COVID-19 has impacted affordable housing development, other landlord-tenant relations, and homelessness response systems, generating demand for solutions at all levels. SSB 6560 (2018) requires OHY and DCYF to jointly develop and issue a plan to the Legislature by the end of 2019, including legislative recommendations, to ensure that by the end of 2020 no unaccompanied youth is discharged from a publicly funded system of care into homelessness. Landlord-Tenant Laws (Residential & Manufactured/Mobile Home)

COMPLETION DATE: Ongoing, June 2020

STAFF: Brandon Popovac (360) 786-7465

REFERENCE(S): [ESSB 5600 \(2019\)](#); [ESSB 6378 \(2020\)](#); [ESHB 1582 \(2019\)](#)

DESCRIPTION: Three pieces of legislation impact the Residential Landlord-Tenant Act (RLTA) and the Manufactured/Mobile Home Landlord Tenant Act (MHLTA), respectively.

ESSB 5600 modified the RLTA by:

- increasing the notice to pay or vacate for failure to pay rent from 3 to 14 days;
- requiring a landlord to first apply tenant payments to rent before other charges;
- requiring a tenant to pay into court or to the landlord within five court days after a judgment for default in the payment of rent any rent due, court costs, late fees not to exceed \$75, and attorneys' fees if awarded, to have their tenancy restored;
- authorizing the court to exercise discretion to stay a writ restoring the premises to the landlord based on good cause and evidence of several factors with the burden of proof on the tenant; and
- providing a revised, reader-friendly eviction summons.

ESSB 5600 also expanded eligibility of the Landlord Mitigation Program (LMP) to include landlord claims for reimbursement in eviction cases where the court has exercised discretion and there is a total or partially unpaid judgment for rent, late fees, attorneys' fees, and costs, as applicable. The Department of Commerce (Commerce) designated this new expansion of the LMP as the Tenancy Preservation Program (TPP).

ESSB 6378 is a trailer bill to ESSB 5600 and modifies some of the eviction reforms in that legislation, including but not limited to:

- modifying the uniform 14-day pay or vacate notice and summons forms;
- requiring landlords to accept pledges of emergency rental assistance provided to tenants from governmental or nonprofit entities before or after expiration of a pay or vacate notice period if certain requirements are met; and
- requiring landlords to suspend any court action for 7 days to allow for payment of emergency rental assistance funds.

Staff and committee members will attend an eviction court hearing during the interim to monitor the bills' effects on the court process, as well as continue to monitor use of and access to the TPP by eligible landlords and tenants. Staff will provide information, support, and drafting services to members as requested.

ESHB 1582 modified the MHLTA by:

- increasing notice to pay or vacate for failure to pay rent from 5 to 14 days;
- increasing notice to comply with park rules or vacate from 15 to 20 days;
- requiring 30 days' notice before a new or amended park rule takes effect with a 3-month compliance grace period;
- authorizing the solicitation of park tenants by housing and low-income assistance organizations; and
- adding new lease content requirements.

ESHB 1582 requires Commerce to convene a work group to make recommendations to the Legislature by June 30, 2020, regarding mobile home park rental agreement terms; closure/conversion notices; and amendments, changes, or additions to mobile home park rules under the MHLTA. The work group met four times during the 2019 interim and staff monitored its process and progress in reaching any agreed upon recommendations. Staff will provide information, support, and drafting services to members as requested once the work group recommendations are published.

Evaluation of State Sentencing Laws and Practices

COMPLETION DATE: December 2020

STAFF: Shani Bauer (360) 786-7468

REFERENCE(S):

DESCRIPTION: In 2018, the Legislature provided funding to the Sentencing Guidelines Commission (SGC) to conduct a comprehensive review of the sentencing reform act. The SGC completed its work and submitted a report to the Legislature on July 1, 2019. In the 2019-21 budget, the Legislature established the Washington State Criminal Sentencing Task Force, including a broader range of stakeholders. The Task Force is directed to review state sentencing laws, including the report of the SGC, and develop recommendations for:

- reducing sentencing implementation complexities and errors;
- improving the effectiveness of the sentencing system; and
- promoting and improving public safety.

The task force must submit a final report to the Governor and appropriate committees of the Legislature by December 31, 2020. Staff will attend meetings, update members on progress, and draft legislation as requested.

STAFF: Shani Bauer (360) 786-7468

REFERENCE(S): [E2SHB 2467](#)

The Governor is required to appoint a Washington Background Check Advisory Board to oversee the implementation of the background check system, which must convene within 90 days of the effective date of the bill and meet on a monthly basis until the background check system is operational. Sex Offender Registration for Out of State Sex Offenders

COMPLETION DATE: October 2020

STAFF: Shani Bauer (360) 786-7468

REFERENCE(S): [SB 6155](#)

DESCRIPTION: In *State v. Batson*, 9 Wn. App. 2d 546 (2019), the court held that Washington's law requiring an offender to register in Washington if the person is required to register in their state of conviction is an unconstitutional delegation of authority. Washington is now required to conduct a comparability analysis for any sex offender moving to this state to determine if the person's offense is comparable to an offense for which registration is required in Washington.

SB 6155, removing the nonmarriage element of many sex crimes, was intended to address the noncomparability of many state sex offenses with sex offenses in other states. That bill failed to pass in the 2020 legislative session.

Staff will have discussions with the Washington Association of Sheriffs and Police Chiefs and county offices regarding processes for when out of state sex offenders move to Washington and research laws and processes in other states to see if there are efficiencies that can be adopted here.

Washington State Task Force Against the Trafficking of Persons

COMPLETION DATE: Ongoing

STAFF: Melissa Burke-Cain (360) 786-7755

REFERENCE(S): [SB 5884](#); [RCW 7.68.350](#)

DESCRIPTION: Human trafficking continues as a local and global human rights problem. Washington uses a multifaceted policy response to prevent and reduce human trafficking. Washington's state and local agencies and service providers help trafficking victims escape from their traffickers, educate the public about trafficking, and investigate traffickers and prosecute them. The Washington State Task Force Against the Trafficking of Persons measures and evaluates these efforts.

In 2016, the task force formed six standing subcommittees—business outreach, survivor voices, victims' services, systems coordination, housing, and public outreach. The task force meets two to three times per year. The subcommittees study trafficking survivors' needs for health care, human services, legal assistance, job training, education, and victim compensation. The task force makes recommendations for legislation and resources to improve the state's anti-trafficking efforts.

Committee staff supports legislators by identifying issues and developing options to address them, and drafting legislation as requested.

Legal Service Contractors and Subscription Service Legal Defense Funds

COMPLETION DATE: Ongoing

STAFF: Melissa Burke-Cain (360) 786-7755

REFERENCE(S): [SB 6146](#); [SB 6043](#)

DESCRIPTION: Washington State does not currently regulate legal service plans, legal service contractors, or membership-based legal defense plans. In the 2020 session, two proposed bills addressed regulation of prepaid legal service plans.

SB 6146 (companion HB 2306) proposed limited Office of the Insurance Commissioner (OIC) regulation of legal services plans and legal service contractors, but as non-insurance products. Under a legal services plan, a consumer pays a periodic advance fee to a legal service contractor to access specified legal services from a panel of participating attorneys. In turn, the participating attorneys provide the legal services and agree to be reimbursed for the services through the legal service contractor.

SB 6043 (companion 2367) exempted membership-based legal defense services plans from OIC regulation. For example, these plans have been provided to members of shooting sports and firearm safety associations. The legal defense services plan pays for criminal defense costs for members facing potential criminal charges related to their use of a legally possessed firearm.

Committee staff will support and coordinate work session activities to address regulation of prepaid legal service arrangements and prepare draft legislation as requested.

DESCRIPTION: HB 1965 from the 2019 legislative session, if enacted, would have created The Worker Protection Act permitting Qui Tam actions, allowing whistleblowers to bring suit in the name of the state, against employers for the purpose of enforcing certain state laws. HB 1965 was in response to a 2018 U.S. Supreme Court opinion of *Epic System Corp. v. Lewis*, interpreting the Federal Arbitration Act to uphold arbitration clauses in employment contracts in employee disputes.

Staff will research HB 1965, the *Epic System* ruling, applicable federal and state laws, and prepare a summary of potential impacts to state laws.
