POINT OF INQUIRY

Representative Locke yielded to a question by Representative Carlson.

Representative Carlson: Representative Locke, If this new section 5 is passed and becomes part of the bill will that additional cost come be from the trust fund.

Representative Locke: Representative Carlson, It's from the trust fund but it's not being affected because these individuals are already or would normally be collecting unemployment in any event. They will stand in line like anybody else for unemployment. The only question is because they are collecting unemployment and Boeing is giving them a two-thousand dollar education allowance does the more fact that they are getting that education allowance disqualify that person from getting unemployment. The commissioner is looking at it on a case-by-case basis and if the commissioner does it by case-by-case basis he's going to allow unemployment compensation to be given out and the education allowance but that would require a huge bureaucracy. This says that you don't have to do it on a case-by-case basis with respect to perhaps certain job classifications, some jobs classifications will not be eligible perhaps for both unemployment or for the educational allowance because that person might need a job which that person is easily trainable or can get into another job quickly, but this is really trying to streamline the administrative process. These are people who are going to collect unemployment anyway, these are people who are getting an education allowance paid for by Boeing and the employees, the question is, should they be denied those benefits except on a case-by-case review by the Employment Commissioner.

Representative Heavey demanded an electronic roll call and it was sustained.

The Speaker assumed the chair.

SPEAKER'S RULING

Representative Miller has made a parliamentary inquiry as to whether Substitute House Bill No. 1681 amends initiative 134 and therefore requires a two-thirds vote for passage.

Under the terms of Article 2, section 41 of the Washington Constitution, a bill which amends an initiative within two years of the measure's passage requires a two-thirds vote in each House of the Legislature.

In deciding whether a bill amends an initiative, it is necessary to recognize the difference between an "amendment" and a "supplemental act". An amendment creates an alteration or change of an existing law. A supplemental act simply adds to or extends that which is in existing law without changing or modifying the original. The Legislature may validly enact by majority vote new legislation that deals with the same general subject matter as a prior initiative so long as the essential purpose and effect of the prior initiative is not altered. Such new legislation would not be considered an amendment for purposes of Article 2, Section 41.

While provisions of initiative 134 and Substitute House Bill No. 1681 deal with the same general subject matter -- political advertising requirements -- Substitute House Bill No. 1681 does not change or modify the initiative.

Even though Substitute House Bill No. 1681 amends RCW 42.17.510, which was also amended by initiative 134, it does not amend the new language added by the initiative. The initiative added subsections (2) and (3) to

RCW 42.17.510. Subsection 2 relates solely to independent expenditures by organizations other than a party organization or a campaign committee. Subsection 3 relates solely to the size of type and other means to make required disclosures explicit. In contrast, Substitute House Bill No. 1681 adds a new subsection 4, which relates solely to requiring a responsible party to accept responsibility for the accuracy of the message.

The Speaker therefore finds that Substitute House Bill No. 1681 does not amend initiative 134 within the meaning of Article 2, Section 41.

"Sec. 1. RCW 36.70A.040 and 1990 1st ex.s. c 17 s 4 are each amended to read as follows:

(1) Each county that has both a population of fifty thousand or more and has had its population increase by more than ten percent in the previous ten years, and the cities located within such county, and any other county regardless of its population that has had its population increase by more than twenty percent in the previous ten years, and the cities located within such county, shall ~~((adopt comprehensive land use plans and development regulations under))~~ conform with all of the requirements of this chapter. However, the county legislative authority of such a county with a population of less than fifty thousand population may adopt a resolution removing the county, and the cities located within the county, from the requirements of adopting comprehensive land use plans and

development regulations under this chapter if this resolution is adopted and filed with the department by December 31, 1990, for counties initially meeting this set of criteria, or within sixty days of the date the office of financial management certifies that a county meets this set of criteria under subsection (5) of this section.

Once a county meets either of these sets of criteria, the requirement to conform with ~~((RCW 36.70A.040 through 36.70A.160))~~ all of the requirements of this chapter remains in effect, even if the county no longer meets one of these sets of criteria.

(2) The county legislative authority of any county that does not meet ~~((the requirements of))~~ either of the sets of criteria established under subsection (1) of this section may adopt a resolution indicating its intention to have subsection (1) of this section apply to the county. Each city, located in a county that chooses to plan under this subsection, shall ~~((adopt a comprehensive land use plan in accordance with))~~ conform with all of the requirements of this chapter. Once such a resolution has been adopted, the county ~~((cannot remove itself from))~~ and the cities located within the county remain subject to all of the requirements of this chapter.

(3) Any county or city that is initially required to ~~((adopt a comprehensive land use plan))~~ conform with all of the requirements of this chapter under subsection (1) of this section shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county legislative authority and governing body of each city located within the county shall designate critical areas, agricultural lands, forest lands, and mineral resource lands, and adopt development regulations conserving these designated lands and protecting these designated critical areas, under RCW 36.70A.170 and 36.70A.060; (c) the county legislative authority shall designate and take other actions related to urban growth areas under RCW 36.70A.110; (d) the county legislative authority and governing body of each city located within the county shall adopt ~~((the))~~ a comprehensive plan under this chapter on or before ~~((July 1, 1993))~~ a date from January 1, 1994, through August 1, 1994, as specified by the department under RCW 36.70A.045; and (e) the county legislative authority and each city governing body shall adopt development regulations that are consistent with and implement its comprehensive plan by the same date it is required to adopt its comprehensive plan, but a county or city may obtain an extension for this deadline by the shorter of an additional six months or until December 31, 1994, by submitting a letter to the department of community development prior to the deadline for adopting both a comprehensive plan and development regulations stating its need for the extension, detailing reasons for the needed extension, and proposing a schedule of actions that will be taken leading to the adoption of the development regulations.

(4) Any county or city that is required to ~~((adopt a comprehensive land use plan))~~ conform with all the requirements of this chapter, as a result of the county legislative authority adopting its resolution of intention under subsection (2) of this section, shall take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county legislative authority and governing body of each city that is located within the county shall adopt development regulations conserving agricultural lands, forest lands, and mineral resource lands it designated under RCW 36.70A.060 within one year of the date the county legislative authority adopts its resolution of intention; (c) the county legislative authority shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county legislative authority and governing body of each city that is located within the county shall adopt ~~((the))~~ a comprehensive plan and development regulations that are consistent with and implement the comprehensive plan not later than ~~((three))~~ four years one month from the date the county legislative ~~((body takes action as required by subsection (2) of this section))~~ authority adopts its resolution of intention, but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter to the department of community development prior to the deadline for adopting both a comprehensive plan and development regulations stating its need for the extension, detailing reasons for the needed extension, and proposing a schedule of actions that will be taken leading to the adoption of the development regulations.

~~((4))~~ (5) If the office of financial management certifies that the population of a county that previously had not been required to plan under subsection (1) or (2) of this section has changed sufficiently to meet either of the ~~((requirements of))~~ sets of criteria specified under subsection (1) of this section, and where applicable, the county legislative authority has not adopted a resolution removing the county from these requirements as provided in subsection (1) of this section, the county and each city within such county shall ~~((adopt))~~ take actions under this chapter as follows: (a) The county legislative authority shall adopt a county-wide planning policy under RCW 36.70A.210; (b) the county legislative authority and each city governing body shall adopt development regulations under RCW 36.70A.060 conserving agricultural lands, forest lands, and mineral resource lands it designated within one year of the certification by the office of financial management; ~~((b))~~ (c) the county legislative authority shall designate and take other actions related to urban growth areas under RCW 36.70A.110; and (d) the county legislative authority and each city governing body shall adopt a comprehensive land use plan ~~((under this chapter))~~ and development regulations that are consistent with and implement the comprehensive plan within ~~((three))~~ four years one month of the certification by the office of financial management ~~((; and (c) development regulations pursuant to this chapter within one year of having adopted its comprehensive land use plan))~~, but a county or city may obtain an additional six months before it is required to have adopted its development regulations by submitting a letter to the department of community development prior to the deadline for adopting both a comprehensive plan and development regulations stating its need for the extension, detailing reasons for the needed extension, and proposing a schedule of actions that will be taken leading to the adoption of the development regulations.

(6) A copy of each document that is required under this section shall be submitted to the department at the time of its adoption.

Sec. 2. RCW 36.70A.045 and 1991 sp.s. c 32 s 15 are each amended to read as follows:

(1) By no later than June 1, 1993, the department ((may)) shall adopt a schedule ((to permit)) phasing ((of)) the dates, from January 1, 1994, through July 31, 1994, on or before which each county initially required to plan under all the requirements of this chapter by RCW 36.70A.040(1), and each city located within the county, must adopt a comprehensive plan ((submittal for counties and cities planning under RCW 36.70A.040. This schedule shall not permit a comprehensive plan to be submitted greater than one hundred eighty days past the date that the plan was required to be submitted and shall be used)) under this chapter.

To facilitate expeditious review and interjurisdictional coordination of comprehensive plans and development regulations, the date designated on or before which a county must adopt a comprehensive plan shall be the same date designated on or before which each city located in that county must adopt its comprehensive plan. Where a city is located in more than one of such counties that have differing designated dates, the department shall designate which date applies to that city.

(2) The following criteria shall be used by the department in establishing this schedule: (a) How close the county and cities in the county are to adopting their comprehensive plans; (b) the extent of a consensus between the county and cities in the county over a date; (c) the relative financial burdens on the county and the cities in the county to prepare, consider, and adopt their comprehensive plans; and (d) the sufficiency of opportunities the public has had to provide input into the planning process in the county and the cities in the county. This schedule does not have to evenly spread the deadlines for counties over this period and may designate deadlines for all or most of these counties at the end of this period.

Sec. 3. RCW 36.70A.110 and 1991 sp.s. c 32 s 29 are each amended to read as follows:

(1) Each county that is required or chooses to ((adopt a comprehensive land use)) plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than a single city. An urban growth area may include territory that is located outside of a city only if such territory already is characterized by urban growth or is adjacent to territory already characterized by urban growth.

(2) Based upon the population growth management planning population projection made for the county by the office of financial management, the urban growth areas in the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county for the succeeding twenty-year period. Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. Within one year of July 1, 1990, each county ((required to designate urban growth areas)) that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040, shall begin consulting with each city located within its boundaries and each city shall propose the location of an urban growth area. Within sixty days of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall begin this consultation with each city located within its boundaries. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Urban growth should be located first in areas already characterized by urban growth that have existing public facility and service capacities to serve such development, and second in areas already characterized by urban growth that will be served by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources. Further, it is appropriate that urban government services be provided by cities, and urban government services should not be provided in rural areas.

(4) On or before October 1, 1993, each county that was initially required to plan under RCW 36.70A.040(1) shall designate urban growth areas under this chapter. Within three years and three months of the date the county legislative authority of a county adopts its resolution of intention or of certification by the office of financial management, all other counties that are required or choose to plan under RCW 36.70A.040 shall designate urban growth areas under this chapter. A permit or other authorization allowing land use activities not already vested shall not be issued or approved by a county or city after the county designates its urban growth areas if the permit or other authorization is inconsistent with these designations.

(5) Each county shall include designations of urban growth areas in its comprehensive plan.

Sec. 4. RCW 36.70A.120 and 1990 1st ex.s. c 17 s 12 are each amended to read as follows:

((Within one year of the adoption of its comprehensive plan, each county and city that is required or chooses to plan under RCW 36.70A.040 shall enact development regulations that are consistent with and implement the comprehensive plan. These counties and cities)) Each county and city that is required or chooses to plan under

RCW 36.70A.040 shall perform ~~((their))~~ its activities and make capital budget decisions in conformity with ~~((their))~~ its comprehensive plan~~((s))~~.

Sec. 5. RCW 36.70A.210 and 1991 sp.s. c 32 s 2 are each amended to read as follows:

(1) The legislature recognizes that counties are regional governments within their boundaries, and cities are primary providers of urban governmental services within urban growth areas. For the purposes of this section, a "county-wide planning policy" is a written policy statement or statements used solely for establishing a county-wide framework from which county and city comprehensive plans are developed and adopted pursuant to this chapter. This framework shall ensure that city and county comprehensive plans are consistent as required in RCW 36.70A.100. Nothing in this section shall be construed to alter the land-use powers of cities.

(2) The legislative authority of a county that plans under RCW 36.70A.040 shall adopt a county-wide planning policy in cooperation with the cities located in whole or in part within the county as follows:

(a) No later than sixty calendar days from July 16, 1991, the legislative authority of ~~((the))~~ each county that as of June 1, 1991, was required or chose to plan under RCW 36.70A.040 shall convene a meeting with representatives of each city located within the county for the purpose of establishing a collaborative process that will provide a framework for the adoption of a county-wide planning policy~~((;))~~. In other counties that are required or choose to plan under RCW 36.70A.040, this meeting shall be convened no later than sixty days after the date the county adopts its resolution of intention or was certified by the office of financial management.

(b) The process and framework for adoption of a county-wide planning policy specified in (a) of this subsection shall determine the manner in which the county and the cities agree to all procedures and provisions including but not limited to desired planning policies, deadlines, ratification of final agreements and demonstration thereof, and financing, if any, of all activities associated therewith~~((;))~~.

(c) If a county fails for any reason to convene a meeting with representatives of cities as required in (a) of this subsection, the governor may immediately impose any appropriate sanction or sanctions on the county from those specified under RCW 36.70A.340~~((;))~~.

(d) If there is no agreement by October 1, 1991, in a county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or if there is no agreement within one hundred twenty days of the date the county adopted its resolution of intention or was certified by the office of financial management in any other county that is required or chooses to plan under RCW 36.70A.040, the governor shall first inquire of the jurisdictions as to the reason or reasons for failure to reach an agreement. If the governor deems it appropriate, the governor may immediately request the assistance of the department of community development to mediate any disputes that preclude agreement. If mediation is unsuccessful in resolving all disputes that will lead to agreement, the governor may impose appropriate sanctions from those specified under RCW 36.70A.340 on the county, city, or cities for failure to reach an agreement as provided in this section. The governor shall specify the reason or reasons for the imposition of any sanction~~((; and))~~.

(e) No later than July 1, 1992, the legislative authority of ~~((the))~~ each county that was required or chose to plan under RCW 36.70A.040 as of June 1, 1991, or no later than fourteen months after the date the county adopted its resolution of intention or was certified by the office of financial management the county legislative authority of any other county that is required or chooses to plan under RCW 36.70A.040, shall adopt a county-wide planning policy according to the process provided under this section and that is consistent with the agreement pursuant to (b) of this subsection, and after holding a public hearing or hearings on the proposed county-wide planning policy.

(3) A county-wide planning policy shall at a minimum, address the following:

(a) Policies to implement RCW 36.70A.110;

(b) Policies for promotion of contiguous and orderly development and provision of urban services to such development;

(c) Policies for siting public capital facilities of a county-wide or state-wide nature;

(d) Policies for county-wide transportation facilities and strategies;

(e) Policies that consider the need for affordable housing, such as housing for all economic segments of the population and parameters for its distribution;

(f) Policies for joint county and city planning within urban growth areas;

(g) Policies for county-wide economic development and employment; and

(h) An analysis of the fiscal impact.

(4) Federal agencies and Indian tribes may participate in and cooperate with the county-wide planning policy adoption process. Adopted county-wide planning policies shall be adhered to by state agencies.

(5) Failure to adopt a county-wide planning policy that meets the requirements of this section may result in the imposition of a sanction or sanctions on a county or city within the county, as specified in RCW 36.70A.340. In imposing a sanction or sanctions, the governor shall specify the reasons for failure to adopt a county-wide planning policy in order that any imposed sanction or sanctions are fairly and equitably related to the failure to adopt a county-wide planning policy.

(6) Cities and the governor may appeal an adopted county-wide planning policy to the growth planning hearings board within sixty days of the adoption of the county-wide planning policy.

(7) Multicounty planning policies shall be adopted by two or more counties, each with a population of four hundred fifty thousand or more, with contiguous urban areas and may be adopted by other counties, according to the process established under this section or other processes agreed to among the counties and cities within the affected counties throughout the multicounty region.

NEW SECTION. Sec. 6. A new section is added to chapter 36.70A RCW to read as follows:

The governor may impose a sanction or sanctions specified under RCW 36.70A.340 on: (1) A county or city that fails to designate critical areas, agricultural lands, forest lands, or mineral resource lands under RCW 36.70A.170 by the date such action was required to have been taken; (2) a county or city that fails to adopt development regulations under RCW 36.70A.060 protecting critical areas or conserving agricultural lands, forest lands, or mineral resource lands by the date such action was required to have been taken; (3) a county that fails to designate urban growth areas under RCW 36.70A.110 by the date such action was required to have been taken; and (4) a county or city that fails to adopt its comprehensive plan or development regulations when such actions are required to be taken.

Prior to imposing a sanction or sanctions on a county or city, the governor shall make a written finding that the county or city has not proceeded in good faith or has unreasonably delayed taking required action by the date such action was required to have been taken.

Sec. 7. RCW 82.02.050 and 1990 1st ex.s. c 17 s 43 are each amended to read as follows:

(1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(4) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After ~~((July 1, 1993))~~ the date a county, city, or town is required to adopt its comprehensive plan and development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

(a) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

(b) Additional demands placed on existing public facilities by new development; and

(c) Additional public facility improvements required to serve new development.

If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible.

NEW SECTION. Sec. 8. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

Representative Flemming moved the striking amendment by Representatives Flemming and others:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds and declares that:

(1) The number of youth who are members and associates of gangs and commit gang violence has significantly increased throughout the entire greater Puget Sound, Spokane, and other areas of the state;

(2) Youth gang violence has caused a tremendous strain on the progress of the communities impacted. The loss of life, property, and positive opportunity for growth caused by youth gang violence has reached intolerable levels. Increased youth gang activity has seriously strained the budgets of many local jurisdictions, as well as threatened the ability of the educational system to educate our youth;

(3) Among youth gang members the high school drop-out rate is significantly higher than among nongang members. Since the economic future of our state depends on a highly educated and skilled work force, this high school drop-out rate threatens the economic welfare of our future work force, as well as the future economic growth of our state;

(4) The unemployment rate among youth gang members is higher than that among the general youth population. The unusual unemployment rate, lack of education and skills, and the increased criminal activity could significantly impact our future prison population;

(5) Most youth gangs are subcultural. This implies that gangs provide the nurturing, discipline, and guidance to gang youth and potential gang youth that is generally provided by communities and other social systems. The subcultural designation means that youth gang participation and violence can be effectively reduced in Washington communities and schools through the involvement of community, educational, criminal justice, and employment systems working in a unified manner with parents and individuals who have a firsthand knowledge of youth gangs and at-risk youth; and

(6) A strong unified effort among parents and community, educational, criminal justice, and employment systems would facilitate: (a) The learning process; (b) the control and reduction of gang violence; (c) the prevention of youth joining negative gangs; and (d) the intervention into youth gangs.

NEW SECTION. Sec. 2. It is the intent of the legislature to cause the development of positive prevention and intervention pilot programs for elementary and secondary age youth through cooperation between individual schools, local organizations, and government. It is also the intent of the legislature that if the prevention and intervention pilot programs are determined to be effective in reducing problems associated with youth gang violence, that other counties in the state be eligible to receive special state funding to establish similar positive prevention and intervention programs.

NEW SECTION. Sec. 3. Unless the context otherwise requires, the following definitions shall apply throughout sections 1 through 11 of this act:

(1) "School" means any public school within a school district any portion of which is in a county with a population of over one hundred ninety thousand.

(2) "Community organization" means any organization recognized by a city or county as such, as well as private, nonprofit organizations registered with the secretary of state.

(3) "Gang risk prevention and intervention pilot program" means a community-based positive prevention and intervention program for gang members, potential gang members, at-risk youth, and elementary through high school-aged youth directed at all of the following:

(a) Reducing the probability of youth involvement in gang activities and consequent violence.

(b) Establishing ties, at an early age, between youth and community organizations.

(c) Committing local business and community resources to positive programming for youth.

(d) Committing state resources to assist in creating the gang risk prevention and intervention pilot programs.

(4) "Cultural awareness retreat" means a program that temporarily relocates at-risk youth or gang members from their usual social environment to a different social environment, with the specific purpose of having them performing activities which will enhance or increase their positive behavior and potential life successes.

NEW SECTION. Sec. 4. (1) The department of community development may recommend existing programs or contract with school districts for the development, administration, and implementation in the county of community-based gang risk prevention and intervention pilot programs.

(2) Proposals by the school district for gang risk prevention and intervention pilot program grant funding shall begin with school years no sooner than the 1994-95 session, and last for a duration of two years.

The description of the program goals shall include a list of measurable objectives for the purpose of evaluation by the school district. To the extent possible, proposals shall contain empirical data on current problems, such as drop-out rates and occurrences of violence on and off campus by school-age individuals.

(b) A description of the individual school or schools and the geographic area to be affected by the program.

(c) A demonstration of broad-based support for the program from business and community organizations.

(d) A clear description of the experience, expertise, and other qualifications of the community organizations to conduct an effective prevention and intervention program in cooperation with a school or a group of schools.

Sec. 15. RCW 9.94A.390 and 1990 c 3 s 603 are each amended to read as follows:

If the sentencing court finds that an exceptional sentence outside the standard range should be imposed in accordance with RCW 9.94A.120(2), the sentence is subject to review only as provided for in RCW 9.94A.210(4).

The following are illustrative factors which the court may consider in the exercise of its discretion to impose an exceptional sentence. The following are illustrative only and are not intended to be exclusive reasons for exceptional sentences.

(1) Mitigating Circumstances

- (a) To a significant degree, the victim was an initiator, willing participant, aggressor, or provoker of the incident.
- (b) Before detection, the defendant compensated, or made a good faith effort to compensate, the victim of the criminal conduct for any damage or injury sustained.
- (c) The defendant committed the crime under duress, coercion, threat, or compulsion insufficient to constitute a complete defense but which significantly affected his or her conduct.
- (d) The defendant, with no apparent predisposition to do so, was induced by others to participate in the crime.
- (e) The defendant's capacity to appreciate the wrongfulness of his conduct or to conform his conduct to the requirements of the law, was significantly impaired (voluntary use of drugs or alcohol is excluded).
- (f) The offense was principally accomplished by another person and the defendant manifested extreme caution or sincere concern for the safety or well-being of the victim.
- (g) The operation of the multiple offense policy of RCW 9.94A.400 results in a presumptive sentence that is clearly excessive in light of the purpose of this chapter, as expressed in RCW 9.94A.010.
- (h) The defendant or the defendant's children suffered a continuing pattern of physical or sexual abuse by the victim of the offense and the offense is a response to that abuse.

(2) Aggravating Circumstances

- (a) The defendant's conduct during the commission of the current offense manifested deliberate cruelty to the victim.
- (b) The defendant knew or should have known that the victim of the current offense was particularly vulnerable or incapable of resistance due to extreme youth, advanced age, disability, or ill health.
- (c) The current offense was a major economic offense or series of offenses, so identified by a consideration of any of the following factors:
- (i) The current offense involved multiple victims or multiple incidents per victim;
- (ii) The current offense involved attempted or actual monetary loss substantially greater than typical for the offense;
- (iii) The current offense involved a high degree of sophistication or planning or occurred over a lengthy period of time;
- (iv) The defendant used his or her position of trust, confidence, or fiduciary responsibility to facilitate the commission of the current offense.
- (d) The current offense was a major violation of the Uniform Controlled Substances Act, chapter 69.50 RCW (VUCSA), related to trafficking in controlled substances, which was more onerous than the typical offense of its statutory definition: The presence of ANY of the following may identify a current offense as a major VUCSA:
- (i) The current offense involved at least three separate transactions in which controlled substances were sold, transferred, or possessed with intent to do so; or
- (ii) The current offense involved an attempted or actual sale or transfer of controlled substances in quantities substantially larger than for personal use; or
- (iii) The current offense involved the manufacture of controlled substances for use by other parties; or
- (iv) The circumstances of the current offense reveal the offender to have occupied a high position in the drug distribution hierarchy; or
- (v) The current offense involved a high degree of sophistication or planning or occurred over a lengthy period of time or involved a broad geographic area of disbursement; or
- (vi) The offender used his or her position or status to facilitate the commission of the current offense, including positions of trust, confidence or fiduciary responsibility (e.g., pharmacist, physician, or other medical professional).
- (e) The current offense included a finding of sexual motivation pursuant to RCW 9.94A.127.
- (f) The offense was part of an ongoing pattern of sexual abuse of the same victim under the age of eighteen years manifested by multiple incidents over a prolonged period of time.
- (g) The operation of the multiple offense policy of RCW 9.94A.400 results in a presumptive sentence that is clearly too lenient in light of the purpose of this chapter, as expressed in RCW 9.94A.010.
- (h) The offense was committed for the benefit of, at the direction of, or in association with any criminal street gang as defined in RCW 9.94A.030, with the specific intent to promote, further, or assist in any criminal conduct by gang members.

NEW SECTION. Sec. 16. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Creating a courthouse facilitator program.

POINT OF INQUIRY

Representative G. Fisher yielded to a question by Representative Appelwick.

Representative Appelwick: Representative G. Fisher, in that previous bill was it the intent that those fees could be used for family court services and family reconciliation services within the meaning of family services.

Representative G. Fisher: Representative Appelwick, I think so. This bill, the revenue committee action has returned the bill to its original form which authorizes the county to raise fees locally to help support a courthouse facilitator project, that is being piloted in seven counties at the moment, there are at least 13 that would like to do this but who had no revenue source or other funds to do so. The purpose of this project is to assist pro se litigants in finding their way around the courthouse and the legal maze, not to give them legal advice but to help take the burden off the clerks of courts who are there to file papers not to give people directions and it takes the burden off the courts. This a modest start in that facilitator program and I urge your support.

Representative Appelwick: The answer to the question, given by Representative G. Fisher, I think, is important because family court services which do investigation and counseling and family reconciliation services which try to help those people who want to get back together immediately, are an important component of those support services. I urge your support.

Representative Appelwick spoke in favor of passage of the bill.

The Speaker (Representative R. Meyers presiding) stated the question before the House to be final passage of Engrossed Substitute House Bill No. 1768.

Blowin' Tattoo

Hackles cracked, buckles glass,
rain worked against the window
my head held low at some angle
appropriate
to being ripped off and jacked up
by some union discipline,
some cackling hack idiot,
with a beer-belly brain
and an attitude let loose
bent me double,
beat me down,
scared me penniless,
sheep-shanked and burned out,
ripped up like the ratty old rags
in a yellowing sofa,
and my head felt the aches
of the bad crapped out gambles
and rotten mistakes,
backed out and backed down,
with bad knees and bad knuckles,
drawin' faces to twelve,
dealer sittin'on twenty,

and then from out of the blues,
from the bedroom upstairs,
come a B Flat staccato
blowin' bebop and Dizzy,
blowin' Maynard, blowin' scat, blowin'
barkin' and bitchin' and bootin'up
with the low moan o' Dixie,
like a psalm in cut glass,
like an arc welder's torch,

burnin'in and come blistering
long linear notes reaching higher and higher,
like a tracer, like a flare set off,
my boy was upstairs,
he was blowin' the roof off,
he was blowin' the roof off o' Jericho.

He was blowin' Tattoo
to an old buoy tender,
blowin' Tattoo, at a bunk in the bow
of an icebreaker, at a floor of the flight deck
in the wake of a steamer,
in the wake of a cutter,
at the wake of a flyer
gunned down like a driveby in the fog over Aniak,
gunned down at the ice floes,
where fishing boats heeled,
faced with failure, fatigue,
and we drank 'til we fell over,
knocked over bottles,
and felt up the XO's wife, I say, Gabriel,
get down, she was blowin' Tattoo.

And I come undone
in the whiskey wet winters,
beggin' mercy, forgiveness
for unprincipled actions, unspeakable agonies,
brought down on myself
like a seven day rainfall,
unbearable, unending, unhealing,
from old injuries that seem to be lethal,
all the ills done to others, unimagined atrocities,
like a big piece of broken glass
eaten by accident, but nonetheless fatal,

when from out of the blues,
from the bedroom upstairs,
come an angel on horn,
come a cirrus high note,
like a wire between me an' the Lord God almighty,
between me an' the archangel,
He has saved me, forgiven, takin' up crosses
in the wash of a jazz riff, he has given me Pentecost
in a pitiful world, come a boy on horn,
come an angel in turtleneck,
from the bedroom upstairs,
blowin' Dixieland doits like salvation,
he was blowin' Tattoo
like a Gospel evangelist,
like a riverbed baptism,
he was holding me under,
where the water and blood rush
come speaking in tongues,
come together, come, Gabriel,
I was crying Tattoo
because I love him so much,
so be kind to my boy, I say,
Heaven help the horn man,
keep him safe in dark alleys,
keep him paid by the hour,
keep his embouchure holy,
keep his luck at the shoe

hittin' twelve, drawin' nines,
at a soft seventeen,
Heaven sure to be kind,
he is blowin' Tattoo.

The Speaker assumed the chair.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.
There being no objection, the House advanced to the fourth order of business.

The Speaker introduced the Superintendent of Public Instruction, Judith Billings.

Judith Billings briefly addressed the House and introduced the Washington State Teacher of the Year, Kathy Paris. Kathy Paris made the following speech:

Mr. Speaker and members of the House. Thank you for inviting me today.

When I visited the Soviet Union in 1976 with 3 teachers and 30+ students, I would never have dreamed that this empire would no longer exist in the 1990's. That same year, I also visited the Berlin Wall with its slivers of glass on top of the brick to prevent people from crawling over the top. I will never forget when our bus full of students went across the border into that bleak, drab nation. The border guards used mirrors to look under the bus to make sure no one was underneath; visas were thoroughly studied to make sure we were who our visas said we were. It was terrifying, but very real. When we returned to West Berlin, we climbed some towers that allowed us to view, with binoculars, East Berlin, across no man's land, where guard towers, mines and tank traps were located, we could see some apartment buildings. A little old woman was looking at us so we waved. She waved back and in unison, we all began to cry. For probably the first time, we realized how precious freedom was; how precious the ability to change almost anything you want. Who would have dreamed that this Germany too would no longer exist? Amazing things can happen. Things can change!

Some of our education problems seem insurmountable, but so too did the fall of the Soviet Union and East Germany. While our problems can not be compared to the problems of these nations, their downfall illustrates that anything can change. If we all work together, we can overcome almost any obstacle. Change is already beginning with schools and teachers, but change must also occur outside our schools. More people must change and value education if we are to succeed!! The following are my suggestions to bring about change.

To my fellow teachers: we can value education by continually taking classes and/or going to conferences so we can keep up with the newest techniques and strategies. We can present at conferences/workshops to share, share, share with our colleagues and above all, above all, we can share our excitement of learning with our students. In addition, we must be willing to change as our students change. Change can be very beneficial and exciting for all of us--teachers and students alike. We should look at change as opportunity not an obstacle.

To the parents: get involved with your schools. Offer to chaperon fieldtrips, come to parent conferences and open houses, ask your child to see his/her grades and homework, ask them what they learned today. In other words, show that you think their education is important. If you don't value education, how do you expect your child to? Keep in mind that we are very successful with children who are ready to learn and feel learning is important.

To Society in general: If society fails to value education, students will think learning is not important. Doctors and dentists of students can help. All they would have to do is not schedule so many office visits during school--this would say they value education. Employers could ask for student attendance records and grades and not hire anyone who is failing a class or showing poor attendance. This would tell the students something--learning is important. There's an owner of a McDonald's in Renton who rewards good grades with money. He also offers them hourly wages for studying at a special study table. What a wonderful idea!! He definitely values education!! Businesses could ask to join school building councils to provide direct input to teachers. They could ask a teacher or two to sit on their advisory board and/or offer summer internships to let us know what they need. Besides telling us what we are doing wrong, they could tell us what we are doing right.

To elected officials: Did you think I was going to forget you? I am very aware that this is not a good time to ask for money. But I would like you to put the following on your list of things to do when money is available: First, try to reduce class size so that teachers can teach and not worry about crowd control. This is especially critical in the elementary years, but it is also important in secondary. Thirty two or more students in one classroom is not conducive to learning. Rarely does a teacher have the twenty or so students that is commonly advertised as the "average class size". Perhaps only classroom teachers should be figured in the formula to determine a real average class size. A separate formula should be used for supportive personnel. Second, provide full funding so that we can get the supplies, equipment and support we need to teach. Relying on levies is not full funding. The rich districts often get what they need (computers and other technology equipment) because they can pass levies and the poorer districts keep losing ground. Teachers in the U. S. spend an average of \$500 of their own money each year (Carnegie Foundation for the Advancement of Teaching) to buy things they need to help inspire their students. Washington teachers are no exception. Full funding would stop this. Full funding would mean schools would have enough up-to-date equipment. It is not unusual for a science department, for example, to have equipment 25 years old or older. This often forces us to teach like we did 20 years ago. If a department wants new equipment, they have to take it from their supply budget and that leaves nothing for supplies. Allowing schools to charge a lab fee, as in years past, would help tremendously. Last, but not least, provide teachers, especially those starting out, with a competitive wage. We must attract and retain the brightest and most creative teachers if we want to inspire our young people. Cost of living increases do help. (and don't forget our retired teachers need COLA's too). Contrary to popular opinion, when teachers are in their 40's and 50's, they can still be bright and creative. However, our current system says that when teachers reach a certain number of college credits and years of experience, they can't receive additional compensation beyond the 2-3% granted by the legislature. Where is the incentive for these teachers to go back to college to learn new skills and techniques at their own expense if no additional compensation or time is provided?

The remainder of my suggestions won't cost any money to enact and can be accomplished this session.

Instead of requiring 60% yes votes on levies, require a simple majority like most other elections. The way it is set up now, a "no" vote counts more than a "yes" vote and that isn't fair. In addition, don't force schools to get 40% of the last general election to validate. If only 5 people come out to vote, then they should be the ones to determine the levy's outcome. If others do not choose to vote, then they would have no say in the matter. As it is now, a person can sit at home, and, by not voting, cause a levy to fail.

You could require passing grades and regular attendance in school in order for students to get their driver's license--that would sure tell students that education is important.

If you could reduce the regulations that districts must follow, this would enable them, hopefully, to reduce their administrative staff. This would free up some money to hire support personnel such as counselors and social workers or teachers who would directly help our students. Extra administrators do not directly help our students. A teacher or support person in the classroom would be money much better spent.

To the media: you could make more of an effort to tell the good thing that many schools, students and teachers are doing. You could help teach the public the value of learning.

Even teacher training colleges and universities can change and make the classes they teach more relevant to the real world of teaching.

Efforts by all of these societal members would tell students that education is valuable, unlike the message they often receive now.

Last, but not least, the students have a major responsibility in the learning process. Teachers have all had some of those wonderful students who love to learn, who thirst for learning--they make teaching a pleasure. We need more of them!!! But we have also had the students who just want fun and games and to be entertained as on

MTV. These students need to understand that teachers are not trained, nor paid, to be entertainers. If teachers had the props, the costume designers, the sound crews, the writers, the secretaries, the sets, and the money, they could entertain. In the meantime, most teachers do the best with limited resources and huge classes. If parents and teachers and society do their respective jobs, the student has no excuse for not learning. If they fail, they have chosen to do so. If more people value education, students will too. We can change and I am not just talking about teachers and schools. Businesses, parents, doctors, dentists, elected officials, the media, teacher training colleges and universities and the students can change. We must change and we will. We, as teachers, (and proud of it) will gladly accept any challenge to improve our educational system, but we cannot do it alone. We need the help of all society's members, including you!!!!

There being no objection, the House advanced to the eighth order of business.

WHEREAS, Despite great risk to herself, she crossed into the South some nineteen times to lead other slaves to freedom; and

WHEREAS, Harriet Tubman worked closely with antislavery stalwarts associated with the Underground Railroad, particularly the Quaker Thomas Garrett of Wilmington, Delaware and the Black Leader William Still of Philadelphia, who later wrote that in ". . . courage, shrewdness and disinterested exertions to rescue her fellowmen . . . she was without her equal"; and

WHEREAS, Her daring exploits caused the rewards for her capture to reach \$40,000; and

WHEREAS, During the Civil War, Harriet Tubman served as a spy and scout for the Union Army, often crossing behind Confederate Lines to secure military intelligence; and

WHEREAS, She also served as a nurse during the war, bringing aid and comfort to the sick and wounded;

WHEREAS, Herself illiterate and without a day of schooling, she promoted the establishment of Freedmen's Schools in the South; and

WHEREAS, She also spoke up for the rights of women and participated in the suffrage effort; and

SPEAKER'S RULING

When we last considered Substitute House Bill No. 1333, Representative Flemming had offered striking amendment 110, Representative Vance had offered amendment 126 to the amendment, and Representative Wineberry had raised a point of order as to whether amendment 126 was within the scope and object to the bill.

The Speaker has examined Substitute House Bill No. 1333, and amendment 126. The Substitute Bill is an act relating to youth gang violence reduction. It creates a new chapter in title 43 and contains programs involving schools and Human Service Agencies with counseling, cultural activities, job training and other preventive programs. It does not provide for crimes or criminal penalties.

In contrast, amendment 126 amends title 9, part of the criminal code, by creating additional aggravating circumstances for crimes involving street gangs, a subject not addressed in the underlying bill.

Therefore, Representative Wineberry, the Speaker finds that the amendment exceeds the scope and object of the bill and that your point of order is well taken.

The House considered Engrossed Substitute House Bill No. 1333 on the second reading calendar. (For previous amendments see Journal, 60th Day, March 12, 1993.)

A PRAYERS POEM

(By Justin Freeman)

I really love good poetry,
It edifies the soul.
It carries us to heights unknown,
And lets our spirits roll.

It show us things of beauty,
We often cannot see.
It points out things of ugliness,
We rather would not be.

But poetry cannot take us,
To the place we must arrive.
Only prayer can lift us to the one,
Who keeps us all live.

"Nature's God," "Creator,"
As Jefferson would say.
"Sustainer of the Universe,"
Who will judge us all some day.

Poet laureates are fine,
We should honor noble skills.
But prayer is what this world needs now,
To save us from our ills.

King David's poems, songs, the Psalms,
Set the model for our plight.
They praise our God and ask him,
For safety, wisdom through the night.

Those gracious men and women,
Who before us held our place,
Agreed with those who sought the Lord,
For mercy and for grace.

They opened each day of business here,
With prayer to Heaven for light.
To guide our weak and feeble tries,
To guarantee the right.

I hope that we will carry on,
Traditions great and small.
Poems that edify our souls,
But humble Prayer first of all.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

POINT OF INQUIRY

Representative Sommers yielded to a question by Representative Locke.

Representative Locke: In the Appropriations Committee you were the sponsor and drafter of the Substitute House Bill.

Section 10 of Substitute House Bill No. 1294 contains a direction to an interest arbitrator that the arbitrator should not require employers of police officers and fire fighters to pay any of the increased employee retirement contributions that result from benefits contained in the bill.

Is it the intent of this section to change current policy regarding retirement issues and collective bargaining?

Representative Sommers: No. The intent of this section is not to change current policy, but rather to maintain our current policy that retirement issues of any kind are not subject to collective bargaining, and therefore should not be considered in interest arbitration. The retirement contributions that employees currently make are not subject to bargaining, and neither should any increased contributions due to improved benefits.

The legislature has made it clear that employees in Plan II are to pay 50% of the contributions toward retirement. Substitute House Bill No. 1294 will cause an increase in the employee contribution rate, and LEOFF employees will have to pay significantly more for their retirement benefits.

Section 10 of the bill simply reminds an arbitrator that increased employee contributions due to Substitute House Bill No. 1294 are intended to be paid by the employee, and not indirectly thrust upon the employer.

Representatives Sommers, Locke, Silvers, Orr, Carlson, and Schoesler spoke in favor of passage of the bill.

"NEW SECTION. Sec. 8. (1) Effective January 1, 1994, it is unlawful to fish for coastal crab in Washington state waters or deliver coastal crab to a port in the state without a coastal crab pot license. A coastal crab pot license is not required to take other species of crab, including red rock crab (*Cancer productus*), from waters containing coastal crab.

(2) A coastal crab pot license shall only be issued to a vessel that, during two of the following three qualifying periods:

December 1, 1988, through September 15, 1989;
December 1, 1989, through September 15, 1990; and
December 1, 1990, through September 15, 1991;

- (a) Showed historical participation in the coastal crab fishery by having held one of the following:
- (i) Crab pots license or crab pots (other than Puget Sound) license, issued under RCW 78.25.130;
 - (ii) Delivery permit or delivery license, issued under RCW 75.28.125;
 - (iii) Salmon troll license, issued under RCW 75.28.110; or
 - (iv) Salmon delivery permit or salmon delivery license, issued under RCW 75.28.113;
 - (v) Trawl license or trawl (other than Puget Sound) license, issued under RCW 75.28.140; and

(b) Can prove active historical participation in the coastal crab fishery as evidenced by having made a minimum of eight crab landings per season in at least two of the three qualifying seasons, which landings total a minimum of five thousand pounds of crab in each qualifying season, taken in coastal or offshore waters as documented by valid Washington state shellfish receiving tickets. For purposes of this section, "crab taken in coastal or offshore waters" means crab taken in Washington state department of fisheries marine fish/shellfish management and catch reporting areas 58B, 59A, 59B, 60A, 60B, 60C, 60D, 61, or 62, as defined in WAC 220-20-410.

(3) A coastal crab pot license shall only be issued to a vessel that has participated continuously in the coastal crab fishery by having held one or more of the licenses listed in subsection (2)(a) of this section each calendar year from 1990 through 1993.

NEW SECTION. Sec. 9. An applicant who can show historical participation under section 8(2) of this act but not satisfying the continuous participation requirement of section 8(3) of this act shall be issued a coastal crab pot license if:

(1) The owner can prove that the owner was in the process on September 15, 1991, of constructing a vessel for the purpose of coastal crab fishing. For purposes of this section, "construction" means having the keel laid, and "for the purpose of coastal crab fishing" means the vessel is designed to retrieve crab pots mechanically and has a live well. A coastal crab pot license issued to a vessel under construction is not renewable after December 31, 1994, unless the vessel lands five thousand pounds of coastal crab into a Washington state port before December 31, 1994; or

(2) The applicant's vessel is a replacement for a vessel that is otherwise eligible for a coastal crab pot license, in which case the landing and licensing history shall follow the replacement vessel, and only the replacement vessel is eligible for a coastal crab pot license.

NEW SECTION. Sec. 10. (1) An Oregon resident who can show historical and continuous participation in the Washington state coastal crab fishery by having held a nonresident crab pots (other than Puget Sound) license issued under RCW 75.28.140 each year from 1990 through 1993, and who has delivered a minimum of five thousand pounds of crab into Oregon during any two of the three qualifying periods as provided in section 8(2) of this act as evidenced by valid Oregon fish receiving tickets, shall be issued a nonresident coastal crab pot license valid for fishing in Washington state waters north from the Oregon/Washington boundary to United States latitude forty-six degrees thirty minutes north. Such license shall be issued upon application and submission of proof of delivery.

(2) This section shall become effective contingent upon reciprocal statutory authority in the state of Oregon providing for equal access for Washington state coastal crab fishers to Oregon territorial coastal waters north of United States latitude forty-five degrees fifty-eight minutes north, and Oregon waters of the Columbia river.

NEW SECTION. Sec. 11. A new section is added to chapter 75.30 RCW to read as follows:

(1) It is unlawful for vessels registered in Washington to take coastal crab in state waters or waters of the exclusive economic zone and coterminous with the seaward boundary of this state, or to land such crab in Washington, without the licenses, endorsements, or permits required to take or land coastal crab in Washington.

(2) This section becomes effective only upon reciprocal legislation being enacted by both the states of Oregon and California. For purposes of this section, "exclusive economic zone" means that zone defined in the federal fishery conservation and management act (16 U.S.C. Sec. 1802) as of the effective date of this section or as of a subsequent date adopted by rule of the director.

NEW SECTION. Sec. 12. After December 31, 1994, a coastal crab pot license may only be issued to a vessel that held the license in 1994, and each year thereafter. If the license is transferred to another vessel, the license history shall also be transferred to the transferee vessel.

Where the failure to hold a license the previous year was the result of license suspension, the vessel may qualify by establishing that the vessel held a coastal crab pot license in the last year in which the license was not suspended.

NEW SECTION. Sec. 13. If fewer than one hundred twenty-five vessels are eligible for coastal crab pot licenses, the director shall accept applications for new licenses. The director shall determine by random selection the

successful applicants for the additional licenses. The number of additional licenses issued shall be sufficient to maintain one hundred twenty-five vessels in the Washington coastal crab fishery. The director shall adopt rules governing the notification, application, selection, and issuance procedures for new coastal crab licenses, based on recommendations of a board of review established under RCW 75.30.050.

Sec. 14. RCW 75.30.050 and 1990 c 61 s 3 are each amended to read as follows:

(2) Members shall serve at the discretion of the director and shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

NEW SECTION. **Sec. 15.** The director may reduce the landing requirement established under section 8(2)(b) of this act upon the recommendation of an advisory review board established under RCW 75.30.050, but the director may not entirely waive the landing requirement. The advisory review board may recommend a reduction of the landing requirement in individual cases if in the board's judgment, extenuating circumstances prevented achievement of the landing requirement. The director shall adopt rules governing the operation of the advisory review board and defining "extenuating circumstances." In defining extenuating circumstances, special consideration shall be given to individuals who can provide evidence of lack of access to capital based on past discrimination due to race, creed, color, sex, national origin, or disability.

NEW SECTION. **Sec. 16.** The industry shall prepare a gear reduction plan to stabilize the coastal crab industry in Washington. The industry shall submit the plan to the department of fisheries by November 31, 1995. The department shall evaluate the plan and submit it to the legislature by December 31, 1995.

NEW SECTION. **Sec. 17.** (1) Sections 2, 5, and 6 of this act are each added to chapter 75.28 RCW.

SPEAKER'S RULING

The Speaker: Representative Appelwick, the Speaker is prepared to rule on your point of order regarding the scope and object of Amendment 128 to Substitute House Bill No. 1299. The Speaker has examined the bill and the amendment by Representative Casada.

Substitute House Bill No. 1299 is an act relating to student safety and discipline. It defines the criminal liability of adults and students carrying firearms or other dangerous weapons onto school property. It also deals with the disciplinary authority of school districts.

Amendment 128 by Representative Casada alters the Department of Licensing's authority to revoke a juvenile's driver's license to include any firearms offense, whether or not related to schools or students. The Speaker finds that amendment 128 does change the scope and object of Substitute House Bill No. 1299 because it brings in unrelated issues: non-school-related offenses under RCW Chapter 9.41.

The point of order is well taken. The amendment is out of order.

With the consent of the House, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

Representatives Appelwick, Padden, Campbell, Carlson, and Pruitt spoke in favor of passage of the bill.

POINT OF INQUIRY

Representative Locke yielded to a question by Representative Edmondson.

Representative Edmondson: In the amendment, in how the bill has changed, are you saying this is merely a structure to receive federal funds, is or that there will be state appropriations in future legislation.

Representative Locke: This is structure legislation. It's setting up an account. There are no appropriations in this legislation. There is also no tax source in this legislation. This account could receive fund money, either the existing monies that are now flowing through the department, or enhancement money, either this biennium or future biennium. For instance we spend a lot of money through the Parks Department, Department of Ecology, Natural Resources, Puget Sound Water Quality Authority, and the thought id some that of money that would otherwise be spent in the normal course of events quality would directly to the council so that there's coordination between what the Department of Ecology is doing and what Department of Natural Resources is doing so that one agency isn't cleaning up streams downstream, while another agency is doing something that's counter-productive upstream together.

(1) On or before the third Monday in June of each year, each metropolitan municipal corporation shall adopt a budget for the following calendar year. Such budget shall include a separate section for each authorized metropolitan function. Expenditures shall be segregated as to operation and maintenance expenses and capital and betterment outlays. Administrative and other expense general to the corporation shall be allocated between the authorized metropolitan functions. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. ~~((The remaining funds required to meet budget expenditures, if any, shall be designated as "supplemental income" and shall be obtained from the component cities and counties in the manner provided in this chapter.))~~ The metropolitan council shall not be required to confine capital or betterment expenditures made from bond proceeds or emergency expenditures to items provided in the budget. The affirmative vote of three-fourths of all members of the metropolitan council shall be required to authorize emergency expenditures.

(2) Subsection (1) of this section shall not apply to a county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW. This subsection (2) shall apply only to each county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW.

If, despite the continued imposition of those taxes, the estimate of revenues made on or before the third Monday in June shows that estimated revenues will be insufficient to make all debt service payments falling due in the following calendar year on all general obligation indebtedness issued by the metropolitan municipal corporation prior to the assumption by the county of the rights, powers, functions, and obligations of the metropolitan municipal corporation, the remaining amount required to make the debt service payments shall be designated as "supplemental income" and shall be obtained from component cities and component counties as provided under RCW 35.58.420.

The county shall prepare and adopt a budget each year in accordance with applicable general law or county charter. If supplemental income has been designated under this subsection, the supplemental income shall be reflected in the budget that is adopted. If during the budget year the actual tax revenues from the taxes imposed under the authority of RCW 82.14.045 and 35.58.273(5) exceed the estimates upon which the supplemental income was based, the difference shall be refunded to the component cities and component counties in proportion to their payments promptly after the end of the budget year. A county that has assumed the rights, powers, functions, and obligations of a metropolitan municipal corporation under chapter 36.56 RCW shall not be required to confine capital or betterment expenditures for authorized metropolitan functions from bond proceeds or emergency expenditures to items provided in the budget."

POINT OF INQUIRY

Representative J. Kohl yielded to a question by Representative Horn.

Representative Horn: Section 8(3) (d) allows source-specific RACT (reasonably available control technology) determinations "prior to the development of a categorical RACT rule."

Does this language prohibit a source-specific RACT determination for a source covered by a categorical rule developed prior to the 1991 Clean Air Washington Act?

Representative J. Kohl: No. The exception in section 8(3) (d) is intended to refer to categorical RACT rules developed subsequent to the passage of the 1991 Act. This language allows a source-specific RACT determination until such time as a post-1991 categorical RACT rule has been developed.

Representative Horn: Section 8(5) of the bill states that Ecology and local air authorities shall address, where practicable, all contaminants deemed to be of concern for that source or source category when making RACT determinations.

If a source emits multiple air contaminants that are of concern, does this mean that Ecology or the local authority should make every effort to address all such contaminants during the course of the review?

Representative J. Kohl: It is intended that Ecology and local air authorities make every effort to address all contaminants of concern simultaneously. However, the intent of the language is not to preclude Ecology or the local air authorities from establishing standards for particular air pollutants at a later date.

Representative Horn: Section 8(7) authorizes Ecology and the local air authorities to collect fees covering "determinations of RACT requirements as defined under this section and RCW 70.94.331(9)."

Does the reference to determinations "made under this section and RCW 70.94.331(9)" mean that a source might have to pay two fees for a single determination by Ecology or a local authority?

Representative J. Kohl. No. It is intended that a source be assessed a single fee for a particular RACT determination or revision; a source will not be charged twice for the same agency decision.

Representatives J. Kohl and Horn spoke in favor of passage of the bill.

The Speaker stated the question before the House to be final passage of Substitute House Bill No. 1089.

(5) Suspension, revocation, or restriction of the individual's license to practice the profession by competent authority in any state, federal, or foreign jurisdiction, a certified copy of the order, stipulation, or agreement being conclusive evidence of the revocation, suspension, or restriction;

(6) The possession, use, prescription for use, or distribution of controlled substances or legend drugs in any way other than for legitimate or therapeutic purposes, diversion of controlled substances or legend drugs, the violation of any drug law, or prescribing controlled substances for oneself;

(7) Violation of any state or federal statute or administrative rule regulating the profession in question, including any statute or rule defining or establishing standards of patient care or professional conduct or practice;

(8) Failure to cooperate with the disciplining authority by:

(a) Not furnishing any papers or documents;

(b) Not furnishing in writing a full and complete explanation covering the matter contained in the complaint filed with the disciplining authority; or

(c) Not responding to subpoenas issued by the disciplining authority, whether or not the recipient of the subpoena is the accused in the proceeding;

(9) Failure to comply with an order issued by the ~~((disciplining))~~ disciplinary authority or ~~((an assurance of discontinuance))~~ a stipulation for informal disposition entered into with the ~~((disciplining))~~ disciplinary authority;

(10) Aiding or abetting an unlicensed person to practice when a license is required;

(11) Violations of rules established by any health agency;

(12) Practice beyond the scope of practice as defined by law or rule;

(13) Misrepresentation or fraud in any aspect of the conduct of the business or profession;

(14) Failure to adequately supervise auxiliary staff to the extent that the consumer's health or safety is at risk;

(15) Engaging in a profession involving contact with the public while suffering from a contagious or infectious disease involving serious risk to public health;

(16) Promotion for personal gain of any unnecessary or inefficacious drug, device, treatment, procedure, or service;

basis for conviction and all proceedings in which the sentence has been deferred or suspended. Nothing in this section abrogates rights guaranteed under chapter 9.96A RCW;

(18) The procuring, or aiding or abetting in procuring, a criminal abortion;

(19) The offering, undertaking, or agreeing to cure or treat disease by a secret method, procedure, treatment, or medicine, or the treating, operating, or prescribing for any health condition by a method, means, or procedure which the licensee refuses to divulge upon demand of the disciplining authority;

(20) The willful betrayal of a practitioner-patient privilege as recognized by law;

(21) Violation of chapter 19.68 RCW;

(22) Interference with an investigation or disciplinary proceeding by willful misrepresentation of facts before the disciplining authority or its authorized representative, or by the use of threats or harassment against any patient or witness to prevent them from providing evidence in a disciplinary proceeding or any other legal action;

(23) Current misuse of:

(a) Alcohol;

(b) Controlled substances; or

(c) Legend drugs;

(24) Abuse of a client or patient or sexual contact with a client or patient;

(25) Acceptance of more than a nominal gratuity, hospitality, or subsidy offered by a representative or vendor of medical or health-related products or services intended for patients, in contemplation of a sale or for use in research publishable in professional journals, where a conflict of interest is presented, as defined by rules of the disciplining authority, in consultation with the department, based on recognized professional ethical standards."

WHEREAS, Drawdowns below minimum operating pool on the Snake River, demonstrated by the test drawdowns conducted in March 1992 for the limited purpose of evaluating impacts to physical structures and facilities, provided limited migration benefits for the salmon, caused the loss of as many as thirty thousand resident fish, disrupted navigation, and caused substantial physical property damage to public and private facilities; and

WHEREAS, Maintaining reservoir levels at minimum operating pool and, in the absence of modifications to existing irrigation pump stations, at minimum irrigation pool on the John Day reservoir, enables the river system to support critical economic activity;

NOW, THEREFORE, Your Memorialists respectfully pray that any future drawdowns on the Columbia-Snake River system be limited to minimum operating pool on the Snake River projects or minimum operating pool coupled with irrigation pump modification on the John Day reservoir unless, based on and supported by the best available scientific knowledge, further drawdowns are determined to be a biologically prudent alternative and, where equally effective alternative means of achieving the same sound biological objective exist, are the alternative with the minimum economic cost; and"

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. It is the intent of the legislature to combat discrimination in the economy.

(1) The legislature finds that discrimination is in part responsible for:

(a) The disproportionately small percentage of the state's businesses that are owned by minorities and women;

(b) The limited and unequal opportunity minority and women entrepreneurs and business owners have to procure small business financing; and

(c) The difficulty many minority and women-owned contracting businesses have in securing bonds and contract work.

(2) The legislature further finds that:

(a) Many minority and women entrepreneurs and business owners lack training in how to establish and operate a business. This lack of training inhibits their competitiveness when they apply for business loans, bonds, and contracts;

(b) Minorities and women are an increasingly expanding portion of the population and work force. In order for these individuals to fully contribute to the society and economy it is necessary to ensure that minority and women entrepreneurs and business owners are provided an equal opportunity to procure small business financing, bonds, and contracts; and

(c) The growth of small businesses will have a favorable impact on the Washington economy by creating jobs, increasing competition in the marketplace, and expanding tax revenues. Access to financial markets, bonds, and contracts by entrepreneurs and small business owners is vital to this process. Without reasonable access to financing, bonds, and contracts, talented and aggressive entrepreneurs and small business owners are cut out of the economic system and the state's economy suffers.

(3) Therefore, the legislature declares there to be a substantial public purpose in providing technical assistance in the areas of marketing, finance, and management, and access to capital resources, bonds, and contracts, to help start or expand a minority or women-owned business, and specifically to encourage and make possible greater participation by minorities and women in international trade, public works and construction, and public facility concessions. To accomplish these purposes, it is the intent of the legislature to:

(a) Develop or contract for training courses in financing, marketing, managing, accounting, and recordkeeping for a small business and to make these programs available to minority and women entrepreneurs and small business owners;

(b) Make public works and construction projects, public facility concessions, and purchase of goods and services accessible to a greater number of minority and women-owned businesses;

(c) Provide for the lending of nonstate funds to qualified minority and women entrepreneurs and business owners in order to provide the maximum practicable opportunity for innovative minority and women entrepreneurs and business owners to compete for small business financing; and

(d) Provide professional services assistance grants and bond guarantees on behalf of qualified contractors in order to provide the maximum practicable opportunity for minority and women-owned contracting businesses to participate in the Washington state economy by bidding and completing various public and private contracting jobs.

NEW SECTION. Sec. 2. DEFINITIONS. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Minority" means persons of color, including African-Americans, Hispanic/Latino Americans, Native Americans, and Asian/Pacific Islanders Americans;

(2) "Minority and women-owned business" means any resident minority business enterprise or women's business enterprise, certified as such by the office of minority and women's business enterprises under chapter 39.19 RCW and consistent with subsection (1) of this section.

Careful consideration in making these appointments shall be taken to ensure that the various geographic regions of the state are represented, that members will be available for meetings on a regular basis, and will have a commitment to working with local governments and local development organizations.

(2) Each member appointed by the director shall serve a term of three years, except that of the members first appointed, two shall serve two-year terms and two shall serve one-year terms. A person appointed to fill a vacancy of a member shall be appointed in a like manner and shall serve for only the unexpired term. A member is eligible for reappointment. A member may be removed by the director only for cause.

(3) The director shall designate a member of the board as its chairperson. The committee may elect such other officers as it deems appropriate. ~~((Four))~~ Five members of the committee constitute a quorum and ~~((four))~~ five affirmative votes are necessary for the transaction of business or the exercise of any power or function of the committee.

(4) The members of the committee shall serve without compensation, but are entitled to reimbursement for actual and necessary expenses incurred in the performance of official duties in accordance with RCW 43.03.050 and 43.03.060.

(5) Members shall not be liable to the state, to the fund, or to any other person as a result of their activities, whether ministerial or discretionary, as members except for wilful dishonesty or intentional violations of law. The department may purchase liability insurance for members and may indemnify these persons against the claims of others.

Sec. 11. RCW 43.168.050 and 1990 1st ex.s. c 17 s 74 are each amended to read as follows:

(1) The committee may only approve an application providing a loan for a project which the committee finds:

(a) Will result in the creation of employment opportunities, ~~((or))~~ the maintenance of threatened employment, or development or expansion of business ownership by minorities and women;

(b) Has been approved by the director as conforming to federal rules and regulations governing the spending of federal community development block grant funds;

(c) Will be of public benefit and for a public purpose, and that the benefits, including increased or maintained employment, improved standard of living, ~~((and))~~ the employment of disadvantaged workers, and development or expansion of business ownership by minorities and women, will primarily accrue to residents of the area;

(d) Will probably be successful;

(e) Would probably not be completed without the loan because other capital or financing at feasible terms is unavailable or the return on investment is inadequate.

(2) The committee shall, subject to federal block grant criteria, give higher priority to economic development projects that contain provisions for child care.

(3) The committee may not approve an application if it fails to provide for adequate reporting or disclosure of financial data to the committee. The committee may require an annual or other periodic audit of the project books.

(4) The committee may require that the project be managed in whole or in part by a local development organization and may prescribe a management fee to be paid to such organization by the recipient of the loan or grant.

(5) (a) Except as provided in (b) of this subsection, the committee shall not approve any application which would result in a loan or grant in excess of three hundred fifty thousand dollars.

(b) The committee may approve an application which results in a loan or grant of up to seven hundred thousand dollars if the application has been approved by the director.

(6) The committee shall fix the terms and rates pertaining to its loans.

(7) Should there be more demand for loans than funds available for lending, the committee shall provide loans for those projects which will lead to the greatest amount of employment or benefit to a community. In determining the "greatest amount of employment or benefit" the committee shall also consider the employment which

would be saved by its loan and the benefit relative to the community, not just the total number of new jobs or jobs saved.

(8) To the extent permitted under federal law the committee shall require applicants to provide for the transfer of all payments of principal and interest on loans to the Washington state development loan fund created under this chapter. Under circumstances where the federal law does not permit the committee to require such transfer, the committee shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer.

(9) The committee shall not approve any application to finance or help finance a shopping mall.

(10) For loans not made to minority and women-owned businesses, the committee shall make at least eighty percent of the appropriated funds available to projects located in distressed areas, and may make up to twenty percent available to projects located in areas not designated as distressed. For loans not made to minority and women-owned businesses, the committee shall not make funds available to projects located in areas not designated as distressed if the fund's net worth is less than seven million one hundred thousand dollars.

(11) If an objection is raised to a project on the basis of unfair business competition, the committee shall evaluate the potential impact of a project on similar businesses located in the local market area. A grant may be denied by the committee if a project is not likely to result in a net increase in employment within a local market area.

(12) For loans to minority and women-owned businesses who do not meet the credit criteria, the committee may consider non-traditional credit standards to offset past discrimination that has precluded full participation of minority or women-owned businesses in the economy. For applicants with high potential who do not meet the credit criteria, the committee shall consider developing alternative borrowing methods. For applicants denied loans due to credit problems, the committee shall provide financial counseling within available resources and provide referrals to credit rehabilitation services. In circumstances of competing applications, priority shall be given to members of eligible groups which previously have been least served by this fund.

NEW SECTION. Sec. 12. A new section is added to chapter 43.168 RCW to read as follows:

Subject to the restrictions contained in this chapter, the committee is authorized to approve applications of minority and women-owned businesses for loans or loan guarantees from the fund. Applications approved by the committee under this chapter shall conform to applicable federal requirements. The committee shall prioritize available funds for loan guarantees rather than loans when possible. The committee may enter into agreements with other public or private lending institutions to develop a joint loan guarantee program for minority and women-owned businesses. If such a program is developed, the committee may provide funds, in conjunction with the other organizations, to operate the program. This section does not preclude the committee from making individual loan guarantees.

Sec. 13. RCW 43.168.070 and 1987 c 461 s 5 are each amended to read as follows:

The committee may receive and approve applications on a monthly basis but shall receive and approve applications on at least a quarterly basis for each fiscal year. The committee shall make every effort to simplify the loan process for applicants. Department staff shall process and assist in the preparation of applications. Each application shall show in detail the nature of the project, the types and numbers of jobs to be created, wages to be paid to new employees, and methods to hire unemployed persons from the area. Each application shall contain a credit analysis of the business to receive the loan. The chairperson of the committee may convene the committee on short notice to respond to applications of a serious or immediate nature.

Sec. 14. RCW 43.168.100 and 1986 c 204 s 1 are each amended to read as follows:

The committee may make grants of state funds to local governments which qualify as "entitlement communities" under the federal law authorizing community development block grants. These grants may only be made on the condition that the entitlement community provide the committee with assurances that it will: (1) Spend the grant moneys for purposes and in a manner which satisfies state constitutional requirements; (2) spend the grant moneys for purposes and in a manner which would satisfy federal requirements; and (3) spend at least the same ~~((double the))~~ amount of the grant for loans to businesses from the federal funds received by the entitlement community.

When the officer has probable cause to believe that spouses, former spouses, or other persons who reside together or formerly resided together have assaulted each other, the officer is not required to arrest both persons. In making this determination, the officer shall make every reasonable effort to consider: (i) The intent to protect victims of domestic violence under RCW 10.99.010; (ii) the comparative extent of injuries inflicted or serious threats creating fear of physical injury; and (iii) the history of domestic violence between the persons involved.

(6) An officer may act upon the request of a law enforcement officer in whose presence a traffic infraction was committed, to stop, detain, arrest, or issue a notice of traffic infraction to the driver who is believed to have committed the infraction. The request by the witnessing officer shall give an officer the authority to take appropriate action under the laws of the state of Washington.

(7) Any police officer having probable cause to believe that a person has committed or is committing any act of indecent exposure, as defined in RCW 9A.88.010, may arrest the person.

A plaintiff in an action brought under this chapter shall not recover more than his or her actual damages and additional sums authorized in section 7 of this act. Once a plaintiff recovers his or her actual damages and any additional sums authorized under this chapter, additional damages shall not be recovered. A person does not have to be criminally convicted of violating section 3 or 4 of this act to be held civilly liable under this section. It is not necessary to prove actual damages to recover the additional sums authorized under section 7 of this act, costs, and attorneys' fees. The prevailing party is entitled to recover costs and attorneys' fees.

(2) The superior courts of this state shall have authority to grant temporary, preliminary, and permanent injunctive relief to enjoin violations of this chapter.

In appropriate circumstances, any superior court having personal jurisdiction over one or more defendants may issue injunctive relief that shall have binding effect on the original defendants and persons acting in concert with the original defendants, in any county in the state.

Due to the nature of the harm involved, injunctive relief may be issued without bond in the discretion of the court, notwithstanding any other requirement imposed by statute.

The state and its political subdivisions shall cooperate in the enforcement of court injunctions that seek to protect against acts prohibited by this chapter.

NEW SECTION. Sec. 7. In a civil action brought under this chapter, an individual plaintiff aggrieved by the actions prohibited by section 3 or 4 of this act may be entitled to recover up to five hundred dollars for each day that

the actions occurred, or up to five thousand dollars for each day that the actions occurred if the plaintiff aggrieved by the actions prohibited under section 3 or 4 of this act is a health care facility.

NEW SECTION. Sec. 9. Nothing in section 3 of this act shall prohibit lawful picketing or other publicity for the purpose of providing the public with information.

NEW SECTION. Sec. 10. A court having jurisdiction over a criminal or civil proceeding under this chapter shall take all steps reasonably necessary to safeguard the individual privacy and prevent harassment of a health care patient or health care provider who is a party or witness in a proceeding, including granting protective orders and orders in limine.

Sec. 11. RCW 10.97.070 and 1977 ex.s. c 314 s 7 are each amended to read as follows:

(1) Criminal justice agencies may, in their discretion, disclose to persons who have suffered physical loss, property damage, or injury compensable through civil action, the identity of persons suspected as being responsible for such loss, damage, or injury together with such information as the agency reasonably believes may be of assistance to the victim in obtaining civil redress. Such disclosure may be made without regard to whether the suspected offender is an adult or a juvenile, whether charges have or have not been filed, or a prosecuting authority has declined to file a charge or a charge has been dismissed.

(2) Unless the agency determines release would interfere with an ongoing criminal investigation, in any action brought pursuant to this chapter criminal justice agencies shall disclose identifying information, including photographs of suspects, if the acts are alleged by the plaintiff or victim to be a violation of section 3 or 4 of this act.

(3) The disclosure by a criminal justice agency of investigative information pursuant to subsection (1) of this section shall not establish a duty to disclose any additional information concerning the same incident or make any subsequent disclosure of investigative information, except to the extent an additional disclosure is compelled by legal process.

NEW SECTION. Sec. 12. Nothing in this chapter shall be construed to limit the right to seek other available criminal or civil remedies. The remedies provided in this chapter are cumulative, not exclusive.

NEW SECTION. Sec. 13. If any section or subsection of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the section or subsection to other persons or circumstances is not affected.

NEW SECTION. Sec. 14. Sections 2 through 4, 6 through 10, and 12 of this act shall constitute a new chapter in Title 9A RCW.

The bill was read the second time.

On motion of Representative Morris, Substitute House Bill No. 1922 was substituted for House Bill No. 1922 and the substitute bill was placed on the second reading calendar.

Substitute House Bill No. 1922 was read the second time.

Representative Morris moved adoption of the following striking amendment by Representatives Morris, Lemmon, Long and Tate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that high crime rates and a heightened sense of vulnerability have led to increased public pressure on criminal justice officials to increase offender punishment and remove the most dangerous criminals from the streets. As a result, there is unprecedented growth in the corrections populations and overcrowding of prisons and local jails. Skyrocketing costs and high rates of recidivism have become issues of major public concern. Attention must be directed towards implementing a long-range corrections strategy that focuses on inmate responsibility through intensive work ethic training.

The legislature finds that many offenders lack basic life skills and have been largely unaffected by traditional correctional philosophies and programs. In addition, many first-time offenders who enter the prison system learn

more about how to be criminals than the important qualities, values, and skills needed to successfully adapt to a life without crime.

The legislature finds that opportunities for offenders to improve themselves are extremely limited and there has not been adequate emphasis on alternatives to total confinement for nonviolent offenders.

The legislature finds that the explosion of drug crimes since the inception of the sentencing reform act and the response of the criminal justice system have resulted in a much higher proportion of substance abuse-affected offenders in the state's prisons and jails. The needs of this population differ from those of other offenders and present a great challenge to the system. The problems are exacerbated by the shortage of drug treatment and counseling programs both in and outside of prisons.

The legislature finds that the concept of a work ethic camp that requires the offender to complete an appropriate and balanced combination of highly structured and goal-oriented work programs such as correctional industries based work camps and/or class I and class II work projects, drug rehabilitation, and intensive life management work ethic training, can successfully reduce offender recidivism and lower the overall cost of incarceration.

It is the purpose and intent of sections 1 through 6 of this act to implement a regimented work ethic camp that is designed to directly address the high rate of recidivism, reduce upwardly spiraling prison costs, preserve scarce and high cost prison space for the most dangerous offenders, and provide judges with a tough and sound alternative to traditional incarceration without compromising public safety.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 1 through 6 of this act.

(1) "Department" means the department of corrections.

(2) "Secretary" means the secretary of corrections.

(3) "Transition training" means written and verbal instructions and assistance provided by the department to the offender during the two weeks prior to the offender's successful completion of the work ethic camp program. The transition training shall include instructions in the offender's requirements and obligations during the offender's period of postrelease supervision.

(4) "First-time drug offender" means any person who is convicted of a felony for the first time in violation of chapter 69.50 RCW, or of any offense defined as a felony under federal law that relates to the possession, manufacture, or delivery of a controlled substance, or any out-of-state conviction for an offense that under the laws of this state would be a felony classified as a drug offense under current statute.

(5) "Work ethic camp" means an alternative incarceration program designed to reduce recidivism and lower the cost of corrections by requiring offenders to complete a comprehensive array of real-world job and vocational experiences, character-building work ethics training, life management skills development, substance abuse rehabilitation, counseling, literacy training, and basic adult education. The objectives of the program are to deter offenders from committing additional crimes by requiring them to experience the sobering realities of prison life and simultaneously complete an intense range of character and skill building challenges.

(6) "Incarceration program" means the work ethic camp.

NEW SECTION. Sec. 3. The department of corrections shall establish one work ethic camp. The secretary shall locate the incarceration program within an already existing department compound or facility, or in a facility that is scheduled to come on line within the initial implementation date outlined in this section. The facility selected for an incarceration program shall appropriately accommodate the logistical and cost-effective objectives contained in sections 1 through 6 of this act. The department shall be ready to assign inmates to the incarceration program one hundred twenty days after the effective date of this act. The department shall establish the work ethic program cycle to last from one hundred twenty to one hundred eighty days. The department shall develop all aspects of the incarceration program including, but not limited to, program standards, conduct standards, educational components including general education development test achievement, offender incentives, drug rehabilitation program parameters, individual and team work goals, techniques for improving the offender's self-esteem, citizenship skills for successful living in the community, measures to hold the offender accountable for his or her behavior, and the successful completion of the incarceration program granted to the offender based on successful attendance, participation, and performance as defined by the secretary. The work ethic camp shall be designed and implemented so that offenders are continually engaged in meaningful activities and unstructured time is kept to a minimum. In addition, the department is encouraged to explore the integration and overlay of a military style approach to the work ethic camp.

NEW SECTION. Sec. 4. (1) Offenders shall be recommended for consideration to participate in the incarceration program at the time of their sentencing by the sentencing judge. Upon sentencing an offender to work ethic camp, the sentencing judge shall convert the period of work ethic camp confinement at a rate of one day of work ethic camp confinement to three days of total standard confinement. Only those offenders who successfully complete their sentence in work ethic camp, as defined by the department, shall be eligible to convert their sentence at this ratio. The court shall, as a component of any sentence regarding work ethic camp, also impose a term of community

placement postrelease supervision. The total time spent in the work ethic program and postrelease supervision shall not exceed the initial sentence imposed. During the last two weeks prior to release from work ethic camp the department shall provide the offender with comprehensive transition training. The court shall send a copy of the offender's sentence to the department within five working days of sentencing. The department shall arrange to take custody of the offender within its established customary time frame after the documents have been provided to the department by the court. The department shall then be responsible for determining if the offender is eligible for the incarceration program based on the following criteria:

- (a) The offender is between the ages of eighteen and twenty-eight years.
- (b) The offender has no known physical or mental impairments that would prevent his or her ability to perform the challenging physical and mental activities associated with this program.
- (c) The offender is a first-time drug offender or an offender who is sentenced for not more than thirty-six months or less than twenty-two months.
- (d) The offender has not been convicted of any sex offenses or violent offenses.
- (e) The offender agrees to and signs the terms and conditions of the program designated by the secretary.

The department shall develop written incarceration program offender eligibility criteria and make the information available to the appropriate sentencing courts.

(2) The secretary shall prescribe the form and content of the agreement to be signed by the eligible offender before entering the incarceration program.

(3) The department may place inmates eligible for the work ethic camp incarceration program in program beds that have not been utilized by the court. The secretary shall ensure that court-referred inmates receive priority placement in the program.

(4) An inmate who fails to complete the incarceration program, who is administratively terminated from the incarceration program, or who otherwise violates any conditions of supervision, as defined by the department, shall be reclassified to serve the unexpired term of his or her sentence as ordered by the sentencing court and subject to all rules relating to earned early release time.

(5) An inmate who is sentenced or transferred to the incarceration program shall serve no less than one hundred twenty or more than one hundred eighty days as defined by the department to be considered a successful graduate of the incarceration program. Because of the conversion ratio, earned early release time shall not accrue to offenders sentenced to the work ethic camp.

NEW SECTION. Sec. 5. The department work ethic program facility shall employ one hundred percent of all inmates. The employment options available for inmates shall include meaningful work opportunities that provide the offender with real-world skills that help the offender find employment when he or she successfully completes the incarceration program. The department shall include in the incarceration program, without limitation, class I, class II, and class IV correctional programs. No more than thirty-five percent of the total inmate population in the facility shall be employed in class III correctional industries programs in the first year and thereafter ten percent less per year until a maximum of ten percent of the inmates are working in this employment class. In addition, work options shall also include department-supervised work crews as defined by the department. These work crews shall have the ability to work on public roads conducting litter control, minor emergency repair or other minor tasks that do not negatively impact employment opportunities for people with developmental disabilities contracted through the operation of sheltered workshops as defined in RCW 82.04.385, or have a negative impact on the local labor market or local business community as assessed by the department correctional industries advisory board of directors. The department shall establish, to the extent possible, programs that will positively impact our natural environment such as, but not limited to, recycling programs and minor environmental cleanup programs. If the department is directed by the legislature to increase the percentage of inmates employed in correctional industries programs, inmates employed through work ethic camps shall not be counted towards this total percentage.

NEW SECTION. Sec. 6. The incarceration program established in sections 1 through 6 of this act shall be considered a pilot alternative incarceration program and remain in effect until July 1, 1998. The department and the office of financial management shall monitor and analyze the effectiveness of the incarceration program and complete a final outcome evaluation study by January 15, 1998. Based on the findings of this final outcome evaluation study, the legislature may extend the program. The study shall include: The recidivism rates of successful program graduates, analysis of the overall program costs, the ability to maintain public safety, and any other pertinent data established by the department. The department may encourage interested universities to participate in studies that will enhance the effectiveness of the program.

The department of corrections shall seek the availability of federal funds for the planning, implementation, evaluation, and training of staff for work ethic camp programs, substance abuse programs, and offender education programs.

NEW SECTION. Sec. 7. Sections 1 through 6 of this act are each added to chapter 72.09 RCW.

NEW SECTION. Sec. 8. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 9. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993."

The director shall make and, from time to time, change as may be, and promulgate a fee bill of the maximum charges to be made by any physician, surgeon, chiropractor, hospital, druggist, physicians' assistants as defined in chapters 18.57A and 18.71A RCW, acting under a supervising physician or other agency or person rendering services to injured workers. NEW SECTION. Sec. 2. A new section is added to chapter 51.04 RCW to read as follows:

The director shall appoint an associate medical director for chiropractic. The associate medical director must be eligible to be licensed under chapter 18.25 RCW.

(1) The health services that are available to an injured worker under RCW 51.36.010 include chiropractic treatment in appropriate cases within the scope of practice under chapter 18.25 RCW. As appropriate, and subject to the requirements for examinations of workers specified in this title, a worker may be required by the department to undergo chiropractic examination by a chiropractor licensed under chapter 18.25 RCW for the purpose of assisting the department in making determinations for the closure of a claim, in assessing the necessity and appropriateness of chiropractic care, or in making other determinations within the scope of chiropractic practice related to the worker's industrial injury.

(2) The department may establish treatment and utilization standards for chiropractic treatment in consultation with representatives of the chiropractic profession. The standards, if any, may be developed in conjunction with the department of health. The standards should include some or all of the following:

- (b) Standards designed to contain costs, consistent with assured access to medically necessary treatment;
- (c) Standards that permit review of an injured worker's progress toward recovery after a stated number of chiropractic treatments. The standards may require review of chiropractic treatment based on a specified number of treatments, but the standards may not require termination of treatment based solely on the number of treatments.

(d) Standards for requesting consultation with chiropractors by the department or other health services providers on the necessity or appropriateness of chiropractic care or other subjects within the chiropractic scope of practice.

Sec. 4. RCW 51.32.112 and 1988 c 114 § 2 are each amended to read as follows:

(b) The criteria for conducting the examinations, including guidelines for the appropriate treatment of injured workers during the examination; and

(c) The content of examination reports.

(2) Within the appropriate scope of practice, chiropractors licensed under chapter 18.25 RCW may conduct special medical examinations to determine permanent disabilities in consultation with physicians licensed under chapter 18.57 or 18.71 RCW. The department, in its discretion, may request that a special medical examination be conducted by a single chiropractor if the department determines that the sole issues involved in the examination are within the scope of practice under chapter 18.25 RCW. However, nothing in this section authorizes the use as evidence before the board of a chiropractor's determination of the extent of a worker's permanent disability if the determination is not requested by the department.

(3) The department shall investigate the amount of examination fees received by persons conducting special medical examinations to determine permanent disabilities, including total compensation received for examinations of department and self-insured claimants, and establish compensation guidelines and compensation reporting criteria.

~~((3))~~(4) The department shall investigate the level of compliance of self-insurers with the requirement of full reporting of claims information to the department, particularly with respect to medical examinations, and develop effective enforcement procedures or recommendations for legislation if needed.

In order to effectively accomplish such purpose and to assure that the industrially injured worker receives such services as are paid for by the state of Washington, the acceptance by the industrially injured worker of such services, and the request by a provider of services for reimbursement for providing such services, shall authorize the director of the department of labor and industries or the director's authorized representative to inspect and audit all records in connection with the provision of such services.

Sec. 6. RCW 51.36.110 and 1986 c 200 § 2 are each amended to read as follows:

The director of the department of labor and industries or the director's authorized representative shall have the authority to:

(1) Conduct audits and investigations of providers of medical, chiropractic, dental, vocational, and other health services furnished to industrially injured workers pursuant to Title 51 RCW. In the conduct of such audits or investigations, the director or the director's authorized representatives may examine all records, or portions thereof, including patient records, for which services were rendered by a health services provider and reimbursed by the department, notwithstanding the provisions of any other statute which may make or purport to make such records privileged or confidential: PROVIDED, That no original patient records shall be removed from the premises of the health services provider, and that the disclosure of any records or information obtained under authority of this section by the department of labor and industries is prohibited and constitutes a violation of RCW 42.22.040, unless such disclosure is directly connected to the official duties of the department: AND PROVIDED FURTHER, That the disclosure of patient information as required under this section shall not subject any physician or other health services provider to any liability for breach of any confidential relationships between the provider and the patient: AND PROVIDED FURTHER, That the director or the director's authorized representative shall destroy all copies of patient medical records in their possession upon completion of the audit, investigation, or proceedings;

Representative Heavey again spoke in favor of passage of the bill.

POINT OF INQUIRY

Representative Heavey yielded to a question by Representative Wang.

Representative Wang: Under section 3 of this bill, the Department of Labor and Industries may require examinations of injured workers by chiropractors to assist the department in making determinations related to the closure of a claim the necessity and appropriateness of care, and other similar determinations. Does this provision mean that the department may use only chiropractic in making these determination.

Representative Heavey: No. This bill clarifies the department's authority to use chiropractic examinations but it does not change the department's authority to request examinations by other health service providers as appropriate for the injured worker's care.

Representative Wang: Secondly, does anything in the bill give a chiropractor the right to sue the department for failure to use a chiropractor in making determinations related to the closure of a claim, to the necessity of appropriateness of care, or other related determinations.

Representative Heavey: No. This bill gives the department some discretionary authority in making these determinations. The department's exercise of its discretionary authority or failure to exercise the authority does not establish any cause of action for a chiropractor.

The Speaker (Representative R. Meyers presiding) stated the question before the House to be final passage of Engrossed Substitute House Bill No. 1871.

On page 1, strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that a water right confers significant economic benefits to the water right holder. The fees associated with acquiring a water right have not changed significantly since 1917. Water rights applicants pay less than two percent of the costs of the administration of the water rights program. The legislature finds that, since water rights are of significant value, water rights applicants should contribute more to the cost of administration of the water rights program.

The legislature also finds that an abrupt increase in water rights fees could be disruptive to water rights holders and applicants. The legislature further finds that water rights applicants have a right to know that the water rights program is being administered efficiently and that the fees charged for various services relate directly to the cost of providing those services.

Therefore, the legislature creates a task force to review the water rights program, to make recommendations for streamlining the application process and increasing the overall efficiency and accountability of the administration

of the program, and to return to the legislature with a proposal for a fee schedule where the fee levels relate clearly to the cost of services provided.

Sec. 2. RCW 90.03.015 and 1987 c 109 s 65 are each amended to read as follows:

As used in this chapter:

- (1) "Department" means the department of ecology;
- (2) "Director" means the director of ecology; ~~((and))~~
- (3) "Person" means any firm, association, water users' association, corporation, irrigation district, or municipal corporation, as well as an individual;
- (4) "Reservoir" means any water stored for a beneficial use held behind a dam or dike to a depth of ten feet or more at its deepest point, or of ten or more acre-feet of water. A reservoir is also a water holding impoundment adjacent to a stream channel when water will be required to fill it, if the water in the holding area is of a depth of ten feet or more at its deepest point or is of ten or more acre-feet; and
- (5) "Short-term water use" means an emergency use of water or a nonrecurring temporary use of water for up to four months duration, with a possible extension of not more than four additional months upon approval by the department.

Sec. 3. RCW 90.03.470 and 1987 c 109 s 98 are each amended to read as follows:

The following fees shall be collected by the department in advance:

(1) For the examination of an application for permit to appropriate water or on application to change point of diversion, withdrawal, purpose or place of use, a minimum of ten dollars, to be paid with the application. For each second foot between one and five hundred second feet, two dollars per second foot; for each second foot between five hundred and two thousand second feet, fifty cents per second foot; and for each second foot in excess thereof, twenty cents per second foot. For each acre foot of storage up to and including one hundred thousand acre feet, one cent per acre foot, and for each acre foot in excess thereof, one-fifth cent per acre foot. The ten dollar fee payable with the application shall be a credit to that amount whenever the fee for direct diversion or storage totals more than ten dollars under the above schedule and in such case the further fee due shall be the total computed amount less ten dollars.

Within five days from receipt of an application the department shall notify the applicant by registered mail of any additional fees due under the above schedule and any additional fees shall be paid to and received by the department within thirty days from the date of filing the application, or the application shall be rejected.

(2) For filing and recording a permit to appropriate water for irrigation purposes, forty cents per acre for each acre to be irrigated up to and including one hundred acres, and twenty cents per acre for each acre in excess of one hundred acres up to and including one thousand acres, and ten cents for each acre in excess of one thousand acres; and also twenty cents for each theoretical horsepower up to and including one thousand horsepower, and four cents for each theoretical horsepower in excess of one thousand horsepower, but in no instance shall the minimum fee for filing and recording a permit to appropriate water be less than five dollars. For all other beneficial purposes the fee shall be twice the amount of the examination fee except that for individual household and domestic use, which may include water for irrigation of a family garden, the fee shall be five dollars.

(3) For filing and recording any other water right instrument, four dollars for the first hundred words and forty cents for each additional hundred words or fraction thereof.

(4) For making a copy of any document recorded or filed in his office, forty cents for each hundred words or fraction thereof, but when the amount exceeds twenty dollars, only the actual cost in excess of that amount shall be charged.

(5) For certifying to copies, documents, records or maps, two dollars for each certification.

(6) For blueprint copies of a map or drawing, or, for such other work of a similar nature as may be required of the department, at actual cost of the work.

(7) For granting each extension of time for beginning construction work under a permit to appropriate water, an amount equal to one-half of the filing and recording fee, except that the minimum fee shall be not less than five dollars for each year that an extension is granted, and for granting an extension of time for completion of construction work or for completing application of water to a beneficial use, five dollars for each year that an extension is granted.

(8) For the inspection of any hydraulic works to insure safety to life and property, the actual cost of the inspection, including the expense incident thereto.

(9) For the examination of plans and specifications as to safety of controlling works for storage of ten acre feet or more of water, a minimum fee of ten dollars, or the actual cost.

(10) For recording an assignment either of a permit to appropriate water or of an application for such a permit, a fee of five dollars.

(11) For preparing and issuing all water right certificates, five dollars.

(12) For filing and recording a protest against granting any application, two dollars.

The department shall provide timely notification by certified mail with return receipt requested to applicants that fees are due. No action may be taken until the fee is paid in full. Failure to remit fees within sixty days of the

department's notification shall be grounds for rejecting the application or canceling the permit. Cash shall not be accepted. Fees must be paid by check or money order and are nonrefundable.

For purposes of calculating fees for ground water filings, one cubic foot per second shall be regarded as equivalent to four hundred fifty gallons per minute.

NEW SECTION. Sec. 4. (1) There is created a water rights fees task force. The task force shall be comprised of fourteen members, who are appointed as follows:

(a) Two members of the Washington state house of representatives, one from each major caucus, to be appointed by the speaker of the house of representatives;

(b) Two members of the Washington state senate, one from each major caucus, to be appointed by the president of the senate;

(c) Ten members, to be appointed jointly by the speaker of the house of representatives and the president of the senate, to represent the following interests: Agriculture, aquaculture, business, cities, counties, the state department of ecology, environmentalists, water recreation interests, water utilities, and hydropower interests. The task force may establish technical advisory committees as necessary to complete its tasks.

(2) The task force shall conduct a comprehensive review of water rights fees. The task force's tasks shall include but not be limited to:

(a) Identification of the costs associated with the various activities and services provided by the water rights program and examination of how these costs compare with the fees charged for these activities and services;

(b) Identification of appropriate accountability measures for the department of ecology to employ in administration of the water rights program. Recommendations of accountability requirements and measurements shall take into account the distinctive characteristics of the water rights program, that is, that the department receives a large number of applications on a one-time basis and that the department of ecology must meet its legal obligations under the doctrine of prior appropriation;

(c) Identification of which program activities should be eligible for cost recovery from fees, as well as which direct and indirect costs of program administration;

(d) Review of the application, examination, and water rights permit requirements for marine water users to determine if these users should receive special fee consideration;

(e) Review of the definition and treatment of nonconsumptive water uses to determine if special fee consideration should be given to these users;

(f) Review of the fees and accounting methods for the dam safety program;

(g) Identification of the appropriate distribution of responsibility between the applicant and the department of ecology for provision of technical information and analysis; and

(h) Establishment of a reasonable time framework for completion of new and pending water rights applications, and an analysis of the staff and funding levels required to meet the established time framework.

(3) Before December 1, 1993, the task force shall:

(a) Provide recommendations to the department of ecology on ways to improve the efficiency and accountability of the water rights program;

(b) Provide recommendations to the legislature on statutory changes necessary to make these efficiency and accountability improvements; and

(c) Propose a new fee schedule for the water rights program which incorporates the results of the task force's work and which funds through fees fifty percent of the cost of the activities and services provided by the program.

(4) The department of ecology and the legislature shall jointly provide for the staff support of the task force.

(5) The task force shall convene as soon as possible upon the appointment of its members. Task force members shall elect a chair and adopt rules for conducting the business of the task force. The task force shall expire on June 30, 1994.

NEW SECTION. Sec. 5. The legislature requests that, by July 1, 1993, the department of ecology begin the rule-making process to adopt appropriate state policies on instream flow levels and hydraulic continuity. If the department is unable to develop consensus on these policies, the department shall provide to the appropriate legislative committees information on these two issue areas, data and documentation on work to date on establishing policies on these issues, and policy options for consideration by the legislature.

NEW SECTION. Sec. 6. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

NEW SECTION. Sec. 1. A new section is added to chapter 9A.36 RCW to read as follows:

The legislature finds that threats against persons or property which endanger the person or property are serious and increasing. The legislature also finds that such threats are often directed against individuals of various religions, colors, ancestries, or national origins. The legislature finds that the state interest in preventing threats against persons or property which endanger the person or property is as substantial as the state interest in preventing other felonies or misdemeanors such as criminal trespass, malicious mischief, assault, or other crimes, but that prosecution of those other crimes often inadequately protects citizens from such threats.

The legislature also finds that in many cases, certain discrete words or symbols are used to threaten individuals or their property. Some discrete words or symbols have historically or traditionally been used to connote hatred or threats towards individuals of particular races and religions. In particular, the legislature finds that cross burnings historically and traditionally have been used to threaten, terrorize, intimidate, and harass African Americans and their families. Cross burnings often preceded lynching, murders, burning of homes, and other acts of terror. Further, Nazi swastikas historically and traditionally have been used to threaten, terrorize, intimidate, and harass Jewish people and their families. Swastikas symbolize the massive destruction of the Jewish population, commonly known as the holocaust. Therefore, the legislature finds that burning or attempting to burn a cross or displaying a swastika on the property of another person or burning a cross or displaying a swastika as part of a series of acts directed towards a specific person, or a specific group of people may create a reasonable fear of harm in the mind of the person, or group of people as a threat to their life or property.

Sec. 2. RCW 9A.36.080 and 1989 c 95 s 1 are each amended to read as follows:

(1) A person is guilty of malicious harassment if he or she maliciously and with the intent to intimidate or harass another person ~~((because of, or in a way that is reasonably related to, associated with, or directed toward, that person's race, color, religion, ancestry, national origin, or mental, physical, or sensory handicap))~~:

(a) Causes physical injury to another person; ~~((or))~~

~~(b) ((By words or conduct places another person in reasonable fear of harm to his person or property or harm to the person or property of a third person. Such words or conduct include, but are not limited to, (i) cross burning, (ii) painting, drawing, or depicting symbols or words on the property of the victim when the symbols or words historically or traditionally connote hatred or threats toward the victim, or (iii) written or oral communication designed to intimidate or harass because of, or in a way that is reasonably related to, associated with, or directed toward, that person's race, color, religion, ancestry, national origin, or mental, physical, or sensory handicap. However, it does not constitute malicious harassment for a person to speak or act in a critical, insulting, or deprecatory way unless the context or circumstances surrounding the words or conduct places another person in reasonable fear of harm to his or her person or property or harm to the person or property of a third person; or~~

~~(c))~~ Causes physical damage to or destruction of the property of another person; or

(c) Threatens a specific person or group of people and places that person or group of people in reasonable fear of harm to person or property. The fear must be a fear that a reasonable person would have under all the circumstances. Words alone do not constitute malicious harassment unless the context or circumstances surrounding the words indicate the words are a threat. Threatening words do not constitute malicious harassment if it is apparent to the person or group of people being threatened that the person allegedly making the threat does not have the ability to carry out the threat.

~~(2) ((The following constitute per se violations of this section:~~

~~(a) Cross burning; or~~

~~(b) Defacement of the property of the victim or a third person with symbols or words when the symbols or words historically or traditionally connote hatred or threats toward the victim.~~

~~(3))~~ In any prosecution for malicious harassment, if any evidence exists which reasonably tends to indicate to the trier of fact's satisfaction that the defendant intended to threaten the person or group of people, the trier of fact may infer that the defendant intended to threaten a specific person or group of people if the defendant commits one of the following acts:

(a) Burns a cross on property of a person or group of people; or

(b) Defaces property of a person or group of people by defacing the property with a swastika.

This subsection only applies to the creation of a reasonable inference for evidentiary purposes and does not relieve the trier of fact from determining beyond a reasonable doubt whether or not the defendant intended to threaten the person or group of people. This subsection does not restrict the state's ability to prosecute a defendant under subsection (1) of this section when the facts of a particular case do not fall within (a) or (b) of this subsection.

(3) Evidence of expressions or associations of the accused may not be introduced as substantive evidence at trial unless the evidence specifically relates to the crime charged. Nothing in this chapter shall affect the rules of evidence governing impeachment of a witness.

(4) Every defendant who commits another crime during the commission of a crime under this section may be punished and prosecuted for the other crime separately.

(5) Malicious harassment is a class C felony.

~~((4) In addition to the criminal penalty provided in subsection (3) of this section, there is hereby created a civil cause of action for malicious harassment. A person may be liable to the victim of malicious harassment for actual damages and punitive damages of up to ten thousand dollars.~~

~~(5))~~ (6) The penalties provided in this section for malicious harassment do not preclude the person or group of people from seeking any other remedies otherwise available under law.

(7) Nothing in this section confers or expands any civil rights or protections to any group or class identified under this section, beyond those rights or protections that exist under the federal or state Constitution or the civil laws of the state of Washington.

NEW SECTION. Sec. 3. A new section is added to chapter 9A.36 RCW to read as follows:

In addition to the criminal penalty provided in RCW 9A.36.080 for committing a crime of malicious harassment, the person or group of people who allege malicious harassment may bring a civil cause of action for malicious harassment against the alleged harasser. A person may be liable to the person or group of people subjected to malicious harassment for actual damages, punitive damages of up to ten thousand dollars, and reasonable attorneys' fees and costs incurred in bringing the action. The person or group of persons claiming the protection of this section must prove the case by clear and convincing evidence.

Sec. 4. RCW 13.40.0357 and 1989 c 407 s 7 are each amended to read as follows:

MOTION

Representative King moved that Representative Kremen's remarks on final passage of Substitute House Bill No. 1569 be spread upon the Journal. The motion was carried.

Representative Kremen: Thank you, Mr. Speaker. Anyone who thinks it's easy to build a pluralistic society should read today's newspapers. Because you're going to see reports of ethnic rapes and murders in Bosnia, religious murders in Bombay, violence in Somalia, and in all these cases pluralism was attacked by all-consuming hate. We may think that it can't happen here. But it can happen here, it does happen here, all you have to do is look at today's Tacoma News Tribune. It describes a racial incident in Tacoma that exploded into violence and death. The incident that involves whites, Hispanics and Asians began with racial slurs and threatening words but it didn't stop there. It soon escalated into threatening gestures and it ended in murder. Today's T.N.T. So we've seen tragedies like this all too often. And the fact is, bigotry is like a bomb, waiting for an incident to explode. We've seen too much hate, too much fear, too many scars left behind by crimes of bigotry. We need to send a message that no bigot can misunderstand. A clear message. That we will not tolerate hate crimes. We'll not look the other way. We'll not view malicious harassment as a prank or a joke, but we will treat it as the serious crime it is a crime that threatens all of us, and tears down the kind of society that we're trying to build. It's unfortunate that we can't stop hate crimes with laws and we can't make ignorance illegal. But we can help stop malicious harassment and the pain and damage it inflicts on our society. We can stop it with good laws like the one we're voting on now. So let's send a message, loud and clear, that threatening and violent acts of hatred against any class of people is flat wrong and won't be tolerated in the great State of Washington.

POINT OF PARLIAMENTARY INQUIRY

Representative Miller: Mr. Speaker, does Substitute House Bill No. 1268 amend initiative 134, requires a two-thirds vote for passage?

SPEAKER'S RULING

Mr. Speaker: Representative Miller, the Speaker is prepared to respond to your parliamentary inquiry whether Substitute House Bill No. 1268 amends initiative 134, and therefore constitutionally requires a two-thirds vote for passage.

The Speaker would first explain to the House that whether a bill amends a prior initiative measure depends on the purpose and effect of the bill, rather than its form. The fact that Substitute House Bill No. 1268 does not expressly amend the initiative is not dispositive. The determining factor is whether the bill has the effect of amending the initiative within the meaning of the constitution.

The Speaker would refer to his earlier ruling on, House Bill No. 1681 where the difference between a supplemental act and an amendment was explained to the House. As stated in that ruling, the legislature may validly enact by majority vote new legislation that deals with the same general subject matter as an initiative so long as the essential purpose and effect of the initiative is not altered.

The Speaker finds that rule controlling here. Initiative 134 regulates political contributions through amendments and additions to RCW Chapter 42.17. It does not regulate campaign expenditures except to impose disclosure requirements on independent expenditures and ballot propositions and to restrict the transfer of funds between political committees. Section 24 of the initiative also prohibits the use of public funds "to finance political campaigns for state or local office."

Substitute House Bill No. 1268 addresses campaign expenditures by candidates for specified offices. It requires the Public Disclosure Commission to set recommended spending limits, provides a mechanism for candidates to enter into voluntary agreements to abide by the limits, and provides for publication of the limits and agreements in the state voter's pamphlet.

Substitute House Bill No. 1268 does not alter or amend any provision of the initiative, nor does it authorize the use of public funds to finance any political campaign. It simply adds to the initiative's provisions on campaign finance.

The Speaker therefore finds that Substitute House Bill No. 1268 does not amend initiative 134 within the meaning of Article 2, section 41 of the Washington constitution.

Representative Dunshee moved the adoption of the following amendment by Representative Dunshee:

On page 3, line 18 after "state:" strike all material through "commission."" on line 20 and insert ""Has promised to abide by the voluntary spending limit for this campaign.""

On page 3, line 22 after "states:" strike all material through "commission."" on line 24 and insert ""Has **NOT** promised to abide by the voluntary spending limit for this campaign."

Representative Dunshee spoke in favor of the amendment and the amendment was adopted.

Representative Brough: Thank you, Mr. Speaker. It won't take me three minutes to say what I want to say. Those of you who are relatively new to the legislature may not have had the experience of introducing legislation and voting against it. It's not the end of the world. Occasionally, we make a boo-boo. Occasionally, you have to go back and revisit the issue and do it right. This bill started out as a good bill, with good public policy as its intent but it's ended up in a way that's before us right now that is not good public policy. You're creating a burden on small businesses and you are creating a burden for the person who experienced discrimination who works for the small business. That's wrong. Let's reject the bill now. Let's go back and spend our time looking at the Human Rights Commission, making it right, and unbroken and then come back and establish good public policy. The root of extending the laws of discrimination to all employees of this state is appropriate. This is not the right vehicle. I urge you to reject it.

Representative Appelwick: Mr. Speaker, Ladies and Gentlemen. This chapter of the code is structured differently than other chapters of the code. It has its intent section but then it creates substantive rights in all residents to be free from discrimination. Then it creates definitions. Those definitions apply through the rest of the chapter. The rest of the chapter applies to the commissions work. The statute as it currently stands, applies to all employers of all sizes. This bill only extends commission jurisdiction to smaller employers, albeit on a delayed basis. The confusion is trying to read the employer definition back into RCW 49.60.030. Where that word employer is never used, never found. The debate tonight, I think is a confusion of the issue. This only extends commission authority, the substantive right exists, it has existed since 1984, it will continue to exist and lawsuits, in fact, today are being filed under it. I urge you to support the bill.

"NEW SECTION. Sec. 1. The legislature finds that while present state law prohibits the sale and distribution of tobacco to minors, youth obtain tobacco products with ease. Availability and lack of enforcement put tobacco products in the hands of youth.

Federal law requires states to enforce laws prohibiting sale and distribution of tobacco products to minors in a manner that can reasonably be expected to reduce the extent to which the products are available to minors. It is imperative to effectively reduce the sale, distribution, and availability of tobacco products to minors.

NEW SECTION. Sec. 2. The definitions set forth in RCW 82.24.010 shall apply to sections 3 through 14 of this act. In addition, for the purposes of this chapter, unless otherwise required by the context:

- (1) "Board" means the Washington state liquor control board.
- (2) "Minor" refers to an individual who is less than eighteen years old.
- (3) "Public place" means a public street, sidewalk, or park, or any area open to the public in a publicly owned and operated building.
- (4) "Sample" means a tobacco product distributed to members of the general public at no cost or at nominal cost for product promotion purposes.
- (5) "Sampler" means a person engaged in the business of sampling other than a retailer.
- (6) "Sampling" means the distribution of samples to members of the general public in a public place.
- (7) "Tobacco product" means a product that contains tobacco and is intended for human consumption.

NEW SECTION. Sec. 3. A person who holds a license issued under RCW 82.24.520 or 82.24.530 shall:

- (1) Display the license or a copy in a prominent location at the outlet for which the license is issued; and
- (2) Display a sign concerning the prohibition of tobacco sales to minors.

Such sign shall:

- (a) Be posted so that it is clearly visible to anyone purchasing tobacco products from the licensee;
- (b) Be designed and produced by the department of health to read: "THE SALE OF TOBACCO PRODUCTS TO PERSONS UNDER AGE 18 IS STRICTLY PROHIBITED BY STATE LAW. IF YOU ARE UNDER 18, YOU COULD BE PENALIZED FOR PURCHASING A TOBACCO PRODUCT; PHOTO ID REQUIRED"; and
- (c) Be provided free of charge by the liquor control board.

NEW SECTION. Sec. 4. No person shall sell or permit to be sold any tobacco product through any device that mechanically dispenses tobacco products unless the device is located fully within premises from which minors are prohibited or in industrial worksites where minors are not employed and not less than ten feet from all entrance or exit ways to and from each premises.

NEW SECTION. Sec. 5. No person shall sell or permit to be sold cigarettes not in the original unopened package or container to which the stamps required by RCW 82.24.060 have been affixed.

This section does not apply to the sale of loose leaf tobacco by a retail business that generates a minimum of sixty percent of annual gross sales from the sale of tobacco products.

NEW SECTION. Sec. 6. (1) No person may engage in the business of sampling within the state unless licensed to do so by the board. If a firm contracts with a manufacturer to distribute samples of the manufacturer's products, that firm is deemed to be the person engaged in the business of sampling.

(2) The board shall issue a license to a sampler not otherwise disqualified by section 11 of this act upon application and payment of the fee.

(3) A sampler's license expires on the thirtieth day of June of each year and must be renewed annually upon payment of the appropriate fee.

(4) The board shall annually determine the fee for a sampler's license and each renewal. However, the fee for a manufacturer whose employees distribute samples within the state is five hundred dollars per annum, and the fee for all other samplers must be not less than fifty dollars per annum.

(5) A sampler's license entitles the licensee, and employees or agents of the licensee, to distribute samples at any lawful location in the state during the term of the license. A person engaged in sampling under the license shall carry the license or a copy at all times.

NEW SECTION. Sec. 7. (1) No person may distribute or offer to distribute samples in a public place. This prohibition does not apply to sampling (a) in an area to which persons under the age of eighteen are denied admission, (b) in or at a store or concession to which a retailer's license has been issued, or (c) at or adjacent to a production, repair, or outdoor construction site or facility.

(2) Notwithstanding subsection (1) of this section, no person may distribute or offer to distribute samples in or on a public street, sidewalk, or park that is within five hundred feet of a playground, school, or other facility when that facility is being used primarily by persons under the age of eighteen for recreational, educational, or other purposes.

NEW SECTION. Sec. 8. No person shall give or distribute cigarettes or other tobacco products to a person by a coupon if such coupon is redeemed in any manner that does not require an in-person transaction in a retail store.

NEW SECTION. Sec. 9. A person under the age of eighteen who purchases or attempts to purchase cigarettes or tobacco products commits a class 3 civil infraction under chapter 7.80 RCW and is subject to a fine as

set out in chapter 7.80 RCW or participation in a smoking cessation program, or both. This provision does not apply if a person under the age of eighteen, with parental authorization, is participating in a controlled purchase as part of a liquor control board, law enforcement, or local health department activity.

NEW SECTION. Sec. 10. (1) Where there may be a question of a person's right to purchase or obtain tobacco products by reason of age, the retailer, sampler, or agent thereof, shall require the purchaser to present any one of the following officially issued identification that shows the purchaser's age and bears his or her signature and photograph: Liquor control authority card of identification of a state or province of Canada; driver's license, instruction permit, or identification card of a state or province of Canada; "identocard" issued by the Washington state department of licensing under chapter 46.20 RCW; United States military identification; passport; or merchant marine identification card issued by the United States coast guard.

(2) It is a defense to a prosecution under RCW 26.28.080(4) that the person making a sale reasonably relied on any of the officially issued identification as defined in subsection (1) of this section. The liquor control board shall waive the suspension or revocation of a license if the licensee clearly establishes that he or she acted in good faith to prevent violations and a violation occurred despite the licensee's exercise of due diligence.

NEW SECTION. Sec. 11. (1) The liquor control board may suspend or revoke a retailer's license held by a business at any location, or may impose a monetary penalty as set forth in subsection (2) of this section, if the liquor control board finds that the licensee has violated RCW 26.28.080(4), or section 3, 4, 5, 6, 7, or 8 of this act.

(2) The sanctions that the liquor control board may impose against a person licensed under RCW 82.24.530 and sections 6 and 7 of this act based upon one or more findings under subsection (1) of this section may not exceed the following:

(3) The permittee shall begin excavating at the excavation line and proceed toward the bank, perpendicular to the alignment of the watercourse.

If such lapse has occurred, then an amount of material equivalent to the amount estimated to have accumulated since the last material removal operation, including debris and vegetation, may be removed.

NEW SECTION. Sec. 503. A new section is added to chapter 79.90 RCW to read as follows:

(d) Recognize natural plant and animal communities and other features that provide an ecological balance to a streamway in evaluating competing human uses and require protection from significant human impact; and

(e) Recognize that hydraulic conditions may require the installation of riprap or other similar measure to further protect natural systems of stabilization.

(3) No person may remove normal stream depositions of logs, uprooted tree snags, and stumps which abut on shorelands and do not intrude on the navigational channel or reduce flow, or adversely redirect a river course, and are not harmful to life and property without the department's permission but the department must consider the need to protect the resultant dependent aquatic systems.

(4) No person may fill indentations such as mudholes, eddies, pools, and aeration drops without permission of the department.

(5) The department may permit river channel relocations only when an overriding public benefit can be shown. Filling, grading, lagooning, or dredging which would result in substantial detriment to navigable waters by reason of erosion, sedimentation, or impairment of fish and aquatic life are not authorized.

(6) No person may remove sand and gravel below the wetted perimeter of navigable rivers unless authorized by a hydraulics permit issued by either the department of fisheries or department of wildlife under RCW 75.20.100 and 75.20.103. These removals may be authorized for maintenance and improvement of navigational channels or for creating backwater channels for fish rearing or improvement of the flow capacity of the channels.

(7) The department may allow sand and gravel removals above the wetted perimeter of a navigable river which are not harmful to public health and safety when any or all of the following situations exist:

(a) The removal is designed to create or improve a feature such as a pond, wetland, or other habitat valuable for fish and wildlife;

(b) The removal provides recreational benefits;

(c) The removal will aid in reducing a detrimental accumulation of aggregates in downstream lakes, reservoirs, and river beds;

(d) The removal will aid in reducing damage to private or public land and property abutting a navigable river;

or

(e) The removal will contribute to increased flood protection for private or public land.

(8) The department may not allow sand and gravel removals above the wetted perimeter of a navigable river when:

(a) The location of such material is below a dam and has inadequate supplementary feeding of gravel or sand;

(b) Removal will cause unstable hydraulic conditions detrimental to fish, wildlife, public health, and safety; or

(c) Removal will impact esthetics of nearby recreational facilities.

(9) No person may perform bank dumping or junk revetment on aquatic lands.

(10) The department shall condition sand and gravel removal leases to allow removal of only that amount which is naturally replenished on an annual basis, except in instances where a lapse in material removal has

occurred. If such a lapse has occurred, then an amount of material equivalent to the amount estimated to have accumulated since the last material removal operation, including debris and vegetation, may be removed.

No payment of royalty shall be required for such gravel, rock, sand, silt, or other material used for such public purpose, but a charge will be made if such material is subsequently sold or used for some other purpose: PROVIDED, That the department may authorize such public agency or private landowner to dispose of such material without charge when necessary to implement disposal of material; PROVIDED FURTHER, That no charge may be required for removal or use of such material if the removal of the material is determined by the municipality, county, or public corporation with jurisdiction to provide a flood control benefit. No charge shall be required for any use of the material obtained under the provisions of this chapter when used solely on an authorized site. No charge shall be required for any use of the material obtained under the provisions of this chapter if the material is used for public purposes by local governments. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the governor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Public assistance is intended to be a temporary financial relief program, recognizing that families can be confronted with a financial crisis at any time in life. Successful public assistance programs depend on the availability

of adequate resources to assist individuals deemed eligible for the benefits of such a program. In this way, eligible families are given sufficient assistance to reenter productive employment in a minimal time period;

(2) The current public assistance system has strong disincentives to work;

(3) Employment, training, and education services provided to employable recipients of public assistance are effective tools in achieving economic self-sufficiency. Support services that are targeted to the specific needs of the individual offer the best hope of achieving economic self-sufficiency in a cost-effective manner;

(4) State welfare-to-work programs, which move individuals from dependence to economic independence, must be operated cooperatively and collaboratively between state agencies and programs. They also must include public assistance recipients as active partners in self-sufficiency planning activities. Participants in economic independence programs and services will benefit from the concepts of personal empowerment, self-motivation, and self-esteem; and

(5) Many barriers to economic independence are found in federal statutes and rules, and provide states with limited options for restructuring existing programs in order to create incentives for employment over continued dependence.

NEW SECTION. Sec. 2. The department shall amend the state plan to eliminate the one hundred hour work rule for recipients of aid to families with dependent children-employable and seek all necessary federal approval.

NEW SECTION. Sec. 3. A new section is added to chapter 74.12 RCW to read as follows:

(1) As part of the orientation and assessment conducted pursuant to RCW 74.25.020, the department shall determine the most appropriate living situation for each recipient of aid to families with dependent children who is receiving those benefits as a head of household and is under age eighteen. Appropriate living situations may include, but are not limited to:

(a) The parent's home;

(b) The home of a relative;

(c) A group living situation with adult supervision and guidance;

(d) Living independently; and

(e) Payment of the recipient's grant to another as provided in RCW 74.12.250.

(2) In conducting the assessment, the department shall consider all relevant factors, including but not limited to:

(a) Whether the recipient is enrolled in and attending school;

(b) Whether the recipient is employed;

(c) The situation in the home of the recipient's parents, including but not limited to, whether there is substance abuse or domestic violence in the home and the adequacy of the dwelling; and

(d) Whether there is a history of physical, emotional, or sexual abuse of the recipient by a person living in or frequenting the recipient's parents' home.

(3) If, as a result of the assessment, the department becomes aware of a recipient's need for other services that will help the recipient complete high school or achieve economic independence, the department shall make every effort to link the recipient with the services.

(4) Failure of the teenage recipient to comply with the department's determination shall result in termination from the programs.

NEW SECTION. Sec. 4. The department shall study the feasibility of using electronic benefit transfer technology for the food stamp, aid to families with dependent children, and women, infant, and children programs. The department shall report to the appropriate standing committees of the legislature by December 1, 1994.

NEW SECTION. Sec. 5. The department may replace food stamps with the cash equivalent for individuals eligible to receive food assistance upon receipt of all necessary statutory and administrative changes from congress, the food and nutrition service, and the department of health and human services.

Sec. 6. RCW 74.04.005 and 1992 c 165 s 1 and 1992 c 136 s 1 are each reenacted and amended to read as follows:

For the purposes of this title, unless the context indicates otherwise, the following definitions shall apply:

(6)(a) "General assistance"—Aid to persons in need who:

(A) Pregnant: PROVIDED, That need is based on the current income and resource requirements of the federal aid to families with dependent children program: PROVIDED FURTHER, That during any period in which an aid for dependent children employable program is not in operation, only those pregnant women who are categorically eligible for medicaid are eligible for general assistance; ((ø))

(B) Children residing in the home of a court-appointed legal guardian who are under the age of eighteen. Eligibility, except the requirement to live with a relative of specified degree, is based on the current requirements of the federal aid to families with dependent children program, and need is based on the current income and resource requirements of the federal aid to families with dependent children program. Assistance shall be provided on behalf of the child or children only:

(C) Subject to chapter 165, Laws of 1992, incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department((-); or

Persons receiving general assistance on July 26, 1987, or becoming eligible for such assistance thereafter, due to an alcohol or drug-related incapacity, shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. Alcoholic and drug addicted clients who are receiving general assistance on July 26, 1987, may remain on general assistance if they otherwise retain their eligibility until they are assessed for services under chapter 74.50 RCW. Subsection (6)(a)(ii)((B))(C) of this section shall not be construed to prohibit the department from granting general assistance benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the general assistance program;

(iii) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law; and

(iv) Have furnished the department their social security account number. If the social security account number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of assistance, and the social security number shall be provided to the department upon receipt.

(b) Notwithstanding the provisions of subsection (6)(a)(i), (ii), and (c) of this section, general assistance shall be provided to the following recipients of federal-aid assistance:

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of aid to families with dependent children whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (6)(a)(ii)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(d) Persons found eligible for general assistance based on incapacity from gainful employment may, if otherwise eligible, receive general assistance pending application for federal supplemental security income benefits. Any general assistance that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(e) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(f) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall not have their benefits terminated absent a clear showing of material improvement in their medical or mental condition or specific error in the prior determination that found the recipient eligible by reason of incapacitation. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and are not eligible to receive benefits under the federal aid to families with dependent children program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal aid to families with dependent children program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(7) "Applicant"—Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for assistance.

(8) "Recipient"—Any person receiving assistance and in addition those dependents whose needs are included in the recipient's assistance.

(9) "Standards of assistance"—The level of income required by an applicant or recipient to maintain a level of living specified by the department.

(10) "Resource"—Any asset, tangible or intangible, owned by or available to the applicant at the time of application, which can be applied toward meeting the applicant's need, either directly or by conversion into money or its equivalent: PROVIDED, That an applicant may retain the following described resources and not be ineligible for public assistance because of such resources.

(a) A home, which is defined as real property owned and used by an applicant or recipient as a place of residence, together with a reasonable amount of property surrounding and contiguous thereto, which is used by and useful to the applicant. Whenever a recipient shall cease to use such property for residential purposes, either for himself or his dependents, the property shall be considered as a resource which can be made available to meet need, and if the recipient or his dependents absent themselves from the home for a period of ninety consecutive days such absence, unless due to hospitalization or health reasons or a natural disaster, shall raise a rebuttable presumption of abandonment: PROVIDED, That if in the opinion of three physicians the recipient will be unable to return to the home during his lifetime, and the home is not occupied by a spouse or dependent children or disabled sons or daughters, such property shall be considered as a resource which can be made available to meet need.

(b) Household furnishings and personal effects and other personal property having great sentimental value to the applicant or recipient, as limited by the department consistent with limitations on resources and exemptions for federal aid assistance.

(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed one thousand five hundred dollars.

(d) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance.

(e) Applicants for or recipients of general assistance shall have their eligibility based on resource limitations consistent with the aid to families with dependent children program rules adopted by the department.

(f) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property: PROVIDED, That:

(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;

(B) If the owner of the excess property ceases to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

(11) "Income"—(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt

income received by an applicant for or recipient of public assistance which can be used by him to decrease his need for public assistance or to aid in rehabilitating him or his dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In determining the amount of assistance to which an applicant or recipient of aid to families with dependent children is entitled, the department is hereby authorized to disregard as a resource or income the earned income exemptions consistent with federal requirements. The department may permit the above exemption of earnings of a child to be retained by such child to cover the cost of special future identifiable needs even though the total exceeds the exemptions or resources granted to applicants and recipients of public assistance, but consistent with federal requirements. In formulating rules and regulations pursuant to this chapter, the department shall define income and resources and the availability thereof, consistent with federal requirements. All resources and income not specifically exempted, and any income or other economic benefit derived from the use of, or appreciation in value of, exempt resources, shall be considered in determining the need of an applicant or recipient of public assistance.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

(12) "Need"—The difference between the applicant's or recipient's standards of assistance for himself and the dependent members of his family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his family.

(13) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restitution Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

(14) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

NEW SECTION. Sec. 7. The department may provide grants to community action agencies or other local nonprofit organizations to provide job opportunities and basic skills training program participants with transitional support services, one-to-one assistance, and job retention services.

NEW SECTION. Sec. 8. Services provided under the jobs opportunity and basic skills training program should contain the following principles:

- (5) Services should be regionally, culturally, and ethnically sensitive; and
- (6) Services should be locally planned and involve coordinated delivery at the local level.

NEW SECTION. Sec. 9. The department of social and health services shall design a program for implementation involving recipients of aid to families with dependent children. A goal of this program is to develop a system that segments the aid to families with dependent children recipient population and identifies subgroups, matches services to the needs of the subgroup, and prioritizes available services. The department shall specify the services to be offered in each population segment, and not all services shall be available to each segment. The general focus of the services offered shall be on job training, work force preparedness, and job retention.

The program shall be designed for state-wide implementation on July 1, 1994. Any proposal for implementation may include phasing certain components over time or geographic area. The department shall submit this program to the legislative task force on welfare reform on October 1, 1993.

NEW SECTION. Sec. 10. The department of social and health services shall consider the following in developing the program:

- (1) An employment incentive program that strengthens the ability of recipients to reach a level of self-sufficiency. Aid to families with dependent children grants may be used to supplement a program participant's wages;
- (2) Development of a community work program for those persons who are long-term recipients of aid to families with dependent children;
- (3) Services that are limited in duration;

(4) Segmentation of the recipient population based on factors such as work experience, education level, age of recipient, wage history, child support history, and length of time the person has been an aid to families with dependent children recipient;

(5) Matching appropriate services to each segment of the recipient population. The criteria may include an array of services that targets high cost, intensive services to the least employable groups and low cost, less intensive services to the most employable groups;

(6) Use of contracts between recipients and the department that set forth employability/self-sufficiency plans and sanctions for noncompliance;

(7) Training and education services for absent parents that increase their ability to support their children;

(8) The elimination of work disincentives for recipients of aid to families with dependent children; and

(9) Appropriate education and training services designed to promote economic self-sufficiency.

The House resumed consideration of the amendment to the amendment by Representative Mielke.

Representative Mielke moved adoption of the following amendment to the amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Public assistance is intended to be a temporary financial relief program, recognizing that families can be confronted with a financial crisis at any time in life. Successful public assistance programs depend on the availability of adequate resources to assist individuals deemed eligible for the benefits of such a program. In this way, eligible families are given sufficient assistance to reenter productive employment in a minimal time period. When eligibility for public assistance is not clearly defined or enforced, resources are consumed for purposes other than what the public intends and the result is a shortage of resources for eligible recipients;

(2) The current public assistance system requires a reduction in grant standards when income is received. In most cases, family income is limited to levels below the standard of need. Work involvement, a crucial factor in the individual's ability to return to the work force, can result in the same reduction or elimination of benefits. To remove this disincentive, the legislature intends to assist families by incorporating work experience with private employers without an immediate reduction or termination of benefits;

(3) Employment, job search, training, and educational services provided to employable recipients of public assistance are effective tools in achieving economic self-sufficiency. Support services that are targeted at the specific needs of the individual offer the best hope of achieving economic self-sufficiency in a cost-effective manner;

(4) State welfare-to-work programs, which move individuals from dependence to economic independence, must be operated cooperatively and collaboratively between state agencies and programs. Public assistance recipients shall be active participants in the programs and will benefit from the concepts of personal empowerment, responsibility, self-motivation, and self-esteem;

(5) Many barriers to economic independence are found in federal statutes and rules, and provide states with limited options for restructuring existing programs in order to create incentives for employment over continued dependence; and

(6) Public assistance should promote the formation of healthy families, reward work effort, and promote personal responsibility to include education, parental responsibility, job training, community enhancement activity, and gainful employment.

NEW SECTION. Sec. 2. A new section is added to chapter 74.12 RCW to read as follows:

(1) As part of the orientation and assessment conducted pursuant to RCW 74.25.020, the department shall determine the most appropriate living situation for each recipient of aid to families with dependent children who is receiving those benefits as a head of household and is under age eighteen. Appropriate living situations may include, but are not limited to:

- (a) The parent's home;
- (b) The home of a relative;
- (c) A group living situation with adult supervision and guidance;
- (d) Living independently; and
- (e) Payment of the recipient's grant to another as provided in RCW 74.12.250.

(2) In conducting the assessment, the department shall consider all relevant factors, including but not limited to:

- (a) Whether the recipient is enrolled in and attending school;
- (b) Whether the recipient is employed;

(c) The situation in the home of the recipient's parents, including but not limited to, whether there is substance abuse or domestic violence in the home and the adequacy of the dwelling;

(d) Whether there is a history of physical, emotional, or sexual abuse of the recipient by a person living in or frequenting the recipient's parents' home; and

(e) The financial history of the recipient to include timely payments by the recipient of housing and utility payments, and other financial obligations. The department shall also determine the need, if any, for an alternative payee.

(3) If, as a result of the assessment, the department becomes aware of a recipient's need for other services that will help the recipient complete high school or achieve economic independence, the department shall make every effort to link the recipient with the services.

(4) Failure of the teenage recipient to comply with the department's determination shall result in termination from the programs.

NEW SECTION. Sec. 3. A new section is added to chapter 74.04 RCW to read as follows:

The department shall study the feasibility of using electronic benefit transfer technology for the food stamp, aid to families with dependent children, and women, infant, and children programs. The department shall report to the appropriate standing committees of the legislature by December 1, 1994.

NEW SECTION. Sec. 4. A new section is added to chapter 74.04 RCW to read as follows:

The department may replace food stamps with the cash equivalent for individuals eligible to receive food assistance upon receipt of all necessary statutory and administrative changes from congress, the food and nutrition service, and the department of health and human services.

NEW SECTION. Sec. 5. A new section is added to chapter 74.04 RCW to read as follows:

The department shall amend the state plan to eliminate the one hundred hour work rule for recipients of aid to families with dependent children-employable and seek all necessary federal approval.

NEW SECTION. Sec. 6. A new section is added to chapter 74.04 RCW to read as follows:

The department may provide grants to community action agencies or other local nonprofit organizations to provide job opportunities and basic skills training program participants with transitional support services, one-to-one assistance, and job retention services.

Sec. 7. RCW 74.04.005 and 1992 c 165 s 1 and 1992 c 136 s 1 are each reenacted and amended to read as follows:

(6)(a) "General assistance"—Aid to persons in need who:

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of aid to families with dependent children whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (6)(a)(ii)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(d) Persons found eligible for general assistance based on incapacity from gainful employment may, if otherwise eligible, receive general assistance pending application for federal supplemental security income benefits. Any general assistance that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(e) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(f) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall not have their benefits terminated absent a clear showing of material improvement in their medical or mental condition or specific error in the prior determination that found the recipient eligible by reason of incapacitation. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and are not eligible to receive benefits under the federal aid to families with dependent children program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal aid to families with dependent children program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(7) "Applicant"—Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for temporary assistance.

(8) "Recipient"—Any person receiving temporary assistance and in addition those dependents whose needs are included in the recipient's assistance.

(9) "Standards of assistance"—The level of income required by an applicant or recipient to maintain a level of living specified by the department.

An applicant may retain the following described resources and not be ineligible for public assistance because of such resources.

(a) A home, which is defined as real property owned and used by an applicant or recipient as a place of residence, together with a reasonable amount of property surrounding and contiguous thereto, which is used by and useful to the applicant. Whenever a recipient shall cease to use such property for residential purposes, either for himself or his dependents, the property shall be considered as a resource which can be made available to meet need, and if the recipient or his dependents absent themselves from the home for a period of ninety consecutive days

such absence, unless due to hospitalization or health reasons or a natural disaster, shall raise a rebuttable presumption of abandonment(~~(- PROVIDED, That)~~). If in the opinion of three physicians the recipient will be unable to return to the home during his lifetime, and the home is not occupied by a spouse or dependent children or disabled sons or daughters, such property shall be considered as a resource which can be made available to meet need.

(b) Household furnishings and personal effects and other personal property having great sentimental value to the applicant or recipient, as limited by the department consistent with limitations on resources and exemptions for federal aid assistance.

(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed one thousand five hundred dollars.

(d) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance. The department shall also allow recipients of aid to families with dependent children to exempt savings accounts with balances up to an additional one thousand five hundred dollars.

(e) Applicants for or recipients of general assistance shall have their eligibility based on resource limitations consistent with the aid to families with dependent children program rules adopted by the department.

(f) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property: PROVIDED, That:

(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;

(B) If the owner of the excess property ceases to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

(11) "Income"—(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him to decrease his need for public assistance or to aid in rehabilitating him or his dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In determining the amount of assistance to which an applicant or recipient of aid to families with dependent children is entitled, the department is hereby authorized to disregard as a resource or income the earned income exemptions consistent with federal requirements. The department may permit the above exemption of earnings of a child to be retained by such child to cover the cost of special future identifiable needs even though the total exceeds the exemptions or resources granted to applicants and recipients of public assistance, but consistent with federal requirements. In formulating rules and regulations pursuant to this chapter, the department shall define income and resources and the availability thereof, consistent with federal requirements. All resources and income not specifically exempted, and any income or other economic benefit derived from the use of, or appreciation in value of, exempt resources, shall be considered in determining the need of an applicant or recipient of public assistance.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

(12) "Need"—The difference between the applicant's or recipient's standards of assistance for himself and the dependent members of his family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his family.

(13) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restitution Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

(14) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

NEW SECTION. Sec. 8. A new section is added to chapter 74.04 RCW to read as follows:

The department is directed to immediately institute the following policy changes state-wide:

(1) In order to receive aid to families with dependent children benefits, both parents of each child to be covered by the program must be listed on the application for benefits.

(2) Minors must have a protective payee designated to receive their welfare funds. Whenever possible, protective payees shall be a responsible, immediate adult family member. Protective payees shall have a duty to make sure housing and utility costs are paid in a timely manner. Where an adequate protective payee cannot be found, the department shall assume the protective payee function.

(3) As a condition of receiving benefits, parents are ultimately responsible and shall be held accountable for their children's school attendance from kindergarten through sixth grade. If a student violates the state's truancy laws during a specified school quarter, the financial grant shall be reduced by a minimum of ten percent for sixty days. The department shall establish penalties, sanctions, or termination of benefits for additional violations. The superintendent of public instruction and secretary of social and health services shall establish a process for the sharing of information pertaining to student attendance records.

(4) Authorized postsecondary education shall be limited to a vocational degree or certificate program only.

(5) Restore all FTE's to the fraud early detection unit and place an emphasis on either filling or expanding, or both, all field investigator positions. The department shall enter into the aid to families with dependent children optional fraud program and seek the maximum federal assistance for the programs.

(6) There shall be no additional monetary assistance for children conceived after entry into the aid to families with dependent children or JOBS programs. The department is directed to provide information to recipients regarding all birth control or family planning that is provided by the state.

(7) New residents of the state shall receive for the first six months of residence the same level of benefits granted to them by their previous state of residence or they will receive Washington's grant level, whichever is lower.

(8) The department is directed to develop a data collection system that will allow for improved data on recipients' migration and recidivism. The department shall collect better information pertaining to the characteristics of those who have received benefits for more than five cumulative years and shall not limit data collection for individuals to a five year-period.

(9) There shall no longer be a self-prescribed disability exemption for individuals or those claiming care for a dependent spouse. Medical evidence must be provided proving that a disability requiring attendant care exists.

NEW SECTION. Sec. 9. A new section is added to chapter 74.12 RCW to read as follows:

The department of social and health services is directed to develop an aid to families with dependent children-unemployable and aid to families with dependent children-employable program based on these parameters:

(1) At the point of application to receive public assistance benefits an applicant shall:

(a) Participate in an extensive interview that will be used to determine work and educational history. The level of services needed will also be determined at this time;

(b) Participate in the development of a program that will expedite the process of the applicant gaining economic self-sufficiency;

(c) Enter into a formal contract, that will be binding for six months, that will explain all of the recipient's rights and responsibilities. Compliance with this contract will be a condition for the receipt of benefits;

(d) Provide the name of both parents of the child or children. The applicant must comply with this subsection as a condition for the receipt of benefits; and

(e) Attend an orientation where all program services as well as individual responsibilities shall be explained. Attendance shall serve as a prerequisite for the initial receipt of benefits.

(2) There shall be four levels of need that the department shall build personal programs on:

(a) Most job-ready;

(b) Moderately job-ready;

(c) Least job-ready; and

(d) Exempt.

(3) For those individuals meeting the most job-ready criteria, there shall be an initial period of sixty days in which recipients will receive fifty percent of the standard grant level. Recipients shall receive an additional fifty percent of the standard grant level in exchange for a set number of hours per week of community service to be determined by rule by the department. Individuals shall then enter into a job search program that will last for ninety days. If at the end of ninety days they are unable to find employment, individuals shall enter into an assisted work program in cooperation with the private sector modeled after federal work study programs. Once benefits have been received for a cumulative of seventeen months, individuals shall then perform community service for a set number of hours based on a formula to be developed by rule by the department as a condition for the receipt of benefits.

(4) For those individuals meeting the moderately job-ready criteria, there shall be an initial period of sixty days in which recipients shall receive fifty percent of the standard grant level. Recipients shall receive an additional fifty percent of the standard grant level in exchange for a set number of hours per week of community service to be determined by rule by the department. Individuals shall then enter into a job search program for ninety days. If at the end of ninety days they are unable to find employment, individuals shall be eligible for up to twenty-four months of

postsecondary education limited to a vocational degree or certificate. If at the end of twenty-four months they are unable to find employment, individuals shall enter into an assisted work program in cooperation with the private sector modeled after federal work study programs. Once benefits have been received for a cumulative of forty-one months, individuals shall perform community service for a set number of hours based on a formula to be developed by rule by the department as a condition for the receipt of benefits.

(5) For those individuals meeting the least job-ready criteria, there shall be an initial period of sixty days in which recipients shall receive fifty percent of the standard grant level. Recipients shall receive an additional fifty percent of the standard grant level in exchange for a set number of hours per week of community service to be determined by rule by the department. Individuals shall then enter into a basic education program for a period that is deemed necessary to provide them with the equivalent of a high school education. At the end of this time, individuals shall enter into an assisted work program in cooperation with the private sector modeled after federal work study programs for a period up to twelve months. Should individuals remain unemployed at the conclusion of the twelve-month period, they shall be eligible for up to twenty-four months of postsecondary training limited to a vocational degree or certificate only. At the end of the vocational training, the recipient shall enter into a job-search program for up to three months. Once benefits have been received for a cumulative of fifty-three months, individuals shall then perform community service for a set number of hours based on a formula to be developed by rule by the department as a condition for the receipt of benefits.

(6) For those individuals meeting the exempt criteria, no program participation shall be required, except that individuals must perform community service for a set number of hours based on a formula to be developed by rule by the department, as a condition for the receipt of benefits.

(7) A recipient with a child less than six months of age, a recipient who is responsible for providing attendant care for disabled family member, or a recipient who is disabled shall be exempt from the participation requirements of the program created in this section.

NEW SECTION. Sec. 10. A new section is added to chapter 74.04 RCW to read as follows:

The department of social and health services shall develop a plan to implement section 4 of this act as a pilot project to include approximately twenty thousand participants. The department shall report its recommendations to the legislature by January 30, 1994, and be prepared to implement its recommendations beginning January 1, 1995.

NEW SECTION. Sec. 11. A new section is added to chapter 74.04 RCW to read as follows:

The department shall develop a pilot project to provide child care for those individuals receiving education, training, or providing community service as part of the program created under section 4 of this act. Child care facilities should be located on or near community and technical college or vocational school campuses. Care should be given primarily by recipients fulfilling a community service requirement and receiving the benefits of the program set up under section 4 of this act.

NEW SECTION. Sec. 12. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

The Wreck of the Princess Sophia

The light of the streetlamps in Skagaway that night
in October were like flags from the snowfall
faired flush with the wind, and the streets fared no better
with the drifting and pillage of snow.

They had come down from Dawson in the year
of the Armistice from the mines west of Ruby
and Whitehorse, some shouting, some saying
"I'll be back soon," or "I'll see you, my love,
when the river breaks up,"

and young Charlie Castleman sat sipping whiskey,
looking out at the weather from the Skagaway Hotel.
He was thinking about Breckinridge,
and the little girl sitting across from him seemed
so excited she couldn't sit still. Her name was Margaret,
the daughter of Oscar and Chrissie,
turned seven years old in the summer of Armistice,
all going south to be home for the winter,

and Charlie was thinking of his sister Christina.
When he left for the Klondike, she was seven years old,
and he thought of her sometimes, like summer
and baseball, and like Margaret, he too was happy
to be going home that he couldn't sit still.

When the Princess Sophia came in about seven
o'clock, Captain Locke took on water and oil,
and the stores were laid in for the long inside passage,
but he worried about the weather, barometer falling,
the new moon, and the wind seemed at odds with his sailing.

The tide was at flood, and the Lynn Canal tides
can run down like a rip saw with little relief.
With her cargo of mail and her passengers loaded,
she backed down off the breast line,
sprung away from the dock and the city lights,
off the current for the Vanderbilt Reef.
Oh, hard lie the rocks,
and Oh, shallow the water,
she made six knots or better, ran up on a westerly,
hurricane force, driving spindrift and green water
over the mainposts. She made good an a one sixty bearing,
with a drift in the current, by the growlers and brash,
and the little the lookouts could see in the snow.

Captain Locke on the flying bridge spoke
to his first mate about safety speed,
"We can make Alert Bay, if the wind gets no fresher.
and I'll be in Seattle by Armistice Day."

Down below decks the passengers whiled away time.
Charlie Castleman laughed and taught Margaret
to whistle, played whilst with her, read her a book
about sea otters, told her a tale
about cowboys, both unaware of the wind and the swell,
and the spurious bearing, and the white water
surge on the Vanderbilt Reef.

"Oh, come hard," say the rocks,
and "Come high," say the eddies.
"You must give us Ozymandias,
tell tomorrow what matters."

The wind was alive in the wireless antenna.
There was ice at the bridge railing, ice in the capstan.
"There is safety in speed," Captain Locke said to Jeremy.
"We can make Alert Bay, on a one sixty bearing,
and I'll be in Seattle by Armistice Day."

There is scarcely a rock now uncharted.
There is hardly a deadhead could bring us to grief,
but the rip tide and current, and the snow that came blowing
that night, took the Princess Sophia with her deckhands
and Captain, with her children of miners and pipefitters,
soldiers and storekeepers, daughters and sons of the Northwest,
and brought her aground on the Vanderbilt Reef.

With a brutal concussion she came up on a rock,
ran up high in the middle, and was dragging her keel
when the steampipes exploded under eight feet of water.

At the call of her wireless, the King and Winge came
around Sentinel Island. the Amy and Estabeth,
anchored nearby, came around off her lee side
and lay along side her.
But no one came near, not a life boat was lowered
for the crew and the passengers, for the surf was too high,
for she seemed to ride stable. So they waited 'til morning
in the scope of the anchor chain
and the hope of good weather.

the Cedar and Estabeth, King and Winge waited

in the lee of Mab Island, all intent on the wind.
All awake in the wheel houses,
prudent of weather, knew that they would go out
in the storm if the telegraph came. And it did.
"We are foundering, come quickly, we are foundering."

There were two whistles blew from the Cedar that night.
The King and Winge steamed off her quarter.
On the Amy the telegraph sent out a message that said:
"Godspeed to those on the Princess Sophia tonight."

but the mothers were taken from the arms of their children
when the westwind came calling. Sophia came up
and spun wildly abeam as the wind caught her broadside,

and Charlie found Margaret alone at the railing,
where her mother and father had been swept to the sea.
She was frightened and crying, and he wrapped his coat
'round her, took her up in his arms and said,
You come with me to the foredeck,"
where he raised her up high on his shoulders.
Together they stood until water ran over the deck tackle,
over the taffrail, over the bridge and the officers,
over them both, and over the others who perished
in the backwash of dark shallow water that ran
at the wreck of the Princess Sophia that night.

There was nothing to see but her main mast
in the light from the Amy and Estabeth.
The beam wind had taken her, open by surge,
she had broadened hard and foundered,
rolled sideways and slipped to the shoal.

In the dark, wretched weeks that the world
came to watch, when the tide took the children
and laid them on shorelines and snowcovered rocks,
they found a young man
with his arms still around a small girl.

We are vain with the powers of men,
and all pretense at salvation of conveyance,
like Ozymandias' smile, is at odds
with the coursing of current,
and our only recourse is to hold one another,
raise each other up gently, and take on our shoulders
the weakest among us.

When three hundred fifty daughters
and sons of the Northwest went down
on the Princess Sophia that night in October,
in the year of the Armistice, beaten and broken
beyond all belief, beyond all that,
Seattle would mourn for the loss of the souls
on the Princess Sophia, when she went aground
and rolled off in the waters
that carry the tide on the Vanderbilt Reef.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

REMARKS BY SPEAKER EBERSOLE

There are many points in the life of our state that mark the crossroads of our history. Today is one of those points. Today, the Governor will open both a legislative and a public dialogue about how we shape our future by balancing our budget. The proposals we are about to hear will set the course of our state for years to come. How we deal with our budget is not just a matter of making the numbers add up; it is a matter of making choices about what we value most, and where we want to go. And the more difficult the budget-and this one is extremely difficult-the more important the quality of leadership in the Governor's office.

At this crossroads in our history, we are truly blessed. We have a governor who is passionately optimistic, a governor who has immense faith in the goodness of our citizens, and a governor who will work all day and half the night to make his vision of the future come true. No matter how difficult the challenge, this Governor will rise to meet it. And so let us rise to meet him. Ladies and gentlemen, the 20th governor of the state of Washington, Mike Lowry.

GOVERNOR MIKE LOWRY'S BUDGET ADDRESS

Thank you, Mr. Speaker,

Mr. President, distinguished members of the Supreme Court, distinguished State Elected Officials, and members of the legislature, thank you for this opportunity.

I wish we met today under happier conditions for both state government and the state's economy. You've all read the bad news. In the next biennium, state government will face a shortfall of \$1.8 billion, and the private sector isn't much better off. The national recession saved our state for the last, but not the least. Washington's unemployment rate is running at over 9 percent, which means that more than 150,000 of our neighbors can't find

work. This is a terrible waste and a great challenge, but I am confident that we can meet and overcome these adversities.

Let me tell you why I'm optimistic about the future of this state. I'm optimistic because when you look beyond all the bleak headlines and statistics, you see the tremendous assets of this state. Assets we have only begun to tap.

First and foremost, there is the great beauty, vitality and variety of Washington's natural setting. In Washington, you can find virtually every kind of environment, from deserts to ocean beaches, from farmland to forests, from deepest gorges to the highest peaks. And most of it is still unspoiled.

Second, there is Washington's strategic location. We stand literally on the leading edge of the continent, of the Pacific Rim, of the global economy. We stand physically, intellectually, and economically on the frontier of the future.

Third, Washington enjoys the great investment made by previous generations-public investments in new technologies and modern factories. These investments have created an infrastructure of opportunity for everything that exists today and is possible tomorrow.

Fourth, in Washington we enjoy the freedom to think, to create, to experience different cultures and ideas, to apply our energies as we choose. Ours is still a very young state, barely a hundred years old. We are not gripped by the prejudices and intolerance, the rigid interest groups, the hostile classes, and the old elites and cliques that hobble other states and regions.

Fifth and most importantly, I'm optimistic about the future because of the quality of Washington's people-people like you. People who are good partners, good co-workers, good employees, good managers, good professionals, good citizens, good elected officials and a very good legislature.

I want to salute this legislature for the tremendous progress it is making on health care reform, education reform, civil service reform, consolidating and streamlining state government, law and justice reform, and developing a statewide approach to our infrastructure needs. Each of these high priority items is an important component of getting our fiscal house in order, and I thank you for your leadership. History will record that the politics of avoidance ended with this legislature.

We face a great challenge and a great opportunity with this budget. We face some fundamental choices-not just between cuts and adds, but between reform and stagnation, action and neglect, progress and decay. We can choose to balance this budget without any new general fund revenues, but the deepness of the cuts required to do that would devastate our states future and endanger lives of some of our citizens. Or we can choose a balanced combination of cuts and new revenues-a responsible budget that will move us to a bright future. That is the budget I have chosen.

Some argue that projected revenues may grow \$900 million over the next two years, and that should be enough. That sounds very reasonable, except they fail to note that costs that are out of our immediate control will increase by twice as much:

- * K-12 enrollments up 50,000 kids, costing an additional \$799 million

- * Health care up nearly \$534 million

- * Corrections up more than \$200 million

- * Debt service on capital budget up \$159 million.

Obviously, these \$2 billion in cost increases beyond our immediate control are more than double the projected \$900 million revenue increases. In fact, now that the national recession has reached our state, the projected growth of state revenues for the coming biennium are less than one-third the 30-year average of state revenue growth. And so, we face rapidly escalating costs and significantly slower revenues.

This is the challenge that the Legislature and I inherited-and that we asked for the opportunity to meet. I am very confident we have the fortitude to meet this challenge with great success. In preparing this budget, I committed to three fundamental principles:

- * We would **restructure** for the future by consolidating agencies and programs, eliminating functions, reforming civil service, reducing management, improving service delivery, and bringing health care costs under control.

- * We would **invest** in the future by protecting services for our children, reforming education, expanding work force training, increasing aid for low-income students, building local economic development capacity, and improving our stewardship for state lands.

- * And we would save for the future by throwing away the tricks and gimmicks and building up our reserve to guard against future economic adversity.

Before we achieved a single reform, investment or savings, we faced a shortfall of \$2 billion over the next biennium. We have eliminated that shortfall. Today I am presenting a balanced general fund budget totaling \$16.3 billion for the next biennium. This budget is \$634 million less than the one proposed by Governor Gardner in December.

We have cut programs and costs by \$642 million. Many of those are tough cuts. We have identified \$231 million in alternative sources to pay for vital services. We have intensified collections to cover another \$103 million in service costs. We have eliminated the equivalent of 2,100 full-time, general-fund state jobs, including 500 managers. We have consolidated agencies such as Fisheries and Wildlife, and Community Development and the Department of Trade.

We have asked our hard-working and dedicated public employees to live for two years without a cost-of-living raise, which is really a net pay cut. We have reduced higher education budgets by \$148 million. We have reduced K-12 administration and programs by \$123 million. We have reduced general fund expenditures for social and health programs by \$261 million. People will complain loudly and in some cases legitimately about these cuts to their legislators. If you have a better way, tell me. Others will say I have cut too little. If you have a better way, tell me. But the fact is, there are some cuts that cost too much. For while it is important that we cut government spending and streamline operations and make government more efficient, it also is important that we invest in the future of our state.

So, in this budget, we have placed high priority on protecting programs for children.

* We have added funding to feed hungry school kids.

* We paid for the first phase of education reform.

* We increased spending on children's mental health and prenatal care.

And while we call for tough management savings in higher education, we refuse to make the penny-wise and pound foolish mistakes of some other states that presently are dismantling their higher education systems.

We realize that the quality of education that's available to our work force is critical to our economic recovery, and we refuse to make the devastating higher education cuts that a "no new taxes" budget would cause. And because no qualified students should be stopped from achieving their education goals because of income limitations, we will double the number of students getting financial aid and significantly expand work study programs. And again, because of its importance to our economic vitality, we put new money into retraining our work force and into employing dislocated workers to help restore and maintain public lands.

Now, no responsible budget would be complete without a savings plan-as I'm sure the people of this state will agree. That's why I'm proposing that we increase the state's "rainy day" fund to \$144 million, and also build in an additional cash reserve to raise the state's total reserves to \$366 million, which is more than 2 percent of the general fund budget. I know that State Treasurer Dan Grimm is happy about that part of this proposal, and the financial markets will be, too. Unfortunately, however, we cannot set aside this emergency reserve, maintain essential services and pay for new investment without additional revenues.

After starting with a \$1.8 billion shortfall, and making significant and tough cuts, tuition increases, and increased fees for special services-we were still short \$848 million. So, I am proposing to close that gap by closing loopholes for those that are exempted from paying sales tax on services mostly used by the higher income.

I chose this alternative because it has the least effect on middle income and low income people and families in the state. In doing this, I rejected tax alternatives-such as raising the sales tax, which is unfair to consumers, or raising B&O taxes which is unfair to employers. In fact, I reduced B&O taxes and expanded sales tax deferrals to help spur new business and investment. By choosing to close loopholes, we are able to greatly reduce the tax effect on the general public. As a matter of fact, this revenue proposal would cost the average family of four only a little over \$2 a month. In Seattle, that's the price of a latte'. For the rest of us, it's less than the price of a "Grand Slam" at Denny's.

In exchange, we will protect and enhance our most important resource, our children. We will be able to move forward with education reform, we will maintain our excellent higher education system, we will train and employ dislocated workers and teenagers, we will launch new strategies for economic development. This, I submit, is a grand slam for \$2 a month.

I know that we will spend the coming weeks debating pennies on the dollar in budget cuts, new reforms, and the size and fairness of various tax rates. That is part of the job that the people elected us to do, but it is not the whole task entrusted to us. The people also expect us to look beyond politics. They ask us to be wise as well as smart, they ask us to be responsible as well as accountable.

After the gavel falls sine die on this session of the legislature, memory of who won and who lost this or that debate will quickly fade into oblivion. But if we fail to maintain and fund vital state services, the people will not forget. And if we fail to seize the unique opportunities for reform and investment which face us today, the generations to come will not forgive us. More than a budget hangs in the balance. The whole future of our state hangs in the balance. Let's make it a great future. Join me in this budget. Thank You.

My Legislative Shopping List:

One of these days I must go shopping. I am completely out of self respect. I want to exchange the self-righteousness I picked up during the campaign, for some humility, which my majority leader says is less expensive and wears better. I want to look at some tolerance, which is being used for wraps in the legislature. My minority leader showed me some pretty samples of peace of mind; I am a little low on that. I can never have too much of it. And by the way, I must look for some patience that my speaker wears. It is quite becoming on him and I think it might look equally well on me. I might try on that garment of long suffering and understanding that my seat mate is wearing. I never thought I wanted to wear it, but I feel myself in need of it. And I mustn't forget to have my sense of humor mended, and look for some inexpensive everyday goodness and honesty. It is surprising how quickly one's stock of good is depleted. Yes, I must go shopping soon.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved. There being no objection, the House advanced to the eighth order of business.

March 23, 1993

SSB 5088 Prime Sponsor, Committee on Government Operations: Authorizing flexible approaches to developing administrative rules. Reported by Committee on State Government

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that while the 1988 Administrative Procedure Act expanded public participation in the agency rule-making process, there continue to be instances when participants have developed adversarial relationships with each other, resulting in the inability to identify all of the issues, the failure to focus on solutions to problems, unnecessary delays, litigation, and added cost to the agency, affected parties, and the public in general.

When interested parties work together, it is possible to negotiate development of a rule that is acceptable to all affected, and that conforms to the intent of the statute the rule is intended to implement.

After a rule is adopted, unanticipated negative impacts may emerge. Examples include excessive costs of administration for the agency and compliance by affected parties, technical conditions that may be physically or economically unfeasible to meet, problems of interpretation due to lack of clarity, and reporting requirements that duplicate or conflict with those already in place.

It is therefore the intent of the legislature to encourage flexible approaches to developing administrative rules, including but not limited to negotiated rule making and a process for testing the feasibility of adopted rules, often called the pilot rule process. However, nothing in this act shall be construed to create any mandatory duty for an agency to use the procedures in RCW 34.05.310 or section 4 of this act in any particular instance of rule making. Agencies shall determine, in their discretion, when it is appropriate to use these procedures.

Sec. 2. RCW 34.05.310 and 1989 c 175 s 5 are each amended to read as follows:

~~((1) In addition to seeking information by other methods, an agency, before publication of a notice of a proposed rule adoption under RCW 34.05.320, is encouraged to solicit comments from the public on a subject of possible rule making under active consideration within the agency, by causing notice to be published in the state register of the subject matter and indicating where, when, and how persons may comment.~~

~~(2) Each agency may appoint committees to comment, before publication of a notice of proposed rule adoption under RCW 34.05.320, on the subject of a possible rule-making action under active consideration within the agency.~~

~~(3) Each agency shall designate a rules coordinator, who shall have knowledge of the subjects of rules being proposed or prepared within the agency for proposal, maintain the records of any such action, and respond to public inquiries about possible or proposed rules and the identity of agency personnel working, reviewing, or commenting on them. The office and mailing address of the rules coordinator shall be published in the state register at the time of designation and in the first issue of each calendar year thereafter for the duration of the designation. The rules coordinator may be an employee of another agency.)~~ To meet the intent of providing greater public access to administrative rule making and to promote consensus among interested parties, agencies are encouraged to:

(1) Solicit comments from the public on a subject of possible rule making before publication of a notice of proposed rule adoption under RCW 34.05.320. This process can be accomplished by having a notice published in the state register of the subject under active consideration and indicating where, when, and how persons may comment; and

(2) Develop and use new procedures for reaching agreement among interested parties before publication of notice and the adoption hearing on a proposed rule. Examples of new procedures include, but are not limited to:

(a) Identifying individuals and organizations that have a recognized interest in or will be significantly affected by the adoption of the proposed rule;

(b) Soliciting participation by persons who are capable, willing, and appropriately authorized to enter into such negotiations;

(c) Assuring that participants fully recognize the consequences of not participating in the process, are committed to negotiate in good faith, and recognize the alternatives available to other parties;

(d) Establishing guidelines to encourage consideration of all pertinent issues, to set reasonable completion deadlines, and to provide fair and objective settlement of disputes that may arise;

(e) Agreeing on a reasonable time period during which the agency will be bound to the rule resulting from the negotiations without substantive amendment; and

(f) Providing a mechanism by which one or more parties may withdraw from the process or the negotiations may be terminated if it appears that consensus cannot be reached on a draft rule that accommodates the needs of the agency, interested parties, and the general public and conforms to the legislative intent of the statute that the rule is intended to implement.

NEW SECTION. Sec. 3. Each agency shall designate a rules coordinator, who shall have knowledge of the subjects of rules being proposed or prepared within the agency for proposal, maintain the records of any such action, and respond to public inquiries about possible or proposed rules and the identity of agency personnel working, reviewing, or commenting on them. The office and mailing address of the rules coordinator shall be published in the state register at the time of designation and in the first issue of each calendar year thereafter for the duration of the designation. The rules coordinator may be an employee of another agency.

NEW SECTION. Sec. 4. If, during development of a rule or after its adoption, an agency determines that implementation may produce unreasonable economic, procedural, or technical burdens, agencies are encouraged to develop methods for measuring or testing the feasibility of compliance with the rule, including the use of voluntary pilot study groups. Measuring and testing methods should emphasize public notice, participation by persons who have a recognized interest in or are significantly affected by the adoption of the proposed rule, a high level of involvement from agency management, consensus on issues and procedures among participants in the pilot group, assurance of fairness, and reasonable completion dates, and a process by which one or more parties may withdraw from the process or the process may be terminated if consensus cannot be reached on the rule.

The findings of the pilot project should be widely shared and, where appropriate, adopted as amendments to the rule.

NEW SECTION. Sec. 5. Sections 3 and 4 of this act are each added to chapter 34.05 RCW under the subchapter heading "rule-making procedures."

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 15.36.115 and 1989 c 354 s 18 and 1989 c 175 s 48 are each reenacted and amended to read as follows:

(1) If the results of an antibiotic, pesticide, or other drug residue test under RCW 15.36.110 are above the actionable level established in the pasteurized milk ordinance published by the United States public health service and determined using procedures set forth in the current edition of "Standard Methods for the Examination of Dairy Products," a producer holding a grade A permit is subject to a civil penalty. The penalty shall be in an amount equal to one-half the value of the sum of the volumes of milk equivalent produced under the permit on the day prior to and the day of the adulteration. The value of the milk shall be computed by the weighted average price for the federal market order under which the milk is delivered.

(2) The penalty is imposed by the department giving a written notice which is either personally served upon or transmitted by certified mail, return receipt requested, to the person incurring the penalty. The notice of the civil penalty shall be a final order of the department unless, within fifteen days after the notice is received, the person incurring the penalty appeals the penalty by filing a notice of appeal with the department. If a notice of appeal is filed in a timely manner, a hearing shall be conducted on behalf of the department by the office of administrative hearings in accordance with chapters 34.05 and 34.12 RCW (~~and, to the extent they are not inconsistent with this subsection, the provisions of RCW 15.36.580~~). At the conclusion of the hearing, the department shall determine whether the penalty should be affirmed, and, if so, shall issue a final order setting forth the civil penalty assessed, if any. The order may be appealed to superior court in accordance with chapter 34.05 RCW. Tests performed for antibiotic, pesticide, or other drug residues by a state or certified industry laboratory of a milk sample drawn by a department official or a licensed dairy technician shall be admitted as prima facie evidence of the presence or absence of an antibiotic, pesticide, or other drug residue.

(3) Any penalty imposed under this section is due and payable upon the issuance of the final order by the department. The penalty shall be deducted by the violator's marketing organization from the violator's final payment for the month following the issuance of the final order. The department shall promptly notify the violator's marketing organization of any penalties contained in the final order.

(4) All penalties received or recovered from violations of this section shall be remitted monthly by the violator's marketing organization to the Washington state dairy products commission and deposited in a revolving fund to be used solely for the purposes of education and research. No appropriation is required for disbursements from this fund.

(5) In case of a violation of the antibiotic, pesticide, or other drug residue test requirements, an investigation shall be made to determine the cause of the residue which shall be corrected. Additional samples shall be taken as soon as possible and tested as soon as feasible for antibiotic, pesticide, or other drug residue by the department or a certified laboratory. After the notice has been received by the producer and the results of a test of such an additional sample indicate that residues are above the actionable level or levels referred to in subsection (1) of this section, the producer's milk may not be sold until a sample is shown to be below the actionable levels established for the residues.

Sec. 2. RCW 69.07.040 and 1992 c 160 s 3 are each amended to read as follows:

It shall be unlawful for any person to operate a food processing plant or process foods in the state without first having obtained an annual license from the department, which shall expire on a date set by rule by the director. License fees shall be prorated where necessary to accommodate staggering of expiration dates. Application for a license shall be on a form prescribed by the director and accompanied by the license fee. The license fee is determined by computing the gross annual sales for the accounting year immediately preceding the license year. If the license is for a new operator, the license fee shall be based on an estimated gross annual sales for the initial license period.

If gross annual sales are: The license fee is:

\$0 to \$50,000	\$50.00

Licenses shall be issued to cover only those products, processes, and operations specified in the license application and approved for licensing. Wherever a license holder wishes to engage in processing a type of food product that is different than the type specified on the application supporting the licensee's existing license and processing that type of food product would require a major addition to or modification of the licensee's processing facilities or has a high potential for harm, the licensee shall submit an amendment to the current license application. In such a case, the licensee may engage in processing the new type of food product only after the amendment has been approved by the department.

If upon investigation by the director, it is determined that a person is processing food for retail sale and is not under permit, license, or inspection by a local health authority, then that person may be considered a food processor and subject to the provisions of this chapter. The director may waive the licensure requirements of this chapter for a person's operations at a facility if the person is licensed under chapter 15.32 RCW or has a permit under chapter 15.36 RCW to conduct the same or a similar operation at the facility.

the provisions of RCW 15.36.580)). At the conclusion of the hearing, the department shall determine whether the penalty should be affirmed, reduced, or not imposed and shall issue a final order setting forth the civil penalty assessed, if any. The order may be appealed to superior court in accordance with chapter 34.05 RCW. Tests performed for the component parts of milk products by a state laboratory of a milk sample collected by a department official shall be admitted as prima facie evidence of the amounts of milk components in the product.

SSB 5407 Prime Sponsor, Committee on Ecology & Parks: Regarding county administration of agricultural burning permits. Reported by Committee on Environmental Affairs

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 70.94.650 and 1991 c 199 s 408 are each amended to read as follows:

(1) Any person who proposes to set fires in the course of

(a) weed abatement,

(b) instruction in methods of fire fighting (~~((except forest fires))~~), except forest fire training, or

(c) agricultural activities(,) shall (~~(, prior to carrying out the same,)~~) obtain a permit from an air pollution control authority (~~(or)~~), the department of ecology, ((as appropriate. Each such authority and the department of ecology shall, by rule or ordinance, establish a permit system to carry out the provisions of this section except as provided in RCW 70.94.660)) or a local entity delegated permitting authority under RCW 70.94.654. General permit criteria of state-wide applicability (~~(for ruling on such permits)~~) shall be established by the department, by rule, after consultation with the various air pollution control authorities. Permits shall be issued under this section based on seasonal operations or by individual operations, or both. All permits (~~(so issued)~~) shall be conditioned to insure that the public interest in air, water, and land pollution and safety to life and property is fully considered. In addition to any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged, or both. All burning permits will be designed to minimize air pollution insofar as practical. Nothing in this section shall relieve the applicant from obtaining permits, licenses, or other approvals required by any other law. An application for a permit to set fires in the course of agricultural burning for controlling diseases, insects, weed abatement or development of physiological conditions conducive to increased crop yield, shall be acted upon within seven days from the date such application is filed. The department of ecology and local air authorities shall provide convenient methods for issuance and oversight of agricultural burning permits. The department and local air authorities shall, through agreement, work with counties and cities to provide convenient methods for granting permission for agricultural burning, including telephone, facsimile transmission, issuance from local city or county offices, or other methods.

(2) (~~(Except as provided in RCW 70.94.780))~~ Permit fees shall be assessed for (~~(outdoor)~~) burning under this section and shall be collected by the department of ecology (~~(or)~~), the appropriate local air authority, or a local entity delegated permitting authority pursuant to RCW 70.94.654 at the time the permit is issued. All fees collected shall be deposited in the air pollution control account created in RCW 70.94.015, except for that portion of the fee necessary to cover local costs of administering a permit issued under this section. Fees shall be set by rule by the permitting agency at the level determined by the task force created by subsection (4) of this section, but shall not exceed two dollars and fifty cents per acre to be burned. After fees are established by rule, any increases in such fees shall be limited to annual inflation adjustments as determined by the state office of the economic and revenue forecast council.

(3) Conservation districts and the Washington State University agricultural extension program in conjunction with the department shall develop public education material for the agricultural community identifying the health and environmental ~~(affects [effects])~~ effects of agricultural outdoor burning and providing technical assistance in alternatives to agricultural outdoor burning.

(4) An agricultural burning practices and research task force shall be established under the direction of the department. The task force shall be composed of a representative from the department who shall serve as chair; one representative of eastern Washington local air authorities; three representatives of the agricultural community from different agricultural pursuits; one representative of the department of agriculture; two representatives from universities or colleges knowledgeable in agricultural issues; one representative of the public health or medical community; and one representative of the conservation districts. The task force shall identify best management practices for reducing air contaminant emissions from agricultural activities and provide such information to the department and local air authorities. The task force shall determine the level of fees to be assessed by the permitting agency pursuant to subsection (2) of this section, based upon the level necessary to cover the costs of administering and enforcing the permit programs, to provide funds for research into alternative methods to reduce emissions from such burning, and to the extent possible be consistent with fees charged for such burning permits in neighboring states. The fee level shall provide, to the extent possible, for lesser fees for permittees who use best management practices to minimize air contaminant emissions. The task force shall identify research needs related to minimizing emissions from agricultural burning and alternatives to such burning. Further, the task force shall make recommendations to the department on priorities for spending funds provided through this chapter for research into alternative methods to reduce emissions from agricultural burning.

Sec. 2. RCW 70.94.654 and 1991 c 199 s 409 are each amended to read as follows:

(1) Whenever the department of ecology shall find that any fire protection agency, county, or conservation district which is outside the jurisdictional boundaries of an activated air pollution control authority is capable of effectively administering the issuance and enforcement of permits for any or all of the kinds of burning identified in RCW 70.94.650 and desirous of doing so, the department of ecology may delegate powers necessary for the issuance or enforcement, or both, of permits for any or all of the kinds of burning to the fire protection agency, county, or conservation district. Such delegation may be withdrawn by the department of ecology upon its finding that the fire protection agency, county, or conservation district is not effectively administering the permit program.

(2) A local air authority may delegate authority to issue and enforce permits for burning under RCW 70.94.650 to any fire protection agency, county, or conservation district within the jurisdictional boundaries of the local air authority. A local air authority may withdraw delegation if the local air authority finds that the fire protection agency, county, or conservation district is not effectively administering the permit program."

Each licensee shall pay to the director a fee of no less than ten cents but no more than fifteen cents for each head of cattle handled through the licensee's feed lot. The fee shall be set by the director by rule after a hearing under chapter 34.05 RCW and in conformance with section 10 of this act. Payment of such fee shall be made by the

licensee on a monthly basis. Failure to pay as required shall be grounds for suspension or revocation of a certified feed lot license. Further, the director shall not renew a certified feed lot license if a licensee has failed to make prompt and timely payments.

Sec. 5. RCW 16.57.080 and 1991 c 110 s 1 are each amended to read as follows:

The director shall establish by rule a schedule for the renewal of registered brands. The fee for renewal of the brands shall be no less than twenty-five dollars for each two-year period of brand ownership, except that the director may, in adopting a renewal schedule, provide for the collection of renewal fees on a prorated basis and may by rule increase the registration and renewal fee for brands by no more than fifty percent subsequent to a hearing under chapter 34.05 RCW and in conformance with section 10 of this act. At least one hundred twenty days before the expiration of a registered brand, the director shall notify by letter the owner of record of the brand that on the payment of the requisite application fee and application of renewal the director shall issue the proof of payment allowing the brand owner exclusive ownership and use of the brand for the subsequent registration period. The failure of the registered owner to pay the renewal fee by the date required by rule shall cause such owner's brand to revert to the department. The director may for a period of one year following such reversion, reissue such brand only to the prior registered owner upon payment of ~~((twenty-five dollars and an additional fee of ten dollars))~~ the registration fee and a late filing fee to be prescribed by the director by rule subsequent to a hearing under chapter 34.05 RCW and in conformance with section 10 of this act, for renewal subsequent to the regular renewal period. The director may at ~~((his))~~ the director's discretion, if such brand is not reissued within one year to the prior registered owner, issue such brand to any other applicant.

Sec. 6. RCW 16.57.090 and 1974 ex.s. c 64 s 3 are each amended to read as follows:

A brand is the personal property of the owner of record. Any instrument affecting the title of such brand shall be acknowledged in the presence of the recorded owner and a notary public. The director shall record such instrument upon presentation and payment of a ~~((ten dollar))~~ recording fee not to exceed fifteen dollars to be prescribed by the director by rule subsequent to a hearing under chapter 34.05 RCW and in conformance with section 10 of this act. Such recording shall be constructive notice to all the world of the existence and conditions affecting the title to such brand. A copy of all records concerning the brand, certified by the director, shall be received in evidence to all intent and purposes as the original instrument. The director shall not be personally liable for failure of ~~((his))~~ the director's agents to properly record such instrument.

Sec. 7. RCW 16.57.140 and 1974 ex.s. c 64 s 4 are each amended to read as follows:

The owner of a brand of record may procure from the director a certified copy of the record of ~~((his))~~ the owner's brand upon payment of ~~((five dollars))~~ a fee not to exceed seven dollars and fifty cents to be prescribed by the director by rule subsequent to a hearing under chapter 34.05 RCW and in conformance with section 10 of this act.

Sec. 8. RCW 16.57.220 and 1981 c 296 s 17 are each amended to read as follows:

The director shall cause a charge to be made for all brand inspection of cattle and horses required under this chapter and rules ~~((and regulations))~~ adopted hereunder. Such charges shall be paid to the department by the owner or person in possession unless requested by the purchaser and then such brand inspection shall be paid by the purchaser requesting such brand inspection. Such inspection charges shall be due and payable at the time brand inspection is performed and shall be paid upon billing by the department and if not shall constitute a prior lien on the cattle or cattle hides or horses or horse hides brand inspected until such charge is paid. The director in order to best utilize the services of the department in performing brand inspection ~~((shall))~~ may establish schedules by days and hours when a brand inspector will be on duty to perform brand inspection at established inspection points. The fees for brand inspection ~~((performed at inspection points according to schedules established by the director))~~ shall be not less than ~~((thirty cents nor more than))~~ fifty cents nor more than seventy-five cents per head for cattle and not less than two dollars nor more than three dollars per head for horses as prescribed by the director by rule subsequent to a hearing under chapter 34.05 RCW and in conformance with section 10 of this act. Fees for brand inspection of cattle and horses performed by the director at points other than those designated by the director or not in accord with the schedules established by ~~((him))~~ the director shall be based on a fee schedule not to exceed actual net cost to the department of performing the brand inspection service. Such schedule of fees shall be established subsequent to a hearing and all regulations concerning fees shall be adopted in accord with the provisions of chapter 34.05 RCW, the Administrative Procedure Act, concerning the adoption of rules as enacted or hereafter amended.

Sec. 9. RCW 16.57.400 and 1981 c 296 s 23 are each amended to read as follows:

The director may provide by rules and regulations adopted pursuant to chapter 34.05 RCW for the issuance of individual horse and cattle identification certificates or other means of horse and cattle identification deemed appropriate. Such certificates or other means of identification shall be valid only for the use of the horse and cattle owner in whose name it is issued.

Horses and cattle identified pursuant to the provisions of this section and the rules and regulations adopted hereunder shall not be subject to brand inspection except when sold at points provided for in RCW 16.57.380. The director shall charge a fee for the certificates or other means of identification authorized pursuant to this section and no identification shall be issued until the director has received the fee. The schedule of fees shall be established in accordance with the provisions of chapter 34.05 RCW.

NEW SECTION. Sec. 10. A new section is added to chapter 16.57 RCW to read as follows:

(1) The director shall establish a livestock identification advisory board. The board shall be composed of six members appointed by the director. One member shall represent each of the following groups: Beef producers, public livestock market operators, horse owners, dairy farmers, cattle feeders, and meat processors. In making appointments, the director shall solicit nominations from organizations representing these groups state-wide.

(2) The purpose of the board is to provide advice to the director regarding livestock identification programs administered under this chapter and regarding brand inspection fees and related licensing fees. The director shall consult the board before adopting, amending, or repealing a rule under this chapter or altering a fee under RCW 16.58.050, 16.58.130, 16.65.030, or 16.65.090. If the director publishes in the state register a proposed rule to be adopted under the authority of this chapter or a proposed rule setting a fee under RCW 16.58.050, 16.58.130, 16.65.030, or 16.65.090 and the rule has not received the approval of the advisory board, the director shall file with the board a written statement setting forth the director's reasons for proposing the rule without the board's approval.

(3) The members of the advisory board serve three-year terms. However, the director shall by rule provide shorter initial terms for some of the members of the board to stagger the expiration of the initial terms. The members serve without compensation. The director may authorize the expenses of a member to be reimbursed if the member is selected to attend a regional or national conference or meeting regarding livestock identification. Any such reimbursement shall be in accordance with RCW 43.03.050 and 43.03.060.

Sec. 11. RCW 16.57.410 and 1989 c 286 s 25 are each amended to read as follows:

(1) No person may act as a registering agency without a permit issued by the department. The director may issue a permit to any person or organization to act as a registering agency for the purpose of issuing permanent identification symbols for horses in a manner prescribed by the director. Application for such permit, or the renewal thereof by January 1 of each year, shall be on a form prescribed by the director, and accompanied by the proof of registration to be issued, any other documents required by the director, and a fee of one hundred dollars.

(2) Each registering agency shall maintain a permanent record for each individual identification symbol. The record shall include, but need not be limited to, the name, address, and phone number of the horse owner and a general description of the horse. A copy of each permanent record shall be forwarded to the director, if requested by the director.

(3) Individual identification symbols shall be inspected as required for brands under RCW 16.57.220 and 16.57.380 (~~and 16.57.390~~). Any horse presented for inspection and bearing such a symbol, but not accompanied by proof of registration and certificate of permit, shall be sold as provided under RCW 16.57.290 through 16.57.330.

(4) The director shall adopt such rules as are necessary for the effective administration of this section pursuant to chapter 34.05 RCW.

ESSB 5574 Prime Sponsor, Committee on Labor & Commerce: Regulating credit information use. Reported by Committee on Financial Institutions & Insurance

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds and declares that consumers have a vital interest in establishing and maintaining creditworthiness. The legislature further finds that an elaborate mechanism using credit reports has developed for investigating and evaluating a consumer's creditworthiness, credit capacity, and general reputation and character. As such, credit reports are used for evaluating credit card, loan, mortgage, and small business financing applications, as well as for decisions regarding employment and the rental or leasing of dwellings. Moreover, financial institutions and other creditors depend upon fair and accurate credit reports to efficiently and accurately evaluate creditworthiness. Unfair or inaccurate reports undermine both public and creditor confidences in the reliability of credit granting systems.

Therefore, this chapter is necessary to assure accurate credit data collection, maintenance, and reporting on the citizens of the state. It is the policy of the state that credit reporting agencies maintain accurate credit reports, resolve disputed reports promptly and fairly, and adopt reasonable procedures to promote consumer confidentiality and the proper use of credit data in accordance with this chapter.

NEW SECTION. Sec. 2. This chapter shall be known as the Fair Credit Reporting Act.

NEW SECTION. Sec. 3. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1)(a) "Adverse action" includes:

(i) Denial of, increase in any charge for, or reduction in the amount of insurance for personal, family, or household purposes;

(ii) Denial of employment or any other decision for employment purposes that adversely affects a current or prospective employee;

(iii) Action or determination with respect to a consumer's application for credit that is adverse to the interests of the consumer; and

(iv) Action or determination with respect to a consumer's application for the rental or leasing of residential real estate that is adverse to the interests of the consumer.

(b) "Adverse action" does not include:

(i) A refusal to extend additional credit under an existing credit arrangement if:

(A) The applicant is delinquent or otherwise in default with respect to the arrangement; or

(B) The additional credit would exceed a previously established credit limit; or

(ii) A refusal or failure to authorize an account transaction at a point of sale.

(2) "Attorney general" means the office of the attorney general.

(3) "Consumer" means an individual.

(4)(a) "Consumer report" means a written, oral, or other communication of information by a consumer reporting agency bearing on a consumer's creditworthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living that is used or expected to be used or collected in whole or in part for:

(i) The purpose of serving as a factor in establishing the consumer's eligibility for credit or insurance to be used primarily for personal, family, or household purposes;

(ii) Employment purposes; or

(iii) Other purposes authorized under section 4 of this act.

(b) "Consumer report" does not include:

(i) A report containing information solely as to transactions or experiences between the consumer and the person making the report;

(ii) An authorization or approval of a specific extension of credit directly or indirectly by the issuer of a credit card or similar device;

(iii) A report in which a person who has been requested by a third party to make a specific extension of credit directly or indirectly to a consumer conveys his or her decision with respect to the request, if the third party advises the consumer of the name and address of the person to whom the request was made and the person makes the disclosures to the consumer required under section 9 of this act;

(iv) A list compiled by a consumer reporting agency to be used by its client for direct marketing of goods or services not involving an offer of credit;

(v) A report solely conveying a decision whether to guarantee a check in response to a request by a third party; or

(vi) A report furnished for use in connection with a transaction that consists of an extension of credit to be used for a commercial purpose.

(5) "Consumer reporting agency" means a person who, for monetary fees, dues, or on a cooperative nonprofit basis, regularly engages in whole or in part in the business of assembling or evaluating consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties, and who uses any means or facility of commerce for the purpose of preparing or furnishing consumer reports. "Consumer reporting agency" does not include a person solely by reason of conveying a decision whether to guarantee a check in response to a request by a third party or a person who obtains a consumer report and provides the report or information contained in it to a subsidiary or affiliate of the person.

(6) "Credit transaction that is not initiated by the consumer" does not include the use of a consumer report by an assignee for collection or by a person with which the consumer has an account, for purposes of (a) reviewing the account, or (b) collecting the account. For purposes of this subsection "reviewing the account" includes activities related to account maintenance and monitoring, credit line increases, and account upgrades and enhancements.

(7) "Direct solicitation" means the process in which the consumer reporting agency compiles or edits for a client a list of consumers who meet specific criteria and provides this list to the client or a third party on behalf of the client for use in soliciting those consumers for an offer of a product or service.

(8) "Employment purposes," when used in connection with a consumer report, means a report used for the purpose of evaluating a consumer for employment, promotion, reassignment, or retention as an employee.

(10) "Investigative consumer report" means a consumer report or portion of it in which information on a consumer's character, general reputation, personal characteristics, or mode of living is obtained through personal interviews with neighbors, friends, or associates of the consumer reported on or with others with whom the consumer is acquainted or who may have knowledge concerning any items of information. However, the information does not include specific factual information on a consumer's credit record obtained directly from a creditor of the consumer or from a consumer reporting agency when the information was obtained directly from a creditor of the consumer or from the consumer.

(11) "Medical information" means information or records obtained, with the consent of the individual to whom it relates, from a licensed physician or medical practitioner, hospital, clinic, or other medical or medically related facility.

(12) "Person" includes an individual, corporation, government or governmental subdivision or agency, business trust, estate, trust, partnership, association, and any other legal or commercial entity.

(13) "Prescreening" means the process in which the consumer reporting agency compiles or edits for a client a list of consumers who meet specific credit criteria and provides this list to the client or a third party on behalf of the client for use in soliciting those consumers for an offer of credit.

NEW SECTION. Sec. 4. (1) A consumer reporting agency may furnish a consumer report only under the following circumstances:

(a) In response to the order of a court having jurisdiction to issue the order;

(b) In accordance with the written instructions of the consumer to whom it relates; or

(c) To a person that the agency has reason to believe:

(v) Otherwise has a legitimate business need for the information in connection with a business transaction involving the consumer.

(2)(a) A person may not procure a consumer report, or cause a consumer report to be procured, for employment purposes with respect to any consumer who is not an employee at the time the report is procured or caused to be procured unless:

(i) A clear and conspicuous disclosure has been made in writing to the consumer before the report is procured or caused to be procured that a consumer report may be obtained for purposes of considering the consumer for employment. The disclosure may be contained in a written statement contained in employment application materials; or

(ii) The consumer authorizes the procurement of the report.

(b) A person may not procure a consumer report, or cause a consumer report to be procured, for employment purposes with respect to any employee unless the employee has received, at any time after the person became an employee, written notice that consumer reports may be used for employment purposes. A written statement that consumer reports may be used for employment purposes that is contained in employee guidelines or manuals available to employees or included in written materials provided to employees constitutes written notice for purposes of this subsection. This subsection does not apply with respect to a consumer report of an employee who the employer has reasonable cause to believe has engaged in specific activity that constitutes a violation of law.

(c) In using a consumer report for employment purposes, before taking any adverse action based in whole or part on the report, a person shall provide to the consumer to whom the report relates: (i) The name, address, and telephone number of the consumer reporting agency providing the report; (ii) a description of the consumer's rights under this chapter pertaining to consumer reports obtained for employment purposes; and (iii) a reasonable opportunity to respond to any information in the report that is disputed by the consumer.

NEW SECTION. Sec. 5. (1) A consumer reporting agency may provide a consumer report relating to a consumer under section 4(1)(c)(i) of this act in connection with a credit transaction that is not initiated by the consumer only if:

(a) The consumer authorized the consumer reporting agency to provide the report to such a person; or

The notice must be made in writing through the notification system maintained by the consumer reporting agency under subsection (4) of this section and must state that the consumer does not consent

to any use of consumer reports relating to the consumer in connection with any transaction that is not initiated by the consumer.

(b) An election of a consumer under (a) of this subsection is effective with respect to a consumer reporting agency and any affiliate of the consumer reporting agency, within five business days after the consumer reporting agency receives the consumer's notice.

(4) A consumer reporting agency that provides information intended to be used in a prescreened credit transaction or direct solicitation transaction that is not initiated by the consumer shall:

(c) The employment of an individual at an annual salary that equals, or that may reasonably be expected to equal, twenty thousand dollars or more.

NEW SECTION. Sec. 7. (1) A person may not procure or cause to be prepared an investigative consumer report on a consumer unless:

(a) It is clearly and accurately disclosed to the consumer that an investigative consumer report including information as to the consumer's character, general reputation, personal characteristics, and mode of living, whichever are applicable, may be made, and the disclosure:

(i) Is made in a writing mailed, or otherwise delivered, to the consumer not later than three days after the date on which the report was first requested; and

(b) The report is to be used for employment purposes for which the consumer has not specifically applied.

(2) A person who procures or causes to be prepared an investigative consumer report on a consumer shall make, upon written request made by the consumer within a reasonable period of time after the receipt by the consumer of the disclosure required in subsection (1)(a) of this section, a complete and accurate disclosure of the nature and scope of the investigation requested. For purposes of this subsection, "person" does not include an individual who requests the report unless the individual obtains the report or information for his or her own individual purposes.

NEW SECTION. Sec. 8. (1) A consumer reporting agency shall maintain reasonable procedures designed to avoid violations of section 6 of this act and to limit the furnishing of consumer reports to the purposes listed under section 4 of this act. These procedures must require that prospective users of the information identify themselves, certify the purposes for which the information is sought, and certify that the information will be used for no other purpose. A consumer reporting agency shall make a reasonable effort to verify the identity of a new prospective user and the uses certified by the prospective user before furnishing the user a consumer report. No consumer reporting agency may furnish a consumer report to a person if the agency has reasonable grounds for believing that the consumer report will not be used for a purpose listed in section 4 of this act.

(2) Whenever a consumer reporting agency prepares a consumer report it shall follow reasonable procedures to assure maximum possible accuracy of the information concerning the individual about whom the report relates.

(3) Notwithstanding section 4 of this act, a consumer reporting agency may furnish identifying information about a consumer, limited to the consumer's name, address, former addresses, places of employment, or former places of employment, to a governmental agency.

(4) A consumer reporting agency shall maintain a detailed record of:

NEW SECTION. Sec. 9. A consumer reporting agency shall, upon request by the consumer, clearly and accurately disclose:

(1) All information in the file on the consumer at the time of request, except that medical information may be withheld. The agency shall inform the consumer of the existence of medical information, and the consumer has the right to have that information disclosed to the health care provider of the consumer's choice. Nothing in this chapter prevents, or authorizes a consumer reporting agency to prevent, the health care provider from disclosing the medical information to the consumer. The agency shall inform the consumer of the right to disclosure of medical information at the time the consumer requests disclosure of his or her file.

(2) All items of information in its files on that consumer, including disclosure of the sources of the information, except that sources of information acquired solely for use in an investigative report may only be disclosed to a plaintiff under appropriate discovery procedures.

(3) Identification of (a) each person who for employment purposes within the two-year period before the request, and (b) each person who for any other purpose within the six-month period before the request, procured a consumer report.

(4) A record identifying all inquiries received by the agency in the six-month period before the request that identified the consumer in connection with a credit transaction that is not initiated by the consumer.

(5) An identification of a person under subsection (3) or (4) of this section must include (a) the name of the person or, if applicable, the trade name under which the person conducts business; and (b) upon request of the consumer, the address of the person.

(2) The consumer reporting agency shall make the disclosures required under section 9 of this act to the consumer:

(a) In person if the consumer appears in person and furnishes proper identification;

(b) By telephone if the consumer has made a written request, with proper identification, for telephone disclosure and the toll charge, if any, for the telephone call is prepaid by or charged directly to the consumer; or

(c) By any other reasonable means that are available to the consumer reporting agency if that means is authorized by the consumer.

(3) A consumer reporting agency shall provide trained personnel to explain to the consumer, information furnished to the consumer under section 9 of this act.

(4) The consumer reporting agency shall permit the consumer to be accompanied by one other person of the consumer's choosing, who shall furnish reasonable identification. A consumer reporting agency may require the consumer to furnish a written statement granting permission to the consumer reporting agency to discuss the consumer's file in the other person's presence.

(5) If a credit score is provided by a consumer reporting agency to a consumer, the agency shall provide an explanation of the meaning of the credit score.

(6) Except as provided in section 17 of this act, no consumer may bring an action or proceeding in the nature of defamation, invasion of privacy, or negligence with respect to the reporting of information against a consumer reporting agency or a user of information, based on information disclosed under this section or section 9 of this act, except as to false information furnished with malice or willful intent to injure the consumer. Except as provided in section 17 of this act, no consumer may bring an action or proceeding against a person who provides information to a consumer reporting agency in the nature of defamation, invasion of privacy, or negligence for unintentional error.

(7)(a) A consumer reporting agency must provide to a consumer, with each written disclosure by the agency to the consumer under section 9 of this act, a written summary of all rights and remedies the consumer has under this chapter.

(b) The summary of the rights and remedies of consumers under this chapter must include:

(i) A brief description of this chapter and all rights and remedies of consumers under this chapter;

(ii) An explanation of how the consumer may exercise the rights and remedies of the consumer under this chapter; and

(iii) A list of all state agencies, including the attorney general's office, responsible for enforcing any provision of this chapter and the address and appropriate phone number of each such agency.

NEW SECTION. Sec. 11. (1) If the completeness or accuracy of an item of information contained in a consumer's file at a consumer reporting agency is disputed by the consumer and the consumer notifies the agency directly of the dispute, the agency shall reinvestigate without charge and record the current status of the disputed information before the end of thirty business days, beginning on the date the agency receives the notice from the consumer.

(2) Before the end of the five business-day period beginning on the date a consumer reporting agency receives notice of a dispute from a consumer in accordance with subsection (1) of this section, the agency shall notify any person who provided an item of information in dispute.

(3)(a) Notwithstanding subsection (1) of this section, a consumer reporting agency may terminate a reinvestigation of information disputed by a consumer under subsection (1) of this section if the agency determines that the dispute by the consumer is frivolous or irrelevant, including by reason of a failure of the consumer to provide sufficient information.

(b) Upon making a determination in accordance with (a) of this subsection that a dispute is frivolous or irrelevant, a consumer reporting agency shall notify the consumer within five business days of the determination. The notice shall be made in writing or any other means authorized by the consumer that are available to the agency, but the notice shall include the reasons for the determination and a notice of the consumer's rights under subsection (6) of this section.

(4) In conducting a reinvestigation under subsection (1) of this section with respect to disputed information in the file of any consumer, the consumer reporting agency shall review and consider all relevant information submitted by the consumer in the period described in subsection (1) of this section with respect to the disputed information.

(5)(a) If, after a reinvestigation under subsection (1) of this section of information disputed by a consumer, the information is found to be inaccurate or cannot be verified, the consumer reporting agency shall promptly delete the information from the consumer's file.

(b)(i) If information is deleted from a consumer's file under (a) of this subsection, the information may not be reinserted in the file after the deletion unless the person who furnishes the information verifies that the information is complete and accurate.

(ii) If information that has been deleted from a consumer's file under (a) of this subsection is reinserted in the file in accordance with (b)(i) of this subsection, the consumer reporting agency shall notify the consumer of the reinsertion within thirty business days. The notice shall be in writing or any other means authorized by the consumer that are available to the agency.

(6) If the reinvestigation does not resolve the dispute or if the consumer reporting agency determines the dispute is frivolous or irrelevant, the consumer may file a brief statement setting forth the nature of the dispute. The consumer reporting agency may limit these statements to not more than one hundred words if it provides the consumer with assistance in writing a clear summary of the dispute.

(7) After the deletion of information from a consumer's file under this section or after the filing of a statement of dispute under subsection (6) of this section, the consumer reporting agency shall, at the request of the consumer, furnish notification that the item of information has been deleted or that item of information is disputed. In the case of disputed information, the notification shall include the statement filed under subsection (6) of this section. The notification shall be furnished to any person specifically designated by the consumer, who has, within two years before the deletion or filing of a dispute, received a consumer report concerning the consumer for employment purposes, or who has, within six months of the deletion or the filing of the dispute, received a consumer report concerning the consumer for any other purpose, if these consumer reports contained the deleted or disputed information.

(8)(a) Upon completion of the reinvestigation under this section, a consumer reporting agency shall provide notice, in writing or by any other means authorized by the consumer, of the results of a reinvestigation within five business days.

(b) The notice required under (a) of this subsection must include:

(i) A statement that the reinvestigation is completed;

(ii) A consumer report that is based upon the consumer's file as that file is revised as a result of the reinvestigation;

(iii) A description or indication of any changes made in the consumer report as a result of those revisions to the consumer's file;

(iv) If requested by the consumer, a description of the procedure used to determine the accuracy and completeness of the information shall be provided to the consumer by the agency, including the name, business address, and telephone number of any person contacted in connection with the information;

(v) If the reinvestigation does not resolve the dispute, a summary of the consumer's right to file a brief statement as provided in subsection (6) of this section; and

(vi) If information is deleted or disputed after reinvestigation, a summary of the consumer's right to request notification to persons who have received a consumer report as provided in subsection (7) of this section.

(9) In the case of a consumer reporting agency that compiles and maintains consumer reports on a nationwide basis, the consumer reporting agency must provide to a consumer who has undertaken to dispute the information contained in his or her file a toll-free telephone number that the consumer can use to communicate with the agency. A consumer reporting agency that provides a toll-free number required by this subsection shall also provide adequately trained personnel to answer basic inquiries from consumers using the toll-free number.

NEW SECTION. Sec. 12. (1) Except as provided in subsections (2) and (3) of this section, a consumer reporting agency may charge the following fees to the consumer:

(a) For making a disclosure under sections 9 and 10 of this act, the consumer reporting agency may charge a fee not exceeding eight dollars. Beginning January 1, 1995, the eight-dollar charge may be adjusted on January 1st of each year based on corresponding changes in the Consumer Price Index with fractional changes rounded to the nearest half dollar.

(b) For furnishing a notification, statement, or summary to a person under section 11(7) of this act, the consumer reporting agency may charge a fee not exceeding the charge that the agency would impose on each designated recipient for a consumer report. The amount of any charge must be disclosed to the consumer before furnishing the information.

(2) A consumer reporting agency shall make all disclosures under sections 9 and 10 of this act and furnish all consumer reports under section 11 of this act without charge, if requested by the consumer within sixty days after receipt by the consumer of a notification of adverse action under section 13 of this act or of a notification from a debt collection agency affiliated with that consumer reporting agency stating that the consumer's credit rating may be or has been adversely affected.

(3) A consumer reporting agency shall not impose any charge for (a) providing notice to a consumer required under section 11 of this act, or (b) notifying a person under section 11(7) of this act of the deletion of information that is found to be inaccurate or that can no longer be verified, if the consumer designates that person to the agency before the end of the thirty-day period beginning on the date of notice under section 11(8) of this act.

NEW SECTION. Sec. 13. If a person takes an adverse action with respect to a consumer that is based, in whole or in part, on information contained in a consumer report, the person shall:

(1) Provide written notice of the adverse action to the consumer, except verbal notice may be given by a person in an adverse action involving a business regulated by the Washington utilities and transportation commission or involving an application for the rental or leasing of residential real estate if such verbal notice does not impair a consumer's ability to obtain a credit report without charge under section 12(2) of this act; and

(2) Provide the consumer with the name, address, and telephone number of the consumer reporting agency that furnished the report to the person.

NEW SECTION. Sec. 14. An action to enforce a liability created under this chapter is permanently barred unless commenced within two years after the cause of action accrues, except that where a defendant has materially and willfully misrepresented information required under this chapter to be disclosed to an individual and the information so misrepresented is material to the establishment of the defendant's liability to that individual under this chapter, the action may be brought at any time within two years after discovery by the individual of the misrepresentation.

NEW SECTION. Sec. 15. A person who knowingly and willfully obtains information on a consumer from a consumer reporting agency under false pretenses is subject to a fine of up to five thousand dollars or imprisonment for up to one year, or both.

NEW SECTION. Sec. 16. An officer or employee of a consumer reporting agency who knowingly and willfully provides information concerning an individual from the agency's files to a person not authorized to receive that information is subject to a fine of up to five thousand dollars or imprisonment for up to one year, or both.

NEW SECTION. Sec. 17. The legislature finds that the practices covered by this chapter are matters vitally affecting the public interest for the purpose of applying the Consumer Protection Act, chapter 19.86 RCW. Violations of this chapter are not reasonable in relation to the development and preservation of business. A violation of this chapter is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the Consumer Protection Act, chapter 19.86 RCW. The burden of proof in an action alleging a violation of this chapter shall be by a preponderance of the evidence, and the applicable statute of limitation shall be as set forth in section 14 of this act. For purposes of a judgment awarded pursuant to an action by a consumer under chapter 19.86 RCW, the consumer shall be awarded actual damages and costs of the action together with reasonable attorney's fees as determined by the court. However, where there has been willful failure to comply with any requirement imposed under this chapter, the consumer shall be awarded actual damages, a monetary penalty of one thousand dollars, and the costs of the action together with reasonable attorneys' fees as determined by the court.

NEW SECTION. Sec. 18. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

(3) Obtain property by fraud or misrepresentation;

(4) Solicit or enter into a contract with a borrower that provides in substance that the mortgage broker may earn a fee or commission through the mortgage broker's "best efforts" to obtain a loan even though no loan is actually obtained for the borrower;

(5) Solicit, advertise, or enter into a contract for specific interest rates, points, or other financing terms unless the terms are actually available at the time of soliciting, advertising, or contracting from a person exempt from licensing under RCW 19.146.020(1) (f) or (g) or a lender with whom the mortgage broker maintains a written correspondent or loan brokerage agreement under RCW 19.146.040;

NEW SECTION. Sec. 5. (1) A person may not engage in the business of a mortgage broker, except as an employee of a person licensed or exempt from licensing, without first obtaining and maintaining a license under this chapter.

(2) A person may not bring a suit or action for the collection of compensation as a mortgage broker unless the plaintiff alleges and proves that he or she was a duly licensed mortgage broker, or exempt from the license requirement of this chapter, at the time of offering to perform or performing any such an act or service regulated by this chapter. This subsection does not apply to suits or actions for the collection or compensation for services performed prior to the effective date of this section.

NEW SECTION. Sec. 6. (1) Application for a mortgage broker license under this chapter shall be in writing and in the form prescribed by the director. Unless waived by the director, the application shall contain at least the following information:

(a) The name, address, date of birth, and social security number of the applicant, and any other names, dates of birth, or social security numbers previously used by the applicant;

(b) If the applicant is a partnership or association, the name, address, date of birth, and social security number of each general partner or principal of the association, and any other names, dates of birth, or social security numbers previously used by the members;

(c) If the applicant is a corporation, the name, address, date of birth, and social security number of each officer, director, registered agent, and each principal stockholder, and any other names, dates of birth, or social security numbers previously used by the officers, directors, registered agents, and principal stockholders;

(d) The street address, county, and municipality where the principal business office is to be located;

(e) Submission of a complete set of fingerprints taken by an authorized law enforcement officer; and

(f) Such other information regarding the applicant's background, financial responsibility, experience, character, and general fitness as the director may require by rule.

(2) At the time of filing an application for a license under this chapter, each applicant shall pay to the director the appropriate license fee in an amount determined by rule of the director in accordance with RCW 43.24.086 to be sufficient to cover, but not exceed, the department's costs in administering this chapter. The director shall deposit the moneys in the mortgage broker fund created under section 19 of this act.

(3)(a) Each applicant for a mortgage broker's license shall file and maintain a surety bond, in an amount of forty thousand dollars or such lower amount the director deems adequate to protect the public interest, executed by the applicant as obligor and by a surety company authorized to do a surety business in this state as surety. The bond shall run to the state of Washington as obligee, and shall run to the benefit of the state and any person or persons who suffer loss by reason of the applicant's violation of any provision of this chapter or rules adopted under this chapter. The bond shall be conditioned that the obligor as licensee will faithfully conform to and abide by this chapter and all rules adopted under this chapter, and shall reimburse all persons who suffer loss by reason of a violation of this chapter or rules adopted under this chapter. The bond shall be continuous and may be canceled by the surety upon the surety giving written notice to the director of its intent to cancel the bond. The cancellation shall be effective thirty days after the notice is received by the director. Whether or not the bond is renewed, continued, reinstated, reissued, or otherwise extended, replaced, or modified, including increases or decreases in the penal sum, it shall be considered one continuous obligation, and the surety upon the bond shall not be liable in an aggregate or cumulative amount exceeding the penal sum set forth on the face of the bond. In no event shall the penal sum, or any portion thereof, at two or more points in time be added together in determining the surety's liability. The bond shall not be liable for any penalties imposed on the licensee, including, but not limited to, any increased damages or attorneys' fees, or both, awarded under RCW 19.86.090. The applicant may obtain the bond directly from the surety or through a group bonding arrangement involving a professional organization comprised of mortgage brokers if the arrangement provides at least as much coverage as is required under this subsection.

(b) In lieu of a surety bond, the applicant may, upon approval by the director, file with the director a certificate of deposit, an irrevocable letter of credit, or such other instrument as approved by the director by rule, drawn in favor of the director for an amount equal to the required bond.

(c) In lieu of the surety bond or compliance with (b) of this subsection, an applicant may obtain insurance or coverage from an association comprised of mortgage brokers that is organized as a mutual corporation for the sole purpose of insuring or self-insuring claims that may arise from a violation of this chapter. An applicant may only substitute coverage under this subsection for the requirements of (a) or (b) of this subsection if the director, with the consent of the insurance commissioner, has authorized such association to organize a mutual corporation under such terms and conditions as may be imposed by the director to ensure that the corporation is operated in a financially responsible manner to pay any claims within the financial responsibility limits specified in (a) of this subsection.

NEW SECTION. Sec. 7. (1) The director shall issue and deliver a mortgage broker license to an applicant if, after investigation, the director makes the following findings:

(e) The applicant has at least two years of experience in the residential mortgage loan industry; and

(f) The applicant has demonstrated financial responsibility, character, and general fitness such as to command the confidence of the community and to warrant a belief that the business will be operated honestly, fairly, and efficiently within the purposes of this chapter.

(2) If the director does not find the conditions of subsection (1) of this section have been met, the director shall not issue the license. The director shall notify the applicant of the denial and return to the applicant the bond or

approved alternative and any remaining portion of the license fee that exceeds the departments actual cost to investigate the license.

(3) The director may delay the effective date of section 5 of this act for an additional thirty days with respect to an applicant for a mortgage broker license for the purpose of processing the application when the applicant has filed a completed application by October 31, 1993.

(4) A license issued pursuant to this chapter is valid from the date of issuance.

(5) A licensee may surrender a license by delivering to the director written notice of surrender, but the surrender does not affect the licensee's civil or criminal liability arising from acts or omissions occurring before such surrender.

NEW SECTION. Sec. 8. (1) The director shall enforce all laws and rules relating to the licensing of mortgage brokers, grant or deny licenses to mortgage brokers, and hold hearings. The director may impose any one or more of the following sanctions: Suspend or revoke licenses, deny applications for licenses, or fine violators under this chapter. In addition, the director may issue an order directing a licensee or person subject to this chapter to cease and desist from conducting business in a manner that is injurious to the public or violates any provision of this chapter.

(2) The director may take those actions specified in subsection (1) of this section if the director finds any of the following:

(a) The licensee has failed to pay a fee due the state of Washington, to maintain in effect the bond or approved alternative required under this chapter, or to comply with any specific order or demand of the director lawfully made and directed to the licensee in accordance with this chapter; or

(b) The licensee or person subject to this chapter has violated any provision of this chapter or a rule adopted under this chapter; or

(c) The licensee made false statements on the application or omitted material information that, if known, would have allowed the director to deny the application for the original license.

(3) The director shall establish by rule standards for licensure of applicants licensed in other jurisdictions.

NEW SECTION. Sec. 9. In accordance with the administrative procedure act, chapter 34.05 RCW, the director may issue rules to govern the activities of licensed mortgage brokers consistent with this chapter.

NEW SECTION. Sec. 10. NEW SECTION. Sec. 11. For the purposes of investigating complaints arising under this chapter, the director may at any time, either personally or by a designee, examine the business, including but not limited to the books, accounts, records, and files used therein, of every licensee and of every person engaged in the business of mortgage brokering, whether such a person shall act or claim to act under or without the authority of this chapter. For that purpose the director and designated representatives shall have free access to the offices and places of business, books, accounts, papers, records, files, safes, and vaults of all such persons. The director or designated person may require the attendance of and examine under oath all persons whose testimony may be required about the loans or the business or subject matter of any such investigation.

Sec. 12. RCW 19.146.030 and 1987 c 391 s 5 are each amended to read as follows:

(8) "Party state" refers to a state that has lawfully enacted this compact.

(9) "State" means each of the several states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States.

(b) Upon the request of a governor of a party state for assistance in the area of interdiction and counter-drug, and demand reduction activities, the governor of a responding state shall have authority under this compact to send without the borders of his or her state and place under the temporary operational control of the appropriate national guard or other military authorities of the requesting state, for the purposes of providing such requested assistance, all or any part of the national guard forces of his or her state as he or she may deem necessary, and the exercise of his or her discretion in this regard shall be conclusive.

(c) The governor of a party state may, within his or her discretion, withhold the national guard forces of his or her state from such use and recall any forces or part or member thereof previously deployed in a requesting state.

(d) The national guard of this state is hereby authorized to engage in interdiction and counter-drug activities and demand reduction.

(e) The adjutant general of this state, in order to further the purposes of this compact, may enter into a mutual assistance and support agreement with one or more law enforcement agencies of this state, including federal law enforcement agencies operating within this state, or with the national guard of one or more other party states to provide personnel, assets, and services in the area of interdiction and counter-drug activities and demand reduction. However, no such agreement may be entered into with a party that is specifically prohibited by law from performing activities that are the subject of the agreement.

(f) The agreement must set forth the powers, rights, and obligations of the parties to the agreement, where applicable, as follows:

(1) Its duration;

(2) The organization, composition, and nature of any separate legal entity created thereby;

(3) The purpose of the agreement;

- (4) The manner of financing the agreement and establishing and maintaining its budget;
- (5) The method to be employed in accomplishing the partial or complete termination of the agreement and for disposing of property upon such partial or complete termination;
- (6) Provision for administering the agreement, which may include creation of a joint board responsible for such administration;
- (7) The manner of acquiring, holding, and disposing of real and personal property used in this agreement, if necessary;
- (8) The minimum standards for national guard personnel implementing the provisions of this agreement;
- (9) The minimum insurance required of each party to the agreement, if necessary;
- (10) The chain of command or delegation of authority to be followed by national guard personnel acting under the provisions of the agreement;
- (11) The duties and authority that the national guard personnel of each party state may exercise; and
- (12) Any other necessary and proper matters.

Agreements prepared under the provisions of this section are exempt from any general law pertaining to intergovernmental agreements.

(g) As a condition precedent to an agreement becoming effective under this part, the agreement must be submitted to and receive the approval of the office of the attorney general of Washington. The attorney general of the state of Washington may delegate his or her approval authority to the appropriate attorney for the Washington national guard subject to those conditions which he or she decides are appropriate. The delegation must be in writing and is subject to the following:

(1) The attorney general, or his or her agent as stated above, shall approve an agreement submitted to him or her under this part unless he or she finds that it is not in proper form, does not meet the requirements set forth in this part, or otherwise does not conform to the laws of Washington. If the attorney general disapproves an agreement, he or she shall provide a written explanation to the adjutant general of the Washington national guard; and

(2) If the attorney general, or his or her authorized agent as stated above, does not disapprove an agreement within thirty days after its submission to him or her, it is considered approved by him or her.

(h) Whenever national guard forces of any party state are engaged in the performance of duties, in the area of drug interdiction, counter-drug, and demand reduction activities, pursuant to orders, they shall not be held personally liable for any acts or omissions which occur during the performance of their duty.

ARTICLE IV RESPONSIBILITIES

(a) Nothing in this compact shall be construed as a waiver of any benefits, privileges, immunities, or rights otherwise provided for national guard personnel performing duty pursuant to Title 32 of the United States Code nor shall anything in this compact be construed as a waiver of coverage provided for under the Federal Tort Claims Act. In the event that national guard personnel performing counter-drug activities do not receive rights, benefits, privileges, and immunities otherwise provided for national guard personnel as stated above, the following provisions shall apply:

(1) Whenever national guard forces of any responding state are engaged in another state in carrying out the purposes of this compact, the members thereof so engaged shall have the same powers, duties, rights, privileges, and immunities as members of national guard forces of the requesting state. The requesting state shall save and hold members of the national guard forces of responding states harmless from civil liability, except as otherwise provided herein, for acts or omissions that occur in the performance of their duty while engaged in carrying out the purposes of this compact, whether responding forces are serving the requesting state within the borders of the responding state or are attached to the requesting state for purposes of operational control.

(2) Subject to the provisions of paragraphs (3), (4), and (5) of this Article, all liability that may arise under the laws of the requesting state or the responding states, on account of or in connection with a request for assistance or support, shall be assumed and borne by the requesting state.

(3) Any responding state rendering aid or assistance pursuant to this compact shall be reimbursed by the requesting state for any loss or damage to, or expense incurred in the operation of, any equipment answering a request for aid, and for the cost of the materials, transportation, and maintenance of national guard personnel and equipment incurred in connection with such request, provided that nothing herein contained shall prevent any responding state from assuming such loss, damage, expense, or other cost.

(4) Unless there is a written agreement to the contrary, each party state shall provide, in the same amounts and manner as if they were on duty within their state, for pay and allowances of the personnel of its national guard units while engaged without the state pursuant to this compact and while going to and returning from such duty pursuant to this compact.

(5) Each party state providing for the payment of compensation and death benefits to injured members and the representatives of deceased members of its national guard forces in case such members sustain injuries or are killed within their own state shall provide for the payment of compensation and death benefits in the same manner and on the same terms in the event such members sustain injury or are killed while rendering assistance or support

pursuant to this compact. Such benefits and compensation shall be deemed items of expense reimbursable pursuant to paragraph (3) of this Article.

(b) Officers and enlisted personnel of the national guard performing duties subject to proper orders pursuant to this compact shall be subject to and governed by the provisions of their home state code of military justice whether they are performing duties within or without their home state. In the event that any national guard member commits, or is suspected of committing, a criminal offense while performing duties pursuant to this compact without his or her home state, he or she may be returned immediately to his or her home state and said home state shall be responsible for any disciplinary action to be taken. However, nothing in this section shall abrogate the general criminal jurisdiction of the state in which the offense occurred.

ARTICLE V DELEGATION

Nothing in this compact shall be construed to prevent the governor of a party state from delegating any of his or her responsibilities or authority respecting the national guard, provided that such delegation is otherwise in accordance with law. For purposes of this compact, however, the governor shall not delegate the power to request assistance from another state.

ARTICLE VI LIMITATIONS

Nothing in this compact shall:

(a) Authorize or permit national guard units or personnel to be placed under the operational control of any person not having the national guard rank or status required by law for the command in question.

(b) Deprive a properly convened court of jurisdiction over an offense or a defendant merely because of the fact that the national guard, while performing duties pursuant to this compact, was utilized in achieving an arrest or indictment.

ARTICLE VII CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of the United States or of any state or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters."

SENATE AMENDMENTS TO HOUSE BILL

March 27, 1993

Mr. Speaker:

The Senate has passed HOUSE JOINT MEMORIAL NO. 4013 with the following amendments:
On page 1, after line 7, strike the remainder of the joint memorial and insert the following:

"WHEREAS, The Washington State House of Representatives and Senate recognize that the permanent loss of jobs in natural resource-based industries has gravely and irreversibly impacted the coastal economies of Pacific and Grays Harbor counties and parts of Jefferson and Clallam counties; and

WHEREAS, The loss of timber-related jobs has created a further erosion of jobs in coastal communities which presently do not have alternative employment opportunities; and

WHEREAS, Hard-working families are losing their homes, automobiles, and other possessions and are going without adequate food, critically needed medical care, educational, and social services previously earned with wages from their jobs; and

WHEREAS, The loss of sales tax, property tax, and other local revenues by local coastal communities resulting from the devastating economic dislocation is accompanied by a heavy additional burden placed on public services provided by local police, prosecutors, public health, and social service providers that manifestly precludes local government from financing an economic recovery program; and

WHEREAS, In 1991 the federal government received an estimated one hundred forty-three million dollars in general tax revenue, exclusive of social security and unemployment insurance taxes, from Pacific and Grays Harbor counties; and

WHEREAS, In 1991 the State of Washington received an estimated seventy-seven million dollars in general fund taxes from the two-county area; and

WHEREAS, Implementation of the Coastal Economic Recovery Plan will provide jobs and improve the coastal economy so that at the end of ten years the federal government tax revenues will increase from one hundred forty-three million dollars a year to two hundred five million dollars and the Washington State general fund revenues will increase from seventy-seven million dollars a year to one hundred thirteen million dollars over the ten-year period; and

WHEREAS, The millions of dollars monthly spent by the federal and state government for public assistance, unemployment compensation, medical assistance, food, retraining, and other social service programs can be sharply reduced through implementation of the coastal economy which emphasizes tourism, outdoor recreation, and commercial and sports fishing;

NOW, THEREFORE, Your Memorialists respectfully pray that the federal government invest, along with the State of Washington, in a Coastal Economic Recovery Plan by funding the following elements of the plan:

(1) Habitat restoration jobs, including Olympic peninsula, Grays Harbor and Willapa Bay drainages. The primary beneficiaries of the work will be wild stocks of salmon: Fifty million dollars;

(2) Federal share of new coastal hatcheries including wild stock supplementation facilities: Seventeen million five hundred thousand dollars;

(3) Federal share of coastal tourism infrastructure facilities: Twelve million dollars;

(4) Federal funding of educational facilities at Grays Harbor College for Dislocated Timber Workers: Five million dollars; and

(5) Federal share of coastal transportation facilities for tourism and outdoor recreation: Ten million dollars.

BE IT RESOLVED, That copies of this Memorial be immediately transmitted to the Honorable Bill Clinton, President of the United States, the President of the Senate, the Speaker of the House of Representatives, and each member of Congress from the State of Washington."

and the same is herewith transmitted.

2SSB 5304 Prime Sponsor, Committee on Ways & Means: Reforming health care cost control and access. As Reported by Committee on Health Care.

MAJORITY Recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 5. FINDINGS. The legislature finds that our health and financial security are jeopardized by our ever increasing demand for medical care and by current medical insurance and medical system practices. Current medical system practices encourage public demand for unneeded, ineffective, and sometimes dangerous medical treatments. These practices often result in unaffordable cost increases that far exceed ordinary inflation for essential care. Current total medical and health care expenditure rates should be sufficient to provide access to essential health and medical care interventions to all within a reformed, efficient system.

The legislature finds that too many of our state's residents are without medical insurance, that each year many individuals and families are forced into poverty because of serious illness, and that many must leave gainful employment to be eligible for publicly funded medical services. Additionally, thousands of citizens are at risk of losing adequate medical insurance, have had insurance canceled recently, or cannot afford to renew existing coverage.

The legislature finds that businesses find it difficult to pay for medical insurance and remain competitive in a global economy, and that individuals, the poor, and small businesses bear an inequitable medical insurance burden.

The legislature finds that persons of color have significantly higher rates of mortality, poor health outcomes, and substantially lower numbers and percentages of persons covered by health insurance than general population. It is intended that chapter . . . , Laws of 1993 (this act) make provisions to address the special health care needs of these racial and ethnic populations in order to improve their health status.

The legislature finds that uncontrolled demand and expenditures for medical care are eroding the ability of families, businesses, communities, and governments to invest in other enterprises that promote health, maintain independence, and ensure continued economic welfare. Housing, nutrition, education, and the environment are all diminished as we invest ever increasing shares of wealth in medical treatments.

The legislature finds that while immediate steps must be taken, a long-term plan of reform is also needed.

NEW SECTION. Sec. 6. LEGISLATIVE INTENT AND GOALS. (1) The legislature intends that state government policy stabilize health services costs, assure access to essential services for all residents, actively address the health care needs of persons of color, improve the public's health, and reduce unwarranted health services costs to preserve the viability of nonmedical care businesses.

(2) The legislature intends that:

(a) Total health services costs be stabilized and kept within rates of increase similar to the rates of general economic inflation within a publicly regulated, private marketplace that preserves personal choice;

(b) State residents be enrolled in the certified health plan of their choice that meets state standards regarding affordability, accessibility, cost-effectiveness, and clinically efficacious;

(c) State residents be able to choose health services from the full range of health care providers, as defined in section 402(12) of this act, in a manner consistent with good health service management, quality assurance, and cost effectiveness;

(d) Individuals and businesses have the option to purchase any health or medical services they may choose in addition to those contained in the uniform benefits package;

(e) All state residents, businesses, employees, and government participate in payment for health services, with total costs to individuals on a sliding scale based on income to encourage efficient and appropriate utilization of services and to protect individuals from impoverishment because of health care costs;

(f) These goals be accomplished within a reformed system using private service providers and facilities in a way that allows consumers to choose among competing plans operating within budget limits and other regulations that promote the public good; and

(g) That a policy of facilitating communication and networking in the delivery, purchase, and provision of health services among the federal, state, local, and tribal governments be encouraged and accomplished by chapter . . . , Laws of 1993 (this act).

(3) Accordingly, the legislature intends that chapter . . . , Laws of 1993 (this act) provide both early implementation measures and a process for overall reform of the health services system.

PART II. EARLY IMPLEMENTATION MEASURES

A. BASIC HEALTH PLAN EXPANSION

NEW SECTION. Sec. 201. A new section is added to chapter 70.47 RCW to read as follows:
TRANSFER OF POWER AND DUTIES TO WASHINGTON STATE HEALTH CARE AUTHORITY. The powers, duties, and functions of the Washington basic health plan are hereby transferred to the Washington state health care authority. All references to the administrator of the Washington basic health plan in the Revised Code of Washington shall be construed to mean the administrator of the Washington state health care authority.

NEW SECTION. Sec. 202. **TRANSFER OF RECORDS, EQUIPMENT, FUNDS.** All reports, documents, surveys, books, records, files, papers, or written material in the possession of the Washington basic health plan shall be delivered to the custody of the Washington state health care authority. All cabinets, furniture, office equipment, motor vehicles, and other tangible property used by the Washington basic health plan shall be made available to the Washington state health care authority. All funds, credits, or other assets held by the Washington basic health plan shall be assigned to the Washington state health care authority.

Any appropriations made to the Washington basic health plan shall, on the effective date of this section, be transferred and credited to the Washington state health care authority. At no time may those funds in the basic health plan trust account, any funds appropriated for the subsidy of any enrollees, or any premium payments or other sums made or received on behalf of any enrollees in the basic health plan be commingled with any appropriated funds designated or intended for the purposes of providing health care coverage to any state or other public employees.

Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

NEW SECTION. Sec. 203. **TRANSFER OF EMPLOYEES.** All employees of the Washington basic health plan are transferred to the jurisdiction of the Washington state health care authority. All employees classified under chapter 41.06 RCW, the state civil service law, are assigned to the Washington state health care authority to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service.

NEW SECTION. Sec. 204. **RULES AND BUSINESS.** All rules and all pending business before the Washington basic health plan shall be continued and acted upon by the Washington state health care authority. All existing contracts and obligations shall remain in full force and shall be performed by the Washington state health care authority.

NEW SECTION. Sec. 205. **VALIDITY OF PRIOR ACTS.** The transfer of the powers, duties, functions, and personnel of the Washington basic health plan shall not affect the validity of any act performed prior to the effective date of this section.

NEW SECTION. Sec. 206. **APPORTIONMENT OF BUDGETED FUNDS.** If apportionments of budgeted funds are required because of the transfers directed by sections 201 through 205 of this act, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

NEW SECTION. Sec. 207. **COLLECTIVE BARGAINING.** Nothing contained in sections 201 through 206 of this act may be construed to alter any existing collective bargaining unit or the provisions of any existing collective bargaining agreement until the agreement has expired or until the bargaining unit has been modified by action of the personnel board as provided by law.

Sec. 208. RCW 70.47.010 and 1987 1st ex.s. c 5 s 3 are each amended to read as follows:
BASIC HEALTH PLAN--FINDINGS. (1) The legislature finds that:
(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services;

(b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health care providers, health care facilities, and all purchasers of health care, including the state; and

(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income pregnant women (~~((who are an especially vulnerable population, along with their children))~~), and at-risk children and adolescents who need greater access to managed health care.

(2) The purpose of this chapter is to provide or make more readily available necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents (~~((under sixty five years of age))~~) not (~~((otherwise))~~) eligible for medicare (~~((with gross family income at or below two hundred percent of the federal poverty guidelines))~~) or medical assistance who share in a portion of the cost or who pay the full cost of receiving basic health care services from a managed health care system.

(3) It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. However, the legislature recognizes that cost-effective and affordable health plans may not always be available to small business employers. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(4) (~~((The program authorized under this chapter is strictly limited in respect to the total number of individuals who may be allowed to participate and the specific areas within the state where it may be established. All such restrictions or limitations shall remain in full force and effect until quantifiable evidence based upon the actual operation of the program, including detailed cost benefit analysis, has been presented to the legislature and the legislature, by specific act at that time, may then modify such limitations.))~~)

(a) It is the purpose of this chapter to acknowledge the initial success of this program that has (i) assisted thousands of families in their search for affordable health care; (ii) demonstrated that low-income, uninsured families are willing to pay for their own health care coverage to the extent of their ability to pay; and (iii) proved that local health care providers are willing to enter into a public-private partnership as a managed care system.

(b) As a consequence, the legislature intends to extend an option to enroll to certain citizens above two hundred percent of the federal poverty guidelines within the state who reside in communities where the plan is operational and who collectively or individually wish to exercise the opportunity to purchase health care coverage through the basic health plan if the purchase is done at no cost to the state. It is also the intent of the legislature to allow employers and other financial sponsors to financially assist such individuals to purchase health care through the program. It is also the intent of the legislature to condition access to this plan for nonsubsidized enrollees upon the prior placement of subsidized enrollees, to the extent funding is available.

(c) The legislature directs that the basic health plan administrator identify enrollees who are likely to be eligible for medical assistance and assist these individuals in applying for and receiving medical assistance. The administrator and the department of social and health services shall implement a seamless system to coordinate eligibility determinations and benefit coverage for enrollees of the basic health plan and medical assistance recipients.

Sec. 209. RCW 70.47.020 and 1987 1st ex.s. c 5 s 4 are each amended to read as follows:

BASIC HEALTH PLAN--DEFINITIONS. As used in this chapter:

(1) "Washington basic health plan" or "plan" means the system of enrollment and payment on a prepaid capitated basis for basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter.

(2) "Administrator" means the Washington basic health plan administrator, who also holds the position of administrator of the Washington state health care authority.

(3) "Managed health care system" means any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, or any combination thereof, that provides directly or by contract basic health care services, as defined by the administrator and rendered by duly licensed providers, on a prepaid capitated basis to a defined patient population enrolled in the plan and in the managed health care system. On and after July 1, 1997, "managed health care system" means a certified health plan, as defined in section 402 of this act.

(4) "Subsidized enrollee" means an individual, or an individual plus the individual's spouse ~~((and/or))~~ or dependent children, ~~((all under the age of sixty five and))~~ not ~~((otherwise))~~ eligible for medicare or medical assistance, who resides in an area of the state served by a managed health care system participating in the plan, whose gross family income at the time of enrollment does not exceed twice the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services, who chooses to obtain basic health care coverage from a particular managed health care system in return for periodic payments to the plan.

(5) "Nonsubsidized enrollee" means an individual, or an individual plus the individual's spouse or dependent children, not eligible for medicare, who resides in an area of the state served by a managed health care system participating in the plan, who chooses to obtain basic health care coverage from a particular managed health care system and who pays or on whose behalf is paid the full costs for participation in the plan, without any subsidy from the plan.

(6) "Subsidy" means the difference between the amount of periodic payment the administrator makes ~~((, from funds appropriated from the basic health plan trust account,))~~ to a managed health care system on behalf of ~~((an))~~ a subsidized enrollee plus the administrative cost to the plan of providing the plan to that subsidized enrollee, and the amount determined to be the subsidized enrollee's responsibility under RCW 70.47.060(2).

~~((6))~~ (7) "Premium" means a periodic payment, based upon gross family income ~~((and determined under RCW 70.47.060(2),))~~ which an ~~((enrollee))~~ individual, their employer or another financial sponsor makes to the plan as consideration for enrollment in the plan as a subsidized enrollee or a nonsubsidized enrollee.

~~((7))~~ (8) "Rate" means the per capita amount, negotiated by the administrator with and paid to a participating managed health care system, that is based upon the enrollment of subsidized and nonsubsidized enrollees in the plan and in that system.

Sec. 210. RCW 70.47.030 and 1992 c 232 s 907 are each amended to read as follows:

ACCOUNTS. (1) The basic health plan trust account is hereby established in the state treasury. ~~((All))~~ Any nongeneral fund-state funds collected for this program shall be deposited in the basic health plan trust account and may be expended without further appropriation. Moneys in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of enrollees in the plan and payment of costs of administering the plan. ~~((After July 1, 1993, the administrator shall not expend or encumber for an ensuing fiscal period amounts exceeding ninety-five percent of the amount anticipated to be spent for purchased services during the fiscal year.))~~

(2) The basic health plan subscription account is created in the custody of the state treasurer. All receipts from amounts due from or on behalf of nonsubsidized enrollees shall be deposited into the account. Funds in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of nonsubsidized enrollees in the plan and payment of costs of administering the plan. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

(3) The administrator shall take every precaution to see that none of the funds in the separate accounts created in this section or that any premiums paid either by subsidized or nonsubsidized enrollees are commingled in any way, except that the administrator may combine funds designated for administration of the plan into a single administrative account.

Sec. 211. RCW 70.47.040 and 1987 1st ex.s. c 5 s 6 are each amended to read as follows:

BASIC HEALTH PLAN--PROGRAM WITHIN STATE HEALTH CARE AUTHORITY. (1) The Washington basic health plan is created as ~~((an independent agency of the state))~~ a program within the Washington state health care authority. The administrative head and appointing authority of the plan shall be the administrator ~~((who shall be appointed by the governor, with the consent of the senate, and shall serve at the pleasure of the governor. The salary for this office shall be set by the governor pursuant to RCW 43.03.040))~~ of the Washington state health care authority. The administrator shall appoint a medical director. The ~~((administrator,))~~ medical director ~~((,))~~ and up to five other employees of the plan shall be exempt from the civil service law, chapter 41.06 RCW.

(2) The administrator shall employ such other staff as are necessary to fulfill the responsibilities and duties of the administrator, such staff to be subject to the civil service law, chapter 41.06 RCW. In addition, the administrator may contract with third parties for services necessary to carry out its activities where this will promote economy, avoid duplication of effort, and make best use of available expertise. Any such contractor or consultant shall be prohibited from releasing, publishing, or otherwise using any information made available to it under its

contractual responsibility without specific permission of the plan. The administrator may call upon other agencies of the state to provide available information as necessary to assist the administrator in meeting its responsibilities under this chapter, which information shall be supplied as promptly as circumstances permit.

(3) The administrator may appoint such technical or advisory committees as he or she deems necessary. The administrator shall appoint a standing technical advisory committee that is representative of health care professionals, health care providers, and those directly involved in the purchase, provision, or delivery of health care services, as well as consumers and those knowledgeable of the ethical issues involved with health care public policy. Individuals appointed to any technical or other advisory committee shall serve without compensation for their services as members, but may be reimbursed for their travel expenses pursuant to RCW 43.03.050 and 43.03.060.

(4) The administrator may apply for, receive, and accept grants, gifts, and other payments, including property and service, from any governmental or other public or private entity or person, and may make arrangements as to the use of these receipts, including the undertaking of special studies and other projects relating to health care costs and access to health care.

(5) ~~((In the design, organization, and administration of the plan under this chapter, the administrator shall consider the report of the Washington health care project commission established under chapter 303, Laws of 1986. Nothing in this chapter requires the administrator to follow any specific recommendation contained in that report except as it may also be included in this chapter or other law))~~ Whenever feasible, the administrator shall reduce the administrative cost of operating the program by adopting joint policies or procedures applicable to both the basic health plan and employee health plans.

Sec. 212. RCW 70.47.060 and 1992 c 232 s 908 are each amended to read as follows:

ADMINISTRATOR'S POWERS AND DUTIES. The administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, prescription drugs and medications, and other services that may be necessary for basic health care, which subsidized and nonsubsidized enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care and shall include all services necessary for prenatal, postnatal, and well-child care. However, ~~((for the period ending June 30, 1993,))~~ with respect to coverage for groups of subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for ~~((prenatal or postnatal))~~ such services ~~((that are provided under the medical assistance program under chapter 74.09 RCW))~~ except to the extent that such services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider ~~((, or except to provide any such services associated with pregnancies diagnosed by the managed care provider before July 1, 1992))~~. The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate. On or after July 1, 1995, the uniform benefits package adopted and from time to time revised by the Washington health services commission pursuant to section 448 of this act shall be implemented by the administrator as the schedule of covered basic health care services. However, with respect to coverage for subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that the services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider.

(2)(a) To design and implement a structure of periodic premiums due the administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size ~~((as well as))~~ and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The structure of periodic premiums shall be applied to subsidized enrollees entering the plan as individuals pursuant to subsection (9) of this section and to the share of the cost of the plan due from subsidized enrollees entering the plan as employees pursuant to subsection (10) of this section.

(b) To determine the periodic premiums due the administrator from nonsubsidized enrollees. Premiums due from nonsubsidized enrollees shall be in an amount equal to the cost charged by the managed health care system

provider to the state for the plan plus the administrative cost of providing the plan to those enrollees and the appropriate premium tax as provided by law.

(c) An employer or other financial sponsor may, with the prior approval of the administrator, pay the premium, rate, or any other amount on behalf of a subsidized or nonsubsidized enrollee, by arrangement with the enrollee and through a mechanism acceptable to the administrator, but in no case shall the payment made on behalf of the enrollee exceed ninety-five percent of the total premiums due from the enrollee.

(d) On or after July 1, 1995, the administrator shall comply with any schedule of premiums that may be adopted by the Washington health services commission.

(3) To design and implement a structure of ((nominal)) copayments due a managed health care system from subsidized and nonsubsidized enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services. On or after July 1, 1995, the administrator shall comply with schedules of enrollee point of service cost-sharing adopted by the Washington health services commission.

(4) ((To design and implement, in concert with a sufficient number of potential providers in a discrete area, an enrollee financial participation structure, separate from that otherwise established under this chapter, that has the following characteristics:

(a) Nominal premiums that are based upon ability to pay, but not set at a level that would discourage enrollment;

(b) A modified fee-for-services payment schedule for providers;

(c) Coinsurance rates that are established based on specific service and procedure costs and the enrollee's ability to pay for the care. However, coinsurance rates for families with incomes below one hundred twenty percent of the federal poverty level shall be nominal. No coinsurance shall be required for specific proven prevention programs, such as prenatal care. The coinsurance rate levels shall not have a measurable negative effect upon the enrollee's health status; and

(d) A case management system that fosters a provider-enrollee relationship whereby, in an effort to control cost, maintain or improve the health status of the enrollee, and maximize patient involvement in her or his health care decision-making process, every effort is made by the provider to inform the enrollee of the cost of the specific services and procedures and related health benefits.

The potential financial liability of the plan to any such providers shall not exceed in the aggregate an amount greater than that which might otherwise have been incurred by the plan on the basis of the number of enrollees multiplied by the average of the prepaid capitated rates negotiated with participating managed health care systems under RCW 70.47.100 and reduced by any sums charged enrollees on the basis of the coinsurance rates that are established under this subsection.

(5)) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(5) To limit the payment of subsidies to subsidized enrollees, as defined in RCW 70.47.020.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080 or any act appropriating funds for the plan.

((In the selection of any area of the state for the initial operation of the plan, the administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state's population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

Before July 1, 1988, the administrator shall endeavor to secure participation contracts with managed health care systems in discrete geographic areas within at least five congressional districts.))

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state. Contracts with participating managed health care systems shall ensure that basic health plan enrollees who become eligible for medicaid, may, at their option, continue

to receive services from their existing providers within the managed health care system if such providers have entered into provider agreements with the department of social and health services.

(8) To receive periodic premiums from or on behalf of subsidized and nonsubsidized enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan as subsidized or nonsubsidized enrollees, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and at least ~~((annually))~~ semiannually thereafter, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. ~~((An enrollee who remains current in payment of the sliding scale premium, as determined under subsection (2) of this section, and whose gross family income has risen above twice the federal poverty level, may continue enrollment unless and until the enrollee's gross family income has remained above twice the poverty level for six consecutive months, by making payment at the unsubsidized rate required for the managed health care system in which he or she may be enrolled.))~~ No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If, as a result of an eligibility review, the administrator determines that a subsidized enrollee's income exceeds twice the federal poverty level and that the enrollee knowingly failed to inform the plan of such increase in income, the administrator may bill the enrollee for the subsidy paid on the enrollee's behalf during the period of time that the enrollee's income exceeded twice the federal poverty level. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to re-enroll in the plan.

(10) To accept applications from small business owners on behalf of themselves and their employees, spouses, and dependent children, as subsidized or nonsubsidized enrollees, who reside in an area served by the plan. The administrator may require all or the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The administrator shall require that a small business owner pay at least fifty percent but not more than ninety-five percent of the nonsubsidized premium cost of the plan on behalf of each employee enrolled in the plan. Effective on or after July 1, 1997, the employer participation levels established by the health services commission pursuant to section 455 of this act shall govern employer participation levels under this section. For the purposes of this subsection, an employee means an individual who regularly works for the small business for at least twenty hours per week. The businesses may have no more than one hundred employees at the time of initial enrollment and enrollment is limited to those not eligible for medicare or medical assistance, who wish to enroll in the plan and choose to obtain the basic health care coverage and services from a managed care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes.

(11) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the administrator finds relevant.

~~((41))~~ (12) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and to the ~~((administrator))~~ plan. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

~~((12) To monitor the access that state residents have to adequate and necessary health care services, determine the extent of any unmet needs for such services or lack of access that may exist from time to time, and make such reports and recommendations to the legislature as the administrator deems appropriate.))~~

(13) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(14) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(15) ~~((To provide, consistent with available resources, technical assistance for rural health activities that endeavor to develop needed health care services in rural parts of the state))~~ To endeavor to expand enrollment as much as possible to correspond to the proportion of persons of color in the community served using the best available data that estimates representation of persons of color and describe these efforts in its annual report.

Sec. 213. RCW 70.47.080 and 1987 1st ex.s. c 5 s 10 are each amended to read as follows:

ENROLLMENT. On and after July 1, 1988, the administrator shall accept for enrollment applicants eligible to receive covered basic health care services from the respective managed health care systems which are then participating in the plan. ~~((The administrator shall not allow the total enrollment of those eligible for subsidies to exceed thirty thousand.))~~

Thereafter, total ~~((enrollment shall not exceed the number established by the legislature in any act appropriating funds to the plan.))~~

~~Before July 1, 1988, the administrator shall endeavor to secure participation contracts from managed health care systems in discrete geographic areas within at least five congressional districts of the state and in such manner as to allow residents of both urban and rural areas access to enrollment in the plan. The administrator shall make a special effort to secure agreements with health care providers in one such area that meets the requirements set forth in RCW 70.47.060(4))~~ subsidized enrollment shall not result in expenditures that exceed the total amount that has been made available by the legislature in any act appropriating funds to the plan. To the extent that new funding is appropriated for expansion, the administrator shall endeavor to secure participation contracts from managed health care systems in geographic areas of the state that are unserved by the plan at the time at which the new funding is appropriated.

The administrator shall at all times closely monitor growth patterns of enrollment so as not to exceed that consistent with the orderly development of the plan as a whole, in any area of the state or in any participating managed health care system. The annual or biennial enrollment limitations derived from operation of the plan under this section do not apply to nonsubsidized enrollees as defined in RCW 70.47.020(5).

Sec. 215. RCW 41.05.021 and 1990 c 222 s 3 are each amended to read as follows:

HEALTH CARE AUTHORITY DUTIES. (1) The Washington state health care authority is created within the executive branch. The authority shall have an administrator appointed by the governor, with the consent of the senate. The administrator shall serve at the pleasure of the governor. The administrator may employ up to seven staff members, who shall be exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter. The primary duties of the authority shall be to administer state employees' insurance benefits (~~and to~~) study state-purchased health care programs in order to maximize cost containment in these programs while ensuring access to quality health care, and implement state initiatives, joint purchasing strategies, and techniques for efficient administration that have potential application to all state-purchased health services. The authority's duties include, but are not limited to, the following:

~~((1))~~ (a) To administer a health care benefit program for employees as specifically authorized in RCW 41.05.065 and in accordance with the methods described in RCW 41.05.075, 41.05.140, and other provisions of this chapter;

The school district board of directors may require any student participating in extracurricular interschool activities to, as a condition of participation, document evidence of insurance or purchase insurance that will provide adequate coverage, as determined by the school district board of directors, for medical expenses incurred as a result of injury sustained while participating in the extracurricular activity. In establishing such a requirement, the district shall adopt regulations for waiving or reducing the premiums of such coverage as may be offered through the school district to students participating in extracurricular activities, for those students whose families, by reason of their low income, would have difficulty paying the entire amount of such insurance premiums. The district board shall adopt regulations for waiving or reducing the insurance coverage requirements for low-income students in order to assure such students are not prohibited from participating in extracurricular interschool activities.

(4) All contracts for insurance or protection written to take advantage of the provisions of this section shall provide that the beneficiaries of such contracts may utilize on an equal participation basis the services of those practitioners licensed pursuant to chapters 18.22, 18.25, 18.53, 18.57, and 18.71 RCW.

The data elements, specifications, and other ~~((design))~~ distinguishing features of this data system shall be made available for public review and comment and shall be published, with comments, as the department's first data plan by ~~((January 1, 1990))~~ July 1, 1994.

(2) Subsequent to the initial development of the data system as published as the department's first data plan, revisions to the data system shall be considered ~~((through the department's development of a biennial data plan, as proposed to,))~~ with the oversight and policy guidance of the Washington health services commission or its technical advisory committee and funded by~~((,))~~ the legislature through the biennial appropriations process with funds appropriated to the health services account. ~~((Costs of data activities outside of these data plans except for special studies shall be funded through legislative appropriations.~~

~~((3))~~ (3) In designing the state-wide ~~((hospital))~~ health care data system and any data plans, the department shall identify ~~((hospital))~~ health care data elements relating to ~~((both hospital finances))~~ health care costs, the quality of health care services, the outcomes of health care services, and ((the)) use of ((services by patients)) health care by consumers. Data elements ~~((relating to hospital finances))~~ shall be reported ~~((by hospitals))~~ as the Washington health services commission directs by reporters in conformance with a uniform ~~((system of))~~ reporting ~~((as specified by the department and shall))~~ system established by the department, which shall be adopted by reporters. "Reporter" means an individual or business entity, other than a hospital, required to be registered with the department of revenue for payment of taxes imposed under chapter 82.04 RCW or Title 48 RCW, that is primarily engaged in furnishing or insuring for medical, surgical, and other health services to persons. In the case of hospitals this includes data elements identifying each hospital's revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial information reasonably necessary to fulfill the purposes of chapter . . . , Laws of 1993 (this ((chapter)) act), for hospital activities as a whole and, as feasible and appropriate, for specified classes of hospital purchasers and payers. Data elements relating to use of hospital services by patients shall, at least initially, be the same as those currently compiled by hospitals through inpatient discharge abstracts ~~((and reported to the Washington state hospital commission))~~. The commission and the department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

~~((4))~~ (3) The state-wide ~~((hospital))~~ health care data system shall be uniform in its identification of reporting requirements for ~~((hospitals))~~ reporters across the state to the extent that such uniformity is ~~((necessary))~~ useful to fulfill the purposes of chapter . . . , Laws of 1993 (this ((chapter)) act). Data reporting requirements may reflect differences ~~((in hospital size; urban or rural location; scope, type, and method of providing service; financial structure; or other pertinent distinguishing factors))~~ that involve pertinent distinguishing features as determined by the Washington health services commission by rule. So far as ~~((possible))~~ is practical, the data system shall be coordinated with any requirements of the trauma care data registry as authorized in RCW 70.168.090, the federal department of health and human services in its administration of the medicare program, ~~((and))~~ the state in its role of gathering public health statistics, or any other payer program of consequence so as to minimize any unduly burdensome reporting requirements imposed on ~~((hospitals))~~ reporters.

~~((5))~~ (4) In identifying financial reporting requirements under the state-wide ~~((hospital))~~ health care data system, the department may require both annual reports and condensed quarterly reports from reporters, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of reporters.

~~((6))~~ In designing the initial state-wide hospital data system as published in the department's first data plan, the department shall review all existing systems of hospital financial and utilization reporting used in this state to determine their usefulness for the purposes of this chapter, including their potential usefulness as revised or simplified.

(7) Until such time as the state-wide hospital data system and first data plan are developed and implemented and hospitals are able to comply with reporting requirements, the department shall require hospitals to

continue to submit the hospital financial and patient discharge information previously required to be submitted to the Washington state hospital commission. Upon publication of the first data plan, hospitals shall have a reasonable period of time to comply with any new reporting requirements and, even in the event that new reporting requirements differ greatly from past requirements, shall comply within two years of July 1, 1989.

~~(9))~~ (5) The ~~((hospital))~~ health care data collected ~~((and))~~, maintained, and studied by the department or the Washington health services commission shall only be available for retrieval in original or processed form to public and private requestors and shall be available within a reasonable period of time after the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department which reflects the direct cost of retrieving the data or study in the requested form.

(6) All persons subject to chapter . . . , Laws of 1993 (this act) shall comply with departmental or commission requirements established by rule in the acquisition of data.

Sec. 257. RCW 70.170.110 and 1989 1st ex.s. c 9 s 511 are each amended to read as follows:

The department shall provide, or may contract with a private entity to provide, ~~((hospital))~~ analyses and reports or any studies it chooses to conduct consistent with the purposes of chapter . . . , Laws of 1993 (this ((chapter) act). Subject to the availability of funds and any policy direction that may be given by the Washington health services commission. ~~((Prior to release, the department shall provide affected hospitals with an opportunity to review and comment on reports which identify individual hospital data with respect to accuracy and completeness, and otherwise shall focus on aggregate reports of hospital performance.))~~ These studies, analyses, or reports shall include:

(1) Consumer guides on purchasing ~~((hospital care services and))~~ or consuming health care and publications providing verifiable and useful aggregate comparative information to ~~((consumers on hospitals and hospital services))~~ the public on health care services, their cost, and the quality of health care providers who participate in certified health plans;

(2) Reports for use by classes of purchasers, who purchase from certified health plans, health care payers, and providers as specified for content and format in the state-wide data system and data plan; ~~((and))~~

(3) Reports on relevant ~~((hospital))~~ health care policy ~~((issues))~~ including the distribution of hospital charity care obligations among hospitals; absolute and relative rankings of Washington and other states, regions, and the nation with respect to expenses, net revenues, and other key indicators; ~~((hospital))~~ provider efficiencies; and the effect of medicare, medicaid, and other public health care programs on rates paid by other purchasers of ~~((hospital))~~ health care; and

(4) Any other reports the commission or department deems useful to assist the public or purchasers of certified health plans in understanding the prudent and cost-effective use of certified health plan services.

NEW SECTION. Sec. 258. A new section is added to chapter 70.170 RCW to read as follows:

Notwithstanding the provisions of chapter 42.17 RCW, any material contained within the state-wide health care data system or in the files of either the department or the Washington health services commission shall be subject to the following limitations: (1) Records obtained, reviewed by, or on file that contain information concerning medical treatment of individuals shall be exempt from public inspection and copying; and (2) any actuarial formulas, statistics, and assumptions submitted by a certified health plan to the commission or department upon request shall be exempt from public inspection and copying in order to preserve trade secrets or prevent unfair competition.

All persons and any public or private agencies or entities whatsoever subject to this chapter shall comply with any requirements established by rule relating to the acquisition or use of health services data and maintain the confidentiality of any information which may, in any manner, identify individual persons.

NEW SECTION. Sec. 259. A new section is added to chapter 70.170 RCW to read as follows:

The Washington health services commission shall have access to all health data presently available to the secretary of health. To the extent possible, the commission shall use existing data systems and coordinate among existing agencies. The department of health shall be the designated depository agency for all health data collected pursuant to chapter . . . , Laws of 1993 (this act). The following data sources shall be developed or made available:

(1) The commission shall coordinate with the secretary of health to utilize data collected by the state center for health statistics, including hospital charity care and related data, rural health data, epidemiological data, ethnicity data, social and economic status data, and other data relevant to the commission's responsibilities.

(2) The commission, in coordination with the department of health and the health science programs of the state universities shall develop procedures to analyze clinical and other health services outcome data, and conduct other research necessary for the specific purpose of assisting in the design of the uniform benefit package under chapter . . . , Laws of 1993 (this act).

(3) The commission shall establish cost data sources and shall require each certified health plan to provide the commission and the department of health with enrollee care and cost information, to include, but not be limited to: (a) Enrollee identifier, including date of birth, sex, and ethnicity; (b) provider identifier; (c) diagnosis; (d) health care services or procedures provided; (e) provider charges, if any; and (f) amount paid. The department shall establish by rule confidentiality standards to safeguard the information from inappropriate use or release.

(4) The commission shall coordinate with the area Indian health service, reservation Indian health service units, tribal clinics, and any urban Indian health service organizations the design, development, implementation, and maintenance of an American Indian-specific health data, statistics information system. The commission rules regarding the confidentiality to safeguard the information from inappropriate use or release shall apply.

NEW SECTION. Sec. 260. A new section is added to chapter 70.170 RCW to read as follows:

(1) The department is responsible for the implementation and custody of a state-wide personal health services data and information system. The data elements, specifications, and other design features of this data system shall be consistent with criteria adopted by the Washington health services commission. The department shall provide the commission with reasonable assistance in the development of these criteria, and shall provide the commission with periodic progress reports related to the implementation of the system or systems related to those criteria.

(2) The department shall coordinate the development and implementation of the personal health services data and information system with related private activities and with the implementation activities of the data sources identified by the commission. Data shall include: (a) Enrollee identifier, including date of birth, sex, and ethnicity; (b) provider identifier; (c) diagnosis; (d) health services or procedures provided; (e) provider charges, if any; and (f) amount paid. The commission shall establish by rule, confidentiality standards to safeguard the information from inappropriate use or release. The department shall assist the commission in establishing reasonable time frames for the completion of the system development and system implementation.

NEW SECTION. Sec. 261. The commission shall determine, by January 1, 1995, the necessity, if any, of reporting requirements by the following health care entities: Health care providers, health care facilities, insuring entities, and certified health plans. The reporting requirements, if any, shall be for the purposes of determining whether the health care system is operating as efficiently as possible. Information reported pursuant to this section shall be made available to interested parties upon request. The commission shall report its findings to the legislature by January 1, 1995.

NEW SECTION. Sec. 262. A new section is added to chapter 70.170 RCW to read as follows:

The department shall establish in conjunction with the area Indian health services system and providers an advisory group comprised of Indian and non-Indian health care facilities and providers to formulate an American Indian health care delivery element for the health services improvement plan. The element shall include:

(1) Recommendations to providers and facilities methods for coordinating and joint venturing with the Indian health services for service delivery;

(2) Methods to improve American Indian-specific health programming; and

(3) Creation of co-funding recommendations and opportunities for the unmet health care needs of American Indians.

G. DISCLOSURE OF HOSPITAL, NURSING HOME, AND PHARMACY CHARGES

NEW SECTION. Sec. 263. A new section is added to chapter 70.41 RCW to read as follows:

(1) The legislature finds that the spiraling costs of health care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. The causes of this phenomenon are complex. By making

physicians and other health care providers with hospital admitting privileges more aware of the cost consequences of health care services for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial hospital services, with a potential for reducing the utilization of those services. The requirement of the hospital to inform physicians and other health care providers of the charges of the health care services that they order may have a positive effect on containing health costs. Further, the option of the physician or other health care provider to inform the patient of these charges may strengthen the necessary dialogue in the provider-patient relationship that tends to be diminished by intervening third-party payers.

(2) The chief executive officer of a hospital licensed under this chapter and the superintendent of a state hospital shall establish and maintain a procedure for disclosing to physicians and other health care providers with admitting privileges the charges of all health care services ordered for their patients. Copies of hospital charges shall be made available to any physician and/or other health care provider ordering care in hospital inpatient/outpatient services. The physician and/or other health care provider may inform the patient of these charges and may specifically review them. Hospitals are also directed to study methods for making daily charges available to prescribing physicians through the use of interactive software and/or computerized information thereby allowing physicians and other health care providers to review not only the costs of present and past services but also future contemplated costs for additional diagnostic studies and therapeutic medications.

NEW SECTION. Sec. 264. A new section is added to chapter 18.68 RCW to read as follows:

The legislature finds that the spiraling costs of health care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. One of the fastest growing segments of the health care expenditure involves prescription medications. By making physicians and other health care providers with prescriptive authority more aware of the cost consequences of health care treatments for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial drug and medication treatments. The requirement of the pharmacy to inform physicians and other health care providers of the charges of prescription drugs and medications that they order may have a positive effect on containing health costs. Further, the option of the physician or other health care provider to inform the patient of these charges may strengthen the necessary dialogue in the provider-patient relationship that tends to be diminished by intervening third-party payers.

NEW SECTION. Sec. 265. A new section is added to chapter 18.68 RCW to read as follows:

The registered or licensed pharmacist of this chapter shall establish and maintain a procedure for disclosing to physicians and other health care providers with prescriptive authority information detailed by prescriber, of the cost and dispensation of all prescriptive medications prescribed by him or her for his or her patients on request. These charges should be made available on at least a quarterly basis for all requested patients and should include medication, dosage, number dispensed, and the cost of the prescription. Pharmacies may provide this information in a summary form for each prescribing physician for all patients rather than as individually itemized reports. All efforts should be made to utilize the existing computerized records and software to provide this information in the least costly format.

NEW SECTION. Sec. 266. A new section is added to chapter 18.51 RCW to read as follows:

(1) The legislature finds that the spiraling costs of nursing home care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. The causes of this phenomenon are complex. By making nursing home facilities and care providers more aware of the cost consequences of care services for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial services and care, with a potential for reducing the utilization of those services. The requirement of the nursing home to inform physicians, consumers, and other care providers of the charges of the services that they order may have a positive effect on containing health costs.

(2) All nursing home administrators in facilities licensed under this chapter shall be required to develop and maintain a written procedure for disclosing patient charges to attending physicians with admitting privileges. The nursing home administrator shall have the capability to provide an itemized list of the charges for all health care services that may be ordered by a physician. The information shall be made available on request of consumers, or the physicians or other appropriate health care providers responsible for prescribing care.

NEW SECTION. Sec. 267. The department of health shall report to the legislature by December 31, 1994, with recommendations on any necessary revisions to sections 263 through 266 of this act, including their continued necessity and the appropriateness of their repeal.

H. HEALTH PROFESSIONAL SHORTAGES

NEW SECTION. Sec. 268. LEGISLATIVE INTENT. The legislature finds that the successful implementation of health care reform will depend on a sufficient supply of primary health care providers throughout the state. Many rural and medically underserved urban areas lack primary health care providers and because of this, basic health care services are limited or unavailable to populations living in these areas. The legislature has in recent years initiated new programs to address these provider shortages but funding has been insufficient and additional specific provider shortages remain.

Sec. 269. RCW 28B.125.010 and 1991 c 332 s 5 are each amended to read as follows:

(1) The higher education coordinating board, the state board for community ~~((college education))~~ and technical colleges, the superintendent of public instruction, the state department of health, the Washington health services commission, and the state department of social and health services, to be known for the purposes of this section as the committee, shall establish a state-wide health personnel resource plan. The governor shall appoint a lead agency from one of the agencies on the committee.

In preparing the state-wide plan the committee shall consult with the training and education institutions affected by this chapter, health care providers, employers of health care providers, insurers, consumers of health care, and other appropriate entities.

Should a successor agency or agencies be authorized or created by the legislature with planning, coordination, or administrative authority over vocational-technical schools, community colleges, or four-year higher education institutions, the governor shall grant membership on the committee to such agency or agencies and remove the member or members it replaces.

The committee shall appoint subcommittees for the purpose of assisting in the development of the institutional plans required under this chapter. Such subcommittees shall at least include those committee members that have statutory responsibility for planning, coordination, or administration of the training and education institutions for which the institutional plans are being developed. In preparing the institutional plans for four-year institutes of higher education, the subcommittee shall be composed of at least the higher education coordinating board and the state's four-year higher education institutions. The appointment of subcommittees to develop portions of the state-wide plan shall not relinquish the committee's responsibility for assuring overall coordination, integration, and consistency of the state-wide plan.

In establishing and implementing the state-wide health personnel resource plan the committee shall, to the extent possible, utilize existing data and information, personnel, equipment, and facilities and shall minimize travel and take such other steps necessary to reduce the administrative costs associated with the preparation and implementation of the plan.

(2) The state-wide health resource plan shall include at least the following:

(a)(i) Identification of the type, number, and location of the health care professional work force necessary to meet health care needs of the state.

(ii) A description and analysis of the composition and numbers of the potential work force available for meeting health care service needs of the population to be used for recruitment purposes. This should include a description of the data, methodology, and process used to make such determinations.

(b) A centralized inventory of the numbers of student applications to higher education and vocational-technical training and education programs, yearly enrollments, yearly degrees awarded, and numbers on waiting lists for all the state's publicly funded health care training and education programs. The committee shall request similar information for incorporation into the inventory from private higher education and vocational-technical training and education programs.

(c) A description of state-wide and local specialized provider training needs to meet the health care needs of target populations and a plan to meet such needs in a cost-effective and accessible manner.

(d) A description of how innovative, cost-effective technologies such as telecommunications can and will be used to provide higher education, vocational-technical, continued competency, and skill maintenance and

enhancement education and training to placebound students who need flexible programs and who are unable to attend institutions for training.

(e) A strategy for assuring higher education and vocational-technical educational and training programming is sensitive to the changing work force such as reentry workers, women, minorities, and the disabled.

(f) Strategies for promoting an increase in the use of persons of color in the health professions including adequate resources to train and utilize persons of color in the full spectrum of health professions, to include physicians, licensed physicians who are foreign medical graduates, nurses, administrators, planners, education, technicians, outreach workers, and dentists.

(g) A strategy that includes the incorporation of federal assistance programs for health career development with an emphasis on the national Indian health service programs targeting the American Indian population and other federal and state education and training assistance programs for the economically disadvantaged, physically challenged, and persons of color in all health professions.

~~((f))~~ (g) A strategy and coordinated state-wide policy developed by the subcommittees authorized in subsection (1) of this section for increasing the number of graduates intending to serve in shortage areas after graduation, including such strategies as the establishment of preferential admissions and designated enrollment slots.

~~((g))~~ (h) Guidelines and policies developed by the subcommittees authorized in subsection (1) of this section for allowing academic credit for on-the-job experience such as internships, volunteer experience, apprenticeships, and community service programs.

~~((h))~~ (i) A strategy developed by the subcommittees authorized in subsection (1) of this section for making required internships and residency programs available that are geographically accessible and sufficiently diverse to meet both general and specialized training needs as identified in the plan when such programs are required.

~~((i))~~ (j) A description of the need for multiskilled health care professionals and an implementation plan to restructure educational and training programming to meet these needs.

~~((j))~~ (k) An analysis of the types and estimated numbers of health care personnel that will need to be recruited from out-of-state to meet the health professional needs not met by in-state trained personnel.

~~((k))~~ (l) An analysis of the need for educational articulation within the various health care disciplines and a plan for addressing the need.

~~((l))~~ (m) An analysis of the training needs of those members of the long-term care profession that are not regulated and that have no formal training requirements. Programs to meet these needs should be developed in a cost-effective and a state-wide accessible manner that provide for the basic training needs of these individuals.

~~((m))~~ (n) A designation of the professions and geographic locations in which loan repayment and scholarships should be available based upon objective data-based forecasts of health professional shortages. A description of the criteria used to select professions and geographic locations shall be included. Designations of professions and geographic locations may be amended by the department of health when circumstances warrant as provided for in RCW 28B.115.070.

~~((n))~~ (o) A description of needed changes in regulatory laws governing the credentialing of health professionals.

~~((o))~~ (p) A description of linguistic and cultural training needs of foreign-trained health care professionals to assure safe and effective practice of their health care profession.

~~((p))~~ (q) A plan to implement the recommendations of the state-wide nursing plan authorized by RCW 74.39.040.

~~((q))~~ (r) A description of criteria and standards that institutional plans provided for in this section must address in order to meet the requirements of the state-wide health personnel resource plan, including funding requirements to implement the plans. The committee shall also when practical identify specific outcome measures to measure progress in meeting the requirements of this plan. The criteria and standards shall be established in a manner as to provide flexibility to the institutions in meeting state-wide plan requirements. The committee shall establish required submission dates for the institutional plans that permit inclusion of funding requests into the institutions budget requests to the state.

~~((r))~~ (s) A description of how the higher education coordinating board, state board for community ~~(college education)~~ and technical colleges, superintendent of public instruction, department of health, and department of social and health services coordinated in the creation and implementation of the state plan including the areas of responsibility each agency shall assume. The plan should also include a description of the steps taken to assure participation by the groups that are to be consulted with.

~~((e))~~ (t) A description of the estimated fiscal requirements for implementation of the state-wide health resource plan that include a description of cost saving activities that reduce potential costs by avoiding administrative duplication, coordinating programming activities, and other such actions to control costs.

(3) The committee may call upon other agencies of the state to provide available information to assist the committee in meeting the responsibilities under this chapter. This information shall be supplied as promptly as circumstances permit.

(4) State agencies involved in the development and implementation of the plan shall to the extent possible utilize existing personnel and financial resources in the development and implementation of the state-wide health personnel resource plan.

(5) The state-wide health personnel resource plan shall be submitted to the governor by July 1, 1992, and updated by July 1 of each even-numbered year. The governor, no later than December 1 of that year, shall approve, approve with modifications, or disapprove the state-wide health resource plan.

(6) The approved state-wide health resource plan shall be submitted to the senate and house of representatives committees on health care, higher education, and ways and means or appropriations by December 1 of each even-numbered year.

(7) Implementation of the state-wide plan shall begin by July 1, 1993.

(8) Notwithstanding subsections (5) and (7) of this section, the committee shall prepare and submit to the higher education coordinating board by June 1, 1992, the analysis necessary for the initial implementation of the health professional loan repayment and scholarship program created in chapter 28B.115 RCW.

(9) Each publicly funded two-year and four-year institute of higher education authorized under Title 28B RCW and vocational-technical institution authorized under Title 28A RCW that offers health training and education programs shall biennially prepare and submit an institutional plan to the committee. The institutional plan shall identify specific programming and activities of the institution that meet the requirements of the state-wide health professional resource plan.

The committee shall review and assess whether the institutional plans meet the requirements of the state-wide health personnel resource plan and shall prepare a report with its determination. The report shall become part of the institutional plan and shall be submitted to the governor and the legislature.

The institutional plan shall be included with the institution's biennial budget submission. The institution's budget shall identify proposed spending to meet the requirements of the institutional plan. Each vocational-technical institution, college, or university shall be responsible for implementing its institutional plan.

Sec. 270. RCW 28B.115.080 and 1991 c 332 s 21 are each amended to read as follows:

After June 1, 1992, the board, in consultation with the department and the department of social and health services, shall:

(1) Establish the annual award amount for each credentialed health care profession which shall be based upon an assessment of reasonable annual eligible expenses involved in training and education for each credentialed health care profession. The annual award amount may be established at a level less than annual eligible expenses. The annual award amount shall ~~((not be more than fifteen thousand dollars per year))~~ be established by the board for each eligible health profession. The awards shall not be paid for more than a maximum of five years per individual;

(2) Determine any scholarship awards for prospective physicians in such a manner to require the recipients declare an interest in serving in rural areas of the state of Washington. Preference for scholarships shall be given to students who reside in a rural physician shortage area or a nonshortage rural area of the state prior to admission to the eligible education and training program in medicine. Highest preference shall be given to students seeking admission who are recommended by sponsoring communities and who declare the intent of serving as a physician in a rural area. The board may require the sponsoring community located in a nonshortage rural area to financially contribute to the eligible expenses of a medical student if the student will serve in the nonshortage rural area;

(3) Establish the required service obligation for each credentialed health care profession, which shall be no less than three years or no more than five years. The required service obligation may be based upon the amount of the scholarship or loan repayment award such that higher awards involve longer service obligations on behalf of the participant;

(4) Determine eligible education and training programs for purposes of the scholarship portion of the program;

(5) Honor loan repayment and scholarship contract terms negotiated between the board and participants prior to May 21, 1991, concerning loan repayment and scholarship award amounts and service obligations authorized under chapter ~~((48.150))~~ 28B.115, 28B.104, or 70.180 RCW.

NEW SECTION. Sec. 271. A new section is added to chapter 43.70 RCW to read as follows:

MULTICULTURAL HEALTH CARE TECHNICAL ASSISTANCE PROGRAM. (1) Consistent with funds appropriated specifically for this purpose, the department shall provide matching grants to support a community-based multicultural health care technical assistance program. Its purpose shall be to promote technical assistance to community and migrant health clinics and other appropriate health care providers who serve principally the underserved and persons of color.

The technical assistance provided shall include, but is not limited to: (a) Collaborative research and data analysis on health care outcomes that disproportionately affect persons of color; (b) design and development of model health education and promotion strategies aimed at modifying unhealthy health behaviors or enhancing the use of the health care delivery system by persons of color; (c) provision of technical information and assistance on program planning and financial management; (d) administration, public policy development, and analysis in health care issues affecting people of color; and (e) enhancement and promotion of health care career opportunities for persons of color.

(2) Consistent with appropriate funds, the programs shall be available on a state-wide basis.

Sec. 272. RCW 70.185.030 and 1991 c 332 s 9 are each amended to read as follows:

(1) The department ~~((shall))~~ may, subject to funding, establish ~~((up to three))~~ community-based recruitment and retention project sites to provide financial and technical assistance to participating communities. The goal of the project is to help assure the availability of health care providers in rural and underserved urban areas of Washington state.

(2) Administrative costs necessary to implement this project shall be kept at a minimum to insure the maximum availability of funds for participants.

(3) The secretary may contract with third parties for services necessary to carry out activities to implement this chapter where this will promote economy, avoid duplication of effort, and make the best use of available expertise.

(4) The secretary may apply for, receive, and accept gifts and other payments, including property and service, from any governmental or other public or private entity or person, and may make arrangements as to the use of these receipts, including the undertaking of special studies and other projects related to the delivery of health care in rural areas.

(5) In designing and implementing the project the secretary shall coordinate the project with the Washington rural health system project as authorized under chapter 70.175 RCW to consolidate administrative duties and reduce costs.

(d) The department shall contract only with a liability insurer authorized to offer liability malpractice insurance in the state.

(2) This section and RCW 43.70.470 shall not be interpreted to require a liability insurer to provide coverage to a ~~((physician))~~ primary care provider should the insurer determine that coverage should not be offered to a physician because of past claims experience or for other appropriate reasons.

(3) The state and its employees who operate the program shall be immune from any civil or criminal action involving claims against clinics or physicians that provided health care services under this section and RCW 43.70.470. This protection of immunity shall not extend to any clinic or ~~((physician))~~ primary care provider participating in the program.

(4) The department may monitor the claims experience of retired physicians covered by liability insurers contracting with the department.

These conditions shall include, but not be limited to, the following:

(1) The participating ~~((physician))~~ primary care provider associated with the clinic shall hold a valid license to practice ~~((medicine and surgery))~~ as a physician under chapter 18.71 or 18.57 RCW, a naturopath under chapter 18.36A RCW, a physician assistant under chapter 18.71A or 18.57A RCW, or an advanced registered nurse practitioner under chapter 18.88 RCW in this state and otherwise be in conformity with current requirements for licensure as a retired ~~((physician))~~ primary care health care provider, including continuing education requirements;

(2) The participating ~~((physician))~~ primary care health care provider shall limit the scope of practice in the clinic to primary care. Primary care shall be limited to noninvasive procedures and shall not include obstetrical care, or any specialized care and treatment. Noninvasive procedures include injections, suturing of minor lacerations, and incisions of boils or superficial abscesses;

(3) The provision of liability insurance coverage shall not extend to acts outside the scope of rendering medical services pursuant to this section and RCW 43.70.460;

(4) The participating ~~((physician))~~ primary care health care provider shall limit the provision of health care services to primarily low-income persons provided that clinics may, but are not required to, provide means tests for eligibility as a condition for obtaining health care services;

(5) The participating ~~((physician))~~ primary care health care provider shall not accept compensation for providing health care services from patients served pursuant to this section and RCW 43.70.460, nor from clinics serving these patients. "Compensation" shall mean any remuneration of value to the participating ~~((physician))~~ primary care health care provider for services provided by the ~~((physician))~~ primary care health care provider, but shall not be construed to include any nominal copayments charged by the clinic, nor reimbursement of related expenses of a participating ~~((physician))~~ primary care health care provider authorized by the clinic in advance of being incurred; and

(6) The use of mediation or arbitration for resolving questions of potential liability may be used, however any mediation or arbitration agreement format shall be expressed in terms clear enough for a person with a sixth grade level of education to understand, and on a form no longer than one page in length.

NEW SECTION. Sec. 275. MEDICAL SCHOOL GRADUATES SERVING IN RURAL AND MEDICALLY UNDERSERVED AREAS OF THE STATE--LEGISLATIVE INTENT. The legislature finds that the shortage of primary care physicians practicing in rural and medically underserved areas of the state has created a severe public health and safety problem. If unaddressed, this problem is expected to worsen with health care reform since an increased demand for primary care services will only contribute further to these shortages.

The legislature further finds that the medical training program at the University of Washington is an important and well respected resource to the people of this state in the training of primary care physicians. Currently, only a small proportion of medical school graduates are Washington residents who serve as primary care practitioners in certain parts of this state.

NEW SECTION. Sec. 276. MEDICAL SCHOOL PRIMARY CARE PHYSICIAN SHORTAGE PLAN DEVELOPMENT. (1) The University of Washington shall prepare a primary care shortage plan that accomplishes the following:

(a) Identifies specific activities that the school of medicine shall pursue to increase the number of Washington residents serving as primary care physicians in rural and medically underserved areas of the state,

including establishing a goal that assures that no less than forty-five percent of medical school graduates who are Washington state residents at the time of matriculation will enter into primary care residencies in Washington state by the year 2000;

(b) Assures that the school of medicine shall establish among its highest training priorities the distribution of its primary care physician graduates from the school and associated postgraduate residency programs into rural and medically underserved areas;

(c) Establishes the goal of assuring that the annual number of graduates from the family practice residency network entering rural or medically underserved practice shall be increased by forty percent over a baseline period from 1985 through 1990 by 1995;

(d) Establishes a further goal to make operational at least two additional family practice residency programs within Washington state in geographic areas identified by the plan as underserved in family practice by 1997. The geographic areas identified by the plan as being underserved by family practice physicians shall be consistent with any such similar designations as may be made in the health personnel research plan as authorized under chapter 28B.125 RCW;

(e) Establishes, with the cooperation of existing community and migrant health clinics in rural or medically underserved areas of the state, three family practice residency training tracks. Furthermore, the primary care shortage plan shall provide that one of these training tracks shall be a joint American osteopathic association and American medical association approved training site coordinated with an accredited college of osteopathic medicine with extensive experience in training primary care physicians for the western United States. Such a proposed joint accredited training track will have at least fifty percent of its residency positions in osteopathic medicine; and

(f) Implements the plan, with the exception of the expansion of the family practice residency network, within current biennial appropriations for the University of Washington school of medicine.

(2) The plan shall be submitted to the appropriate committees of the legislature no later than December 1, 1993.

I. SHORT-TERM HEALTH INSURANCE REFORM

NEW SECTION. Sec. 277. The legislature intends that, during the transition to a fully reformed health services system, certain health insurance practices be modified to increase access to health insurance coverage for some individuals and groups. The legislature recognizes that health insurance reform will not remedy the significant lack of access to coverage in Washington state without the implementation of strong cost control measures. The authority granted to the commissioner in chapter . . . , Laws of 1993 (this act) is in addition to any authority the commissioner currently has under Title 48 RCW to regulate insurers, health care service contractors, and health maintenance organizations.

NEW SECTION. Sec. 278. A new section is added to chapter 48.18 RCW to read as follows:

Every insurer upon canceling, denying, or refusing to renew any disability policy, shall, upon written request, directly notify in writing the applicant or insured, as the case may be, of the reasons for the action by the insurer and to any person covered under a group contract. Any benefits, terms, rates, or conditions of such a contract that are restricted, excluded, modified, increased, or reduced shall, upon written request, be set forth in writing and supplied to the insured and to any person covered under a group contract. The written communications required by this section shall be phrased in simple language that is readily understandable to a person of average intelligence, education, and reading ability.

Sec. 279. RCW 48.21.200 and 1983 c 202 s 16 and 1983 c 106 s 24 are each reenacted and amended to read as follows:

(1) No individual or group disability insurance policy, health care service contract, or health maintenance agreement which provides benefits for hospital, medical, or surgical expenses shall be delivered or issued for delivery in this state (~~(after September 8, 1975)~~) which contains any provision whereby the insurer, contractor, or health maintenance organization may reduce or refuse to pay such benefits otherwise payable thereunder solely on account of the existence of similar benefits provided under any (~~(individual)~~) disability insurance policy, (~~(or under any individual)~~) health care service contract, or health maintenance agreement.

(2) No individual or group disability insurance policy, health care service contract, or health maintenance agreement providing hospital, medical or surgical expense benefits and which contains a provision for the reduction

of benefits otherwise payable or available thereunder on the basis of other existing coverages, shall provide that such reduction will operate to reduce total benefits payable below an amount equal to one hundred percent of total allowable expenses exclusive of copayments, deductibles, and other similar cost-sharing arrangements.

(3) The commissioner shall by rule establish guidelines for the application of this section, including:

(a) The procedures by which persons (~~(insured)~~) covered under such policies, contracts, and agreements are to be made aware of the existence of such a provision;

(b) The benefits which may be subject to such a provision;

(c) The effect of such a provision on the benefits provided;

(d) Establishment of the order of benefit determination; (~~(and)~~)

(e) Exceptions necessary to maintain the integrity of policies, contracts, and agreements that may require the use of particular health care facilities or providers; and

(f) Reasonable claim administration procedures to expedite claim payments and prevent duplication of payments or benefits under such a provision(~~(: PROVIDED, HOWEVER, That any group disability insurance policy which is issued as part of an employee insurance benefit program authorized by RCW 41.05.025(3) may exclude all or part of any deductible amounts from the definition of total allowable expenses for purposes of coordination of benefits within the plan and between such plan and other applicable group coverages: AND PROVIDED FURTHER, That any group disability insurance policy providing coverage for persons in this state may exclude all or part of any deductible amounts required by a group disability insurance policy from the definition of total allowable expenses for purposes of coordination of benefits between such policy and a group disability insurance policy issued as part of an employee insurance benefit program authorized by RCW 41.05.025(3).~~)

(3) ~~The provisions of this section shall apply to health care service contractor contracts and health maintenance organization agreements).~~

NEW SECTION. Sec. 280. A new section is added to chapter 48.20 RCW to read as follows:

(1) After January 1, 1994, every disability insurer issuing coverage against loss arising from medical, surgical, hospital, or emergency care coverage shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new policy to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

NEW SECTION. Sec. 281. A new section is added to chapter 48.21 RCW to read as follows:

(1) After January 1, 1994, every disability insurer issuing coverage against loss arising from medical, surgical, hospital, or emergency care coverage shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new policy to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

NEW SECTION. Sec. 282. A new section is added to chapter 48.44 RCW to read as follows:

(1) After January 1, 1994, every health care service contractor, except limited health care service contractors as defined under RCW 48.44.035, shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new contract to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

NEW SECTION. Sec. 283. A new section is added to chapter 48.46 RCW to read as follows:

(1) After January 1, 1994, every health maintenance organization shall waive any preexisting condition exclusion or limitation for persons who had similar coverage under a different policy, health care service contract, or health maintenance agreement in the three-month period immediately preceding the effective date of coverage under the new agreement to the extent that such person has satisfied a waiting period under such preceding policy, contract, or agreement; however, if the person satisfied a twelve-month waiting period under such preceding policy, contract, or agreement, the insurer shall waive any preexisting condition exclusion or limitation. The insurer need not waive a preexisting condition exclusion or limitation under the new policy for coverage not provided under such preceding policy, contract, or agreement.

(2) The commissioner may adopt rules establishing guidelines for determining when coverage is similar under new and preceding policies, contracts, and agreements and for determining when a preexisting condition waiting period has been satisfied.

(3) The commissioner in consultation with insurers, health care service contractors, and health maintenance organizations shall study the effect of preexisting condition exclusions and limitations on the cost and availability of health care coverage and shall adopt rules restricting the use of such conditions and limitations by January 1, 1994. No insurer, health care service contractor, or health maintenance organization may deny, exclude, or limit coverage for preexisting conditions for a period longer than that provided for in such rules after July 1, 1994.

Sec. 284. RCW 48.30.300 and 1975-'76 2nd ex.s. c 119 s 7 are each amended to read as follows:

Notwithstanding any provision contained in Title 48 RCW to the contrary:

(1) No person or entity engaged in the business of insurance in this state shall refuse to issue any contract of insurance or cancel or decline to renew such contract because of the sex or marital status, or the presence of any sensory, mental, or physical handicap of the insured or prospective insured. The amount of benefits payable, or any term, rate, condition, or type of coverage shall not be restricted, modified, excluded, increased or reduced on the basis of the sex or marital status, or be restricted, modified, excluded or reduced on the basis of the presence of any sensory, mental, or physical handicap of the insured or prospective insured. Subject to the provisions of subsection (2) of this section these provisions shall not prohibit fair discrimination on the basis of sex, or marital status, or the

presence of any sensory, mental, or physical handicap when bona fide statistical differences in risk or exposure have been substantiated.

(2) With respect to disability policies issued or renewed on or after July 1, 1994, that provide coverage against loss arising from medical, surgical, hospital, or emergency care services:

(a) Policies shall guarantee continuity of coverage. Such provision, which shall be included in every policy, shall provide that:

(i) The policy may be canceled or nonrenewed without the prior written approval of the commissioner only for nonpayment of premium or as permitted under RCW 48.18.090; and

(ii) The policy may be canceled or nonrenewed because of a change in the physical or mental condition or health of a covered person only with the prior written approval of the commissioner. Such approval shall be granted only when the insurer has discharged its obligation to continue coverage for such person by obtaining coverage with another insurer, health care service contractor, or health maintenance organization, which coverage is comparable in terms of premiums and benefits as defined by rule of the commissioner.

(b) It is an unfair practice for a disability insurer to modify the coverage provided or rates applying to an in-force disability insurance policy and to fail to make such modification in all such issued and outstanding policies.

(c) Subject to rules adopted by the commissioner, it is an unfair practice for a disability insurer to:

(i) Cease the sale of a policy form unless it has received prior written authorization from the commissioner and has offered all policyholders covered under such discontinued policy the opportunity to purchase comparable coverage without health screening; or

(ii) Engage in a practice that subjects policyholders to rate increases on discontinued policy forms unless such policyholders are offered the opportunity to purchase comparable coverage without health screening.

The insurer may limit an offer of comparable coverage without health screening to a period not less than thirty days from the date the offer is first made.

NEW SECTION. Sec. 285. A new section is added to chapter 48.44 RCW to read as follows:

(1) With respect to all health care service contracts issued or renewed on or after July 1, 1994, except limited health care service contracts as defined in RCW 48.44.035:

(a) Contracts shall guarantee continuity of coverage. Such provision, which shall be included in every contract, shall provide that:

(i) The contract may be canceled or nonrenewed without the prior written approval of the commissioner only for nonpayment of premiums, for violation of published policies of the contractor which have been approved by the commissioner, for persons who are entitled to become eligible for medicare benefits and fail to subscribe to a medicare supplement plan offered by the contractor, for failure of such subscriber to pay any deductible or copayment amount owed to the contractor and not the provider of health care services, for fraud, or for a material breach of the contract; and

(ii) The contract may be canceled or nonrenewed because of a change in the physical or mental condition or health of a covered person only with the prior written approval of the commissioner. Such approval shall be granted only when the contractor has discharged its obligation to continue coverage for such person by obtaining coverage with another insurer, health care service contractor, or health maintenance organization, which coverage is comparable in terms of premiums and benefits as defined by rule of the commissioner.

(b) It is an unfair practice for a contractor to modify the coverage provided or rates applying to an in-force contract and to fail to make such modification in all such issued and outstanding contracts.

(c) Subject to rules adopted by the commissioner, it is an unfair practice for a health care service contractor to:

(i) Cease the sale of a contract form unless it has received prior written authorization from the commissioner and has offered all subscribers covered under such discontinued contract the opportunity to purchase comparable coverage without health screening; or

(ii) Engage in a practice that subjects subscribers to rate increases on discontinued contract forms unless such subscribers are offered the opportunity to purchase comparable coverage without health screening.

(2) The health care service contractor may limit an offer of comparable coverage without health screening to a period not less than thirty days from the date the offer is first made.

NEW SECTION. Sec. 286. A new section is added to chapter 48.46 RCW to read as follows:

(1) With respect to all health maintenance agreements issued or renewed on or after July 1, 1994, and in addition to the restrictions and limitations contained in RCW 48.46.060(4):

(a) Agreements shall guarantee continuity of coverage. Such provision, which shall be included in every agreement, shall provide that the agreement may be canceled or nonrenewed because of a change in the physical or mental condition or health of a covered person only with the prior written approval of the commissioner. Such approval shall be granted only when the organization has discharged its obligation to continue coverage for such person by obtaining coverage with another insurer, health care service contractor, or health maintenance organization, which coverage is comparable in terms of premiums and benefits as defined by rule of the commissioner.

(b) It is an unfair practice for an organization to modify the coverage provided or rates applying to an in-force agreement and to fail to make such modification in all such issued and outstanding agreements.

(c) Subject to rules adopted by the commissioner, it is an unfair practice for a health maintenance organization to:

(i) Cease the sale of an agreement form unless it has received prior written authorization from the commissioner and has offered all enrollees covered under such discontinued agreement the opportunity to purchase comparable coverage without health screening; or

(ii) Engage in a practice that subjects enrollees to rate increases on discontinued agreement forms unless such enrollees are offered the opportunity to purchase comparable coverage without health screening.

(2) The health maintenance organization may limit an offer of comparable coverage without health screening to a period not less than thirty days from the date the offer is first made.

Sec. 287. RCW 48.44.260 and 1979 c 133 s 3 are each amended to read as follows:

Every authorized health care service contractor, upon canceling, denying, or refusing to renew any individual health care service contract, shall, upon written request, directly notify in writing the applicant or ~~((insured))~~ subscriber, as the case may be, of the reasons for the action by the health care service contractor. Any benefits, terms, rates, or conditions of such a contract which are restricted, excluded, modified, increased, or reduced ~~((because of the presence of a sensory, mental, or physical handicap))~~ shall, upon written request, be set forth in writing and supplied to the ~~((insured))~~ subscriber. The written communications required by this section shall be phrased in simple language which is readily understandable to a person of average intelligence, education, and reading ability.

Sec. 288. RCW 48.46.380 and 1983 c 106 s 16 are each amended to read as follows:

Every authorized health maintenance organization, upon canceling, denying, or refusing to renew any individual health maintenance agreement, shall, upon written request, directly notify in writing the applicant or enrolled participant as appropriate, of the reasons for the action by the health maintenance organization. Any benefits, terms, rates, or conditions of such agreement which are restricted, excluded, modified, increased, or reduced ~~((because of the presence of a sensory, mental, or physical handicap))~~ shall, upon written request, be set forth in writing and supplied to the individual. The written communications required by this section shall be phrased in simple language which is readily understandable to a person of average intelligence, education, and reading ability.

PART III. TAXES AND APPROPRIATIONS

Sec. 301. RCW 82.24.020 and 1989 c 271 s 504 are each amended to read as follows:

(1) There is levied and there shall be collected as hereinafter provided, a tax upon the sale, use, consumption, handling, possession or distribution of all cigarettes, in an amount equal to the rate of eleven and one-half mills per cigarette.

(2) Until July 1, 1995, an additional tax is imposed upon the sale, use, consumption, handling, possession, or distribution of all cigarettes, in an amount equal to the rate of one and one-half mills per cigarette. All revenues collected during any month from this additional tax shall be deposited in the drug enforcement and education account under RCW 69.50.520 by the twenty-fifth day of the following month.

(3) An additional tax is imposed upon the sale, use, consumption, handling, possession, or distribution of all cigarettes, in an amount equal to the rate of ten mills per cigarette through June 30, 1994, eleven and one-fourth mills per cigarette for the period July 1, 1994, through June 30, 1995, twenty mills per cigarette for the period July 1, 1995, through June 30, 1996, and twenty and one-half mills per cigarette thereafter. All revenues collected during any month from this additional tax shall be deposited in the health services account created under section 459 of this act.

(4) Wholesalers and retailers subject to the payment of this tax may, if they wish, absorb one-half mill per cigarette of the tax and not pass it on to purchasers without being in violation of this section or any other act relating to the sale or taxation of cigarettes.

~~((4))~~ (5) For purposes of this chapter, "possession" shall mean both (a) physical possession by the purchaser and, (b) when cigarettes are being transported to or held for the purchaser or his or her designee by a person other than the purchaser, constructive possession by the purchaser or his designee, which constructive possession shall be deemed to occur at the location of the cigarettes being so transported or held.

Sec. 302. RCW 82.24.080 and 1972 ex.s. c 157 s 4 are each amended to read as follows:

It is the intent and purpose of this chapter to levy a tax on all of the articles taxed herein, sold, used, consumed, handled, possessed, or distributed within this state and to collect the tax from the person who first sells, uses, consumes, handles, possesses (either physically or constructively, in accordance with RCW 82.24.020) or distributes them in the state. It is further the intent and purpose of this chapter that whenever any of the articles herein taxed is given away for advertising or any other purpose, it shall be taxed in the same manner as if it were sold, used, consumed, handled, possessed, or distributed in this state.

It is also the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event occurring within this state: PROVIDED, HOWEVER, That failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event.

In the event of an increase in the rate of the tax imposed under this chapter, it is the intent of the legislature that the first person who sells, uses, consumes, handles, possesses, or distributes previously taxed articles after the effective date of the rate increase shall be liable for the additional tax represented by the rate increase, but the failure to pay the additional tax with respect to the first taxable event after the effective date of a rate increase shall not prevent tax liability for the additional tax from arising from a subsequent taxable event.

Sec. 303. RCW 82.26.020 and 1983 2nd ex.s. c 3 s 16 are each amended to read as follows:

(1) There is created an agency of state government to be known as the Washington health services commission. The commission shall consist of five members reflecting ethnic and racial diversity, appointed by the governor, with the consent of the senate. One member shall be designated by the governor as chair and shall serve at the pleasure of the governor. The insurance commissioner, or his or her designee, shall serve as a nonvoting member. Of the initial members, one shall be appointed to a term of three years, one shall be appointed to a term of four years, and one shall be appointed to a term of five years. Thereafter, members shall be appointed to five-year terms. Vacancies shall be filled by appointment for the remainder of the unexpired term of the position being vacated.

(2) Members of the commission shall have no pecuniary interest in any business subject to regulation by the commission and shall be subject to chapter 42.18 RCW, the executive branch conflict of interest act.

(3) Members of the commission shall occupy their positions on a full-time basis and are exempt from the provisions of chapter 41.06 RCW. Commission members and the professional commission staff are subject to the public disclosure provisions of chapter 42.17 RCW. Members shall be paid a salary to be fixed by the governor in accordance with RCW 43.03.040. A majority of the members of the commission constitutes a quorum for the conduct of business.

NEW SECTION. Sec. 404. STAKEHOLDERS' COMMITTEE. (1)(a) In an effort to ensure effective participation in the commission's deliberations, the chair shall appoint a stakeholders' committee with a balanced representation of members representing consumers, business, government, labor, insurers, health care providers, health care service contractors, health maintenance organizations, and persons of color. The chair may also appoint ad hoc and special committees for a specified time period.

(b) The chair shall also appoint health services effectiveness panels for specified periods of time to provide technical guidance related to appropriate and effective health services, use of technology and practice guidelines, and development of the uniform benefits package. Panels should include technical experts, such as general practitioners, specialty physicians or providers, health service researchers, health ethicists, epidemiologists, and public health experts who reflect the state's ethnic and cultural diversity.

(c) The commission shall also appoint a small business advisory committee composed of seven small business owners to assist the commission in development of the small business economic impact statement, as provided in section 448(7) of this act.

(2) Members of committees and panels shall serve without compensation for their services but shall be reimbursed for their expenses while attending meetings on behalf of the commission in accordance with RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 405. POWERS AND DUTIES OF THE CHAIR. The chair shall be the chief administrative officer and the appointing authority of the commission and has the following powers and duties:

(1) Direct and supervise the commission's administrative and technical activities in accordance with the provisions of this chapter and rules and policies adopted by the commission;

(2) Employ personnel of the commission, representative of ethnic diversity, in accordance with chapter 41.06 RCW, and prescribe their duties. With the approval of a majority of the commission, the chair may appoint persons to administer any entity established pursuant to subsection (8) of this section, and up to seven additional employees all of whom shall be exempt from the provisions of chapter 41.06 RCW;

(3) Enter into contracts on behalf of the commission;

(4) Accept and expend gifts, donations, grants, and other funds received by the commission;

- (5) Delegate administrative functions of the commission to employees of the commission as the chair deems necessary to ensure efficient administration;
- (6) Subject to approval of the commission, appoint advisory committees and undertake studies, research, and analysis necessary to support activities of the commission;
- (7) Preside at meetings of the commission;
- (8) Consistent with policies and rules established by the commission, establish such administrative divisions, offices, or programs as are necessary to carry out the purposes of chapter . . . , Laws of 1993 (this act); and
- (9) Perform such other administrative and technical duties as are consistent with chapter . . . , Laws of 1993 (this act) and the rules and policies of the commission.

NEW SECTION. Sec. 406. POWERS AND DUTIES OF THE COMMISSION. The commission has the following powers and duties:

- (1) Ensure that all residents of Washington state are enrolled in a certified health plan to receive the uniform benefits package, regardless of age, sex, family structure, ethnicity, race, health condition, geographic location, employment, or economic status.
- (2) Endeavor to ensure that all residents of Washington state have access to appropriate, timely, confidential, and effective health services. If the commission finds that individuals or populations lack access to certified health plan services, the commission shall:
 - (a) Authorize appropriate state agencies, local health departments, community or migrant health clinics, public hospital districts, or other nonprofit health service entities to take actions necessary to assure such access. This includes authority to contract for or directly deliver services described within the uniform benefits package to special populations; or
 - (b) Notify appropriate certified health plans and the insurance commissioner of such findings. The commission shall adopt by rule standards by which the insurance commissioner may, in such event, require certified health plans in closest proximity to such individuals and populations to extend their catchment areas to those individuals and populations and offer them enrollment.
- (3) Adopt necessary rules in accordance with chapter 34.05 RCW to carry out the purposes of chapter . . . , Laws of 1993 (this act), provided that an initial set of draft rules establishing at least the commission's organization structure, the uniform benefits package, enrollee and employer financial participation, levels of and standards for certified health plan certification, must be submitted in draft form to appropriate committees of the legislature by December 1, 1994.
- (4) Establish and modify as necessary, in consultation with the state board of health and the department of health, and coordination with the planning process set forth in section 458 of this act a uniform set of health services based on the recommendations of the health care cost control and access commission.
- (5) Establish and modify as necessary, the uniform benefits package, as provided in section 448 of this act, which shall be offered to enrollees of a certified health plan. The benefit package shall be provided at no more than the maximum premium specified in subsection (6) of this section.
- (6)(a) Establish for each year a community-rated maximum premium for the uniform benefits package. The premium cost of the uniform benefits package in 1995 shall be based upon an actuarial determination of the costs of providing the uniform benefits package, assuming cost savings that may result from reductions in cost shifting, the use of managed care, identification of cost-effective and clinically efficacious services, and any other factors deemed relevant by the commission. Beginning in 1996, the growth rate of the uniform benefits package shall be allowed to increase by a rate no greater than the average growth rate in the cost of the package between 1990 and 1993 as actuarially determined, reduced by two percentage points per year until the growth rate is no greater than growth in Washington per capita personal income, as determined by the office of financial management.
- (b) If the commission adds or deletes services or benefits to the uniform benefits package in subsequent years, it may increase or decrease the maximum premium to reflect the actual cost experience of a broad sample of providers of that service in the state, considering the factors enumerated in (a) of this subsection and adjusted actuarially. The addition of services or benefits shall not result in a redetermination of the entire cost of the uniform benefits package.
- (7) In order to promote price competition, establish annual premium shares and amounts that shall be paid by employers, government sponsors, and enrollees defined in relation to the price of the lowest priced plan in the region providing the uniform benefits package in a manner that ensures adequate quality of services. Enrollee premium share levels shall be related to enrollee household income and shall not apply to enrollees with income less

than the federal poverty level. The commission shall develop mechanisms through which enrollees whose premium share levels are reduced as a result of low household income can obtain subsidies necessary for enrollment in a certified health plan. The availability of subsidies shall be conditioned upon the appropriation of funds specifically for this purpose.

(8) Develop and implement, if necessary, one or more medical risk adjustment mechanisms to minimize financial incentives for certified health plans to enroll individuals who present lower health risks and avoid enrolling individuals who present higher health risks, and to minimize financial incentives for employer hiring practices that discriminate against individuals who present higher health risks. In the design and implementation of medical risk distribution mechanisms under this subsection, the commission shall (a) balance the benefits of price competition with the need to protect certified health plans from any unsustainable negative effects of adverse selection and (b) consider the development of a system that creates a risk profile of each certified health plan's enrollee population that does not create disincentives for a plan to control benefit utilization, that requires contributions from plans that enjoy a low-risk enrollee population to plans that have a high-risk enrollee population, and that does not permit an adjustment of the premium charged for the uniform benefits package or supplemental coverage based upon either receipt or contribution of assessments.

(9) Design a mechanism to assure minors have access to confidential health care services as currently provided in RCW 70.24.110 and 71.34.030.

(10) Monitor the actual growth in total annual health services costs.

(11) Establish reporting requirements for certified health plans that own or manage health care facilities, health care facilities, and health care providers to periodically report to the commission regarding major capital expenditures of the plans. The commission shall review and monitor such reports from providers and shall report to the legislature regarding major capital expenditures by providers on at least an annual basis.

(12) Establish maximum enrollee financial participation levels. The levels shall be related to enrollee household income and shall not result in household income being reduced below the federal poverty level.

(13) For health services provided under the uniform benefits package, adopt standards for enrollment, and standardized billing and claims processing forms. The standards shall ensure that these procedures minimize administrative burdens on health care providers, certified health plans, and consumers. Subject to federal approval or phase-in schedules whenever necessary or appropriate, the standards also shall apply to state-purchased health services, as defined in RCW 41.05.011.

(14) Suggest that certified health plans adopt certain practice guidelines or risk management protocols for quality assurance, utilization review, or provider payment. The commission may consider guidelines or protocols recommended according to section 410 of this act for these purposes.

(15) Suggest other guidelines to certified health plans for utilization management, use of technology and methods of payment, such as diagnosis-related groups and a resource-based relative value scale. Such guidelines shall be voluntary and shall be designed to promote improved management of care, and provide incentives for improved efficiency and effectiveness within the delivery system.

(16) Adopt standards and oversee and develop policy for personal health data and information systems as provided in chapter 70.170 RCW.

(17) Adopt standards that prevent conflict of interest by health care providers as provided in section 408 of this act.

(18) Consider the extent to which medical research activities should be included within the health service system set forth in this chapter . . . , Laws of 1993 (this act).

(19) Adopt standards and procedures under which a health care provider, health care facility, enrollee, or certified health plan may seek a prior determination as to whether medical services and related health care services, drugs, and other technologies provided in connection with a particular treatment are included in the uniform benefits package.

(20) Evaluate and monitor the extent to which racial and ethnic minorities have access and to receive health services within the state, and develop strategies to address barriers to access.

(21) Develop standards for the certification process to certify health plans to provide the uniform benefits package, according to the provisions for certified health plans under chapter . . . , Laws of 1993 (this act).

(22) Develop rules for implementation of individual and employer participation under sections 454 and 455 of this act specifically applicable to persons who work in this state but do not live in the state or persons who live in this state but work outside of the state. The rules shall be designed so that these persons receive coverage and financial requirements that are comparable to that received by persons who both live and work in the state.

(23) Establish a process for purchase of uniform benefits package services by enrollees when they are out-of-state.

(24) Develop recommendations to the legislature as to whether state and school district employees, on whose behalf health benefits are or will be purchased by the health care authority pursuant to chapter 41.05 RCW, should have the option to purchase health benefits through health insurance purchasing cooperatives on or after July 1, 1997. In developing its recommendations, the commission shall consider:

(a) The impact of state or school district employees purchasing through health insurance purchasing cooperatives on the ability of the state to control its health care costs; and

(b) Whether state or school district employees purchasing through health insurance purchasing cooperatives will result in inequities in health benefits between or within groups of state and school district employees.

(25) Establish guidelines for providers dealing with terminal or static conditions, taking into consideration the ethics of providers, patient and family wishes, costs, and survival possibilities.

(26) Undertake or facilitate evaluations of health care reform, including analysis of fiscal and economic impacts, the effectiveness of managed care and managed competition, and effects of reform on access and quality of service. Fiscal and economic impact analysis shall be conducted by the office of financial management.

(27) Evaluate the extent to which Taft-Hartley health care trusts provide benefits to certain individuals in the state; review the federal laws under which these joint employee-employer entities are organized; and make appropriate recommendations to the governor and the legislature about how these trusts can be brought under the provisions of chapter . . . , Laws of 1993 (this act) when it is fully implemented.

(28) Evaluate whether Washington is experiencing a higher percentage in in-migration of residents from other states and territories than would be expected by normal trends as a result of the availability of comprehensive subsidized health care benefits for all residents and report to the governor and the legislature their findings.

(29) In developing the uniform benefits package and other standards pursuant to this section, consider the likelihood of the establishment of a national health services plan adopted by the federal government and its implications.

(30) Evaluate the effect of reforms under chapter . . . , Laws of 1993 (this act) on access to care and economic development in rural areas.

To the extent that the exercise of any of the powers and duties specified in this section may be inconsistent with the powers and duties of other state agencies, offices, or commissions, the authority of the commission shall supersede that of such other state agency, office, or commission, except in matters of personal health data, where the commission shall have primary data system policymaking authority and the department of health shall have primary responsibility for the maintenance and routine operation of personal health data systems.

NEW SECTION. Sec. 407. MODIFICATION OF MAXIMUM PREMIUM. Upon the recommendation of the insurance commissioner, and on the basis of evidence established by independent actuarial analysis, if the commission finds that the economic viability of a significant number of the state's certified health plans is seriously threatened, the commission may increase the maximum premium to the extent mandated by the Constitution, and must immediately thereafter submit to the legislature a proposal for a new formula for adjusting the maximum premium that must be approved by each house of the legislature by a sixty percent vote.

NEW SECTION. Sec. 408. CONFLICT OF INTEREST STANDARDS. The Washington health services commission established by section 403 of this act, in consultation with the secretary of health, and the health care disciplinary authorities under RCW 18.130.040(2)(b), shall establish standards and monetary penalties in rule prohibiting provider investments and referrals that present a conflict of interest resulting from inappropriate financial gain for the provider or his or her immediate family. These standards are not intended to inhibit the efficient operation of managed health care systems or certified health plans. The commission shall report to the health policy committees of the senate and house of representatives by December 1, 1994, on the development of the standards and any recommended statutory changes necessary to implement the standards.

NEW SECTION. Sec. 409. CONTINUOUS QUALITY IMPROVEMENT AND TOTAL QUALITY MANAGEMENT. To ensure the highest quality health services at the lowest total cost, the commission shall establish a total quality management system of continuous quality improvement. Such endeavor shall be based upon the recognized quality science for continuous quality improvement. The commission shall impanel a committee composed of persons from the private sector and related sciences who have broad knowledge and successful

experiences in continuous quality improvement and total quality management applications. It shall be the responsibility of the committee to develop standards for a Washington state health services supplier certification process and recommend such standards to the commission for review and adoption. Once adopted, the commission shall establish a schedule, with full compliance no later than July 1, 1996, whereby all health service providers and health service facilities shall be certified prior to providing uniform benefits package services.

B. PRACTICE INDICATORS

NEW SECTION. Sec. 410. A new section is added to chapter 43.70 RCW to read as follows:

PRACTICE INDICATORS. The department of health shall consult with health care providers, purchasers, health professional regulatory authorities under RCW 18.130.040, appropriate research and clinical experts, and consumers of health care services to identify specific practice areas where practice indicators and risk management protocols have been developed, including those that have been demonstrated to be effective among persons of color. Practice indicators shall be based upon expert consensus and best available scientific evidence. The department shall:

- (1) Develop a definition of expert consensus and best available scientific evidence so that practice indicators can serve as a standard for excellence in the provision of health care services.
- (2) Establish a process to identify and evaluate practice indicators and risk management protocols as they are developed by the appropriate professional, scientific, and clinical communities.
- (3) Recommend the use of practice indicators and risk management protocols in quality assurance, utilization review, or provider payment to the health services commission.

(1) The secretary of health shall allocate all appropriated funds to accomplish the purposes of this chapter.

(2) Upon a showing by the secretary of health, on behalf of the medical disciplinary board, that expenditures in excess of levels authorized by legislative appropriation are necessary to meet unanticipated public demand for investigation of, and disciplinary action against, unsafe or impaired physicians or surgeons, the office of financial management may authorize necessary expenditures from the medical disciplinary account in excess of appropriated levels.

Sec. 412. RCW 43.70.320 and 1991 sp.s. c 13 s 18 are each amended to read as follows:

(2) All expenses incurred in carrying out the health professions licensing activities of the department shall be paid from the account as authorized by legislative appropriation. Upon a showing by the department, on behalf of an individual health profession regulatory board, that expenditures in excess of levels authorized by legislative appropriation are necessary to meet unanticipated public demand for investigation of, and disciplinary action against, unsafe or impaired health care practitioners, the office of financial management may authorize necessary expenditures from the health professions account in excess of appropriated levels. Any residue in the account shall be accumulated and shall not revert to the general fund at the end of the biennium.

(3) The secretary shall biennially prepare a budget request based on the anticipated costs of administering the health professions licensing activities of the department which shall include the estimated income from health professions fees.

NEW SECTION. Sec. 413. A new section is added to chapter 18.130 RCW to read as follows:

MALPRACTICE INSURANCE COVERAGE MANDATE. Except to the extent that liability insurance is not available, every licensed health care practitioner whose services are included in the uniform benefits package, as determined by section 448 of this act, and whose scope of practice includes independent practice, shall, as a condition of licensure and relicensure, be required to provide evidence of a minimum level of malpractice insurance

coverage issued by a company authorized to do business in this state. On or before January 1, 1994, the department shall designate by rule:

RISK MANAGEMENT TRAINING OF INDEPENDENT HEALTH CARE PRACTITIONERS. Effective July 1, 1994, a casualty insurer's issuance of a new medical malpractice policy or renewal of an existing medical malpractice policy to a physician or other independent health care practitioner shall be conditioned upon that practitioner's participation in, and completion of, health care liability risk management training. The risk management training shall provide information related to avoiding adverse health outcomes resulting from substandard practice and minimizing damages associated with the adverse health outcomes that do occur. For purposes of this section, "independent health care practitioners" means those health care practitioner licensing classifications designated by the department of health in rule pursuant to section 413 of this act.

NEW SECTION. Sec. 415. A new section is added to chapter 48.05 RCW to read as follows:

RISK MANAGEMENT TRAINING OF INDEPENDENT HEALTH CARE PRACTITIONERS. Effective July 1, 1994, each health care provider, facility, or health maintenance organization that self-insures for liability risks related to medical malpractice and employs physicians or other independent health care practitioners in Washington state shall condition each physician's and practitioner's liability coverage by that entity upon that physician's or practitioner's participation in risk management training offered by the provider, facility, or health maintenance organization to its employees. The risk management training shall provide information related to avoiding adverse health outcomes resulting from substandard practice and minimizing damages associated with those adverse health outcomes that do occur. For purposes of this section, "independent health care practitioner" means those health care practitioner licensing classifications designated by the department of health in rule pursuant to section 413 of this act.

NEW SECTION. Sec. 418. A new section is added to chapter 43.70 RCW to read as follows:

COORDINATED QUALITY IMPROVEMENT PROGRAM. (1)(a) Health care institutions and medical facilities, other than hospitals, that are licensed by the department, professional societies or organizations, and certified health plans approved pursuant to section 428 of this act may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200.

(b) All such programs shall comply with the requirements of RCW 70.41.200(1)(a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of the institution, facility, professional societies or organizations, or certified health plan, unless an alternative quality improvement program substantially equivalent to RCW 70.41.200(1)(a) is developed. All such programs, whether complying with the requirement set forth in RCW 70.41.200(1)(a) or in the form of an alternative program, must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section shall apply. In reviewing plans submitted by licensed entities that are associated with physicians' offices, the department shall ensure that the discovery limitations of this section are applied only to information and documents related specifically to quality improvement activities undertaken by the licensed entity.

(2) Health care provider groups of ten or more providers may maintain a coordinated quality improvement program for the improvement of the quality of health care services rendered to patients and the identification and prevention of medical malpractice as set forth in RCW 70.41.200. All such programs shall comply with the requirements of RCW 70.41.200(1)(a), (c), (d), (e), (f), (g), and (h) as modified to reflect the structural organization of

the health care provider group. All such programs must be approved by the department before the discovery limitations provided in subsections (3) and (4) of this section shall apply.

(3) Any person who, in substantial good faith, provides information to further the purposes of the quality improvement and medical malpractice prevention program or who, in substantial good faith, participates on the quality improvement committee shall not be subject to an action for civil damages or other relief as a result of such activity.

(4) Information and documents, including complaints and incident reports, created specifically for, and collected, and maintained by a quality improvement committee are not subject to discovery or introduction into evidence in any civil action, and no person who was in attendance at a meeting of such committee or who participated in the creation, collection, or maintenance of information or documents specifically for the committee shall be permitted or required to testify in any civil action as to the content of such proceedings or the documents and information prepared specifically for the committee. This subsection does not preclude: (a) In any civil action, the discovery of the identity of persons involved in the medical care that is the basis of the civil action whose involvement was independent of any quality improvement activity; (b) in any civil action, the testimony of any person concerning the facts that form the basis for the institution of such proceedings of which the person had personal knowledge acquired independently of such proceedings; (c) in any civil action by a health care provider regarding the restriction or revocation of that individual's clinical or staff privileges, introduction into evidence information collected and maintained by quality improvement committees regarding such health care provider; (d) in any civil action, disclosure of the fact that staff privileges were terminated or restricted, including the specific restrictions imposed, if any and the reasons for the restrictions; or (e) in any civil action, discovery and introduction into evidence of the patient's medical records required by rule of the department of health to be made regarding the care and treatment received.

(5) The department of health shall adopt rules as are necessary to implement this section.

NEW SECTION. Sec. 419. MEDICAL MALPRACTICE REVIEW. (1) The administrator for the courts shall coordinate a collaborative effort to develop a voluntary system for review of medical malpractice claims by health services experts prior to the filing of a cause of action under chapter 7.70 RCW.

(2) The system shall have at least the following components:

(b) By agreement of the parties, an expert would be chosen from a pool of health services experts who have agreed to review claims on a voluntary basis.

(c) The mutually agreed upon expert would conduct an impartial review of the claim and provide his or her opinion to the parties.

(d) A pool of available experts would be established and maintained for each category of health care practitioner by the corresponding practitioner association, such as the Washington state medical association and the Washington state nurses association.

(3) The administrator for the courts shall seek to involve at least the following organizations in a collaborative effort to develop the informal review system described in subsection (2) of this section:

(a) The Washington defense trial lawyers association;

NEW SECTION. Sec. 420. A new section is added to chapter 7.70 RCW to read as follows:

MANDATORY MEDIATION OF HEALTH CARE MALPRACTICE CLAIMS. (1) All causes of action, whether based in tort, contract, or otherwise, for damages arising from injury occurring as a result of health care provided after the effective date of this section shall be subject to mandatory mediation prior to trial.

(2) The supreme court shall by rule adopt procedures to implement mandatory mediation of actions under this chapter. The rules shall address, at a minimum:

(a) Procedures for the appointment of, and qualifications of, mediators. A mediator shall have experience or expertise related to actions arising from injury occurring as a result of health care, and be a member of the state bar association who has been admitted to the bar for a minimum of five years or who is a retired judge. The parties may stipulate to a nonlawyer mediator. The court may prescribe additional qualifications of mediators. Mediators shall be compensated in the same amount and manner as judges pro tempore of the superior court unless the parties agree to a different amount or manner of compensation;

(b) The number of days following the filing of a claim under this chapter within which a mediator must be selected;

(c) The method by which a mediator is selected. The rule shall provide for designation of a mediator by the superior court if the parties are unable to agree upon a mediator;

(d) The number of days following the selection of a mediator within which a mediation conference must be held;

(e) A means by which mediation of an action under this chapter may be waived by a mediator who has determined that the claim is not appropriate for mediation; and

(f) Any other matters deemed necessary by the court.

(3) Mediators shall not impose discovery schedules upon the parties.

NEW SECTION. Sec. 421. A new section is added to chapter 7.70 RCW to read as follows:

MANDATORY MEDIATION OF HEALTH CARE MALPRACTICE. The making of a written, good faith request for mediation of a dispute related to damages for injury occurring as a result of health care provided prior to filing a cause of action under this chapter shall toll the statute of limitations provided in RCW 4.16.350.

NEW SECTION. Sec. 422. A new section is added to chapter 7.70 RCW to read as follows:

MANDATORY MEDIATION OF HEALTH CARE MALPRACTICE CLAIMS. Section 420 of this act may not be construed to abridge the right to trial by jury following an unsuccessful attempt at mediation.

Sec. 423. RCW 5.60.070 and 1991 c 321 s 1 are each amended to read as follows:

(1) If there is a court order to mediate ~~((or))~~, a written agreement between the parties to mediate, or if mediation is mandated under section 420 of this act, then any communication made or materials submitted in, or in connection with, the mediation proceeding, whether made or submitted to or by the mediator, a mediation organization, a party, or any person present, are privileged and confidential and are not subject to disclosure in any judicial or administrative proceeding except:

(a) When all parties to the mediation agree, in writing, to disclosure;

(b) When the written materials or tangible evidence are otherwise subject to discovery, and were not prepared specifically for use in and actually used in the mediation proceeding;

(c) When a written agreement to mediate permits disclosure;

(d) When disclosure is mandated by statute;

(e) When the written materials consist of a written settlement agreement or other agreement signed by the parties resulting from a mediation proceeding;

(f) When those communications or written materials pertain solely to administrative matters incidental to the mediation proceeding, including the agreement to mediate; or

(g) In a subsequent action between the mediator and a party to the mediation arising out of the mediation.

(2) When there is a court order ~~((or))~~ a written agreement to mediate, or when mediation is mandated under section 420 of this act, as described in subsection (1) of this section, the mediator or a representative of a mediation organization shall not testify in any judicial or administrative proceeding unless:

- (a) All parties to the mediation and the mediator agree in writing; or
- (b) In an action described in subsection (1)(g) of this section.

Sec. 424. RCW 4.22.070 and 1986 c 305 s 401 are each amended to read as follows:

(1) Except as provided in subsection (4) of this section, in all actions involving fault of more than one entity, the trier of fact shall determine the percentage of the total fault which is attributable to every entity which caused the claimant's damages, including the claimant or person suffering personal injury or incurring property damage, defendants, third-party defendants, entities released by the claimant, entities immune from liability to the claimant and entities with any other individual defense against the claimant. Judgment shall be entered against each defendant except those who have been released by the claimant or are immune from liability to the claimant or have prevailed on any other individual defense against the claimant in an amount which represents that party's proportionate share of the claimant's total damages. The liability of each defendant shall be several only and shall not be joint except:

(a) A party shall be responsible for the fault of another person or for payment of the proportionate share of another party where both were acting in concert or when a person was acting as an agent or servant of the party.

(b) If the trier of fact determines that the claimant or party suffering bodily injury or incurring property damages was not at fault, the defendants against whom judgment is entered shall be jointly and severally liable for the sum of their proportionate shares of the claimant's total damages.

(2) If a defendant is jointly and severally liable under one of the exceptions listed in subsection ~~((e))~~ (1)(a) or (1)(b) or (4) (a) or (b) of this section, such defendant's rights to contribution against another jointly and severally liable defendant, and the effect of settlement by either such defendant, shall be determined under RCW 4.22.040, 4.22.050, and 4.22.060.

(3)(a) Nothing in this section affects any cause of action relating to hazardous wastes or substances or solid waste disposal sites.

(b) Nothing in this section shall affect a cause of action arising from the tortious interference with contracts or business relations.

(c) Nothing in this section shall affect any cause of action arising from the manufacture or marketing of a fungible product in a generic form which contains no clearly identifiable shape, color, or marking.

(4) In all actions governed by chapter 7.70 RCW involving fault of more than one entity, the trier of fact shall determine the percentage of the total fault that is attributable to every entity that caused the claimant's damages, including the claimant or person suffering personal injury or incurring property damage, defendants, third-party defendants, entities released by the claimant, entities immune from liability to the claimant, and entities with any other individual defense against the claimant. Judgment shall be entered against each defendant except those who have been released by the claimant or are immune from liability to the claimant or have prevailed on any other individual defense against the claimant in an amount that represents that party's proportionate share of the claimant's total damages. The total damages shall first be reduced by any amount paid to the claimant by a released entity. The liability of each defendant shall be several only and shall not be joint except:

(a) A party shall be responsible for the fault of another person or for payment of the proportionate share of another party where both were acting in concert or when a person was acting as an agent or servant of the party.

(b) If the trier of fact determines that the claimant or party suffering bodily injury or incurring property damages was not at fault, the defendants against whom judgment is entered shall be jointly and severally liable for the sum of their proportionate shares of the claimant's total damages.

(c) A defendant shall be responsible to the claimant for any fault of an entity released by the claimant, provided that the total damages shall first be reduced by any amount paid to the claimant by a released entity, and, where some fault has been attributed to the claimant, by the claimant's proportionate share of his or her total damages.

D. HEALTH INSURANCE PURCHASING COOPERATIVES

NEW SECTION. **Sec. 425.** HEALTH INSURANCE PURCHASING COOPERATIVES--DESIGNATION OF REGIONS BY COMMISSION, INFORMATION SYSTEMS, MINIMUM STANDARDS, AND RULES. (1) The health service commission shall designate large geographic regions within the state in which competing health insurance

purchasing cooperatives may operate, based upon population, assuming that each cooperative must serve no less than one hundred thousand persons; geographic factors; market conditions; and other factors deemed appropriate by the commission. The commission may designate certain regions of the state as areas where only one cooperative may operate upon a determination that an insufficient population base exists within such region to efficiently support more than one cooperative. The commission shall authorize the creation of ten cooperatives within the state.

(2) In coordination with the commission and consistent with the provisions of chapter 70.170 RCW, the department of health shall establish an information clearinghouse for the collection and dissemination of information necessary for the efficient operation of cooperatives, including the establishment of a risk profile information system related to certified health plan enrollees that would permit the equitable distribution of losses among plans in accordance with section 406(8) of this act.

(3) Every health insurance purchasing cooperative shall:

(a) Admit all individuals, employers, or other groups wishing to participate in the cooperative;

(b) Make available for purchase by cooperative members every health care program offered by every certified health plan operating within the cooperative's region;

(c) Be operated as a member-governed and owned, nonprofit cooperative in which no certified health plan, health maintenance organization, health care service contractor, independent practice association, independent physician organization, or any individual with a pecuniary interest in any such organization, shall have any pecuniary interest in or management control of the cooperative;

(d) Provide for centralized enrollment and premium collection and distribution among certified health plans; and

(e) Serve as an ombudsman for its members to resolve inquiries, complaints, or other concerns with certified health plans.

(4) Every health insurance purchasing cooperative shall assist members in selecting certified health plans and for this purpose may devise a rating system or similar system to judge the quality and cost-effectiveness of certified health plans consistent with guidelines established by the commission. For this purpose, each cooperative and directors, officers, and other employees of the cooperative are immune from liability in any civil action or suit arising from the publication of any report, brochure, or guide, or dissemination of information related to the services, quality, price, or cost-effectiveness of certified plans unless actual malice, fraud, or bad faith is shown. Such immunity is in addition to any common law or statutory privilege or immunity enjoyed by such person, and nothing in this section is intended to abrogate or modify in any way such common law or statutory privilege or immunity.

(5) Every health insurance purchasing cooperative shall bear the full cost of its operations, including the costs of participating in the information clearinghouse, through assessments upon its members. Such assessments shall be billed and accounted for separately from premiums collected and distributed for the purchase of the uniform benefits package or any other supplemental insurance or health services program.

(6) No health insurance purchasing cooperative may bear any financial risk for the delivery of uniform benefits package services, or for any other supplemental insurance or health services program.

(7) No health insurance purchasing cooperative may directly broker, sell, contract for, or provide any insurance or health services program. However, nothing contained in this section shall be deemed to prohibit the use or employment of insurance agents or brokers by the cooperative for other purposes or to prohibit the facilitation of the sale and purchase by members of supplemental insurance or health services programs.

(8) The commission may adopt rules necessary for the implementation of this section including rules governing charter and bylaw provisions of cooperatives and may adopt rules prohibiting or permitting other activities by cooperatives.

(9) The commission shall consider ways in which cooperatives can develop, encourage, and provide incentives for employee wellness programs.

NEW SECTION. Sec. 426. LICENSING AND REGULATION OF HEALTH INSURANCE PURCHASING COOPERATIVES BY THE INSURANCE COMMISSIONER. (1) No person may establish or operate a health insurance purchasing cooperative without having first obtained a certificate of authority from the insurance commissioner.

(2) Every proposed cooperative shall furnish notice to the insurance commissioner that shall:

(a) Identify the principal name and address of the cooperative;

(b) Furnish the names and addresses of the initial officers of the cooperative;

(c) Include copies of letters of agreement for participation in the cooperative including minimum term of participation;

(d) Furnish copies of its proposed articles and bylaws; and

(e) Provide other information as prescribed by the insurance commissioner in consultation with the health services commission to verify that the cooperative is qualified and is managed by competent and trustworthy individuals.

(3)(a) The commissioner shall approve applications for certificates in accordance with the order received. Once the maximum number of cooperatives have been issued certificates of authority in each region in accordance with the rules adopted by the health services commission, the insurance commissioner may not issue any new certificate until or unless a previously authorized cooperative surrenders or loses its certificate of authority.

(b) The commissioner shall establish by rule a fee to be paid by cooperatives in an amount necessary to review and approve applications for a certificate of authority. Such fee shall accompany the application and no certificate may be issued until such fee is paid. Fees collected for such purpose shall be deposited in the insurance commissioner's regulatory account in the state treasury.

(4) All funds representing premiums or return premiums received by a cooperative in its fiduciary capacity shall be accounted for and maintained in a separate account from all other funds. Each willful violation of this section constitutes a misdemeanor.

(5) Every cooperative shall keep at its principal address, a record of all transactions it has consummated on behalf of its members with certified health plans. All such records shall be kept available and open to the inspection of the insurance commissioner at any business time during a five-year period immediately after the date of completion of the transaction.

E. CERTIFIED HEALTH PLANS

NEW SECTION. Sec. 427. CERTIFIED HEALTH PLANS--REGISTRATION REQUIRED--PENALTY. (1) On or after July 1, 1995, no person or entity in this state shall provide the uniform benefits package and supplemental benefits as defined in section 402 of this act without being certified as a certified health plan by the insurance commissioner.

(2) On or after July 1, 1995, the uniform benefits package and supplemental benefits shall be purchased only from entities certified as certified health plans.

(3) On or after July 1, 1995, the uniform benefits package shall be the minimum benefits package of any certified health plan.

NEW SECTION. Sec. 428. HEALTH PLAN CERTIFICATION STANDARDS. A certified health plan shall:

(1) Provide the benefits included in the uniform benefits package and offer supplemental benefits packages to enrolled Washington residents for a prepaid per capita community-rated premium not to exceed the maximum premium established by the commission and provide such benefits through managed care in accordance with rules adopted by the commission;

(2) Accept for enrollment any state resident within the plan's service area and provide or assure the provision of all services within the uniform benefits package and offer supplemental benefits packages regardless of factors referenced in RCW 49.60.020, including age, sex, family structure, ethnicity, race, health condition, geographic location, employment status, socioeconomic status, or other condition or situation;

(3) If the plan provides benefits through contracts with, ownership of, or management of health care facilities and contracts with or employs health care providers, demonstrate to the satisfaction of the insurance commissioner in consultation with the department of health and the commission that its facilities and personnel are adequate to provide the benefits prescribed in the uniform benefits package and offer supplemental benefits packages to enrolled Washington residents, and that it is financially capable of providing such residents with, or has made adequate contractual arrangements with health care providers and facilities to provide enrollees with such benefits;

(4) Comply with portability of benefits requirements prescribed by the commission;

(5) Comply with administrative rules prescribed by the commission, the insurance commissioner, and other state agencies governing certified health plans;

(6) Provide all enrollees with instruction and informational materials to increase individual and family awareness of injury and illness prevention; encourage assumption of personal responsibility for protecting personal

health; and stimulate discussion about the use and limits of medical care in improving the health of individuals and communities;

(7) Include in all of its contracts with health care providers and health care facilities a provision prohibiting such providers and facilities from billing enrollees for any amounts in excess of applicable enrollee point of service cost-sharing obligations for services included in the uniform benefits package and the supplemental benefits package;

(8) Include in all of its contracts issued for uniform benefits package and supplemental benefits package coverage a subrogation provision that allows the certified health plan to recover the costs of uniform benefits package and supplemental benefits package services incurred to care for an enrollee injured by a negligent third party. The costs recovered shall be limited to:

(a) If the certified health plan has not intervened in the action by an injured enrollee against a negligent third party, then the amount of costs the certified health plan can recover shall be limited to the excess remaining after the enrollee has been fully compensated for his or her loss minus a proportionate share of the enrollee's costs and fees in bringing the action. The proportionate share shall be determined by:

- (i) The fees and costs approved by the court in which the action was initiated; or
- (ii) The written agreement between the attorney and client that established fees and costs when fees and costs are not addressed by the court.

When fees and costs have been approved by a court, after notice to the certified health plan, the certified health plan shall have the right to be heard on the matter of attorneys' fees and costs or its proportionate share;

(b) If the certified health plan has intervened in the action by an injured enrollee against a negligent third party, then the amount of costs the certified health plan can recover shall be the excess remaining after the enrollee has been fully compensated for his or her loss or the amount of the plan's incurred costs, whichever is less;

(9) Establish and maintain a grievance procedure approved by the commissioner, to provide a reasonable and effective resolution of complaints initiated by enrollees concerning any matter relating to the provision of benefits under the uniform benefits package and supplemental benefits, access to health care services, and quality of services. Each certified health plan shall respond to complaints filed with the insurance commissioner within fifteen working days. The insurance commissioner in consultation with the commission shall establish standards for grievance procedures and resolution;

(10) Comply with the provisions of chapter 48.30 RCW prohibiting unfair and deceptive acts and practices to the extent such provisions are not modified or superseded by the provisions of chapter . . . , Laws of 1993 (this act) and be prohibited from offering or supplying incentives that would have the effect of avoiding the requirements of subsection (2) of this section;

(11) Have culturally sensitive health promotion programs that include approaches that are specifically effective for persons of color and accommodating to different cultural value systems, gender, and age; and

(12) Permit every class of health care providers to provide health services or care for conditions included in the uniform benefits package and in the supplemental benefits package to the extent that:

(a) The provision of such health services or care is within the health care providers' permitted scope of practice; and

(b) The providers agree to abide by standards related to:

- (i) Provision, utilization review, and cost containment of health services;
- (ii) Management and administrative procedures; and
- (iii) Provision of cost-effective and clinically efficacious health services.

NEW SECTION. Sec. 429. LIMITED CERTIFIED HEALTH PLAN FOR DENTAL SERVICES. (1) For the purposes of this section "limited certified dental plan" or "dental plan" means a certified health plan offering coverage for dental services only and that complies with all certified health plan requirements for managed care, community rating, portability, and nondiscrimination.

(2) A dental plan may provide coverage for dental services directly to individuals or to employers for the benefit of employees. If an individual or an employer purchases uniform dental services from a dental plan, the certified health plan covering the individual or the employees need not provide dental services required under the uniform benefits package. A certified health plan may subcontract with a dental plan to provide the dental benefits required under the uniform benefits package.

(3) The commission shall establish maximum premiums and maximum enrollee financial participation amounts that may be charged by dental plans and shall adopt rules defining the minimum, uniform dental services

that must be offered by dental plans. The commission shall also establish maximum premiums and maximum enrollee financial participation amounts for certified health plans not providing dental benefits by virtue of the individual's or employee's coverage by a dental plan, and rules governing the percentage change in the premium charged by a dental plan subcontracting with a certified health plan when the maximum premiums are changed by the commission.

(4) Rules governing dental plan premiums and financial participation amounts, and rules defining minimum, uniform dental services shall be adopted and shall apply to dental plans in accordance with the implementation dates applicable to certified health plans with respect to similar requirements.

NEW SECTION. Sec. 430. CONTRACTS BETWEEN CERTIFIED HEALTH PLANS AND HEALTH SERVICE PROVIDERS. (1) The legislature finds that not all health service providers, individually or as a class, provide the most cost-effective, efficacious health services for every health need. A fundamental goal of health care reform is to contain the growth in health care costs and related costs in purchasing coverage for health services. In order to achieve this goal, health service providers must either adjust their practice to achieve necessary levels of quality and cost-effectiveness or risk exclusion from certified health plans.

Balancing the need for health care reform and the need to protect health service providers, as a class and as individual providers, from improper exclusion presents a problem that can be satisfied with the creation of a process to ensure fair consideration of the inclusion of health service providers in managed care systems operated by certified health plans. It is therefore the intent of the legislature that the insurance commissioner in developing rules in accordance with this section and the attorney general in monitoring the level of competition in the various geographic markets, balance the need for cost-effective and quality delivery of health services with the need for inclusion of both individual health service providers and classes of health service providers in managed care programs developed by certified health plans. All licensed health service providers, irrespective of the type or kind of practice licensed by the state, should be afforded the opportunity to compete for inclusion in certified health plans consistent with the goals of health care reform.

(2) The insurance commissioner shall adopt rules requiring certified health plans to publish general criteria for the plan's selection of health service providers. In adopting such rules, the commissioner shall not require the disclosure of criteria deemed by the plan to be of a proprietary or competitive nature that would hurt the plan's ability to compete or to manage health services. If the commissioner and the plan disagree as to whether criteria is proprietary or its disclosure is anticompetitive, the plan shall be entitled to a hearing and the hearing shall be conducted in a manner that affords the protection of such disputed information from public disclosure. In part, disclosure of criteria is proprietary or anticompetitive if revealing the criteria would have the tendency to cause health service providers to alter their practice pattern in a manner that would harm efforts to contain health care costs and is proprietary if revealing the criteria would cause the plan's competitors to obtain valuable business information.

(3) If a certified health plan uses unpublished criteria to judge the quality and cost-effectiveness of a health service provider's practice under any specific program within the plan, the plan may not terminate the provider participating in that program based upon such criteria until the provider has been informed that his or her practice fails to meet such criteria and is given a reasonable opportunity to conform to such criteria.

(4) In consultation with the attorney general's office, the insurance commissioner shall adopt rules:

(a) Prescribing the terms, conditions, and procedures for binding resolution of contractual disputes between providers and certified health plans to be included in all contracts between providers and plans; and

(b) Prescribing the terms, conditions, and procedures for provider appeal to the plan of a decision by the plan not to include the services of the provider.

(5) The attorney general with the assistance of the insurance commissioner shall analyze the market power of certified health plans and develop a standard for determining when the market share of any program of a certified health plan reaches a point where the plan's exclusion of health service providers from a program of the plan would result in the substantial inability of providers to continue their practice thereby unreasonably restricting consumer access to needed health services. Whenever, as a result of this analysis, the attorney general determines that a program's share of the market would have the tendency to substantially lessen competition for health services in the relevant market, the certified health plan must allow all providers within the affected market to participate in the program of the certified health plan subject to the following conditions:

(a) The provider must meet all published criteria of the program pertaining to the selection of providers;

(b) The provider must agree to abide by all published requirements of the program pertaining to utilization review, quality review, and cost containment; and

(c) The provider must agree to abide by all administrative and management procedures of the program.

Notwithstanding the provisions of this subsection, if the certified health plan demonstrates to the satisfaction of the attorney general that health service utilization data and similar information shows that the inclusion of additional health service providers would substantially lessen the plan's ability to control health care costs and that the plan's procedures for selection of providers are not improperly exclusive of providers, the plan need not include additional providers within the plan's program.

(6) Nothing contained in this section shall be construed to require a plan to allow or to continue the participation of a provider:

(a) Who violates the terms and conditions of a contract with the plan;

(b) Whose provision of health services is inefficient or of poor quality when compared to a provider's peer group which group is objectively determined;

(c) Whose health services violate any statute or regulation governing the provider's profession;

(d) Whose services are unnecessary because the uniform benefits package does not provide coverage for such services or with respect to a supplemental benefit program, because a supplemental benefit program does not provide coverage for such services; or

(e) If the plan is a federally qualified health maintenance organization and the participation of the provider or providers would prevent the health maintenance organization from operating as a health maintenance organization in accordance with 42 U.S.C Sec. 300e.

NEW SECTION. Sec. 431. CERTIFIED HEALTH PLANS--REGISTRATION REQUIRED--PENALTY. (1) No person or entity in this state may, by mail or otherwise, act or hold himself or herself out to be a certified health plan as defined by section 402 of this act without being registered as a certified health plan with the insurance commissioner.

(2) Anyone violating subsection (1) of this section is liable for a fine not to exceed ten thousand dollars and imprisonment not to exceed six months for each instance of such violation.

NEW SECTION. Sec. 432. ELIGIBILITY REQUIREMENTS FOR CERTIFICATE OF REGISTRATION--APPLICATION REQUIREMENTS. Any corporation, cooperative group, partnership, association, or groups of health professionals licensed by the state of Washington, public hospital district, or public institutions of higher education are entitled to a certificate from the insurance commissioner as a certified health plan if it:

(1) Submits an application for certification as a certified health plan, which shall be verified by an officer or authorized representative of the applicant, being in a form as the insurance commissioner prescribes in consultation with the health services commission;

(2) Meets the minimum net worth requirements set forth in section 438 of this act and the funding reserve requirements set forth in section 439 of this act;

(3) A certified health plan may establish the geographic boundaries in which they will obligate themselves to deliver the services required under the uniform benefits package and include such information in their application for certification, but the commissioner shall review such boundaries and may disapprove, in conformance to guidelines adopted by the commission, those which have been clearly drawn to be exclusionary within a health care catchment area.

NEW SECTION. Sec. 433. ISSUANCE OF CERTIFICATE--GROUNDS FOR REFUSAL. The commissioner shall issue a certificate as a certified health plan to an applicant within one hundred twenty days of such filing unless the commissioner notifies the applicant within such time that such application is not complete and the reasons therefor; or that the commissioner is not satisfied that:

(1) The basic organization document of the applicant permits the applicant to conduct business as a certified health plan;

(2) The applicant has demonstrated the intent and ability to assure that the health services will be provided in a manner to assure both their availability and accessibility;

(3) The organization is financially responsible and may be reasonably expected to meet its obligations to its enrolled participants. In making this determination, the commissioner shall consider among other relevant factors:

(a) Any agreements with a casualty insurer, a government agency, or any other organization paying or insuring payment for health care services;

(b) Any agreements with providers for the provision of health care services; and

- (c) Any arrangements for liability and malpractice insurance coverage.
- (4) The procedures for offering health care services are reasonable and equitable; and
- (5) Procedures have been established to:
 - (a) Monitor the quality of care provided by the certified health plan including standards and guidelines provided by the health services commission and other appropriate state agencies;
 - (b) Operate internal peer review mechanisms; and
 - (c) Resolve complaints and grievances in accordance with section 443 of this act and rules established by the insurance commissioner in consultation with the commission.

NEW SECTION. Sec. 434. PREMIUMS AND ENROLLEE PAYMENT AMOUNTS--FILING OF PREMIUMS AND ENROLLEE PAYMENT AMOUNTS--ADDITIONAL CHARGES PROHIBITED. (1) The insurance commissioner shall verify that the certified health plan and its providers are charging no more than the maximum premiums and enrollee financial participation amounts during the course of financial and market conduct examinations or more frequently if justified in the opinion of the insurance commissioner or upon request by the health services commission.

(2) The certified health plans shall file the premium schedules including employer contributions, enrollee premium sharing, and enrollee point of service cost sharing amounts with the insurance commissioner, within thirty days of establishment by the health services commission.

(3) No certified health plan or its provider may charge any fees, assessments, or charges in addition to the premium amount or in excess of the maximum enrollee financial participation limits established by the health services commission. The certified health plan that directly provides health care services may charge and collect the enrollee point of service cost sharing fees as established in the uniform benefits package or other approved benefit plan.

NEW SECTION. Sec. 435. ANNUAL STATEMENT FILING--CONTENTS--PENALTY FOR FAILURE TO FILE--ACCURACY REQUIRED. (1) Every certified health plan shall annually not later than March 1 of the calendar year, file with the insurance commissioner a statement verified by at least two of its principal officers showing its financial condition as of December 31 of the preceding year.

(2) Such annual report shall be in such form as the insurance commissioner shall prescribe and shall include:

(a) A financial statement of the certified health plan, including its balance sheet and receipts and disbursements for the preceding year, which reflects at a minimum;

(i) All prepayments and other payments received for health care services rendered pursuant to certified health plan benefit packages;

(ii) Expenditures to all categories of health care facilities, providers, and organizations with which the plan has contracted to fulfill obligations to enrolled residents arising out of the uniform benefits package and other approved supplemental benefit agreements, together with all other direct expenses including depreciation, enrollment, and commission; and

(iii) Expenditures for capital improvements, or additions thereto, including but not limited to construction, renovation, or purchase of facilities and capital equipment;

(b) A report of the names and addresses of all officers, directors, or trustees of the certified health plan during the preceding year, and the amount of wages, expense reimbursements, or other payments to such individuals. For partnership and professional service corporations, a report shall be made for partners or shareholders as to any compensation or expense reimbursement received by them for services, other than for services and expenses relating directly for patient care;

(c) The number of residents enrolled and terminated during the report period. Additional information regarding the enrollment and termination pattern for a certified health plan may be required by the commissioner to demonstrate compliance with the open enrollment and free access requirements of chapter . . . , Laws of 1993 (this act). The insurance commissioner shall specify additional information to be reported, which may include but not be limited to age, sex, location, and health status information;

(d) Such other information relating to the performance of the certified health plan or the health care facilities or providers with which it has contracted as reasonably necessary to the proper and effective administration of this chapter in accordance with rules;

(e) Disclosure of any financial interests held by officers and directors in any providers associated with the certified health plan or provider of the certified health plan.

(3) The commissioner may require quarterly reporting of financial information, such information to be furnished in a format prescribed by the commissioner in consultation with the commission.

(4) The commissioner may for good reason allow a reasonable extension of time within which such annual statement shall be filed.

(5) The commissioner may suspend or revoke the certificate of a certified health plan for failing to file its annual statement when due or during any extension of time therefor that the commissioner, for good cause, may grant.

(6) The commissioner shall publish and make available to the health services commission and the major newspapers of the state an annual summary report of at least the information required in subsections (2) and (3) of this section.

(7) No person may knowingly file with any public official or knowingly make, publish, or disseminate any financial statement of a certified health plan that does not accurately state the certified health plan's financial condition.

NEW SECTION. Sec. 436. PENALTY FOR VIOLATIONS. A certified health plan that, or person who, violates any provision of this chapter is guilty of a gross misdemeanor, unless the penalty is otherwise specifically provided.

NEW SECTION. Sec. 437. PROVIDER CONTRACTS--ENROLLED RESIDENT'S LIABILITY, COMMISSIONER'S REVIEW. (1) Subject to subsection (2) of this section, every contract between a certified health plan and its providers of health care services shall be in writing and shall set forth that in the event the certified health plan fails to pay for health care services as set forth in the uniform benefits package, the enrollee is not liable to the provider for any sums owed by the certified health plan. Every such contract shall provide that this requirement shall survive termination of the contract.

(2) The provisions of subsection (1) of this section shall not apply to emergency care from a provider who is not a contracting provider with the certified health plan, or to emergent and urgently needed out-of-area services.

(3) The certified health plan shall file the contracts with the insurance commissioner for approval thirty days prior to use.

NEW SECTION. Sec. 438. MINIMUM NET WORTH--REQUIREMENTS TO MAINTAIN--DETERMINATION OF AMOUNT. (1) Every certified health plan must maintain a minimum net worth equal to the greater of:

(a) One million dollars; or

(b) Two percent of annual premium revenues as reported on the most recent annual financial statement filed with the insurance commissioner on the first one hundred fifty million dollars of premium and one percent of annual premium on the premium in excess of one hundred fifty million dollars; or

(c) An amount equal to the sum of three months' uncovered expenditures as reported on the most recent financial statement filed with the commissioner.

(2)(a) In determining net worth, no debt may be considered fully subordinated unless the subordination clause is in a form acceptable to the commissioner. An interest obligation relating to the repayment of a subordinated debt must be similarly subordinated.

(b) The interest expenses relating to the repayment of a fully subordinated debt may not be considered uncovered expenditures.

(c) A subordinated debt incurred by a note meeting the requirements of this section, and otherwise acceptable to the insurance commissioner, may not be considered a liability and shall be recorded as equity.

(3) Every certified health plan shall, in determining liabilities, include an amount estimated in the aggregate to provide for unearned premiums and for the payment of claims for health care expenditures that have been incurred, whether reported or unreported, that are unpaid and for which such organization is or may be liable and to provide for the expense of adjustment or settlement of such claims.

The claims shall be computed in accordance with rules adopted by the insurance commissioner in consultation with the health services commission.

NEW SECTION. Sec. 439. FUNDED RESERVE REQUIREMENTS. (1) Each certified health plan obtaining certification from the insurance commissioner under sections 427 through 444 of this act shall provide and maintain a funded reserve of one hundred fifty thousand dollars. The funded reserve shall be deposited with the

insurance commissioner or with any organization acceptable to the commissioner in the form of cash, securities eligible for investment under chapter 48.13 RCW, approved surety bond, or any combination of these, and must be equal to or exceed one hundred fifty thousand dollars. The funded reserve shall be established as an assurance that the uncovered expenditures obligations of the certified health plan to the enrolled Washington residents shall be performed.

(2) All income from reserves on deposit with the commissioner shall belong to the depositing certified health plan and shall be paid to it as it becomes available.

(3) Funded reserves required by this section shall be considered an asset in determining the plan's net worth.

NEW SECTION. Sec. 440. EXAMINATION OF CERTIFIED HEALTH PLANS, POWERS OF COMMISSIONER, DUTIES OF PLANS, INDEPENDENT AUDIT REPORTS. (1) The insurance commissioner shall make an examination of the operations of a certified health plan as often as the commissioner deems it necessary in order to assure the financial security and health and safety of the enrolled residents. The insurance commissioner shall make an examination of a certified health plan not less than once every three calendar years.

(2) Every certified health plan shall submit its books and records relating to its operation for financial condition and market conduct examinations and in every way facilitate them. The quality or appropriateness of medical services and systems shall be examined by the department of health except that the insurance commissioner may review such areas to the extent that such items impact the financial condition or the market conduct of the certified health plan. For the purpose of the examinations the insurance commissioner may issue subpoenas, administer oaths, and examine the officers and principals of the certified health plans concerning their business.

(3) The insurance commissioner may elect to accept and rely on audit reports made by an independent certified public accountant for the certified health plan in the course of that part of the insurance commissioner's examination covering the same general subject matter as the audit. The commissioner may incorporate the audit report in his or her report of the examination.

(4) Certified health plans shall be equitably assessed to cover the cost of financial condition and market conduct examinations, the costs of adopting rules, and the costs of enforcing the provisions of this chapter. The assessments shall be levied not less frequently than once every twelve months and shall be in an amount expected to fund the examinations, adoption of rules, and enforcement of the provisions of this chapter including a reasonable margin for cost variations. The assessments shall be established by rules adopted by the commissioner in consultation with the health services commission but may not exceed five and one-half cents per month per resident enrolled in the certified health plan. The minimum assessment shall be one thousand dollars. Assessment receipts shall be deposited in the insurance commissioner's regulatory account in the state treasury and shall be used for the purpose of funding the examinations authorized in subsection (1) of this section. Assessments received shall be used to pay a pro rata share of the costs, including overhead of regulating certified health plans. Amounts remaining in the separate account at the end of a biennium shall be applied to reduce the assessments in succeeding biennia.

NEW SECTION. Sec. 441. INSOLVENCY--COMMISSIONER'S DUTIES, CONTINUATION OF BENEFITS, ALLOCATION OF COVERAGE. (1) In the event of insolvency of a certified health plan and upon order of the commissioner, all other certified health plans shall offer the enrolled Washington residents of the insolvent certified health plan the opportunity to enroll in a solvent certified health plan. Enrollment shall be without prejudice for any preexisting condition and shall be continuous provided the resident enrolls in the new certified health plan within thirty days of the date of insolvency and otherwise complies with the certified health plan's managed care procedures within the thirty-day open enrollment period.

(2) The insurance commissioner, in consultation with the health services commission, shall establish guidelines for the equitable distribution of the insolvent certified health plan's enrollees to the remaining certified health plans. The guidelines may include limitations to enrollment based on financial conditions, provider delivery network, administrative capabilities of the certified health plan, and other reasonable measures of the certified health plan's ability to provide benefits to the newly enrolled residents.

(3) Each certified health plan shall have a plan for handling insolvency that allows for continuation of benefits for the duration of the coverage period for which premiums have been paid and continuation of benefits to enrolled Washington residents who are confined on the date of insolvency in an inpatient facility until their discharge or transfer to a new certified health plan as provided in subsection (1) of this section. The plan shall be approved by the

insurance commissioner at the time of certification and shall be submitted for review and approval on an annual basis. The commissioner shall approve such a plan if it includes:

- (a) Insurance to cover the expenses to be paid for continued benefits after insolvency;
- (b) Provisions in provider contracts that obligate the provider to provide services for the duration of the period after the certified health plan's insolvency for which premium payment has been made and until the enrolled participant is transferred to a new certified health plan in accordance with subsection (1) of this section. Such extension of coverage shall not obligate the provider of service beyond thirty days following the date of insolvency;
- (c) Use of the funded reserve requirements as provided under section 439 of this act;
- (d) Acceptable letters of credit or approved surety bonds; or
- (e) Other arrangements the insurance commissioner and certified health plan mutually agree are appropriate to assure that benefits are continued.

NEW SECTION. Sec. 442. FINANCIAL FAILURE, SUPERVISION OF COMMISSIONER--PRIORITY OF DISTRIBUTION OF ASSETS. (1) Any rehabilitation, liquidation, or conservation of a certified health plan shall be deemed to be the rehabilitation, liquidation, or conservation of an insurance company and shall be conducted under the supervision of the insurance commissioner under the law governing the rehabilitation, liquidation, or conservation of insurance companies. The insurance commissioner may apply for an order directing the insurance commissioner to rehabilitate, liquidate, or conserve a certified health plan upon one or more of the grounds set forth in RCW 48.31.030, 48.31.050, and 48.31.080. Enrolled residents shall have the same priority in the event of liquidation or rehabilitation as the law provides to policyholders of an insurer.

(2) For purposes of determining the priority of distribution of general assets, claims of enrolled residents and their dependents shall have the same priority as established by RCW 48.31.280 for policyholders and their dependents of insurance companies. If an enrolled resident is liable to a provider for services under and covered by a certified health plan, that liability shall have the status of an enrolled resident claim for distribution of general assets.

(3) A provider who is obligated by statute or agreement to hold enrolled residents harmless from liability for services provided under and covered by a certified health plan shall have a priority of distribution of the general assets immediately following that of enrolled residents and enrolled residents' dependents as described in this section, and immediately preceding the priority of distribution described in RCW 48.31.280(2)(e).

NEW SECTION. Sec. 443. GRIEVANCE PROCEDURE. A certified health plan shall establish and maintain a grievance procedure approved by the commissioner, to provide a reasonable and effective resolution of complaints initiated by enrolled Washington residents concerning any matter relating to the provision of benefits under the uniform benefits package, access to health care services, and quality of services. Each certified health plan shall respond to complaints filed with the insurance commissioner within twenty working days. The insurance commissioner in consultation with the health care commission shall establish standards for grievance procedures and resolution.

NEW SECTION. Sec. 444. EXEMPTION. The provisions of sections 432 through 443 of this act do not apply to any disability insurance company, health care service contractor, or health maintenance organization authorized to do business in Washington.

NEW SECTION. Sec. 445. ENFORCEMENT AUTHORITY OF COMMISSIONER. For the purposes of chapter . . . , Laws of 1993 (this act), the insurance commissioner shall have the same powers and duties of enforcement as are provided in Title 48 RCW.

F. MANAGED COMPETITION AND LIMITED ANTI-TRUST IMMUNITY

NEW SECTION. Sec. 446. MANAGED COMPETITION FINDINGS AND INTENT. (1) The legislature recognizes that competition among health care providers, payers, and purchasers will yield the best allocation of health care resources, the lowest prices for health care, and the highest quality of health care when there exists a large number of buyers and sellers, easily comparable health care plans and services, minimal barriers to entry and exit into the health care market, and adequate information for buyers and sellers to base purchasing and production decisions. However, the legislature finds that purchasers of health care services and health care coverage do not have adequate information upon which to base purchasing decisions; that providers of health care services face legal

and market disincentives to develop economies of scale or to provide the most cost-efficient and efficacious service; that providers of health care coverage face market disincentives in providing health care coverage to those Washington residents with the most need for health care coverage; and that potential competitors in the provision of health care coverage bear unequal burdens in entering the market for health care coverage.

(2) The legislature therefore intends to displace competition in the health care market to the extent necessary to contain the aggregate cost of health care services; to promote comparability of health care coverage; to improve the cost-effectiveness in providing health care coverage relative to health promotion, disease prevention, and the amelioration or cure of illness; to assure access to a publicly determined, uniform package of health care benefits; and to create reasonable equity in the distribution of funds, treatment, and medical risk among purchasers of health care coverage, payers of health care services, providers of health care services, and Washington residents. To these ends, any lawful action taken pursuant to chapter . . . , Laws of 1993 (this act) by any person or entity created or regulated by chapter . . . , Laws of 1993 (this act) are declared to be taken pursuant to state statute and in furtherance of the public purposes of the state of Washington.

(3) The legislature does not intend and unless explicitly permitted in accordance with section 447 of this act or under rules adopted pursuant to chapter . . . , Laws of 1993 (this act), does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal anti-trust laws including but not limited to conspiracies to agree or agreements:

(a) Among competing health care providers not to grant discounts, not to provide services, or to fix the terms and conditions of their services;

(b) Among certified health plans as to the price or level of reimbursement for health care services;

(c) Among certified health plans to boycott a group or class of health care service providers;

(d) Among purchasers of certified health plan coverage to boycott a particular plan or class of plans;

(e) Among certified health plans to divide the market for health care coverage; or

(f) Among certified health plans and purchasers to attract or discourage enrollment of any Washington resident or groups of residents in a certified health plan based upon the perceived or actual risk of loss in including such resident or group of residents in a certified health plan or purchasing group.

NEW SECTION. Sec. 447. COMPETITIVE OVERSIGHT AND ANTI-TRUST IMMUNITY. (1) A certified health plan, health care facility, health care provider, or other person involved in the development or marketing of health care or certified health plans may request, in writing, that the attorney general issue an informal opinion as to whether particular conduct is authorized by chapter . . . , Laws of 1993 (this act). The attorney general shall issue such opinion within thirty days of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion. If the attorney general concludes that such conduct is not authorized by chapter . . . , Laws of 1993 (this act), the person or organization making the request may petition the commission for review and approval of such conduct in accordance with subsection (2) of this section.

(2) After consultation with and subject to the approval of the attorney general, the health services commission may authorize conduct requested by petition of a certified health plan, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a clear and convincing showing that the conduct is necessary to achieve the policy goals of chapter . . . , Laws of 1993 (this act) and a more competitive alternative is unavailable or impractical. Such petition shall be filed in a form and manner prescribed by rule of the commission.

After a public hearing, the commission shall issue a written decision approving or denying a petition filed in accordance with this section. The decision shall set forth findings as to benefits and disadvantages and explaining whether the benefits clearly outweigh the disadvantages. Upon the advice of the attorney general, the commission shall consider whether one or more of the following benefits may result:

(a) Enhancement of the quality of health services to consumers;

(b) Gains in cost-efficiency of health services;

(c) Improvements in utilization of health services and equipment; or

(d) Avoidance of duplication of health services resources.

These benefits must outweigh disadvantages including and not limited to:

(i) Reduced competition among certified health plans, health care providers, or health care facilities;

(ii) Adverse impact on quality, availability or price of health care services to consumers; or

(iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(3) Conduct authorized by the commission shall be deemed taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(4) With the assistance of the attorney general's office, the commission shall actively supervise any conduct authorized under this section and shall periodically review such conduct to determine whether such conduct should be continued and whether a more competitive alternative is available or practical. If the commission determines that the likely benefits of conduct approved by the commission no longer outweigh the disadvantages attributable to potential reduction in competition, the commission shall order a modification or discontinuance of such conduct and such conduct shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(5) The commission may adopt all rules necessary to implement this section.

(6) After consultation with and subject to the approval of the attorney general, the commission shall adopt rules:

(a) Governing conduct among providers, health care facilities, and certified health plans including but not limited to the use of "most favored nation" clauses and exclusive dealing clauses in provider contracts;

(b) Permitting health service providers within the service area of a plan to collectively negotiate terms and conditions of contracts with a certified health plan; and

(c) Governing the merger of health care facilities.

G. THE UNIFORM BENEFITS PACKAGE

NEW SECTION. Sec. 448. UNIFORM BENEFITS PACKAGE DESIGN. (1) The commission shall define the uniform benefits package, which shall include those health services that, consistent with the goals and intent of chapter . . . , Laws of 1993 (this act), are effective and necessary on a societal basis for the maintenance of the health of citizens of the state, weighed against the need to control state health services expenditures. As the future rate of increase in health services expenditures is controlled, the commission shall consider whether the uniform benefits package should be revised to enhance the services or level of services included in the package.

(2) The schedule of covered health services shall emphasize proven preventive and primary health care and shall include primary and specialty health services, inpatient and outpatient hospital services, prescription drugs and medications, services necessary for maternity and well-child care, including preventive dental services for children, case managed mental health services, short-term skilled nursing facility, home health and hospice services, subject to preapproval, and other services deemed necessary by the commission. The commission shall determine the specific schedule of health services within the uniform benefits package, including limitations on scope and duration of services. The commission shall consider the recommendations of health services effectiveness panels established pursuant to section 404 of this act in defining the uniform benefits package.

(3) The uniform benefits package shall not limit coverage for preexisting or prior conditions, except that the commission shall establish exclusions for preexisting or prior conditions to the extent necessary to prevent residents from waiting until health services are needed before enrolling in a certified health plan.

(4) The commission shall establish a schedule of enrollee point of service cost-sharing for nonpreventive health services, related to enrollee household income, such that financial considerations are not a barrier to access for low-income persons, but that, for those of means, the uniform benefits package provides for moderate point of service cost-sharing. All point of service cost-sharing and cost control requirements shall apply uniformly to all health care providers providing substantially similar uniform benefits package services. The schedule shall provide for an alternate and lower schedule of cost-sharing applicable to enrollees with household income below the federal poverty level.

(5) The commission shall adopt rules related to coordination of benefits where a resident has duplicate coverage. The rules shall not have the effect of eliminating enrollee premium sharing or point of service cost-sharing. The commission shall endeavor to assure an equitable distribution, among both employers and employees, of the costs of coverage for those households composed of more than one member in the work force.

(6) In determining the uniform benefits package, the commission shall endeavor to seek the opinions of and information from the public. The commission shall consider the results of official public health assessment and policy development activities including recommendations of the department of health in discharging its responsibilities under this section.

(7) The commission shall submit the following to the legislature by December 1, 1994, and annually thereafter: (a) The uniform benefits package and any changes it may wish to make; (b) an independent actuarial

analysis of the cost of the proposed package; (c) a small business economic impact statement, to be prepared in consultation with the small business advisory committee, describing the economic impact on small business of providing the uniform benefits package to employees and dependents; and (d) if the small business economic impact statement indicates a need for assistance to small businesses, recommended mechanisms to offer such assistance. In developing its recommendations, the commission shall evaluate the potential effectiveness of business and occupation tax credits, a small business assistance fund, and any other mechanism deemed appropriate by the commission.

NEW SECTION. Sec. 449. SUPPLEMENTAL BENEFIT PACKAGES DESIGN. The commission shall define several supplemental benefits packages, which shall include those health services that, consistent with the goals and intent of chapter . . . , Laws of 1993 (this act), are desirable to expand the available health services defined in the uniform benefits package. Such supplemental benefit packages must be offered only by certified health plans and must be designed in conformance with the procedures and requirements for the design of the uniform benefits package under section 448 of this act. In designing such supplemental benefits packages, the commission shall consider the approach taken by congress and federal agencies in regulating the offering and design of medicare supplemental health insurance policies and the commission shall develop a regulatory method to ensure that pricing of such supplemental benefits packages is consistent with the maximum premium requirements for the uniform benefits package under section 406(6) of this act.

NEW SECTION. Sec. 450. The legislature may disapprove of the packages developed under sections 448 and 449 of this act by an act of law at any time prior to the thirtieth day of the following regular legislative session. If such disapproval action is taken, the commission shall resubmit modified packages to the legislature within fifteen days of the disapproval. If the legislature does not disapprove the packages or modify them by an act of law by the end of that regular session, they are deemed approved.

NEW SECTION. Sec. 451. LONG-TERM CARE INTEGRATION PLAN. (1) To meet the health needs of the residents of Washington state, it is critical to finance and provide long-term care and support services through an integrated, comprehensive system that promotes human dignity and recognizes the individuality of all functionally disabled persons. This system shall be available, accessible, and responsive to all residents based upon an assessment of their functional disabilities. The governor and the legislature recognize that families, volunteers, and community organizations are essential for the delivery of effective and efficient long-term care and support services, and that this private and public service infrastructure should be supported and strengthened. Further, it is important to provide benefits in perpetuity without requiring family or program beneficiary impoverishment for service eligibility.

(2) To realize the need for a strong long-term care system and to carry out the November 30, 1992, final recommendations of the Washington health care commission related to long-term care, the commission shall:

(a) Engage in a planning process, in conjunction with an advisory committee appointed for this purpose, for the inclusion of long-term care services in the uniform benefits package established under section 448 of this act as soon as practicable, but not later than July 1998;

(b) Include in its planning process consideration of the scope of services to be covered, the cost of and financing of such coverage, and the means through which existing long-term care programs and delivery systems can be coordinated and integrated.

(3) The commission shall submit recommendations concerning any necessary statutory changes or modifications of public policy to the governor and the legislature by January 1, 1995.

(4) The departments of health, retirement systems, revenue, social and health services, and veterans' affairs, the offices of financial management, insurance commissioner, and state actuary, along with the health care authority, shall participate in the review of the long-term care needs enumerated in this section and provide necessary supporting documentation and staff expertise as requested by the commission.

(5) The commission shall include in its planning process, the development of two social health maintenance organization long-term care pilot projects. The two pilot projects shall be referred to as the Washington life care pilot projects. Each life care pilot program shall be a single-entry system administered by an individual organization that is responsible for bringing together a full range of medical and long-term care services. The commission, in coordination with the appropriate agencies and departments, shall establish a Washington life care benefits package that shall include the uniform benefits package established in chapter . . . , Laws of 1993 (this act) and long-term care services. The Washington life care benefits package shall include, but not be limited to, the following long-term care

services: Case management, intake and assessment, nursing home care, adult family home care, home health and home health aide care, hospice, chore services/homemaker/personal care, adult day care, respite care, and appropriate social services. The pilot project shall develop assessment and case management protocol that emphasize home and community-based care long-term care options.

(a) In designing the pilot projects, the commission shall address the following issues: Costs for the long-term care benefits, a projected case-mix based upon disability, the required federal waiver package, reimbursement, capitation methodology, marketing and enrollment, management information systems, identification of the most appropriate case management models, provider contracts, and the preferred organizational design that will serve as a functioning model for efficiently and effectively transitioning long-term care services into the uniform benefits package established in chapter . . . , Laws of 1993 (this act). The commission shall also be responsible for establishing the size of the two membership pools.

(b) Each program shall enroll applicants based on their level of functional disability and personal care needs. The distribution of these functional level categories and ethnicity within the enrolled program population shall be representative of their distribution within the community, using the best available data to estimate the community distributions.

(c) The two sites selected for the Washington life care pilot program shall be drawn from the largest urban areas and include one site in the eastern part of the state and one site in the western part of the state. The two organizations selected to manage and coordinate the life care services shall have the proven ability to provide ambulatory care, personal care/chore services, dental care, case management and referral services, must be accredited and licensed to provide long-term care for home health services, and may be licensed to provide nursing home care.

(d) The report on the development and establishment date of the two social health maintenance organizations shall be submitted to the governor and appropriate committees of the legislature by September 16, 1994. If the necessary federal waivers cannot be secured by January 1, 1995, the commission may elect to not establish the two pilot programs.

NEW SECTION. Sec. 452. ADDITIONAL BENEFITS. (1) Nothing in chapter . . . , Laws of 1993 (this act) shall preclude insurers, health care service contractors, health maintenance organizations, or certified health plans from insuring, providing, or contracting for additional benefits not included in the uniform benefits package or in supplemental benefits packages designed by the commission.

(2) Nothing in chapter . . . , Laws of 1993 (this act) shall restrict the right of an employer to offer, an employee representative to negotiate for, or an individual to purchase additional benefits not included in the uniform benefits package.

(3) Nothing in chapter . . . , Laws of 1993 (this act) shall restrict the right of an employer to offer or an employee representative to negotiate for payment of up to one hundred percent of the premium of the lowest priced uniform benefits package available in the geographic area where the employer is located.

(4) Pending receipt of necessary federal waivers, nothing in chapter . . . , Laws of 1993 (this act) shall be construed to limit the collective bargaining rights of employee organizations under state or federal law.

NEW SECTION. Sec. 453. CONSCIENCE OR RELIGION. (1) No certified health plan or health care provider may be required by law or contract in any circumstances to participate in the provision of any uniform benefit if they object to so doing for reason of conscience or religion. No person may be discriminated against in employment or professional privileges because of such objection.

(2) The provisions of this section are not intended to result in an enrollee being denied timely access to any service included in the uniform benefits package. Each certified health plan shall:

(a) Provide written notice to certified health plan enrollees, upon enrollment with the plan and upon enrollee request thereafter, listing, by provider, services that any provider refuses to perform for reason of conscience or religion;

(b) Develop written information describing how an enrollee may directly access, in an expeditious manner, services that a provider refuses to perform; and

(c) Ensure that enrollees refused services under this section have prompt access to the information developed pursuant to (b) of this subsection.

H. STATE RESIDENT AND EMPLOYER PARTICIPATION

NEW SECTION. Sec. 454. INDIVIDUAL PARTICIPATION. (1) All residents of the state of Washington are required to purchase a uniform benefits package from a certified health plan no later than July 1, 1998. This participation requirement may be waived if imposition of the requirement would constitute a violation of the freedom of religion provisions set forth in the First Amendment, United States Constitution and Article I, section 11 of the state Constitution. Residents of the state of Washington who work in another state for an out-of-state employer shall be deemed to have satisfied the requirements of this section if they receive health insurance coverage through such employer.

(2) The commission shall monitor the enrollment of individuals into certified health plans and shall make public periodic reports concerning the number of persons enrolled and not enrolled, the reasons why individuals are not enrolled, recommendations to reduce the number of persons not enrolled, and recommendations regarding enforcement of this provision.

NEW SECTION. Sec. 455. EMPLOYER PARTICIPATION. (1) The legislature recognizes that small businesses play an essential and increasingly important role in the state's economy. The legislature further recognizes that many of the state's small business owners provide health insurance to their employees through small group policies at a cost that directly affects their profitability. Other small business owners are prevented from providing health benefits to their employees by the lack of access to affordable health insurance coverage. The legislature intends that the provisions of chapter . . . , Laws of 1993 (this act) make health insurance more available and affordable to small businesses in Washington state through strong cost control mechanisms and the option to purchase health benefits through the basic health plan, the Washington state group purchasing association, and health insurance purchasing cooperatives.

(2) In defining the level of mandated employer participation under this section, the commission shall consider the impact of such participation on the financial well-being of the state's employers. In its deliberations, the commission shall evaluate the following:

(a) Whether employers' premium payments should be related to the number of qualified employees the business employs;

(b) Whether different levels of employer premium payments should be applied to employees and dependents;

(c) The profitability of small businesses in Washington state; and

(d) Any other factors deemed necessary by the commission.

(3) On July 1, 1995, every employer employing more than five hundred qualified employees shall offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, to all qualified employees. The employer shall be required to pay no less than fifty percent and no more than ninety-five percent of the premium cost of the lowest cost available package within their geographic region as determined by the commission. On July 1, 1996, all dependents of qualified employees of these firms shall be offered a choice of packages as provided in this section with the employer paying no less than fifty percent and no more than ninety-five percent of the premium of the lowest cost package within their geographic region as determined by the commission. For part-time employees and their dependents, the employer shall pay the amount resulting from application of the following formula: The number of hours worked by the part-time employee in a month is multiplied by the amount of a qualified employee's premium, and that amount is then divided by eighty.

(4) By July 1, 1996, every employer employing more than one hundred qualified employees shall offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their geographic region, to all qualified employees. The employer shall be required to pay no less than fifty percent and no more than ninety-five percent of the premium cost of the lowest cost available package as determined by the commission. On July 1, 1997, all dependents of qualified employees in these firms shall be offered a choice of packages as provided in this section with the employer paying no less than fifty percent and no more than ninety-five percent of the premium of the lowest cost package within their geographic area as determined by the commission. For part-time employees and their dependents, the employer shall pay the amount resulting from application of the following formula: The number of hours worked by the part-time employee in a month is multiplied by the amount of a qualified employee's premium, and that amount is then divided by eighty.

(5) By July 1, 1997, every employer shall offer a choice of the uniform benefits package as provided by at least three available certified health plans, one of which shall be the lowest cost available package within their

geographic region, to all qualified employees. The employer shall be required to pay no less than fifty percent and no more than ninety-five percent of the premium cost of the lowest cost available package as determined by the commission. On July 1, 1998, all dependents of qualified employees in all firms shall be offered a choice of packages as provided in this section with the employer paying no less than fifty percent and no more than ninety-five percent of the premium of the lowest cost package within their geographic area as determined by the commission. For part-time employees and their dependents, the employer shall pay the amount resulting from application of the following formula: The number of hours worked by the part-time employee in a month is multiplied by the amount of a qualified employee's premium, and that amount is then divided by eighty.

(6) This employer participation requirement may be waived if imposition of the requirement would constitute a violation of the freedom of religion provisions of the First Amendment of the United States Constitution and Article I, section 11, of the state Constitution. In such case the employer shall, pursuant to commission rules, set aside an amount equal to the applicable employer contribution level in a manner that would permit his or her employee to fully comply with the requirements of this chapter.

(7) The commission shall adopt rules that address employer participation requirements related to dependents when dependents are eligible for coverage under more than one plan.

(8) In lieu of offering the uniform benefits package to employees and their dependents through direct contracts with certified health plans, an employer may combine the employer contribution with that of the employee's contribution and enroll in the basic health plan as provided in chapter 70.47 RCW or a health insurance purchasing cooperative established under sections 425 and 426 of this act.

(9) The commission shall submit its employer contribution levels and any changes it may wish to make to the legislature by December 1, 1994, and annually thereafter.

NEW SECTION. Sec. 456. The legislature may disapprove of the levels under section 455 of this act by an act of law at any time prior to the thirtieth day of the following regular legislative session. If such disapproval action is taken, the commission shall resubmit regular modified employer contribution levels to the legislature within fifteen days of the disapproval. If the legislature does not disapprove the levels or modify them by an act of law by the end of that regular session they shall be deemed approved.

NEW SECTION. Sec. 457. Under the guidance and direction of the Washington health services commission not more than two depositories will be established where the premium payments made by employers on behalf of part-time employees may be held in safekeeping for the benefit of such individuals. The commission shall establish, after consultation with representatives of employers and employees, especially those engaged in part-time or seasonal businesses or occupations, appropriate procedures whereby such payments under section 455 of this act will be properly deposited to the credit of such persons on an individual basis, which they in turn may access for the purchase of coverage for themselves and their families from the basic health plan or a certified health plan of their choice.

I. PUBLIC HEALTH SERVICES IMPROVEMENT PLAN

NEW SECTION. Sec. 458. A new section is added to chapter 43.70 RCW to read as follows:
PUBLIC HEALTH SERVICES IMPROVEMENT PLAN. (1) The legislature finds that the public health functions of community assessment, policy development, and assurance of service delivery are essential elements in achieving the objectives of health reform in Washington state. The legislature further finds that the population-based services provided by state and local health departments are cost-effective and are a critical strategy for the long-term containment of health care costs. The legislature further finds that the public health system in the state lacks the capacity to fulfill these functions consistent with the needs of a reformed health care system.

(2) The department of health shall develop, in consultation with local health departments and districts, the state board of health, the health services commission, area Indian health service, and other state agencies, health services providers, and citizens concerned about public health, a public health services improvement plan. The plan should provide a detailed accounting of deficits in the core functions of assessment, policy development, assurance of the current public health system, how additional public health funding would be used, and describe the benefits expected from expanded expenditures.

(3) The plan shall include:

(a) Definition of minimum standards for public health protection through assessment, policy development, and assurances;

- (i) Enumeration of communities not meeting those standards;
 - (ii) A budget and staffing plan for bringing all communities up to minimum standards;
 - (iii) An analysis of the costs and benefits expected from adopting minimum public health standards for assessment, policy development, and assurances;
- (b) Recommended strategies and a schedule for improving public health programs throughout the state, including:
- (i) Strategies for transferring personal health care services from the public health system, into the uniform benefits package where feasible; and
 - (ii) Timing of increased funding for public health services linked to specific objectives for improving public health; and
- (c) A recommended level of dedicated funding for public health services to be expressed in terms of a percentage of total health service expenditures in the state or a set per person amount; such recommendation shall also include methods to ensure that such funding does not supplant existing federal, state, and local funds received by local health departments, and methods of distributing funds among local health departments.
- (4) By March 1, 1994, the department shall provide initial recommendations of the public health services improvement plan to the legislature regarding minimum public health standards, and public health programs needed to address urgent needs, such as those cited in subsection (6) of this section.
- (5) By December 1, 1994, the department shall present the public health services improvement plan to the legislature, with specific recommendations for each element of the plan to be implemented over the period from 1995 through 1997.
- (6) Thereafter, the department shall update the public health services improvement plan for presentation to the legislature prior to the beginning of a new biennium.
- (7) Among the specific population-based public health activities to be considered in the public health services improvement plan are: Health data assessment and chronic and infectious disease surveillance; rapid response to outbreaks of communicable disease; efforts to prevent and control specific communicable diseases, such as tuberculosis and acquired immune deficiency syndrome; health education to promote healthy behaviors and to reduce the prevalence of chronic disease, such as those linked to the use of tobacco; access to primary care in coordination with existing community and migrant health clinics and other not for profit health care organizations; programs to ensure children are born as healthy as possible and they receive immunizations and adequate nutrition; efforts to prevent intentional and unintentional injury; programs to ensure the safety of drinking water and food supplies; poison control; trauma services; and other activities that have the potential to improve the health of the population or special populations and reduce the need for or cost of health services.

The commission shall request in the waiver that funds from these sources continue to be allocated to federally funded community and migrant health clinics to the extent that such clinics' patients are not yet enrolled in certified health plans.

(d) Negotiate with the United States Congress to obtain a statutory exemption from provisions of the Employee Retirement Income Security Act that limit the state's ability to enact legislation relating to employee health benefits plans administered by employers, including health benefits plans offered by self-insured employers.

budget committee either directly or by contract shall conduct the following studies:

(a) A study to determine whether the administrative structure of the Washington health services commission as set forth in section 403 of this act should be continued. The study shall analyze the structure as set forth in chapter . . . , Laws of 1993 (this act), a single administering-agency model, and at least one other salient organizational model, and recommend a structure that would be most efficient and effective;

(b) A study to determine the desirability and feasibility of consolidating the following programs, services, and funding sources into the delivery and financing of uniform benefits package services through certified health plans:

(ii) Civilian health and medical program of the uniformed services (CHAMPUS) of the federal department of defense and other federal agencies; and

(2) The study shall address methods to integrate coverage sold by property and casualty insurance companies that covers medical and hospital expenses with coverage provided through certified health plans. In conducting the study, the legislative budget committee shall evaluate at least the following options:

(a) Requiring all property and casualty insurance coverage of health services to be provided through managed care systems rather than through fee for service or indemnification plans;

(b) Prohibiting certified health plans from recovering from property and casualty insurance companies amounts that the plan has expended for health services even if coverage for such services is available under property and casualty insurance policies;

(c) Requiring persons injured as a result of an accident, however caused, to obtain health services through a certified health plan, even if coverage for health services is available under a property and casualty insurance policy;

(d) Requiring property and casualty insurance companies to reduce premium rates for all coverage duplicated by a certified health plan to the extent that a certified health plan is denied subrogation rights against the property and casualty insurer;

(e) Prohibiting litigation by any person to recover amounts paid for health services available under a certified health plan, except in limited circumstances such as product liability or other areas of negligence where the negligent party would benefit from such a system without contributing to the costs of providing coverage under certified health plans; and

(f) Limiting property and casualty insurance companies' sale of coverage that would duplicate coverage provided by certified health plans.

NEW SECTION. Sec. 465. A new section is added to chapter 70.170 RCW to read as follows:

HOSPITAL REGULATION STUDY. (7) Recommendations on elimination or consolidation of unnecessary or duplicative regulatory activities that would not result in a reduction in the health and safety objectives.

NEW SECTION. Sec. 466. The department of social and health services aging and adult services administration shall, to the extent that resources are available, review all federal and state laws, and departmental rules that require health care providers in nursing homes to submit documentation. The departmental review shall be conducted to determine what documentation or protocols are redundant and can be modified or eliminated without jeopardizing the health and safety of residents or violating federal regulations. The review shall result in an itemized evaluation of the number of forms requiring physician's review and signature together with a citation of their origin. In addition, the department shall review and suggest efficiencies that could be realized through the development of standardized physicians' protocols for repetitive but nonlifethreatening conditions, such as but not limited to, skin tears, early stage decubiti, bowel and bladder care, and other common and predictable nursing home patient conditions. Whenever possible, source documentation should be enabled to allow multiple attestations to be consolidated into a single document. The department shall conduct this review in coordination with different nursing home care constituent groups and professions, including but not limited to, a gerontologist to be selected by the Washington state medical association and the Washington osteopathic medical association, a nurse to be selected by the Washington state nurses association, one representative from each of the two largest nursing home associations, and a representative of a nursing home residency advocacy group to be selected by the department. The department shall make appropriate regulatory changes, or recommend appropriate regulatory changes to the appropriate regulatory agency, resulting from this review and report its actions and any statutory changes needed to

further the goal of regulatory simplification to the chair of the house of representatives health care committee and the chair of the senate health and human services committee by December 12, 1994.

NEW SECTION. Sec. 467. CERTIFIED HEALTH PLAN COMPETITION. The insurance commissioner shall undertake a study of the feasibility and benefits of developing a single licensing category for certified health plans that would replace current statutes licensing disability insurers, health care service contractors, and health maintenance organizations. The commissioner shall report his or her findings and recommendations to the legislature by January 1, 1994. In conducting such study, the commissioner shall:

- (1) Consider standards for the regulation and inclusion of preferred provider organizations, independent practice associations, and independent physician organizations under such new certified health plan statute;
- (2) Review existing capital and reserve statutes governing insurers, contractors, and health maintenance organizations to determine the appropriate level of capital and reserve for licensing of certified health plans to protect consumers while encouraging competition in the certified health plan market from new entrants into the market;
- (3) Review existing rate regulation of disability insurance policies, health care service contracts, and health maintenance agreements and propose a uniform approach for regulation of rates that balances the need of certified health plans to freely compete and the need to protect consumers from inadequate, excessive, or unfairly discriminatory rates;
- (4) Consider regulatory methods to ensure the adequate provision of and contracting with health care facilities and providers by certified health plans to meet the health care needs of enrollees of certified health plans;
- (5) Consider the need to modify existing insurance statutes and regulations to govern the integration, development, and marketing of health care coverage that would supplement the uniform benefits package; and
- (6) Consult with health care service contractors, health maintenance organizations, disability insurance companies, and other health care service providers who would be affected by such changes.

NEW SECTION. Sec. 468. CRIME VICTIMS' COMPENSATION MEDICAL BENEFITS. (1) On or before January 1, 1995, the department of labor and industries in coordination with the commission, shall complete a study related to the medical services component of the crime victims' compensation program of the department of labor and industries. The goal of the study shall be to determine whether and how the medical services component of the crime victims' compensation program can be modified to provide appropriate medical services to crime victims in a more cost-effective manner. In conducting the study, consideration shall be given to at least the following factors: Required benefit design, necessary statutory changes, and the use of managed care to provide services to crime victims. The study shall evaluate at least the following options:

- (a) Whether the medical services component of the crime victims' compensation program should be maintained within the department of labor and industries, and its purchasing and other practices modified to control costs and increase efficacy of health services provided to injured workers;
 - (b) Whether the medical services component of the crime victims' compensation program should be administered by the health care authority as the state health care purchasing agent;
 - (c) Whether the medical services component of the crime victims' compensation program should be included in the services offered by certified health plans.
- (2) The department of labor and industries shall present the recommendations to the governor and the appropriate committees of the legislature by January 1, 1995.

L. WORKERS' COMPENSATION

NEW SECTION. Sec. 469. WORKERS' COMPENSATION MEDICAL BENEFITS. (1) An employer who self-insures for employee medical benefits or workers' compensation benefits and who meets the requirements for a certified health plan under section 428 of this act, may apply to the department of labor and industries for an exemption from the requirements of Title 51 RCW regarding the medical portion of the workers' compensation program.

- (2) The director of the department of labor and industries shall grant such an exemption if he or she finds that (a) the applicant employer has a record of no less than two years of compliance with the requirements to be a certified health plan, (b) the uniform benefit package provided by the certified health plan that would assume workers' compensation responsibilities include medically necessary services available under the workers' compensation program in 1992, including payments for disability determinations, (c) the state has achieved access by no less than

ninety-seven percent of all state residents to coverage for the uniform benefit package, (d) there is no reasonable expectation that granting such an exemption will result in a reduction in needed time loss awards or rehabilitative services, (e) the employees' share of workers' compensation medical aid fund contributions are returned to the employee as increased wages, and (f) a majority of employees in the employer's company do not object to the exemption.

(3) If, after periodic review of exemptions granted under this section, the director of labor and industries finds that the conditions in subsection (2) of this section are not present, he or she may withdraw the exemption and immediately require the employer to reestablish a separate workers' compensation medical aid fund program.

(4) In consultation with representatives of organized labor and the large and small business communities of the state, and consistent with chapter . . . , Laws of 1993 (this act), the statutory workers' compensation advisory committee and the department of labor and industries shall propose a plan and timeline for including the medical services of the workers' compensation program of the department of labor and industries in the services offered by certified health plans. No plan or timeline may take effect until at least ninety-seven percent of state residents have access to the uniform benefit package as required in chapter . . . , Laws of 1993 (this act). No plan or timeline may be proposed that does not assure that (a) the uniform benefit package provides benefits which are medically necessary under the workers' compensation program in 1993, including payment for medical determinations of disability under chapter RCW, (b) statutory assurances are provided that time loss benefits and rehabilitative services will not be reduced as a result of the transfer, (c) employers who self-fund for health insurance or workers' compensation and who do not choose to become certified health plans under chapter . . . , Laws of 1993 (this act), will continue to be required to provide workers' compensation benefits as required under 1993 law, (d) the employees' share of the workers' compensation medical aid fund contribution is returned to employees as increased wages, and (e) a majority of employees in the employer's company do not object to the change.

The medical aid fund portion of the workers' compensation program affected by this section shall not be less than the percentage of the medical aid portion of the workers' compensation program in 1992.

To help in developing this plan the department of labor and industries may immediately implement pilot projects to assess the effects of this consolidation on the cost, quality comparability, and employer/employee satisfaction with various consolidation proposals.

The plan and timeline required under this subsection shall be presented to the governor and the appropriate committees of the legislature by January 1, 1995. The timeline shall include full implementation of needed rules by July 1, 1998.

NEW SECTION. Sec. 470. MANAGED CARE PILOT PROJECTS. (1) The department of labor and industries, in consultation with the workers' compensation advisory committee, may implement pilot projects to purchase medical services for injured workers through managed care arrangements. The projects shall assess the effects of managed care on the cost and quality of, and employer and employee satisfaction with, medical services provided to injured workers.

(2) The pilot projects may be limited to specific employers. The implementation of a pilot project shall be conditioned upon a participating employer's and a majority of its employees, or the employees' representative, if a collective bargaining agreement exists, voluntarily agreeing to the terms of the pilot. Both the employer and employees are bound by the project agreements for the duration of the project.

(3) For participating employers and for the purpose of completing these pilot projects, the projects shall be exempt from the requirements of Title 51 RCW that would prohibit implementation of the pilot projects. Such exemption relates solely to the purpose and duration of the study. Managed care arrangements for the pilot projects may include the designation of doctors responsible for the care delivered to injured workers participating in the projects.

(4) The projects shall conclude no later than January 1, 1996. The department shall present the results of the pilot projects and any recommendations related to the projects to the governor and appropriate committees of the legislature on or before October 1, 1996.

"NEW SECTION. Sec. 1. (1) The legislature finds:

(a) Mathematics, science, and technology subtly but profoundly impact the lives of Washington state residents. In the coming years mathematics, science, and technology will become increasingly important in addressing societal concerns about health, environmental protection, conservation, energy supply, and industrial growth;

(b) There is consensus that the most likely leading industries in the twenty-first century will be in microelectronics, biotechnology, new materials industries, civilian aviation, telecommunications, robotics, and computer-related technologies. This means that literacy in mathematics, science, and technology will become increasingly important to the economic future of Washington state; and

(c) National education goal number four establishes that by the year 2000, United States students will be first in the world in science and mathematics achievement.

(2) The legislature recognizes that change is not optional and believes that only if literacy in mathematics, science, and technology is expanded to include all segments of the population can Washington state build upon existing public and private sector resources to take full advantage of the projected leading industries for the twenty-first century and achieve national education goal number four.

(3) It is the intent of the legislature to develop a long-range, comprehensive mathematics, science, and technology literacy program that reaches into all segments of society and supports a vision in which Washington state is a place where all citizens demonstrate, value, and support literacy in mathematics, science, and technology.

NEW SECTION. Sec. 2. Before July 1, 1994, the higher education coordinating board may solicit, receive, and expend any private gifts or grants to conduct the study in section 3 of this act. Funds shall be expended in accordance with the conditions contingent in the gift or grant of those funds.

The study shall be completed by July 1, 1995.

NEW SECTION. Sec. 5. For the purpose of the study in section 3 of this act, the purpose of a Washington state institute for science, technology, and society is as follows:

- (1) Implementation of a long-range comprehensive mathematics, science, and technology literacy program;
- (2) Development, identification, and dissemination of math, science, and technology curriculum options, textbooks, and course materials;
- (3) Provide institutes, workshops, and in-service training to teachers, college and university professors, and school administrators;
- (4) Coordinate the dissemination of information to groups and agencies, including a clearinghouse of speakers on mathematics, science, and technology literacy; and
- (5) Provide technical expertise to common schools and institutions of higher education.

ESSB 5454 Prime Sponsor, Committee on Trade, Technology & Economic Development: Creating jobs to restore and enhance Washington's estuaries, waterways, and watersheds. Reported by Committee on Environmental Affairs

MAJORITY recommendation: Do pass with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. LEGISLATIVE FINDINGS. (1) The legislature finds that the long-term health of the economy of Washington state depends on the sustainable management of its natural resources. Washington's forests, estuaries, waterways, and watersheds provide a livelihood for thousands of citizens of Washington state and millions of dollars of income and tax revenues every year from forests, fisheries, shellfisheries, recreation, tourism, and other water-dependent industries. The legislature further finds that the livelihoods and revenues produced by the state's forests, estuaries, waterways, and watersheds are threatened by continuing degradation of habitats and water quality.

(2) The legislature finds that existing programs to protect and enhance the state's forests, estuaries, waterways, and watersheds need to be better coordinated in order to conserve our natural and financial resources.

(3) The legislature finds that unemployed workers and Washington's economically distressed communities can benefit from opportunities for employment through labor intensive restoration projects.

(4) The legislature recognizes that stewardship activities on state-owned lands is a responsible investment consistent with the provisions of this chapter. It is the intent of the legislature that stewardship activities funded under this chapter provide labor intensive employment.

(5) Employment under this chapter is not intended to displace or partially displace currently employed workers, including but not limited to, state employees and service employees under existing contracts.

(6) Wages paid under this chapter shall be based on market rates in accordance with the required skills and complexity of the jobs created.

(7) The legislature therefore declares that investments in labor-intensive restoration projects, based on sound principles of environmental and forest restoration are necessary to prevent the burdening of future generations with clean-up costs, poorly functioning ecosystems, and the collapse of industries that rely on a healthy environment.

NEW SECTION. Sec. 2. INTERAGENCY COORDINATING COUNCIL. (1) There is created an interagency council on environmental and forest restoration within the office of the governor. The purpose of the council is to promote a coordinated and comprehensive approach to the state's environmental and forest restoration needs. The council shall consist of the director or commissioner from each of the following agencies: The department of ecology, the department of natural resources, the department of fisheries, the department of wildlife, the state parks and recreation commission, the interagency committee for outdoor recreation, the department of

community development, the employment security department, the conservation commission, and the Puget Sound water quality authority. In addition, the governor shall appoint one member each from the following: The Washington state association of counties, the association of Washington cities, labor organizations, environmental organizations, and the tribes. Nonagency members of the council may advise on but shall not participate in decisions to fund projects. The council shall be chaired by the governor or the governor's designee.

(2) The department of community development shall provide staff support services to the council.

NEW SECTION. Sec. 3. DUTIES OF THE COUNCIL. (1) Beginning July 1, 1993, the council shall have the following responsibilities:

(a) To coordinate a process to assist state agencies and local governments to implement effective environmental restoration projects;

(b) To evaluate unemployment profile data provided by the employment security department; and

(c) To review projects funded through the fiscal year 1994 omnibus operating and capital appropriations acts for consistency with provisions of this chapter.

(2) No later than December 31, 1993, the council shall provide recommendations to the appropriate committees of the legislature to streamline the administration of grants for programs that provide financial assistance to local governments for the purposes of preventing habitat and environmental degradation. These programs include but are not limited to grants for watershed planning, water quality management, ecosystem management, waste management, and local comprehensive planning.

(3) Beginning July 1, 1994, the council shall have the following responsibilities:

(a) To solicit and evaluate proposals from state and local agencies, private nonprofit organizations, and tribes for forest and environmental restoration projects;

(b) To rank the proposals based on criteria developed by the council in accordance with section 5 of this act;

(c) To determine funding allocations for projects to be funded from the account created in section 4 of this act, and for projects or programs as designated in the omnibus operating and capital appropriations acts; and

(d) To submit to the appropriate standing committees of the legislature, a biennial report summarizing the jobs and the environmental benefits created by the projects funded under this chapter.

NEW SECTION. Sec. 4. ENVIRONMENTAL AND FOREST RESTORATION ACCOUNT. (1) The environmental and forest restoration account is established in the state treasury. Money in the account may only be spent after appropriation by the legislature and in a manner consistent with this chapter. Private nonprofit organizations and state, local, and tribal entities are eligible for funds under this chapter. Money in the account may be used to make grants, loans, or interagency contracts as needed to implement environmental and forest restoration projects.

(2) The department of community development shall administer the account. To the extent possible, the department shall use existing mechanisms of grant and program administration.

(3) The environmental and forest restoration account shall consist of funds appropriated by law, principal and interest from the repayment of loans granted under this chapter, and federal and other money received by the state for deposit in the account.

(4) At least ten percent of the annual revenues to the environmental restoration account shall be expended by the Washington conservation corps to employ high-risk youth on projects consistent with this chapter and to fund administrative support services required by the senior environmental corps.

(5) No more than three percent of the annual revenues to the environmental and forest restoration account shall be expended for administrative purposes.

(6) Except for essential administrative and supervisory purposes, money in the account may not be used for hiring permanent state employees.

NEW SECTION. Sec. 5. ENVIRONMENTAL AND FOREST RESTORATION PROJECTS--CRITERIA. (1) The council shall make recommendations for projects to be funded by the environmental and forest restoration account that:

(a) Produce measurable improvements in water and habitat quality;

(b) Create jobs that are labor intensive;

(c) Give priority to projects that achieve cost efficiencies by designing the project to meet multiple policy objectives;

(d) Implement a state or federally mandated plan relating to environmental or forest restoration, including but not limited to a local watershed action plan, stormwater management plan, capital facility plan, growth management plan, or a flood control plan;

(e) Coordinate projects from the community in which the project is located;

(f) Are supported financially or through in-kind resources at the local level;

(g) Utilize unemployed workers and high-risk youth, especially in areas that are economically distressed.

For the purposes of this subsection, "high-risk youth" shall mean youth eligible for Washington conservation corps programs under chapter 43.220 RCW or Washington service corps programs under chapter 50.65 RCW; and

(h) Implement policies developed through comprehensive watershed management analysis.

(2) To the greatest extent possible, the council shall not award funds to projects that include the following activities:

(a) Administrative rule making;

(b) Planning; or

(c) Public education.

NEW SECTION. Sec. 6. FIRST YEAR PROJECT FUNDING. It is the intent of the legislature to promote a comprehensive approach for evaluating projects that address natural resource conservation needs. At the same time, the legislature recognizes the necessity for immediate job creation and environmental restoration. The legislature therefore declares that, for fiscal year 1994, funding to implement the purposes of this chapter shall be provided through individual agency appropriations as specified in the omnibus operating and capital appropriations acts.

NEW SECTION. Sec. 7. UNANTICIPATED FEDERAL FUNDS. When an agency represented on the council submits an unanticipated federal receipt under RCW 43.79.270, the governor shall consider placing these funds into the environmental and forest restoration account or requiring that the funds be used in a manner consistent with the criteria established in section 5 of this act.

NEW SECTION. Sec. 8. RECRUITMENT AND EMPLOYMENT. (1) The council shall submit a list to the employment security department of projects receiving funds under the provisions of this chapter or from any legislative appropriations. The list shall include the number and types of jobs expected to be needed in each project. The employment security department shall recruit workers for hiring by employers funded under provisions of this chapter by:

(a) Notifying dislocated forest products workers who meet the definitions in chapter 50.70 RCW who are receiving unemployment benefits or who have exhausted unemployment benefits, of their eligibility for the programs;

(b) Notifying other unemployed workers;

(c) Developing a pool of unemployed workers including high-risk youth eligible to enroll in the programs; and

(d) Establishing procedures for workers to apply to the programs.

(2) Employers receiving funds from the account shall consider the list of eligible workers developed by the employment security department.

(3) To the extent possible, workers hired under this chapter shall receive training in environmental enhancement and forest restoration skills.

(4) Program enrollees hired by a state agency, except for Washington conservation and service corps enrollees, shall receive medical and dental benefits as provided under chapter 41.05 RCW, industrial insurance coverage under Title 51 RCW, but are exempt from the provisions of chapter 41.06 RCW.
