RCW 28A.193.005 Intent--Findings.

The legislature intends to provide for the operation of education programs for the department of corrections' juvenile inmates. School districts, educational service districts, or any combination thereof should be the primary providers of the education programs. However, the legislature does not intend to preclude community and technical colleges, four-year institutions of higher education, or other qualified entities from contracting to provide all or part of these education programs if no school district or educational service district is willing to operate all or part of the education programs.

The legislature finds that this chapter fully satisfies any constitutional duty to provide education programs for juvenile inmates in adult correctional facilities. The legislature further finds that biennial appropriations for education programs under this chapter amply provide for any constitutional duty to educate juvenile inmates in adult correctional facilities.

[1998 c 244 § 1.]

RCW 28A.193.010 Operation of program by school district or educational service district.

Any school district or educational service district may operate all or any portion of an education program for juveniles in accordance with this chapter, notwithstanding the fact the services or benefits provided extend beyond the geographic boundaries of the school district or educational service district providing the service.

[1998 c 244 § 2.]

RCW 28A.193.020 Solicitation for education provider--Selection of provider--Operation of program by educational service district.

The superintendent of public instruction shall solicit an education provider for the department of corrections' juvenile inmates within sixty days as follows:

(1) The superintendent of public instruction shall notify and solicit proposals from all interested and capable school districts, educational service districts, institutions of higher education, private contractors, or any combination thereof. The notice shall describe the proposed education program's requirements and the appropriated amount. The selection of an education provider shall be in the following order:

(a) The school district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections has first priority to operate an education program for inmates at that site. The district may elect to operate an education program by itself or with another school district, educational service district, institution of higher

education, private contractor, or any combination thereof. If the school district elects not to exercise its priority, it shall notify the superintendent of public instruction within thirty calendar days of the day of solicitation.

(b) The educational service district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections has second priority to operate an education program for inmates at that site. The educational service district may elect to do so by itself or with a school district, another educational service district, institution of higher education, private contractor, or any combination thereof. If the educational service district elects not to exercise its priority, it shall notify the superintendent of public instruction within forty-five calendar days of the day of solicitation.

(c) If neither the school district nor the educational service district chooses to operate an education program for inmates as provided for in (a) and (b) of this subsection, the superintendent of public instruction may contract with an entity, including, but not limited to, school districts, educational service districts, institutions of higher education, private contractors, or any combination thereof, within sixty calendar days of the day of solicitation. The selected entity may operate an education program by itself or with another school district, educational service district, institution of higher education, or private contractor, or any combination thereof.

(2) If the superintendent of public instruction does not contract with an interested entity within sixty days of the day of solicitation, the educational service district where there is an educational site for juveniles in an adult correctional facility maintained by the state department of corrections shall begin operating the education program for inmates at the site within ninety days from the day of solicitation in subsection (1) of this section.

[1998 c 244 § 3.]

RCW 28A.193.030 Duties and authority of education provider--Continuation in program by students age eighteen.

Except as otherwise provided for by contract under RCW 28A.193.060, the duties and authority of a school district, educational service district, institution of higher education, or private contractor to provide for education programs under this chapter are limited to the following:

(1) Employing, supervising, and controlling administrators, teachers, specialized personnel, and other persons necessary to conduct education programs, subject to security clearance by the department of corrections;

(2) Purchasing, leasing, or renting and providing textbooks, maps, audiovisual equipment, paper, writing instruments, physical education equipment, and other instructional equipment, materials, and supplies deemed necessary by the provider of the education programs;

(3) Conducting education programs for inmates under the age of eighteen in accordance with program standards established by the superintendent of public instruction. The education provider shall develop the curricula, instructional methods, and educational objectives of the education programs, subject to applicable requirements of state and federal law. The department

of corrections shall establish behavior standards that govern inmate participation in education programs, subject to applicable requirements of state and federal law;

(4) Students age eighteen who have participated in an education program governed by this chapter may continue in the program with the permission of the department of corrections and the education provider, under the rules adopted by the superintendent of public instruction.

[1998 c 244 § 4.]

RCW 28A.193.040 Education providers--Additional authority and limitations.

School districts and educational service districts providing an education program to juvenile inmates in an adult corrections [correctional] facility, notwithstanding that their geographical boundaries do not include the facility, may:

(1) Award appropriate diplomas or certificates to inmates who successfully complete graduation requirements;

(2) Spend only funds appropriated by the legislature and allocated by the superintendent of public instruction for the exclusive purpose of maintaining and operating education programs under this chapter, including direct and indirect costs of maintaining and operating the education programs, and funds from federal and private grants, bequests, and gifts made for that purpose. School districts may not expend excess tax levy proceeds authorized for school district purposes to pay costs incurred under this chapter.

[1998 c 244 § 5.]

RCW 28A.193.050 Required support of education programs.

To support each education program under this chapter, the department of corrections and each superintendent or chief administrator of a correction facility shall:

(1) Through construction, lease, or rental of space, provide necessary building and exercise spaces for the education program that is secure, separate, and apart from space occupied by nonstudent inmates;

(2) Through construction, lease, or rental, provide vocational instruction machines; technology and supporting equipment; tools, building, and exercise facilities; and other equipment and fixtures deemed necessary by the department of corrections to conduct the education program;

(3) Provide heat, lights, telephone, janitorial services, repair services, and other support services for the building and exercise spaces, equipment, and fixtures provided under this section;

(4) Employ, supervise, and control security staff to safeguard agents of the education providers and inmates while engaged in educational and related activities conducted under this chapter;

(5) Provide clinical and medical evaluation services necessary for a determination by the education provider of the educational needs of inmates; and

(6) Provide such other support services and facilities as are reasonably necessary to conduct the education program.

[1998 c 244 § 6.]

RCW 28A.193.060 Contract between education providers and department of corrections.

Each education provider under this chapter and the department of corrections shall negotiate and execute a written contract for each school year or such longer period as may be agreed to that delineates the manner in which their respective duties and authority will be cooperatively performed and exercised, and any disputes and grievances resolved through mediation, and if necessary, arbitration. Any such contract may provide for the performance of duties by an education provider in addition to those set forth in this chapter, including duties imposed upon the department of corrections and its agents under RCW 28A.193.050 if supplemental funding provided by the department of corrections is available to fully pay the direct and indirect costs of these additional duties.

[1998 c 244 § 7.]

RCW 28A.193.070 Education site closures or reduction in services--Notice to the superintendent of public instruction and education providers--Liability for failure to provide notice--Alternative dispute resolution.

By April 15th of each school year, the department of corrections shall provide written notice to the superintendent of public instruction and education providers operating programs under this chapter of any reasonably foreseeable education site closures, reductions in the number of inmates or education services, or any other cause for a reduction in certificated or classified staff the next school year. In the event the department of corrections fails to provide notice as required by this section, the department is liable and responsible for the payment of the salary and employment-related costs for the next school year of each employee whose contract would or could have been nonrenewed but for the failure of the department to provide notice. Disputes arising under this section shall be resolved in accordance with the alternative dispute resolution method or methods specified in the contract required by RCW 28A.193.060.

[1998 c 244 § 8.]

RCW 28A.193.080 Allocation of money--Accountability requirements--Rules.

The superintendent of public instruction shall:

(1) Allocate money appropriated by the legislature to administer and provide education programs under this chapter to school districts, educational service districts, and other education providers selected under RCW 28A.193.020 that have assumed the primary responsibility to administer and provide education programs under this chapter. The allocation of moneys to any private contractor is contingent upon and must be in accordance with a contract between the

private contractor and the department of corrections; and

(2) Adopt rules in accordance with chapter 34.05 RCW that establish reporting, program compliance, audit, and such other accountability requirements as are reasonably necessary to implement this chapter and related provisions of the biennial operating act effectively.

[1998 c 244 § 9.]

RCW 28A.193.900 Effective date--1998 c 244 §§ 1-9 and 11-15.

[1998 c 244 § 17.]

RCW 28A.193.901 Severability--1998 c 244.

for private schools except as hereinafter in this section provided.

Principals of private schools or superintendents of private school districts shall file each year with the state superintendent of public instruction a statement certifying that the minimum requirements hereinafter set forth are being met, noting any deviations. After review of the statement, the state superintendent will notify schools or school districts of those deviations which must be corrected. Each parent whose child is receiving home-based instruction under RCW 28A.225.010(4) shall have the duty to:

(1) File annually a signed declaration of intent that he or she is planning to cause his or her child to receive home-based instruction. The statement shall include the name and age of the child, shall specify whether a certificated person will be supervising the instruction, and shall be written in a format prescribed by the superintendent of public instruction. Each parent shall file the statement by September 15 of the school year or within two weeks of the beginning of any public school quarter, trimester, or semester with the superintendent of the public school district within which the parent resides or the district that accepts the transfer, and the student shall be deemed a transfer student of the nonresident district. At the time of a transfer to a public school, the superintendent of the local school district in which the child enrolls may require a standardized achievement test to be administered and shall have the authority to determine the appropriate grade and course level placement of the child after consultation with parents and review of the child's records; and

(3) Ensure that a standardized achievement test approved by the state board of education is administered annually to the child by a qualified individual or that an annual assessment of the student's academic progress is written by a certificated person who is currently working in the field of education. The state board of education shall not require these children to meet the student learning goals, master the essential academic learning requirements, to take the

assessments, or to obtain a certificate of mastery pursuant to *RCW 28A.630.885. The standardized test administered or the annual academic progress assessment written shall be made a part of the child's permanent records. If, as a result of the annual test or assessment, it is determined that the child is not making reasonable progress consistent with his or her age or stage of development, the parent shall make a good faith effort to remedy any deficiency.

Failure of a parent to comply with the duties in this section shall be deemed a failure of such parent's child to attend school without valid justification under RCW 28A.225.020. Parents who do comply with the duties set forth in this section shall be presumed to be providing home-based instruction as set forth in RCW 28A.225.010(4).

RCW 28A.210.180 Screening program for scoliosis--Purpose.

The legislature recognizes that the condition known as scoliosis, a lateral curvature of the spine commonly appearing in adolescents, can develop into a permanent, crippling disability if left untreated. Early diagnosis and referral can often result in the successful treatment of this condition and greatly reduce the need for major surgery. Therefore, the purpose of RCW 28A.210.180 through 28A.210.250 is to recognize that a school screening program is an invaluable tool for detecting the number of adolescents with scoliosis. It is the intent of the legislature to insure that the superintendent of public instruction provide and require screening of children for the condition known as scoliosis, to ascertain which, if any, of these children have defects requiring corrective treatment.

Effective date--1994 c 166: See note following RCW 28A.215.100.

Findings--1994 c 166; 1988 c 174: "The legislature finds that the early childhood education and assistance program provides for the educational, social, health, nutritional, and cultural development of children at risk of failure when they reach school age. The long-term benefits to society in the form of greater educational attainment, employment, and projected lifetime earnings as well as the savings to be realized, from lower crime rates, welfare support, and reduced teenage pregnancy, have been demonstrated through lifelong research of at-risk children and early childhood programs.

The legislature intends to encourage development of community partnerships for children at risk by authorizing a program of voluntary grants and contributions from business and community organizations to increase opportunities for children to participate in early childhood education." RCW 28A.215.120 Department of community, trade, and economic development to administer program--Admission and funding.

The department of community, trade, and economic development shall administer a state-supported early childhood education and assistance program to assist eligible children with educational, social, health, nutritional, and cultural development to enhance their opportunity for success in the common school system. Findings--1994 c 166; 1988 c 174: See note following RCW 28A.215.110.

Intent--1994 c 166; 1987 c 518: "The long-term social, community welfare, and economic interests of the state will be served by an investment in our children. Conclusive studies and experiences show that providing children with developmental experiences and providing parents with effective parental partnership, empowerment, opportunities for involvement with their child's developmental learning, and expanding parenting skills, learning, and training can greatly improve children's performance in school as well as increase the likelihood of children's success as adults. National studies have also confirmed that special attention to, and educational assistance for, children, their school environment, and their families are the most effective ways in which to meet the state's social and economic goals.

The legislature intends to enhance the readiness to learn of certain children and students by: Providing for an expansion of the state early childhood education and assistance program for children from low-income families and establishing an adult literacy program for certain parents; assisting school districts to establish elementary counseling programs; instituting a program to address learning problems due to drug and alcohol use and abuse; and establishing a program directed at students who leave school before graduation.

The legislature intends further to establish programs that will allow for parental, business, and community involvement in assisting the school systems throughout the state to enhance the ability of children to learn." [1994 c 166 § 7; 1987 c 518 § 1.]

Severability--1987 c 518: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 c 518 § 411.]

RCW 28A.215.160 Review of applications--Award of funds.

The department shall review applications from public or private nonsectarian organizations for state funding of early childhood education and assistance programs and award funds as determined by department rules and based on local community needs and demonstrated

capacity to provide services.

RCW 28A.215.170 Early childhood educational and assistance services--Report to governor.

The department shall annually report to the governor and the legislature on the findings of the longitudinal study undertaken to examine and monitor the effectiveness of early childhood educational and assistance services for eligible children to measure, among other elements, if possible, how the average level of performance of children completing this program compare to the average level of performance of all state students in their grade level, and to the average level of performance of those eligible students who did not have access to this program. The evaluation system shall examine how the percentage of these children needing access to special education or remedial programs compares to the overall percentage of children needing such services and compares to the percentage of eligible students who did not have access to this program needing such services.

RCW 28A.225.015 Attendance mandatory--Six or seven year olds--Unexcused absences--Petition.

(1) If a parent enrolls a child who is six or seven years of age in a public school, the child is required to attend and that parent has the responsibility to ensure the child attends for the full time that school is in session. An exception shall be made to this requirement for children whose parents formally remove them from enrollment if the child is less than eight years old and a petition has not been filed against the parent under subsection (3) of this section. The requirement to attend school under this subsection does not apply to a child enrolled in a public school part-time for the purpose of receiving ancillary services. A child required to attend school under this subsection may be temporarily excused upon the request of his or her parent for purposes agreed upon by the school district and parent.

(2) If a six or seven year-old child is required to attend public school under subsection (1) of this section and that child has unexcused absences, the public school in which the child is enrolled shall:

(a) Inform the child's custodial parent, parents, or guardian by a notice in writing or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year;

(b) Request a conference or conferences with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after two unexcused absences within any month during the

current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day; and

(c) Take steps to eliminate or reduce the child's absences. These steps shall include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, offering assistance in enrolling the child in available alternative schools or programs, or assisting the parent or child to obtain supplementary services that may help eliminate or ameliorate the cause or causes for the absence from school.

(3) If a child required to attend public school under subsection (1) of this section has seven unexcused absences in a month or ten unexcused absences in a school year, the school district shall file a petition for civil action as provided in RCW 28A.225.035 against the parent of the child.

(4) This section does not require a six or seven year old child to enroll in a public or private school or to receive home-based instruction. This section only applies to six or seven year old children whose parents enroll them full time in public school and do not formally remove them from enrollment as provided in subsection (1) of this section.

RCW 28A.225.020 School's duties upon child's failure to attend school.

(1) If a child required to attend school under RCW 28A.225.010 fails to attend school without valid justification, the public school in which the child is enrolled shall:

(a) Inform the child's custodial parent, parents, or guardian by a notice in writing or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year. School officials shall inform the parent of the potential consequences of additional unexcused absences;

(b) Schedule a conference or conferences with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after two unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day; and

(c) Take steps to eliminate or reduce the child's absences. These steps shall include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, providing appropriate vocational courses or work experience, referring the child to a community truancy board, if available, requiring the child to attend an alternative school or program, or assisting the parent or child to obtain supplementary services that might eliminate or ameliorate the cause or causes for the absence from school. If the child's parent does not attend the scheduled conference, the conference may be conducted with the student and school official. However, the parent shall be notified of the

steps to be taken to eliminate or reduce the child's absence.

(2) For purposes of this chapter, an "unexcused absence" means that a child:

(a) Has failed to attend the majority of hours or periods in an average school day or has failed to comply with a more restrictive school district policy; and

(b) Has failed to meet the school district's policy for excused absences.

(3) If a child transfers from one school district to another during the school year, the receiving school or school district shall include the unexcused absences accumulated at the previous school or from the previous school district for purposes of this section, RCW 28A.225.030, and 28A.225.015.

RCW 28A.225.025 Community truancy boards.

For purposes of this chapter, "community truancy board" means a board composed of members of the local community in which the child attends school. Juvenile courts may establish and operate community truancy boards. If the juvenile court and the school district agree, a school district may establish and operate a community truancy board under the jurisdiction of the juvenile court. Juvenile courts may create a community truancy board or may use other entities that exist or are created, such as diversion units. However, a diversion unit or other existing entity must agree before it is used as a truancy board. Duties of a community truancy board shall include, but not be limited to, recommending methods for improving school attendance such as assisting the parent or the child to obtain supplementary services that might eliminate or ameliorate the causes for the absences or suggesting to the school district that the child enroll in another school, an alternative education program, an education center, a skill center, a dropout prevention program, or another public or private educational program.

The cost determination shall be submitted to the legislature by December 15, 1999. The evaluation shall be submitted to the appropriate committees of the legislature by December 15, 2000.

RCW 28A.225.030 Petition to juvenile court for violations by a parent or child--School district responsibilities.

(1) If a child is required to attend school under RCW 28A.225.010 and if the actions taken by a school district under RCW 28A.225.020 are not successful in substantially reducing an enrolled student's absences from public school, not later than the seventh unexcused absence by a child within any month during the current school year or not later than the tenth unexcused absence during the current school year the school district shall file a petition and supporting affidavit for a civil action with the juvenile court alleging a violation of RCW 28A.225.010: (a) By the parent; (b) by the child; or (c) by the parent and the child. Except as provided in this subsection, no additional documents need be filed with the petition.

(2) The district shall not later than the fifth unexcused absence in a month:

(a) Enter into an agreement with a student and parent that establishes school attendance requirements;

(b) Refer a student to a community truancy board, if available, as defined in RCW 28A.225.025. The community truancy board shall enter into an agreement with the student and parent that establishes school attendance requirements and take other appropriate actions to reduce the child's absences; or

(c) File a petition under subsection (1) of this section.

(3) The petition may be filed by a school district employee who is not an attorney.

(4) If the school district fails to file a petition under this section, the parent of a child with five or more unexcused absences in any month during the current school year or upon the tenth unexcused absence during the current school year may file a petition with the juvenile court alleging a violation of RCW 28A.225.010.

(5) Petitions filed under this section may be served by certified mail, return receipt requested. If such service is unsuccessful, or the return receipt is not signed by the addressee, personal service is required.

RCW 28A.225.031 Alcohol or controlled substances testing--Authority to order.

The authority of a court to issue an order for testing to determine whether the child has consumed or used alcohol or controlled substances applies to all persons subject to a petition under RCW 28A.225.030 regardless of whether the petition was filed before July 27, 1997.

[1997 c 68 § 3.]

RCW 28A.225.035 Petition to juvenile court--Contents--Court action--Referral to

community truancy board--Transfer of jurisdiction upon relocation.

(1) A petition for a civil action under RCW 28A.225.030 or 28A.225.015 shall consist of a written notification to the court alleging that:

- (a) The child has unexcused absences during the current school year;
- (b) Actions taken by the school district have not been successful in substantially reducing the child's absences from school; and
- (c) Court intervention and supervision are necessary to assist the school district or parent to reduce the child's absences from school.

(2) The petition shall set forth the name, age, school, and residence of the child and the names and residence of the child's parents.

(3) The petition shall set forth facts that support the allegations in this section and shall generally request relief available under this chapter and provide information about what the court might order under RCW 28A.225.090.

(4) When a petition is filed under RCW 28A.225.030 or 28A.225.015, the juvenile court shall schedule a hearing at which the court shall consider the petition, or if the court determines that a referral to an available community truancy board would substantially reduce the child's unexcused absences, the court may refer the case to a community truancy board under the jurisdiction of the juvenile court.

(5) If a referral is made to a community truancy board, the truancy board must meet with the child, a parent, and the school district representative and enter into an agreement with the petitioner and respondent regarding expectations and any actions necessary to address the child's truancy within thirty days of the referral. If the petition is based on RCW 28A.225.015, the child shall not be required to attend and the agreement under this subsection shall be between the truancy board, the school district, and the child's parent. The agreement shall be presented to the juvenile court for its approval.

(6) The court shall approve the agreement by order or schedule a hearing. The court may, if the school district and community truancy board agree, permit the truancy board to provide continued supervision over the student, or parent if the petition is based on RCW 28A.225.015, and report on compliance with the order.

(7) If the truancy board fails to reach an agreement, the truancy board shall return the case to the juvenile court for a hearing.

(8) Notwithstanding the provisions in subsection (4) of this section, a hearing shall not be required if other actions by the court would substantially reduce the child's unexcused absences. When a juvenile court hearing is held, the court shall:

- (a) Separately notify the child, the parent of the child, and the school district of the hearing;
- (b) Notify the parent and the child of their rights to present evidence at the hearing; and
- (c) Notify the parent and the child of the options and rights available under chapter 13.32A RCW.

(9) The court may require the attendance of the child if eight years old or older, the parents, and the school district at any hearing on a petition filed under RCW 28A.225.030.

(10) A school district is responsible for determining who shall represent the school district at hearings on a petition filed under RCW 28A.225.030 or 28A.225.015.

(11) The court may permit the first hearing to be held without requiring that either party be represented by legal counsel, and to be held without a guardian ad litem for the child under RCW 4.08.050. At the request of the school district, the court shall permit a school district representative who is not an attorney to represent the school district at any future hearings.

(12) If the allegations in the petition are established by a preponderance of the evidence, the court shall grant the petition and enter an order assuming jurisdiction to intervene for the period of time determined by the court, after considering the facts alleged in the petition and the circumstances of the juvenile, to most likely cause the juvenile to return to and remain in school while the juvenile is subject to this chapter. In no case may the order expire before the end of the school year in which it is entered.

(13) If the court assumes jurisdiction, the school district shall regularly report to the court any additional unexcused absences by the child.

(14) Community truancy boards and the courts shall coordinate, to the extent possible, proceedings and actions pertaining to children who are subject to truancy petitions and at-risk youth petitions in RCW 13.32A.191 or child in need of services petitions in RCW 13.32A.140.

(15) If after a juvenile court assumes jurisdiction in one county the child relocates to another county, the juvenile court in the receiving county shall, upon the request of a school district or parent, assume jurisdiction of the petition filed in the previous county.

RCW 28A.225.090 Court orders--Penalties--Parents' defense. (*Effective until July 1, 2002.*)

(1) A court may order a child subject to a petition under RCW 28A.225.035 to do one or more of the following:

(a) Attend the child's current school, and set forth minimum attendance requirements, including suspensions;

(b) If there is space available and the program can provide educational services appropriate for the child, order the child to attend another public school, an alternative education program, center, a skill center, dropout prevention program, or another public educational program;

(c) Attend a private nonsectarian school or program including an education center. Before ordering a child to attend an approved or certified private nonsectarian school or program, the court shall: (i) Consider the public and private programs available; (ii) find that placement is in the best interest of the child; and (iii) find that the private school or program is willing to accept the child and will not charge any fees in addition to those established by contract with the student's school district. If the court orders the child to enroll in a private school or program, the child's school district shall contract with the school or program to provide educational services for the child. The school district shall not be required to contract for a weekly rate that exceeds the state general apportionment dollars calculated on a weekly basis generated by the child and received by the district. A school district shall not be required to enter into a contract that is longer than the remainder of the school year. A school district shall not be required to enter into or continue a contract if the child is no longer enrolled in the district;

(d) Be referred to a community truancy board, if available; or

(e) Submit to testing for the use of controlled substances or alcohol based on a determination that such testing is appropriate to the circumstances and behavior of the child and will facilitate the child's compliance with the mandatory attendance law and, if any test ordered under this subsection indicates the use of controlled substances or alcohol, order the minor to abstain from the unlawful consumption of controlled substances or alcohol and adhere to the

recommendations of the drug assessment at no expense to the school.

(2) If the child fails to comply with the court order, the court may order the child to be placed in confinement for contempt, either in a juvenile detention facility operated by or under a contract with a county or in a secure facility that is a separate, secure section of a juvenile detention facility, or may impose alternatives to confinement such as community service. Failure by a child to comply with an order issued under this subsection shall not be subject to detention for a period greater than that permitted pursuant to a civil contempt proceeding against a child under chapter 13.32A RCW. In no case may a child in contempt be confined in a secure facility that is freestanding outside a juvenile detention facility.

(3) Any parent violating any of the provisions of either RCW 28A.225.010, 28A.225.015, or 28A.225.080 shall be fined not more than twenty-five dollars for each day of unexcused absence from school. It shall be a defense for a parent charged with violating RCW 28A.225.010 to show that he or she exercised reasonable diligence in attempting to cause a child in his or her custody to attend school or that the child's school did not perform its duties as required in RCW 28A.225.020. The court may order the parent to provide community service instead of imposing a fine. Any fine imposed pursuant to this section may be suspended upon the condition that a parent charged with violating RCW 28A.225.010 shall participate with the school and the child in a supervised plan for the child's attendance at school or upon condition that the parent attend a conference or conferences scheduled by a school for the purpose of analyzing the causes of a child's absence.

(4) If a child continues to be truant after entering into a court-approved order with the truancy board under RCW 28A.225.035, the juvenile court shall find the child in contempt, and the court may order the child to be subject to detention, as provided in RCW 7.21.030(2)(e), or may impose alternatives to detention such as meaningful community service. Failure by a child to comply with an order issued under this subsection may not subject a child to detention for a period greater than that permitted under a civil contempt proceeding against a child under chapter 13.32A RCW.

(5) Subsections (1), (2), and (4) of this section shall not apply to a six or seven year-old child required to attend public school under RCW 28A.225.015.

AIDS prevention education shall be limited to the discussion of the life-threatening dangers of the disease, its spread, and prevention. Students shall receive such education at least once each school year beginning no later than the fifth grade.

(2) Each district board of directors shall adopt an AIDS prevention education program which is developed in consultation with teachers, administrators, parents, and other community members including, but not limited to, persons from medical, public health, and mental health organizations and agencies so long as the curricula and materials developed for use in the AIDS education program either (a) are the model curricula and resources under subsection (3) of this section, or (b) are developed by the school district and approved for medical accuracy by the office on AIDS established in RCW 70.24.250. If a district elects to use curricula developed by the school district, the district shall submit to the office on AIDS a copy of its curricula and an affidavit of medical accuracy stating that the material in the district-developed curricula has been compared to the model curricula for medical accuracy and that in the opinion of the district the district-developed materials are medically accurate. Upon submission of the affidavit and curricula, the district may use these materials until the approval procedure to be conducted by the office of AIDS has been completed.

(3) Model curricula and other resources available from the superintendent of public instruction may be reviewed by the school district board of directors, in addition to materials designed locally, in developing the district's AIDS education program. (b) "School breakfast program" means a program meeting federal requirements defined in 42 U.S.C. Sec. 1773.

(c) "Severe-need school" means a school that qualifies for a severe-need school reimbursement rate from federal funds for school breakfasts served to children from low-income families.

(2) School districts shall be required to develop and implement plans for a school breakfast program in severe-need schools, pursuant to the schedule in this section. For the second year prior to the implementation of the district's school breakfast program, and for each subsequent school year, each school district shall submit data enabling the superintendent of public instruction to determine which schools within the district will qualify as severe-need schools. In developing its plan, each school district shall consult with an advisory committee including school staff and community members appointed by the board of directors of the district.

(3) Using district-wide data on school lunch participation during the 1988-89 school year, the superintendent of public instruction shall adopt a schedule for implementation of school breakfast programs in severe-need schools as follows:

(a) School districts where at least forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1990. Each such district shall implement a school breakfast program in all severe-need schools no later than

the second day of school in the 1990-91 school year and in each school year thereafter.

(b) School districts where at least twenty-five but less than forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1991. Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1991-92 school year and in each school year thereafter.

(c) School districts where less than twenty-five percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1992. Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1992-93 school year and in each school year thereafter.

(d) School districts that did not offer a school lunch program in the 1988-89 school year are encouraged to implement such a program and to provide a school breakfast program in all severe-need schools when eligible.

(4) The requirements in this section shall lapse if the federal reimbursement rate for breakfasts served in severe-need schools is eliminated.

(5) Students who do not meet family-income criteria for free breakfasts shall be eligible to participate in the school breakfast programs established under this section, and school districts may charge for the breakfasts served to these students. Requirements that school districts have school breakfast programs under this section shall not create or imply any state funding obligation for these costs. The legislature does not intend to include these programs within the state's obligation for basic education funding under Article IX of the Constitution.

RCW 28A.300.164 Energy information program.

The office of the superintendent of public instruction shall develop an energy information program for use in local school districts. The program shall utilize existing curriculum which may include curriculum as developed by districts or the state relating to the requirement under RCW 28A.230.020 that schools provide instruction in science with special reference to the environment, and shall include but not be limited to the following elements:

- (1) The fundamental role energy plays in the national and regional economy;
- (2) Descriptions and explanations of the various sources of energy which are used both regionally and nationally;
- (3) Descriptions and explanations of the ways to use various energy sources more efficiently; and
- (4) Advantages and disadvantages to the various sources of present and future supplies of energy.

Under this section the office of superintendent of public instruction shall emphasize providing teacher training, promoting the use of local energy experts in the classroom, and dissemination of energy education curriculum.

[1990 c 301 § 2.]

Notes:

Findings--1990 c 301: "The legislature finds that the state is facing an impending energy supply crisis. The legislature further finds that keeping the importance of energy in the minds of state residents is essential as a means to help avert a future energy supply crisis and that citizens need to be aware of the importance and trade-offs associated with energy efficiency, the implications of wasteful uses of energy, and the need for long-term stable supplies of energy. One efficient and effective method of informing the state's citizens on energy issues is to begin in the school system, where information may guide energy use decisions for decades into the future." RCW 28A.300.230 Findings--Integration of vocational and academic education.

The legislature finds that the needs of the work force and the economy necessitate enhanced vocational education opportunities in secondary education including curriculum which integrates vocational and academic education. In order for the state's work force to be competitive in the world market, employees need competencies in both vocational/technical skills and in core essential competencies such as English, math, science/technology, geography, history, and critical thinking. Curriculum which integrates vocational and academic education reflects that many students learn best through applied learning, and that students should be offered flexible education opportunities which prepare them for both the world of work and for

higher education.

RCW 28A.300.235 Development of model curriculum integrating vocational and academic education.

The superintendent of public instruction shall with the advice of the work force training and education coordinating board develop model curriculum integrating vocational and academic education at the secondary level. The curriculum shall integrate vocational education for gainful employment with education in the academic subjects of English, math, science/technology, geography, and history, and with education in critical thinking. Upon completion, the model curriculum shall be provided for consideration and use by school districts.

RCW 28A.300.240 International student exchange.

(1) The superintendent of public instruction shall annually make available to school districts and approved private schools, from data supplied by the secretary of state, the names of international student exchange visitor placement organizations registered under chapter 19.166 RCW to place students in public schools in the state and a summary of the information the organizations have filed with the secretary of state under chapter 19.166 RCW.

(2) The superintendent shall provide general information and assistance to school districts regarding international student exchange visitors, including, to the extent feasible with available resources, information on the type of visa required for enrollment, how to promote positive educational experiences for visiting exchange students, and how to integrate exchange students into the school environment to benefit the education of both the exchange students and students in the state.

RCW 28A.300.250 Participation in federal nutrition programs--Superintendent's duties.

The superintendent of public instruction shall aggressively solicit eligible schools, child and adult day care centers, and other organizations to participate in the nutrition programs authorized by the United States department of agriculture.

[1991 c 366 § 402.]

Notes:

Finding--1991 c 366: "Hunger and malnutrition threaten the future of a whole generation of children in Washington. Children who are hungry or malnourished are unable to function optimally in the classroom and are thus at risk of lower achievement in school. The resultant diminished future capacity of and opportunities for these children will affect this state's economic and social future. Thus, the legislature finds that the state has an interest in helping families provide nutritious meals to children.

The legislature also finds that the state has an interest in helping hungry and malnourished adults obtain necessary nourishment. Adequate nourishment is necessary for physical health, and physical health is the foundation of self-sufficiency. Adequate nourishment is especially critical in the case of pregnant and lactating women, both to ensure that all mothers and babies are as healthy as possible and to minimize the costs associated with the care of low-birthweight babies." [1991 c 366 § 1.]

Finding--1991 c 366: "The legislature finds that the school breakfast and lunch programs, the summer feeding program, and the child and adult day care feeding programs authorized by the United States department of agriculture are effective in addressing unmet nutritional needs. However, some communities in the state do not participate in these programs. The result is hunger, malnutrition, and inadequate nutrition education for otherwise eligible persons living in nonparticipating communities." [1991 c 366 § 401.]

RCW 28A.300.270 Violence prevention training.

The superintendent of public instruction shall, to the extent funding is available, contract with school districts, educational service districts, and approved in-service providers to conduct training sessions for school certificated and classified employees in conflict resolution and other violence prevention topics. The training shall be developmentally and culturally appropriate for the school populations being served and be research based. The training shall not be based solely on providing materials, but also shall include techniques on imparting these skills to students. The training sessions shall be developed in coordination with school districts, the superintendent of public instruction, parents, law enforcement agencies, human services providers, and other interested parties. The training shall be offered to school districts and school staff requesting the training, and shall be made available at locations throughout the state.

The sum of four million dollars, or as much thereof as may be necessary, is appropriated

from the general fund to the superintendent of public instruction for the biennium ending June 30, 2001, for:

(1) Alternative school start-up grants which are in addition to the grants funded in the two million dollars alternative school start-up appropriation contained in section 501(2)(1), chapter 309, Laws of 1999, and these grants shall be awarded in the same manner and for the same purposes;

(2) School safety programs for prevention and intervention. School districts may apply for and administer these grants independently or jointly with other school districts or educational service districts. The funds may be expended for proven-effective programs to improve safety in schools, including: Security assessments of school facilities; violence prevention and reporting training for staff as appropriate to the particular duties and responsibilities of the specific staff, including administrators; nonviolence and leadership training for staff and students; and school safety plans. The educational service districts and school districts may contract for any services under this subsection.

(3) The superintendent of public instruction shall report to the education committees of the house of representatives and senate on the number and types of programs administered through these grants by February 15, 2001, and February 15th of every two years thereafter.

RCW 28A.300.280 Conflict resolution program.

The superintendent of public instruction and the office of the attorney general, in cooperation with the Washington state bar association, shall develop a volunteer-based conflict resolution and mediation program for use in community groups such as neighborhood organizations and the public schools. RCW 28A.300.290 Effective reading programs--Identification.

(1) The center for the improvement of student learning, or its designee, shall develop and implement a process for identifying programs that have been proven to be effective based upon valid research in teaching elementary students to read. Additional programs shall be reviewed

after the initial identification of effective programs.

(2) In identifying effective reading programs, the center for the improvement of student learning, or its designee, shall consult primary education teachers, state-wide reading organizations, institutions of higher education, the commission on student learning, parents, legislators, and other appropriate individuals and organizations.

(3) In identifying effective reading programs, the following criteria shall be used:

(a) Whether the program will help the student meet the state-level and classroom-based assessments for reading;

(b) Whether the program has achieved documented results for students on valid and reliable assessments;

(c) Whether the results of the program have been replicated at different locations over a period of time;

(d) Whether the requirements and specifications for implementing the program are clear so that potential users can clearly determine the requirements of the program and how to implement it;

(e) Whether, when considering the cost of implementing the program, the program is cost-effective relative to other similar types of programs;

(f) Whether the program addresses differing student populations; and

(g) Other appropriate criteria and considerations.

(4) The initial identification of effective reading programs shall be completed and a list of the identified programs prepared by December 31, 1996.

RCW 28A.300.295 Identified programs--Grants for in-service training and instructional materials.

The superintendent of public instruction shall establish a grant program to provide incentives for teachers, schools, and school districts to use the identified programs on the approved list in grades kindergarten through four. Schools, school districts, and educational service districts may apply for grants. Funds for the grants shall be used for in-service training and instructional materials. Grants shall be awarded and funds distributed not later than June 30, 1997, for programs in the 1996-97 and 1997-98 school years. Priority shall be given to grant applications involving schools and school districts with the lowest mean percentile scores on the state-wide third grade test required under RCW 28A.230.190 among grant applicants.

RCW 28A.300.300 Effective reading programs--Information--Development and implementation of strategies.

(1) After effective programs have been identified in accordance with RCW 28A.300.290, the center for the improvement of student learning, or its designee, shall provide information and take other appropriate steps to inform elementary school teachers, principals, curriculum directors, superintendents, school board members, college and university reading instruction faculty, and others of its findings.

(2) The center, in cooperation with state-wide organizations interested in improving literacy, also shall develop and implement strategies to improve reading instruction in the state, with a special emphasis on the instruction of reading in the primary grades using the effective reading programs that have been identified in accordance with RCW 28A.300.290. The strategies may include, but should not be limited to, expanding and improving reading instruction of elementary school teachers in teacher preparation programs, expanded in-service training in reading instruction, the training of paraprofessionals and volunteers in reading instruction, improving classroom-based assessment of reading, and increasing state-wide and regional technical assistance in reading instruction.

RCW 28A.300.310 Second grade reading assessment--Selection of reading passages--Costs.

(1) The superintendent of public instruction shall identify a collection of reading passages and assessment procedures that can be used to measure second grade oral reading accuracy and fluency skills. The purpose of the second grade reading assessment is to provide information to parents, teachers, and school administrators on the level of acquisition of oral reading accuracy and fluency skills of each student at the beginning of second grade. The assessment procedures and each of the reading passages in the collection must:

(a) Provide a reliable and valid measure of a student's oral reading accuracy and fluency skills;

(b) Be able to be individually administered;

(c) Have been approved by a panel of nationally recognized professionals in the area of beginning reading, whose work has been published in peer-reviewed education research journals, and professionals in the area of measurement and assessment; and

(d) Assess student skills in recognition of letter sounds, phonemic awareness, word recognition, and reading connected text. Text used for the test of fluency must be ordered in relation to difficulty.

(2) The superintendent of public instruction shall select reading passages for use by schools and school districts participating in pilot projects under RCW 28A.300.320 during the 1997-98 school year. The final collection must be selected by June 30, 1998. The superintendent

of public instruction may add reading passages to the initial list if the passages are comparable in format to the initial passages approved by the expert panel in subsection (1) of this section.

(3) The superintendent of public instruction shall develop a per-pupil cost for the assessments in the collection that details the costs for administering the assessments, booklets, scoring, and training required to reliably administer the test. To the extent funds are appropriated, the superintendent of public instruction shall pay for the cost of administering and scoring the assessments, booklets or other assessment material, and training required to administer the test.

Notes:

Part headings not law--1999 c 373: "Part headings used in this act are not any part of the law." [1999 c 373 § 601.]

Findings--1997 c 262: "The legislature acknowledges the definition of reading as "Reading is the process of constructing meaning from written text. It is the complex skill requiring the coordination of a number of interrelated sources of information." Marilyn Adams, *Becoming a Nation of Readers* 7. The legislature also acknowledges the role that reading accuracy and fluency plays in the comprehension of text. The legislature finds that one way to determine if a child's inability to read is problematic is to compare the child's reading fluency and accuracy skills with that of other children. To accomplish this objective, the legislature finds that assessments that test students' reading fluency and accuracy skills must be scientifically valid and reliable. The legislature further finds that early identification of students with potential reading difficulties can provide valuable information to parents, teachers, and school administrators. The legislature finds that assessment of second grade students' reading fluency and accuracy skills can assist teachers in planning and implementing a reading curriculum that addresses students' deficiencies in reading." [1997 c 262 § 1.]

RCW 28A.300.320 Second grade reading assessment--Pilot projects--Assessment selection--Assessment results.

(1) The superintendent of public instruction shall create a pilot project to identify which second grade reading assessments selected under RCW 28A.300.310 will be included in the final collection of assessments that must be available by June 30, 1998.

(2) Schools and school districts may voluntarily participate in the second grade reading test pilot projects in the 1997-98 school year. Schools and school districts voluntarily participating in the pilot project test are not required to have the results available by the fall parent-teacher conference.

(3)(a) Starting in the 1998-99 school year, school districts must select an assessment from the collection adopted by the superintendent of public instruction. Selection must be at the entire school district level.

(b) The second grade reading assessment selected by the school district must be administered annually in the fall beginning with the 1998-99 school year. Students who score substantially below grade level when assessed in the fall shall be assessed at least one more time during the second grade. Assessment performance deemed to be "substantially below grade level" is to be determined for each passage in the collection by the superintendent of public instruction.

(c) If a student, while taking the assessment, reaches a point at which the student's performance will be considered "substantially below grade level" regardless of the student's

performance on the remainder of the assessment, the assessment may be discontinued.

(d) Each school must have the assessment results available by the fall parent-teacher conference. Schools must notify parents about the second grade reading assessment during the conferences, inform the parents of their students' performance on the assessment, identify actions the school intends to take to improve the child's reading skills, and provide parents with strategies to help the parents improve their child's score.

Five percent of the funds awarded for grants shall be set aside for the purpose of the grant evaluation conducted by the independent contractor.

(4) The superintendent of public instruction shall submit biennially to the legislature and the governor a report on the primary grade reading grant program. The first report must be

Findings--Intent--1999 c 347: "The legislature finds that the purpose of Washington's accountability system is to improve student learning and student achievement of the essential academic learning standards. The legislature finds that only thirty-one percent of students who took the 1998 fourth grade Washington assessment of student learning met the standard for proficiency in mathematics. The legislature also finds that only twenty percent of students who took the seventh grade trial assessment met the standard for proficiency in mathematics. The legislature intends to identify best practices in mathematics instruction for current and prospective mathematics teachers in the elementary and middle grades, and to provide training opportunities for teachers in using those instructional methods to help students in the classroom." RCW 28A.300.370 World War II oral history project.

(1) The World War II oral history project is established for the purpose of providing oral history presentations, documentation, and other materials to assist the office of the superintendent of public instruction and educators in the development of a curriculum for use in kindergarten through twelfth grade.

(2) To the extent funds are appropriated or donated, the project shall be administered by the office of the superintendent of public instruction. The office shall convene an advisory committee to assist in the design and implementation of the project. The committee shall be composed of members of the World War II memorial educational foundation, the department of veterans affairs, the secretary of state's office, and legislators involved with and interested in the development of the oral history project. The committee may select its own chair and may expand its membership to include the services of other individuals, agencies, or organizations on the basis of need. The office shall provide staffing and administrative support to the advisory committee.

(3) The project will preserve for the education of Washington's school children the memories and history of our state's citizens who served their state and country as members of the

armed forces or through national or community contributions during World War II. The project is intended to preserve these memories and history through audiotapes, videotapes, films, stories, printed transcripts, digitally, and through other appropriate methods.

(4) As part of the project, the office of the superintendent of public instruction shall identify the requirements regarding instructional guides to help educators use the preserved material in age and grade appropriate ways.

(5) In its administration of the project, the office may carry out its responsibilities through contracts with filming and taping specialists, mini-grants to schools, contracts with the World War II memorial educational foundation, and through other means recommended by the foundation.

(6) By December 1, 2000, and every second year thereafter in which the project has received funding, the office shall report on the results of the project to the governor and the house of representatives and senate committees on education. The December 2000 report shall include, but need not be limited to, identification of the project's implementation strategies and resource requirements, and any curriculum standards developed through the project.

Notes:

Findings--Intent--2000 c 112: "The legislature finds that more than two hundred fifty thousand of Washington's citizens served their country in the armed forces of the United States during World War II. The legislature also finds that almost six thousand of those citizens sacrificed their lives to secure our nation's and the world's peace and freedom. The legislature finds that the hardships and sacrifices endured by the families and communities of these service men and women were critical to the eventual success of our nation's defense. The legislature also finds the memories of these stalwart patriots must be preserved to remind future generations of the price the members of the greatest generation paid to preserve our democratic way of life. The legislature further finds that to have a clearer reflection of these sacrifices on behalf of freedom and democracy, it is necessary to include the memories of all women and men of our armed forces, their family members, and others involved in the war effort so that these memories mirror our nation's rich ethnic diversity. In addition, the legislature recognizes the existence and contributions of the World War II memorial educational foundation. Members of the foundation include World War II veterans, and advisors from the office of veterans affairs, the superintendent of public instruction, and the secretary of state. The legislature intends to honor the veterans who served in World War II and their supportive families by preserving their memories so Washington's school children will never forget the significant human costs of war and the efforts of their ancestors to preserve and protect our country and the world from tyranny. The legislature further intends that members of the World War II memorial educational foundation have a strong advisory role in the preservation of those memories and the creation of instructional materials on the war." The superintendent shall provide at least one full-time equivalent program staff for purposes of implementing this section. The superintendent may provide additional support to the organizations through contracting with independent coordinators.

(2) Career and technical student organizations eligible for technical assistance and other

support services under this section are organizations recognized as career and technical student organizations by:

(a) The United States department of education; or
(b) The superintendent of public instruction, if such recognition is recommended by the Washington association for career and technical education.

(3) Career and technical student organizations eligible for technical assistance and other support services under this section include, but are not limited to: The national FFA organization; family, career, and community leaders of America; skillsUSA; distributive education clubs of America; future business leaders of America; and the technology student association.

[2000 c 84 § 2.]

Notes:

Findings--2000 c 84: "(1) The legislature finds that career and technical student organizations:

(a) Prepare students for career experiences beyond high school;
(b) Help students develop personal, leadership, technical, and occupational skills;
(c) Are an integral component of vocational technical instruction programs; and
(d) Directly help students achieve state learning goals, especially goals three and four with respect to critical thinking, problem solving, and decision-making skills.

(2) The legislature finds that career and technical student organizations are best situated to fulfill their important purpose if they are in existence pursuant to statute and receive ongoing assistance and support from the office of superintendent of public instruction." [2000 c 84 § 1.]

RCW 28A.300.390 Washington civil liberties public education program--Findings.

The legislature finds that:

(1) In order to adequately prepare our youth for their meaningful participation in our democratic institutions and processes, there must be strong educational resources aimed at teaching students and the public about the fragile nature of our constitutional rights.

(2) The federal commission on wartime relocation and internment of civilians was established by congress in 1980 to review the facts and circumstances surrounding executive order 9066, issued on February 19, 1942, and the impact of the executive order on American citizens and permanent residents, and to recommend appropriate remedies.

The commission of [on] wartime relocation and internment of civilians issued a report of its findings in 1983 with the reports "Personal Justice Denied" and "Personal Justice Denied-Part II, Recommendations." The reports were based on information gathered through twenty days of hearings in cities across the country, particularly the west coast. Testimony was heard from more than seven hundred fifty witnesses, including evacuees, former government officials, public figures, interested citizens, historians, and other professionals who have studied the internment of Japanese-Americans during World War II.

(3) The lessons to be learned from the internment of Japanese-Americans during World War II are embodied in "Personal Justice Denied-Part II, Recommendations" which found that executive order 9066 was not justified by military necessity, and the decisions that followed from it were not founded upon military considerations. These decisions included the exclusion and

detention of American citizens and resident aliens of Japanese descent. The broad historical causes that shaped these decisions were race prejudice, war hysteria, and a failure of political leadership. Widespread ignorance about Americans of Japanese descent contributed to a policy conceived in haste and executed in an atmosphere of fear and anger at Japan. A grave personal injustice was done to the American citizens and resident aliens of Japanese ancestry who, without individual review or any probative evidence against them were excluded, removed, and detained by the United States during World War II.

(4) A grave injustice was done to both citizens and permanent residents of Japanese ancestry by the evacuation, relocation, and internment of civilians during World War II. These actions were carried out without adequate security reasons and without any documented acts of espionage or sabotage, and were motivated largely by racial prejudice, wartime hysteria, and a failure of political leadership. The excluded individuals of Japanese ancestry suffered enormous damages, both material and intangible, and there were incalculable losses in education and job training, all of which resulted in significant human suffering for which appropriate compensation has not been made. For these fundamental violations of the basic civil liberties and constitutional rights of these individuals of Japanese ancestry, the United States congress apologized on behalf of the nation in the federal civil liberties act of 1988.

[2000 c 210 § 1.]

RCW 28A.300.395 Washington civil liberties public education program--Intent.

The legislature intends to develop a grant program to fund public educational activities and development of educational materials to ensure that the events surrounding the exclusion, forced removal, and internment of civilians and permanent resident aliens of Japanese ancestry will be remembered, and so that the causes and circumstances of this and similar events may be illuminated and understood.

RCW 28A.300.400 Washington civil liberties public education program--Definition.

As used in RCW 28A.300.390 through 28A.300.415, "program" means the Washington civil liberties public education program, unless the context clearly requires otherwise.

The

program is created to do one or both of the following:

(2) Develop videos, plays, presentations, speaker bureaus, and exhibitions for presentation to elementary schools, secondary schools, community colleges, and to other interested parties.

[2000 c 210 § 4.]

RCW 28A.300.410 Washington civil liberties public education program--Grants--Acceptance of gifts, grants, or endowments.

(1) The superintendent of public instruction shall allocate grants under the program established in RCW 28A.300.390 through 28A.300.415 from private donations or within amounts appropriated for this specific purpose. The grants shall be awarded on a competitive basis.

(2) The superintendent of public instruction may contract with independent review panelists and establish an advisory panel to evaluate and make recommendations to the superintendent of public instruction based on grant applications.

(3) The superintendent of public instruction shall select grant recipients from applicants who meet all of the following criteria:

(a) The capability to administer and complete the proposed project within specified deadlines and within the specified budget;

(b) The experience, knowledge, and qualifications necessary to conduct quality educational activities regarding the exclusion and detention of Japanese-Americans during World War II;

(c) Projects that relate the Japanese-American exclusion and detention experience with civil rights included in the Declaration of Independence and the Constitution so that this event may be illuminated and understood in order to prevent similar violations of civil rights in the future;

(d) Projects that are designed to maximize the long-term educational impact of this chapter;

(e) Projects that build upon, contribute to, and expand upon the existing body of educational and research materials on the exclusion and detention of Japanese-Americans during World War II; and

(f) Projects that include the variety of experiences regarding the exclusion and detention of Japanese-Americans and its impact before, during, and after World War II including those Japanese-Americans who served in the military and those who were interned in department of justice camps.

(4) Applicants for grants under the program are encouraged to do each of the following:

(a) Involve former detainees, those excluded from the military area, and their descendants in the development and implementation of projects;

(b) Develop a strategy and plan for raising the level of awareness and understanding among the American public regarding the exclusion and detention of Japanese-Americans during World War II so that the causes and circumstances of this and similar events may be illuminated and understood;

(c) Develop a strategy and plan for reaching the broad, multicultural population through project activities;

(d) Develop local and regional consortia of organizations and individuals engaged in similar educational, research, and development efforts;

(e) Coordinate and collaborate with organizations and individuals engaging in similar educational, research, and development endeavors to maximize the effect of grants;

(f) Utilize creative and innovative methods and approaches in the research, development, and implementation of their projects;

(g) Seek matching funds, in-kind contributions, or other sources of support to supplement their proposal;

(h) Use a variety of media, including new technology, and the arts to creatively and strategically appeal to a broad audience while enhancing and enriching community-based educational efforts;

(i) Include in the grant application, scholarly inquiry related to the variety of experiences and impact of the exclusion and detention of persons of Japanese ancestry during World War II; and

(j) Add relevant materials to or catalogue relevant materials in libraries and other repositories for the creation, publication, and distribution of bibliographies, curriculum guides, oral histories, and other resource directories and supporting the continued development of scholarly work on this subject by making a broad range of archival, library, and research materials more accessible to the American public.

(5) The superintendent of public instruction may adopt other criteria as it deems appropriate for its review of grant proposals. In reviewing projects for funding, scoring shall be based on an evaluation of all application materials including narratives, attachments, support letters, supplementary materials, and other materials that may be requested of applicants.

(6)(a) In the review process, the superintendent of public instruction shall assign the following order of priority to the criteria set forth in subsection (3) of this section:

(i) Subsection (3)(a) through (d) of this section, inclusive, shall be given highest priority; and

(ii) Subsection (3)(e) through [and] (f) of this section, inclusive, shall be given second priority.

(b) The superintendent of public instruction shall consider the overall breadth and variety of the field of applicants to determine the projects that would best fulfill its program and mission. Final grant awards may be for the full amount of the grant requests or for a portion of the grant request.

(7) The superintendent of public instruction shall determine the types of applicants eligible to apply for grants under this program.

(8) The office may accept gifts, grants, or endowments from public or private sources for the program and may spend any gifts, grants, or endowments or income from public or private sources according to their terms.

(b) An election shall be conducted under RCW 28A.305.040 through 28A.305.060 each year preceding the termination of one or more terms under (a) of this subsection for the purpose of electing one state board of education member from each correspondingly numbered congressional district for a term of four years;

(d) During the transition period from the second Monday of January 1993, to the second Monday of January 1995, a vote on any matter before the state board of education by any one of two members representing the same congressional district shall be equal to one-half [of] a vote and a vote by any other member shall be equal to one full vote. The votes shall be counted and tallied and electoral points determined in the following manner for the ballot cast by common school district board directors: Each vote cast by a school director shall be accorded as many electoral points as there are enrolled students in that director's school district as determined by the enrollment reports forwarded to the state superintendent of public instruction for apportionment purposes for the month of September of the year of election: PROVIDED, That school directors from a school district which has more than five directors shall have their electoral points based upon enrollment recomputed by multiplying such number by a fraction, the denominator of which shall be the number of directors in such district, and the numerator of which shall be five; the electoral points shall then be tallied for each candidate as the votes are counted; and it shall be the majority of electoral points which determines the winning candidate. The votes shall be counted and electoral points determined in the following manner for the ballots cast by chairs of the board of directors of each private school: Each vote cast by a private school board shall be accorded as many electoral points as the number of enrolled students in the respective school as determined by enrollment reports forwarded to the superintendent of public instruction for the month of September in the year previous to the year of election and it shall be the majority of electoral points which determines the winning candidate. If no candidate receives a majority of the electoral points cast, then, not later than the first day of November, the superintendent of public instruction shall call a second election to be conducted in the same manner and at which the candidates shall be the two candidates receiving the highest number of electoral points accruing from such votes cast. No vote cast at such second election shall be received for counting if postmarked after the sixteenth day of November, or if not postmarked or the postmark is not legible, if received by mail after the twenty-first day of November and the votes shall be counted as hereinabove provided on the twenty-fifth day of November. The candidate receiving a majority of electoral points accruing from the votes at any such second election shall be declared elected. In the event of a tie in such second election, the candidate elected shall be determined by a chance drawing of a nature established by the superintendent of public instruction. Within ten days following the count of votes in an election at which a member of the state board of education is elected, the superintendent of public instruction shall certify to the secretary of state the name or names of the persons elected to be members of the state board of education.

RCW 28A.305.280 Forum for education issues.

In exercising the state board of education's authority to establish high school credit equivalencies for credits earned at institutions of higher education, the state board of education has highlighted the need for an ongoing forum that encourages the various education entities to provide each other with advice and counsel as rules and policies are adopted that have implications for students in all sectors of the state's education system. The legislature appreciates the willingness of the state board of education to consider any recommendations from the task force created in RCW 28A.305.285 and to delay until September 1995, implementation of its rule establishing course equivalencies. Ultimately the issue of credit equivalencies must be decided within the broad context of education reform and the desire of the legislature to provide options for students to move through the system without meeting bureaucratic barriers to individual educational success.

RCW 28A.310.030 ESD board--Members--Number, from board-member districts--Board-member district boundaries, determination of, changes in.

Except as otherwise provided in this chapter, in each educational service district there shall be an educational service district board consisting of seven members elected by the school directors of the educational service district, one from each of seven educational service district board-member districts. Board-member districts in districts reorganized under RCW 28A.310.020, or as provided for in RCW 28A.310.120 and under this section, shall be initially determined by the state board of education. If a reorganization pursuant to RCW 28A.310.020 places the residence of a board member into another or newly created educational service district, such member shall serve on the board of the educational service district of residence and at the next election called by the secretary to the state board of education pursuant to RCW 28A.310.080 a new seven member board shall be elected. If the redrawing of board-member district boundaries pursuant to this chapter shall cause the resident board-member district of two or more board members to coincide, such board members shall continue to serve on the board and at the next election called by the secretary to the state board of education a new board shall be elected. The board-member districts shall be arranged so far as practicable on a basis of equal population, with consideration being given existing board members of existing educational service district boards. Each educational service district board member shall be elected by the school directors of each school district within the educational service district. Beginning in 1971 and every ten years thereafter, educational service district boards shall review and, if necessary, shall change the boundaries of board-member districts so as to provide so far as practicable equal representation according to population of such board-member districts and to conform to school district boundary changes: PROVIDED, That all board-member district boundaries, to the extent necessary to conform with this chapter, shall be immediately redrawn for the purposes of the next election called by the secretary to the state board of education following any reorganization

RCW 28A.315.005 Governance structure.

(1) Under the constitutional framework and the laws of the state of Washington, the governance structure for the state's public common school system is comprised of the following bodies: The legislature, the governor, the superintendent of public instruction, the state board of education, the educational service district boards of directors, and local school district boards of directors. The respective policy and administrative roles of each body are determined by the state Constitution and statutes.

(2) Local school districts are political subdivisions of the state and the organization of such districts, including the powers, duties, and boundaries thereof, may be altered or abolished by laws of the state of Washington.

[1999 c 315 § 1.]

RCW 28A.315.015 Purpose--Policy.

(1) It is the purpose of this chapter to:

(a) Incorporate into a single, comprehensive, school district organization law all essential provisions governing:

(i) The formation and establishment of new school districts;

(ii) The alteration of the boundaries of existing districts; and

(iii) The adjustment of the assets and liabilities of school districts when changes are made under this chapter; and

(b) Establish methods and procedures whereby changes in the school district system may be brought about by the people concerned and affected.

(2) It is the state's policy that decisions on proposed changes in school district organization should be made, whenever possible, by negotiated agreement between the affected school districts. If the districts cannot agree, the decision shall be made by the regional committees on school district organization, based on the committees' best judgment, taking into consideration the following factors and factors under RCW 28A.315.205:

(a) A balance of local petition requests and the needs of the state-wide community at large in a manner that advances the best interest of public education in the affected school districts and communities, the educational service district, and the state;

(b) Responsibly serving all of the affected citizens and students by contributing to logical service boundaries and recognizing a changing economic pattern within the educational service districts of the state;

(c) Enhancing the educational opportunities of pupils in the territory by reducing existing disparities among the affected school districts' ability to provide operating and capital funds through an equitable adjustment of the assets and liabilities of the affected districts;

(d) Promoting a wiser use of public funds through improvement in the school district system of the educational service districts and the state; and

(e) Other criteria or considerations as may be established in rule by the state board of education.

(3) It is neither the intent nor purpose of this chapter to apply to organizational changes and the procedure therefor relating to capital fund aid by nonhigh school districts as provided for in chapter 28A.540 RCW.

RCW 28A.315.195 Transfer of territory by petition--Requirements--Rules--Costs.

(1) A proposed change in school district organization by transfer of territory from one school district to another may be initiated by a petition in writing presented to the educational service district superintendent:

(a) Signed by at least ten percent of the registered voters residing in the territory proposed to be transferred; or

(b) Signed by a majority of the members of the board of directors of one of the districts affected by a proposed transfer of territory.

(2) The petition shall state the name and number of each district affected, describe the boundaries of the territory proposed to be transferred, and state the reasons for desiring the change and the number of children of school age, if any, residing in the territory.

(3) The educational service district superintendent shall not complete any transfer of territory under this section that involves ten percent or more of the common school student population of the entire district from which the transfer is proposed, unless the educational service district superintendent has first called and held a special election of the voters of the entire school district from which the transfer of territory is proposed. The purpose of the election is to afford those voters an opportunity to approve or reject the proposed transfer. A simple majority shall determine approval or rejection.

(4) The state board may establish rules limiting the frequency of petitions that may be filed pertaining to territory included in whole or in part in a previous petition.

(5) Upon receipt of the petition, the educational service district superintendent shall notify in writing the affected districts that:

(a) Each school district board of directors, whether or not initiating a proposed transfer of territory, is required to enter into negotiations with the affected district or districts;

(b) In the case of a citizen-initiated petition, the affected districts must negotiate on the entire proposed transfer of territory;

(c) The districts have ninety calendar days in which to agree to the proposed transfer of territory;

(d) The districts may request and shall be granted by the educational service district superintendent one thirty-day extension to try to reach agreement; and

(e) Any district involved in the negotiations may at any time during the ninety-day period notify the educational service district superintendent in writing that agreement will not be possible.

to see if an agreement can be reached on the proposed transfer of territory.

(7) If the affected school districts cannot come to agreement about the proposed transfer of territory, and the districts do not request the services of a mediator or the mediator was unable to bring the districts to agreement, either district may file with the educational service district superintendent a written request for a hearing by the regional committee.

(8) If the affected school districts cannot come to agreement about the proposed transfer of territory initiated by citizen petition, and the districts do not request the services of a mediator or the mediator was unable to bring the districts to agreement, the district in which the citizens who filed the petition reside shall file with the educational service district superintendent a written request for a hearing by the regional committee, unless a majority of the citizen petitioners request otherwise.

(9) Upon receipt of a notice under subsection (7) or (8) of this section, the educational service district superintendent shall notify the chair of the regional committee in writing within ten days.

(10) Costs incurred by school districts under this section shall be reimbursed by the state from such funds as are appropriated for this purpose.

[1999 c 315 § 401.]

RCW 28A.315.205 Transfer of territory by petition--Regional committee responsibilities--Rules--Appeals.

(1) The chair of the regional committee shall schedule a hearing on the proposed transfer of territory at a location in the educational service district within sixty calendar days of being notified under RCW 28A.315.195 (7) or (8).

(2) Within thirty calendar days of the hearing under subsection (1) of this section, or final hearing if more than one is held by the committee, the committee shall issue its written findings and decision to approve or disapprove the proposed transfer of territory. The educational service district superintendent shall transmit a copy of the committee's decision to the superintendents of the affected school districts within ten calendar days.

(3) In carrying out the purposes of RCW 28A.315.015 and in making decisions as authorized under RCW 28A.315.095(1), the regional committee shall base its judgment upon whether and to the extent the proposed change in school district organization complies with RCW 28A.315.015(2) and rules adopted by the state board under chapter 34.05 RCW.

(4) State board rules under subsection (3) of this section shall provide for giving consideration to all of the following:

(a) The annual school performance reports required under *RCW 28A.320.205 in the affected districts and improvement of the educational opportunities of pupils in the territory proposed for a change in school district organization;

(b) The safety and welfare of pupils. For the purposes of this subsection, "safety" means freedom or protection from danger, injury, or damage and "welfare" means a positive condition or influence regarding health, character, and well-being;

(c) The history and relationship of the property affected to the students and communities affected, including, for example, inclusion within a single school district, for school attendance and corresponding tax support purposes, of entire master planned communities that were or are to be developed pursuant to an integrated commercial and residential development plan with over one thousand dwelling units;

(d) Whether or not geographic accessibility warrants a favorable consideration of a recommended change in school district organization, including remoteness or isolation of places of residence and time required to travel to and from school; and

(e) All funding sources of the affected districts, equalization among school districts of the tax burden for general fund and capital purposes through a reduction in disparities in per pupil valuation when all funding sources are considered, improvement in the economies in the administration and operation of schools, and the extent the proposed change would potentially reduce or increase the individual and aggregate transportation costs of the affected school districts.

(5)(a)(i) A petitioner or school district may appeal a decision by the regional committee to approve a change in school district organization to the state board based on the claim that the regional committee failed to follow the applicable statutory and regulatory procedures or acted in an arbitrary and capricious manner. Any such appeal shall be based on the record and the appeal must be filed within thirty days of the final decision of the regional committee.

(ii) If the state board finds that all applicable procedures were not followed or that the regional committee acted in an arbitrary and capricious manner, it shall refer the matter back to the regional committee with an explanation of the board's findings. The regional committee shall rehear the proposal.

(iii) If the state board finds that all applicable procedures were followed or that the regional committee did not act in an arbitrary and capricious manner, depending on the appeal, the educational service district shall be notified and directed to implement the changes.

(b) Any school district or citizen petitioner affected by a final decision of the regional committee may seek judicial review of the committee's decision in accordance with RCW 34.05.570.

The superintendent shall certify his or her action to each county auditor, each county treasurer, each county assessor, and the superintendents of all school districts affected by the action.

(2) Upon receipt by the educational service district superintendent of a written order by the regional committee approving the transfer of territory between two or more school districts, the superintendent shall make an order establishing all approved changes involving the alteration of the boundaries of the affected districts. RCW 28A.315.225 Dissolution and annexation of certain districts--Annexation of nondistrict property.

In case any school district has an average enrollment of fewer than five kindergarten through eighth grade pupils during the preceding school year or has not made a reasonable effort to maintain, during the preceding school year at least the minimum term of school required by law, the educational service district superintendent shall report that fact to the regional committee, which committee shall dissolve the school district and annex the territory thereof to some other district or districts. For the purposes of this section, in addition to any other finding, "reasonable effort" shall be deemed to mean the attempt to make up whatever days are short of the legal requirement by conducting of school classes on any days to include available holidays, though not to include Saturdays and Sundays, prior to June 15th of that year. School districts operating an extended school year program, most commonly implemented as a 45-15 plan, shall be deemed to be making a reasonable effort. In the event any school district has suffered any interruption in its normal school calendar due to a strike or other work stoppage or slowdown by any of its employees that district shall not be subject to this section. In case any territory is not a part of any school district, the educational service district superintendent shall present to the regional committee a proposal for the annexation of the territory to some contiguous district or districts.

[1999 c 315 § 501.]

RCW 28A.315.235 Consolidation--Petition.

(1) A proposed change in school district organization by consolidation of territory from two or more school districts to form a new school district may be initiated by:

(a) A written petition presented to the educational service district superintendent signed by ten or more registered voters residing:

(i) In each whole district and in each part of a district proposed to be included in any single new district; or

(ii) In the territory of a proposed new district that comprises a part of only one or more

districts and approved by the boards of directors of the affected school districts;

(b) A written petition presented to the educational service district superintendent signed by ten percent or more of the registered voters residing in such affected areas or area without the approval of the boards of directors of the affected school districts.

(2) The petition shall state the name and number of each district involved in or affected by the proposal to form the new district and shall describe the boundaries of the proposed new district. No more than one petition for consolidation of the same two school districts or parts thereof shall be considered during a school fiscal year.

(3) The educational service district superintendent may not complete any consolidation of territory under this section unless he or she has first called and held a special election of the voters of the affected districts to afford those voters an opportunity to approve or reject the proposed consolidation. A simple majority shall determine approval or rejection.

(4) If a proposed change in school district organization by consolidation of territory has been approved under this section, the educational service district superintendent shall make an order establishing all approved changes involving the alteration of the boundaries of the affected districts. The order shall also establish all approved terms of the equitable adjustment of assets and liabilities involving the affected districts. The superintendent shall certify his or her action to each county auditor, each county treasurer, each county assessor, and the superintendents of all school districts affected by the action.

[1999 c 315 § 601.]

RCW 28A.315.245 Adjustment of assets and liabilities.

In determining an equitable adjustment of assets and liabilities, the negotiating school districts and the regional committee shall consider the following factors:

(1) The number of school age children residing in each school district and in each part of a district involved or affected by the proposed change in school district organization;

(2) The assessed valuation of the property located in each school district and in each part of a district involved or affected by the proposed change in school district organization;

(3) The purpose for which the bonded indebtedness of any school district involved or affected by the proposed change in school district organization was incurred;

(4) The history and relationship of the property affected to the students and communities affected by the proposed change in school district organization;

(5) Additional burdens to the districts affected by the proposed change in school district organization as a result of the proposed organization;

(6) The value, location, and disposition of all improvements located in the school districts involved or affected by the proposed change in school district organization;

(7) The consideration of all other sources of funding; and

(8) Any other factors that in the judgment of the school districts or regional committee are important or essential to the making of an equitable adjustment of assets and liabilities.

[1999 c 315 § 701.]

RCW 28A.315.255 Adjustment of indebtedness.

(1) The fact of the issuance of bonds by a school district, heretofore or hereafter, does not prevent changes in the organization and extent of school districts, regardless of whether or not such bonds or any part thereof are outstanding at the time of change.

(2) In case of any change:

(a) The bonded indebtedness outstanding against any school district involved in or affected by such change shall be adjusted equitably among the old school districts and the new district or districts, if any, involved or affected; and

(b) The property and other assets and the liabilities other than bonded indebtedness of any school district involved in or affected by any such change shall also be adjusted in the manner and to the effect provided for in this section, except if all the territory of an old school district is included in a single new district or is annexed to a single existing district, in which event the title to the property and other assets and the liabilities other than bonded indebtedness of the old district vests in and becomes the assets and liabilities of the new district or of the existing district, as applicable.

[1999 c 315 § 702.]

RCW 28A.315.265 Adjustment of bonded indebtedness--Order--Special elections.

If adjustments of bonded indebtedness are made between or among school districts in connection with the alteration of the boundaries of the school districts under this chapter, the order of the educational service district superintendent establishing the terms of adjustment of bonded indebtedness shall provide and specify:

(1) In every case where bonded indebtedness is transferred from one school district to another school district:

(a) That such bonded indebtedness is assumed by the school district to which it is transferred;

(b) That thereafter such bonded indebtedness shall be the obligation of the school district to which it is transferred;

(c) That, if the terms of adjustment so provide, any bonded indebtedness thereafter incurred by such transferee school district through the sale of bonds authorized before the date its boundaries were altered shall be the obligation of such school district including the territory added thereto; and

(d) That taxes shall be levied thereafter against the taxable property located within such school district as it is constituted after its boundaries were altered, the taxes to be levied at the times and in the amounts required to pay the principal of and the interest on the bonded indebtedness assumed or incurred, as the same become due and payable.

(2) In computing the debt limitation of any school district from which or to which bonded indebtedness has been transferred, the amount of transferred bonded indebtedness at any time

outstanding:

(a) Shall be an offset against and deducted from the total bonded indebtedness, if any, of the school district from which the bonded indebtedness was transferred; and

(b) Shall be deemed to be bonded indebtedness solely of the transferee school district that assumed the indebtedness.

(3) In every case where adjustments of bonded indebtedness do not provide for transfer of bonded indebtedness from one school district to another school district:

(a) That the existing bonded indebtedness of each school district, the boundaries of which are altered and any bonded indebtedness incurred by each such school district through the sale of bonds authorized before the date its boundaries were altered is the obligation of the school district in its reduced or enlarged form, as the case may be; and

(b) That taxes shall be levied thereafter against the taxable property located within each such school district in its reduced or enlarged form, as the case may be, at the times and in the amounts required to pay the principal of and interest on such bonded indebtedness as the same become due and payable.

(4) If a change in school district organization approved by the regional committee concerns a proposal to form a new school district or a proposal for adjustment of bonded indebtedness involving an established school district and one or more former school districts now included therein pursuant to a vote of the people concerned, a special election of the voters residing within the territory of the proposed new district, or of the established district involved in a proposal for adjustment of bonded indebtedness as the case may be, shall be held for the purpose of affording those voters an opportunity to approve or reject such proposals as concern or affect them.

(5) In a case involving both the question of the formation of a new school district and the question of adjustment of bonded indebtedness, the questions may be submitted to the voters either in the form of a single proposition or as separate propositions, whichever seems expedient to the educational service district superintendent. When the regional committee has passed appropriate resolutions for the questions to be submitted and the educational service district superintendent has given notice thereof to the county auditor, the special election shall be called and conducted, and the returns canvassed as in regular school district elections.

[1999 c 315 § 703.]

RCW 28A.315.275 Notice of elections.

Notice of special elections as provided for in RCW 28A.315.265 shall be given by the county auditor as provided in RCW 29.27.080. The notice of election shall state the purpose for which the election has been called and contain a description of the boundaries of the proposed new district and a statement of any terms of adjustment of bonded indebtedness on which to be voted.

[1999 c 315 § 704.]

RCW 28A.315.285 Special election--Determination--Order--Certification.

(1) If a special election is held to vote on a proposal or alternate proposals to form a new school district, the votes cast by the registered voters in each component district shall be tabulated separately. Any such proposition shall be considered approved only if it receives a majority of the votes cast in each separate district voting thereon.

(2) If a special election is held to vote on a proposal for adjustment of bonded indebtedness, the entire vote cast by the registered voters of the proposed new district or of the established district as the case may be shall be tabulated. Any such proposition shall be considered approved if sixty percent or more of all votes cast thereon are in the affirmative.

(3) In the event of approval of a proposition or propositions voted on at a special election, the educational service district superintendent shall:

(a) Make an order establishing such new school district or such terms of adjustment of bonded indebtedness or both, as were approved by the registered voters and shall also order such other terms of adjustment, if there are any, of property and other assets and of liabilities other than bonded indebtedness as have been approved by the state council; and

(b) Certify his or her action to the county and school district officials specified in RCW 28A.315.215. The educational service district superintendent may designate, with the approval of the superintendent of public instruction, a name and number different from that of any component thereof, but must designate the new district by name and number different from any other district in existence in the county.

RCW 28A.325.010 Fees for optional noncredit extracurricular events--Disposition.

The board of directors of any common school district may establish and collect a fee from students and nonstudents as a condition to their attendance at any optional noncredit extracurricular event of the district which is of a cultural, social, recreational, or athletic nature: PROVIDED, That in so establishing such fee or fees, the district shall adopt regulations for waiving and reducing such fees in the cases of those students whose families, by reason of their low income, would have difficulty in paying the entire amount of such fees and may likewise waive or reduce such fees for nonstudents of the age of sixty-five or over who, by reason of their low income, would have difficulty in paying the entire amount of such fees. An optional comprehensive fee may be established and collected for any combination or all of such events or, in the alternative, a fee may be established and collected as a condition to attendance at any single event. Fees collected pursuant to this section shall be deposited in the associated student body program fund of the school district, and may be expended to defray the costs of optional noncredit extracurricular events of such a cultural, social, recreational, or athletic nature, or to otherwise support the activities and programs of associated student bodies.

RCW 28A.325.020 Associated student bodies--Powers and responsibilities affecting.

As used in this section, an "associated student body" means the formal organization of the students of a school formed with the approval of and regulation by the board of directors of the school district in conformity to the rules and regulations promulgated by the superintendent of public instruction: PROVIDED, That the board of directors of a school district may act or delegate the authority to an employee of the district to act as the associated student body for any school plant facility within the district containing no grade higher than the sixth grade.

The superintendent of public instruction, after consultation with appropriate school organizations and students, shall promulgate rules and regulations to designate the powers and responsibilities of the boards of directors of the school districts of the state of Washington in developing efficient administration, management, and control of moneys, records, and reports of the associated student bodies organized in the public schools of the state.

[1984 c 98 § 1; 1975 1st ex.s. c 284 § 3; 1973 c 52 § 1. Formerly RCW 28A.58.115.]

Notes:

Severability--1975 1st ex.s. c 284: See note following RCW 28A.325.010.

RCW 28A.325.030 Associated student body program fund--Fund-raising activities--Nonassociated student body program fund moneys.

(1)(a) There is hereby created a fund on deposit with each county treasurer for each school district of the county having an associated student body as defined in RCW 28A.325.020. Such fund shall be known as the associated student body program fund. Rules adopted by the superintendent of public instruction under RCW 28A.325.020 shall require separate accounting for each associated student body's transactions in the school district's associated student body program fund.

(b) All moneys generated through the programs and activities of any associated student body shall be deposited in the associated student body program fund. Such funds may be invested for the sole benefit of the associated student body program fund in items enumerated in RCW 28A.320.320 and the county treasurer may assess a fee as provided therein. Disbursements from such fund shall be under the control and supervision, and with the approval, of the board of directors of the school district, and shall be by warrant as provided in chapter 28A.350 RCW: PROVIDED, That in no case shall such warrants be issued in an amount greater than the funds on deposit with the county treasurer in the associated student body program fund. To facilitate the payment of obligations, an imprest bank account or accounts may be created and replenished

from the associated student body program fund.

(c) The associated student body program fund shall be budgeted by the associated student body, subject to approval by the board of directors of the school district. All disbursements from the associated student body program fund or any imprest bank account established thereunder shall have the prior approval of the appropriate governing body representing the associated student body. Notwithstanding the provisions of RCW 43.09.210, it shall not be mandatory that expenditures from the district's general fund in support of associated student body programs and activities be reimbursed by payments from the associated student body program fund.

(2) Subject to applicable school board policies, student groups may conduct fund-raising activities, including but not limited to soliciting donations, in their private capacities for the purpose of generating nonassociated student body fund moneys. The school board policy shall include provisions to ensure appropriate accountability for these funds. Nonassociated student body program fund moneys generated and received by students for private purposes to use for scholarship, student exchange, and/or charitable purposes shall be held in trust in one or more separate accounts within an associated student body program fund and be disbursed for such purposes as the student group conducting the fund-raising activity shall determine: PROVIDED, That the school district shall either withhold an amount from such moneys as will pay the district for its direct costs in providing the service or otherwise be compensated for its cost for such service. Nonassociated student body program fund moneys shall not be deemed public moneys under section 7, Article VIII of the state Constitution. Notice shall be given identifying the intended use of the proceeds. The notice shall also state that the proceeds are nonassociated student body funds to be held in trust by the school district exclusively for the intended purpose. "Charitable purpose" under this section does not include any activity related to assisting a campaign for election of a person to an office or for the promotion or opposition to a ballot proposition.

[2000 c 157 § 2; 1990 c 33 § 340; 1984 c 98 § 2; 1982 c 231 § 1; 1977 ex.s. c 160 § 1; 1975 1st ex.s. c 284 § 2. Formerly RCW 28A.58.120.]

Notes:

Findings--Intent--2000 c 157: "The legislature finds that current law permits associated student bodies to conduct fund-raising activities, including but not limited to soliciting donations, to raise money for school sports programs and school clubs. However, students also want to conduct fund-raising activities for charitable causes, such as to fund scholarships and student exchange programs, assist families whose homes have been destroyed, to fund community projects, and to rebuild the Statue of Liberty.

The legislature further finds that current law is not clear how student groups may raise funds for charitable purposes, whether proceeds from any fund-raising activities can be used for charitable purposes or only donations may be used for charitable purposes, and whether recipients must be "poor or infirm." This has resulted in considerable confusion on the part of students regarding what type of fund-raising is permissible when funds are raised for charitable purposes by student groups.

It is the intent of the legislature to allow students to broaden the types of fund-raisers that they may conduct for charitable purposes in their private nonassociated student body capacities, and ensure that these funds will be separate from student body funds to avoid constitutional issues pertaining to the gifting of public funds." [2000 c 157 § 1.]

Severability--1982 c 231: "If any provision of this amendatory act or its application to any person or

circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1982 c 231 § 2.]

(2) Every purchase of furniture, equipment or supplies, except books, the cost of which is estimated to be in excess of fifteen thousand dollars, shall be on a competitive basis. The board of directors shall establish a procedure for securing telephone and/or written quotations for such purchases. Whenever the estimated cost is from fifteen thousand dollars up to fifty thousand dollars, the procedure shall require quotations from at least three different sources to be obtained in writing or by telephone, and recorded for public perusal. Whenever the estimated cost of a public works project is fifty thousand dollars or more, the public bidding process provided in subsection (1) of this section shall be followed unless the contract is let using the small works roster process in RCW 39.04.155 or under any other procedure authorized for school districts. board shall provide bidding information to any qualified bidder or the bidder's agent, requesting it in person.

(5) In the event of any emergency when the public interest or property of the district would suffer material injury or damage by delay, upon resolution of the board declaring the existence of such an emergency and reciting the facts constituting the same, the board may waive the requirements of this section with reference to any purchase or contract: PROVIDED, That an "emergency", for the purposes of this section, means a condition likely to result in immediate physical injury to persons or to property of the school district in the absence of prompt remedial action.

(6) This section does not apply to the direct purchase of school buses by school districts and educational services in accordance with RCW 28A.160.195.

The works of art may be placed in accordance with Article IX, sections 2 and 3 of the state Constitution on public lands, integral to or attached to a public building or structure, detached within or outside a public building or structure, part of a portable exhibition or collection, part of a temporary exhibition, or loaned or exhibited in other public facilities. The Washington state arts commission shall, in consultation with the superintendent of public instruction, determine the amount to be made available for the purchase of works of art under this section, and payments therefor shall be made in accordance with law. The designation of projects and sites, selection, contracting, purchase, commissioning, reviewing of design, execution and placement, acceptance, maintenance, and sale, exchange, or disposition of works of art shall be the responsibility of the Washington state arts commission in consultation with the

However, the costs to carry out the Washington state arts commission's responsibility for maintenance shall not be funded from the moneys referred to under this section, RCW 43.17.200, 43.19.455, or 28B.10.025, but shall be contingent upon adequate appropriations being made for that purpose: PROVIDED, That the superintendent of public instruction and the school district board of directors of the districts where the sites are selected shall have the right to:

- (1) Waive its use of the one-half of one percent of the appropriation for the acquisition of works of art before the selection process by the Washington state arts commission;
- (2) Appoint a representative to the body established by the Washington state arts commission to be part of the selection process with full voting rights;
- (3) Reject the results of the selection process;
- (4) Reject the placement of a completed work or works of art on school district premises if such works are portable.

Rejection at any point before or after the selection process shall not cause the loss of or otherwise endanger state construction funds available to the local school district. Any works of art rejected under this section shall be applied to the provision of works of art under this chapter, at the discretion of the Washington state arts commission, notwithstanding any contract or agreement between the affected school district and the artist involved. In addition to the cost of the works of art the one-half of one percent of the appropriation as provided herein shall be used to provide for the administration by the Washington state arts commission and all costs for installation of the work of art. For the purpose of this section building shall not include sheds, warehouses or other buildings of a temporary nature.

The executive director of the arts commission, the superintendent of public instruction and the Washington state school directors association shall appoint a study group to review the operations of the one-half of one percent for works of art under this section.

(2)(a) Salaries for certificated instructional staff shall not be less than the salary provided in the appropriations act in the state-wide salary allocation schedule for an employee with a baccalaureate degree and zero years of service; and

(b) Salaries for certificated instructional staff with a masters degree shall not be less than the salary provided in the appropriations act in the state-wide salary allocation schedule for an

(b) Fringe benefit contributions for basic education and special education certificated instructional staff shall be included as salary under (a) of this subsection only to the extent that the district's actual average benefit contribution exceeds the amount of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. For purposes of this section, fringe benefits shall not include payment for unused leave for illness or injury under RCW 28A.400.210; employer contributions for old age survivors insurance, workers' compensation, unemployment compensation, and retirement benefits under the Washington state retirement system; or employer contributions for health benefits in excess of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. Short title--Severability--Savings--Captions not law--Reservation of legislative power--Effective dates--1993 c 492: See RCW 43.72.910 through 43.72.915.

Intent--1990 1st ex.s. c 11: "The legislature recognizes the rising costs of health insurance premiums for school employees, and the increasing need to ensure effective use of state benefit dollars to obtain basic coverage for employees and their dependents. In school districts that do not pool benefit allocations among employees, increases in premium rates create particular hardships for employees with families. For many of these employees, the increases translate directly into larger payroll deductions simply to maintain basic benefits.

The goal of this act is to provide access for school employees to basic coverage, including coverage for dependents, while minimizing employees' out-of-pocket premium costs. Unnecessary utilization of medical services can contribute to rising health insurance costs. Therefore, the legislature intends to encourage plans that promote appropriate utilization without creating major barriers to access to care. The legislature also intends that school districts pool state benefit allocations so as to eliminate major differences in out-of-pocket premium expenses for employees who do and do not need coverage for dependents." RCW 28A.400.210 Employee attendance incentive program--Remuneration or benefit plan for unused sick leave.

Every school district board of directors may, in accordance with chapters 41.56 and 41.59 RCW, establish an attendance incentive program for all certificated and classified employees in the following manner, including covering persons who were employed during the 1982-'83 school year:

(1) In January of the year following any year in which a minimum of sixty days of leave for illness or injury is accrued, and each January thereafter, any eligible employee may exercise an option to receive remuneration for unused leave for illness or injury accumulated in the previous year at a rate equal to one day's monetary compensation of the employee for each four full days of accrued leave for illness or injury in excess of sixty days. Leave for illness or injury for which compensation has been received shall be deducted from accrued leave for illness or injury at the rate of four days for every one day's monetary compensation. No employee may receive compensation under this section for any portion of leave for illness or injury accumulated at a rate in excess of one day per month.

(2) Except as provided in RCW 28A.400.212, at the time of separation from school district employment an eligible employee or the employee's estate shall receive remuneration at a rate equal to one day's current monetary compensation of the employee for each four full days accrued leave for illness or injury. For purposes of this subsection, "eligible employee" means (a) employees who separate from employment due to retirement or death; (b) employees who separate from employment and who are at least age fifty-five and have at least ten years of service under the teachers' retirement system plan 3 as defined in RCW 41.32.010(40), or under the Washington school employees' retirement system plan 3 as defined in RCW 41.35.010(31); or (c) employees who separate from employment and who are at least age fifty-five and have at least fifteen years of service under the teachers' retirement system plan 2 as defined in RCW 41.32.010(39), under the Washington school employees' retirement system plan 2 as defined in RCW 41.35.010(30), or under the public employees' retirement system plan 2 as defined in RCW 41.40.010(34).

(3) In lieu of remuneration for unused leave for illness or injury as provided in subsections (1) and (2) of this section, a school district board of directors may, with equivalent funds, provide eligible employees a benefit plan that provides reimbursement for medical expenses. Any benefit plan adopted after July 28, 1991, shall require, as a condition of participation under the plan, that the employee sign an agreement with the district to hold the district harmless should the United States government find that the district or the employee is in

debt to the United States as a result of the employee not paying income taxes due on the equivalent funds placed into the plan, or as a result of the district not withholding or deducting any tax, assessment, or other payment on such funds as required under federal law.

Moneys or benefits received under this section shall not be included for the purposes of computing a retirement allowance under any public retirement system in this state.

The superintendent of public instruction in its administration hereof, shall promulgate uniform rules and regulations to carry out the purposes of this section.

Should the legislature revoke any benefits granted under this section, no affected employee shall be entitled thereafter to receive such benefits as a matter of contractual right.

RCW 28A.400.212 Employee attendance incentive program--Effect of early retirement.

An employee of a school district that has established an attendance incentive program under RCW 28A.400.210 who retires under section 1 or 3, chapter 234, Laws of 1992, section 1 or 3, chapter 86, Laws of 1993, or section 4 or 6, chapter 519, Laws of 1993, shall receive, at the time of his or her separation from school district employment, not less than one-half of the remuneration for accrued leave for illness or injury payable to him or her under the district's incentive program. The school district board of directors may, at its discretion, pay the remainder of such an employee's remuneration for accrued leave for illness or injury after the time of the employee's separation from school district employment, but the employee or the employee's estate is entitled to receive the remainder of the remuneration no later than the date the employee would have been eligible to retire under the provisions of RCW 41.40.180 or 41.32.480 had the employee continued to work for the district until eligible to retire, or three years following the date of the employee's separation from school district employment, whichever occurs first. A district exercising its discretion under this section to pay the remainder of the remuneration after the time of the employee's separation from school district employment shall establish a policy and procedure for paying the remaining remuneration that applies to all affected employees equally and without discrimination. Any remuneration paid shall be based on the number of days of leave the employee had accrued and the compensation the employee received at the time he or she retired under section 1 or 3, chapter 234, Laws of 1992, section 1 or 3, chapter 86, Laws of 1993, or section 4 or 6, chapter 519, Laws of 1993.

INSURANCE

RCW 28A.400.350 Liability, life, health, health care, accident, disability, and salary insurance authorized--When required--Premiums.

(1) The board of directors of any of the state's school districts may make available liability, life, health, health care, accident, disability and salary protection or insurance or any one of, or a combination of the enumerated types of insurance, or any other type of insurance or protection, for the members of the boards of directors, the students, and employees of the school district, and their dependents. Such coverage may be provided by contracts with private carriers, with the state health care authority after July 1, 1990, pursuant to the approval of the authority administrator, or through self-insurance or self-funding pursuant to chapter 48.62 RCW, or in any other manner authorized by law.

(2) Whenever funds are available for these purposes the board of directors of the school district may contribute all or a part of the cost of such protection or insurance for the employees of their respective school districts and their dependents. The premiums on such liability insurance shall be borne by the school district.

After October 1, 1990, school districts may not contribute to any employee protection or insurance other than liability insurance unless the district's employee benefit plan conforms to RCW 28A.400.275 and 28A.400.280.

The school district may contribute all or part of the costs, including the premiums, of life, health, health care, accident or disability insurance which shall be offered to all students participating in interschool activities on the behalf of or as representative of their school or school district. The school district board of directors may require any student participating in extracurricular interschool activities to, as a condition of participation, document evidence of insurance or purchase insurance that will provide adequate coverage, as determined by the school district board of directors, for medical expenses incurred as a result of injury sustained while participating in the extracurricular activity. In establishing such a requirement, the district shall adopt regulations for waiving or reducing the premiums of such coverage as may be offered through the school district to students participating in extracurricular activities, for those students whose families, by reason of their low income, would have difficulty paying the entire amount of such insurance premiums. The district board shall adopt regulations for waiving or reducing the insurance coverage requirements for low-income students in order to assure such students are not prohibited from participating in extracurricular interschool activities.

(4) All contracts for insurance or protection written to take advantage of the provisions of this section shall provide that the beneficiaries of such contracts may utilize on an equal participation basis the services of those practitioners licensed pursuant to chapters 18.22, 18.25,

CRITERIA FOR EVALUATION AND MODEL PROGRAMS

RCW 28A.405.100 Minimum criteria for the evaluation of certificated employees, including administrators--Procedure--Scope--Penalty.

(1) The superintendent of public instruction shall establish and may amend from time to time minimum criteria for the evaluation of the professional performance capabilities and development of certificated classroom teachers and certificated support personnel. For classroom

teachers the criteria shall be developed in the following categories: Instructional skill; classroom management, professional preparation and scholarship; effort toward improvement when needed; the handling of student discipline and attendant problems; and interest in teaching pupils and knowledge of subject matter.

Every board of directors shall, in accordance with procedure provided in RCW 41.59.010 through 41.59.170, 41.59.910 and 41.59.920, establish evaluative criteria and procedures for all certificated classroom teachers and certificated support personnel. The evaluative criteria must contain as a minimum the criteria established by the superintendent of public instruction pursuant to this section and must be prepared within six months following adoption of the superintendent of public instruction's minimum criteria. The district must certify to the superintendent of public instruction that evaluative criteria have been so prepared by the district.

Except as provided in subsection (5) of this section, it shall be the responsibility of a principal or his or her designee to evaluate all certificated personnel in his or her school. During each school year all classroom teachers and certificated support personnel, hereinafter referred to as "employees" in this section, shall be observed for the purposes of evaluation at least twice in the performance of their assigned duties. Total observation time for each employee for each school year shall be not less than sixty minutes. Following each observation, or series of observations, the principal or other evaluator shall promptly document the results of the observation in writing, and shall provide the employee with a copy thereof within three days after such report is prepared. New employees shall be observed at least once for a total observation time of thirty minutes during the first ninety calendar days of their employment period.

At any time after October 15th, an employee whose work is judged unsatisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies along with a reasonable program for improvement. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. Improvement of performance or probable cause for nonrenewal must occur and be documented by the original evaluator before any consideration of a request for transfer or reassignment as contemplated by either the individual or the school district. A probationary period of sixty school days shall be established. The establishment of a probationary period does not adversely affect the contract status of an employee within the meaning of RCW 28A.405.300. The purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency. The establishment of the probationary period and the giving of the notice to the employee of deficiency shall be by the school district superintendent and need not be submitted to the board of directors for approval. During the probationary period the evaluator shall meet with the employee at least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee. The evaluator may authorize one additional certificated employee to evaluate the probationer and to aid the employee in improving his or her areas of deficiency; such additional certificated employee shall be immune from any civil liability that might otherwise be incurred or imposed with regard to the good faith performance of such evaluation. The probationer may be removed from probation if he or she has demonstrated improvement to the satisfaction of the principal in those areas specifically detailed

in his or her initial notice of deficiency and subsequently detailed in his or her improvement program. Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer and shall constitute grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.

Immediately following the completion of a probationary period that does not produce performance changes detailed in the initial notice of deficiencies and improvement program, the employee may be removed from his or her assignment and placed into an alternative assignment for the remainder of the school year. This reassignment may not displace another employee nor may it adversely affect the probationary employee's compensation or benefits for the remainder of the employee's contract year. If such reassignment is not possible, the district may, at its option, place the employee on paid leave for the balance of the contract term.

(2) Every board of directors shall establish evaluative criteria and procedures for all superintendents, principals, and other administrators. It shall be the responsibility of the district superintendent or his or her designee to evaluate all administrators. Such evaluation shall be based on the administrative position job description. Such criteria, when applicable, shall include at least the following categories: Knowledge of, experience in, and training in recognizing good professional performance, capabilities and development; school administration and management; school finance; professional preparation and scholarship; effort toward improvement when needed; interest in pupils, employees, patrons and subjects taught in school; leadership; and ability and performance of evaluation of school personnel.

(3) Each certificated employee shall have the opportunity for confidential conferences with his or her immediate supervisor on no less than two occasions in each school year. Such confidential conference shall have as its sole purpose the aiding of the administrator in his or her assessment of the employee's professional performance.

(4) The failure of any evaluator to evaluate or supervise or cause the evaluation or supervision of certificated employees or administrators in accordance with this section, as now or hereafter amended, when it is his or her specific assigned or delegated responsibility to do so, shall be sufficient cause for the nonrenewal of any such evaluator's contract under RCW 28A.405.210, or the discharge of such evaluator under RCW 28A.405.300.

(5) After an employee has four years of satisfactory evaluations under subsection (1) of this section, a school district may use a short form of evaluation, a locally bargained evaluation emphasizing professional growth, an evaluation under subsection (1) of this section, or any combination thereof. The short form of evaluation shall include either a thirty minute observation during the school year with a written summary or a final annual written evaluation based on the criteria in subsection (1) of this section and based on at least two observation periods during the school year totaling at least sixty minutes without a written summary of such observations being prepared. However, the evaluation process set forth in subsection (1) of this section shall be followed at least once every three years unless this time is extended by a local school district under the bargaining process set forth in chapter 41.59 RCW. The employee or evaluator may require that the evaluation process set forth in subsection (1) of this section be conducted in any given school year. No evaluation other than the evaluation authorized under subsection (1) of this

section may be used as a basis for determining that an employee's work is unsatisfactory under subsection (1) of this section or as probable cause for the nonrenewal of an employee's contract under RCW 28A.405.210 unless an evaluation process developed under chapter 41.59 RCW determines otherwise.

RCW 28A.405.110 Evaluations--Legislative findings.

The legislature recognizes the importance of teachers in the educational system. Teachers are the fundamental element in assuring a quality education for the state's and the nation's children. Teachers, through their direct contact with children, have a great impact on the development of the child. The legislature finds that this important role of the teacher requires an assurance that teachers are as successful as possible in attaining the goal of a well-educated society. The legislature finds, therefore, that the evaluation of those persons seeking to enter the teaching profession is no less important than the evaluation of those persons currently teaching. The evaluation of persons seeking teaching credentials should be strenuous while making accommodations uniquely appropriate to the applicants. Strenuous teacher training and preparation should be complemented by examinations of prospective teachers prior to candidates being granted official certification by the state board of education. Teacher preparation program entrance evaluations, teacher training, teacher preparation program exit examinations, official certification, in-service training, and ongoing evaluations of individual progress and professional growth are all part of developing and maintaining a strong precertification and postcertification professional education system.

The legislature further finds that an evaluation system for teachers has the following elements, goals, and objectives: (1) An evaluation system must be meaningful, helpful, and objective; (2) an evaluation system must encourage improvements in teaching skills, techniques, and abilities by identifying areas needing improvement; (3) an evaluation system must provide a mechanism to make meaningful distinctions among teachers and to acknowledge, recognize, and encourage superior teaching performance; and (4) an evaluation system must encourage respect in the evaluation process by the persons conducting the evaluations and the persons subject to the evaluations through recognizing the importance of objective standards and minimizing

subjectivity.

RCW 28A.405.200 Annual salary schedules as basis for salaries of certificated employees.

Severability--1969 ex.s. c 283: See note following RCW 28A.150.050.

RCW 28A.405.210 Conditions and contracts of employment--Determination of probable cause for nonrenewal of contracts--Nonrenewal due to enrollment decline or revenue loss--Notice--Opportunity for hearing.

No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the state board of education for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable

age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days following July 15 rather than the day that the employee submits the request for a hearing. If any such notification or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.

This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 shall not be construed as a nonrenewal of contract for the purposes of this section.

RCW 28A.405.220 Conditions and contracts of employment--Nonrenewal of provisional employees--Notice--Procedure.

Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first two years of employment by such district, unless the employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district. Employees as defined in this section shall hereinafter be referred to as "provisional employees".

In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

Any certificated employee of a school district employed as an assistant superintendent, director, principal, assistant principal, coordinator, or in any other supervisory or administrative position, hereinafter in this section referred to as "administrator", shall be subject to transfer, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section, shall mean any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator.

Every superintendent determining that the best interests of the school district would be served by transferring any administrator to a subordinate certificated position shall notify that administrator in writing on or before May 15th preceding the commencement of such school term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st, which notification shall state the reason or reasons for the transfer, and shall identify the subordinate certificated position to which the administrator will be transferred. Such notice shall be served upon the administrator personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

Every such administrator so notified, at his or her request made in writing and filed with the president or chair, or secretary of the board of directors of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the board of directors in an executive session thereof for the purpose of requesting the board to reconsider the decision of the superintendent. Such board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall notify the administrator in writing of the date, time and place of the meeting at least three days prior thereto. At such meeting the administrator shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. The administrator and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the administrator in writing of its final decision within ten days following its meeting with the administrator. No appeal to the courts shall lie from the final decision of the board of directors to transfer an administrator to a subordinate certificated position: PROVIDED, That in the case of principals such transfer shall be made at the expiration of the contract year and only during the first three consecutive school years of employment as a principal by a school district; except that if any such principal has been previously employed as a principal by another school district in the state of Washington for three or more consecutive school years the provisions of this section shall apply only to the first full school year of such employment.

This section applies to any person employed as an administrator by a school district on

June 25, 1976 and to all persons so employed at any time thereafter. This section provides the exclusive means for transferring an administrator to a subordinate certificated position at the expiration of the term of his or her employment contract.

HIRING AND DISCHARGE

RCW 28A.405.300 Adverse change in contract status of certificated employee--Determination of probable cause--Notice--Opportunity for hearing.

In the event it is determined that there is probable cause or causes for a teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with the school district, hereinafter referred to as "employee", to be discharged or otherwise adversely affected in his or her contract status, such employee shall be notified in writing of that decision, which notification shall specify the probable cause or causes for such action. Such determinations of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notices shall be served upon that employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair of the board or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for a hearing pursuant to RCW 28A.405.310 to determine whether or not there is sufficient cause or causes for his or her discharge or other adverse action against his or her contract status.

In the event any such notice or opportunity for hearing is not timely given, or in the event cause for discharge or other adverse action is not established by a preponderance of the evidence at the hearing, such employee shall not be discharged or otherwise adversely affected in his or her contract status for the causes stated in the original notice for the duration of his or her contract.

If such employee does not request a hearing as provided herein, such employee may be discharged or otherwise adversely affected as provided in the notice served upon the employee.

Transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 shall not be construed as a discharge or other adverse action against contract status for the purposes of this section.

(1) Any employee receiving a notice of probable cause for discharge or adverse effect in contract status pursuant to RCW 28A.405.300, or any employee, with the exception of provisional employees as defined in RCW 28A.405.220, receiving a notice of probable cause for

nonrenewal of contract pursuant to RCW 28A.405.210, shall be granted the opportunity for a hearing pursuant to this section.

(2) In any request for a hearing pursuant to RCW 28A.405.300 or 28A.405.210, the employee may request either an open or closed hearing. The hearing shall be open or closed as requested by the employee, but if the employee fails to make such a request, the hearing officer may determine whether the hearing shall be open or closed.

(3) The employee may engage counsel who shall be entitled to represent the employee at the prehearing conference held pursuant to subsection (5) of this section and at all subsequent proceedings pursuant to this section. At the hearing provided for by this section, the employee may produce such witnesses as he or she may desire.

(4) In the event that an employee requests a hearing pursuant to RCW 28A.405.300 or 28A.405.210, a hearing officer shall be appointed in the following manner: Within fifteen days following the receipt of any such request the board of directors of the district or its designee and the employee or employee's designee shall each appoint one nominee. The two nominees shall jointly appoint a hearing officer who shall be a member in good standing of the Washington state bar association or a person adhering to the arbitration standards established by the public employment relations commission and listed on its current roster of arbitrators. Should said nominees fail to agree as to who should be appointed as the hearing officer, either the board of directors or the employee, upon appropriate notice to the other party, may apply to the presiding judge of the superior court for the county in which the district is located for the appointment of such hearing officer, whereupon such presiding judge shall have the duty to appoint a hearing officer who shall, in the judgment of such presiding judge, be qualified to fairly and impartially discharge his or her duties. Nothing herein shall preclude the board of directors and the employee from stipulating as to the identity of the hearing officer in which event the foregoing procedures for the selection of the hearing officer shall be inapplicable. The district shall pay all fees and expenses of any hearing officer selected pursuant to this subsection.

(5) Within five days following the selection of a hearing officer pursuant to subsection (4) of this section, the hearing officer shall schedule a prehearing conference to be held within such five day period, unless the board of directors and employee agree on another date convenient with the hearing officer. The employee shall be given written notice of the date, time, and place of such prehearing conference at least three days prior to the date established for such conference.

(6) The hearing officer shall preside at any prehearing conference scheduled pursuant to subsection (5) of this section and in connection therewith shall:

(a) Issue such subpoenas or subpoenas duces tecum as either party may request at that time or thereafter; and

(b) Authorize the taking of prehearing depositions at the request of either party at that time or thereafter; and

(c) Provide for such additional methods of discovery as may be authorized by the civil rules applicable in the superior courts of the state of Washington; and

(d) Establish the date for the commencement of the hearing, to be within ten days following the date of the prehearing conference, unless the employee requests a continuance, in

which event the hearing officer shall give due consideration to such request.

(7) The hearing officer shall preside at any hearing and in connection therewith shall:

(a) Make rulings as to the admissibility of evidence pursuant to the rules of evidence applicable in the superior court of the state of Washington.

(b) Make other appropriate rulings of law and procedure.

(c) Within ten days following the conclusion of the hearing transmit in writing to the board and to the employee, findings of fact and conclusions of law and final decision. If the final decision is in favor of the employee, the employee shall be restored to his or her employment position and shall be awarded reasonable attorneys' fees.

(8) Any final decision by the hearing officer to nonrenew the employment contract of the employee, or to discharge the employee, or to take other action adverse to the employee's contract status, as the case may be, shall be based solely upon the cause or causes specified in the notice of probable cause to the employee and shall be established by a preponderance of the evidence at the hearing to be sufficient cause or causes for such action.

(9) All subpoenas and prehearing discovery orders shall be enforceable by and subject to the contempt and other equity powers of the superior court of the county in which the school district is located upon petition of any aggrieved party.

(10) A complete record shall be made of the hearing and all orders and rulings of the hearing officer and school board.

Notes:

Findings--1992 c 141: "The legislature finds that the educational needs of students when they leave the public school system has [have] increased dramatically in the past two decades. If young people are to prosper in our democracy and if our nation is to grow economically, it is imperative that the overall level of learning achieved by students be significantly increased.

To achieve this higher level of learning, the legislature finds that the state of Washington needs to develop a performance-based school system. Instead of maintaining burdensome state accountability laws and rules that dictate educational offerings, the state needs to hold schools accountable for their performance based on what their students learn.

The legislature further finds moving toward a performance-based accountability system will require repealing state laws and rules that inhibit the freedom of school boards and professional educators to carry out their work, and also will require that significantly more decisions be made at the school district and school building levels. In addition, it will be necessary to set high expectations for students, to identify what is expected of all students, and to develop a rigorous academic assessment system to determine if these expectations have been achieved.

The legislature further finds that the governor's council on education reform and funding will, by December 1992, identify broad student learning goals. Subject to decisions made by the 1993 legislature, the legislature finds that it is critical that an organization be established to continue the council's work in identifying necessary student skills and knowledge, to develop student assessment and school accountability systems, and to take other steps necessary to develop a performance-based education system.

The legislature further finds that there is a need for high quality professional development as the state implements a performance-based system. Professional development must be available to schools and school districts to maintain quality control and to assure access to proven research on effective teaching." [1992 c 141 § 1.]

RCW 28A.415.200 Minority teacher recruitment program--Intent.

The legislature finds that it is important to have a teaching force that reflects the rich diversity of the students served in the public schools. The legislature further finds that certain groups, as characterized by ethnic background, are traditionally underrepresented in the teaching profession in the state of Washington and that the ethnic diversity of the student population in the state of Washington is increasing. The legislature intends to increase the number of people from underrepresented groups entering our teaching force.

RCW 28A.415.330 Professional development institutes--Managing disruptive students.

(1) To the extent funds are appropriated, the superintendent of public instruction shall conduct professional development institutes to provide opportunities for teachers, principals, and other school staff to learn effective research-based strategies for handling disruptive students. The institutes shall be conducted during the summer of 2000. The training institutes shall emphasize methods for handling disruptions in regular classrooms and how to design and implement alternative learning settings and programs that have been proven to be effective in providing for the educational needs of students who exhibit frequent and prolonged disruptive behavior when placed in a regular classroom setting.

(2) The superintendent may enter into contracts with public or private entities that provide training in effective research-based methods for dealing with disruptive students. In developing the institutes, the superintendent shall work with school staff who have had experience working effectively with disruptive students. The institutes shall be open to teams of teachers, principals, and other school staff from each school district choosing to participate. However, as a condition of participating in the institutes, school district teams shall be required to develop during or immediately following the institute a district plan for carrying out the purposes of this section. Elementary schools and junior high and middle schools in districts that send teams to participate in institutes conducted under this section are encouraged to formulate school building-level plans for addressing the educational needs of disruptive students and the needs of students and teachers in the regular classrooms for an orderly and disciplined environment that is optimally conducive to learning. Individual participants in the institutes shall agree to provide assistance as needed to other school staff in their school building or school district, consistent with their other normal duties.

(3) Beginning with the 1999-2000 school year, elementary and junior high schools are encouraged to provide staff from both the regular education and special education programs opportunities to work together to share successful practices for managing disruptive students.

[1999 c 166 § 2.]

Notes:

Findings--1999 c 166: "The legislature finds that disruptive students can significantly impede effective teaching and learning in the classroom. Training in effective strategies for handling disruptive students will help principals, teachers, and other staff gain additional skills to provide a classroom environment that is conducive to teaching and learning. Schools and school districts should be encouraged to provide staff with the training necessary

to respond to disruptions effectively." [1999 c 166 § 1.]

RCW 28A.500.010 Local effort assistance funds--Purpose--Not basic education allocation.

Commencing with calendar year 2000, in addition to a school district's other general fund allocations, each eligible district shall be provided local effort assistance funds. The purpose of these funds is to mitigate the effect that above average property tax rates might have on the ability of a school district to raise local revenues to supplement the state's basic program of education. These funds serve to equalize the property tax rates that individual taxpayers would pay for such levies and to provide tax relief to taxpayers in high tax rate school districts. Such funds are not part of the district's basic education allocation.

(c) The "district's twelve percent levy amount" means the school district's maximum levy authority after transfers determined under RCW 84.52.0531(2) (a) through (c) divided by the district's maximum levy percentage determined under RCW 84.52.0531(4) multiplied by twelve percent.

(d) The "district's twelve percent levy rate" means the district's twelve percent levy amount divided by the district's assessed valuation for excess levy purposes for the prior tax collection year as adjusted to one hundred percent by the county indicated ratio.

RCW 28A.510.250 By state superintendent.

On or before the last business day of September 1969 and each month thereafter, the superintendent of public instruction shall apportion from the state general fund to the several educational service districts of the state the proportional share of the total annual amount due and apportionable to such educational service districts for the school districts thereof as follows:

September	9%
October	9%
November	5.5%
December	9%
January	9%
February	9%
March	9%
April	9%
May	5.5%
June	6.0%
July	10.0%
August	10.0%

The annual amount due and apportionable shall be the amount apportionable for all apportionment credits estimated to accrue to the schools during the apportionment year beginning September first and continuing through August thirty-first. Appropriations made for school districts for each year of a biennium shall be apportioned according to the schedule set forth in this section for the fiscal year starting September 1st of the then calendar year and ending August 31st of the next calendar year. The apportionment from the state general fund for each month shall be an amount which will equal the amount due and apportionable to the several educational service districts during such month: PROVIDED, That any school district may petition the superintendent of public instruction for an emergency advance of funds which may become apportionable to it but not to exceed ten percent of the total amount to become due and apportionable during the school districts apportionment year. The superintendent of public instruction shall determine if the emergency warrants such advance and if the funds are available therefor. If the superintendent determines in the affirmative, he or she may approve such advance and, at the same time, add such an amount to the apportionment for the educational service district in which the school district is located: PROVIDED, That the emergency advance of funds and the interest earned by school districts on the investment of temporary cash surpluses resulting from obtaining such advance of state funds shall be deducted by the superintendent of public instruction from the remaining amount apportionable to said districts during that apportionment year in which the funds are advanced.

(b) No such matching funds shall be required as a condition to the allotment of funds for the purpose of making major or minor structural changes to existing school facilities in order to bring such facilities into compliance with the barrier free access requirements of section 504 of the federal rehabilitation act of 1973 (29 U.S.C. (iii) The number of preschool students with disabilities included in the enrollment count shall be multiplied by one-half;

(b) In the case of construction or modernization of high school facilities in districts serving students from nonhigh school districts, the adjusted valuation per pupil shall be computed using the combined adjusted valuations and enrollments of each district, each weighted by the percentage of the district's resident high school students served by the high school district; and

(c) The number of kindergarten students included in the enrollment count shall be multiplied by one-half.

(4) The state board of education shall prescribe and make effective such rules as are necessary to equate insofar as possible the efforts made by school districts to provide capital funds by the means aforesaid.

(5) For the purposes of this section, "preschool students with disabilities" means developmentally disabled children of preschool age who are entitled to services under RCW 28A.155.010 through 28A.155.100 and are not included in the kindergarten enrollment count of the district.

RCW 28A.525.166 Allotment of appropriations for school plant facilities--Basis of state aid for school plant.

Allocations to school districts of state funds provided by RCW 28A.525.160 through 28A.525.182 shall be made by the state board of education and the amount of state assistance to a school district in financing a school plant project shall be determined in the following manner:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the state board of education.

(2) The state matching percentage for a school district shall be computed by the following formula:

The ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil shall be subtracted from three, and then the result of the foregoing shall be divided by three plus (the ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil).

 \quad = - \% \quad \text{State Assist-}$$

PROVIDED, That in the event the percentage of state assistance to any school district based on the above formula is less than twenty percent and such school district is otherwise eligible for state assistance under RCW 28A.525.160 through 28A.525.182, the state board of education may establish for such district a percentage of state assistance not in excess of twenty percent of the approved cost of the project, if the state board finds that such additional assistance is necessary to provide minimum facilities for housing the pupils of the district.

(3) In addition to the computed percent of state assistance developed in (2) above, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed percent of state assistance for each percent of growth, with a maximum of twenty percent.

(4) The approved cost of the project determined in the manner herein prescribed times the percentage of state assistance derived as provided for herein shall be the amount of state assistance to the district for the financing of the project: PROVIDED, That need therefor has been established to the satisfaction of the state board of education: PROVIDED, FURTHER, That additional state assistance may be allowed if it is found by the state board of education that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from industrial projects of state-wide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to

those defined under (a), (b), (c), (d) and (e) hereinabove, creating a like emergency.

If a majority of the votes cast at such election favor the issuance of such bonds, the board of directors must issue such bonds: PROVIDED, That if the amount of bonds to be issued, together with any outstanding indebtedness of the district that only needs a simple majority voter approval, exceeds three-eighths of one percent of the value of the taxable property in said district, as the term "value of the taxable property" is defined in RCW 39.36.015, then three-fifths of the votes cast at such election must be in favor of the issuance of such bonds, before the board of directors is authorized to issue said bonds.

RCW 28A.600.010 Government of schools, pupils, employees, rules for--Due process guarantees--Enforcement.

(1) Enforce the rules prescribed by the superintendent of public instruction and the state board of education for the government of schools, pupils, and certificated employees.

(2) Adopt and make available to each pupil, teacher and parent in the district reasonable written rules regarding pupil conduct, discipline, and rights, including but not limited to short-term suspensions as referred to in RCW 28A.305.160 and suspensions in excess of ten consecutive days. The board's rules shall include such substantive and procedural due process guarantees as prescribed by the state board of education under RCW 28A.305.160. Commencing with the 1976-77 school year, when such rules are made available to each pupil, teacher, and parent, they shall be accompanied by a detailed description of rights, responsibilities, and authority of teachers and principals with respect to the discipline of pupils as prescribed by state statutory law, superintendent of public instruction, and state board of education rules and regulations of the school district.

For the purposes of this subsection, computation of days included in "short-term" and "long-term" suspensions shall be determined on the basis of consecutive school days.

RCW 28A.600.020 Government of schools, pupils, and employees--Exclusion of student by teacher--Written disciplinary procedures--Appropriate disciplinary action.

(1) The rules adopted pursuant to RCW 28A.600.010 shall be interpreted to insure that the optimum learning atmosphere of the classroom is maintained, and that the highest consideration is given to the judgment of qualified certificated educators regarding conditions necessary to maintain the optimum learning atmosphere.

(2) Any student who creates a disruption of the educational process in violation of the building disciplinary standards while under a teacher's immediate supervision may be excluded by the teacher from his or her individual classroom and instructional or activity area for all or any portion of the balance of the school day, or up to the following two days, or until the principal or designee and teacher have conferred, whichever occurs first. Except in emergency circumstances, the teacher first must attempt one or more alternative forms of corrective action. In no event without the consent of the teacher may an excluded student return to the class during the balance of that class or activity period or up to the following two days, or until the principal or his or her designee and the teacher have conferred.

(3) In order to preserve a beneficial learning environment for all students and to maintain good order and discipline in each classroom, every school district board of directors shall provide that written procedures are developed for administering discipline at each school within the district. Such procedures shall be developed with the participation of parents and the community, and shall provide that the teacher, principal or designee, and other authorities designated by the board of directors, make every reasonable attempt to involve the parent or guardian and the student in the resolution of student discipline problems. Such procedures shall provide that students may be excluded from their individual classes or activities for periods of time in excess of that provided in subsection (2) of this section if such students have repeatedly disrupted the learning of other students. The procedures must be consistent with the rules of the state board of education and must provide for early involvement of parents in attempts to improve the student's behavior.

(4) The procedures shall assure, pursuant to RCW 28A.400.110, that all staff work cooperatively toward consistent enforcement of proper student behavior throughout each school as well as within each classroom.

(5) A principal shall consider imposing long-term suspension or expulsion as a sanction when deciding the appropriate disciplinary action for a student who, after July 27, 1997:

(a) Engages in two or more violations within a three-year period of RCW 9A.46.120, 28A.320.135, 28A.600.455, 28A.600.460, 28A.635.020, 28A.600.020, 28A.635.060, 9.41.280, or 28A.320.140; or

(b) Engages in one or more of the offenses listed in RCW 13.04.155.

The principal shall communicate the disciplinary action taken by the principal to the school personnel who referred the student to the principal for disciplinary action.

RCW 28A.600.025 Students' rights of religious expression--Duty of superintendent of public instruction to inform school districts.

(1) The First Amendment to the United States Constitution, and Article I, sections 5 and 11 of the Washington state Constitution guarantee that students retain their rights of free speech and free exercise of religion, notwithstanding the student's enrollment and attendance in a common school. These rights include, but are not limited to, the right of an individual student to freely express and incorporate the student's religious beliefs and opinions where relevant or appropriate in any and all class work, homework, evaluations or tests. School personnel may not grade the class work, homework, evaluation, or test on the religious expression but may grade the student's performance on scholastic content such as spelling, sentence structure, and grammar, and the degree to which the student's performance reflects the instruction and objectives established by the school personnel. School personnel may not subject an individual student who expresses religious beliefs or opinions in accordance with this section to any form of retribution or negative consequence and may not penalize the student's standing, evaluations, or privileges. An employee of the school district may not censure a student's expression of religious beliefs or opinions, when relevant or appropriate, in any class work, homework, evaluations or tests, extracurricular activities, or other activities under the sponsorship or auspices of the school district.

(2) This section is not intended to impose any limit on the exchange of ideas in the common schools of this state. No officer, employee, agent, or contractor of a school district may impose his or her religious beliefs on any student in class work, homework, evaluations or tests, extracurricular activities, or other activities under the auspices of the school district.

(3) The superintendent of public instruction shall distribute to the school districts information about laws governing students' rights of religious expression in school.

[1998 c 131 § 2.]

Notes:

Findings--1998 c 131: "The legislature recognizes the right of free speech and freedom of religion as guaranteed through the First Amendment to the United States Constitution and Article I, sections 5 and 11 of the Washington state Constitution and that these rights extend to students enrolled in the common schools of our state.

The legislature also recognizes that students may choose to exercise these rights, as protected under the law, in response to the challenges of academic pursuit. While the legislature upholds the rights of students to freely express their religious beliefs and right of free speech, it also holds firmly that it is not the role of education to solicit student responses that force students to reveal, analyze, or critique their religious beliefs." [1998 c 131 § 1.]

RCW 28A.600.030 Grading policies--Option to consider attendance.

Each school district board of directors may establish student grading policies which permit teachers to consider a student's attendance in determining the student's overall grade or deciding whether the student should be granted or denied credit. Such policies shall take into consideration the circumstances pertaining to the student's inability to attend school. However,

no policy shall be adopted whereby a grade shall be reduced or credit shall be denied for disciplinary reasons only, rather than for academic reasons, unless due process of law is provided as set forth by the state board of education under RCW 28A.305.160.

School buses, transport of general public to interscholastic activities--Limitations: RCW 28A.160.100.

RCW 28A.600.210 School locker searches--Findings.

The legislature finds that illegal drug activity and weapons in schools threaten the safety and welfare of school children and pose a severe threat to the state educational system. School officials need authority to maintain order and discipline in schools and to protect students from exposure to illegal drugs, weapons, and contraband. Searches of school-issued lockers and the contents of those lockers is a reasonable and necessary tool to protect the interests of the students of the state as a whole.

A search is mandatory if there are reasonable grounds to suspect a student has illegally possessed a firearm in violation of RCW 9.41.280.

(2) Except as provided in subsection (3) of this section, the scope of the search is proper if the search is conducted as follows:

(a) The methods used are reasonably related to the objectives of the search; and

RCW 28A.600.310 High school students' options--Enrollment in institutions of higher education--Transmittal of funds.

(1) Eleventh and twelfth grade students or students who have not yet received a high school diploma or its equivalent and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. The notice shall indicate the course and hours of enrollment for that pupil.

(2) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at state-wide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated state-wide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, the higher education coordinating board, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. School districts are encouraged to find alternatives to suspension including reducing the length of a student's suspension conditioned by the commencement of counseling or other treatment services. Consistent with current law, the conditioning of a student's suspension does not obligate the school district to pay for the counseling or other treatment services except for those stipulated and agreed to by the district at the inception of the suspension.

RCW 28A.600.415 Alternatives to suspension--Community service encouraged--Information provided to school districts.

The superintendent of the school district, educational service district, state school for the deaf, or state school for the blind may modify the expulsion of a student on a case-by-case basis.

(2) For purposes of this section, "firearm" means a firearm as defined in 18 U.S.C. Sec. 921, and a "firearm" as defined in RCW 9.41.010.

(3) This section shall be construed in a manner consistent with the individuals with disabilities education act, 20 U.S.C. Sec. 1401 et seq.

(4) Nothing in this section prevents a public school district, educational service district, the state school for the deaf, or the state school for the blind if it has expelled a student from such student's regular school setting from providing educational services to the student in an alternative setting.

(5) This section does not apply to:

(a) Any student while engaged in military education authorized by school authorities in which rifles are used but not other firearms; or

(b) Any student while involved in a convention, showing, demonstration, lecture, or firearms safety course authorized by school authorities in which the rifles of collectors or instructors are handled or displayed but not other firearms; or

(c) Any student while participating in a rifle competition authorized by school authorities.

(6) A school district may suspend or expel a student for up to one year subject to subsections (1), (3), (4), and (5) of this section, if the student acts with malice as defined under RCW 9A.04.110 and displays an instrument that appeared [appears] to be a firearm, on public elementary or secondary school premises, public school-provided transportation, or areas of facilities while being used exclusively by public schools.

RCW 28A.600.455 Gang activity--Suspension or expulsion.

(1) A student who is enrolled in a public school or an alternative school may be suspended or expelled if the student is a member of a gang and knowingly engages in gang activity on school grounds.

(2) "Gang" means a group which: (a) Consists of three or more persons; (b) has identifiable leadership; and (c) on an ongoing basis, regularly conspires and acts in concert

mainly for criminal purposes.

[1997 c 266 § 2.]

Notes:

Findings--Intent--1997 c 266: "The legislature finds that the children of this state have the right to an effective public education and that both students and educators have the need to be safe and secure in the classroom if learning is to occur. The legislature also finds, however, that children in many of our public schools are forced to focus on the threat and message of violence contained in many aspects of our society and reflected through and in gang violence activities on school campuses.

The legislature recognizes that the prevalence of weapons, including firearms and dangerous knives, is an increasing problem that is spreading rapidly even to elementary schools throughout the state. Gang-related apparel and regalia compound the problem by easily concealing weapons that threaten and intimidate students and school personnel. These threats have resulted in tragic and unnecessary bloodshed over the past two years and must be eradicated from the system if student and staff security is to be restored on school campuses. Many educators believe that school dress significantly influences student behavior in both positive and negative ways. Special school dress up and color days signify school spirit and provide students with a sense of unity. Schools that have adopted school uniforms report a feeling of togetherness, greater school pride, and better student behavior in and out of the classroom. This sense of unity provides students with the positive attitudes needed to avert the pressures of gang involvement.

The legislature also recognizes there are other more significant factors that impact school safety such as the pervasive use of drugs and alcohol in school. In addition to physical safety zones, schools should also be drug-free zones that expressly prohibit the sale, use, or possession of illegal drugs on school property. Students involved in drug-related activity are unable to benefit fully from educational opportunities and are disruptive to the learning environment of their fellow students. Schools must be empowered to make decisions that positively impact student learning by eradicating drug use and possession on their campuses. This flexibility should also be afforded to schools as they deal with other harmful substance abuse activities engaged in by their students.

Toward this end, the legislature recognizes the important role of the classroom teacher who must be empowered to restore discipline and safety in the classroom. Teachers must have the ability to control the conduct of students to ensure that their mission of educating students may be achieved. Disruptive behavior must not be allowed to continue to divert attention, time, and resources from educational activities.

The legislature therefore intends to define gang-related activities as criminal behavior disruptive not only to the learning environment but to society as a whole, and to provide educators with the authority to restore order and safety to the student learning environment, eliminate the influence of gang activities, and eradicate drug and substance abuse on school campuses, thus empowering educators to regain control of our classrooms and provide our students with the best educational opportunities available in our schools.

The legislature also finds that students and school employees have been subjected to violence such as rapes, assaults, or harassment that has not been gang or drug-related criminal activity. The legislature intends that all violence and harassment directed at students and school personnel be eradicated in public schools." [1997 c 266 § 1.]

Severability--1997 c 266: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1997 c 266 § 16.]

RCW 28A.600.460 Classroom discipline--Policies--Classroom placement of student offenders--Data on disciplinary actions.

(1) School district boards of directors shall adopt policies that restore discipline to the classroom. Such policies must provide for at least the following: Allowing each teacher to take

disciplinary action to correct a student who disrupts normal classroom activities, abuses or insults a teacher as prohibited by RCW 28A.635.010, willfully disobeys a teacher, uses abusive or foul language directed at a school district employee, school volunteer, or another student, violates school rules, or who interferes with an orderly education process. Disciplinary action may include but is not limited to: Oral or written reprimands; written notification to parents of disruptive behavior, a copy of which must be provided to the principal.

(2) A student committing an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW when the activity is directed toward the teacher, shall not be assigned to that teacher's classroom for the duration of the student's attendance at that school or any other school where the teacher is assigned.

(3) A student who commits an offense under chapter 9A.36, 9A.40, 9A.46, or 9A.48 RCW, when directed toward another student, may be removed from the classroom of the victim for the duration of the student's attendance at that school or any other school where the victim is enrolled. A student who commits an offense under one of the chapters enumerated in this section against a student or another school employee, may be expelled or suspended.

(4) Nothing in this section is intended to limit the authority of a school under existing law and rules to expel or suspend a student for misconduct or criminal behavior.

(5) All school districts must collect data on disciplinary actions taken in each school. The information shall be made available to the public upon request. This collection of data shall not include personally identifiable information including, but not limited to, a student's social security number, name, or address.

RCW 28A.623.010 Nonprofit program for elderly--Purpose.

The legislature finds that many elderly persons suffer dietary deficiencies and malnutrition due to inadequate financial resources, immobility, lack of interest due to isolation and loneliness, and characteristics of the aging process, such as physiological, social, and psychological changes which result in a way of life too often leading to feelings of rejection, abandonment, and despair. There is a real need as a matter of public policy to provide the elderly citizens with adequate nutritionally sound meals, through which their isolation may be penetrated with the company and the social contacts of their own. It is the declared purpose of RCW 28A.235.120, 28A.623.010, and 28A.623.020 to raise the level of dignity of the aged population where their remaining years can be lived in a fulfillment equal to the benefits they have bestowed, the richness they have added, and the great part they have played in the life of our society and nation.

The board of directors of any school district may establish or allow for the establishment of a nonprofit meal program for feeding elderly persons residing within the area served by such school district using school facilities, and may authorize the extension of any school food services for the purpose of feeding elderly persons, subject to the following conditions and restrictions:

(1) The charge to such persons for each meal shall not exceed the actual cost of such meal to the school.

(2) The program will utilize methods of administration which will assure that the maximum number of eligible individuals may have an opportunity to participate in such a program, and will coordinate, whenever possible, with the local area agency on aging.

(3) Any nonprofit meal program established pursuant to RCW 28A.235.120, 28A.623.010, and 28A.623.020 may not be operated so as to interfere with the normal educational process within the schools.

(4) No school district funds may be used for the operation of such a meal program.

(5) For purposes of RCW 28A.235.120, 28A.623.010, and 28A.623.020, "elderly persons" shall mean persons who are at least sixty years of age.

RCW 28A.625.030 Washington State Christa McAuliffe award for teachers.

The award for teachers under the Washington award for excellence in education program shall be named the "Washington State Christa McAuliffe Award, in honor and memory of Sharon Christa Corrigan McAuliffe." As the first teacher and private citizen selected nationally to voyage into space, Christa McAuliffe exemplified what is exciting and positive about the teaching profession. Her contributions within the scope of the nation's education system helped to show that education can and should be a vital and dynamic experience for all participants. Christa McAuliffe's chosen profession encompasses learning by discovery and her desire to make new discoveries was reflected by her participation in the nation's space program.

The selection of Christa McAuliffe as the first teacher in space was directly linked to Washington state in that then superintendent of public instruction Dr. Frank Brouillet both appointed and served as a member of the national panel which selected Christa McAuliffe.

The tragic loss of the life of Christa McAuliffe on the flight of the space shuttle Challenger on January 28, 1986, will be remembered through the legacy she gave to her family, friends, relatives, students, colleagues, the education profession, and the nation: A model example of striving toward excellence.

MATHEMATICS, ENGINEERING, AND SCIENCE ACHIEVEMENT

RCW 28A.625.200 Findings and intent.

The legislature finds that high technology is important to the state's economy and the welfare of its citizens. The legislature finds that certain groups, as characterized by sex or ethnic background, are traditionally underrepresented in mathematics, engineering, and the science-related professions in this state. The legislature finds that women and minority students have been traditionally discouraged from entering the fields of science and mathematics including teaching in these fields. The legislature finds that attitudes and knowledges acquired during the kindergarten through eighth grade prepare students to succeed in high school science and mathematics programs and that special skills necessary for these fields need to be acquired during the ninth through twelfth grades. It is the intent of the legislature to promote a mathematics, engineering, and science achievement program to help increase the number of people in these fields and teaching in these fields from groups underrepresented in these fields.

A program to increase the number of people from groups underrepresented in the fields of mathematics, engineering, and the physical sciences in this state shall be established by the University of Washington. The program shall be administered through the University of

Washington and designed to:

(1) Encourage students in the targeted groups in the common schools, with a particular emphasis on those students in middle and junior high schools and the sixth through twelfth grades, to acquire the academic skills needed to study mathematics, engineering, or related sciences at an institution of higher education;

(2) Promote the awareness of career opportunities including the career opportunities of teaching in the fields of science and mathematics and the skills necessary to achieve those opportunities among students sufficiently early in their educational careers to permit and encourage the students to acquire the skills;

(3) Promote cooperation among institutions of higher education, the superintendent of public instruction and local school districts in working towards the goals of the program; and

(4) Solicit contributions of time and resources from public and private institutions of higher education, high schools, middle and junior high schools, and private business and industry.

(a) Funding for school districts that had pilot projects approved under section 13, chapter 233, Laws of 1989, and that were participating in projects under this section on January 31, 1992, shall be based for the duration of a project on four percent of the kindergarten through twelfth grade enrollment considered as specific learning disabled, without regard to the actual number of students so identified. The legislature recognizes the importance of continuing and developing the pilot projects.

(b) The funding percentages for districts with demonstration projects specified in (a) of this subsection and in RCW 28A.630.845 shall be used to adjust basic education allocations under RCW 28A.150.260 and learning assistance program allocations under RCW 28A.165.070.

(c) State special education allocations up to the level required by federal maintenance of effort rules shall be expended for special education services to students with disabilities. Allocations greater than the amount needed to comply with federal maintenance of effort rules may at the option of the district be designated as noncategorical project funds and may be expended on services to any student served in the project.

(3) Learning assistance program allocations shall be calculated for districts with demonstration projects according to the funding formula in use for other districts, except that any increases in the district allocation above the fiscal year 1991 amount shall be designated as noncategorical project funds and may be expended on services to any student served in the project.

(4) Transitional bilingual program allocations shall be calculated for districts with demonstration projects according to the funding formula in use for other districts, except that any increases in the district allocation above the fiscal year 1991 amount shall be designated as noncategorical project funds and may be expended on services to any student served in the project.

(5) Expenditures of noncategorical project funds under subsections (2)(c), (3), and (4) of this section shall be accounted for in new and discrete program or subprogram codes designated by the superintendent of public instruction. The codes shall take effect by September 1, 1991.

RCW 28A.630.845 Demonstration projects that reduce percentage of students labeled disabled--Funding. (Expires September 1, 2001.)

(1) The legislature finds that the state system of funding special education has fiscal incentives to label children as disabled and that unnecessary labeling can be detrimental to children. The legislature encourages demonstration projects that provide needed services without unnecessary labeling. To test this approach, the legislature intends to maintain the funding level for innovative special services programs that reduce the incidence of unnecessary labeling.

(2) School districts may propose demonstration projects under this subsection to provide needed services and achieve major reductions in the percentage of district students labeled as disabled in one or more specified categories. State special education funding for districts with such projects shall be based for the duration of the project on the average percentage of the kindergarten through twelfth grade enrollment in the specified categories during the school year before the start of the project.

(3) School districts with specific learning disabled enrollment at or above four percent of the district's kindergarten through twelfth grade enrollment may propose demonstration projects under this subsection to provide needed services and reduce unnecessary labeling to below the four percent level. When the specific learning disabled enrollment is below the four percent level, funding for the district shall be based on four percent of the kindergarten through twelfth grade enrollment considered as specific learning disabled, without regard to the actual number of students so identified.

(4) Funding under subsections (2) and (3) of this section is contingent on the following: (a) The funding is spent on children needing special services; and (b) the overall percentage of first through twelfth grade students in the district labeled as disabled declines each year of the project, excluding students with disabilities who transfer into the district.

SCHOOL-TO-WORK TRANSITION PROJECT

RCW 28A.630.881 School-to-work transition project--Findings--Intent--Outreach--Technical assistance.

(1) The legislature finds that students who do not prepare for postsecondary education, training, and employment are more likely to become dependent on state assistance programs than those who do make such preparation and that long-term employment and earning outcomes for youth can be significantly improved through school-to-work transition efforts, particularly through work-based learning experiences. The legislature intends that every effort be made to involve all youth in preparation for postsecondary education, training, and employment, including out-of-school youth.

(2) Washington is engaged in developing school-to-work transitions for all youth, which involves preparation for postsecondary education, training, and employment and requires outreach to out-of-school youth. All school-to-work transition projects in the state, therefore, whether funded by state or federal funds, shall contain an outreach component directed toward school-age youth not currently enrolled in school and demonstrate the involvement of all in-school youth in preparation for postsecondary education or training or employment. At the time a school-to-work grant is made, the superintendent of public instruction shall withhold twenty percent of the grant award and release the funds upon a showing that the project has satisfactorily included outreach to out-of-school youth and progress in involving students not traditionally engaged in preparation for postsecondary education, training, or employment.

(3) The office of the superintendent of public instruction shall provide technical assistance to ensure that school districts establish and operate outreach efforts under this section, and to include out-of-school youth in school-to-work efforts within available funds.

Inequality in the educational opportunities afforded women and girls at all levels of the public schools in Washington state is a breach of Article XXXI, section 1, Amendment 61, of the Washington state Constitution, requiring equal treatment of all citizens regardless of sex. This violation of rights has had a deleterious effect on the individuals affected and on society. Recognizing the benefit to our state and nation of equal educational opportunities for all students, discrimination on the basis of sex for any student in grades K-12 of the Washington public schools is prohibited.

(1) The superintendent of public instruction shall develop regulations and guidelines to eliminate sex discrimination as it applies to public school employment, counseling and guidance services to students, recreational and athletic activities for students, access to course offerings, and in textbooks and instructional materials used by students.

(a) Specifically with respect to public school employment, all schools shall be required to:

- (i) Maintain credential requirements for all personnel without regard to sex;
- (ii) Make no differentiation in pay scale on the basis of sex;
- (iii) Assign school duties without regard to sex except where such assignment would

involve duty in areas or situations, such as but not limited to a shower room, where persons might be disrobed;

(iv) Provide the same opportunities for advancement to males and females; and

(v) Make no difference in conditions of employment including, but not limited to, hiring practices, leaves of absence, hours of employment, and assignment of, or pay for, instructional and noninstructional duties, on the basis of sex.

(b) Specifically with respect to counseling and guidance services for students, they shall be made available to all students equally. All certificated personnel shall be required to stress access to all career and vocational opportunities to students without regard to sex.

(c) Specifically with respect to recreational and athletic activities, they shall be offered to all students without regard to sex. Schools may provide separate teams for each sex. Schools which provide the following shall do so with no disparities based on sex: Equipment and supplies; medical care; services and insurance; transportation and per diem allowances; opportunities to receive coaching and instruction; laundry services; assignment of game officials; opportunities for competition, publicity and awards; scheduling of games and practice times including use of courts, gyms, and pools: PROVIDED, That such scheduling of games and practice times shall be determined by local administrative authorities after consideration of the public and student interest in attending and participating in various recreational and athletic activities. Each school which provides showers, toilets, or training room facilities for athletic purposes shall provide comparable facilities for both sexes. Such facilities may be provided either as separate facilities or shall be scheduled and used separately by each sex.

The superintendent of public instruction shall also be required to develop a student survey to distribute every three years to each local school district in the state to determine student interest for male/female participation in specific sports.

(d) Specifically with respect to course offerings, all classes shall be required to be available to all students without regard to sex: PROVIDED, That separation is permitted within any class during sessions on sex education or gym classes.

(e) Specifically with respect to textbooks and instructional materials, which shall also include, but not be limited to, reference books and audio-visual materials, they shall be required to adhere to the guidelines developed by the superintendent of public instruction to implement the intent of this chapter: PROVIDED, That this subsection shall not be construed to prohibit the introduction of material deemed appropriate by the instructor for educational purposes.

(2)(a) By December 31, 1994, the superintendent of public instruction shall develop criteria for use by school districts in developing sexual harassment policies as required under (b) of this subsection. The criteria shall address the subjects of grievance procedures, remedies to victims of sexual harassment, disciplinary actions against violators of the policy, and other subjects at the discretion of the superintendent of public instruction. Disciplinary actions must conform with collective bargaining agreements and state and federal laws. The superintendent of public instruction also shall supply sample policies to school districts upon request.

(b) By June 30, 1995, every school district shall adopt and implement a written policy concerning sexual harassment. The policy shall apply to all school district employees, volunteers,

parents, and students, including, but not limited to, conduct between students.

(c) School district policies on sexual harassment shall be reviewed by the superintendent of public instruction considering the criteria established under (a) of this subsection as part of the monitoring process established in RCW 28A.640.030.

(d) The school district's sexual harassment policy shall be conspicuously posted throughout each school building, and provided to each employee. A copy of the policy shall appear in any publication of the school or school district setting forth the rules, regulations, procedures, and standards of conduct for the school or school district.

(e) Each school shall develop a process for discussing the district's sexual harassment policy. The process shall ensure the discussion addresses the definition of sexual harassment and issues covered in the sexual harassment policy.

(f) "Sexual harassment" as used in this section means unwelcome sexual advances, requests for sexual favors, sexually motivated physical contact, or other verbal or physical conduct or communication of a sexual nature if:

(i) Submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of obtaining an education or employment;

(ii) Submission to or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's education or employment; or

(iii) That conduct or communication has the purpose or effect of substantially interfering with an individual's educational or work performance, or of creating an intimidating, hostile, or offensive educational or work environment.

RCW 28A.650.005 Findings--Intent.

The legislature recognizes that up-to-date tools will help students learn. Workplace technology requirements will continue to change and students should be knowledgeable in the use of technologies.

Furthermore, the legislature finds that the Washington systemic initiative is a broad-based effort to promote widespread public literacy in mathematics, science, and technology. An important component of the systemic initiative is the universal electronic access to information by students. It is the intent of the legislature that components of RCW 28A.650.010 through 28A.650.025 will support the state-wide systemic reform effort in mathematics, science, and technology as envisioned by the Washington systemic initiative.

[1993 c 336 § 701.]

RCW 28A.655.005 Findings.

The legislature finds that the purpose of Washington's accountability system is to improve student learning and student achievement of the essential academic learning requirement standards so that each individual student will be given the opportunity to become a responsible citizen and successfully live, learn, and work in the twenty-first century. To achieve this purpose,

the accountability system should be based on student achievement and continuous improvement at all levels of Washington's education system and on a fundamental principle that all public school students have access to curriculum and instruction that is aligned to the standards.

The legislature further finds that the accountability system should rely on local responsibility and leadership. Districts and schools should be expected to improve and be evaluated based on their improvement over time. Districts should recognize exceptional progress and work closely with schools needing assistance.

The legislature further finds that the accountability system must be simple to use and understand. Consequences must be predictable and fair. Differences among students, schools, and districts should be recognized and respected as the system is implemented. There should be a balance of each student's right to privacy and the public's right to know the overall levels of learning and achievement at the school, district, and state levels. In addition, the accountability system should be continuously reviewed and improved as more is learned about how schools operate to meet the learning needs of Washington's students.

[1999 c 388 § 1.]

RCW 28A.655.010 Washington commission on student learning--Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW *28A.630.885 and 28A.300.130.

(1) "Commission" means the commission on student learning created in *RCW 28A.630.885.

(2) "Student learning goals" mean[s] the goals established in RCW 28A.150.210.

(3) "Essential academic learning requirements" means more specific academic and technical skills and knowledge, based on the student learning goals, as determined under *RCW 28A.630.885(3)(a). Essential academic learning requirements shall not limit the instructional strategies used by schools or school districts or require the use of specific curriculum.

(4) "Performance standards" or "standards" means the criteria used to determine if a student has successfully learned the specific knowledge or skill being assessed as determined under *RCW 28A.630.885(3)(b). The standards should be set at internationally competitive levels.

(5) "Assessment system" or "student assessment system" means a series of assessments used to determine if students have successfully learned the essential academic learning requirements. The assessment system shall be developed under *RCW 28A.630.885(3)(b).

(6) "Performance-based education system" means an education system in which a significantly greater emphasis is placed on how well students are learning, and significantly less emphasis is placed on state-level laws and rules that dictate how instruction is to be provided. The performance-based education system does not require that schools use an outcome-based instructional model. Decisions regarding how instruction is provided are to be made, to the greatest extent possible, by schools and school districts, not by the state.

RCW 28A.655.030 Academic achievement and accountability commission--Powers and duties.

The powers and duties of the academic achievement and accountability commission shall include, but are not limited to the following:

(1) For purposes of state-wide accountability, the commission shall:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics by subject and grade level as the commission deems appropriate to improve student learning, once assessments in these subjects are required state-wide. The goals shall be in addition to any goals adopted in RCW 28A.655.050. The commission may also revise any goal adopted in RCW 28A.655.050. The commission shall adopt the goals by rule. However, before each goal is implemented, the commission shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) Identify the scores students must achieve in order to meet the standard on the Washington assessment of student learning and determine student scores that identify levels of student performance below and beyond the standard. The commission shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose;

(c) Adopt objective, systematic criteria to identify successful schools and school districts and recommend to the superintendent of public instruction schools and districts to be recognized for two types of accomplishments, student achievement and improvements in student achievement. Recognition for improvements in student achievement shall include consideration of one or more of the following accomplishments:

(i) An increase in the percent of students meeting standards. The level of achievement required for recognition may be based on the achievement goals established by the legislature under RCW 28A.655.050 and the commission under (a) of this subsection;

(ii) Positive progress on an improvement index that measures improvement in all levels of the assessment; and

(iii) Improvements despite challenges such as high levels of mobility, poverty, English as a second language learners, and large numbers of students in special populations as measured by either the percent of students meeting the standard, or the improvement index.

When determining the baseline year or years for recognizing individual schools, the commission may use the assessment results from the initial years the assessments were administered, if doing so with individual schools would be appropriate;

(d) Adopt objective, systematic criteria to identify schools and school districts in need of assistance and those in which significant numbers of students persistently fail to meet state standards. In its deliberations, the commission shall consider the use of all state-wide mandated

criterion-referenced and norm-referenced standardized tests;

(e) Identify schools and school districts in which state intervention measures will be needed and a range of appropriate intervention strategies, beginning no earlier than June 30, 2001, and after the legislature has authorized a set of intervention strategies. Beginning no earlier than June 30, 2001, and after the legislature has authorized a set of intervention strategies, at the request of the commission, the superintendent shall intervene in the school or school district and take corrective actions. This chapter does not provide additional authority for the commission or the superintendent of public instruction to intervene in a school or school district;

(f) Identify performance incentive systems that have improved or have the potential to improve student achievement;

(g) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system;

(h) Annually report by December 1st to the legislature, the governor, the superintendent of public instruction, and the state board of education on the progress, findings, and recommendations of the commission. The report may include recommendations of actions to help improve student achievement;

(i) By December 1, 2000, and by December 1st annually thereafter, report to the education committees of the house of representatives and the senate on the progress that has been made in achieving the reading goal under RCW 28A.655.050 and any additional goals adopted by the commission;

(j) Coordinate its activities with the state board of education and the office of the superintendent of public instruction;

(k) Seek advice from the public and all interested educational organizations in the conduct of its work; and

(l) Establish advisory committees, which may include persons who are not members of the commission;

(2) Holding meetings and public hearings, which may include regional meetings and hearings;

(3) Hiring necessary staff and determining the staff's duties and compensation. However, the office of the superintendent of public instruction shall provide staff support to the commission until the commission has hired its own staff, and shall provide most of the technical assistance and logistical support needed by the commission thereafter. The office of the superintendent of public instruction shall be the fiscal agent for the commission. The commission may direct the office of the superintendent of public instruction to enter into subcontracts, within the commission's resources, with school districts, teachers, higher education faculty, state agencies, business organizations, and other individuals and organizations to assist the commission in its deliberations; and

(4) Receiving per diem and travel allowances as permitted under RCW 43.03.050 and 43.03.060.

[1999 c 388 § 102.]

RCW 28A.655.035 Accountability policies--Recommendations.

By September 5, 2000, the academic achievement and accountability commission shall recommend accountability policies to the governor, the superintendent of public instruction, and the education and fiscal committees of the house of representatives and senate. The policies shall include, but need not be limited to:

(1) A graduated series of increasingly intensive state intervention strategies for schools and school districts in which low-performance persists over an identified period of time.

(a) The strategies shall be formulated in accordance with the assumption that school districts have primary responsibility for intervening in schools with relatively large numbers of students who are not achieving the essential academic learning requirements.

(b) The strategies shall be formulated in accordance with the assumption that continued low performance despite school district efforts shall trigger an evaluation by the commission. The evaluation is intended to identify the next steps needed to improve student performance. In its evaluation, the commission shall use multiple sources of information that may include, but need not be limited to:

- (i) The results of the Washington assessment of student learning;
- (ii) The results of state-mandated norm-referenced standardized tests;
- (iii) Student achievement evidence from other district or school assessments;
- (iv) The level of improvement in student achievement over time;
- (v) Student mobility and poverty;
- (vi) Attendance and dropout rates;
- (vii) Graduation rates and posthigh school indicators;
- (viii) The percent of students in special programs; and
- (ix) Other factors presented by individual districts or schools.

(c) In its deliberations, the commission shall consider issues of due process, student dropout rates, management and personnel, and educational options, including public school choice options, for students attending schools in which the state has intervened. The commission may consider intervention strategies underway in Washington and other states;

(2) Additional assistance measures for students and schools;

(3) Rewards for successful schools and school districts; and

(4) Any statutory changes necessary to give the superintendent of public instruction the authority to implement, in a school or school district, the state intervention strategies identified in subsection (1) of this section.

RCW 28A.655.050 Reading goals--Mathematics goals.

(1) Each school district board of directors shall:

(a) Select the reading standard results on either the 1997 or 1998 fourth grade Washington assessment of student learning as the school district's initial baseline reading standard. Districts may select the 1997 results only if all of the elementary schools with fourth grade students administered the assessment;

(b) By December 15, 2001, select the mathematics standard results on the 1998, 1999, or 2000 fourth grade Washington assessment of student learning as the school district's fourth grade baseline mathematics standard, using for its baseline a year in which all of the elementary schools with fourth grade students administered the assessment;

(c) Establish three-year, district-wide goals to increase, by the end of the 2000-01 school year, the percentage of students who meet or exceed the reading standard, and by the 2003-04 school year, the percentage of students who meet or exceed the mathematics standard on the fourth grade Washington assessment of student learning. The three-year percentage increase goal in each subject may not be less than the district's total percentage of students who did not meet the baseline standard in each subject multiplied by twenty-five percent;

(d) Specify the annual district-wide percentage improvement increments to meet the goals; and

(e) Direct each elementary school to establish three-year goals for its fourth grade students, subject to approval by the board. The aggregate of the elementary school goals must meet or exceed the district-wide goals established by the board.

(2) By December 15, 2001, each school district board of directors shall:

(a) Select the mathematics standard results on the 1998, 1999, 2000, or 2001 seventh grade Washington assessment of student learning as the school district's seventh grade baseline mathematics standard;

(b) Establish a three-year district-wide goal to increase, by the end of the 2003-04 school year, the percentage of students who meet or exceed the mathematics standard, on the seventh grade Washington assessment of student learning. The district shall select for its baseline a year in which all of the schools with seventh grade students administered the assessment. The percentage increase goal may not be less than the district's total percentage of students who did not meet the baseline standard in mathematics multiplied by twenty-five percent;

(c) Specify the annual district-wide percentage improvement increments necessary to meet the goal; and

(d) Direct each middle or junior high school, as appropriate, to establish a mathematics goal for its seventh grade students, subject to approval by the board. The aggregate of the middle or junior high school goals must meet or exceed the district-wide goals established by the board in each subject.

(3) Schools and school districts in which ten or fewer students are eligible to be assessed in a grade level are not required to establish numerical improvement goals and performance relative to the goals.

RCW 28A.655.060 Essential academic learning requirements--State-wide academic assessment system--Certificate of mastery--Educational pathways--Accountability--Reports and recommendations--Washington commission on student learning, creation and expiration.

(1) The Washington commission on student learning is hereby established. The primary purposes of the commission are to identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, to develop student assessment and school accountability systems, to review current school district data reporting requirements and make recommendations on what data is necessary for the purposes of accountability and meeting state information needs, and to take other steps necessary to develop a performance-based education system. The commission shall include three members of the state board of education, three members appointed by the governor before July 1, 1992, and five members appointed no later than June 1, 1993, by the governor elected in the November 1992 election. The governor shall appoint a chair from the commission members, and fill any vacancies in gubernatorial appointments that may occur. The state board of education shall fill any vacancies of state board of education appointments that may occur. In making the appointments, educators, business leaders, and parents shall be represented, and nominations from state-wide education, business, and parent organizations shall be requested. Efforts shall be made to ensure that the commission reflects the racial and ethnic diversity of the state's K-12 student population and that the major geographic regions in the state are represented. Appointees shall be qualified individuals who are supportive of educational restructuring, who have a positive record of service, and who will devote sufficient time to the responsibilities of the commission to ensure that the objectives of the commission are achieved.

(2) The commission shall establish advisory committees. Membership of the advisory committees shall include, but not necessarily be limited to, professionals from the office of the superintendent of public instruction and the state board of education, and other state and local educational practitioners and student assessment specialists.

(3) The commission, with the assistance of the advisory committees, shall:

(a) Develop essential academic learning requirements based on the student learning goals in RCW 28A.150.210. Essential academic learning requirements shall be developed, to the extent possible, for each of the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. Essential academic learning requirements for RCW 28A.150.210(1), goal one, and the mathematics component of RCW 28A.150.210(2), goal two, shall be completed no later than March 1, 1995. Essential academic learning requirements that incorporate the remainder of RCW 28A.150.210 (2), (3), and (4), goals two, three, and four, shall be completed no later than March 1, 1996. To the maximum extent possible, the commission shall integrate goal four and the knowledge and skill areas in the other goals in the development of the essential academic learning requirements;

(b)(i) The commission and superintendent of public instruction shall develop a state-wide

academic assessment system for use in the elementary, middle, and high school years designed to determine if each student has learned the essential academic learning requirements identified in (a) of this subsection. The academic assessment system shall include a variety of assessment methods, including criterion-referenced and performance-based measures. Performance standards for determining if a student has successfully completed an assessment shall be determined by the commission and the superintendent of public instruction in consultation with the advisory committees required in subsection (2) of this section.

(ii) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not learned the essential academic learning requirements at the appropriate periods in the student's educational development.

(iii) Assessments measuring the essential academic learning requirements shall be available for voluntary use by school districts and shall be required to be administered by school districts according to the following schedule unless the legislature takes action to delay or prevent implementation of the assessment system and essential academic learning requirements.

The completed assessments and assessments still in development shall be transferred by the commission on student learning to the superintendent of public instruction by June 30, 1999.

(iv) To the maximum extent possible, the commission and the superintendent of public instruction shall integrate knowledge and skill areas in development of the assessments.

Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(v) The commission on student learning may modify the essential academic learning requirements and the assessments, as needed, before June 30, 1999. The superintendent of public instruction may modify the essential academic learning requirements and the assessments, as needed, after June 30, 1999. The commission and superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(vi) The commission and the superintendent of public instruction shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender;

(c) After a determination is made by the state board of education that the high school assessment system has been implemented and that it is sufficiently reliable and valid, successful completion of the high school assessment shall lead to a certificate of mastery. The certificate of mastery shall be obtained by most students at about the age of sixteen, and is evidence that the student has successfully mastered the essential academic learning requirements during his or her educational career. The certificate of mastery shall be required for graduation but shall not be the only requirement for graduation. The commission shall make recommendations to the state board of education regarding the relationship between the certificate of mastery and high school graduation requirements. Upon achieving the certificate of mastery, schools shall provide students with the opportunity to pursue career and educational objectives through educational pathways that emphasize integration of academic and vocational education. Educational pathways may include, but are not limited to, programs such as work-based learning, school-to-work transition, tech prep, vocational-technical education, running start, and preparation for technical college, community college, or university education. Any middle school, junior high school, or high school using educational pathways shall ensure that all participating students will continue to have access to the courses and instruction necessary to meet admission requirements at baccalaureate institutions. Students shall be allowed to enter the educational pathway of their choice. Before accepting a student into an educational pathway, the school shall inform the student's parent of the pathway chosen, the opportunities available to the student through the pathway, and the career objectives the student will have exposure to while pursuing the pathway. Parents and students dissatisfied with the opportunities available through the selected educational pathway shall be provided with the opportunity to transfer the student to any other pathway provided in the school. Schools may not develop educational pathways that retain students in high school beyond the date they are eligible to graduate, and may not require

students who transfer between pathways to complete pathway requirements beyond the date the student is eligible to graduate;

(d) Consider methods to address the unique needs of special education students when developing the assessments in (b) and (c) of this subsection;

(e) Consider methods to address the unique needs of highly capable students when developing the assessments in (b) and (c) of this subsection;

(f) Develop recommendations on the time, support, and resources, including technical assistance, needed by schools and school districts to help students achieve the essential academic learning requirements. These recommendations shall include an estimate for the legislature, superintendent of public instruction, and governor on the expected cost of implementing the academic assessment system;

(g) Develop recommendations for consideration by the higher education coordinating board for adopting college and university entrance requirements for public school students that are consistent with the essential academic learning requirements and the certificate of mastery;

(h) Review current school district data reporting requirements for the purposes of accountability and meeting state information needs. The commission on student learning shall report recommendations to the joint select committee on education restructuring by September 15, 1996, on:

(i) What data is necessary to compare how school districts are performing before the essential academic learning requirements and the assessment system are implemented with how school districts are performing after the essential academic learning requirements and the assessment system are implemented; and

(ii) What data is necessary pertaining to school district reports under the accountability systems developed by the commission on student learning under this section;

(i) Recommend to the legislature, governor, state board of education, and superintendent of public instruction:

(i) A state-wide accountability system to monitor and evaluate accurately and fairly at elementary, middle, and high schools the level of learning occurring in individual schools and school districts with regard to the goals included in RCW 28A.150.210 (1) through (4). The accountability system must assess each school individually against its own baseline, schools with similar characteristics, and schools state-wide. The system shall include school-site, school district, and state-level accountability reports;

(ii) A school assistance program to help schools and school districts that are having difficulty helping students meet the essential academic learning requirements as measured by performance on the elementary, middle school, and high school assessments;

(iii) A system to intervene in schools and school districts in which significant numbers of students persistently fail to learn the essential academic learning requirements or meet the standards established for the elementary, middle school, and high school assessments; and

(iv) An awards program to provide incentives to school staff to help their students learn the essential academic learning requirements, with each school being assessed individually against its own baseline, schools with similar characteristics, and the state-wide average.

Incentives shall be based on the rate of percentage change of students achieving the essential academic learning requirements and progress on meeting the state-wide average. School staff shall determine how the awards will be spent.

The commission shall make recommendations regarding a state-wide accountability system for reading in grades kindergarten through four by November 1, 1997. Recommendations for an accountability system in the other subject areas and grade levels shall be made no later than June 30, 1999;

(j) Report annually by December 1st to the legislature, the governor, the superintendent of public instruction, and the state board of education on the progress, findings, and recommendations of the commission; and

(k) Make recommendations to the legislature and take other actions necessary or desirable to help students meet the student learning goals.

(4) The commission shall coordinate its activities with the state board of education and the office of the superintendent of public instruction.

(5) The commission shall seek advice broadly from the public and all interested educational organizations in the conduct of its work, including holding periodic regional public hearings.

(6) The commission shall select an entity to provide staff support and the office of the superintendent of public instruction shall provide administrative oversight and be the fiscal agent for the commission. The commission may direct the office of the superintendent of public instruction to enter into subcontracts, within the commission's resources, with school districts, teachers, higher education faculty, state agencies, business organizations, and other individuals and organizations to assist the commission in its deliberations.

(7) Members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(8)(a) By September 30, 1997, the commission on student learning, the state board of education, and the superintendent of public instruction shall jointly present recommendations to the education committees of the house of representatives and the senate regarding the high school assessments, the certificate of mastery, and high school graduation requirements.

In preparing recommendations, the commission on student learning shall convene an ad hoc working group to address questions, including:

(i) What type of document shall be used to identify student performance and achievement and how will the document be described?

(ii) Should the students be required to pass the high school assessments in all skill and content areas, or only in select skill and content areas, to graduate?

(iii) How will the criteria for establishing the standards for passing scores on the assessments be determined?

(iv) What timeline should be used in phasing-in the assessments as a graduation requirement?

(v) What options may be used in demonstrating how the results of the assessments will be displayed in a way that is meaningful to students, parents, institutions of higher education, and

potential employers?

(vi) Are there other or additional methods by which the assessments could be used to identify achievement such as endorsements, standards of proficiency, merit badges, or levels of achievement?

(vii) Should the assessments and certificate of mastery be used to satisfy college or university entrance criteria for public school students? If yes, how should these methods be phased-in?

(b) The ad hoc working group shall report its recommendations to the commission on student learning, the state board of education, and the superintendent of public instruction by June 15, 1997. The commission shall report the ad hoc working group's recommendations to the education committees of the house of representatives and senate by July 15, 1997. Final recommendations of the commission on student learning, the state board of education, and the superintendent of public instruction shall be presented to the education committees of the house of representatives and the senate by September 30, 1997.

(9) The Washington commission on student learning shall expire on June 30, 1999.

(1) The superintendent of public instruction shall identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the academic achievement and accountability commission.

(2) The superintendent of public instruction shall periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements.

(3) In consultation with the academic achievement and accountability commission, the superintendent of public instruction shall maintain and continue to develop and revise a state-wide academic assessment system for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. The academic assessment system shall include a variety of assessment methods, including criterion-referenced and performance-based measures.

(4) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(5) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

RCW 28A.655.090 Washington assessment of student learning--Reporting requirements.

(1) By September 10, 1998, and by September 10th each year thereafter, the superintendent of public instruction shall report to schools, school districts, and the legislature on the results of the Washington assessment of student learning and state-mandated norm-referenced standardized tests.

(2) The reports shall include the assessment results by school and school district, and include changes over time. For the Washington assessment of student learning, results shall be reported as follows:

- (a) The percentage of students meeting the standards;
- (b) The percentage of students performing at each level of the assessment; and
- (c) A learning improvement index that shows changes in student performance within the different levels of student learning reported on the Washington assessment of student learning.

(3) The reports shall contain data regarding the different characteristics of schools, such as poverty levels, percent of English as a second language students, dropout rates, attendance, percent of students in special education, and student mobility so that districts and schools can learn from the improvement efforts of other schools and districts with similar characteristics.

(4) The reports shall contain student scores on mandated tests by comparable Washington

schools of similar characteristics.

RCW 28A.655.100 Performance goals--Reporting requirements.

Each school district board of directors shall:

(1)(a) Annually report to parents and to the community in a public meeting and annually report in writing the following information:

(i) District-wide and school-level performance improvement goals;

(ii) Student performance relative to the goals; and

(iii) District-wide and school-level plans to achieve the goals, including curriculum and instruction, parental or guardian involvement, and resources available to parents and guardians to help students meet the state standards;

(b) Report annually in a news release to the local media the district's progress toward meeting the district-wide and school-level goals; and

(c) Include the school-level goals, student performance relative to the goals, and a summary of school-level plans to achieve the goals in each school's annual school performance report under RCW 28A.655.110.

(2) School districts in which ten or fewer students in the district or in a school in the district are eligible to be assessed in a grade level are not required to report numerical improvement goals and performance relative to the goals, but are required to report to parents and the community their plans to improve student achievement.

[1999 c 388 § 302.]

RCW 28A.655.110 Annual school performance report--Model report form.

(1) Beginning with the 1994-95 school year, to provide the local community and

electorate with access to information on the educational programs in the schools in the district, each school shall publish annually a school performance report and deliver the report to each parent with children enrolled in the school and make the report available to the community served by the school. The annual performance report shall be in a form that can be easily understood and be used by parents, guardians, and other members of the community who are not professional educators to make informed educational decisions. As data from the assessments in RCW 28A.655.060 becomes available, the annual performance report should enable parents, educators, and school board members to determine whether students in the district's schools are attaining mastery of the student learning goals under RCW 28A.150.210, and other important facts about the schools' performance in assisting students to learn. The annual report shall make comparisons to a school's performance in preceding years and shall include school level goals under RCW 28A.655.050, student performance relative to the goals and the percentage of students performing at each level of the assessment, a comparison of student performance at each level of the assessment to the previous year's performance, and information regarding school-level plans to achieve the goals.

(2) The annual performance report shall include, but not be limited to: (a) A brief statement of the mission of the school and the school district; (b) enrollment statistics including student demographics; (c) expenditures per pupil for the school year; (d) a summary of student scores on all mandated tests; (e) a concise annual budget report; (f) student attendance, graduation, and dropout rates; (g) information regarding the use and condition of the school building or buildings; (h) a brief description of the learning improvement plans for the school; and (i) an invitation to all parents and citizens to participate in school activities.

(3) The superintendent of public instruction shall develop by June 30, 1994, and update periodically, a model report form, which shall also be adapted for computers, that schools may use to meet the requirements of subsections (1) and (2) of this section. In order to make school performance reports broadly accessible to the public, the superintendent of public instruction, to the extent feasible, shall make information on each school's report available on or through the superintendent's internet web site.

RCW 28A.655.130 Accountability implementation funds.

(1) To the extent funds are appropriated, the office of the superintendent of public instruction annually shall allocate accountability implementation funds to school districts. The purposes of the funds are to: Develop and update student learning improvement plans; implement curriculum materials and instructional strategies; provide staff professional development to implement the selected curricula and instruction; develop and implement

assessment strategies and training in assessment scoring; and fund other activities intended to improve student learning for all students, including students with diverse needs. Activities funded by the allocations must be consistent with the school or district improvement plan, designed to improve the ability of teachers and other instructional certificated and classified staff to assist students in meeting the essential academic learning requirements, and designed to achieve state and local accountability goals. Activities funded by the allocations shall be designed to protect the teachers' instructional time with students and minimize the use of substitute teachers.

(2) Schools receiving funds shall develop, update as needed, and keep on file a school student learning improvement plan to achieve the student learning goals and essential academic learning requirements and to implement the assessment system as it is developed. The plan shall delineate how the accountability implementation funds will be used to accomplish the requirements of this section. The plan shall be made available to the public and to others upon request.

(3) The amount of allocations shall be determined in the omnibus appropriations act.

(4) The state schools for the deaf and blind are eligible to receive allocations under this section.

(5) The superintendent of public instruction may adopt timelines and rules as necessary under chapter 34.05 RCW to administer the program, and require that schools and districts submit reports regarding the use of the funds.

[1999 c 388 § 402.]

(1) In order to increase the availability and quality of technical assistance state-wide, the superintendent of public instruction, subject to available funding, may employ school improvement coordinators and school improvement specialists to provide assistance to schools and districts. The improvement specialists shall serve on a rotating basis and shall not be permanent employees.

(2) The types of assistance provided by the improvement coordinators and specialists may include, but need not be limited to:

AGREEMENT ON QUALIFICATIONS OF PERSONNEL**

Sections

28A.690.010 Compact entered into--Terms.

28A.690.020 Superintendent as "designated state official", compact administrator--Board to approve text of contracts.

28A.690.030 True copies of contracts filed in office of superintendent--Publication.

RCW 28A.690.010 Compact entered into--Terms.

The Interstate Agreement on Qualifications of Educational Personnel is hereby enacted into law and entered into by this state with all other states legally joining therein in the form substantially as follows:

The contracting states solemnly agree that:

Article I

1. The states party to this Agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this Agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional

educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states or origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II

As used in this Agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his or her state, contracts pursuant to this Agreement.

3. "Accept," or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating State" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving State" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III

1. The designated state official of a party state may make one or more contracts on behalf of his or her state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this Agreement. A designated state official may enter into a contract pursuant to this Article only with states in which he or she finds that there

are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his or her own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this Agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this Agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV

1. Nothing in this Agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this Agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this Agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI

The designated state officials of any party state may meet from time to time as a group to evaluate progress under the Agreement, and to formulate recommendations for changes.

Article VII

Nothing in this Agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII

1. This Agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this Agreement.

2. Any party state may withdraw from this Agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX

This Agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Agreement shall be severable and if any phrase, clause, sentence, or provision of this Agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this Agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this Agreement shall be held contrary to the constitution of any state participating therein, the Agreement shall remain in full force and effect as to the state affected as to all severable matters.

The "designated state official" for this state under Article II of RCW 28A.690.010 shall be the superintendent of public instruction, who shall be the compact administrator and who shall have power to promulgate rules to carry out the terms of this compact. The superintendent of public instruction shall enter into contracts pursuant to Article III of the Agreement only with the approval of the specific text thereof by the state board of education.

RCW 28A.900.100 Purpose--1990 c 33.

(1) The purpose of chapter 33, Laws of 1990 is to reorganize Title 28A RCW. There are three goals to this reorganization: (a) To place related sections in chapters organized by subject matter; (b) to make all terms gender neutral; and (c) to clarify existing language. Chapter 33, Laws of 1990 is technical in nature and is not intended to make substantive changes in the meaning, interpretation, court construction, or constitutionality of any provision of Title 28A RCW or other statutory provisions included in chapter 33, Laws of 1990 and rules adopted under those provisions.

(b) References to "RCW 28A.58.095" in Title 28A RCW have intentionally not been changed since that code section was repealed by chapter 2, Laws of 1987 1st ex. sess. These references are not being eliminated because it is not the purpose of this act to correct obsolete references.

Subheadings as used in this act do not constitute any part of the law.

[1990 c 33 § 3.]

RCW 28A.900.105 Effect of repeal--1995 c 335.

The repeal of any programs that are not funded as of July 23, 1995, is not intended to comment on the value of the services provided by the programs. The repeal of statutes in chapter 335, Laws of 1995 does not affect the general authority of school districts to provide services to accomplish the purposes of these programs. The deletion or repeal of language that permitted school districts to carry out specific activities that would be within their general authority is not intended to affect the general authority of school districts to continue to carry out those activities.

[1979 c 73 § 1.]

RCW 28B.04.020 Legislative findings--Purpose.

The legislature finds that homemakers are an unrecognized part of the work force who make an invaluable contribution to the strength, durability, and purpose of our state.

The legislature further finds that there is an increasing number of persons in this state who, having fulfilled a role as homemaker, find themselves "displaced" in their middle years through divorce, death of spouse, disability of spouse, or other loss of family income of a spouse. As a consequence, displaced homemakers are very often left with little or no income; they are ineligible for categorical welfare assistance; they are subject to the highest rate of unemployment of any sector of the work force; they face continuing discrimination in employment because of their age and lack of recent paid work experience; they are ineligible for unemployment insurance because they have been engaged in unpaid labor in the home; they are ineligible for social security benefits because they are too young, and many never qualify because they have been divorced from the family wage earner; they may have lost beneficiaries' rights under employer's pension and health plans through divorce or death of spouse; and they are often unacceptable to private health insurance plans because of their age.

It is the purpose of this chapter to establish guidelines under which the higher education coordinating board shall contract to establish multipurpose service centers and programs to provide necessary training opportunities, counseling, and services for displaced homemakers so that they may enjoy the independence and economic security vital to a productive life.

RCW 28B.07.010 Intent.

The legislature finds that the state has a vital interest in ensuring that higher education institutions are maintained in the state in sufficient numbers and located in such locations, as to be accessible to as many citizens as possible. Adequate educational opportunities are essential to the economic, intellectual, and social well-being of the state and its people. Washington's independently-governed private nonprofit higher education institutions are a necessary part of the state's higher educational resources. They provide educational diversity and choice for all residents of the communities in which they are located, communities which may not otherwise be served directly by a public baccalaureate-granting college or university.

The legislature further finds that some of the factors that contribute to educational costs are beyond the control of these higher education institutions and their governing boards. The factors include the need to modify facilities to render the facilities accessible to the handicapped or disabled, the necessity of modernizing structures to keep them safe and efficient, and the demands of energy conservation and resource utilization. Many of these needs are associated with the public functions these institutions perform and the requirements of the state and federal governments. Compounding the problem is the fact that the cost of these renovations are borne entirely by the institutions.

Because these institutions serve an important public purpose addressing both the needs of individuals and the needs of the state, and because the performance of that public function can be facilitated at no expense or liability to the state, the legislature declares it to be the public policy of the state of Washington to enable the building, providing, and utilization of modern, well-equipped, efficient, and reasonably priced higher educational facilities, as well as the improvement, expansion, and modernization of such facilities, in a manner that will minimize the capital cost of construction, financing, and use of such facilities. The intention of this policy is to improve and ensure the quality and range of educational services available to the citizens of this state. The intent of the legislature is to accomplish these and related purposes, and this chapter shall be liberally construed in order to further these goals.

authority--Created--Members--Chairperson--Records--Quorum--Compensation and travel**

expenses.

(1) The Washington higher education facilities authority is hereby established as a public body corporate and politic, with perpetual corporate succession, constituting an agency of the state of Washington exercising essential governmental functions. The authority is a "public body" within the meaning of RCW 39.53.010.

(2) The authority shall consist of seven members as follows: The governor, lieutenant governor, executive director of the higher education coordinating board, and four public members, one of whom shall be the president of a higher education institution at the time of appointment. The public members shall be residents of the state and appointed by the governor, subject to confirmation by the senate, on the basis of their interest or expertise in the provision of higher education and the financing of higher education. The public members of the authority shall serve for terms of four years. The initial terms of the public members shall be staggered in a manner determined by the governor. In the event of a vacancy on the authority due to death, resignation, or removal of one of the public members, and upon the expiration of the term of any public member, the governor shall appoint a successor for a term expiring on the fourth anniversary of the successor's date of the appointment. If any of the state offices are abolished, the resulting vacancy on the authority shall be filled by the state officer who shall succeed substantially to the power and duties of the abolished office. Any public member of the authority may be removed by the governor for misfeasance, malfeasance, wilful neglect of duty, or any other cause after notice and a public hearing, unless such notice and hearing shall be expressly waived in writing.

(3) The governor shall serve as chairperson of the authority. The authority shall elect annually one of its members as secretary. If the governor shall be absent from a meeting of the authority, the secretary shall preside. However, the governor may designate an employee of the governor's office to act on the governor's behalf in all other respects during the absence of the governor at any meeting of the authority. If the designation is in writing and is presented to the person presiding at the meetings of the authority who is included in the designation, the vote of the designee has the same effect as if cast by the governor.

(4) Any person designated by resolution of the authority shall keep a record of the proceedings of the authority and shall be the custodian of all books, documents, and papers filed with the authority, the minute book or a journal of the authority, and the authority's official seal, if any. The person may cause copies to be made of all minutes and other records and documents of the authority, and may give certificates to the effect that such copies are true copies. All persons dealing with the authority may rely upon the certificates.

(5) Four members of the authority constitute a quorum. The authority may act on the basis of a motion except when authorizing the issuance and sale of bonds, in which case the authority shall act by resolution. Bond resolutions and other resolutions shall be adopted upon the affirmative vote of four members of the authority, and shall be signed by those members voting yes. Motions shall be adopted upon the affirmative vote of a majority of a quorum of members present at any meeting of the authority. All actions taken by the authority shall take effect immediately without need for publication or other public notice. A vacancy in the membership of

the authority does not impair the power of the authority to act under this chapter.

(6) The members of the authority shall be compensated in accordance with RCW 43.03.240 and shall be entitled to reimbursement, solely from the funds of the authority, for travel expenses as determined by the authority incurred in the discharge of their duties under this chapter.

RCW 28B.07.050 Special obligation bonds--Issuance--Personal liability--Debt limit.

(1) The authority may, from time to time, issue its special obligation bonds in order to carry out the purposes of this chapter and to enable the authority to exercise any of the powers granted to it in this chapter. The bonds shall be issued pursuant to a bond resolution or trust indenture and shall be payable solely out of the special fund or funds created by the authority in the bond resolution or trust indenture. The special fund or funds shall be funded in whole or in part from moneys paid by one or more participants for whose benefit such bonds were issued and from the sources, if any, described in RCW 28B.07.040(9) or from the proceeds of bonds issued by the authority for the purpose of refunding any outstanding bonds of the authority.

(2) The bonds may be secured by:

(a) A first lien against any unexpended proceeds of the bonds;

(b) A first lien against moneys in the special fund or funds created by the authority for their payment;

(c) A first or subordinate lien against the revenue and receipts of the participant or participants which revenue is derived in whole or in part from the project financed by the authority;

Any security interest created against the unexpended bond proceeds and against the special funds created by the authority shall be immediately valid and binding against the moneys and any securities in which the moneys may be invested without authority or trustee possession, and the security interest shall be prior to any party having any competing claim against the moneys or securities, without filing or recording under *Article 9 of the Uniform Commercial Code, Title 62A RCW, and regardless of whether the party has notice of the security interest.

(3) The bonds may be issued as serial bonds or as term bonds or any such combination. The bonds shall bear such date or dates; mature at such time or times; bear interest at such rate or rates, either fixed or variable; be payable at such time or times; be in such denominations; be in such form, either coupon or registered, or both; carry such registration privileges; be made transferable, exchangeable, and interchangeable; be payable in lawful money of the United States of America at such place or places; be subject to such terms of redemption; and be sold at public or private sale, in such manner, at such time, and at such price as the authority shall determine. The bonds shall be executed by the manual or facsimile signatures of the chairperson and the authority's duly-elected secretary or its executive director, and by the trustee if the authority determines to use a trustee. At least one signature shall be manually subscribed. Coupon bonds shall have attached interest coupons bearing the facsimile signatures of the chairperson and the secretary or the executive director.

(4) Any bond resolution, trust indenture, or agreement with a participant relating to bonds issued by the authority or the financing or refinancing made available by the authority may contain provisions, which may be made a part of the contract with the holders or owners of the bonds to be issued, pertaining to the following, among other matters: (a) The security interests granted by the participant to secure repayment of any amounts financed and the performance by the participant of its other obligations in the financing; (b) the security interests granted to the holders or owners of the bonds to secure repayment of the bonds; (c) rentals, fees, and other amounts to be charged, and the sums to be raised in each year through such charges, and the use, investment, and disposition of the sums; (d) the segregation of reserves or sinking funds, and the regulation, investment, and disposition thereof; (e) limitations on the uses of the project; (f) limitations on the purposes to which, or the investments in which, the proceeds of the sale of any issue of bonds may be applied; (g) terms pertaining to the issuance of additional parity bonds; (h) terms pertaining to the incurrence of parity debt; (i) the refunding of outstanding bonds; (j) procedures, if any, by which the terms of any contract with bondholders may be amended or abrogated; (k) acts or failures to act which constitute a default by the participant or the authority in their respective obligations and the rights and remedies in the event of a default; (l) the securing of bonds by a pooling of leases whereby the authority may assign its rights, as lessor, and pledge rents under two or more leases with two or more participants, as lessees; (m) terms

governing performance by the trustee of its obligation; or (n) such other additional covenants, agreements, and provisions as are deemed necessary, useful, or convenient by the authority for the security of the holders of the bonds.

(5) Bonds may be issued by the authority to refund other outstanding authority bonds, at or prior to the maturity thereof, and to pay any redemption premium with respect thereto. Bonds issued for such refunding purposes may be combined with bonds issued for the financing or refinancing of new projects. Pending the application of the proceeds of the refunding bonds to the redemption of the bonds to be redeemed, the authority may enter into an agreement or agreements with a corporate trustee under RCW 28B.07.080 with respect to the interim investment of the proceeds and the application of the proceeds and the earnings on the proceeds to the payment of the principal of and interest on, and the redemption of the bonds to be redeemed.

(6) All bonds and any interest coupons appertaining to the bonds shall be negotiable instruments under Title 62A RCW.

(7) Neither the members of the authority, nor its employees or agents, nor any person executing the bonds shall be liable personally on the bonds or be subject to any personal liability or accountability by reason of the issuance of the bonds.

(8) The authority may purchase its bonds with any of its funds available for the purchase. The authority may hold, pledge, cancel, or resell the bonds subject to and in accordance with agreements with bondholders.

(9) At no time shall the total outstanding bonded indebtedness of the authority exceed five hundred million dollars.

***Reviser's note:** Article 62A.9 RCW was repealed in its entirety by 2000 c 250 § 9A-901, effective July 1, 2001. For later enactment, see Article 62A.9A RCW.

RCW 28B.07.060 Bonds--Special obligations--Payment--Funds--Segregation of proceeds and moneys.

Bonds issued under this chapter shall not be deemed to constitute obligations, either general or special, of the state or of any political subdivision of the state, or a pledge of the faith and credit of the state or of any political subdivision, or a general obligation of the authority. The bonds shall be special obligations of the authority and shall be payable solely from the special fund or funds created by the authority in the bond resolution or trust indenture pursuant to which the bonds were issued. The fund or funds shall be funded in whole or in part from moneys paid by one or more participants for whose benefit the bonds were issued, from the sources, if any, under RCW 28B.07.040(9), or from the proceeds of bonds issued by the authority for the purpose of refunding any outstanding bonds of the authority. The issuance of bonds under this chapter shall not obligate, directly, indirectly, or contingently, the state or any political subdivision of the state to levy any taxes or appropriate or expend any funds for the payment of the principal or the interest on the bonds.

Neither the proceeds of bonds issued under this chapter, any moneys used or to be used to pay the principal of or interest on the bonds, nor any moneys received by the authority to defray its administrative costs shall constitute public money or property. All of such moneys shall be kept segregated and set apart from funds of the state and any political subdivision of the state and shall not be subject to appropriation or allotment by the state or subject to the provisions of chapter 43.88 RCW.

[1983 c 169 § 6.]

RCW 28B.07.070 Agreements with participant--Participant's payment of certain costs and expenses.

In connection with any bonds issued by the authority, the authority shall enter into agreements with participants which shall provide for the payment by each participant of amounts which shall be sufficient, together with other revenues available to the authority, if any, to: (1) Pay the participant's share of the administrative costs and expenses of the authority; (2) pay the costs of maintaining, managing, and operating the project or projects financed by the authority, to the extent that the payment of the costs has not otherwise been adequately provided for; (3) pay the principal of, premium, if any, and interest on outstanding bonds of the authority issued in respect of such project or projects as the same shall become due and payable; and (4) create and maintain reserves required or provided for in any bond resolution or trust indenture authorizing the issuance of such bonds of the authority. The payments shall not be subject to supervision or regulation by any department, committee, board, body, bureau, or agency of the state other than the authority.

[1983 c 169 § 7.]

RCW 28B.07.080 Moneys deemed trust funds--Agreement or trust indenture with bank or trust company authorized.

All moneys received by or on behalf of the authority under this chapter, whether as proceeds from the sale of bonds or from participants or from other sources shall be deemed to be trust funds to be held and applied solely as provided in this chapter. The authority, in lieu of receiving and applying the moneys itself, may enter into an agreement or trust indenture with one or more banks or trust companies having the power and authority to conduct trust business in the state to:

(1) Perform all of any part of the obligations of the authority with respect to: (a) Bonds issued by it; (b) the receipt, investment, and application of the proceeds of the bonds and moneys paid by a participant or available from other sources for the payment of the bonds; (c) the enforcement of the obligations of a participant in connection with the financing or refinancing of any project; and (d) other matters relating to the exercise of the authority's powers under this chapter;

(2) Receive, hold, preserve, and enforce any security interest or evidence of security

interest granted by a participant for purposes of securing the payment of the bonds; and

(3) Act on behalf of the authority or the holders or owners of bonds of the authority for purposes of assuring or enforcing the payment of the bonds, when due.

[1983 c 169 § 8.]

RCW 28B.07.090 Holders or owners of bonds--Trustees--Enforcement of rights--Purchase at foreclosure sale.

Any holder or owner of bonds of the authority issued under this chapter or any holder of the coupons appertaining to the bonds, and the trustee or trustees under any trust indenture, except to the extent the rights given are restricted by the authority in any bond resolution or trust indenture authorizing the bonds, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any of their respective rights, and may become the purchaser at any foreclosure sale if the person is the highest bidder.

[1983 c 169 § 9.]

RCW 28B.07.100 Bonds are securities--Legal investments.

The bonds of the authority are securities in which all public officers and bodies of this state and all counties, cities, municipal corporations, and political subdivisions, all banks, bankers, trust companies, savings banks and institutions, building and loan associations, savings and loan associations, investment companies, insurance companies and associations, and all executors, administrators, guardians, trustees, and other fiduciaries may legally invest any sinking funds, moneys, or other funds belonging to them or within their control.

[1983 c 169 § 10.]

RCW 28B.07.110 Projects or financing--Exemption from certain restrictions on procedures for awarding contracts.

A project or the financing or refinancing thereof pursuant to this chapter shall not be subject to the requirements of any law or rule relating to competitive bidding, lease performance bonds, or other restrictions imposed on the procedure for award of contracts.

[1983 c 169 § 11.]

RCW 28B.07.120 Bond counsel--Selection.

(1) The authority shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the authority believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders and other members of the financial community, and which would be in furtherance of the public interest in

obtaining the lowest possible interest rates on the bonds issued by the authority. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the authority's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the authority shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the authority his or her fee schedule for providing bond counsel services. The authority shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the authority shall consider all submitted fee schedules and the public interest in achieving issuance of bonds on terms most favorable to the authority. At least once every two calendar years, the authority shall select anew an attorney or attorneys to serve as bond counsel. However, the authority may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the authority has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. As an alternative to retaining counsel for a period of time, the authority may appoint an attorney to serve as counsel in respect to only a particular bond issue or issues.

[1983 c 169 § 13.]

RCW 28B.07.130 Underwriters--Selection.

(1) The authority shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters who the authority believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the authority's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless it demonstrates to the authority's satisfaction that it meets the requirements of this section.

(2) Whenever the authority decides that it needs the services of an underwriter, it shall provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the authority an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the authority. The authority shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the authority shall consider the underwriter's fees and other charges and the public interest in achieving issuance of bonds on terms most favorable to the authority. The authority may adopt rules setting forth conditions under which an institution of higher education may be permitted to exercise the notice and selection procedures set forth in this subsection. These rules shall require the institution to comply with the provisions of this subsection as if it were the authority and to obtain the

authority's prior approval of the selection of an underwriter.

[1983 c 169 § 14.]

RCW 28B.07.900 Chapter supplemental--Application of other laws.

This chapter provides a complete, additional, and alternative method for accomplishing the purposes of this chapter and shall be regarded as supplemental and additional to powers conferred by other laws. The issuance of bonds and refunding bonds under this chapter need not comply with the requirements of any other law applicable to the issuance of bonds.

[1983 c 169 § 15.]

RCW 28B.07.910 Construction--1983 c 169.

This chapter, being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect its purposes. Insofar as the provisions of this chapter are inconsistent with the provisions of any general or special law, or parts thereof, the provisions of this chapter shall be controlling.

[1983 c 169 § 16.]

RCW 28B.07.920 Severability--1983 c 169.

If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Policy--1996 c 17: "The state makes a substantial investment of finances and resources in students who are attending state institutions of higher education. In exchange, students are expected to actively pursue their education and contribute to an academic environment that is conducive to learning. Students who abuse liquor and drugs, however, are unable to make full use of this educational opportunity. More important, students who abuse liquor and drugs create an environment that interferes with the ability of other students to pursue their education. This is especially true in university-owned student housing where liquor and drug abuse contribute to noise, vandalism, theft, and violence. While the universities and colleges may not be able to stop all liquor and drug abuse among student populations, the very least they can do is ensure that the vast majority of students without drug or liquor problems are provided with a living environment that is safe and conducive to the pursuit of higher education."

RCW 28B.10.580 Term papers, theses, dissertations, sale of prohibited--Legislative findings--Purpose.

(1) The legislature finds that commercial operations selling term papers, theses, and dissertations encourages academic dishonesty, and in so doing impairs the public confidence in the credibility of institutions of higher education whether in this state or any other to function within their prime mission, that of providing a quality education to the citizens of this or any other state.

(2) The legislature further finds that this problem, beyond the ability of these institutions to control effectively, is a matter of state concern, while at the same time recognizing the need for and the existence of legitimate research functions.

It is the declared intent of RCW 28B.10.580 through 28B.10.584, therefore, that the state of Washington prohibit the preparation for sale or commercial sale of term papers, theses and dissertations: PROVIDED, That such legislation shall not affect legitimate and proper research activities: PROVIDED FURTHER, That such legislation does not impinge on the rights, under the First Amendment, of freedom of speech, of the press, and of distributing information.

The inflation factor should be equivalent to the inflation factor used to calculate basic education in the common school system budget request submitted by the governor.

It is the policy of the state of Washington that the essential requirements level budget calculation for state institutions of higher education include a funding level per full-time equivalent student that is, each biennium, at a minimum, equal to the general fund—state and tuition fund rate per student assumed in the omnibus appropriations act for the last fiscal year of the previous biennium for the state-funded programs, minus one-time expenditures and plus an inflation factor. The inflation factor should be equivalent to the inflation factor used to calculate basic education in the common school system budget request submitted by the governor.

RCW 28B.10.782 Budget calculation--Increased enrollment target level--Availability of information.

It is the policy of the state of Washington that higher education enrollments be increased in increments each biennium in order to achieve, by the year 2010, the goals, by educational sector, adopted by the higher education coordinating board in its enrollment plan entitled "Design for the 21st Century: Expanding Higher Education Opportunities in Washington," or subsequent revisions adopted by the board.

Per student costs for additional students to achieve this policy shall be at the same rate per student as enrollments mandated in RCW 28B.10.776.

For each public college and university, and for the community and technical college system, budget documents generated by the governor and the legislature in the development and consideration of the biennial omnibus appropriations act shall display an enrollment target level. The enrollment target level is the biennial state-funded enrollment increase necessary to fulfill the state policy set forth in this section. The budget documents shall compare the enrollment target level with the state-funded enrollment increases contained in the biennial budget proposals of the governor and each house of the legislature. The information required by this section shall be set forth in the budget documents so that enrollment and cost information concerning the number of students and additional funds needed to reach the enrollment goals are prominently displayed and easily understood.

For the governor's budget request, the information required by this section shall be made available in the document entitled "Operating Budget Supporting Data" or its successor document.

Formal estimates of the state participation rates and enrollment levels necessary to fulfill the requirements of RCW 28B.10.776 and 28B.10.782 shall be determined by the office of financial management as part of its responsibility to develop and maintain student enrollment forecasts for colleges and universities under RCW 43.62.050. Formal estimates of the state participation rates and enrollment levels required by this section shall be submitted to the fiscal committees of the house of representatives and senate on or before November 15th of each even-numbered year. RCW 28B.10.786 Budget calculation--Student financial aid programs.

It is the policy of the state of Washington that financial need not be a barrier to participation in higher education. It is also the policy of the state of Washington that the essential requirements level budget calculation include funding for state student financial aid programs. The calculation should, at a minimum, include a funding level equal to the amount provided in the second year of the previous biennium in the omnibus appropriations act, adjusted for the percentage of needy resident students, by educational sector, likely to be included in any enrollment increases necessary to maintain, by educational sector, the participation rate funded in the 1993 fiscal year. The calculation should also be adjusted to reflect, by educational sector, any increases in cost of attendance. The cost of attendance figures should be calculated by the higher education coordinating board and provided to the office of financial management and appropriate legislative committees by June 30th of each even-numbered year.

RCW 28B.10.801 State student financial aid program--State need grant program--Findings--Intent.

(1) The legislature finds that the higher education coordinating board, in consultation with the higher education community, has completed a review of the state need grant program. It is the intent of the legislature to endorse the board's proposed changes to the state need grant program, including:

(a) Reaffirmation that the primary purpose of the state need grant program is to assist low-income, needy, and disadvantaged Washington residents attending institutions of higher education;

(b) A goal that the base state need grant amount over time be increased to be equivalent to the rate of tuition charged to resident undergraduate students attending Washington state public colleges and universities;

(c) State need grant recipients be required to contribute a portion of the total cost of their education through self-help;

(d) State need grant recipients be required to document their need for dependent care assistance after taking into account other public funds provided for like purposes; and

(e) Institutional aid administrators be allowed to determine whether a student eligible for a state need grant in a given academic year may remain eligible for the ensuing year if the student's family income increases by no more than a marginal amount.

(2) The legislature further finds that the higher education coordinating board, under its authority to implement the proposed changes in subsection (1) of this section, should do so in a timely manner.

(3) The legislature also finds that:

(a) In most circumstances, need grant eligibility should not extend beyond five years or one hundred twenty-five percent of the published length of the program in which the student is enrolled or the credit or clock-hour equivalent; and

(b) State financial aid programs should continue to adhere to the principle that funding follows resident students to their choice of institution of higher education.

(4) The term "disadvantaged student" shall mean a post high school student who by reason of adverse cultural, educational, environmental, experiential, familial or other circumstances is unable to qualify for enrollment as a full time student in an institution of higher learning, who would otherwise qualify as a needy student, and who is attending an institution of higher learning under an established program designed to qualify the student for enrollment as a full time student.

RCW 28B.10.804 State student financial aid program--Board, guidelines in performance of duties.

The board shall be cognizant of the following guidelines in the performance of its duties:

(1) The board shall be research oriented, not only at its inception but continually through its existence.

(2) The board shall coordinate all existing programs of financial aid except those specifically dedicated to a particular institution by the donor.

(3) The board shall take the initiative and responsibility for coordinating all federal student financial aid programs to ensure that the state recognizes the maximum potential effect of these programs, and shall design state programs that complement existing federal, state, and institutional programs. The board shall ensure that state programs continue to follow the principle that state financial aid funding follows the student to the student's choice of institution of higher education.

(4) Counseling is a paramount function of the state need grant and other state student financial aid programs, and in most cases could only be properly implemented at the institutional levels; therefore, state student financial aid programs shall be concerned with the attainment of those goals which, in the judgment of the board, are the reasons for the existence of a student financial aid program, and not solely with administration of the program on an individual basis.

(5) The "package" approach of combining loans, grants and employment for student financial aid shall be the conceptual element of the state's involvement.

RCW 28B.10.806 State student financial aid program--Powers and duties of board.

The board shall have the following powers and duties:

(1) Conduct a full analysis of student financial aid as a means of:

- (a) Fulfilling educational aspirations of students of the state of Washington, and
- (b) Improving the general, social, cultural, and economic character of the state.

Such an analysis will be a continuous one and will yield current information relevant to needed improvements in the state program of student financial aid. The board will disseminate the information yielded by their analyses to all appropriate individuals and agents.

(2) Design a state program of student financial aid based on the data of the study referred to in this section. The state programs will supplement available federal and local aid programs. The state programs of student financial aid will not exceed the difference between the budgetary costs of attending an institution of higher education and the student's total resources, including family support, personal savings, employment, and federal, state, and local aid programs.

(3) Determine and establish criteria for financial need of the individual applicant based upon the consideration of that particular applicant. In making this determination the board shall

consider the following:

- (a) Assets and income of the student.
- (b) Assets and income of the parents, or the individuals legally responsible for the care and maintenance of the student.
- (c) The cost of attending the institution the student is attending or planning to attend.
- (d) Any other criteria deemed relevant to the board.
- (4) Set the amount of financial aid to be awarded to any individual needy or disadvantaged student in any school year.
- (5) Award financial aid to needy or disadvantaged students for a school year based upon only that amount necessary to fill the financial gap between the budgetary cost of attending an institution of higher education and the family and student contribution.
- (6) Review the need and eligibility of all applications on an annual basis and adjust financial aid to reflect changes in the financial need of the recipients and the cost of attending the institution of higher education.

RCW 28B.10.808 State student financial aid program--State need grant awards.

In awarding need grants, the board shall proceed substantially as follows: PROVIDED, That nothing contained herein shall be construed to prevent the board, in the exercise of its sound discretion, from following another procedure when the best interest of the program so dictates:

(1) The board shall annually select the financial aid award recipients from among Washington residents applying for student financial aid who have been ranked according to financial need as determined by the amount of the family contribution and other considerations brought to the board's attention.

(2) The financial need of the highest ranked students shall be met by grants depending upon the evaluation of financial need until the total allocation has been disbursed. Funds from grants which are declined, forfeited or otherwise unused shall be reawarded until dispersed.

(3) A student shall be eligible to receive a state need grant for up to five years, or the credit or clock hour equivalent of five years, or up to one hundred twenty-five percent of the published length of time of the student's program. A student may not start a new associate degree program as a state need grant recipient until at least five years have elapsed since earning an associate degree as a need grant recipient, except that a student may earn two associate degrees concurrently. Qualifications for renewal will include maintaining satisfactory academic progress toward completion of an eligible program as determined by the board. Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the grant shall be returned to the state educational grant fund by the institution according to the institution's own policy for issuing refunds, except as provided in RCW 28B.10.8081.

(4) In computing financial need, the board shall determine a maximum student expense

budget allowance, not to exceed an amount equal to the total maximum student expense budget at the public institutions plus the current average state appropriation per student for operating expense in the public institutions.

[1994 c 105 § 2.]

Notes:

Intent--1994 c 105: "It is a fundamental aspiration of the people of Washington that individuals be afforded the opportunity to compete academically. Accordingly, it is an appropriate act of state government, in furtherance of this aspiration, to make available appropriate support services to those individuals who are able to attend college by virtue of their potential and desire, but whose educational progress and success is hampered by a lack of accommodation.

Furthermore, under existing federal and state laws, institutions of higher education are obligated to provide services to students with disabilities. The legislature does not intend to confer any new or expanded rights, however, the intent of this act is to provide a clearer, more succinct statement of those rights than is presently available and put Washington on record as supporting those rights.

It is the intent of the legislature that these services be provided within the bounds of the law. Therefore, the institution of higher education's obligations to provide reasonable accommodations are limited by the defenses provided in federal and state statutes, such as undue financial burden and undue hardship." [1994 c 105 § 1.]

RCW 28B.10.912 Students with disabilities--Core services described--Notice of nondiscrimination.

(7) Facilitation of physical access including, but not limited to, relocating of classes, activities, and services to accessible facilities and orientation if route of travel needs change, such as at the beginning of a quarter or semester;

(8) Access to adaptive equipment including, but not limited to, TDDs, FM communicators, closed caption devices, amplified telephone receivers, closed circuit televisions, low-vision reading aids, player/recorders for 15/16 4-track tapes, photocopy machines able to use

eleven-by-seventeen inch paper, braille devices, and computer enhancements;

(9) Referral to appropriate on-campus and off-campus resources, services, and agencies;

RCW 28B.15.012 Classification as resident or nonresident student--Definitions. (Expires June 30, 2002.)

Whenever used in chapter 28B.15 RCW:

(1) The term "institution" shall mean a public university, college, or community college within the state of Washington.

(2) The term "resident student" shall mean:

(a) A financially independent student who has had a domicile in the state of Washington for the period of one year immediately prior to the time of commencement of the first day of the semester or quarter for which the student has registered at any institution and has in fact established a bona fide domicile in this state primarily for purposes other than educational;

(b) A dependent student, if one or both of the student's parents or legal guardians have maintained a bona fide domicile in the state of Washington for at least one year immediately prior to commencement of the semester or quarter for which the student has registered at any institution;

(c) A student classified as a resident based upon domicile by an institution on or before May 31, 1982, who was enrolled at a state institution during any term of the 1982-1983 academic year, so long as such student's enrollment (excepting summer sessions) at an institution in this state is continuous;

(d) Any student who has spent at least seventy-five percent of both his or her junior and senior years in high schools in this state, whose parents or legal guardians have been domiciled in the state for a period of at least one year within the five-year period before the student graduates from high school, and who enrolls in a public institution of higher education within six months of leaving high school, for as long as the student remains continuously enrolled for three quarters or two semesters in any calendar year;

(e) A student who is on active military duty stationed in the state;

(f) A student who is the spouse or a dependent of a person who is on active military duty stationed in the state;

(g) A student of an out-of-state institution of higher education who is attending a Washington state institution of higher education pursuant to a home tuition agreement as described in RCW 28B.15.725; or

(h) A student who meets the requirements of RCW 28B.15.0131 or 28B.15.0139: PROVIDED, That a nonresident student enrolled for more than six hours per semester or quarter shall be considered as attending for primarily educational purposes, and for tuition and fee paying purposes only such period of enrollment shall not be counted toward the establishment of a bona fide domicile of one year in this state unless such student proves that the student has in fact established a bona fide domicile in this state primarily for purposes other than educational.

(3) The term "nonresident student" shall mean any student who does not qualify as a "resident student" under the provisions of RCW 28B.15.012 and 28B.15.013. Except for students qualifying under subsection (2)(g) of this section, a nonresident student shall include:

(a) A student attending an institution with the aid of financial assistance provided by another state or governmental unit or agency thereof, such nonresidency continuing for one year after the completion of such semester or quarter. (4) The term "domicile" shall denote a person's true, fixed and permanent home and place of habitation. It is the place where the student intends to remain, and to which the student expects to return when the student leaves without intending to establish a new domicile elsewhere. The burden of proof that a student, parent or guardian has established a domicile in the state of Washington primarily for purposes other than educational lies with the student.

(5) The term "dependent" shall mean a person who is not financially independent. Factors to be considered in determining whether a person is financially independent shall be set forth in rules and regulations adopted by the higher education coordinating board and shall include, but not be limited to, the state and federal income tax returns of the person and/or the student's parents or legal guardian filed for the calendar year prior to the year in which application is made

(2) Unless proven to the contrary it shall be presumed that:

(a) The domicile of any person shall be determined according to the individual's situation and circumstances rather than by marital status or sex.

(b) A person does not lose a domicile in the state of Washington by reason of residency in any state or country while a member of the civil or military service of this state or of the United States, nor while engaged in the navigation of the waters of this state or of the United States or of the high seas if that person returns to the state of Washington within one year of discharge from said service with the intent to be domiciled in the state of Washington; any resident dependent student who remains in this state when such student's parents, having theretofore been domiciled in this state for a period of one year immediately prior to the time of commencement of the first day of the semester or quarter for which the student has registered at any institution, remove from this state, shall be entitled to continued classification as a resident student so long as such student's attendance (except summer sessions) at an institution in this state is continuous.

(a) Registration or payment of Washington taxes or fees on a motor vehicle, mobile home, travel trailer, boat, or any other item of personal property owned or used by the person for which state registration or the payment of a state tax or fee is required will be a factor in

(b) Permanent full time employment in Washington by a person will be a factor in considering the establishment of a Washington domicile.

(c) Registration to vote for state officials in Washington will be a factor in considering the establishment of a Washington domicile.

(4) After a student has registered at an institution such student's classification shall remain unchanged in the absence of satisfactory evidence to the contrary. A student wishing to apply for a change in classification shall reduce such evidence to writing and file it with the institution. In any case involving an application for a change from nonresident to resident status, the burden of proof shall rest with the applicant. Any change in classification, either nonresident to resident, or the reverse, shall be based upon written evidence maintained in the files of the institution and, if approved, shall take effect the semester or quarter such evidence was filed with the institution: PROVIDED, That applications for a change in classification shall be accepted up to the thirtieth calendar day following the first day of instruction of the quarter or semester for which application is made.

It is the intent of the legislature that students will propose budgetary recommendations for consideration by the college or university administration and governing board to the extent that such budget recommendations are intended to be funded by services and activities fees. It is also the intent of the legislature that services and activities fee expenditures for programs devoted to political or economic philosophies shall result in the presentation of a spectrum of ideas.

Severability--1980 c 80: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 80 § 4.]

RCW 28B.15.045 Services and activities fees--Guidelines governing establishment and funding of programs supported by--Scope--Mandatory provisions--Dispute resolution.

The legislature recognizes that institutional governing boards have a responsibility to manage and protect institutions of higher education. This responsibility includes ensuring certain lawful agreements for which revenues from services and activities fees have been pledged. Such lawful agreements include, but are not limited to, bond covenant agreements and other contractual obligations. Institutional governing boards are also expected to protect the stability of programs that benefit students.

The legislature also recognizes that services and activities fees are paid by students for the express purpose of funding student services and programs. It is the intent of the legislature that governing boards ensure that students have a strong voice in recommending budgets for services and activities fees. The boards of trustees and the boards of regents of the respective institutions of higher education shall adopt guidelines governing the establishment and funding of programs supported by services and activities fees. Such guidelines shall stipulate procedures for budgeting and expending services and activities fee revenue. Any such guidelines shall be consistent with the following provisions:

(1) Student representatives from the services and activities fee committee and representatives of the college or university administration shall have an opportunity to address the board before board decisions on services and activities fee budgets and dispute resolution actions are made;

(2) Members of the governing boards shall adhere to the principle that services and activities fee committee desires be given priority consideration on funding items that do not fall into the categories of preexisting contractual obligations, bond covenant agreements, or stability for programs affecting students;

(3) Responsibility for proposing to the administration and the governing board program priorities and budget levels for that portion of program budgets that derive from services and activities fees shall reside with a services and activities fee committee, on which students shall

hold at least a majority of the voting memberships, such student members shall represent diverse student interests, and shall be recommended by the student government association or its equivalent. The chairperson of the services and activities fee committee shall be selected by the members of that committee. The governing board shall insure that the services and activities fee committee provides an opportunity for all viewpoints to be heard at a public meeting during its consideration of the funding of student programs and activities.

(4) The services and activities fee committee shall evaluate existing and proposed programs and submit budget recommendations for the expenditure of those services and activities fees with supporting documents simultaneously to the college or university governing board and administration.

(5) The college or university administration shall review the services and activities fee committee budget recommendations and publish a written response to the services and activities fee committee. This response shall outline potential areas of difference between the committee recommendations and the administration's proposed budget recommendations. This response, with supporting documentation, shall be submitted to the services and activities fee committee in a timely manner to allow adequate consideration.

(6)(a) In the event of a dispute or disputes involving the services and activities fee committee recommendations, the college or university administration shall meet with the services and activities fee committee in a good faith effort to resolve such dispute or disputes prior to submittal of final recommendations to the governing board.

(b) If said dispute is not resolved within fourteen days, a dispute resolution committee shall be convened by the chair of the services and activities fee committee within fourteen days.

(7) The dispute resolution committee shall be selected as follows: The college or university administration shall appoint two nonvoting advisory members; the governing board shall appoint three voting members; and the services and activities fee committee chair shall appoint three student members of the services and activities fee committee who will have a vote, and one student representing the services and activities fee committee who will chair the dispute resolution committee and be nonvoting. The committee shall meet in good faith, and settle by vote any and all disputes. In the event of a tie vote, the chair of the dispute resolution committee shall vote to settle the dispute.

(8) The governing board may take action on those portions of the services and activities fee budget not in dispute in accordance with the customary budget approval timeline established by the board. The governing board shall consider the results, if any, of the dispute resolution committee and shall take action.

(9) Services and activities fees and revenues generated by programs and activities funded by such fees shall be deposited and expended through the office of the chief fiscal officer of the institution.

(10) Services and activities fees and revenues generated by programs and activities funded by such fees shall be subject to the applicable policies, regulations, and procedures of the institution and the budget and accounting act, chapter 43.88 RCW.

(11) All information pertaining to services and activities fees budgets shall be made

available to interested parties.

(12) With the exception of any funds needed for bond covenant obligations, once the budget for expending service and activities fees is approved by the governing board, funds shall not be shifted from funds budgeted for associated students or departmentally related categories or the reserve fund until the administration provides written justification to the services and activities fee committee and the governing board, and the governing board and the services and activities fee committee give their express approval. In the event of a fund transfer dispute among the services and activities fee committee, the administration, or the governing board, said dispute shall be resolved pursuant to subsections (6)(b), (7), and (8) of this section.

(13) Any service and activities fees collected which exceed initially budgeted amounts are subject to subsections (1) through (10) and (12) of this section.

RCW 28B.15.051 "Technology fees"--Defined--Use--Student government approval.

(1) The governing board of each of the state universities, the regional universities, and The Evergreen State College, upon the written agreement of its respective student government association or its equivalent, may establish and charge each enrolled student a technology fee, separate from tuition fees. During the 1996-97 academic year, any technology fee shall not exceed one hundred twenty dollars for a full-time student. Any technology fee charged to a part-time student shall be calculated as a pro rata share of the fee charged to a full-time student.

(2) Revenue from this fee shall be used exclusively for technology resources for general student use.

(3) Only changes in the amount of the student technology fee agreed upon by both the governing board and its respective student government association or its equivalent shall be used to adjust the amount charged to students. Changes in the amount charged to students, once implemented, become the basis for future changes.

(4) Annually, the student government association or its equivalent may abolish the fee by a majority vote. In the event of such a vote, the student government association or its equivalent shall notify the governing board of the institution. The fee shall cease being collected the term after the student government association or its equivalent voted to eliminate the fee.

(5) The student government association or its equivalent shall approve the annual expenditure plan for the fee revenue.

(6) The universities and The Evergreen State College shall deposit three and one-half percent of revenues from the technology fee into the institutional financial aid fund under RCW 28B.15.820.

(7) As used in this section, "technology fee" is a fee charged to students to recover, in whole or in part, the costs of providing and maintaining services to students that include, but need not be limited to: Access to the internet and world wide web, e-mail, computer and

multimedia work stations and laboratories, computer software, and dial-up telephone services.

(8) Prior to the establishment of a technology fee, a governing board shall provide to the student governing body a list of existing fees of a similar nature or for a similar purpose. The board and the student governing body shall ensure that student fees for technology are not duplicative.

(1) The governing boards of the state universities, the regional universities, and The Evergreen State College may establish home tuition programs by negotiating home tuition agreements with an out-of-state institution or consortium of institutions of higher education if no loss of tuition and fee revenue occurs as a result of the agreements.

RCW 28B.15.790 Effective communication--Intent.

The legislature finds that the quality of undergraduate education is enhanced by association with graduate assistants from other countries who can effectively communicate their knowledge and diverse cultural backgrounds.

It is the intent of the legislature to assist the institutions in their effort to improve the quality of undergraduate education at the state's four-year colleges and universities. Attainment of an excellent education is facilitated when communication is clear, concise, sensitive to cultural differences, and demonstrative of proven pedagogical skills. It is the further intent of the legislature to assure students and parents that graduate teaching assistants at our state institutions of higher education are able to communicate effectively and understandably with undergraduate students.

[1991 c 228 § 1.]

RCW 28B.15.792 Effective communication--Principles.

The Washington state legislature affirms the following principles:

(1) Washington's college and university students are entitled to excellent instruction at the state's institutions of higher education. Excellent education requires the ability to communicate effectively in college classrooms and laboratories.

(2) The presence of students, faculty, and staff from other countries on Washington's college campuses enriches the educational experience of Washington's students and enhances scholarship and research at the state's colleges and universities.

(3) With the exception of courses designed to be taught primarily in a foreign language,

undergraduate students shall be provided with classroom instruction, laboratory instruction, clinics, seminars, studios, and other participatory and activity courses by a person fluent in both the spoken and written English language.

(4) Persons of all nationalities, races, religions, and ethnic backgrounds are welcome and valued in the state of Washington.

[1991 c 228 § 2.]

RCW 28B.15.794 Effective communication--Implementation of principles.

The governing board of each state university, regional university, state college, and community college shall ensure that the principles in *section 1 of this act are implemented at its institution of higher education.

The council of presidents, in consultation with the higher education coordinating board, shall convene a task force of representatives from the four-year universities and colleges. The task force shall:

(1) Review institutional policies and procedures designed to ensure that faculty and teaching assistants are able to communicate effectively with undergraduate students in classrooms and laboratories;

(2) Research methods and procedures designed to improve the communication and teaching skills of any person funded by state money who instructs undergraduate students in classrooms and laboratories;

(3) Share the results of that research with each participating university and college; and

(4) Work with each participating university and college to assist the institution in its efforts to improve the communication and pedagogical skills of faculty and teaching assistants instructing undergraduate students.

Notes:

Severability--1981 c 257: See note following RCW 28B.15.031.

RCW 28B.15.820 Institutional financial aid fund--"Eligible student" defined.

(1) Each institution of higher education, including technical colleges, shall deposit a minimum of three and one-half percent of revenues collected from tuition and services and activities fees in an institutional financial aid fund that is hereby created and which shall be held locally. Moneys in the fund shall be used only for the following purposes: (a) To make guaranteed long-term loans to eligible students as provided in subsections (3) through (8) of this section; (b) to make short-term loans as provided in subsection (9) of this section; or (c) to provide financial aid to needy students as provided in subsection (10) of this section.

(2) An "eligible student" for the purposes of subsections (3) through (8) and (10) of this section is a student registered for at least six credit hours or the equivalent, who is eligible for resident tuition and fee rates as defined in RCW 28B.15.012 through [and] 28B.15.013, and who is a "needy student" as defined in RCW 28B.10.802.

(3) The amount of the guaranteed long-term loans made under this section shall not exceed the demonstrated financial need of the student. Each institution shall establish loan terms and conditions which shall be consistent with the terms of the guaranteed loan program established by 20 U.S. Code Section 1071 et seq., as now or hereafter amended. All loans made shall be guaranteed by the Washington student loan guaranty association or its successor agency. Institutions are hereby granted full authority to operate as an eligible lender under the guaranteed loan program.

(4) Before approving a guaranteed long-term loan, each institution shall analyze the ability of the student to repay the loan based on factors which include, but are not limited to, the student's accumulated total education loan burdens and the employment opportunities and average starting salary characteristics of the student's chosen fields of study. The institution shall counsel the student on the advisability of acquiring additional debt, and on the availability of

other forms of financial aid.

(5) Each institution is responsible for collection of guaranteed long-term loans made under this section and shall exercise due diligence in such collection, maintaining all necessary records to insure that maximum repayments are made. Institutions shall cooperate with other lenders and the Washington student loan guaranty association, or its successor agency, in the coordinated collection of guaranteed loans, and shall assure that the guarantability of the loans is not violated. Collection and servicing of guaranteed long-term loans under this section shall be performed by entities approved for such servicing by the Washington student loan guaranty association or its successor agency: PROVIDED, That institutions be permitted to perform such servicing if specifically recognized to do so by the Washington student loan guaranty association or its successor agency. Collection and servicing of guaranteed long-term loans made by community colleges under subsection (1) of this section shall be coordinated by the state board for community and technical colleges and shall be conducted under procedures adopted by the state board.

(6) Receipts from payment of interest or principal or any other subsidies to which institutions as lenders are entitled, that are paid by or on behalf of borrowers of funds under subsections (3) through (8) of this section, shall be deposited in each institution's financial aid fund and shall be used to cover the costs of making the guaranteed long-term loans under this section and maintaining necessary records and making collections under subsection (5) of this section: PROVIDED, That such costs shall not exceed five percent of aggregate outstanding loan principal. Institutions shall maintain accurate records of such costs, and all receipts beyond those necessary to pay such costs, shall be deposited in the institution's financial aid fund.

(7) The governing boards of the state universities, the regional universities, and The Evergreen State College, and the state board for community and technical colleges, on behalf of the community colleges and technical colleges, shall each adopt necessary rules and regulations to implement this section.

(8) First priority for any guaranteed long-term loans made under this section shall be directed toward students who would not normally have access to educational loans from private financial institutions in Washington state, and maximum use shall be made of secondary markets in the support of loan consolidation.

(9) Short-term loans, not to exceed one year, may be made from the institutional financial aid fund to students enrolled in the institution. No such loan shall be made to any student who is known by the institution to be in default or delinquent in the payment of any outstanding student loan. A short-term loan may be made only if the institution has ample evidence that the student has the capability of repaying the loan within the time frame specified by the institution for repayment.

(10) Any moneys deposited in the institutional financial aid fund that are not used in making long-term or short-term loans may be used by the institution for locally-administered financial aid programs for needy students, such as need-based institutional employment programs or need-based tuition and fee scholarship or grant programs. These funds shall be used in addition to and not to replace institutional funds that would otherwise support these

locally-administered financial aid programs. First priority in the use of these funds shall be given to needy students who have accumulated excessive educational loan burdens. An excessive educational loan burden is a burden that will be difficult to repay given employment opportunities and average starting salaries in the student's chosen fields of study. Second priority in the use of these funds shall be given to needy single parents, to assist these students with their educational expenses, including expenses associated with child care and transportation.
