**POINT OF PERSONAL PRIVILEGE**

Representative Darneille: "Mr. Speaker, we are learning more today the terrible tragedy at Virginia Tech. In fact, our flags are being held at half mast. This is a terrible tragedy on a college campus and affects all campuses across the country. The first shootings yesterday morning took place in a dormitory and the first victims included a resident assistant in that dorm who went to help a young woman on his floor. Our hearts go out to everyone associated with Virginia Tech and to students, faculty, administrators and family members across our country.

Particularly today I would like the indulgence, Mr. Speaker of acknowledging the special work that is done by resident assistants in dorms on campuses in Washington State. My first work out of college was with staff in resident halls at Western Washington University. Many of you may have served as resident advisors during your college careers. They are chosen for leadership, personality, problem solving ability and dependability. They often work in exchange for room or board, and are not considered real State employees but we should be proud of them.

In the case of Ryan Clark who was called Stack at Virginia Tech it is said he would do anything for the people on his dorm. We cannot help but think about our campuses in Washington today and we thank the students in Washington who serve as residence advisors in our dorms and the administrators who work with them. Today and everyday they will do anything for the people on their floor, their dorm, their campus. Thank you, Mr. Speaker"

#### MESSAGE FROM THE SENATE

April 9, 2007

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1091 with the following amendment:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that Washington is home to some of the world's most innovative companies, researchers, entrepreneurs, and workers. Talent and creativity exist in all areas of Washington. The legislature further finds that economic potential can be enhanced when the state facilitates partnerships between talented leaders from research institutions, industry, and local economic development and workforce development organizations to attract additional talent and build on the strengths found in existing industry clusters. It is the intent of the legislature that Washington support innovation partnerships and partnership zones around the state that will become globally recognized as hubs of expertise, innovation, and commercialization and advance Washington's position in the world economy.

**NEW SECTION. Sec. 2.** A new section is added to chapter 43.330 RCW to read as follows:

(1) The department of community, trade, and economic development shall administer, with the advice of the Washington economic development commission, an innovation partnership zone program.

(b) Evidence of planning for the innovation partnership zone;

## SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House refused to concur in the Senate amendment to SUBSTITUTE HOUSE BILL NO. 1091 and asked the Senate to recede therefrom.

## MESSAGE FROM THE SENATE

April 6, 2007

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1777 with the following amendment:

Strike everything after the enacting clause and insert the following:

The purpose of this chapter is to:

(1) Provide citizens of the state of Washington with information relating to persons and organizations who solicit funds from the public for public charitable purposes in order to prevent ~~((+))~~ (a) deceptive and dishonest practices in the conduct of soliciting funds for or in the name of charity; and ~~((2))~~ (b) improper use of contributions intended for charitable purposes;

(2) Improve the transparency and accountability of organizations that solicit funds from the public for charitable purposes; and

(3) Develop and operate educational programs or partnerships for charitable organizations, board members, and the general public that help build public confidence and trust in organizations that solicit funds from the public for charitable purposes.

**Sec. 2.** RCW 19.09.020 and 2002 c 74 s 1 are each amended to read as follows:

When used in this chapter, unless the context otherwise requires:

(1) A "bona fide officer or employee" of a charitable organization is one (a) whose conduct is subject to direct control by such organization; (b) who does not act in the manner of an independent contractor in his or her relation with the organization; and (c) whose compensation is not computed on funds raised or to be raised.

(2) "Charitable organization" means any entity that solicits or collects contributions from the general public where the contribution is or is purported to be used to support a charitable ~~((activity))~~ purpose, but does not include any commercial fund raiser ~~((or))~~ commercial fund-raising entity, commercial coventurer, or any fund-raising counsel, as defined in this section. ~~((("Charitable" (a) is not limited to its common law meaning unless the context clearly requires a narrower meaning; (b) does not include religious or political activities; and (c) includes, but is not limited to, educational, recreational, social, patriotic, legal defense, benevolent, and health causes.))~~ Churches and their integrated auxiliaries are not charitable organizations, but are subject to RCW 19.09.100 (12), (15), and (18).

(3) "Charitable purpose" means any religious, charitable, scientific, testing for public safety, literary, or educational purpose or any other purpose that is beneficial to the community, including environmental, humanitarian, patriotic, or civic purposes, the support of national or international amateur sports competition, the prevention of cruelty to children or animals, the advancement of social welfare, or the benefit of law enforcement personnel, firefighters, and other persons who protect public safety. The term "charitable" is used in its generally accepted legal

sense and includes relief of the poor, the distressed, or the underprivileged; advancement of religion; advancement of education or science; erecting or maintaining public buildings, monuments, or works; lessening the burdens of government; lessening neighborhood tensions; eliminating prejudice and discrimination; defending human and civil rights secured by law; and combating community deterioration and juvenile delinquency.

(4) "Commercial coventurer" means any individual or corporation, partnership, sole proprietorship, limited liability company, limited partnership, limited liability partnership, or any other legal entity, that:

(a) Is regularly and primarily engaged in making sales of goods or services for profit directly to the general public;

(b) Is not otherwise regularly or primarily engaged in making charitable solicitations in this state or otherwise raising funds in this state for one or more charitable organizations;

(c) Represents to prospective purchasers that, if they purchase a good or service from the commercial coventurer, a portion of the sales price or a sum of money or some other specified thing of value will be donated to a named charitable organization; and

(d) Does not ask purchasers to make checks or other instruments payable to a named charitable organization or any entity other than the commercial coventurer itself under its regular commercial name.

(5) "Commercial fund raiser" or "commercial fund-raising entity" means any entity that for compensation or other consideration within this state directly or indirectly solicits or receives contributions for or on behalf of any charitable organization or charitable purpose, or that is engaged in the business of or is held out to persons in this state as independently engaged in the business of soliciting or receiving contributions for such purposes. However, a commercial coventurer, fund-raising counsel, or consultant is not a commercial fund raiser or commercial fund-raising entity.

(6) "Compensation" means salaries, wages, fees, commissions, or any other remuneration or valuable consideration.

((+)) (7) "Contribution" means the payment, donation, promise, or grant, for consideration or otherwise, of any money or property of any kind or value which contribution is wholly or partly induced by a solicitation. Reference to dollar amounts of "contributions" or "solicitations" in this chapter means in the case of payments or promises to pay for merchandise or rights of any description, the value of the total amount paid or promised to be paid for such merchandise or rights ((less the reasonable purchase price to the charitable organization of any such tangible merchandise, rights, or services resold by the organization, and not merely that portion of the purchase price to be applied to a charitable purpose)).

((+)) (8) "Cost of solicitation" means and includes all direct and indirect costs, expenditures, debts, obligations, salaries, wages, commissions, fees, or other money or thing of value paid or incurred in making a solicitation. However, the following shall not be deemed a commercial fund raiser or "commercial fund-raising entity": (a) Any entity that provides fund-raising advice or consultation to a charitable organization within this state but neither directly nor indirectly solicits or receives any contribution for or on behalf of any such charitable organization; and (b) a bona fide officer or other employee of a charitable organization.

(9)) (10) "Fund-raising counsel" or "consultant" means any entity or individual who is retained by a charitable organization, for a fixed fee or rate, that is not computed on a percentage of funds raised, or to be raised, under a written agreement only to plan, advise, consult, or prepare

materials for a solicitation of contributions in this state, but who does not manage, conduct, or carry on a fund-raising campaign and who does not solicit contributions or employ, procure, or engage any compensated person to solicit contributions, and who does not at any time have custody or control of contributions. A volunteer, employee, or salaried officer of a charitable organization maintaining a permanent establishment or office in this state is not a fund-raising counsel. An attorney, investment counselor, or banker who advises an individual, corporation, or association to make a charitable contribution is not a fund-raising counsel as a result of the advice.

(11) "General public" or "public" means any individual located in Washington state without a membership or other official relationship with a charitable organization before a solicitation by the charitable organization.

(12) "Membership" means that for the payment of fees, dues, assessments, etc., an organization provides services and confers a bona fide right, privilege, professional standing, honor, or other direct benefit, in addition to the right to vote, elect officers, or hold office. (+)) (15) "Religious organization" means those entities that are not churches or integrated auxiliaries and includes nondenominational ministries, interdenominational and ecumenical organizations, mission organizations, speakers' organizations, faith-based social agencies, and other entities whose principal purpose is the study, practice, or advancement of religion.

(16) "Secretary" means the secretary of state.

((+)) (17) "Signed" means hand-written, or, if the secretary adopts rules facilitating electronic filing that pertain to this chapter, in the manner prescribed by those rules.

((+)) (18)(a) "Solicitation" means any oral or written request for a contribution, including the solicitor's offer or attempt to sell any property, rights, services, or other thing in connection with which:

((+)) (i) Any appeal is made for any charitable purpose; ((or

(b)) (ii) The name of any charitable organization is used as an inducement for consummating the sale; or

((+)) (iii) Any statement is made that implies that the whole or any part of the proceeds from the sale will be applied toward any charitable purpose or donated to any charitable organization.

ENGROSSED HOUSE BILL NO. 1413, as amended by the Senate, having received the constitutional majority, was declared passed.

**MESSAGE FROM THE SENATE**

April 12, 2007

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1476 with the following amendment:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that:

(a) Seven rockfish stocks, including canary and yelloweye rockfish, have been designated under federal law by the national marine fisheries services as overfished on the west coast.

(b) The department of fish and wildlife has classified certain rockfish species within Puget Sound as critically depressed. These common species of rockfish have undergone dramatic declines in Puget Sound and the coast during the past three decades.

(c) The Pacific fishery management council and the department of fish and wildlife have eliminated the directed commercial fisheries and greatly reduced the recreational fishing opportunity for these species.

(d) Due to the interactions of these depleted stocks with the healthier ones, commercial and recreational fisheries have been severely constrained in recent years in order to rebuild the populations of these overfished rockfish. For many of these stocks there have been no recent stock assessments, or the current assessments are based on poor data. Improved survey information is essential for assessing abundance and to monitor progress toward rebuilding efforts on the coast and in Puget Sound.

(e) Department of fish and wildlife staff have been developing underwater robot technology or remote operated vehicles to scientifically estimate the abundance of rockfish populations in both the nearshore and in deep waters. These new assessment techniques, coupled with existing bottom trawl surveys, will be used to estimate current abundance and future recovery of rockfish populations along the coast of Washington and in Puget Sound.

(2) Therefore, the legislature intends to implement a targeted surcharge on commercial licenses issued by the department of fish and wildlife that provides for the retention or landing of ground fish, and a targeted surcharge on recreational saltwater fishing licenses. Funds

derived from the surcharge will be used by the department of fish and wildlife solely for the purpose of conducting rockfish research and stock assessments.

**NEW SECTION. Sec. 2.** A new section is added to chapter 77.12 RCW to read as follows:

(1) The department is directed to develop and implement a rockfish research and stock assessment program. Using funds from the rockfish research account created in subsection (2) of this section, the department must conduct Puget Sound basin and coastal surveys with new and existing technology to estimate the current abundance and future recovery of rockfish populations and other groundfish species. The stock assessment must include an evaluation of the potential for marine fish enhancement. Beginning December 2008, and every two years thereafter, the department shall report to the appropriate committees of the legislature on the status of the stock assessment program.

(2) The rockfish research account is created in the custody of the state treasurer. All receipts from surcharges assessed on commercial and recreational fishing licenses for the purposes of rockfish research must be deposited into the account. Expenditures from the account may be used only for rockfish research, including stock assessments. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

**Sec. 3.** RCW 77.65.150 and 2006 c 186 s 1 are each amended to read as follows:

(1) The director shall issue the charter licenses and angler permits listed in this section according to the requirements of this title. The licenses and permits and their annual fees and surcharges are:

License or Permit	Annual Fee (RCW 77.95.090 Surcharge) (Section 2 of this act Surcharge)		Governing Section
	Resident	Nonresident	
(a) Nonsalm on charter	\$225 (plus \$35 for section 2 of this act Surcharge)	\$375 (plus \$35 for section 2 of this act Surcharge)	
(b) Salmon charter	\$380 (plus \$100) (plus \$35 for section 2 of this act Surcharge)	\$685 (plus \$100) (plus \$35 for section 2 of this act Surcharge)	RCW 77.70.050
(c) Salmon angler	\$ 0	\$ 0	RCW 77.70.060
(d) Salmon roe	\$ 95	\$ 95	RCW 77.65.350

(2) A salmon charter license designating a vessel is required to operate a charter boat from which persons may, for a fee, fish for salmon, other food fish, and shellfish. The director may issue a salmon charter license only to a person who meets the qualifications of RCW 77.70.050.

(3) A nonsalmon charter license designating a vessel is required to operate a charter boat from which persons may, for a fee, fish for food fish other than salmon, albacore tuna, and shellfish.

(4)(a) "Charter boat" means a vessel from which persons may, for a fee, fish for food fish or shellfish for personal use in those state waters set forth in (b) of this subsection. "Charter boat" also means a vessel from which persons may, for a fee, fish for food fish or shellfish for personal use in offshore waters or in the waters of other states. The director may specify by rule when a vessel is a "charter boat" within this definition.

(b) A person may not operate a vessel from which persons may, for a fee, fish for food fish or shellfish in Puget Sound, Grays Harbor, Willapa Bay, Pacific Ocean waters, Lake Washington, or the Columbia river below

the bridge at Longview unless the vessel is designated on a charter boat license.

(5) A charter boat licensed in Oregon may fish without a Washington charter license under the same rules as Washington charter boat operators in ocean waters within the jurisdiction of Washington state from the southern border of the state of Washington to Leadbetter Point, as long as the Oregon vessel does not take on or discharge passengers for any purpose from any Washington port, the Washington shore, or a dock, landing, or other point in Washington. The provisions of this subsection shall be in effect as long as the state of Oregon has reciprocal laws and regulations.

(6) A salmon charter license under subsection (1)(b) of this section may be renewed if the license holder notifies the department by May 1st of that year that he or she will not participate in the fishery during that calendar year. The license holder must pay the one hundred-dollar enhancement surcharge and a thirty-five dollar surcharge to be deposited in the rockfish research account created in section 2 of this act, plus a fifteen-dollar handling charge, in order to be considered a valid renewal and eligible to renew the license the following year.

**Sec. 4.** RCW 77.65.210 and 2005 c 20 s 4 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, a person may not use a commercial fishing vessel to deliver food fish or shellfish taken for commercial purposes in offshore waters to a port in the state without a nonlimited entry delivery license. As used in this section, "deliver" and "delivery" mean arrival at a place or port, and include arrivals from offshore waters to waters within the state and arrivals ashore from offshore waters. As used in this section, "food fish" does not include salmon. As used in this section, "shellfish" does not include ocean pink shrimp, coastal crab, or fish or shellfish taken under an emerging commercial fisheries license if taken from off-shore waters. The annual license fee for a nonlimited entry delivery license is one hundred ten dollars for residents and two hundred dollars for nonresidents, and an additional thirty-five dollar surcharge for both residents and nonresidents to be deposited in the rockfish research account created in section 2 of this act.

(2) Holders of salmon troll fishery licenses issued under RCW 77.65.160, salmon delivery licenses issued under RCW 77.65.170, crab pot fishery licenses issued under RCW 77.65.220, food fish trawl--Non-Puget Sound fishery licenses, and emerging commercial fishery licenses issued under RCW 77.65.200, Dungeness crab--coastal fishery licenses, ocean pink shrimp delivery licenses, shrimp trawl--Non-Puget Sound fishery licenses, and emerging commercial fishery licenses issued under RCW 77.65.220 may deliver food fish or shellfish taken in offshore waters without a nonlimited entry delivery license.

(3) A nonlimited entry delivery license authorizes no taking of food fish or shellfish from state waters.

**Sec. 5.** RCW 77.32.470 and 2005 c 192 s 1 are each amended to read as follows:

(1) A personal use saltwater, freshwater, combination, temporary, or family fishing weekend license is required for all persons fifteen years of age or older to fish for or possess fish taken for personal use from state waters or offshore waters.

(2) The fees for annual personal use saltwater, freshwater, or combination licenses are as follows:

(a) A combination license allows the holder to fish for or possess fish, shellfish, and seaweed from state waters or offshore waters. The fee for this license is thirty-six dollars for residents, seventy-two dollars for nonresidents, and five dollars for youth. There is an additional fifty-cent surcharge for this license, to be deposited in the rockfish research account created section 2 of this act.

(b) A saltwater license allows the holder to fish for or possess fish taken from saltwater areas. The fee for this license is eighteen dollars for residents, thirty-six dollars for nonresidents, and five dollars for resident seniors. There is an additional fifty-cent surcharge for this license, to be deposited in the rockfish research account created section 2 of this act.

(c) A freshwater license allows the holder to fish for, take, or possess food fish or game fish species in all freshwater areas. The fee for this license is twenty dollars for residents, forty dollars for nonresidents, and five dollars for resident seniors.

(3)(a) A temporary combination fishing license is valid for one to five consecutive days and allows the holder to fish for or possess fish, shellfish,

(i) One day - Seven dollars for residents and fourteen dollars for nonresidents;

(c) A transaction fee to support the automated licensing system will be taken from the amounts set forth in this subsection for temporary licenses.

(d) Except for active duty military personnel serving in any branch of the United States armed forces, the temporary combination fishing license is not valid on game fish species for an eight-consecutive-day period beginning on the opening day of the lowland lake fishing season.

(e) There is an additional fifty-cent surcharge on the temporary combination fishing license and the associated charter stamp, to be deposited in the rockfish research account created in section 2 of this act.

(4) A family fishing weekend license allows for a maximum of six anglers: One resident and five youth; two residents and four youth; or one resident, one nonresident, and four youth. This license allows the holders to fish for or possess fish taken from state waters or offshore waters. The fee for this license is twenty dollars. This license is only valid during periods as specified by rule of the department.

(5) The commission may adopt rules to create and sell combination licenses for all hunting and fishing activities at or below a fee equal to the total cost of the individual license contained within any combination.

**NEW SECTION. Sec. 6.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

### MESSAGE FROM THE SENATE

April 5, 2007

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 1506 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 39.10.010 and 1994 c 132 s 1 are each amended to read as follows:

The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures (~~(by state agencies and large municipalities under limited circumstances)~~), to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures.

### PART 1 GENERAL PROVISIONS

**Sec. 101.** RCW 39.10.020 and 2005 c 469 s 3 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(2) (~~"Public body" means the state department of general administration; the University of Washington; Washington State University; every city with a population greater than seventy thousand and any public authority chartered by such city under RCW 35.21.730 through 35.21.755 and specifically authorized as provided in RCW 39.10.120(4); every county with a population greater than four hundred fifty thousand; every port district with total revenues greater than fifteen million dollars per year; every public hospital district with total revenues greater than fifteen million dollars per year utilizing the design-build procedure authorized by RCW 39.10.051 and every public hospital district, regardless of total revenues, proposing projects that are considered and approved by the public hospital district project review board under RCW 39.10.117; every public utility district with revenues from energy sales greater than twenty-three million dollars per year; those school districts proposing projects that are considered and approved by the school district project review board under RCW 39.10.115; and the state ferry system.~~) "Board" means the capital projects advisory review board.

(a) When making initial appointments to the committee, the board shall consider for appointment former members of the school district project review board and the public hospital district project review board.

(b) Each member of the committee shall be appointed for a term of three years. However, for initial appointments, the board shall stagger the appointment of committee members so that the first members are appointed to serve terms of one, two, or three years from the date of appointment. Appointees may be reappointed to serve more than one term.

(c) The committee shall, by a majority vote, elect a chair and vice-chair for the committee.

Public comments must be considered before a determination is made. Within ten business days of the public meeting, the committee shall provide a written determination to the public body, and make its determination available to the public on the committee's web site.

(4) The committee may revoke any public body's certification upon a finding, after a public hearing, that its use of design-build or general contractor/construction manager contracting procedures no longer serves the public interest.

The public body must submit an application for recertification at least three months before the initial certification expires. The application shall include updated information on the public body's capital plan for the next three years, its intended use of the procedures, and any other information requested by the committee. **NEW SECTION. Sec. 109. APPEAL PROCESS.** Final determinations by the committee may be appealed to the board within seven days by the public body or by an interested party. A written notice of an appeal must be provided to the committee and, as applicable, to the public body. The board shall resolve an appeal within forty-five days of receipt of the appeal and shall send a written determination of its decision to the party making the appeal and to the appropriate public body, as applicable. The public body shall comply with the determination of the board.

## PART 2 DESIGN-BUILD

**Sec. 201.** RCW 39.10.051 and 2003 c 352 s 2 and 2003 c 300 s 4 are each reenacted and amended to read as follows:

(1) ~~(Notwithstanding any other provision of law, and after complying with RCW 39.10.030, the following public bodies may utilize the design-build procedure of public works contracting for public works projects authorized under this section: The state department of general administration; the state ferry system; the University of Washington; Washington State University; every city with a population greater than seventy thousand and any public authority chartered by such city under RCW 35.21.730 through 35.21.755 and specifically authorized as provided in RCW 39.10.120(4); every county with a population greater than four hundred fifty thousand; every public utility district with revenues from energy sales greater than twenty-three million dollars per year; every public hospital district with total revenues greater than fifteen million dollars per year; and every port district with total revenues greater than fifteen million dollars per year. The authority granted to port districts in this section is in addition to and does not affect existing contracting authority under RCW 53.08.120 and 53.08.130. For the purposes of this section, "design-build procedure" means a contract between a public body and another party in which the party agrees to both design and build the facility, portion of the facility, or other item specified in the contract.~~

~~(2) Public bodies authorized under this section)) Subject to the process in section 107 or 108 of this act, public bodies may utilize the~~

design-build procedure for public works projects (~~(valued)~~) in which the total project cost is over ten million dollars and where:

(a) The design and construction activities (~~(or)~~) technologies, or schedule to be used are highly specialized and a design-build approach is critical in developing the construction methodology or implementing the proposed technology; or

(b) The project design is repetitive in nature and is an incidental part of the installation or construction; or

(c) Regular interaction with and feedback from facilities users and operators during design is not critical to an effective facility design.

(2) Subject to the process in section 107 or 108 of this act, public bodies may use the design-build procedure for parking garages, regardless of cost.

(3) ~~((Public bodies authorized under this section may also use))~~ The design-build procedure also may be used for the ~~((following projects that meet the criteria in subsection (2)(b) and (c) of this section:~~

~~(a) The))~~ construction or erection of preengineered metal buildings or prefabricated modular buildings, regardless of cost~~((or~~

~~(b) The construction of new student housing projects valued over five million dollars.~~

~~(4) Contracts for design-build services shall be awarded through a competitive process utilizing public solicitation of proposals for design-build services. The public body shall publish at least once in a legal newspaper of general circulation published in or as near as possible to that part of the county in which the public work will be done, a notice of its request for proposals for design-build services and the availability and location of the request for proposal documents. The request for proposal documents shall include:~~

~~(a) A detailed description of the project including programmatic, performance, and technical requirements and specifications, functional and operational elements, minimum and maximum net and gross areas of any building, and, at the discretion of the public body, preliminary engineering and architectural drawings;~~

~~(b) The reasons for using the design-build procedure;~~

~~(c) A description of the qualifications to be required of the proposer including, but not limited to, submission of the proposer's accident prevention program;~~

~~(d) A description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors. Evaluation factors shall include, but not be limited to: Proposal price; ability of professional personnel; past performance on similar projects; ability to meet time and budget requirements; ability to provide a performance and payment bond for the project; recent, current, and projected work loads of the firm; location; and the concept of the proposal;~~

~~(e) The form of the contract to be awarded;~~

~~(f) The amount to be paid to finalists submitting best and final proposals who are not awarded a design-build contract; and~~

~~(g) Other information relevant to the project.~~

(5) The public body shall establish a committee to evaluate the proposals based on the factors, weighting, and process identified in the request for proposals. Based on its evaluation, the public body shall select not fewer than three nor more than five finalists to submit best and final proposals. The public body may, in its sole discretion, reject all proposals. Design-build contracts shall be awarded using the procedures in (a) or (b) of this subsection.

(a) Best and final proposals shall be evaluated and scored based on the factors, weighting, and process identified in the initial request for proposals. The public body may score the proposals using a system that measures the quality and technical merits of the proposal on a unit price basis. Final proposals may not be considered if the proposal cost is greater than the maximum allowable construction cost identified in the initial request for proposals. The public body shall initiate negotiations with the firm submitting the highest scored best and final proposal. If the public body is unable to execute a contract with the firm submitting the highest scored best and final proposal, negotiations with that firm may be suspended or terminated and the public body may proceed to negotiate with the next highest scored firm. Public bodies shall continue in accordance with this procedure until a contract agreement is reached or the selection process is terminated.

(b) If the public body determines that all finalists are capable of producing plans and specifications that adequately meet project

requirements, the public body may award the contract to the firm that submits the responsive best and final proposal with the lowest price.

(6) The firm awarded the contract shall provide a performance and payment bond for the contracted amount. The public body shall provide appropriate honorarium payments to finalists submitting best and final proposals who are not awarded a design-build contract. Honorarium payments shall be sufficient to generate meaningful competition among potential proposers on design-build projects.

(7) The authority provided to the state ferry system in this section is limited to projects concerning construction, renovation, preservation, demolition, and reconstruction of ferry terminals and associated land-based facilities) and is not subject to approval by the committee.

(4) Except for utility projects, the design-build procedure may not be used to procure operations and maintenance services for a period longer than three years. State agency projects that propose to use the design-build-operate-maintain procedure shall submit cost estimates for the construction portion of the project consistent with the office of financial management's capital budget requirements. Operations and maintenance costs must be shown separately and must not be included as part of the capital budget request.

**Sec. 202.** RCW 39.10.080 and 1994 c 132 s 8 are each amended to read as follows:

Notwithstanding the provisions of RCW 39.04.015, a public body using the design-build contracting procedure is authorized to negotiate an adjustment to the lowest bid or proposal price for a public works project ((awarded under RCW 39.10.050 and 39.10.060)) based upon agreed changes to the contract plans and specifications under the following conditions:

(1) All responsive bids or proposal prices exceed the available funds, as certified by an appropriate fiscal officer;

(2) The apparent low-responsive bid or proposal does not exceed the available funds by the greater of one hundred twenty-five thousand dollars or two percent for projects valued over ten million dollars; and

(3) The negotiated adjustment will bring the bid or proposal price within the amount of available funds.

**Sec. 203.** RCW 39.10.070 and 1994 c 132 s 7 are each amended to read as follows:

(1) A public body utilizing the ~~((alternative public works))~~ design-build contracting procedure~~((s authorized under RCW 39.10.050 and 39.10.060))~~ shall provide for:

(a) ~~((The preparation of appropriate, complete, and coordinated design documents consistent with the procedure utilized;~~

~~(b) To the extent appropriate, an independent review of the contract documents through value engineering or constructability studies prior to bid or proposal solicitation;~~

~~(c))~~ Reasonable budget contingencies totaling not less than five percent of the anticipated contract value;

~~((d) To the extent appropriate, on-site architectural or engineering representatives during major construction or installation phases;~~

~~(e))~~ (b) Employment of staff or consultants with expertise and prior experience in the management of comparable projects; ~~((and~~

~~(f))~~ (c) Contract documents that include alternative dispute resolution procedures to be attempted prior to the initiation of litigation;

(e) Contract documents that require the contractor, subcontractors, and designers to submit project information required by the board.

(2) A public body utilizing the ~~((alternative public works))~~ design-build contracting procedure~~((s under RCW 39.10.050 and 39.10.060))~~ may provide incentive payments to contractors for early completion, cost savings, or other goals if such payments are identified in the request for proposals.

**NEW SECTION. Sec. 204.** DESIGN-BUILD CONTRACT AWARD. (1) Contracts for design-build services shall be awarded through a competitive process using public solicitation of proposals for design-build services. The public body shall publish at least once in a legal newspaper of general circulation published in, or as near as possible to, that part of the county in which the public work will be done, a notice of its request for qualifications from proposers for design-build services, and the availability and location of the request for proposal documents. The request for qualifications documents shall include:

(a) A general description of the project that provides sufficient information for proposers to submit qualifications;

(b) The reasons for using the design-build procedure;

(c) A description of the qualifications to be required of the proposer including, but not limited to, submission of the proposer's accident prevention program;

(d) A description of the process the public body will use to evaluate qualifications and finalists' proposals, including evaluation factors and the relative weight of factors and any specific forms to be used by the proposers;

(i) Evaluation factors for request for qualifications shall include, but not be limited to, technical qualifications, such as specialized experience and technical competence; capability to perform; past performance of the proposers' team, including the architect-engineer and construction members; and other appropriate factors. Cost or price-related factors are not permitted in the request for qualifications phase;

(ii) Evaluation factors for finalists' proposals shall include, but not be limited to, the factors listed in (d)(i) of this subsection, as well as technical approach design concept; proposal price; ability of professional personnel; past performance on similar projects; ability to meet time and budget requirements; ability to provide a performance and payment bond for the project; recent, current, and projected work loads of the firm; and location. Alternatively, if the public body determines that all finalists will be capable of producing a design that adequately meets project requirements, the public body may award the contract to the firm that submits the responsive proposal with the lowest price;

(e) The form of the contract to be awarded;

(f) The amount to be paid to finalists submitting responsive proposals and who are not awarded a design-build contract;

(g) The schedule for the procurement process and the project; and

(h) Other information relevant to the project.

(2) The public body shall establish an evaluation committee to evaluate the responses to the request for qualifications based on the factors, weighting, and process identified in the request for qualifications. Based on the evaluation committee's findings, the public body shall select not more than five responsive and responsible finalists to submit proposals. The public body may, in its sole discretion, reject all proposals and shall provide its reasons for rejection in writing to all proposers.

(3) Upon selection of the finalists, the public body shall issue a request for proposals to the finalists, which shall provide the following information:

(a) A detailed description of the project including programmatic, performance, and technical requirements and specifications; functional and operational elements; minimum and maximum net and gross areas of any building; and, at the discretion of the public body, preliminary engineering and architectural drawings; and

(b) The target budget for the design-build portion of the project.

(4) The public body shall establish an evaluation committee to evaluate the proposals submitted by the finalists. Design-build contracts shall be awarded using the procedures in (a) or (b) of this subsection. The public body must identify in the request for qualifications which procedure will be used.

(a) The finalists' proposals shall be evaluated and scored based on the factors, weighting, and process identified in the initial request for qualifications and in any addenda published by the public body. Public bodies may request best and final proposals from finalists. The public body shall initiate negotiations with the firm submitting the highest scored proposal. If the public body is unable to execute a contract with the firm submitting the highest scored proposal, negotiations with that firm may be suspended or terminated and the public body may proceed to negotiate with the next highest scored firm. Public bodies shall continue in accordance with this procedure until a contract agreement is reached or the selection process is terminated.

(b) If the public body determines that all finalists are capable of producing a design that adequately meets project requirements, the public body may award the contract to the firm that submits the responsive proposal with the lowest price.

(5) The firm awarded the contract shall provide a performance and payment bond for the contracted amount. The public body shall provide appropriate honorarium payments to finalists submitting best and final proposals that are not awarded a design-build contract. Honorarium payments shall be sufficient to generate meaningful competition among potential proposers on design-build projects. In determining the amount

of the honorarium, the public body shall consider the level of effort required to meet the selection criteria.

### PART 3 GENERAL CONTRACTOR/CONSTRUCTION MANAGER

**Sec. 301.** RCW 39.10.061 and 2003 c 352 s 3 and 2003 c 300 s 5 are each reenacted and amended to read as follows:

~~((1))~~ Notwithstanding any other provision of law, and after complying with RCW 39.10.030, a public body may utilize the general contractor/construction manager procedure of public works contracting for public works projects authorized under subsection (2) of this section. For the purposes of this section, "general contractor/construction manager" means a firm with which a public body has selected and negotiated a maximum allowable construction cost to be guaranteed by the firm, after competitive selection through formal advertisement and competitive bids, to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work, and to act as the construction manager and general contractor during the construction phase.

~~(2)~~ Except those school districts proposing projects that are considered and approved by the school district project review board and those public hospital districts proposing projects that are considered and approved by the public hospital district project review board) Subject to the process in section 107 or 108 of this act, public bodies ~~((authorized under this section))~~ may utilize the general contractor/construction manager procedure for public works projects ~~((valued over ten million dollars))~~ where:

~~((a))~~ (1) Implementation of the project involves complex scheduling ~~((requirements)), phasing, or coordination; ((or~~

~~((b))~~ (2) The project involves construction at an ~~((existing))~~ occupied facility which must continue to operate during construction; ~~((or~~

~~((c))~~ (3) The involvement of the general contractor/construction manager during the design stage is critical to the success of the project~~((:~~

~~(3)~~ Public bodies should select general contractor/construction managers early in the life of public works projects, and in most situations no later than the completion of schematic design.

~~(4)~~ Contracts for the services of a general contractor/construction manager under this section shall be awarded through a competitive process requiring the public solicitation of proposals for general contractor/construction manager services. The public solicitation of proposals shall include: A description of the project, including programmatic, performance, and technical requirements and specifications when available; the reasons for using the general contractor/construction manager procedure; a description of the qualifications to be required of the proposer, including submission of the proposer's accident prevention program; a description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors; the form of the contract to be awarded; the estimated maximum allowable construction cost; and the bid instructions to be used by the general contractor/construction manager finalists. Evaluation factors shall include, but not be limited to: Ability of professional personnel, past performance in negotiated and complex projects, and ability to meet time and budget requirements; the scope of work the general contractor/construction manager proposes to self-perform and its ability to perform it; location; recent, current, and projected work loads of the firm; and the concept of their proposal. A public body shall establish a committee to evaluate the proposals. After the committee has selected the most qualified finalists, these finalists shall submit final proposals, including sealed bids for the percent fee, which is the percentage amount to be earned by the general contractor/construction manager as overhead and profit, on the estimated maximum allowable construction cost and the fixed amount for the detailed specified general conditions work. The public body shall select the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors published in the public solicitation of proposals.

~~(5)~~ The maximum allowable construction cost may be negotiated between the public body and the selected firm after the scope of the project is adequately determined to establish a guaranteed contract cost for which the general contractor/construction manager will provide a performance and payment bond. The guaranteed contract cost includes the fixed amount for the detailed specified general conditions work, the negotiated

maximum allowable construction cost, the percent fee on the negotiated maximum allowable construction cost, and sales tax. If the public body is unable to negotiate a satisfactory maximum allowable construction cost with the firm selected that the public body determines to be fair, reasonable, and within the available funds, negotiations with that firm shall be formally terminated and the public body shall negotiate with the next highest scored firm and continue until an agreement is reached or the process is terminated. If the maximum allowable construction cost varies more than fifteen percent from the bid estimated maximum allowable construction cost due to requested and approved changes in the scope by the public body, the percent fee shall be renegotiated.

(6) All subcontract work shall be competitively bid with public bid openings. When critical to the successful completion of a subcontractor bid package and after publication of notice of intent to determine bidder eligibility in a legal newspaper of general circulation published in or as near as possible to that part of the county in which the public work will be done at least twenty days before requesting qualifications from interested subcontract bidders, the owner and general contractor/construction manager may determine subcontractor bidding eligibility using the following evaluation criteria:

(a) Adequate financial resources or the ability to secure such resources;

(b) History of successful completion of a contract of similar type and scope;

(c) Project management and project supervision personnel with experience on similar projects and the availability of such personnel for the project;

(d) Current and projected workload and the impact the project will have on the subcontractor's current and projected workload;

(e) Ability to accurately estimate the subcontract bid package scope of work;

(f) Ability to meet subcontract bid package shop drawing and other coordination procedures;

(g) Eligibility to receive an award under applicable laws and regulations; and

(h) Ability to meet subcontract bid package scheduling requirements.

The owner and general contractor/construction manager shall weigh the evaluation criteria and determine a minimum acceptable score to be considered an eligible subcontract bidder.

After publication of notice of intent to determine bidder eligibility, subcontractors requesting eligibility shall be provided the evaluation criteria and weighting to be used by the owner and general contractor/construction manager to determine eligible subcontract bidders. After the owner and general contractor/construction manager determine eligible subcontract bidders, subcontractors requesting eligibility shall be provided the results and scoring of the subcontract bidder eligibility determination.

Subcontract bid packages shall be awarded to the responsible bidder submitting the low responsive bid. The requirements of RCW 39.30.060 apply to each subcontract bid package. All subcontractors who bid work over three hundred thousand dollars shall post a bid bond and all subcontractors who are awarded a contract over three hundred thousand dollars shall provide a performance and payment bond for their contract amount. All other subcontractors shall provide a performance and payment bond if required by the general contractor/construction manager. If a general contractor/construction manager receives a written protest from a subcontractor bidder, the general contractor/construction manager shall not execute a contract for the subcontract bid package with anyone other than the protesting bidder without first providing at least two full business days' written notice of the general contractor/construction manager's intent to execute a contract for the subcontract bid package; provided that the protesting bidder submits notice in writing of its protest no later than two full business days following bid opening. Intermediate Saturdays, Sundays, and legal holidays are not counted. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project. Except as provided for under subsection (7) of this section, bidding on subcontract work by the general contractor/construction manager or its subsidiaries is prohibited. The general contractor/construction manager may negotiate with the low responsive bidder in accordance with RCW 39.10.080 or, if unsuccessful in such negotiations, rebid.

(7) The general contractor/construction manager, or its subsidiaries, may bid on subcontract work if:

(a) The work within the subcontract bid package is customarily performed by the general contractor/construction manager;

(b) The bid opening is managed by the public body; and

(c) Notification of the general contractor/construction manager's intention to bid is included in the public solicitation of bids for the bid package.

In no event may the value of subcontract work performed by the general contractor/construction manager exceed thirty percent of the negotiated maximum allowable construction cost.

(8) A public body may include an incentive clause in any contract awarded under this section for savings of either time or cost or both from that originally negotiated. No incentives granted may exceed five percent of the maximum allowable construction cost. If the project is completed for less than the agreed upon maximum allowable construction cost, any savings not otherwise negotiated as part of an incentive clause shall accrue to the public body. If the project is completed for more than the agreed upon maximum allowable construction cost, excepting increases due to any contract change orders approved by the public body, the additional cost shall be the responsibility of the general contractor/construction manager.

(9) The authority provided to the state ferry system in this section is limited to projects concerning construction, renovation, preservation, demolition, and reconstruction of ferry terminals and associated land-based facilities);

(4) The project encompasses a complex or technical work environment; or

(5) The project requires specialized work on a building that has historic significance.

**NEW SECTION. Sec. 302. PROJECT MANAGEMENT AND CONTRACTING REQUIREMENTS.** (1) A public body using the general contractor/construction manager contracting procedure shall provide for:

(a) The preparation of appropriate, complete, and coordinated design documents;

(b) Confirmation that a constructability analysis of the design documents has been performed prior to solicitation of a subcontract bid package;

(c) Reasonable budget contingencies totaling not less than five percent of the anticipated contract value;

(d) To the extent appropriate, on-site architectural or engineering representatives during major construction or installation phases;

(e) Employment of staff or consultants with expertise and prior experience in the management of comparable projects, critical path method schedule review and analysis, and the administration, pricing, and negotiation of change orders;

(f) Contract documents that include alternative dispute resolution procedures to be attempted before the initiation of litigation;

(g) Contract documents that: (i) Obligate the public owner to accept or reject a request for equitable adjustment, change order, or claim within a specified time period but no later than sixty calendar days after the receipt by the public body of related documentation; and (ii) provide that if the public owner does not respond in writing to a request for equitable adjustment, change order, or claim within the specified time period, the request is deemed denied;

(h) Submission of project information, as required by the board; and

(i) Contract documents that require the contractor, subcontractors, and designers to submit project information required by the board.

(2) A public body using the general contractor/construction manager contracting procedure may include an incentive clause for early completion, cost savings, or other performance goals if such incentives are identified in the request for proposals. No incentives granted may exceed five percent of the maximum allowable construction cost. No incentives may be paid from any contingency fund established for coordination of the construction documents or coordination of the work.

(3) If the construction is completed for less than the maximum allowable construction cost, any savings not otherwise negotiated as part of an incentive clause shall accrue to the public body. If the construction is completed for more than the maximum allowable construction cost, the additional cost is the responsibility of the general contractor/construction manager.

(4) If the public body and the general contractor/construction manager agree, in writing, on a price for additional work, the public body must issue

a change order within thirty days of the written agreement. If the public body does not issue a change order within the thirty days, interest shall accrue on the dollar amount of the additional work satisfactorily completed until a change order is issued. The public body shall pay this interest at a rate of one percent per month.

**NEW SECTION. Sec. 303. CONTRACT AWARD.** (1) Public bodies should select general contractor/construction managers early in the life of public works projects, and in most situations no later than the completion of schematic design.

(2) Contracts for the services of a general contractor/ construction manager under this section shall be awarded through a competitive process requiring the public solicitation of proposals for general contractor/construction manager services. The public solicitation of proposals shall include:

(a) A description of the project, including programmatic, performance, and technical requirements and specifications when available;

(b) The reasons for using the general contractor/construction manager procedure;

(c) A description of the qualifications to be required of the firm, including submission of the firm's accident prevention program;

(d) A description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors;

(e) The form of the contract, including any contract for preconstruction services, to be awarded;

(f) The estimated maximum allowable construction cost; and

(g) The bid instructions to be used by the general contractor/ construction manager finalists.

(3) Evaluation factors for selection of the general contractor/construction shall include, but not be limited to:

(a) Ability of the firm's professional personnel;

(b) The firm's past performance in negotiated and complex projects;

(c) The firm's ability to meet time and budget requirements;

(d) The scope of work the firm proposes to self-perform and its ability to perform that work;

(e) The firm's proximity to the project location;

(f) Recent, current, and projected work loads of the firm; and

(g) The firm's approach to executing the project.

(4) A public body shall establish a committee to evaluate the proposals. After the committee has selected the most qualified finalists, these finalists shall submit final proposals, including sealed bids for the percent fee on the estimated maximum allowable construction cost and the fixed amount for the general conditions work specified in the request for proposal. The public body shall select the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors published in the public solicitation of proposals. A public body shall not evaluate or disqualify a proposal based on the terms of a collective bargaining agreement.

(5) Public bodies may contract with the selected firm to provide services during the design phase that may include life-cycle cost design considerations, value engineering, scheduling, cost estimating, constructability, alternative construction options for cost savings, and sequencing of work, and to act as the construction manager and general contractor during the construction phase.

**NEW SECTION. Sec. 304. MAXIMUM ALLOWABLE CONSTRUCTION COST.** (1) The maximum allowable construction cost shall be used to establish a total contract cost for which the general contractor/construction manager shall provide a performance and payment bond. The maximum allowable construction cost shall be negotiated between the public body and the selected firm when the construction documents and specifications are at least ninety percent complete.

(2) Major bid packages may be bid in accordance with section 305 of this act before agreement on the maximum allowable construction cost between the public body and the selected general contractor/construction manager. The general contractor/construction manager may issue an intent to award to the responsible bidder submitting the lowest responsive bid.

(3) The public body may, at its option, authorize the general contractor/construction manager to proceed with the bidding and award of bid packages and construction before receipt of complete project plans and

specifications. Any contracts awarded under this subsection shall be incorporated in the negotiated maximum allowable construction cost.

(4) The total contract cost includes the fixed amount for the detailed specified general conditions work, the negotiated maximum allowable construction cost, the negotiated support services, and the percent fee on the negotiated maximum allowable construction cost. Negotiated support services may be included in the specified general conditions at the discretion of the public body.

(5) If the public body is unable to negotiate a satisfactory maximum allowable construction cost with the firm selected that the public body determines to be fair, reasonable, and within the available funds, negotiations with that firm shall be formally terminated and the public body shall negotiate with the next highest scored firm and continue until an agreement is reached or the process is terminated.

(6) If the maximum allowable construction cost varies more than fifteen percent from the bid estimated maximum allowable construction cost due to requested and approved changes in the scope by the public body, the percent fee shall be renegotiated.

**NEW SECTION. Sec. 305. SUBCONTRACT BIDDING PROCEDURE.** (1) All subcontract work and equipment and material purchases shall be competitively bid with public bid openings. Subcontract bid packages and equipment and materials purchases shall be awarded to the responsible bidder submitting the lowest responsive bid. In preparing subcontract bid packages, the general contractor/construction manager shall not be required to violate or waive terms of a collective bargaining agreement.

(2) All subcontract bid packages in which bidder eligibility was not determined in advance shall include the specific objective criteria that will be used by the general contractor/construction manager and the public body to evaluate bidder responsibility. If the lowest bidder submitting a responsive bid is determined by the general contractor/construction manager and the public body not to be responsible, the general contractor/construction manager and the public body must provide written documentation to that bidder explaining their intent to reject the bidder as not responsible and afford the bidder the opportunity to establish that it is a responsible bidder. Responsibility shall be determined in accordance with criteria listed in the bid documents. Protests concerning bidder responsibility determination by the general contractor/construction manager and the public body shall be in accordance with subsection (4) of this section.

(3) All subcontractors who bid work over three hundred thousand dollars shall post a bid bond. All subcontractors who are awarded a contract over three hundred thousand dollars shall provide a performance and payment bond for the contract amount. All other subcontractors shall provide a performance and payment bond if required by the general contractor/construction manager.

(4) If the general contractor/construction manager receives a written protest from a subcontractor bidder or an equipment or material supplier, the general contractor/construction manager shall not execute a contract for the subcontract bid package or equipment or material purchase order with anyone other than the protesting bidder without first providing at least two full business days' written notice to all bidders of the intent to execute a contract for the subcontract bid package. The protesting bidder must submit written notice of its protest no later than two full business days following the bid opening. Intermediate Saturdays, Sundays, and legal holidays are not counted.

(5) A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project.

(6) The general contractor/construction manager may negotiate with the lowest responsible and responsive bidder to negotiate an adjustment to the lowest bid or proposal price based upon agreed changes to the contract plans and specifications under the following conditions:

(a) All responsive bids or proposal prices exceed the available funds, as certified by an appropriate fiscal officer;

(b) The apparent low responsive bid or proposal does not exceed the available funds by the greater of one hundred twenty-five thousand dollars or two percent for projects valued over ten million dollars; and

(c) The negotiated adjustment will bring the bid or proposal price within the amount of available funds.

(7) If the negotiation is unsuccessful, the subcontract work or equipment or material purchases must be rebid.

(8) The general contractor/construction manager must provide a written explanation if all bids are rejected.

**NEW SECTION. Sec. 306. GENERAL CONTRACTOR/CONSTRUCTION MANAGER SELF PERFORMANCE OF SUBCONTRACT WORK.** (1) Except as provided in this section, bidding on subcontract work or for the supply of equipment or materials by the general contractor/construction manager or its subsidiaries is prohibited.

(2) The general contractor/construction manager, or its subsidiaries, may bid on subcontract work or for the supply of equipment or materials if:

(a) The work within the subcontract bid package or equipment or materials is customarily performed or supplied by the general contractor/construction manager;

(b) The bid opening is managed by the public body and is in compliance with section 305 of this act; and

(c) Notification of the general contractor/construction manager's intention to bid is included in the public solicitation of bids for the bid package or for the equipment or materials.

(3) In no event may the general contractor/construction manager or its subsidiaries purchase equipment or materials for assignment to subcontract bid package bidders for installation or warranty. The value of subcontract work performed and equipment and materials supplied by the general contractor/construction manager may not exceed thirty percent of the negotiated maximum allowable construction cost. Negotiated support services performed by the general contractor/construction manager shall not be considered subcontract work for purposes of this subsection.

**NEW SECTION. Sec. 307. PREBID DETERMINATION OF SUBCONTRACTOR ELIGIBILITY.** (1) If determination of subcontractor eligibility prior to seeking bids is in the best interest of the project and critical to the successful completion of a subcontract bid package, the general contractor/construction manager and the public body may determine subcontractor eligibility to bid. The general contractor/construction manager and the public body must:

(a) Conduct a hearing and provide an opportunity for any interested party to submit written and verbal comments regarding the justification for conducting bidder eligibility, the evaluation criteria, and weights for each criteria and subcriteria;

(b) Publish a notice of intent to evaluate and determine bidder eligibility in a legal newspaper published in or as near as possible to that part of the county where the public work will be constructed at least fourteen calendar days before conducting a public hearing;

(c) Ensure the public hearing notice includes the date, time, and location of the hearing, a statement justifying the basis and need for performing eligibility analysis before bid opening, and specific eligibility criteria and applicable weights given to each criteria and subcriteria that will be used during evaluation;

(d) After the public hearing, consider written and verbal comments received and determine if establishing bidder eligibility in advance of seeking bids is in the best interests of the project and critical to the successful completion of a subcontract bid package; and

(e) Issue a written final determination to all interested parties. All protests of the decision to establish bidder eligibility before issuing a subcontractor bid package must be filed with the superior court within seven calendar days of the final determination. Any modifications to the eligibility criteria and weights shall be based on comments received during the public hearing process and shall be included in the final determination.

(2) Determinations of bidder eligibility shall be in accordance with the evaluation criteria and weights for each criteria established in the final determination and shall be provided to interested persons upon request. Any potential bidder determined not to meet eligibility criteria must be afforded the opportunity to establish its eligibility. Protests concerning bidder eligibility determinations shall be in accordance with subsection (1) of this section.

**NEW SECTION. Sec. 308. SUBCONTRACT AGREEMENTS.** Subcontract agreements used by the general contractor/construction manager shall not:

(1) Delegate, restrict, or assign the general contractor/construction manager's implied duty not to hinder or delay the subcontractor. Nothing in this subsection (1) prohibits the general contractor/construction

manager from requiring subcontractors not to hinder or delay the work of the general contractor/construction manager or other subcontractors and to hold subcontractors responsible for such damages;

(2) Delegate, restrict, or assign the general contractor/construction manager's authority to resolve subcontractor conflicts. The general contractor/construction manager may delegate or assign coordination of specific elements of the work, including: (a) The coordination of shop drawings among subcontractors; (b) the coordination among subcontractors in ceiling spaces and mechanical rooms; and (c) the coordination of a subcontractor's lower tier subcontractors. Nothing in this subsection prohibits the general contractor/construction manager from imposing a duty on its subcontractors to cooperate with the general contractor/construction manager and other subcontractors in the coordination of the work;

(3) Restrict the subcontractor's right to damages for changes to the construction schedule or work to the extent that the delay or disruption is caused by the general contractor/construction manager or entities acting for it. The general contractor/construction manager may require the subcontractor to provide notice that rescheduling or resequencing will result in delays or additional costs;

(4) Require the subcontractor to bear the cost of trade damage repair except to the extent the subcontractor is responsible for the damage. Nothing in this subsection (4) precludes the general contractor/construction manager from requiring the subcontractor to take reasonable steps to protect the subcontractor's work from trade damage; or

(5) Require the subcontractor to execute progress payment applications that waive claims for additional time or compensation or bond or retainage rights as a condition of receipt of progress payment, except to the extent the subcontractor has received or will receive payment. Nothing in this section precludes the general contractor/construction manager from requiring the subcontractor to provide notice of claims for additional time or compensation as a condition precedent to right of recovery or to execute a full and final release, including a waiver of bond and retainage rights, as a condition of final payment.

#### **PART 4 JOB ORDER CONTRACTING**

**Sec. 401.** RCW 39.10.130 and 2003 c 301 s 1 are each amended to read as follows:

(1) The following public bodies are authorized to use the job order contracting procedure:

(a) The department of general administration;

(b) The University of Washington;

(c) Washington State University;

(d) Every city with a population greater than seventy thousand and any public authority chartered by such city under RCW 35.21.730 through 35.21.755;

(e) Every county with a population greater than four hundred fifty thousand;

(f) Every port district with total revenues greater than fifteen million dollars per year;

(g) Every public utility district with revenues from energy sales greater than twenty-three million dollars per year;

(h) Every school district; and

(i) The state ferry system.

(2) The department of general administration may issue job order contract work orders for Washington state parks department projects.

(3) Public bodies may use a job order contract for public works projects when(:

~~(a) A public body has made~~) a determination is made that the use of job order contracts will benefit the public by providing an effective means of reducing the total lead-time and cost for the construction of public works projects ~~((or))~~ for repair and renovation required at public facilities through the use of unit price books and work orders by eliminating time-consuming, costly aspects of the traditional public works process, which require separate contracting actions for each small project(;

~~(b) The work order to be issued for a particular project does not exceed two hundred thousand dollars;~~

~~(c) Less than twenty percent of the dollar value of the work order consists of items of work not contained in the unit price book; and~~

~~(d) At least eighty percent of the job order contract must be subcontracted to entities other than the job order contractor.~~

—(2) Public bodies shall award job order contracts through a competitive process utilizing public requests for proposals. Public bodies shall make an effort to solicit proposals from a certified minority or certified woman-owned contractor to the extent permitted by the Washington state civil rights act, RCW 49.60.400. The public body shall publish, at least once in a legal newspaper of general circulation published in or as near as possible to that part of the county in which the public works will be done, a request for proposals for job order contracts and the availability and location of the request for proposal documents. The public body shall ensure that the request for proposal documents at a minimum includes:

—(a) A detailed description of the scope of the job order contract including performance, technical requirements and specifications; functional and operational elements, minimum and maximum work order amounts, duration of the contract, and options to extend the job order contract;

—(b) The reasons for using job order contracts;

—(c) A description of the qualifications required of the proposer;

—(d) The identity of the specific unit price book to be used;

—(e) The minimum contracted amount committed to the selected job order contractor;

—(f) A description of the process the public body will use to evaluate qualifications and proposals, including evaluation factors and the relative weight of factors. The public body shall ensure that evaluation factors include, but are not limited to, proposal price and the ability of the proposer to perform the job order contract. In evaluating the ability of the proposer to perform the job order contract, the public body may consider: The ability of the professional personnel who will work on the job order contract; past performance on similar contracts; ability to meet time and budget requirements; ability to provide a performance and payment bond for the job order contract; recent, current, and projected work loads of the proposer; location; and the concept of the proposal;

—(g) The form of the contract to be awarded;

—(h) The method for pricing renewals of or extensions to the job order contract;

—(i) A notice that the proposals are subject to the provisions of RCW 39.10.100; and

—(j) Other information relevant to the project.

—(3) A public body shall establish a committee to evaluate the proposals. After the committee has selected the most qualified finalists, the finalists shall submit final proposals, including sealed bids based upon the identified unit price book. Such bids may be in the form of coefficient markups from listed price book costs. The public body shall award the contract to the firm submitting the highest scored final proposal using the evaluation factors and the relative weight of factors published in the public request for proposals.

—(4) The public body shall provide a protest period of at least ten business days following the day of the announcement of the apparent successful proposal to allow a protester to file a detailed statement of the grounds of the protest. The public body shall promptly make a determination on the merits of the protest and provide to all proposers a written decision of denial or acceptance of the protest. This will be the contractor's sole remedy.

—(16) All job order contracts awarded under this section must be executed before July 1, 2007, however the job order contract may be extended or renewed as provided for in this section.

The public body shall ensure that the request for proposal documents at a minimum includes:

The public body shall ensure that evaluation factors include, but are not limited to, proposal price and the ability of the proposer to perform the job order contract. In evaluating the ability of the proposer to perform the job order contract, the public body may consider: The ability of the professional personnel who will work on the job order contract; past performance on similar contracts; ability to meet time and budget requirements; ability to provide a performance and payment bond for the job order contract; recent, current, and projected work loads of the proposer; location; and the concept of the proposal;

(5) The public body shall provide a protest period of at least ten business days following the day of the announcement of the apparent successful proposal to allow a protester to file a detailed statement of the grounds of the protest. The public body shall promptly make a determination on the merits of the protest and provide to all proposers a written decision of denial or acceptance of the protest. The public body shall not execute the contract until two business days following the public body's decision on the protest.

This is the contractor's sole remedy.

(8) All job order contracts awarded under this section must be signed before July 1, 2013; however the job order contract may be extended or renewed as provided for in this section.

(9) Public bodies may amend job order contracts awarded prior to July 1, 2007, in accordance with this chapter.

(6) For purposes of chapters 39.08, 39.12, 39.76, and 60.28 RCW, each work order issued shall be treated as a separate contract. The alternate filing provisions of RCW 39.12.040(2) apply to each work order that otherwise meets the eligibility requirements of RCW 39.12.040(2).

**NEW SECTION. Sec. 502.** Projects approved by the school district project review board established under RCW 39.10.115, and the hospital district project review board established under RCW 39.10.117 before July 1, 2007, may proceed without the approval of the committee established in section 104 of this act. The board may grant an exemption from any provision of this act for projects advertised before the effective date of this section. A public body seeking an exemption must submit a request in writing to the board no later than December 31, 2007. The board must respond to the request within sixty calendar days.

**NEW SECTION. Sec. 503.** Projects using the design-build or general contractor/construction manager contracting procedures in which advertising for selection of a contractor has begun by the effective date of this section but no contract has been awarded may proceed without seeking approval of the committee under the processes in sections 107 and 108 of this act.

**Sec. 504.** RCW 60.28.011 and 2003 c 301 s 7 are each amended to read as follows:

(1) Public improvement contracts shall provide, and public bodies shall reserve, a contract retainage not to exceed five percent of the moneys earned by the contractor as a trust fund for the protection and payment of: (a) The claims of any person arising under the contract; and (b) the state with respect to taxes imposed pursuant to Title 82 RCW which may be due from such contractor.

(2) Every person performing labor or furnishing supplies toward the completion of a public improvement contract shall have a lien upon moneys reserved by a public body under the provisions of a public improvement contract. However, the notice of the lien of the claimant shall be given within forty-five days of completion of the contract work, and in the manner provided in RCW 39.08.030.

(3) The contractor at any time may request the contract retainage be reduced to one hundred percent of the value of the work remaining on the project.

(a) After completion of all contract work other than landscaping, the contractor may request that the public body release and pay in full the amounts retained during the performance of the contract, and sixty days thereafter the public body must release and pay in full the amounts retained (other than continuing retention of five percent of the moneys earned for landscaping) subject to the provisions of chapters 39.12 and 60.28 RCW.

(b) Sixty days after completion of all contract work the public body must release and pay in full the amounts retained during the performance of the contract subject to the provisions of chapters 39.12 and 60.28 RCW.

(4) The moneys reserved by a public body under the provisions of a public improvement contract, at the option of the contractor, shall be:

(a) Retained in a fund by the public body;

(b) Deposited by the public body in an interest bearing account in a bank, mutual savings bank, or savings and loan association. Interest on moneys reserved by a public body under the provision of a public improvement contract shall be paid to the contractor;

(c) Placed in escrow with a bank or trust company by the public body. When the moneys reserved are placed in escrow, the public body shall issue a check representing the sum of the moneys reserved payable to the bank or trust company and the contractor jointly. This check shall be converted into bonds and securities chosen by the contractor and approved by the public body and the bonds and securities shall be held in escrow. Interest on the bonds and securities shall be paid to the contractor as the interest accrues.

(5) The contractor or subcontractor may withhold payment of not more than five percent from the moneys earned by any subcontractor or sub-subcontractor or supplier contracted with by the contractor to provide labor, materials, or equipment to the public project. Whenever the contractor or subcontractor reserves funds earned by a subcontractor or sub-subcontractor or supplier, the contractor or subcontractor shall pay interest to the subcontractor or sub-subcontractor or supplier at a rate equal to that received by the contractor or subcontractor from reserved funds.

(6) A contractor may submit a bond for all or any portion of the contract retainage in a form acceptable to the public body and from a bonding company meeting standards established by the public body. The public body shall accept a bond meeting these requirements unless the public body can demonstrate good cause for refusing to accept it. This bond and any proceeds therefrom are subject to all claims and liens and in the same manner and priority as set forth for retained percentages in this chapter. The public body shall release the bonded portion of the retained funds to the contractor within thirty days of accepting the bond from the contractor. Whenever a public body accepts a bond in lieu of retained funds from a contractor, the contractor shall accept like bonds from any subcontractors or suppliers from which the contractor has retained funds. The contractor shall then release the funds retained from the subcontractor or supplier to the subcontractor or supplier within thirty days of accepting the bond from the subcontractor or supplier.

(7) If the public body administering a contract, after a substantial portion of the work has been completed, finds that an unreasonable delay will occur in the completion of the remaining portion of the contract for any reason not the result of a breach thereof, it may, if the contractor agrees, delete from the contract the remaining work and accept as final the improvement at the stage of completion then attained and make payment in proportion to the amount of the work accomplished and in this case any amounts retained and accumulated under this section shall be held for a

period of sixty days following the completion. In the event that the work is terminated before final completion as provided in this section, the public body may thereafter enter into a new contract with the same contractor to perform the remaining work or improvement for an amount equal to or less than the cost of the remaining work as was provided for in the original contract without advertisement or bid. The provisions of this chapter are exclusive and shall supersede all provisions and regulations in conflict herewith.

(8) Whenever the department of transportation has contracted for the construction of two or more ferry vessels, sixty days after completion of all contract work on each ferry vessel, the department must release and pay in full the amounts retained in connection with the construction of the vessel subject to the provisions of RCW 60.28.020 and chapter 39.12 RCW. However, the department of transportation may at its discretion condition the release of funds retained in connection with the completed ferry upon the contractor delivering a good and sufficient bond with two or more sureties, or with a surety company, in the amount of the retained funds to be released to the contractor, conditioned that no taxes shall be certified or claims filed for work on the ferry after a period of sixty days following completion of the ferry; and if taxes are certified or claims filed, recovery may be had on the bond by the department of revenue and the materialmen and laborers filing claims.

(9) Except as provided in subsection (1) of this section, reservation by a public body for any purpose from the moneys earned by a contractor by fulfilling its responsibilities under public improvement contracts is prohibited.

(10) Contracts on projects funded in whole or in part by farmers home administration and subject to farmers home administration regulations are not subject to subsections (1) through (9) of this section.

(11) This subsection applies only to a public body that has contracted for the construction of a facility using the general contractor/construction manager procedure, as defined under RCW (~~(39.10.061)~~) 39.10.020 (as recodified by this act). If the work performed by a subcontractor on the project has been completed within the first half of the time provided in the general contractor/construction manager contract for completing the work, the public body may accept the completion of the subcontract. The public body must give public notice of this acceptance. After a forty-five day period for giving notice of liens, and compliance with the retainage release procedures in RCW 60.28.021, the public body may release that portion of the retained funds associated with the subcontract. Claims against the retained funds after the forty-five day period are not valid.

(12) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Contract retainage" means an amount reserved by a public body from the moneys earned by a person under a public improvement contract.

(b) "Person" means a person or persons, mechanic, subcontractor, or materialperson who performs labor or provides materials for a public improvement contract, and any other person who supplies the person with provisions or supplies for the carrying on of a public improvement contract.

RCW 70.150.030 through 70.150.060 shall be deemed to provide an additional method for the provision of services from and in connection with facilities and shall be regarded as supplemental and additional to powers conferred by other state laws and by federal laws. (~~A public body that is also eligible to enter into agreements with service providers under the alternative public works contracting procedures in chapter 39.10 RCW may elect to use either RCW 39.10.051 and 39.10.061 or this chapter as its method of procurement for such services.~~)

**SUBSTITUTE SENATE BILL NO. 5412, by Senate Committee on Transportation (originally sponsored by Senators Murray, Swecker, Marr, Clements and Haugen)**

**Clarifying goals, objectives, and responsibilities of certain transportation agencies.**

Representative Jarrett moved the adoption of amendment (868):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that the citizens of the state expect clear and concise goals, objectives, and responsibilities regarding the operation of the statewide transportation system. Furthermore, the state's citizens expect that the state periodically receive clear and streamlined information that measures whether the goals and objectives are being satisfied. Therefore, it is the intent of the legislature that this act serve to clarify existing goals, objectives, and responsibilities related to the operation of an efficient statewide transportation system.

Sec. 2. RCW 47.01.011 and 1977 ex.s. c 151 s 1 are each amended to read as follows:

The legislature hereby recognizes the following imperative needs within the state: To create a statewide transportation development plan which identifies present status and sets goals for the future; to coordinate transportation modes; to promote and protect land use programs required in local, state, and federal law; to coordinate transportation with the economic development of the state; to supply a broad framework in which regional, metropolitan, and local transportation needs can be related; to facilitate the supply of federal and state aid to those areas which will most benefit the state as a whole; to provide for public involvement in the transportation planning and development process; to administer programs within the jurisdiction of this title relating to the safety of the state's transportation systems; and to coordinate and implement national transportation policy with the state transportation planning program.

The legislature finds and declares that placing all elements of transportation in a single department is fully consistent with and shall in no way impair the use of moneys in the motor vehicle fund exclusively for highway purposes.

Through this chapter, a unified department of transportation is created. To the jurisdiction of this department will be transferred the present powers, duties, and functions of the department of highways, the highway commission, the toll bridge authority, the aeronautics commission, and the canal commission, and the transportation related powers, duties, and functions of the planning and community affairs agency. The powers, duties, and functions of the department of transportation must be performed in a manner consistent with the policy goals set forth in RCW 47.01.012 (as recodified by this act).

Sec. 3. RCW 47.01.012 and 2002 c 5 s 101 are each amended to read as follows:

(1) It is the intent of the legislature to establish policy goals for the planning, operation, performance of, and investment in, the state's transportation system. The policy goals ((shall consist of, but not be limited to, the following)) established under this section are deemed consistent with the benchmark categories((;)) adopted by the state's blue ribbon commission on transportation on November 30, 2000. ((In addition to improving safety;)) Public investments in transportation ((shall)) should support achievement of these ((and other priority)) policy goals:

((No interstate highways, state routes, and local arterials shall be in poor condition; no bridges shall be structurally deficient, and safety retrofits shall be performed on those state bridges at the highest seismic risk levels; traffic congestion on urban state highways shall be significantly reduced and be no worse than the national mean; delay per driver shall be significantly reduced and no worse than the national mean; per capita vehicle miles traveled shall be maintained at 2000 levels; the nonauto share of commuter trips shall be increased in urban areas; administrative costs as a percentage of transportation spending shall achieve the most efficient quartile nationally; and the state's public transit agencies shall achieve the median cost per vehicle revenue hour of peer transit agencies, adjusting for the regional cost-of-living;))

(a) Preservation: To maintain, preserve, and extend the life and utility of prior investments in transportation systems and services;

(b) Safety: To provide for and improve the safety and security of transportation customers and the transportation system;

(c) Mobility: To improve the predictable movement of goods and people throughout Washington state;

(d) Environment: To enhance Washington's quality of life through transportation investments that promote energy conservation, enhance healthy communities, and protect the environment; and

(e) Stewardship: To continuously improve the quality, effectiveness, and efficiency of the transportation system.

(2) The powers, duties, and functions of state transportation agencies must be performed in a manner consistent with the policy goals set forth in subsection (1) of this section.

(3) These policy goals (~~shall~~) are intended to be the basis for (~~establishment of~~) establishing detailed and measurable objectives and related performance (~~benchmarks~~) measures.

(4) It is the intent of the legislature that the (~~transportation commission~~) office of financial management establish objectives and performance measures for the department of transportation and other state agencies with transportation-related responsibilities to ensure transportation system performance at local, regional, and state government levels (~~and the transportation commission should work with appropriate government entities to accomplish this~~) progresses toward the attainment of the policy goals set forth in subsection (1) of this section. The office of financial management shall submit initial objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during the 2008 legislative session. The office of financial management shall submit objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during each regular session of the legislature during an even-numbered year thereafter.

(5) This section does not create a private right of action.

**Sec. 4.** RCW 47.01.071 and 2006 c 334 s 3 are each amended to read as follows:

The transportation commission shall have the following functions, powers, and duties:

(1) To propose policies to be adopted by the governor and the legislature designed to assure the development and maintenance of a comprehensive and balanced statewide transportation system which will meet the needs of the people of this state for safe and efficient transportation services. Wherever appropriate, the policies shall provide for the use of integrated, intermodal transportation systems (to implement the social, economic, and environmental policies, goals, and objectives of the people of the state, and especially to conserve nonrenewable natural resources including land and energy). The policies must be aligned with the goals established in RCW 47.01.012 (as recodified by this act). To this end the commission shall:

(a) Develop transportation policies which are based on the policies, goals, and objectives expressed and inherent in existing state laws;

(3) In conjunction with the provisions under RCW 47.01.075, to provide for public involvement in transportation designed to elicit the public's views both with respect to adequate transportation services and appropriate means of minimizing adverse social, economic, environmental, and energy impact of transportation programs;

(4) By December 2010, to prepare a comprehensive and balanced statewide transportation plan (which shall be) consistent with the state's growth management goals and based on the transportation policy (~~adopted by the governor and the legislature~~), goals provided under RCW 47.01.012 (as recodified by this act) and applicable state and federal laws. The plan must reflect the priorities of government developed by the office of financial management and address regional needs, including multimodal transportation planning. The plan must, at a minimum: (a) Establish a vision for the development of the statewide transportation system; (b) identify significant statewide transportation policy issues; and (c) recommend statewide transportation policies and strategies to the legislature to fulfill the requirements of subsection (1) of this section. The

plan must be the product of an ongoing process that involves representatives of significant transportation interests and the general public from across the state. Every four years, the plan shall be reviewed and revised, and submitted to the governor and the house of representatives and senate standing committees on transportation (~~and prior to each regular session of the legislature during an even-numbered year thereafter. The plan shall be subject to the approval of the legislature in the biennial transportation budget act~~).

The plan shall take into account federal law and regulations relating to the planning, construction, and operation of transportation facilities;

(5) By December 2007, the office of financial management shall submit a baseline report on the progress toward attaining the policy goals under RCW 47.01.012 (as recodified by this act) in the 2005-2007 fiscal biennium. By October 1, 2008, beginning with the development of the 2009-2011 biennial transportation budget, and by October 1st biennially thereafter, the office of financial management shall submit to the legislature and the governor a report on the progress toward the attainment by state transportation agencies of the state transportation policy goals and objectives prescribed by statute, appropriation, and governor directive. The report must, at a minimum, include the degree to which state transportation programs have progressed toward the attainment of the policy goals established under RCW 47.01.012 (as recodified by this act), as measured by the objectives and performance measures established by the office of financial management under RCW 47.01.012 (as recodified by this act);

(~~(9)) (10) To exercise such other specific powers and duties as may be vested in the transportation commission by this or any other provision of law.~~

**Sec. 5.** RCW 47.01.075 and 2006 c 334 s 4 are each amended to read as follows:

(1) The transportation commission shall provide a public forum for the development of transportation policy in Washington state to include coordination with regional transportation planning organizations, transportation stakeholders, counties, cities, and citizens. (It may recommend to the secretary of transportation, the governor, and the legislature means for obtaining appropriate citizen and professional involvement in all transportation policy formulation and other matters related to the powers and duties of the department. It may further hold hearings and explore ways to improve the mobility of the citizenry.) At least every five years, the commission shall convene regional forums to gather citizen input on transportation issues. The commission shall consider the input gathered at the forums as it establishes the statewide transportation plan under RCW 47.01.071(4).

(2) (Every two years, in coordination with the development of the state biennial budget, the commission shall prepare the statewide multimodal transportation progress report and propose to the office of financial management transportation priorities for the ensuing biennium. The report must:

(a) Consider the citizen input gathered at the forums;

**NEW SECTION. Sec. 6.** A new section is added to chapter 47.01 RCW to read as follows:

To support achievement of the policy goals described in RCW 47.01.012, the department shall:

- (1) Maintain an inventory of the condition of structures and corridors in most urgent need of retrofit or rehabilitation;
- (2) Develop long-term financing tools that reliably provide ongoing maintenance and preservation of the transportation infrastructure;
- (3) Balance system safety and convenience through all phases of a project to accommodate all users of the transportation system to safely, reliably, and efficiently provide mobility to people and goods;
- (4) Develop strategies to gradually reduce the per capita vehicle miles traveled based on consideration of a range of reduction methods;
- (5) Consider efficiency tools, including high-occupancy vehicle and high-occupancy toll lanes, corridor-specific and systemwide pricing strategies, active traffic management, commute trip reduction, and other demand management tools;
- (6) Promote integrated multimodal planning; and
- (7) Consider engineers and architects to design environmentally sustainable, context-sensitive transportation systems.

**Sec. 7.** RCW 47.05.030 and 2006 c 334 s 45 are each amended to read as follows:

~~(1) The ~~(transportation commission)~~ office of financial management shall ~~(develop)~~ propose a comprehensive ten-year investment program ~~(specifying program objectives and performance measures)~~ for the preservation and improvement programs defined in this section, consistent with the policy goals described under RCW 47.01.012 (as recodified by this act). The ~~(adopted)~~ proposed ten-year investment program must be forwarded as a recommendation ~~(to)~~ by the ~~(governor and)~~ office of financial management to the legislature, and ~~(its subject to the approval of the legislature in the biennial transportation budget act. In the specification of investment program objectives and performance measures, the transportation commission, in consultation with the Washington state department of transportation, shall define and adopt standards for effective programming and prioritization practices including a needs analysis process. The analysis process must ensure the identification of problems and deficiencies, the evaluation of alternative solutions and trade-offs, and estimations of the costs and benefits of prospective projects. The investment program)~~ must be based upon the needs identified in the ~~(state-owned highway component of the)~~ statewide ~~(comprehensive)~~ transportation plan established under RCW 47.01.071(4).~~

~~— ((+)) (2) The preservation program consists of those investments necessary to preserve the existing state highway system and to restore existing safety features, giving consideration to lowest life cycle costing. ~~(The preservation program must require use of the most cost-effective pavement surfaces, considering:~~~~

- ~~(a) Life-cycle cost analysis;~~

~~— (b) Traffic volume;~~

~~— (c) Subgrade soil conditions;~~

~~— (d) Environmental and weather conditions;~~

~~— (e) Materials available; and~~

~~— (f) Construction factors.~~

~~The comprehensive ten-year investment program for preservation must identify projects for two years and an investment plan for the remaining eight years.~~

~~— ((2)) (3) The improvement program consists of investments needed to address identified deficiencies on the state highway system to ~~(increase mobility, address congestion, and improve safety, support for the economy, and protection of the environment. The ten-year investment program for improvements must identify projects for two years and major deficiencies proposed to be addressed in the ten-year period giving consideration to relative benefits and life cycle costing. The transportation commission shall give higher priority for correcting identified deficiencies on those facilities classified as facilities of statewide significance as defined in RCW 47.06.140. Project prioritization must be based primarily upon cost-benefit analysis, where appropriate)~~ meet the goals established in RCW 47.01.012 (as recodified by this act).~~

**Sec. 8.** RCW 47.05.035 and 2006 c 334 s 46 are each amended to read as follows:

(1) The department shall use the transportation demand modeling tools developed under subsection (2) of this section to evaluate investments based on the best mode or improvement, or mix of modes and improvements, to meet current and future long-term demand within a corridor or system for the lowest cost. The end result of these demand modeling tools is to provide a cost-benefit analysis by which the department can determine the relative mobility improvement and congestion relief each mode or improvement under consideration will provide and the relative investment each mode or improvement under consideration will need to achieve that relief.

(2) The department will participate in the refinement, enhancement, and application of existing transportation demand modeling tools to be used to evaluate investments. This participation and use of transportation demand modeling tools will be phased in.

~~— ((3) In developing program objectives and performance measures, the department shall evaluate investment trade-offs between the preservation and improvement programs. In making these investment trade-offs, the department shall evaluate, using cost-benefit techniques, roadway and bridge maintenance activities as compared to roadway and bridge preservation program activities and adjust those programs accordingly.~~

~~— (4) The department shall allocate the estimated revenue between preservation and improvement programs giving primary consideration to the following factors:~~

- ~~— (a) The relative needs in each of the programs and the system performance levels that can be achieved by meeting these needs;~~
- ~~— (b) The need to provide adequate funding for preservation to protect the state's investment in its existing highway system;~~
- ~~— (c) The continuity of future transportation development with those improvements previously programmed; and~~
- ~~— (d) The availability of dedicated funds for a specific type of work.~~
- ~~— (5) The department shall consider the findings in this section in the development of the ten-year investment program.)~~

**Sec. 9.** RCW 47.06.020 and 1993 c 446 s 2 are each amended to read as follows:

The specific role of the department in transportation planning ~~(shall)~~ must be, consistent with the policy goals described under RCW 47.01.012 (as recodified by this act): (1) Ongoing coordination and development of statewide transportation policies that guide all Washington transportation providers; (2) ongoing development of a statewide multimodal transportation plan that includes both state-owned and state-interest facilities and services; (3) coordinating the state high-capacity transportation planning and regional transportation planning programs; ~~(and)~~ (4) conducting special transportation planning studies that impact state transportation facilities or relate to transportation facilities and services of statewide significance; and (5) assisting the transportation commission in the development of the statewide transportation plan required under RCW 47.01.071(4). Specific requirements for each of these state transportation planning components are described in this chapter.

**Sec. 10.** RCW 47.06.050 and 2002 c 5 s 413 are each amended to read as follows:

The state-owned facilities component of the statewide multimodal transportation plan shall consist of:

(1) The state highway system plan, which identifies program and financing needs and recommends specific and financially realistic improvements to preserve the structural integrity of the state highway system, ensure acceptable operating conditions, and provide for enhanced access to scenic, recreational, and cultural resources. The state highway system plan shall contain the following elements:

(a) A system preservation element, which shall establish structural preservation objectives for the state highway system including bridges, identify current and future structural deficiencies based upon analysis of current conditions and projected future deterioration, and recommend program funding levels and specific actions necessary to preserve the structural integrity of the state highway system consistent with adopted objectives. Lowest life cycle cost methodologies must be used in developing a pavement management system. This element shall serve as the basis for the preservation component of the six-year highway program and the two-year biennial budget request to the legislature;

(b) A highway maintenance element, establishing service levels for highway maintenance on state-owned highways (~~(that meet benchmarks established by the transportation commission)~~). The highway maintenance element must include an estimate of costs for achieving those service levels over twenty years. This element will serve as the basis for the maintenance component of the six-year highway program and the two-year biennial budget request to the legislature;

(c) A capacity and operational improvement element, which shall establish operational objectives, including safety considerations, for moving people and goods on the state highway system, identify current and future capacity, operational, and safety deficiencies, and recommend program funding levels and specific improvements and strategies necessary to achieve the operational objectives. In developing capacity and operational improvement plans the department shall first assess strategies to enhance the operational efficiency of the existing system before recommending system expansion. Strategies to enhance the operational efficiencies include but are not limited to access management, transportation system management, demand management, and high-occupancy vehicle facilities. The capacity and operational improvement element must conform to the state implementation plan for air quality and be consistent with regional transportation plans adopted under chapter 47.80 RCW, and shall serve as the basis for the capacity and operational improvement portions of the six-year highway program and the two-year biennial budget request to the legislature;

(d) A scenic and recreational highways element, which shall identify and recommend designation of scenic and recreational highways, provide for enhanced access to scenic, recreational, and cultural resources associated with designated routes, and recommend a variety of management strategies to protect, preserve, and enhance these resources. The department, affected counties, cities, and towns, regional transportation planning organizations, and other state or federal agencies shall jointly develop this element;

(e) A paths and trails element, which shall identify the needs of nonmotorized transportation modes on the state transportation systems and provide the basis for the investment of state transportation funds in paths and trails, including funding provided under chapter 47.30 RCW.

(2) The state ferry system plan, which shall guide capital and operating investments in the state ferry system. The plan shall establish service objectives for state ferry routes, forecast travel demand for the various markets served in the system, develop strategies for ferry system investment that consider regional and statewide vehicle and passenger needs, support local land use plans, and assure that ferry services are fully integrated with other transportation services. The plan must provide for maintenance of capital assets. The plan must also provide for preservation of capital assets based on lowest life cycle cost methodologies. The plan shall assess the role of private ferries operating under the authority of the utilities and transportation commission and shall coordinate ferry system capital and operational plans with these private operations. The ferry system plan must be consistent with the regional transportation plans for areas served by the state ferry system, and shall be developed in conjunction with the ferry advisory committees.

**Sec. 11.** RCW 47.06.140 and 1998 c 171 s 7 are each amended to read as follows:

The legislature declares the following transportation facilities and services to be of statewide significance: Highways of statewide significance as designated by the legislature under chapter 47.05 RCW, the interstate highway system, interregional state principal arterials including ferry connections that serve statewide travel, intercity passenger rail services, intercity high-speed ground transportation, major passenger intermodal terminals excluding all airport facilities and services, the freight railroad system, the Columbia/Snake navigable river system, marine port facilities and services that are related solely to marine activities affecting international and interstate trade, and high-capacity transportation systems serving regions as defined in RCW 81.104.015. The department, in cooperation with regional transportation planning organizations, counties, cities, transit agencies, public ports, private railroad operators, and private transportation providers, as appropriate, shall plan for improvements to transportation facilities and services of statewide significance in the statewide multimodal transportation plan. Improvements to facilities and services of statewide significance identified in the statewide multimodal transportation plan, or to highways of statewide significance designated by the legislature under chapter 47.05 RCW, are essential state public facilities under RCW 36.70A.200.

The department of transportation, in consultation with local governments, shall set level of service standards for state highways and state ferry routes of statewide significance. Although the department shall consult with local governments when setting level of service standards, the department retains authority to make final decisions regarding level of service standards for state highways and state ferry routes of statewide significance. In establishing level of service standards for state highways and state ferry routes of statewide significance, the department shall consider the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local communities using these facilities.

**Sec. 12.** RCW 35.95A.120 and 2003 c 147 s 14 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, the city transportation authority may be dissolved by a vote of the people residing within the boundaries of the authority if the authority is faced with significant financial problems. However, the authority may covenant with holders of its bonds that it may not be dissolved and shall continue to exist solely for the purpose of continuing to levy and collect any taxes or assessments levied by it and pledged to the repayment of debt and to take other actions, including the appointment of a trustee, as necessary to allow it to repay any remaining debt. No such debt may be incurred by the authority on a project until thirty days after a final environmental impact statement on that project has been issued as required by chapter 43.21C RCW. The amount of the authority's initial bond issue is limited to the amount of the project costs in the subsequent two years as documented by a certified engineer or by submitted bids, plus any reimbursable capital expenses already incurred at the time of the bond issue. The authority may size the first bond issue consistent with the internal revenue service five-year spend down schedule if an independent financial advisor recommends such an approach is financially advisable. Any referendum petition to dissolve the city transportation authority must be filed with the city council and contain provisions for dissolution of the authority. Within seven days, the city prosecutor must review the validity of the petition and submit its report to the petitioner and city council. If the petitioner's claims are deemed valid by the city prosecutor, within ten days of the petitioner's filing, the city council will confer with the petitioner concerning the form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title must be posed as a question and an affirmative vote on the measure results in authority retention and a negative vote on the measure results in the authority's dissolution. The petitioner will be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner has ninety days in which to secure on petition forms, the signatures of not less than fifteen percent of the registered voters in the authority area and to file the signed petitions with the filing officer. Each petition form must contain the ballot title and the full text of the measure to be referred. The filing officer will verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the filing officer shall submit the initiative to the

authority area voters at a general or special election held on one of the dates provided in RCW (~~29.13.010~~) 29A.04.321 as determined by the city council, which election will not take place later than one hundred twenty days after the signed petition has been filed with the filing officer.

(2) A city transportation authority is dissolved and terminated if all of the following events occur before or after the effective date of this section:

(a) A majority of the qualified electors voting at a regular or special election determine that new public monorail transportation facilities must not be built;

(b) The governing body of the authority adopts a resolution and publishes a notice of the proposed dissolution at least once every week for three consecutive weeks in a newspaper of general circulation published in the authority area. The resolution and notice must:

(i) Describe information that must be included in a notice of claim against the authority including, but not limited to, any claims for refunds of special motor vehicle excise tax levied under RCW 35.95A.080 and collected by or on behalf of the authority;

(ii) Provide a mailing address where a notice of claim may be sent;

(iii) State the deadline, which must be at least ninety days from the date of the third publication, by which the authority must receive a notice of claim; and

(iv) State that a claim will be barred if a notice of claim is not received by the deadline;

(c) The authority resolves all claims timely made under (b) of this subsection; and

**Requiring a review and development of basic education funding.**

Representative Haigh moved the adoption of amendment (871):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The state's definition of basic education and the corresponding funding formulas must be regularly updated in order to keep pace with evolving educational practices and increasing state and federal requirements and to ensure that all schools have the resources they need to help give all students the opportunity to be fully prepared to compete in a global economy. The work of Washington learns steering committee and the K-12 advisory committee provides a valuable starting point from which to evaluate the current educational system and develop a unique, transparent, and stable educational funding system for Washington that supports the goals and the vision of a world-class learner-focused K-12 educational system that were established in the final Washington learns report.

This act is intended to make provision for some significant steps towards a new basic education funding system and establishes a joint task force to address the details and next steps beyond the 2007-2009 biennium that will be necessary to implement a new comprehensive K-12 finance formula or formulas that will provide Washington schools with stable and adequate funding as the expectations for the K-12 system continue to evolve.

**NEW SECTION. Sec. 2.** (1) The joint task force on basic education finance established under this section, with research support from the Washington state institute for public policy, shall review the definition of basic education and all current basic education funding formulas, develop options for a new funding structure and all necessary formulas, and propose a new definition of basic education that is realigned with the new expectations of the state's education system as established in the November 2006 final report of the Washington learns steering committee and the basic education provisions established in chapter 28A.150 RCW.

(2) The joint task force on basic education finance shall consist of fourteen members:

(a) A chair of the task force with experience with Washington finance issues including knowledge of the K-12 funding formulas, appointed by the governor;

(b) Eight legislators, with two members from each of the two largest caucuses of the senate appointed by the president of the senate and two members from each of the two largest caucuses of the house of representatives appointed by the speaker of the house of representatives;

(c) A representative of the governor's office or the office of financial management, designated by the governor;

(d) The superintendent of public instruction or the superintendent's designee; and

(e) Three individuals with significant experience with Washington K-12 finance issues, including the use and application of the current basic education funding formulas, appointed by the governor. Each of the two largest caucuses of the house of representatives and the senate may submit names to the governor for consideration.

(3) In conducting research directed by the task force and developing options for consideration by the task force, the Washington state institute for public policy shall consult with stakeholders and experts in the field. The institute may also request assistance from the legislative evaluation and accountability program committee, the office of the superintendent of public instruction, the office of financial management, the house office of program research, and senate committee services.

(4) In developing recommendations, the joint task force shall review and build upon the following:

(a) Reports related to K-12 finance produced at the request of or as a result of the Washington learns study, including reports completed for or by the K-12 advisory committee;

(b) High-quality studies that are available; and

(c) Research and evaluation of the cost-benefits of various K-12 programs and services developed by the institute as directed by the legislature in section 607(15), chapter 372, Laws of 2006.

(5) The Washington state institute for public policy shall provide the following reports to the joint task force:

(a) An initial report by September 15, 2007, proposing an initial plan of action, reporting dates, timelines for fulfilling the requirements of section 3 of this act, and an initial timeline for a phased-in implementation of a new funding system that does not exceed six years;

(b) A second report by December 1, 2007, including implementing legislation as necessary, for at least two but no more than four options for allocating school employee compensation. One of the options must be a redirection and prioritization within existing resources based on research-proven education programs. The report must also include a projection of the expected effect of the investment made under the new funding structure. The second report shall also include a finalized timeline and plan for addressing the remaining components of a new funding system; and

(c) A final report with at least two but no more than four options for revising the remaining K-12 funding structure, including implementing legislation as necessary, and a timeline for phasing in full adoption of the new funding structure. The final report shall be submitted to the joint task force by September 15, 2008. One of the options must be a redirection and prioritization within existing resources based on research-proven education programs. The final report must also include a projection of the expected effect of the investment made under the new funding structure.

**NEW SECTION. Sec. 3.** (1) The funding structure alternatives developed by the joint task force under section 2 of this act shall take into consideration the legislative priorities in this section, to the maximum extent possible and as appropriate to each formula.

(2) The funding structure should reflect the most effective instructional strategies and service delivery models and be based on research-proven education programs and activities with demonstrated cost benefits. In reviewing the possible strategies and models to include in the funding structure the task force shall, at a minimum, consider the following issues:

(a) Professional development for all staff;

(b) Whether the compensation system for instructional staff shall include pay for performance, knowledge, and skills elements; regional cost-of-living elements; elements to recognize assignments that are difficult; recognition for the professional teaching level certificate in the salary allocation model; and a plan to implement the pay structure;

(c) Voluntary all-day kindergarten;

(d) Optimum class size, including different class sizes based on grade level and ways to reduce class size;

(e) Focused instructional support for students and schools;

(f) Extended school day and school year options; and

(g) Health and safety requirements.

(3) The recommendations should provide maximum transparency of the state's educational funding system in order to better help parents, citizens, and school personnel in Washington understand how their school system is funded.

(4) The funding structure should be linked to accountability for student outcomes and performance.

**NEW SECTION. Sec. 4.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

(3) Grant recipients must develop and implement a model curriculum for their selected career pathway. Grant funds shall be used for start-up costs, primarily for the development of the curriculum and assessments described in this section and for professional development for teachers. If sufficient funds remain, grant funds may be used to upgrade equipment within the program to meet industry standards.

(4) A career pathways program shall:

(a) Integrate core academic standards for reading, writing, and mathematics with high-quality career and technical preparation based on accepted industry standards in the field;

(b) Incorporate secondary and postsecondary education elements;

(e) Emphasize projects and application of knowledge and skills and provide extensive opportunities for work-based learning and internships.

(6) Participants in a high-demand career pathways program should expect to complete a high school diploma and the appropriate courses in a high-quality career and technical program and graduate ready to pursue postsecondary education.

(7) With assistance from the office of the superintendent of public instruction and the workforce training and education coordinating board, grant recipients shall develop end-of-program assessments for their high-demand career pathways program. The assessments shall be integrated to include academic, work readiness, and technical knowledge and skills. The legislature's intent is to use these assessments as prototypes for possible future additional alternative assessments for career and technical education students to demonstrate they meet the state's learning standards.

(8) Grant recipients must develop a communications strategy for parents and students in other area high schools and middle schools to promote the model career pathways programs as a high-quality learning option for students and prepare plans for replication of the programs.

(9) For the purposes of this section, "career pathways program" has the same meaning as a career and technical program of study under P.L. 109-270, the Carl D. Perkins career and technical education improvement act of 2006.

(10) This section expires July 1, 2009.

### SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House refused to concur in the Senate amendments to SECOND SUBSTITUTE HOUSE BILL NO. 1277, and asked the Senate to recede therefrom.

### MESSAGE FROM THE SENATE

April 12, 2007

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1359 with the following amendment:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that there is a large, unmet need for affordable housing in the state of Washington. The legislature declares that a decent, appropriate, and affordable home in a healthy, safe environment for every household should be a state goal. Furthermore, this goal includes increasing the percentage of households who are able to obtain and retain housing without government subsidies or other public support.

(2) The legislature finds that there are many root causes of the affordable housing shortage and declares that these causal factors should be eliminated.

(3) The legislature finds that the support and commitment of all sectors of the statewide community is critical to accomplishing the state's affordable housing for all goal. The legislature finds that the provision of housing and housing-related services should be administered at the local level. However, the state should play a primary role in: Providing financial resources to achieve the goal at all levels of government; researching and evaluating statewide housing data; developing a state plan that integrates the strategies, goals, and objectives of all other state housing plans and programs; and coordinating and supporting county government plans and activities.

(4) The legislature declares that there is a state affordable housing goal of a decent, appropriate, and affordable home in a healthy, safe environment for every household in the state by 2020, as part of the statewide effort to end the affordable housing crisis.

**Sec. 11.** RCW 43.185C.005 and 2005 c 484 s 1 are each amended to read as follows:

Despite laudable efforts by all levels of government, private individuals, nonprofit organizations, and charitable foundations to end homelessness, the number of homeless persons in Washington is unacceptably high. The state's homeless population, furthermore, includes a large number of families with children, youth, and employed persons. The legislature finds that the fiscal and societal costs of homelessness are high for both the public and private sectors, and that ending homelessness ~~((should))~~ must be a goal for state and local government.

The legislature finds that there are many causes of homelessness, including a shortage of affordable housing; a shortage of family-wage jobs which undermines housing affordability; a lack of an accessible and affordable health care system available to all who suffer from physical and mental illnesses and chemical and alcohol dependency; domestic violence; ~~((and))~~ a lack of education and job skills necessary to acquire adequate wage jobs in the economy of the twenty-first century; inadequate availability of services for citizens with mental illness and developmental disabilities living in the community; and the difficulties faced by formerly institutionalized persons in reintegrating to society and finding stable employment and housing.

The support and commitment of all sectors of the statewide community is critical to the chances of success in ending homelessness in Washington. While the provision of housing and housing-related services to the homeless should be administered at the local level to best address specific community needs, the legislature also recognizes the need for the state to play a primary coordinating, supporting, ~~((and))~~ monitoring, and evaluating role. There must be a clear assignment of responsibilities and a clear statement of achievable and quantifiable goals. Systematic statewide data collection on ~~((homelessness))~~ homeless individuals in Washington must be a critical component of such a program enabling the state to work with local governments not only to count all homeless people in the state, but to record and manage information about homeless persons ((and)) in order to assist them in finding housing and other supportive services.

The systematic collection and rigorous evaluation of homeless data, a nationwide search for and implementation through adequate resource allocation of best practices, and the systematic measurement of progress toward interim goals and the ultimate goal of ending homelessness are all necessary components of a statewide effort to end homelessness in Washington by July 1, 2015.

**Sec. 12.** RCW 43.185C.040 and 2005 c 484 s 7 are each amended to read as follows:

(1) ~~((Six months after the first Washington homeless census;))~~ The department shall, in consultation with the interagency council on homelessness, the state advisory council on homelessness, and the affordable housing advisory board, prepare and ((publish a ten-year homeless housing)) annually update a state homeless housing strategic plan which ((shall)) must outline statewide goals and

performance measures ((and shall be coordinated with the plan for homeless families with children required under RCW 43.63A.650. To guide local governments in preparation of their first local homeless housing plans due December 31, 2005, the department shall issue by October 15, 2005, temporary guidelines consistent with this chapter and including the best available data on each community's homeless population)). Local governments' ((ten-year homeless housing)) homeless housing plans ((shall not)) must include all of the performance measures included in the state homeless housing strategic plan and must be substantially ((inconsistent)) consistent with the goals and program recommendations of ((the temporary guidelines and, when amended after 2005;)) the state homeless housing strategic plan.

~~((2))~~ (2) Program outcomes and performance measures and goals ((shall)) must be created by the department and reflected in the department's ((homeless housing)) state homeless housing strategic plan ((as well as)) and all local homeless housing plans.

~~((3))~~ (3) Interim goals against which state and local governments' performance may be measured must also be described and reported upon in the state homeless housing strategic plan, including:

~~((b))~~ (b) By the end of each subsequent year, goals common to all state and local programs which are measurable and the achievement of which would move that community toward housing its homeless population; and

~~((c))~~ (c) By July 1, 2015, reduction of the homeless population statewide and in each county by fifty percent.

~~((4))~~ (4) The department shall develop a consistent statewide data gathering instrument to monitor the performance of cities and counties receiving homeless housing grants in order to determine compliance with the terms and conditions set forth in the homeless housing grant application or required by the department.

~~((5))~~ (5) The department shall, in consultation with the interagency council on homelessness, the state advisory council on homelessness, and the affordable housing advisory board, report annually to the governor and the appropriate committees of the legislature ((an assessment of)) the fiscal and societal costs of the homeless crisis, including identifying, to the extent practical, savings in state and local program costs that could be obtained through the achievement of stable housing for the clients served by those programs.

~~((6))~~ (6) The department shall also deliver a summary annual report, including information about:

~~((a))~~ (a) All state programs addressing homeless housing and services;

~~((b))~~ (b) The state's performance in furthering the goals of the state ((ten-year)) homeless housing strategic plan; and

~~((c))~~ (c) The performance of each participating local government in creating and executing a local homeless housing plan ((which)) that meets the requirements of this chapter. ((The annual report may include performance measures such as:

~~((a))~~ (a) The reduction in the number of homeless individuals and families from the initial count of homeless persons;

~~((b))~~ (b) The number of new units available and affordable for homeless families by housing type;

~~((c))~~ (c) The number of homeless individuals identified who are not offered suitable housing within thirty days of their request or identification as homeless;

~~((d))~~ (d) The number of households at risk of losing housing who maintain it due to a preventive intervention;

~~((e))~~ (e) The transition time from homelessness to permanent housing;

~~((f))~~ (f) The cost per person housed at each level of the housing continuum;

~~((g))~~ (g) The ability to successfully collect data and report performance;

~~((h))~~ (h) The extent of collaboration and coordination among public bodies, as well as community stakeholders, and the level of community support and participation;

~~((i))~~ (i) The quality and safety of housing provided; and

~~((j))~~ (j) The effectiveness of outreach to homeless persons, and their satisfaction with the program.

~~(4))~~ (7) The state homeless housing plan must also include a response to each recommendation included in the local homeless housing plans for policy changes to assist in ending homelessness and a summary of the recommendations to the legislature to streamline and simplify all housing planning and reporting requirements, as required in section 9 of this act.

(8) Based on the performance of local homeless housing programs in meeting their interim goals, on general population changes and on changes in the homeless population recorded in the ~~(annual)~~ census, the department may revise the performance measures and goals of the state homeless housing strategic plans, set goals for years following the initial ten-year period, and recommend changes in local governments' homeless housing plans.

**Sec. 13.** RCW 43.185C.050 and 2005 c 484 s 8 are each amended to read as follows:

(1)(a)(i) Each local homeless housing task force shall prepare and recommend to its local government legislative authority a ~~((ten-year))~~ local homeless housing plan for its jurisdictional area ~~((which shall be not inconsistent))~~ that is consistent with the department's ~~((statewide temporary guidelines, for the December 31, 2005, plan, and thereafter the department's ten-year homeless housing))~~ state homeless housing strategic plan and ~~((which shall be))~~ is aimed at eliminating homelessness, with a minimum goal of reducing homelessness by fifty percent by July 1, 2015. ~~((The local government may amend the proposed local plan and shall adopt a plan by December 31, 2005. Performance in meeting the goals of this local plan shall be assessed annually in terms of the performance measures published by the department.))~~

(ii) Local plans must include specific strategic objectives, consistent with the state plan, and must include corresponding action plans. Local plans must address identified strategies to meet the needs of all homeless populations, including chronic homeless, short-term homeless, families, individuals, and youth. Each local plan must include the total estimated cost of accomplishing the goals of the plan to reduce homelessness by fifty percent by July 1, 2015, and must include an accounting of total committed funds for this purpose.

(b)(i) The department must conduct an annual performance evaluation of each local plan by December 31st of each year beginning in 2007. The department must also conduct an annual performance evaluation of each local government's performance related to its local plan by December 31st of each year beginning in 2007.

(ii) Local plans may include specific local performance measures adopted by the local government legislative authority~~((:))~~ and ~~((may))~~ must include recommendations for ~~((any))~~ state legislation needed to meet the state or local plan goals. The recommendations must be specific and must, if funding is required, include an estimated amount of funding required and suggestions for an appropriate funding source.

(2) Eligible activities under the local plans include:

(a) Rental and furnishing of dwelling units for the use of homeless persons;

(b) Costs of developing affordable housing for homeless persons, and services for formerly homeless individuals and families residing in transitional housing or permanent housing and still at risk of homelessness;

(c) Operating subsidies for transitional housing or permanent housing serving formerly homeless families or individuals;

(d) Services to prevent homelessness, such as emergency eviction prevention programs, including temporary rental subsidies to prevent homelessness;

(e) Temporary services to assist persons leaving state institutions and other state programs to prevent them from becoming or remaining homeless;

(f) Outreach services for homeless individuals and families;

(g) Development and management of local homeless housing plans, including homeless census data collection~~((:))~~ and information, identification of goals, performance measures, strategies, and costs, and evaluation of progress towards established goals;

(h) Rental vouchers payable to landlords for persons who are homeless or below thirty percent of the median income or in immediate danger of becoming homeless; and

(i) Other activities to reduce and prevent homelessness as identified for funding in the local plan.

**Sec. 14.** RCW 43.185C.080 and 2005 c 484 s 12 are each amended to read as follows:

(1) ~~((Only a local government is eligible to receive a homeless housing grant from the homeless housing account. Any city may assert responsibility for homeless housing within its borders if it so chooses, by forwarding a resolution to the legislative authority of the county stating its intention and its commitment to operate a separate homeless housing program. The city shall then receive a percentage of the surcharge assessed under RCW 36.22.179 equal to the percentage of the city's local portion of the real estate excise tax collected by the county. A participating city may also then apply separately for homeless housing program grants. A city choosing to operate a separate homeless housing program shall be responsible for complying with all of the same requirements as counties and shall adopt a local homeless housing plan meeting the requirements of this chapter for county local plans. However, the city may by resolution of its legislative authority accept the county's homeless housing task force as its own and based on that task force's recommendations adopt a homeless housing plan specific to the city.))~~

~~((2))~~ Local governments ~~((applying for homeless housing funds))~~ may subcontract with any other local government, housing authority, community action agency, or other nonprofit organization for the execution of programs contributing to the overall goal of ending homelessness within a defined service area. All subcontracts ~~((shall))~~ must be consistent with the local homeless housing plan adopted by the legislative authority of the local government, time limited, and filed with the department, and ~~((shall))~~ must have specific performance terms. While a local government has the authority to subcontract with other entities, the local government continues to maintain the ultimate responsibility for the homeless housing program within its ~~((borders))~~ jurisdiction.

~~((3))~~ (2) A county may decline to participate in the homeless housing program authorized in this chapter by forwarding to the department a resolution adopted by the county legislative authority stating the intention not to participate. A copy of the resolution ~~((shall))~~ must also be transmitted to the county auditor and treasurer. If ~~((such a))~~ the resolution is adopted, all of the funds otherwise due to the county under RCW ~~((43.185C.060 shall))~~ 36.22.179 (as recodified by this act) and section 17 of this act, minus funds due to any city that has chosen to participate through the process established in subsection (3) of this section, must be remitted monthly to the state treasurer for deposit in the ~~((homeless housing))~~ home security fund account, without any reduction by the county for collecting or administering the funds. Upon receipt of the resolution, the department shall promptly begin to identify and contract with one or more entities eligible under this section to create and execute a local homeless housing plan for the county meeting the requirements of this chapter. The department shall expend all of the funds received from the county under this subsection to carry out the purposes of this chapter ~~((484, Laws of 2005))~~ in the county, ~~((provided that))~~ but the department may retain six percent of these funds to offset the cost of managing the county's program.

(3) Any city may assert responsibility for homeless housing within its borders, by forwarding a resolution to the legislative authority of the county stating its intention and its commitment to operate a separate homeless housing program. A city choosing to operate a separate homeless housing program receives a percentage of the surcharge assessed under RCW 36.22.179 (as recodified by this act) and under section 17 of this act equal to the percentage of the city's local portion of the real estate excise tax collected by the county. A participating city may also then apply separately for homeless housing grants. A city choosing to operate a separate homeless housing program must comply with all of the same requirements as counties and shall adopt a local homeless housing plan meeting the requirements of this chapter for local homeless housing plans.

(4) A resolution by the county declining to participate in the program ~~((shall have))~~ has no effect on the ~~((ability))~~ authority of each city in the county to assert its right to manage its own program under this chapter, and the county shall monthly transmit to ~~((the))~~

any such city the funds due under ((this chapter)) RCW 36.22.179 (as recodified by this act) and section 17 of this act.

**Sec. 15.** RCW 43.185C.160 and 2005 c 485 s 1 are each amended to read as follows:

(1) Each county shall create a homeless housing task force to develop a ~~((ten-year))~~ homeless housing plan addressing short-term and long-term services and housing ~~((for homeless persons))~~ to prevent and reduce homelessness by fifty percent by 2015.

Membership on the task force may include representatives of the counties, cities, towns, housing authorities, civic and faith organizations, schools, community networks, human services providers, law enforcement personnel, criminal justice personnel, including prosecutors, probation officers, and jail administrators, substance abuse treatment providers, mental health care providers, emergency health care providers, businesses, at-large representatives of the community, and a homeless or formerly homeless individual.

In lieu of creating a new task force, a local government may designate an existing governmental or nonprofit body ~~((which))~~ that substantially conforms to this section and ~~((which))~~ includes at least one homeless or formerly homeless individual to serve as its homeless representative. As an alternative to a separate plan, two or more local governments may work in concert to develop and execute a joint homeless housing plan, or to contract with another entity to do so according to the requirements of this chapter. While a local government has the authority to subcontract with other entities, the local government continues to maintain the ultimate responsibility for the homeless housing program within its borders.

~~((A county may decline to participate in the program authorized in this chapter by forwarding to the department a resolution adopted by the county legislative authority stating the intention not to participate. A copy of the resolution shall also be transmitted to the county auditor and treasurer. If a county declines to participate, the department shall create and execute a local homeless housing plan for the county meeting the requirements of this chapter.))~~

(2) In addition to developing a ~~((ten-year))~~ homeless housing plan, each task force shall establish guidelines consistent with the ~~((statewide))~~ state homeless housing strategic plan, as needed, for the following:

- (a) Emergency shelters;
- (b) Short-term housing needs;
- (c) Temporary encampments;
- (d) Rental voucher programs;
- (e) Supportive housing for chronically homeless persons; ~~((and~~
- ~~((e)))~~ (f) Long-term housing; and
- (g) Prevention services.

Guidelines must include, when appropriate, standards for health and safety and notifying the public of proposed facilities to house the homeless.

(3) Each county ~~((including counties exempted from creating a new task force under subsection (1) of this section,))~~ shall report to the department of community, trade, and economic development ~~((such))~~ any information ~~((as may be))~~ needed to ensure compliance with this chapter.

**Sec. 16.** RCW 36.22.179 and 2005 c 484 s 9 are each amended to read as follows:

(1) In addition to the surcharge authorized in RCW 36.22.178 ~~(as recodified by this act), and except as provided in subsection (2) of this section, an additional surcharge of ten dollars shall be charged by the county auditor for each document recorded, which will be in addition to any other charge allowed by law. The funds collected pursuant to this section are to be distributed and used as follows:~~

(a) The auditor shall retain two percent for collection of the fee, and of the remainder shall remit sixty percent to the county to be deposited into a fund that must be used by the county and its cities and towns to accomplish the purposes of this chapter ~~((484, Laws of 2005)), six percent of which may be used by the county for administrative costs related to its homeless housing plan, and the remainder for programs which directly accomplish the goals of the county's local homeless housing plan, except that for each city in the county which elects as authorized in RCW 43.185C.080 to operate its own local homeless housing program, a percentage of the~~

surcharge assessed under this section equal to the percentage of the city's local portion of the real estate excise tax collected by the county shall be transmitted at least quarterly to the city treasurer, without any deduction for county administrative costs, for use by the city for program costs which directly contribute to the goals of the city's local homeless housing plan; of the funds received by the city, it may use six percent for administrative costs for its homeless housing program.

(b) The auditor shall remit the remaining funds to the state treasurer for deposit in the ~~((homeless housing))~~ home security fund account. The department may use twelve and one-half percent of this amount for administration of the program established in RCW 43.185C.020, including the costs of creating the statewide homeless housing strategic plan, measuring performance, providing technical assistance to local governments, and managing the homeless housing grant program. The remaining eighty-seven and one-half percent is to be ~~((distributed by the department to local governments through the homeless housing grant program))~~ used by the department to:

(i) Provide housing and shelter for homeless people including, but not limited to: Grants to operate, repair, and staff shelters; grants to operate transitional housing; partial payments for rental assistance; consolidated emergency assistance; overnight youth shelters; and emergency shelter assistance; and

(ii) Fund the homeless housing grant program.

(2) The surcharge imposed in this section does not apply to assignments or substitutions of previously recorded deeds of trust.

**NEW SECTION. Sec. 17.** A new section is added to chapter 43.185C RCW to read as follows:

(1) In addition to the surcharges authorized in RCW 36.22.178 and 36.22.179 (as recodified by this act), and except as provided in subsection (2) of this section, the county auditor shall charge an additional surcharge of two dollars for each document recorded, which is in addition to any other charge allowed by law. The funds collected under this section are to be distributed and used as follows:

(a) The auditor shall remit ninety percent to the county to be deposited into a fund six percent of which may be used by the county for administrative costs related to its homeless housing plan, and the remainder for programs that directly accomplish the goals of the county's local homeless housing plan, except that for each city in the county that elects, as authorized in RCW 43.185C.080(3), to operate its own homeless housing program, a percentage of the surcharge assessed under this section equal to the percentage of the city's local portion of the real estate excise tax collected by the county must be transmitted at least quarterly to the city treasurer for use by the city for program costs that directly contribute to the goals of the city's homeless housing plan.

(b) The auditor shall remit the remaining funds to the state treasurer for deposit in the home security fund account. The department may use the funds for administering the program established in RCW 43.185C.020, including the costs of creating and updating the statewide homeless housing strategic plan, implementing and managing the Washington homeless client management information system established in RCW 43.185C.180, measuring performance, providing technical assistance to local governments, and managing the homeless housing grant program. Remaining funds may also be used to:

(i) Provide housing and shelter for homeless people including, but not limited to: Grants to operate, repair, and staff shelters; grants to operate transitional housing; partial payments for rental assistance; consolidated emergency assistance; overnight youth shelters; and emergency shelter assistance; and

(ii) Fund the homeless housing grant program.

(2) The surcharge imposed in this section does not apply to assignments or substitutions of previously recorded deeds of trust.

**Sec. 18.** RCW 36.18.010 and 2005 c 484 s 19 and 2005 c 374 s 1 are each reenacted and amended to read as follows:

County auditors or recording officers shall collect the following fees for their official services:

#### SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House refused to concur in the Senate amendments to ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1359, and asked the Senate to recede therefrom.

#### MESSAGE FROM THE SENATE

April 11, 2007

Mr. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 1667 with the following amendment:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** By January 1, 2008, the department of health shall submit to the appropriate policy and fiscal committees of the legislature an evaluation of the economic benefits to the state's health care system of the midwifery licensure and regulatory program under chapter 18.50 RCW. In particular, the department shall contract with a consultant to conduct a review of existing research literature on whether these economic benefits exceed the state expenditures to subsidize the cost of the midwifery licensing and regulatory program under RCW 43.70.250. The evaluation shall include an assessment of the economic benefits to consumers who elect out-of-hospital births with midwives, including any reduced use of procedures that increase the costs of childbirth. Furthermore, the study shall identify the reasons for the high per-licensee costs of the

midwifery licensure and regulatory program. To the extent such costs are the result of department of health investigations of midwives, the study shall identify the nature of the initiating complainant (including categories such as birth parent, other family members, other licensed midwives, certified midwives, obstetricians, gynecologists, other health care professional, paramedics, and department of health) for each investigation conducted during the previous three years, and whether the birth parents supported or opposed the investigation. The department shall identify the outcome and estimated costs of each such investigation, the average cost to the defending midwife of the investigations, and for the midwives whose licenses were not revoked, whether the midwife elected to continue seeking licensure in the subsequent two years.

The report may also examine the effectiveness of a health professions credentialing surcharge to (1) reduce the variation in levels of credentialing fees paid by health care providers regulated by the department, (2) provide greater equity in credentialing fee amounts, and (3) increase the number of health care providers in those professions. This section expires on January 1, 2008."

On page 1, line 2 of the title, strike "amending RCW 43.70.250;"

as the same is herewith transmitted.

Thomas Hoemann, Secretary

#### POINT OF ORDER

Representative Springer requested a scope and object ruling on the Senate amendment to Engrossed House Bill No. 1667.

#### SPEAKER'S RULING

The Speaker (Representative Hudgins presiding): "Engrossed House Bill 1667 is titled AN ACT relating to "fairness and equity in health professions licensing fees." The bill amends RCW 43.70.250 to establish a \$1.50 surcharge on all health care provider credentials. Money received from the surcharge shall be used to reduce the fees for members of any profession that has an annual credentialing fee above \$500. Under the bill, the four professions in this category are podiatrists, midwives, sex offender treatment providers and denturists.

The Senate amendment strikes the entire bill and replaces its provisions with a requirement that the Department of Health evaluate the economic benefits of maintaining a midwifery regulatory program, including a review of the benefits of subsidizing midwife licenses, the economic benefits to consumers of having out-of-hospital births and the reasons for the high cost of licensing midwives. The report may also examine the effectiveness of using a surcharge to promote equity in licensing fees for various health professions.

The bill is limited to health professions licensing fees. The Senate amendment goes beyond this limit to require an evaluation as to whether a certain profession should be subject to licensure.

The Speaker therefore finds that the Senate amendment is beyond the scope and object of the House bill.

Representative Springer, your point of order is well taken."

#### SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House refused to concur in the Senate amendments to ENGROSSED HOUSE BILL NO. 1667, and asked the Senate to recede therefrom.

#### MESSAGE FROM THE SENATE

April 14, 2007

Mr. Speaker:

Brad Hendrickson, Deputy Secretary

There being no objection, the rules were suspended, and SUBSTITUTE SENATE BILL NO. 5207 was returned to Second Reading for purpose of amendments.

There being no objection, the House reverted to the sixth order of business.

#### SECOND READING

**SUBSTITUTE SENATE BILL NO. 5207, by Senate Committee on Transportation (originally sponsored by Senators Haugen, Murray and Spanel)**

**Concerning a study to evaluate the imposition of a fee on the processing of shipping containers, port-related user fees, and other funding mechanisms to improve freight corridors; creating the freight congestion relief account.**

Representative Clibborn moved the adoption of amendment (873):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) Subject to availability of amounts appropriated for this specific purpose, the joint transportation committee shall:

(a) Administer a consultant study of funding mechanisms for deposit in the freight congestion relief account created in section 2 of this act to fund freight congestion relief investments. At a minimum, the study must: (i) Evaluate federal, state, incentive, and other project specific fees; (ii) analyze current taxes and fees paid by the freight industry and the projects the taxes and fees fund; (iii) assess other nonfreight-related fees and taxes that could be used to pay for freight congestion relief investments; (iv) assess how other states and countries pay for freight congestion relief investments; (v) discuss the various approaches and their impacts on Washington competitiveness in freight movement; (vi) assess the imposition of a shipping container-based fee, port-related user fees, or other funding mechanisms on the demand elasticity of the movement of freight goods through Washington's container ports at various rates as well as forecast diversion of marine cargo at various price points; (vii) measure the return on investment in freight rail and highway-based infrastructure supported by the user fee and its impact on forecast growth in shipping container traffic and the movement of freight goods; and (viii) recommend the structure of a future project recommendation body including its membership, process, and selection criteria. The scope of the work for the study may be expanded to include analysis of other issues relevant to freight congestion relief funding; and

(b) Convene a stakeholder group composed of representatives to work on the consultant study that includes: Two representatives of container ports, one representative of trucking, one representative from railroads, one representative from international shipping, one representative from national shipping, two representatives of organized labor, two representatives of the import/export community, one representative from the department of transportation, one representative from the freight mobility strategic investment board, and other representatives as deemed necessary by the joint transportation committee. The stakeholder group shall work with the selected consultant in: (i) Identifying critical freight congestion relief

investments; (ii) identifying alternatives for a dedicated funding source for freight congestion relief investments or user fees to fund specific freight congestion relief investments; and (iii) developing and reviewing a final consultant study.

#### MESSAGE FROM THE SENATE

April 12, 2007

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1450 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 84.36.560 and 2001 1st sp.s. c 7 s 1 are each amended to read as follows:

(1) The real and personal property owned or used by a nonprofit entity in providing rental housing for very low-income households or used to provide space for the placement of a mobile home for a very low-income household within a mobile home park is exempt from taxation if:

(a) The benefit of the exemption inures to the nonprofit entity;

(b) At least seventy-five percent of the occupied dwelling units in the rental housing or lots in a mobile home park are occupied by a very low-income household; and

(c) The rental housing or lots in a mobile home park were insured, financed, or assisted in whole or in part through one or more of the following sources:

(i) A federal or state housing program administered by the department of community, trade, and economic development; ~~((or))~~

(ii) A federal housing program administered by a city or county government;

(iii) An affordable housing levy authorized under RCW 84.52.105; or

(iv) The surcharges authorized by RCW 36.22.178 and 36.22.179 and any of the surcharges authorized in chapter 43.185C RCW.

(2) If less than seventy-five percent of the occupied dwelling units within the rental housing or lots in the mobile home park are occupied by very low-income households, the rental housing or mobile home park is eligible for a partial exemption on the real property and a total exemption of the housing's or park's personal property as follows:

(a) A partial exemption shall be allowed for each dwelling unit in the rental housing or for each lot in a mobile home park occupied by a very low-income household.

(b) The amount of exemption shall be calculated by multiplying the assessed value of the property reasonably necessary to provide the rental housing or to operate the mobile home park by a fraction. The numerator of the fraction is the number of dwelling units or lots occupied by very low-income households as of December 31st of the first assessment year in which the rental housing or mobile home park becomes operational or on January 1st of each subsequent assessment year for which the exemption is claimed. The denominator of the fraction is the total number of dwelling units or lots occupied as of December 31st of the first assessment year the rental housing or mobile home park becomes operational and January 1st of each subsequent assessment year for which exemption is claimed.

(3) If a currently exempt rental housing unit in a facility with ten units or fewer or mobile home lot in a mobile home park with ten lots or fewer was occupied by a very low-income household at the time the exemption was granted and the income of the household subsequently rises above fifty percent of the median income but remains at or below eighty percent of the median income, the exemption will continue as long as the housing continues to meet the certification requirements of a very low-income housing program ~~((administered by the department of community, trade, and economic development or the affordable housing levy under RCW 84.52.105))~~ listed in subsection (1) of this section. For purposes of this section, median income, as most recently determined by the federal department of housing and urban development for the county in which the rental housing or mobile home park is located, shall be adjusted for family size. However, if a dwelling unit or a lot becomes vacant and is subsequently rerented, the income of the new household must be at or below fifty percent of the median income adjusted for family size as most recently determined by the federal department of housing and urban development for the county in which the rental housing or mobile home park is located to remain exempt from property tax.

(4) If at the time of initial application the property is unoccupied, or subsequent to the initial application the property is unoccupied because of renovations, and the property is not currently being used for the exempt purpose authorized by this section but will be used for the exempt purpose within two assessment years, the property shall be eligible for a property tax exemption for the

assessment year in which the claim for exemption is submitted under the following conditions:

(a) A commitment for financing to acquire, construct, renovate, or otherwise convert the property to provide housing for very low-income households has been obtained, in whole or in part, by the nonprofit entity claiming the exemption from:

~~(i) A federal or state housing program administered by the department of community, trade, and economic development; or~~

~~(ii) An affordable housing levy authorized under RCW 84.52.105)) one or more of the sources listed in subsection (1)(c) of this section;~~

(b) The nonprofit entity has manifested its intent in writing to construct, remodel, or otherwise convert the property to housing for very low-income households; and

(c) Only the portion of property that will be used to provide housing or lots for very low-income households shall be exempt under this section.

(5) To be exempt under this section, the property must be used exclusively for the purposes for which the exemption is granted, except as provided in RCW 84.36.805.

(6) The nonprofit entity qualifying for a property tax exemption under this section may agree to make payments to the city, county, or other political subdivision for improvements, services, and facilities furnished by the city, county, or political subdivision for the benefit of the rental housing. However, these payments shall not exceed the amount last levied as the annual tax of the city, county, or political subdivision upon the property prior to exemption.

(7) As used in this section:

(a) "Group home" means a single-family dwelling financed, in whole or in part, by ~~((the department of community, trade, and economic development or by an affordable housing levy under RCW 84.52.105))~~ one or more of the sources listed in subsection (1)(c) of this section. The residents of a group home shall not be considered to jointly constitute a household, but each resident shall be considered to be a separate household occupying a separate dwelling unit. The individual incomes of the residents shall not be aggregated for purposes of this exemption;

(b) "Mobile home lot" or "mobile home park" means the same as these terms are defined in RCW 59.20.030;

(c) "Occupied dwelling unit" means a living unit that is occupied by an individual or household as of December 31st of the first assessment year the rental housing becomes operational or is occupied by an individual or household on January 1st of each subsequent assessment year in which the claim for exemption is submitted. If the housing facility is comprised of three or fewer dwelling units and there are any unoccupied units on January 1st, the department shall base the amount of the exemption upon the number of occupied dwelling units as of December 31st of the first assessment year the rental housing becomes operational and on May 1st of each subsequent assessment year in which the claim for exemption is submitted;

(d) "Rental housing" means a residential housing facility or group home that is occupied but not owned by very low-income households;

(e) "Very low-income household" means a single person, family, or unrelated persons living together whose income is at or below fifty percent of the median income adjusted for family size as most recently determined by the federal department of housing and urban development for the county in which the rental housing is located and in effect as of January 1st of the year the application for exemption is submitted; and

(f) "Nonprofit entity" means a:

(i) Nonprofit as defined in RCW 84.36.800 that is exempt from income tax under section 501(c) of the federal internal revenue code;

(iii) Limited liability company where a nonprofit as defined in RCW 84.36.800 that is exempt from income tax under section 501(c) of the federal internal revenue code, a public corporation established

under RCW 35.21.660, 35.21.670, or 35.21.730, a housing authority established under RCW 35.82.030 or 35.82.300, or a housing authority meeting the definition in RCW 35.82.210(2)(a) is a managing member.

**Sec. 2.** RCW 84.40.030 and 2001 c 187 s 17 are each amended to read as follows:

All property shall be valued at one hundred percent of its true and fair value in money and assessed on the same basis unless specifically provided otherwise by law.

Taxable leasehold estates shall be valued at such price as they would bring at a fair, voluntary sale for cash without any deductions for any indebtedness owed including rentals to be paid.

The true and fair value of real property for taxation purposes (including property upon which there is a coal or other mine, or stone or other quarry) shall be based upon the following criteria:

(1) Any sales of the property being appraised or similar properties with respect to sales made within the past five years. The appraisal shall be consistent with the comprehensive land use plan, development regulations under chapter 36.70A RCW, zoning, and any other governmental policies or practices in effect at the time of appraisal that affect the use of property, as well as physical and environmental influences. An assessment may not be determined by a method that assumes a land usage or highest and best use not permitted, for that property being appraised, under existing zoning or land use planning ordinances or statutes or other government restrictions. The appraisal shall also take into account: (a) In the use of sales by real estate contract as similar sales, the extent, if any, to which the stated selling price has been increased by reason of the down payment, interest rate, or other financing terms; and (b) the extent to which the sale of a similar property actually represents the general effective market demand for property of such type, in the geographical area in which such property is located. Sales involving deed releases or similar seller-developer financing arrangements shall not be used as sales of similar property.

(2) In addition to sales as defined in subsection (1) of this section, consideration may be given to cost, cost less depreciation, reconstruction cost less depreciation, or capitalization of income that would be derived from prudent use of the property, as limited by law or ordinance. Consideration should be given to any agreement, between an owner of rental housing and any government agency, that restricts rental income, appreciation, and liquidity; and to the impact of government restrictions on operating expenses and on ownership rights in general of such housing. In the case of property of a complex nature, or being used under terms of a franchise from a public agency, or operating as a public utility, or property not having a record of sale within five years and not having a significant number of sales of similar property in the general area, the provisions of this subsection shall be the dominant factors in valuation. When provisions of this subsection are relied upon for establishing values the property owner shall be advised upon request of the factors used in arriving at such value.

(3) In valuing any tract or parcel of real property, the true and fair value of the land, exclusive of structures thereon shall be determined; also the true and fair value of structures thereon, but the valuation shall not exceed the true and fair value of the total property as it exists. In valuing agricultural land, growing crops shall be excluded."

On page 1, line 2 of the title, after "taxation;" strike the remainder of the title and insert "and amending RCW 84.36.560 and 84.40.030."

and the same is herewith transmitted.

**MESSAGE FROM THE SENATE**

April 13, 2007

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1598 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 77.85.130 and 2005 c 309 s 8, 2005 c 271 s 1, and 2005 c 257 s 3 are each reenacted and amended to read as follows:

(1) The salmon recovery funding board shall develop procedures and criteria for allocation of funds for salmon habitat projects and salmon recovery activities on a statewide basis to address the highest priorities for salmon habitat protection and restoration. To the extent practicable the board shall adopt an annual allocation of funding. The allocation should address both protection and restoration of habitat, and should recognize the varying needs in each area of the state on an equitable basis. The board has the discretion to partially fund, or to fund in phases, salmon habitat projects. The board may annually establish a maximum amount of funding available for any individual project, subject to available funding. No projects required solely as a mitigation or a condition of permitting are eligible for funding.

(2)(a) In evaluating, ranking, and awarding funds for projects and activities the board shall give preference to projects that:

(i) Are based upon the limiting factors analysis identified under RCW 77.85.060;

(ii) Provide a greater benefit to salmon recovery based upon the stock status information contained in the department of fish and wildlife salmonid stock inventory (SASSI), the salmon and steelhead habitat inventory and assessment project (SSHAP), and any comparable science-based assessment when available;

(iii) Will benefit listed species and other fish species;

(iv) Will preserve high quality salmonid habitat; and

(v) Are included in a regional or watershed-based salmon recovery plan that accords the project, action, or area a high priority for funding.

(b) In evaluating, ranking, and awarding funds for projects and activities the board shall also give consideration to projects that:

(i) Are the most cost-effective;

(ii) Have the greatest matched or in-kind funding;

(iii) Will be implemented by a sponsor with a successful record of project implementation; ~~(and)~~

(iv) Involve members of the veterans conservation corps established in RCW 43.60A.150; and

(v) Are part of a regionwide list developed by lead entities.

(3) The board may reject, but not add, projects from a habitat project list submitted by a lead entity for funding.

(4) The board shall establish criteria for determining when block grants may be made to a lead entity. The board may provide block grants to the lead entity to implement habitat project lists developed under RCW 77.85.050, subject to available funding. The board shall determine an equitable minimum amount of project funds for each recovery region, and shall distribute the remainder of funds on a competitive basis. The board may also provide block grants to the lead entity or regional recovery organization to assist in carrying out functions described under this chapter. Block grants must be expended consistent with the priorities established for the board in subsection (2) of this section. Lead entities or regional recovery organizations receiving block grants under this subsection shall provide an annual report to the board summarizing how funds were expended for activities consistent with this chapter, including the types of projects funded, project outcomes, monitoring results, and administrative costs.

(5) The board may waive or modify portions of the allocation procedures and standards adopted under this section in the award of grants or loans to conform to legislative appropriations directing an alternative award procedure or when the funds to be awarded are from federal or other sources requiring other allocation procedures or standards as a condition of the board's receipt of the funds. The board shall develop an integrated process to manage the allocation of funding from federal and state sources to minimize delays in the award of funding while recognizing the differences in state and legislative appropriation timing.

(6) The board may award a grant or loan for a salmon recovery project on private or public land when the landowner has a legal obligation under local, state, or federal law to perform the project, when expedited action provides a clear benefit to salmon recovery, and there will be harm to salmon recovery if the project is delayed. For purposes of this subsection, a legal obligation does not include a project required solely as a mitigation or a condition of permitting.

(7) Property acquired or improved by a project sponsor may be conveyed to a federal agency if: (a) The agency agrees to comply with all terms of the grant or loan to which the project sponsor was obligated; or (b) the board approves: (i) Changes in the terms of the grant or loan, and the revision or removal of binding deed of right instruments; and (ii) a memorandum of understanding or similar document ensuring that the facility or property will retain, to the extent feasible, adequate habitat protections; and (c) the appropriate legislative authority of the county or city with jurisdiction over the project area approves the transfer and provides notification to the board.

(8) Any project sponsor receiving funding from the salmon recovery funding board that is not subject to disclosure under chapter 42.56 RCW must, as a mandatory contractual prerequisite to receiving the funding, agree to disclose any information in regards to

the expenditure of that funding as if the project sponsor was subject to the requirements of chapter 42.56 RCW."

On page 1, line 2 of the title, after "recovery;" strike the remainder of the title and insert "and reenacting and amending RCW 77.85.130."

This presumption of occupational disease may be rebutted by a preponderance of the evidence. Such evidence may include, but is not limited to, use of tobacco products, physical fitness and weight, lifestyle, hereditary factors, and exposure from other employment or nonemployment activities.

(2) The presumptions established in subsection (1) of this section shall be extended to an applicable member following termination of service for a period of three calendar months for each year of requisite service, but may not extend more than sixty months following the last date of employment.

(3) The presumption established in subsection (1)(c) of this section shall only apply to any active or former fire fighter who has cancer that develops or manifests itself after the fire fighter has served at least ten years and who was given a qualifying medical examination upon becoming a fire fighter that showed no evidence of cancer. The presumption within subsection (1)(c) of this section shall only apply to prostate cancer diagnosed prior to the age of fifty, primary brain cancer, malignant melanoma, leukemia, non-Hodgkin's lymphoma, bladder cancer, ureter cancer, colorectal cancer, multiple myeloma, testicular cancer, and kidney cancer.

(4) The presumption established in subsection (1)(d) of this section shall be extended to any fire fighter who has contracted any of the following infectious diseases: Human immunodeficiency virus/acquired immunodeficiency syndrome, all strains of hepatitis, meningococcal meningitis, or mycobacterium tuberculosis.

(5) Beginning July 1, 2003, this section does not apply to a fire fighter who develops a heart or lung condition and who is a regular user of tobacco products or who has a history of tobacco use. The department, using existing medical research, shall define in rule the extent of tobacco use that shall exclude a fire fighter from the provisions of this section.

(6) For purposes of this section, "firefighting activities" means fire suppression, fire prevention, emergency medical services, rescue operations, hazardous materials response, aircraft rescue, and training and other assigned duties related to emergency response.

(7)(a) When a determination involving the presumption established in this section is appealed to the board of industrial insurance appeals and the final decision allows the claim for benefits, the board of industrial insurance appeals shall order that all reasonable costs of the appeal, including attorney fees and witness fees, be paid to the firefighter or his or her beneficiary by the opposing party.

(b) When a determination involving the presumption established in this section is appealed to any court and the final decision allows the claim for benefits, the court shall order that all reasonable costs of the appeal, including attorney fees and witness fees, be paid to the firefighter or his or her beneficiary by the opposing party.

(c) When reasonable costs of the appeal must be paid by the department under this section in a state fund case, the costs shall be paid from the accident fund and charged to the costs of the claim.

**Sec. 3.** RCW 51.52.120 and 2003 c 53 s 285 are each amended to read as follows:

(1) It shall be unlawful for an attorney engaged in the representation of any worker or beneficiary to charge for services in the department any fee in excess of a reasonable fee, of not more than thirty percent of the increase in the award secured by the attorney's services. Such reasonable fee shall be fixed by the director or the director's designee for services performed by an attorney for such worker or beneficiary, if written application therefor is made by the attorney, worker, or beneficiary within one year from the date the final decision and order of the department is communicated to the party making the application.

(2) If, on appeal to the board, the order, decision, or award of the department is reversed or modified and additional relief is granted to a worker or beneficiary, or in cases where a party other than the worker or beneficiary is the appealing party and the worker's or beneficiary's right to relief is sustained by the board, the board shall fix a reasonable fee for the services of his or her attorney in proceedings before the board if written application therefor is made by the attorney, worker, or beneficiary within one year from the date the final decision and order of the board is communicated to the party making the application. In fixing the amount of such attorney's fee, the board shall take into consideration the fee allowed, if any, by the director, for services before the department, and the board may review the fee fixed by the director. Any attorney's fee set by the department or the board may be reviewed by the superior court upon application of such attorney, worker, or beneficiary. The department or self-insured employer, as the case may be, shall be served a copy of the application and shall be entitled to appear and take part in the proceedings. Where the board, pursuant to this section, fixes the attorney's fee, it shall be unlawful for an attorney to charge or receive any fee for services before the board in excess of that fee fixed by the board.

(3) In an appeal to the board involving the presumption established under RCW 51.32.185, the attorney's fee shall be payable as set forth under RCW 51.32.185.

(4) Any person who violates this section is guilty of a misdemeanor.

**Sec. 4.** RCW 51.52.130 and 1993 c 122 s 1 are each amended to read as follows:

(1) If, on appeal to the superior or appellate court from the decision and order of the board, said decision and order is reversed or modified and additional relief is granted to a worker or beneficiary, or in cases where a party other than the worker or beneficiary is the appealing party and the worker's or beneficiary's right to relief is sustained, a reasonable fee for the services of the worker's or beneficiary's attorney shall be fixed by the court. In fixing the fee the court shall take into consideration the fee or fees, if any, fixed by the director and the board for such attorney's services before the department and the board. If the court finds that the fee fixed by the director or by the board is inadequate for services performed before the department or board, or if the director or the board has fixed no fee for such services, then the court shall fix a fee for the attorney's services before the department, or the board, as the case may be, in addition to the fee fixed for the services in the court. If in a worker or beneficiary appeal the decision and order of the board is reversed or modified and if the accident fund or medical aid fund is affected by the litigation, or if in an appeal by the department or employer the worker or beneficiary's right to relief is sustained, or in an appeal by a worker involving a state fund employer with twenty- five employees or less, in which the department does not appear and defend, and the board order in favor of the employer is sustained, the attorney's fee fixed by the court, for services before the

court only, and the fees of medical and other witnesses and the costs shall be payable out of the administrative fund of the department. In the case of self-insured employers, the attorney fees fixed by the court, for services before the court only, and the fees of medical and other witnesses and the costs shall be payable directly by the self-insured employer.

(2) In an appeal to the superior or appellate court involving the presumption established under RCW 51.32.185, the attorney's fee shall be payable as set forth under RCW 51.32.185."

On page 1, line 1 of the title, after "firefighters;" strike the remainder of the title and insert "amending RCW 51.32.185, 51.52.120, and 51.52.130; and creating a new section."

### MESSAGE FROM THE SENATE

April 13, 2007

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1965 with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 36.70A.367 and 2004 c 208 s 1 are each amended to read as follows:

(1) In addition to the major industrial development allowed under RCW 36.70A.365, a county planning under RCW 36.70A.040 that meets the criteria in subsection ~~((10) or (11))~~ (5) of this section may establish, in consultation with cities consistent with provisions of RCW 36.70A.210, a process for designating a bank of no more than two master planned locations for major industrial activity outside urban growth areas.

(2) ~~((A master planned location for major industrial developments outside an urban growth area may be included in the urban industrial land bank for the county if criteria including, but not limited to, the following are met through the completion of a comprehensive planning process that ensures that:~~

~~(a) Development regulations are adopted to ensure that urban growth will not occur in adjacent nonurban areas;~~

~~(b) The master plan for the major industrial developments is consistent with the county's development regulations adopted for protection of critical areas;~~

~~(c) An inventory of developable land has been conducted as provided in RCW 36.70A.365;~~

~~(d) Provisions are established for determining the availability of alternate sites within urban growth areas and the long-term annexation feasibility of land sites outside of urban growth areas; and~~

~~(e) Development regulations are adopted to require the industrial land bank site to be used primarily for locating industrial and manufacturing businesses and specify that the gross floor area of all commercial and service buildings or facilities locating within the industrial land bank shall not exceed ten percent of the total gross floor area of buildings or facilities in the industrial land bank. The commercial and service businesses operated within the ten percent gross floor area limit shall be necessary to the primary industrial or manufacturing businesses within the industrial land bank. The intent of this provision for commercial or service use is to meet the needs of employees, clients, customers, vendors, and others having business at the industrial site and as an adjunct to the industry to attract and retain a quality work force and to further other public objectives, such as trip reduction. Such uses would not be promoted to attract additional clientele from the surrounding area. The commercial and service businesses should be established concurrently with or subsequent to the industrial or manufacturing businesses.~~

~~(3) The process for reviewing and approving proposals to authorize siting of specific major industrial developments within an approved industrial land bank must ensure through adopted development regulations that:~~

~~(a) New infrastructure is provided for and/or applicable impact fees are paid;~~

~~(b) Transit-oriented site planning and traffic demand management programs are implemented;~~

~~(c) Buffers are provided between the major industrial development and adjacent nonurban areas;~~

~~(d) Environmental protection including air and water quality has been addressed and provided for;~~

~~(e) Provision is made to mitigate adverse impacts on designated agricultural lands, forest lands, and mineral resource lands; and~~

~~(f) An interlocal agreement related to infrastructure cost sharing and revenue sharing between the county and interested cities is established.~~

~~(4) In selecting master planned locations for inclusion in the urban industrial land bank, priority shall be given to locations that are adjacent to, or in close proximity to, an urban growth area.~~

~~(5) Final approval of inclusion of a master planned location in an urban industrial land bank under subsection (2) of this section shall be considered an adopted amendment to the comprehensive plan adopted pursuant to RCW 36.70A.070, except that RCW 36.70A.130(2) does not apply so that inclusion or exclusion of master planned locations may be considered at any time. Approval of~~

~~specific development proposals under subsection (3) of this section requires no further comprehensive plan amendment.~~

~~(6) Once a master planned location has been included in an urban industrial land bank, manufacturing and industrial businesses that qualify as major industrial development under RCW 36.70A.365 may be located there.~~

~~(7) Nothing in this section alters the requirements for a county to comply with chapter 43.21C RCW.~~

~~(8)(a) The authority of a county meeting the criteria of subsection (10) of this section to engage in the process of including or excluding master planned locations from an urban industrial land bank terminates on December 31, 2007. However, any location included in an urban industrial land bank on or before December 31, 2007, shall be available for major industrial development as long as the criteria of subsection (2) of this section are met. A county that has established or proposes to establish an industrial land bank pursuant to this section shall review the need for an industrial land bank within the county, including a review of the availability of land for industrial and manufacturing uses within the urban growth area, during the review and evaluation of comprehensive plans and development regulations required by RCW 36.70A.130.~~

~~(b) The authority of a county meeting the criteria of subsection (11) of this section to engage in the process of including or excluding master planned locations from the urban industrial land bank terminates on December 31, 2002. However, any location included in the urban industrial land bank on December 31, 2002, shall be available for major industrial development as long as the criteria of subsection (2) of this section are met.~~

~~(9)) A master planned location for major industrial developments may be approved through a two-step process: Designation of an industrial land bank area in the comprehensive plan; and subsequent approval of specific major industrial developments through a local master plan process described under subsection (3) of this section.~~

~~(a) The comprehensive plan must identify locations suited to major industrial development due to proximity to transportation or resource assets. The plan must identify the maximum size of the industrial land bank area and any limitations on major industrial developments based on local limiting factors, but does not need to specify a particular parcel or parcels of property or identify any specific use or user except as limited by this section. In selecting locations for the industrial land bank area, priority must be given to locations that are adjacent to, or in close proximity to, an urban growth area.~~

~~(b) The environmental review for amendment of the comprehensive plan must be at the programmatic level and, in addition to a threshold determination, must include:~~

~~(i) An inventory of developable land as provided in RCW 36.70A.365; and~~

~~(ii) An analysis of the availability of alternative sites within urban growth areas and the long-term annexation feasibility of sites outside of urban growth areas.~~

~~(c) Final approval of an industrial land bank area under this section must be by amendment to the comprehensive plan adopted under RCW 36.70A.070, and the amendment is exempt from the limitation of RCW 36.70A.130(2) and may be considered at any time. Approval of a specific major industrial development within the industrial land bank area requires no further amendment of the comprehensive plan.~~

~~(3) In concert with the designation of an industrial land bank area, a county shall also adopt development regulations for review and approval of specific major industrial developments through a master plan process. The regulations governing the master plan process shall ensure, at a minimum, that:~~

~~(a) Urban growth will not occur in adjacent nonurban areas;~~

~~(b) Development is consistent with the county's development regulations adopted for protection of critical areas;~~

~~(c) Required infrastructure is identified and provided concurrent with development. Such infrastructure, however, may be phased in with development;~~

~~(d) Transit-oriented site planning and demand management programs are specifically addressed as part of the master plan approval;~~

(e) Provision is made for addressing environmental protection, including air and water quality, as part of the master plan approval;

(f) The master plan approval includes a requirement that interlocal agreements between the county and service providers, including cities and special purpose districts providing facilities or services to the approved master plan, be in place at the time of master plan approval;

(g) A major industrial development is used primarily by industrial and manufacturing businesses, and that the gross floor area of all commercial and service buildings or facilities locating within the major industrial development does not exceed ten percent of the total gross floor area of buildings or facilities in the development. The intent of this provision for commercial or service use is to meet the needs of employees, clients, customers, vendors, and others having business at the industrial site, to attract and retain a quality workforce, and to further other public objectives, such as trip reduction. These uses may not be promoted to attract additional clientele from the surrounding area. Commercial and service businesses must be established concurrently with or subsequent to the industrial or manufacturing businesses;

(h) New infrastructure is provided for and/or applicable impact fees are paid to assure that adequate facilities are provided concurrently with the development. Infrastructure may be achieved in phases as development proceeds;

(i) Buffers are provided between the major industrial development and adjacent rural areas;

(j) Provision is made to mitigate adverse impacts on designated agricultural lands, forest lands, and mineral resource lands; and

(k) An open record public hearing is held before either the planning commission or hearing examiner with notice published at least thirty days before the hearing date and mailed to all property owners within one mile of the site.

(4) For the purposes of this section:

(a) "Major industrial development" means a master planned location suitable for manufacturing or industrial businesses that: (i) Requires a parcel of land so large that no suitable parcels are available within an urban growth area; (ii) is a natural resource-based industry requiring a location near agricultural land, forest land, or mineral resource land upon which it is dependent; or (iii) requires a location with characteristics such as proximity to transportation facilities or related industries such that there is no suitable location in an urban growth area. The major industrial development may not be for the purpose of retail commercial development or multitenant office parks.

(b) "Industrial land bank" means up to two master planned locations, each consisting of a parcel or parcels of contiguous land, sufficiently large so as not to be readily available within the urban growth area of a city, or otherwise meeting the criteria contained in (a) of this subsection, suitable for manufacturing, industrial, or commercial businesses and designated by the county through the comprehensive planning process specifically for major industrial use.

~~((10))~~ (5) This section and the termination ~~((date))~~ provisions specified in subsection ~~((8)(a))~~ (6) of this section apply to a county that at the time the process is established under subsection (1) of this section:

(a) Has a population greater than two hundred fifty thousand and is part of a metropolitan area that includes a city in another state with a population greater than two hundred fifty thousand;

(b) Has a population greater than one hundred forty thousand and is adjacent to another country;

(c) Has a population greater than forty thousand but less than seventy-five thousand and has an average level of unemployment for the preceding three years that exceeds the average state unemployment for those years by twenty percent; and

(i) Is bordered by the Pacific Ocean;

(ii) Is located in the Interstate 5 or Interstate 90 corridor; or

(iii) Is bordered by Hood Canal;

(d) Is east of the Cascade divide; and

(i) Borders another state to the south; or

(ii) Is located wholly south of Interstate 90 and borders the Columbia river to the east; ~~((or))~~

(e) Has an average population density of less than one hundred persons per square mile as determined by the office of financial

management, and is bordered by the Pacific Ocean and by Hood Canal~~((:))~~; or

~~((11))~~ This section and the termination date specified in subsection ~~(8)(b)~~ of this section apply to a county that at the time the process is established under subsection (1) of this section) (f) Meets all of the following criteria:

~~((a))~~ (i) Has a population greater than forty thousand but fewer than eighty thousand;

~~((b))~~ (ii) Has an average level of unemployment for the preceding three years that exceeds the average state unemployment for those years by twenty percent; and

~~((c))~~ (iii) Is located in the Interstate 5 or Interstate 90 corridor.

~~((12))~~ (6) In order to identify and approve locations for industrial land banks, the county shall take action to designate one or more industrial land banks and adopt conforming regulations as provided by RCW 36.70A.367(2) on or before the last date to complete that county's next periodic review under RCW 36.70A.130(4) that occurs prior to December 31, 2014. The authority to take action to designate a land bank area in the comprehensive plan expires if not acted upon by the county within the time frame provided in this section. Once a land bank area has been identified in the county's comprehensive plan, the authority of the county to process a master plan or site projects within an approved master plan does not expire.

(7) Any county seeking to designate an industrial land bank under this section must:

(a) Provide countywide notice, in conformity with RCW 36.70A.035, of the intent to designate an industrial land bank. Notice must be published in a newspaper or newspapers of general circulation reasonably likely to reach subscribers in all geographic areas of the county. Notice must be provided not less than thirty days prior to commencement of consideration by the county legislative body; and

(b) Make a written determination of the criteria and rationale used by the legislative body as the basis for siting an industrial land bank under this chapter.

(8) Any location included in an industrial land bank pursuant to section 2, chapter 289, Laws of 1998, section 1, chapter 402, Laws of 1997, and section 2, chapter 167, Laws of 1996 shall remain available for major industrial development according to this section as long as the ~~((criteria of subsection (2)))~~ requirements of this section continue to be satisfied."

On page 1, line 2 of the title, after "banks;" strike the remainder of the title and insert "and amending RCW 36.70A.367."

and the same is herewith transmitted.

#### MESSAGE FROM THE SENATE

April 17, 2007

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED HOUSE BILL NO. 2070. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** In *State v. Pillatos*, 150 P.3d 1130 (2007), the Washington supreme court held that the changes made to the sentencing reform act concerning exceptional sentences in chapter 68, Laws of 2005 do not apply to cases where the trials had already begun or guilty pleas had already been entered prior to the effective date of the act on April 15, 2005. The legislature intends that the superior courts shall have the authority to impanel juries to find aggravating circumstances in all cases that come before the courts for trial or sentencing, regardless of the date of the original trial or sentencing.

**Sec. 2.** RCW 9.94A.537 and 2005 c 68 s 4 are each amended to read as follows:

(1) At any time prior to trial or entry of the guilty plea if substantial rights of the defendant are not prejudiced, the state may give notice that it is seeking a sentence above the standard sentencing range. The notice shall state aggravating circumstances upon which the requested sentence will be based.

(2) In any case where an exceptional sentence above the standard range was imposed and where a new sentencing hearing is required, the superior court may impanel a jury to consider any alleged aggravating circumstances listed in RCW 9.94A.535(3), that were relied upon by the superior court in imposing the previous sentence, at the new sentencing hearing.

(3) The facts supporting aggravating circumstances shall be proved to a jury beyond a reasonable doubt. The jury's verdict on the aggravating factor must be unanimous, and by special interrogatory. If a jury is waived, proof shall be to the court beyond a reasonable doubt, unless the defendant stipulates to the aggravating facts.

~~((4))~~ (4) Evidence regarding any facts supporting aggravating circumstances under RCW 9.94A.535(3) (a) through (y) shall be presented to the jury during the trial of the alleged crime, unless the jury has been impaneled solely for resentencing, or unless the state

alleges the aggravating circumstances listed in RCW 9.94A.535(3) (e)(iv), (h)(i), (o), or (t). If one of these aggravating circumstances is alleged, the trial court may conduct a separate proceeding if the evidence supporting the aggravating fact is not part of the res geste of the charged crime, if the evidence is not otherwise admissible in trial of the charged crime, and if the court finds that the probative value of the evidence to the aggravated fact is substantially outweighed by its prejudicial effect on the jury's ability to determine guilt or innocence for the underlying crime.

~~((4))~~ (5) If the superior court conducts a separate proceeding to determine the existence of aggravating circumstances listed in RCW 9.94A.535(3) (e)(iv), (h)(i), (o), or (t), the proceeding shall immediately follow the trial on the underlying conviction, if possible. If any person who served on the jury is unable to continue, the court shall substitute an alternate juror.

~~((5))~~ (6) If the jury finds, unanimously and beyond a reasonable doubt, one or more of the facts alleged by the state in support of an aggravated sentence, the court may sentence the offender pursuant to RCW 9.94A.535 to a term of confinement up to the maximum allowed under RCW 9A.20.021 for the underlying conviction if it finds, considering the purposes of this chapter, that the facts found are substantial and compelling reasons justifying an exceptional sentence.

**NEW SECTION. Sec. 3.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

On page 1, line 1 of the title, after "sentences;" strike the remainder of the title and insert "amending RCW 9.94A.537; creating a new section; and declaring an emergency."

and the same is herewith transmitted.

#### MESSAGE FROM THE SENATE

April 4, 2007

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1266 with the following amendment:

On page 5, after line 33, insert the following:

"**Sec. 9.** RCW 41.40.700 and 2003 c 155 s 7 are each amended to read as follows:

(1) Except as provided in RCW 11.07.010, if a member or a vested member who has not completed at least ten years of service dies, the amount of the accumulated contributions standing to such member's credit in the retirement system at the time of such member's death, less any amount identified as owing to an obligee upon withdrawal of accumulated contributions pursuant to a court order filed under RCW 41.50.670, shall be paid to the member's estate, or such person or persons, trust, or organization as the member shall have nominated by written designation duly executed and filed with the department. (4) Eligible projects must be within Puget Sound and identified by a salmon recovery lead entity or marine resource committee and identified in a current salmon recovery, watershed, or nearshore habitat restoration and protection plan.

(5) Project evaluation criteria shall be developed by the Puget Sound nearshore steering committee. The criteria shall be consistent with the technical guidance developed by the Puget Sound nearshore science team and shall be coordinated with the salmon recovery funding board to ensure that project funding and matching requirements are maximized to the greatest extent possible.

(6) The department shall not utilize any amount of this appropriation to support administration or overhead. Funding to support the administration of the funds and the implementation of selected projects shall be obtained from the department's operating budget.

(7) In recognition of the urgent need to complete the Puget Sound nearshore ecosystem restoration project general investigation, up to \$723,000 of this appropriation may be used to match federal funds implementing the cost-share agreement between the department and the United States army corps of engineers.

**NEW SECTION. Sec. 3203. FOR THE DEPARTMENT OF NATURAL RESOURCES**  
 Trust Land Transfer (08-2-005)

The appropriations in this section are subject to the following conditions and limitations:

(1) The total appropriation is provided to the department solely to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes. The approved list of projects is identified in the LEAP capital document 2007-4, developed March 20, 2007.

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring forest lands of equal value to be managed as common school trust land.

(3) Property subject to lease agreements under this section shall be appraised at fair market value. Lease payments shall be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and shall be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the total value of transferred property is timber value and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers.

(9) On June 30, 2009, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction account and the appropriations in this section shall be reduced by an equivalent amount.

 Conversion Land Acquisition (08-1-950)

The appropriations in this section are subject to the following conditions and limitations: The appropriations are provided solely for acquisition of working forest lands at risk of conversion to nonforest uses. The legislature finds that the chronic loss of working forest lands threatens the long-term prospects of the timber products industry, which in turn threatens the long-term economic return for the beneficiaries of state trust lands. Acquisition of these conversion lands is intended to help stabilize the primary source of revenue to trust land beneficiaries. The department shall submit a report to the appropriate committees of the legislature by October 1, 2008, indicating the lands purchased under this section, showing the locations, acres, purchase price, and within that purchase price, the value of the property attributed to the future value of timber harvests given an expected rate of return for timber lands, and the value of the property attributed to future development of the property. It is the intention of the legislature to lease the development rights of these conversion lands and retain them as long-term working forest lands under the sustainable harvest plan. Working forest lands acquired under this section shall be managed at a level equal to or greater than seventy-five percent of the expected harvest under the sustainable harvest plan. The appropriation provided in this section shall lapse unless chapter . . . (Substitute House Bill No. 2382 (An act relating to leasing state lands and development rights on state lands to public agencies), Laws of 2007, or similar provisions contained in other legislation, is enacted prior to June 30, 2007.

Preventive Facility Maintenance and Building System Repairs (08-1-150)

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Building maintenance, mechanical adjustments, repairs, and minor works for the facility or its major building systems and campus infrastructure must extend the remaining useful life of the facility or keep it safe and functioning normally.

(2) With this appropriation, the intent is to improve the average condition of state facilities as compared to the baseline conditions documented in report 03-1 of the joint legislative audit and review committee. Preventive facility maintenance project funds must be allocated at the state board's discretion to achieve the performance goal stated in this subsection (2), with particular attention given to buildings currently rated in superior to adequate condition so as to maximize useful life given both the passage of time and intensity with which the space is used.

(3) Section 6003 of this act does not apply to this appropriation.

(4) There is no intent to reappropriate amounts not expended by June 30, 2009.

**MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS**

**NEW SECTION. Sec. 6001.** (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. (2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

**NEW SECTION. Sec. 6002.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

**NEW SECTION. Sec. 6003.** (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

**NEW SECTION. Sec. 6004.** (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

**NEW SECTION. Sec. 6005.** (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

**NEW SECTION. Sec. 6006.** The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The higher education coordinating board's biennial budget guidelines and the prioritization process shall place greater emphasis on:

(a) Early critical review of project proposals at the predesign phase, rather than deferring critical review and prioritization to the design or construction phases of a project; and

(b) The capital budget bow wave for a six-year period, beginning with the 2009-2011 biennium through the 2013-2015 biennium.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to section 6003(2)(a) of this act. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

(a) Implement a specific legislatively authorized program or planning priority;

(b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;

(c) Provide additional capacity or adaptation of space for high demand instructional or research programs;

(d) Provide additional instructional program capacity for under-served geographic regions or populations; and

(e) Reflect institutional planning priorities and areas of emphasis.

(7) The higher education coordinating board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

(8) The council of presidents, in consultation with the board, shall report by September 1, 2007, to the appropriate legislative fiscal committees on the use of a proportionality factor in the scoring and ranking of projects. The report shall include:

(a) A definition of proportionality as it has been used in the scoring and ranking of projects for funding in the 2007-2009 biennium and may be used for subsequent biennia;

(b) A method for measuring proportionality in a valid and consistent manner; and

(c) An explanation of how proportionality relates to the statewide priorities established in subsection (6) of this section, including an assessment of the extent to which it promotes the achievement of these statewide priorities.

**NEW SECTION. Sec. 6007.** The Washington state auditor shall perform an audit of the Seattle public library and the secretary of state with regard to expenditures related to the facility located at 2021 9th Avenue, Seattle, Washington that houses the Washington talking book and braille library and city of Seattle functions. The audit shall be completed and results available to the legislature by September 1, 2007.

**NEW SECTION. Sec. 6008.** Eastern Washington University is authorized to sell its Spokane center. Proceeds from the sale must be deposited into the higher education construction account. Proceeds may be used to acquire or design a facility on or adjacent to the Riverpoint higher education campus for the university's Spokane-based program offerings. Eastern Washington University must report to the office of financial management and the appropriate fiscal committees of the legislature upon the sale of the center and with regard to expenditure of the proceeds.

**NEW SECTION. Sec. 6009.** The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

**NEW SECTION. Sec. 6010.** The effective use of state-supported space in higher education is an important factor in assessing both effective management and priorities for capital funding. It is also recognized that the facilities of the state vary significantly among the

community colleges, the comprehensive regional universities, and the research universities. It is further recognized that the existing higher education coordinating board space study does a good job of highlighting the use of a portion of the space for a specific chosen set of uses.

In order for the legislature to have a better awareness of all uses of all state-supported space, the council of presidents shall prepare an assessment of facilities use that covers the full scope of uses for all types of state-funded spaces. This assessment should start with the higher education coordinating board report and build upon this to include additional uses, space types, and methodologies, including methodologies and practices used by other higher education institutions.

To the extent possible, it would be helpful for this assessment to use the same definitions of space types and uses. Based upon the differences in mission and function, the assessment may be divided to look at the comprehensive regional universities along with The Evergreen State College in one group and the research universities as a second group.

The council of presidents shall coordinate this effort with the office of financial management, staff from the appropriate fiscal and higher education committees of the legislature, and the higher education coordinating board. The assessment shall be completed and delivered to the legislature by January 1, 2008.

**NEW SECTION. Sec. 6011.** State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

**NEW SECTION. Sec. 6012.** Due to the intended replacement of the building adjoining Capital Way and 11th avenue, the department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in that facility during the 2007-2009 biennium.

**NEW SECTION. Sec. 6013.** Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

**NEW SECTION. Sec. 6014. When securing properties under this section, agencies shall use the most economical financial contract option available, including long-term leases, lease-purchase agreements, lease-development with option to purchase agreements or financial contracts using certificates of participation. Expenditures made by an agency for one of the indicated purposes before the issue date of the authorized financial contract and any certificates of participation therein are intended to be reimbursed from proceeds of the financial contract and any certificates of participation therein to the extent provided in the agency's financing plan approved by the state finance committee.

State agencies may enter into agreements with the department of general administration and the state treasurer's office to develop requests to the legislature for acquisition of properties and facilities through financial contracts. The agreements may include charges for services rendered.

The office buildings shall be constructed and financed so that agencies occupancy costs will not exceed comparable private market rental rates. The comparable general office space rate shall be calculated based on recent Thurston county leases of new space of at least 100,000 rentable square feet adjusted for known escalation clauses, expected inflation, and differences in the level of service provided by the comparable leases as determined by the department of general administration. In approving a financing contract not providing for the use of certificates of participation, the state finance committee should be reasonably certain that the contract is excluded from the computation of indebtedness, particularly that the contract is not backed by the full faith and credit of the state, and the legislature is expressly not obligated to appropriate funds to make payments. For purposes of this section, "financing contract" includes but is not limited to a certificate of participation and tax exempt financing similar to that authorized in RCW 47.79.140.

The commission may use up to \$100,000 of this amount to conserve or maintain existing pieces in the state art collection pursuant to chapter 36, Laws of 2005.

**NEW SECTION. Sec. 6016.** The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2009-2011 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

**NEW SECTION. Sec. 6017.** (1) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2007, from the 2005-2007 biennial appropriations for each project.

(Z-0356.3/07)), Laws of 2007 (water quality capital account). In this act, appropriations from the water quality capital account are defined as appropriations from that account. If chapter . . . (2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

**NEW SECTION. Sec. 6022.** Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, must be reviewed by the department of general administration for possible consolidation, colocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

**NEW SECTION. Sec. 6023. NONTAXABLE AND TAXABLE BOND PROCEEDS.** Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority from the state building construction account, or any other account receiving bond proceeds, to the state taxable building construction account is necessary.

  - (d) Identify overlaps or gaps in types of public infrastructure projects supported through state programs or funds.

The treasurer shall calculate the irreducible principal in accordance with the state constitution and state law. The irreducible principal shall not include investment gains on the principal of the amount transferred, and the fund may retain or distribute income and investment earnings attributable to this amount in order to achieve the appropriate balance between growth and income.

(iv) State matching funds required under the federal cleanup law;

(v) Financial assistance for local programs in accordance with chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) State government programs for the safe reduction, recycling, or disposal of hazardous wastes from households, small businesses, and agriculture;

(vii) Hazardous materials emergency response training;

(viii) Water and environmental health protection and monitoring programs;

(ix) Programs authorized under chapter 70.146 RCW;

(x) A public participation program, including regional citizen advisory committees;

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with cleanup standards under RCW 70.105D.030(2)(e) but only when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority: (i) Remedial actions; (ii) hazardous waste plans and programs under chapter 70.105 RCW; (iii) solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW; (iv) funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and (v) cleanup and disposal of hazardous substances from abandoned or derelict vessels that pose a threat to human health or the environment. For purposes of this subsection (3)(a)(v), "abandoned or derelict vessels" means vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel. Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW. During the 1999-2001 fiscal biennium, moneys in the account may also be used for the following activities: Conducting a study of whether dioxins occur in fertilizers, soil amendments, and soils; reviewing applications for registration of fertilizers; and conducting a study of plant uptake of metals. During the 2005-2007 fiscal biennium, the legislature may transfer from the local toxics control account to the state toxics control account such amounts as specified in the omnibus capital budget bill. During the ~~((2005-2007))~~ 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(b) Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation.

(7) The department shall adopt rules for grant or loan issuance and performance.

~~((8) During the 2005-2007 fiscal biennium, the legislature may transfer from the state toxics control account to the water quality account such amounts as reflect the excess fund balance of the fund.))~~

**Sec. 6032.** RCW 43.43.944 and 2005 c 518 s 929 are each amended to read as follows:

(c) Twenty percent of all moneys received by the state on fire insurance premiums.

(2) Moneys in the account may be appropriated only for fire service training. During the ~~((2005-2007))~~ 2007-2009 fiscal biennium, the legislature may appropriate funds from this account for ~~((school fire prevention activities within the Washington state patrol))~~ additional sanitary wastewater treatment capacity at the state fire service training center.

**Sec. 6033.** RCW 43.135.045 and 2005 c 518 s 931, 2005 c 314 s 401, and 2005 c 72 s 6 are each reenacted and amended to read as follows:

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall transfer an amount from the state general fund to the emergency reserve fund. The amount transferred shall equal the amount by which total state revenue for the general fund and related funds exceeds the state expenditure limit, multiplied by the percentage that general fund expenditures are of total expenditures from the general fund and related funds. Transfers shall be made at the end of each fiscal quarter based on projections of state revenues, expenditures, and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. For the ~~((2005-2007))~~ 2007-2009 biennium, moneys in the account may be used for grants for projects identified in section 138, chapter 488, Laws of 2005.

(2) The job development fund is hereby established in the state treasury. Up to fifty million dollars each biennium from the public works assistance account may be transferred into the job development fund. Money in the job development fund may be used solely for job development fund program grants, administrative expenses related to the administration of the job development fund program created in RCW 43.160.230, and for the report prepared by the joint legislative audit and review committee pursuant to RCW 44.28.801(2). Moneys in the job development fund may be spent only after appropriation. The board shall prepare a prioritized list of proposed projects of up to fifty million dollars as part of the department's 2007-09 biennial budget request. The board may provide an additional alternate job development fund project list of up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars.

**FOR THE DEPARTMENT OF AGRICULTURE**  
 Energy Freedom Program (06-2-851)

The appropriation in this section is subject to the following conditions and limitations:

- (1)(a) The appropriation is provided solely for low-interest loans to political subdivisions for renewable energy projects including the development of biofuel oilseed crushers, supporting infrastructure, and facilities. The political subdivision may negotiate an appropriate agreement with the bioenergy industry for the use of the oilseed crushers, supporting infrastructure, and facilities.
- (b) For purposes of this section, political subdivision means any port district, county, city, town, special purpose district, and any other municipal corporations or quasi-municipal corporations in the state.
- (2) The appropriation is provided solely for the following list of projects:

<b>Project</b>	<b>Recommendation</b>
Spokane Conservation district	( <del>\$2,000,000</del> ) \$1,779,000
Port of Warden	\$2,500,000
Odessa public development authority	( <del>\$2,500,000</del> ) \$3,500,000
<del>(Port of Columbia county</del>	<del>\$2,500,000</del> ) \$0
Port of Sunnyside	\$750,000
<u>A public subdivision working with the DeRuyter Farms anaerobic digester project</u>	<u>\$1,973,000</u>
Total	( <del>\$10,250,000</del> ) <u>\$10,502,000</u>

- (3) All agreements negotiated between the political subdivision and the bioenergy industry for use of the oilseed crushers, supporting infrastructure, or facilities funded in this section must provide for at least a fifty percent match by the industry partner. The industry match may include, but is not limited to, investments in rail, buildings, refining capacity, or seed stock.
- (4) All other project funds must be disbursed prior to energy freedom loans, except where required on a matching basis by other federal or state programs.
- (5) The department shall disburse loans to the political subdivision on a reimbursement basis only.
- (6) The department may defer loan repayment for up to twenty-four months or until the projects start to receive revenue from operations, whichever is sooner.
- (7) Upon written notice to the political subdivision, the department may suspend or cancel its loans if any of the following occur:
  - (a) The political subdivision fails to make satisfactory and reasonable progress to complete the project, or the department concludes the political subdivision will be unable to complete the project or any portion of it; or
  - (b) The political subdivision or bioenergy industry partners have made misrepresentations in any information furnished to the department or the legislature in connection with the project.
- (8) In the event that any portion of the loan has been paid to the political subdivision under this section at the time of breach, or failure of the political subdivision to satisfactorily perform, the department may require that the full amount of the loan, or a portion thereof, be repaid within a period specified by the department.
- (9) Future loan repayments shall be deposited into the energy freedom account created in section 6, chapter . . . (Engrossed Third Substitute House Bill No. 2939), Laws of 2006.
- (10) It is the intent of the legislature to provide loans for the development of a Washington state biodiesel industry based on Washington grown oilseed. The legislature is aware that in the development of this industry, the start-up process may necessitate the use of other oilseeds until Washington state growers plant sufficient crops to support this industry. The legislature also understands the realities of weather and market conditions in this process. The conversion to maximum Washington grown oilseed must be accomplished as quickly as possible. The political subdivision shall: (a) Develop a plan for outreach to local growers and an estimate of when maximum Washington state oilseed-based production will be reached; (b) develop a goal for the political subdivision to return a portion of the biofuel to local oilseed producers; and (c) report this information to the department of agriculture by December 1, 2006. The department shall report on the implementation of this section by January 1, 2007, to the appropriate committees of the legislature.
- (11) If chapter . . . (House Bill No. 1303/Senate Bill No. 5586 (cleaner energy)), Laws of 2007 is enacted, then the amounts in this section are appropriated to the department of community, trade, and economic development.

Totem Electric*, 157 Wn.2d 214, 137 P.3d 844 (2006), failed to recognize that the Law Against Discrimination affords to state residents protections that are wholly independent of those afforded by the federal Americans with Disabilities Act of 1990, and that the law against discrimination has provided such protections for many years prior to passage of the federal act.

#### SECOND READING

**SECOND SUBSTITUTE SENATE BILL NO. 5790, by Senate Committee on Ways & Means (originally sponsored by Senators Hobbs, Rockefeller, Rasmussen, Fairley, McAuliffe, Kohl-Welles, Pridemore, Hatfield, Clements, Jacobsen and Shin)**

#### Regarding skill centers.

The bill was read the second time.

Representative Quall moved the adoption of amendment (874):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that student access to programs offered at skill centers can help prepare them for careers, apprenticeships, and postsecondary education. The legislature further finds that current limits on how school districts and skill centers report full-time equivalent students and the time students are served provide a disincentive for school districts to send their students to skill centers. The legislature further finds that there are barriers to providing access to students in rural and remote areas but

that there are opportunities to do so with satellite and branch campus programs, distance and online learning programs, and collaboration with higher education, business, and labor. The legislature further finds that skill centers provide opportunities for dropout prevention and retrieval programs by offering programs that accommodate students' work schedules and provide credit retrieval opportunities. The legislature further finds that implementing the recommendations from the study by the workforce training and education coordinating board will enhance skill center programs and student access to those programs.

**NEW SECTION. Sec. 2.** A skill center is a regional career and technical education partnership established to provide access to comprehensive industry-defined career and technical programs of study that prepare students for careers, employment, apprenticeships, and postsecondary education. A skill center is operated by a host school district and governed by an administrative council in accordance with a cooperative agreement.

**NEW SECTION. Sec. 3.** Beginning in the 2007-08 school year and thereafter, students attending skill centers shall be funded for all classes at the skill center and the sending districts, up to one and six-tenths full-time equivalents or as determined in the omnibus appropriations act. The office of the superintendent of public instruction shall develop procedures to ensure that the school district and the skill center report no student for more than one and six-tenths full-time equivalent students combining both their high school enrollment and skill center enrollment. Additionally, the office of the superintendent of public instruction shall develop procedures for determining the appropriate share of the full-time equivalent enrollment count between the resident high school and skill center.

**NEW SECTION. Sec. 4.** (1) The office of the superintendent of public instruction shall review and revise the guidelines for skill centers to encourage skill center programs. The superintendent, in cooperation with the workforce training and education coordinating board, skill center directors, and the Washington association for career and technical education, shall review and revise the existing skill centers' policy guidelines and create and adopt rules governing skill centers as follows:

(a) The threshold enrollment at a skill center shall be revised so that a skill center program need not have a minimum of seventy percent of its students enrolled on the skill center core campus in order to facilitate serving rural students through expansion of skill center programs by means of satellite programs or branch campuses;

(b) The developmental planning for branch campuses shall be encouraged. Underserved rural areas or high-density areas may partner with an existing skill center to create satellite programs or a branch campus. Once a branch campus reaches sufficient enrollment to become self-sustaining, it may become a separate skill center or remain an extension of the founding skill center; and

(c) Satellite and branch campus programs shall be encouraged to address high-demand fields.

(2) Rules adopted under this section shall allow for innovative models of satellite and branch campus programs, and such programs shall not be limited to those housed in physical buildings.

(3) The superintendent of public instruction shall develop and deliver a ten-year capital plan for legislative review before implementation.

(4) Subject to available funding, the superintendent shall:

(a) Conduct approved feasibility studies for serving noncooperative rural and high-density area students in their geographic areas; and

(b) Develop a statewide master plan that identifies standards and resources needed to create a technology infrastructure for connecting all skill centers to the K-20 network.

**NEW SECTION. Sec. 5.** Subject to available funding, skill centers shall provide access to late afternoon and evening sessions and summer school programs, to rural and high-density area students aligned with regionally identified high-demand occupations. When possible, the programs shall be specifically targeted for credit retrieval, dropout prevention and intervention for at-risk students, and

retrieval of dropouts. Skill centers that receive funding for these activities must participate in an evaluation that is designed to quantify results and identify best practices, collaborate with local community partners in providing a comprehensive program, and provide matching funds.

**NEW SECTION. Sec. 6.** (1) The superintendent of public instruction shall establish and support skill centers of excellence in key economic sectors of regional significance. The superintendent shall broker the development of skill centers of excellence and identify their roles in developing curriculum and methodologies for reporting skill center course equivalencies for purposes of high school graduation.

(2) Once the skill centers of excellence are established, the superintendent of public instruction shall develop and seek funding for a running start for career and technical education grant program to develop and implement career and technical programs of study targeted to regionally determined high-demand occupations. Grant recipients should be partnerships of skill centers of excellence, community college centers of excellence, tech-prep programs, industry advisory committees, area workforce development councils, and skill panels in the related industry. Grant recipients should be expected to develop and assist in the replication of model career and technical education programs of study. The career and technical education programs of study developed should be consistent with the expectations in the applicable federal law.

**NEW SECTION. Sec. 7.** The superintendent of public instruction shall assign at least one full-time equivalent staff position within the office of the superintendent of public instruction to serve as the director of skill centers.

### COLLOQUY

Representative Hinkle: "Substitute House Bill No. 1098 requires that certain persons be informed when they will be given vaccines with mercury about stated limits. With some exceptions, providers are allowed to use these particular mercury-containing vaccines only during the suspension period, and during the suspension period they must inform a pregnant or lactating patient who is to be vaccinated, or inform the parent when the patient to be vaccinated is a minor."

#### Creating additional safeguards for child care.

Representative Kagi moved the adoption of amendment (879):

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 43.215.005 and 2006 c 265 s 101 are each amended to read as follows:

(1) The legislature recognizes that:

(a) Parents are their children's first and most important teachers and decision makers;

(b) Research across disciplines now demonstrates that what happens in the earliest years makes a critical difference in children's readiness to succeed in school and life;

(c) Washington's competitiveness in the global economy requires a world-class education system that starts early and supports life-long learning;

(d) Washington state currently makes substantial investments in voluntary child care and early learning services and supports, but because services are fragmented across multiple state agencies, and early learning providers lack the supports and incentives needed to improve the quality of services they provide, many parents have difficulty accessing high quality early learning services;

(e) A more cohesive and integrated voluntary early learning system would result in greater efficiencies for the state, increased partnership between the state and the private sector, improved access to high quality early learning services, and better employment and early learning outcomes for families and all children.

(2) The legislature finds that the early years of a child's life are critical to the child's healthy brain development and that the quality of caregiving during the early years can significantly impact the child's intellectual, social, and emotional development.

(3) The purpose of this chapter is:

(a) To establish the department of early learning;

(b) To coordinate and consolidate state activities relating to child care and early learning programs;

(c) To safeguard and promote the health, safety, and well-being of children receiving child care and early learning assistance, which is paramount over the right of any person to provide care;

(d) To provide tools to promote the hiring of suitable providers of child care by:

(i) Providing parents with access to information regarding child care providers;

(ii) Providing parents with child care licensing action histories regarding child care providers; and

(iii) Requiring background checks of applicants for employment in any child care facility licensed or regulated under current law;

(e) To promote linkages and alignment between early learning programs and elementary schools and support the transition of children and families from prekindergarten environments to kindergarten;

~~((e))~~ (f) To promote the development of a sufficient number and variety of adequate child care and early learning facilities, both public and private; and

~~((f))~~ (g) To license agencies and to assure the users of such agencies, their parents, the community at large and the agencies themselves that adequate minimum standards are maintained by all child care and early learning facilities.

(4) This chapter does not expand the state's authority to license or regulate activities or programs beyond those licensed or regulated under existing law.

**Sec. 2.** RCW 43.215.010 and 2006 c 265 s 102 are each amended to read as follows:

## MESSAGE FROM THE SENATE

April 10, 2007

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1512 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 43.86A.030 and 2005 c 302 s 2 are each amended to read as follows:

(1) Funds held in public depositaries not as demand deposits as provided in RCW 43.86A.020 and 43.86A.030, shall be available for a time certificate of deposit investment program according to the following formula: The state treasurer shall apportion to all participating depositaries an amount equal to five percent of the three year average mean of general state revenues as certified in accordance with Article VIII, section 1(b) of the state Constitution, or fifty percent of the total surplus treasury investment availability, whichever is less. Within thirty days after certification, those funds determined to be available according to this formula for the time certificate of deposit investment program shall be deposited in qualified public depositaries. These deposits shall be allocated among the participating depositaries on a basis to be determined by the state treasurer.

(2) The state treasurer may use up to one hundred fifty million dollars per year of all funds available under this section for the purposes of RCW 43.86A.060. The amounts made available to these public depositaries shall be equal to the amounts of outstanding loans made under RCW 43.86A.060.

(3) The formula so devised shall be a matter of public record giving consideration to, but not limited to deposits, assets, loans, capital structure, investments or some combination of these factors. However, if in the judgment of the state treasurer the amount of allocation for certificates of deposit as determined by this section will impair the cash flow needs of the state treasury, the state treasurer may adjust the amount of the allocation accordingly.

**Sec. 2.** RCW 43.86A.060 and 2005 c 302 s 3 are each amended to read as follows:

(1) The state treasurer shall establish a linked deposit program for investment of deposits in qualified public depositories. As a condition of participating in the program, qualified public depositories must make qualifying loans as provided in this section. The state treasurer may purchase a certificate of deposit that is equal to the amount of the qualifying loan made by the qualified public depository or may purchase a certificate of deposit that is equal to the aggregate amount of two or more qualifying loans made by one or more qualified public depositories.

(2) Qualifying loans made under this section are those:

(a) Having terms that do not exceed ten years;

(b) Where an individual loan does not exceed one million dollars;

(c) That are made to a minority or women's business enterprise that has received state certification under chapter 39.19 RCW;

(d) Where the interest rate on the loan to the minority or women's business enterprise does not exceed an interest rate that is two hundred basis points below the interest rate the qualified public depository would charge for a loan for a similar purpose and a similar term, except that, if the preference given by the state treasurer to the qualified public depository under subsection (3) of this section is less than two hundred basis points, the qualified public depository may reduce the preference given on the loan by an amount that corresponds to the reduction in preference below two hundred basis points given to the qualified public depository; and

(e) Where the points or fees charged at loan closing do not exceed one percent of the loan amount.

(3) In setting interest rates of time certificate of deposits, the state treasurer shall offer rates so that a two hundred basis point preference will be given to the qualified public depository, except that the treasurer shall lower the amount of the preference to ensure that the effective interest rate on the time certificate of deposit is not less than two percent.

(4) Upon notification by the state treasurer that a minority or women's business enterprise is no longer certified under chapter 39.19 RCW, the qualified public depository shall reduce the amount of qualifying loans by the outstanding balance of the loan made under this section to the minority or women's business enterprise.

(5) The office of minority and women's business enterprises has the authority to adopt rules to:

(a) Ensure that when making a qualified loan under the linked deposit program, businesses that have never received a loan under the linked deposit program are given first priority;

(b) Limit the total principal loan amount that any one business receives in qualified loans under the linked deposit program over the lifetime of the businesses;

(c) Limit the total principal loan amount that an owner of one or more businesses receives in qualified loans under the linked deposit program during the owner's lifetime; and

(d) Limit the total amount of any one qualified loan made under the linked deposit program.

**NEW SECTION. Sec. 3.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2007, in the omnibus appropriations act, this act is null and void."

On page 1, line 1 of the title, after "program;" strike the remainder of the title and insert "amending RCW 43.86A.030 and 43.86A.060; and creating a new section."

and the same is herewith transmitted.

(1) By August 1, 2003, each school district shall adopt or amend if necessary a policy, within the scope of its authority, that prohibits the harassment, intimidation, or bullying of any student. It is the responsibility of each school district to share this policy with parents or guardians, students, volunteers, and school employees.

(2) "Harassment, intimidation, or bullying" means any intentional electronic, written, verbal, or physical act, including but not limited to one shown to be motivated by any characteristic in RCW 9A.36.080(3), or other distinguishing characteristics, when the intentional electronic, written, verbal, or physical act:

(b) Has the effect of substantially interfering with a student's education; or

(c) Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment; or

(d) Has the effect of substantially disrupting the orderly operation of the school.

Nothing in this section requires the affected student to actually possess a characteristic that is a basis for the harassment, intimidation, or bullying.

(3) The policy should be adopted or amended through a process that includes representation of parents or guardians, school employees, volunteers, students, administrators, and community representatives. It is recommended that each such policy emphasize positive character traits and values, including the importance of civil and respectful speech and conduct, and the responsibility of students to comply with the district's policy prohibiting harassment, intimidation, or bullying.

(4) By August 1, 2002, the superintendent of public instruction, in consultation with representatives of parents, school personnel, and other interested parties, shall provide to school districts and educational service districts a model harassment, intimidation, and bullying prevention policy and training materials on the components that should be included in any district policy. Training materials shall be disseminated in a variety of ways, including workshops and other staff developmental activities, and through the office of the superintendent of public instruction's web site, with a link to the safety center web page. **MESSAGE FROM THE SENATE**

April 17, 2007

Mr. Speaker:

The Senate refused to concur in the House amendment to SECOND SUBSTITUTE SENATE BILL NO. 5470 and asks the House to recede therefrom, and the same is herewith transmitted.

Thomas Hoemann, Secretary

There being no objection, the rules were suspended and SECOND SUBSTITUTE SENATE BILL NO. 5470 was returned to second reading for purpose of amendment.

**SECOND READING**

**SECOND SUBSTITUTE SENATE BILL NO. 5470, by Senate Committee on Ways & Means (originally sponsored by Senators Hargrove, Stevens, McAuliffe, Brown and Regala)**

**Revising provisions concerning dissolution proceedings.**

Representative Lantz moved the adoption of amendment (876):

Strike everything after the enacting clause and insert the following:

**"PART I - Intent**

**Sec. 101.** RCW 26.09.002 and 1987 c 460 s 2 are each amended to read as follows:

Parents have the responsibility to make decisions and perform other parental functions necessary for the care and growth of their minor children. In any proceeding between parents under this chapter, the best interests of the child shall be the standard by which the court determines and allocates the parties' parental responsibilities. The state recognizes the fundamental importance of the parent-child relationship to the welfare of the child, and that the relationship between the child and each parent should be fostered unless inconsistent with the child's best interests. Residential time and financial support are equally important components of parenting arrangements. The best interests of the child are served by a parenting arrangement that best maintains a child's emotional growth, health and stability, and physical care. Further, the best interest of the child is ordinarily served when the existing pattern of interaction between a parent and child is altered only to the extent necessitated by the changed relationship of the parents or as required to protect the child from physical, mental, or emotional harm.

**NEW SECTION. Sec. 102.** A new section is added to chapter 26.09 RCW to read as follows:

The legislature reaffirms the intent of the current law as expressed in RCW 26.09.002. However, after review, the legislature finds that there are certain components of the existing law which do not support the original legislative intent. In order to better implement the existing legislative intent the legislature finds that incentives for parties to reduce family conflict and additional alternative dispute resolution options can assist in reducing the number of contested trials. Furthermore, the legislature finds that the identification of domestic violence as defined in RCW 26.50.010 and the treatment needs of the parties to dissolutions are necessary to improve outcomes for children. When judicial officers have the discretion to tailor individualized resolutions, the legislative intent expressed in RCW 26.09.002 can more readily be achieved. Judicial

officers should have the discretion and flexibility to assess each case based on the merits of the individual cases before them.

**PART II - Family Court Provisions**

**NEW SECTION. Sec. 201.** A new section is added to chapter 26.12 RCW to read as follows:

Unless the parent rebuts the presumption, the court shall restrain the parent from contact with the parent's child except for contact that occurs outside of the convicted or adjudicated person's presence:

(i) RCW 9A.64.020 (1) or (2), provided that the person convicted was at least five years older than the other person;

(ii) RCW 9A.44.073;

(iii) RCW 9A.44.076, provided that the person convicted was at least eight years older than the victim;

(iv) RCW 9A.44.079, provided that the person convicted was at least eight years older than the victim;

(v) RCW 9A.44.083;

(vi) RCW 9A.44.086, provided that the person convicted was at least eight years older than the victim;

(vii) RCW 9A.44.100;

(viii) Any predecessor or antecedent statute for the offenses listed in (e)(i) through (vii) of this subsection;

(ix) Any statute from any other jurisdiction that describes an offense analogous to the offenses listed in (e)(i) through (vii) of this subsection.

(f) The presumption established in (d) of this subsection may be rebutted only after a written finding that:

(i) If the child was not the victim of the sex offense committed by the parent requesting residential time, (A) contact between the child and the offending parent is appropriate and poses minimal risk to the child, and (B) the offending parent has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes such contact is appropriate and poses minimal risk to the child; or

(ii) If the child was the victim of the sex offense committed by the parent requesting residential time, (A) contact between the child and the offending parent is appropriate and poses minimal risk to the child, (B) if the child is in or has been in therapy for victims of sexual abuse, the child's counselor believes such contact between the child

and the offending parent is in the child's best interest, and (C) the offending parent has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes such contact is appropriate and poses minimal risk to the child.

(g) The presumption established in (e) of this subsection may be rebutted only after a written finding that:

(i) If the child was not the victim of the sex offense committed by the person who is residing with the parent requesting residential time, (A) contact between the child and the parent residing with the convicted or adjudicated person is appropriate and that parent is able to protect the child in the presence of the convicted or adjudicated person, and (B) the convicted or adjudicated person has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes such contact is appropriate and poses minimal risk to the child; or

(ii) If the child was the victim of the sex offense committed by the person who is residing with the parent requesting residential time, (A) contact between the child and the parent in the presence of the convicted or adjudicated person is appropriate and poses minimal risk to the child, (B) if the child is in or has been in therapy for victims of sexual abuse, the child's counselor believes such contact between the child and the parent residing with the convicted or adjudicated person in the presence of the convicted or adjudicated person is in the child's best interest, and (C) the convicted or adjudicated person has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes contact between the parent and child in the presence of the convicted or adjudicated person is appropriate and poses minimal risk to the child.

(h) If the court finds that the parent has met the burden of rebutting the presumption under (f) of this subsection, the court may allow a parent who has been convicted as an adult of a sex offense listed in (d)(i) through (ix) of this subsection to have residential time with the child supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such residential time. The court shall not approve of a supervisor for contact between the child and the parent unless the court finds, based on the evidence, that the supervisor is willing and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child.

(i) If the court finds that the parent has met the burden of rebutting the presumption under (g) of this subsection, the court may allow a parent residing with a person who has been adjudicated as a juvenile of a sex offense listed in (e)(i) through (ix) of this subsection to have residential time with the child in the presence of the person adjudicated as a juvenile, supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such residential time. The court shall not approve of a supervisor for contact between the child and the parent unless the court finds, based on the evidence, that the supervisor is willing and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child.

(j) If the court finds that the parent has met the burden of rebutting the presumption under (g) of this subsection, the court may allow a parent residing with a person who, as an adult, has been convicted of a sex offense listed in (e)(i) through (ix) of this subsection to have residential time with the child in the presence of the convicted person supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such residential time. The court shall not approve of a supervisor for contact between the child and the parent unless the court finds, based on the evidence, that the supervisor is willing and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child.

(k) A court shall not order unsupervised contact between the offending parent and a child of the offending parent who was sexually abused by that parent. A court may order unsupervised contact between the offending parent and a child who was not sexually abused by the parent after the presumption under (d) of this subsection has been rebutted and supervised residential time has occurred for at least two years with no further arrests or convictions of sex offenses involving children under chapter 9A.44 RCW, RCW 9A.64.020, or chapter 9.68A RCW and (i) the sex offense of the offending parent was not committed against a child of the offending parent, and (ii) the court finds that unsupervised contact between the child and the offending parent is appropriate and poses minimal risk to the child, after consideration of the testimony of a state-certified therapist, mental health counselor, or social worker with expertise in treating child sexual abuse victims who has supervised at least one period of residential time between the parent and the child, and after consideration of evidence of the offending parent's compliance with community supervision requirements, if any. If the offending parent was not ordered by a court to participate in treatment for sex offenders, then the parent shall obtain a psychosexual evaluation conducted by a certified sex offender treatment provider or a certified affiliate sex offender treatment provider indicating that the offender has the lowest likelihood of risk to reoffend before the court grants unsupervised contact between the parent and a child.

(l) A court may order unsupervised contact between the parent and a child which may occur in the presence of a juvenile adjudicated of a sex offense listed in (e)(i) through (ix) of this subsection who resides with the parent after the presumption under (e) of this subsection has been rebutted and supervised residential time has occurred for at least two years during which time the adjudicated juvenile has had no further arrests, adjudications, or convictions of sex offenses involving children under chapter 9A.44 RCW, RCW 9A.64.020, or chapter 9.68A RCW, and (i) the court finds that unsupervised contact between the child and the parent that may occur in the presence of the adjudicated juvenile is appropriate and poses minimal risk to the child, after consideration of the testimony of a state-certified therapist, mental health counselor, or social worker with expertise in treatment of child sexual abuse victims who has supervised at least one period of residential time between the parent and the child in the presence of the adjudicated juvenile, and after consideration of evidence of the adjudicated juvenile's compliance with community supervision or parole requirements, if any. If the adjudicated juvenile was not ordered by a court to participate in treatment for sex offenders, then the adjudicated juvenile shall obtain a psychosexual evaluation conducted by a certified sex offender treatment provider or a certified affiliate sex offender treatment provider indicating that the adjudicated juvenile has the lowest likelihood of risk to reoffend before the court grants unsupervised contact between the parent and a child which may occur in the presence of the adjudicated juvenile who is residing with the parent.

(m)(i) The limitations imposed by the court under (a) or (b) of this subsection shall be reasonably calculated to protect the child from the physical, sexual, or emotional abuse or harm that could result if the child has contact with the parent requesting residential time. The limitations shall also be reasonably calculated to provide for the safety of the parent who may be at risk of physical, sexual, or emotional abuse or harm that could result if the parent has contact with the parent requesting residential time. The limitations the court may impose include, but are not limited to: Supervised contact between the child and the parent or completion of relevant counseling or treatment. If the court expressly finds based on the evidence that limitations on the residential time with the child will not adequately protect the child from the harm or abuse that could result if the child has contact with the parent requesting residential time, the court shall restrain the parent requesting residential time from all contact with the child.

(ii) The court shall not enter an order under (a) of this subsection allowing a parent to have contact with a child if the parent has been found by clear and convincing evidence in a civil action or by a preponderance of the evidence in a dependency action to have sexually abused the child, except upon recommendation by an evaluator or therapist for the child that the child is ready for contact with the parent and will not be harmed by the contact. The court

shall not enter an order allowing a parent to have contact with the child in the offender's presence if the parent resides with a person who has been found by clear and convincing evidence in a civil action or by a preponderance of the evidence in a dependency action to have sexually abused a child, unless the court finds that the parent accepts that the person engaged in the harmful conduct and the parent is willing to and capable of protecting the child from harm from the person.

(iii) If the court limits residential time under (a) or (b) of this subsection to require supervised contact between the child and the parent, the court shall not approve of a supervisor for contact between a child and a parent who has engaged in physical, sexual, or a pattern of emotional abuse of the child unless the court finds based upon the evidence that the supervisor accepts that the harmful conduct occurred and is willing to and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing to or capable of protecting the child.

(n) If the court expressly finds based on the evidence that contact between the parent and the child will not cause physical, sexual, or emotional abuse or harm to the child and that the probability that the parent's or other person's harmful or abusive conduct will recur is so remote that it would not be in the child's best interests to apply the limitations of (a), (b), and (m)(i) and (iii) of this subsection, or if the court expressly finds that the parent's conduct did not have an impact on the child, then the court need not apply the limitations of (a), (b), and (m)(i) and (iii) of this subsection. The weight given to the existence of a protection order issued under chapter 26.50 RCW as to domestic violence is within the discretion of the court. This subsection shall not apply when (c), (d), (e), (f), (g), (h), (i), (j), (k), (l), and (m)(ii) of this subsection apply.

(3) A parent's involvement or conduct may have an adverse effect on the child's best interests, and the court may preclude or limit any provisions of the parenting plan, if any of the following factors exist:

(a) A parent's neglect or substantial nonperformance of parenting functions;

(b) A long-term emotional or physical impairment which interferes with the parent's performance of parenting functions as defined in RCW 26.09.004;

(c) A long-term impairment resulting from drug, alcohol, or other substance abuse that interferes with the performance of parenting functions;

(d) The absence or substantial impairment of emotional ties between the parent and the child;

(e) The abusive use of conflict by the parent which creates the danger of serious damage to the child's psychological development;

(f) A parent has withheld from the other parent access to the child for a protracted period without good cause; or

(g) Such other factors or conduct as the court expressly finds adverse to the best interests of the child.

(4) In cases involving allegations of limiting factors under subsection (2)(a)(ii) and (iii) of this section, both parties shall be screened to determine the appropriateness of a comprehensive assessment regarding the impact of the limiting factor on the child and the parties.

(5) In entering a permanent parenting plan, the court shall not draw any presumptions from the provisions of the temporary parenting plan.

~~((5))~~ (6) In determining whether any of the conduct described in this section has occurred, the court shall apply the civil rules of evidence, proof, and procedure.

~~((6))~~ (7) For the purposes of this section, a parent's child means that parent's natural child, adopted child, or stepchild.

**NEW SECTION. Sec. 304.** A new section is added to chapter 26.09 RCW to read as follows:

Before entering a permanent parenting plan, the court shall determine the existence of any information and proceedings relevant to the placement of the child that are available in the judicial information system and databases.

**Sec. 305.** RCW 26.12.177 and 2005 c 282 s 30 are each amended to read as follows:

(1) All guardians ad litem and investigators appointed under this title must comply with the training requirements established under RCW 2.56.030(15), prior to their appointment in cases under Title 26 RCW, except that volunteer guardians ad litem or court-appointed special advocates may comply with alternative training requirements approved by the administrative office of the courts that meet or exceed the statewide requirements. In cases involving allegations of limiting factors under RCW 26.09.191, the guardians ad litem and investigators appointed under this title must have additional relevant training under RCW 2.56.030(15) and as recommended under section 306 of this act, when it is available.

(2)(a) Each guardian ad litem program for compensated guardians ad litem shall establish a rotational registry system for the appointment of guardians ad litem and investigators under this title. If a judicial district does not have a program the court shall establish the rotational registry system. Guardians ad litem and investigators under this title shall be selected from the registry except in exceptional circumstances as determined and documented by the court. The parties may make a joint recommendation for the appointment of a guardian ad litem from the registry.

(b) In judicial districts with a population over one hundred thousand, a list of three names shall be selected from the registry and given to the parties along with the background information as specified in RCW 26.12.175(3), including their hourly rate for services. Each party may, within three judicial days, strike one name from the list. If more than one name remains on the list, the court shall make the appointment from the names on the list. In the event all three names are stricken the person whose name appears next on the registry shall be appointed.

(c) If a party reasonably believes that the appointed guardian ad litem lacks the necessary expertise for the proceeding, charges an hourly rate higher than what is reasonable for the particular proceeding, or has a conflict of interest, the party may, within three judicial days from the appointment, move for substitution of the appointed guardian ad litem by filing a motion with the court.

(d) Under this section, within either registry referred to in (a) of this subsection, a subregistry may be created that consists of guardians ad litem under contract with the department of social and health services' division of child support. Guardians ad litem on such a subregistry shall be selected and appointed in state-initiated paternity cases only.

(e) The superior court shall remove any person from the guardian ad litem registry who misrepresents his or her qualifications pursuant to a grievance procedure established by the court.

(3) The rotational registry system shall not apply to court-appointed special advocate programs.

#### PART IV - Additional Services

**NEW SECTION. Sec. 401.** A new section is added to chapter 26.09 RCW to read as follows:

In order to provide judicial officers with better information and to facilitate decision making which allows for the protection of children from physical, mental, or emotional harm and in order to facilitate consistent healthy contact between both parents and their children:

Counties may, and to the extent state funding is provided therefor counties shall, provide indigent parties with guardian ad litem services at a reduced or waived fee.

(4) Parties may request to participate by telephone or interactive videoconference. The court may allow telephonic or interactive videoconference participation of one or more parties at any proceeding in its discretion. The court may also allow telephonic or interactive videoconference participation of witnesses.

(5) In cases involving domestic violence or child abuse, if residential time is ordered, the court may:

- (a) Order exchange of a child to occur in a protected setting;
- (b) Order residential time supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such residential time. The court shall not approve of a supervisor for contact between the child and the parent unless the supervisor is willing to and capable of protecting the child from harm. The court shall revoke court approval of the supervisor if the court determines, after a hearing, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child. If the court allows a family or household member to supervise residential time, the court shall establish conditions to be followed during residential time.

(6) In cases in which the court finds that the parties do not have a satisfactory history of cooperation or there is a high level of parental conflict, the court may order the parties to use supervised visitation and safe exchange centers or alternative safe locations to facilitate the exercise of residential time.

#### PART V - Mediation

**Sec. 501.** RCW 26.09.015 and 2005 c 172 s 17 are each amended to read as follows:

(1) In any proceeding under this chapter, the matter may be set for mediation of the contested issues before or concurrent with the setting of the matter for hearing. The purpose of the mediation proceeding shall be to reduce acrimony which may exist between the parties and to develop an agreement assuring the child's close and continuing contact with both parents after the marriage is dissolved. The mediator shall use his or her best efforts to effect a settlement of the dispute.

(2)(a) Each superior court may make available a mediator. The court shall use the most cost-effective mediation services that are readily available unless there is good cause to access alternative providers. The mediator may be a member of the professional staff of a family court or mental health services agency, or may be any other person or agency designated by the court. In order to provide mediation services, the court is not required to institute a family court.

(b) In any proceeding involving issues relating to residential time or other matters governed by a parenting plan, the matter may be set for mediation of the contested issues before or concurrent with the setting of the matter for hearing. Counties may, and to the extent state funding is provided therefor counties shall, provide both predecree and postdecree mediation at reduced or waived fee to the parties within one year of the filing of the dissolution petition.

(3)(a) Mediation proceedings under this chapter shall be governed in all respects by chapter 7.07 RCW, except as follows:

(i) Mediation communications in postdecree mediations mandated by a parenting plan are admissible in subsequent proceedings for the limited purpose of proving:

- (A) Abuse, neglect, abandonment, exploitation, or unlawful harassment as defined in RCW 9A.46.020(1), of a child;
- (B) Abuse or unlawful harassment as defined in RCW 9A.46.020(1), of a family or household member as defined in RCW 26.50.010(2); or

(C) That a parent used or frustrated the dispute resolution process without good reason for purposes of RCW 26.09.184(3)(d).

(ii) If a postdecree mediation-arbitration proceeding is required pursuant to a parenting plan and the same person acts as both mediator and arbitrator, mediation communications in the mediation phase of such a proceeding may be admitted during the arbitration phase, and shall be admissible in the judicial review of such a proceeding under RCW 26.09.184(3)(e) to the extent necessary for such review to be effective.

(b) None of the exceptions under (a)(i) and (ii) of this subsection shall subject a mediator to compulsory process to testify except by

court order for good cause shown, taking into consideration the need for the mediator's testimony and the interest in the mediator maintaining an appearance of impartiality. If a mediation communication is not privileged under (a)(i) of this subsection or that portion of (a)(ii) of this subsection pertaining to judicial review, only the portion of the communication necessary for the application of the exception may be admitted, and such admission of evidence shall not render any other mediation communication discoverable or admissible except as may be provided in chapter 7.07 RCW.

(4) The mediator shall assess the needs and interests of the child or children involved in the controversy and may interview the child or children if the mediator deems such interview appropriate or necessary.

(5) Any agreement reached by the parties as a result of mediation shall be reported to the court and to counsel for the parties by the mediator on the day set for mediation or any time thereafter designated by the court.

#### PART VI - Residential Time

**Sec. 601.** RCW 26.09.184 and 1991 c 367 s 7 are each amended to read as follows:

(1) **OBJECTIVES.** The objectives of the permanent parenting plan are to:

(a) Provide for the child's physical care;

(b) Maintain the child's emotional stability;

(c) Provide for the child's changing needs as the child grows and matures, in a way that minimizes the need for future modifications to the permanent parenting plan;

(d) Set forth the authority and responsibilities of each parent with respect to the child, consistent with the criteria in RCW 26.09.187 and 26.09.191;

(e) Minimize the child's exposure to harmful parental conflict;

(f) Encourage the parents, where appropriate under RCW 26.09.187 and 26.09.191, to meet their responsibilities to their minor children through agreements in the permanent parenting plan, rather than by relying on judicial intervention; and

(g) To otherwise protect the best interests of the child consistent with RCW 26.09.002.

(2) **CONTENTS OF THE PERMANENT PARENTING PLAN.**

The permanent parenting plan shall contain provisions for resolution of future disputes between the parents, allocation of decision-making authority, and residential provisions for the child.

(3) **CONSIDERATION IN ESTABLISHING THE PERMANENT PARENTING PLAN.** In establishing a permanent parenting plan, the court may consider the cultural heritage and religious beliefs of a child.

(4) **DISPUTE RESOLUTION.** A process for resolving disputes, other than court action, shall be provided unless precluded or limited by RCW 26.09.187 or 26.09.191. A dispute resolution process may include counseling, mediation, or arbitration by a specified individual or agency, or court action. In the dispute resolution process:

(a) Preference shall be given to carrying out the parenting plan;

(b) The parents shall use the designated process to resolve disputes relating to implementation of the plan, except those related to financial support, unless an emergency exists;

(c) A written record shall be prepared of any agreement reached in counseling or mediation and of each arbitration award and shall be provided to each party;

(d) If the court finds that a parent has used or frustrated the dispute resolution process without good reason, the court shall award attorneys' fees and financial sanctions to the prevailing parent;

(e) The parties have the right of review from the dispute resolution process to the superior court; and

(f) The provisions of (a) through (e) of this subsection shall be set forth in the decree.

~~((4))~~ (5) **ALLOCATION OF DECISION-MAKING AUTHORITY.**

(a) The plan shall allocate decision-making authority to one or both parties regarding the children's education, health care, and religious upbringing. The parties may incorporate an agreement related to the care and growth of the child in these specified areas, or in other areas, into their plan, consistent with the criteria in RCW

26.09.187 and 26.09.191. Regardless of the allocation of decision-making in the parenting plan, either parent may make emergency decisions affecting the health or safety of the child.

(b) Each parent may make decisions regarding the day-to-day care and control of the child while the child is residing with that parent.

(c) When mutual decision making is designated but cannot be achieved, the parties shall make a good-faith effort to resolve the issue through the dispute resolution process.

~~((5))~~ (6) **RESIDENTIAL PROVISIONS FOR THE CHILD.** The plan shall include a residential schedule which designates in which parent's home each minor child shall reside on given days of the year, including provision for holidays, birthdays of family members, vacations, and other special occasions, consistent with the criteria in RCW 26.09.187 and 26.09.191.

~~((6))~~ (7) **PARENTS' OBLIGATION UNAFFECTED.** If a parent fails to comply with a provision of a parenting plan or a child support order, the other parent's obligations under the parenting plan or the child support order are not affected. Failure to comply with a provision in a parenting plan or a child support order may result in a finding of contempt of court, under RCW 26.09.160.

~~((7))~~ (8) **PROVISIONS TO BE SET FORTH IN PERMANENT PARENTING PLAN.** The permanent parenting plan shall set forth the provisions of subsections ~~((3))~~ (4)(a) through (c), ~~((4))~~ (5)(b) and (c), and ~~((6))~~ (7) of this section.

**Sec. 602.** RCW 26.09.015 and 2005 c 172 s 17 are each amended to read as follows:

(1) In any proceeding under this chapter, the matter may be set for mediation of the contested issues before or concurrent with the setting of the matter for hearing. The purpose of the mediation proceeding shall be to reduce acrimony which may exist between the parties and to develop an agreement assuring the child's close and continuing contact with both parents after the marriage is dissolved. The mediator shall use his or her best efforts to effect a settlement of the dispute.

(2) Each superior court may make available a mediator. The mediator may be a member of the professional staff of a family court or mental health services agency, or may be any other person or agency designated by the court. In order to provide mediation services, the court is not required to institute a family court.

(3)(a) Mediation proceedings under this chapter shall be governed in all respects by chapter 7.07 RCW, except as follows:

(i) Mediation communications in postdecree mediations mandated by a parenting plan are admissible in subsequent proceedings for the limited purpose of proving:

(A) Abuse, neglect, abandonment, exploitation, or unlawful harassment as defined in RCW 9A.46.020(1), of a child;

(B) Abuse or unlawful harassment as defined in RCW 9A.46.020(1), of a family or household member as defined in RCW 26.50.010(2); or

(C) That a parent used or frustrated the dispute resolution process without good reason for purposes of RCW 26.09.184~~((3))~~ (4)(d).

(ii) If a postdecree mediation-arbitration proceeding is required pursuant to a parenting plan and the same person acts as both mediator and arbitrator, mediation communications in the mediation phase of such a proceeding may be admitted during the arbitration phase, and shall be admissible in the judicial review of such a proceeding under RCW 26.09.184~~((3))~~ (4)(e) to the extent necessary for such review to be effective.

(b) None of the exceptions under (a)(i) and (ii) of this subsection shall subject a mediator to compulsory process to testify except by court order for good cause shown, taking into consideration the need for the mediator's testimony and the interest in the mediator maintaining an appearance of impartiality. If a mediation communication is not privileged under (a)(i) of this subsection or that portion of (a)(ii) of this subsection pertaining to judicial review, only the portion of the communication necessary for the application of the exception may be admitted, and such admission of evidence shall not render any other mediation communication discoverable or admissible except as may be provided in chapter 7.07 RCW.

(4) The mediator shall assess the needs and interests of the child or children involved in the controversy and may interview the child or children if the mediator deems such interview appropriate or necessary.

(5) Any agreement reached by the parties as a result of mediation shall be reported to the court and to counsel for the parties by the mediator on the day set for mediation or any time thereafter designated by the court.

**Sec. 603.** RCW 26.09.187 and 1989 c 375 s 10 are each amended to read as follows:

(1) DISPUTE RESOLUTION PROCESS. The court shall not order a dispute resolution process, except court action, when it finds that any limiting factor under RCW 26.09.191 applies, or when it finds that either parent is unable to afford the cost of the proposed dispute resolution process. If a dispute resolution process is not precluded or limited, then in designating such a process the court shall consider all relevant factors, including:

(a) Differences between the parents that would substantially inhibit their effective participation in any designated process;

(b) The parents' wishes or agreements and, if the parents have entered into agreements, whether the agreements were made knowingly and voluntarily; and

(c) Differences in the parents' financial circumstances that may affect their ability to participate fully in a given dispute resolution process.

(2) ALLOCATION OF DECISION-MAKING AUTHORITY.

(a) AGREEMENTS BETWEEN THE PARTIES. The court shall approve agreements of the parties allocating decision-making authority, or specifying rules in the areas listed in RCW 26.09.184((~~+~~)) (5)(a), when it finds that:

(i) The agreement is consistent with any limitations on a parent's decision-making authority mandated by RCW 26.09.191; and

(ii) The agreement is knowing and voluntary.

(b) SOLE DECISION-MAKING AUTHORITY. The court shall order sole decision-making to one parent when it finds that:

(i) A limitation on the other parent's decision-making authority is mandated by RCW 26.09.191;

(ii) Both parents are opposed to mutual decision making;

(iii) One parent is opposed to mutual decision making, and such opposition is reasonable based on the criteria in (c) of this subsection;

(c) MUTUAL DECISION-MAKING AUTHORITY. Except as provided in (a) and (b) of this subsection, the court shall consider the following criteria in allocating decision-making authority:

(i) The existence of a limitation under RCW 26.09.191;

(ii) The history of participation of each parent in decision making in each of the areas in RCW 26.09.184((~~+~~)) (5)(a);

(iii) Whether the parents have a demonstrated ability and desire to cooperate with one another in decision making in each of the areas in RCW 26.09.184((~~+~~)) (5)(a); and

(iv) The parents' geographic proximity to one another, to the extent that it affects their ability to make timely mutual decisions.

(3) RESIDENTIAL PROVISIONS.

(a) The court shall make residential provisions for each child which encourage each parent to maintain a loving, stable, and nurturing relationship with the child, consistent with the child's developmental level and the family's social and economic circumstances. The child's residential schedule shall be consistent with RCW 26.09.191. Where the limitations of RCW 26.09.191 are not dispositive of the child's residential schedule, the court shall consider the following factors:

(i) The relative strength, nature, and stability of the child's relationship with each parent(~~(, including whether a parent has taken greater responsibility for performing parenting functions relating to the daily needs of the child));~~

(ii) The agreements of the parties, provided they were entered into knowingly and voluntarily;

(iii) Each parent's past and potential for future performance of parenting functions as defined in RCW 26.09.004(3), including whether a parent has taken greater responsibility for performing parenting functions relating to the daily needs of the child;

(iv) The emotional needs and developmental level of the child;

(v) The child's relationship with siblings and with other significant adults, as well as the child's involvement with his or her physical surroundings, school, or other significant activities;

(vi) The wishes of the parents and the wishes of a child who is sufficiently mature to express reasoned and independent preferences as to his or her residential schedule; and

(vii) Each parent's employment schedule, and shall make accommodations consistent with those schedules.

Factor (i) shall be given the greatest weight.

(b) ~~Where the limitations of RCW 26.09.191 are not dispositive, the court may order that a child frequently alternate his or her residence between the households of the parents for brief and substantially equal intervals of time ((only if the court finds the following:~~

~~(i) No limitation exists under RCW 26.09.191;~~

~~(ii)(A) The parties have agreed to such provisions and the agreement was knowingly and voluntarily entered into; or~~

~~(B) The parties have a satisfactory history of cooperation and shared performance of parenting functions; the parties are available to each other, especially in geographic proximity, to the extent necessary to ensure their ability to share performance of the parenting functions; and~~

~~(iii) The provisions are in the best interests of the child)) if such provision is in the best interests of the child. In determining whether such an arrangement is in the best interests of the child, the court may consider the parties geographic proximity to the extent necessary to ensure the ability to share performance of the parenting functions.~~

(c) For any child, residential provisions may contain any reasonable terms or conditions that facilitate the orderly and meaningful exercise of residential time by a parent, including but not limited to requirements of reasonable notice when residential time will not occur.

**Sec. 604.** RCW 26.09.197 and 1987 c 460 s 14 are each amended to read as follows:

After considering the affidavit required by RCW 26.09.194(1) and other relevant evidence presented, the court shall make a temporary parenting plan that is in the best interest of the child. In making this determination, the court shall give particular consideration to:

(1) ~~((Which parent has taken greater responsibility during the last twelve months for performing parenting functions relating to the daily needs of the child))~~ The relative strength, nature, and stability of the child's relationship with each parent; and

(2) Which parenting arrangements will cause the least disruption to the child's emotional stability while the action is pending.

The court shall also consider the factors used to determine residential provisions in the permanent parenting plan.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28A.415 RCW to read as follows:

**MATH, SCIENCE, AND TARGETED SECONDARY READING INITIATIVE.** Sections 3 through 6 of this act represent core components of a comprehensive initiative to improve mathematics, science, and targeted secondary reading education and achievement through educator professional development and support. The initiative focuses on:

(1) A regional delivery system to provide professional development and support to schools and school districts through the educational service districts;

(2) A tiered support system that provides resources, services, assistance, and intervention for schools and districts, depending on their levels of need;

(3) Leveraging existing public and private resources and district-initiated activities; and

(4) Accountability through outcome-oriented performance agreements, contracts, reporting, and data collection.

**NEW SECTION. Sec. 4.** A new section is added to chapter 28A.415 RCW to read as follows:

**MATH, SCIENCE, AND TARGETED SECONDARY READING INITIATIVE.** (1) Subject to funds appropriated for this purpose, the mathematics, science, and targeted secondary reading improvement initiative shall provide the capacity and resources for the superintendent of public instruction, educational service districts, school districts, and schools to conduct a broad range of activities, depending on the level of need and priority of the school or district. The focus of the initiative is on building and enhancing the quality of mathematics and science instruction.

(2) Activities supported by the initiative include, but are not limited to:

(a) Targeted professional development in content knowledge, content-specific pedagogy, differentiated instruction, effective teaching strategies, learning modules, and mathematics and science standards and curriculum;

(b) Use and analysis of diagnostic assessments and other data on student achievement to improve instruction;

(c) Curriculum alignment and development or purchase of supplemental materials;

(d) Integration of technology; and

(e) Mentors and instructional coaches.

**NEW SECTION. Sec. 5.** A new section is added to chapter 28A.415 RCW to read as follows:

**MATH, SCIENCE, AND TARGETED SECONDARY READING INITIATIVE.** (1) In support of the mathematics, science, and targeted secondary reading improvement initiative, the office of the superintendent of public instruction shall:

(a) In collaboration with the educational service districts, develop a methodology for distributing funds appropriated for activities under the tiered support system in this section among the educational service districts and among the three tiers of support. The methodology shall take into account the anticipated demand and need for services by school districts in each tier and the size of those school districts. The methodology shall also reflect a higher priority and greater need for support and resources for schools and districts in tier three;

(b) Develop guidelines for educational service districts in administering grants, developing district improvement agreements, and implementing intensive intervention and support services. The guidelines shall not require all educational service districts to follow the same procedures in all circumstances, but shall ensure general equity for school districts across the state in how the districts may access resources under the initiative and the activities and services that are provided by the educational service districts;

(c) Identify the schools and school districts eligible for tier three intensive intervention and support, based on low student performance in mathematics and science. The superintendent shall consider whether the school has the capacity to feasibly integrate additional resources with any existing state or federal improvement funds. To the maximum extent possible, the identification of and the intensive intervention services provided to tier three schools and districts shall

align with the accountability plan developed by the state board of education; and

(d) In collaboration with the educational service districts, develop guidelines and a common reporting format for collecting data and information about the activities and outcomes under the initiative and designate one or more common diagnostic assessments for districts to use in reporting and monitoring student achievement.

(2)(a) If funds are appropriated, resources for the mathematics, science, and targeted secondary reading improvement initiative shall be provided through the office of the superintendent of public instruction and educational service districts to schools and school districts based on a tiered support system. The legislature's intent is that resources from the mathematics, science, and targeted secondary reading improvement initiative are provided over a four-year period.

(b) Tier one: Initiative grants. School districts may apply on a competitive basis to their educational service district for grants to support activities to improve mathematics, science, and secondary reading instruction. A district may contract with the educational service district for services, use the grant for district-initiated activities, or both. Tier one districts must demonstrate how district resources and resources from public-private partnerships shall be used to leverage the grant funds. Tier one grant recipients must identify measurable outcomes from the activities supported by the grant and report results in a prescribed format, including student achievement data from designated diagnostic assessments.

(c) Tier two: Improvement agreements. School districts may work with the office of the superintendent of public instruction and educational service districts to plan, develop, and implement a mathematics, science, and targeted secondary reading improvement initiative tailored to the needs of the district. The office of the superintendent of public instruction, the educational service district, and the school district shall develop a joint agreement that identifies the services and support to be provided by the educational service district, the activities to be conducted by the district using improvement agreement funds, and the expected measurable outcomes from the activities. Recipients of funds under a tier two improvement agreement must report results of the activities supported by the agreement in a prescribed format, including student achievement data from designated diagnostic assessments.

(d) Tier three: Intensive intervention and support. School districts and schools with low student performance in mathematics, science, and/or secondary reading as identified by the superintendent of public instruction under subsection (1) of this section are eligible for intensive intervention and support coordinated by the office of the superintendent of public instruction and/or the educational service district. School districts or individual schools may receive tier three support. Recipients of funds under tier three support must:

(i) Participate in an audit of the mathematics, science, and secondary reading instructional delivery system, including policies and practices, curriculum alignment, teacher pedagogy and content knowledge, and assessment of overall climate and practice compared to best practices;

(ii) Develop, with assistance from the educational service district, a school or district intervention plan that focuses on areas of highest need and provides intensive professional development in those areas;

(iii) Participate in professional development using the services of a technical assistance team that includes a trained and experienced facilitator and mathematics, science, or reading instructional coaches to provide job-embedded professional development; and

(iv) Identify measurable outcomes from the activities supported by the grant and report results in a prescribed format, including student achievement data from designated diagnostic assessments.

**NEW SECTION. Sec. 6.** A new section is added to chapter 28A.415 RCW to read as follows:

**MATH, SCIENCE, AND TARGETED SECONDARY READING INITIATIVE.** (1) Educational service districts shall coordinate with the superintendent of public instruction to develop and maintain the capacity to provide administrative, professional development, technical assistance, and intervention services under the mathematics, science, and targeted secondary reading

improvement initiative to support school districts as required under section 5 of this act, including:

(a) Administering, reviewing, and monitoring grants for tier one grant recipients and providing contracted services;

(b) Developing, administering, and monitoring tier two improvement agreements and providing support and services under the terms of the agreements; and

(c) Coordinating and providing the intensive intervention and support for tier three schools and districts, including the instructional audit, intervention plan, and intervention team.

(2) Educational service districts shall also:

(a) Develop public-private partnerships and seek external grants and funds to leverage the state resources provided to support the mathematics and science improvement initiative;

The partnerships shall:

(a) Support school districts by providing professional development leadership, courses, and consultation services to school districts in their implementation of professional development activities, including the activities described in sections 3 through 6 and section 9 of this act; and

(b) Support one another in the delivery of state-level and regional-level professional development activities such as state conferences and regional accountability institutes; and

(2) Enter into a performance agreement with each educational service district to clearly articulate partner responsibilities and assure fidelity for the delivery of professional development initiatives including job-embedded practices. Components of such performance agreements shall include:

(a) Participation in the development of various professional development workshops, programs, and activities;

(b) Characteristics and qualifications of professional development staff supported by the program;

The legislature intends to clarify the law on medical marijuana so that the lawful use of this substance is not impaired and medical practitioners are able to exercise their best professional judgment in the delivery of medical treatment, qualifying patients may fully participate in the medical use of marijuana, and designated providers may assist patients in the manner provided by this act without fear of state criminal prosecution. This act is also intended to provide clarification to law enforcement and to all participants in the judicial system.

Sec. 2. RCW 69.51A.005 and 1999 c 2 s 2 are each amended to read as follows:

The people of Washington state find that some patients with terminal or debilitating illnesses, under their physician's care, may benefit from the medical use of marijuana. Some of the illnesses for which marijuana appears to be beneficial include chemotherapy-related nausea and vomiting in cancer patients; AIDS wasting syndrome; severe muscle spasms associated with multiple sclerosis and other spasticity disorders; epilepsy; acute or chronic glaucoma; and some forms of intractable pain.

The people find that humanitarian compassion necessitates that the decision to authorize the medical use of marijuana by patients with terminal or debilitating illnesses is a personal, individual decision, based upon their physician's professional medical judgment and discretion.

Therefore, the people of the state of Washington intend that:

Qualifying patients with terminal or debilitating illnesses who, in the judgment of their physicians, ~~((would))~~ may benefit from the medical use of marijuana, shall not be found guilty of a crime under state law for their possession and limited use of marijuana;

Persons who act as ~~((primary caregivers))~~ designated providers to such patients shall also not be found guilty of a crime under state law for assisting with the medical use of marijuana; and

Physicians also be excepted from liability and prosecution for the authorization of marijuana use to qualifying patients for whom, in the physician's professional judgment, medical marijuana may prove beneficial.

<b>TOTAL APPROPRIATION. . . . .</b>	<b>\$229,022,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1)(a) The entire appropriations in this section are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2007-1, Rail Capital Program (Y) as developed March 30, 2007. **NEW SECTION. Sec. 602. INFORMATION SYSTEMS PROJECTS.** Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;
- (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- (e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

Unless otherwise provided in this act, the director of financial management may authorize a transfer of spending allocation within the appropriation provided and between projects funded with transportation 2003 account (nickel account) appropriations, transportation partnership account appropriations, or multimodal transportation account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

Active licensed state pilots may be consulted for the general development of any examinations and evaluation exercises but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination or evaluation development committee it is authorized to pay the members of the committee the same compensation and travel expenses as received by members of the board. Any person who willfully gives advance knowledge of information contained on a pilot examination or other evaluation exercise is guilty of a gross misdemeanor.

(6) Pilots are licensed under this section for a term of five years from and after the date of the issuance of their respective state licenses. Licenses must thereafter be renewed as a matter of course, unless the board withholds the license for good cause. Each pilot shall pay to the

state treasurer an annual license fee (~~of three thousand dollars~~) in an amount set by the board by rule. The fees established under this subsection may be increased in excess of the fiscal growth factor as provided in RCW 43.135.055 through the fiscal year ending June 30, 2009. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or applicant is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a licensed pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims. Willful misrepresentation of such required information by a pilot applicant shall result in disqualification of the pilot applicant.

	<u>\$47,317,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) In order to qualify for state planning funds available to regional transportation planning organizations under this section, a regional transportation planning organization containing any county with a population in excess of one million shall provide voting membership on its executive board to any incorporated principal city of a metropolitan statistical area within the region, as designated by the United States census bureau, and to any incorporated city within the region with a population in excess of eighty thousand as of July 1, 2005. Additionally, a regional transportation planning organization described under this subsection shall conduct a review of its executive board membership criteria to ensure that the criteria appropriately reflects a true and comprehensive representation of the organization's jurisdictions of significance within the region.

(2) \$175,000 of the motor vehicle account--state appropriation is provided to the department in accordance with RCW 46.68.110(2) and 46.68.120(3) and shall be used by the department to support the processing and analysis of the backlog of city and county collision reports by January 2006. If Engrossed Second Substitute House Bill No. 1565 is not enacted by June 30, 2005, the amount provided in this subsection shall lapse.

(4) The department of transportation shall evaluate the number of spaces available for long-haul truck parking relative to current and projected future needs. The department of transportation shall also explore options for augmenting the number of spaces available, including, but not limited to, expanding state-owned rest areas or modifying regulations governing the use of these facilities, utilizing weigh stations and park and ride lots, and encouraging the expansion of the private sector's role. Finally, the department shall explore the utility of coordinating with neighboring states on long-haul truck parking and evaluate methodologies for alleviating any air quality issues relative to the issue. The department must report to the transportation committees of the legislature by December 1, 2005, on the options, strategies, and recommendations for long-haul truck parking.

(5) \$50,000 of the multimodal transportation account--state appropriation is provided solely for evaluating high-speed passenger transportation facilities and services, including rail or magnetic levitation transportation systems, to connect airports as a means to more efficiently utilize airport capacity, as well as connect major population and activity centers. This evaluation shall be coordinated with the airport capacity and facilities market analysis conducted pursuant to Engrossed Substitute Senate Bill No. 5121 and results of the evaluation shall be submitted by July 1, 2007. If Engrossed Substitute Senate Bill No. 5121 is not enacted by June 30, 2005, or if federal funds are not received by March 1, 2006, for the purpose of implementing Engrossed Substitute Senate Bill No. 5121, the amount provided in this subsection shall lapse.

(7) The department shall conduct a study of the resources allocated to each of the seven department regions and the corresponding workloads. (8) \$750,000 of the multimodal transportation account--state appropriation is provided solely for implementing Engrossed Substitute House Bill No. 2871. If Engrossed Substitute House Bill No. 2871 is not enacted by June 30, 2006, the amount provided in this subsection shall lapse. The regional transportation commission's duties to develop, complete, and submit a governance proposal to the 2007 legislature are highly time sensitive. As a result, the legislature finds that competitive bidding is not cost-effective or appropriate for personal service contracts entered into by the commission, and that the director of the office of financial management should, by the director's authority under RCW 39.29.011(5), exempt any such personal service contract from the competitive bidding requirements of chapter 39.29 RCW.

(9) \$2,300,000 of the transportation partnership account--state appropriation is provided solely for the costs of the regional transportation investment district (RTID) and department of transportation project oversight. These funds are provided as a loan to the RTID and shall be repaid to the state motor vehicle account within one year following the certification of the election results related to the RTID.

(10) \$100,000 of the motor vehicle account--state appropriation is provided solely to the department in accordance with RCW 46.68.110(2) and 46.68.120(3) and shall be used by the department solely to conduct an analysis of expanding the transportation concurrency requirements prescribed under the growth management act, chapter 36.70A RCW, to include development impacts on level of service standards applicable to state-owned transportation facilities, including state highways and state ferry routes. The objective of the analysis is to determine how to ensure that jurisdictional divisions do not defeat growth management act concurrency goals. The department shall convene a committee to oversee the analysis, with the committee comprised of, at a minimum, four members of the transportation committees of the legislature, four members of the appropriate land use committees of the legislature, and one member each from the association of Washington cities and the Washington state association of counties, or a designee thereof. ~~((+7))~~ (16) The legislature recognizes that the finance and project implementation planning processes required for the Alaskan Way viaduct and Seattle Seawall replacement project and the SR 520 bridge replacement and HOV project cannot guarantee appropriate decisions unless key study assumptions are reasonable with respect to each project.

(a) The expert review panel shall consist of five to ten members who are recognized experts in relevant fields, such as planning, engineering, finance, law, the environment, emerging transportation technologies, geography, and economics.

(ii) Review the project implementation plan covering all state and local permitting and mitigation approvals that ensure the most expeditious and cost-effective delivery of the project; and

(iii) Report its findings and recommendations on the items described in (d)(i) and (ii) of this subsection to the joint transportation committee, the office of financial management, and the governor no later than September 1, 2006.

(e) Upon receipt of the expert review panel's findings and recommendations under (d)(iii) of this subsection, the governor must make a finding of whether each finance plan is feasible and sufficient to complete the project as described in the draft environmental impact statement.

(f) Nothing in this section shall be interpreted to delay construction of any of the projects referenced in this subsection.

~~((+8))~~ (17)(a) Prior to commencing construction on either project, the department of transportation must complete all of the following requirements for both the Alaskan Way viaduct and Seattle Seawall replacement project, and the state route number 520 bridge replacement and HOV project: (i) In accordance with the national environmental policy act, the department must designate the preferred alternative, prepare a substantial project mitigation plan, and complete a comprehensive cost estimate review using the department's cost estimate validation process, for each project; (ii) in accordance with all applicable federal highway administration planning and project management requirements, the department must prepare a project finance plan for each project that clearly identifies secured and anticipated fund sources, cash flow timing

(b) The requirements of this subsection shall not apply to (i) utility relocation work, and related activities, on the Alaskan Way viaduct and Seattle Seawall replacement project and (ii) off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project.

(1) To manage some projects more efficiently, federal funds may be transferred from program Z to programs I and P and state funds shall be transferred from programs I and P to program Z to replace those federal funds in a dollar-for-dollar match. Fund transfers authorized under this subsection shall not affect project prioritization status. Appropriations shall initially be allotted as appropriated in this act. The department may not transfer funds as authorized under this subsection without approval of the office of financial management. The department shall submit a report on those projects receiving fund transfers to the transportation committees of the senate and house of representatives by December 1, 2006.

Any project that has been awarded traffic and pedestrian safety improvement grant funds, but does not report activity on the project within one year of grant award should be reviewed by the department to determine whether the grant should be terminated. The department must promptly close out grants when projects have been completed, and identify where unused grant funds remain because actual project costs were lower than estimated in the grant award. The department shall expeditiously extend new grant awards to qualified projects when funds become available either because grant awards have been rescinded for lack of sufficient project activity or because completed projects returned excess grant funds upon project closeout.

(6) The motor vehicle account--state appropriation includes up to \$905,000 in unexpended proceeds from the sale of bonds authorized by RCW 47.10.843.

Mr. Speaker:

The Senate receded from its amendment to SUBSTITUTE HOUSE BILL NO. 1041. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Beginning on page 3, line 19, strike all of section 5 and insert the following:

"**NEW SECTION. Sec. 5.** A new section is added to chapter 23B.10 RCW to read as follows:

(1) Unless the articles of incorporation (a) specifically prohibit the adoption of a bylaw pursuant to this section, (b) alter the vote specified in RCW 23B.07.280(2), or (c) allow for or do not exclude cumulative voting, a public company may elect in its bylaws to be governed in the election of directors as follows:

(i) Each vote entitled to be cast may be voted for, voted against, or withheld for one or more candidates up to that number of candidates that is equal to the number of directors to be elected but without cumulating the votes, or a shareholder may indicate an abstention for one or more candidates;

(ii) To be elected, a candidate must have received the number, percentage, or level of votes specified in the bylaws; provided that holders of shares entitled to vote in the election and constituting a quorum are present at the meeting. Except in a contested election as provided in (c)(v) of this subsection, a candidate who does not receive the number, percentage, or level of votes specified in the bylaws but who was a director at the time of the election shall continue to serve as a director for a term that shall terminate on the date that is the earlier of (A) the date specified in the bylaw, but not

longer than ninety days from the date on which the voting results are determined pursuant to section 6(2) of this act, or (B) the date on which an individual is selected by the board of directors to fill the office held by such director, which selection shall be deemed to constitute the filling of a vacancy by the board to which RCW 23B.08.100 applies;

(iii) A bylaw adopted pursuant to this section may provide that votes cast against and/or withheld as to a candidate are to be taken into account in determining whether the number, percentage, or level of votes required for election has been received. Unless the bylaw specifies otherwise, only votes cast are to be taken into account and a ballot marked "withheld" in respect to a share is deemed to be a vote cast. Unless the bylaws specify otherwise, shares otherwise present at the meeting but for which there is an abstention or as to which no authority or direction to vote in the election is given or specified, are not deemed to be votes cast in the election;

(iv) The board of directors may select any qualified individual to fill the office held by a director who did not receive the specified vote for election referenced in (c)(ii) of this subsection; and

(v) Unless the bylaw specifies otherwise, a bylaw adopted pursuant to this subsection (1) shall not apply to an election of directors by a voting group if (A) at the expiration of the time fixed under a provision requiring advance notification of director candidates, or (B) absent such a provision, at a time fixed by the board of directors which is not more than fourteen days before notice is given of the meeting at which the election is to occur, there are more candidates for election by the voting group than the number of directors to be elected, one or more of whom are properly proposed by shareholders. An individual shall not be considered a candidate for purposes of this subsection (1)(c)(v) if the board of directors determines before the notice of meeting is given that such individual's candidacy does not create a bona fide election contest.

(2) A bylaw containing an election to be governed by this section may be repealed or amended:

(a) If originally adopted by the shareholders, only by the shareholders, unless the bylaw otherwise provides; or

(b) If adopted by the board of directors, by the board of directors or the shareholders."

### MESSAGE FROM THE SENATE

April 18, 2007

Mr. Speaker:

The Senate receded from its amendment to SECOND SUBSTITUTE HOUSE BILL NO. 1573. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** It is the intent of the legislature that increasing academic success and increasing graduation rates be dual goals for the K-12 system. The legislature finds that only seventy-four percent of the class of 2005 graduated on time. Students of color, students living in poverty, students in foster care, students in the juvenile justice system, students who are homeless, students for whom English is not their primary language, and students with disabilities have lower graduation rates than the average. The legislature further finds that students who drop out experience more frequent occurrences of early pregnancy, delinquency, substance abuse, and mental health issues, and have greater need of publicly funded health and social services. The legislature further finds that helping all students be successful in school requires active participation in coordinating services from schools, parents, and other stakeholders and agencies in the local community. The legislature finds that existing resources to vulnerable youth are used more efficiently and effectively when there is significant coordination across local and state entities. The legislature further finds that efficiency and accountability of the K-12 system would be improved by creating a dropout prevention and intervention grant program that implements research-based and emerging best practices and evaluates results.

**NEW SECTION. Sec. 2.** Subject to the availability of funds appropriated for this purpose, the office of the superintendent of public instruction shall create a grant program and award grants to local partnerships of schools, families, and communities to begin the phase in of a statewide comprehensive dropout prevention, intervention, and retrieval system. This program shall be known as the building bridges program.

(1) For purposes of sections 2 through 7 of this act, a "building bridges program" means a local partnership of schools, families, and communities that provides all of the following programs or activities:

(a) A system that identifies individual students at risk of dropping out from middle through high school based on local predictive data, including state assessment data starting in the fourth grade, and provides timely interventions for such students and for dropouts, including a plan for educational success as already required by the student learning plan as defined under RCW 28A.655.061. Students identified shall include foster care youth, youth involved in the juvenile justice system, and students receiving special education services under chapter 28A.155 RCW;

(b) Coaches or mentors for students as necessary;

(c) Staff responsible for coordination of community partners that provide a seamless continuum of academic and nonacademic support in schools and communities;

(d) Retrieval or reentry activities; and

(e) Alternative educational programming, including, but not limited to, career and technical education exploratory and preparatory programs and online learning opportunities.

(2) One of the grants awarded under this section shall be for a two-year demonstration project focusing on providing fifth through twelfth grade students with a program that utilizes technology and is integrated with state standards, basic academics, cross-cultural exposures, and age-appropriate preemployment training. The project shall:

(a) Establish programs in two western Washington and one eastern Washington urban areas;

(b) Identify at-risk students in each of the distinct communities and populations and implement strategies to close the achievement gap;

(c) Collect and report data on participant characteristics and outcomes of the project, including the characteristics and outcomes specified under section 3(1)(e) of this act; and

(d) Submit a report to the legislature by December 1, 2009.

**NEW SECTION. Sec. 3.** (1) The office of the superintendent of public instruction shall:

(a) Identify criteria for grants and evaluate proposals for funding in consultation with the workforce training and education coordinating board;

(b) Develop and monitor requirements for grant recipients to:

(i) Identify students who both fail the Washington assessment of student learning and drop out of school;

(ii) Identify their own strengths and gaps in services provided to youth;

(iii) Set their own local goals for program outcomes;

(iv) Use research-based and emerging best practices that lead to positive outcomes in implementing the building bridges program; and

(v) Coordinate an outreach campaign to bring public and private organizations together and to provide information about the building bridges program to the local community;

(c) In setting the requirements under (b) of this subsection, encourage creativity and provide for flexibility in implementing the local building bridges program;

(d) Identify and disseminate successful practices;

(e) Develop requirements for grant recipients to collect and report data, including, but not limited to:

(i) The number of and demographics of students served including, but not limited to, information regarding a student's race and ethnicity, a student's household income, a student's housing status, whether a student is a foster youth or youth involved in the juvenile justice system, whether a student is disabled, and the primary language spoken at a student's home;

(ii) Washington assessment of student learning scores;

(iii) Dropout rates;

(iv) On-time graduation rates;

(v) Extended graduation rates;

(vi) Credentials obtained;

(vii) Absenteeism rates;

(viii) Truancy rates; and

(ix) Credit retrieval;

(f) Contract with a third party to evaluate the infrastructure and implementation of the partnership including the leveraging of outside resources that relate to the goal of the partnership. The third-party contractor shall also evaluate the performance and effectiveness of

the partnerships relative to the type of entity, as identified in section 4 of this act, serving as the lead agency for the partnership; and

(g) Report to the legislature by December 1, 2008.

(2) In performing its duties under this section, the office of the superintendent of public instruction is encouraged to consult with the work group identified in section 7 of this act.

**NEW SECTION. Sec. 4.** In awarding the grants under section 2 of this act, the office of the superintendent of public instruction shall prioritize schools or districts with dropout rates above the statewide average and shall attempt to award building bridges program grants to different geographic regions of the state. Eligible recipients shall be one of the following entities acting as a lead agency for the local partnership: A school district, a tribal school, an area workforce development council, an educational service district, an accredited institution of higher education, a vocational skills center, a federally recognized tribe, a community organization, or a nonprofit 501(c)(3) corporation. If the recipient is not a school district, at least one school district must be identified within the partnership. The superintendent of public instruction shall ensure that grants are distributed proportionately between school districts and other recipients. This requirement may be waived if the superintendent of public instruction finds that the quality of the programs or applications from these entities does not warrant the awarding of the grants proportionately.

**NEW SECTION. Sec. 5.** To be eligible for a grant under section 2 of this act, grant applicants shall:

(1) Build or demonstrate a commitment to building a broad-based partnership of schools, families, and community members to provide an effective and efficient building bridges program. The partnership shall consider an effective model for school-community partnerships and include local membership from, but not limited to, school districts, tribal schools, secondary career and technical education programs, skill centers that serve the local community, an educational service district, the area workforce development council, accredited institutions of higher education, tribes or other cultural organizations, the parent teacher association, the juvenile court, prosecutors and defenders, the local health department, health care agencies, public transportation agencies, local division representatives of the department of social and health services, businesses, city or county government agencies, civic organizations, and appropriate youth-serving community-based organizations. Interested parents and students shall be actively included whenever possible;

(2) Demonstrate how the grant will enhance any dropout prevention and intervention programs and services already in place in the district;

(3) Provide a twenty-five percent match that may include in-kind resources from within the partnership;

(4) Track and report data required by the grant; and

(5) Describe how the dropout prevention, intervention, and retrieval system will be sustained after initial funding, including roles of each of the partners.

**NEW SECTION. Sec. 6.** (1) Educational service districts, in collaboration with area workforce development councils, shall:

(a) Provide technical assistance to local partnerships established under a grant awarded under section 2 of this act in collecting and using performance data; and

(b) At the request of a local partnership established under a grant awarded under section 2 of this act, provide assistance in the development of a functional sustainability plan, including the identification of potential funding sources for future operation.

(2) Local partnerships established under a grant awarded under section 2 of this act may contract with an educational service district, workforce development council, or a private agency for specialized training in such areas as cultural competency, identifying diverse learning styles, and intervention strategies for students at risk of dropping out of school.

**NEW SECTION. Sec. 7.** (1) The office of the superintendent of public instruction shall establish a state-level work group that

includes K-12 and state agencies that work with youth who have dropped out or are at risk of dropping out of school. The state-level leadership group shall consist of one representative from each of the following agencies and organizations: The workforce training and education coordinating board; career and technical education including skill centers; relevant divisions of the department of social and health services; the juvenile courts; the Washington association of prosecuting attorneys; the Washington state office of public defense; the employment security department; accredited institutions of higher education; the educational service districts; the area workforce development councils; parent and educator associations; the department of health; local school districts; agencies or organizations that provide services to special education students; community organizations serving youth; federally recognized tribes and urban tribal centers; each of the major political caucuses of the senate and house of representatives; and the minority commissions.

(2) To assist and enhance the work of the building bridges programs established in section 5 of this act, the state-level work group shall:

(a) Identify and make recommendations to the legislature for the reduction of fiscal, legal, and regulatory barriers that prevent coordination of program resources across agencies at the state and local level;

(b) Develop and track performance measures and benchmarks for each partner agency or organization across the state including performance measures and benchmarks based on student characteristics and outcomes specified in section 3(1)(e) of this act; and

(c) Identify research-based and emerging best practices regarding prevention, intervention, and retrieval programs.

(3) The work group shall report to the legislature and the governor on an annual basis beginning December 1, 2007, with recommendations for implementing emerging best practices, needed additional resources, and eliminating barriers.

**NEW SECTION. Sec. 8.** (1) During the 2007-2009 biennium, school districts that contract with eligible alternative educational service providers to provide education programs, including GED preparation, that generate course credits towards high school graduation, for students who are at risk of dropping out of school, or who have dropped out of school, may continue to use allocations under RCW 28A.150.250 to fund contracts with those providers. For purposes of this section, "eligible alternative educational service providers" includes community and technical colleges and community-based organizations that meet all state requirements for receiving state K-12 formula allocations. Students attending these programs will be considered full-time equivalent students if they are enrolled in programming totaling at least twenty-five hours per week. A student will not be considered enrolled if their consecutive days of absence from school exceed twenty school days and attendance has not resumed.

(2) All school districts with contracts with eligible alternative educational service providers shall provide information to the office of the superintendent of public instruction including, but not limited to: (a) The number of students enrolled in those programs; (b) the amount of weekly instructional hours provided; (c) the location of the instruction program provided; and (d) the number and types of staff providing the instruction in the programs. By December 1, 2008, the office of the superintendent of public instruction shall submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the information provided by the school districts pursuant to this subsection.

(3) The state-level work group established under section 7 of this act shall examine issues related to school districts' use of basic education allocations under this section including, but not limited to, findings or other relevant communications by the state auditor. The work group shall develop recommendations and submit a report to the appropriate legislative committees by December 1, 2009.

**NEW SECTION. Sec. 9.** Sections 2 through 7 of this act are each added to chapter 28A.175 RCW.

**NEW SECTION. Sec. 10.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2007, in the omnibus appropriations act, this act is null and void."

On page 1, line 1 of the title, after "retrieval;" strike the remainder of the title and insert "adding new sections to chapter 28A.175 RCW; creating new sections; and providing an expiration date."

and the same is herewith transmitted.

It is the intent of the legislature that public transportation agencies, pupil transportation programs, private nonprofit transportation providers, and other public agencies sponsoring programs that require transportation services coordinate those transportation services. Through coordination of transportation services, programs will achieve increased efficiencies and will be able to provide more rides to a greater number of persons with special needs.

(1) To assure implementation of ((the Program for)) an effective system of coordinated transportation that meets the needs of persons with special transportation needs, the agency council on coordinated transportation((, the council, in coordination with stakeholders,)) shall adopt a biennial work plan that must, at a minimum:

### SECOND READING

**SUBSTITUTE SENATE BILL NO. 5830, by Senate Committee on Human Services & Corrections (originally sponsored by Senators Kauffman, Brown, Rasmussen, Keiser, Kohl-Welles, McAuliffe and Shin)**

#### Providing home visitation services for families.

Representative Kagi moved the adoption of amendment (882):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 43.121 RCW to read as follows:

The legislature finds that:

(1) The years from birth to three are critical in building the social, emotional, and cognitive developmental foundations of a young child. Research into the brain development of young children reveals that children are born learning.

(2) The farther behind children are in their social, emotional, physical, and cognitive development, the more difficult it will be for them to catch up.

(3) A significant number of children age birth to five years are born with two or more of the following risk factors and have a greater chance of failure in school and beyond: Poverty; single or no parent; no parent employed full time or full year; all parents with disability; and mother without a high school degree.

(4) Parents and children involved in home visitation programs exhibit better birth outcomes, enhanced parent and child interactions, more efficient use of health care services, enhanced child development including improved school readiness, and early

detection of developmental delays, as well as reduced welfare dependence, higher rates of school completion and job retention, reduction in frequency and severity of maltreatment, and higher rates of school graduation.

The legislature intends to promote the use of voluntary home visitation services to families as an early intervention strategy to alleviate the effect on child development of factors such as poverty, single parenthood, parental unemployment or underemployment, parental disability, or parental lack of a high school diploma, which research shows are risk factors for child abuse and neglect and poor educational outcomes.

**NEW SECTION. Sec. 2.** A new section is added to chapter 43.121 RCW to read as follows:

The definitions in this section apply throughout sections 1 through 4 of this act unless the context clearly requires otherwise.

(1) "Evidence-based" means a program or practice that has had multiple site random controlled trials across heterogeneous populations demonstrating that the program or practice is effective for the population.

(2) "Home visitation" means providing services in the permanent or temporary residence, or in other familiar surroundings, of the family receiving such services.

(3) "Research-based" means a program or practice that has some research demonstrating effectiveness, but that does not yet meet the standard of evidence-based practices.

**NEW SECTION. Sec. 3.** A new section is added to chapter 43.121 RCW to read as follows:

(1) Within available funds, the children's trust of Washington shall fund evidence-based and research-based home visitation programs for improving parenting skills and outcomes for children. Home visitation programs must be voluntary and must address the needs of families to alleviate the effect on child development of factors such as poverty, single parenthood, parental unemployment or underemployment, parental disability, or parental lack of high school diploma, which research shows are risk factors for child abuse and neglect and poor educational outcomes.

(2) The children's trust of Washington shall develop a plan with the department of social and health services, the department of health, the department of early learning, and the family policy council to coordinate or consolidate home visitation services for children and families and report to the appropriate committees of the legislature by December 1, 2007, with their recommendations for implementation of the plan.

**NEW SECTION. Sec. 4.** A new section is added to chapter 43.121 RCW to read as follows:

To recognize the focus on home visitation services, the Washington council for the prevention of child abuse and neglect is hereby renamed the children's trust of Washington. All references to the Washington council for the prevention of child abuse and neglect in the Revised Code of Washington shall be construed to mean the children's trust of Washington.

**NEW SECTION. Sec. 5.** RCW 43.70.530 (Home visitor program) and 1998 c 245 s 75 & 1993 c 179 s 2 are each repealed."

(4) Persons in the business of buying or selling empty food and beverage containers, including metal food and beverage containers.

**Sec. 10.** RCW 9.94A.535 and 2005 c 68 s 3 are each amended to read as follows:

The court may impose a sentence outside the standard sentence range for an offense if it finds, considering the purpose of this chapter, that there are substantial and compelling reasons justifying an exceptional sentence. Facts supporting aggravated sentences, other than the fact of a prior conviction, shall be determined pursuant to the provisions of RCW 9.94A.537.

Whenever a sentence outside the standard sentence range is imposed, the court shall set forth the reasons for its decision in written findings of fact and conclusions of law. A sentence outside the standard sentence range shall be a determinate sentence.

If the sentencing court finds that an exceptional sentence outside the standard sentence range should be imposed, the sentence is subject to review only as provided for in RCW 9.94A.585(4).

A departure from the standards in RCW 9.94A.589 (1) and (2) governing whether sentences are to be served consecutively or concurrently is an exceptional sentence subject to the limitations in this section, and may be appealed by the offender or the state as set forth in RCW 9.94A.585 (2) through (6).

(1) Mitigating Circumstances - Court to Consider

The court may impose an exceptional sentence below the standard range if it finds that mitigating circumstances are established by a preponderance of the evidence. The following are illustrative only and are not intended to be exclusive reasons for exceptional sentences.

(a) To a significant degree, the victim was an initiator, willing participant, aggressor, or provoker of the incident.

(b) Before detection, the defendant compensated, or made a good faith effort to compensate, the victim of the criminal conduct for any damage or injury sustained.

(c) The defendant committed the crime under duress, coercion, threat, or compulsion insufficient to constitute a complete defense but which significantly affected his or her conduct.

(d) The defendant, with no apparent predisposition to do so, was induced by others to participate in the crime.

(e) The defendant's capacity to appreciate the wrongfulness of his or her conduct, or to conform his or her conduct to the requirements of the law, was significantly impaired. Voluntary use of drugs or alcohol is excluded.

(f) The offense was principally accomplished by another person and the defendant manifested extreme caution or sincere concern for the safety or well-being of the victim.

(g) The operation of the multiple offense policy of RCW 9.94A.589 results in a presumptive sentence that is clearly excessive in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(h) The defendant or the defendant's children suffered a continuing pattern of physical or sexual abuse by the victim of the offense and the offense is a response to that abuse.

(2) Aggravating Circumstances - Considered and Imposed by the Court

The trial court may impose an aggravated exceptional sentence without a finding of fact by a jury under the following circumstances:

(a) The defendant and the state both stipulate that justice is best served by the imposition of an exceptional sentence outside the standard range, and the court finds the exceptional sentence to be consistent with and in furtherance of the interests of justice and the purposes of the sentencing reform act.

(b) The defendant's prior unscored misdemeanor or prior unscored foreign criminal history results in a presumptive sentence that is clearly too lenient in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(c) The defendant has committed multiple current offenses and the defendant's high offender score results in some of the current offenses going unpunished.

(d) The failure to consider the defendant's prior criminal history which was omitted from the offender score calculation pursuant to RCW 9.94A.525 results in a presumptive sentence that is clearly too lenient.

(3) Aggravating Circumstances - Considered by a Jury - Imposed by the Court

Except for circumstances listed in subsection (2) of this section, the following circumstances are an exclusive list of factors that can support a sentence above the standard range. Such facts should be determined by procedures specified in RCW 9.94A.537.

(a) The defendant's conduct during the commission of the current offense manifested deliberate cruelty to the victim.

(b) The defendant knew or should have known that the victim of the current offense was particularly vulnerable or incapable of resistance.

(c) The current offense was a violent offense, and the defendant knew that the victim of the current offense was pregnant.

(d) The current offense was a major economic offense or series of offenses, so identified by a consideration of any of the following factors:

(i) The current offense involved multiple victims or multiple incidents per victim;

(ii) The current offense involved attempted or actual monetary loss substantially greater than typical for the offense;

(iii) The current offense involved a high degree of sophistication or planning or occurred over a lengthy period of time; or

(iv) The defendant used his or her position of trust, confidence, or fiduciary responsibility to facilitate the commission of the current offense.

(e) The current offense was a major violation of the Uniform Controlled Substances Act, chapter 69.50 RCW (VUCSA), related to trafficking in controlled substances, which was more onerous than the typical offense of its statutory definition: The presence of ANY of the following may identify a current offense as a major VUCSA:

(i) The current offense involved at least three separate transactions in which controlled substances were sold, transferred, or possessed with intent to do so;

(ii) The current offense involved an attempted or actual sale or transfer of controlled substances in quantities substantially larger than for personal use;

(iii) The current offense involved the manufacture of controlled substances for use by other parties;

(iv) The circumstances of the current offense reveal the offender to have occupied a high position in the drug distribution hierarchy;

(v) The current offense involved a high degree of sophistication or planning, occurred over a lengthy period of time, or involved a broad geographic area of disbursement; or

(vi) The offender used his or her position or status to facilitate the commission of the current offense, including positions of trust, confidence or fiduciary responsibility (e.g., pharmacist, physician, or other medical professional).

(f) The current offense included a finding of sexual motivation pursuant to RCW 9.94A.835.

(g) The offense was part of an ongoing pattern of sexual abuse of the same victim under the age of eighteen years manifested by multiple incidents over a prolonged period of time.

(h) The current offense involved domestic violence, as defined in RCW 10.99.020, and one or more of the following was present:

(i) The offense was part of an ongoing pattern of psychological, physical, or sexual abuse of the victim manifested by multiple incidents over a prolonged period of time;

(ii) The offense occurred within sight or sound of the victim's or the offender's minor children under the age of eighteen years; or

(iii) The offender's conduct during the commission of the current offense manifested deliberate cruelty or intimidation of the victim.

(i) The offense resulted in the pregnancy of a child victim of rape.

(j) The defendant knew that the victim of the current offense was a youth who was not residing with a legal custodian and the defendant established or promoted the relationship for the primary purpose of victimization.

(k) The offense was committed with the intent to obstruct or impair human or animal health care or agricultural or forestry research or commercial production.

(l) The current offense is trafficking in the first degree or trafficking in the second degree and any victim was a minor at the time of the offense.

(m) The offense involved a high degree of sophistication or planning.

(n) The defendant used his or her position of trust, confidence, or fiduciary responsibility to facilitate the commission of the current offense.

(o) The defendant committed a current sex offense, has a history of sex offenses, and is not amenable to treatment.

(p) The offense involved an invasion of the victim's privacy.

(q) The defendant demonstrated or displayed an egregious lack of remorse.

(r) The offense involved a destructive and foreseeable impact on persons other than the victim.

(s) The defendant committed the offense to obtain or maintain his or her membership or to advance his or her position in the hierarchy of an organization, association, or identifiable group.

(t) The defendant committed the current offense shortly after being released from incarceration.

(u) The current offense is a burglary and the victim of the burglary was present in the building or residence when the crime was committed.

(v) The offense was committed against a law enforcement officer who was performing his or her official duties at the time of the offense, the offender knew that the victim was a law enforcement officer, and the victim's status as a law enforcement officer is not an element of the offense.

(w) The defendant committed the offense against a victim who was acting as a good samaritan.

(x) The defendant committed the offense against a public official or officer of the court in retaliation of the public official's performance of his or her duty to the criminal justice system.

(y) The victim's injuries substantially exceed the level of bodily harm necessary to satisfy the elements of the offense. This aggravator is not an exception to RCW 9.94A.530(2).

(z)(i)(A) The current offense is theft in the first degree, theft in the second degree, possession of stolen property in the first degree, or possession of stolen property in the second degree; (B) the stolen property involved is metal property; and (C) the property damage to

the victim caused in the course of the theft of metal property is more than three times the value of the stolen metal property, or the theft of the metal property creates a public hazard.

(ii) For purposes of this subsection, "metal property" means commercial metal property or nonferrous metal property, as defined in section I of this act.

**NEW SECTION. Sec. 11.** Sections 1 through 9 of this act constitute a new chapter in Title 19 RCW.

**NEW SECTION. Sec. 12.** RCW 9.91.110 (Metal buyers--Records of purchases--Penalty) and 1971 ex.s. c 302 s 18 are each repealed.

**NEW SECTION. Sec. 14.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

### MESSAGE FROM THE SENATE

April 19, 2007

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1179 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 28B.92.080 and 2004 c 275 s 39 are each amended to read as follows:

For a student to be eligible for a state need grant a student must:

(1) Be a "needy student" or "disadvantaged student" as determined by the board in accordance with RCW 28B.92.030 (3) and (4).

(2) Have been domiciled within the state of Washington for at least one year.

(3) Be enrolled or accepted for enrollment on at least a half-time basis at an institution of higher education in Washington as defined in RCW 28B.92.030(1).

(4) Until June 30, 2011, to the extent funds are specifically appropriated for this purpose, and subject to any terms and conditions specified in the omnibus appropriations act, be enrolled or accepted for enrollment for at least three quarter credits or the equivalent semester credits at an institution of higher education in Washington as defined in RCW 28B.92.030(1).

(5) Have complied with all the rules and regulations adopted by the board for the administration of this chapter.

**Sec. 2.** RCW 28B.92.060 and 2005 c 93 s 3 are each amended to read as follows:

In awarding need grants, the board shall proceed substantially as follows: PROVIDED, That nothing contained herein shall be construed to prevent the board, in the exercise of its sound discretion, from following another procedure when the best interest of the program so dictates:

(1) The board shall annually select the financial aid award recipients from among Washington residents applying for student financial aid who have been ranked according to:

(a) Financial need as determined by the amount of the family contribution; and

(b) Other considerations, such as whether the student is a former foster youth.

(2) The financial need of the highest ranked students shall be met by grants depending upon the evaluation of financial need until the total allocation has been disbursed. Funds from grants which are declined, forfeited or otherwise unused shall be reawarded until disbursed, except that eligible former foster youth shall be assured receipt of a grant.

(3) A student shall be eligible to receive a state need grant for up to five years, or the credit or clock hour equivalent of five years, or up to one hundred twenty-five percent of the published length of time of the student's program. A student may not start a new

associate degree program as a state need grant recipient until at least five years have elapsed since earning an associate degree as a need grant recipient, except that a student may earn two associate degrees concurrently. Qualifications for renewal will include maintaining satisfactory academic progress toward completion of an eligible program as determined by the board. Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the grant shall be returned to the state educational grant fund by the institution according to the institution's own policy for issuing refunds, except as provided in RCW 28B.92.070.

(4) In computing financial need, the board shall determine a maximum student expense budget allowance, not to exceed an amount equal to the total maximum student expense budget at the public institutions plus the current average state appropriation per student for operating expense in the public institutions. Any child support payments received by students who are parents attending less than half-time shall not be used in computing financial need.

(5)(a) A student who is enrolled in three to six credit-bearing quarter credits, or the equivalent semester credits, may receive a grant for up to one academic year before beginning a program that leads to a degree or certificate.

(b) An eligible student enrolled on a less-than-full-time basis shall receive a prorated portion of his or her state need grant for any academic period in which he or she is enrolled on a less-than-full-time basis, as long as funds are available.

(c) An institution of higher education may award a state need grant to an eligible student enrolled in three to six credit-bearing quarter credits, or the semester equivalent, on a provisional basis if:

(i) The student has not previously received a state need grant from that institution;

(ii) The student completes the required free application for federal student aid;

(iii) The institution has reviewed the student's financial condition, and the financial condition of the student's family if the student is a dependent student, and has determined that the student is likely eligible for a state need grant; and

(iv) The student has signed a document attesting to the fact that the financial information provided on the free application for federal student aid and any additional financial information provided directly to the institution is accurate and complete, and that the student agrees to repay the institution for the grant amount if the student submitted false or incomplete information.

(6) As used in this section, "former foster youth" means a person who is at least eighteen years of age, but not more than twenty-four years of age, who was a dependent of the department of social and health services at the time he or she attained the age of eighteen.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28B.92 RCW to read as follows:

Institutions of higher education are encouraged to review their policies and procedures regarding financial aid for students taking a less-than-half-time course load, and to implement policies and procedures providing students taking a less-than-half-time course load with the same access to institutional aid, including tuition waivers, as provided to students enrolled half time or more.

**Sec. 4.** RCW 28B.15.820 and 2004 c 275 s 66 are each amended to read as follows:

(1) Each institution of higher education, including technical colleges, shall deposit a minimum of three and one-half percent of revenues collected from tuition and services and activities fees in an institutional financial aid fund that is hereby created and which shall be held locally. Moneys in the fund shall be used only for the following purposes: (a) To make guaranteed long-term loans to eligible students as provided in subsections (3) through (8) of this section; (b) to make short-term loans as provided in subsection (9) of this section; or (c) to provide financial aid to needy students as provided in subsection (10) of this section.

(2) An "eligible student" for the purposes of subsections (3) through (8) and (10) of this section is a student registered for at least ~~(six)~~ three credit hours or the equivalent, who is eligible for resident tuition and fee rates as defined in RCW 28B.15.012 and 28B.15.013, and who is a "needy student" as defined in RCW 28B.92.030.

(3) The amount of the guaranteed long-term loans made under this section shall not exceed the demonstrated financial need of the student. Each institution shall establish loan terms and conditions which shall be consistent with the terms of the guaranteed loan program established by 20 U.S. Code Section 1071 et seq., as now or hereafter amended. All loans made shall be guaranteed by the Washington student loan guaranty association or its successor agency. Institutions are hereby granted full authority to operate as an eligible lender under the guaranteed loan program.

(4) Before approving a guaranteed long-term loan, each institution shall analyze the ability of the student to repay the loan based on factors which include, but are not limited to, the student's accumulated total education loan burdens and the employment opportunities and average starting salary characteristics of the student's chosen fields of study. The institution shall counsel the student on the advisability of acquiring additional debt, and on the availability of other forms of financial aid.

(5) Each institution is responsible for collection of guaranteed long-term loans made under this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated. Collection and servicing of guaranteed long-term loans under this section shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency: PROVIDED, That institutions be permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall be coordinated by the state board for community and technical colleges and shall be conducted under procedures adopted by the state board.

(6) Receipts from payment of interest or principal or any other subsidies to which institutions as lenders are entitled, that are paid by or on behalf of borrowers of funds under subsections (3) through (8) of this section, shall be deposited in each institution's financial aid fund and shall be used to cover the costs of making the guaranteed long-term loans under this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan principal. Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be deposited in the institution's financial aid fund.

(7) The governing boards of the state universities, the regional universities, and The Evergreen State College, and the state board for community and technical colleges, on behalf of the community colleges and technical colleges, shall each adopt necessary rules and regulations to implement this section.

(8) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and maximum use shall be made of secondary markets in the support of loan consolidation.

(9) Short-term loans, not to exceed one year, may be made from the institutional financial aid fund to students enrolled in the institution. No such loan shall be made to any student who is known by the institution to be in default or delinquent in the payment of any outstanding student loan. A short-term loan may be made only if the institution has ample evidence that the student has the capability of repaying the loan within the time frame specified by the institution for repayment.

(10) Any moneys deposited in the institutional financial aid fund that are not used in making long-term or short-term loans may be used by the institution for locally-administered financial aid programs for needy students, such as need-based institutional employment programs or need-based tuition and fee scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds that would otherwise support these locally-administered financial aid programs. First priority in the use of these

April 19, 2007

funds shall be given to needy students who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study. Second priority in the use of these funds shall be given to needy single parents, to assist these students with their educational expenses, including expenses associated with child care and transportation.

**NEW SECTION. Sec. 5.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2007, in the omnibus appropriations act, this act is null and void."

On page 1, line 3 of the title, after "grant," strike the remainder of the title and insert "amending RCW 28B.92.080, 28B.92.060, and 28B.15.820; adding a new section to chapter 28B.92 RCW; and creating a new section."

and the same is herewith transmitted.

**NEW SECTION. Sec. 3.** A new section is added to chapter 71.36 RCW to read as follows:

**ELEMENTS OF A CHILDREN'S MENTAL HEALTH SYSTEM.** (1) It is the goal of the legislature that, by 2012, the children's mental health system in Washington state include the following elements:

(a) A continuum of services from early identification, intervention, and prevention through crisis intervention and inpatient treatment, including peer support and parent mentoring services;

(b) Equity in access to services for similarly situated children, including children with co-occurring disorders;

(c) Developmentally appropriate, high quality, and culturally competent services available statewide;

(d) Treatment of each child in the context of his or her family and other persons that are a source of support and stability in his or her life;

(e) A sufficient supply of qualified and culturally competent children's mental health providers;

(f) Use of developmentally appropriate evidence-based and research-based practices;

(g) Integrated and flexible services to meet the needs of children who, due to mental illness or emotional or behavioral disturbance, are at risk of out-of-home placement or involved with multiple child-serving systems.

(2) The effectiveness of the children's mental health system shall be determined through the use of outcome-based performance measures. The department and the evidence-based practice institute established in section 7 of this act, in consultation with parents, caregivers, youth, regional support networks, mental health services providers, health plans, primary care providers, tribes, and others, shall develop outcome-based performance measures such as:

(a) Decreased emergency room utilization;

(b) Decreased psychiatric hospitalization;

(c) Lessening of symptoms, as measured by commonly used assessment tools;

(d) Decreased out-of-home placement, including residential, group, and foster care, and increased stability of such placements, when necessary;

(e) Decreased runaways from home or residential placements;

(f) Decreased rates of chemical dependency;

(g) Decreased involvement with the juvenile justice system;

(h) Improved school attendance and performance;

(i) Reductions in school or child care suspensions or expulsions;

(j) Reductions in use of prescribed medication where cognitive behavioral therapies are indicated;

(k) Improved rates of high school graduation and employment; and

(l) Decreased use of mental health services upon reaching adulthood for mental disorders other than those that require ongoing treatment to maintain stability.

Performance measure reporting for children's mental health services should be integrated into existing performance measurement and reporting systems developed and implemented under chapter 71.24 RCW.

**NEW SECTION. Sec. 4.** **REGIONAL SUPPORT NETWORK SERVICES--CHILDREN'S ACCESS TO CARE STANDARDS AND BENEFIT PACKAGE.** As part of the system transformation initiative, the department of social and health services shall undertake the following activities related specifically to children's mental health services:

(1) The development of recommended revisions to the access to care standards for children. The recommended revisions shall reflect the policies and principles set out in RCW 71.36.005, 71.36.010, and section 3 of this act, and recognize that early identification, intervention and prevention services, and brief intervention services may be provided outside of the regional support network system. Revised access to care standards shall assess a child's need for mental health services based upon the child's diagnosis and its negative impact upon his or her persistent impaired functioning in family, school, or the community, and should not solely condition the receipt of services upon a determination that a child is engaged in high risk behavior or is in imminent need of hospitalization or out-of-home placement. Assessment and diagnosis for children under five years of age shall be determined using a nationally accepted assessment tool designed specifically for children of that age. The recommendations shall also address whether amendments to RCW 71.24.025 (26) and (27) and 71.24.035(5) are necessary to implement revised access to care standards;

(2) Development of a revised children's mental health benefit package. The department shall ensure that services included in the children's mental health benefit package reflect the policies and principles included in RCW 71.36.005 and section 3 of this act, to the extent allowable under medicaid, Title XIX of the federal social security act. Strong consideration shall be given to developmentally appropriate evidence-based and research-based practices, family-based interventions, the use of natural and peer supports, and community support services. This effort shall include a review of other states' efforts to fund family-centered children's mental health services through their medicaid programs;

(3) Consistent with the timeline developed for the system transformation initiative, recommendations for revisions to the children's access to care standards and the children's mental health services benefits package shall be presented to the legislature by January 1, 2009.

**NEW SECTION. Sec. 5.** A new section is added to chapter 74.09 RCW to read as follows:

**IMPROVING MEDICATION MANAGEMENT AND CARE COORDINATION.** (1)(a) The department, in consultation with the evidence-based practice institute established in section 7 of this act, shall develop and implement policies to improve prescribing practices for treatment of emotional or behavioral disturbances in children, improve the quality of children's mental health therapy through increased use of evidence-based and research-based practices and reduced variation in practice, improve communication and care coordination between primary care and mental health providers, and prioritize care in the family home or care which integrates the family where out-of-home placement is required.

(b) The department shall identify those children with emotional or behavioral disturbances who may be at high risk due to off-label use of prescription medication, use of multiple medications, high medication dosage, or lack of coordination among multiple prescribing providers, and establish one or more mechanisms to evaluate the appropriateness of the medication these children are using, including but not limited to obtaining second opinions from experts in child psychiatry.

(c) The department shall review the psychotropic medications of all children under five and establish one or more mechanisms to evaluate the appropriateness of the medication these children are using, including but not limited to obtaining second opinions from experts in child psychiatry.

(d) The department shall track prescriptive practices with respect to psychotropic medications with the goal of reducing the use of medication.

(e) The department shall encourage the use of cognitive behavioral therapies and other treatments which are empirically

supported or evidence-based, in addition to or in the place of prescription medication where appropriate.

(2) The department shall convene a representative group of regional support networks, community mental health centers, and managed health care systems contracting with the department under RCW 74.09.522 to:

(a) Establish mechanisms and develop contract language that ensures increased coordination of and access to medicaid mental health benefits available to children and their families, including ensuring access to services that are identified as a result of a developmental screen administered through early periodic screening, diagnosis, and treatment;

(b) Define managed health care system and regional support network contractual performance standards that track access to and utilization of services; and

(c) Set standards for reducing the number of children that are prescribed antipsychotic drugs and receive no outpatient mental health services with their medication.

(3) The department shall submit a report on progress and any findings under this section to the legislature by January 1, 2009.

**NEW SECTION. Sec. 6.** A new section is added to chapter 71.36 RCW to read as follows:

**MEDICAID ELIGIBLE CHILDREN IN TEMPORARY JUVENILE DETENTION.** The department shall explore the feasibility of obtaining a medicaid state plan amendment to allow the state to receive medicaid matching funds for health services provided to medicaid enrolled youth who are temporarily placed in a juvenile detention facility. Temporary placement shall be defined as until adjudication or up to sixty continuous days, whichever occurs first.

**NEW SECTION. Sec. 7.** A new section is added to chapter 71.24 RCW to read as follows:

**CHILDREN'S MENTAL HEALTH PROVIDERS.** (1) The department shall provide flexibility in provider contracting to regional support networks for children's mental health services. Beginning with 2007-2009 biennium contracts, regional support network contracts shall authorize regional support networks to allow and encourage licensed community mental health centers to subcontract with individual licensed mental health professionals when necessary to meet the need for an adequate, culturally competent, and qualified children's mental health provider network.

(2) To the extent that funds are specifically appropriated for this purpose or that nonstate funds are available, a children's mental health evidence-based practice institute shall be established at the University of Washington division of public behavioral health and justice policy. The institute shall closely collaborate with entities currently engaged in evaluating and promoting the use of evidence-based, research-based, promising, or consensus-based practices in children's mental health treatment, including but not limited to the University of Washington department of psychiatry and behavioral sciences, children's hospital and regional medical center, the University of Washington school of nursing, the University of Washington school of social work, and the Washington state institute for public policy. To ensure that funds appropriated are used to the greatest extent possible for their intended purpose, the University of Washington's indirect costs of administration shall not exceed ten percent of appropriated funding. The institute shall:

(a) Improve the implementation of evidence-based and research-based practices by providing sustained and effective training and consultation to licensed children's mental health providers and child-serving agencies who are implementing evidence-based or researched-based practices for treatment of children's emotional or behavioral disorders, or who are interested in adapting these practices to better serve ethnically or culturally diverse children. Efforts under this subsection should include a focus on appropriate oversight of implementation of evidence-based practices to ensure fidelity to these practices and thereby achieve positive outcomes;

(b) Continue the successful implementation of the "partnerships for success" model by consulting with communities so they may select, implement, and continually evaluate the success of evidence-based practices that are relevant to the needs of children, youth, and families in their community;

(c) Partner with youth, family members, family advocacy, and culturally competent provider organizations to develop a series of information sessions, literature, and on-line resources for families to become informed and engaged in evidence-based and research-based practices;

(d) Participate in the identification of outcome-based performance measures under section 3(2) of this act and partner in a statewide effort to implement statewide outcomes monitoring and quality improvement processes; and

(e) Serve as a statewide resource to the department and other entities on child and adolescent evidence-based, research-based, promising, or consensus-based practices for children's mental health treatment, maintaining a working knowledge through ongoing review of academic and professional literature, and knowledge of other evidence-based practice implementation efforts in Washington and other states.

(3) To the extent that funds are specifically appropriated for this purpose, the department in collaboration with the evidence-based practice institute shall implement a pilot program to support primary care providers in the assessment and provision of appropriate diagnosis and treatment of children with mental and behavioral health disorders and track outcomes of this program. The program shall be designed to promote more accurate diagnoses and treatment through timely case consultation between primary care providers and child psychiatric specialists, and focused educational learning collaboratives with primary care providers.

**NEW SECTION. Sec. 8.** A new section is added to chapter 74.09 RCW to read as follows:

(1) The department shall adopt rules and policies providing that when youth who were enrolled in a medical assistance program immediately prior to confinement are released from confinement, their medical assistance coverage will be fully reinstated on the day of their release, subject to any expedited review of their continued eligibility for medical assistance coverage that is required under federal or state law.

(2) The department, in collaboration with county juvenile court administrators and regional support networks, shall establish procedures for coordination between department field offices, juvenile rehabilitation administration institutions, and county juvenile courts that result in prompt reinstatement of eligibility and speedy eligibility determinations for youth who are likely to be eligible for medical assistance services upon release from confinement. Procedures developed under this subsection must address:

(a) Mechanisms for receiving medical assistance services' applications on behalf of confined youth in anticipation of their release from confinement;

(b) Expedited review of applications filed by or on behalf of confined youth and, to the extent practicable, completion of the review before the youth is released; and

(c) Mechanisms for providing medical assistance services' identity cards to youth eligible for medical assistance services immediately upon their release from confinement.

(3) For purposes of this section, "confined" or "confinement" means detained in a facility operated by or under contract with the department of social and health services, juvenile rehabilitation administration, or detained in a juvenile detention facility operated under chapter 13.04 RCW.

(4) The department shall adopt standardized statewide screening and application practices and forms designed to facilitate the application of a confined youth who is likely to be eligible for a medical assistance program.

**NEW SECTION. Sec. 9.** Educational service district boards may partner with regional support networks to respond to a request for proposal for operation of a wraparound model site under this act and, if selected, may contract for the provision of services to coordinate care and facilitate the delivery of services and other supports under a wraparound model.

**NEW SECTION. Sec. 10.** WRAPAROUND MODEL OF INTEGRATED CHILDREN'S MENTAL HEALTH SERVICES DELIVERY. To the extent funds are specifically appropriated for

this purpose, the department of social and health services shall contract for implementation of a wraparound model of integrated children's mental health services delivery in up to four regional support network regions in Washington state in which wraparound programs are not currently operating, and in up to two regional support network regions in which wraparound programs are currently operating. Contracts in regions with existing wraparound programs shall be for the purpose of expanding the number of children served.

(1) Funding provided may be expended for: Costs associated with a request for proposal and contracting process; administrative costs associated with successful bidders' operation of the wraparound model; the evaluation under subsection (5) of this section; and funding for services needed by children enrolled in wraparound model sites that are not otherwise covered under existing state programs. The services provided through the wraparound model sites shall include, but not be limited to, services covered under the medicaid program. The department shall maximize the use of medicaid and other existing state-funded programs as a funding source. However, state funds provided may be used to develop a broader service package to meet needs identified in a child's care plan. Amounts provided shall supplement, and not supplant, state, local, or other funding for services that a child being served through a wraparound site would otherwise be eligible to receive.

(2) The wraparound model sites shall serve children with serious emotional or behavioral disturbances who are at high risk of residential or correctional placement or psychiatric hospitalization, and who have been referred for services from the department, a county juvenile court, a tribal court, a school, or a licensed mental health provider or agency.

(3) Through a request for proposal process, the department shall contract, with regional support networks, alone or in partnership with either educational service districts or entities licensed to provide mental health services to children with serious emotional or behavioral disturbances, to operate the wraparound model sites. The contractor shall provide care coordination and facilitate the delivery of services and other supports to families using a strength-based, highly individualized wraparound process. The request for proposal shall require that:

(a) The regional support network agree to use its medicaid revenues to fund services included in the existing regional support network's benefit package that a medicaid-eligible child participating in the wraparound model site is determined to need;

(b) The contractor provide evidence of commitments from at least the following entities to participate in wraparound care plan development and service provision when appropriate: Community mental health agencies, schools, the department of social and health services children's administration, juvenile courts, the department of social and health services juvenile rehabilitation administration, and managed health care systems contracting with the department under RCW 74.09.522; and

(c) The contractor will operate the wraparound model site in a manner that maintains fidelity to the wraparound process as defined in RCW 71.36.010.

(4) Contracts for operation of the wraparound model sites shall be executed on or before April 1, 2008, with enrollment and service delivery beginning on or before July 1, 2008.

(5) The evidence-based practice institute established in section 7 of this act shall evaluate the wraparound model sites, measuring outcomes for children served. Outcomes measured shall include, but are not limited to: Decreased out-of-home placement, including residential, group, and foster care, and increased stability of such placements, school attendance, school performance, recidivism, emergency room utilization, involvement with the juvenile justice system, decreased use of psychotropic medication, and decreased hospitalization.

(6) The evidence-based practice institute shall provide a report and recommendations to the appropriate committees of the legislature by December 1, 2010.

**NEW SECTION. Sec. 11.** A new section is added to chapter 74.09 RCW to read as follows:

(1) To the extent that funds are specifically appropriated for this purpose the department shall revise its medicaid healthy options

managed care and fee-for-service program standards under medicaid, Title XIX of the federal social security act to improve access to mental health services for children who do not meet the regional support network access to care standards. Effective July 1, 2008, the program standards shall be revised to allow outpatient therapy services to be provided by licensed mental health professionals, as defined in RCW 71.34.020, and up to twenty outpatient therapy hours per calendar year, including family therapy visits integral to a child's treatment.

(2) This section expires July 1, 2010.

**NEW SECTION. Sec. 12.** (1) The evidence-based practice institute established in section 7 of this act, in consultation with the Washington state institute for public policy, shall review and summarize current law with respect to inpatient and outpatient mental health treatment for minors.

(2) The review shall include current practices to determine the percentage of cases in which parents are engaged by treatment providers and the extent to which they are actively involved in the treatment of their minor children.

(3) The evidence-based practice institute shall provide a report and recommendations to the appropriate legislative committees by December 1, 2008.

(4) This section expires December 1, 2008.

**NEW SECTION. Sec. 13.** The following acts or parts of acts are each repealed:

(1) RCW 71.36.020 (Plan for early periodic screening, diagnosis, and treatment services) and 2003 c 281 s 4 & 1991 c 326 s 13; and

(2) RCW 71.36.030 (Children's mental health services delivery system--Local planning efforts) and 1991 c 326 s 14.

**NEW SECTION. Sec. 14.** Captions used in this act are not part of the law.

**NEW SECTION. Sec. 15.** If specific funding for the purposes of sections 4, 5, 7, 8, 10, and 11 of this act, referencing the section by section number and by bill or chapter number, is not provided by June 30, 2007, each section not referenced is null and void."

On page 1, line 1 of the title, after "services;" strike the remainder of the title and insert "amending RCW 71.36.005 and 71.36.010; adding new sections to chapter 71.36 RCW; adding new sections to chapter 74.09 RCW; adding a new section to chapter 71.24 RCW; creating new sections; repealing RCW 71.36.020 and 71.36.030; and providing expiration dates."

#### MESSAGE FROM THE SENATE

April 19, 2007

Mr. Speaker:

The Senate receded from its amendment to SUBSTITUTE HOUSE BILL NO. 1333. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 13.34.138 and 2005 c 512 s 3 are each amended to read as follows:

(1) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first, at a hearing in which it shall be determined whether court supervision should continue. The initial review hearing shall be an in-court review and shall be set six months from the beginning date of the placement episode or no more than ninety days from the entry of the disposition order, whichever comes first. The initial review hearing may be a permanency planning hearing when necessary to meet the time frames set forth in RCW 13.34.145(3) or 13.34.134. The review shall include findings regarding the agency and parental completion of disposition plan requirements, and if necessary, revised permanency time limits. This review shall consider both the agency's and parent's efforts that demonstrate consistent measurable progress over time in meeting the disposition plan requirements. The requirements for the initial review hearing, including the in-court requirement, shall be accomplished within existing resources. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to that child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in RCW

13.34.130 no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) Prior to the child returning home, the department must complete the following:

(i) Identify all adults residing in the home and conduct background checks on those persons;

(ii) Identify any persons who may act as a caregiver for the child in addition to the parent with whom the child is being placed and determine whether such persons are in need of any services in order to ensure the safety of the child, regardless of whether such persons are a party to the dependency. The department or supervising agency may recommend to the court and the court may order that placement of the child in the parent's home be contingent on or delayed based on the need for such persons to engage in or complete services to ensure the safety of the child prior to placement. If services are recommended for the caregiver, and the caregiver fails to engage in or follow through with the recommended services, the department or supervising agency must promptly notify the court; and

(iii) Notify the parent with whom the child is being placed that he or she has an ongoing duty to notify the department or supervising agency of all persons who reside in the home or who may act as a caregiver for the child both prior to the placement of the child in the home and subsequent to the placement of the child in the home as long as the court retains jurisdiction of the dependency proceeding or the department is providing or monitoring either remedial services to the parent or services to ensure the safety of the child to any caregivers.

Caregivers may be required to engage in services under this subsection solely for the purpose of ensuring the present and future safety of a child who is a ward of the court. This subsection does not grant party status to any individual not already a party to the dependency proceeding, create an entitlement to services or a duty on the part of the department or supervising agency to provide services, or create judicial authority to order the provision of services to any person other than for the express purposes of this section or RCW 13.34.025 or if the services are unavailable or unsuitable or the person is not eligible for such services.

(c) If the child is not returned home, the court shall establish in writing:

(i) Whether reasonable services have been provided to or offered to the parties to facilitate reunion, specifying the services provided or offered;

(ii) Whether the child has been placed in the least-restrictive setting appropriate to the child's needs, including whether consideration and preference has been given to placement with the child's relatives;

(iii) Whether there is a continuing need for placement and whether the placement is appropriate;

(iv) Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement;

(v) Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care;

(vi) Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;

(vii) Whether additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents; if so, the court shall order that reasonable services be offered specifying such services; and

(viii) The projected date by which the child will be returned home or other permanent plan of care will be implemented.

~~((e))~~ (d) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

(2)(a) In any case in which the court orders that a dependent child may be returned to or remain in the child's home, the in-home placement shall be contingent upon the following:

(i) The compliance of the parents with court orders related to the care and supervision of the child, including compliance with an agency case plan; and

(ii) The continued participation of the parents, if applicable, in available substance abuse or mental health treatment if substance abuse or mental illness was a contributing factor to the removal of the child.

(b) The following may be grounds for removal of the child from the home, subject to review by the court:

(i) Noncompliance by the parents with the agency case plan or court order;

(ii) The parent's inability, unwillingness, or failure to participate in available services or treatment for themselves or the child, including substance abuse treatment if a parent's substance abuse was a contributing factor to the abuse or neglect; or

(iii) The failure of the parents to successfully and substantially complete available services or treatment for themselves or the child, including substance abuse treatment if a parent's substance abuse was a contributing factor to the abuse or neglect.

(c) In a pending dependency case in which the court orders that a dependent child may be returned home and that child is later removed from the home, the court shall hold a review hearing within thirty days from the date of removal to determine whether the permanency plan should be changed, a termination petition should be filed, or other action is warranted. The best interests of the child shall be the court's primary consideration in the review hearing.

(3) The court's ability to order housing assistance under RCW 13.34.130 and this section is: (a) Limited to cases in which homelessness or the lack of adequate and safe housing is the primary reason for an out-of-home placement; and (b) subject to the availability of funds appropriated for this specific purpose.

(4) The court shall consider the child's relationship with siblings in accordance with RCW 13.34.130(3).

**Sec. 2.** RCW 13.34.025 and 2002 c 52 s 2 are each amended to read as follows:

(1) The department of social and health services shall develop methods for coordination of services to parents and children in child dependency cases. To the maximum extent possible under current funding levels, the department must:

~~((+))~~ (a) Coordinate and integrate services to children and families, using service plans and activities that address the children's and families' multiple needs, including ensuring that siblings have regular visits with each other, as appropriate. Assessment criteria should screen for multiple needs;

~~((=))~~ (b) Develop treatment plans for the individual needs of the client in a manner that minimizes the number of contacts the client is required to make; and

~~((>))~~ (c) Access training for department staff to increase skills across disciplines to assess needs for mental health, substance abuse, developmental disabilities, and other areas.

(2) The department shall coordinate within the administrations of the department, and with contracted service providers, to ensure that parents in dependency proceedings under this chapter receive priority access to remedial services recommended by the department in its social study or ordered by the court for the purpose of correcting any parental deficiencies identified in the dependency proceeding that are capable of being corrected in the foreseeable future. Services may also be provided to caregivers other than the parents as identified in RCW 13.34.138.

(a) For purposes of this chapter, remedial services are those services defined in the federal adoption and safe families act as time-limited family reunification services. Remedial services include individual, group, and family counseling; substance abuse treatment services; mental health services; assistance to address domestic violence; services designed to provide temporary child care and therapeutic services for families; and transportation to or from any of the above services and activities.

(b) The department shall provide funds for remedial services if the parent is unable to pay to the extent funding is appropriated in the operating budget or otherwise available to the department for such specific services. As a condition for receiving funded remedial services, the court may inquire into the parent's ability to pay for all or part of such services or may require that the parent make appropriate applications for funding to alternative funding sources for such services.

(c) If court-ordered remedial services are unavailable for any reason, including lack of funding, lack of services, or language barriers, the department shall promptly notify the court that the parent is unable to engage in the treatment due to the inability to access such services.

(d) This section does not create an entitlement to services and does not create judicial authority to order the provision of services except for the specific purpose of making reasonable efforts to remedy parental deficiencies identified in a dependency proceeding under this chapter.

**NEW SECTION. Sec. 3.** A new section is added to chapter 26.44 RCW to read as follows:

(1) Each county shall revise and expand its existing child sexual abuse investigation protocol to address investigations of child fatality, child physical abuse, and criminal child neglect cases and to incorporate the statewide guidelines for first responders to child fatalities developed by the criminal justice training commission. If, after a fact-finding hearing pursuant to RCW 13.34.110, it has been proven by a preponderance of the evidence that the child is dependent within the meaning of RCW 13.34.030 after consideration of the social study prepared pursuant to RCW 13.34.110 and after a

disposition hearing has been held pursuant to RCW 13.34.110, the court shall enter an order of disposition pursuant to this section.

(1) The court shall order one of the following dispositions of the case:

(a) Order a disposition other than removal of the child from his or her home, which shall provide a program designed to alleviate the immediate danger to the child, to mitigate or cure any damage the child has already suffered, and to aid the parents so that the child will not be endangered in the future. (b) Order the child to be removed from his or her home and into the custody, control, and care of a relative or the department or a licensed child placing agency for ~~((placement))~~ supervision of the child's placement. The department or agency supervising the child's placement has the authority to place the child, subject to review and approval by the court (i) with a relative as defined in RCW 74.15.020(2)(a), (ii) in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW, or ((in a home not required to be licensed pursuant to chapter 74.15 RCW)) (iii) in the home of another suitable person if the child or family has a preexisting relationship with that person, and the person has completed all required criminal history background checks and otherwise appears to the department or supervising agency to be suitable and competent to provide care for the child. The department or supervising agency may only place a child with a person not related to the child as defined in RCW 74.15.020(2)(a) when the court finds that such placement is in the best interest of the child. Unless there is reasonable cause to believe that the health, safety, or welfare of the child would be jeopardized or that efforts to reunite the parent and child will be hindered, such child shall be placed with a person who is: ((†)) (A) Related to the child as defined in RCW 74.15.020(2)(a) with whom the child has a relationship and is comfortable; and ((††)) (B) willing and available to care for the child.

(2) Placement of the child with a relative under this subsection shall be given preference by the court. An order for out-of-home placement may be made only if the court finds that reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home, specifying the services that have been provided to the child and the child's parent, guardian, or legal custodian, and that preventive services have been offered or provided and have failed to prevent the need for out-of-home placement, unless the health, safety, and welfare of the child cannot be protected adequately in the home, and that:

(a) There is no parent or guardian available to care for such child;

(b) The parent, guardian, or legal custodian is not willing to take custody of the child; or

(c) The court finds, by clear, cogent, and convincing evidence, a manifest danger exists that the child will suffer serious abuse or neglect if the child is not removed from the home and an order under RCW 26.44.063 would not protect the child from danger.

(3) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section, the court shall consider whether it is in a child's best interest to be placed with, have contact with, or have visits with siblings.

(a) There shall be a presumption that such placement, contact, or visits are in the best interests of the child provided that:

(i) The court has jurisdiction over all siblings subject to the order of placement, contact, or visitation pursuant to petitions filed under this chapter or the parents of a child for whom there is no jurisdiction are willing to agree; and

(ii) There is no reasonable cause to believe that the health, safety, or welfare of any child subject to the order of placement, contact, or visitation would be jeopardized or that efforts to reunite the parent and child would be hindered by such placement, contact, or visitation. In no event shall parental visitation time be reduced in order to provide sibling visitation.

(b) The court may also order placement, contact, or visitation of a child with a step-brother or step-sister provided that in addition to the factors in (a) of this subsection, the child has a relationship and is comfortable with the step-sibling.

(4) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section, the court may order that a petition seeking termination of the parent and child relationship be filed if the requirements of RCW 13.34.132 are met.

(5) If there is insufficient information at the time of the disposition hearing upon which to base a determination regarding the suitability of a proposed placement with a relative, the child shall remain in foster care and the court shall direct the supervising agency to conduct necessary background investigations as provided in chapter 74.15 RCW and report the results of such investigation to the court within thirty days. However, if such relative appears otherwise suitable and competent to provide care and treatment, the criminal history background check need not be completed before placement, but as soon as possible after placement. Any placements with relatives, pursuant to this section, shall be contingent upon cooperation by the relative with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order shall be grounds for removal of the child from the relative's home, subject to review by the court."

On page 1, line 1 of the title, after "children;" strike the remainder of the title and insert "amending RCW 13.34.130; and reenacting and amending RCW 74.15.020."

and the same is herewith transmitted.

#### SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House insisted on its position regarding the Senate amendments to SUBSTITUTE HOUSE BILL NO. 1091, and again asked the Senate to recede therefrom.

#### MESSAGE FROM THE SENATE

April 19, 2007

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1624. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 13.34 RCW to read as follows:

(1) A child may petition the juvenile court to reinstate the previously terminated parental rights of his or her parent under the following circumstances:

(a) The child was previously found to be a dependent child under this chapter;

(b) The child's parent's rights were terminated in a proceeding under this chapter;

(c) The child has not achieved his or her permanency plan within three years of a final order of termination, or if the final order was appealed, within three years of exhaustion of any right to appeal the order terminating parental rights; and

(d) Absent good cause, the child must be at least twelve years old at the time the petition is filed.

(2) A child seeking to petition under this section shall be provided counsel at no cost to the child.

(3) The petition must be signed by the child in the absence of a showing of good cause as to why the child could not do so.

(4) If, after a threshold hearing to consider the parent's apparent fitness and interest in reinstatement of parental rights, it appears that the best interests of the child may be served by reinstatement of parental rights, the juvenile court shall order that a hearing on the merits of the petition be held.

(5) The court shall give prior notice for any proceeding under this section, or cause prior notice to be given, to the department, the child's attorney, and the child. The court shall also order the department to give prior notice of any hearing to the child's former parent whose parental rights are the subject of the petition, any parent whose rights have not been terminated, the child's current foster parent, relative caregiver, guardian or custodian, and the child's tribe, if applicable.

(6) The juvenile court shall conditionally grant the petition if it finds by clear and convincing evidence that the child has not achieved his or her permanency plan and is not likely to imminently achieve his or her permanency plan and that reinstatement of parental rights is in the child's best interest. In determining whether reinstatement is in the child's best interest the court shall consider, but is not limited to, the following:

(a) Whether the parent whose rights are to be reinstated is a fit parent and has remedied his or her deficits as provided in the record of the prior termination proceedings and prior termination order;

(b) The age and maturity of the child, and the ability of the child to express his or her preference;

(c) Whether the reinstatement of parental rights will present a risk to the child's health, welfare, or safety; and

(d) Other material changes in circumstances, if any, that may have occurred which warrant the granting of the petition.

(7) In determining whether the child has or has not achieved his or her permanency plan or whether the child is likely to achieve his or her permanency plan, the department shall provide the court, and the court shall review, information related to any efforts to achieve the permanency plan including efforts to achieve adoption or a permanent guardianship.

(8)(a) If the court conditionally grants the petition under subsection (6) of this section, the case will be continued for six months. During this period, the child shall be placed in the custody of the parent. The department shall develop a permanency plan for the child reflecting the plan to be reunification and shall provide transition services to the family as appropriate.

(b) If the child must be removed from the parent due to abuse or neglect allegations prior to the expiration of the conditional six-month period, the court shall dismiss the petition for reinstatement of parental rights if the court finds the allegations have been proven by a preponderance of the evidence.

(c) If the child has been successfully placed with the parent for six months, the court order reinstating parental rights remains in effect and the court shall dismiss the dependency.

(9) The granting of the petition under this section does not vacate or otherwise affect the validity of the original termination order.

(10) Any parent whose rights are reinstated under this section shall not be liable for any child support owed to the department pursuant to RCW 13.34.160 for the time period from the date of termination of parental rights to the date parental rights are reinstated.

(11) The state, the department, and its employees are not liable for civil damages resulting from any act or omission in the provision of services under this section, unless the act or omission constitutes gross negligence. This section does not create any duty and shall not be construed to create a duty where none exists. This section does not create a cause of action against the state, the department, or its employees concerning the original termination.

(12) This section is retroactive and applies to any child who is under the jurisdiction of the juvenile court at the time of the hearing regardless of the date parental rights were terminated.

**Sec. 2.** RCW 13.34.200 and 2003 c 227 s 7 are each amended to read as follows:

(1) Upon the termination of parental rights pursuant to RCW 13.34.180, all rights, powers, privileges, immunities, duties, and obligations, including any rights to custody, control, visitation, or support existing between the child and parent shall be severed and terminated and the parent shall have no standing to appear at any further legal proceedings concerning the child, except as provided in section 1 of this act: PROVIDED, That any support obligation existing prior to the effective date of the order terminating parental rights shall not be severed or terminated. The rights of one parent may be terminated without affecting the rights of the other parent and the order shall so state.

(2) An order terminating the parent and child relationship shall not disentitle a child to any benefit due the child from any third person, agency, state, or the United States, nor shall any action under this chapter be deemed to affect any rights and benefits that an Indian child derives from the child's descent from a member of a federally recognized Indian tribe.

(3) An order terminating the parent-child relationship shall include a statement addressing the status of the child's sibling relationships and the nature and extent of sibling placement, contact, or visits.

**NEW SECTION. Sec. 3.** A new section is added to chapter 43.20A RCW to read as follows:

The state is not liable for civil damages resulting from any act or omission in the delivery of child welfare services or child protective services through the children's administration of the department of social and health services unless the act or omission constitutes gross negligence. This section does not create any duty and shall not be construed to create a duty where none exists.

**Sec. 4.** RCW 13.34.060 and 2002 c 52 s 4 are each amended to read as follows:

(1) A child taken into custody pursuant to RCW 13.34.050 or 26.44.050 shall be immediately placed in shelter care. A child taken by a relative of the child in violation of RCW 9A.40.060 or 9A.40.070 shall be placed in shelter care only when permitted under RCW 13.34.055. No child may be held longer than seventy-two hours, excluding Saturdays, Sundays, and holidays, after such child is taken into custody unless a court order has been entered for continued shelter care. In no case may a child who is taken into custody pursuant to RCW 13.34.055, 13.34.050, or 26.44.050 be detained in a secure detention facility.

~~((a))~~ (2) Unless there is reasonable cause to believe that the health, safety, or welfare of the child would be jeopardized or that the efforts to reunite the parent and child will be hindered, priority placement for a child in shelter care, pending a court hearing, shall be with any person described in RCW 74.15.020(2)(a) or 13.34.130(1)(b). The person must be willing and available to care for the child and be able to meet any special needs of the child and the court must find that such placement is in the best interests of the child. The person must be willing to facilitate the child's visitation with siblings, if such visitation is part of the supervising agency's plan or is ordered by the court. If a child is not initially placed with a relative or other suitable person requested by the parent pursuant to this section, the supervising agency shall make an effort within available resources to place the child with a relative or other suitable person requested by the parent on the next business day after the child is taken into custody. The supervising agency shall document its effort to place the child with a relative or other suitable person requested by the parent pursuant to this section. Nothing within this subsection ~~((a))~~ (2) establishes an entitlement to services or a right to a particular placement.

~~((b))~~ (3) Whenever a child is taken into custody pursuant to this section, the supervising agency may authorize evaluations of the child's physical or emotional condition, routine medical and dental examination and care, and all necessary emergency care. ~~((In no case may a child who is taken into custody pursuant to RCW 13.34.055, 13.34.050, or 26.44.050 be detained in a secure detention facility. No child may be held longer than seventy-two hours, excluding Saturdays, Sundays and holidays, after such child is taken into~~

custody unless a court order has been entered for continued shelter care. The child and his or her parent, guardian, or custodian shall be informed that they have a right to a shelter care hearing. The court shall hold a shelter care hearing within seventy-two hours after the child is taken into custody, excluding Saturdays, Sundays, and holidays. If a parent, guardian, or legal custodian desires to waive the shelter care hearing, the court shall determine, on the record and with the parties present, whether such waiver is knowing and voluntary.

~~(2) Whenever a child is taken into custody by child protective services pursuant to a court order issued under RCW 13.34.050 or when child protective services is notified that a child has been taken into custody pursuant to RCW 26.44.050 or 26.44.056, child protective services shall make reasonable efforts to inform the parents, guardian, or legal custodian of the fact that the child has been taken into custody, the reasons why the child was taken into custody, and their legal rights under this title as soon as possible and in no event shall notice be provided more than twenty-four hours after the child has been taken into custody or twenty-four hours after child protective services has been notified that the child has been taken into custody. The notice of custody and rights may be given by any means reasonably certain of notifying the parents including, but not limited to, written, telephone, or in person oral notification. If the initial notification is provided by a means other than writing, child protective services shall make reasonable efforts to also provide written notification.)~~

**Sec. 5.** RCW 13.34.062 and 2004 c 147 s 2 are each amended to read as follows:

(1)(a) Whenever a child is taken into custody by child protective services pursuant to a court order issued under RCW 13.34.050 or when child protective services is notified that a child has been taken into custody pursuant to RCW 26.44.050 or 26.44.056, child protective services shall make reasonable efforts to inform the parent, guardian, or legal custodian of the fact that the child has been taken into custody, the reasons why the child was taken into custody, and their legal rights under this title, including the right to a shelter care hearing, as soon as possible. Notice must be provided in an understandable manner and take into consideration the parent's, guardian's, or legal custodian's primary language, level of education, and cultural issues.

(b) In no event shall the notice required by this section be provided to the parent, guardian, or legal custodian more than twenty-four hours after the child has been taken into custody or twenty-four hours after child protective services has been notified that the child has been taken into custody.

(2)(a) The notice of custody and rights may be given by any means reasonably certain of notifying the parents including, but not limited to, written, telephone, or in person oral notification. If the initial notification is provided by a means other than writing, child protective services shall make reasonable efforts to also provide written notification.

(b) The written notice of custody and rights required by ((RCW 13.34.060)) this section shall be in substantially the following form:

**"NOTICE**

Your child has been placed in temporary custody under the supervision of Child Protective Services (or other person or agency). You have important legal rights and you must take steps to protect your interests.

1. A court hearing will be held before a judge within 72 hours of the time your child is taken into custody excluding Saturdays, Sundays, and holidays. You should call the court at (insert appropriate phone number here) for specific information about the date, time, and location of the court hearing.

2. You have the right to have a lawyer represent you at the hearing. Your right to representation continues after the shelter care hearing. To obtain that review, you must, within ten days after the entry of the decision of the court commissioner, file with the court a motion for revision of the decision, as provided in RCW 2.24.050.

You should be present at any shelter care hearing. If you do not come, the judge will not hear what you have to say.

Upon receipt of the written notice, the parent, guardian, or legal custodian shall acknowledge such notice by signing a receipt prepared by child protective services. If the parent, guardian, or legal custodian does not sign the receipt, the reason for lack of a signature shall be written on the receipt. The receipt shall be made a part of the court's file in the dependency action.

If after making reasonable efforts to provide notification, child protective services is unable to determine the whereabouts of the parents, guardian, or legal custodian, the notice shall be delivered or sent to the last known address of the parent, guardian, or legal custodian.

~~((2))~~ (3) If child protective services is not required to give notice under ((RCW 13.34.060(2) and subsection (1) of)) this section, the juvenile court counselor assigned to the matter shall make all reasonable efforts to advise the parents, guardian, or legal custodian of the time and place of any shelter care hearing, request that they be present, and inform them of their basic rights as provided in RCW 13.34.090.

~~((3))~~ (4) Reasonable efforts to advise and to give notice, as required in ((RCW 13.34.060(2) and subsections (1) and (2) of)) this section, shall include, at a minimum, investigation of the whereabouts of the parent, guardian, or legal custodian. If such reasonable efforts are not successful, or the parent, guardian, or legal custodian does not appear at the shelter care hearing, the petitioner shall testify at the hearing or state in a declaration:

(a) The efforts made to investigate the whereabouts of, and to advise, the parent, guardian, or legal custodian; and

(b) Whether actual advice of rights was made, to whom it was made, and how it was made, including the substance of any oral communication or copies of written materials used.

~~((4) The court shall hear evidence regarding notice given to, and efforts to notify, the parent, guardian, or legal custodian and shall examine the need for shelter care. The court shall hear evidence regarding the efforts made to place the child with a relative. The court shall make an express finding as to whether the notice required under RCW 13.34.060(2) and subsections (1) and (2) of this section was given to the parent, guardian, or legal custodian. All parties have the right to present testimony to the court regarding the need or lack of need for shelter care. Hearsay evidence before the court regarding the need or lack of need for shelter care must be supported by sworn testimony, affidavit, or declaration of the person offering such evidence.~~

~~((5)(a) A shelter care order issued pursuant to RCW 13.34.065 shall include the requirement for a case conference as provided in RCW 13.34.067. However, if the parent is not present at the shelter care hearing, or does not agree to the case conference, the court shall not include the requirement for the case conference in the shelter care order.~~

~~((b) If the court orders a case conference, the shelter care order shall include notice to all parties and establish the date, time, and~~

location of the case conference which shall be no later than thirty days prior to the fact-finding hearing.

—(c) The court may order a conference or meeting as an alternative to the case conference required under RCW 13.34.067 so long as the conference or meeting ordered by the court meets all requirements under RCW 13.34.067, including the requirement of a written agreement specifying the services to be provided to the parent.

—(6) A shelter care order issued pursuant to RCW 13.34.065 may be amended at any time with notice and hearing thereon. The shelter care decision of placement shall be modified only upon a showing of change in circumstances. No child may be placed in shelter care for longer than thirty days without an order, signed by the judge, authorizing continued shelter care.

—(7) Any parent, guardian, or legal custodian who for good cause is unable to attend the initial shelter care hearing may request that a subsequent shelter care hearing be scheduled. The request shall be made to the clerk of the court where the petition is filed prior to the initial shelter care hearing. Upon the request of the parent, the court shall schedule the hearing within seventy-two hours of the request, excluding Saturdays, Sundays, and holidays. The clerk shall notify all other parties of the hearing by any reasonable means.))

Sec. 6. RCW 13.34.065 and 2001 c 332 s 3 are each amended to read as follows:

(1)(a) When a child is taken into custody, the court shall hold a shelter care hearing within seventy-two hours, excluding Saturdays, Sundays, and holidays. The primary purpose of the shelter care hearing is to determine whether the child can be immediately and safely returned home while the adjudication of the dependency is pending.

(b) Any parent, guardian, or legal custodian who for good cause is unable to attend the shelter care hearing may request that a subsequent shelter care hearing be scheduled. The request shall be made to the clerk of the court where the petition is filed prior to the initial shelter care hearing. Upon the request of the parent, the court shall schedule the hearing within seventy-two hours of the request, excluding Saturdays, Sundays, and holidays. The clerk shall notify all other parties of the hearing by any reasonable means.

(2)(a) The ((juvenile court probation counselor)) department of social and health services shall submit a recommendation to the court as to the further need for shelter care ((unless the petition has been filed by the department, in which case the recommendation shall be submitted by the department)) in all cases in which it is the petitioner. In all other cases, the recommendation shall be submitted by the juvenile court probation counselor.

(b) All parties have the right to present testimony to the court regarding the need or lack of need for shelter care.

(c) Hearsay evidence before the court regarding the need or lack of need for shelter care must be supported by sworn testimony, affidavit, or declaration of the person offering such evidence.

(3)(a) At the commencement of the hearing, the court shall notify the parent, guardian, or custodian of the following:

(i) The parent, guardian, or custodian has the right to a shelter care hearing;

(ii) The nature of the shelter care hearing, the rights of the parents, and the proceedings that will follow; and

(iii) If the parent, guardian, or custodian is not represented by counsel, the right to be represented. If the parent, guardian, or custodian is indigent, the court shall appoint counsel as provided in RCW 13.34.090; and

(b) If a parent, guardian, or legal custodian desires to waive the shelter care hearing, the court shall determine, on the record and with the parties present, whether such waiver is knowing and voluntary. A parent may not waive his or her right to the shelter care hearing unless he or she appears in court and the court determines that the waiver is knowing and voluntary. Regardless of whether the court accepts the parental waiver of the shelter care hearing, the court must provide notice to the parents of their rights required under (a) of this subsection and make the finding required under subsection (4) of this section.

(4) At the shelter care hearing the court shall examine the need for shelter care and inquire into the status of the case. The paramount

consideration for the court shall be the health, welfare, and safety of the child. At a minimum, the court shall inquire into the following:

(a) Whether the notice required under RCW 13.34.062 was given to all known parents, guardians, or legal custodians of the child. The court shall make an express finding as to whether the notice required under RCW 13.34.062 was given to the parent, guardian, or legal custodian. If actual notice was not given to the parent, guardian, or legal custodian and the whereabouts of such person is known or can be ascertained, the court shall order the supervising agency or the department of social and health services to make reasonable efforts to advise the parent, guardian, or legal custodian of the status of the case, including the date and time of any subsequent hearings, and their rights under RCW 13.34.090;

(b) Whether the child can be safely returned home while the adjudication of the dependency is pending;

(c) What efforts have been made to place the child with a relative;

(d) What services were provided to the family to prevent or eliminate the need for removal of the child from the child's home;

(e) Is the placement proposed by the agency the least disruptive and most family-like setting that meets the needs of the child;

(f) Whether it is in the best interest of the child to remain enrolled in the school, developmental program, or child care the child was in prior to placement and what efforts have been made to maintain the child in the school, program, or child care if it would be in the best interest of the child to remain in the same school, program, or child care;

(g) Appointment of a guardian ad litem or attorney;

(h) Whether the child is or may be an Indian child as defined in 25 U.S.C. Sec. 1903, whether the provisions of the Indian child welfare act apply, and whether there is compliance with the Indian child welfare act, including notice to the child's tribe;

(i) Whether restraining orders, or orders expelling an allegedly abusive parent from the home, will allow the child to safely remain in the home;

(j) Whether any orders for examinations, evaluations, or immediate services are needed. However, the court may not order a parent to undergo examinations, evaluation, or services at the shelter care hearing unless the parent agrees to the examination, evaluation, or service;

(k) The terms and conditions for parental, sibling, and family visitation.

((2)) (5)(a) The court shall release a child alleged to be dependent to the care, custody, and control of the child's parent, guardian, or legal custodian unless the court finds there is reasonable cause to believe that:

((a)) (i) After consideration of the specific services that have been provided, reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home; and

((b)) (ii)(A) The child has no parent, guardian, or legal custodian to provide supervision and care for such child; or

((c)) (B) The release of such child would present a serious threat of substantial harm to such child; or

((d)) (C) The parent, guardian, or custodian to whom the child could be released has been charged with violating RCW 9A.40.060 or 9A.40.070.

(b) If the court does not release the child to his or her parent, guardian, or legal custodian, and the child was initially placed with a relative pursuant to RCW 13.34.060(1), the court shall order continued placement with a relative, unless there is reasonable cause to believe the health, safety, or welfare of the child would be jeopardized or that the efforts to reunite the parent and child will be hindered. The relative must be willing and available to:

(i) Care for the child and be able to meet any special needs of the child;

(ii) Facilitate the child's visitation with siblings, if such visitation is part of the supervising agency's plan or is ordered by the court; and

(iii) Cooperate with the department in providing necessary background checks and home studies.

(c) If the child was not initially placed with a relative, and the court does not release the child to his or her parent, guardian, or legal custodian, the supervising agency shall make reasonable efforts to locate a relative pursuant to RCW 13.34.060(1).

(d) If a relative is not available, the court shall order continued shelter care or order placement with another suitable person, and the court shall set forth its reasons for the order. ~~((The court shall enter a finding as to whether RCW 13.34.060(2) and subsections (1) and (2) of this section have been complied with. If actual notice was not given to the parent, guardian, or legal custodian and the whereabouts of such person is known or can be ascertained, the court shall order the supervising agency or the department of social and health services to make reasonable efforts to advise the parent, guardian, or legal custodian of the status of the case, including the date and time of any subsequent hearings, and their rights under RCW 13.34.090. —(3))~~ If the court orders placement of the child with a person not related to the child and not licensed to provide foster care, the placement is subject to all terms and conditions of this section that apply to relative placements.

(e) Any placement with a relative, or other person approved by the court pursuant to this section, shall be contingent upon cooperation with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order is grounds for removal of the child from the home of the relative or other person, subject to review by the court.

(6)(a) A shelter care order issued pursuant to this section shall include the requirement for a case conference as provided in RCW 13.34.067. However, if the parent is not present at the shelter care hearing, or does not agree to the case conference, the court shall not include the requirement for the case conference in the shelter care order.

(b) If the court orders a case conference, the shelter care order shall include notice to all parties and establish the date, time, and location of the case conference which shall be no later than thirty days before the fact-finding hearing.

(c) The court may order another conference, case staffing, or hearing as an alternative to the case conference required under RCW 13.34.067 so long as the conference, case staffing, or hearing ordered by the court meets all requirements under RCW 13.34.067, including the requirement of a written agreement specifying the services to be provided to the parent.

(7)(a) A shelter care order issued pursuant to this section may be amended at any time with notice and hearing thereon. The shelter care decision of placement shall be modified only upon a showing of change in circumstances. No child may be placed in shelter care for longer than thirty days without an order, signed by the judge, authorizing continued shelter care.

(b)(i) An order releasing the child on any conditions specified in this section may at any time be amended, with notice and hearing thereon, so as to return the child to shelter care for failure of the parties to conform to the conditions originally imposed.

(ii) The court shall consider whether nonconformance with any conditions resulted from circumstances beyond the control of the parent, guardian, or legal custodian and give weight to that fact before ordering return of the child to shelter care.

~~((4))~~ (8)(a) If a child is returned home from shelter care a second time in the case, or if the supervisor of the caseworker deems it necessary, the multidisciplinary team may be reconvened.

~~((5))~~ (b) If a child is returned home from shelter care a second time in the case a law enforcement officer must be present and file a report to the department.

**Sec. 7.** RCW 13.34.130 and 2003 c 227 s 3 are each amended to read as follows:

If, after a fact-finding hearing pursuant to RCW 13.34.110, it has been proven by a preponderance of the evidence that the child is dependent within the meaning of RCW 13.34.030 after consideration of the social study prepared pursuant to RCW 13.34.110 and after a disposition hearing has been held pursuant to RCW 13.34.110, the court shall enter an order of disposition pursuant to this section.

(1) The court shall order one of the following dispositions of the case:

(a) Order a disposition other than removal of the child from his or her home, which shall provide a program designed to alleviate the immediate danger to the child, to mitigate or cure any damage the

child has already suffered, and to aid the parents so that the child will not be endangered in the future. In determining the disposition, the court should choose those services, including housing assistance, that least interfere with family autonomy and are adequate to protect the child.

(b) Order the child to be removed from his or her home and into the custody, control, and care of a relative or the department or a licensed child placing agency for placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or in a home not required to be licensed pursuant to chapter 74.15 RCW. Unless there is reasonable cause to believe that the health, safety, or welfare of the child would be jeopardized or that efforts to reunite the parent and child will be hindered, such child shall be placed with a person who is: (i) Related to the child as defined in RCW 74.15.020(2)(a) with whom the child has a relationship and is comfortable; and (ii) willing and available to care for the child.

(2) Placement of the child with a relative under this subsection shall be given preference by the court. An order for out-of-home placement may be made only if the court finds that reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home, specifying the services that have been provided to the child and the child's parent, guardian, or legal custodian, and that preventive services have been offered or provided and have failed to prevent the need for out-of-home placement, unless the health, safety, and welfare of the child cannot be protected adequately in the home, and that:

(a) There is no parent or guardian available to care for such child;

(b) The parent, guardian, or legal custodian is not willing to take custody of the child; or

(c) The court finds, by clear, cogent, and convincing evidence, a manifest danger exists that the child will suffer serious abuse or neglect if the child is not removed from the home and an order under RCW 26.44.063 would not protect the child from danger.

(3) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section, the court shall consider whether it is in a child's best interest to be placed with, have contact with, or have visits with siblings.

(a) There shall be a presumption that such placement, contact, or visits are in the best interests of the child provided that:

(i) The court has jurisdiction over all siblings subject to the order of placement, contact, or visitation pursuant to petitions filed under this chapter or the parents of a child for whom there is no jurisdiction are willing to agree; and

(ii) There is no reasonable cause to believe that the health, safety, or welfare of any child subject to the order of placement, contact, or visitation would be jeopardized or that efforts to reunite the parent and child would be hindered by such placement, contact, or visitation. In no event shall parental visitation time be reduced in order to provide sibling visitation.

(b) The court may also order placement, contact, or visitation of a child with a step-brother or step-sister provided that in addition to the factors in (a) of this subsection, the child has a relationship and is comfortable with the step-sibling.

(4) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section and placed into nonparental or nonrelative care, the court shall order a placement that allows the child to remain in the same school he or she attended prior to the initiation of the dependency proceeding when such a placement is practical and in the child's best interest.

(5) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section, the court may order that a petition seeking termination of the parent and child relationship be filed if the requirements of RCW 13.34.132 are met.

~~((5))~~ (6) If there is insufficient information at the time of the disposition hearing upon which to base a determination regarding the suitability of a proposed placement with a relative, the child shall remain in foster care and the court shall direct the supervising agency to conduct necessary background investigations as provided in chapter 74.15 RCW and report the results of such investigation to the court within thirty days. However, if such relative appears otherwise suitable and competent to provide care and treatment, the criminal history background check need not be completed before placement,

but as soon as possible after placement. Any placements with relatives, pursuant to this section, shall be contingent upon cooperation by the relative with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts, sibling contacts, and any other conditions imposed by the court. Noncompliance with the case plan or court order shall be grounds for removal of the child from the relative's home, subject to review by the court.

**Sec. 8.** RCW 13.34.136 and 2004 c 146 s 1 are each amended to read as follows:

(1) ~~((Whenever a child is ordered removed from the child's home;))~~ A permanency plan shall be developed no later than sixty days from the time the supervising agency assumes responsibility for providing services, including placing the child, or at the time of a hearing under RCW 13.34.130, whichever occurs first. The permanency planning process continues until a permanency planning goal is achieved or dependency is dismissed. The planning process shall include reasonable efforts to return the child to the parent's home.

(2) ~~The agency ((charged with his or her care shall provide the court with))~~ supervising the dependency shall submit a written permanency plan to all parties and the court not less than fourteen days prior to the scheduled hearing. Responsive reports of parties not in agreement with the supervising agency's proposed permanency plan must be provided to the supervising agency, all other parties, and the court at least seven days prior to the hearing.

The permanency plan shall include:

(a) A permanency plan of care that shall identify one of the following outcomes as a primary goal and may identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; successful completion of a responsible living skills program; or independent living, if appropriate and if the child is age sixteen or older. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW;

(b) Unless the court has ordered, pursuant to RCW 13.34.130(4), that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to return the child home, what steps the agency will take to promote existing appropriate sibling relationships and/or facilitate placement together or contact in accordance with the best interests of each child, and what actions the agency will take to maintain parent-child ties. All aspects of the plan shall include the goal of achieving permanence for the child.

(i) The agency plan shall specify what services the parents will be offered to enable them to resume custody, what requirements the parents must meet to resume custody, and a time limit for each service plan and parental requirement.

(ii) Visitation is the right of the family, including the child and the parent, in cases in which visitation is in the best interest of the child. Early, consistent, and frequent visitation is crucial for maintaining parent-child relationships and making it possible for parents and children to safely reunify. The agency shall encourage the maximum parent and child and sibling contact possible, when it is in the best interest of the child, including regular visitation and participation by the parents in the care of the child while the child is in placement. Visitation shall not be limited as a sanction for a parent's failure to comply with court orders or services where the health, safety, or welfare of the child is not at risk as a result of the visitation. Visitation may be limited or denied only if the court determines that such limitation or denial is necessary to protect the child's health, safety, or welfare. The court and the agency should rely upon community resources, relatives, foster parents, and other appropriate persons to provide transportation and supervision for visitation to the extent that such resources are available, and appropriate, and the child's safety would not be compromised.

(iii) A child shall be placed as close to the child's home as possible, preferably in the child's own neighborhood, unless the court finds that placement at a greater distance is necessary to promote the child's or parents' well-being.

(iv) The plan shall state whether both in-state and, where appropriate, out-of-state placement options have been considered by the department.

(v) Unless it is not in the best interests of the child, whenever practical, the plan should ensure the child remains enrolled in the school the child was attending at the time the child entered foster care.

(vi) The agency charged with supervising a child in placement shall provide all reasonable services that are available within the agency, or within the community, or those services which the department has existing contracts to purchase. It shall report to the court if it is unable to provide such services; and

(c) If the court has ordered, pursuant to RCW 13.34.130(4), that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to achieve permanency for the child, services to be offered or provided to the child, and, if visitation would be in the best interests of the child, a recommendation to the court regarding visitation between parent and child pending a fact-finding hearing on the termination petition. The agency shall not be required to develop a plan of services for the parents or provide services to the parents if the court orders a termination petition be filed. However, reasonable efforts to ensure visitation and contact between siblings shall be made unless there is reasonable cause to believe the best interests of the child or siblings would be jeopardized.

~~((2))~~ (3) Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order.

(4) If the court determines that the continuation of reasonable efforts to prevent or eliminate the need to remove the child from his or her home or to safely return the child home should not be part of the permanency plan of care for the child, reasonable efforts shall be made to place the child in a timely manner and to complete whatever steps are necessary to finalize the permanent placement of the child.

~~((3))~~ (5) The identified outcomes and goals of the permanency plan may change over time based upon the circumstances of the particular case.

(6) The court shall consider the child's relationships with the child's siblings in accordance with RCW 13.34.130(3).

(7) For purposes related to permanency planning:

(a) "Guardianship" means a dependency guardianship or a legal guardianship pursuant to chapter 11.88 RCW or equivalent laws of another state or a federally recognized Indian tribe.

(b) "Permanent custody order" means a custody order entered pursuant to chapter 26.10 RCW.

(c) "Permanent legal custody" means legal custody pursuant to chapter 26.10 RCW or equivalent laws of another state or a federally recognized Indian tribe.

**Sec. 9.** RCW 13.34.138 and 2005 c 512 s 3 are each amended to read as follows:

(1) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first (~~at a~~). The purpose of the hearing ((in which it)) shall be ((determined)) to review the progress of the parties and determine whether court supervision should continue.

(a) The initial review hearing shall be an in-court review and shall be set six months from the beginning date of the placement episode or no more than ninety days from the entry of the disposition order, whichever comes first. The requirements for the initial review hearing, including the in-court review requirement, shall be accomplished within existing resources.

(b) The initial review hearing may be a permanency planning hearing when necessary to meet the time frames set forth in RCW 13.34.145~~((3))~~ (1)(a) or 13.34.134. ~~((The review shall include findings regarding the agency and parental completion of disposition plan requirements, and if necessary, revised permanency time limits. This review shall consider both the agency's and parent's efforts that demonstrate consistent measurable progress over time in meeting the disposition plan requirements. The requirements for the initial review hearing, including the in-court requirement, shall be accomplished within existing resources. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to that child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.))~~

(2)(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

(i) ~~((Whether reasonable services have been provided to or offered to the parties to facilitate reunion, specifying the services provided or offered))~~ Whether the agency is making reasonable efforts to provide services to the family and eliminate the need for placement of the child. If additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents, the court shall order that reasonable services be offered specifying such services;

(ii) Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement;

(iii) Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care;

(iv) Whether the services set forth in the case plan and the responsibilities of the parties need to be clarified or modified due to the availability of additional information or changed circumstances;

(v) Whether there is a continuing need for placement;

(vi) Whether the child is in an appropriate placement which adequately meets all physical, emotional, and educational needs;

~~((iii))~~ (vii) Whether ~~((the child has been placed in the least-restrictive setting appropriate to the child's needs, including whether consideration and))~~ preference has been given to placement with the child's relatives;

~~((iii))~~ (iii) Whether there is a continuing need for placement and whether the placement is appropriate;

(iv) Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement;

(v) Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care;

~~((vi))~~ (vii) Whether both in-state and, where appropriate, out-of-state placements have been considered;

(ix) Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;

~~((vii))~~ (vii) Whether additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents; if so, the court shall order that reasonable services be offered specifying such services; and

~~((viii))~~ (x) Whether terms of visitation need to be modified;

(xi) Whether the court-approved long-term permanent plan for the child remains the best plan for the child;

(xii) Whether any additional court orders need to be made to move the case toward permanency; and

(xiii) The projected date by which the child will be returned home or other permanent plan of care will be implemented.

(c) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

~~((2))~~ (3)(a) In any case in which the court orders that a dependent child may be returned to or remain in the child's home, the in-home placement shall be contingent upon the following:

(i) The compliance of the parents with court orders related to the care and supervision of the child, including compliance with an agency case plan; and

(ii) The continued participation of the parents, if applicable, in available substance abuse or mental health treatment if substance abuse or mental illness was a contributing factor to the removal of the child.

(b) The following may be grounds for removal of the child from the home, subject to review by the court:

(i) Noncompliance by the parents with the agency case plan or court order;

(ii) The parent's inability, unwillingness, or failure to participate in available services or treatment for themselves or the child, including substance abuse treatment if a parent's substance abuse was a contributing factor to the abuse or neglect; or

(iii) The failure of the parents to successfully and substantially complete available services or treatment for themselves or the child, including substance abuse treatment if a parent's substance abuse was a contributing factor to the abuse or neglect.

~~((3))~~ (4) The court's ability to order housing assistance under RCW 13.34.130 and this section is: (a) Limited to cases in which homelessness or the lack of adequate and safe housing is the primary reason for an out-of-home placement; and (b) subject to the availability of funds appropriated for this specific purpose.

~~((4))~~ (5) The court shall consider the child's relationship with siblings in accordance with RCW 13.34.130(3).

**Sec. 10.** RCW 13.34.145 and 2003 c 227 s 6 are each amended to read as follows:

(1) ~~((A permanency plan shall be developed no later than sixty days from the time the supervising agency assumes responsibility for providing services, including placing the child, or at the time of a hearing under RCW 13.34.130, whichever occurs first. The permanency planning process continues until a permanency planning goal is achieved or dependency is dismissed. The planning process shall include reasonable efforts to return the child to the parent's home.~~

~~((a))~~ Whenever a child is placed in out-of-home care pursuant to RCW 13.34.130, the agency that has custody of the child shall provide the court with a written permanency plan of care directed towards securing a safe, stable, and permanent home for the child as soon as possible. The plan shall identify one of the following outcomes as the primary goal and may also identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; a responsible living skills program; and independent living, if appropriate and if the child is age sixteen or older and the provisions of subsection (2) of this section are met.

~~((b))~~ The identified outcomes and goals of the permanency plan may change over time based upon the circumstances of the particular case.

~~((c))~~ Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order.

~~((d))~~ For purposes related to permanency planning:

~~((i))~~ "Guardianship" means a dependency guardianship, a legal guardianship pursuant to chapter 11.88 RCW, or equivalent laws of another state or a federally recognized Indian tribe.

~~((ii))~~ "Permanent custody order" means a custody order entered pursuant to chapter 26.10 RCW.

~~((iii))~~ "Permanent legal custody" means legal custody pursuant to chapter 26.10 RCW or equivalent laws of another state or of a federally recognized Indian tribe.

~~((2))~~ Whenever a permanency plan identifies independent living as a goal, the plan shall also specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living. Before the court approves independent living as a permanency plan of care, the court shall make

a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial, personal, social, educational, and nonfinancial affairs. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

~~(3)~~ The purpose of a permanency planning hearing is to review the permanency plan for the child, inquire into the welfare of the child and progress of the case, and reach decisions regarding the permanent placement of the child.

(a) A permanency planning hearing shall be held in all cases where the child has remained in out-of-home care for at least nine months and an adoption decree, guardianship order, or permanent custody order has not previously been entered. The hearing shall take place no later than twelve months following commencement of the current placement episode.

~~((4))~~ (b) Whenever a child is removed from the home of a dependency guardian or long-term relative or foster care provider, and the child is not returned to the home of the parent, guardian, or legal custodian but is placed in out-of-home care, a permanency planning hearing shall take place no later than twelve months, as provided in ~~(subsection (3) of)~~ this section, following the date of removal unless, prior to the hearing, the child returns to the home of the dependency guardian or long-term care provider, the child is placed in the home of the parent, guardian, or legal custodian, an adoption decree, guardianship order, or a permanent custody order is entered, or the dependency is dismissed.

~~((5))~~ (c) Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order.

(2) No later than ten working days prior to the permanency planning hearing, the agency having custody of the child shall submit a written permanency plan to the court and shall mail a copy of the plan to all parties and their legal counsel, if any.

~~((6))~~ (3) At the permanency planning hearing, the court shall ~~(enter findings as required by RCW 13.34.138 and shall review the permanency plan prepared by the agency)~~ conduct the following inquiry:

(a) If a goal of long-term foster or relative care has been achieved prior to the permanency planning hearing, the court shall review the child's status to determine whether the placement and the plan for the child's care remain appropriate.

(b) In cases where the primary permanency planning goal has not been achieved, the court shall inquire regarding the reasons why the primary goal has not been achieved and determine what needs to be done to make it possible to achieve the primary goal. The court shall review the permanency plan prepared by the agency and make explicit findings regarding each of the following:

(i) The continuing necessity for, and the safety and appropriateness of, the placement;

(ii) The extent of compliance with the permanency plan by the agency and any other service providers, the child's parents, the child, and the child's guardian, if any;

(iii) The extent of any efforts to involve appropriate service providers in addition to agency staff in planning to meet the special needs of the child and the child's parents;

(iv) The progress toward eliminating the causes for the child's placement outside of his or her home and toward returning the child safely to his or her home or obtaining a permanent placement for the child;

(v) The date by which it is likely that the child will be returned to his or her home or placed for adoption, with a guardian or in some other alternative permanent placement; and

(vi) If the child has been placed outside of his or her home for fifteen of the most recent twenty-two months, not including any period during which the child was a runaway from the out-of-home placement or the first six months of any period during which the child was returned to his or her home for a trial home visit, the

appropriateness of the permanency plan, whether reasonable efforts were made by the agency to achieve the goal of the permanency plan, and the circumstances which prevent the child from any of the following:

(A) Being returned safely to his or her home;

(B) Having a petition for the involuntary termination of parental rights filed on behalf of the child;

(C) Being placed for adoption;

(D) Being placed with a guardian;

(E) Being placed in the home of a fit and willing relative of the child; or

(F) Being placed in some other alternative permanent placement, including independent living or long-term foster care.

(c)(i) If the permanency plan identifies independent living as a goal, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial, personal, social, educational, and nonfinancial affairs prior to approving independent living as a permanency plan of care.

(ii) The permanency plan shall also specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living.

(iii) The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(d) If the child has resided in the home of a foster parent or relative for more than six months prior to the permanency planning hearing, the court shall also enter a finding regarding whether the foster parent or relative was informed of the hearing as required in RCW 74.13.280 and 13.34.138. ~~(If a goal of long-term foster or relative care has been achieved prior to the permanency planning hearing, the court shall review the child's status to determine whether the placement and the plan for the child's care remain appropriate. In cases where the primary permanency planning goal has not been achieved, the court shall inquire regarding the reasons why the primary goal has not been achieved and determine what needs to be done to make it possible to achieve the primary goal.)~~

(4) In all cases, at the permanency planning hearing, the court shall:

(a)(i) Order the permanency plan prepared by the agency to be implemented; or

(ii) Modify the permanency plan, and order implementation of the modified plan; and

(b)(i) Order the child returned home only if the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists; or

(ii) Order the child to remain in out-of-home care for a limited specified time period while efforts are made to implement the permanency plan.

~~((7))~~ (5) Following the first permanency planning hearing, the court shall hold a further permanency planning hearing in accordance with this section at least once every twelve months until a permanency planning goal is achieved or the dependency is dismissed, whichever occurs first.

(6) Prior to the second permanency planning hearing, the agency that has custody of the child shall consider whether to file a petition for termination of parental rights.

(7) If the court orders the child returned home, casework supervision shall continue for at least six months, at which time a review hearing shall be held pursuant to RCW 13.34.138, and the court shall determine the need for continued intervention.

(8) The juvenile court may hear a petition for permanent legal custody when: (a) The court has ordered implementation of a permanency plan that includes permanent legal custody; and (b) the party pursuing the permanent legal custody is the party identified in the permanency plan as the prospective legal custodian. During the pendency of such proceeding, the court shall conduct review hearings and further permanency planning hearings as provided in this chapter. At the conclusion of the legal guardianship or permanent legal custody proceeding, a juvenile court hearing shall be held for the purpose of determining whether dependency should be dismissed. If a guardianship or permanent custody order has been entered, the dependency shall be dismissed.

(9) Continued juvenile court jurisdiction under this chapter shall not be a barrier to the entry of an order establishing a legal guardianship or permanent legal custody when the requirements of subsection (8) of this section are met.

(10) ~~((Following the first permanency planning hearing, the court shall hold a further permanency planning hearing in accordance with this section at least once every twelve months until a permanency planning goal is achieved or the dependency is dismissed, whichever occurs first.~~

~~—(11) Except as provided in RCW 13.34.235, the status of all dependent children shall continue to be reviewed by the court at least once every six months, in accordance with RCW 13.34.138, until the dependency is dismissed. Prior to the second permanency planning hearing, the agency that has custody of the child shall consider whether to file a petition for termination of parental rights.~~

~~—(12)) Nothing in this chapter may be construed to limit the ability of the agency that has custody of the child to file a petition for termination of parental rights or a guardianship petition at any time following the establishment of dependency. Upon the filing of such a petition, a fact-finding hearing shall be scheduled and held in accordance with this chapter unless the agency requests dismissal of the petition prior to the hearing or unless the parties enter an agreed order terminating parental rights, establishing guardianship, or otherwise resolving the matter.~~

~~((13)) (11) The approval of a permanency plan that does not contemplate return of the child to the parent does not relieve the supervising agency of its obligation to provide reasonable services, under this chapter, intended to effectuate the return of the child to the parent, including but not limited to, visitation rights. The court shall consider the child's relationships with siblings in accordance with RCW 13.34.130.~~

~~((14)) (12) Nothing in this chapter may be construed to limit the procedural due process rights of any party in a termination or guardianship proceeding filed under this chapter.~~

(2) The general indebtedness incurred under this section may be payable from other tax revenues, the full faith and credit of the sponsoring local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the local government for payment of costs of the grants and other programs or associated debt service on the general indebtedness.

AN ACT Relating to reducing offender recidivism by increasing access and coordination of offender services in communities through inventories of services and community transition coordination network pilot programs; by improving local law and justice councils to focus their efforts on effective use of correctional resources and coordination between state and local law enforcement and corrections agencies; by developing and implementing individual reentry plans that describe actions and services to prepare offenders for release from jail or prison and require an offender to participate in available programming directed in their plan in order to qualify for fifty percent earned early release; by excluding the use of an individual reentry plan as the basis in civil actions against local governments; by requiring an offender released to community supervision to be returned to the county of origin unless it is inappropriate due to matters of victim safety, lack of family or other supports for the offender in other locations, or negative influences on the offender in that community; by requiring the department of corrections to prepare a list of counties and rural multicounty areas for anticipated siting of work release, community justice centers and other community-based correctional facilities while making substantial efforts to provide for the equitable distribution of the facilities; by studying and identifying evidence-based practices for work release; by increasing the use of effective practices in residential and nonresidential transition facilities for offenders under the jurisdiction of the

department of corrections; by permitting partial confinement in lieu of earned early release up to three months; by requiring, upon a finding at a third violation hearing that the offender committed a violation, the return of an offender to total confinement to serve up to the remaining portion of his or her sentence unless it is determined that returning the offender would interfere with the offender's ability to maintain community supports or participate in treatment and would increase the likelihood of reoffending; by requiring an offender arrested for a new felony while under community custody, community placement, or community supervision to be held in confinement until a hearing before the department or until a formal charge is filed, whichever is earlier; by prohibiting an offender under community custody, community placement, or community supervision who is found guilty of a new felony after the effective date of this act from qualifying for fifty percent earned early release; by creating a task force to study and review the current laws and policy regarding community custody and community supervision; by conducting a community corrections workload study; by improving educational opportunities; by providing liability protection for landlords who rent to former offenders and entities participating in the transitional housing program under certain conditions; by encouraging housing authorities to formulate rental policies not overly burdensome to previously incarcerated individuals; by establishing a transitional housing program for offenders in need of stable housing; by allowing funds to be disbursed from a personal inmate savings account in order to assist an offender to secure appropriate housing; by establishing expedited procedures for released offenders to obtain a driver's license or identification card; by reviewing and recommending changes to occupational licensing laws; and by adding appropriations for sections 305(2) and (4), section 304(1)(b)(ii)(D) and (E), and section 307 of this act; amending RCW 72.09.300, 72.09.015, 9.94A.728, 9.94A.737, 72.09.460, 72.09.480, and 72.09.111; adding new sections to chapter 72.09 RCW; adding a new section to chapter 59.18 RCW; adding a new section to chapter 35.82 RCW; adding a new section to chapter 43.185C RCW; adding a new chapter to Title 72 RCW; creating new sections; making appropriations; and providing expiration dates.

(2) The average assessed value per square foot of taxable land within the revenue development area boundaries, as of January 1st of the year the application is submitted to the board under RCW 39.102.040, may not exceed seventy dollars at the time the revenue development area is designated;

(3) ~~(No more than one revenue development area may be created in a county))~~ No revenue development area shall have within its geographic boundaries any part of a hospital benefit zone under chapter 39.100 RCW or any part of another revenue development area created under this chapter;

(6) The public improvements financed through local infrastructure financing must be located in the revenue development area;

(7) A revenue development area cannot comprise an area containing more than twenty-five percent of the total assessed value of the taxable real property within the boundaries of the sponsoring local government, including any cosponsoring local government, at the time the revenue development area is designated;

(9) A revenue development area cannot include any part of an increment area created under chapter 39.89 RCW, except those increment areas created prior to January 1, 2006.

**Sec. 5.** RCW 39.102.090 and 2006 c 181 s 207 are each amended to read as follows:

(1) To ~~((create))~~ adopt a revenue development area, a sponsoring local government, and any cosponsoring local government, must adopt an ordinance establishing the revenue development area that:

(b) Describes the boundaries of the revenue development area, subject to the limitations in RCW 39.102.060;

(c) Estimates the cost of the proposed public improvements and the portion of these costs to be financed by local infrastructure financing;

(2) The sponsoring local government, and any cosponsoring local government, must hold a public hearing on the proposed financing of the public improvements in whole or in part with local infrastructure financing ~~((at least thirty days))~~ before passage of the ordinance establishing the revenue development area. The public hearing may be held by either the governing body of the sponsoring local government and the governing body of any cosponsoring local government, or by a committee of those governing bodies that includes at least a majority of the whole governing body or bodies. The public hearing is subject to the notice requirements in RCW 39.102.100.

(3) The sponsoring local government, and any cosponsoring local government, shall deliver a certified copy of the adopted ordinance to the county treasurer, the governing body of each participating local government and participating taxing district within which the revenue development area is located, the board, and the department.

**Sec. 6.** RCW 39.102.110 and 2006 c 181 s 301 are each amended to read as follows:

(1) A sponsoring local government or participating local government that has received approval by the board to use local infrastructure financing may use annually its local excise tax allocation revenues to finance public improvements in the revenue development area financed in whole or in part by local infrastructure financing. The use of local excise tax allocation revenues dedicated by participating local governments must cease ~~((when such allocation revenues are no longer necessary or obligated to pay bonds issued to finance the public improvements in the revenue development area))~~

on the date specified in the written agreement required in RCW 39.102.080(1), or if no date is specified then the date when the local tax under RCW 82.14.475 expires. Any participating local government is authorized to dedicate local excise tax allocation revenues to the sponsoring local government as authorized in RCW 39.102.080(1).

(2) A sponsoring local government shall provide the board accurate information describing the geographical boundaries of the revenue development area at the time of application. The information shall be provided in an electronic format or manner as prescribed by the department. The sponsoring local government shall ensure that the boundary information provided to the board and department is kept current.

(3) In the event a city annexes a county area located within a county-sponsored revenue development area, the city shall remit to the county the portion of the local excise tax allocation revenue that the county would have received had the area not been annexed to the county. The city shall remit such revenues until such time as the bonds issued under RCW 39.102.150 are retired.

**Sec. 7.** RCW 39.102.120 and 2006 c 181 s 302 are each amended to read as follows:

(1) Commencing in the second calendar year following ~~((the passage of the ordinance creating a revenue development area and authorizing the use of local infrastructure financing))~~ board approval of a revenue development area, the county treasurer shall distribute receipts from regular taxes imposed on real property located in the revenue development area as follows:

(a) Each participating taxing district and the sponsoring local government shall receive that portion of its regular property taxes produced by the rate of tax levied by or for the taxing district on the property tax allocation revenue base value for that local infrastructure financing project in the taxing district, or upon the total assessed value of real property in the taxing district, whichever is smaller; and

(b) The sponsoring local government shall receive an additional portion of the regular property taxes levied by it and by or for each participating taxing district upon the property tax allocation revenue value within the revenue development area. However, if there is no property tax allocation revenue value, the sponsoring local government shall not receive any additional regular property taxes under this subsection (1)(b). The sponsoring local government may agree to receive less than the full amount of the additional portion of regular property taxes under this subsection (1)(b) as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the participating taxing districts that levied regular property taxes, or have regular property taxes levied for them, in the revenue development area for collection that year in proportion to their regular tax levy rates for collection that year. The sponsoring local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the sponsoring local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by local infrastructure financing.

(2) The county assessor shall allocate any increase in the assessed value of real property occurring in the revenue development area to the property tax allocation revenue value and property tax allocation revenue base value as appropriate. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor's revaluation plan under chapter 84.41 RCW or under other authorized revaluation procedures.

(3) The apportionment of increases in assessed valuation in a revenue development area, and the associated distribution to the sponsoring local government of receipts from regular property taxes that are imposed on the property tax allocation revenue value, must cease when property tax allocation revenues are no longer ~~((necessary or))~~ obligated to pay the costs of the public improvements. Any excess local property tax allocation revenues derived from regular property taxes and earnings on these tax allocation revenues, remaining at the time the allocation of tax

receipts terminates, must be returned to the county treasurer and distributed to the participating taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the revenue development area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

(4) The allocation to the revenue development area of portions of the local regular property taxes levied by or for each taxing district upon the property tax allocation revenue value within that revenue development area is declared to be a public purpose of and benefit to each such taxing district.

(5) The allocation of local property tax allocation revenues pursuant to this section shall not affect or be deemed to affect the rate of taxes levied by or within any taxing district or the consistency of any such levies with the uniformity requirement of Article VII, section 1 of the state Constitution.

(6) This section does not apply to those revenue development areas that include any part of an increment area created under chapter 39.89 RCW.

**Sec. 8.** RCW 82.14.475 and 2006 c 181 s 401 are each amended to read as follows:

(1) A sponsoring local government, and any cosponsoring local government, that has been approved by the board to use local infrastructure financing may impose a sales and use tax in accordance with the terms of this chapter and subject to the criteria set forth in this section. Except as provided in this section, the tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing jurisdiction of the sponsoring local government or cosponsoring local government. The rate of tax shall not exceed the rate provided in RCW 82.08.020(1), less the aggregate rates of any other local sales and use taxes imposed on the same taxable events that are credited against the state sales and use taxes imposed under chapters 82.08 and 82.12 RCW. The rate of tax may be changed only on the first day of a fiscal year as needed. Notice of rate changes must be provided to the department on the first day of March to be effective on July 1st of the next fiscal year.

(2) The tax authorized under subsection (1) of this section shall be credited against the state taxes imposed under chapter 82.08 or 82.12 RCW. The department shall perform the collection of such taxes on behalf of the sponsoring local government or cosponsoring local government at no cost to the sponsoring local government or cosponsoring local government and shall remit the taxes as provided in RCW 82.14.060.

(3)(a) No tax may be imposed under the authority of this section:

(i) Before July 1, 2008;

(ii) Before approval by the board under RCW 39.102.040; and

(iii) ~~((Except as provided in (b) of this subsection, unless))~~ Before the sponsoring local government has received ((and dedicated to the payment of bonds authorized in RCW 39.102.150, in whole or in part, both)) local excise tax allocation revenues ((and)) local property tax allocation revenues, or both, during the preceding calendar year.

(b) ~~((The requirement to receive local property tax allocation revenues under (a) of this subsection is waived if the revenue development area coincides with or is contained entirely within the boundaries of an increment area adopted by a local government under the authority of chapter 39.89 RCW for the purposes of utilizing community revitalization financing.~~

~~—(c))~~ The tax imposed under this section shall expire when the bonds issued under the authority of RCW 39.102.150 are retired, but not more than twenty-five years after the tax is first imposed.

(4) An ordinance adopted by the legislative authority of a sponsoring local government or cosponsoring local government imposing a tax under this section shall provide that:

(a) The tax shall first be imposed on the first day of a fiscal year;

(b) The cumulative amount of tax received by the sponsoring local government, and any cosponsoring local government, in any fiscal year shall not exceed the amount of the state contribution;

(c) The tax shall cease to be distributed for the remainder of any fiscal year in which either:

(i) The amount of tax received by the sponsoring local government, and any cosponsoring local government, equals the amount of the state contribution;

(ii) The amount of revenue from taxes imposed under this section by all sponsoring and cosponsoring local governments equals the annual state contribution limit; or

(iii) The amount of tax received by the sponsoring local government equals the amount of project award granted in the approval notice described in RCW 39.102.040;

(d) ~~((Except when the requirement to receive local property tax allocation revenues is waived as provided in subsection (3)(b) of this section,))~~ Neither the local excise tax allocation revenues nor the local property tax allocation revenues ((can be)) may constitute more than eighty percent of the total local funds as described in RCW 39.102.020(29)(c). This requirement applies beginning January 1st of the fifth calendar year after the calendar year in which the sponsoring local government begins allocating local excise tax allocation revenues under RCW 39.102.110;

(e) The tax shall be distributed again, should it cease to be distributed for any of the reasons provided in (c) of this subsection, at the beginning of the next fiscal year, subject to the restrictions in this section; and

(f) Any revenue generated by the tax in excess of the amounts specified in (c) of this subsection shall belong to the state of Washington.

(5) If a county and city cosponsor a revenue development area, the combined rates of the city and county tax shall not exceed the rate provided in RCW 82.08.020(1), less the aggregate rates of any other local sales and use taxes imposed on the same taxable events that are credited against the state sales and use taxes imposed under chapters 82.08 and 82.12 RCW. The combined amount of distributions received by both the city and county may not exceed the state contribution.

(6) The department shall determine the amount of tax receipts distributed to each sponsoring local government, and any cosponsoring local government, imposing sales and use tax under this section and shall advise a sponsoring or cosponsoring local government when tax distributions for the fiscal year equal the amount of state contribution for that fiscal year as provided in subsection (8) of this section. Determinations by the department of the amount of tax distributions attributable to each sponsoring or cosponsoring local government are final and shall not be used to challenge the validity of any tax imposed under this section. The department shall remit any tax receipts in excess of the amounts specified in subsection (4)(c) of this section to the state treasurer who shall deposit the money in the general fund.

(7) If a sponsoring or cosponsoring local government fails to comply with RCW 39.102.140, no tax may be distributed in the subsequent fiscal year until such time as the sponsoring or cosponsoring local government complies and the department calculates the state contribution amount for such fiscal year.

(8) Each year, the amount of taxes approved by the department for distribution to a sponsoring or cosponsoring local government in the next fiscal year shall be equal to the state contribution and shall be no more than the total local funds as described in RCW 39.102.020(29)(c). The department shall consider information from reports described in RCW 39.102.140 when determining the amount of state contributions for each fiscal year. A sponsoring or cosponsoring local government shall not receive, in any fiscal year, more revenues from taxes imposed under the authority of this section than the amount approved annually by the department. The department shall not approve the receipt of more distributions of sales and use tax under this section to a sponsoring or cosponsoring local government than is authorized under subsection (4) of this section.

(9) The amount of tax distributions received from taxes imposed under the authority of this section by all sponsoring and cosponsoring local governments is limited annually to not more than ~~((five))~~ seven million five hundred thousand dollars. ~~((The tax distributions shall be available to the sponsoring local government, and any cosponsoring local government, imposing a tax under this section only as long as the sponsoring local government has outstanding indebtedness under RCW 39.102.150;))~~

(10) The definitions in RCW 39.102.020 apply to this section unless the context clearly requires otherwise.

(11) If a sponsoring local government is a federally recognized Indian tribe, the distribution of the sales and use tax authorized under this section shall be authorized through an interlocal agreement pursuant to chapter 39.34 RCW.

(12) Subject to section 14 of this act, the tax imposed under the authority of this section may be applied either to provide for the payment of debt service on bonds issued under RCW 39.102.150 by the sponsoring local government or to pay public improvement costs on a pay-as-you-go basis, or both.

(13) The tax imposed under the authority of this section shall cease to be imposed if the sponsoring local government or cosponsoring local government fails to issue bonds under the authority of RCW 39.102.150 by June 30th of the fifth fiscal year in which the local tax authorized under this section is imposed.

**Sec. 9.** RCW 39.102.140 and 2006 c 181 s 403 are each amended to read as follows:

(b) The names of any businesses locating within the revenue development area as a result of the public improvements undertaken by the sponsoring local government and financed in whole or in part with local infrastructure financing;

(2) The board shall make a report available to the public and the legislature by June 1st of each year. **Sec. 10.** RCW 39.102.150 and 2006 c 181 s 501 are each amended to read as follows:

(1) A sponsoring local government that has designated a revenue development area and been authorized the use of local infrastructure financing may incur general indebtedness, and issue general obligation bonds, to finance the public improvements and retire the indebtedness in whole or in part from local excise tax allocation revenues, local property tax allocation revenues, and sales and use taxes imposed under the authority of RCW 82.14.475 that it receives, subject to the following requirements:

(a) The ordinance adopted by the sponsoring local government and authorizing the use of local infrastructure financing indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated; and

(B) The eligible farmer, during the first full tax year in which that person engages in business as a farmer, growing, raising, or

(i) ~~((A person who is issued a conditional exemption certificate must provide the department with a copy of the person's Schedule F of Form 1040, Form 1120, or other applicable form filed with the internal revenue service indicating the gross sales of agricultural products by the person in the first full calendar year that the person engaged in business as a farmer. If a person is not required to file federal income tax returns, the person shall provide copies of other documents establishing the amount of the person's gross sales of agricultural products for the first full calendar year that the person engaged in business as a farmer. The documentation required in this subsection (3)(d)(ii) is due no later than December 31st of the year immediately following the first full calendar year in which the person engaged in business as a farmer.~~

Nothing in this subsection (3)(d) prohibits a person from reapplying for an exemption certificate.~~

(4) The definitions in this subsection apply to this section.

(a) "Agricultural products" has the meaning provided in RCW 82.04.213.

(b) "Eligible farmer" means:

(i) A farmer as defined in RCW 82.04.213 whose gross ~~((proceeds of))~~ sales or harvested value of agricultural products grown, raised, or produced by that person is at least ten thousand dollars ~~((in))~~ for the ~~((calendar))~~ tax year immediately preceding the year in which ~~((a claim of exemption is made under this section))~~ an application for exemption under this section is submitted to the department;

(ii) The transferee of an exemption certificate under subsection (3)(c)(ii) of this section where the transferred certificate expires before the transferee engages in farming operations for a full ~~((calendar))~~ tax year, if the combined gross ~~((proceeds of))~~ sales ~~((by))~~ or harvested value of agricultural products that the transferor and transferee ~~((of agricultural products that they))~~ have grown, raised, or produced meet the requirements of (b)(i) of this subsection;

(iii) A farmer as defined in RCW 82.04.213, who does not meet the definition of "eligible farmer" in (b)(i) or (ii) of this subsection, and who did not engage in farming for the entire ~~((calendar))~~ tax year immediately preceding the year in which application for exemption under this section is ~~((made and who did not engage in farming in any other year))~~ submitted to the department, because the farmer is either new to farming or newly returned to farming; or

(iv) Anyone who otherwise meets the definition of "eligible farmer" in this subsection except that they are not a "person" as defined in RCW 82.04.030.

(d) "Harvested value" means the number of units of the agricultural product that were grown, raised, or produced, multiplied by the average sales price of the agricultural product. For purposes of this subsection (4)(d), "average sales price" means the average price per unit of agricultural product received by farmers in this state as reported by the United States department of agriculture's national agricultural statistics service for the twelve-month period that coincides with, or that ends closest to, the end of the relevant tax year, regardless of whether the prices are subject to revision. If the

price per unit of an agricultural product received by farmers in this state is not available from the national agricultural statistics service, average sales price may be determined by using the average price per unit of agricultural product received by farmers in this state as reported by a recognized authority for the agricultural product.

(e) "Qualifying farm machinery and equipment" means machinery and equipment used primarily by an eligible farmer for growing, raising, or producing agricultural products. "Qualifying farm machinery and equipment" does not include:

(i) ~~((Farm vehicles and other))~~ Vehicles as ~~((those terms are defined in chapter 46.04 RCW, except))~~ defined in RCW 46.04.670, other than farm tractors as defined in RCW 46.04.180, farm vehicles, and other farm implements. For purposes of this subsection (4)~~((e))~~(e)(i), "farm implement" means machinery or equipment manufactured, designed, or reconstructed for agricultural purposes and used primarily by an eligible farmer to grow, raise, or produce agricultural products, but does not include lawn tractors and all-terrain vehicles;

(ii) Aircraft;

(iii) Hand tools and hand-powered tools; and

(iv) Property with a useful life of less than one year.

~~((f))~~(f)(i) "Replacement parts" means those parts that replace an existing part, or which are essential to maintain the working condition, of a piece of qualifying farm machinery or equipment. ~~((However, "replacement parts" shall not include paint, fuel, oil, grease, hydraulic fluids, antifreeze, and similar items))~~

(ii) Paint, fuel, oil, hydraulic fluids, antifreeze, and similar items are not replacement parts except when installed, incorporated, or placed in qualifying farm machinery and equipment during the course of installing replacement parts as defined in (f)(i) of this subsection or making repairs as described in subsection (1)(c) of this section.

(g) "Tax year" means the period for which a person files its federal income tax return, irrespective of whether the period represents a calendar year, fiscal year, or some other consecutive twelve-month period. If a person is not required to file a federal income tax return, "tax year" means a calendar year.

**Sec. 2.** RCW 82.12.855 and 2006 c 172 s 2 are each amended to read as follows:

(1) The provisions of this chapter do not apply in respect to the use by an eligible farmer of:

(a) Replacement parts for qualifying farm machinery and equipment;

(b) Labor and services rendered in respect to the installing of replacement parts; and

(c) Labor and services rendered in respect to the repairing of qualifying farm machinery and equipment, provided that during the course of repairing no tangible personal property is installed, incorporated, or placed in, or becomes a component of, the qualifying farm machinery and equipment other than replacement parts.

(2)(a) Notwithstanding anything to the contrary in this chapter, if ~~((replacement parts are installed by the seller during the course of repairing, cleaning, altering, or improving qualifying farm machinery and equipment and the seller makes a separate charge for the parts, the tax imposed by this chapter does not apply to the separately stated charge to an eligible farmer for replacement parts but only if the separately stated charge does not exceed either the seller's current publicly stated retail price for the parts or, if no separately stated retail price is available, the seller's cost for the parts. However, the exemption provided by this section shall not apply if replacement parts are installed by the seller during the course of repairing, cleaning, altering, or improving qualifying farm machinery and equipment and the seller makes a single nonitemized charge for providing the parts and service))~~ a single transaction involves services that are not exempt under this section and services that would be exempt under this section if provided separately, the exemptions provided in subsection (1)(b) and (c) of this section apply if: (i) The seller makes a separately itemized charge for labor and services described in subsection (1)(b) or (c) of this section; and (ii) the separately itemized charge does not exceed the seller's usual and customary charge for such services.

(b) If the requirements in (a)(i) and (ii) of this subsection (2) are met, the exemption provided in subsection (1)(b) or (c) of this section applies to the separately itemized charge for labor and services described in subsection (1)(b) or (c) of this section.

(3) The definitions and recordkeeping requirements in RCW 82.08.855, other than the exemption certificate requirement, apply to this section.

(4) If a person is an eligible farmer as defined in RCW 82.08.855(4)(b)(iii) who cannot prove income because the person is new to farming or newly returned to farming, the exemption under this section will apply only if one of the conditions in RCW 82.08.855(3)(d)(i)(A) or (B) is met. If the conditions are not met, any taxes for which an exemption under this section was claimed and interest on such taxes must be paid. Amounts due under this subsection shall be in accordance with RCW 82.08.855(3)(d)(ii), except that the due date for payment is January 31st of the year immediately following the first full tax year in which the person engaged in business as a farmer.

(5) Except as provided in subsection (4) of this section, the department shall not assess the tax imposed under this chapter against a person who no longer qualifies as an eligible farmer with respect to the use of any articles or services exempt under subsection (1) of this section, if the person was an eligible farmer when the person first put the articles or services to use in this state."

On page 1, line 2 of the title, after "equipment;" strike the remainder of the title and insert "amending RCW 82.08.855 and 82.12.855; and prescribing penalties."

#### MESSAGE FROM THE SENATE

April 20, 2007

Mr. Speaker:

The Senate receded from its amendment to SECOND SUBSTITUTE HOUSE BILL NO. 2220. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** A new section is added to chapter 28B.20 RCW to read as follows:

(1) The sea grant program at the University of Washington shall, consistent with this section, commission a series of scientific research studies that examines the possible effects, including the cumulative effects, of the current prevalent geoduck aquaculture techniques and practices on the natural environment in and around Puget Sound, including the Strait of Juan de Fuca. The sea grant program shall use funding provided from the geoduck aquaculture research account created in section 2 of this act to review existing literature, directly perform research identified as needed, or to enter into and manage contracts with scientific organizations or institutions to accomplish these results.

(2) Prior to entering into a contract with a scientific organization or institution, the sea grant program must:

(a) Analyze, through peer review, the credibility of the proposed party to the contract, including whether the party has credible experience and knowledge and has access to the facilities necessary to fully execute the research required by the contract; and

(b) Require that all proposed parties to a contract fully disclose any past, present, or planned future personal or professional connections with the shellfish industry or public interest groups.

(3) All research commissioned under this section must be subjected to a rigorous peer review process prior to being accepted and reported by the sea grant program.

(4) In prioritizing and directing research under this section, the sea grant program shall meet with the department of ecology at least annually and rely on guidance submitted by the department of ecology. The department of ecology shall convene the shellfish aquaculture regulatory committee created in section 4 of this act as necessary to serve as an oversight committee to formulate the guidance provided to the sea grant program. The objective of the oversight committee, and the resulting guidance provided to the sea grant program, is to ensure that the research required under this section satisfies the planning, permitting, and data management needs of the state, to assist in the prioritization of research given limited funding, and to help identify any research that is beneficial to complete other than what is listed in subsection (5) of this section.

(5) To satisfy the minimum requirements of subsection (1) of this section, the sea grant program shall review all scientific research that is existing or in progress that examines the possible effect of currently prevalent geoduck practices, on the natural environment, and prioritize and conduct new studies as needed, to measure and assess the following:

(a) The environmental effects of structures commonly used in the aquaculture industry to protect juvenile geoducks from predation;

(b) The environmental effects of commercial harvesting of geoducks from intertidal geoduck beds, focusing on current prevalent harvesting techniques, including a review of the recovery rates for benthic communities after harvest;

(c) The extent to which geoducks in standard aquaculture tracts alter the ecological characteristics of overlying waters while the

tracts are submerged, including impacts on species diversity, and the abundance of other benthic organisms;

(d) Baseline information regarding naturally existing parasites and diseases in wild and cultured geoducks, including whether and to what extent commercial intertidal geoduck aquaculture practices impact the baseline;

(e) Genetic interactions between cultured and wild geoduck, including measurements of differences between cultured geoducks and wild geoducks in terms of genetics and reproductive status; and

(f) The impact of the use of sterile triploid geoducks and whether triploid animals diminish the genetic interactions between wild and cultured geoducks.

(6) If adequate funding is not made available for the completion of all research required under this section, the sea grant program shall consult with the shellfish aquaculture regulatory committee, via the department of ecology, to prioritize which of the enumerated research projects have the greatest cost/benefit ratio in terms of providing information important for regulatory decisions; however, the study identified in subsection (5)(b) of this section shall receive top priority. The prioritization process may include the addition of any new studies that may be appropriate in addition to, or in place of, studies listed in this section.

(7) When appropriate, all research commissioned under this section must address localized and cumulative effects of geoduck aquaculture.

(8) The sea grant program and the University of Washington are prohibited from retaining greater than fifteen percent of any funding provided to implement this section for administrative overhead or other deductions not directly associated with conducting the research required by this section.

(9) Individual commissioned contracts under this section may address single or multiple components listed for study under this section.

(10) All research commissioned under this section must be completed and the results reported to the appropriate committees of the legislature by December 1, 2013. In addition, the sea grant program shall provide the appropriate committees of the legislature with annual reports updating the status and progress of the ongoing studies that are completed in advance of the 2013 deadline.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28B.20 RCW to read as follows:

The geoduck aquaculture research account is created in the custody of the state treasurer. All receipts from any legislative appropriations, the aquaculture industry, or any other private or public source directed to the account must be deposited in the account. Expenditures from the account may only be used by the sea grant program for the geoduck research projects identified by section 1 of this act. Only the president of the University of Washington or the president's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

**Sec. 3.** RCW 79.135.100 and 1984 c 221 s 10 are each amended to read as follows:

(1) If state-owned aquatic lands are used for aquaculture production or harvesting, rents and fees shall be established through competitive bidding or negotiation.

(2) After an initial twenty-three acres are leased, the department is prohibited from offering leases that would permit the intertidal commercial aquaculture of geoducks on more than fifteen acres of state-owned aquatic lands a year until December 1, 2014.

### MESSAGE FROM THE SENATE

April 20, 2007

Mr. Speaker:

The Senate receded from its amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 2358. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** The legislature finds from the 2006 Washington state ferries financing study that the state has limited information on state ferry users and markets. Accurate user and market information is vital in order to find ways to maximize the ferry systems' current capacity and to make the most efficient use of citizens' tax dollars. Therefore, it is the intent of the legislature that Washington state ferries be given the tools necessary to maximize the utilization of existing capacity and to make the most efficient use of existing assets and tax dollars. Furthermore, it is the intent of the legislature that the department of transportation adopt adaptive management practices in its operating and capital programs so as to keep the costs of the Washington state ferries system as low as possible while continuously improving the quality and timeliness of service.

**Sec. 2.** RCW 47.06.140 and 1998 c 171 s 7 are each amended to read as follows:

(1) The legislature declares the following transportation facilities and services to be of statewide significance: The interstate highway system, interregional state principal arterials including ferry connections that serve statewide travel, intercity passenger rail services, intercity high-speed ground transportation, major passenger intermodal terminals excluding all airport facilities and services, the freight railroad system, the Columbia/Snake navigable river system, marine port facilities and services that are related solely to marine activities affecting international and interstate trade, and high-capacity transportation systems serving regions as defined in RCW 81.104.015. The department, in cooperation with regional transportation planning organizations, counties, cities, transit agencies, public ports, private railroad operators, and private transportation providers, as appropriate, shall plan for improvements to transportation facilities and services of statewide significance in the statewide multimodal plan. Improvements to facilities and services of statewide significance identified in the statewide multimodal plan are essential state public facilities under RCW 36.70A.200.

(2) The department of transportation, in consultation with local governments, shall set level of service standards for state highways and state ferry routes of statewide significance. Although the

department shall consult with local governments when setting level of service standards, the department retains authority to make final decisions regarding level of service standards for state highways and state ferry routes of statewide significance. In establishing level of service standards for state highways and state ferry routes of statewide significance, the department shall consider the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local communities using these facilities. When setting the level of service standards under this section for state ferry routes, the department may allow for a standard that is adjustable for seasonality.

**NEW SECTION. Sec. 3.** A new section is added to chapter 47.60 RCW to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adaptive management" means a systematic process for continually improving management policies and practices by learning from the outcomes of operational programs.

(2) "Capital plan" means the state ferry system plan developed by the department as described in RCW 47.06.050(2) and adopted by the commission.

(3) "Capital project" has the same meaning as used in budget instructions developed by the office of financial management.

(4) "Commission" means the transportation commission created in RCW 47.01.051.

(5) "Improvement project" has the same meaning as in the budget instructions developed by the office of financial management. If the budget instructions do not define improvement project, then it has the same meaning as "program project" in the budget instructions. If a project meets both the improvement project and preservation project definitions in this section it must be defined as an improvement project. New vessel acquisitions must be defined as improvement projects.

(6) "Life-cycle cost model" means that portion of a capital asset inventory system which, among other things, is used to estimate future preservation needs.

(7) "Maintenance cost" has the same meaning as used in budget instructions developed by the office of financial management.

(8) "Preservation project" has the same meaning as used in budget instructions developed by the office of financial management.

(9) "Route" means all ferry sailings from one location to another, such as the Seattle to Bainbridge route or the Port Townsend to Keystone route.

(10) "Sailing" means an individual ferry sailing for a specific route, such as the 5:00 p.m. sailing from Seattle to Bremerton.

(11) "Travel shed" means one or more ferry routes with distinct characteristics as determined by the department.

**NEW SECTION. Sec. 4.** A new section is added to chapter 47.60 RCW to read as follows:

(1) The commission shall, with the involvement of the department, conduct a survey to gather data on ferry users to help inform level of service, operational, pricing, planning, and investment decisions. The survey must include, but is not limited to:

- (a) Recreational use;
- (b) Walk-on customer use;
- (c) Vehicle customer use;
- (d) Freight and goods movement demand; and
- (e) Reactions to potential operational strategies and pricing policies described under section 7 of this act and RCW 47.60.290.

(2) The commission shall develop the survey after providing an opportunity for ferry advisory committees to offer input.

(3) The survey must be updated at least every two years and maintained to support the development and implementation of adaptive management of ferry services.

**Sec. 5.** RCW 47.60.290 and 1983 c 3 s 136 are each amended to read as follows:

~~((Subject to the provisions of RCW 47.60.326;)) (1) The department ((is hereby authorized and directed to)) shall annually review ((tariffs and charges as)) fares and pricing policies applicable to the operation of the Washington state ferries ((for the purpose of~~

~~establishing a more fair and equitable tariff to be charged passengers, vehicles, and commodities on the routes of the Washington state ferries)).~~

(2) Beginning in 2008, the department shall develop fare and pricing policy proposals that must:

(a) Recognize that each travel shed is unique, and might not have the same farebox recovery rate and the same pricing policies;

(b) Use data from the current survey conducted under section 4 of this act;

(c) Be developed with input from affected ferry users by public hearing and by review with the affected ferry advisory committees, in addition to the data gathered from the survey conducted in section 4 of this act;

(1) The commission shall adopt fares and pricing policies by rule, under chapter 34.05 RCW, according to the following schedule:

(a) Each year the department shall provide the commission a report of its review of fares and pricing policies, with recommendations for the revision of fares and pricing policies for the ensuing year;

(b) By September 1st of each year, beginning in 2008, the commission shall adopt by rule fares and pricing policies for the ensuing year.

(2) The commission may adopt by rule fares that are effective for more or less than one year for the purposes of transitioning to the fare schedule in subsection (1) of this section.

(3) The commission may increase ferry fares included in the schedule of charges adopted under this section by a percentage that exceeds the fiscal growth factor.

(4) The chief executive officer of the ferry system may authorize the use of promotional, discounted, and special event fares to the general public and commercial enterprises for the purpose of maximizing capacity use and the revenues collected by the ferry system. The department shall report to the commission a summary of the promotional, discounted, and special event fares offered during each fiscal year and the financial results from these activities.

(5) Fare revenues and other revenues deposited in the Puget Sound ferry operations account created in RCW 47.60.530 may not be used to support the Puget Sound capital construction account created in RCW 47.60.505, unless the support for capital is separately identified in the fare.

(6) The commission may not raise fares until the fare rules contain pricing policies developed under section 5 of this act, or September 1, 2009, whichever is later.

**NEW SECTION. Sec. 7.** A new section is added to chapter 47.60 RCW to read as follows:

(1) The department shall develop, and the commission shall review, operational strategies to ensure that existing assets are fully utilized and to guide future investment decisions. These operational strategies must, at a minimum:

(a) Recognize that each travel shed is unique and might not have the same operational strategies;

(2) After the commission reviews recommendations by the department, the commission and department shall make joint

recommendations to the legislature for the improvement of operational strategies.

(3) In developing operational strategies, the following, at a minimum, must be considered:

- (a) The feasibility of using reservation systems;
  - (b) Methods of shifting vehicular traffic to other modes of transportation;
  - (c) Methods of improving on-dock operations to maximize efficiency and minimize operating and capital costs;
  - (d) A cost-benefit analysis of remote holding versus over-water holding;
  - (e) Methods of reorganizing holding areas and minimizing on-dock employee parking to maximize the dock size available for customer vehicles;
  - (f) Schedule modifications;
  - (g) Efficiencies in exit queuing and metering;
  - (h) Interoperability with other transportation services;
  - (i) Options for leveling vehicle peak demand; and
  - (j) Options for increasing off-peak ridership.
- (4) Operational strategies must be reevaluated periodically and, at a minimum, before developing a new capital plan.

**Sec. 8.** RCW 47.60.330 and 2003 c 374 s 5 are each amended to read as follows:

(1) Before a substantial change to the service levels provided to ferry users, the department shall consult with affected ferry users by public hearing and by review with the affected ferry advisory committees.

(2) Before ((a substantial expansion or curtailment in the level of service provided to ferry users, or a revision in the schedule of ferry tolls or charges)) adding or eliminating a ferry route, the department ((of transportation)) shall consult with affected ferry users and receive legislative approval. ((The consultation shall be: (a) By public hearing in affected local communities; (b) by review with the affected ferry advisory committees pursuant to RCW 47.60.310; (c) by conducting a survey of affected ferry users; or (d) by any combination of (a) through (c).

~~(2) There is created a ferry system productivity council consisting of a representative of each ferry advisory committee empanelled under RCW 47.60.310, elected by the members thereof, and two representatives of employees of the ferry system appointed by mutual agreement of all of the unions representing ferry employees, which shall meet from time to time with ferry system management to discuss means of improving ferry system productivity.~~

~~(3) Before increasing ferry tolls the department of transportation shall consider all possible cost reductions with full public participation as provided in subsection (1) of this section and, consistent with public policy, shall consider adapting service levels equitably on a route-by-route basis to reflect trends in and forecasts of traffic usage. Forecasts of traffic levels shall be developed by the bond covenant traffic engineering firm appointed under the provisions of RCW 47.60.450. Provisions of this section shall not alter obligations under RCW 47.60.450. Before including any toll increase in a budget proposal by the commission, the department of transportation shall consult with affected ferry users in the manner prescribed in (1)(b) of this section plus the procedure of either (1)(a) or (c) of this section.)~~

### SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House concurred in the Senate amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 2358 and advanced the bill as amended by the Senate to final passage.

### FINAL PASSAGE OF HOUSE BILL AS SENATE AMENDED

Representatives Rolfes and Jarrett spoke in favor of the passage of the bill.

### COLLOQUY

Representative Jarrett: "Engrossed Substitute House Bill 2358 states that ferry fares may not be increased until the fare rules contain pricing policies, or September 1, 2009, whichever is later. Is it intended that the Department of Transportation and the Transportation Commission will be able to implement operational and pricing strategies as directed by the bill, so long as they do not increase fares?"

Representative Rolfes: "Yes. The language would allow the agencies to implement operational and pricing strategies, so long as they do not increase individual or overall ferry fare levels. Operational and pricing strategies such as fees persons may choose to pay for reservations, promotional discounts, or other options that do not involve mandatory increased fees would be allowed under this language."

The Speaker (Representative Lovick presiding) stated the question before the House to be final passage of Engrossed Substitute House Bill No. 2358, as amended by the Senate.

**(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS**

General Fund--State Appropriation (FY 2008)	\$300,175,000
General Fund--State Appropriation (FY 2009)	\$312,172,000
General Fund--Federal Appropriation	\$378,358,000
General Fund--Private/Local Appropriation	\$11,948,000
<b>TOTAL APPROPRIATION</b>	<b>\$1,002,653,000</b>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$105,583,000 of the general fund--state appropriation for fiscal year 2008 and \$106,707,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for persons and services not covered by the medicaid program. These funds shall be distributed proportionally to each regional support network's percentage of the total state population. Included in these amounts are inflationary increases of 1.6 percent effective July 2007 and an additional 1.0 percent effective July 2008.

(b) \$16,900,000 of the general fund--state appropriation for fiscal year 2008 and \$16,900,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the department and regional support networks to contract for development and initial implementation of high-intensity program for active community treatment (PACT) teams, and other proven program approaches which the department concurs will enable the regional support network to achieve significant reductions during fiscal year 2008 and thereafter in the number of beds the regional support network would otherwise need to use at the state hospitals.

(c) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 222 per day throughout fiscal year 2008. Beginning January 1, 2009, the number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 777 per day during the first and second quarters of fiscal year 2008, and 677 per day from January 2008 through August 2008. Beginning January 2008, beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. Beginning that month, the department shall separately charge regional support networks for persons served in the PALS program and for use of state hospital beds for short-term commitments.

(d) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(e) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(f) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(g) \$5,147,000 of the general fund--state appropriation for fiscal year 2008 and \$5,242,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. The department is authorized to transfer up to \$418,000 of these amounts each fiscal year to the economic services program for purposes of facilitating prompt access after their release from confinement to medical and income assistance services for which defendants and offenders may be eligible.

(h) \$1,548,000 of the general fund--state appropriation for fiscal year 2008 and \$1,579,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for grants for innovative mental health service delivery projects. Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(i) The department is authorized to continue to expend federal block grant funds and special purpose federal grants through direct contracts, rather than through contracts with regional support networks, and to allocate such funds through such formulas as it shall adopt.

(j) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(k) \$2,250,000 of the general fund--state appropriation for fiscal year 2008, \$2,250,000 of the general fund--state appropriation for fiscal year 2009, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(l) \$774,000 of the general fund--state appropriation for fiscal year 2008 and \$789,000 of the general fund--state appropriation for fiscal year 2009 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative during the 2003-05 biennium. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(m) \$796,000 of the general fund--state appropriation for fiscal year 2008, \$1,422,000 of the general fund--state appropriation for fiscal year 2009, and \$908,000 of the general fund--federal appropriation are provided solely to phase-in new payment rates for medicaid psychiatric inpatient services. Under the new system, consistent with the way rates are set for the treatment of physical illnesses, payment rates for psychiatric inpatient care are to be set at the statewide industry average per diem cost, adjusted for regional wage differences and for differences in capital costs. To facilitate the transition to this new system, for hospitals that are expected to provide over 200 patient days of inpatient psychiatric care per year, rates shall not increase by more than an additional 10 percent each year, nor decrease by more than an additional 5 percent each year, until all hospitals are paid at the adjusted statewide average rate.

(n) \$5,077,000 of the general fund--state appropriation for fiscal year 2008 and \$5,077,000 of the general fund--state appropriation for fiscal year 2009 are provided solely to increase payment rates for nonmedicaid psychiatric inpatient services above fiscal year 2005 levels. The department shall pay a standard statewide per diem rate for nonmedicaid psychiatric inpatient services, adjusted for regional wage differences, and hospital-specific capital and medical education costs, with no provision for phase-in.

(o) \$3,093,000 of the general fund--state appropriation and \$1,902,000 of the general fund--federal appropriation for fiscal year 2008 are provided solely to increase compensation for community mental health direct care staff effective January 2008. \$9,454,000 of the general fund--state appropriation and \$5,905,000 of the general fund--federal appropriation for fiscal year 2009 are provided solely to continue the January 2008 increase, and to provide an additional compensation increase for direct care staff effective January 2009. As used in this subsection, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness. The term excludes employees whose duties are primarily administrative, and contractors.

In order to obtain compensation pass-through funding, a community mental health agency must first provide a plan and budget to its regional support network demonstrating how the full amount of the pass-through, except for the appropriate employer share of applicable payroll taxes, will be used to increase wages or benefits for direct care staff. Upon approval of the plan, in order to access the funds, the agency must submit to the regional support network and to the department of social and health services a legally binding written certification that it will increase compensation for its direct care staff as provided in the plan and budget. An agency's plan shall be approved and it shall be deemed to have met the certification requirement by submitting an executed collective bargaining agreement that increases compensation for direct care staff by an amount commensurate with the additional funding provided. If judged appropriate by the regional support network or the department, participating agencies shall be audited to determine whether their certification has been fulfilled.

(p) Within funds provided in this subsection (1), medicaid capitation rates shall be increased by 1.6 percent effective July 2007, and by an additional 1.0 percent effective July 2008.

(q) \$2,071,000 of the general fund--state appropriation for fiscal year 2008 and \$1,733,000 of the general fund--state appropriation for fiscal year 2009 are provided solely for the implementation of Substitute House Bill No. 1456 (mental health professionals). If the bill is not enacted by June 30, 2007, the amounts provided in this subsection shall lapse. For purposes of organizing and delivering training as required by the bill, the department may retain up to fifteen percent of the amount appropriated for fiscal year 2008, and up to ten percent of the amount appropriated for fiscal year 2009. The remainders shall be distributed to regional support networks proportional to each network's percentage of the total state population.

If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations.
