize the costs associated with serving staffed residential home students potentially concentrated in a few school districts.

(F) For purposes of this subsection (c)(xviii), "staffed residential home" means a home licensed by the department of social and health services to provide twenty-four hour care for six or fewer children or expectant mothers, which employs staff to care for them.

The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years.   - (ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

- (6) The definitions in this subsection apply throughout this section.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

The formula for distributing the allocations to school districts shall include amounts for students in the class of 2007 who register to retake the WASL and want remedial assistance, and other factors as determined by the office of the superintendent of public instruction. Before making the allocations from the funding provided in this subsection, the office of the superintendent of public instruction shall consult with the office of financial management to ensure that the proposed allocations will achieve efficient and effective program delivery and that they are one-time in nature.

(5) \$1,500,000 of the general fund--state appropriation for fiscal year 2007 is provided for competitive innovation grants awarded to schools and school districts for implementing high school remediation programs that are unique in program delivery, program accessibility, program content, or a combination of these factors and that serve students who have not achieved success on the tenth grade WASL.

**POINT OF PERSONAL PRIVILEGE**

Representative Sommers: "Thank you, Mr. Speaker. May we invite the staff of the Appropriations Committee onto the floor of the House so that we may recognize them? There are lots of them. We need lots of them. I want to say a few words about the staff and I ask you to of course recognize these wonderful people but I also know that the good gentleman from the 20<sup>th</sup> District would like to make a few comments. I would ask you to respect his opportunity to do so.

These are great people. It is fairly frequent that someone says 'you have smart staff'. And I say 'I know'. And then someone will say 'they really know the issues and the budget and the details' and I say 'I know - they're really good'. And then someone will say 'and they can express it. They can explain it clearly.' And I say 'I know'. We pick great people. We are so proud of you. You do a wonderful job and you are so patient and considerate of the many different questions. One of the things I want to mention that I do not think is as well known are the number of hours that these individuals put in for us. When we are in the budget throes so to speak, it is not uncommon to have an evening or evenings when they never go home. They are there until the next morning. As a matter of fact, just two days ago I spoke to the leader of the group and I asked what time he got home last night. 'Oh, 4:30'. And that wasn't 4:30 p.m., that was 4:30 a.m. the next morning. That is the kind of work, dedication, commitment and expertise and wonderful background that they give to us. I am so pleased and proud to know these individuals - they are wonderful people. And they are critically important to what we do. They are the budget makers here."

**POINT OF PERSONAL PRIVILEGE**

Representative Alexander: "Thank you, Mr. Speaker. I would like to join the good lady from 36<sup>th</sup> District in recognizing these people. The good lady and I have dual benefit and opportunity to work together. Not only do we serve together as the Chair and Ranking Member on the Appropriations Committee with this illustrious staff, we are also on the Employment Committee. We have a chance to see the credentials of the people that are making up this staff and our OPR staff. Believe me, we have some of the top talent anywhere in the country represented on all our committees but especially on Appropriations Committee. I may be partial but I recognize that most major issues at some point or another come to the Appropriations Committee. These people have to be familiar with all those issues. We have a great policy staff here but this committee deals with a whole slue of different areas of responsibilities and they do that with integrity and with trust to both sides of the aisle. And always with responsiveness. So let me add my voice to the good lady from the 36<sup>th</sup> and say thank you very much for your contribution to us. We appreciate everything you do and please go home and get a good night's sleep."

**GOVERNOR'S VETO MESSAGES**

April 17, 2007

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, House Bill No. 1000 entitled:

"AN ACT Relating to adding porphyria to the list of disabilities for special parking privileges."  
Section 2, the emergency clause, was retained from a previous version of the bill. The bill sponsor, stakeholders and the Department of Licensing do not feel it is a necessary component of the bill. An emergency clause is used when immediate enactment of a bill is necessary to preserve the public peace, health, or safety or when it is necessary for the support of state government. It should be used sparingly because its application has the effect of limiting citizens' right to referendum. If retained, the emergency clause would move forward implementation of House Bill No. 1000 by approximately 15 days. Delaying the bill's implementation by 15 days does not rise to the level of public health risk necessitating an emergency clause.

For these reasons, I have vetoed Section 2 of House Bill No. 1000.

With the exception of Section 2, House Bill No. 1000 is approved.

Respectfully submitted,  
Christine Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 9, House Bill No. 1051 entitled:

"AN ACT Relating to high school completion programs."  
Sections 1 through 8 of this bill provide for the development of two pilot programs at community or technical colleges. The programs are intended to support certain students as they work to meet the State's academic standards in reading, writing, mathematics or science. For these students, demonstrating proficiency in one or more of these subjects is the final step in meeting their high school graduation requirements and obtaining a high school diploma. The legislation outlines the student eligibility and program criteria, authorizes the financial support, waives student tuition and fees, and provides for a study of the program's results in two years' time.

Section 9 of the bill creates and recognizes a new state certificate for high school students who do not meet the requirements for a high school diploma, the Certificate of Academic Completion (Certificate). The Certificate may be conferred by school districts to students who meet all state and local requirements for graduation with the exception of passage of one or more of the high school assessments in reading, writing and mathematics. Our students are working very hard to achieve the skills necessary for success in their endeavors beyond high school. By creating the Certificate of Academic Completion we will be sending a message to these students that they do not need the basic skills required for the high school diploma. This is wrong.

For these reasons, I am vetoing Section 9 of House Bill 1051.

With the exception of Section 9, House Bill 1051 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1032(2); 1068, page 42, lines 8 through 12; 3181, page 143, lines 22 through 33 and page 144, lines 1 through 22; and (1), (2), and (3); 3204(2); 6023; 6024; 6030; and 6031 of Engrossed Substitute House Bill No. 1092 entitled:

"AN ACT Relating to the capital budget."

Section 1032(2), page 19, Department of Community, Trade and Economic Development, Job Development Fund Grants  
This proviso prohibits the Department of Community, Trade and Economic Development from proceeding with a competitive process for the 2009-2011 Biennium. I believe a competitive grant selection process is appropriate for these projects. Therefore, I am vetoing Section 1032(2).

Because I am concerned that the current process does not put enough emphasis on the creation of family wage jobs, I am directing my staff to work with the Department and the Community Economic Revitalization Board to establish weighted criteria for the next group of projects and to develop legislation to make creation of jobs the top priority for the grant selection process.

Section 1068, page 42, lines 8 through 12, Department of General Administration, Signage Near Capitol Lake  
This proviso directs the Department of General Administration to post signs on 5th Avenue at Capitol Lake dam in the City of Olympia concerning bicycle lanes. I am vetoing this proviso because it directs a state agency to install traffic control signs on a city street, even though the city's existing signage already complies with standards in the Manual on Uniform Traffic Control Devices. I am directing the Department of General Administration to work with the City of Olympia to look at how to provide additional appropriate warnings that would enhance the safety of bicyclists crossing Capitol Lake dam.

Section 3181, page 143, lines 22 through 33 and page 144, lines 1 through 22, Department of Fish and Wildlife, Wiley Slough Restoration

This proviso prohibits the Department of Fish and Wildlife from spending funds until July 1, 2008, so that a report can be developed regarding the loss of recreation opportunities in upland habitat areas. The Wiley Slough Restoration project already has broad support from many in the community and should move ahead so that critical juvenile Chinook salmon habitat in the Skagit River basin can be restored. Rather than delay the project further, I expect the Department of Fish and Wildlife to work in good faith with legislators, waterfowl hunters and other community members to develop off-site hunting and recreation opportunities. For this reason, I have vetoed the specific restrictions in Section 3181, page 143, lines 22 through 33 and page 144, lines 1 through 22.

Section 3204 (2), page 151, Department of Natural Resources, Trust Land Transfer

This section requires that the funds from transferred properties be used exclusively for the acquisition of forest lands. Existing statute for the Natural Resource Real Property Replacement Account allows purchases of commercial property, agriculture property and forest lands. I am vetoing Section 3204(2), because placing limits on the type of land that can be purchased should be more fully considered as a policy issue with separate legislation.

Section 6023, page 264, Department of General Administration, Consolidation Review

This section restates the Department of General Administration's statutory authority to review any capital improvement or capital project for possible consolidation, co-location, and compliance with state standards before allotment of funds. In addition, the passage of SHB 2366 creates new, broad authority for the Office of Financial Management to oversee facility issues of this type. Because existing statutes for General Administration and the new authority for the Office of Financial Management already require these actions, I am vetoing Section 6023.

Section 6024, page 264, Department of General Administration, Tacoma Rhodes

This section prevents the Department of General Administration from selling the Tacoma Rhodes building until after June 30, 2009, except to another state agency, state institution, or political subdivision of the state. I am vetoing this proviso because decisions regarding Tacoma Rhodes are within the authority and responsibilities of the Department of General Administration as an executive agency responsible for housing state government, and acquiring and disposing of property. This existing authority includes managing and making appropriate decisions on the future of facilities, based on sound business principles. Current law allows public agencies and local governments the first right of refusal on purchasing surplus property such as the Tacoma Rhodes building. I expect General Administration to follow this process.

Section 6030, page 267, For the State Treasurer--Transfers

This section requires a transfer of \$20 million from the Natural Resources Real Property Replacement Account to the Common School Permanent Fund. The amount transferred is to be added to the irreducible principal of the common school permanent fund and invested by the State Investment Board rather than to purchase replacement timber land. I believe this is a policy issue that is better addressed in substantive legislation. Therefore, I am vetoing Section 6030.

Section 6031, page 267, Natural Resources Real Property Replacement Account

This section amends RCW 79.17.210 so that during the 2007-2009 Biennium balances in the Natural Resources Real Property Replacement Account may be transferred to the appropriate permanent funds as directed in the capital budget appropriations act. I believe this is a policy issue that is better addressed in substantive legislation. Therefore, I am vetoing Section 6031.

For these reasons, I have vetoed Sections 1032(2); 1068, page 42, lines 8 through 12; 3181, page 143, lines 22 through 33 and page 144, lines 1 through 22; 3204(2); 6023; 6024; 6030; and 6031 of Engrossed Substitute House Bill 1092.

With the exception of Sections 1032(2); 1068, page 42, lines 8 through 12; 3181, page 143, lines 22 through 33 and page 144, lines 1 through 22; 3204(2); 6023; 6024; 6030; and 6031, Engrossed Substitute House Bill 1092 is approved.

Respectfully submitted,  
Christine O. Gregoire

May 15, 2007

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 305(7); 305(10); 308(3); 407(9) and 407(b); 504; 709; 710; 712; 905, page 104, lines 11 through 30, and 905(1); 906, page 109, lines 24 through 37 and page 110, lines 1 through 2 and 906(1); 907; and 909, page 116, lines 8 through 28 of Engrossed Substitute House Bill No. 1094 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 305(7), page 37, Use of Mitigation Funding

This proviso prevents funds provided for mitigation from being used to pay for environmental assessments. The amount of funding for mitigation was not identified in the project list making it unclear how the Department of Transportation would implement this proviso or show compliance. Therefore, I am vetoing Section 305(7).

Section 305(10), page 37, Limit Use of Agricultural Land

Many agricultural lands consist of historically drained wetlands that often provide the best, and at times only, opportunity to successfully restore wetlands. Mitigation banks that conform to state statutes and to rules the Department of Ecology is now finalizing will help protect productive agricultural lands. This language could restrict the land considered for mitigation banks and could prohibit the Department from incorporating real estate acquired from a willing seller. Of the Department's three existing wetland mitigation bank sites, one was established on this type of land and was acquired from a willing seller.

Although I am vetoing this section, I am directing the Department of Transportation to not use eminent domain on its own to acquire agriculture land, and to submit any proposal to acquire agricultural property for review by my office before the land is acquired.

Section 308(3), page 43, Replacing Dolphins at Orcas and Vashon Islands

Section 308(3) identifies funding from the Puget Sound Ferries Operating Account - State appropriation; however no funding is appropriated from this account. Although I am vetoing this section, I have asked the Department of Transportation to complete a predesign study before designing and constructing dolphins at the Orcas and Vashon Island Ferry Terminals.

Sections 407(9) and 407(b), page 54, Reducing Business and Occupation Tax Rates

Sections 407(9) and 407(b) make funding contingent on Engrossed Substitute Senate Bill 5799, which did not pass during the 2007 Legislative Session. Therefore, I am vetoing these two sections.

Section 504, page 57, Compensation -- Pension Contributions

This section asserts that appropriations are provided to fund employer contributions to state pension funds at rates adopted by the pension funding council. Because employer contribution rates are not set in this manner, this section is vetoed to avoid any confusion regarding the contribution rates for public pension funds. Therefore, I am vetoing section 504.

Section 709, page 74, Government Accounting Standards Board Asset Valuation

The Department of Transportation is meeting the requirements of the Governmental Accounting Standards Board's (GASB), Statement #34 to reflect additions and improvements that increase capacity or efficiency of the system. The requirement to establish the asset replacement value exceeds the reporting requirements of GASB, Statement #34. Establishing the asset replacement value is very complex and fluctuates with the economy and inflation, and is difficult to accomplish. Therefore, I am vetoing section 709.

Section 710, pages 74-75, Freight Mobility Strategic Investment Board

Under RCW 47.06A.030 (2), the Freight Mobility Strategic Investment Board has twelve members that represent a variety of stakeholders. Each member is appointed by the Governor for a four-year term. Section 710 adds a new member to the board for the 2007-09 Biennium. I support the addition but making a change in the size and composition of the board is a policy decision best done in substantive legislation. Therefore, I am vetoing section 710.

Section 712, pages 76-77, Transportation Goals and Policies

This section establishes policy goals for the state's transportation system. The language is identical to Section 3(a) of Substitute Senate Bill 5412, which was enacted by the Legislature. Therefore, I have vetoed section 712 to eliminate the duplicate language.

Section 905, lines 11 through 30, page 104, and Section 905(1), 2007 Supplemental Adjustments in the Improvement Program  
The 2005-07 appropriations were reduced to reflect planned spending levels for the remainder of the biennium. The revised estimates were developed in January and February. Since then, four projects have progressed more quickly than was previously expected including the I-5/SR 16 Tacoma HOV Design that requires \$600,000 more in 2005-07, SR 11/Chuckanut Park and Ride that needs another \$5 million for right-of-way acquisition, the SR 3/SR 303 Interchange that is under construction and needs another .9 million, and SR 240/I-182 to the Richland Y which is also under construction and requires an additional million.

Vetoing Section 905(1) restores current law procedures for moving funds among projects when the Legislature is not in session and ensures continuity with similar procedures included in the 2007-09 budget.

For these reasons, I have vetoed all appropriations (lines 11 through 30, page 104) and Section 905(1) to restore funding to prior levels and to simplify the allotment process. The Office of Financial Management will direct the Department of Transportation to place into reserve status any excess appropriation authority not required for the remainder of the 2005-07 Biennium.

Section 906, page 109, lines 24 through 37, and page 110, lines 1 through 2 and Section 906(1), 2007 Supplemental Adjustments in the Preservation Program

The 2005-07 appropriations were reduced to reflect planned spending levels for the remainder of the biennium. The revised estimates were developed in January and February. Since then, cost estimates changed, and better than expected weather has allowed a number of projects to move more quickly than previously expected.

Vetoing Section 906(1) restores current law procedures for moving funds among projects when the legislature is not in session and ensures continuity with similar procedures included in the 2007-09 budget.

For these reasons, I have vetoed all appropriations (lines 24 through 37, page 109, and lines 1 through 2, page 110) and Section 906(1) to restore funding to prior levels and simplify the allotment process. The Office of Financial Management will direct the Department of Transportation to place into reserve status any excess appropriation authority not required for the remainder of the 2005-07 Biennium.

Section 907, pages 111-113, 2007 Supplemental Adjustments in the Ferry Construction Program

The 2005-07 appropriations were reduced to reflect planned spending levels for the remainder of the biennium. The revised estimates were developed in January and February. Since then, cost estimates have changed and the underlying provisos will place unintended restrictions upon available resources for the remainder of the biennium.

For these reasons, I have vetoed the entire section to restore funding to prior levels and simplify the allotment process. The Office of Financial Management will direct the Department of Transportation to place into reserve status any excess appropriation authority that is not required for the remainder of the 2005-07 Biennium.

Section 909, lines 8 through 28, page 116, 2007 Supplemental Adjustments in Highways and Local Programs

The 2005-07 appropriations were reduced to reflect planned spending levels for the remainder of the biennium. The revised estimates were developed in January and February. Since then, two projects have progressed more quickly than was previously expected: the LeMay Museum and the Issaquah Traffic Signal project.

I have vetoed the appropriations on lines 8 through 28, page 116, to restore funding to prior levels and simplify the allotment process. The Office of Financial Management will direct the Department of Transportation to place into reserve status any excess appropriation authority that is not required for the remainder of the 2005-07 Biennium.

For these reasons, I have vetoed Sections 305(7); 305(10); 308(3); 407(9) and 407(b); 504; 709; 710; 712; 905, page 104, lines 11 through 30, and 905(1); 906, page 109, lines 24 through 37 and page 110, lines 1 through 2 and 906(1); 907; and 909, page 116, lines 8 through 28 of Engrossed Substitute House Bill 1094.

With the exception of Sections 305(7); 305(10); 308(3); 407(9) and 407(b); 504; 709; 710; 712; 905, page 104, lines 11 through 30, and 905(1); 906, page 109, lines 24 through 37 and page 110, lines 1 through 2 and 906(1); 907; and 909, page 116, lines 8 through 28, Engrossed Substitute House Bill 1094 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 113(9); 127(14); 127(29); 129(11); 141(1); 214(13); 222, page 105, line 12; 307(23); 307(24); 307(30); 402, page 147, line 33; 949; 1608(4) and (5); and 1621(4) of Substitute House Bill No. 1128 entitled:

"AN ACT Relating to fiscal matters."

Section 127(14), page 25, Department of Community, Trade and Economic Development, Distribution of Visitor Guides  
Visitor guides are an important tool for promoting tourism to Washington State. The Department of Community, Trade and Economic Development currently has a formal agreement with the tourism industry to store and mail visitor guides as requested by the industry. The Department, in close partnership with the new tourism committee created by Substitute House Bill 1276, should have discretion on how many guides should be distributed. Therefore, I have vetoed Section 127(14).

Section 127(29), page 28, Department of Community, Trade and Economic Development, Grant to the Synergy Group  
This nonprofit organization has the potential to ensure that the delivery of social services in the Lake Stevens area is accomplished more efficiently, and I encourage this type of coordination. However, this effort is more appropriately a local function, not the state's. Furthermore, the Synergy Group has not yet been legally established and does not yet have a clearly defined mission and purpose. For this reason, I have vetoed Section 127(29).

Section 129(11), pages 37-38, Office of Financial Management, Technical Assistance to Pharmacies  
This proviso requires that the Office of Financial Management enter into an interagency agreement with the Department of Social and Health Services to establish a technical audit assistance program for pharmacies that provide Medicaid services, to oversee the technical assistance program, and to review and update pharmacy audit practices. No new funds were provided to accomplish these activities. In addition, the delegation of this authority to the Office of Financial Management over audit practices appears to violate the federal Medicaid Single State Agency requirement that the Department of Social and Health Services handle matters of this sort. For these reasons, I have vetoed Section 129(11).

Section 141(1), page 44, Department of General Administration, Moving Costs for Office of Minority and Women-Owned Businesses  
This proviso prevents the Department of General Administration from charging the Office of Minority and Women's Business Enterprise for the cost of moving to a new office. Since the Department of General Administration is supported by rates and fees, any service that is not charged to the agency receiving the services could result in higher rates for other state agencies. Therefore, I have vetoed Section 141(1).

Section 214(13), page 97, Health Care Authority, Family Practice Residency in Southeastern Washington  
This proviso establishes a family practice residency program in southwest Washington. On-going programs of this nature are best established with substantive legislation, not as a proviso in the appropriations bill. For this reason, I have vetoed Section 214(13).

Section 222, page 105, line 12, Department of Health, Oyster Reserve Land Account Appropriation  
This is a technical veto to correct an over-appropriation in this account. While the Department of Health will no longer have a direct appropriation, the Department of Fish and Wildlife will enter into an agreement with the Department of Health to distribute pass-through funding to local health jurisdictions for grants to individuals to improve on-site sewage systems, as required by Substitute Senate Bill 5372, the Puget Sound Partnership. For this reason, I have vetoed Section 222, line 12.

Section 307(23), page 135, Department of Fish and Wildlife, Sinking Vessels in Puget Sound for Dive Attractions  
This proviso requires that, within existing funds, the Department of Fish and Wildlife in coordination with the Department of Ecology shall evaluate the environmental impacts of sinking vessels in Puget Sound for dive attractions. A needs assessment and scoping study (including environmental impacts) for sinking ships as diving sites in Puget Sound has already been completed, and was submitted to the Office of Financial Management and the Legislature in November of 2006. No additional funding was provided for this new evaluation. For these reasons, I have vetoed Section 307(23).

Section 307(30), page 136, Department of Fish and Wildlife, Use of Appropriated Funds for Mole Trapping, Mountain Beaver Removal Enforcement  
This proviso prohibits the Department of Fish and Wildlife from using appropriated funds to enforce RCW 77.15.194, providing penalties for the use of leg-hold traps for trapping by mole exterminators or for the removal of mountain beaver from forest lands. The budget bill is not the appropriate vehicle for making substantive policy changes in the way the state implements Initiative 713. No bill passed the Legislature this session modifying RCW 77.15.194. Therefore, I have vetoed section 307(30).

Section 402, line 33, page 147, Washington State Patrol, DNA Data Base Account Appropriation  
A drafting error resulted in an inadvertent appropriation from the DNA Data Base Account, which is a nonappropriated fund. Funds from the nonappropriated source are still available to the State Patrol for forensic laboratory improvements. Therefore, I have vetoed the appropriation from this account.

Section 949, page 283-287, Health Care Authority, Amending the Public Employee Benefits Board Statute  
In this act, the Legislature defines the maximum contribution rates to be paid by state agencies on behalf of employees for health benefits. The Public Employee Benefits Board (PEBB) uses this funding level to secure a competitive benefit package for PEBB participants. Section 949 amends existing statute to prevent the Board from revising health plan offerings if that change would increase the actuarial value of the plans for the 2007-09 Biennium. This restriction is contrary to the PEBB's responsibility to successfully manage a competitive employee benefit package within the fiscal parameters established by the Legislature. It also

limits the involvement of key stakeholders (including labor, retirees, and benefit experts) in important benefit decisions. For these reasons, I have vetoed Section 949 in its entirety.

Section 1608(4) and (5), page 501, Department of Retirement Systems, Funding for 2006 Legislation  
These subsections add funding for legislation that was passed in 2006, and is already in the budget. Therefore, I have vetoed Section 1608(4) and (5).

Section 1621(4), page 506, for the Office of Financial Management, Technology Funding  
This proviso would prohibit the release of funds to pay for at least 35 projects with a risk-severity assessment of level 2 or greater until a feasibility study is completed and the project is approved by the Information Services Board. While I agree that these projects need careful review and scrutiny before they proceed, I am vetoing Section 1621(4) because of the added workload and complexity introduced by these requirements. However, I direct the Department of Information Services and the Information Services Board to use their existing authority to provide the review and analysis desired in this proviso so that future costs and risks are better understood before the projects are allowed to move forward.

In addition, I share the intention expressed by the Legislature in Section 903 of this bill to better manage technology investments to achieve more common and coordinated technology and data solutions. Therefore, I also direct the Department of Information Services and Information Services Board to use their existing authority to review and strengthen investment planning for information technology projects to include, at a minimum, a review of the ability of projects to better use common services and solutions. Doing so can help reduce costs and risks for individual projects and can help the state realize greater economies of scale across multiple projects.

The following sections are vetoed because the bills referenced did not pass:

Section 113(9), page 12, Office of Administrator for the Courts, SHB 1141, Diversion Records

Section 307(24), page 135, Department of Fish and Wildlife, ESHB 1147, Damage to Livestock

For these reasons, I have vetoed Sections 113(9); 127(14); 127(29); 129(11); 141(1); 214(13); 222, page 105, line 12; 307(23); 307(24); 307(30); 402, page 147, line 33; 949; 1608(4) and (5); and 1621(4) of Substitute House Bill 1128.

I am signing Section 307(8) which directs the Department of Fish and Wildlife to implement a joint management and collaborative enforcement agreement with the Confederated Tribes of the Colville and the Spokane Tribe without providing additional appropriations for the agreement. While I would have preferred that the Legislature provide new funding for this important endeavor, I am committed to the agreement and will work with the agency, the tribes and the Legislature to ensure its success.

With the exception of Sections 113(9); 127(14); 127(29); 129(11); 141(1); 214(13); 222, page 105, line 12; 307(23); 307(24); 307(30); 402, page 147, line 33; 949; 1608(4) and (5); and 1621(4), Substitute House Bill 1128 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 3 and 4, Substitute House Bill No. 1287 entitled:

"AN ACT Relating to compliance with the federal safe and timely interstate placement of foster children."  
Section 3 of this bill amends RCW 13.34.138, which pertains to judicial review of hearings for children in dependant care. Likewise, Section 4 of this bill amends RCW 13.34.145, which pertains to court permanency plan hearings for children in dependant care. The amendments outlined in Section 3 and 4 of this bill are unnecessary as they are incorporated into the amendments of Engrossed Substitute House Bill 1624.

Section 8 of Engrossed Substitute House Bill 1624, which passed this Legislative session, also amends and substantially reorganizes RCW 13.34.138. Section 9 of Engrossed Substitute House Bill 1624 also amends and substantially reorganizes RCW 13.34.145. The reorganization of RCW 13.34.138 and RCW 13.34.145 in Engrossed Substitute House Bill 1624 would likely make it difficult to incorporate the changes outlined in Sections 3 and 4 of this bill.

For these reasons, I have vetoed Sections 3 and 4 of Substitute House Bill 1287.

With the exception of Sections 3 and 4, Substitute House Bill 1287 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 306, Engrossed Second Substitute House Bill No. 1303 entitled:

"AN ACT Relating to providing for the means to encourage the use of cleaner energy thereby providing for healthier communities by reducing emissions."

Section 306 of this bill adds to the existing reporting requirements of the energy Freedom Program. Given the expanded scope of that program, and the existence of the same reporting requirements for Washington State University (WSU) in Section 402 of the bill, I am vetoing Section 306. I am confident WSU will work closely with Department of Community Trade and Economic Development (CTED) to report the information the Legislature is seeking about biofuels within our state.

For these reasons, I have vetoed Section 306 of Engrossed Second Substitute House Bill 1303.

With the exception of Section 306, Engrossed Second Substitute House Bill 1303 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 3, Substitute House Bill No. 1417 entitled:

"AN ACT Relating to Washington state patrol survivor benefits."

This bill reimburses the cost of health insurance premiums for survivors of members of the Washington State Patrol Retirement System who are killed in the line of duty. Section 3 amends an uncodified emergency clause from legislation passed in 2001, and could lead to confusion about the effective date of the bill. This section is not needed to provide the insurance benefits that the bill is designed to offer.

For these reasons, I have vetoed Section 3 of Substitute House Bill No. 1417.

With the exception of Section 3, Substitute House Bill No. 1417 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 10, Engrossed Second Substitute House Bill No. 1461 entitled:

"AN ACT Relating to manufactured/mobile home community registrations and dispute resolution."

Both Section 10 of this bill and Section 9 of Substitute House Bill 2118 amend RCW 59.22.250, concerning the Office of Mobile Home Affairs, located within the Department of Community Trade & Economic Development. The amendments in separate bills may lead to confusion with legislative intent.

For this reason, I have vetoed Section 10 of Engrossed Second Substitute House Bill 1461.

With the exception of Section 10, Engrossed Second Substitute House Bill 1461 is approved.

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 3 and 17, Engrossed Second Substitute House Bill No. 1569 entitled:

"AN ACT Relating to improving health insurance coverage by establishing a health insurance partnership for the purchase of small employer health insurance coverage, evaluating the inclusion of additional health insurance markets in the health insurance partnership, and studying the impact of health insurance mandates."

This bill creates the Washington Health Insurance Partnership (WHP), an innovative approach to providing affordable health care in this state. By combining public and private resources, and creating a mechanism to organize and improve access to the insurance market, WHP will offer choice and assistance to small business employees seeking coverage for themselves and their families, and I welcome it.

Section 3 of the bill, which sets forth many of the operational details of the WHP program, is virtually identical to Section 58 of Engrossed Second Substitute Senate Bill 5930. However, it adds the requirement that eligible employees who transition from employer-sponsored insurance to the WHP program wait six months before receiving a subsidy. This requirement could unintentionally delay assistance to someone at the very point they most need it -- when they have lost their job and are attempting to retain health benefits provided through the WHP.

Section 17 of the bill is an emergency clause, and would allow certain sections of the bill to become effective on July 1. The emergency clause is not essential to the proper and timely implementation of the bill.

For these reasons, I have vetoed Sections 3 and 17 of Engrossed Second Substitute House Bill 1569.

With the exception of Sections 3 and 17, Engrossed Second Substitute House Bill 1569 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 8, Second Substitute House Bill No. 1573 entitled:

"AN ACT Relating to dropout prevention, intervention, and retrieval."

Sections 1 through 7 of this bill provide for the development and implementation of a grant program that, through collaborative school district, family and community partnerships and services, support vulnerable students who are at risk of dropping out of middle or high school. The grant program will be called the Building Bridges Program.

Section 8 deals with existing dropout prevention and high school completion programs run by community based organizations and community and technical colleges through contracts with school districts. Section 8 sets the criteria for determining state funding for students enrolled in these programs, and was intended to address concerns raised by community based organizations. I am vetoing Section 8 because it would have the unintended consequence of decreasing enrollment in existing high school completion programs available through community and technical colleges. The Superintendent of Public Instruction has indicated that the concerns of the community based organizations can be addressed through the rule making process for the new dropout prevention program.

For these reasons, I have vetoed Section 8 of Second Substitute House Bill 1573.

With the exception of Section 8, Second Substitute House Bill 1573 is approved.

Respectfully submitted,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Second Substitute House Bill No. 1656 entitled:

"AN ACT Relating to establishing a Puget Sound scientific research account."  
This legislation creates a new Puget Sound research account, and assigns tasks to the Puget Sound Leadership Council created in Engrossed Second Substitute Senate Bill 5372 (Puget Sound Partnership bill).

Section 2 of Second Substitute House Bill No. 1656 would assign to the Puget Sound Leadership Council the responsibility for identifying research gaps, and for competitive selection, prioritization, peer review, and funding for science projects. However, several of these responsibilities are assigned to the Puget Sound science panel created in the Puget Sound Partnership bill.

The Puget Sound Partnership will be a new agency with many challenging tasks and issues related to Puget Sound restoration. Good science is fundamental to the Partnership's success. Inconsistent responsibility assignments for scientific research would complicate the agency's ability to establish and carry out a sound, efficient science program.

I can see the value to the Puget Sound restoration effort of having a separate account for expenditures related to scientific research. As a result, I direct the Puget Sound Partnership to work with the Legislature to develop a legislative proposal for consideration during the 2008 session that harmonizes the remaining provisions of Second Substitute House Bill 1656 with those contained in Engrossed Substitute Senate Bill 5372.

For these reasons, I am vetoing Section 2 of Second Substitute House Bill 1656.

With the exception of Section 2, Second Substitute House Bill 1656 is approved.

Respectfully submitted,  
Christine O. Gregoire

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Second Substitute House Bill No. 1811 entitled:

"AN ACT Relating to the installation of automatic sprinkler systems in nightclubs."  
This bill helps to promote fire safety at nightclubs, while giving nightclub owners the necessary time to install automatic fire sprinkler systems. The bill contains an unnecessary emergency clause. With the emergency clause, the bill would go into effect on July 1, without it, early August. Regardless of the effective date of the bill, my signing it into law tells nightclub owners that the two year implementation delay will be in effect. Emergency clauses should be used sparingly and only when necessary.

For these reasons, I have vetoed Section 4 of Second Substitute House Bill 1811.

With the exception of Section 4, Second Substitute House Bill 1811 is approved.

Respectfully submitted,

Ladies and Gentlemen:

I am returning, without my approval as to Section 74, House Bill No. 1813 entitled:

"AN ACT Relating to changing the name of the interagency committee for outdoor recreation."

This bill changes the name of the Interagency Committee for Outdoor Recreation to the Recreation and Conservation Funding Board. It also changes the name of the Office of the Interagency Committee to the Recreation and Conservation Office. Section 74 makes this second name change in RCW 90.71.020, the statute that created the Puget Sound Action Team. Since RCW 90.71.020 is being repealed in Engrossed Substitute Senate Bill 5372, I am vetoing Section 74 in order to avoid any confusion.

For these reasons, I have vetoed Section 74 of House Bill No. 1813.

With the exception of Section 74, House Bill No. 1813 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Section 1, Engrossed Substitute House Bill No. 1833 entitled:

"AN ACT Relating to occupational diseases affecting firefighters."

Engrossed Substitute House Bill 1833 creates a rebuttable presumption that certain heart problems, cancer and infectious diseases are occupational diseases for firefighters that are covered by industrial insurance. I strongly support this law. The legislature's statement of intent in Section 1, however, makes broad generalizations about the incidence of cardiovascular disease. In an effort to avoid the unintended interpretations of broad generalizations, Section 2 of the bill has been carefully crafted to define specific "firefighting activities" that are related to occupational diseases.

For these reasons, I have vetoed Section 1 Engrossed Substitute House Bill 1833.

With the exception of Section 1, Engrossed Substitute House Bill 1833 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Section 302, Engrossed Substitute House Bill No. 1883 entitled:

"AN ACT Relating to modifications of the higher education coordinating board."

This bill focuses on minor changes to the responsibilities of the Higher Education Coordinating Board. The emergency clause in Section 302 of this bill is unnecessary. Emergency clauses should be restricted to bills that address public emergencies.

For this reason, I have vetoed Section 302 of Engrossed Substitute House Bill 1883.

With the exception of Section 302, Engrossed Substitute House Bill 1883 is approved.

To the Honorable Speaker and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 12, Engrossed Second Substitute House Bill No. 1910 entitled:

"AN ACT Relating to tax incentives for certain multiple-unit dwellings in urban centers that provide affordable housing."

This bill lowers the population requirement for a city to be eligible to offer property tax exemptions for certain multi-unit housing projects and requires cities that issue property tax exemptions for multi-unit housing projects to report data annually to the Department of Community, Trade and Economic Development.

I have concerns about this bill. It expands the multi-unit housing project property tax exemption to as many as forty-three additional cities with no evidence of the effectiveness of the exemption in increasing affordable housing. It also allows cities to grant a property tax exemption that affects counties without consultation. I request that the cities include the counties in this important decision making. Section 10 requires cities using the exemption program to report information on exemptions granted to the Department of Community, Trade, and Economic Development annually starting December 31, 2007. I am asking the Department of Community, Trade, and Economic Development to analyze the reports on the use of the property tax exemption and evaluate its use and effects as well as assess the need for legislation to alter the exemption program. Section 12 is an emergency clause which would allow the bill to become effective immediately. This is not essential to the bill's proper and timely implementation.

For these reasons, I have vetoed Section 12 of Engrossed Second Substitute House Bill 1910.

With the exception of Section 12, Engrossed Second Substitute House Bill 1910 is approved.

Respectfully submitted,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 14, Substitute House Bill No. 2118 entitled:

"AN ACT Relating to transferring responsibilities related to mobile and manufactured home installation from the department of community, trade and economic development to the department of labor and industries."

This bill, which requires the transfer of certain responsibilities related to manufactured housing, does not need an emergency clause. Removing the emergency clause moves back the transfer date of the affected programs from July 1 to July 22. While this may create some inconvenience for the agencies in not aligning the program with the biennial budget, it does not result in an interruption of the services being provided since the Department of Community Trade and Economic Development will continue to administer the program until the transfer is complete. We believe that the desire to avoid potential inconvenience should not be treated as a public emergency warranting an emergency clause.

For these reasons, I have vetoed Section 14 of Substitute House Bill 2118.

With the exception of Section 14, Substitute House Bill 2118 is approved.

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 7, Substitute House Bill No. 2129 entitled:

"AN ACT Relating to geothermal resources."

Section 7 of this bill extends the Department of Natural Resources' authority to recover costs for activities related to permits and leases. This authority has already been extended by other legislation previously enacted during the 2007 legislative session. Accordingly, section 7 of the bill is not needed. In addition, the subject of this section is beyond the scope of the bill title.

For these reasons, I have vetoed Section 7 of Substitute House Bill 2129.

With the exception of Section 7, Substitute House Bill 2129 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Section 3, Substitute House Bill No. 2275 entitled:

"AN ACT Relating to raising funds for state parks."

This bill provides an opportunity for motor vehicle owners to make a voluntary donation of \$5 to fund state parks at the time of initial or renewal registration. Section 3 of this bill does not appear to be related to the underlying bill, as it establishes a capitol campus tourism advisory task force. I am concerned with the creation of a task force as it may duplicate the work already being done by the Department of General Administration and the State Parks Commission. In addition, the title of the bill does not appear connected to the formation of a task force.

On February 2, 2007, I wrote the directors of General Administration and the State Parks Commission and requested that they work quickly to develop a plan to better market Heritage Park as a tourist attraction. This plan, as it is developing, has a final goal of making the whole of the Capitol Campus more tourist-friendly. Director Bremer and Director Derr will gather vital stakeholder input in the development of this plan. I am looking forward to their recommendations.

For these reasons, I have vetoed Sections 3 of Substitute House Bill 2275.

With the exception of Section 3, Substitute House Bill 2275 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Section 6, House Bill No. 2395 entitled:

"AN ACT Relating to leasing state lands and development rights on state lands to public agencies."

Section 6 of this bill is an emergency clause. The Department of Natural Resources does not expect any lease transactions to occur under the new lease provisions of this bill until later in the biennium, which makes the emergency clause unnecessary.

For this reason, I have vetoed Section 6 of House Bill 2395.

With the exception of Section 6, House Bill 2395 is approved.

The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 7, Substitute Senate Bill No. 5108 entitled:

"AN ACT Relating to farmland preservation."

This bill creates the Office of Farmland Preservation. Sections 6 and 7 are overly broad and do not appear to be related to the underlying bill, as it prohibits the use of eminent domain by governmental entities for wetland mitigation purposes on agricultural land. Furthermore, if enacted, Sections 6 and 7 create unintended and undesirable consequences to numerous transportation and development projects across the state, including the ability to meet state and federal permit requirements to continue dredging of the lower Columbia River.

I understand that the Army Corp of Engineers, state agencies, Port officials, local legislators and Southwest Washington families are meeting to explore alternatives to condemnation for mitigation related to the Columbia Deepening Project. This is a much more productive avenue than the provisions Sections 6 and 7 provide.

For these reasons, I have vetoed Sections 6 and 7 of Substitute Senate Bill 5108.

With the exception of Sections 6 and 7, Substitute Senate Bill No. 5108 is approved.

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 7, Senate Bill No. 5272 entitled:

"AN ACT Relating to the administration of fuel taxes."

This bill eliminates current statutory language from state motor vehicle and special fuel tax statutes declaring that motor vehicle and special fuel taxes are imposed on the end user. It also authorizes the Governor, or the gubernatorial designee, to enter into fuel tax compact agreements with federally recognized tribes operating or licensing retail stations on reservations or trust lands.

Section 7 of the bill limits the handling loss for fuel to licensed suppliers and licensed importers. Without Section 7, fuel distributors retain the handling loss that had been available to them prior to the passage of this legislation. The handling loss allowance is provided as an offset for evaporation and shrinkage that occurs in the transfer of fuel from the terminal racks to fuel tank trucks.

For these reasons, I have vetoed Section 7 of Senate Bill 5272.

With the exception of Section 7, Senate Bill 5272 is approved.

The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 2, Senate Bill No. 5313 entitled:

"AN ACT Relating to establishing the retirement age for members of the Washington state patrol retirement system."

This bill will help the Washington State Patrol retain its experienced troopers. When the bill was moving through the legislature, they were concerned that a trooper may turn 60 years old between July 1, 2007 the first day this bill could be effective, and the standard effective date, which is 90 days after a bill is signed into law. The Washington State Patrol has since determined that no troopers will turn 60 years old during this period of time, and that no trooper will face the mandatory retirement age prior to the effective date of this bill. The emergency clause is therefore unnecessary.

For these reasons, I have vetoed Section 2 of Senate Bill No. 5313.

With the exception of Sections 2, Senate Bill No. 5313 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Section 5, Substitute Senate Bill No. 5320 entitled:

"AN ACT Relating to creating an office of public guardianship as an independent agency of the judiciary."

I am a strong proponent of government management accountability and performance. To this extent, I believe we must be judicious in the creation of new boards and commissions. This bill calls for the creation of a 17 member advisory committee to the new Office of Public Guardianship.

The creation of the Office of Public Guardianship does not necessitate creating a 17 member Advisory Committee. The Office is created within the Administrative Offices of the Courts and the director is selected by, and serves at the pleasure of, the Supreme Court. These entities are capable of providing adequate oversight of the Office and performing the duties outlined in the bill for the advisory committee.

For these reasons, I have vetoed Section 5 of Substitute Senate Bill 5320.

With the exception of Section 5, Substitute Senate Bill 5320 is approved.

I am returning, without my approval as to Sections 15 and 16, Substitute Senate Bill No. 5718 entitled:

"AN ACT Relating to penalties for engaging in the commercial sexual abuse of minors."

The language establishing funding priorities for the Prostitution Prevention and Intervention Account (Account) in sections 15 and 16 could present technical challenges if funding is ever appropriated for the specific purposes. The Account was created in 1995 and has had very little historical activity. Funding is not provided in either this legislation or in the legislative budget. The Legislature could provide specific direction when or if specific funding is ever provided.

For these reasons, I have vetoed sections Sections 15 and 16 of Substitute Senate Bill 5718.

With the exception of Sections 15 and 16, Substitute Senate Bill 5718 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 7, Engrossed Substitute Senate Bill No. 5774 entitled:

"AN ACT Relating to revising background check processes."

Sections 6 and 7 of this bill establishes a work group, to be convened by the Department of Social and Health Services. The work group's responsibilities include reviewing current laws, rules and practices with respect to sharing confidential information, analyzing how state agencies use background check information to make employment decisions, and examining the need for and feasibility of verifying citizenship or immigration status of persons for whom background checks are required. The work group is to complete an interim report by December 1, 2007, and provide a final report to the Legislature and the Governor by July 1, 2008. The duties of this work group would be redundant with the work completed by the Joint Task Force on Criminal Background Check Processes, which ended two and a half years of work last December. Furthermore, the 2007-2009 operating budget as passed by the Legislature does not contain funding to support the operations of the contemplated work group.

For these reasons, I have vetoed Sections 6 and 7 of Engrossed Substitute Senate Bill 5774.

With the exception of Sections 6 and 7, Engrossed Substitute Senate Bill 5774 is approved.

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 8, Second Substitute Senate Bill No. 5790 entitled:

"AN ACT Relating to skill centers."

Sections 1 through 7 of this bill provide for further development of skill center programs, program access for additional students, state level coordination of the skill center program, and a funding formula for the programs.

Section 8 of this bill amends RCW 84.52.068, which specifies the amount of property tax revenues deposited into the Student Achievement Account. The Superintendent of Public Instruction is directed to ensure that skill centers receive moneys generated by skill center students.

The Student Achievement Fund was created by Initiative 728 in 2000. School districts receive allocations from this fund based on the number of students enrolled in the district. The amount to be allocated per student is specified in RCW 28A.505.220. One source of funding for this allocation is a deposit of state property tax revenues. RCW 84.52.068 specifies the amount of property tax revenues per student to deposit into the Student Achievement Fund. Because the property tax deposit is less than the total per student allocation from the Student Achievement Fund, other sources of revenue are also used to ensure full funding for the allocations.

Although the intent of Section 8 is to ensure that skill centers receive their share of the total Student Achievement Fund allocation, the provision relates to the property tax deposit only. The language of the section therefore fails to accomplish its intended goal.

For this reason, I have vetoed Section 8 of Second Substitute Senate Bill 5790.

With the exception of Section 8, Second Substitute Senate Bill 5790 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 7, Engrossed Second Substitute Senate Bill No. 5841 entitled:

"AN ACT Relating to enhancing student learning opportunities and student achievement."

Sections 1 through 5 of this bill addresses changes to the basic education act goals and authorizes new programs to further student learning opportunities. Specifically, all day kindergarten, primary grade foundational programs, English language learners, and community learning opportunities are addressed. Each of the new programs are provided with implementing resources in the biennial operating budget.

Sections 6 and 7 of the bill, however, cannot be implemented. Those sections create a new career pathways program and a world languages supervisor within the Office of the Superintendent of Public Instruction (OSPI). Neither the program nor the OSPI supervisor were provided with financial support in the biennial operating budget. Additionally, a proposed duty supervisor to implement memoranda of understanding with ministries of education in other countries and conduct other related activities raises concerns about proper international relations protocol.

For these reasons, I have vetoed Sections 6 and 7 of Engrossed Second Substitute Senate Bill 5841.

With the exception of Sections 6 and 7, Engrossed Second Substitute Senate Bill 5841 is approved.

Ladies and Gentlemen:

I am returning, without my approval as to Section 11, Engrossed Second Substitute Senate Bill No. 5923 entitled:

"AN ACT Relating to aquatic invasive species enforcement and control."

Aquatic invasive species pose significant risks to the marine and freshwaters of the state. It is imperative that we continue to prevent their introduction, as they are extremely difficult and costly to eradicate once established. This bill provides the clear policy, the compliance programs and the necessary funding to ensure our success in this effort.

However, I am vetoing Section 11 of Engrossed Second Substitute Senate Bill 5923 which would permanently establish the Ballast Water Work Group and significantly expand its duties. The Work Group has been an excellent source of expertise and advice but it is not currently in the position to take on all of the responsibilities outlined in the bill. In addition, we have in place the Washington Invasive Species Council to provide policy direction, planning and coordination for addressing invasive species in the state.

I appreciate the need for cooperation and support from many stakeholders and agencies in order to succeed with this program. I understand that Director Koenings will establish advisory and technical groups, as needed, to implement this bill and will work closely with the Invasive Species Council to coordinate our state response to the threat of invasive species.

For these reasons, I have vetoed Section 11 of Engrossed Second Substitute Senate Bill 5923.

With the exception of Section 11, Engrossed Second Substitute Senate Bill 5923 is approved.

"AN ACT Relating to providing high quality, affordable health care to Washingtonians based on the recommendations of the blue ribbon commission on health care costs and access."

I am pleased to support Engrossed Second Substitute Senate Bill 5930, an act relating to providing high quality, affordable health care to Washingtonians based on the recommendations of the Blue Ribbon Commission on Health Care Costs and Access.

Section 59 of this bill establishes a nine-member board charged with designing and managing the Washington Health Insurance Partnership (WHP). This section duplicates a comparable board established under Engrossed Second Substitute House Bill 1569, which passed during the 2007 legislative session. Section 74 of this bill of is an emergency clause, and would allow certain sections of the bill to become effective on July 1. Section 74 is not essential to the proper and timely implementation of the bill.

For these reasons, I have vetoed Sections 59 and 74 of Engrossed Second Substitute Senate Bill 5930.

I am returning, without my approval as to Sections 3 through 6, Second Substitute Senate Bill No. 5955 entitled:

"AN ACT Relating to educator preparation, professional development, and compensation."  
Sections 3 through 6 of this bill provide for the creation of a math, science and targeted secondary reading initiative. Section 3 describes the initiative's tiered support system that provides resources and intervention to schools and districts on a grant basis depending on levels of need. Section 4 outlines specific activities. Section 5 addresses distribution of targeted assistance funds. And, Section 6 identifies certain duties of participating Education School Districts. While provisions for the initiative are well-meaning, no funding was provided for their implementation.

For these reasons, I have vetoed Sections 3 through 6 of Second Substitute Senate Bill 5955.

I am returning, without my approval as to Section 6, Engrossed Substitute Senate Bill No. 6001 entitled:

"AN ACT Relating to mitigating the impacts of climate change."  
Section 6 of this bill is unnecessary. It was inserted when the bill contemplated minor adjustments to the Energy Facility Site Evaluation Council's permit process. But those adjustments were ultimately removed from the bill. The Governor currently has ample existing authority without Section 6.

For these reasons, I have vetoed Section 6 of Engrossed Substitute Senate Bill 6001.

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 9, 10, 11 and 13, Engrossed Substitute Senate Bill No. 6023 entitled:

"AN ACT Relating to the Washington assessment of student learning."

Sections 1 through 7 of this bill provide for the adjustment of high school assessment provisions related to state high school graduation requirements. These include specific changes related to mathematics and science, as well as the addition of several alternative assessments and modification of two other alternative assessments. Section 8 expands the provision of diagnostic assessments to assist students in developing the skills required to be demonstrated on state assessments. Section 12 creates an advisory committee to identify curricula that will assist in preparing students for the state assessment system.

Section 9 of this bill directs the State Board of Education, in consultation with the Superintendent of Public Instruction, to study, examine and recommend changes to the high school assessments in mathematics and science, focusing on replacement of the current assessments with specifically identified end-of-course assessments. The study's recommendation topics and timelines are structured to point to implementing end-of-course assessments as the predetermined outcome. For this reason, I am vetoing Section 9.

However, I am well aware of the strong legislative interest in this subject, specifically related to mathematics and science assessments. I have asked the State Board of Education to conduct a broad, objective study of end-of-course assessments. In the course of this study they will examine the various end-of-course assessment systems used by other states; their purposes; the subjects assessed and how they align with state standards, curriculum, and instruction; whether the exams are used singly or in combination with other assessments for graduation decision purposes; how the exams integrate with an entire assessment system (all grades and subjects); implementation issues; costs and lessons learned. Additionally, OSPI will ask potential test vendors to provide information regarding cost and technical aspects of implementing end-of-course assessments and that information will be shared with the State Board. The State Board of Education will provide recommendations based upon their study and present the study information and recommendations by January 15, 2008.

Section 10 of this bill provides for the implementation of appeals panels in each education service district for students who have not been successful in meeting state standards through the high school assessment system. The appeals criteria specified in the legislation does not relate to the student's knowledge and skill of the state standards. Therefore, I do not support this activity. Additionally, I am concerned that such a system will not yield consistent results from appeals board to appeals board.

Section 11 of this bill sets forth the threshold for student English skills required for participation in the state assessment system, with the exception that meeting standards through the state assessment system remains a requirement for high school graduation. However, in practice, the provision of excusing students from the assessments has no effect since the federal statute sets requirements for student participation for federal accountability purposes. When the federal statutes are changed, state participation requirements will be adjusted. While this provision is well-meaning, having it in statute will be confusing to students and parents.

Section 13 of this bill is an emergency clause. I am vetoing Section 13, as the issues in this legislation do not rise to the level of an emergency that requires the immediate revision of state laws.

For these reasons, I have vetoed Sections 9, 10, 11 and 13 of Engrossed Substitute Senate Bill 6023.

With the exception of Sections 9, 10, 11 and 13, Engrossed Substitute Senate Bill 6023 is approved.

Respectfully submitted,  
Christine O. Gregoire

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 4 and 5, Engrossed Substitute Senate Bill No. 6099 entitled:

"AN ACT Relating to the state route number 520 bridge replacement and HOV project."

This bill is an important step in making progress on the replacement of the State Route 520 bridge. The bill declares that the bridge should be replaced with four general purpose lanes and two high occupancy vehicle lanes. It also creates a mediation process for resolving concerns regarding community impacts caused by the bridge replacement.

Section 4 of this bill permits the project's mediator to ask an engineering firm to conduct an independent review of tubes and tunnels under Lake Washington, a partial tunnel from Interstate 5 to the west end of the SR 520 bridge, and a proposal to move SR 520 from its current alignment through the Arboretum. The bill requires that the mediator submit a report to the Joint Transportation Committee and the Governor regarding the results of the independent review by September 1, 2007.

I have decided to veto Section 4 due to the permissive nature of the bill language and the insufficient amount of time available to conduct the independent design review. Instead, the contract for the mediator will require the mediator to ask an engineering firm to conduct an independent review of the three alternative designs for the project, rather than simply permitting the mediator to conduct the review. Additionally, the contract will require completion of the independent review by December 1, 2007. Mandating the review while providing additional time for the work will provide sufficient time for an engineering firm to perform a thorough review of the proposed alternative designs.

Section 5 of the legislation prohibits any on-site construction of the SR520 project. This section has good intentions, but could inadvertently prevent the Department of Transportation (Department) from moving forward on projects outside of the actual bridge replacement. While I have vetoed Section 5, I am directing the Department not to commence any bridge construction until the mitigation and finance plans are submitted to the Governor and Legislature by 2008.

For these reasons, I have vetoed Sections 4 and 5 of Engrossed Substitute Senate Bill 6099.

With the exception of Sections 4 and 5, Engrossed Substitute Senate Bill 6099 is approved.

Respectfully submitted,  
Christine O. Gregoire

May 11, 2007

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, Engrossed Second Substitute Senate Bill No. 6117 entitled:

"AN ACT Relating to reclaimed water."

Section 4 of this bill would establish procedures for determining when a water reuse project would impair existing water rights, and would change the standard for mitigating any such impairment. Based on legal advice, I believe this section could have unintended consequences to existing water rights. The remainder of Section 4 of the bill would also create a new task force to address the state's water reuse program, including water right impairment issues.

I have vetoed Section 4 of Engrossed Second Substitute Senate Bill 6117 because of that portion of it that changes the standard for mitigating impairment of existing water rights.

Section 3 of the bill establishes new requirements for considering reclaimed water during watershed planning and land use decisions, which will eventually need to be harmonized with other statutes in order to ensure effective implementation. I believe this work is still needed and important to accomplish. Accordingly, I am directing the Department of Ecology to work with legislative leadership to address water right impairment from water reuse projects, reclaimed water planning and other issues raised in Sections 3 and 4 of the bill and to provide a report and recommendations to the Governor and appropriate standing committees of the legislature by December 31, 2007.

With the exception of Section 4, Engrossed Second Substitute Senate Bill 6117 is approved.

Respectfully submitted,  
Christine O. Gregoire

May 15, 2007

To the Honorable President and Members,  
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1 and 2, Substitute Senate Bill No. 6156 entitled:

"AN ACT relating to State Government."

This bill allows for the creation of Community Preservation and Development Authorities, specifically creates a Pioneer Square-International District Community Preservation and Development Authority within the city of Seattle, and establishes a method for creating additional such authorities. I strongly support the efforts of local communities to influence development of their own areas and believe this is one good way to accomplish that.

Sections 1 and 2 provide the legislative intent and findings in addition to the definitions for this act. I am concerned that these sections of the bill are overly broad and may lead to unintended consequences regarding public projects across our state. I do not believe that vetoing these sections will in any way hinder the creation of the Pioneer Square-International District Community Preservation and Development Authority provided for in Section 8. If the Legislature chooses to revisit this legislation with an eye toward expanding it beyond the Pioneer Square-International District Community Preservation and Development Authority, then I will work with interested members of the Legislature to improve this act.

For these reasons, I have vetoed Sections 1 and 2 of Substitute Senate Bill 6156.

With the exception of Sections 1 and 2, Substitute Senate Bill 6156 is approved.

Respectfully submitted,  
Christine O. Gregoire
