Notwithstanding the above provisions, the department may cause any of such shorelands to be platted as is provided for the platting of shorelands of the first class, and when so platted such lands shall be sold, when otherwise permitted under RCW 79.94.150 to be sold, or leased in the manner provided for the sale or lease of shorelands of the first class. [1982 1st ex.s. c 21 § 111.]

79.94.270 Second class tide or shore lands detached from uplands by navigable water—Sale. Tide or shore lands of the second class which are separated from the upland by navigable waters shall be sold, when otherwise permitted under RCW 79.94.150 to be sold, but in no case at less than five dollars per acre. The department of natural resources shall examine and test said plat and field notes of the survey, and if found incorrect

79.94.280 First class unplatted tide or shore lands—Lease preference right to upland owners—Lease for booming purposes. The department of natural resources is authorized to lease to the abutting upland owner any unplatted first class tide or shore lands.

The department shall, prior to the issuance of any lease under the provisions of this section, fix the annual rental for said tide or shore lands and prescribe the terms and conditions of the lease. No lease issued under the provisions of this section shall be for a longer term than ten years from the date thereof, and every such lease shall be subject to termination upon ninety days' notice to the lessee in the event that the department shall decide that it is in the best interest of the state that such tide or shore lands be surveyed and platted. At the expiration of any lease issued under the provisions of this section, the lessee or his successors or assigns shall have a preference right to re-lease the lands covered by the original lease or any portion thereof, if the department shall deem it to be in the best interests of the state to re-lease the same, for succeeding periods not exceeding five years each at such rental and upon such terms and conditions as may be prescribed by said department.

In case the abutting uplands are not improved and occupied for residential purposes and the abutting upland owner has not filed an application for the lease of such lands, the department may lease the same to any person for booming purposes under the terms and conditions of this section: PROVIDED, That failure to use for booming purposes any lands leased under this section for such purposes for a period of one year shall work a forfeiture of such lease and such land shall revert to the state without any notice to the lessee upon the entry of a declaration of forfeiture in the records of the department of natural resources. [1982 1st ex.s. c 21 § 113.]

79.94.290 Second class tide or shore lands—Lease for booming purposes. The department of natural resources is authorized to lease any second class tide or shore lands, whether reserved from sale, or from lease for other purposes, by or under authority of law, or not, except any oyster reserve containing oysters in merchantable quantities, to any person, for booming purposes, for any term not exceeding ten years from the date of such lease, for such annual rental and upon such terms and conditions as the department may fix and determine, and may also provide for forfeiture and termination of any such lease at any time for failure to pay the fixed rental or for any violation of the terms or conditions thereof.

The lessee of any such lands for booming purposes shall receive, hold, and sort the logs and other timber products of all persons requesting such service and upon the same terms and without discrimination, and may charge and collect tolls for such service not to exceed seventy-five cents per thousand feet scale measure on all logs, spars, or other large timber and reasonable rates on all other timber products, and shall be subject to the same duties and liabilities, so far as the same are applicable, as are imposed upon boom compa-

At the expiration of any lease issued under the provisions of this section, the lessee shall have the preference right to re-lease the lands covered by his original lease for a further term, not exceeding ten years, at such rental and upon such terms and conditions as may be prescribed by the department of natural resources. [1982 1st ex.s. c 21 § 114.]

79.94.300 First and second class tide or shore lands—Preference rights, time limit on exercise. All preference rights to purchase tide or shore lands of the first or second class, when otherwise permitted by RCW 79.94.150 to be purchased, awarded by the department of natural resources, or by the superior court in case of appeal from the award of the department, shall be exercised by the parties to whom the award is made within thirty days from the date of the service of notice of the award by registered mail, by the payment to the department of the sums required by law to be paid for a contract, or deed, as in the case of the sale of state lands, other than capitol building lands, and upon failure to make such payment such preference rights shall expire. [1982 1st ex.s. c 21 § 115.]

79.94.310 First and second class tide or shore lands—Accretions—Lease. Any accretions that may be added to any tract or tracts of tide or shore lands of the first or second class heretofore sold, or that may hereafter be sold, by the state, shall belong to the state and shall not be sold, or offered for sale, unless otherwise permitted by this chapter to be sold, and unless the accretions shall have been first surveyed under the direction of the department of natural resources: PROVIDED, That the owner of the adjacent tide or shore lands shall have the preference right to purchase said lands produced by accretion, when otherwise permitted by RCW 79.94.150 to be sold, for thirty days after said owner of the adjacent tide or shore lands shall have been notified by registered mail of his preference right to purchase such accreted lands. [1982 1st ex.s. c 21 § 116.]

79.94.320 Tide or shore lands of the first or second class—Failure to re-lease tide or shore lands—Appraisal of improvements. In case any lessee of tide or shore lands, for any purpose except mining of valuable minerals or coal, or extraction of petroleum or gas, or his successor in interest, shall after the expiration of any lease, fail to purchase, when otherwise permitted under RCW 79.94.150 to be purchased, or re-lease from the state the tide or shore lands formerly covered by his lease, when the same are offered for sale or re-lease, then and in that event the department of natural resources shall appraise and determine the value of all improvements existing upon such tide or shore lands at the expiration of the lease which are not capable of removal without damage to the land, including the cost of filling and raising said property above high tide, or high water, whether filled or raised by the lessee or his successors in interest, or

by virtue of any contract made with the state, and also including the then value to the land of all existing local improvements paid for by such lessee or his successors in interest. In case the lessee or his successor in interest is dissatisfied with the appraised value of such improvements as determined by the department, he shall have the right of appeal to the superior court of the county wherein said tide or shore lands are situated, within the time and according to the method prescribed in RCW 79.90.400 for taking appeals from decisions of the department.

In case such tide or shore lands are leased, or sold, to any person other than such lessee or his successor in interest, within three years from the expiration of the former lease, the bid of such subsequent lessee or purchaser shall not be accepted until payment is made by such subsequent lessee or purchaser of the appraised value of the improvements as determined by the department, or as may be determined on appeal, to such former lessee or his successor in interest.

In case such tide or shore lands are not leased, or sold, within three years after the expiration of such former lease, then in that event, such improvements existing on the lands at the time of any subsequent lease, shall belong to the state and be considered a part of the land, and shall be taken into consideration in appraising the value, or rental value, of the land and sold or leased with the land. [1982 1st ex.s. c 21 § 117.]

79.94.330 Location of line dividing tidelands from shorelands in tidal rivers. The department of natural resources is hereby authorized to locate in all navigable rivers in this state which are subject to tidal flow, the line dividing the tidelands in such river from the shorelands in such river, and such classification or the location of such dividing line shall be final and not subject to review; and the department shall enter the location of said line upon the plat of the tide and shore lands affected. Except as provided in RCW 79.95.060, the department of natural resources may lease to the abutting tide or shore land owner or lessee, the beds of navigable waters lying below the line of extreme low tide in waters where the tide ebbs and flows, and below the line of navigability in lakes and rivers claimed by the state and defined in section 1, Article XVII, of the Constitution of the state.

In case the abutting tide or shore lands or the abutting uplands are not improved or occupied for residential or commercial purposes, the department may lease such beds to any person for a period not exceeding ten years for booming purposes.

Nothing in this chapter shall change or modify any of the provisions of the state Constitution or laws of the state which provide for the leasing of harbor areas and the reservation of lands lying in front thereof. [1987 c 271 § 2; 1982 1st ex.s. c 21 § 130.]

Severability—1987 c 271: See note following RCW 79.95.050.

79.95.020 Lease of beds of navigable waters—Terms and conditions of lease—Forfeiture for nonuser. The department of natural resources shall, prior to the issuance of any lease under the provisions of this chapter, fix the annual rental and prescribe the terms and conditions of the lease: PROVIDED, That in fixing such rental, the department shall not take into account the value of any improvements heretofore or hereafter placed upon the lands by the lessee.

No lease issued under the provisions of this chapter shall be for a term longer than thirty years from the date thereof if in front of second class tide or shore lands; or a term longer than ten years if in front of unplatted first class tide or shore lands leased under the provisions of RCW 79.94.280, in which case said lease shall be subject to the same terms and conditions as provided for in the lease of such unplatted first class tide or shore lands. Failure to use those beds leased under the provisions of this chapter for booming purposes, for a period of two years shall work a forfeiture of said lease and the land shall revert to the state without notice to the lessee upon the entry of a declaration of forfeiture in the records of the commissioner of public lands. [1982 1st ex.s. c 21 § 131.]

79.95.030 Lease of beds of navigable waters—Improvements—Federal permit—Forfeiture—Plans and specifications. No structures or improvements shall be constructed beyond a point authorized by the Corps of Engineers or the department of natural resources and any construction beyond authorized limits will work a forfeiture of all rights granted by the terms of any lease issued under the provisions of this chapter. The applicant shall also file plans and specifications of any proposed improvements to be placed upon such areas with the department of natural resources, said plans and specifications to be the same as provided for in the case of the lease of harbor areas. At the expiration of any lease issued under the provisions of this chapter, the lessee or his successors or assigns, shall have a preference right to re-lease the area covered by the original lease or any portion thereof if the department of natural resources deems it to be in the best interest of the state to re-lease the same. Such re-lease shall be for such term as specified by the provisions of this chapter, and at such rental and upon such conditions as may be prescribed by the department: PROVIDED, That if such preference right is not exercised, the rights and

obligations of the lessee, the department of natural resources, and any subsequent lessee shall be the same as provided in RCW 79.94.320 relating to failure to re-lease tide or shore lands. Any person who prior to June 11, 1953, had occupied and improved an area subject to lease under this chapter and has secured a permit for such improvements from the United States Army Corps of Engineers, or other federal regulatory agency, shall have the rights and obligations of a lessee under this section upon the filing of a copy of such permit together with plans and specifications of such improvements with the department of natural resources. [1982 1st ex.s. c 21 § 133.]

79.95.050 United States Navy base—Legislative findings and declaration. The legislature recognizes the importance of economic development in the state of Washington, and finds that the location of a United States Navy base in Everett, Washington will enhance economic development. The legislature finds that the state should not assume liability or risks resulting from any action taken by the United States Navy, now or in the future associated with the dredge disposal program for that project known as confined aquatic disposal (CAD). The legislature also recognizes the importance of improving water quality and cleaning up pollution in Puget Sound. The legislature hereby declares these actions to be a public purpose necessary to protect the health, safety, and welfare of its citizens, and to promote economic growth and improve environmental quality in the state of Washington. The United States Navy proposes to commence the Everett home port project immediately. [1987 c 271 § 1.]

Severability—1987 c 271: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 c 271 § 6.]

(1) Upon application by the United States Navy, and upon verification of the legal description and compliance with the intent of this chapter, the commissioner of public lands is authorized to lease bedlands in Port Gardner Bay for a term of thirty years so the United States Navy can utilize a dredge spoil site solely for purposes related to construction of the United States Navy base at Everett.

(2) The lease shall reserve for the state uses of the property and associated waters which are not inconsistent with the use of the bed by the Navy as a disposal site. The lease shall include conditions under which the Navy:

(a) Will agree to hold the state of Washington harmless for any damage and liability relating to, or resulting from, the use of the property by the Navy; and

(b) Will agree to comply with all terms and conditions included in the applicable state of Washington section 401 water quality certification issued under the authority of the Federal Clean Water Act (33 U.S.C. Sec. 1251, et seq.), all terms and conditions of the Army Corps of Engineers section 404 permit (33 U.S.C. Sec. 1344), and all requirements of statutes, regulations, and permits relating to water quality and aquatic life in Puget Sound and Port Gardner Bay, including all reasonable and appropriate terms and conditions of any permits issued under the authority of the Washington

state shoreline management act (chapter 90.58 RCW) and any applicable shoreline master program.

(3) The ability of the state of Washington to enforce the terms and conditions specified in subsection (2)(b) of this section shall include, but not be limited to: (a) The terms and conditions of the lease; (b) the section 401 water quality certification under the Clean Water Act, 33 U.S.C. 79.96.010 Leasing beds of tidal waters for shellfish cultivation or other aquaculture use. The beds of all navigable tidal waters in the state lying below extreme low tide, except as prohibited by section 1, Article XV, of the Washington state Constitution shall be subject to lease for the purposes of planting and cultivating oyster beds, or for the purpose of cultivating clams or other edible shellfish, or for other aquaculture use, for periods not to exceed thirty years.

Nothing in this section shall prevent any person from leasing more than one parcel, as offered by the department. [1993 c 295 § 1; 1982 1st ex.s. c 21 § 134.]

79.96.020 Leasing lands for shellfish cultivation or other aquaculture use—Who may lease—Application—Deposit. Any person desiring to lease tidelands or beds of navigable waters for the purpose of planting and cultivating oyster beds, or for the purpose of cultivating clams and other edible shellfish, shall file with the department of natural resources, on a proper form, an application in writing signed by the applicant and accompanied by a map of the lands desired to be leased, describing the lands by metes and bounds tied to at least two United States government corners, and by such reference to local geography as shall suffice to convey a knowledge of the location of the lands with reasonable accuracy to persons acquainted with the vicinity, and accompanied by a deposit of ten dollars which deposit shall be returned to the applicant in case a lease is not granted. [1982 1st ex.s. c 21 § 135.]

79.96.030 Leasing lands for shellfish cultivation or other aquaculture use—Inspection and report by director of fish and wildlife—Rental and term—Commercial harvest of subtidal hardshell clams by hydraulic escalating. (1) The department of natural resources, upon the receipt of an application for a lease for the purpose of planting and cultivating oyster beds or for the purpose of cultivating clams or other edible shellfish, shall notify the director of fish and wildlife of the filing of the application describing the tidelands or beds of navigable waters applied for. The director of fish and wildlife shall cause an inspection of the lands applied for to be made and shall make a full report to the department of natural resources of his or her findings as to whether it is necessary, in order to protect existing natural oyster beds, and to secure adequate seeding thereof, to retain the lands described in the application for lease or any part thereof, and in the event the director deems it advisable to retain the lands or any part thereof for the protection of existing natural oyster beds or to guarantee the continuance of an adequate seed stock for existing natural oyster beds, the same shall not be subject to lease. However, if the director determines that the lands applied for or any part thereof may be leased, the director shall so notify the department of natural resources and the director shall cause an examination of the lands to be made to determine the presence, if any, of natural oysters, clams, or other edible shellfish on said lands, and to fix the rental value of the lands for use for oyster, clam, or other edible shellfish cultivation. In his or her report to the department, the director shall recommend a minimum rental for said lands and an estimation of the value of the oysters, clams, or other edible shellfish, if any, then present on the lands applied for. The lands approved by the director for lease may then be leased to the applicant for a period of not less than five years nor more than ten years at a rental not less than the minimum rental recommended by the director of fish and wildlife. In addition, before entering upon possession of the land, the applicant shall pay the value of the oysters, clams, or other edible shellfish, if any, then present on the land as determined by the director, plus the expense incurred by the

director in investigating the quantity of oysters, clams, or other edible shellfish, present on the land applied for.

(2) When issuing new leases or reissuing existing leases the department shall not permit the commercial harvest of subtidal hardshell clams by means of hydraulic escalating when the upland within five hundred feet of any lease tract is zoned for residential development. [1994 c 264 § 68; 1987 c 374 § 1; 1982 1st ex.s. c 21 § 136.]

79.96.040 Leasing lands for shellfish cultivation or other aquaculture use—Survey and boundary markers. Before entering into possession of any leased tidelands or beds of navigable waters, the applicant shall cause the same to be surveyed by a registered land surveyor, and he or she shall furnish to the department of natural resources and to the director of fish and wildlife, a map of the leased premises signed and certified by the registered land surveyor. The lessee shall also cause the boundaries of the leased premises to be marked by piling monuments or other markers of a permanent nature as the director of fish and wildlife may direct. [1994 c 264 § 69; 1982 1st ex.s. c 21 § 137.]

79.96.050 Leasing lands for shellfish cultivation or other aquaculture use—Renewal lease. The department of natural resources may, upon the filing of an application for a renewal lease, cause the tidelands or beds of navigable waters to be inspected, and if he or she deems it in the best interests of the state to re-lease said lands, he or she shall issue to the applicant a renewal lease for such further period not exceeding thirty years and under such terms and conditions as may be determined by the department: PROVIDED, That in the case of an application for a renewal lease it shall not be necessary for the lands to be inspected and reported upon by the director of fish and wildlife. [1994 c 264 § 70; 1993 c 295 § 2; 1982 1st ex.s. c 21 § 138.]

79.96.060 Leasing lands for shellfish cultivation or other aquaculture use—Reversion for use other than cultivation of shellfish. All leases of tidelands and beds of navigable waters for the purpose of planting and cultivating oysters, clams, or other edible shellfish shall expressly provide that if at any time after the granting of said lease, the lands described therein shall cease to be used for the purpose of oyster beds, clam beds, or other edible shellfish beds, they shall thereupon revert to and become the property of the state and that the same are leased only for the purpose of cultivating oysters, clams, or other edible shellfish thereon, and that the state reserves the right to enter upon and take possession of said lands if at any time the same are used for any other purpose than the cultivation of oysters, clams, or other edible shellfish. [1982 1st ex.s. c 21 § 139.]

79.96.070 Leasing lands for shellfish cultivation or other aquaculture use—Abandonment—Application for other lands. If from any cause any lands leased for the purpose of planting and cultivating oysters, clams, or other edible shellfish shall become unfit and valueless for any such purposes, the lessee or his assigns, upon certifying such fact under oath to the department of natural resources, together with the fact that he has abandoned such land, shall be

entitled to make application for other lands for such purposes. [1982 1st ex.s. c 21 § 140.]

79.96.080 Geoduck harvesting—Agreements, regulation. (1) Geoducks shall be sold as valuable materials under the provisions of chapter 79.90 RCW. After confirmation of the sale, the department of natural resources may enter into an agreement with the purchaser for the harvesting of geoducks. The department of natural resources may place terms and conditions in the harvesting agreements as the department deems necessary. The department of natural resources may enforce the provisions of any harvesting agreement by suspending or canceling the harvesting agreement or through any other means contained in the harvesting agreement. Any geoduck harvester may terminate a harvesting agreement entered into pursuant to this subsection if actions of a governmental agency, beyond the control of the harvester, its agents, or its employees, prohibit harvesting, for a period exceeding thirty days during the term of the harvesting agreement, except as provided within the agreement. Upon such termination of the agreement by the harvester, the harvester shall be reimbursed by the department of natural resources for the cost paid to the department on the agreement, less the value of the harvest already accomplished by the harvester under the agreement.

(2) Harvesting agreements under this title for the purpose of harvesting geoducks shall require the harvester and the harvester's agent or representatives to comply with all applicable commercial diving safety standards and regulations promulgated and implemented by the federal occupational safety and health administration established under the federal occupational safety and health act of 1970 as such law exists or as hereafter amended (84 Stat. 1590 et seq.; 29 U.S.C. Sec. 651 et seq.): PROVIDED, That for the purposes of this section and RCW 75.24.100 as now or hereafter amended, all persons who dive for geoducks are deemed to be employees as defined by the federal occupational safety and health act. All harvesting agreements shall provide that failure to comply with these standards is cause for suspension or cancellation of the harvesting agreement: PROVIDED FURTHER, That for the purposes of this subsection if the harvester contracts with another person or entity for the harvesting of geoducks, the harvesting agreement shall not be suspended or canceled if the harvester terminates its business relationship with such entity until compliance with this subsection is secured. [1990 c 163 § 4; 1982 1st ex.s. c 21 § 141.]

79.96.085 Geoduck harvesting—Designation of aquatic lands. The department of natural resources shall designate the areas of aquatic lands owned by the state that are available for geoduck harvesting by licensed geoduck harvesters in accordance with chapter 79.90 RCW. [1990 c 163 § 5; 1983 1st ex.s. c 46 § 129; 1979 ex.s. c 141 § 5. Formerly RCW 75.28.286.]

Commercial harvesting of geoducks: RCW 75.24.100, 75.28.750.

79.96.090 Lease of tidelands set aside as oyster reserves. The department of natural resources is hereby

authorized to lease first or second class tidelands which have heretofore or which may hereafter be set aside as state oyster reserves in the same manner as provided elsewhere in this chapter for the lease of those lands. [1982 1st ex.s. c 21 § 142.]

79.96.100 Inspection and report by director of fish and wildlife. The department of natural resources, upon the receipt of an application for the lease of any first or second class tidelands owned by the state which have heretofore or which may hereafter be set aside as state oyster reserves, shall notify the director of fish and wildlife of the filing of the application describing the lands applied for. It shall be the duty of the director of fish and wildlife to cause an inspection of the reserve to be made for the purpose of determining whether said reserve or any part thereof should be retained as a state oyster reserve or vacated. [1994 c 264 § 71; 1982 1st ex.s. c 21 § 143.]

79.96.110 Vacation of reserve—Lease of lands. In case the director of fish and wildlife approves the vacation of the whole or any part of said reserve, the department of natural resources may vacate and offer for lease such parts or all of said reserve as it deems to be for the best interest of the state, and all moneys received for the lease of such lands shall be paid to the department of natural resources in accordance with *RCW 79.94.190: PROVIDED, That nothing in RCW 79.96.090 through 79.96.110 shall be construed as authorizing the lease of any tidelands which have heretofore, or which may hereafter, be set aside as state oyster reserves in Eld Inlet, Hammersley Inlet, or Totten Inlet, situated in Mason or Thurston counties: PROVIDED FURTHER, That any portion of Plat 138, Clifton's Oyster Reserve, which has already been vacated, may be leased by the department. [1994 c 264 § 72; 1982 1st ex.s. c 21 § 144.]

*Reviser's note: RCW 79.94.190 was repealed by 1984 c 221 § 30, effective October 1, 1984.

79.96.120 Sale of reserved or reversionary rights in tidelands. Upon an application to purchase the reserved and reversionary rights of the state in any tidelands sold under the provisions of chapter 24 of the Laws of 1895, or chapter 25 of the Laws of 1895, or chapter 165 of the Laws of 1919, or either such reserved or reversionary right if only one exists, being filed in the office of the commissioner of public lands by the owner of such tidelands, accompanied by an abstractor's certificate, or other evidence of the applicant's title to such lands, the department of natural resources, if it finds the applicant is the owner of the tidelands, is authorized to inspect, appraise, and sell, if otherwise permitted under RCW 79.94.150, for not less than the appraised value, such reserved or reversionary rights of the state to the applicant, and upon payment of the purchase price to cause a deed to be issued therefor as in the case of the sale of state lands, or upon the payment of one-fifth of the purchase price, to issue a contract of sale therefor, providing that the remainder of the purchase price may be paid in four equal annual installments, with interest on deferred payments at the rate of six percent per annum, or sooner at the election of the contract holder, which contract shall be subject to

cancellation by the department of natural resources for failure to comply with its provisions, and upon the completion of the payments as provided in such contract to cause a deed to the lands described in the contract to be issued to the holder thereof as in the case of the sale of state lands. [1982 1st ex.s. c 21 § 145.]

79.96.130 Wrongful taking of shellfish from public lands—Civil remedies. (1) If a person wrongfully takes shellfish or causes shellfish to be wrongfully taken from the public lands and the wrongful taking is intentional and knowing, then the person shall be liable for damages of treble the fair market retail value of the amount of shellfish wrongfully taken. If a person wrongfully takes shellfish from the public lands under other circumstances, then the person shall be liable for damages of double the fair market value of the amount of shellfish wrongfully taken.

(2) For purposes of this section, a person "wrongfully takes" shellfish from public lands if the person takes shellfish: (a) Above the limits of any applicable laws that govern the harvest of shellfish from public lands; (b) without reporting the harvest to the department of fish and wildlife or the department of natural resources where such reporting is required by law or contract; (c) outside the area or above the limits that an agreement or contract from the department of natural resources allows the harvest of shellfish from public lands; or (d) without a lease or purchase of the shellfish where such lease or purchase is required by law prior to harvest of the shellfish.

(3) The remedies in this section are for civil damages and shall be proved by a preponderance of the evidence. The department of natural resources may file a civil action in Thurston county superior court or the county where the shellfish were taken against any person liable under this section. Damages recovered under this section shall be applied in the same way as received under geoduck harvesting agreements authorized by RCW 79.96.080.

(4) For purposes of the remedies created by this section, the amount of shellfish wrongfully taken by a person may be established either:

(a) By surveying the aquatic lands to reasonably establish the amount of shellfish taken from the immediate area where a person is shown to have been wrongfully taking shellfish;

(b) By weighing the shellfish on board any vessel or in possession of a person shown to be wrongfully taking shellfish; or

(c) By any other evidence that reasonably establishes the amount of shellfish wrongfully taken.

The amount of shellfish established by (a) or (b) of this subsection shall be presumed to be the amount wrongfully taken unless the defendant shows by a preponderance of evidence that the shellfish were lawfully taken or that the defendant did not take the shellfish presumed to have been wrongfully taken. Whenever there is reason to believe that shellfish in the possession of any person were wrongfully taken, the department of natural resources or the department of fish and wildlife may require the person to proceed to a designated off-load point and to weigh all shellfish in possession of the person or on board the person's vessel.

(5) This civil remedy is supplemental to the state's power to prosecute any person for theft of shellfish, for other crimes where shellfish are involved, or for violation of regulations of the department of fish and wildlife. [1994 c 264 § 73; 1990 c 163 § 9.]

79.96.901 Savings—1982 1st ex.s. c 21. The enactment of this act including all repeals, decodifications, and amendments shall not be construed as affecting any existing right acquired under the statutes repealed, decodified, or amended or under any rule, regulation, or order issued pursuant thereto; nor as affecting any proceeding instituted thereunder. [1982 1st ex.s. c 21 § 181.]

79.96.902 Captions—1982 1st ex.s. c 21. Chapter and section headings as used in this act do not constitute any part of the law. [1982 1st ex.s. c 21 § 182.]

79.96.904 Effective date—1982 1st ex.s. c 21 §§ 176, 179. Sections 176 (amending RCW 79.01.525) and 179 (creating a new section providing for an aquatic lands joint legislative committee) of this act are necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately. [1982 1st ex.s. c 21 § 185.]

79.96.905 Effective date—1982 1st ex.s. c 21. Except as provided in RCW 79.96.904, this act shall take effect July 1, 1983. [1982 1st ex.s. c 21 § 186.]

79.96.906 Intensive management plan for geoducks—Evaluation of program—Report—1984 c 221. The department of natural resources may enter into agreements with the department of fish and wildlife for the development of an intensive management plan for geoducks including the development and operation of a geoduck hatchery.

The department of natural resources shall evaluate the progress of the intensive geoduck management program and provide a written report to the legislature by December 1, 1990, for delivery to the appropriate standing committees. The evaluation shall determine the benefits and costs of continued operation of the program, and shall discuss alternatives including continuance, modification, and termination of the intensive geoduck management program. The commission shall be composed of three members appointed by the governor, with the consent of the senate. Not more than two members of said commission shall belong to the same political party.

The members of the first commission to be appointed after taking effect of this section shall be appointed for terms beginning April 1, 1951, and expiring as follows: One commissioner for the term expiring January 1, 1953; one commissioner for the term expiring January 1, 1955; one commissioner for the term expiring January 1, 1957. Each of the commissioners shall hold office until his successor is appointed and qualified. Upon the expiration of the terms of the three commissioners first to be appointed as herein provided, each succeeding commissioner shall be appointed and hold office for the term of six years. One of such commissioners to be designated by the governor, shall,

Each commissioner shall receive a salary as may be fixed by the governor in accordance with the provisions of RCW 43.03.040.

Any member of the commission may be removed for inefficiency, malfeasance or misfeasance in office, upon specific written charges filed by the governor, who shall transmit such written charges to the member accused and to the chief justice of the supreme court. Any vacancy arising in the office of commissioner shall be filled by appointment by the governor, and an appointee selected to fill such vacancy shall hold office for the balance of the full term for which his predecessor on the commission was appointed.

If a vacancy occurs while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate, when he shall present to the senate his nomination or nominations for the office to be filled. Whether or not any person or corporation is conducting business subject to regulation under this title, or has performed or is performing any act requiring registration or approval of the commission without securing such registration or approval, shall be a question of fact to be determined by the commission. Whenever the commission believes that any person or corporation is engaged in any activity without first complying with the requirements of this title, it may institute a special proceeding requiring such person or corporation to appear before the commission at a location convenient for witnesses and the production of evidence and produce information, books, records, accounts, and other memoranda, and give testimony under oath as to the activities being conducted. The commission may consider any and all facts that may indicate the true nature and extent of the operations or acts and may subpoena such witnesses and documents as it deems necessary.

In the event the activities are found to be subject to the provisions of this title, the commission shall issue such orders as may be necessary to require all parties involved in the activities to comply with this title, and with respect to services found to be reasonably available from alternative sources, to issue orders to cease and desist from providing jurisdictional services pending full compliance.

Such annual reports shall show in detail the amount of capital stock issued, the amounts paid therefor and the manner of payment for same, the dividends paid, the surplus fund, if any, and the number of stockholders, the funded and floating debts and the interest paid thereon, the cost and value of the company's property, franchises and equipment, the number of employees and the salaries paid each class, the accidents to employees and other persons and the cost thereof, the amounts expended for improvements each year, how expended and the character of such improvements, the earnings or receipts from each franchise or

Such report shall also contain such information in relation to rates, charges or regulations concerning charges, or agreements, arrangements or contracts affecting the same, as the commission may require; and the commission may, in its discretion, for the purpose of enabling it the better to carry out the provisions of this title, prescribe the period of time within which all public service companies subject to the provisions of this title shall have, as near as may be, a uniform system of accounts, and the manner in which such accounts shall be kept. Such detailed report shall contain all the required statistics for the period of twelve months ending on the last day of any particular month prescribed by the commission for any public service company. Such reports shall be made out under oath and filed with the commission at its office in Olympia on such date as the commission specifies by rule, unless additional time be granted in any case by the commission. The commission shall have authority to require any public service company to file monthly reports of earnings and expenses, and to file periodical or special, or both periodical and special, reports concerning any matter about which the commission is authorized or required by this or any other law, to inquire into or keep itself informed about, or which it is required to enforce, such periodical or special reports to be under oath whenever the commission so requires. [1989 c 107 § 1; 1961 c 14 § 80.04.080. Prior: 1911 c 117 § 78, part; RRS § 10416, part.]

80.04.090 Forms of records to be prescribed. The commission may, in its discretion, prescribe the forms of any and all accounts, records and memoranda to be kept by public service companies, including the accounts, records and memoranda of the movement of traffic, sales of its product, the receipts and expenditures of money. The commission shall at all times have access to all accounts, records and memoranda kept by public service companies, and may employ special agents or examiners, who shall have power to administer oaths and authority, under the order of the commission, to examine witnesses and to inspect and examine any and all accounts, records and memoranda kept by such companies. The commission may, in its discretion, prescribe the forms of any and all reports, accounts, records and memoranda to be furnished and kept by any public service company whose line or lines extend beyond the limits of this state, which are operated partly within and partly without the state, so that the same shall show any information required by the commission concerning the traffic movement, receipts and expenditures appertaining to those parts of the line within the state. [1961 c 14 § 80.04.090. Prior: 1911 c 117 § 78, part; RRS § 10416, part.]

80.04.095 Protection of records containing commercial information. Records, subject to chapter 42.17 RCW, filed with the commission or the attorney general from any person which contain valuable commercial information, including trade secrets or confidential marketing, cost, or financial information, or customer-specific usage and network configuration and design information, shall not be subject to inspection or copying under chapter 42.17 RCW: (1) Until notice to the person or persons directly affected has been given; and (2) if, within ten days of the notice, the person has obtained a superior court order protecting the records as confidential. The court shall determine that the records are confidential and not subject to inspection and copying if disclosure would result in private loss, including an unfair competitive disadvantage. When providing information to the commission or the attorney general, a person shall designate which records or portions of records contain valuable commercial information. Nothing in this section shall prevent the use of protective orders by the commission governing disclosure of proprietary or confidential information in contested proceedings. [1987 c 107 § 1.]

80.04.100 Production of out-of-state books and records. The commission may by order with or without hearing require the production within this state, at such time and place as it may designate, of any books, accounts, papers or records kept by any public service company in any office or place without this state, or at the option of the company verified copies thereof, so that an examination thereof may be made by the commission or under its direction. [1961 c 14 § 80.04.100. Prior: 1933 c 165 § 2; 1911 c 117 § 79; RRS § 10421.]

80.04.110 Complaints—Hearings—Water systems not meeting board of health standards—Drinking water standards—Nonmunicipal water systems audits. (1) Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, or by the public counsel section of the office of the attorney general, or its successor, by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any public service corporation in violation, or claimed to be in violation, of any provision of law or of any order or rule of the commission: PROVIDED, That no complaint shall be entertained by the commission except upon its own motion, as to the reasonableness of the schedule of the rates or charges of any gas company, electrical company, water company, or telecommunications company, unless the same be signed by the mayor, council or commission of the city or town in which the company complained of is engaged in business, or not less than twenty-five consumers or purchasers of such gas, electricity, water or telecommunications service, or at least twenty-five percent of the consumers or purchasers of the company's service: PROVIDED, FURTHER, That when two or more public service corporations, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges,

rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremunerative, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service corporations in the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service corporation or corporations complained of in any other locality or localities in the state.

(2) All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties as herein provided: PROVIDED, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

(3) Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or corporation complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. The commission shall enter its final order with respect to a complaint filed by any entity or person other than the commission within ten months from the date of filing of the complaint, unless the date is extended for cause. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. Such rules may include the requirement that a complainant use informal processes before filing a formal complaint.

(4) The commission shall, as appropriate, audit a nonmunicipal water system upon receipt of an administrative order from the department, or the city or county in which the water system is located, finding that the water delivered by a system does not meet state board of health standards adopted under RCW 43.20.050(2)(a) or standards adopted under chapters 70.116 and 70.119A RCW, and the results of the audit shall be provided to the requesting department, city, or county. However, the number of nonmunicipal water systems referred to the commission in any one calendar year shall not exceed twenty percent of the water companies subject to commission regulation as defined in RCW 80.04.010.

Every nonmunicipal water system referred to the commission for audit under this section shall pay to the commission an audit fee in an amount, based on the

system's twelve-month audited period, equal to the fee required to be paid by regulated companies under RCW 80.24.010.

(5) Any customer or purchaser of service from a water system or company that is subject to commission regulation may file a complaint with the commission if he or she has reason to believe that the water delivered by the system to the customer does not meet state drinking water standards under chapter 43.20 or 70.116 RCW. The commission shall investigate such a complaint, and shall request that the state department of health or local health department of the county in which the system is located test the water for compliance with state drinking water standards, and provide the results of such testing to the commission. The commission may decide not to investigate the complaint if it determines that the complaint has been filed in bad faith, or for the purpose of harassment of the water system or company, or for other reasons has no substantial merit. The water system or company shall bear the expense for the testing. After the commission has received the complaint from the customer and during the pendency of the commission investigation, the water system or company shall not take any steps to terminate service to the customer or to collect any amounts alleged to be owed to the company by the customer. The commission may issue an order or take any other action to ensure that no such steps are taken by the system or company. The customer may, at the customer's option and expense, obtain a water quality test by a licensed or otherwise qualified water testing laboratory, of the water delivered to the customer by the water system or company, and provide the results of such a test to the commission. If the commission determines that the water does not meet state drinking water standards, it shall exercise its authority over the system or company as provided in this title, and may, where appropriate, order a refund to the customer on a pro rata basis for the substandard water delivered to the customer, and shall order reimbursement to the customer for the cost incurred by the customer, if any, in obtaining a water quality test. 80.04.120 Hearing—Order—Record. At the time fixed for the hearing mentioned in RCW 80.04.110, the complainant and the person or corporation complained of shall be entitled to be heard and introduce such evidence as he or it may desire. The commission shall issue process to enforce the attendance of all necessary witnesses. At the conclusion of such hearing the commission shall make and render findings concerning the subject matter and facts inquired into and enter its order based thereon. A copy of such order, certified under the seal of the commission, shall be served upon the person or corporation complained of, or his or its attorney, which order shall, of its own force, take effect and become operative twenty days after the service thereof, except as otherwise provided. Where an order

cannot, in the judgment of the commission, be complied with within twenty days, the commission may prescribe such additional time as in its judgment is reasonably necessary to comply with the order, and may, on application and for good cause shown, extend the time for compliance fixed in its order. A full and complete record of all proceedings had before the commission, or any member thereof, on any formal hearing had, and all testimony shall be taken down by a stenographer appointed by the commission, and the parties shall be entitled to be heard in person or by attorney. In case of an action to review any order of the commission, a transcript of such testimony, together with all exhibits introduced, and of the record and proceedings in the cause, shall constitute the record of the commission. [1961 c 14 § 80.04.120. Prior: 1911 c 117 § 81; RRS § 10423.]

80.04.130 Suspension of tariff change—Mandatory measured telecommunications service—Washington telephone assistance program service. (1) Whenever any public service company shall file with the commission any schedule, classification, rule or regulation, the effect of which is to change any rate, charge, rental or toll theretofore charged, the commission shall have power, either upon its own motion or upon complaint, upon notice, to enter upon a hearing concerning such proposed change and the reasonableness and justness thereof, and pending such hearing and the decision thereon the commission may suspend the operation of such rate, charge, rental or toll for a period not exceeding ten months from the time the same would otherwise go into effect, and after a full hearing the commission may make such order in reference thereto as would be provided in a hearing initiated after the same had become effective. The commission shall not suspend a tariff that makes a decrease in a rate, charge, rental, or toll filed by a telecommunications company pending investigation of the fairness, justness, and reasonableness of the decrease when the filing does not contain any offsetting increase to another rate, charge, rental, or toll and the filing company agrees to not file for an increase to any rate, charge, rental, or toll to recover the revenue deficit that results from the decrease for a period of one year. The filing company shall file with any decrease sufficient information as the commission by rule may require to demonstrate the decreased rate, charge, rental, or toll is above the long run incremental cost of the service. A tariff decrease that results in a rate that is below long run incremental cost, or is contrary to commission rule or order, or the requirements of this chapter, shall be rejected for filing and returned to the company. The commission may prescribe a different rate to be effective on the prospective date stated in its final order after its investigation, if it concludes based on the record that the originally filed and effective rate is unjust, unfair, or unreasonable.

For the purposes of this section, tariffs for the following telecommunications services, that temporarily waive or reduce charges for existing or new subscribers for a period not to exceed sixty days in order to promote the use of the services shall be considered tariffs that decrease rates, charges, rentals, or tolls:

- (a) Custom calling service;
- (b) Second access lines; or
- (c) Other services the commission specifies by rule.

The commission may suspend any promotional tariff other than those listed in (a) through (c) of this subsection.

The commission may suspend the initial tariff filing of any water company removed from and later subject to commission jurisdiction because of the number of customers or the average annual gross revenue per customer provisions of RCW 80.04.010. The commission may allow temporary rates during the suspension period. These rates shall not exceed the rates charged when the company was last regulated. Upon a showing of good cause by the company, the commission may establish a different level of temporary rates.

(2) At any hearing involving any change in any schedule, classification, rule or regulation the effect of which is to increase any rate, charge, rental or toll theretofore charged, the burden of proof to show that such increase is just and reasonable shall be upon the public service company.

(3) The implementation of mandatory local measured telecommunications service is a major policy change in available telecommunications service. The commission shall not accept for filing or approve, prior to June 1, 1998, a tariff filed by a telecommunications company which imposes mandatory local measured service on any customer or class of customers, except that, upon finding that it is in the public interest, the commission may accept for filing and approve a tariff that imposes mandatory measured service for a telecommunications company's extended area service or foreign exchange service. This subsection does not apply to land, air, or marine mobile service, or to pay telephone service, or to any service which has been traditionally offered on a measured service basis.

(4) The implementation of Washington telephone assistance program service is a major policy change in available telecommunications service. The implementation of Washington telephone assistance program service will aid in achieving the stated goal of universal telephone service. Severability—Legislative review—1985 c 450: See RCW 80.36.900 and 80.36.901.

80.04.140 Order requiring joint action. Whenever any order of the commission shall require joint action by two or more public service companies, such order shall specify that the same shall be made at their joint cost, and the companies affected shall have thirty days, or such further time, as the commission may prescribe, within which to agree upon the part or division of cost which each shall bear, and costs of operation and maintenance in the future, or the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations.

If at the expiration of such time such companies shall fail to file with the commission a statement that an agreement has been made for the division or apportionment of such cost, the division of costs of operation and maintenance to be incurred in the future and the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations, the commission shall have authority, after further hearing, to enter a supplemental order fixing the proportion of such cost or expense to be borne by each company, and the manner in which the same shall be paid and secured. [1961 c 14 § 80.04.140. Prior: 1911 c 117 § 83; RRS § 10425.]

80.04.150 Remunerative rates cannot be changed without approval. Whenever the commission shall find, after hearing had upon its own motion or upon complaint as herein provided, that any rate, toll, rental or charge which has been the subject of complaint and inquiry is sufficiently remunerative to the public service company affected thereby, it may order that such rate, toll, rental or charge shall not be changed, altered, abrogated or discontinued, nor shall there be any change in the classification which will change or alter such rate, toll, rental or charge without first obtaining the consent of the commission authorizing such change to be made. [1961 c 14 § 80.04.150. Prior: 1911 c 117 § 84; RRS § 10426.]

80.04.160 Rules and regulations. The commission is hereby authorized and empowered to adopt, promulgate and issue rules and regulations covering the transmission and delivery of messages and conversations, and the furnishing and supply of gas, electricity and water, and any and all services concerning the same, or connected therewith; and generally such rules as pertain to the comfort and convenience of the public concerning the subjects treated of in this title. Such rules and regulations shall be promulgated and issued by the commission on its own motion, and shall be served on the public service company affected thereby as other orders of the commission are served. Any public service company affected thereby, and deeming such rules and regulations, or any of them, improper, unjust, unreasonable, or contrary to law, may within twenty days from the date of service of such order upon it file objections thereto with the commission, specifying the particular grounds of such objections. The commission shall, upon receipt of such objections, fix a time and place for hearing the same, and after a full hearing may make such changes or modifications thereto, if any, as the evidence may justify. The commission shall have, and it is hereby given, power to adopt rules to govern its proceedings, and to regulate the mode and manner of all investigations and hearings: PROVIDED, No person desiring to be present at such hearing shall be denied permission. Actions may be instituted to review rules and regulations promulgated under this section as in the case of orders of the commission. [1961 c 14 § 80.04.160. Prior: 1911 c 117 § 85; RRS § 10427.]

80.04.170 Review of orders. Any complainant or any public service company affected by any findings or order of the commission, and deeming such findings or order to be contrary to law, may, within thirty days after the service of

the findings or order upon him or it, apply to the superior court of Thurston county for a writ of review, for the purpose of having the reasonableness and lawfulness of such findings or order inquired into and determined. Such writ shall be made returnable not later than thirty days from and after the date of the issuance thereof, unless upon notice to all parties affected further time be allowed by the court, and shall direct the commission to certify its record in the case to the court. Such cause shall be heard by the court without the intervention of a jury on the evidence and exhibits introduced before the commission and certified to by it. Upon such hearing the superior court shall enter judgment either affirming or setting aside or remanding for further action the findings or order of the commission under review. The reasonable cost of preparing the transcript of testimony taken before the commission shall be assessable as part of the statutory court costs, and the amount thereof, if collected by the commission, shall be deposited in the public service revolving fund. In case such findings or order be set aside, or reversed and remanded, the court shall make specific findings based upon evidence in the record indicating clearly all respects in which the commission's findings or order are erroneous. [1961 c 14 § 80.04.170. Prior: 1937 c 169 § 3; 1911 c 117 § 86; RRS § 10428.]

80.04.180 Supersedeas—Water companies seeking supersedeas. (1) The pendency of any writ of review shall not of itself stay or suspend the operation of the order of the commission, but the superior court in its discretion may restrain or suspend, in whole or in part, the operation of the commission's order pending the final hearing and determination of the suit.

(2) No order so restraining or suspending an order of the commission relating to rates, charges, tolls or rentals, or rules or regulations, practices, classifications or contracts affecting the same, shall be made by the superior court otherwise than upon three days' notice and after hearing. If a supersedeas is granted the order granting the same shall contain a specific finding, based upon evidence submitted to the court making the order, and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner, and specifying the nature of the damage. A water company seeking a supersedeas must demonstrate to the court that it is in compliance with the state board of health standards adopted pursuant to RCW 43.20.050 and chapter 70.116 RCW relating to the purity, volume, and pressure of water.

(3) In case the order of the commission under review is superseded by the court, it shall require a bond, with good and sufficient surety, conditioned that such company petitioning for such review shall answer for all damages caused by the delay in the enforcement of the order of the commission, and all compensation for whatever sums for transmission or service any person or corporation shall be compelled to pay pending the review proceedings in excess of the sum such person or corporations would have been compelled to pay if the order of the commission had not been suspended.

(4) The court may, in addition to or in lieu of the bond herein provided for, require such other or further security for the payment of such excess charges or damages as it may deem proper. [1989 c 207 § 3; 1961 c 14 § 80.04.180.]

80.04.190 Appellate review. The commission, any public service company or any complainant may, after the entry of judgment in the superior court in any action of review, seek appellate review as in other cases. [1988 c 202 § 60; 1971 ex.s. c 107 § 4; 1961 c 14 § 80.04.190. Prior: 1911 c 117 § 88; RRS § 10430.]

Rules of court: Cf. RAP 2.2.

Severability—1988 c 202: See note following RCW 2.24.050.

80.04.200 Rehearing before commission. Any public service company affected by any order of the commission, and deeming itself aggrieved, may, after the expiration of two years from the date of such order taking effect, petition the commission for a rehearing upon the matters involved in such order, setting forth in such petition the grounds and reasons for such rehearing, which grounds and reasons may comprise and consist of changed conditions since the issuance of such order, or by showing a result injuriously affecting the petitioner which was not considered or anticipated at the former hearing, or that the effect of such order has been such as was not contemplated by the commission or the petitioner, or for any good and sufficient cause which for any reason was not considered and determined in such former hearing. Upon the filing of such petition, such proceedings shall be had thereon as are provided for hearings upon complaint, and such orders may be reviewed as are other orders of the commission: PROVIDED, That no order superseding the order of the commission denying such rehearing shall be granted by the court pending the review. In case any order of the commission shall not be reviewed, but shall be complied with by the public service company, such petition for rehearing may be filed within six months from and after the date of the taking effect of such order, and the proceedings thereon shall be as in this section provided. The commission, may, in its discretion, permit the filing of a petition for rehearing at any time. No order of the commission upon a rehearing shall affect any right of action or penalty accruing under the original order unless so ordered by the commission. [1961 c 14 § 80.04.200. Prior: 1911 c 117 § 89; RRS § 10431.]

80.04.210 Commission may change orders. The commission may at any time, upon notice to the public service company affected, and after opportunity to be heard as provided in the case of complaints rescind, alter or amend any order or rule made, issued or promulgated by it, and any order or rule rescinding, altering or amending any prior order or rule shall, when served upon the public service company affected, have the same effect as herein provided for original orders and rules. [1961 c 14 § 80.04.210. Prior: 1911 c 117 § 90; RRS § 10432.]

80.04.220 Reparations. When complaint has been made to the commission concerning the reasonableness of any rate, toll, rental or charge for any service performed by any public service company, and the same has been investigated by the commission, and the commission has determined that the public service company has charged an

excessive or exorbitant amount for such service, and the commission has determined that any party complainant is entitled to an award of damages, the commission shall order that the public service company pay to the complainant the excess amount found to have been charged, whether such excess amount was charged and collected before or after the filing of said complaint, with interest from the date of the collection of said excess amount. [1961 c 14 § 80.04.220. Prior: 1943 c 258 § 1; 1937 c 29 § 1; Rem. Supp. 1943 § 10433.]

80.04.230 Overcharges—Refund. When complaint has been made to the commission that any public service company has charged an amount for any service rendered in excess of the lawful rate in force at the time such charge was made, and the same has been investigated and the commission has determined that the overcharge allegation is true, the commission may order that the public service company pay to the complainant the amount of the overcharge so found, whether such overcharge was made before or after the filing of said complaint, with interest from the date of collection of such overcharge. [1961 c 14 § 80.04.230. Prior: 1937 c 29 § 2; RRS § 10433-1.]

80.04.240 Action in court on reparations and overcharges. If the public service company does not comply with the order of the commission for the payment of the overcharge within the time limited in such order, suit may be instituted in any superior court where service may be had upon the said company to recover the amount of the overcharge with interest. It shall be the duty of the commission to certify its record in the case, including all exhibits, to the court. Such record shall be filed with the clerk of said court within thirty days after such suit shall have been started and said suit shall be heard on the evidence and exhibits introduced before the commission and certified to by it. If the complainant shall prevail in such action, the superior court shall enter judgment for the amount of the overcharge with interest and shall allow complainant a reasonable attorney's fee, and the cost of preparing and certifying said record for the benefit of and to be paid to the commission by complainant, and deposited by the commission in the public service revolving fund, said sums to be fixed and collected as a part of the costs of the suit. If the order of the commission shall be found to be contrary to law or erroneous by reason of the rejection of testimony properly offered, the court shall remand the cause to the commission with instructions to receive the testimony so proffered and rejected and enter a new order based upon the evidence theretofore taken and such as it is directed to receive. The court may in its discretion remand any cause which is reversed by it to the commission for further action. Appeals to the supreme court shall lie as in other civil cases. All complaints concerning overcharges resulting from collecting unreasonable rates and charges or from collecting amounts in excess of lawful rates shall be filed with the commission within six months in cases involving the collection of unreasonable rates and two years in cases involving the collection of more than lawful rates from the time the cause of action accrues, and the suit to recover the overcharge

shall be filed in the superior court within one year from the date of the order of the commission.

The procedure provided in this section is exclusive, and neither the supreme court nor any superior court shall have jurisdiction save in the manner hereinbefore provided. [1961 c 14 § 80.04.240. Prior: 1943 c 258 § 2; 1937 c 29 § 3; Rem. Supp. 1943 § 10433-2.]

80.04.250 Valuation of public service property. The commission shall have power upon complaint or upon its own motion to ascertain and determine the fair value for rate making purposes of the property of any public service company used and useful for service in this state and shall exercise such power whenever it shall deem such valuation or determination necessary or proper under any of the provisions of this title. In determining what property is used and useful for providing electric, gas, or water service, the commission may include the reasonable costs of construction work in progress to the extent that the commission finds that inclusion is in the public interest.

The commission shall have the power to make revaluations of the property of any public service company from time to time.

The commission shall, before any hearing is had, notify the complainants and the public service company concerned of the time and place of such hearing by giving at least thirty days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of ascertaining the value of the company's property, used and useful as aforesaid, which notice shall be sufficient to authorize the commission to inquire into and pass upon the matters designated in this section. [1991 c 122 § 2; 1961 c 14 § 80.04.250. Prior: 1933 c 165 § 4; 1913 c 182 § 1; 1911 c 117 § 92; RRS § 10441.]

Findings—1991 c 122: "The legislature finds that the state is facing an energy shortage as growth occurs and that inadequate supplies of energy will cause harmful impacts on the entire range of state citizens. The legislature further finds that energy efficiency improvement is the single most effective near term measure to lessen the risk of energy shortage. In the area of electricity, the legislature additionally finds that the Northwest power planning council has made several recommendations, including an update of the commercial building energy code and granting flexible ratemaking alternatives for utility commissions to encourage prudent acquisition of new electric resources." [1991 c 122 § 1.]

Severability—1991 c 122: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1991 c 122 § 4.]

80.04.260 Summary proceedings. Whenever the commission shall be of opinion that any public service company is failing or omitting, or about to fail or omit, to do anything required of it by law, or by order, direction or requirement of the commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything to be done contrary to or in violation of law or of any order, direction or requirement of the commission authorized by this title, it shall direct the attorney general to commence an action or proceeding in the superior court of the state of Washington for Thurston county, or in the superior court of any county in which such company may do business, in the name of the state of Washington on the relation of the commission, for the purpose of having such

violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney general shall thereupon begin such action or proceeding by petition to such superior court, alleging the violation complained of, and praying for the appropriate relief by way of mandamus or injunction. It shall thereupon be the duty of the court to specify a time, not exceeding twenty days after the service of the copy of the petition, within which the public service company complained of must answer the petition. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct, without other or formal pleadings, and without respect to any technical requirement. Such persons or corporations as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction, or both, issue as prayed for in the petition, or in such other modified form as the court may determine will afford appropriate relief. Appellate review of the final judgment may be sought in the same manner and with the same effect as review of judgments of the superior court in actions to review orders of the commission. All provisions of this chapter relating to the time of review, the manner of perfecting the same, the filing of briefs, hearings and supersedeas, shall apply to appeals to the supreme court or the court of appeals under the provisions of this section. [1988 c 202 § 61; 1971 c 81 § 140; 1961 c 14 § 80.04.260. Prior: 1911 c 117 § 93; RRS § 10442.]

Severability—1988 c 202: See note following RCW 2.24.050.

80.04.270 Merchandise accounts to be kept separate. Any public service company engaging in the sale of merchandise or appliances or equipment shall keep separate accounts, as prescribed by the commission, of its capital employed in such business and of its revenues therefrom and operating expenses thereof. The capital employed in such business shall not constitute a part of the fair value of said company's property for rate making purposes, nor shall the revenues from or operating expenses of such business constitute a part of the operating revenues and expenses of said company as a public service company. For purposes of this section, the providing of competitive telephone service, as defined in RCW 82.04.065, shall not constitute the sale of merchandise, appliances, or equipment, unless the commission determines that it would be in the public interest to hold otherwise. [1983 2nd ex.s. c 3 § 40; 1981 c 144 § 5; 1961 c 14 § 80.04.270. Prior: 1933 c 165 § 8; RRS § 10458-2.]

Construction—Severability—Effective dates—1983 2nd ex.s. c 3: See notes following RCW 82.04.255.

Intent—Severability—Effective date—1981 c 144: See notes following RCW 82.16.010.

80.04.280 Purchase and sale of stock by employees. No public service company shall permit any employee to sell, offer for sale, or solicit the purchase of any security of any other person or corporation during such hours as such employee is engaged to perform any duty of such public service company; nor shall any public service company by any means or device require any employee to purchase or

contract to purchase any of its securities or those of any other person or corporation; nor shall any public service company require any employee to permit the deduction from his wages or salary of any sum as a payment or to be applied as a payment of any purchase or contract to purchase any security of such public service company or of any other person or corporation. [1961 c 14 § 80.04.280. Prior: 1933 c 165 § 9; RRS § 10458-3.]

80.04.290 Sales of stock to employees and customers. A corporate public service company, either heretofore or hereafter organized under the laws of this state, may sell to its employees and customers any increase of its capital stock, or part thereof, without first offering it to existing stockholders: PROVIDED, That such sale is approved by the holders of a majority of the capital stock, at a regular or special meeting held after notice given as to the time, place, and object thereof as provided by law and the bylaws of the company. Such sales shall be at prices and in amounts for each purchaser and upon terms and conditions as set forth in the resolution passed at the stockholders' meeting, or in a resolution passed at a subsequent meeting of the board of trustees if the resolution passed at the stockholders' meeting shall authorize the board to determine prices, amounts, terms, and conditions, except that in either event, a minimum price for the stock must be fixed in the resolution passed at the stockholders' meeting. [1961 c 14 § 80.04.290. Prior: 1955 c 79 § 2; 1923 c 110 § 1; RRS § 10344-1.]

80.04.300 Budgets to be filed by companies—Supplementary budgets. The commission may regulate, restrict, and control the budgets of expenditures of public service companies. Each company shall prepare a budget showing the amount of money which, in its judgment, will be needed during the ensuing year for maintenance, operation, and construction, classified by accounts as prescribed by the commission, and shall within ten days of the date it is approved by the company file it with the commission for its investigation and approval or rejection. When a budget has been filed the commission shall examine into and investigate it to determine whether the expenditures therein proposed are fair and reasonable and not contrary to public interest.

Adjustments or additions to budget expenditures may be made from time to time during the year by filing a supplementary budget with the commission for its investigation and approval or rejection. [1961 c 14 § 80.04.300. Prior: 1959 c 248 § 11; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

80.04.310 Commission's control over expenditures. The commission may, both as to original and supplementary budgets, prior to the making or contracting for the expenditure of any item therein, and after notice to the company and a hearing thereon, reject any item of the budget. The commission may require any company to furnish further information, data, or detail as to any proposed item of expenditure.

Failure of the commission to object to any item of expenditure within ninety days of the filing of any original budget or within thirty days of the filing of any supplement-

tary budget shall constitute authority to the company to proceed with the making of or contracting for such expenditure, but such authority may be terminated any time by objection made thereto by the commission prior to the making of or contracting for such expenditure.

Examination, investigation, and determination of the budget by the commission shall not bar or estop it from later determining whether any of the expenditures made thereunder are fair, reasonable, and commensurate with the service, material, supplies, or equipment received. [1987 c 38 § 1; 1961 c 14 § 80.04.310. Prior: 1959 c 248 § 12; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

80.04.320 Budget rules. The commission may prescribe the necessary rules to place RCW 80.04.300 through 80.04.330 in operation. It may, by rule, establish criteria to exempt companies in whole or in part from the operation thereof. The commission may upon request of any company withhold from publication during such time as the commission may deem advisable any portion of any original or supplementary budget relating to proposed capital expenditures. [1989 c 107 § 3; 1961 c 14 § 80.04.320. Prior: 1959 c 248 § 13; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

80.04.330 Effect of unauthorized expenditure—Emergencies. Any public service company may make or contract for any rejected item of expenditure, but in such case the same shall not be allowed as an operating expense, or as to items of construction, as a part of the fair value of the company's property used and useful in serving the public: PROVIDED, That such items of construction may at any time thereafter be so allowed in whole or in part upon proof that they are used and useful. Any company may upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, riot, or insurrection, or for the immediate preservation or restoration to condition of usefulness of any of its property, the usefulness of which has been destroyed by accident, make the necessary expenditure therefor free from the operation of RCW 80.04.300 through 80.04.330.

Any finding and order entered by the commission shall be in effect until vacated and set aside in proper proceedings for review thereof. [1961 c 14 § 80.04.330. Prior: 1959 c 248 § 14; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

80.04.350 Depreciation and retirement accounts. The commission shall have power after hearing to require any or all public service companies to carry proper and adequate depreciation or retirement accounts in accordance with such rules, regulations and forms of accounts as the commission may prescribe. The commission may from time to time ascertain and by order fix the proper and adequate rates of depreciation or retirement of the several classes of property of each public service company. Each public service company shall conform its depreciation or retirement accounts to the rates so prescribed. In fixing the rate of the annual depreciation or retirement charge, the commission may consider the rate and amount theretofore charged by the company for depreciation or retirement.

The commission shall have and exercise like power and authority over all other reserve accounts of public service companies. [1961 c 14 § 80.04.350. Prior: 1937 c 169 § 4; 1933 c 165 § 13; RRS § 10458-7.]

80.04.360 Earnings in excess of reasonable rate—Consideration in fixing rates. If any public service company earns in the period of five consecutive years immediately preceding the commission order fixing rates for such company a net utility operating income in excess of a reasonable rate of return upon the fair value of its property used and useful in the public service, the commission shall take official notice of such fact and of whether any such excess earnings shall have been invested in such company's plant or otherwise used for purposes beneficial to the consumers of such company and may consider such facts in fixing rates for such company. [1961 c 14 § 80.04.360. Prior: 1959 c 285 § 2; 1933 c 165 § 14; RRS § 10458-8.]

Every public service company, and all officers, agents and employees of any public service company, shall obey, observe and comply with every order, rule, direction or requirement made by the commission under authority of this title, so long as the same shall be and remain in force. Any public service company which shall violate or fail to comply with any provision of this title, or which fails, omits or neglects to obey, observe or comply with any order, rule, or any direction, demand or requirement of the commission, shall be subject to a penalty of not to exceed the sum of one thousand dollars for each and every offense. Every violation of any such order, direction or requirement of this title shall be a separate and distinct offense, and in case of a continuing violation every day's continuance thereof shall be and be deemed to be a separate and distinct offense. Every such violation shall be a

separate and distinct offense, and the penalty shall be recovered in an action as provided in RCW 80.04.400. [1961 c 14 § 80.04.387. Prior: 1911 c 117 § 96; RRS § 10445. Formerly RCW 80.04.380, part.]

80.04.390 Penalties—Violations by persons. Every person who, either individually, or acting as an officer or agent of a corporation other than a public service company, shall violate any provision of this title, or fail to observe, obey or comply with any order made by the commission under this title, so long as the same shall be or remain in force, or who shall procure, aid or abet any such corporation in its violation of this title, or in its failure to obey, observe or comply with any such order, shall be guilty of a gross misdemeanor. 80.04.400 Actions to recover penalties—Disposition of fines, penalties, and forfeitures. Actions to recover penalties under this title shall be brought in the name of the state of Washington in the superior court of Thurston county, or in the superior court of any county in or through which such public service company may do business. In all such actions the procedure and rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. [1987 c 202 § 238; 1969 ex.s. c 199 § 35; 1961 c 14 § 80.04.400. Prior: 1911 c 117 § 98; RRS § 10447.]

Intent—1987 c 202: See note following RCW 2.04.190.

80.04.405 Additional penalties—Violations by public service companies and officers, agents, and employees thereof. In addition to all other penalties provided by law every public service company subject to the provisions of this title and every officer, agent or employee of any such public service company who violates or who procures, aids or abets in the violation of any provision of this title or any order, rule, regulation or decision of the commission shall incur a penalty of one hundred dollars for every such violation. Each and every such violation shall be a separate and distinct offense and in case of a continuing violation every day's continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for.

The penalty herein provided for shall become due and payable when the person incurring the same receives a notice in writing from the commission describing such violation with reasonable particularity and advising such person that the penalty is due. The commission may, upon written application therefor, received within fifteen days, remit or mitigate any penalty provided for in this section or discontinue any prosecution to recover the same upon such terms as

it in its discretion shall deem proper and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. If the amount of such penalty is not paid to the commission within fifteen days after receipt of notice imposing the same or application for remission or mitigation has not been made within fifteen days after violator has received notice of the disposition of such application the attorney general shall bring an action in the name of the state of Washington in the superior court of Thurston county or of some other county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise herein provided. All penalties recovered under this title shall be paid into the state treasury and credited to the public service revolving fund. [1963 c 59 § 2.]

80.04.410 Orders and rules conclusive. In all actions between private parties and public service companies involving any rule or order of the commission, and in all actions for the recovery of penalties provided for in this title, or for the enforcement of the orders or rules issued and promulgated by the commission, the said orders and rules shall be conclusive unless set aside or annulled in a review as in this title provided. [1961 c 14 § 80.04.410. Prior: 1911 c 117 § 99; RRS § 10448.]

80.04.420 Intervention by commission where order or rule is involved. In all court actions involving any rule or order of the commission, where the commission has not been made a party, the commission shall be served with a copy of all pleadings, and shall be entitled to intervene. Where the fact that the action involves a rule or order of the commission does not appear until the time of trial, the court shall immediately direct the clerk to notify the commission of the pendency of such action, and shall permit the commission to intervene in such action.

The failure to comply with the provisions of this section shall render void and of no effect any judgment in such action, where the effect of such judgment is to modify or nullify any rule or order of the commission. [1961 c 14 § 80.04.420. Prior: 1943 c 67 § 1; Rem. Supp. 1943 § 10448-1.]

persons or corporations affected thereby for all loss, damage or injury caused thereby or resulting therefrom, and in case of recovery if the court shall find that such act or omission was wilful, it may, in its discretion, fix a reasonable counsel or attorney's fee, which shall be taxed and collected as part of the costs in the case. An action to recover for such loss, damage or injury may be brought in any court of competent jurisdiction by any person or corporation. [1961 c 14 § 80.04.440. When copies of any classification, rate, rule, regulation or order not contained in the printed reports, or copies of papers, accounts or records of public service companies filed with the commission shall be demanded from the commission for proper use, the commission shall charge a reasonable compensation therefor. [1961 c 14 § 80.04.450. Prior: 1911 c 117 § 103; RRS § 10452.]

Such notice shall not be admitted as evidence or used for any purpose against the company giving it in any action for damages growing out of any matter mentioned in the notice.

The commission may investigate any accident resulting in death or injury to any person occurring in connection with the plant or system of any public service company. Notice of the investigation shall be given in all cases for a sufficient length of time to enable the company affected to participate in the hearing and may be given orally or in writing, in such manner as the commission may prescribe.

Such witnesses may be examined as the commission deems necessary and proper to thoroughly ascertain the cause of the accident and fix the responsibility therefor. The examination and investigation may be conducted by an inspector or deputy inspector, and they may administer oaths, issue subpoenas, and compel the attendance of witnesses, and when the examination is conducted by an inspector or deputy inspector, he shall make a full and complete report thereof to the commission. [1961 c 14 § 80.04.460. Prior: 1953 c 104 § 2; prior: 1911 c 117 § 63, part; RRS § 10399, part.]

Any employee of the commission

may, without a warrant, arrest any person found violating in his presence any provision of this title, or any rule or regulation adopted by the commission: PROVIDED, That each such employee shall be first specifically designated in writing by the commission or a member thereof as having been found to be a fit and proper person to exercise such authority. Upon being so designated such person shall be a peace officer and a police officer for the purposes herein mentioned. [1961 c 173 § 1; 1961 c 14 § 80.04.470. Prior: 1911 c 117 § 101; RRS § 10450.]

80.04.480 Rights of action not released—Penalties cumulative. This title shall not have the effect to release or waive any right of action by the state or any person for any right, penalty or forfeiture which may have arisen or may hereafter arise under any law of this state; and all penalties accruing under this title shall be cumulative of each other, and a suit for the recovery of one penalty shall not be a bar to the recovery of any other. [1961 c 14 § 80.04.480. Prior: 1911 c 117 § 104; RRS § 10453. Formerly RCW 80.04.480 and 80.04.490.]

80.04.500 Application to municipal utilities. Nothing in this title shall authorize the commission to make or enforce any order affecting rates, tolls, rentals, contracts or charges or service rendered, or the adequacy or sufficiency of the facilities, equipment, instrumentalities or buildings, or the reasonableness of rules or regulations made, furnished, used, supplied or in force affecting any telecommunications line, gas plant, electrical plant or water system owned and operated by any city or town, or to make or enforce any order relating to the safety of any telecommunications line, electrical plant or water system owned and operated by any city or town, but all other provisions enumerated herein shall apply to public utilities owned by any city or town. It shall be the duty of the attorney general to represent and appear for the people of the state of Washington and the commission in all actions and proceedings involving any question under this title, or under or in reference to any act or order of the commission; and it shall be the duty of the attorney general generally to see that all laws affecting any of the persons or corporations herein enumerated are complied with, and that all laws, the enforcement of which devolves upon the commission, are enforced, and to that end he is authorized to institute, prosecute and defend all necessary actions and proceedings. [1961 c 14 § 80.04.510. Prior: 1911 c 117 § 5; RRS § 10341.]

80.04.520 Approval of lease of utility facilities. In addition to any other powers and duties under this chapter, the commission shall have the authority to authorize and approve the terms of any lease of utility facilities by a public service company, as lessee, if the public service company makes proper application to the commission certifying that such authorization or approval is necessary or appropriate to

(b) Nothing in this subsection (1) shall affect the commission's authority over the rates, service, accounts, valuations, estimates, or determinations of costs, as well as the authority to determine whether any expenditure is fair, reasonable, and commensurate with the service, material, supplies, or equipment received.

(c) For purposes of this subsection, the number of access lines served by a local exchange company includes the number of access lines served in this state by any affiliate of that local exchange company.

(2) Any local exchange company for which an exemption is provided under this section shall not be required to file reports or data with the commission, except each such company shall file with the commission an annual report that consists of its annual balance sheet and results of operations, both presented on a Washington state jurisdictional basis. This requirement may be satisfied by the filing of information or reports and underlying studies filed with exchange carrier entities or regulatory agencies if the jurisdictionally separated results of operations for Washington state can be obtained from the information or reports. This subsection shall not be applied to exempt a local exchange company from an obligation to respond to data requests in an adjudicative proceeding in which it is a party.

(3) The commission may, in response to customer complaints or on its own motion and after notice and hearing, establish additional reporting requirements for a specific local exchange company. [1995 c 110 § 1.]

The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. [1961 c 14 § 80.20.010. Prior: 1953 c 95 § 8; 1939 c 203 § 1; RRS § 10458-6.]

80.20.020 Cost of investigation may be assessed against company. Whenever the commission in any proceeding upon its own motion or upon complaint shall deem it necessary in order to carry out the duties imposed upon it by law to investigate the books, accounts, practices and activities of, or make any valuation or appraisal of the property of any public service company, or to investigate or appraise any phase of its operations, or to render any engineering or accounting service to or in connection with any public service company, and the cost thereof to the commission exceeds in amount the ordinary regulatory fees paid by such public service company during the preceding calendar year or estimated to be paid during the current year, whichever is more, such public service company shall pay the expenses reasonably attributable and allocable to such investigation, valuation, appraisal or services. The commission shall ascertain such expenses, and, after giving notice and an opportunity to be heard, shall render a bill therefor by registered mail to the public service company, either at the conclusion of the investigation, valuation, appraisal or services, or from time to time during its progress. Within thirty days after a bill has been mailed such public service company shall pay to the commission the amount of the bill, and the commission shall transmit such payment to the state treasurer who shall credit it to the public service revolving fund. The total amount which any public service company shall be required to pay under the provisions of this section in any calendar year shall not exceed one percent of the gross operating revenues derived by such public service company from its intrastate operations during the last preceding calendar year. If such company did not operate during all of the preceding year the calculations shall be based upon estimated gross revenues for the current year. [1961 c 14 § 80.20.020. Prior: 1939 c 203 § 2(a); RRS § 10458-6a(a).]

80.20.040 Commission's determination of necessity as evidence. [1961 c 14 § 80.20.040. Prior: 1939 c 203 § 2(c); RRS § 10458-6a(c).]

In view of the civil action provided for in RCW 80.20.020 through 80.20.060 any order made by the commission in determining the amount of such bill shall not be reviewable in court, but the mere absence of such right of review shall not prejudice the rights of defendants in the civil action. [1961 c 14 § 80.20.050. Prior: 1939 c 203 § 2(d); RRS § 10458-6a(d).]

80.20.060 Limitation on frequency of investigation. Expenses of a complete valuation, rate and service investigation shall not be assessed against a public service company under this chapter if such company shall have been subjected to and paid the expenses of a complete valuation, rate and service investigation during the preceding five years, unless the properties or operations of the company have materially changed or there has been a substantial change in its value for rate making purposes or in any other circumstances and conditions affecting rates and services: PROVIDED, That the provisions of this section shall not be a limitation on the frequency of assessment of costs of investigation where such investigation results from a tariff filing or tariff filings by a public service company to increase rates. [1971 ex.s. c 143 § 8; 1961 c 14 § 80.20.060. Prior: 1939 c 203 § 2(e); RRS § 10458-6a(e).]

Easements of public service companies taxable as personalty: RCW 84.20.010.

Public utility tax: Chapter 82.16 RCW.

80.24.010 Companies to file reports of gross revenue and pay fees—Delinquent fee payments. Every public service company subject to regulation by the commission shall, on or before the date specified by the commission for filing annual reports under RCW 80.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year or portion thereof and pay to the commission a fee equal to one-tenth of one percent of the first fifty thousand dollars of gross operating revenue, plus two-tenths of one percent of any gross operating revenue in excess of fifty thousand dollars: PROVIDED, That the fee shall in no case be less than one dollar.

The percentage rates of gross operating revenue to be paid in any year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose such companies shall be classified as follows:

Electrical, gas, water, telecommunications, and irrigation companies shall constitute class one. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month. [1994 c 83 § 1; 1990 c 48 § 1; 1985 c 450 § 14; 1961 c 14 § 80.24.010. Severability—Legislative review—1985 c 450: See RCW 80.36.900 and 80.36.901.

80.24.020 Fees to approximate reasonable cost of regulation. In fixing the percentage rates of gross operating revenue to be paid in any year, the commission shall consider all moneys then in the public service revolving fund and the fees currently to be paid into such fund, to the end that the fees collected from the several classes of companies shall be approximately the same as the reasonable cost of supervising and regulating such classes of companies. [1961 c 14 § 80.24.020. Prior: 1955 c 125 § 3; prior: 1939 c 123 § 1, part; 1937 c 158 § 1, part; RRS § 10417, part.]

80.24.030 Intent of legislature—Regulatory cost records to be kept by commission. It is the intent and purpose of the legislature that the several groups of public service companies shall each contribute sufficient in fees to the commission to pay the reasonable cost of regulating the several groups respectively. The commission shall keep accurate records of the costs incurred in regulating and supervising the several groups of companies subject to regulation or supervision and such records shall be open to inspection by all interested parties. The records and data upon which the commission's determination is made shall be considered prima facie correct in any proceeding instituted to challenge the reasonableness or correctness of any order of the commission fixing fees and distributing regulatory

expenses. [1961 c 14 § 80.24.030. Prior: 1937 c 158 § 7; RRS § 10417-5.]

80.24.040 Disposition of fees. All moneys collected under the provisions of this chapter shall within thirty days be paid to the state treasurer and by the state treasurer deposited to the public service revolving fund: **PROVIDED**, That all fees, fines, forfeitures and penalties collected or assessed by a district court because of the violation of a state law shall be remitted as provided in chapter 3.62 RCW as now exists or is later amended. [1987 c 202 § 239; 1969 ex.s. c 199 § 36; 1961 c 14 § 80.24.040. Prior: 1937 c 158 § 6; RRS § 10417-4.]

Intent—1987 c 202: See note following RCW 2.04.190.

80.24.050 Penalty for failure to pay fees—Disposition of fines and penalties. Every person, firm, company or corporation, or the officers, agents or employees thereof, failing or neglecting to pay the fees herein required shall be guilty of a misdemeanor. All fines and penalties collected under the provisions of this chapter shall be deposited into the public service revolving fund of the state treasury: **PROVIDED**, That all fees, fines, forfeitures and penalties collected or assessed by a district court because of the violation of a state law shall be remitted as provided in chapter 3.62 RCW as now exists or is later amended. 80.28.005 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Bondable conservation investment" means all expenditures made by electrical, gas, or water companies with respect to energy or water conservation measures and services intended to improve the efficiency of electricity, gas, or water end use, including related carrying costs if:

(a) The conservation measures and services do not produce assets that would be bondable utility property under the general utility mortgage of the electrical, gas, or water company;

(b) The commission has determined that the expenditures were incurred in conformance with the terms and conditions of a conservation service tariff in effect with the commission at the time the costs were incurred, and at the time of such determination the commission finds that the company has proven that the costs were prudent, that the terms and conditions of the financing are reasonable, and that financing under this chapter is more favorable to the customer than other reasonably available alternatives;

(c) The commission has approved inclusion of the expenditures in rate base and has not ordered that they be currently expensed; and

(d) The commission has not required that the measures demonstrate that energy savings have persisted at a certain

level for a certain period before approving the cost of these investments as bondable conservation investment.

(2) "Conservation bonds" means bonds, notes, certificates of beneficial interests in trusts, or other evidences of indebtedness or ownership that:

(a) The commission determines at or before the time of issuance are issued to finance or refinance bondable conservation investment by an electrical, gas or water company; and

(b) Rely partly or wholly for repayment on conservation investment assets and revenues arising with respect thereto.

(3) "Conservation investment assets" means the statutory right of an electrical, gas, or water company:

(a) To have included in rate base all of its bondable conservation investment and related carrying costs; and

(b) To receive through rates revenues sufficient to recover the bondable conservation investment and the costs of equity and debt capital associated with it, including, without limitation, the payment of principal, premium, if any, and interest on conservation bonds.

(4) "Finance subsidiary" means any corporation, company, association, joint stock association, or trust that is beneficially owned, directly or indirectly, by an electrical, gas, or water company, or in the case of a trust issuing conservation bonds consisting of beneficial interests, for which an electrical, gas, or water company or a subsidiary thereof is the grantor, or an unaffiliated entity formed for the purpose of financing or refinancing approved conservation investment, and that acquires conservation investment assets directly or indirectly from such company in a transaction approved by the commission. [1994 c 268 § 1.]

80.28.010 Duties as to rates, services, and facilities—Limitations on termination of utility service for residential heating. (1) All charges made, demanded or received by any gas company, electrical company or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient.

(2) Every gas company, electrical company and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(3) All rules and regulations issued by any gas company, electrical company or water company, affecting or pertaining to the sale or distribution of its product, shall be just and reasonable.

(4) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(a) Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

(b) Provides self-certification of household income for the prior twelve months to a grantee of the department of community, trade, and economic development which

administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(e) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(f) Agrees to pay the moneys owed even if he or she moves.

(5) The utility shall:

(a) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(b) Assist the customer in fulfilling the requirements under this section;

(c) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(d) Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this subsection. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(6) A payment plan implemented under this section is consistent with RCW 80.28.080.

(7) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(8) Every gas company, electrical company and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product as will be efficient and safe to its employees and the public.

(9) An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter.

(10) In establishing rates or charges for water service, water companies as defined in RCW 80.04.010 may consider the achievement of water conservation goals and the discouragement of wasteful water use practices. [1995 c 399 § 211. Prior: 1991 c 347 § 22; 1991 c 165 § 4; 1990 1st ex.s. c 1 § 5; 1986 c 245 § 5; 1985 c 6 § 25; 1984 c 251 § 4; 1961 c 14 § 80.28.010; prior: 1911 c 117 § 26; RRS § 10362.]

Purposes—1991 c 347: See note following RCW 90.42.005.

Severability—1991 c 347: See RCW 90.42.900.

Findings—1991 c 165: See note following RCW 35.21.300.

80.28.020 Commission to fix just, reasonable, and compensatory rates. Whenever the commission shall find, after a hearing had upon its own motion, or upon complaint, that the rates or charges demanded, exacted, charged or collected by any gas company, electrical company or water company, for gas, electricity or water, or in connection therewith, or that the rules, regulations, practices or contracts affecting such rates or charges are unjust, unreasonable, unjustly discriminatory or unduly preferential, or in any wise in violation of the provisions of the law, or that such rates or charges are insufficient to yield a reasonable compensation for the service rendered, the commission shall determine the just, reasonable, or sufficient rates, charges, regulations, practices or contracts to be thereafter observed and in force, and shall fix the same by order. [1961 c 14 § 80.28.020. Prior: 1911 c 117 § 54, part; RRS § 10390, part.]

80.28.022 Water company rates—Reserve account. In determining the rates to be charged by each water company subject to its jurisdiction, the commission may provide for the funding of a reserve account exclusively for the purpose of making capital improvements approved by the department of health as a part of a long-range plan, or required by the department to assure compliance with federal or state drinking water regulations, or to perform construction or maintenance required by the department of ecology to secure safety to life and property under RCW 43.21A.064(2). Expenditures from the fund shall be subject to prior approval by the commission, and shall be treated for rate-making purposes as customer contributions. [1991 c 150 § 1; 1990 c 132 § 6.]

Legislative findings—Severability—1990 c 132: See note following RCW 43.20.240.

80.28.024 Legislative finding. The legislature finds and declares that the potential for meeting future energy needs through conservation measures, including energy conservation loans, energy audits, the use of appropriate tree plantings for energy conservation, and the use of renewable resources, such as solar energy, wind energy, wood, wood waste, municipal waste, agricultural products and wastes, hydroelectric energy, geothermal energy, and end-use waste heat, may not be realized without incentives to public and private energy utilities. The legislature therefore finds and declares that actions and incentives by state government to promote conservation and the use of renewable resources would be of great benefit to the citizens of this state by encouraging efficient energy use and a reliable supply of energy based upon renewable energy resources. [1993 c 204 § 8; 1980 c 149 § 1.]

Findings—1993 c 204: See note following RCW 35.92.390.

80.28.025 Encouragement of energy cogeneration, conservation, and production from renewable resources—Consideration of water conservation goals. (1) In establishing rates for each gas and electric company regulated by this chapter, the commission shall adopt policies to encourage meeting or reducing energy demand through cogeneration as defined in RCW 82.35.020, measures which improve the efficiency of energy end use, and new projects which produce or generate energy from renewable resources, such as solar energy, wind energy, hydroelectric energy, geothermal energy, wood, wood waste, municipal wastes, agricultural products and wastes, and end-use waste heat. These policies shall include but are not limited to allowing a return on investment in measures to improve the efficiency of energy end use, cogeneration, or projects which produce or generate energy from renewable resources which return is established by adding an increment of two percent to the rate of return on common equity permitted on the company's other investment. Measures or projects encouraged under this section are those for which construction or installation is begun after June 12, 1980, and before January 1, 1990, and which, at the time they are placed in the rate base, are reasonably expected to save, produce, or generate energy at a total incremental system cost per unit of energy delivered to end use which is less than or equal to the incremental system cost per unit of energy delivered to end use from similarly available conventional energy resources which utilize nuclear energy or fossil fuels and which the gas or electric company could acquire to meet energy demand in the same time period. The rate of return increment shall be allowed for a period not to exceed thirty years after the measure or project is first placed in the rate base.

(2) In establishing rates for water companies regulated by this chapter, the commission may consider the achievement of water conservation goals and the discouragement of wasteful water use practices. [1991 c 347 § 23; 1980 c 149 § 2.]

Purposes—1991 c 347: See note following RCW 90.42.005.

Severability—1991 c 347: See RCW 90.42.900.

Public utility tax exemptions relating to energy conservation and production from renewable resources: RCW 82.16.055.

80.28.030 Commission may order improved quality of commodity—Water companies, board of health standards. Whenever the commission shall find, after such hearing, that the illuminating or heating power, purity or pressure of gas, the efficiency of electric lamp supply, the voltage of the current supplied for light, heat or power, or the purity, quality, volume, and pressure of water, supplied by any gas company, electrical company or water company, as the case may be, is insufficient, impure, inadequate or inefficient, it shall order such improvement in the manufacture, distribution or supply of gas, in the manufacture, transmission or supply of electricity, or in the storage, distribution or supply of water, or in the methods employed by such gas company, electrical company or water company, as will in its judgment be efficient, adequate, just and reasonable. Failure of a water company to comply with state board of health standards adopted under RCW 43.20.050(2)(a) or department standards adopted under chapter 70.116 RCW for purity, volume, and pressure shall be prima facie evidence that the water supplied is insufficient, impure, inadequate, or inefficient.

In ordering improvements in the storage, distribution, or supply of water, the commission shall consult and coordinate with the department. In the event that a water company fails to comply with an order of the commission in a timely fashion, the commission may request that the department petition the court to place the company in receivership. [1989 c 207 § 4; 1961 c 14 § 80.28.030. Prior: 1911 c 117 § 54, part; RRS § 10390, part.]

80.28.040 Commission may order improved service—Water companies, noncompliance, receivership. Whenever the commission shall find, after hearing, that any rules, regulations, measurements or the standard thereof, practices, acts or services of any such gas company, electrical company or water company are unjust, unreasonable, improper, insufficient, inefficient or inadequate, or that any service which may be reasonably demanded is not furnished, the commission shall fix the reasonable rules, regulations, measurements or the standard thereof, practices, acts or service to be thereafter furnished, imposed, observed and followed, and shall fix the same by order or rule.

In ordering improvements to the service of any water company, the commission shall consult and coordinate with the department. In the event that a water company fails to comply with an order of the commission within the deadline specified in the order, the commission may request that the department petition the court to place the company in receivership. [1989 c 207 § 5; 1961 c 14 § 80.28.040. Prior: 1911 c 117 § 54, part; RRS § 10390, part.]

80.28.050 Tariff schedules to be filed with commission—Public schedules. Every gas company, electrical company and water company shall file with the commission and shall print and keep open to public inspection schedules in such form as the commission may prescribe, showing all rates and charges made, established or enforced, or to be charged or enforced, all forms of contract or agreement, all rules and regulations relating to rates, charges or service, used or to be used, and all general privileges and facilities granted or allowed by such gas company, electrical company

or water company. [1961 c 14 § 80.28.050. Prior: 1911 c 117 § 27; RRS § 10363.]

Duty of company to fix rate for wholesale power on request of public utility district: RCW 54.04.100.

80.28.060 Tariff changes—Statutory notice—Exception. Unless the commission otherwise orders, no change shall be made in any rate or charge or in any form of contract or agreement or in any rule or regulation relating to any rate, charge or service, or in any general privilege or facility which shall have been filed and published by a gas company, electrical company or water company in compliance with the requirements of RCW 80.28.050 except after thirty days' notice to the commission and publication for thirty days, which notice shall plainly state the changes proposed to be made in the schedule then in force and the time when the change will go into effect and all proposed changes shall be shown by printing, filing and publishing new schedules, or shall be plainly indicated upon the schedules in force at the time and kept open to public inspection. Proposed changes may be suspended by the commission within thirty days or before the stated effective date of the proposed change, whichever is later. The commission, for good cause shown, may allow changes without requiring the thirty days' notice by duly filing, in such manner as it may direct, an order specifying the changes so to be made and the time when it shall take effect. All such changes shall be immediately indicated upon its schedules by the company affected. When any change is made in any rate or charge, form of contract or agreement, or any rule or regulation relating to any rate or charge or service, or in any general privilege or facility, the effect of which is to increase any rate or charge, then in existence, attention shall be directed on the copy filed with the commission to such increase by some character immediately preceding or following the item in such schedule, such character to be in form as designated by the commission. [1989 c 152 § 1; 1961 c 14 § 80.28.060. Prior: 1911 c 117 § 28; RRS § 10364.]

80.28.065 Tariff schedule—Energy conservation—Payment by successive property owners—Notice—Rules. (1) Upon request by an electrical or gas company, the commission may approve a tariff schedule that contains rates or charges for energy conservation measures, services, or payments provided to individual property owners or customers. The tariff schedule shall require the electrical or gas company to enter into an agreement with the property owner or customer receiving services at the time the conservation measures, services, or payments are initially provided. The tariff schedule may allow for the payment of the rates or charges over a period of time and for the application of the payment obligation to successive property owners or customers at the premises where the conservation measures or services were installed or performed or with respect to which the conservation payments were made.

(2) The electrical or gas company shall record a notice of a payment obligation, containing a legal description, resulting from an agreement under this section with the county auditor or recording officer as provided in RCW 65.04.030.

(3) The commission may prescribe by rule other methods by which an electrical or gas company shall notify property owners or customers of any such payment obligation. [1993 c 245 § 2.]

Legislative findings—Intent—1993 c 245: "(1) The legislature finds that:

(a) The ability of utilities to acquire cost-effective conservation measures is instrumental in assuring that Washington citizens have reasonable energy rates and that utilities have adequate energy resources to meet future energy demands;

(b) Customers may be more willing to accept investments in energy efficiency and conservation if real and perceived impediments to property transactions are avoided;

(c) Potential purchasers of real property should be notified of any utility conservation charges at the earliest point possible in the sale.

(2) It is the intent of the legislature to encourage utilities to develop innovative approaches designed to promote energy efficiency and conservation that have limited rate impacts on utility customers. It is not the intent of the legislature to restrict the authority of the utilities and transportation commission to approve tariff schedules.

(3) It is also the intent of the legislature that utilities which establish conservation tariffs should undertake measures to assure that potential purchasers of property are aware of the existence of any conservation tariffs. Measures that may be considered include, but are not limited to:

(a) Recording a notice of a conservation tariff payment obligation, containing a legal description, with the county property records;

(b) Annually notifying customers who have entered agreements of the conservation tariff obligation;

(c) Working with the real estate industry to provide for disclosure of conservation tariff obligations in standardized listing agreements and earnest money agreements; and

(d) Working with title insurers to provide recorded conservation tariff obligations as an informational note to the preliminary commitment for policy of title insurance." [1993 c 245 § 1.]

80.28.070 Sliding scale of charges permitted.

Nothing in this chapter shall be taken to prohibit a gas company, electrical company or water company from establishing a sliding scale of charges, whereby a greater charge is made per unit for a lesser than a greater quantity for gas, electricity or water, or any service rendered or to be rendered. [1961 c 14 § 80.28.070. Prior: 1911 c 117 § 32; RRS § 10368.]

80.28.074 Legislative declaration. The legislature declares it is the policy of the state to:

(1) Preserve affordable natural gas and electric services to the residents of the state;

(2) Maintain and advance the efficiency and availability of natural gas and electric services to the residents of the state of Washington;

(3) Ensure that customers pay only reasonable charges for natural gas and electric service;

(4) Permit flexible pricing of natural gas and electric services. [1988 c 166 § 1.]

80.28.075 Banded rates—Natural gas and electric services. "Banded rate" means a rate that has a minimum and maximum rate. Rates may be changed within the rate band upon such notice as the commission may order. [1988 c 166 § 2.]

80.28.080 Published rates to be charged—

80.28.120 Effect on existing contracts. Every gas, water or electrical company owning, operating or managing a plant or system for the distribution and sale of gas, water or electricity to the public for hire shall be and be held to be a public service company as to such plant or system and as to all gas, water or electricity distributed or furnished therefrom, whether such gas, water or electricity be sold wholesale or retail or be distributed wholly to the general public or in part as surplus gas, water or electricity to manufacturing or industrial concerns or to other public service companies or municipalities for redistribution. Nothing in this title shall be construed to prevent any gas company, electrical company or water company from continuing to furnish its product or the use of its lines, equipment or service under any contract or contracts in force on June 7, 1911, at the rates fixed in such contract or contracts: PROVIDED, That the commission shall have power, in its discretion, to direct by order that such contract or contracts shall be terminated by the company party thereto and thereupon such contract or contracts shall be terminated by such company as and when directed by such order. [1961 c 14 § 80.28.120. Prior: 1933 c 165 § 1; 1911 c 117 § 34; RRS § 10370.]

80.28.130 Repairs, improvements, changes, additions, or extensions may be directed. Whenever the commission shall find, after hearing had upon its own motion or upon complaint, that repairs or improvements, to, or changes in, any gas plant, electrical plant or water system ought to be made, or that any additions or extensions should reasonably be made thereto, in order to promote the security or convenience of the public or employees, or in order to secure adequate service or facilities for manufacturing, distributing or supplying gas, electricity or water, the commission may enter an order directing that such reason-

able repairs, improvements, changes, additions or extensions of such gas plant, electrical plant or water system be made. [1961 c 14 § 80.28.130. Prior: 1911 c 117 § 70; RRS § 10406.]

80.28.140 Inspection of gas and water meters. The commission may appoint inspectors of gas and water meters whose duty it shall be when required by the commission to inspect, examine, prove and ascertain the accuracy of any and all gas and water meters used or intended to be used for measuring or ascertaining the quantity of gas for light, heat or power, or the quantity of water furnished for any purpose by any public service company to or for the use of any person or corporation, and when found to be or made to be correct such inspectors shall seal all such meters and each of them with some suitable device to be prescribed by the commission.

No public service company shall thereafter furnish, set or put in use any gas or water meter which shall not have been inspected, proved and sealed by an inspector of the commission under such rules and regulations as the commission may prescribe. [1961 c 14 § 80.28.140. Prior: 1911 c 117 § 74, part; RRS § 10410, part.]

80.28.150 Inspection of electric meters. The commission may appoint inspectors of electric meters whose duty it shall be when required by the commission to inspect, examine, prove and ascertain the accuracy of any and all electric meters used or intended to be used for measuring and ascertaining the quantity of electric current furnished for light, heat or power by any public service company to or for the use of any person or corporation, and to inspect, examine and ascertain the accuracy of all apparatus for testing and proving the accuracy of electric meters, and when found to be or made to be correct the inspector shall stamp or mark all such meters and apparatus with some suitable device to be prescribed by the commission. No public service company shall furnish, set or put in use any electric meters the type of which shall not have been approved by the commission. [1961 c 14 § 80.28.150. Prior: 1911 c 117 § 74, part; RRS § 10410, part.]

80.28.160 Testing apparatus to be furnished. Every gas company, electrical company and water company shall prepare and maintain such suitable premises, apparatus and facilities as may be required and approved by the commission for testing and proving the accuracy of gas, electric or water meters furnished for use by it by which apparatus every meter may be tested. [1961 c 14 § 80.28.160. Prior: 1911 c 117 § 74, part; RRS § 10410, part.]

80.28.170 Testing at consumer's request. If any consumer to whom a meter has been furnished shall request the commission in writing to inspect such meter, the commission shall have the same inspected and tested, and if the same, on being so tested, shall be found to be more than four percent if an electric meter, or more than two percent if a gas meter, or more than two percent if a water meter, defective or incorrect to the prejudice of the consumer, the expense of such inspection and test shall be borne by the gas company, electrical company or water company, and if the

same, on being so tested shall be found to be correct within the limits of error prescribed by the provisions of this section, the expense of such inspection and test shall be borne by the consumer. [1961 c 14 § 80.28.170. Prior: 1911 c 117 § 74, part; RRS § 10410, part.]

The commission shall prescribe such rules and regulations to carry into effect the provisions of RCW 80.28.140 through 80.28.170 as it may deem necessary, and shall fix the uniform and reasonable charges for the inspection and testing of meters upon complaint. [1961 c 14 § 80.28.180. Prior: 1911 c 117 § 74, part; RRS § 10410, part.]

80.28.185 Water companies within counties—Commission may regulate. The commission may develop and enter into an agreement with a county to carry out the regulatory functions of this chapter with regard to water companies located within the boundary of that county. The duration of the agreement, the duties to be performed, and the remuneration to be paid by the commission are subject to agreement by the commission and the county. [1989 c 207 § 6.]

80.28.190 Gas companies—Certificate—Violations—Commission powers—Penalty—Fees. No gas company shall, after January 1, 1956, operate in this state any gas plant for hire without first having obtained from the commission under the provisions of this chapter a certificate declaring that public convenience and necessity requires or will require such operation and setting forth the area or areas within which service is to be rendered; but a certificate shall be granted where it appears to the satisfaction of the commission that such gas company was actually operating in good faith, within the confines of the area for which such certificate shall be sought, on June 8, 1955. Any right, privilege, certificate held, owned or obtained by a gas company may be sold, assigned, leased, transferred or inherited as other property, only upon authorization by the commission. The commission shall have power, after hearing, when the applicant requests a certificate to render service in an area already served by a certificate holder under this chapter only when the existing gas company or companies serving such area will not provide the same to the satisfaction of the commission and in all other cases, with or without hearing, to issue said certificate as prayed for; or for good cause shown to refuse to issue same, or to issue it for the partial exercise only of said privilege sought, and may attach to the exercise of the rights granted by said certificate such terms and conditions as, in its judgment, the public convenience and necessity may require.

The commission may, at any time, by its order duly entered after a hearing had upon notice to the holder of any certificate hereunder, and an opportunity to such holder to be heard, at which it shall be proven that such holder wilfully violates or refuses to observe any of its proper orders, rules or regulations, suspend, revoke, alter or amend any certificate issued under the provisions of this section, but the holder of such certificate shall have all the rights of rehearing, review and appeal as to such order of the commission as is provided herein.

In all respects in which the commission has power and authority under this chapter applications and complaints may be made and filed with it, process issued, hearings held, opinions, orders and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for writs of review to the superior court filed therewith, appeals or mandate filed with the supreme court or the court of appeals of this state considered and disposed of by said courts in the manner, under the conditions, and subject to the limitations and with the effect specified in the Washington utilities and transportation commission laws of this state.

Every officer, agent, or employee of any corporation, and every other person who violates or fails to comply with, or who procures, aids or abets in the violation of any of the provisions of this section or who fails to obey, observe or comply with any order, decision, rule or regulation, directive, demand or requirements, or any provision of this section, is guilty of a gross misdemeanor and punishable as such.

Neither this section, RCW 80.28.200, 80.28.210, nor any provisions thereof shall apply or be construed to apply to commerce with foreign nations or commerce among the several states of this union except insofar as the same may be permitted under the provisions of the Constitution of the United States and acts of congress.

The commission shall collect the following miscellaneous fees from gas companies: Application for a certificate of public convenience and necessity or to amend a certificate, twenty-five dollars; application to sell, lease, mortgage or transfer a certificate of public convenience and necessity or any interest therein, ten dollars. [1971 c 81 § 141; 1961 c 14 § 80.28.190. Prior: 1955 c 316 § 4.]

80.28.200 Gas companies—Refunds of charges. Whenever any gas company whose rates are subject to the jurisdiction of the commission shall receive any refund of amounts charged and collected from it on account of natural gas purchased by it, by reason of any reduction of rates or disallowance of an increase in rates of the seller of such natural gas pursuant to an order of the federal power commission, whether such refund shall be directed by the federal power commission or by any court upon review of such an order or shall otherwise accrue to such company, the commission shall have power after a hearing, upon its own motion, upon complaint, or upon the application of such company, to determine whether or not such refund should be passed on, in whole or in part, to the consumers of such company and to order such company to pass such refund on to its consumers, in the manner and to the extent determined just and reasonable by the commission. [1961 c 14 § 80.28.200. Prior: 1955 c 316 § 5.]

80.28.210 Safety rules—Pipeline transporters—Penalty. Every person or corporation transporting natural gas by pipeline, or having for one or more of its principal purposes the construction, maintenance or operation of pipelines for transporting natural gas, in this state, even though such person or corporation not be a public service company under chapter 80.28 RCW, and even though such person or corporation does not deliver, sell or furnish any such gas to any person or corporation within this state, shall be subject to regulation by the utilities and transportation commission

insofar as the construction and operation of such facilities shall affect matters of public safety, and every such company shall construct and maintain such facilities as will be safe and efficient. The commission shall have the authority to prescribe rules and regulations to effectuate the purpose of this enactment. Every such person and every such officer, agent and employee of a corporation who, as an individual or as an officer or agent of such corporation, violates or fails to comply with, or who procures, aids, or abets another, or his company, in the violation of, or noncompliance with, any provision of this section or any order, rule or requirement of the commission hereunder, shall be guilty of a gross misdemeanor. [1969 ex.s. c 210 § 2; 1961 c 14 § 80.28.210. Prior: 1955 c 316 § 6.]

80.28.212 Safety rules—Civil penalty for violation of RCW 80.28.210 or regulations issued thereunder—Level of penalty—Compromise—Disposition of penalty.

Any gas company which violates any provision of RCW 80.28.210 as now exists or is later amended or of any regulation issued thereunder, shall be subject to a civil penalty to be directly assessed by the commission. The level of such penalty shall be set by rule by the commission and shall not exceed the penalties specified in federal pipeline safety laws (49 U.S.C. 60101 et seq.) in effect on July 23, 1995. Any civil penalty may be compromised by the commission. In determining the amount of the penalty, or the amount agreed upon and compromised, the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the gas company charged in attempting to achieve compliance after notification of the violation, shall be considered.

The amount of the penalty, when finally determined, or the amount agreed upon and compromised, may be recovered in a civil action in the superior court of Thurston county or of some other county in which such violator may do business. In all such actions for recovery the procedure and rules of evidence shall be the same as in ordinary civil actions. All penalties recovered under this title shall be paid into the state treasury and credited to the public service revolving fund. [1995 c 247 § 1; 1969 ex.s. c 210 § 3.]

80.28.220 Gas companies—Right of eminent domain—Purposes. Every corporation having for one of its principal purposes the transmission, distribution, sale, or furnishing of natural gas or other type gas for light, heat, or power and holding and owning a certificate of public convenience and necessity from the utilities and transportation commission authorizing the operation of a gas plant, may appropriate, by condemnation, lands and property and interests therein, for the transmission, distribution, sale, or furnishing of such natural gas or other type gas through gas mains or pipelines under the provisions of chapter 8.20 RCW. [1961 c 14 § 80.28.220. Prior: 1957 c 191 § 1.]

80.28.230 Gas companies—Use for purpose acquired exclusive—Disposition of property. Any property or interest acquired as provided in RCW 80.28.220 shall be used exclusively for the purposes for which it was acquired: PROVIDED, HOWEVER, That if any such property be sold or otherwise disposed of by said corporations, such sale or

disposition shall be by public sale or disposition and advertised in the manner of public sales in the county where such property is located. [1961 c 14 § 80.28.230. Prior: 1957 c 191 § 2.]

80.28.240 Recovery of damages by utility company for tampering, unauthorized connections, diversion of services. (1) A utility may bring a civil action for damages against any person who commits, authorizes, solicits, aids, abets, or attempts to:

(a) Divert, or cause to be diverted, utility services by any means whatsoever;

(b) Make, or cause to be made, any connection or reconnection with property owned or used by the utility to provide utility service without the authorization or consent of the utility;

(c) Prevent any utility meter or other device used in determining the charge for utility services from accurately performing its measuring function by tampering or by any other means;

(d) Tamper with any property owned or used by the utility to provide utility services; or

(e) Use or receive the direct benefit of all or a portion of the utility service with knowledge of, or reason to believe that, the diversion, tampering, or unauthorized connection existed at the time of the use or that the use or receipt was without the authorization or consent of the utility.

(2) In any civil action brought under this section, the utility may recover from the defendant as damages three times the amount of actual damages, if any, plus the cost of the suit and reasonable attorney's fees, plus the costs incurred on account of the bypassing, tampering, or unauthorized reconnection, including but not limited to costs and expenses for investigation, disconnection, reconnection, service calls, and expert witnesses.

(3) Any damages recovered under this section in excess of the actual damages sustained by the utility may be taken into account by the utilities and transportation commission or other applicable rate-making agency in establishing utility rates.

(4) As used in this section:

(a) "Customer" means the person in whose name a utility service is provided;

(b) "Divert" means to change the intended course or path of electricity, gas, or water without the authorization or consent of the utility;

(c) "Person" means any individual, partnership, firm, association, or corporation or government agency;

(d) "Reconnection" means the commencement of utility service to a customer or other person after service has been lawfully disconnected by the utility;

(e) "Tamper" means to rearrange, injure, alter, interfere with, or otherwise prevent from performing the normal or customary function;

(f) "Utility" means any electrical company, gas company, or water company as those terms are defined in RCW 80.04.010, and includes any electrical, gas, or water system operated by any public agency; and

(g) "Utility service" means the provision of electricity, gas, water, or any other service or commodity furnished by

the utility for compensation. [1989 c 11 § 30; 1985 c 427 § 1.]

Severability—1989 c 11: See note following RCW 9A.56.220.

80.28.250 Water companies—Fire hydrants. A city, town or county may, by ordinance or resolution, require a water company to maintain fire hydrants in the area served by the water company. The utilities and transportation commission has no authority to waive this obligation. [1986 c 119 § 1.]

80.28.260 Adoption of policies to provide financial incentives for energy efficiency programs. (1) The commission shall adopt a policy allowing an incentive rate of return on investment (a) for payments made under RCW 19.27A.035 and (b) for programs that improve the efficiency of energy end use if priority is given to senior citizens and low-income citizens in the course of carrying out such programs. The incentive rate of return on investments set forth in this subsection is established by adding an increment of two percent to the rate of return on common equity permitted on the company's other investments.

(2) The commission shall consider and may adopt a policy allowing an incentive rate of return on investment in additional programs to improve the efficiency of energy end use or other incentive policies to encourage utility investment in such programs.

(3) The commission shall consider and may adopt other policies to protect a company from a reduction of short-term earnings that may be a direct result of utility programs to increase the efficiency of energy use. These policies may include allowing a periodic rate adjustment for investments in end use efficiency or allowing changes in price structure designed to produce additional new revenue. [1996 c 186 § 520; 1990 c 2 § 9.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

Findings—Severability—1990 c 2: See notes following RCW 19.27A.015.

80.28.270 Water companies—Extension, installation, or connection charges. The commission's jurisdiction over the rates, charges, practices, acts or services of any water company shall include any aspect of line extension, service installation, or service connection. If the charges for such services are not set forth by specific amount in the company's tariff filed with the commission pursuant to RCW 80.28.050, the commission shall determine the fair, just, reasonable, and sufficient charge for such extension, installation, or connection. In any such proceeding in which there is no specified tariffed rate, the burden shall be on the company to prove that its proposed charges are fair, just, reasonable, and sufficient. [1991 c 101 § 2.]

80.28.275 Water companies—Assumption of substandard water system—Limited immunity from liability. A water company assuming responsibility for a water system that is not in compliance with state or federal requirements for public drinking water systems, and its agents and employees, are immune from lawsuits or causes

of action, based on noncompliance with state or federal requirements for public drinking water systems, which predate the date of assuming responsibility and continue after the date of assuming responsibility, provided that the water company has submitted and is complying with a plan and schedule of improvements approved by the department of health. This immunity shall expire on the earlier of the date the plan of improvements is completed or four years from the date of assuming responsibility. This immunity does not apply to intentional injuries, fraud, or bad faith. [1994 c 292 § 9.]

Findings—Intent—1994 c 292: See note following RCW 57.04.050.

80.28.280 Compressed natural gas—Motor vehicle refueling stations—Public interest. The legislature finds that compressed natural gas offers significant potential to reduce vehicle emissions and to significantly decrease dependence on petroleum-based fuels. The legislature also finds that well-developed and convenient refueling systems are imperative if compressed natural gas is to be widely used by the public. The legislature declares that the development of compressed natural gas refueling stations are in the public interest. Nothing in this section and RCW 80.28.290 is intended to alter the regulatory practices of the commission or allow the subsidization of one ratepayer class by another. [1991 c 199 § 216.]

Finding—1991 c 199: See note following RCW 70.94.011.

Clean fuel: RCW 70.120.210.

80.28.290 Compressed natural gas—Refueling stations—Identify barriers. The commission shall identify barriers to the development of refueling stations for vehicles operating on compressed natural gas, and shall develop policies to remove such barriers. In developing such policies, the commission shall consider providing rate incentives to encourage natural gas companies to invest in the infrastructure required by such refueling stations. [1991 c 199 § 217.]

Finding—1991 c 199: See note following RCW 70.94.011.

Effective dates—Severability—Captions not law—1991 c 199: See RCW 70.94.904 through 70.94.906.

80.28.300 Gas, electrical companies authorized to provide customers with landscaping information and to request voluntary donations for urban forestry. (1) Gas companies and electrical companies under this chapter may provide information to their customers regarding landscaping that includes tree planting for energy conservation.

(2) Gas companies and electrical companies under this chapter may request voluntary donations from their customers for the purposes of urban forestry. The request may be in the form of a check-off on the billing statement or other form of a request for a voluntary donation. [1993 c 204 § 4.]

Findings—1993 c 204: See note following RCW 35.92.390.

80.28.303 Conservation service tariff—Contents of filing—Rate base—Duties of commission. (1) An electri-

cal, gas, or water company may file a conservation service tariff with the commission. The tariff shall provide:

(a) The terms and conditions upon which the company will offer the conservation measures and services specified in the tariff;

(b) The period of time during which the conservation measures and services will be offered; and

(c) The maximum amount of expenditures to be made during a specified time period by the company on conservation measures and services specified in the tariff.

(2) The commission has the same authority with respect to a proposed conservation service tariff as it has with regard to any other schedule or classification the effect of which is to change any rate or charge, including, without limitation, the power granted by RCW 80.04.130 to conduct a hearing concerning a proposed conservation service tariff and the reasonableness and justness thereof, and pending such hearing and the decision thereon the commission may suspend the operation of the tariff for a period not exceeding ten months from the time the tariff would otherwise go into effect.

(3) An electrical, gas, or water company may from time to time apply to the commission for a determination that specific expenditures may under its tariff constitute bondable conservation investment. A company may request this determination by the commission in separate proceedings for this purpose or in connection with a general rate case. The commission may designate the expenditures as bondable conservation investment as defined in RCW 80.28.005(1) if it finds that such designation is in the public interest.

(4) The commission shall include in rate base all bondable conservation investment. The commission shall approve rates for service by electrical, gas, and water companies at levels sufficient to recover all of the expenditures of the bondable conservation investment included in rate base and the costs of equity and debt capital associated therewith, including, without limitation, the payment of principal, premium, if any, and interest on conservation bonds. The rates so determined may be included in general rate schedules or may be expressed in one or more separate rate schedules. The commission shall not revalue bondable conservation investment for rate-making purposes, to determine that revenues required to recover bondable conservation investment and associated equity and debt capital costs are unjust, unreasonable, or in any way impair or reduce the value of conservation investment assets or that would impair the timing or the amount of revenues arising with respect to conservation investment assets that have been pledged to secure conservation bonds.

(5) Nothing in this chapter precludes the commission from adopting or continuing other conservation policies and programs intended to provide incentives for and to encourage utility investment in improving the efficiency of energy or water end use. However, the policies or programs shall not impair conservation investment assets. This chapter is not intended to be an exclusive or mandatory approach to conservation programs for electrical, gas, and water companies, and no such company is obligated to file conservation service tariffs under this chapter, to apply to the commission for a determination that conservation costs constitute bondable conservation investment within the meaning of this chapter, or to issue conservation bonds.

(6)(a) If a customer of an electrical, gas, or water company for whose benefit the company made expenditures for conservation measures or services ceases to be a customer of such company for one or more of the following reasons, the commission may require that the portion of such conservation expenditures that had been included in rate base but not theretofore recovered in the rates of such company be removed from the rate base of the company:

(i) The customer ceases to be a customer of the supplier of energy or water, and the customer repays to the company the portion of the conservation expenditures made for the benefit of such customer that has not theretofore been recovered in rates of the company; or

(ii) The company sells its property used to serve such customer and the customer ceases to be a customer of the company as a result of such action.

(b) An electrical, gas, or water company may include in a contract for a conservation measure or service, and the commission may by rule or order require to be included in such contracts, a provision requiring that, if the customer ceases to be a customer of that supplier of energy or water, the customer shall repay to the company the portion of the conservation expenditures made for the benefit of such customer that has not theretofore been recovered in rates of the company. [1994 c 268 § 2.]

80.28.306 Conservation bonds—Conservation investment assets as collateral—Priority of security interests—Transfers. (1) Electrical, gas, and water companies, or finance subsidiaries, may issue conservation bonds upon approval by the commission.

(2) Electrical, gas, and water companies, or finance subsidiaries may pledge conservation investment assets as collateral for conservation bonds by obtaining an order of the commission approving an issue of conservation bonds and providing for a security interest in conservation investment assets. A security interest in conservation investment assets is created and perfected only upon entry of an order by the commission approving a contract governing the granting of the security interest and the filing with the department of licensing of a UCC-1 financing statement, showing such pledgor as "debtor" and identifying such conservation investment assets and the bondable conservation investment associated therewith. The security interest is enforceable against the debtor and all third parties, subject to the rights of any third parties holding security interests in the conservation investment assets perfected in the manner described in this section, if value has been given by the purchasers of conservation bonds. An approved security interest in conservation investment assets is a continuously perfected security interest in all revenues and proceeds arising with respect to the associated bondable conservation investment, whether or not such revenues have accrued. Upon such approval, the priority of such security interest shall be as set forth in the contract governing the conservation bonds. Conservation investment assets constitute property for the purposes of contracts securing conservation bonds whether or not the related revenues have accrued.

(3) The relative priority of a security interest created under this section is not defeated or adversely affected by the commingling of revenues arising with respect to conser-

vation investment assets with other funds of the debtor. The holders of conservation bonds shall have a perfected security interest in all cash and deposit accounts of the debtor in which revenues arising with respect to conservation investment assets pledged to such holders have been commingled with other funds, but such perfected security interest is limited to an amount not greater than the amount of such revenues received by the debtor within twelve months before (a) any default under the conservation bonds held by the holders or (b) the institution of insolvency proceedings by or against the debtor, less payments from such revenues to the holders during such twelve-month period. If an event of default occurs under an approved contract governing conservation bonds, the holders of conservation bonds or their authorized representatives, as secured parties, may foreclose or otherwise enforce the security interest in the conservation investment assets securing the conservation bonds, subject to the rights of any third parties holding prior security interests in the conservation investment assets perfected in the manner provided in this section. Upon application by the holders of [or] their representatives, without limiting their other remedies, the commission shall order the sequestration and payment to the holders or their representatives of revenues arising with respect to the conservation investment assets pledged to such holders. Any such order shall remain in full force and effect notwithstanding any bankruptcy, reorganization, or other insolvency proceedings with respect to the debtor. Any surplus in excess of amounts necessary to pay principal, premium, if any, interest, and expenses arising under the contract governing the conservation bonds shall be remitted to the debtor electrical, gas, or water company or the debtor finance subsidiary.

(4) The granting, perfection, and enforcement of security interests in conservation investment assets to secure conservation bonds is governed by this chapter rather than by chapter 62A.9 RCW

(5) A transfer of conservation investment assets by an electrical, gas, or water company to a finance subsidiary, which such parties have in the governing documentation expressly stated to be a sale or other absolute transfer, in a transaction approved in an order issued by the commission and in connection with the issuance by such finance subsidiary of conservation bonds, shall be treated as a true sale, and not as a pledge or other financing, of such conservation investment assets. According the holders of conservation bonds a preferred right to revenues of the electrical, gas, or water company, or the provision by such company of other credit enhancement with respect to conservation bonds, does not impair or negate the characterization of any such transfer as a true sale.

(6) Any successor to an electrical, gas, or water company pursuant to any bankruptcy, reorganization, or other insolvency proceeding shall perform and satisfy all obligations of the company under an approved contract governing conservation bonds, in the same manner and to the same extent as such company before any such proceeding, including, without limitation, collecting and paying to the bondholders or their representatives revenues arising with respect to the conservation investment assets pledged to secure the conservation bonds. [1994 c 268 § 3.]

80.28.309 Costs as bondable conservation investment. (1) Costs incurred before June 9, 1994, by electrical, gas, or water companies with respect to energy or water conservation measures and services intended to improve the efficiency of energy or water end use shall constitute bondable conservation investment for purposes of RCW 80.28.005, 80.28.303, 80.28.306, and this section, if:

(a) The commission has previously issued a rate order authorizing the inclusion of such costs in rate base; and

(b) The commission authorizes the issuance of conservation bonds secured by conservation investment assets associated with such costs.

(2) If costs incurred before June 9, 1994, by electrical, gas, or water companies with respect to energy or water conservation measures intended to improve the efficiency of energy or water end use have not previously been considered by the commission for inclusion in rate base, an electrical, gas, or water company may apply to the commission for approval of such costs. If the commission finds that the expenditures are a bondable conservation investment, the commission shall by order designate such expenditures as bondable conservation investment, which shall be subject to RCW 80.28.005, 80.28.303, 80.28.306, and this section. Franchises on state highways: Chapter 47.44 RCW.

80.32.010 Cities and counties may grant franchises—Procedure—Liability to restore road for travel. The legislative authority of the city or town having control of any public street or road, or, where the street or road is not within the limits of any incorporated city or town, then the county legislative authority of the county wherein the road or street is situated, may grant authority for the construction, maintenance and operation of transmission lines for transmitting electric power, together with poles, wires and other appurtenances, upon, over, along and across any such public street or road, and in granting this authority the legislative authority of the city or town, or the county legislative authority, as the case may be, may prescribe the terms and conditions on which the transmission line and its appurtenances, shall be constructed, maintained and operated upon, over, along and across the road or street, and the grade or elevation at which the same shall be constructed, maintained and operated: PROVIDED, That on application being made to the county legislative authority for such authority, the county legislative authority shall fix a time and place for hearing the same, and shall cause the county auditor to give

public notice thereof at the expense of the applicant, by posting written or printed notices in three public places in the county seat of the county, and in at least one conspicuous place on the road or street or part thereof, for which application is made, at least fifteen days before the day fixed for such hearing, and by publishing a like notice once a week for two consecutive weeks in the official county newspaper, the last publication to be at least five days before the day fixed for the hearing, which notice shall state the name or names of the applicant or applicants, a description of the roads or streets or parts thereof for which the application is made, and the time and place fixed for the hearing. The hearing may be adjourned from time to time by order of the county legislative authority. If after such hearing the county legislative authority shall deem it to be for the public interest to grant the authority in whole or in part, it may make and enter the proper order granting the authority applied for or such part thereof as it deems to be for the public interest, and shall require the transmission line and its appurtenances to be placed in such location on or along the road or street as it finds will cause the least interference with other uses of the road or street. In case any such transmission line is or shall be located in part on private right of way, the owner thereof shall have the right to construct and operate the same across any county road or county street which intersects the private right of way, if the crossing is so constructed and maintained as to do no unnecessary damage: PROVIDED, That any person or corporation constructing the crossing or operating the transmission line on or along the county road or county street shall be liable to the county for all necessary expense incurred in restoring the county road or county street to a suitable condition for travel. 80.32.050 Sale or lease of plant and franchises.

Any corporation incorporated or that may hereafter be incorporated under the laws of this state or any state or territory of the United States, for the purpose of manufacturing, transmitting or selling electric power, may lease or purchase and operate (except in cases where such lease or purchase is prohibited by the Constitution of this state) the whole or any part of the plant for manufacturing or distribut-

ing electric power or energy of any other corporation, heretofore or hereafter constructed, together with the franchises, powers, immunities and all other property or appurtenances appertaining thereto: PROVIDED, That such lease or purchase has been or shall be consented to by stockholders of record holding at least two-thirds in amount of the capital stock or the lessor or grantor corporation; and all such leases and purchases made or entered into prior to the effective date of chapter 173, Laws of 1903, by consent of stockholders as aforesaid are for all intents and purposes hereby ratified and confirmed, saving, however, any vested rights of private parties. [1961 c 14 § 80.32.050. Prior: 1903 c 173 § 3; RRS § 5431.]

80.32.060 Eminent domain. Every corporation, incorporated or that may hereafter be incorporated under the laws of this state, or of any other state or territory of the United States, and doing business in this state, for the purpose of manufacturing or transmitting electric power, shall have the right to appropriate real estate and other property for right-of-way or for any corporate purpose, in the same manner and under the same procedure as now is or may hereafter be provided by law in the case of ordinary railroad corporations authorized by the laws of this state to exercise the right of eminent domain: PROVIDED, That such right of eminent domain shall not be exercised with respect to any public road or street until the location of the transmission line thereon has been authorized in accordance with RCW 80.32.010. 80.32.080 Duties of electrical companies exercising power of eminent domain. Any corporation authorized to do business in this state, which, under the present laws of the state, is authorized to condemn property for the purpose of generating and transmitting electrical power for the operation of railroads or railways, or for municipal lighting, and which by its charter or articles of incorporation, assumes the additional right to sell electric power and electric light to private consumers outside the limits of a municipality and to sell electric power to private consumers within the limits of a municipality, which shall provide in its articles that in respect of the purposes mentioned in this section it will assume and undertake to the state and to the inhabitants thereof the duties and obligations of a public service corporation, shall be deemed to be in respect of such purposes a public service corporation, and shall be held to all the duties, obligations and control, which by law are or may be imposed upon public service corporations. Any such corporation shall have the right to sell electric light outside the limits of a municipality and electric power both inside and outside such limits to private consumers from the electricity generated and transmitted by it for public purposes and not needed by it

therefor: PROVIDED, That such corporation shall furnish such excess power at equal rates, quantity and conditions considered, to all consumers alike, and shall supply it to the first applicants therefor until the amount available shall be exhausted: PROVIDED FURTHER, That no such corporation shall be obliged to furnish such excess power to any one consumer to an amount exceeding twenty-five percent of the total amount of such excess power generated or transmitted by it. In exercising the power of eminent domain for public purposes it shall not be an objection thereto that a portion of the electric current generated will be applied to private purposes, provided the principal uses intended are public: PROVIDED, That all public service or quasi public service corporations shall at no time sell, deliver and dispose of electrical power in bulk to manufacturing concerns at the expense of its public service functions, and any person, firm or corporation that is a patron of such corporation as to such public function, shall have the right to apply to any court of competent jurisdiction to correct any violation of the provisions of RCW 80.32.080 through 80.32.100. [1961 c 14 § 80.32.080. Prior: 1907 c 159 § 1; RRS § 5432.]

Whenever any corporation has acquired any property by decree of appropriation based on proceedings in court under the provisions of RCW 80.32.080 through 80.32.100, no portion of the electricity generated or transmitted by it by means of the property appropriated under the provisions of RCW 80.32.080 through 80.32.100 shall be used or applied by such corporation for or to a business or trade not under the present laws deemed public or quasi public conducted by itself. [1961 c 14 § 80.32.090. Prior: 1907 c 159 § 2; RRS § 5433.]

80.32.100 Remedy for violations. In the event of the violation of any of the requirements of RCW 80.32.080 and 80.32.090 by any corporation availing itself of its provisions, an appropriate suit may be maintained in the name of the state upon the relation of the attorney general, or, if he shall refuse or neglect to act, upon the relation of any individual aggrieved by the violation, or violations, complained of, to compel such corporation to comply with the requirements of RCW 80.32.080 and 80.32.090. A violation of RCW 80.32.080 and 80.32.090 shall cause the forfeiture of the corporate franchise if the corporation refuses or neglects to comply with the orders with respect thereto made in the suit herein provided for. 80.36.005 Definition of "department." As used in this chapter, unless the context indicates otherwise, "department" means the department of social and health services. [1993 c 249 § 1.]

Effective date—1993 c 249: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 7, 1993]." [1993 c 249 § 4.]

80.36.010 Eminent domain. The right of eminent domain is hereby extended to all telecommunications companies organized or doing business in this state. [1985 c 450 § 15; 1961 c 14 § 80.36.010. Prior: 1890 p 292 § 1; RRS § 11338.]

80.36.020 Right of entry. Every corporation incorporated under the laws of this state or any state or territory of the United States for the purpose of constructing, operating or maintaining any telecommunications line in this state shall have the right to enter upon any land between the termini of its proposed telecommunications lines for the purpose of examining, locating and surveying the telecommunications line, doing no unnecessary damage thereby. [1985 c 450 § 16; 1961 c 14 § 80.36.020. Prior: 1888 p 65 § 1; RRS § 11339.]

80.36.030 Extent of appropriation. Such telecommunications company may appropriate so much land as may be actually necessary for its telecommunications line, with the right to enter upon lands immediately adjacent thereto, for the purpose of constructing, maintaining and operating its line and making all necessary repair. Such telecommunications company may also, for the purpose aforesaid, enter upon and appropriate such portion of the right-of-way of any railroad company as may be necessary for the construction, maintenance and operation of its telecommunications line: PROVIDED, That such appropriation shall not obstruct such railroad of the travel thereupon, nor interfere with the operation of such railroad. [1985 c 450 § 17; 1961 c 14 § 80.36.030. Prior: 1888 p 66 § 2; RRS § 11342.]

80.36.040 Use of road, street, and railroad right-of-way—When consent of city necessary. Any telecommunications company, or the lessees thereof, doing business in this state, shall have the right to construct and maintain all necessary telecommunications lines for public traffic along and upon any public road, street or highway, along or across the right-of-way of any railroad corporation, and may erect

poles, posts, piers or abutments for supporting the insulators, wires and any other necessary fixture of their lines, in such manner and at such points as not to incommode the public use of the railroad or highway, or interrupt the navigation of the waters: PROVIDED, That when the right-of-way of such corporation has not been acquired by or through any grant or donation from the United States, or this state, or any county, city or town therein, then the right to construct and maintain such lines shall be secured only by the exercise of right of eminent domain, as provided by law: PROVIDED FURTHER, That where the right-of-way as herein contemplated is within the corporate limits of any incorporated city, the consent of the city council thereof shall be first obtained before such telecommunications lines can be erected thereon. [1985 c 450 § 18; 1961 c 14 § 80.36.040. Prior: 1890 p 292 § 5; RRS § 11352.]

80.36.050 Use of railroad right-of-way—Penalty for refusal by railroad. Every railroad operated in this state, and carrying freight and passengers for hire, or doing business in this state, is and shall be designated a "post road," and the corporation or company owning the same shall allow telecommunications companies to construct and maintain telecommunications lines on and along the right-of-way of such railroad.

In case of the refusal or neglect of any railroad company or corporation to comply with the provisions of this section, said company or corporation shall be liable for damages in the sum of not less than one thousand dollars nor more than five thousand dollars for each offense, and one hundred dollars per day during the continuance thereof. [1985 c 450 § 19; 1961 c 14 § 80.36.050. Prior: (i) 1890 p 292 § 3; RRS § 11340. (ii) 1890 p 293 § 9; RRS § 11356.]

80.36.060 Liability for wilful injury to telecommunications property. Any person who wilfully and maliciously does any injury to any telecommunications property mentioned in RCW 80.36.070, is liable to the company for five times the amount of actual damages sustained thereby, to be recovered in any court of competent jurisdiction. [1985 c 450 § 20; 1961 c 14 § 80.36.060. Prior: 1890 p 293 § 7; RRS § 11354.]

80.36.070 Liability for negligent injury to property—Notice of underwater cable. Any person who injures or destroys, through want of proper care, any necessary or useful fixtures of any telecommunications company, is liable to the company for all damages sustained thereby. Any vessel which, by dragging its anchor or otherwise, breaks, injures or destroys the subaqueous cable of a telecommunications company, subjects its owners to the damages hereinbefore specified.

No telecommunications company can recover damages for the breaking or injury of any subaqueous telecommunications cable, unless such company has previously erected on either bank of the waters under which the cable is placed, a monument indicating the place where the cable lies, and publishes for one month, in some newspaper most likely to give notice to navigators, a notice giving a description and the purpose of the monuments, and the general course,

landings and termini of the cable. [1985 c 450 § 21; 1961 c 14 § 80.36.070. Prior: (i) 1890 p 293 § 6; RRS § 11353. (ii) 1890 p 293 § 10; RRS § 11357.]

80.36.080 Rates, services, and facilities. All rates, tolls, contracts and charges, rules and regulations of telecommunications companies, for messages, conversations, services rendered and equipment and facilities supplied, whether such message, conversation or service to be performed be over one company or line or over or by two or more companies or lines, shall be fair, just, reasonable and sufficient, and the service so to be rendered any person, firm or corporation by any telecommunications company shall be rendered and performed in a prompt, expeditious and efficient manner and the facilities, instrumentalities and equipment furnished by it shall be safe, kept in good condition and repair, and its appliances, instrumentalities and service shall be modern, adequate, sufficient and efficient. [1985 c 450 § 22; 1961 c 14 § 80.36.080. Prior: 1911 c 117 § 35, part; RRS § 10371, part.]

80.36.090 Service to be furnished on demand. Every telecommunications company operating in this state shall provide and maintain suitable and adequate buildings and facilities therein, or connected therewith, for the accommodation, comfort and convenience of its patrons and employees.

Every telecommunications company shall, upon reasonable notice, furnish to all persons and corporations who may apply therefor and be reasonably entitled thereto suitable and proper facilities and connections for telephonic communication and furnish telephone service as demanded. [1985 c 450 § 23; 1961 c 14 § 80.36.090. Prior: 1911 c 117 § 35, part; RRS § 10371, part.]

80.36.100 Tariff schedules to be filed and open to public. Every telecommunications company shall file with the commission and shall print and keep open to public inspection at such points as the commission may designate, schedules showing the rates, tolls, rentals, and charges of such companies for messages, conversations and services rendered and equipment and facilities supplied for messages and services to be performed within the state between each point upon its line and all other points thereon, and between each point upon its line and all points upon every other similar line operated or controlled by it, and between each point on its line or upon any line leased, operated or controlled by it and all points upon the line of any other similar company, whenever a through service and joint rate shall have been established or ordered between any two such points. If no joint rate covering a through service has been established, the several companies in such through service shall file, print and keep open to public inspection as aforesaid the separately established rates, tolls, rentals, and charges applicable for such through service. The schedules printed as aforesaid shall plainly state the places between which telecommunications service, or both, will be rendered, and shall also state separately all charges and all privileges or facilities granted or allowed, and any rules or regulations which may in anywise change, affect or determine any of the aggregate of the rates, tolls, rentals or charges for the service

rendered. A schedule shall be plainly printed in large type, and a copy thereof shall be kept by every telecommunications company readily accessible to and for convenient inspection by the public at such places as may be designated by the commission, which schedule shall state the rates charged from such station to every other station on such company's line, or on any line controlled and used by it within the state. All or any of such schedules kept as aforesaid shall be immediately produced by such telecommunications company upon the demand of any person. A notice printed in bold type, and stating that such schedules are on file and open to inspection by any person, the places where the same are kept, and that the agent will assist such person to determine from such schedules any rate, toll, rental, rule or regulation which is in force shall be kept posted by every telecommunications company in a conspicuous place in every station or office of such company. [1989 c 101 § 9; 1985 c 450 § 24; 1961 c 14 § 80.36.100. Prior: 1911 c 117 § 36; RRS § 10372.]

80.36.110 Tariff changes—Statutory notice—Exception. Unless the commission otherwise orders, no change shall be made in any rate, toll, rental, or charge, which shall have been filed and published by any telecommunications company in compliance with the requirements of RCW 80.36.100, except after thirty days' notice to the commission and publication for thirty days as required in the case of original schedules in RCW 80.36.100, which notice shall plainly state the changes proposed to be made in the schedule then in force, and the time when the changed rate, toll, or charge will go into effect, and all proposed changes shall be shown by printing, filing and publishing new schedules, or shall be plainly indicated upon the schedules in force at the time and kept open to public inspection. Proposed changes may be suspended by the commission within thirty days or before the stated effective date of the proposed change, whichever is later. The commission for good cause shown may allow changes in rates, charges, tolls, or rentals without requiring the thirty days' notice and publication herein provided for, by an order specifying the change so to be made and the time when it shall take effect, and the manner in which the same shall be filed and published. When any change is made in any rate, toll, rental or charge, the effect of which is to increase any rate, toll, rental or charge then existing, attention shall be directed on the copy filed with the commission to such increase by some character immediately preceding or following the item in such schedule, which character shall be in such form as the commission may designate. [1989 c 152 § 2; 1989 c 101 § 10; 1985 c 450 § 25; 1961 c 14 § 80.36.110. Prior: 1911 c 117 § 37; RRS § 10373.]

Reviser's note: This section was amended by 1989 c 101 § 10 and by 1989 c 152 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

80.36.120 Joint rates, contracts, etc. The names of the several companies which are parties to any joint rates, tolls, contracts or charges of telecommunications companies for messages, conversations and service to be rendered shall be specified therein, and each of the parties thereto, other than the one filing the same, shall file with the commission

such evidence of concurrence therein or acceptance thereof as may be required or approved by the commission; and where such evidence of concurrence or acceptance is filed, it shall not be necessary for the companies filing the same to also file copies of the tariff in which they are named as parties. [1985 c 450 § 26; 1961 c 14 § 80.36.120. Prior: 1911 c 117 § 38; RRS § 10374.]

80.36.130 Published rates to be charged—

Exceptions. (1) Except as provided in RCW 80.04.130 and 80.36.150, no telecommunications company shall charge, demand, collect or receive different compensation for any service rendered or to be rendered than the charge applicable to such service as specified in its schedule on file and in effect at that time, nor shall any telecommunications company refund or remit, directly or indirectly, any portion of the rate or charge so specified, nor extend to any person or corporation any form of contract or agreement or any rule or regulation or any privilege or facility except such as are specified in its schedule filed and in effect at the time, and regularly and uniformly extended to all persons and corporations under like circumstances for like or substantially similar service.

(2) No telecommunications company subject to the provisions of this title shall, directly or indirectly, give any free or reduced service or any free pass or frank for the transmission of messages by telecommunications between points within this state, except to its officers, employees, agents, pensioners, surgeons, physicians, attorneys at law, and their families, and persons and corporations exclusively engaged in charitable and eleemosynary work, and ministers of religion, Young Men's Christian Associations, Young Women's Christian Associations; to indigent and destitute persons, and to officers and employees of other telecommunications companies, railroad companies, and street railroad companies.

(3) The commission may accept a tariff that gives free or reduced rate services for a temporary period of time in order to promote the use of the services. [1992 c 68 § 2; 1989 c 101 § 11; 1985 c 450 § 27; 1961 c 14 § 80.36.130. Prior: 1911 c 117 § 40; RRS § 10376. FORMER PART OF SECTION: 1929 c 96 § 1, part now codified in RCW 81.28.080.]

80.36.135 Alternative regulation of telecommunications companies. (1) The legislature declares that:

(a) Changes in technology and the structure of the telecommunications industry may produce conditions under which traditional rate of return, rate base regulation of telecommunications companies may not in all cases provide the most efficient and effective means of achieving the public policy goals of this state as declared in RCW 80.36.300, this section, and RCW 80.36.145. The commission should be authorized to employ an alternative form of regulation if that alternative is better suited to achieving those policy goals.

(b) Because of the great diversity in the scope and type of services provided by telecommunications companies, alternative regulatory arrangements that meet the varying circumstances of different companies and their ratepayers may be desirable.

(2) Subject to the conditions set forth in this chapter and RCW 80.04.130, the commission may regulate telecommunications companies subject before July 23, 1989, to traditional rate of return, rate base regulation by authorizing an alternative form of regulation. The commission may determine the manner and extent of any alternative forms of regulation as may in the public interest be appropriate. In addition to the public policy goals declared in RCW 80.36.300, the commission shall consider, in determining the appropriateness of any proposed alternative form of regulation, whether it will:

- (a) Reduce regulatory delay and costs;
- (b) Encourage innovation in services;
- (c) Promote efficiency;
- (d) Facilitate the broad dissemination of technological improvements to all classes of ratepayers;
- (e) Enhance the ability of telecommunications companies to respond to competition;
- (f) Ensure that telecommunications companies do not have the opportunity to exercise substantial market power absent effective competition or effective regulatory constraints; and
- (g) Provide fair, just, and reasonable rates for all ratepayers.

The commission shall make written findings of fact as to each of the above-stated policy goals in ruling on any proposed alternative form of regulation.

(3) A telecommunications company or companies subject to traditional rate of return, rate base regulation may petition the commission to establish an alternative form of regulation. The company or companies shall submit with the petition a plan for an alternative form of regulation. The plan shall contain a proposal for transition to the alternative form of regulation. The commission shall review and may modify or reject the proposed plan. The commission also may initiate consideration of alternative forms of regulation for a company or companies on its own motion. The commission may approve the plan or modified plan and authorize its implementation, if it finds, after notice and hearing, that the plan or modified plan:

- (a) Is in the public interest;
- (b) Is necessary to respond to such changes in technology and the structure of the intrastate telecommunications industry as are in fact occurring;
- (c) Is better suited to achieving the policy goals set forth in RCW 80.36.300 and this section than the traditional rate of return, rate base regulation;
- (d) Ensures that ratepayers will benefit from any efficiency gains and cost savings arising out of the regulatory change and will afford ratepayers the opportunity to benefit from improvements in productivity due to technological change;
- (e) Will not result in a degradation of the quality or availability of efficient telecommunications services;
- (f) Will produce fair, just, and reasonable rates for telecommunications services; and
- (g) Will not unduly or unreasonably prejudice or disadvantage any particular customer class.

(4) Not later than sixty days from the entry of the commission's order, the company or companies affected by the order may file with the commission an election not to proceed with the alternative form of regulation as authorized by the commission. If a company elects to appeal to the

courts the final order of the commission authorizing an alternative form of regulation, it shall not change its election to proceed or not proceed after the appeal is concluded. The pendency of a petition by a company for judicial review of the final order shall not serve to extend the sixty-day period.

(5) The commission may waive such regulatory requirements under Title 80 RCW for a telecommunications company subject to an alternative form of regulation as may be appropriate to facilitate the implementation of this section: PROVIDED, That the commission may not grant the authority to price list services except as provided in RCW 80.36.300 through 80.36.370, the regulatory flexibility act, nor may it waive any statutory requirements or grants of legal rights to any person contained in this chapter and chapter 80.04 RCW as amended, except as otherwise expressly provided. The commission may waive different regulatory requirements for different companies or services if such different treatment is in the public interest.

(6) Upon petition by any person, or upon its own motion, the commission may rescind its approval of an alternative form of regulation if, after notice and hearing, it finds that the conditions set forth in subsection (3) of this section can no longer be satisfied. The commission or any person may file a complaint alleging that the rates charged by a telecommunications company under an alternative form of regulation are unfair, unjust, unreasonable, unduly discriminatory, or are otherwise not consistent with the requirements of chapter 101, Laws of 1989: PROVIDED, That the complainant shall bear the burden of proving the allegations in the complaint. [1995 c 110 § 5; 1989 c 101 § 1.]

80.36.140 Rates and services fixed by commission, when. Whenever the commission shall find, after a hearing had upon its own motion or upon complaint, that the rates, charges, tolls or rentals demanded, exacted, charged or collected by any telecommunications company for the transmission of messages by telecommunications, or for the rental or use of any telecommunications line, instrument, wire, appliance, apparatus or device or any telecommunications receiver, transmitter, instrument, wire, cable, apparatus, conduit, machine, appliance or device, or any telecommunications extension or extension system, or that the rules, regulations or practices of any telecommunications company affecting such rates, charges, tolls, rentals or service are unjust, unreasonable, unjustly discriminatory or unduly preferential, or in anywise in violation of law, or that such rates, charges, tolls or rentals are insufficient to yield reasonable compensation for the service rendered, the commission shall determine the just and reasonable rates, charges, tolls or rentals to be thereafter observed and in force, and fix the same by order as provided in this title.

Whenever the commission shall find, after such hearing that the rules, regulations or practices of any telecommunications company are unjust or unreasonable, or that the equipment, facilities or service of any telecommunications company is inadequate, inefficient, improper or insufficient, the commission shall determine the just, reasonable, proper, adequate and efficient rules, regulations, practices, equipment, facilities and service to be thereafter installed, observed and used, and fix the same by order or rule as

provided in this title. [1985 c 450 § 28; 1961 c 14 § 80.36.140. Prior: 1911 c 117 § 55; RRS § 10391.]

80.36.145 Formal investigation and fact-finding—Alternative to full adjudicative proceeding. (1) The legislature declares that the availability of an alternative abbreviated formal procedure for use by the commission instead of a full adjudicative proceeding may in appropriate circumstances advance the public interest by reducing the time required by the commission for decision and the costs incurred by interested parties and ratepayers. Therefore, the commission is authorized to use formal investigation and fact-finding instead of an adjudicative proceeding under chapter 34.05 RCW when it determines that its use is in the public interest and that a full adjudicative hearing is not necessary to fully develop the facts relevant to the proceeding and the positions of the parties, including intervenors.

(2) The commission may use formal investigation and fact-finding instead of the hearing provided in the following circumstances:

(a) A complaint proceeding under RCW 80.04.110 with concurrence of the respondent when the commission is the complainant or with concurrence of the complainant and respondent when not the commission;

(b) A tariff suspension under RCW 80.04.130; or

(c) A competitive classification proceeding under RCW 80.36.320 and 80.36.330.

(3) In formal investigation and fact-finding the commission may limit the record to written submissions by the parties, including intervenors. The commission shall review the written submissions and, based thereon, shall enter appropriate findings of fact and conclusions of law and its order. When there is a reasonable expression of public interest in the issues under consideration, the commission shall hold at least one public hearing for the receipt of information from members of the public that are not formal intervenors in the proceeding and may elect to convert the proceeding to an adjudicative proceeding at any stage. The assignment of an agency employee or administrative law judge to preside at such public hearing shall not require the entry of an initial order.

(4) The commission shall adopt rules of practice and procedure including rules for discovery of information necessary for the use of formal investigation and fact-finding and for the filing of written submissions. The commission may provide by rule for a number of rounds of written comments: PROVIDED, That the party with the burden of proof shall always have the opportunity to file reply comments. [1989 c 101 § 3.]

80.36.150 Contracts filed with commission. (1) Every telecommunications company shall file with the commission, as and when required by it, a copy of any contract, agreement or arrangement in writing with any other telecommunications company, or with any other corporation, association or person relating in any way to the construction, maintenance or use of a telecommunications line or service by, or rates and charges over and upon, any such telecommunications line. The commission shall adopt rules that provide for the filing by telecommunications companies on the public record of the essential terms and conditions of

every contract for service. The commission shall not require that customer proprietary information contained in contracts be disclosed on the public record.

(2) The commission shall not treat contracts as tariffs or price lists. The commission may require noncompetitive service to be tariffed unless the company demonstrates that the use of a contract is in the public interest based upon a customer requirement or a competitive necessity for deviation from tariffed rates, terms and conditions, or that the contract is for a new service with limited demand.

(3) Contracts shall be for a stated time period and shall cover the costs for the service contracted for, as determined by commission rule or order. Contracts shall be enforceable by the contracting parties according to their terms, unless the contract has been rejected by the commission before its stated effective date as improper under the commission's rules and orders, or the requirements of this chapter. If the commission finds a contract to be below cost after it has gone into effect, based on commission rules or orders or the requirements of this chapter in effect at the time of the execution of the contract, it may make the appropriate adjustment to the contracting company's revenue requirement in a subsequent proceeding.

(4) Contracts executed and filed prior to July 23, 1989, are deemed lawful and enforceable by the contracting parties according to the contract terms. If the commission finds that any existing contract provides for rates that are below cost, based on commission rules or orders or the requirements of this chapter in effect at the time of the execution of the contract, it may make the appropriate adjustment to the contracting company's revenue requirement in a subsequent proceeding.

(5) If a contract covers competitive and noncompetitive services, the noncompetitive services shall be unbundled and priced separately from all other services and facilities in the contract. Such noncompetitive services shall be made available to all purchasers under the same or substantially the same circumstances at the same rate, terms, and conditions. [1989 c 101 § 8; 1985 c 450 § 29; 1961 c 14 § 80.36.150. Prior: 1911 c 117 § 39; RRS § 10375.]

80.36.160 Physical connections may be ordered, routing prescribed, and joint rates established. In order to provide toll telephone service where no such service is available, or to promote the most expeditious handling or most direct routing of toll messages and conversations, or to prevent arbitrary or unreasonable practices which may result in the failure to utilize the toll facilities of all telecommunications companies equitably and effectively, the commission may, on its own motion, or upon complaint, notwithstanding any contract or arrangement between telecommunications companies, investigate, ascertain and, after hearing, by order (1) require the construction and maintenance of suitable connections between telephone lines for the transfer of messages and conversations at a common point or points and, if the companies affected fail to agree on the proportion of the cost thereof to be borne by each such company, prescribe said proportion of cost to be borne by each; and/or (2) prescribe the routing of toll messages and conversations over such connections and the practices and regulations to be followed with respect to such routing; and/or (3) establish

reasonable joint rates or charges by or over said lines and connections and just, reasonable and equitable divisions thereof as between the telecommunications companies participating therein.

This section shall not be construed as conferring on the commission jurisdiction, supervision or control of the rates, service or facilities of any mutual, cooperative or farmer line company or association, except for the purpose of carrying out the provisions of this section. [1985 c 450 § 30; 1961 c 14 § 80.36.160. Prior: 1943 c 68 § 1; 1923 c 118 § 1; 1911 c 117 § 73; Rem. Supp. 1943 § 10409.]

80.36.170 Unreasonable preference prohibited. No telecommunications company shall make or give any undue or unreasonable preference or advantage to any person, corporation or locality, or subject any particular person, corporation or locality to any undue or unreasonable prejudice or disadvantage in any respect whatsoever. The commission shall have primary jurisdiction to determine whether any rate, regulation, or practice of a telecommunications company violates this section. This section shall not apply to contracts offered by a telecommunications company classified as competitive or to contracts for services classified as competitive under RCW 80.36.320 and 80.36.330. [1989 c 101 § 4; 1985 c 450 § 31; 1961 c 14 § 80.36.170. Prior: 1911 c 117 § 42; RRS § 10378.]

80.36.180 Rate discrimination prohibited. No telecommunications company shall, directly or indirectly, or by any special rate, rebate, drawback or other device or method, unduly or unreasonably charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or to be rendered with respect to communication by telecommunications or in connection therewith, except as authorized in this title or Title 81 RCW than it charges, demands, collects or receives from any other person or corporation for doing a like and contemporaneous service with respect to communication by telecommunications under the same or substantially the same circumstances and conditions. The commission shall have primary jurisdiction to determine whether any rate, regulation, or practice of a telecommunications company violates this section. This section shall not apply to contracts offered by a telecommunications company classified as competitive or to contracts for services classified as competitive under RCW 80.36.320 or 80.36.330. [1989 c 101 § 5; 1985 c 450 § 32; 1961 c 14 § 80.36.180. Prior: 1911 c 117 § 41; RRS § 10377.]

80.36.183 Discounted message toll rates prohibited—Availability of state-wide, averaged toll rates. Notwithstanding any other provision of this chapter, no telecommunications company shall offer a discounted message toll service based on volume that prohibits aggregation of volumes across all territory with respect to which that company functions as an interexchange carrier. The commission shall continue to have the authority to require state-wide, averaged toll rates to be made available by any telecommunications company subject to its jurisdiction. [1989 c 101 § 6.]

80.36.186 Pricing of or access to noncompetitive services—Unreasonable preference or advantage prohibited. Notwithstanding any other provision of this chapter, no telecommunications company providing noncompetitive services shall, as to the pricing of or access to noncompetitive services, make or grant any undue or unreasonable preference or advantage to itself or to any other person providing telecommunications service, nor subject any telecommunications company to any undue or unreasonable prejudice or competitive disadvantage. The commission shall have primary jurisdiction to determine whether any rate, regulation, or practice of a telecommunications company violates this section. [1989 c 101 § 7.]

80.36.190 Long and short distance provision. No telecommunications company subject to the provisions of this title shall charge or receive any greater compensation in the aggregate for the transmission of any long distance conversation or message of like kind for a shorter than for a longer distance over the same line, in the same direction, within this state, the shorter being included within the longer distance, or charge any greater compensation for a through service than the aggregate of the intermediate rates subject to the provision of this title, but this shall not be construed as authorizing any such telecommunications company to charge and receive as great a compensation for a shorter as for a longer distance. Upon application of any telecommunications company the commission may, by order, authorize it to charge less for longer than for a shorter distance service for the transmission of conversation or messages in special cases after investigation, but the order must specify and prescribe the extent to which the telecommunications company making such application is relieved from the operation of this section, and only to the extent so specified and prescribed shall any telecommunications company be relieved from the requirements of this section. [1985 c 450 § 33; 1961 c 14 § 80.36.190. Prior: 1911 c 117 § 44; RRS § 10380.]

80.36.195 Telecommunications relay system—Long distance discount rates. Each telecommunications company providing intrastate interexchange voice transmission service shall offer discounts from otherwise applicable long distance rates for service used in conjunction with the state-wide relay service authorized under RCW 43.20A.725. Such long distance discounts shall be determined in relation to the additional time required to translate calls through relay operators. In the case of intrastate long distance services provided pursuant to tariff, the commission shall require the incorporation of such discounts. [1992 c 144 § 5.]

Legislative findings—Severability—1992 c 144: See notes following RCW 43.20A.720.

80.36.200 Transmission of messages of other lines. Every telecommunications company operating in this state shall receive, transmit and deliver, without discrimination or delay, the messages of any other telecommunications company. [1985 c 450 § 34; 1961 c 14 § 80.36.200. Prior: 1911 c 117 § 45; RRS § 10381.]

80.36.210 Order of sending messages. It shall be the duty of any telegraph company, doing business in this state, to transmit all dispatches in the order in which they are received, under the penalty of one hundred dollars, to be recovered with costs of suit, by the person or persons whose dispatch is postponed out of its order: PROVIDED, That communications to and from public officers on official business, may have precedence over all other communications: AND, PROVIDED FURTHER, That intelligence of general and public interest may be transmitted for publication out of its order. [1961 c 14 § 80.36.210. Prior: Code 1881 § 2361; RRS § 11344; prior: 1866 p 77 § 20.]

80.36.220 Duty to transmit messages—Penalty for refusal or neglect. Telecommunications companies shall receive, exchange and transmit each other's messages without delay or discrimination, and all telecommunications companies shall receive and transmit messages for any person.

In case of the refusal or neglect of any telecommunications company to comply with the provisions of this section, the penalty for the same shall be a fine of not more than five hundred nor less than one hundred dollars for each offense. [1985 c 450 § 35; 1961 c 14 § 80.36.220. Prior: (i) 1890 p 292 § 2; RRS § 11343. (ii) 1890 p 293 § 8; RRS § 11355.]

80.36.225 Pay telephones—Calls to operator without charge or coin insertion to be provided. All telecommunications companies and customer-owned, pay telephone providers doing business in this state and utilizing pay telephones shall provide a system whereby calls may be made to the operator without charge and without requiring the use of credit cards or other payment devices, or insertion of any coins into such pay telephone. [1985 c 450 § 36; 1975 c 21 § 1.]

Emergency calls, yielding line: Chapter 70.85 RCW.

80.36.230 Exchange areas for telecommunications companies. The commission is hereby granted the power to prescribe exchange area boundaries and/or territorial boundaries for telecommunications companies. [1985 c 450 § 37; 1961 c 14 § 80.36.230. Prior: 1941 c 137 § 1; Rem. Supp. 1941 § 11358-1.]

80.36.240 Exchange areas for telephone companies—Procedure to establish. The commission in conducting hearings, promulgating rules, and otherwise proceeding to make effective the provisions of RCW 80.36.230 and 80.36.240, shall be governed by, and shall have the powers provided in this title, as amended; all provisions as to review of the commission's orders and appeals to the supreme court or the court of appeals contained in said title, as amended, shall be available to all companies and parties affected by the commission's orders issued under authority of RCW 80.36.230 and 80.36.240. [1971 c 81 § 142; 1961 c 14 § 80.36.240. Prior: 1941 c 137 § 2; Rem. Supp. 1941 § 11358-2.]

80.36.250 Commission may complain of interstate rates. The commission may investigate all interstate rates and charges, classifications, or rules or practices relating thereto, for or in relation to the transmission of messages or conversations. Where any acts in relation thereto take place within this state which, in the opinion of the commission, are excessive or discriminatory, or are levied or laid in violation of the federal communications act of June 19, 1934, and acts amendatory thereof or supplementary thereto, or are in conflict with the rulings, orders, or regulations of the Federal Communications Commission, the commission shall apply by petition to the Federal Communications Commission for relief, and may present to such federal commission all facts coming to its knowledge respecting violations of such act or the rulings, orders, or regulations of the federal commission. [1961 c 14 § 80.36.250. Prior: 1911 c 117 § 58; RRS § 10394.]

80.36.260 Betterments may be ordered. Whenever the commission shall find, after a hearing had on its own motion or upon complaint, that repairs or improvements to, or changes in, any telecommunications line ought reasonably be made, or that any additions or extensions should reasonably be made thereto in order to promote the security or convenience of the public or employees, or in order to secure adequate service or facilities for telecommunications communications, the commission shall make and serve an order directing that such repairs, improvements, changes, additions or extensions be made in the manner to be specified therein. [1985 c 450 § 38; 1961 c 14 § 80.36.260. Prior: 1911 c 117 § 71; RRS § 10407.]

80.36.270 Effect on existing contracts. Nothing in this title shall be construed to prevent any telecommunications company from continuing to furnish the use of its line, equipment or service under any contract or contracts in force on June 7, 1911 or upon the taking effect of any schedule or schedules of rates subsequently filed with the commission, as herein provided, at the rates fixed in such contract or contracts. [1989 c 101 § 12; 1985 c 450 § 39; 1961 c 14 § 80.36.270. Prior: 1911 c 117 § 43; RRS § 10379.]

80.36.300 Policy declaration. The legislature declares it is the policy of the state to:

- (1) Preserve affordable universal telecommunications service;
- (2) Maintain and advance the efficiency and availability of telecommunications service;
- (3) Ensure that customers pay only reasonable charges for telecommunications service;
- (4) Ensure that rates for noncompetitive telecommunications services do not subsidize the competitive ventures of regulated telecommunications companies;
- (5) Promote diversity in the supply of telecommunications services and products in telecommunications markets throughout the state; and
- (6) Permit flexible regulation of competitive telecommunications companies and services. [1985 c 450 § 1.]

80.36.310 Classification as competitive telecommunications companies, services—Initiation of proceedings—

Date for final order. Telecommunications companies may petition to be classified as competitive telecommunications companies under RCW 80.36.320 or to have services classified as competitive telecommunications services under RCW 80.36.330. The commission may initiate classification proceedings on its own motion. The commission may require all regulated telecommunications companies potentially affected by a classification proceeding to appear as parties for a determination of their classification. The commission shall enter its final order with respect to classification within ten months from the date of filing of a company's petition or the commission's motion. [1989 c 101 § 14; 1985 c 450 § 3.]

80.36.320 Classification as competitive telecommunications companies, services—Factors considered—Minimal regulation—Equal access—Reclassification. (1) The commission shall classify a telecommunications company providing service in a relevant market as a competitive telecommunications company if it finds, after notice and hearing, that the telecommunications company has demonstrated that the services it offers are subject to effective competition. Effective competition means that the company's customers have reasonably available alternatives and that the company does not have a significant captive customer base. In determining whether a company is competitive, factors the commission shall consider include but are not limited to:

- (a) The number and sizes of alternative providers of service;
- (b) The extent to which services are available from alternative providers in the relevant market;
- (c) The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and
- (d) Other indicators of market power which may include market share, growth in market share, ease of entry, and the affiliation of providers of services.

The commission shall conduct the initial classification and any subsequent review of the classification in accordance with such procedures as the commission may establish by rule.

(2) Competitive telecommunications companies shall be subject to minimal regulation. Minimal regulation means that competitive telecommunications companies may file, instead of tariffs, price lists which shall be effective after ten days' notice to the commission and customers. The commission shall prescribe the form of notice. The commission may also waive other regulatory requirements under this title for competitive telecommunications companies when it determines that competition will serve the same purposes as public interest regulation. The commission may waive different regulatory requirements for different companies if such different treatment is in the public interest. A competitive telecommunications company shall at a minimum:

- (a) Keep its accounts according to regulations as determined by the commission;
- (b) File financial reports with the commission as required by the commission and in a form and at times prescribed by the commission;

(c) Keep on file at the commission such current price lists and service standards as the commission may require; and

(d) Cooperate with commission investigations of customer complaints.

(3) When a telecommunications company has demonstrated that the equal access requirements ordered by the federal district court in the case of *U.S. v. AT&T*, 552 F.Supp. 131 (1982), or in supplemental orders, have been met, the commission shall review the classification of telecommunications companies providing inter-LATA interexchange services. At that time, the commission shall classify all such companies as competitive telecommunications companies unless it finds that effective competition, as defined in subsection (1) of this section, does not then exist.

(4) The commission may revoke any waivers it grants and may reclassify any competitive telecommunications company if such revocation or reclassification would protect the public interest.

(5) The commission may waive the requirements of RCW 80.36.170 and 80.36.180 in whole or in part for a competitive telecommunications company if it finds that competition will serve the same purpose and protect the public interest. [1989 c 101 § 15; 1985 c 450 § 4.]

80.36.330 Classification as competitive telecommunications companies, services—Effective competition defined—Prices and rates—Reclassification. (1) The commission may classify a telecommunications service provided by a telecommunications company as a competitive telecommunications service if it finds, after notice and hearing, that the service is subject to effective competition. Effective competition means that customers of the service have reasonably available alternatives and that the service is not provided to a significant captive customer base. In determining whether a service is competitive, factors the commission shall consider include but are not limited to:

(a) The number and size of alternative providers of services;

(b) The extent to which services are available from alternative providers in the relevant market;

(c) The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and

(d) Other indicators of market power, which may include market share, growth in market share, ease of entry, and the affiliation of providers of services.

(2) When the commission finds that a telecommunications company has demonstrated that a telecommunications service is competitive, the commission may permit the service to be provided under a price list effective on ten days notice to the commission and customers. The commission shall prescribe the form of notice. The commission may adopt procedural rules necessary to implement this section.

(3) Prices or rates charged for competitive telecommunications services shall cover their cost. The commission shall determine proper cost standards to implement this section, provided that in making any assignment of costs or allocating any revenue requirement, the commission shall act to preserve affordable universal telecommunications service.

(4) The commission may investigate prices for competitive telecommunications services upon complaint. In any complaint proceeding initiated by the commission, the telecommunications company providing the service shall bear the burden of proving that the prices charged cover cost, and are fair, just, and reasonable.

(5) Telecommunications companies shall provide the commission with all data it deems necessary to implement this section.

(6) No losses incurred by a telecommunications company in the provision of competitive services may be recovered through rates for noncompetitive services. The commission may order refunds or credits to any class of subscribers to a noncompetitive telecommunications service which has paid excessive rates because of below cost pricing of competitive telecommunications services.

(7) The commission may reclassify any competitive telecommunications service if reclassification would protect the public interest.

(8) The commission may waive the requirements of RCW 80.36.170 and 80.36.180 in whole or in part for a service classified as competitive if it finds that competition will serve the same purpose and protect the public interest. [1989 c 101 § 16; 1985 c 450 § 5.]

80.36.340 Banded rates. The commission may approve a tariff which includes banded rates for any telecommunications service if such tariff is in the public interest. "Banded rate" means a rate which has a minimum and a maximum rate. The minimum rate in the rate band shall cover the cost of the service. Rates may be changed within the rate band upon such notice as the commission may order. [1985 c 450 § 6.]

80.36.350 Registration of new companies. Each telecommunications company not operating under tariff in Washington on January 1, 1985, shall register with the commission before beginning operations in this state. The registration shall be on a form prescribed by the commission and shall contain such information as the commission may by rule require, but shall include as a minimum the name and address of the company; the name and address of its registered agent, if any; the name, address, and title of each officer or director; its most current balance sheet; its latest annual report, if any; and a description of the telecommunications services it offers or intends to offer.

The commission may require as a precondition to registration the procurement of a performance bond sufficient to cover any advances or deposits the telecommunications company may collect from its customers, or order that such advances or deposits be held in escrow or trust.

The commission may deny registration to any telecommunications company which:

(1) Does not provide the information required by this section;

(2) Fails to provide a performance bond, if required;

(3) Does not possess adequate financial resources to provide the proposed service; or

(4) Does not possess adequate technical competency to provide the proposed service.

The commission shall take action to approve or issue a notice of hearing concerning any application for registration within thirty days after receiving the application. The commission may approve an application with or without a hearing. The commission may deny an application after a hearing.

A telecommunications company may also submit a petition for competitive classification under RCW 80.36.310 at the time it applies for registration. The commission may act on the registration application and the competitive classification petition at the same time. [1990 c 10 § 1; 1985 c 450 § 7.]

80.36.360 Exempted actions or transactions. For the purposes of RCW 19.86.170, actions or transactions of competitive telecommunications companies, or associated with competitive telecommunications services, shall not be deemed otherwise permitted, prohibited, or regulated by the commission. [1985 c 450 § 8.]

80.36.370 Certain services not regulated. The commission shall not regulate the following:

(1) One way broadcast or cable television transmission of television or radio signals;

(2) Private telecommunications systems;

(3) Telegraph services;

(4) Any sale, lease, or use of customer premises equipment except such equipment as is regulated on July 28, 1985;

(5) Private shared telecommunications services, unless the commission finds, upon notice and investigation, that customers of such services have no alternative access to local exchange telecommunications companies. If the commission makes such a finding, it may require the private shared telecommunications services provider to make alternative facilities or conduit space available on reasonable terms and conditions at reasonable prices;

(6) Radio communications services provided by a regulated telecommunications company, except that when those services are the only voice grade, local exchange telecommunications service available to a customer of the company the commission may regulate the radio communication service of that company. [1990 c 118 § 1; 1985 c 450 § 9.]

80.36.375 Personal wireless services—Siting microcells—Definitions. (1) If a personal wireless service provider applies to site several microcells in a single geographical area:

(a) If one or more of the microcells are not exempt from the requirements of RCW 43.21C.030(2)(c), local governmental entities are encouraged: (i) To allow the applicant, at the applicant's discretion, to file a single set of documents required by chapter 43.21C RCW that will apply to all the microcells to be sited; and (ii) to render decisions under chapter 43.21C RCW regarding all the microcells in a single administrative proceeding; and

(b) Local governmental entities are encouraged: (i) To allow the applicant, at the applicant's discretion, to file a single set of documents for land use permits that will apply to all the microcells to be sited; and (ii) to render decisions

regarding land use permits for all the microcells in a single administrative proceeding.

(2) For the purposes of this section:

(a) "Personal wireless services" means commercial mobile services, unlicensed wireless services, and common carrier wireless exchange access services, as defined by federal laws and regulations.

(b) "Microcell" means a wireless communication facility consisting of an antenna that is either: (i) Four feet in height and with an area of not more than five hundred eighty square inches; or (ii) if a tubular antenna, no more than four inches in diameter and no more than six feet in length. [1996 c 323 § 3.]

Findings—1996 c 323: See note following RCW 43.70.600.

80.36.380 Report. Subject to RCW 40.07.040, the commission shall provide the legislature with a biennial report through 1991 on the status of the Washington telecommunications industry. The report shall describe the competitiveness of all markets as defined by the commission; the availability of diverse and affordable telecommunications services to all people of Washington, particularly to customers in rural or sparsely populated areas; and the level of rates for local exchange and interexchange telecommunications service. The report also shall address the quality and extent of the state's telecommunications infrastructure. The report also shall address the question of whether competition in certain markets has developed to such an extent that the commission recommends additional regulatory flexibility such as detariffing or total deregulation and the evidence therefor; and the need for further legislation to achieve the purposes of RCW 80.36.300 through 80.36.370 and 80.04.010. The commission shall also monitor cost of service methodologies and shall recommend to the legislature whether cost of service ratemaking shall become a standard for telecommunications services. [1987 c 505 § 78; 1987 c 293 § 6; 1985 c 450 § 41.]

Reviser's note: This section was amended by 1987 c 293 § 6 and by 1987 c 505 § 78, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

80.36.390 Telephone solicitation. (1) As used in this section, "telephone solicitation" means the unsolicited initiation of a telephone call by a commercial or nonprofit company or organization to a residential telephone customer and conversation for the purpose of encouraging a person to purchase property, goods, or services or soliciting donations of money, property, goods, or services. "Telephone solicitation" does not include:

(a) Calls made in response to a request or inquiry by the called party. This includes calls regarding an item that has been purchased by the called party from the company or organization during a period not longer than twelve months prior to the telephone contact;

(b) Calls made by a not-for-profit organization to its own list of bona fide or active members of the organization;

(c) Calls limited to polling or soliciting the expression of ideas, opinions, or votes; or

(d) Business-to-business contacts.

For purposes of this section, each individual real estate agent or insurance agent who maintains a separate list from

other individual real estate or insurance agents shall be treated as a company or organization. For purposes of this section, an organization as defined in RCW 29.01.090 or 29.01.100 and organized pursuant to RCW 29.42.010 shall not be considered a commercial or nonprofit company or organization.

(2) A person making a telephone solicitation must identify him or herself and the company or organization on whose behalf the solicitation is being made and the purpose of the call within the first thirty seconds of the telephone call.

(3) If, at any time during the telephone contact, the called party states or indicates that he or she does not wish to be called again by the company or organization or wants to have his or her name and individual telephone number removed from the telephone lists used by the company or organization making the telephone solicitation, then:

(a) The company or organization shall not make any additional telephone solicitation of the called party at that telephone number within a period of at least one year; and

(b) The company or organization shall not sell or give the called party's name and telephone number to another company or organization: PROVIDED, That the company or organization may return the list, including the called party's name and telephone number, to the company or organization from which it received the list.

(4) A violation of subsection (2) or (3) of this section is punishable by a fine of up to one thousand dollars for each violation.

(5) The attorney general may bring actions to enforce compliance with this section. For the first violation by any company or organization of this section, the attorney general shall notify the company with a letter of warning that the section has been violated.

(6) A person aggrieved by repeated violations of this section may bring a civil action in superior court to enjoin future violations, to recover damages, or both. The court shall award damages of at least one hundred dollars for each individual violation of this section. If the aggrieved person prevails in a civil action under this subsection, the court shall award the aggrieved person reasonable attorneys' fees and cost of the suit.

(7) The utilities and transportation commission shall by rule ensure that telecommunications companies inform their residential customers of the provisions of this section. The notification may be made by (a) annual inserts in the billing statements mailed to residential customers, or (b) conspicuous publication of the notice in the consumer information pages of local telephone directories. [1987 c 229 § 13; 1986 c 277 § 2.]

Legislative finding—1986 c 277: "The legislature finds that certain kinds of telephone solicitation are increasing and that these solicitations interfere with the legitimate privacy rights of the citizens of the state. A study conducted by the utilities and transportation commission, as directed by the forty-ninth legislature, has found that the level of telephone solicitation in this state is significant to warrant regulatory action to protect the privacy rights of the citizens of the state. It is the intent of the legislature to clarify and establish the rights of individuals to reject unwanted telephone solicitations." [1986 c 277 § 1.]

Charitable solicitations: Chapter 19.09 RCW.

80.36.400 Automatic dialing and announcing device—Commercial solicitation by. (1) As used in this section:

(a) An automatic dialing and announcing device is a device which automatically dials telephone numbers and plays a recorded message once a connection is made.

(b) Commercial solicitation means the unsolicited initiation of a telephone conversation for the purpose of encouraging a person to purchase property, goods, or services.

(2) No person may use an automatic dialing and announcing device for purposes of commercial solicitation. This section applies to all commercial solicitation intended to be received by telephone customers within the state.

(3) A violation of this section is a violation of chapter 19.86 RCW. It shall be presumed that damages to the recipient of commercial solicitations made using an automatic dialing and announcing device are five hundred dollars.

(4) Nothing in this section shall be construed to prevent the Washington utilities and transportation commission from adopting additional rules regulating automatic dialing and announcing devices. [1986 c 281 § 2.]

Legislative finding—1986 c 281: "The legislature finds that the use of automatic dialing and announcing devices for purposes of commercial solicitation: (1) Deprives consumers of the opportunity to immediately question a seller about the veracity of their claims; (2) subjects consumers to unwarranted invasions of their privacy; and (3) encourages inefficient and potentially harmful use of the telephone network. The legislature further finds that it is in the public interest to prohibit the use of automatic dialing and announcing devices for purposes of commercial solicitation." [1986 c 281 § 1.]

80.36.410 *Lifeline service—Legislative finding. (*Expires June 30, 1998.*) The legislature finds that universal telephone service is an important policy goal of the state. The legislature further finds that recent changes in the telecommunications industry, such as federal access charges, raise concerns about the ability of low-income persons to continue to afford access to local exchange telephone service. Therefore, the legislature finds that it is in the public interest to take steps to mitigate the effects of these changes on low-income persons. [1987 c 229 § 3.]

***Reviser's note:** References to "lifeline service" were changed to "Washington telephone assistance program" by 1990 c 170.

Expiration date—1993 c 249; 1990 c 170; 1987 c 229 § 3-10: "RCW 80.36.410 through 80.36.470 shall expire June 30, 1998, unless extended by the legislature." [1993 c 249 § 3; 1990 c 170 § 8; 1987 c 229 § 12.]

80.36.420 Washington telephone assistance program—Availability, components. (*Expires June 30, 1998.*) The Washington telephone assistance program shall be available to participants of department programs set forth in RCW 80.36.470. Assistance shall consist of the following components:

(1) A discount on service connection fees of fifty percent or more as set forth in RCW 80.36.460.

(2) A waiver of deposit requirements on local exchange service, as set forth in RCW 80.36.460.

(3) A discounted flat rate service for local exchange service, which shall be subject to the following conditions:

(a) The commission shall establish a single telephone assistance rate for all local exchange companies operating in

the state of Washington. The telephone assistance rate shall include any federal end user access charges and any other charges necessary to obtain local exchange service.

(b) The commission shall, in establishing the telephone assistance rate, consider all charges for local exchange service, including federal end user access charges, mileage charges, extended area service, and any other charges necessary to obtain local exchange service.

(c) The telephone assistance rate shall only be available to eligible customers subscribing to the lowest available local exchange flat rate service, where the lowest local exchange flat rate, including any federal end user access charges and any other charges necessary to obtain local exchange service, is greater than the telephone assistance rate. Low-income senior citizens sixty years of age and older and other low-income persons identified by the department as medically needy shall, where single-party service is available, be provided with single-party service as the lowest available local exchange flat rate service.

(d) The cost of providing the service shall be paid, to the maximum extent possible, by a waiver of all or part of the federal end user access charge and, to the extent necessary, from the telephone assistance fund created by RCW 80.36.430. [1990 c 170 § 2; 1987 c 229 § 4.]

Expiration date—1993 c 249; 1990 c 170; 1987 c 229 §§ 3-10: See note following RCW 80.36.410.

80.36.430 Washington telephone assistance program—Excise tax. (*Expires June 30, 1998.*) The Washington telephone assistance program shall be funded by a telephone assistance excise tax on all switched access lines and by funds from any federal government or other programs for this purpose. Switched access lines are defined in *RCW 82.14B.020. The telephone assistance excise tax shall be applied equally to all residential and business access lines not to exceed fourteen cents per month. The telephone assistance excise tax shall be separately identified on each ratepayer's bill as the "Washington telephone assistance program." All money collected from the telephone assistance excise tax shall be transferred to a telephone assistance fund administered by the department. Local exchange companies shall bill the fund for their expenses incurred in offering the telephone assistance program, including administrative and program expenses. The department shall disburse the money to the local exchange companies. The department is exempted from having to conclude a contract with local exchange companies in order to effect this reimbursement. The department shall recover its administrative costs from the fund. The department may specify by rule the range and extent of administrative and program expenses that will be reimbursed to local exchange companies. [1990 c 170 § 3; 1987 c 229 § 5.]

Expiration date—1993 c 249; 1990 c 170; 1987 c 229 §§ 3-10: See note following RCW 80.36.410.

80.36.460 Washington telephone assistance program—Deposit waivers, connection fee discounts. (*Expires June 30, 1998.*) Local exchange companies shall file tariffs with the commission which waive deposits on local exchange service for eligible subscribers and which establish a fifty percent discount on service connection fees for eligible subscribers. Part or all of the remaining fifty percent of service connection fees may be paid by funds from federal government or other programs for this purpose. The commission or other appropriate agency shall make timely application for any available federal funds. The remaining portion of the connection fee to be paid by the subscriber shall be expressly payable by installment fees spread over a period of months. A subscriber may, however, choose to pay the connection fee in a lump sum. Costs associated with the waiver and discount shall be accounted for separately and recovered from the telephone assistance fund. (*Expires June 30, 1998.*) Adult recipients of department-administered programs for the financially needy which provide continuing financial or medical assistance, food stamps, or supportive services to persons in their own homes are eligible for participation in the telephone assistance program. The department shall notify the participants of their eligibility. [1990 c 170 § 6; 1987 c 229 § 9.]

Expiration date—1993 c 249; 1990 c 170; 1987 c 229 §§ 3-10: See note following RCW 80.36.410.

The department shall report to the energy and utilities committees of the house of representatives and the senate by December 1 of each year on the status of the Washington telephone assistance program. The report shall include the number of participants by qualifying social service programs receiving benefits from the telephone assistance program and the type of benefits participants receive. The report shall also include a description of the geographical distribution of participants, the program's annual revenue and expenditures, and any recommendations for legislative action. 80.36.500 Information delivery services through exclusive number prefix or service access code. (1) As used in this section:

(a) "Information delivery services" means telephone recorded messages, interactive programs, or other information services that are provided for a charge to a caller through an exclusive telephone number prefix or service access code.

(b) "Information providers" means the persons or corporations that provide the information, prerecorded message, or interactive program for the information delivery service. The information provider generally receives a portion of the revenue from the calls.

(c) "Interactive program" means a program that allows an information delivery service caller, once connected to the information provider's announcement machine, to use the caller's telephone device to access more specific information.

(2) The utilities and transportation commission shall by rule require any local exchange company that offers information delivery services to a local telephone exchange to provide each residential telephone subscriber the opportunity to block access to all information delivery services offered through the local exchange company. The rule shall take effect by October 1, 1988.

(3) All costs of complying with this section shall be borne by the information providers.

(4) The local exchange company shall inform subscribers of the availability of the blocking service through a bill insert and by publication in a local telephone directory. [1991 c 191 § 8; 1988 c 123 § 2.]

Legislative finding, intent—1988 c 123: "(1) The legislature finds that throughout the state there is widespread use of information delivery services, which are also known as information-access telephone services and commonly provided on a designated telephone number prefix. These services operate on a charge-per-call basis, providing revenue for both the information provider and the local exchange company. The marketing practices for these telephone services have at times been misleading to consumers and at other times specifically directed toward minors. The result has been placement of calls by individuals, particularly by children, who are uninformed about the charges that might apply. In addition, children may have secured access to obscene, indecent, and salacious material through these services. The legislature finds that these services can be blocked by certain local exchange companies at switching locations, and that devices exist which allow for blocking within a residence. Therefore, the legislature finds that residential telephone users in the state are entitled to the option of having their phones blocked from access to information delivery services.

(2) It is the intent of the legislature that the utilities and transportation commission and local exchange companies, to the extent feasible, distinguish between information delivery services that are misleading to consumers, directed at minors, or otherwise objectionable and adopt policies and rules that accomplish the purposes of RCW 80.36.500 with the least adverse effect on information delivery services that are not misleading to consumers, directed at minors, or otherwise objectionable." [1988 c 123 § 1.]

Investigation and report by commission: "By October 1, 1988, the commission shall investigate and report to the committees on energy and utilities in the house of representatives and the senate on methods to protect minors from obscene, indecent, and salacious materials available through the use of information delivery services. The investigation shall include a study of personal identification numbers, credit cards, scramblers, and beep-tone devices as methods of limiting access." [1988 c 123 § 3.]

Severability—1988 c 123: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1988 c 123 § 4.]

Information delivery services: Chapter 19.162 RCW.

80.36.510 Legislative finding. The legislature finds that a growing number of companies provide, in a nonresidential setting, telecommunications services necessary to long distance service without disclosing the services provided or the rate, charge or fee. The legislature finds that provision of these services without disclosure to consumers is a deceptive trade practice. [1988 c 91 § 1.]

80.36.520 Disclosure of alternate operator services. The utilities and transportation commission shall by rule require, at a minimum, that any telecommunications company, operating as or contracting with an alternate operator services company, assure appropriate disclosure to consumers of the provision and the rate, charge or fee of services provided by an alternate operator services company.

For the purposes of this chapter, "alternate operator services company" means a person providing a connection to intrastate or interstate long-distance services from places including, but not limited to, hotels, motels, hospitals, and customer-owned pay telephones. [1988 c 91 § 2.]

80.36.522 Alternate operator service companies—Registration—Penalties. All alternate operator service companies providing services within the state shall register with the commission as a telecommunications company before providing alternate operator services. The commission may deny an application for registration of an alternate operator services company if, after a hearing, it finds that the services and charges to be offered by the company are not for the public convenience and advantage. The commission may suspend the registration of an alternate operator services company if, after a hearing, it finds that the company does not meet the service or disclosure requirements of the commission. Any alternate operator services company that provides service without being properly registered with the commission shall be subject to a penalty of not less than five hundred dollars and not more than one thousand dollars for each and every offense. In case of a continuing offense, every day's continuance shall be a separate offense. The penalty shall be recovered in an action as provided in RCW 80.04.400. [1990 c 247 § 2.]

80.36.524 Alternate operator service companies—Rules. The commission may adopt rules that provide for minimum service levels for telecommunications companies providing alternate operator services. The rules may provide a means for suspending the registration of a company providing alternate operator services if the company fails to meet minimum service levels or if the company fails to provide appropriate disclosure to consumers of the protection afforded under this chapter. [1990 c 247 § 3.]

80.36.530 Violation of consumer protection act—Damages. In addition to the penalties provided in this title, a violation of RCW 80.36.510, 80.36.520, or 80.36.524 constitutes an unfair or deceptive act in trade or commerce in violation of chapter 19.86 RCW, the consumer protection act. Acts in violation of RCW 80.36.510, 80.36.520, or 80.36.524 are not reasonable in relation to the development and preservation of business, and constitute matters vitally

affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. It shall be presumed that damages to the consumer are equal to the cost of the service provided plus two hundred dollars. Additional damages must be proved. [1990 c 247 § 4; 1988 c 91 § 3.]

80.36.540 Telefacsimile messages—Unsolicited transmission—Penalties. (1) As used in this section, "telefacsimile message" means the transmittal of electronic signals over telephone lines for conversion into written text.

(2) No person, corporation, partnership, or association shall initiate the unsolicited transmission of telefacsimile messages promoting goods or services for purchase by the recipient.

(3)(a) Except as provided in (b) of this subsection, this section shall not apply to telefacsimile messages sent to a recipient with whom the initiator has had a prior contractual or business relationship.

(b) A person shall not initiate an unsolicited telefacsimile message under the provisions of (a) of this subsection if the person knew or reasonably should have known that the recipient is a governmental entity.

(4) Notwithstanding subsection (3) of this section, it is unlawful to initiate any telefacsimile message to a recipient who has previously sent a written or telefacsimile message to the initiator clearly indicating that the recipient does not want to receive telefacsimile messages from the initiator.

(5) The unsolicited transmission of telefacsimile messages promoting goods or services for purchase by the recipient is a matter affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. The transmission of unsolicited telefacsimile messages is not reasonable in relation to the development and preservation of business. A violation of this section is an unfair or deceptive act in trade or commerce for the purpose of applying the consumer protection act, chapter 19.86 RCW. Damages to the recipient of telefacsimile messages in violation of this section are five hundred dollars or actual damages, whichever is greater.

(6) Nothing in this section shall be construed to prevent the Washington utilities and transportation commission from adopting additional rules regulating transmissions of telefacsimile messages. [1990 c 221 § 1.]

80.36.555 Enhanced 911 service—Residential service required. By January 1, 1997, or one year after enhanced 911 service becomes available or a private switch automatic location identification service approved by the Washington utilities and transportation commission is available from the serving local exchange telecommunications company, whichever is later, any private shared telecommunications services provider that provides service to residential customers shall assure that the telecommunications system is connected to the public switched network such that calls to 911 result in automatic location identification for each residential unit in a format that is compatible with the existing or planned county enhanced 911 system. [1995 c 243 § 3.]

Findings—1995 c 243: "The legislature finds that citizens of the state increasingly rely on the dependability of enhanced 911, a system that allows the person answering an emergency call to immediately determine the location of the emergency without the need of the caller to speak. The

legislature further finds that in some cases, calls made from telephones connected to private telephone systems may not be precisely located by the answerer, eliminating some of the benefit of enhanced 911, and that this condition could additionally imperil citizens calling from these locations in an emergency. The legislature also finds that until national standards have been developed to address this condition, information-forwarding requirements should be mandated for only those settings with the most risk, including schools, residences, and some business settings." [1995 c 243 § 1.]

Severability—1995 c 243: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 c 243 § 12.]

80.36.560 Enhanced 911 service—Business service required. By January 1, 1997, or one year after enhanced 911 service becomes available or a private switch automatic location identification service approved by the Washington utilities and transportation commission is available from the serving local exchange telecommunications company, whichever is later, any commercial shared services provider of private shared telecommunications services for hire or resale to the general public to multiple unaffiliated business users from a single system shall assure that such a system is connected to the public switched network such that calls to 911 result in automatic location identification for each telephone in a format that is compatible with the existing or planned county enhanced 911 system. This section shall apply only to providers of service to businesses containing a physical area exceeding twenty-five thousand square feet, or businesses on more than one floor of a building, or businesses in multiple buildings. [1995 c 243 § 5.]

Findings—Severability—1995 c 243: See notes following RCW 80.36.555.

80.36.850 Extended area service defined. As used in RCW 80.36.855, "extended area service" means the ability to call from one exchange to another exchange without incurring a toll charge. [1989 c 282 § 2.]

Policy—Program limitations—Report to legislative committees—Program expiration—1989 c 282: See notes following RCW 80.36.855.

80.36.855 Extended area service program. Any business, resident, or community may petition for and shall receive extended area service within the service territory of the local exchange company that provides service to the petitioner under the following conditions:

(1) Any customer, business or residential, interested in obtaining extended area service in their community must collect and submit to the commission the signatures of a representative majority of affected customers in the community. A "representative majority" for purposes of this section consists of fifteen percent of the access lines in that community;

(2) After receipt of the signatures, the commission shall authorize a study to be conducted by the affected local exchange company in order to determine whether a community of interest exists for the implementation of extended area service. For purposes of this section a community of interest shall be found if the average number of calls per customer per month from the area petitioning for extended area service to the area to which extended area service will be implemented is at least five;

(3) If a community of interest exists, the commission shall then calculate any increased rate that would be applied to the area which would have extended area service granted to it. This rate shall be based on the charges to a rate group having the same or similar calling capability as set forth in the tariffs of the local exchange telecommunications company involved;

(4) The affected telecommunications company shall be given the opportunity to propose an alternative plan that might be priced differently and that plan shall be included in the poll of subscribers as an alternative under subsection (5) of this section;

(5) After determining the amount of any additional rate, the commission shall notify the subscribers who will be affected by the increased rate and conduct a poll of those subscribers. If a simple majority votes its approval the commission shall order extended area service; and

(6) Any extended area service program adopted pursuant to this section shall be considered experimental and not binding on the commission in subsequent extended area service proceedings. If an extended area service program adopted pursuant to this section results in a revenue deficiency for a local exchange company, the commission shall allocate the resulting revenue requirement in a manner which produces fair, just and reasonable rates for all classes of customers. [1989 c 282 § 3.]

Policy—1989 c 282: "Universal telephone service for the people of the state of Washington is a policy goal of the legislature and has been enacted previously into Washington law. Access to universal and affordable telephone service enhances the economic and social well-being of Washington citizens." [1989 c 282 § 1.]

Program limitations—Report to legislative committees—1989 c 282: "The pilot program specified in sections 2 and 3 of this act applies only to extended area service petitions which meet the conditions under section 3 of this act, and have been filed with the commission by January 1, 1989. Any petitions for extended area service filed after January 1, 1989, shall be addressed under terms and conditions determined by the commission. By December 1, 1990, the commission shall submit to the energy and utilities committees of the house of representatives and the senate a report on extended area service. The report shall include:

(1) The status of any experimental, pilot program which provides extended area service developed under this section, and whether such an experimental, pilot program approach should continue to be made available;

(2) The status of all extended area service petitions pending at the commission;

(3) Commission action on the recommendations of the local extended calling advisory committee; and

(4) Commission recommendations for any other legislation addressing the issue of extended area service." [1989 c 282 § 4.] Section 2 of this act is the enactment of RCW 80.36.850. Section 3 of this act is the enactment of RCW 80.36.855.

Program expiration—1989 c 282: "The extended area service program under sections 2 through 5 of this act shall expire on December 1, 1990, except for any extended area service obtained by any business residence or community and put in place under section 3 of this act." [1989 c 282 § 5.] Sections 2 through 5 of this act are the enactment of RCW 80.36.850, 80.36.855, the above note, and this section. Section 3 of this act is the enactment of RCW 80.36.855.

80.36.860 Feasibility study—Report. The utilities and transportation commission shall study the feasibility of the elimination, by January 1, 1992, of multiparty lines and mileage charges in all telephone exchanges throughout the state and the relationship between mileage charges and extended area service. The study shall include recommendations as to methods to equitably share the costs of any such program, any recommendations for legislative action, and an

analysis of technological changes which may alter the telecommunications network in the next decade. The utilities and transportation commission shall report the results of the study to the energy and utilities committees of the house of representatives and the senate by December 1, 1989. [1989 c 282 § 6.]

Policy—Program limitations—Report to legislative committees—Program expiration—1989 c 282: See notes following RCW 80.36.855.

80.36.900 Severability—1985 c 450. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1985 c 450 § 42.]

80.36.901 Legislative review of 1985 c 450—1989 c 101. The legislature shall conduct an intensive review of chapter 450, Laws of 1985 during the 1991-1993 biennium to determine whether the purposes of chapter 450, Laws of 1985 have been achieved and if further relaxation of regulatory requirements is in the public interest. [1989 c 101 § 18; 1985 c 450 § 44.]

80.40.010 Definitions. As used in this chapter, unless specifically defined otherwise or unless the context indicates otherwise:

"Commission" shall mean the Washington utilities and transportation commission;

"Committee" shall mean the oil and gas conservation committee established by *RCW 78.52.020;

"Natural gas" shall mean gas either in the earth in its original state or after the same has been produced by removal therefrom of component parts not essential to its use for light and fuel;

"Natural gas company" shall mean every corporation, company, association, joint stock association, partnership or person authorized to do business in this state and engaged in the transportation, distribution, or underground storage of natural gas;

"Underground reservoir" shall mean any subsurface sand, strata, formation, aquifer, cavern or void whether natural or artificially created, suitable for the injection and storage of natural gas therein and the withdrawal of natural gas therefrom;

"Underground storage" shall mean the process of injecting and storing natural gas within and withdrawing natural gas from an underground reservoir: PROVIDED, The withdrawal of gas from an underground reservoir shall not be deemed a taking or producing within the terms of RCW 82.04.100. [1963 c 201 § 2.]

*Reviser's note: RCW 78.52.020 was repealed by 1994 sp.s. c 9 § 869, effective July 1, 1994.

80.40.020 Declaration concerning the public interest. The underground storage of natural gas will promote the economic development of the state and provide for more economic distribution of natural gas to the domestic, commercial and industrial consumers of this state, thereby serving the public interest. [1963 c 201 § 3.]

80.40.030 Eminent domain. Any natural gas company having received an order under RCW 80.40.040 shall have the right of eminent domain to be exercised in the manner provided in and subject to the provisions of chapter 8.20 RCW to acquire for its use for the underground storage of natural gas any underground reservoir, as well as such other property or interests in property as may be required to adequately maintain and utilize the underground reservoir for the underground storage of natural gas, including easements and rights of way for access to and egress from the underground storage reservoir. The right of eminent domain granted hereby shall apply to property or property interests held in private ownership, provided condemnor has exercised good faith in negotiations for private sale or lease. No property shall be taken or damaged until the compensation to be made therefor shall have been ascertained and paid. Any property or interest therein so acquired by any natural gas company shall be used exclusively for the purposes for which it was acquired. Any decree of appropriation hereunder shall define and limit the rights condemned and shall provide for the reversion of such rights to the defendant or defendants or their successors in interest upon abandonment of the underground storage project. Good faith exploration work or development work relative to the storage reservoir is conclusive evidence that its use has not been abandoned. The court may include in such decree such other relevant conditions, covenants and restrictions as it may deem fair and equitable. [1963 c 201 § 4.]

80.40.040 Eminent domain—Application to *oil and gas conservation committee prerequisite to eminent domain—Procedure. Any natural gas company desiring to exercise the right of eminent domain to condemn any property or interest in property for the underground storage of natural gas shall first make application to the *oil and gas conservation committee for an order approving the proposed project. Notice of such application shall be given by the committee to the utilities and transportation commission, to the director of ecology, to the commissioner of public lands, and to all other persons known to have an interest in the property to be condemned. Said notice shall be given in the manner provided by RCW 8.20.020 as amended. The committee shall publish notice of said application at least once each week for three successive weeks in some newspaper of general circulation in the county or counties where the

proposed underground storage project is located. If no written requests for hearing on the application are received by the committee within forty-five days from the date of service of notice of the application and publication thereof, the committee may proceed without hearing and issue its order. If a hearing is requested, a public hearing on the application will be held within the county or one of the counties where the proposed underground storage project is located. Any order approving the proposed underground storage project shall contain findings that (1) the underground storage of natural gas in the lands or property sought to be condemned is in the public interest and welfare; (2) the underground reservoir is reasonably practicable, and the applicant has complied with all applicable oil and gas conservation laws of the state of Washington; (3) the underground reservoir sought to be condemned is nonproductive of economically recoverable valuable minerals or materials, or of oil or gas in commercial quantities under either primary or secondary recovery methods, and nonproductive of fresh water in commercial quantities with feasible and reasonable pumping lift; (4) the natural gas company has acquired the right by grant, lease or other agreement to store natural gas under at least sixty-five percent of the area of the surface of the land under which such proposed underground storage reservoir extends; (5) the natural gas company carries public liability insurance or has deposited collateral in amounts satisfactory to the committee or has furnished a financial statement showing assets in a satisfactory amount, to secure payment of any liability resulting from any occurrence arising out of or caused by the operation or use of any underground reservoir or facilities incidental thereto; (6) the underground storage project will not injure, pollute, or contaminate any usable fresh water resources; (7) the underground storage project will not injure, interfere with, or endanger any mineral resources or the development or extraction thereof. The order of the committee may be reviewed in the manner provided by chapter 34.05 RCW: PROVIDED, That if an appeal is not commenced within thirty days of the date of the order of the committee, the same shall be final and conclusive. [1988 c 127 § 35; 1963 c 201 § 5.]

*Reviser's note: The duties of the oil and gas conservation committee were transferred to the department of natural resources by 1994 sp.s. c 9, effective July 1, 1994.

80.40.050 Rights of company using storage—Rights of owners of condemned land and interests therein. All natural gas in an underground reservoir utilized for underground storage, whether acquired by eminent domain or otherwise, shall at all times be the property of the natural gas company utilizing said underground storage, its heirs, successors, or assigns; and in no event shall such gas be subject to any right of the owner of the surface of the land under which said underground reservoir lies or of the owner of any mineral interest therein or of any person other than the said natural gas company, its heirs, successors and assigns to release, produce, take, reduce to possession, or otherwise interfere with or exercise any control thereof: PROVIDED, That the right of condemnation hereby granted shall be without prejudice to the rights of the owner of the condemned lands or of the rights and interest therein to drill or bore through the underground reservoir in such a manner

as shall protect the underground reservoir against pollution and against the escape of natural gas in a manner which complies with the orders, rules and regulations of the *oil and gas conservation committee issued for the purpose of protecting underground storage and shall be without prejudice to the rights of the owners of said lands or other rights or interests therein as to all other uses thereof. The additional cost of complying with regulations or orders to protect the underground storage shall be paid by the condemnor. [1963 c 201 § 6.]

***Reviser's note:** The duties of the oil and gas conservation committee were transferred to the department of natural resources by 1994 sp.s. c 9, effective July 1, 1994.

80.40.060 Leases by commissioner of public lands.

The commissioner of public lands is authorized to lease public lands, property, or any interest therein for the purpose of underground storage of natural gas. Any such lease shall be upon such terms and conditions as the said commissioner may deem for the best interests of the state and as are customary and proper for the protection of the rights of the state and of the lessee and of the owners of the surface of the leased lands, and may be for such primary term as said commissioner may determine and as long thereafter as the lessee continues to use such lands, property, or interest therein for underground storage of gas. [1963 c 201 § 7.]

80.40.070 Leases by county commissioners. Whenever it shall appear to the board of county commissioners of any county that it is for the best interests of said county, the taxing districts and the people thereof, that any county-owned or tax-acquired property owned by the county, either absolutely or as trustee, should be leased for the purpose of underground storage of natural gas therein, said board of county commissioners is hereby authorized to enter into written leases under the terms of which any county-owned lands, property, or interest therein are leased for the aforementioned purposes, with or without an option to purchase the land surface. Any such lease shall be upon such terms and conditions as said county commissioners may deem for the best interests of said county and the taxing districts, and may be for such primary term as said board may determine and as long thereafter as the lessee continues to use the said lands, property, or interest therein for underground storage of natural gas. [1963 c 201 § 8.]

80.40.900 Short title. This act shall be known as the "Underground Natural Gas Storage Act." [1963 c 201 § 9.]

80.40.910 Chapter to be liberally construed. It is intended that the provisions of this chapter shall be liberally construed to accomplish the purposes authorized and provided for. [1963 c 201 § 10.]

80.40.920 Severability—1963 c 201. If any part or parts of this chapter or the application thereof to any person or circumstances is held to be unconstitutional such invalidity shall not affect the validity of the remaining portions of this chapter, or the application thereof to other persons or circumstances. 80.50.010 Legislative finding—Policy—Intent. The legislature finds that the present and predicted growth in energy demands in the state of Washington requires the development of a procedure for the selection and utilization of sites for energy facilities and the identification of a state position with respect to each proposed site. The legislature recognizes that the selection of sites will have a significant impact upon the welfare of the population, the location and growth of industry and the use of the natural resources of the state.

It is the policy of the state of Washington to recognize the pressing need for increased energy facilities, and to ensure through available and reasonable methods, that the location and operation of such facilities will produce minimal adverse effects on the environment, ecology of the land and its wildlife, and the ecology of state waters and their aquatic life.

It is the intent to seek courses of action that will balance the increasing demands for energy facility location and operation in conjunction with the broad interests of the public. Such action will be based on these premises:

(1) To assure Washington state citizens that, where applicable, operational safeguards are at least as stringent as the criteria established by the federal government and are technically sufficient for their welfare and protection.

(2) To preserve and protect the quality of the environment; to enhance the public's opportunity to enjoy the esthetic and recreational benefits of the air, water and land resources; to promote air cleanliness; and to pursue beneficial changes in the environment.

(3) To provide abundant energy at reasonable cost.

(4) To avoid costs of complete site restoration and demolition of improvements and infrastructure at unfinished nuclear energy sites, and to use unfinished nuclear energy facilities for public uses, including economic development, under the regulatory and management control of local governments and port districts. [1996 c 4 § 1; 1975-'76 2nd ex.s. c 108 § 29; 1970 ex.s. c 45 § 1.]

(6) For any port district wherein an application for a proposed port facility is filed subject to this chapter, the port district shall appoint a member or designee as a nonvoting member to the council. The member or designee so appointed shall sit with the council only at such times as the council considers the proposed site for the port district which he or she represents, and such member or designee shall serve until there has been a final acceptance or rejection of the proposed site. The provisions of this subsection shall not apply if the port district is the applicant, either singly or in partnership or association with any other person. [1996 c 186 § 108. 80.50.060 Energy facilities to which chapter applies—Applications for certification—Forms—Information. (1) The provisions of this chapter shall apply to the construction of energy facilities which includes the new construction of energy facilities and the reconstruction or enlargement of existing energy facilities where the net increase in physical capacity or dimensions resulting from

such reconstruction or enlargement meets or exceeds those capacities or dimensions set forth in RCW 80.50.020 (7) and *(17), as now or hereafter amended. No construction of such energy facilities may be undertaken, except as otherwise provided in this chapter, after July 15, 1977, without first obtaining certification in the manner provided in this chapter.

(2) The provisions of this chapter shall not apply to normal maintenance and repairs which do not increase the capacity or dimensions beyond those set forth in RCW 80.50.020 (7) and *(17), as now or hereafter amended.

(3) Applications for certification of energy facilities made prior to July 15, 1977 shall continue to be governed by the applicable provisions of law in effect on the day immediately preceding July 15, 1977 with the exceptions of RCW 80.50.190 and 80.50.071 which shall apply to such prior applications and to site certifications prospectively from July 15, 1977.

(4) Applications for certification shall be upon forms prescribed by the council and shall be supported by such information and technical studies as the council may require. [1977 ex.s. c 371 § 5; 1975-'76 2nd ex.s. c 108 § 34; 1970 ex.s. c 45 § 6.]

***Reviser's note:** The reference to subsection (17) of RCW 80.50.020 appears to be erroneous. Subsection (14) was apparently intended.

Severability—Effective date—1975-'76 2nd ex.s. c 108: See notes following RCW 43.21F.010.

80.50.071 Council to receive applications—Fees or charges for application processing or certification monitoring. (1) The council shall receive all applications for energy facility site certification. The following fees or charges for application processing or certification monitoring shall be paid by the applicant or certificate holder:

(a) A fee of twenty-five thousand dollars for each proposed site, to be applied toward the cost of the independent consultant study authorized in this subsection, shall accompany the application and shall be a condition precedent to any further consideration or action on the application by the council. The council shall commission its own independent consultant study to measure the consequences of the proposed energy facility on the environment for each site application. The council shall direct the consultant to study any matter which it deems essential to an adequate appraisal of the site. The full cost of the study shall be paid by the applicant: PROVIDED, That said costs exceeding a total of the twenty-five thousand dollars paid pursuant to subsection (1)(a) of this section shall be payable subject to the applicant giving prior approval to such excess amount.

(b) Each applicant shall, in addition to the costs of the independent consultant provided by subsection (1)(a) of this section, pay such reasonable costs as are actually and necessarily incurred by the council in processing the application. Such costs shall include, but are not limited to, costs of a hearing examiner, a court reporter, additional staff salaries, wages and employee benefits, goods and services, travel expenses within the state and miscellaneous expenses, as arise directly from processing such application.

Each applicant shall, at the time of application submission, deposit twenty thousand dollars, or such lesser amount as may be specified by council rule, to cover costs provided for by subsection (1)(b) of this section. Reasonable and

necessary costs of the council directly attributable to application processing shall be charged against such deposit.

The council shall submit to each applicant a statement of such expenditures actually made during the preceding calendar quarter which shall be in sufficient detail to explain such expenditures. The applicant shall pay the state treasurer the amount of such statement to restore the total amount on deposit to the originally established level: PROVIDED, That such applicant may, at the request of the council, increase the amount of funds on deposit to cover anticipated expenses during peak periods of application processing. Any funds remaining unexpended at the conclusion of application processing shall be refunded to the applicant, or at the applicant's option, credited against required deposits of certificate holders.

(c) Each certificate holder shall pay such reasonable costs as are actually and necessarily incurred by the council for inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility.

Each certificate holder, within thirty days of execution of the site certification agreement, shall deposit twenty thousand dollars, or such other amount as may be specified by council rule, to cover costs provided for by subsection (1)(c) of this section. Reasonable and necessary costs of the council directly attributable to inspection and determination of compliance by the certificate holder with the terms of the certification relative to monitoring the effects of construction and operation of the facility shall be charged against such deposit.

The council shall submit to each certificate holder a statement of such expenditures actually made during the preceding calendar quarter which shall be in sufficient detail to explain such expenditures. The certificate holder shall pay the state treasurer the amount of such statement to restore the total amount on deposit to the originally established level: PROVIDED, That if the actual, reasonable, and necessary expenditures for inspection and determination of compliance in the preceding calendar quarter have exceeded the amount of funds on deposit, such excess costs shall be paid by the certificate holder.

(2) If an applicant or certificate holder fails to provide the initial deposit, or if subsequently required payments are not received within thirty days following receipt of the statement from the council, the council may (a) in the case of the applicant, suspend processing of the application until payment is received; or (b) in the case of a certificate holder, suspend the certification.

(3) All payments required of the applicant or certificate holder under this section are to be made to the state treasurer who shall make payments as instructed by the council from the funds submitted. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the applicant or certificate holder. [1977 ex.s. c 371 § 16.]

80.50.075 Expedited processing of applications. (1) Any person required to file an application for certification of an energy facility pursuant to this chapter may apply to the council for an expedited processing of such an application.

The application for expedited processing shall be submitted to the council in such form and manner and accompanied by such information as may be prescribed by council rule. The council may grant an applicant expedited processing of an application for certification upon finding that:

(a) The environmental impact of the proposed energy facility;

(b) The area potentially affected;

(c) The cost and magnitude of the proposed energy facility; and

(d) The degree to which the proposed energy facility represents a change in use of the proposed site are not significant enough to warrant a full review of the application for certification under the provisions of this chapter.

(2) Upon granting an applicant expedited processing of an application for certification, the council shall not be required to:

(a) Commission an independent study, notwithstanding the provisions of RCW 80.50.071; nor

(b) Hold an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act, on the application.

(3) The council shall adopt rules governing the expedited processing of an application for certification pursuant to this section. [1989 c 175 § 172; 1977 ex.s. c 371 § 17.]

Effective date—1989 c 175: See note following RCW 34.05.010.

80.50.080 Counsel for the environment. After the council has received a site application, the attorney general shall appoint an assistant attorney general as a counsel for the environment. The counsel for the environment shall represent the public and its interest in protecting the quality of the environment. Costs incurred by the counsel for the environment in the performance of these duties shall be charged to the office of the attorney general, and shall not be a charge against the appropriation to the energy facility site evaluation council. He shall be accorded all the rights, privileges and responsibilities of an attorney representing a party in a formal action. This section shall not be construed to prevent any person from being heard or represented by counsel in accordance with the other provisions of this chapter. [1977 ex.s. c 371 § 6; 1970 ex.s. c 45 § 8.]

80.50.090 Public hearings. (1) The council shall conduct a public hearing in the county of the proposed site within sixty days of receipt of an application for site certification: PROVIDED, That the place of such public hearing shall be as close as practical to the proposed site.

(2) The council must determine at the initial public hearing whether or not the proposed site is consistent and in compliance with county or regional land use plans or zoning ordinances. If it is determined that the proposed site does conform with existing land use plans or zoning ordinances in effect as of the date of the application, the county or regional planning authority shall not thereafter change such land use plans or zoning ordinances so as to affect the proposed site.

(3) Prior to the issuance of a council recommendation to the governor under RCW 80.50.100 a public hearing, conducted as an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act, shall be held. At

such public hearing any person shall be entitled to be heard in support of or in opposition to the application for certification.

(4) Additional public hearings shall be held as deemed appropriate by the council in the exercise of its functions under this chapter. [1989 c 175 § 173; 1970 ex.s. c 45 § 9.]

Effective date—1989 c 175: See note following RCW 34.05.010.

80.50.100 Recommendations to governor—Approval or rejection of certification—Reconsideration. (1) The council shall report to the governor its recommendations as to the approval or rejection of an application for certification within twelve months of receipt by the council of such an application, or such later time as is mutually agreed by the council and the applicant. If the council recommends approval of an application for certification, it shall also submit a draft certification agreement with the report. The council shall include conditions in the draft certification agreement to implement the provisions of this chapter, including, but not limited to, conditions to protect state or local governmental or community interests affected by the construction or operation of the energy facility, and conditions designed to recognize the purpose of laws or ordinances, or rules or regulations promulgated thereunder, that are preempted or superseded pursuant to RCW 80.50.110 as now or hereafter amended.

(2) Within sixty days of receipt of the council's report the governor shall take one of the following actions:

- (a) Approve the application and execute the draft certification agreement; or
- (b) Reject the application; or
- (c) Direct the council to reconsider certain aspects of the draft certification agreement.

The council shall reconsider such aspects of the draft certification agreement by reviewing the existing record of the application or, as necessary, by reopening the adjudicative proceeding for the purposes of receiving additional evidence. Such reconsideration shall be conducted expeditiously. The council shall resubmit the draft certification to the governor incorporating any amendments deemed necessary upon reconsideration. Within sixty days of receipt of such draft certification agreement, the governor shall either approve the application and execute the certification agreement or reject the application. The certification agreement shall be binding upon execution by the governor and the applicant.

(3) The rejection of an application for certification by the governor shall be final as to that application but shall not preclude submission of a subsequent application for the same site on the basis of changed conditions or new information. [1989 c 175 § 174; 1977 ex.s. c 371 § 8; 1975-'76 2nd ex.s. c 108 § 36; 1970 ex.s. c 45 § 10.]

Effective date—1989 c 175: See note following RCW 34.05.010.

Severability—Effective date—1975-'76 2nd ex.s. c 108: See notes following RCW 43.21F.010.

80.50.105 Transmission facilities for petroleum products—Recommendations to governor. In making its recommendations to the governor under this chapter regarding an application that includes transmission facilities for petroleum products, the council shall give appropriate weight

to city or county facility siting standards adopted for the protection of sole source aquifers. [1991 c 200 § 1112.]

Effective dates—Severability—1991 c 200: See RCW 90.56.901 and 90.56.904.

80.50.110 Chapter governs and supersedes other law or regulations—Preemption of regulation and certification by state. (1) If any provision of this chapter is in conflict with any other provision, limitation, or restriction which is now in effect under any other law of this state, or any rule or regulation promulgated thereunder, this chapter shall govern and control and such other law or rule or regulation promulgated thereunder shall be deemed superseded for the purposes of this chapter.

(2) The state hereby preempts the regulation and certification of the location, construction, and operational conditions of certification of the energy facilities included under RCW 80.50.060 as now or hereafter amended. [1975-'76 2nd ex.s. c 108 § 37; 1970 ex.s. c 45 § 11.]

Severability—Effective date—1975-'76 2nd ex.s. c 108: See notes following RCW 43.21F.010.

80.50.120 Effect of certification. (1) Subject to the conditions set forth therein any certification shall bind the state and each of its departments, agencies, divisions, bureaus, commissions, boards, and political subdivisions, whether a member of the council or not, as to the approval of the site and the construction and operation of the proposed energy facility.

(2) The certification shall authorize the person named therein to construct and operate the proposed energy facility subject only to the conditions set forth in such certification.

(3) The issuance of a certification shall be in lieu of any permit, certificate or similar document required by any department, agency, division, bureau, commission, board, or political subdivision of this state, whether a member of the council or not. [1977 ex.s. c 371 § 10; 1975-'76 2nd ex.s. c 108 § 38; 1970 ex.s. c 45 § 12.]

Severability—Effective date—1975-'76 2nd ex.s. c 108: See notes following RCW 43.21F.010.

80.50.130 Revocation or suspension of certification—Grounds. Any certification may be revoked or suspended:

(1) For any material false statement in the application or in the supplemental or additional statements of fact or studies required of the applicant when a true answer would have warranted the council's refusal to recommend certification in the first instance; or

(2) For failure to comply with the terms or conditions of the original certification; or

(3) For violation of the provisions of this chapter, regulations issued thereunder or order of the council. [1970 ex.s. c 45 § 13.]

80.50.140 Review. (1) A final decision pursuant to RCW 80.50.100 on an application for certification shall be subject to judicial review pursuant to provisions of chapter 34.05 RCW and this section. Petitions for review of such a decision shall be filed in the Thurston county superior court. All petitions for review of a decision under RCW 80.50.100

shall be consolidated into a single proceeding before the Thurston county superior court. The Thurston county superior court shall certify the petition for review to the supreme court upon the following conditions:

- (a) Review can be made on the administrative record;
- (b) Fundamental and urgent interests affecting the public interest and development of energy facilities are involved which require a prompt determination;
- (c) Review by the supreme court would likely be sought regardless of the determination of the Thurston county superior court; and
- (d) The record is complete for review.

The Thurston county superior court shall assign a petition for review of a decision under RCW 80.50.100 for hearing at the earliest possible date and shall expedite such petition in every way possible. If the court finds that review cannot be limited to the administrative record as set forth in subparagraph (a) of this subsection because there are alleged irregularities in the procedure before the council not found in the record, but finds that the standards set forth in subparagraphs (b), (c), and (d) of this subsection are met, the court shall proceed to take testimony and determine such factual issues raised by the alleged irregularities and certify the petition and its determination of such factual issues to the supreme court. Upon certification, the supreme court shall assign the petition for hearing at the earliest possible date, and it shall expedite its review and decision in every way possible.

(2) Objections raised by any party in interest concerning procedural error by the council shall be filed with the council within sixty days of the commission of such error, or within thirty days of the first public hearing or meeting of the council at which the general subject matter to which the error is related is discussed, whichever comes later, or such objection shall be deemed waived for purposes of judicial review as provided in this section.

(3) The rules and regulations adopted by the council shall be subject to judicial review pursuant to the provisions of chapter 34.05 RCW. [1988 c 202 § 62; 1981 c 64 § 3; 1977 ex.s. c 371 § 11; 1970 ex.s. c 45 § 14.]

Severability—1988 c 202: See note following RCW 2.24.050.

80.50.150 Enforcement of compliance—Penalties.

(1) The courts are authorized to grant such restraining orders, and such temporary and permanent injunctive relief as is necessary to secure compliance with this chapter and/or with a site certification agreement issued pursuant to this chapter or a National Pollutant Discharge Elimination System (hereafter in this section, NPDES) permit issued by the council pursuant to chapter 90.48 RCW or any permit issued pursuant to RCW 80.50.040(14). The court may assess civil penalties in an amount not less than one thousand dollars per day nor more than twenty-five thousand dollars per day for each day of construction or operation in material violation of this chapter, or in material violation of any site certification agreement issued pursuant to this chapter, or in violation of any NPDES permit issued by the council pursuant to chapter 90.48 RCW, or in violation of any permit issued pursuant to RCW 80.50.040(14). The court may charge the expenses of an enforcement action relating to a site certification agreement under this section,

including, but not limited to, expenses incurred for legal services and expert testimony, against any person found to be in material violation of the provisions of such certification: PROVIDED, That the expenses of a person found not to be in material violation of the provisions of such certification, including, but not limited to, expenses incurred for legal services and expert testimony, may be charged against the person or persons bringing an enforcement action or other action under this section.

(2) Wilful violation of any provision of this chapter shall be a gross misdemeanor.

(3) Wilful or criminally negligent, as defined in RCW 9A.08.010[(1)](d), violation of any provision of an NPDES permit issued by the council pursuant to chapter 90.48 RCW or any permit issued by the council pursuant to RCW 80.50.040(14) or any emission standards promulgated by the council in order to implement the Federal Clean Air Act and the state implementation plan with respect to energy facilities under the jurisdiction provisions of this chapter shall be deemed a crime, and upon conviction thereof shall be punished by a fine of up to twenty-five thousand dollars per day and costs of prosecution. Any violation of this subsection shall be a gross misdemeanor.

(4) Any person knowingly making any false statement, representation, or certification in any document in any NPDES form, notice, or report required by an NPDES permit or in any form, notice, or report required for or by any permit issued pursuant to *RCW 80.50.090(14) shall be deemed guilty of a crime, and upon conviction thereof shall be punished by a fine of up to ten thousand dollars and costs of prosecution.

(5) Every person who violates the provisions of certificates and permits issued or administered by the council shall incur, in addition to any other penalty as provided by law, a penalty in an amount of up to five thousand dollars a day for every such violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation, every day's continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty provided in this section. The penalty provided in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person incurring the same from the council describing such violation with reasonable particularity. The council may, upon written application therefor received within fifteen days after notice imposing any penalty is received by the person incurring the penalty, and when deemed in the best interest to carry out the purposes of this chapter, remit or mitigate any penalty provided in this section upon such terms as the council shall deem proper, and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. Any person incurring any penalty under this section may appeal the same to the council. Such appeals shall be filed within thirty days of receipt of notice imposing any penalty unless an application for remission or mitigation is made to the council. When an application for remission or mitigation is made, such appeals shall be filed within thirty days of receipt of notice from the council setting forth the disposition of the application. Any

penalty imposed under this section shall become due and payable thirty days after receipt of a notice imposing the same unless application for remission or mitigation is made or an appeal is filed. When an application for remission or mitigation is made, any penalty incurred hereunder shall become due and payable thirty days after receipt of notice setting forth the disposition of the application unless an appeal is filed from such disposition. Whenever an appeal of any penalty incurred hereunder is filed, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part. If the amount of any penalty is not paid to the council within thirty days after it becomes due and payable, the attorney general, upon the request of the council, shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise provided in this chapter. All penalties recovered under this section shall be paid into the state treasury and credited to the general fund.

(6) Civil proceedings to enforce this chapter may be brought by the attorney general or the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council. Criminal proceedings to enforce this chapter may be brought by the prosecuting attorney of any county affected by the violation on his own motion or at the request of the council.

(7) The remedies and penalties in this section, both civil and criminal, shall be cumulative and shall be in addition to any other penalties and remedies available at law, or in equity, to any person. [1979 ex.s. c 254 § 2; 1979 c 41 § 1; 1977 ex.s. c 371 § 12; 1970 ex.s. c 45 § 15.]

Reviser's note: (1) This section was amended by 1979 c 41 § 1 and by 1979 ex.s. c 254 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

* (2) The reference to RCW 80.50.090(14) appears to be in error; that section has only four subsections and concerns public hearings, not issuance of permits. RCW 80.50.040(14) relates to issuance of permits.

80.50.160 Availability of information. The council shall make available for public inspection and copying during regular office hours at the expense of any person requesting copies, any information filed or submitted pursuant to this chapter. [1970 ex.s. c 45 § 16.]

80.50.175 Study of potential sites—Fee—Disposition of payments. (1) In addition to all other powers conferred on the council under this chapter, the council shall have the powers set forth in this section.

(2) The council, upon request of any potential applicant, is authorized, as provided in this section, to conduct a preliminary study of any potential site prior to receipt of an application for site certification. A fee of ten thousand dollars for each potential site, to be applied toward the cost of any study agreed upon pursuant to subsection (3) of this section, shall accompany the request and shall be a condition precedent to any action on the request by the council.

(3) After receiving a request to study a potential site, the council shall commission its own independent consultant to

study matters relative to the potential site. The study shall include, but need not be limited to, the preparation and analysis of environmental impact information for the proposed potential site and any other matter the council and the potential applicant deem essential to an adequate appraisal of the potential site. In conducting the study, the council is authorized to cooperate and work jointly with the county or counties in which the potential site is located, any federal, state, or local governmental agency that might be requested to comment upon the potential site, and any municipal or public corporation having an interest in the matter. The full cost of the study shall be paid by the potential applicant: **PROVIDED**, That such costs exceeding a total of ten thousand dollars shall be payable subject to the potential applicant giving prior approval to such excess amount.

(4) Any study prepared by the council pursuant to subsection (3) of this section may be used in place of the "detailed statement" required by RCW 43.21C.030(2)(c) by any branch of government except the council created pursuant to chapter 80.50 RCW.

(5) All payments required of the potential applicant under this section are to be made to the state treasurer, who in turn shall pay the consultant as instructed by the council. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the potential applicant.

(6) Nothing in this section shall change the requirements for an application for site certification or the requirement of payment of a fee as provided in RCW 80.50.071, or change the time for disposition of an application for certification as provided in RCW 80.50.100.

(7) Nothing in this section shall be construed as preventing a city or county from requiring any information it deems appropriate to make a decision approving a particular location. [1983 c 3 § 205; 1977 ex.s. c 371 § 13; 1975-'76 2nd ex.s. c 108 § 40; 1974 ex.s. c 110 § 2.]

80.50.180 Proposals and actions by other state agencies and local political subdivisions pertaining to energy facilities exempt from "detailed statement" required by RCW 43.21C.030. Except for actions of the council under chapter 80.50 RCW, all proposals for legislation and other actions of any branch of government of this state, including state agencies, municipal and public corporations, and counties, to the extent the legislation or other action involved approves, authorizes, permits, or establishes procedures solely for approving, authorizing or permitting, the location, financing or construction of any energy facility subject to certification under chapter 80.50 RCW, shall be exempt from the "detailed statement" required by RCW 43.21C.030. Nothing in this section shall be construed as exempting any action of the council from any provision of chapter 43.21C RCW. [1977 ex.s. c 371 § 14.]

80.50.190 Disposition of receipts from applicants. The state general fund shall be credited with all receipts from applicants paid to the state pursuant to chapter 80.50 RCW. Such funds shall be used only by the council for the

purposes set forth in chapter 80.50 RCW. All expenditures shall be authorized by law. [1977 ex.s. c 371 § 15.]

80.50.300 Unfinished nuclear power projects—Transfer of site restoration responsibilities—Water rights. (1) This section applies only to unfinished nuclear power projects that are not located on federal property. If a certificate holder stops construction of a nuclear energy facility before completion, terminates the project or otherwise resolves not to complete construction, never introduces or stores fuel for the energy facility on the site, and never operates the energy facility as designed to produce energy, the certificate holder may contract, establish interlocal agreements, or use other formal means to effect the transfer of site restoration responsibilities, which may include economic development activities, to any political subdivision or subdivisions of the state composed of elected officials. The contracts, interlocal agreements, or other formal means of cooperation may include, but are not limited to provisions effecting the transfer or conveyance of interests in the site and energy facilities from the certificate holder to other political subdivisions of the state, including costs of maintenance and security, capital improvements, and demolition and salvage of the unused energy facilities and infrastructure.

(2) If a certificate holder transfers all or a portion of the site to a political subdivision or subdivisions of the state composed of elected officials and located in the same county as the site, the council shall amend the site certification agreement to release those portions of the site that are transferred pursuant to this section. Immediately upon release of all or a portion of the site pursuant to this section, all responsibilities for maintaining the public welfare, including but not limited to health and safety, are transferred to the political subdivision or subdivisions of the state.

(3) The legislature finds that ensuring water for site restoration including economic development, completed pursuant to this section can best be accomplished by a transfer of existing surface water rights, and that such a transfer is best accomplished administratively through procedures set forth in existing statutes and rules. However, if a transfer of water rights is not possible, the department of ecology shall, within six months of the transfer of the site or portion thereof pursuant to subsection (1) of this section, create a trust water right under chapter 90.42 RCW containing between ten and twenty cubic feet per second for the benefit of the appropriate political subdivision or subdivisions of the state. The trust water right shall be used in fulfilling site restoration responsibilities, including economic development. The trust water right shall be from existing valid water rights within the basin where the site is located. [1996 c 4 § 2.]

80.50.310 Council actions—Exemption from chapter 43.21C RCW. Council actions pursuant to the transfer of the site or portions of the site under RCW 80.50.300 are exempt from the provisions of chapter 43.21C RCW. [1996 c 4 § 3.]

80.50.900 Severability—1970 ex.s. c 45. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the

application of the provision to other persons or circumstances, is not affected. [1970 ex.s. c 45 § 17.]

80.50.901 Severability—1974 ex.s. c 110. If any provision of this 1974 act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances, is not affected. [1974 ex.s. c 110 § 3.]

80.50.902 Severability—1977 ex.s. c 371. If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1977 ex.s. c 371 § 20.]

80.50.903 Severability—1996 c 4. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1996 c 4 § 5.]

80.50.904 Effective date—1996 c 4. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 6, 1996]. [1996 c 4 § 6.]

80.52.010 Short title. This chapter may be cited as the Washington state energy financing voter approval act. [1981 2nd ex.s. c 6 § 1 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.020 Purpose. The purpose of this chapter is to provide a mechanism for citizen review and approval of proposed financing for major public energy projects. The development of dependable and economic energy sources is of paramount importance to the citizens of the state, who have an interest in insuring that major public energy projects make the best use of limited financial resources. Because the construction of major public energy projects will significantly increase utility rates for all citizens, the people of the state hereby establish a process of voter approval for such projects. [1981 2nd ex.s. c 6 § 2 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.030 Definitions. The definitions set forth in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Public agency" means a public utility district, joint operating agency, city, county, or any other state governmental agency, entity, or political subdivision.

(2) "Major public energy project" means a plant or installation capable, or intended to be capable, of generating electricity in an amount greater than two hundred fifty megawatts, measured using maximum continuous electric generating capacity, less minimum auxiliary load, at average ambient temperature and pressure. Where two or more such plants are located within the same geographic site, each plant shall be considered a major public energy project. An addition to an existing facility is not deemed to be a major energy project unless the addition itself is capable, or intended to be capable, of generating electricity in an amount greater than two hundred fifty megawatts. A project which is under construction on July 1, 1982, shall not be considered a major public energy project unless the official agency budget or estimate for total construction costs for the project as of July 1, 1982, is more than two hundred percent of the first official estimate of total construction costs as specified in the senate energy and utilities committee WPPSS inquiry report, volume one, January 12, 1981, and unless, as of July 1, 1982, the projected remaining cost of construction for that project exceeds two hundred million dollars.

(3) "Cost of construction" means the total cost of planning and building a major public energy project and placing it into operation, including, but not limited to, planning cost, direct construction cost, licensing cost, cost of fuel inventory for the first year's operation, interest, and all other costs incurred prior to the first day of full operation, whether or not incurred prior to July 1, 1982.

(4) "Cost of acquisition" means the total cost of acquiring a major public energy project from another party, including, but not limited to, principal and interest costs.

(5) "Bond" means a revenue bond, a general obligation bond, or any other indebtedness issued by a public agency or its assignee.

(6) "Applicant" means a public agency, or the assignee of a public agency, requesting the secretary of state to conduct an election pursuant to this chapter.

(7) "Cost-effective" means that a project or resource is forecast:

(a) To be reliable and available within the time it is needed; and

(b) To meet or reduce the electric power demand of the intended consumers at an estimated incremental system cost no greater than that of the least-cost similarly reliable and available alternative project or resource, or any combination thereof.

(8) "System cost" means an estimate of all direct costs of a project or resource over its effective life, including, if applicable, the costs of distribution to the consumer, and, among other factors, waste disposal costs, end-of-cycle costs, and fuel costs (including projected increases), and such quantifiable environmental costs and benefits as are directly attributable to the project or resource. [1995 c 69 § 2; 1981 2nd ex.s. c 6 § 3 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.040 Election approval required before issuance of bonds. No public agency or assignee of a public agency may issue or sell bonds to finance the cost of construction or the cost of acquisition of a major public energy project, or any portion thereof, unless it has first obtained authority for the expenditure of the funds to be raised by the sale of such bonds for that project at an election conducted in the manner provided in this chapter. [1981 2nd ex.s. c 6 § 4 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.050 Conduct of election. The election required under RCW 80.52.040 shall be conducted in the manner provided in this section.

(1)(a) If the applicant is a public utility district, joint operating agency, city, or county, the election shall be among the voters of the public utility district, city, or county, or among the voters of the local governmental entities comprising the membership of the joint operating agency.

(b) If the applicant is any public agency other than those described in subsection (1)(a) of this section, or is an assignee of a joint operating agency and not itself a joint operating agency, the election shall be conducted state-wide in the manner provided in Title 29 RCW for state-wide elections.

(2) The election shall be held at the next state-wide general election occurring more than ninety days after submission of a request by an applicant to the secretary of state unless a special election is requested by the applicant as provided in this section.

(3) If no state-wide election can be held under subsection (2) of this section within one hundred twenty days of the submission to the secretary of state of a request by an applicant for financing authority under this chapter, the applicant may request that a special election be held if such election is necessary to avoid significant delay in construction or acquisition of the energy project. Within ten days of receipt of such a request for a special election, the secretary of state shall designate a date for the election pursuant to RCW 29.13.010 and certify the date to the county auditor of each county in which an election is to be held under this section.

(4) Prior to an election under this section, the applicant shall submit to the secretary of state a cost-effectiveness study, prepared by an independent consultant approved by the state finance committee, pertaining to the major public energy project under consideration. The study shall be available for public review and comment for thirty days. At the end of the thirty-day period, the applicant shall prepare a final draft of the study which includes the public comment, if any.

(5) The secretary of state shall certify the ballot issue for the election to be held under this section to the county auditor of each county in which an election is to be held. The certification shall include the statement of the proposition as provided in RCW 80.52.060. The costs of the election shall be relieved by the applicant in the manner provided by RCW 29.13.045. In addition, the applicant shall reimburse the secretary of state for the applicant's share of the costs related to the preparation and distribution of the voters' pamphlet required by subsection (6) of this section.

and such other costs as are attributable to any election held pursuant to this section.

(6) Prior to an election under this section, the secretary of state shall provide an opportunity for supporters and opponents of the requested financing authority to present their respective views in a voters' pamphlet which shall be distributed to the voters of the local governmental entities participating in the election. Upon submission of an applicant's request for an election pursuant to this section, the applicant shall provide the secretary of state with the following information regarding each major public energy project for which the applicant seeks financing authority at such election, which information shall be included in the voters' pamphlet:

(a) The name, location, and type of major public energy project, expressed in common terms;

(b) The dollar amount and type of bonds being requested;

(c) If the bond issuance is intended to finance the acquisition of all or a portion of the project, the anticipated total cost of the acquisition of the project;

(d) If the bond issuance is intended to finance the planning or construction of all or a portion of the project, the anticipated total cost of construction of the project;

(e) The projected average rate increase for consumers of the electricity to be generated by the project. The rate increase shall be that which will be necessary to repay the total indebtedness incurred for the project, including estimated interest;

(f) A summary of the final cost-effectiveness study conducted under subsection (4) of this section;

(g) The anticipated functional life of the project;

(h) The anticipated decommissioning costs of the project; and

(i) If a special election is requested by the applicant, the reasons for requesting a special election. [1982 c 88 § 1; 1981 2nd ex.s. c 6 § 5 (Initiative Measure No. 394, approved November 3, 1981).]

Effective date—1982 c 88: "This act shall take effect on July 1, 1982." [1982 c 88 § 2.]

80.52.060 Form of ballot propositions. The proposition for each major public energy project listed upon a ballot pursuant to this chapter shall be in the form provided in this section.

(1) If the funds are intended to finance the planning or construction of all or a portion of the project, the proposition shall read substantially as follows:

"Shall (name of applicant) be authorized to spend (dollar amount of financing authority requested) to construct the (name of the project) (type of project) located at (location), the anticipated total construction cost of which is (anticipated cost of construction)?"

(2) If the financing authority is intended to finance the acquisition of all or a portion of the project from another party, the proposition shall read substantially as follows:

"Shall (name of applicant) be authorized to spend (dollar amount of financing authority requested) to acquire the (name of project)

(type of project) located at (location), the anticipated total acquisition cost of which is (anticipated cost of acquisition)?"

[1981 2nd ex.s. c 6 § 6 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.070 Approval of request for financing authority. A request for financing authority pursuant to this chapter shall be considered approved if it receives the approval of a majority of those voting on the request. [1981 2nd ex.s. c 6 § 7 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.080 Priorities. In planning for future energy expenditures, public agencies shall give priority to projects and resources which are cost-effective. Priority for future bond sales to finance energy expenditures by public agencies shall be given: First, to conservation; second, to renewable resources; third, to generating resources utilizing waste heat or generating resources of high fuel-conversion efficiency; and fourth, to all other resources. This section does not apply to projects which are under construction on December 3, 1981. [1981 2nd ex.s. c 6 § 8 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.900 Severability—1981 2nd ex.s. c 6. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1981 2nd ex.s. c 6 § 10 (Initiative Measure No. 394, approved November 3, 1981).]

80.52.910 Effective dates—1981 2nd ex.s. c 6. *Section 8 of this act shall take effect immediately. The remainder of this act shall take effect on July 1, 1982. Public agencies intending to submit a request for financing authority under this act are authorized to institute the procedures specified in **section 5(4) of this act prior to the effective date of this act. [1981 2nd ex.s. c 6 § 11 (Initiative Measure No. 394, approved November 3, 1981).]

Reviser's note: *(1) "Section 8 of this act" is codified as RCW 80.52.080.

** (2) "section 5(4) of this act" is codified as RCW 80.52.050(4).

80.54.070	Uniform attachment rates within utility service area.

80.54.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Attachment" means any wire or cable for the transmission of intelligence by telecommunications or

television, including cable television, light waves, or other phenomena, or for the transmission of electricity for light, heat, or power, and any related device, apparatus, or auxiliary equipment, installed upon any pole or in any telecommunications, electrical, cable television, or communications right of way, duct, conduit, manhole or handhole, or other similar facilities owned or controlled, in whole or in part, by one or more utilities, where the installation has been made with the consent of the one or more utilities.

(2) "Licensee" means any person, firm, corporation, partnership, company, association, joint stock association, or cooperatively organized association, other than a utility, which is authorized to construct attachments upon, along, under, or across the public ways.

(3) "Utility" means any electrical company or telecommunications company as defined in RCW 80.04.010, and does not include any entity cooperatively organized, or owned by federal, state, or local government, or a subdivision of state or local government. [1985 c 450 § 40; 1979 c 33 § 1.]

Severability—Legislative review—1985 c 450: See RCW 80.36.900 and 80.36.901.

80.54.020 Regulation of rates, terms, and conditions—Criteria. The commission shall have the authority to regulate in the public interest the rates, terms, and conditions for attachments by licensees or utilities. All rates, terms, and conditions made, demanded, or received by any utility for any attachment by a licensee or by a utility must be just, fair, reasonable, and sufficient. [1979 c 33 § 2.]

80.54.030 Commission order fixing rates, terms, or conditions. Whenever the commission shall find, after hearing had upon complaint by a licensee or by a utility, that the rates, terms, or conditions demanded, exacted, charged, or collected by any utility in connection with attachments are unjust, unreasonable, or that the rates or charges are insufficient to yield a reasonable compensation for the attachment, the commission shall determine the just, reasonable, or sufficient rates, terms, and conditions thereafter to be observed and in force and shall fix the same by order. In determining and fixing the rates, terms, and conditions, the commission shall consider the interest of the customers of the attaching utility or licensee, as well as the interest of the customers of the utility upon which the attachment is made. [1979 c 33 § 3.]

80.54.040 Criteria for just and reasonable rate. A just and reasonable rate shall assure the utility the recovery of not less than all the additional costs of procuring and maintaining pole attachments, nor more than the actual capital and operating expenses, including just compensation, of the utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole attachment, as compared to all other uses made of the subject facilities, and uses which remain available to the owner or owners of the subject facilities. [1979 c 33 § 4.]

80.54.050 Exemptions from chapter. Nothing in this chapter shall be deemed to apply to any attachment by one or more electrical companies on the facilities of one or more other electrical companies. [1979 c 33 § 5.]

80.54.060 Adoption of rules. The commission shall adopt rules, regulations and procedures relative to the implementation of this chapter. [1979 c 33 § 6.]

80.54.070 Uniform attachment rates within utility service area. Notwithstanding any other provision of law, a utility as defined in RCW 80.54.010(3) and any utility not regulated by the utilities and transportation commission shall levy attachment rates which are uniform for all licensees within the utility service area. [1979 c 33 § 7.]

For purposes of this section, "basic telecommunications service" means voice grade, local exchange telecommunications service.

(2) Actions or transactions of radio communications service companies that are not regulated pursuant to subsection (1) of this section shall not be deemed actions or transactions otherwise permitted, prohibited, or regulated by the commission for purposes of RCW 19.86.170.

(3) Radio communications service companies shall file with the commission copies of all agreements with any of their affiliated interests as defined in RCW 80.16.010, showing the rates, tolls, rentals, contracts, and charges of such affiliated interest for services rendered and equipment and facilities supplied to the radio communications service company, except that such agreements need not be filed where the services rendered and equipment and facilities supplied are provided by the affiliated interest under a tariff or price list filed with the commission. The commission or the commissioner before which the testimony is to be given or produced, in case of the refusal of any witness to attend or testify or produce any papers required by the subpoena, shall report to the superior court in and for the county in which the proceeding is pending by petition, setting forth that due notice has been given of the time and place of attendance of said witnesses, or the production of said papers, and that the witness has been summoned in the manner prescribed in this chapter, and that the fees and mileage of the witness have been paid or tendered to the witness for his attendance and testimony, and that the witness has failed and refused to attend or produce the papers required by the subpoena, before the commission, in the cause or proceedings named in the notice and subpoena, or has refused to answer questions propounded to him in the course of such proceeding, and ask an order of said court, compelling the witness to attend and testify before the commission. The court, upon the petition of the commission, shall enter an order directing the witness to appear before said court at a time and place to be fixed by the court in such order, and then and there show cause why he has not responded to said subpoena. A copy of said order shall be served upon said witness. If it shall appear to the court that said subpoena was regularly issued by the commission, the court shall thereupon enter an order that said witness appear before the commission at said time and place as fixed in said order, and testify or produce the required papers, and upon failing to obey said order, said witness shall be dealt with as for contempt of court. [1961 c 14 § 81.04.020. Prior: 1911 c 117 § 75, part; RRS § 10413, part.]

Every public service company shall annually furnish to the commission a report in such form as the commission may require, and shall specifically answer all questions propounded to it by the commission, upon or concerning which the commission may need information. Such report shall also contain such information in relation to rates, charges or regulations concerning fares, charges or freights, or agreements, arrangements or contracts affecting the same, as the commission may require; and the commission may, in its discretion, for the purpose of enabling it the better to carry out the provisions of this title, prescribe the period of time within which all public service companies subject to the provisions of this title shall have, as near as may be, a uniform system of accounts, and the manner in which such accounts shall be kept. Such detailed report shall contain all the required statistics for the period of twelve months ending on the last day of any particular month prescribed by the commission for any public service company. Such reports shall be made out under oath and filed with the commission at its office in Olympia on such date as the commission specifies by rule, unless additional time be granted in any case by the commission. The commission shall have authority to require any public service company to file monthly reports of earnings and expenses, and to file periodical or special, or both periodical and special, reports concerning any matter about which the commission is authorized or required by this or any other law, to inquire into or keep itself informed about, or which it is required to enforce, such periodical or special reports to be under oath whenever the commission so requires. [1989 c 107 § 2; 1961 c 14 § 81.04.080. Prior: 1911 c 117 § 78, part; RRS § 10416, part.]

81.04.090 Forms of records to be prescribed. The commission may, in its discretion, prescribe the forms of any and all accounts, records and memoranda to be kept by public service companies, including the accounts, records and memoranda of the movement of traffic, sales of its product, the receipts and expenditures of money. The commission shall at all times have access to all accounts, records and memoranda kept by public service companies, and may employ special agents or examiners, who shall have power to administer oaths and authority, under the order of the commission, to examine witnesses and to inspect and examine any and all accounts, records and memoranda kept by such companies. The commission may, in its discretion, prescribe the forms of any and all reports, accounts, records and memoranda to be furnished and kept by any public ser-

vice company whose line or lines extend beyond the limits of this state, which are operated partly within and partly without the state, so that the same shall show any information required by the commission concerning the traffic movement, receipts and expenditures appertaining to those parts of the line within the state. [1961 c 14 § 81.04.090. Prior: 1911 c 117 § 78, part; RRS § 10416, part.]

81.04.100 Production of out-of-state books and records. The commission may by order with or without hearing require the production within this state, at such time and place as it may designate, of any books, accounts, papers or records kept by any public service company in any office or place without this state, or at the option of the company verified copies thereof, so that an examination thereof may be made by the commission or under its direction. [1961 c 14 § 81.04.100. Prior: 1933 c 165 § 2; 1911 c 117 § 79; RRS § 10421.]

81.04.110 Complaint—Hearing. Complaint may be made by the commission of its own motion or by any person or corporation, chamber of commerce, board of trade, or any commercial, mercantile, agricultural or manufacturing society, or any body politic or municipal corporation, by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any public service company or any person, persons, or entity acting as a public service company in violation, or claimed to be in violation, of any provision of law or of any order or rule of the commission.

When two or more public service companies or a person, persons, or entity acting as a public service company, (meaning to exclude municipal and other public corporations) are engaged in competition in any locality or localities in the state, either may make complaint against the other or others that the rates, charges, rules, regulations or practices of such other or others with or in respect to which the complainant is in competition, are unreasonable, unremunerative, discriminatory, illegal, unfair or intending or tending to oppress the complainant, to stifle competition, or to create or encourage the creation of monopoly, and upon such complaint or upon complaint of the commission upon its own motion, the commission shall have power, after notice and hearing as in other cases, to, by its order, subject to appeal as in other cases, correct the abuse complained of by establishing such uniform rates, charges, rules, regulations or practices in lieu of those complained of, to be observed by all of such competing public service companies in the locality or localities specified as shall be found reasonable, remunerative, nondiscriminatory, legal, and fair or tending to prevent oppression or monopoly or to encourage competition, and upon any such hearing it shall be proper for the commission to take into consideration the rates, charges, rules, regulations and practices of the public service company or companies complained of in any other locality or localities in the state.

All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of complaints or grievances or misjoinder of parties; and in any review of the courts of orders of the commission the same rule shall apply and pertain with regard to the joinder of complaints and parties

as herein provided: PROVIDED, All grievances to be inquired into shall be plainly set forth in the complaint. No complaint shall be dismissed because of the absence of direct damage to the complainant.

Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the person or company complained of, which shall be accompanied by a notice fixing the time when and place where a hearing will be had upon such complaint. The time fixed for such hearing shall not be less than ten days after the date of the service of such notice and complaint, excepting as herein provided. Rules of practice and procedure not otherwise provided for in this title may be prescribed by the commission. [1994 c 37 § 2; 1961 c 14 § 81.04.110. Prior: 1913 c 145 § 1; 1911 c 117 § 80; RRS § 10422.]

Intent—1994 c 37: "It is the intent of the legislature to clarify that the utilities and transportation commission has the authority to make more efficient use of its resources, provide quicker resolution of complaints regarding transportation tariff matters, eliminate duplicative hearings on classification and violation matters, and to make certain that criminal proceedings involving alleged violations of transportation tariffs not be dismissed because of confusion regarding whether a defendant has received a classification by the commission." [1994 c 37 § 1.]

81.04.120 Hearing—Order—Record. At the time fixed for the hearing mentioned in RCW 81.04.110, the complainant and the person or corporation complained of shall be entitled to be heard and introduce such evidence as he or it may desire. The commission shall issue process to enforce the attendance of all necessary witnesses. At the conclusion of such hearing the commission shall make and render findings concerning the subject matter and facts inquired into and enter its order based thereon. A copy of such order, certified under the seal of the commission, shall be served upon the person or corporation complained of, or his or its attorney, which order shall, of its own force, take effect and become operative twenty days after the service thereof, except as otherwise provided. Where an order cannot, in the judgment of the commission, be complied with within twenty days, the commission may prescribe such additional time as in its judgment is reasonably necessary to comply with the order, and may, on application and for good cause shown, extend the time for compliance fixed in its order. A full and complete record of all proceedings had before the commission, or any member thereof, on any formal hearing had, and all testimony shall be taken down by a stenographer appointed by the commission, and the parties shall be entitled to be heard in person or by attorney. In case of an action to review any order of the commission, a transcript of such testimony, together with all exhibits introduced, and of the record and proceedings in the cause, shall constitute the record of the commission. [1961 c 14 § 81.04.120. Prior: 1911 c 117 § 81; RRS § 10423.]

81.04.130 Suspension of tariff change. Whenever any public service company, other than a railroad company, files with the commission any schedule, classification, rule, or regulation, the effect of which is to change any rate, fare, charge, rental, or toll previously charged, the commission has power, either upon its own motion or upon complaint, upon notice, to hold a hearing concerning the proposed change and the reasonableness and justness of it. Pending

the hearing and the decision the commission may suspend the operation of the rate, fare, charge, rental, or toll, if the change is proposed by a common carrier subject to the jurisdiction of the commission, other than a solid waste collection company, for a period not exceeding seven months, and, if proposed by a solid waste collection company, for a period not exceeding ten months from the time the change would otherwise go into effect. After a full hearing the commission may make such order in reference to the change as would be provided in a hearing initiated after the change had become effective.

At any hearing involving any change in any schedule, classification, rule, or regulation the effect of which is to increase any rate, fare, charge, rental, or toll theretofore charged, the burden of proof to show that such increase is just and reasonable is upon the public service company. When any common carrier subject to the jurisdiction of the commission files any tariff, classification, rule, or regulation the effect of which is to decrease any rate, fare, or charge, the burden of proof to show that such decrease is just and reasonable is upon the common carrier. [1993 c 300 § 1; 1984 c 143 § 1; 1961 c 14 § 81.04.130. Prior: 1941 c 162 § 1; 1937 c 169 § 2; 1933 c 165 § 3; 1915 c 133 § 1; 1911 c 117 § 82; Rem. Supp. 1941 § 10424.]

81.04.140 Order requiring joint action. Whenever any order of the commission shall require joint action by two or more public service companies, such order shall specify that the same shall be made at their joint cost, and the companies affected shall have thirty days, or such further time, as the commission may prescribe, within which to agree upon the part or division of cost which each shall bear, and costs of operation and maintenance in the future, or the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations. If at the expiration of such time such companies shall fail to file with the commission a statement that an agreement has been made for the division or apportionment of such cost, the division of costs of operation and maintenance to be incurred in the future and the proportion of charges or revenue each shall receive from such joint service and the rules to govern future operations, the commission shall have authority, after further hearing, to enter a supplemental order fixing the proportion of such cost or expense to be borne by each company, and the manner in which the same shall be paid and secured. [1961 c 14 § 81.04.140. Prior: 1911 c 117 § 83; RRS § 10425.]

81.04.150 Remunerative rate—No change without approval prohibited. Whenever the commission finds, after hearing had upon its own motion or upon complaint as provided in this chapter, that any rate, toll, rental, or charge that has been the subject of complaint and inquiry is sufficiently remunerative to the public service company, other than a railroad company, affected by it, the commission may order that the rate, toll, rental, or charge shall not be changed, altered, abrogated, or discontinued, nor shall there be any change in the classification that will change or alter the rate, toll, rental, or charge without first obtaining the consent of the commission authorizing the change to be

made. [1984 c 143 § 2; 1961 c 14 § 81.04.150. Prior: 1911 c 117 § 84; RRS § 10426.]

81.04.160 Rules and regulations. The commission is hereby authorized and empowered to adopt, promulgate and issue rules and regulations covering the bulletining of trains, showing the time of arrival and departure of all trains, and the probable arrival and departure of delayed trains; the conditions to be contained in and become a part of contracts for transportation of persons and property, and any and all services concerning the same, or connected therewith; the time that station rooms and offices shall be kept open; rules governing demurrage and reciprocal demurrage, and to provide reasonable penalties to expedite the prompt movement of freight and release of cars, the limits of express deliveries in cities and towns, and generally such rules as pertain to the comfort and convenience of the public concerning the subjects treated of in this title. Such rules and regulations shall be promulgated and issued by the commission on its own motion, and shall be served on the public service company affected thereby as other orders of the commission are served. Any public service company affected thereby, and deeming such rules and regulations, or any of them, improper, unjust, unreasonable, or contrary to law, may within twenty days from the date of service of such order upon it file objections thereto with the commission, specifying the particular grounds of such objections. The commission shall, upon receipt of such objections, fix a time and place for hearing the same, and after a full hearing may make such changes or modifications thereto, if any, as the evidence may justify. The commission shall have, and it is hereby given, power to adopt rules to govern its proceedings, and to regulate the mode and manner of all investigations and hearings: PROVIDED, No person desiring to be present at such hearing shall be denied permission. Actions may be instituted to review rules and regulations promulgated under this section as in the case of orders of the commission. [1961 c 14 § 81.04.160. Prior: 1911 c 117 § 85; RRS § 10427.]

81.04.170 Review of orders. Any complainant or any public service company affected by any findings or order of the commission, and deeming such findings or order to be contrary to law, may, within thirty days after the service of the findings or order upon him or it, apply to the superior court of Thurston county for a writ of review, for the purpose of having the reasonableness and lawfulness of such findings or order inquired into and determined. Such writ shall be made returnable not later than thirty days from and after the date of the issuance thereof, unless upon notice to all parties affected further time be allowed by the court, and shall direct the commission to certify its record in the case to the court. Such cause shall be heard by the court without the intervention of a jury on the evidence and exhibits introduced before the commission and certified to by it. Upon such hearing the superior court shall enter judgment either affirming or setting aside or remanding for further action the findings or order of the commission under review. The reasonable cost of preparing the transcript of testimony taken before the commission shall be assessable as part of the statutory court costs, and the amount thereof, if collected

by the commission, shall be deposited in the public service revolving fund. In case such findings or order be set aside, or reversed and remanded, the court shall make specific findings based upon evidence in the record indicating clearly all respects in which the commission's findings or order are erroneous. [1961 c 14 § 81.04.170. Prior: 1937 c 169 § 3; 1911 c 117 § 86; RRS § 10428.]

81.04.180 Supersedeas. The pendency of any writ of review shall not of itself stay or suspend the operation of the order of the commission, but the superior court in its discretion may restrain or suspend, in whole or in part, the operation of the commission's order pending the final hearing and determination of the suit.

No order so restraining or suspending an order of the commission relating to rates, fares, charges, tolls or rentals, or rules or regulations, practices, classifications or contracts affecting the same, shall be made by the superior court otherwise than upon three days' notice and after hearing, and if a supersedeas is granted the order granting the same shall contain a specific finding, based upon evidence submitted to the court making the order, and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner, and specifying the nature of the damage.

In case the order of the commission under review is superseded by the court, it shall require a bond, with good and sufficient surety, conditioned that such company petitioning for such review shall answer for all damages caused by the delay in the enforcement of the order of the commission, and all compensation for whatever sums for transportation any person or corporation shall be compelled to pay pending the review proceedings in excess of the sum such person or corporations would have been compelled to pay if the order of the commission had not been suspended.

The court may, in addition to or in lieu of the bond herein provided for, require such other or further security for the payment of such excess charges or damages as it may deem proper. [1961 c 14 § 81.04.180. Prior: 1933 c 165 § 6; prior: 1931 c 119 § 2; 1911 c 117 § 87; RRS § 10429.]

81.04.190 Appellate review. The commission, any public service company or any complainant may, after the entry of judgment in the superior court in any action of review, seek appellate review as in other cases. [1988 c 202 § 63; 1971 ex.s. c 107 § 5; 1961 c 14 § 81.04.190. Prior: 1911 c 117 § 88; RRS § 10430.]

81.04.200 Rehearing before commission. Any public service company affected by any order of the commission, and deeming itself aggrieved, may, after the expiration of two years from the date of such order taking effect, petition the commission for a rehearing upon the matters involved in such order, setting forth in such petition the grounds and reasons for such rehearing, which grounds and reasons may comprise and consist of changed conditions since the issuance of such order, or by showing a result injuriously affecting the petitioner which was not considered or anticipated at the former hearing, or that the effect of such order

has been such as was not contemplated by the commission or the petitioner, or for any good and sufficient cause which for any reason was not considered and determined in such former hearing. Upon the filing of such petition, such proceedings shall be had thereon as are provided for hearings upon complaint, and such orders may be reviewed as are other orders of the commission: PROVIDED, That no order superseding the order of the commission denying such rehearing shall be granted by the court pending the review. In case any order of the commission shall not be reviewed, but shall be complied with by the public service company, such petition for rehearing may be filed within six months from and after the date of the taking effect of such order, and the proceedings thereon shall be as in this section provided. The commission, may, in its discretion, permit the filing of a petition for rehearing at any time. No order of the commission upon a rehearing shall affect any right of action or penalty accruing under the original order unless so ordered by the commission. [1961 c 14 § 81.04.200. Prior: 1911 c 117 § 89; RRS § 10431.]

81.04.210 Commission may change orders. The commission may at any time, upon notice to the public service company affected, and after opportunity to be heard as provided in the case of complaints rescind, alter or amend any order or rule made, issued or promulgated by it, and any order or rule rescinding, altering or amending any prior order or rule shall, when served upon the public service company affected, have the same effect as herein provided for original orders and rules. [1961 c 14 § 81.04.210. Prior: 1911 c 117 § 90; RRS § 10432.]

81.04.220 Reparations. When complaint has been made to the commission concerning the reasonableness of any rate, fare, toll, rental or charge for any service performed by any public service company, and the same has been investigated by the commission, and the commission has determined that the public service company has charged an excessive or exorbitant amount for such service, and the commission has determined that any party complainant is entitled to an award of damages, the commission shall order that the public service company pay to the complainant the excess amount found to have been charged, whether such excess amount was charged and collected before or after the filing of said complaint, with interest from the date of the collection of said excess amount. [1961 c 14 § 81.04.220. Prior: 1943 c 258 § 1; 1937 c 29 § 1; Rem. Supp. 1943 § 10433.]

81.04.230 Overcharges—Refund. When complaint has been made to the commission that any public service company has charged an amount for any service rendered in excess of the lawful rate in force at the time such charge was made, and the same has been investigated and the commission has determined that the overcharge allegation is true, the commission may order that the public service company pay to the complainant the amount of the overcharge so found, whether such overcharge was made before or after the filing of said complaint, with interest from the date of collection of such overcharge. [1961 c 14 § 81.04.230. Prior: 1937 c 29 § 2; RRS § 10433-1.]

81.04.235 Limitation of actions. All complaints against public service companies for recovery of overcharges shall be filed with the commission within two years from the time the cause of action accrues, and not after, except as hereinafter provided, and except that if claim for the overcharge has been presented in writing to the public service company within the two-year period of limitation, said period shall be extended to include six months from the time notice in writing is given by the public service company to the claimant of disallowance of the claim, or any part or parts thereof, specified in the notice.

If on or before expiration of the two-year period of limitation for the recovery of overcharges, a public service company begins action under RCW 81.28.270 for recovery of charges in respect of the same transportation service, or, without beginning action, collects charges in respect of that service, said period of limitation shall be extended to include ninety days from the time such action is begun or such charges are collected by the carrier.

All complaints against public service companies for the recovery of damages not based on overcharges shall be filed with the commission within six months from the time the cause of action accrues except as hereinafter provided.

The six-month period of limitation for recovery of damages not based on overcharges shall be extended for a like period and under the same conditions as prescribed for recovery of overcharges. If the six-month period for recovery of damages not based on overcharges has expired at the time action is commenced under RCW 81.28.270 for recovery of charges with respect to the same transportation service, or, without beginning such action, charges are collected with respect to that service, complaints therefor shall be filed with the commission within ninety days from the commencement of such action or the collection of such charges by the carrier. [1963 c 59 § 4; 1961 c 14 § 81.04.235. Prior: 1955 c 79 § 5.]

81.04.236 When cause of action deemed to accrue. The cause of action for the purposes of RCW 81.04.235, 81.04.240, and 81.28.270 shall be deemed to accrue: (a) In respect of a shipment of property, upon delivery or tender of delivery thereof by the carrier, and not after; (b) in respect of goods or service or services other than a shipment of property, upon the rendering of an invoice or statement of charges by the public service company, and not after.

The provisions of this section shall extend to and embrace cases in which the cause of action has heretofore accrued as well as cases in which the cause of action may hereafter accrue. [1961 c 14 § 81.04.236. Prior: 1955 c 79 § 6.]

81.04.240 Action in court on reparations and overcharges. If the public service company does not comply with the order of the commission for the payment of damages or overcharges within the time limited in the order, action may be brought in any superior court where service may be had upon the company to recover the amount of damages or overcharges with interest. The commission shall certify and file its record in the case, including all exhibits, with the clerk of the court within thirty days after such action is started and the action shall be heard on the evi-

dence and exhibits introduced before the commission and certified to by it.

If the complainant shall prevail in the action, the court shall enter judgment for the amount of damages or overcharges with interest and shall allow complainant a reasonable attorney's fee, and the cost of preparing and certifying the record for the benefit of and to be paid to the commission by complainant, and deposited by the commission in the public service revolving fund, said sums to be fixed and collected as a part of the costs of the action.

If the order of the commission is found contrary to law or erroneous by reason of the rejection of testimony properly offered, the court shall remand the cause to the commission with instructions to receive the testimony so proffered and rejected and enter a new order based upon the evidence theretofore taken and such as it is directed to receive.

The court may remand any action which is reversed by it to the commission for further action.

Appeals to the supreme court shall lie as in other civil cases. Action to recover damages or overcharges shall be filed in the superior court within one year from the date of the order of the commission.

The procedure provided in this section is exclusive, and neither the supreme court nor any superior court shall have jurisdiction save in the manner hereinbefore provided. [1961 c 14 § 81.04.240. Prior: 1955 c 79 § 4; 1943 c 258 § 2; 1937 c 29 § 3; Rem. Supp. 1943 § 10433-2.]

81.04.250 Determination of rates. The commission has the power upon complaint or upon its own motion to prescribe and authorize just and reasonable rates for the transportation of persons or property by carriers other than railroad companies, and shall exercise that power whenever and as often as it deems necessary or proper. The commission shall, before any hearing is had upon the complaint or motion, notify the complainants and the carrier concerned of the time and place of the hearing by giving at least ten days' written notice thereof, specifying that at the time and place designated a hearing will be held for the purpose of prescribing and authorizing the rates. The notice is sufficient to authorize the commission to inquire into and pass upon the matters designated in this section.

In exercising this power the commission may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at the objective of prescribing and authorizing just and reasonable rates.

In the exercise of this power the commission may give consideration, in addition to other factors, to the following:

(1) To the effect of the rates upon movement of traffic by the carriers;

(2) To the public need for adequate transportation facilities, equipment, and service at the lowest level of charges consistent with the provision, maintenance, and renewal of the facilities, equipment and service; and

(3) To the carrier need for revenue of a level that under honest, efficient, and economical management is sufficient to cover the cost (including all operating expenses, depreciation accruals, rents, and taxes of every kind) of providing adequate transportation service, plus an amount equal to the percentage of that cost as is reasonably necessary for the provision, maintenance, and renewal of the transportation

facilities or equipment and a reasonable profit to the carrier. The relation of carrier expenses to carrier revenues may be deemed the proper test of a reasonable profit.

This section does not apply to railroad companies, which shall be regulated in this regard by *chapter 81.34 RCW and rules adopted thereunder. [1984 c 143 § 3; 1961 c 14 § 81.04.250. Prior: 1951 c 75 § 1; 1933 c 165 § 4; 1913 c 182 § 1; 1911 c 117 § 92; RRS § 10441.]

*Reviser's note: Chapter 81.34 RCW was repealed by 1991 c 49 § 1.

81.04.260 Summary proceedings. Whenever the commission shall be of opinion that any public service company is failing or omitting, or about to fail or omit, to do anything required of it by law, or by order, direction or requirement of the commission, or is doing anything, or about to do anything, or permitting anything, or about to permit anything to be done contrary to or in violation of law or of any order, direction or requirement of the commission authorized by this title, it shall direct the attorney general to commence an action or proceeding in the superior court of the state of Washington for Thurston county, or in the superior court of any county in which such company may do business, in the name of the state of Washington on the relation of the commission, for the purpose of having such violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney general shall thereupon begin such action or proceeding by petition to such superior court, alleging the violation complained of, and praying for appropriate relief by way of mandamus or injunction. It shall thereupon be the duty of the court to specify a time, not exceeding twenty days after the service of the copy of the petition, within which the public service company complained of must answer the petition. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances in such manner as the court shall direct, without other or formal pleadings, and without respect to any technical requirement. Such persons or corporations as the court may deem necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction, or both, issue as prayed for in the petition, or in such other modified form as the court may determine will afford appropriate relief. Appellate review of the final judgment may be sought in the same manner and with the same effect as review of judgments of the superior court in actions to review orders of the commission. All provisions of this chapter relating to the time of review, the manner of perfecting the same, the filing of briefs, hearings and supersedeas, shall apply to appeals to the supreme court or the court of appeals under the provisions of this section. [1988 c 202 § 64; 1971 c 81 § 143; 1961 c 14 § 81.04.260. Prior: 1911 c 117 § 93; RRS § 10442.]

Severability—1988 c 202: See note following RCW 2.24.050.

81.04.270 Merchandise accounts to be kept separate. Any public service company engaging in the sale of merchandise or appliances or equipment shall keep separate accounts, as prescribed by the commission, of its capital

employed in such business and of its revenues therefrom and operating expenses thereof. The capital employed in such business shall not constitute a part of the fair value of said company's property for rate making purposes, nor shall the revenues from or operating expenses of such business constitute a part of the operating revenues and expenses of said company as a public service company. [1961 c 14 § 81.04.270. Prior: 1933 c 165 § 8; RRS § 10458-2.]

81.04.280 Purchase and sale of stock by employees.

No public service company shall permit any employee to sell, offer for sale, or solicit the purchase of any security of any other person or corporation during such hours as such employee is engaged to perform any duty of such public service company; nor shall any public service company by any means or device require any employee to purchase or contract to purchase any of its securities or those of any other person or corporation; nor shall any public service company require any employee to permit the deduction from his wages or salary of any sum as a payment or to be applied as a payment of any purchase or contract to purchase any security of such public service company or of any other person or corporation. [1961 c 14 § 81.04.280. Prior: 1933 c 165 § 9; RRS § 10458-3.]

81.04.290 Sale of stock to employees and patrons.

A corporate public service company, either heretofore or hereafter organized under the laws of this state, may sell to its employees and patrons any increase of its capital stock, or part thereof, without first offering it to existing stockholders: PROVIDED, That such sale is approved by the holders of a majority of the capital stock, at a regular or special meeting held after notice given as to the time, place, and object thereof as provided by law and the bylaws of the company. Such sales shall be at prices and in amounts for each purchaser and upon terms and conditions as set forth in the resolution passed at the stockholders' meeting, or in a resolution passed at a subsequent meeting of the board of trustees if the resolution passed at the stockholders' meeting shall authorize the board to determine prices, amounts, terms, and conditions, except that in either event a minimum price for the stock must be fixed in the resolution passed at the stockholders' meeting. [1961 c 14 § 81.04.290. Prior: 1955 c 79 § 7; 1923 c 110 § 1; RRS § 10344-1.]

81.04.300 Budgets to be filed by companies—Supplementary budgets.

The commission may regulate, restrict, and control the budgets of expenditures of public service companies. Each company shall prepare a budget showing the amount of money which, in its judgment, will be needed during the ensuing year for maintenance, operation, and construction, classified by accounts as prescribed by the commission, and shall within ten days of the date it is approved by the company file it with the commission for its investigation and approval or rejection. When a budget has been filed with the commission it shall examine into and investigate it to determine whether the expenditures therein proposed are fair and reasonable and not contrary to public interest.

Adjustments or additions to budget expenditures may be made from time to time during the year by filing a supple-

mentary budget with the commission for its investigation and approval or rejection. [1961 c 14 § 81.04.300. Prior: 1959 c 248 § 15; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.310 Commission's control over expenditures.

The commission may, both as to original and supplementary budgets, prior to the making or contracting for the expenditure of any item therein, and after notice to the company and a hearing thereon, reject any item of the budget. The commission may require any company to furnish further information, data, or detail as to any proposed item of expenditure.

Failure of the commission to object to any item of expenditure within sixty days of the filing of any original budget or within thirty days of the filing of any supplementary budget shall constitute authority to the company to proceed with the making of or contracting for such expenditure, but such authority may be terminated at any time by objection made thereto by the commission prior to the making of or contracting for such expenditure.

Examination, investigation, and determination of the budget by the commission shall not bar or estop it from later determining whether any of the expenditures made thereunder are fair, reasonable, and commensurate with the service, material, supplies, or equipment received. [1961 c 14 § 81.04.310. Prior: 1959 c 248 § 16; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.320 Budget rules and regulations.

The commission may prescribe the necessary rules and regulations to place RCW 81.04.300 through 81.04.330 in operation. It may by general order, exempt in whole or in part from the operation thereof companies whose gross operating revenues are less than twenty-five thousand dollars a year. The commission may upon request of any company withhold from publication during such time as the commission may deem advisable, any portion of any original or supplementary budget relating to proposed capital expenditures. [1961 c 14 § 81.04.320. Prior: 1959 c 248 § 17; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.330 Effect of unauthorized expenditure—Emergencies.

Any public service company may make or contract for any rejected item of expenditure, but in such case the same shall not be allowed as an operating expense, or as to items of construction, as a part of the fair value of the company's property used and useful in serving the public: PROVIDED, That such items of construction may at any time thereafter be so allowed in whole or in part upon proof that they are used and useful. Any company may upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, riot, or insurrection, or for the immediate preservation or restoration to condition of usefulness of any of its property, the usefulness of which has been destroyed by accident, make the necessary expenditure therefor free from the operation of RCW 81.04.300 through 81.04.330.

Any finding and order entered by the commission shall be in effect until vacated and set aside in proper proceedings for review thereof. [1961 c 14 § 81.04.330. Prior: 1959 c

248 § 18; prior: 1933 c 165 § 10, part; RRS § 10458-4, part.]

81.04.350 Depreciation and retirement accounts.

The commission shall have power after hearing to require any or all public service companies to carry proper and adequate depreciation or retirement accounts in accordance with such rules, regulations and forms of accounts as the commission may prescribe. The commission may from time to time ascertain and by order fix the proper and adequate rates of depreciation or retirement of the several classes of property of each public service company. Each public service company shall conform its depreciation or retirement accounts to the rates so prescribed. In fixing the rate of the annual depreciation or retirement charge, the commission may consider the rate and amount theretofore charged by the company for depreciation or retirement.

The commission shall have and exercise like power and authority over all other reserve accounts of public service companies. [1961 c 14 § 81.04.350. Prior: 1937 c 169 § 4; 1933 c 165 § 13; RRS § 10458-7.]

81.04.360 Excessive earnings to reserve fund. If any public service company earns in the period of five consecutive years immediately preceding the commission order fixing rates for such company a net utility operating income in excess of a reasonable rate of return upon the fair value of its property used and useful in the public service, the commission shall take official notice of such fact and of whether any such excess earnings shall have been invested in such company's plant or otherwise used for purposes beneficial to the consumers of such company and may consider such facts in fixing rates for such company. [1961 c 14 § 81.04.360. Prior: 1959 c 285 § 3; 1933 c 165 § 14; RRS § 10458-8.]

Any public service company which shall violate or fail to comply with any provision of this title, or which fails, omits or neglects to obey, observe or comply with any order, rule, or any direction, demand or requirement of the commission, shall be subject to a penalty of not to exceed the sum of one thousand dollars for each and every offense. Every violation of any such order, direction or requirement of this title shall be a separate and distinct offense, and in case of a continuing violation every day's continuance thereof shall be and be deemed to be a separate and distinct offense. Every such violation shall be a separate and distinct offense, and the penalty shall be recovered in an action as provided in RCW 81.04.400. [1961 c 14 § 81.04.387. Prior: 1911 c 117 § 96; RRS § 10445. Formerly RCW 81.04.380, part.]

[1980 c 104 § 5; 1961 c 14 § 81.04.390. Prior: 1911 c 117 § 97; RRS § 10446.]

Each and every such violation shall be a separate and distinct offense and in case of a continuing violation every day's continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for.

The penalty herein provided for shall become due and payable when the person incurring the same receives a notice in writing from the commission describing such violation with reasonable particularity and advising such person that the penalty is due. The commission may, upon written application therefor, received within fifteen days, remit or mitigate any penalty provided for in this section or discontinue any prosecution to recover the same upon such terms as it in its discretion shall deem proper and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. If the amount of such penalty is not paid to the commission within fifteen days after receipt of notice imposing the same or application for remission or mitigation has not been made within fifteen days after violator has received notice of the disposition of such application the attorney general shall bring an action in the name of the state of Washington in the superior court of Thurston county or of some other county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise herein provided. Where the fact that the action involves a rule or order of the commission does not appear until the time of trial, the court shall immediately direct the clerk to notify the commission of the pendency of such action, and shall permit the commission to intervene in such action.

The failure to comply with the provisions of this section shall render void and of no effect any judgment in such action, where the effect of such judgment is to modify or nullify any rule or order of the commission. [1961 c 14 § 81.04.420. Prior: 1943 c 67 § 1; Rem. Supp. 1943 § 10448-1.]

appear before the commission at a location convenient for witnesses and the production of evidence and bring with him books, records, accounts and other memoranda, and give testimony under oath as to his operations or acts, and the burden shall rest upon such person or corporation of proving that his operations or acts are not subject to the provisions of this chapter. After having made the investigation herein described, the commission is authorized and directed to issue the necessary order or orders declaring the operations or acts to be subject to, or not subject to, the provisions of this title. In the event the operations or acts are found to be subject to the provisions of this title, the commission is authorized and directed to issue cease and desist orders to all parties involved in the operations or acts.

In proceedings under this section no person or corporation shall be excused from testifying or from producing any book, waybill, document, paper or account before the commission when ordered to do so, on the ground that the testimony or evidence, book, waybill, document, paper or account required of him may tend to incriminate him or subject him to penalty or forfeiture; but no person or corporation shall be prosecuted, punished or subjected to any penalty or forfeiture for or on account of any account, transaction, matter or thing concerning which he shall under oath have testified or produced documentary evidence in proceedings under this section: PROVIDED, That no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony. The commission shall issue its report for such procedures, containing comments by the operator and other parties, to the legislature by December 1, 1990, for its consideration. If, following receipt of the study, the legislature authorizes the commission to regulate the operator's rates, such rates shall not take effect until January 1, 1993, when the regional site will be the exclusive site option for Northwest low-level waste compact generators. 81.16.020 Dealings with affiliated interests must be approved. No contract or arrangement providing for the furnishing of management, supervisory construction, engineering, accounting, legal, financial or similar services, and no contract or arrangement for the purchase, sale, lease or exchange of any property, right, or thing, or for the furnishing of any service, property, right, or thing, other than those above enumerated, hereafter made or entered into between a public service company and any affiliated interest as defined in this chapter, including open account advances from or to such affiliated interests, except open account advances from or to a common carrier subject to the provisions of part one of the interstate commerce act, shall be valid or effective unless and until such contract or arrangement shall have received the approval of the commission. It shall be the duty of every public service company to file with the commission, a verified copy or a verified summary of any such unwritten contract or arrangement, and also of all such contracts and arrangements, whether written or unwritten, entered into prior to March 18, 1933 and in force and effect at that time. The commission shall approve such contract or arrangement hereafter made or entered into only if it shall clearly appear and be established upon investigation that it is reasonable and consistent with the public interest; otherwise the contract or arrangement shall not be approved. The commission shall not be required to approve any such contract or arrangement unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the services or of furnishing the property or service described herein. [1961 c 14 § 81.16.020. Prior: 1941 c 160 § 1; 1933 c 152 § 1; Rem. Supp. 1941 § 10440-2.]

81.16.030 Payments to affiliated interest disallowed if not reasonable. In any proceeding, whether upon the commission's own motion or upon complaint, involving the rates or practices of any public service company, the commission may exclude from the accounts of such public service company any payment or compensation to an affiliated interest for any services rendered or property or service furnished, as above described, under existing contracts or arrangements with such affiliated interest unless such public service company shall establish the reasonableness of such payment or compensation. In such proceeding the commission shall disallow such payment or compensation, in whole or in part, in the absence of satisfactory proof that it is reasonable in amount. In such proceeding any payment or compensation may be disapproved or disallowed by the commission, in whole or in part, unless satisfactory proof is submitted to the commission of the cost to the affiliated interest of rendering the service or furnishing the property or service above described. [1961 c 14 § 81.16.030. Prior: 1933 c 152 § 3; RRS § 10440-3.]

81.16.040 Satisfactory proof, what constitutes. No proof shall be satisfactory, within the meaning of RCW 81.16.010 through 81.16.030, unless it includes the original (or verified copies) of the relevant cost records and other relevant accounts of the affiliated interest, or such abstract thereof or summary taken therefrom, as the commission may deem adequate, properly identified and duly authenticated:

PROVIDED, HOWEVER, That the commission may, where reasonable, approve or disapprove such contracts or arrangements without the submission of such cost records or accounts. [1961 c 14 § 81.16.040. Prior: 1933 c 152 § 4; RRS § 10440-4.]

81.16.050 Commission's control is continuing. The commission shall have continuing supervisory control over the terms and conditions of such contracts and arrangements as are herein described so far as necessary to protect and promote the public interest. The commission shall have the same jurisdiction over the modifications or amendment of contracts or arrangements as are herein described as it has over such original contracts or arrangements. The fact that the commission shall have approved entry into such contracts or arrangements as described herein shall not preclude disallowance or disapproval of payments made pursuant thereto, if upon actual experience under such contract or arrangement, it appears that the payments provided for or made were or are unreasonable. Every order of the commission approving any such contract or arrangement shall be expressly conditioned upon the reserved power of the commission to revise and amend the terms and conditions thereof, if, when and as necessary to protect and promote the public interest. [1961 c 14 § 81.16.050. Prior: 1933 c 152 § 5; RRS § 10440-5.]

81.28.040 Tariff schedules to be filed with commission—Public schedules—Commission's powers as to schedules. Every common carrier shall file with the commission and shall print and keep open for public inspection, schedules showing the rates, fares, charges, and classification for the transportation of persons and property within the state between each point upon the carrier's route and all other points thereon; and between each point upon its route and all points upon every route leased, operated, or controlled by it; and between each point on its route or upon any route leased, operated, or controlled by it and all points upon the route of any other common carrier, whenever a through route and joint rate have been established or ordered between any two such points. If no joint rate over a through route has been established, the several carriers participating in the through route shall file, print, and keep open for public inspection, the separately established rates, fares, charges, and classifications that apply to the through transportation. The schedules printed shall plainly state the places between which property and persons will be carried,

shall also contain classification of passengers or property in force, and shall also state separately all terminal charges, storage charges, icing charges, and all other charges that the commission may require to be stated, all privileges or facilities granted or allowed, and any rules or regulations that may in any way change, affect, or determine any part, or the aggregate of, such rates, fares, and charges, or the value of the service rendered to the passenger, shipper, or consignee. The schedule shall be plainly printed in large type, and a copy of it shall be kept by every carrier readily accessible to inspection by the public in every station or office of the carrier where passengers or property are respectively received for transportation, when the station or office is in charge of any agent. All or any of the schedules kept as provided in this section shall be immediately produced by the carrier for inspection upon the demand of any person. The form of each schedule shall be prescribed by the commission.

The commission has power, from time to time, to determine and prescribe by order such changes in the form of the schedules as may be found expedient, and to modify the requirements of this section in respect to publishing, posting, and filing of schedules either in particular instances or by general rule or order applicable to special or peculiar circumstances or conditions.

The commission may, in its discretion, suspend the operation of this section in whole or in part as applied to vessels engaged in jobbing business not operating on regular routes. 81.28.050 Tariff changes—Statutory notice—Exception. In the case of a solid waste collection company, no such change may be made except after forty-five days' notice to the commission and to the public. The notice shall be published as provided in RCW 81.28.040 and shall plainly state the changes proposed to be made in the schedule then in force and the time when the changed rate, classification, fare, or charge will go into effect. All proposed changes shall be shown by printing, filing, and publishing new schedules or shall be plainly indicated upon the schedules in force at the time and kept open to public inspection. new rate shall not become effective for twenty days after the notice is published, and a proposal resulting in a rate decrease shall not become effective for ten days after the notice is published. The commission, for good cause shown, may by order allow changes in rates without requiring the notice and the publication time periods specified in this section. When any change is made in any rate, fare, charge, classification, rule, or regulation, attention shall be directed to the change by some character on the schedule. The character and its placement shall be designated by the commission. The commission may, by order, for good cause shown, allow changes in any rate, fare, charge, classification, rule, or regulation without requiring any character to indicate each and every change to be made. Common carriers subject to the provisions of this title may carry, store or handle, free or at reduced rates, property for the United States, state, county or municipal governments, or for charitable purposes, or to or from fairs and exhibitions for exhibition thereat, and may carry, store or handle, free or at reduced rates, the household goods and personal effects of its employees and those entering or leaving its service and those killed or dying while in its service.

Nothing in this title shall be construed to prohibit the making of a special contract providing for the mutual exchange of service between any railroad company and any

telegraph or telephone company, where the line of such telegraph or telephone company is situated upon or along the railroad right of way and used by both of such companies. [1973 1st ex.s. c 154 § 117; 1961 c 14 § 81.28.080. Prior: 1929 c 96 § 1; 1911 c 117 § 18; RRS § 10354. Formerly RCW 81.28.080 through 81.28.130, 81.28.150 through 81.28.170, and 80.36.130.]

Severability—1973 1st ex.s. c 154: See note following RCW 2.12.030.

81.28.180 Rate discrimination prohibited. A common carrier shall not, directly or indirectly, by any special rate, rebate, drawback, or other device or method, charge, demand, collect, or receive from any person or corporation a greater or lesser compensation for any service rendered or to be rendered in the transportation of persons or property, except as authorized in this title, than it charges, demands, collects, or receives from any person or corporation for doing a like and contemporaneous service in the transportation of a like kind of traffic under the same or substantially similar circumstances and conditions. This section does not apply to railroad companies, which shall be regulated in this regard by *chapter 81.34 RCW and rules adopted thereunder. [1984 c 143 § 6; 1961 c 14 § 81.28.180. Prior: 1911 c 117 § 20; RRS § 10356.]

***Reviser's note:** Chapter 81.34 RCW was repealed by 1991 c 49 § 1.

81.28.190 Unreasonable preferences prohibited. A common carrier shall not make or give any undue or unreasonable preference or advantage to any person or corporation or to any locality or to any particular description of traffic in any respect whatsoever, or subject any particular person or corporation or locality or any particular description of traffic, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever. This section does not apply to railroad companies, which shall be regulated in this regard by *chapter 81.34 RCW and rules adopted thereunder. [1984 c 143 § 7; 1961 c 14 § 81.28.190. ***Reviser's note:** Chapter 81.34 RCW was repealed by 1991 c 49 § 1.

81.28.200 Long and short haul. A common carrier subject to the provisions of this title shall not charge or receive any greater compensation in the aggregate for the transportation of persons or of a like kind of property, for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance, or to charge any greater compensation as a through rate than the aggregate of the intermediate rates, subject to the provisions of this title. This shall not be construed as authorizing any such common carrier to charge and receive as great a compensation for a shorter as for a longer distance or haul. Upon application of a common carrier the commission may by order authorize it to charge less for a longer than for a shorter distance for the transportation of persons or property in special cases after investigation by the commission, but the order must specify and prescribe the extent to which the common carrier making the application is relieved from the operation of this section. Only to the

extent so specified and prescribed is any common carrier relieved from the operation and requirements of this section. This section does not apply to railroad companies, which shall be regulated in this regard by *chapter 81.34 RCW and rules adopted thereunder. [1984 c 143 § 8; 1961 c 14 § 81.28.200. No person, corporation, or any officer, agent or employee of a corporation, who shall deliver property for transportation within the state to a common carrier, shall seek to obtain or obtain such transportation for such property at less than the rates then established and in force therefor, as aforesaid, by false billing, false or incorrect classification, false weight or weighing, false representation of the contents or substance of a package, or false report or statement of weight, or by any device or means, whether with or without the consent or connivance of a common carrier or any of its officers, agents or employees.

No person, corporation, or any officer, agent or employee of a corporation, who shall deliver property for transportation within the state to a common carrier, shall seek to obtain or obtain such transportation by any false representation, false statement of false paper or token as to the contents or substance thereof, where the transportation of such property is prohibited by law. All penalties imposed under the provisions of this section shall be paid to the state treasurer and by him deposited in the public service revolving fund. [1961 c 14 § 81.28.220. Prior: 1937 c 169 § 5; RRS § 10447-1.]

This section does not apply to railroad companies, which shall be regulated in this regard by *chapter 81.34 RCW and rules adopted thereunder. [1984 c 143 § 9; 1961 c 14 § 81.28.230. Prior: 1911 c 117 § 53, part; RRS § 10389, part.]

*Reviser's note: Chapter 81.34 RCW was repealed by 1991 c 49 § 1.

81.28.240 Commission may order improved facilities and service. Whenever the commission shall find, after such hearing, that the rules, regulations, practices, equipment, appliances, facilities or service of any such common carrier in respect to the transportation of persons or property are unjust, unreasonable, unsafe, improper, inadequate or insufficient, the commission shall determine the just, reasonable, safe, adequate, sufficient and proper rules, regulations, practices, equipment, appliances, facilities or service to be observed, furnished, constructed or enforced and be used in the transportation of persons and property by such common carrier, and fix the same by its order or rule. [1961 c 14 § 81.28.240. Prior: 1911 c 117 § 53, part; RRS § 10389, part.]

[1961 c 14 § 81.28.260. Prior: 1899 c 15 § 1; RRS § 10495.]

81.28.270 Limitation of action for collection of transportation charges. All actions at law by railroads, common and contract carriers by motor truck and all other public carriers for recovery of their charges, or any part of them, for any common carrier service performed by said carriers, shall be begun within two years from the time the cause of action accrues, and not after. [1961 c 14 § 81.28.270. Prior: 1945 c 117 § 1; Rem. Supp. 1945 § 167-1.]

The commission may require reports to be made by any common carrier of all wrecks, collisions, or derailments occurring on its line. [1961 c 14 § 81.28.280. Any railroad or railway in this state violating any of the provisions of RCW 81.44.031, shall be fined not less than five hundred dollars nor more than one thousand dollars for each violation; each day such condition exists shall constitute a separate violation. In setting the fine for equipment failure, the location of the locomotive at the time of the violation and access to repair facilities shall be taken into consideration. It shall also be a violation of RCW 81.44.031 and this section subject to the same penalty as provided in this section for any railroad employee, except those charged with the duty of installation, maintenance and repair or removal of speedometers to tamper with, adjust or break the lock or alter or remove the speed recording tape therein. The commission shall have power to add to, change, or modify said standards of equipment at any time or to provide different standards under different circumstances and conditions: PROVIDED, That the commission may, upon full hearing, for good cause, extend the period within which any railroad or street railroad may comply with the provisions of RCW 81.44.031 through 81.44.060 with respect to the equipment of locomotives or cars actually in service on the date of passage of chapter 117, Laws of 1911. The commission is hereby given authority to fix the time within which such modification or change shall become effective or obligatory. After the time so fixed it shall be unlawful to use any car, motor, or locomotive which does not comply with the standards so prescribed by the commission: PROVIDED, That when any car, motor, or locomotive shall have been properly equipped as provided in this title, and such equipment shall have become defective or insecure while such car, motor, or locomotive was being used by such railroad company upon its line of railroad, such car, motor, or locomotive may be hauled from the place where such equipment was first discovered to be defective or insecure to the nearest available point where such car, motor, or locomotive can be repaired, without liability for the penalties imposed herein if such movement is necessary to make such repairs, and such repairs cannot reasonably be made except at such repair point. Nothing in this proviso shall be construed to permit the hauling of defective cars by means of chains instead of drawbars in revenue trains, or in association with other cars that are commercially used, unless such defective cars contain livestock or perishable freight. 81.48.010 Failure to ring bell—Penalty—Exception. Every engineer driving a locomotive on any railway who shall fail to ring the bell or sound the whistle upon such locomotive, or cause the same to be rung or sounded at least eighty rods from any place where such railway crosses a traveled road or street on the same level (except in cities, or

in counties that enact ordinances applying only to crossings equipped with supplemental safety measures as provided in RCW 81.48.015), or to continue the ringing of such bell or sounding of such whistle until such locomotive shall have crossed such road or street, shall be guilty of a misdemeanor.

This section shall not apply to an engineer operating a locomotive within yard limits or when on track, which is not main line track, where crossing speed is restricted by published special instruction or bulletin to ten miles per hour or less. [1995 c 315 § 1; 1961 c 14 § 81.48.010. Prior: 1909 c 249 § 276; RRS § 2528.]

81.48.015 Limiting or prohibiting the sounding of locomotive horns—Supplemental safety measures—

Notice. (1) The legislature hereby authorizes cities and counties to enact ordinances limiting or prohibiting the sounding of locomotive horns, provided the ordinance applies only at crossings equipped with supplemental safety measures. A supplemental safety measure is a safety device defined in P.L. 103-440, section 20153(a)(3), as that law existed on November 2, 1994. A supplemental safety measure that prevents careless movement over the crossing (e.g., as where adequate median barriers prevent movement around crossing gates extending over the full width of the lanes in a particular direction of travel), shall be deemed to conform to those standards required under P.L. 103-440 unless specifically rejected by emergency order issued by the United States secretary of the department of transportation.

(2) Prior to enacting the ordinance, the cities and counties shall provide written notification to the railroad companies affected by the proposed ordinance, and to the state utilities and transportation commission, for the purpose of providing an opportunity to comment on the proposed ordinance.

(3) Nothing in this section shall be construed as limiting the state's power, guaranteed by the tenth amendment to the Constitution of the United States, to enact laws necessary for the health, safety, or welfare of the people of the state of Washington. [1995 c 315 § 2.]

81.48.020 Obstructing or delaying train—Penalty.

Every person who shall wilfully obstruct, hinder or delay the passage of any car lawfully operated upon any railway, shall be guilty of a misdemeanor. [1961 c 14 § 81.48.020. Prior: 1909 c 249 § 278; RRS § 2530.]

81.48.030 Speed within cities and towns and at grade crossings may be regulated. The right to fix and regulate the speed of railway trains within the limits of any city or town other than a first class city, and at grade crossings as defined in RCW 81.53.010 where such grade crossings are outside the limits of cities and towns, is vested exclusively in the commission: PROVIDED, That RCW 81.48.030 and 81.48.040 shall not apply to street railways which may be operating or hereafter operated within the limits of said cities and towns. [1994 c 81 § 83; 1973 c 115 § 3; 1971 ex.s. c 143 § 1; 1961 c 14 § 81.48.030. Prior: 1943 c 228 § 1; Rem. Supp. 1943 § 10547-1.]

81.48.040 Procedure to fix speed limits—Change in limits. After due investigation, the commission shall make

and issue an order fixing and regulating the speed of railway trains within the limits of cities and towns other than first class cities. The speed limit to be fixed by the commission shall be discretionary, and it may fix different rates of speed for different cities and towns, which rates of speed shall be commensurate with the hazard presented and the practical operation of the trains. The commission shall also fix and regulate the speed of railway trains at grade crossings as defined in RCW 81.53.010 where such grade crossings are outside the limits of cities and towns when in the judgment of the commission the public safety so requires; such speed limit to be fixed shall be discretionary with the commission and may be different for different grade crossings and shall be commensurate with the hazard presented and the practical operation of trains. The commission shall have the right from time to time, as conditions change, to either increase or decrease speed limits established under RCW 81.48.030 and 81.48.040. [1994 c 81 § 84; 1971 ex.s. c 143 § 2; 1961 c 14 § 81.48.040. Prior: 1943 c 228 § 2; Rem. Supp. 1943 § 10547-2.]

81.48.050 Trains to stop at railroad crossings. All railroads and street railroads, operating in this state shall cause their trains and cars to come to a full stop at a distance not greater than five hundred feet before crossing the tracks of another railroad crossing at grade, excepting at crossings where there are established signal towers, and signal men, interlocking plants or gates. [1961 c 14 § 81.48.050. Prior: 1911 c 117 § 69; RRS § 10405.]

81.52.020 Sidetrack and switch connections—Duty to construct. A railroad company upon the application of any shipper shall construct, maintain and operate upon reasonable terms a switch connection or connections with a lateral line of railway or private side track owned, operated or controlled by such shipper, and shall upon the application of any shipper, provide upon its own property a side track and switch connection with its line of railway, whenever such a side track and switch connection is reasonably practicable, and can be put in with safety and the business therefor is sufficient to justify the same. [1961 c 14 § 81.52.020. Prior: 1911 c 117 § 13; RRS § 10349.]

81.52.030 Sidetrack and switch connection may be ordered by commission. Whenever the commission shall find, after a hearing had upon its own motion or upon complaint, as herein provided, that application has been made by any shipper for a switching connection or connections with a lateral line of railway or private side track owned, operated or controlled by such shipper, or that application has been made by any shipper for the installation of a side track upon the property of such railroad, and that such switch connection or side track is reasonably practicable, can be put in with reasonable safety, and the business therefor is sufficient to justify the same, and that the railroad company has refused to install or provide the same, the commission shall enter its order requiring such connection or the construction of such side track: PROVIDED, That such shipper so to be served shall pay the legitimate cost and expense of constructing such connection or side track as shall be determined in separate items by the commission, and before the railroad company shall be compelled to incur any cost in connection therewith the same shall be secured to the railroad company in such manner as the commission may require. Whenever such lateral line of railway private side track or side track upon the property of the railroad company shall be constructed under the provisions of this section, any person or corporation shall be entitled to connect therewith or use the same upon the payment to the shipper incurring the primary expense of a reasonable proportion of the cost thereof, to be determined by the commission after notice to the interested parties: PROVIDED, That such connection can be made without unreasonable interference with the right of such shipper incurring the primary expense. [1961 c 14 § 81.52.030. Prior: 1911 c 117 § 62; RRS § 10398.]

81.52.040 Spur tracks. Any railroad corporation organized under the laws of this state or of any other state,

and authorized to do business in this state and owning or operating a railway in this state, may construct, maintain and operate public spur tracks, from its railroad or any branch thereof, to and upon the grounds of any mill, elevator, storehouse, warehouse, dock, wharf, pier, manufacturing establishment, lumber yard, coal dock or other industry or enterprise, with all side tracks, storage tracks, wyes, turnouts, and connections necessary or convenient to the use of the same; and such company may acquire by purchase or condemnation, in the manner provided by the laws of this state for the acquisition of real estate for railway purposes, all necessary rights of way for such spur tracks, side tracks, storage tracks, wyes, turnouts and connections; said spur when constructed to be a public spur for the use of all industries located or thereafter located thereon: PROVIDED, That the right to acquire by condemnation herein granted shall not be exercised over unimproved lands for a greater distance than five miles, or over improved lands for a greater distance than one mile, or over lands within the limits of a municipal corporation for a greater distance than one-fourth of a mile: PROVIDED FURTHER, That this section shall not be construed as limiting the rights granted under RCW 81.36.060 through 81.36.090, relating to the construction of branch lines. [1961 c 14 § 81.52.040. Prior: 1907 c 223 § 1; RRS § 10465.]

81.52.050 Fences—Crossings—Cattle guards. Every person, company or corporation having the control or management of any railroad shall, outside of any corporate city or town, and outside the limits of any sidetrack or switch, cause to be constructed and maintained in good repair on each side of said railroad, along the line of said right of way of such person, company or corporation operating the same, a substantial fence, and at every point where any roadway or other public highway shall cross said railroad, a safe and sufficient crossing must be built and maintained, and on each side of such crossing and at each end of such sidetrack or switch, outside of any incorporated city or town, a sufficient cattle guard: PROVIDED, That any person holding land on both sides of said right of way shall have the right to put in gates for his own use at such places as may be convenient. [1961 c 14 § 81.52.050. Prior: 1907 c 88 § 1; RRS § 10507.]

81.52.060 Fences—Liability for injury to stock. Every such person, company or corporation owning or operating such railroad shall be liable for all damages sustained in the injury or killing of stock in any manner by reason of the failure of such person, company or corporation, to construct and maintain such fence or such crossing or cattle guard; but when such fences, crossings and guards have been duly made, and shall be kept in good repair, such person, company or corporation shall not be liable for any such damages, unless negligently or unlawfully done. [1961 c 14 § 81.52.060. Prior: 1907 c 88 § 2; RRS § 10508.]

81.52.070 Fences—Negligence—Evidence. In all actions against persons, companies or corporations, operating steam or electric railroads in the state of Washington, for injury to stock by collision with moving trains, it is prima facie evidence of negligence on the part of such person,

company or corporation, to show that the railroad track was not fenced with a substantial fence or protected by a sufficient cattle guard at the place where the stock was injured or killed. [1961 c 14 § 81.52.070. Prior: 1907 c 88 § 3; RRS § 10509.]

Counties, signs, signals, etc.: RCW 36.86.040.

Railroad intersections, crossings, etc.: State Constitution Art. 12 § 13.

Traffic devices required by utilities and transportation commission: RCW 47.36.050.

81.53.010 Definitions. The term "commission," when used in this chapter, means the utilities and transportation commission of Washington.

The term "highway," when used in this chapter, includes all state and county roads, streets, alleys, avenues, boulevards, parkways and other public places actually open and in use, or to be opened and used, for travel by the public.

The term "railroad," when used in this chapter, means every railroad, including interurban and suburban electric railroads, by whatsoever power operated, for the public use in the conveyance of persons or property for hire, with all bridges, ferries, tunnels, equipment, switches, spurs, sidings, tracks, stations and terminal facilities of every kind, used, operated, controlled, managed, or owned by or in connection therewith. The said term shall also include every logging and other industrial railway owned or operated primarily for the purpose of carrying the property of its owners or operators or of a limited class of persons, with all tracks, spurs and sidings used in connection therewith. The said term shall not include street railways operating within the limits of any incorporated city or town.

The term "railroad company," when used in this chapter, includes every corporation, company, association, joint stock association, partnership or person, its, their or his lessees, trustees or receivers appointed by any court whatsoever, owning, operating, controlling or managing any railroad, as that term is defined in this section.

The term "over-crossing," when used in this chapter, means any point or place where a highway crosses a railroad by passing above the same.

The term "under-crossing," when used in this chapter, means any point or place where a highway crosses a railroad by passing under the same.

The term "over-crossing" or "under-crossing," shall also mean any point or place where one railroad crosses another railroad not at grade.

The term "grade crossing," when used in this chapter, means any point or place where a railroad crosses a highway or a highway crosses a railroad or one railroad crosses another, at a common grade. [1961 c 14 § 81.53.010. Prior: 1959 c 283 § 2; prior: (i) 1913 c 30 § 1; RRS § 10511. (ii) 1941 c 161 § 1; Rem. Supp. 1941 § 10511-1. Formerly RCW 81.52.080, part.]

81.53.020 Grade separation required where practicable. All railroads and extensions of railroads hereafter constructed shall cross existing railroads and highways by passing either over or under the same, when practicable, and shall in no instance cross any railroad or highway at grade without authority first being obtained from the commission to do so. All highways and extensions of highways hereafter laid out and constructed shall cross existing railroads by passing either over or under the same, when practicable, and shall in no instance cross any railroad at grade without authority first being obtained from the commission to do so: PROVIDED, That this section shall not be construed to prohibit a railroad company from constructing tracks at grade across other tracks owned or operated by it within established yard limits. In determining whether a separation of grades is practicable, the commission shall take into consideration the amount and character of travel on the railroad

and on the highway; the grade and alignment of the railroad and the highway; the cost of separating grades; the topography of the country, and all other circumstances and conditions naturally involved in such an inquiry. [1961 c 14 § 81.53.020. Prior: 1913 c 30 § 2; RRS § 10512. Formerly RCW 81.52.090.]

81.53.030 Petition for crossing—Hearing—Order.

Whenever a railroad company desires to cross a highway or railroad at grade, it shall file a written petition with the commission setting forth the reasons why the crossing cannot be made either above or below grade. Whenever the legislative authority of a county, or the municipal authorities of a city, or the state officers authorized to lay out and construct state roads, or the state parks and recreation commission, desire to extend a highway across a railroad at grade, they shall file a written petition with the commission, setting forth the reasons why the crossing cannot be made either above or below grade. Upon receiving the petition the commission shall immediately investigate it, giving at least ten days' notice to the railroad company and the county or city affected thereby, of the time and place of the investigation, to the end that all parties interested may be present and heard. If the highway involved is a state road or parkway, the secretary of transportation or the state parks and recreation commission shall be notified of the time and place of hearing. The evidence introduced shall be reduced to writing and be filed by the commission. If it finds that it is not practicable to cross the railroad or highway either above or below grade, the commission shall enter a written order in the cause, either granting or denying the right to construct a grade crossing at the point in question. The commission may provide in the order authorizing a grade crossing, or at any subsequent time, that the railroad company shall install and maintain proper signals, warnings, flagmen, interlocking devices, or other devices or means to secure the safety of the public and its employees. In respect to existing railroad grade crossings over highways the construction of which grade crossings was accomplished other than under a commission order authorizing it, the commission may in any event require the railroad company to install and maintain, at or near each crossing, on both sides of it, a sign known as the sawbuck crossing sign with the lettering "Railroad Crossing" inscribed thereon with a suitable inscription indicating the number of tracks. The sign shall be of standard design conforming to specifications furnished by the Washington state department of transportation. [1984 c 7 § 373; 1961 c 14 § 81.53.030. Prior: 1959 c 283 § 1; 1955 c 310 § 3; prior: 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.100.]

Severability—1984 c 7: See note following RCW 47.01.141.

81.53.040 Supplemental hearing—Change of route.

If the commission finds that it is impracticable to construct an over-crossing or under-crossing on the established or proposed highway, and shall find that by deflecting the established or proposed highway a practicable and feasible over-crossing or under-crossing or a safer grade crossing can be provided, it shall continue the hearing and hold a supplemental hearing thereon. At least ten days' notice of the time and place of the supplemental hearing shall be given to all

landowners that may be affected by the proposed change in location of the highways. At the supplemental hearing the commission shall inquire into the propriety and necessity of changing and deflecting the highway as proposed. If the proposed change in route of the highway involves the abandonment and vacation of a portion of an established highway, the owners of land contiguous to the portion of the highway to be vacated shall, in like manner, be notified of the time and place of the supplemental hearing. At the conclusion of the hearing, the commission shall enter its findings in writing, and shall determine the location of the crossing which may be constructed, and whether it shall be an under-crossing, over-crossing or grade crossing, and shall determine whether or not any proposed change in the route of an existing highway, or the abandonment of a portion thereof is advisable or necessary to secure an over-crossing, under-crossing, or safer grade crossing. [1961 c 14 § 81.53.040. Prior: 1955 c 310 § 4; prior: 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.110.]

81.53.050 Requirements of order on change of route.

If the commission finds and determines that a change in route of an existing highway, or vacation of a portion thereof, is necessary or advisable, it shall further find and determine what private property or property rights it is necessary to take, damage, or injuriously affect for the purpose of constructing the highway along a new route, and what private property or property rights, will be affected by the proposed vacation of a portion of an existing highway. The property and property rights found necessary to be taken, damaged, or affected shall be described in the findings with reasonable accuracy. In any action brought to acquire the right to take or damage any such property or property rights, the findings of the commission shall be conclusive as to the necessity therefor. A copy of the findings shall be served upon all parties to the cause. [1961-c 14 § 81.53.050. Prior: 1955 c 310 § 5; 1937 c 22 § 1, part; 1913 c 30 § 3, part; RRS § 10513, part. Formerly RCW 81.52.120.]

81.53.060 Petition for alteration of crossing—Closure of grade crossing without hearing.

The mayor and city council, or other governing body of any city or town, or the legislative authority of any county within which there exists any under-crossing, over-crossing, or grade crossing, or where any street or highway is proposed to be located or established across any railroad, or any railroad company whose road is crossed by any highway, may file with the commission their or its petition in writing, alleging that the public safety requires the establishment of an under-crossing or over-crossing, or an alteration in the method and manner of an existing crossing and its approaches, or in the style and nature of construction of an existing over-crossing, under-crossing, or grade crossing, or a change in the location of an existing highway or crossing, the closing or discontinuance of an existing highway crossing, and the diversion of travel thereon to another highway or crossing, or if not practicable, to change the crossing from grade or to close and discontinue the crossing, the opening of an additional crossing for the partial diversion of travel, and praying that this relief may be ordered. If the existing or proposed cross-

ing is on a state road, highway, or parkway, the petition may be filed by the secretary of transportation or the state parks and recreation commission. Upon the petition being filed, the commission shall fix a time and place for hearing the petition and shall give not less than twenty days' notice to the petitioner, the railroad company, and the municipality or county in which the crossing is situated. If the highway involved is a state highway or parkway, like notice shall be given to the secretary of transportation or the state parks and recreation commission. If the change petitioned for requires that private lands, property, or property rights be taken, damaged, or injuriously affected to open up a new route for the highway, or requires that any portion of any existing highway be vacated and abandoned, twenty days' notice of the hearing shall be given to the owner or owners of the private lands, property, and property rights which it is necessary to take, damage, or injuriously affect, and to the owner or owners of the private lands, property, or property rights that will be affected by the proposed vacation and abandonment of the existing highway. The commission shall also cause notice of the hearing to be published once in a newspaper of general circulation in the community where the crossing is situated, which publication shall appear at least two days before the date of hearing. At the time and place fixed in the notice, all persons and parties interested are entitled to be heard and introduce evidence. In the case of a petition for closure of a grade crossing the commission may order the grade crossing closed without hearing where: (1) Notice of the filing of the petition is posted at, or as near as practical to, the crossing; (2) notice of the filing of the petition is published once in a newspaper of general circulation in the community or area where the crossing is situated, which publication shall appear within the same week that the notice referred to in subsection (1) of this section is posted; and (3) no objections are received by the commission within twenty days from the date of the publication of the notice. [1984 c 7 § 374; 1969 ex.s. c 210 § 8; 1961 c 14 § 81.53.060. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.130.]

Severability—1984 c 7: See note following RCW 47.01.141.

81.53.070 Hearing. At the conclusion of the hearing, the commission shall make and file its written findings of fact concerning the matters inquired into in like manner as provided for findings of fact upon petition for new crossings. The commission shall also enter its order based upon said findings of fact, which shall specify whether the highway shall continue at grade or whether it shall be changed to cross over or under the railroad in its existing location or at some other point, and whether an over-crossing or under-crossing shall be established at the proposed location of any street or highway or at some other point, or whether the style and nature of construction of an existing crossing shall be changed, or whether said highway shall be closed and travel thereon diverted to another channel, or any other change that the commission may find advisable or necessary: **PROVIDED**, That in an emergency where a highway is relocated to avoid a grade crossing, or a new crossing is constructed in the vicinity of an existing crossing in the interest of public safety, the commission may order such

existing crossing closed without notice or hearing as specified herein. In case the order made requires that private lands, property, or property rights be taken, damaged or injuriously affected, the right to take, damage or injuriously affect the same shall be acquired as hereinafter provided.

Any petition herein authorized may be filed by the commission on its own motion, and proceedings thereon shall be the same as herein provided for the hearing and determination of a petition filed by a railroad company. [1961 c 14 § 81.53.070. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.140.]

81.53.080 Restrictions on structures, railway equipment, in proximity of crossings—Minimum clearance for under-crossings. After February 24, 1937, no building, loading platform, or other structure which will tend to obstruct the vision of travelers on a highway or parkway, of approaching railway traffic, shall be erected or placed on railroad or public highway rights of way within a distance of one hundred feet of any grade crossing located outside the corporate limits of any city or town unless authorized by the commission, and no trains, railway cars or equipment shall be spotted less than one hundred feet from any grade crossing within or without the corporate limits of any city or town except to serve station facilities and existing facilities of industries.

The commission shall have the power to specify the minimum vertical and horizontal clearance of under-crossings constructed, repaired or reconstructed after February 24, 1937, except as to primary state highways. [1969 ex.s. c 210 § 9; 1961 c 14 § 81.53.080. Prior: 1937 c 22 § 2, part; 1921 c 138 § 1, part; 1913 c 30 § 4, part; RRS § 10514, part. Formerly RCW 81.52.150.]

81.53.090 Duty to maintain crossings. When a highway crosses a railroad by an over-crossing or under-crossing, the framework and abutments of the over-crossing or under-crossing, as the case may be, shall be maintained and kept in repair by the railroad company, and the roadway thereover or thereunder and approaches thereto shall be maintained and kept in repair by the county or municipality in which the same are situated, or if the highway is a state road or parkway, the roadway over or under the railroad shall be maintained and kept in repair as provided by law for the maintenance and repair of state roads and parkways.

The railings of over-crossings shall be considered a part of the roadway. Whenever a highway intersects a railroad at common grade, the roadway approaches within one foot of the outside of either rail shall be maintained and kept in repair by highway authority, and the planking or other materials between the rails and for one foot on the outside thereof shall be installed and maintained by the railroad company. At crossings involving more than one track, maintenance by the railroad company shall include that portion of the crossing between and for one foot on the outside of each outside rail. The minimum length of such planking or other materials shall be twenty feet on installation or repairs made after February 24, 1937. [1961 c 14 § 81.53.090. Prior: 1937 c 22 § 3; 1913 c 30 § 5; RRS § 10515. Formerly RCW 81.52.160.]

81.53.091 Underpasses, overpasses constructed with aid of federal funds—Apportionment of maintenance cost between railroad and state. See RCW 47.28.150.

81.53.100 Cost when railroad crosses highway. Whenever, under the provisions of this chapter, new railroads are constructed across existing highways, or highway changes are made either for the purpose of avoiding grade crossings on such new railroads, or for the purpose of crossing at a safer and more accessible point than otherwise available, the entire expense of crossing above or below the grade of the existing highway, or changing the route thereof, for the purpose mentioned in this section, shall be paid by the railroad company. [1961 c 14 § 81.53.100. Prior: 1937 c 22 § 4A; 1925 ex.s. c 73 § 1A; 1921 c 138 § 2A; 1913 c 30 § 6A; RRS § 10516A. Formerly RCW 81.52.170.]

81.53.110 Cost when highway crosses railroad. Whenever, under the provisions of this chapter, a new highway is constructed across a railroad, or an existing grade crossing is eliminated or changed (or the style or nature of construction of an existing crossing is changed), the entire expense of constructing a new grade crossing, an overcrossing, under-crossing, or safer grade crossing, or changing the nature and style of construction of an existing crossing, including the expense of constructing approaches to such crossing and the expense of securing rights of way for such approaches, as the case may be, shall be apportioned by the commission between the railroad, municipality or county affected, or if the highway is a state road or parkway, between the railroad and the state, in such manner as justice may require, regard being had for all facts relating to the establishment, reason for, and construction of said improvement. If the highway involved is a state road or parkway, the amount not apportioned to the railroad company shall be paid as provided by law for constructing such state road or parkway. [1961 c 14 § 81.53.110. Prior: 1937 c 22 § 4B; 1925 ex.s. c 73 § 1B; 1921 c 138 § 2B; 1913 c 30 § 6B; RRS § 10516B. Formerly RCW 81.52.180.]

81.53.120 Cost when railroad crosses railroad. Whenever two or more lines of railroad owned or operated by different companies cross a highway, or each other, by an over-crossing, under-crossing, or grade crossing required or permitted by this chapter or by an order of the commission, the portion of the expense of making such crossing not chargeable to any municipality, county or to the state, and the expense of constructing and maintaining such signals, warnings, flagmen, interlocking devices, or other devices or means to secure the safety of the public and the employees of the railroad company, as the commission may require to be constructed and maintained, shall be apportioned between said railroad companies by the commission in such manner as justice may require, regard being had for all facts relating to the establishment, reason for, and construction of said improvement, unless said companies shall mutually agree upon an apportionment. If it becomes necessary for the commission to make an apportionment between the railroad companies, a hearing for that purpose shall be held, at least ten days' notice of which shall be given. [1961 c 14 § 81.53.120. Prior: 1937 c 22 § 4C; 1925 ex.s. c 73 § 1C;

1921 c 138 § 2C; 1913 c 30 § 6C; RRS § 10516C. Formerly RCW 81.52.190.]

81.53.130 Apportionment of cost. In the construction of new railroads across existing highways, the railroads shall do or cause to be done all the work of constructing the crossings and road changes that may be required, and shall acquire and furnish whatever property or easements may be necessary, and shall pay, as provided in RCW 81.53.100 through 81.53.120, the entire expense of such work including all compensation or damages for property or property rights taken, damaged or injuriously affected. In all other cases the construction work may be apportioned by the commission between the parties who may be required to contribute to the cost thereof as the parties may agree, or as the commission may consider advisable. All work within the limits of railroad rights of way shall in every case be done by the railroad company owning or operating the same. The cost of acquiring additional lands, rights or easements to provide for the change of existing crossings shall, unless the parties otherwise agree, in the first instance be paid by the municipality or county within which the crossing is located; or in the case of a state road or parkway, shall be paid in the manner provided by law for paying the cost of acquiring lands, rights or easements for the construction of state roads or parkways. The expense accruing on account of property taken or damaged shall be divided and paid in the manner provided for dividing and paying other costs of construction. Upon the completion of the work and its approval by the commission, an accounting shall be had, and if it shall appear that any party has expended more than its proportion of the total cost, a settlement shall be forthwith made. If the parties shall be unable to agree upon a settlement, the commission shall arbitrate, adjust and settle the account after notice to the parties. In the event of failure and refusal of any party to pay its proportion of the expense, the sum with interest from the date of the settlement may be recovered in a civil action by the party entitled thereto. In cases where the commission has settled the account, the finding of the commission as to the amount due shall be conclusive in any civil action brought to recover the same if such finding has not been reviewed or appealed from as herein provided, and the time for review or appeal has expired. If any party shall seek review of any finding or order of the commission apportioning the cost between the parties liable therefor, the superior court, the court of appeals, or the supreme court, as the case may be, shall cause judgment to be entered in such review proceedings for such sum or sums as may be found lawfully or justly due by one party to another. (3) In cases where the commission orders changes in existing crossings to secure an under-crossing, over-crossing, or safer grade crossing, and it is necessary to take, damage, or injuriously affect private lands, property, or property rights to execute the work, the right to take, damage, or injuriously affect such lands, property, or property rights shall be acquired in a condemnation proceeding prosecuted in the name of the state of Washington by the attorney general under the laws relating to the exercise of the power of eminent domain by cities of the first class for street and highway purposes: PROVIDED, That in the cases mentioned in this subdivision the full value of any lands taken shall be awarded, together with damages, if any accruing to the remainder of the land not taken by reason of the severance of the part taken, but in computing the damages to the remainder, if any, the jury shall offset against such damages, if any, the special benefits, if any, accruing to such remainder by reason of the proposed improvement. 81.53.240 Scope of chapter. Except to the extent necessary to permit participation by first class cities in the grade crossing protective fund, when an election to participate is made as provided in RCW 81.53.261 through 81.53.291, chapter 81.53 RCW is not operative within the limits of first class cities, and does not apply to street railway lines operating on or across any street, alley, or other public place within the limits of any city, except that a street car line outside of cities of the first class shall not cross a railroad at grade without express authority from the commission. The commission may not change the location of a state highway without the approval of the secretary of transportation, or the location of any crossing thereon adopted or approved by the department of transportation, or grant a railroad authority to cross a state highway at grade without the consent of the secretary of transportation. 81.53.250 Employment of experts. The commission may employ temporarily such experts, engineers, and inspectors as may be necessary to supervise changes in existing crossings undertaken under this chapter; the expense thereof shall be paid by the railroad upon the request and certificate of the commission, said expense to be included in the cost of the particular change of grade on account of which it is incurred, and apportioned as provided in this chapter.

The commission may also employ such engineers and other persons as permanent employees as may be necessary to properly administer this chapter. [1961 c 14 § 81.53.250. Prior: 1937 c 22 § 7; 1913 c 30 § 14; RRS § 10524. Formerly RCW 81.52.330.]

81.53.261 Crossing signals, warning devices—Petition, motion—Hearing—Order—Costs apportionment—Records not evidence for actions—Appeal. Whenever the secretary of transportation or the governing body of any city, town, or county, or any railroad company whose road is crossed by any highway, shall deem that the public safety requires signals or other warning devices, other than sawbuck signs, at any crossing of a railroad at common grade by any state, city, town, or county highway, road, street, alley, avenue, boulevard, parkway, or other public place actually open and in use or to be opened and used for travel by the public, he or it shall file with the utilities and transportation commission a petition in writing, alleging that the public safety requires the installation of specified signals or other warning devices at such crossing or specified changes in the method and manner of existing crossing warning devices. Upon receiving such petition, the commission shall promptly set the matter for hearing, giving at least twenty days notice to the railroad company or companies and the county or municipality affected thereby, or the secretary of transportation in the case of a state highway, of the time and place of such hearing. At the time and place fixed in the notice, all persons and parties interested shall be entitled to be heard and introduce evidence, which shall be reduced to writing and filed by the commission. If the commission shall determine from the evidence that public safety does not require the installation of the signal, other warning device or change in the existing warning device specified in the petition, it shall make determinations to that effect and enter an order denying said petition in toto. If the commission shall determine from the evidence that public safety requires the installation of such signals or other warning devices at such crossing or such change in the existing warning devices at said crossing, it shall make determinations to that effect and enter an order directing the installation of such signals or other warning devices or directing that such changes shall be made in existing warning devices. The commission shall also at said hearing apportion the entire cost of installation and maintenance of such signals or other warning devices, other than sawbuck

signs, as provided in RCW 81.53.271: PROVIDED, That upon agreement by all parties to waive hearing, the commission shall forthwith enter its order.

No railroad shall be required to install any such signal or other warning device until the public body involved has either paid or executed its promise to pay to the railroad its portion of the estimated cost thereof.

Nothing in this section shall be deemed to foreclose the right of the interested parties to enter into an agreement, franchise, or permit arrangement providing for the installation of signals or other warning devices at any such crossing or for the apportionment of the cost of installation and maintenance thereof, or compliance with an existing agreement, franchise, or permit arrangement providing for the same.

The hearing and determinations authorized by this section may be instituted by the commission on its own motion, and the proceedings, hearing, and consequences thereof shall be the same as for the hearing and determination of any petition authorized by this section.

No part of the record, or a copy thereof, of the hearing and determination provided for in this section and no finding, conclusion, or order made pursuant thereto shall be used as evidence in any trial, civil or criminal, arising out of an accident at or in the vicinity of any crossing prior to installation of signals or other warning devices pursuant to an order of the commission as a result of any such investigation.

Any order entered by the utilities and transportation commission under this section shall be subject to review, supersedeas and appeal as provided in RCW 81.04.170 through 81.04.190, respectively.

Nothing in this section shall be deemed to relieve any railroad from liability on account of failure to provide adequate protective devices at any such crossing. [1982 c 94 § 1; 1969 c 134 § 1.]

Application—1982 c 94: "The provisions of this act shall not apply to those petitions acted upon by the commission prior to July 10, 1982." [1982 c 94 § 5.]

Reviser's note: The term "this act" refers to the amendment by 1982 c 94 of RCW 81.53.261, 81.53.271, 81.53.281, and 81.53.295.

81.53.271 Crossing signals, warning devices—Petition contents—Apportionment of installation and maintenance costs. The petition shall set forth by description the location of the crossing or crossings, the type of signal or other warning device to be installed, the necessity from the standpoint of public safety for such installation, the approximate cost of installation and related work, and the approximate annual cost of maintenance. If the commission directs the installation of a grade crossing protective device, and a federal-aid funding program is available to participate in the costs of such installation, both installation and maintenance costs of the device shall be apportioned in accordance with the provisions of RCW 81.53.295. Otherwise if installation is directed by the commission, it shall apportion the cost of installation and maintenance as provided in this section:

Installation: (1) Sixty percent to the grade crossing protective fund, created by RCW 81.53.281;

(2) Thirty percent to the city, town, county, or state; and

(3) Ten percent to the railroad:

PROVIDED, That, if the proposed installation is located at a new crossing requested by a city, town, county, or state, forty percent of the cost shall be apportioned to the city, town, county, or state, and none to the railroad. If the proposed installation is located at a new crossing requested by a railroad, then the entire cost shall be apportioned to the railroad. In the event the city, town, county, or state should concurrently petition the commission and secure an order authorizing the closure of an existing crossing or crossings in proximity to the crossing for which installation of signals or other warning devices shall have been directed, the apportionment to the petitioning city, town, county, or state shall be reduced by ten percent of the total cost for each crossing ordered closed and the apportionment from the grade crossing protective fund increased accordingly. This exception shall not be construed to permit a charge to the grade crossing protective fund in an amount greater than the total cost otherwise apportionable to the city, town, county, or state. No reduction shall be applied where one crossing is closed and another opened in lieu thereof, nor to crossings of a private nature.

Maintenance: (1) Twenty-five percent to the grade crossing protective fund, created by RCW 81.53.281; and

(2) Seventy-five percent to the railroad:

PROVIDED, That if the proposed installation is located at a new crossing requested by a railroad, then the entire cost shall be apportioned to the railroad. [1982 c 94 § 2; 1975 1st ex.s. c 189 § 1; 1973 1st ex.s. c 77 § 1; 1969 c 134 § 2.]

Application—1982 c 94: See note following RCW 81.53.261.

81.53.275 Crossing signals, warning devices—Apportionment when funds not available from grade crossing protective fund. In the event funds are not available from the grade crossing protective fund, the commission shall apportion to the parties on the basis of the benefits to be derived by the public and the railroad, respectively, that part of the cost which would otherwise be assigned to the fund: PROVIDED, That in such instances the city, town, county or state shall not be assessed more than sixty percent of the total cost of installation on other than federal aid designated highway projects: AND PROVIDED FURTHER, That in such instances the entire cost of maintenance shall be apportioned to the railroad. [1969 ex.s. c 281 § 18; 1969 c 134 § 7.]

81.53.281 Crossing signals, warning devices—Grade crossing protective fund—Created—Transfer of funds—Allocation of costs—Procedure—Federal funding—Recovery of costs—Report on status of fund. There is hereby created in the state treasury a "grade crossing protective fund," to which shall be transferred all moneys appropriated for the purpose of carrying out the provisions of RCW 81.53.261, 81.53.271, 81.53.281, 81.53.291, and 81.53.295. At the time the commission makes each allocation of cost to said grade crossing protective fund, it shall certify that such cost shall be payable out of said fund. When federal-aid highway funds are not involved, the railroad shall, upon completion of the installation of any such signal or other protective device and related work, present its claim for reimbursement for the cost of installa-

tion and related work from said fund of the amount allocated thereto by the commission. The annual cost of maintenance shall be presented and paid in a like manner. When federal-aid highway funds are involved, the department of transportation shall, upon entry of an order by the commission requiring the installation or upgrading of a grade crossing protective device, submit to the commission an estimate for the cost of the proposed installation and related work. Upon receipt of the estimate the commission shall pay to the department of transportation the percentage of the estimate specified in RCW 81.53.295, as now or hereafter amended, to be used as the grade crossing protective fund portion of the cost of the installation and related work. The commission is hereby authorized to recover administrative costs from said fund in an amount not to exceed three percent of the direct appropriation provided for any biennium, and in the event administrative costs exceed three percent of the appropriation, the excess shall be chargeable to regulatory fees paid by railroads pursuant to RCW 81.24.010.

Within ninety days of the end of each fiscal year, the commission shall report to the legislative transportation committee, and the senate and house committees on transportation, the status of the grade crossing protective fund, including revenue sources, fund balances, and expenditures.

The office of financial management shall direct the state treasurer to transfer to the motor vehicle fund an amount not to exceed \$1,331,000 from the grade crossing protective fund for the 1987-89 fiscal biennium. [1987 c 257 § 1; 1985 c 405 § 509; 1982 c 94 § 3; 1975 1st ex.s. c 189 § 2; 1973 c 115 § 4; 1969 c 134 § 3.]

Severability—1985 c 405: See note following RCW 9.46.100.

Application—1982 c 94: See note following RCW 81.53.261.

81.53.291 Crossing signals, warning devices—Operational scope—Election by first class cities—Procedure. RCW 81.53.261 through 81.53.291 shall be operative within the limits of all cities, towns and counties, except cities of the first class. Cities of the first class may elect as to each particular crossing whether RCW 81.53.261 through 81.53.291 shall apply. Such election shall be made by the filing by such city of a petition as provided for in RCW 81.53.261 with the utilities and transportation commission, or by a statement filed with the commission accepting jurisdiction, when such petition is filed by others. [1969 c 134 § 4.]

81.53.295 Crossing signals, warning devices, etc.—Federal funds used to pay installation costs—Grade crossing protective fund—State and local authorities to pay remaining installation costs—Railroad to pay maintenance costs. Whenever federal-aid highway funds are available and are used to pay a portion of the cost of installing a grade crossing protective device, and related work, at a railroad crossing of any state highway, city or town street, or county road at the then prevailing federal-aid matching rate, the grade crossing protective fund shall pay ten percent of the remaining cost of such installation and related work. The state or local authority having jurisdiction of such highway, street, or road shall pay the balance of the remaining cost of such installation and related work. The railroad whose road is crossed by the highway, street, or

road shall thereafter pay the entire cost of maintaining the device. [1982 c 94 § 4; 1975 1st ex.s. c 189 § 3.]

Application—1982 c 94: See note following RCW 81.53.261.

81.53.400 Traffic control devices during construction, repair, etc. of crossing or overpass—Required. Whenever any railroad company engages in the construction, maintenance, or repair of a crossing or overpass, the company shall install and maintain traffic control devices adequate to protect the public and railroad employees, subject to the requirements of RCW 81.53.410 and 81.53.420. [1977 ex.s. c 168 § 1.]

81.53.410 Traffic control devices during construction, repair, etc. of crossing or overpass—Standards and conditions. All traffic control devices used under RCW 81.53.400 shall be subject to the following conditions:

(1) Any traffic control devices shall be used at a repair or construction site only so long as the devices are needed or applicable. Any devices that are no longer needed or applicable shall be removed or inactivated so as to prevent confusion;

(2) All barricades, signs, and similar devices shall be constructed and installed in a workmanlike manner;

(3) Bushes, weeds, or any other material or object shall not be allowed to obscure any traffic control devices;

(4) All signs, barricades, and other control devices intended for use during hours of darkness shall be adequately illuminated or reflectorized, with precautions taken to protect motorists from glare; and

(5) Flagpersons shall be provided where necessary to adequately protect the public and railroad employees. The flagpersons shall be responsible and competent and possess at least average intelligence, vision, and hearing. They shall be neat in appearance and courteous to the public. [1977 ex.s. c 168 § 2.]

81.53.420 Traffic control devices during construction, repair, etc. of crossing or overpass—Rules. The utilities and transportation commission shall adopt rules to implement the provisions of RCW 81.53.400 and 81.53.410 pursuant to chapter 34.05 RCW. The commission shall invite the participation of all interested parties in any hearings or proceedings taken under this section, including any parties who request notice of any proceedings.

Any rules adopted under this section and any devices employed under RCW 81.53.410 shall conform to the national standards established by the current manual, including any future revisions, on the Uniform Traffic Control Devices as approved by the American National Standards Institute as adopted by the federal highway administrator of the United States department of transportation.

Rules adopted by the commission shall specifically prescribe the duties, procedures, and equipment to be used by the flagpersons required by RCW 81.53.410.

RCW 81.53.400 through 81.53.420 and rules adopted thereunder shall be enforced by the commission under the provisions of chapter 81.04 RCW: PROVIDED, That rules adopted by the commission shall recognize that cities with a population in excess of four hundred thousand are responsible for specific public thoroughfares and have the specific

responsibility and authority for determining the practices relating to safeguarding the public during construction, repair, and maintenance activities. [1977 ex.s. c 168 § 3.]

81.53.900 Effective date—1975 1st ex.s. c 189. This 1975 amendatory act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1975. [1975 1st ex.s. c 189 § 4.]

81.54.010 Definitions. The term "grade crossing" when used in this chapter means any point or place where a logging or industrial railroad crosses a highway or a highway crosses such railroad or such railroad crosses any other railroad, at a common grade.

The term "over-crossing" when used in this chapter means any point or place where a highway crosses a railroad by passing above the same.

The term "under-crossing" when used in this chapter means any point or place where a highway crosses a railroad by passing under the same.

The term "over-crossing" or "under-crossing" shall also mean any point or place where one railroad crosses another railroad not at grade.

The term "logging" or "industrial" railroad when used in this chapter shall include every railway owned or operated primarily for the purpose of carrying the property of its owners or operators or a limited class of persons, with all tracks, spurs and sidings used in connection therewith. fix the exact fee based on the cost of rendering such inspection service. All fees collected shall be deposited in the state treasury to the credit of the public service revolving fund. Intersections having one or more tracks shall be treated as a single crossing. Tracks separated a distance in excess of one hundred feet from the nearest track or group of tracks shall constitute an additional crossing. Where two or more independently operated railroads cross each other or the same highway intersection, each independent track shall constitute a separate crossing.

Every person failing to make the report and pay the fees required, shall be guilty of a misdemeanor and in addition be subject to a penalty of twenty-five dollars for each day that the fee remains unpaid after it becomes due. Constitutional limitations, generally: State Constitution Art. 12.

Express companies: State Constitution Art. 12 § 21.

81.56.010 Distribution of cars. Every railroad company shall upon reasonable notice, furnish to all persons and corporations who may apply therefor and offer property for transportation sufficient and suitable cars for the transportation of such property in carload lots. In case at any particular time a railroad company has not sufficient cars to meet all the requirements for transportation of property in carload lots, all cars available for such purpose shall be distributed among the several applicants therefor, without unjust discrimination between shippers, localities or competitive or noncompetitive points. [1961 c 14 § 81.56.010. Prior: 1911 c 117 § 11; RRS § 10347.]

81.56.020 Distributing book must be kept. Every railroad company shall keep, subject to the inspection of any bona fide shipper, a book or books known as "car distributing book," which shall be kept by such officer or officers,

employees of such railroad, and in such manner and form as the commission shall direct, showing among other things all orders for cars received by such railroad company, the name of the person ordering the same, the time when and place where such cars are required, the time when and place where such cars were supplied, and such other matters and information as the commission may prescribe. [1961 c 14 § 81.56.020. Prior: 1911 c 117 § 12; RRS § 10348.]

81.56.030 Discrimination prohibited—Connecting lines. Every railroad company shall, under such regulations as may be prescribed by the commission, afford all reasonable, proper and equal facilities for the interchange of passengers, tonnage and cars, loaded or empty, between the lines, owned, operated, controlled or leased by it and the lines of every other railroad company; and shall, under such regulations as the commission may prescribe, receive and transport, without delay or discrimination, the passengers, tonnage and cars, loaded or empty, of any connecting line of railroad: PROVIDED, That perishable freight of all kinds and livestock shall have precedence of shipment. Every railroad company as such is required to receive from every other railroad company at a connecting point the tonnage carried by such other railroad company in the cars in which the same may be loaded, and haul the same through to the point of destination if the destination be upon a line owned, operated or controlled by such railroad company, or, if the destination be upon the line of some other railroad company, to haul such tonnage in such cars through to the connecting point upon the line operated, owned, controlled or leased by it by way of route over which such car is billed, and there deliver the same to the next connecting carrier under such regulations as the commission may prescribe. [1961 c 14 § 81.56.030. Prior: 1911 c 117 § 24; RRS § 10360.]

81.56.050 Joint rates and through routes. Whenever the commission shall be of opinion, after hearing had upon its own motion or upon complaint, that the rates and charges in force over two or more railroads, between any two points in the state, are unjust, unreasonable or excessive, or that no satisfactory through route or joint rate exists between such points, and that the public necessities and convenience demand the establishment of a through route and a joint rate between such points, the commission may order such railroads to establish such through route, and may establish and fix a joint rate which will be fair, just, reasonable and sufficient, to be followed, charged, enforced, demanded and collected in the future, and the commission may order that carload freight moving between such points shall be carried by the different companies, parties to such through route and joint rate, without being transferred from the originating cars. In case no agreement exists between such railroads for the interchange of cars, then the commission, before making

such order, shall be empowered to, and it shall be its duty, to make rules for the expeditious and safe return and proper compensation for the cars so loaded by the company or companies receiving the same. [1961 c 14 § 81.56.050. Prior: 1911 c 117 § 57; RRS § 10393.]

81.56.080 Forest products—Shipper's count and weight. Any railroad company's employee acting as weigher shall upon request of any shipper give him a statement showing gross and net weight of any shipment by him. Sworn count and weight of shipper shall be presumptive evidence of true weight where error in railroad weights is apparent. [1961 c 14 § 81.56.080. Prior: 1905 c 126 § 3; RRS § 10476.]

Nothing contained in RCW 81.56.060 through 81.56.110 shall interfere with the right of the shipper and carrier to enter into a private contract regarding weights when it is impracticable to weigh. [1961 c 14 § 81.56.110. Prior: 1905 c 126 § 6; RRS § 10479.]

Railroad companies in carrying or transporting animals shall not permit them to be confined in cars for a longer period than forty-eight consecutive hours without unloading them for rest, water and feeding for a period of at least two consecutive hours, unless prevented from so unloading them by unavoidable accident. In estimating such confinement,

the time during which the animals have been confined without such rest on connecting roads from which they are received shall be included. Animals so unloaded shall, during such rest, be properly fed, watered by the owner or person having the custody of them, or in case of his default in so doing, then by the railroad company transporting them, at the expense of said owner or person in custody thereof, and said company shall in such case have a lien upon such animals for food, care and custody furnished, and shall not be liable for such detention of such animals. If animals are transported where they can and do have proper food, water, space and opportunity for rest, the foregoing provision in regard to their being unloaded shall not apply. Violators of this section shall be punished by fine not exceeding one thousand dollars per animal. [1994 c 261 § 19; 1961 c 14 § 81.56.120. Prior: 1893 c 27 § 4; RRS § 10494.]

81.68.010 Definitions. The definitions set forth in this section shall apply throughout this chapter, unless the context clearly indicates otherwise.

(1) "Corporation" means a corporation, company, association, or joint stock association.

(2) "Person" means an individual, firm, or a copartnership.

(3) "Auto transportation company" means every corporation or person, their lessees, trustees, receivers, or trustees appointed by any court whatsoever, owning, controlling, operating, or managing any motor propelled vehicle not usually operated on or over rails used in the business of transporting persons, and baggage, mail, and express on the vehicles of auto transportation companies carrying passengers, for compensation over any public highway in this state between fixed termini or over a regular route, and not operating exclusively within the incorporated limits of any city or town.

(4) "Public highway" means every street, road, or highway in this state.

(5) The words "between fixed termini or over a regular route" mean the termini or route between or over which any auto transportation company usually or ordinarily operates any motor propelled vehicle, even though there may be departure from the termini or route, whether the departures are periodic or irregular. Whether or not any motor propelled vehicle is operated by any auto transportation company "between fixed termini or over a regular route" within the meaning of this section is a question of fact, and the finding of the commission thereon is final and is not subject to review. [1989 c 163 § 1; 1984 c 166 § 1; 1979 c 111 § 16; 1975-'76 2nd ex.s. c 121 § 1; 1969 ex.s. c 210 § 10; 1961 c 14 § 81.68.010. Prior: 1935 c 120 § 1; 1921 c 111 § 1; RRS § 6387.]

Severability—1979 c 111: See note following RCW 46.74.010.

81.68.015 Application of chapter restricted. This chapter does not apply to corporations or persons, their lessees, trustees, receivers, or trustees appointed by any court whatsoever insofar as they own, control, operate, or manage taxicabs, hotel buses, school buses, motor propelled vehicles operated exclusively in transporting agricultural, horticultural, dairy, or other farm products from the point of production to the market, or any other carrier that does not come within the term "auto transportation company" as defined in RCW 81.68.010.

This chapter does not apply to persons operating motor vehicles when operated wholly within the limits of incorporated cities or towns, and for a distance not exceeding three road miles beyond the corporate limits of the city or town in Washington in which the original starting point of the vehicle is located, and which operation either alone or in conjunction with another vehicle or vehicles is not a part of any journey beyond the three-mile limit.

This chapter does not apply to commuter ride sharing or ride sharing for the elderly and the handicapped in accordance with *RCW 46.74.010, so long as the ride-sharing operation does not compete with nor infringe upon comparable service actually being provided before the initiation of the ride-sharing operation by an existing auto transportation company certificated under this chapter. [1989 c 163 § 2; 1984 c 166 § 2.]

***Reviser's note:** RCW 46.74.010 was amended by 1996 c 244 § 2 changing the term "ride sharing for the elderly and the handicapped" to "ride sharing for persons with special transportation needs."

81.68.020 Compliance with chapter required. No corporation or person, their lessees, trustees, or receivers or trustees appointed by any court whatsoever, may engage in the business of operating as a common carrier any motor propelled vehicle for the transportation of persons, and baggage, mail, and express on the vehicles of auto transportation companies carrying passengers, between fixed termini or over a regular route for compensation on any public highway in this state, except in accordance with the provisions of this chapter. [1989 c 163 § 3; 1984 c 166 § 3; 1961 c 14 § 81.68.020. Prior: 1927 c 166 § 1; 1921 c 111 § 2; RRS § 6388.]

81.68.030 Regulation by commission. The commission is vested with power and authority, and it is its duty to supervise and regulate every auto transportation company in this state as provided in this section. Under this authority, it shall for each auto transportation company:

- (1) Fix, alter, and amend just, fair, reasonable, and sufficient rates, fares, charges, classifications, rules, and regulations;
- (2) Regulate the accounts, service, and safety of operations;
- (3) Require the filing of annual and other reports and of other data;
- (4) Supervise and regulate the companies in all other matters affecting the relationship between such companies and the traveling and shipping public;
- (5) By general order or otherwise, prescribe rules and regulations in conformity with this chapter, applicable to any and all such companies, and within such limits make orders.

The commission may, at any time, by its order duly entered after a hearing had upon notice to the holder of any certificate under this chapter, and an opportunity to the holder to be heard, at which it shall be proven that the holder wilfully violates or refuses to observe any of the commission's proper orders, rules, or regulations, suspend, revoke, alter, or amend any certificate issued under the provisions of this chapter, but the holder of the certificate has all the rights of rehearing, review, and appeal as to the order of the commission as is provided for in RCW 81.68.070. [1989 c 163 § 4; 1984 c 166 § 4; 1961 c 14 § 81.68.030. Prior: 1921 c 111 § 3; RRS § 6389.]

81.68.040 Certificate of convenience and necessity. No auto transportation company shall operate for the transportation of persons, and baggage, mail and express on the vehicles of auto transportation companies carrying passengers, for compensation between fixed termini or over a regular route in this state, without first having obtained from the commission under the provisions of this chapter a certificate declaring that public convenience and necessity require such operation; but a certificate shall be granted when it appears to the satisfaction of the commission that such person, firm or corporation was actually operating in good faith, over the route for which such certificate shall be sought on January 15, 1921. Any right, privilege, certificate held, owned or obtained by an auto transportation company may be sold, assigned, leased, transferred or inherited as other property, only upon authorization by the commission. The commission shall have power, after hearing, when the applicant requests a certificate to operate in a territory already served by a certificate holder under this chapter, only when the existing auto transportation company or companies serving such territory will not provide the same to the satisfaction of the commission, and in all other cases with or without hearing, to issue said certificate as prayed for; or for good cause shown to refuse to issue same, or to issue it for the partial exercise only of said privilege sought, and may attach to the exercise of the rights granted by said certificate to such terms and conditions as, in its judgment, the public convenience and necessity may require. [1961 c 14 § 81.68.040. Prior: 1921 c 111 § 4; RRS § 6390.]

81.68.045 Excursion service companies—Certificate. No excursion service company may operate for the transportation of persons for compensation without first having obtained from the commission under the provisions of this chapter a certificate to do so.

A certificate shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operations covered by the application, if it is found that the applicant is fit, willing, and able to properly perform the services proposed and conform to the provisions of this chapter and the rules of the commission adopted under this chapter, and that such operations will be consistent with the public interest. However, a certificate shall be granted when it appears to the satisfaction of the commission that the person, firm, or corporation was actually operating in good faith that type of service for which the certificate was sought on January 15, 1983. Any right, privilege, or certificate held, owned, or obtained by an excursion service company may be

sold, assigned, leased, transferred, or inherited as other property only upon authorization by the commission. For good cause shown the commission may refuse to issue the certificate, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public interest may require. [1984 c 166 § 5.]

81.68.050 Filing fees. Any application for a certificate of public convenience and necessity or amendment thereof, or application to sell, lease, mortgage, or transfer a certificate of public convenience and necessity or any interest therein, shall be accompanied by such filing fees as the commission may prescribe by rule: PROVIDED, That such fee shall not exceed two hundred dollars. [1973 c 115 § 5; 1961 c 14 § 81.68.050. Prior: 1955 c 125 § 9; prior: 1937 c 158 § 2, part; RRS § 10417-1, part.]

81.68.060 Liability and property damage insurance—Surety bond. In granting certificates to operate any auto transportation company, for transporting for compensation persons and baggage, mail, and express on the vehicles of auto transportation companies carrying passengers, the commission shall require the owner or operator to first procure liability and property damage insurance from a company licensed to make liability insurance in the state of Washington or a surety bond of a company licensed to write surety bonds in the state of Washington on each motor propelled vehicle used or to be used in transporting persons for compensation, in the amount of not less than one hundred thousand dollars for any recovery for personal injury by one person and not less than three hundred thousand dollars for any vehicle having a capacity of sixteen passengers or less and not less than five hundred thousand dollars for any vehicle having a capacity of seventeen passengers or more for all persons receiving personal injury by reason of at least one act of negligence and not less than fifty thousand dollars for damage to property of any person other than the assured. The commission shall fix the amount of the insurance policy or policies or security deposit giving due consideration to the character and amount of traffic, the number of persons affected, and the degree of danger that the proposed operation involves. The liability and property damage insurance or surety bond shall be maintained in force on [the] motor propelled vehicle while so used, and each policy for liability or property damage insurance or surety bond required by this section shall be filed with the commission and kept in full force and effect. Failure so to do is cause for the revocation of the certificate. [1989 c 163 § 5; 1984 c 166 § 6; 1977 ex.s. c 298 § 1; 1961 c 14 § 81.68.060. Prior: 1921 c 111 § 5; RRS § 6391.]

81.68.065 Self-insurers—Exemptions as to insurance or bond. Any auto transportation company now or hereafter authorized to transport persons for compensation on the highways and engaging in interstate, or interstate and intrastate, operations within the state of Washington which is or becomes qualified as a self-insurer with the interstate commerce commission of the United States in accordance with the provisions of the United States interstate commerce act applicable to self insurance by motor carriers, shall be

exempt, so long as such qualification remains effective, from all provisions of law relating to the carrying or filing of insurance policies or bonds in connection with such operations.

The commission may require proof of the existence and continuation of such qualification with the interstate commerce commission to be made by affidavit of the auto transportation company, in such form as the commission shall prescribe. [1961 c 14 § 81.68.065. Prior: (i) 1949 c 127 § 1; Rem. Supp. 1949 § 6386-5a. (ii) 1949 c 127 § 2; Rem. Supp. 1949 § 6386-5b.]

81.68.070 Public service law invoked. In all respects in which the commission has power and authority under this chapter, applications and complaints may be made and filed with it, process issued, hearings held, opinions, orders and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for writs of review, to the superior court filed therewith, appeals or mandate filed with the supreme court or the court of appeals of this state, considered and disposed of by said courts in the manner, under the conditions and subject to the limitations and with the effect specified in this title. [1971 c 81 § 146; 1961 c 14 § 81.68.070. Prior: 1921 c 111 § 6; RRS § 6392.]

81.70.220 Certificate or registration required. No person may engage in the business of a charter party carrier or excursion service carrier of persons over any public highway without first having obtained a certificate from the commission to do so or having registered as an interstate carrier. [1989 c 163 § 7; 1988 c 30 § 2.]

81.70.230 Certificates—Application, issuance, safety fitness, financial responsibility. (1) Applications for certificates shall be made to the commission in writing, verified under oath, and shall be in such form and contain such information as the commission by regulation may require. Every such application shall be accompanied by a fee as the commission may prescribe by rule.

(2) A certificate shall be issued to any qualified applicant authorizing, in whole or in part, the operations covered by the application if it is found that the applicant is fit, willing, and able to perform properly the service and to conform to the provisions of this chapter and the rules and regulations of the commission.

(3) Before a certificate is issued, the commission shall require the applicant to establish safety fitness and proof of minimum financial responsibility as provided in this chapter. [1988 c 30 § 3.]

81.70.240 Certificates—Transfer restricted. No certificate issued under this chapter or rights to conduct services under it may be leased, assigned, or otherwise transferred or encumbered, unless authorized by the commission. [1988 c 30 § 4.]

81.70.250 Certificates—Grounds for cancellation, etc. The commission may cancel, revoke, or suspend any certificate issued under this chapter on any of the following grounds:

- (1) The violation of any of the provisions of this chapter;
- (2) The violation of an order, decision, rule, regulation, or requirement established by the commission pursuant to this chapter;

(3) Failure of a charter party carrier or excursion service carrier of passengers to pay a fee imposed on the carrier within the time required by law;

(4) Failure of a charter party carrier or excursion service carrier to maintain required insurance coverage in full force and effect; or

(5) Failure of the certificate holder to operate and perform reasonable service. [1989 c 163 § 8; 1988 c 30 § 5.]

81.70.260 Unlawful operation after certificate or registration canceled, etc. After the cancellation or revocation of a certificate or interstate registration or during the period of its suspension, it is unlawful for a charter party carrier or excursion service carrier of passengers to conduct any operations as such a carrier. [1989 c 163 § 9; 1988 c 30 § 6.]

81.70.270 Scope of regulation. It is the duty of the commission to regulate charter party carriers and excursion service carriers with respect to safety of equipment, driver qualifications, and safety of operations. The commission shall establish such rules and regulations and require such reports as are necessary to carry out the provisions of this chapter. [1989 c 163 § 10; 1988 c 30 § 7.]

81.70.280 Insurance or bond for liability and property damage. (1) In granting certificates under this chapter, the commission shall require charter party carriers and excursion service carriers of passengers to procure and continue in effect during the life of the certificate, liability and property damage insurance from a company licensed to make liability insurance in the state of Washington or a surety bond of a company licensed to write surety bonds in the state of Washington on each motor-propelled vehicle used or to be used in transporting persons for compensation, in the following amounts:

(a) Not less than one hundred thousand dollars for any recovery for personal injury by one person; and

(b) Not less than three hundred thousand dollars for any vehicle having a capacity of sixteen passengers or less; and

(c) Not less than five hundred thousand dollars for any vehicle having a capacity of seventeen passengers or more for all receiving personal injury by reason of at least one act of negligence; and

(d) Not less than fifty thousand dollars for damage to property of any person other than the insured.

(2) The commission shall fix the amount of the insurance policy or policies or security deposit giving consideration to the character and amount of traffic, the number of persons affected, and the degree of danger which the proposed operation involves. Such liability and property damage insurance or surety bond shall be maintained in force on each motor-propelled vehicle while so used. Each policy for liability or property damage insurance or surety bond required herein shall be filed with the commission and kept in effect and a failure so to do is cause for revocation of the certificate. [1989 c 163 § 11; 1988 c 30 § 8.]

81.70.290 Self-insurers. A charter party carrier or excursion service carrier of passengers authorized to trans-

port persons for compensation on the highways and engaging in interstate, or interstate and intrastate, operations within the state of Washington which is or becomes qualified as a self-insurer with the interstate commerce commission of the United States in accordance with the United States interstate commerce act applicable to self-insurance by motor carriers is exempt from RCW 81.70.280 relating to the carrying or filing of insurance policies or bonds in connection with such operations as long as such qualification remains effective.

The commission may require proof of the existence and continuation of qualification with the interstate commerce commission to be made by affidavit of the charter party carrier or excursion service carrier in a form the commission may prescribe. [1989 c 163 § 12; 1988 c 30 § 9.]

81.70.300 Authority of commission and courts. In all respects in which the commission has power and authority under this chapter, applications and complaints may be made and filed with it, process issued by it, hearings held, opinions, orders, and decisions made and filed, petitions for rehearing filed and acted upon, petitions for writs of review filed with the superior court, appeals or mandates filed with the supreme court or the court of appeals of this state, and may be considered and disposed of by said courts in a manner, under the conditions, subject to the limitations, and with the effect specified in this chapter. [1988 c 30 § 10.]

81.70.310 Application of Title 81 RCW. All applicable provisions of this title relating to procedure, powers of the commission, and penalties shall apply to the operation and regulation of persons under this chapter, except as those provisions may conflict with the provisions of this chapter and rules and regulations issued thereunder by the commission. [1988 c 30 § 11.]

81.70.320 Fees—Amounts, deposit. (1) An application for a certificate or amendment thereof, or application to sell, lease, mortgage, or transfer a certificate, shall be accompanied by such filing fees as the commission may prescribe by rule, however the fee shall not exceed two hundred dollars.

(2) All fees paid to the commission under this chapter shall be deposited in the state treasury to the credit of the public service revolving fund.

(3) It is the intent of the legislature that all fees collected under this chapter shall reasonably approximate the cost of supervising and regulating charter party carriers and excursion service carriers subject thereto, and to that end the commission is authorized to decrease the schedule of fees provided for in RCW 81.70.350 by general order entered before November 1 of any year in which the commission determines that the moneys then in the charter party carrier and excursion service carrier account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating such carriers during the succeeding calendar year. Whenever the cost accounting records of the commission indicate that the schedule of fees previously reduced should be increased, such increase, not in any event to exceed the schedule set forth in this chapter, may be effected by a similar general

order entered before November 1 of any calendar year. [1989 c 163 § 13; 1988 c 30 § 12.]

81.70.330 Vehicle identification. It is unlawful for a charter party carrier or excursion service carrier to operate a motor bus upon the highways of this state unless there is firmly affixed to the vehicle on both sides thereof, the name of the carrier and the certificate or permit number of such carrier. The characters composing such identification shall be of sufficient size to be clearly distinguishable at a distance of at least fifty feet from the vehicle. [1989 c 163 § 14; 1988 c 30 § 13.]

81.70.340 Interstate or foreign carriers. It is unlawful for a charter party carrier or excursion service carrier of passengers engaged in interstate or foreign commerce to use any of the public highways of this state for the transportation of passengers in interstate or foreign commerce, unless such carrier has identified its vehicles and registered its interstate or foreign operations with the commission. Interstate and foreign carriers possessing operating authority issued by the interstate commerce commission shall register such authority pursuant to Public Law 89-170, as amended, and the regulations of the interstate commerce commission adopted thereunder. Interstate and foreign charter party carriers and excursion service carriers of passengers exempt from regulation by the interstate commerce commission shall register their interstate operations under regulations adopted by the commission, which shall, to the maximum extent practical, conform to the regulations promulgated by the interstate commerce commission under Public Law 89-170, as amended. All other provisions of this chapter shall be applicable to motor carriers of passengers engaged in interstate or foreign commerce insofar as the same are not prohibited under the Constitution of the United States or federal statute. [1989 c 163 § 15; 1988 c 30 § 14.]

81.70.350 Annual regulatory fee—Delinquent fee payments. (1) The commission shall collect from each charter party carrier and excursion service carrier holding a certificate issued pursuant to this chapter and from each interstate or foreign carrier subject to this chapter an annual regulatory fee, to be established by the commission but which in total shall not exceed the cost of supervising and regulating such carriers, for each bus used by such carrier.

(2) All fees prescribed by this section shall be due and payable on or before December 31 of each year, to cover the ensuing year beginning February 1.

(3) Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month. [1994 c 83 § 3; 1989 c 163 § 16; 1988 c 30 § 15.]

Transportation of passengers in for hire vehicles: Chapter 46.72 RCW.

81.72.200 Legislative intent. The legislature finds and declares that privately operated taxicab transportation service is a vital part of the transportation system within the state and provides demand-responsive services to state residents, tourists, and out-of-state business people. Consequently, the safety, reliability, and economic viability and stability of privately operated taxicab transportation service are matters of state-wide importance. The regulation of privately operated taxicab transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit political subdivisions of the state to regulate taxicab transportation services without liability under federal antitrust laws. [1984 c 126 § 1.]

81.72.210 Local regulatory powers listed. To protect the public health, safety, and welfare, cities, towns, counties, and port districts of the state may license, control, and regulate privately operated taxicab transportation services operating within their respective jurisdictions. The power to regulate includes:

- (1) Regulating entry into the business of providing taxicab transportation services;
- (2) Requiring a license to be purchased as a condition of operating a taxicab and the right to revoke, cancel, or refuse to reissue a license for failure to comply with regulatory requirements;
- (3) Controlling the rates charged for providing taxicab transportation service and the manner in which rates are calculated and collected, including the establishment of zones as the basis for rates;
- (4) Regulating the routes of taxicabs, including restricting access to airports;
- (5) Establishing safety, equipment, and insurance requirements; and
- (6) Any other requirements adopted to ensure safe and reliable taxicab service. [1984 c 126 § 2.]

81.72.220 Cooperative agreements—Joint regulation. A city, town, county, or port district may enter into cooperative agreements with any other city, town, county, or port district for the joint regulation of taxicabs. Cooperative agreements may provide for, but are not limited to, the granting, revocation, and suspension of joint taxicab licenses. [1984 c 126 § 3.]

Purpose. It is desirable that a transportation system that convenient and comfortable terminals be established and maintained with the services of all modes of public transportation available to the public at such a center to the extent feasible. It is proper that cities, towns, counties, public transportation benefit area authorities, and municipal corporations of this state be authorized to own and operate transportation centers. [1977 ex.s. c 217 § 1.]

81.75.020 Method of acquisition and operation prescribed—Grants—Consolidation of activities. Through its council or other legislative body, any city, town, county, public transportation benefit area authority, or other municipal corporation, authorized to operate public transportation services, may construct or otherwise acquire intermodal transportation centers by donation, lease, or purchase and may operate or let for purposes of leasing space at fair market value for the services set forth in RCW 81.75.030, and to perform other functions permitted by law, the centers or portions of the centers, for public or private purposes or for compensation or rental upon such conditions as its council or other legislative body shall from time to time prescribe. The city, town, county, public transportation benefit area authority, or municipal corporation, may apply for and receive grants from the federal government for purposes of funding a transportation center and may consolidate a transportation center with other lawful city or town activities. [1977 ex.s. c 217 § 2.]

81.75.030 Services available—Terms of usage. To the extent feasible, the services available to the public at any transportation center may include taxi, auto rental, passenger trains, motor buses, travel agents, restrooms, food, telegraph, baggage handling, transfer and delivery of light freight and packages, commercial airlines, air charter, place of temporary rest for citizens and travelers (but not overnight), mail, private auto parking for users of public transportation through the transportation center, local transit, limousine, and any other use necessary to the foregoing.

Any city, town, county, public transportation benefit area authority, or municipal corporation, which elects to operate a transportation center shall operate the center for the general public good. The operator may establish the terms of usage for the various modes of transportation and for others that utilize its facilities, may make reasonable rules concerning public and private use, and may exclude all persons therefrom who refuse to comply with the terms or rules of use. The operator may own, operate, maintain, and manage a transportation center, but shall not engage in providing a transportation or other related service at the center unless otherwise authorized by law. - (6) "Vehicle" means every device capable of being moved upon a public highway and in, upon, or by which any solid waste is or may be transported or drawn upon a public

(7) "Solid waste collection company" means every person or his lessees, receivers, or trustees, owning, controlling, operating or managing vehicles used in the business of transporting solid waste for collection and/or disposal for compensation, except septic tank pumpers, over any public highway in this state whether as a "common carrier" thereof or as a "contract carrier" thereof;

(8) Solid waste collection does not include collecting or transporting recyclable materials from a drop-box or recycling buy-back center, nor collecting or transporting recyclable materials by or on behalf of a commercial or industrial generator of recyclable materials to a recycler for use or reclamation. Transportation of these materials is regulated under chapter 81.80 RCW; and

(9) "Solid waste" means the same as defined under RCW 70.95.030, except for the purposes of this chapter solid waste does not include recyclable materials except for source separated recyclable materials collected from residences. [1989 c 431 § 17; 1961 c 295 § 2.]

81.77.015 Construction of phrase "garbage and refuse." Whenever in this chapter the phrase "garbage and refuse" is used as a qualifying phrase or otherwise it shall be construed as meaning "garbage and/or refuse." [1965 ex.s. c 105 § 5.]

81.77.020 Compliance with chapter required—Exemption for cities. No person, his lessees, receivers, or trustees, shall engage in the business of operating as a solid waste collection company in this state, except in accordance with the provisions of this chapter: PROVIDED, That the provisions of this chapter shall not apply to the operations of any solid waste collection company under a contract of solid waste disposal with any city or town, nor to any city or town which itself undertakes the disposal of solid waste. [1989 c 431 § 18; 1961 c 295 § 3.]

81.77.030 Supervision and regulation by commission. The commission shall supervise and regulate every solid waste collection company in this state,

(1) By fixing and altering its rates, charges, classifications, rules and regulations;

(2) By regulating the accounts, service, and safety of operations;

(3) By requiring the filing of annual and other reports and data;

(4) By supervising and regulating such persons or companies in all other matters affecting the relationship between them and the public which they serve;

The commission may order consolidated billing and provide for reasonable and

necessary expenses to be paid to the administering company if more than one certificate is granted in an area.

The commission, on complaint made on its own motion or by an aggrieved party, at any time, after the holding of a hearing of which the holder of any certificate has had notice and an opportunity to be heard, and at which it shall be proven that the holder has wilfully violated or refused to observe any of the commission's orders, rules, or regulations, or has failed to operate as a solid waste collection company for a period of at least one year preceding the filing of the complaint, may suspend, revoke, alter, or amend any certificate issued under the provisions of this chapter. [1989 c 431 § 20; 1987 c 239 § 1; 1965 ex.s. c 105 § 1; 1961 c 295 § 4.]

81.77.040 Certificate of convenience and necessity required—Procedure when applicant requests certificate for existing service area. No solid waste collection company shall hereafter operate for the hauling of solid waste for compensation without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation. A condition of operating a solid waste company in the unincorporated areas of a county shall be complying with the solid waste management plan prepared under chapter 70.95 RCW applicable in the company's franchise area.

Issuance of the certificate of necessity shall be determined upon, but not limited to, the following factors: The present service and the cost thereof for the contemplated area to be served; an estimate of the cost of the facilities to be utilized in the plant for solid waste collection and disposal, sworn to before a notary public; a statement of the assets on hand of the person, firm, association or corporation which will be expended on the purported plant for solid waste collection and disposal, sworn to before a notary public; a statement of prior experience, if any, in such field by the petitioner, sworn to before a notary public; and sentiment in the community contemplated to be served as to the necessity for such a service.

Except as provided in *RCW 81.77.150, when an applicant requests a certificate to operate in a territory already served by a certificate holder under this chapter, the commission may, after hearing, issue the certificate only if the existing solid waste collection company or companies serving the territory will not provide service to the satisfaction of the commission.

In all other cases, the commission may, with or without hearing, issue certificates, or for good cause shown refuse to issue them, or issue them for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted such terms and conditions as, in its judgment, the public convenience and necessity may require.

Any right, privilege, certificate held, owned, or obtained by a solid waste collection company may be sold, assigned, leased, transferred, or inherited as other property, but only upon authorization by the commission.

Any solid waste collection company which upon July 1, 1961 is operating under authority of a common carrier or contract carrier permit issued under the provisions of chapter 81.80 RCW shall be granted a certificate of necessity without hearing upon compliance with the provisions of this

chapter. Such solid waste collection company which has paid the plate fee and gross weight fees required by chapter 81.80 RCW for the year 1961 shall not be required to pay additional like fees under the provisions of this chapter for the remainder of such year.

For purposes of issuing certificates under this chapter, the commission may adopt categories of solid wastes as follows: Garbage, refuse, recyclable materials, and demolition debris. A certificate may be issued for one or more categories of solid waste. Certificates issued on or before July 23, 1989, shall not be expanded or restricted by operation of this chapter. [1989 c 431 § 21; 1987 c 239 § 2; 1961 c 295 § 5.]

81.77.050 Filing fees. Any application for a certificate issued under this chapter or amendment thereof, or application to sell, lease, mortgage, or transfer a certificate issued under this chapter or any interest therein, shall be accompanied by such filing fee as the commission may prescribe by rule: PROVIDED, That such fee shall not exceed two hundred dollars. [1989 c 431 § 22; 1973 c 115 § 9; 1961 c 295 § 6.]

81.77.060 Liability and property damage insurance—Surety bond. The commission, in granting certificates to operate a solid waste collection company, shall require the owner or operator to first procure liability and property damage insurance from a company licensed to make liability insurance in the state or a surety bond of a company licensed to write surety bonds in the state, on each motor propelled vehicle used or to be used in transporting solid waste for compensation in the amount of not less than twenty-five thousand dollars for any recovery for personal injury by one person, and not less than ten thousand dollars and in such additional amount as the commission shall determine, for all persons receiving personal injury by reason of one act of negligence, and not less than ten thousand dollars for damage to property of any person other than the assured, and to maintain such liability and property damage insurance or surety bond in force on each motor propelled vehicle while so used. Each policy for liability or property damage insurance or surety bond required herein shall be filed with the commission and kept in full force and effect and failure so to do shall be cause for revocation of the delinquent's certificate. [1989 c 431 § 23; 1961 c 295 § 7.]

81.77.070 Public service company law invoked. In all respects in which the commission has power and authority under this chapter, applications and complaints may be made and filed with it, process issued, hearings held, opinions, orders and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for writs of review, to the superior court filed therewith, appeals or mandate filed with the supreme court of this state, considered and disposed of by said courts in the manner, under the conditions, and subject to the limitations, and with the effect specified in this title for public service companies generally. [1961 c 295 § 8.]

81.77.080 Companies to file reports of gross operating revenue and pay fees—Legislative intent—Disposition of revenue. Every solid waste collection company shall, on or before the 1st day of April of each year, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one percent of the amount of gross operating revenue: PROVIDED, That the fee shall in no case be less than one dollar.

It is the intent of the legislature that the fees collected under the provisions of this chapter shall reasonably approximate the cost of supervising and regulating motor carriers subject thereto, and to that end the utilities and transportation commission is authorized to decrease the schedule of fees provided in this section by general order entered before March 1st of any year in which it determines that the moneys then in the solid waste collection companies account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating such carriers.

All fees collected under this section or under any other provision of this chapter shall be paid to the commission and shall be by it transmitted to the state treasurer within thirty days to be deposited to the credit of the public service revolving fund. [1989 c 431 § 24; 1971 ex.s. c 143 § 3; 1969 ex.s. c 210 § 11; 1963 c 59 § 12; 1961 c 295 § 9.]

81.77.090 Penalty. Every person who violates or fails to comply with, or who procures, aids, or abets in the violation of any provisions of this chapter, or who fails to obey, or comply with any order, decision, rule, regulation, direction, demand, or requirement of the commission, or any part or provision thereof, is guilty of a gross misdemeanor. [1961 c 295 § 10.]

81.77.100 Scope of chapter with respect to foreign or interstate commerce—Regulation of solid waste collection companies. Neither this chapter nor any provision thereof shall apply, or be construed to apply, to commerce with foreign nations or commerce among the several states except insofar as the same may be permitted under the provisions of the Constitution of the United States and the acts of congress.

However, in order to protect public health and safety and to ensure solid waste collection services are provided to all areas of the state, the commission, in accordance with this chapter, shall regulate all solid waste collection companies conducting business in the state. [1989 c 431 § 25; 1985 c 436 § 2; 1961 c 295 § 11.]

81.77.110 Temporary certificates. The commission may with or without a hearing issue temporary certificates to engage in the business of operating a solid waste collection company, but only after it finds that the issuance of such temporary certificate is consistent with the public interest. Such temporary certificate may be issued for a period up to one hundred eighty days where the area or territory covered thereby is not contained in the certificate of any other solid waste collection company. In all other cases such temporary certificate may be issued for a period not to exceed one

hundred twenty days. The commission may prescribe such special rules and regulations and impose such special terms and conditions with reference thereto as in its judgment are reasonable and necessary in carrying out the provisions of this chapter. The commission shall collect a fee of twenty-five dollars for an application for such temporary certificate. [1989 c 431 § 26; 1965 ex.s. c 105 § 2.]

81.77.120 Service to unincorporated areas of counties. The county legislative authority shall also receive and forward to the commission all letters of comment on services provided by regulated franchise holder(s) serving unincorporated areas of the county. Any such written comments or letters shall become part of the record of any rate, compliance, or any other hearing held by the commission on the issuance, revocation, or reissuance of a certificate provided for in RCW 81.77.040. [1987 c 239 § 3.]

81.77.130 Application of chapter to collection or transportation of source separated recyclable materials. The provisions of chapter 81.77 RCW shall not apply to the collection or transportation of source separated recyclable materials from residences under a contract with any county, city, or town, nor to any city or town which itself undertakes the collection and transportation of source separated recyclable materials from residences. [1989 c 431 § 19.]

81.77.140 Application of chapter—Collection and transportation of recyclable materials by recycling companies or nonprofit entities—Reuse or reclamation. Nothing in this chapter shall prevent a recycling company or nonprofit entity from collecting and transporting recyclable materials from a buy-back center, drop-box, or from a commercial or industrial generator of recyclable materials, or upon agreement with a solid waste collection company.

Nothing in this chapter shall be construed as prohibiting a commercial or industrial generator of commercial recyclable materials from selling, conveying, or arranging for transportation of such material to a recycler for reuse or reclamation. [1989 c 431 § 31.]

81.77.160 Pass-through rates—Rules. The commission, in fixing and altering collection rates charged by every solid waste collection company under this section, shall include in the base for the collection rates:

(1) All charges for the disposal of solid waste at the facility or facilities that the solid waste collection company is required to use under a local comprehensive solid waste management plan or ordinance designating disposal sites; and

(2) All known and measurable costs related to implementation of the approved county or city comprehensive solid waste management plan.

If a solid waste collection company files a tariff to recover the costs specified under this section, and the commission suspends the tariff, the portion of the tariff

covering costs specified in this section shall be placed in effect by the commission at the request of the company on an interim basis as of the originally filed effective date, subject to refund, pending the commission's final order. The commission may adopt rules to implement this section. [1989 c 431 § 30.]

(b) A local private recycling business is capable and competent to provide the processing and marketing service; and

(c) A local private recycling business offers to pay a price for the recyclable materials which is equal to or greater than the price offered by out-of-county private recyclers, or proposes a charge for the processing and marketing service which is equal to or less than the charge for the service available from an out-of-county private recycler.

(2) This section shall not apply to:

(a) Cities or towns who exercise their authority under RCW 81.77.130 to provide residential curbside collection of recyclable materials;

(b) A solid waste collection company that is directed by a city, town, or county to utilize a publicly owned recyclable processing facility located within such city, town, or county; or

(c) Counties which exercise their authority under RCW 36.58.040 to contract for the residential curbside collection of source separated recyclables.

This section shall not apply to programs for the collection of source separated recyclable materials where rates to implement the programs have been filed with the commission prior to May 21, 1991.

(3) For the purposes of this section, "private recycling business" means any private for-profit or private not-for-profit firm that engages in the processing and marketing of recyclable materials.

(4) This section is not enforceable by complaint filed with the commission. [1991 c 319 § 403.]

(2) For the purpose of this section, "reduced rate" means a residential solid waste collection rate incorporating a rebate, refund, or discount. It does not include any residential solid waste collection rate based on the volume or weight of solid waste set out for collection. [1991 c 319 § 406.]

81.80.010 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Person" means and includes an individual, firm, copartnership, corporation, company, or association or their lessees, trustees, or receivers.

(2) "Motor vehicle" means any truck, trailer, semitrailer, tractor, dump truck which uses a hydraulic or mechanical device to dump or discharge its load, or any self-propelled or motor-driven vehicle used upon any public highway of this state for the purpose of transporting property, but not including baggage, mail, and express transported on the vehicles of auto transportation companies carrying passengers.

(3) "Public highway" means every street, road, or highway in this state.

(4) "Common carrier" means any person who undertakes to transport property for the general public by motor vehicle for compensation, whether over regular or irregular routes, or regular or irregular schedules, including motor vehicle operations of other carriers by rail or water and of express or forwarding companies.

(5) "Contract carrier" includes all motor vehicle operators not included under the terms "common carrier" and "private carrier" as herein defined in paragraph (4) and paragraph (6), and further includes any person who under special and individual contracts or agreements transports property by motor vehicle for compensation.

(6) A "private carrier" is a person who transports by his own motor vehicle, with or without compensation therefor, property which is owned or is being bought or sold by such person, or property of which such person is the seller, purchaser, lessee, or bailee where such transportation is incidental to and in furtherance of some other primary business conducted by such person in good faith.

(7) "Motor carrier" means and includes "common carrier," "contract carrier," "private carrier," and "exempt carrier" as herein defined.

(8) "Exempt carrier" means any person operating a vehicle exempted from certain provisions of this chapter under RCW 81.80.040.

(9) "Vehicle" means every device capable of being moved upon a public highway and in, upon, or by which any person or property is or may be transported or drawn upon a public highway, excepting devices moved by human or animal power or used exclusively upon stationary rail or tracks.

(10) "Commercial zone" means an area encompassing one or more cities or towns and environs adjacent thereto established pursuant to RCW 81.80.400.

(11) "Terminal area" means an area including one or more cities or towns and environs adjacent thereto established pursuant to RCW 81.80.400.

(12) "Common carrier" and "contract carrier" includes persons engaged in the business of providing, contracting for, or undertaking to provide transportation of property for compensation over the public highways of the state of Washington as brokers or forwarders. [1989 c 60 § 1; 1988 c 31 § 1; 1982 c 71 § 1; 1967 c 69 § 1; 1961 c 14 § 81.80.010. Prior: 1937 c 166 § 2; 1935 c 184 § 2; RRS § 6382-2.]

Severability—1982 c 71: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1982 c 71 § 5.]

Severability—1967 c 69: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1967 c 69 § 4.]

81.80.020 Declaration of policy. The business of operating as a motor carrier of freight for compensation along the highways of this state is declared to be a business affected with a public interest. The rapid increase of motor carrier freight traffic and the fact that under the existing law many motor trucks are not effectively regulated have increased the dangers and hazards on public highways and make it imperative that more complete regulation should be employed to the end that the highways may be rendered safer for the use of the general public; that the wear of such highways may be reduced; that congestion on highways may be minimized; that the shippers of the state may be provided with a stabilized service and rate structure; that sound economic conditions in such transportation and among such carriers may be fostered in the public interest; that adequate, economical, and efficient service by motor carriers, and reasonable charges therefor, without unjust discrimination, undue preferences or advantages, or unfair or destructive competitive practices may be promoted; that the common carriage of commodities by motor carrier may be preserved in the public interest; that the relations between, and transportation by and regulation of, motor carriers and other carriers may be improved and coordinated so that the highways of the state of Washington may be properly developed and preserved, and the public may be assured adequate, complete, dependable and stable transportation

service in all its phases. [1961 c 14 § 81.80.020. Prior: 1937 c 166 § 1; 1935 c 184 § 1; RRS § 6382-1.]

81.80.030 Hidden transportation charges. Operators of motor vehicles excluded from the term "private carrier," other than "common carriers" shall not be compelled to dedicate their property to the business of public transportation and subject themselves to all the duties and burdens imposed by this chapter upon "common carriers," but where they recover the cost of transportation through price differentials or in any other direct or indirect manner and such transportation cost recovery unreasonably endangers the stability of rates and the essential transportation service involving the movement of commodities over the same route or routes by other types of carriage, then such transportation costs, attempted to be recovered, shall not be less than the rate, fare or charge regularly established by the department for such transportation service if given by other types of carriers, it being the intention of the legislature to foster a stable rate structure free of discriminations for the shippers of the state of Washington. [1961 c 14 § 81.80.030. Prior: 1937 c 166 § 3; RRS § 6382-2a.]

81.80.040 Exempt vehicles. The provisions of this chapter, except where specifically otherwise provided, and except the provisions providing for licenses, shall not apply to:

(1) Motor vehicles when operated in transportation exclusively within the corporate limits of any city or town of less than ten thousand population unless contiguous to a city or town of ten thousand population or over, nor between contiguous cities or towns both or all of which are less than ten thousand population;

(2) Motor vehicles when operated in transportation wholly within the corporate limits of cities or towns of ten thousand or more but less than thirty thousand population, or between such cities or towns when contiguous, as to which the commission, after investigation and the issuance of an order thereon, has determined that no substantial public interest exists which requires that such transportation be subject to regulation under this chapter;

(3) Motor vehicles when transporting exclusively the United States mail or in the transportation of newspapers or periodicals;

(4) Motor vehicles owned and operated by the United States, the state of Washington, or any county, city, town, or municipality therein, or by any department of them, or either of them;

(5) Motor vehicles specially constructed for towing not more than two disabled, unauthorized, or repossessed motor vehicles, wrecking, or exchanging an operable vehicle for a disabled vehicle and not otherwise used in transporting goods for compensation. For the purposes of this subsection, a vehicle is considered to be repossessed only from the time of its actual repossession through the end of its initial tow;

(6) Motor vehicles normally owned and operated by farmers in the transportation of their own farm, orchard, or dairy products, including livestock and plant or animal wastes, from point of production to market, or in the infrequent or seasonal transportation by one farmer for another farmer, if their farms are located within twenty miles of each

other, of products of the farm, orchard, or dairy, including livestock and plant or animal wastes, or of supplies or commodities to be used on the farm, orchard, or dairy;

(7) Motor vehicles when transporting exclusively water in connection with construction projects only;

(8) Motor vehicles of less than 8,000 pounds gross vehicle weight when transporting exclusively legal documents, pleadings, process, correspondence, depositions, briefs, medical records, photographs, books or papers, cash or checks, when moving shipments of the documents described at the direction of an attorney as part of providing legal services. [1993 c 121 § 4; 1984 c 171 § 1; 1979 ex.s. c 6 § 1; 1963 c 59 § 7; 1961 c 14 § 81.80.040. Prior: 1957 c 205 § 4; 1949 c 133 § 1; 1947 c 263 § 1; 1937 c 166 § 4; 1935 c 184 § 3; Rem. Supp. 1949 § 6382-3.]

81.80.045 Exemption—Freight consolidators. (1) Except as provided in subsections (2) and (3) of this section, the provisions of this chapter shall not apply to the operations of a shipper or a group or association of shippers in consolidating or distributing freight for themselves or for their members on a nonprofit basis for the purpose of securing the benefits of carload, truckload, or other volume rates, when the services of a common carrier are used for the transportation of such shipments.

(2) Every shipper or group or association of shippers claiming this exemption shall file with the commission on an annual basis a statement of nonprofit status and such proof of that status as the commission may by rule require.

(3) The commission may examine the books and records of any shipper or group or association of shippers claiming exemption under this section solely for the purpose of investigating violations of this section. [1979 ex.s. c 138 § 1.]

81.80.050 Compliance required. It shall be unlawful for any person to operate as a "motor carrier" on any public highway of this state except in accordance with the provisions of this chapter. [1961 c 14 § 81.80.050. Prior: 1935 c 184 § 4; RRS § 6382-4.]

81.80.060 Combination of services. Every person who engages for compensation to perform a combination of services a substantial portion of which includes transportation of property of others upon the public highways shall be subject to the jurisdiction of the commission as to such transportation and shall not engage upon the same without first having obtained a common carrier or contract carrier permit to do so. An example of such a combination of services shall include, but not be limited to, the delivery of household appliances for others where the delivering carrier also unpacks or uncrates the appliances and makes the initial installation thereof. Every person engaging in such a combination of services shall advise the commission what portion of the consideration is intended to cover the transportation service and if the agreement covering the combination of services is in writing, the rate and charge for such transportation shall be set forth therein. The rates or charges for the transportation services included in such combination of services shall be subject to control and regulation by the commission in the same manner that the rates of common

and contract carriers are now controlled and regulated. Any person engaged in extracting and/or processing and, in connection therewith, hauling materials exclusively for the maintenance, construction or improvement of a public highway shall not be deemed to be performing a combination of services. [1969 ex.s. c 210 § 17; 1969 c 33 § 1. Prior: 1967 ex.s. c 145 § 77; 1967 c 69 § 2; 1965 ex.s. c 170 § 40; 1961 c 14 § 81.80.060; prior: 1937 c 166 § 5; RRS § 6382-4a.]

Severability—1967 c 69: See note following RCW 81.80.010.

81.80.070 Grant or denial of permit. No "common carrier," "contract carrier," or "temporary carrier" shall operate for the transportation of property for compensation in this state without first obtaining from the commission a permit so to do. Permits heretofore issued or hereafter issued to any carrier, shall be exercised by said carrier to the fullest extent so as to render reasonable service to the public. Applications for common or contract carrier permits or extensions thereof shall be on file for a period of at least thirty days prior to the granting thereof unless the commission finds that special conditions require the earlier granting thereof.

A permit or extension thereof shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operations covered by the application, if it is found that the applicant is fit, willing, and able properly to perform the services proposed and conform to the provisions of this chapter and the requirements, rules and regulations of the commission thereunder, and that such operations will be consistent with the public interest, and, in the case of common carriers, that the same are or will be required by the present or future public convenience and necessity, otherwise such application shall be denied.

Nothing contained in this chapter shall be construed to confer upon any person or persons the exclusive right or privilege of transporting property for compensation over the public highways of the state. [1963 c 242 § 1; 1961 c 14 § 81.80.070. Prior: 1953 c 95 § 17; 1947 c 264 § 2; 1941 c 163 § 1; 1937 c 166 § 6; 1935 c 184 § 5; Rem. Supp. 1947 § 6382-5.]

81.80.080 Application for permit. Application for permits shall be made to the commission in writing and shall state the ownership, financial condition, equipment to be used and physical property of the applicant, the territory or route or routes in or over which the applicant proposes to operate, the nature of the transportation to be engaged in and such other information as the commission may require, and in case such application is that of a "contract carrier" shall have attached thereto photocopies of all contracts to furnish transportation covered by such application. [1991 c 41 § 1; 1961 c 14 § 81.80.080. Prior: 1935 c 184 § 6; RRS § 6382-6.]

81.80.090 Form of application—Filing fees. The commission shall prescribe forms of application for permits and for extensions thereof for the use of prospective applicants, and for transfer of permits and for acquisition of control of carriers holding permits, and shall make regulations for the filing thereof. Any such application shall be

accompanied by such filing fee as the commission may prescribe by rule: PROVIDED, That such fee shall not exceed five hundred fifty dollars. [1993 c 97 § 5; 1973 c 115 § 10; 1961 c 14 § 81.80.090. Prior: 1941 c 163 § 2; 1937 c 166 § 7; 1935 c 184 § 7; RRS § 6382-7.]

81.80.100 Form and contents of permit. Permits granted by the commission shall be in such form as the commission shall prescribe and shall set forth the name and address of the person to whom the permit is granted, the nature of the transportation service to be engaged in and the principal place of operation, termini or route to be used or territory to be served by the operation. No permit holder shall operate except in accordance with the permit issued to him. [1961 c 14 § 81.80.100. Prior: 1935 c 194 § 8; RRS § 6382-8.]

81.80.110 Limitation on renewal of application. No person whose application for a permit has been denied after hearing under any of the provisions of this chapter shall be eligible to renew the application for a period of six months from the date of the order denying such application. [1961 c 14 § 81.80.110. Prior: 1947 c 264 § 3; 1935 c 184 § 9; Rem. Supp. 1947 § 6382-9.]

81.80.115 Fees imposed under this chapter—Procedure for contesting—Rules. If a person seeks to contest the imposition of a fee imposed under this chapter, the person shall pay the fee and request a refund within six months of the due date for the payment by filing a petition for a refund with the commission. The commission shall establish by rule procedures for handling refund petitions and may delegate the decisions on refund petitions to the secretary of the commission. [1993 c 97 § 6.]

81.80.120 Classification of carriers. The commission may from time to time establish such just and reasonable classifications of the groups of carriers included in the terms "common carriers" and "contract carriers" as the special nature of the services performed by such carriers shall require, and such just and reasonable rules, regulations and requirements, consistent with the provisions of this chapter, to be observed by the carriers so classified or grouped, as the commission deems necessary or advisable in the public interest. [1961 c 14 § 81.80.120. Prior: 1937 c 166 § 8; 1935 c 184 § 10; RRS § 6382-10.]

81.80.130 Regulatory power of commission over common carriers. The commission shall supervise and regulate every "common carrier" in this state; make, fix, alter, and amend, just, fair, reasonable, minimum, maximum, or minimum and maximum, rates, charges, classifications, rules, and regulations for all "common carriers"; regulate the accounts, service, and safety of operations thereof; require the filing of reports and other data thereby; and supervise and regulate all "common carriers" in all other matters affecting their relationship with competing carriers of every kind and the shipping and general public: PROVIDED, The commission may by order approve rates filed by common carriers in respect to certain designated commodities and services when, in the opinion of the commission, it is

impractical for the commission to make, fix, or prescribe rates covering such commodities and services. [1961 c 14 § 81.80.130. Prior: 1957 c 205 § 5; 1937 c 166 § 9; 1935 c 184 § 11; RRS § 6382-11.]

81.80.132 Common carriers—Estimate of charges for household goods—Penalty. When a common carrier gives an estimate of charges for services in carrying household goods, the carrier will endeavor to accurately reflect the actual charges. The carrier is subject to a monetary penalty not to exceed one thousand dollars per violation when the actual charges exceed the percentages allowed by the commission. [1993 c 392 § 1.]

81.80.140 Regulatory power over contract carriers. The commission is hereby vested with power and authority, and it is hereby made its duty, to supervise and regulate every "contract carrier" in this state; to fix, alter and amend, just, fair and reasonable classifications, rules and regulations and minimum rates and charges of each such "contract carrier"; to regulate the account, service and safety of operations thereof; and require the filing of reports and of other data thereby; and to supervise and regulate such "contract carriers" in all other matters affecting their relationship with both the shipping and the general public. [1961 c 14 § 81.80.140. Prior: 1937 c 166 § 11; 1935 c 184 § 12; RRS § 6382-12.]

81.80.150 Tariffs to be compiled and sold by commission. The commission shall make, fix, construct, compile, promulgate, publish, and distribute tariffs containing compilations of rates, charges, classifications, rules, and regulations to be used by all common carriers. In compiling such tariffs it shall include within any given tariff compilation such carriers, groups of carriers, commodities, or geographical areas as it determines shall be in the public interest. Such compilations and publications may be made by the commission by compiling the rates, charges, classifications, rules, and regulations now in effect, and as they may be amended and altered from time to time after notice and hearing, by issuing and distributing revised pages or supplements to such tariffs or reissues thereof in accordance with the orders of the commission: PROVIDED, That the commission, upon good cause shown, may establish temporary rates, charges, or classification changes which may be made permanent only after publication in an applicable tariff for not less than sixty days, and determination by the commission thereafter that the rates, charges or classifications are just, fair, and reasonable: PROVIDED FURTHER, That temporary rates shall not be made permanent except upon notice and hearing if within sixty days from date of publication, a shipper or common carrier, or representative of either, shall file with the commission a protest alleging such temporary rates to be unjust, unfair, or unreasonable. For purposes of this proviso, the publication of temporary rates in the tariff shall be deemed adequate public notice. Nothing herein shall be construed to prevent the commission from proceeding on its own motion, upon notice and hearing, to fix and determine just, fair, and reasonable rates, charges, and classifications. Each common carrier shall purchase from the commission and post tariffs applicable to its

authority. The commission shall set fees for sale of the tariffs, and supplements and corrections of them, at rates to cover all costs of making, fixing, constructing, compiling, promulgating, publishing, and distributing the tariffs. The proper tariff, or tariffs, applicable to a carrier's operations shall be available to the public at each agency and office of all common carriers operating within this state. Such compilations and publications shall be sold by the commission for the established fee. However, copies may be furnished free to other regulatory bodies and departments of government and to colleges, schools, and libraries. All copies of the compilations, whether sold or given free, shall be issued and distributed under rules and regulations to be fixed by the commission: PROVIDED FURTHER, That the commission may by order authorize common carriers to publish and file tariffs with the commission and be governed thereby in respect to certain designated commodities and services when, in the opinion of the commission, it is impractical for the commission to make, fix, construct, compile, publish, and distribute tariffs covering such commodities and services. [1993 c 97 § 4; 1981 c 116 § 2; 1973 c 115 § 11; 1961 c 14 § 81.80.150. Prior: 1959 c 248 § 5; 1957 c 205 § 6; 1947 c 264 § 4; 1941 c 163 § 3; 1937 c 166 § 10; Rem. Supp. 1947 § 6382-11a.]

81.80.170 Temporary permits. The commission may issue temporary permits to temporary "common carriers" or "contract carriers" for a period not to exceed one hundred eighty days, but only after it finds that the issuance of such temporary permits is consistent with the public interest. It may prescribe such special rules and regulations and impose such special terms and conditions with reference thereto as in its judgment are reasonable and necessary in carrying out the provisions of this chapter.

The commission may also issue temporary permits pending the determination of an application filed with the commission for approval of a consolidation or merger of the properties of two or more common carriers or contract carriers or of a purchase or lease of one or more common carriers or contract carriers. [1963 c 242 § 2; 1961 c 14 § 81.80.170. Prior: 1953 c 95 § 18; 1947 c 264 § 5; 1937 c 166 § 12; 1935 c 184 § 14; Rem. Supp. 1947 § 6382-14.]

81.80.175 Permits for farm to market hauling. A permit or extension thereof for hauling unprocessed or unmanufactured agricultural commodities and livestock for a distance not to exceed eighty miles from the point of production to primary markets shall be issued to any qualified applicant therefor, authorizing the whole or part of the operations covered by the application, if it is found that the applicant is fit, willing, and able properly to perform the services proposed and conform to the provisions of this chapter and the requirements, rules and regulations of the commission thereunder, and that such operations will be consistent with the public interest. [1963 c 242 § 5.]

81.80.190 Insurance or deposit of security. The commission shall in the granting of permits to "common carriers" and "contract carriers" under this chapter require such carriers to either procure and file liability and property damage insurance from a company licensed to write such

insurance in the state of Washington, or deposit such security, for such limits of liability and upon such terms and conditions as the commission shall determine to be necessary for the reasonable protection of the public against damage and injury for which such carrier may be liable by reason of the operation of any motor vehicle.

In fixing the amount of said insurance policy or policies, or deposit of security, the commission shall give due consideration to the character and amount of traffic and the number of persons affected and the degree of danger which the proposed operation involves.

If the commission is notified of the cancellation, revocation, or any other changes in the required insurance or security of a common carrier or contract carrier with a permit to transport radioactive or hazardous materials, the commission shall immediately notify the state radiation control agency of the change. [1986 c 191 § 5; 1961 c 14 § 81.80.190. Prior: 1935 c 184 § 16; RRS § 6382-16.]

Construction—Severability—1986 c 191: See RCW 43.200.905 and 43.200.906.

81.80.195 Liability insurance requirements exclusive. This chapter shall exclusively govern the liability insurance requirements for motor vehicle common and contract carriers. Any motor vehicle that meets the public liability requirements prescribed under RCW 81.80.190 shall not be required to comply with any ordinances of a city or county prescribing insurance requirements. [1989 c 264 § 2.]

Policy—1989 c 264: "The state legislature has prescribed what requirements are necessary for public liability insurance for motor vehicle common and contract carriers to adequately protect both public and private property, both real and personal. It is therefore necessary and desirable for the state to prevent each city or county from applying its own separate insurance regulations in addition to those required by the commission." [1989 c 264 § 1.]

81.80.200 Conditions may be attached to permits. The commission is hereby vested with power and authority in issuing permits to any of the carriers classified in accordance with RCW 81.80.120 to attach thereto such terms and conditions and to require such insurance or security as it may deem necessary for the protection of the public highways and to be for the best interest of the shipping and the general public. All such regulations and conditions shall be deemed temporary and may be revoked by the commission upon recommendation of the state or county authorities in charge of highway maintenance or safety when in the judgment of such authorities such revocation is required in order to protect the public or preserve the public highways. [1961 c 14 § 81.80.200. Prior: 1937 c 166 § 14; 1935 c 184 § 17; RRS § 6382-17.]

81.80.211 Hours of operators—Rules and regulations. The commission may adopt rules and regulations relating to the hours of duty of motor carrier drivers and operators. [1961 c 14 § 81.80.211. Prior: 1953 c 95 § 23.]

81.80.220 Tariff rates must be charged. No "common carrier" or "contract carrier" shall collect or receive a greater, less or different remuneration for the transportation of property or for any service in connection therewith than

the rates and charges which shall have been legally established and filed with the commission, or as are specified in the contract or contracts filed, as the case may be, nor shall any such carrier refund or remit in any manner or by any device any portion of the rates and charges required to be collected by each tariff or contract or filing with the commission.

The commission may check the records of all carriers under this chapter and of those employing the services of the carrier for the purpose of discovering all discriminations, under or overcharges and rebates, and may suspend or revoke permits for violations of this section.

The commission may refuse to accept any time schedule or tariff or contract that will, in the opinion of the commission, limit the service of a carrier to profitable trips only or to the carrying of high class commodities in competition with other carriers who give a complete service and thus afford one carrier an unfair advantage over a competitor. [1961 c 14 § 81.80.220. Prior: 1937 c 166 § 16; 1935 c 184 § 19; RRS § 6382-19.]

81.80.230 Penalty for rebating—Procedures for collection. Any person, whether carrier subject to the provisions of this chapter, shipper, or consignee, or any officer, employee, agent, or representative thereof, who shall offer, grant, or give, or solicit, accept, or receive any rebate, concession, or discrimination in violation of any provision of this chapter, or who by means of any false statement or representation, or by the use of any false or fictitious bill, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit, deposition, lease, or bill of sale, or by any other means or device shall assist, suffer or permit any person or persons, natural or artificial, to obtain transportation of property subject to this chapter for less than the applicable rate, fare, or charge, or who shall fraudulently seek to evade or defeat regulation as in this chapter provided for motor carriers shall be subject to a civil penalty of not more than one hundred dollars for each violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation every day's continuance shall be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under this section and subject to the penalty provided for in this section.

The penalty provided for in this section shall become due and payable when the person incurring the penalty receives a notice in writing from the commission describing the violation with reasonable particularity and advising the person that the penalty is due. The commission may, upon written application therefor, received within fifteen days, remit or mitigate any penalty provided for in this section or discontinue any prosecution to recover the penalty upon such terms as the commission in its discretion deems proper. The commission has authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper. If the penalty is not paid to the commission within fifteen days after receipt of notice imposing the penalty or application for remission or mitigation has not been made within fifteen days after the violator has received notice of the disposition of the application, the attorney general shall bring an action in the name of the state of

Washington in the superior court of Thurston county or of some other county in which the violator may do business, to recover the penalty. In all such actions, the procedure and rules of evidence shall be the same as in an ordinary civil action except as otherwise provided in this section. All penalties recovered under this section shall be paid into the state treasury and credited to the public service revolving fund. [1980 c 132 § 2; 1961 c 14 § 81.80.230. Prior: 1947 c 264 § 6; Rem. Supp. 1947 § 6382-19a.]

Effective date—1980 c 132: See note following RCW 81.29.020.

81.80.240 Joint through rates. The commission shall have power and authority to require a common carrier by motor vehicle, railroad, express or water to establish reasonable through rates with other common carriers by motor vehicle, railroad, express and water, and to provide safe and adequate service, equipment and facilities for the transportation of property; to establish and enforce just and reasonable individual and joint rates, charges and classifications, and just and reasonable regulations and practices relating thereto, and in case of such joint rates, fares and charges to establish just, reasonable and equitable divisions thereof as between the carriers participating therein, which shall not unduly prefer or prejudice any of such participating carriers. In ordering and establishing joint through rates between different types of carriers the commission shall give full effect to the lower cost of transportation of property by any type of carrier and shall reflect such lower cost by differentials under a through rate of the higher cost carrier. [1961 c 14 § 81.80.240. Prior: 1937 c 166 § 17; 1935 c 184 § 20; RRS § 6382-20.]

81.80.250 Bond to protect shippers and consignees. The commission may, under such rules and regulations as it shall prescribe, require any common carrier to file a surety bond, or deposit security, in a sum to be determined by the commission, to be conditioned upon such carrier making compensation to shippers and consignees for all money belonging to shippers and consignees, and coming into the possession of such carrier in connection with its transportation service. Any common carrier which may be required by law to compensate a shipper or consignee for any loss, damage or default for which a connecting common carrier is legally responsible shall be subrogated to the rights of such shipper or consignee under any such bond or deposit of security to the extent of the sum so paid. [1961 c 14 § 81.80.250. Prior: 1935 c 184 § 21; RRS § 6382-21.]

81.80.260 Operation in more than one class. It shall be unlawful for any person to operate any vehicle at the same time in more than one class of operation, except upon approval of the commission and a finding that such operation will be in the public interest.

No "exempt carrier" as such shall transport property for compensation except as hereinabove provided. [1967 c 69 § 3; 1961 c 14 § 81.80.260. Prior: 1935 c 184 § 22; RRS § 6382-22.]

Severability—1967 c 69: See note following RCW 81.80.010.

81.80.270 Permits—Transfer—Assignment—Acquisition of carrier holding permit—Commission

approval—Duties on cessation of operation. No permit issued under the authority of this chapter shall be construed to be irrevocable. Nor shall such permit be subject to transfer or assignment except upon a proper showing that property rights might be affected thereby, and then in the discretion of the commission.

No person, partnership or corporation, singly or in combination with any other person, partnership or corporation, whether a carrier holding a permit or otherwise, or any combination of such, shall acquire control or enter into any agreement or arrangement to acquire control of a common or contract carrier holding a permit through ownership of its stock or through purchase, lease or contract to manage the business, or otherwise except after and with the approval and authorization of the commission: **PROVIDED**, That upon the dissolution of a partnership, which holds a permit, because of the death, bankruptcy, or withdrawal of a partner where such partner's interest is transferred to his spouse or to one or more remaining partners, or in the case of a corporation which holds a permit, in the case of the death of a shareholder where a shareholder's interest upon death is transferred to his spouse or to one or more of the remaining shareholders, the commission shall transfer the permit to the newly organized partnership which is substantially composed of the remaining partners, or continue the corporation's permit without making the proceeding subject to hearing and protest. In all other cases any such transaction either directly or indirectly entered into without approval of the commission shall be void and of no effect, and it shall be unlawful for any person seeking to acquire or divest control of such permit to be a party to any such transaction without approval of the commission.

Every carrier who shall cease operation and abandon his rights under the permits issued him shall notify the commission within thirty days of such cessation or abandonment, and return to the commission the identification cards issued to him. [1973 c 115 § 12; 1969 ex.s. c 210 § 12; 1965 ex.s. c 134 § 1; 1963 c 59 § 6; 1961 c 14 § 81.80.270. Prior: 1959 c 248 § 24; 1937 c 166 § 18; 1935 c 184 § 23; RRS § 6382-23.]

81.80.272 Transfer of decedent's interest—Temporary continuance of operations. Except as otherwise provided in RCW 81.80.270 any permit granted to any person under this chapter and held by that person alone or in conjunction with others other than as stockholders in a corporation at the time of his death shall be transferable the same as any other right or interest of the person's estate subject to the following:

(1) Application for transfer shall be made to the commission in such form and contain such information as the commission shall prescribe. The transfer described in any such application shall be approved if it appears from the application or from any hearing held thereon or from any investigation thereof that the proposed transferee is fit, willing and able properly to perform the services authorized by the permit to be transferred and to conform to the provisions of this chapter and the requirements, rules and regulations of the commission thereunder, otherwise the application shall be denied.

(2) Temporary continuance of motor carrier operations without prior compliance with the provisions of this section will be recognized as justified by the public interest in cases in which the personal representatives, heirs or surviving spouses of deceased persons desire to continue the operations of the carriers whom they succeed in interest subject to such reasonable rules and regulations as the commission may prescribe.

In case of temporary continuance under this section the successor shall immediately procure insurance or deposit security as required by RCW 81.80.190.

Immediately upon any such temporary continuance of motor carrier operations and in any event not more than thirty days thereafter the successor shall give notice of the succession by written notice to the commission containing such information as the commission shall prescribe. [1973 c 115 § 13; 1965 ex.s. c 134 § 2.]

81.80.280 Cancellation of permits. Permits may be canceled, suspended, altered or amended by the commission upon complaint by any interested party, or upon the commission's own motion after notice and opportunity for hearing, when the permittee or his or its agent has repeatedly violated this chapter, the rules and regulations of the commission or the motor laws of this state or of the United States, or the permittee has made unlawful rebates or has not conducted his operation in accordance with the permit granted him. Any person may at the instance of the commission be enjoined from any violation of the provisions of this chapter, or any order, rule or regulation made by the commission pursuant to the terms hereof. If such suit be instituted by the commission no bond shall be required as a condition to the issuance of such injunction. [1987 c 209 § 1; 1961 c 14 § 81.80.280. Prior: 1935 c 184 § 24; RRS § 6382-24.]

81.80.290 Rules and regulations. The commission shall have power and authority, by general order or otherwise, to prescribe rules and regulations in conformity with this chapter to carry out the purposes thereof, applicable to any and all "motor carriers," or to any persons transporting property by motor vehicle for compensation even though they do not come within the term "motor carrier" as herein defined.

The commission shall mail each holder of a permit under this chapter a copy of such rules and regulations. [1961 c 14 § 81.80.290. Prior: 1935 c 184 § 25; RRS § 6382-25.]

Violation of rules pertaining to vehicle equipment on motor carriers transporting hazardous material: RCW 46.48.175.

81.80.301 Registration of motor carriers doing business in state—Identification number—Receipt carried in cab—Fees. The commission may implement a system to register motor carriers doing business in this state, including, but not limited to:

(1) The prescription of an identification number and the issuance of a receipt that must be carried within the cab of each motive power vehicle operated within this state;

(2) The adoption of requirements for the carriers to carry other identifying information along with the identification number provided for in subsection (1) of this section;

(3) Participation in a single state registration program as authorized by the Intermodal Surface Transportation Efficiency Act of 1991, 49 U.S.C. Sec. 11506, as in effect on July 25, 1993; and

(4) The collection of any fee authorized by the Intermodal Surface Transportation Efficiency Act, 49 U.S.C. Sec. 11506, as in effect on July 25, 1993, in addition to any other fees authorized by law. [1993 c 97 § 1.]

81.80.305 Markings required—Exemptions. (1) All motor vehicles, other than those exempt under subsection (2) of this section, must display a permanent marking identifying the name or number, or both, on each side of the power units. For a motor vehicle that is a common or contract carrier under permit by the commission as described in subsection (3)(a), a private carrier under subsection (4), or a leased carrier as described in subsection (5) of this section, any required identification that is added, modified, or renewed after September 1, 1991, must be displayed on the driver and passenger doors of the power unit. The identification must be in a clearly legible style with letters no less than three inches high and in a color contrasting with the surrounding body panel.

(2) This section does not apply to (a) vehicles exempt under RCW 81.80.040, and (b) vehicles operated by private carriers that singly or in combination are less than thirty-six thousand pounds gross vehicle weight.

(3) If the motor vehicle is operated as (a) a common or contract carrier under a permit by the commission, the identification must contain the name of the permittee, or business name, and the permit number, or (b) a common or contract carrier holding both intrastate and interstate authority, the identification may be either the ICC certificate number or commission permit number.

(4) If the motor vehicle is a private carrier, the identification must contain the name and address of either the business operating the vehicle or the registered owner.

(5) If the motor vehicle is operated under lease, the vehicle must display either permanent markings or placards on the driver and passenger doors of the power unit. A motor vehicle under lease (a) that is operated as a common or contract carrier under permit by the commission must display identification as provided in subsection (3)(a) of this section, and (b) that is operated as a private carrier must display identification as provided in subsection (4) of this section. [1991 c 241 § 1.]

81.80.312 Interchange of trailers, semitrailers, or power units—Interchange agreement, approval, restrictions—Procedure when no agreement. No carrier shall interchange its trailers or semitrailers with any other carrier without first filing an interchange agreement with and securing approval thereof by the commission. The interchange agreement providing for the transfer or interchange of trailers or semitrailers pursuant thereto shall be authorized only on through movements between connecting regular route carriers.

No carrier shall interchange its power units, with or without drivers, with any other carrier, and no carrier shall interchange its trailers or semitrailers with any other carrier beyond that authorized in the preceding paragraph without first filing an interchange agreement with and securing approval thereof under rules adopted by the commission: PROVIDED, That such approval shall be given only for interchanges between connecting regular route carriers and only within an area which the commission has, following hearing, found to be within the distribution area around a city or cities one of which has a population of not less than one hundred thousand, and has further found it consistent with the public interest to allow such interchange agreements due to a lack of service or a resultant improvement in service and operating economies: PROVIDED FURTHER, That such interchange agreements are limited to traffic having both origin and final destination within such area and the points or point of interchange are located within such area and are common to both carriers and are named in the interchange agreement.

Any carrier operating any motive power vehicle owned by another person or party but not operated pursuant to an interchange agreement shall secure identification cab cards and decals or stamps or numbers in his own name for such motive power vehicles as required by *RCW 81.80.300. [1969 ex.s. c 210 § 16; 1967 c 170 § 2; 1961 c 14 § 81.80.312. Prior: 1953 c 95 § 20.]

*Reviser's note: RCW 81.80.300 was repealed by 1993 c 97 § 7, effective January 1, 1994.

81.80.318 Single trip transit permit. Any motor carrier engaged in this state in the casual or occasional carriage of property in interstate or foreign commerce, who would otherwise be subject to all of the requirements of this chapter, shall be authorized to engage in such casual or occasional carriage, upon securing from the commission a single trip transit permit, valid for a period not exceeding ten days, which shall authorize a one way trip in transporting property for compensation between points in the state of Washington and points in other states, territories, or foreign countries.

No identification numbers and no regulatory fees other than as provided in this section shall be required for such permit. The permit must be carried in the cab of the motive power vehicle.

The permit shall be issued upon application to the commission or any of its duly authorized agents upon payment of a fee of not more than twenty dollars and the furnishing of proof of possession of public liability and property damage insurance at levels set by commission rule. Such proof may consist of an insurance policy or a certificate of insurance.

The commission shall not be required to collect the excise tax prescribed by RCW 82.44.020 on any vehicle subject only to the payment of this fee. [1993 c 97 § 2; 1985 c 7 § 153; 1967 c 170 § 3; 1963 c 59 § 8; 1961 c 14 § 81.80.318. Prior: 1955 c 79 § 10.]

Effective date—1993 c 97 §§ 2, 3, and 7: "Sections 2, 3, and 7 of this act take effect January 1, 1994." [1993 c 97 § 8.]

81.80.321 Regulatory fee—Based on gross income—Legislative intent—Delinquent fee payments—Public service revolving fund. In addition to all other fees to be paid, a common carrier and contract carrier shall pay a regulatory fee of no more than 0.0025 of its gross income from intrastate operations for the previous calendar year, or such other period as the commission designates by rule. The carrier shall pay the fee no later than four months after the end of the appropriate period and shall include with the payment such information as the commission requires by rule.

The legislature intends that the fees collected under this chapter shall reasonably approximate the cost of supervising and regulating motor carriers subject to this chapter, and to that end the commission may by general order decrease fees provided in this section if it determines that the moneys then in the motor carrier account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating carriers.

Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month.

All fees collected under any other provision of this chapter must be paid to the commission. The commission shall transmit the fees to the state treasurer within thirty days for deposit to the credit of the public service revolving fund. [1994 c 83 § 4; 1993 c 97 § 3.]

Effective date—1993 c 97 § 2, 3, and 7: See note following RCW 81.80.318.

The commission is hereby empowered to administer and enforce all provisions of this chapter and to inspect the vehicles, books, and documents of all "motor carriers" and the books, documents, and records of those using the service of the carriers for the purpose of discovering all discriminations and rebates and other information pertaining to the enforcement of this chapter and shall prosecute violations thereof. The commission shall employ such auditors, inspectors, clerks, and assistants as it may deem necessary for the enforcement of this chapter. The Washington state patrol shall perform all motor carrier safety inspections required by this chapter, including terminal safety audits, except for (1) those carriers subject to the economic regulation of the commission, or (2) a vehicle owned or operated by a carrier affiliated with a solid waste company subject to economic regulation by the commission. The attorney general shall assign at least one assistant to the exclusive duty of assisting the commission in the enforcement of this chapter, and the prosecution of persons charged with the violation thereof. It shall be the duty of the Washington state patrol and the sheriffs of the counties to make arrests and the county attorneys to prosecute violations of this chapter. [1995 c 272 § 5; 1980 c 132 § 3; 1961 c 14 § 81.80.330. Prior: 1935 c 184 § 29; RRS § 6382-29.]

Effective dates—1995 c 272: See note following RCW 46.32.090.

Effective date—1980 c 132: See note following RCW 81.29.020.

81.80.340 Public service law invoked. In all respects in which the commission has power and authority under this

chapter applications and complaints may be made and filed with it, process issued, hearings held, opinions, orders and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for writs of review to the superior court filed therewith, appeals or mandate filed with the supreme court or the court of appeals of this state, considered and disposed of by said courts in the manner, under the conditions and subject to the limitations and with the effect specified in this title. The right of review and appeal hereby conferred shall be available to any motor carriers, complainant, protestant or other person adversely affected by any decision or order of the commission. [1971 c 81 § 147; 1961 c 14 § 81.80.340. Prior: 1947 c 264 § 9; 1935 c 184 § 30; Rem. Supp. 1947 § 6382-30.]

81.80.345 Venue—Hearings on applications. Hearings on applications shall be heard in the county or adjoining county for which authority to operate is being applied. If more than one county is involved, the commission may hold the hearings at a location that will afford the greatest opportunity for testimony by witnesses representing the area for which authority to operate is being applied. [1988 c 58 § 1; 1963 c 242 § 3.]

81.80.346 Venue—Appeals from rulings and orders. Appeals from rulings and orders shall be heard in the superior court of the county of the residence of the applicant or Thurston county at the option of the applicant. [1963 c 242 § 4.]

81.80.355 Unlawful advertising—Penalty. Any person not holding a permit authorizing him to operate as a common carrier, contract carrier, or temporary carrier for the transportation of property for compensation in this state, or an exempt carrier, who displays on any building, vehicle, billboard or in any manner, any advertisement of, or by circular, letter, newspaper, magazine, poster, card or telephone directory, advertises the transportation of property for compensation shall be guilty of a misdemeanor and punishable as such. [1961 c 14 § 81.80.355. Prior: 1957 c 205 § 8; 1953 c 95 § 22.]

81.80.357 Advertising—Household goods—Permit number required—Penalty. (1) No person in the business of transporting household goods as defined by the commission in intrastate commerce shall advertise without listing the carrier's Washington utilities and transportation commission permit number in the advertisement.

(2) As of June 9, 1994, all advertising, contracts, correspondence, cards, signs, posters, papers, and documents which show a household goods motor carrier name or address shall show the carrier's Washington utilities and transportation commission permit number. The alphabetized listing of household good[s] motor carriers appearing in the advertising sections of telephone books or other directories and all advertising that shows the carrier's name or address shall show the carrier's current Washington utilities and transportation commission permit number.

(3) Advertising by electronic transmission need not contain the carrier's Washington utilities and transportation commission permit number if the carrier provides it to the

person selling the advertisement and it is recorded in the advertising contract.

(4) No person shall falsify a Washington utilities and transportation commission permit number or use a false or inaccurate Washington utilities and transportation commission permit number in connection with any solicitation or identification as an authorized household goods motor carrier.

(5) If, upon investigation, the commission determines that a motor carrier or person acting in the capacity of a motor carrier has violated this section, the commission may issue a penalty not to exceed five hundred dollars for every violation. [1994 c 168 § 1.]

81.80.360 Procedure—Penalties—General statute invoked. All applicable provisions of this title, relating to procedure, powers of the department and penalties, shall apply to the operation and regulation of persons under this chapter, except insofar as such provisions may conflict with provisions of this chapter and rules and regulations issued thereunder by the commission. [1961 c 14 § 81.80.360. Prior: 1937 c 166 § 22; RRS § 6382-31a.]

81.80.370 Application to interstate commerce. This chapter shall apply to persons and motor vehicles engaged in interstate commerce to the full extent permitted by the Constitution and laws of the United States. [1961 c 14 § 81.80.370. Prior: 1935 c 184 § 32; RRS § 6382-32.]

81.80.371 Carriers must register authority from interstate commerce commission. It shall be unlawful for any carrier to perform a transportation service for compensation upon the public highways of this state without first having secured appropriate authority from the Interstate Commerce Commission, if such authority is required, and without first having registered such authority, if any, with the commission.

It shall also be unlawful for a carrier to perform a transportation service for compensation on the public highways of this state as an interstate carrier of commodities included in the exemptions provided in section 203(b) of the Interstate Commerce Act without having first registered as such a carrier with the commission.

Such registration shall be granted upon application, without hearing, upon payment of the appropriate filing fee prescribed by this chapter for other applications for operating authority. [1963 c 59 § 9.]

81.80.375 Fee when federal requirements necessitate uniform forms evidencing interstate operations. Where by virtue of federal requirements uniform forms are to be utilized to evidence lawfulness of interstate operations, the commission shall charge a fee for such forms equal to the cost to the commission. [1971 ex.s. c 143 § 6.]

Effective date—1971 ex.s. c 143: "Sections 4, 5, 6 and 7 of this 1971 amendatory act shall take effect on October 31, 1971." [1971 ex.s. c 143 § 9.]

81.80.380 Cooperation with federal government. The commission is hereby authorized and directed to cooperate with the federal government and the interstate

commerce commission of the United States or any other commission or organization delegated or authorized to regulate interstate or foreign commerce by motor carriers to the end that the transportation of property by motor carriers in interstate or foreign commerce into and through the state of Washington may be regulated and the laws of the United States and the state of Washington enforced and administered cooperatively in the public interest. [1961 c 14 § 81.80.380. Prior: 1935 c 184 § 33; RRS § 6382-33.]

(e) Operate vessels upon the waters of the Pend Oreille River, Pend Oreille County, Washington. [1995 c 361 § 3.]

81.84.010 Certificate of convenience and necessity required—Progress reports. (1) No commercial ferry may hereafter operate any vessel or ferry for the public use for hire between fixed termini or over a regular route upon the waters within this state, including the rivers and lakes and Puget Sound, without first applying for and obtaining from the commission a certificate declaring that public convenience and necessity require such operation. Service authorized by certificates issued before or after July 25, 1993, to a commercial ferry operator shall be exercised by the operator in a manner consistent with the conditions established in the certificate or tariffs: PROVIDED, That no certificate shall be required for a vessel primarily engaged in transporting freight other than vehicles, whose gross earnings from the transportation of passengers and/or vehicles, are not more than ten percent of the total gross annual earnings of such vessel: PROVIDED, That nothing herein shall be construed to affect the right of any county public transportation benefit area or other public agency within this state to construct, condemn, purchase, operate, or maintain, itself or by contract, agreement, or lease, with any person, firm, or corporation, ferries or boats across or wharfs at or upon the waters within this state, including rivers and lakes and Puget Sound, provided such operation is not over the same route or between the same districts, being served by a certificate holder without first acquiring the rights granted to the certificate holder under the certificate, nor shall this chapter be construed to affect, amend, or invalidate any contract entered into prior to January 15, 1927, for the operation of ferries or boats upon the waters within this state, which was entered into in good faith by any county with any person, firm, or corporation, except that in case of the operation or maintenance by any county, city, town, port district, or other political subdivision by contract, agreement, or lease with any person, firm, or corporation, of ferries or boats across or wharfs at or upon the waters within this state, including rivers and lakes and Puget Sound, the commission shall have power and authority to regulate rates and services of such operation or maintenance of ferries, boats, or wharfs, to make, fix, alter, or amend said rates, and to regulate service and safety of operations thereof, in the manner and to the same extent as it is empowered to regulate a commercial ferry, notwithstanding the provisions of any act or parts of acts inconsistent herewith.

(2) The holder of a certificate of public convenience and necessity granted under this chapter must initiate service within five years of obtaining the certificate. The certificate holder shall report to the commission every six months after the certificate is granted on the progress of the certificated route. The reports shall include, but not be limited to, the progress of environmental impact, parking, local government land use, docking, and financing considerations. However,

if service has not been initiated within five years of obtaining the certificate, the commission may extend the certificate on a twelve-month basis for up to three years if the six-month progress reports indicate there is significant advancement toward initiating service.

(3) The commission shall review certificates in existence as of July 25, 1993, where service is not being provided on all or any portion of the route or routes certificated. Based on progress reports required under subsection (2) of this section, the commission may grant an extension beyond that provided in subsection (2) of this section. Such additional extension may not exceed a total of two years. [1993 c 427 § 2; 1961 c 14 § 81.84.010. Prior: 1950 ex.s. c 6 § 1, part; 1927 c 248 § 1, part; RRS § 10361-1, part.]

81.84.015 Vessels providing excursion service—Certificate required. (Effective until January 1, 2001.)

(1) Unless expressly exempted in *RCW 81.84.007, no vessel may provide excursion service over the waters of this state without first having obtained a certificate of public convenience and necessity as provided in RCW 81.84.010.

(2) Vessels providing excursion service must comply with all provisions of this chapter and rules of the commission adopted under this chapter. [1995 c 361 § 2.]

*Reviser's note: RCW 81.84.007 was repealed by 1995 c 361 § 4, effective January 1, 2001.

81.84.020 Application—Hearing—Issuance of certificate—Determining factors. (1) Upon the filing of an application the commission shall give reasonable notice to the department, affected cities and counties, and any common carrier which might be adversely affected, of the time and place for hearing on such application. The commission shall have power after hearing, to issue the certificate as prayed for, or to refuse to issue it, or to issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by said certificate such terms and conditions as in its judgment the public convenience and necessity may require; but the commission shall not have power to grant a certificate to operate between districts and/or into any territory prohibited by RCW 47.60.120 or already served by an existing certificate holder, unless such existing certificate holder has failed or refused to furnish reasonable and adequate service or has failed to provide the service described in its certificate or tariffs after the time period allowed to initiate service has elapsed: PROVIDED, A certificate shall be granted when it shall appear to the satisfaction of the commission that the commercial ferry was actually operating in good faith over the route for which such certificate shall be sought, on January 15, 1927: PROVIDED, FURTHER, That in case two or more commercial ferries shall upon said date have been operating vessels upon the same route, or between the same districts the commission shall determine after public hearing whether one or more certificates shall issue, and in determining to whom a certificate or certificates shall be issued, the commission shall consider all material facts and circumstances including the prior operation, schedules, and services rendered by either of the ferries, and in case more than one certificate shall issue, the commission shall fix and determine the schedules and services of the ferries to which the

certificates are issued to the end that duplication of service be eliminated and public convenience be furthered.

(2) Before issuing a certificate, the commission shall determine that the applicant has the financial resources to operate the proposed service for at least twelve months, based upon the submission by the applicant of a pro forma financial statement of operations. Issuance of a certificate shall be determined upon, but not limited to, the following factors: Ridership and revenue forecasts; the cost of service for the proposed operation; an estimate of the cost of the assets to be used in providing the service; a statement of the total assets on hand of the applicant that will be expended on the proposed operation; and a statement of prior experience, if any, in such field by the applicant. The documentation required of the applicant under this section shall comply with the provisions of RCW 9A.72.085.

(3) Subsection (2) of this section does not apply to an application for a certificate that is pending as of July 25, 1993. [1993 c 427 § 3; 1961 c 14 § 81.84.020. Prior: 1950 ex.s. c 6 § 1, part; 1927 c 248 § 1, part; RRS § 10361-1, part.]

81.84.025 Certificate—Insurance or bond required—Amounts. The commission, in granting a certificate to operate as a commercial ferry, shall require the operator to first obtain liability and property damage insurance from a company licensed to write liability insurance in the state or a surety bond of a company licensed to write surety bonds in the state, on each vessel or ferry to be used, in the amount of not less than one hundred thousand dollars for any recovery for personal injury by one person, and not less than one million dollars and in such additional amount as the commission shall determine, for all persons receiving personal injury and property damage by reason of one act of negligence, and not less than fifty thousand dollars for damage to property of any person other than the insured; or combined bodily injury and property damage liability insurance of not less than one million dollars, and to maintain such liability and property damage insurance or surety bond in force on each vessel or ferry while so used. Each policy for liability or property damage insurance or surety bond required by this section must be filed with the commission and kept in full force and effect, and failure to do so is cause for revocation of the operator's certificate. [1993 c 427 § 4.]

81.84.030 Certificate—Transfer. No certificate or any right or privilege thereunder held, owned, or obtained under the provisions of this chapter shall be sold, assigned, leased, mortgaged, or in any manner transferred, either by the act of the parties or by operation of law, except upon authorization by the commission first obtained. [1993 c 427 § 5; 1961 c 14 § 81.84.030. Prior: 1950 ex.s. c 6 § 1, part; 1927 c 248 § 1, part; RRS § 10361-1, part.]

81.84.040 Filing fees. Any application for a certificate of public convenience and necessity or amendment thereof, or application to sell, lease, mortgage, or transfer a certificate of public convenience and necessity or any interest therein, shall be accompanied by such filing fee as the commission may prescribe by rule: PROVIDED, That such

fee shall not exceed two hundred dollars. [1973 c 115 § 14; 1961 c 14 § 81.84.040. Prior: 1955 c 125 § 10; prior: 1939 c 123 § 3, part; 1937 c 158 § 4, part; RRS § 10417-3, part.]

81.84.050 Penalties—Remission, mitigation. Every commercial ferry and every officer, agent, or employee of any commercial ferry who violates or who procures, aids, or abets in the violation of any provision of this title, or any order, rule, regulation, or decision of the commission shall incur a penalty of one hundred dollars for every such violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation every day's continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for.

The penalty herein provided for shall become due and payable when the person incurring the same receives a notice in writing from the commission describing such violation with reasonable particularity and advising such person that the penalty is due.

The commission may, upon written application therefor, received within fifteen days, remit or mitigate any penalty provided for in this section or discontinue any prosecution to recover the same upon such terms as it in its discretion shall deem proper, and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper.

If the amount of such penalty is not paid to the commission within fifteen days after receipt of notice imposing the same or, if application for remission or mitigation has not been made, within fifteen days after the violator has received notice of the disposition of such application, the attorney general shall bring an action to recover the penalty in the name of the state of Washington in the superior court of Thurston county or of some other county in which such violator may do business. In all such actions the procedure and rules of evidence shall be the same as in ordinary civil actions except as otherwise herein provided. All penalties recovered by the state under this chapter shall be paid into the state treasury and credited to the public service revolving fund. [1993 c 427 § 6; 1961 c 14 § 81.84.050. Prior: 1937 c 169 § 6; RRS § 10361-2.]

The commission, upon complaint by an interested party, or upon its own motion after notice and opportunity for hearing, may cancel, revoke, suspend, alter, or amend a certificate issued under this chapter on any of the following grounds:

(1) Failure of the certificate holder to initiate service by the conclusion of the fifth year after the certificate has been granted or by the conclusion of an extension granted under RCW 81.84.010 (2) or (3), if the commission has considered the progress report information required under RCW 81.84.010 (2) or (3);

(2) Failure of the certificate holder to file an annual report;

(3) The filing by a certificate holder of an annual report that shows no revenue in the previous twelve-month period after service has been initiated;

(4) The violation of any provision of this chapter;

(5) The violation of or failure to observe the provisions or conditions of the certificate or tariffs;

(6) The violation of an order, decision, rule, regulation, or requirement established by the commission under this chapter;

(7) Failure of a certificate holder to maintain the required insurance coverage in full force and effect; or

(8) Failure or refusal to furnish reasonable and adequate service after initiating service.

The commission shall take appropriate action within thirty days upon a complaint by an interested party or of its own finding that a provision of this section has been violated. [1993 c 427 § 7.]

81.84.070 Temporary certificate—Immediate and urgent need. The commission may, with or without a hearing, issue temporary certificates to operate under this chapter, but only after it finds that the issuance of the temporary certificate is necessary due to an immediate and urgent need and is otherwise consistent with the public interest. The certificate may be issued for a period of up to one hundred eighty days. The commission may prescribe such special rules and impose special terms and conditions on the granting of the certificate as in its judgment are reasonable and necessary in carrying out this chapter. The commission shall collect a filing fee, not to exceed two hundred dollars, for each application for a temporary certificate. The commission shall not issue a temporary certificate to operate on a route for which a certificate has been issued or for which an application by another commercial ferry operator is pending. The western regional short-haul air transportation compact proposed for adoption by the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, is hereby ratified and approved and the adherence of this state to the provisions of this compact, upon its ratification and approval by at least six of the other twelve states, is hereby declared. [1972 ex.s. c 36 § 2.]

81.96.020 Terms and provisions. The terms and provisions of the compact referred to in RCW 81.96.010 are as follows:

WESTERN REGIONAL SHORT-HAUL AIR TRANSPORTATION COMPACT

Article I PURPOSE

The party states recognize that short-haul air transportation is essential to a balanced and efficient transportation system in the West, meeting special needs created by particular geographic and population patterns in both rural and urban areas. They further recognize that it is not economically feasible for the commercial airlines to provide a full complement of short-haul air services or to explore fully the capabilities and limitations of the various types and

locations of such services. They also recognize that careful planning, experimentation, and testing are needed before appropriate short-haul air transportation can be developed for all the situations in which it would be beneficial to the economy and general welfare of the western states. To meet this need, the party states agree that a regional compact should be established for the purpose of organizing and conducting a series of demonstration programs to test the feasibility of new short-haul air transportation concepts in the West.

Article II REGIONAL COMMISSION

A. There is hereby established an agency of the party states to be known as the Western Regional Short-Haul Air Transportation Commission (hereinafter called the "Commission").

B. The Commission shall be composed of one member from each party state and one federal member, if authorized by federal law, who shall be the Secretary of Transportation or his designee. Each state member shall be appointed, suspended, or removed and shall serve subject to and in accordance with the laws of the state which he represents.

C. The state members shall each be entitled to one vote on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of all members representing the party states are present, and unless a majority of the total number of votes on the Commission are cast in favor thereof. The federal member shall not be entitled to a vote on the Commission unless authorized by a majority vote of the state members. The state members may provide that decisions of the Commission shall require the affirmative vote of the federal member and of a majority of the state members, if such provision is necessary in order to meet the requirements of federal law. In matters coming before the Commission, the state members shall, to the extent practicable, consult with representatives of appropriate local subdivisions within their respective states and the federal member, if any, shall consult with the federal departments and agencies having an interest in the subject matter.

D. The state members of the Commission shall elect annually, from among their number, a chairman and a vice chairman. The state members may provide that the chairman so elected shall be designated as the state cochairman and the federal member shall be designated as the federal cochairman, if such provision is necessary in order to meet the requirements of federal law.

E. Each state member shall have an alternate appointed in accordance with the laws of the state which he represents. The federal member, if any, shall have an alternate appointed in accordance with federal law. An alternate shall be entitled to vote in the event of the absence, death, disability, removal, or resignation of the state or federal member for whom he is an alternate.

Article III FUNCTIONS OF THE COMMISSION

A. It shall be the primary function of the Commission to authorize and effect a series of demonstration programs to test the feasibility of new short-haul air transportation

concepts in the West. To carry out this function, the Commission shall have power to:

- (1) Establish basic regional demonstration policy and coordinate with federal policy makers where appropriate;
- (2) Create a management plan and implement programs through a suitable staff;
- (3) Designate demonstration arenas and facilities;

F. The Commission annually shall make to the Governor of each party state, a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been adopted by the Commission, which report shall be transmitted to the legislature of said state. The Commission may issue such additional reports as it may deem desirable.

Article V
FINANCES

Each such budget shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The share to be paid by each party state shall be determined by a majority vote of the state members of the Commission. The federal member, if any, shall not participate or vote in such determination. The costs shall be allocated equitably among the party states in accordance with their respective interests.

C. The Commission may meet any of its obligations in whole or in part with funds available to it from the federal government or other sources under Article IV(B) of this compact, provided that the Commission takes specific action setting aside such funds prior to the incurring of any obligation to be met in whole or in part in this manner. Except where the Commission makes use of funds available to it under Article IV(B) of this compact, the Commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

Article VI

No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article IX
CONSTRUCTION AND SEVERABILITY

It is intended that the provisions of this compact shall be reasonably and liberally construed to effectuate its purposes. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any party state, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to

the state affected as to all severable matters. [1972 ex.s. c 36 § 3.]

81.96.030 Service of secretary of transportation as state member—Execution of compact. The secretary of transportation or his designee may serve as the Washington state member to the western regional short-haul air transportation compact and may execute the compact on behalf of this state with any other state or states legally joining therein. [1984 c 7 § 376; 1972 ex.s. c 36 § 4.]

Use of moneys, construction priority: See 1990 c 298 § 35.

81.100.010 Purpose. The need for mobility, growing travel demand, and increasing traffic congestion in urban areas necessitate accelerated development and increased utilization of the high occupancy vehicle system. RCW 81.100.030 and 81.100.060 provide taxing authority that counties can use in the near term to accelerate development and increase utilization of the high occupancy vehicle system by supplementing available federal, state, and local funds. [1990 c 43 § 12.]

Construction—1990 c 43: "This act shall be liberally construed to give effect to the intent of this act." [1990 c 43 § 56.]

Severability—1990 c 43: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1990 c 43 § 57.]

Headings—1990 c 43: "Section headings, part headings, and the index as used in this act do not constitute any part of the law." [1990 c 43 § 55.]

81.100.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Transit agency" means a city that operates a transit system, a public transportation benefit area, a county transportation authority, or a metropolitan municipal corporation.

(2) The "high occupancy vehicle system" includes high occupancy vehicle lanes, related high occupancy vehicle facilities, and high occupancy vehicle programs.

(3) "High occupancy vehicle lanes" mean lanes reserved for public transportation vehicles only or public transportation vehicles and private vehicles carrying no fewer than a specified number of passengers under RCW 46.61.165.

(4) "Related facilities" means park and ride lots, park and pool lots, ramps, bypasses, turnouts, signal preemption, and other improvements designed to maximize use of the high occupancy vehicle system.

(5) "High occupancy vehicle program" means advertising the high occupancy vehicle system, promoting carpool, vanpool, and transit use, providing vanpool vehicles, and enforcement of driving restrictions governing high occupancy vehicle lanes. [1990 c 43 § 13.]

81.100.030 Employer tax. (1) A county with a population of one million or more, or a county with a population of from two hundred ten thousand to less than one million that is adjoining a county with a population of one million or more, and having within its boundaries existing or planned high occupancy vehicle lanes on the state highway system, may, with voter approval impose an excise tax of up to two dollars per employee per month on all employers or any class or classes of employers, public and private, including the state located in the agency's jurisdiction, measured by the number of full-time equivalent employees. The county imposing the tax authorized in this section may provide for exemptions from the tax to such educational, cultural, health, charitable, or religious organizations as it deems appropriate.

Counties may contract with the state department of revenue or other appropriate entities for administration and collection of the tax. Such contract shall provide for deduction of an amount for administration and collection expenses.

(2) The tax shall not apply to employment of a person when the employer has paid for at least half of the cost of a transit pass issued by a transit agency for that employee, valid for the period for which the tax would otherwise be owed.

(3) A county shall adopt rules which exempt from all or a portion of the tax any employer that has entered into an agreement with the county that is designed to reduce the proportion of employees who drive in single-occupant vehicles during peak commuting periods in proportion to the degree that the agreement is designed to meet the goals for the employer's location adopted under RCW 81.100.040.

The agreement shall include a list of specific actions that the employer will undertake to be entitled to the exemption. Employers having an exemption from all or part of the tax through this subsection shall annually certify to the county that the employer is fulfilling the terms of the agreement. The exemption continues as long as the employer is in compliance with the agreement.

If the tax authorized in RCW 81.100.060 is also imposed by the county, the total proceeds from both tax sources each year shall not exceed the maximum amount which could be collected under RCW 81.100.060. [1991 c 363 § 153; 1990 c 43 § 14.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

81.100.040 Adoption of goals. The legislature encourages counties, in conjunction with cities, metropolitan planning organizations, and transit agencies in metropolitan areas to adopt goals for reducing the proportion of commu-

ters who drive in single-occupant vehicles during peak commuting periods. Any county imposing a tax under this chapter must adopt such goals. In adopting these goals, counties shall consider at least the following:

- (1) Existing and anticipated levels of peak-period traffic congestion on roadways used by employees in commuting to work;
- (2) Existing and anticipated levels of transit and vanpool service and carpool programs available to and from the worksite;
- (3) Variations in employment density and employer size;
- (4) Availability and cost of parking; and
- (5) Consistency of the goals with the regional transportation plan. [1990 c 43 § 15.]

81.100.050 Survey of tax use. The department of transportation shall include in the annual transit report under RCW 35.58.2795 and 35.58.2796 an element describing actions taken under this chapter. On at least two occasions prior to December 31, 1998, the department shall include an evaluation of the effectiveness of such actions. [1990 c 43 § 16.]

81.100.060 Excise tax. A county with a population of one million or more and a county with a population of from two hundred ten thousand to less than one million that is adjoining a county with a population of one million or more, having within their boundaries existing or planned high occupancy vehicle lanes on the state highway system may, with voter approval, impose a local surcharge of not more than fifteen percent on the state motor vehicle excise tax paid under RCW 82.44.020(1) on vehicles registered to a person residing within the county and on the state sales and use taxes paid under the rate in RCW 82.08.020(2) on retail car rentals within the county. No surcharge may be imposed on vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16.079, *46.16.080, 46.16.085, or 46.16.090.

Counties imposing a tax under this section shall contract, before the effective date of the resolution or ordinance imposing a surcharge, administration and collection to the state department of licensing, and department of revenue, as appropriate, which shall deduct an amount, as provided by contract, for administration and collection expenses incurred by the department. All administrative provisions in chapters 82.03, 82.32, and 82.44 RCW shall, insofar as they are applicable to state motor vehicle excise taxes, be applicable to surcharges imposed under this section. All administrative provisions in chapters 82.03, 82.08, 82.12, and 82.32 RCW shall, insofar as they are applicable to state sales and use taxes, be applicable to surcharges imposed under this section.

If the tax authorized in RCW 81.100.030 is also imposed by the county, the total proceeds from tax sources imposed under this section and RCW 81.100.030 each year shall not exceed the maximum amount which could be collected under this section. [1992 c 194 § 12; 1991 c 363 § 154; 1990 c 43 § 17.]

*Reviser's note: RCW 46.16.080 was repealed by 1994 c 262 § 28, effective July 1, 1994.

Legislative intent—1992 c 194: See note following RCW 82.08.020.

Effective dates—1992 c 194: See note following RCW 46.04.466.

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

81.100.070 High occupancy vehicle account. Funds collected by the department of revenue or other entity under RCW 81.100.030, or by the department of licensing under RCW 81.100.060, less the deduction for collection expenses, shall be deposited in the high occupancy vehicle account hereby created in the custody of the state treasurer. On the first day of the months of January, April, July, and October of each year, the state treasurer shall distribute the funds in the account to the counties on whose behalf the funds were received. The state treasurer shall make the distribution under this section without appropriation. [1991 sp.s. c 13 §§ 105, 119; 1990 c 43 § 18.]

Effective dates—Severability—1991 sp.s. c 13: See notes following RCW 18.08.240.

81.100.080 Use of funds. Funds collected under RCW 81.100.030 or 81.100.060 and any investment earnings accruing thereon shall be used by the county in a manner consistent with the regional transportation plan only for costs of collection, costs of preparing, adopting, and enforcing agreements under RCW 81.100.030(3), for construction of high occupancy vehicle lanes and related facilities, mitigation of environmental concerns that result from construction or use of high occupancy vehicle lanes and related facilities, payment of principal and interest on bonds issued for the purposes of this section, for high occupancy vehicle programs as defined in RCW 81.100.020(5), and for commuter rail projects in accordance with RCW 81.104.120. No funds collected under RCW 81.100.030 or 81.100.060 after June 30, 2000, may be pledged for the payment or security of the principal or interest on any bonds issued for the purposes of this section. Not more than ten percent of the funds may be used for transit agency high occupancy vehicle programs.

Priorities for construction of high occupancy vehicle lanes and related facilities shall be as follows:

(1)(a) To accelerate construction of high occupancy vehicle lanes on the interstate highway system, as well as related facilities;

(b) To finance or accelerate construction of high occupancy vehicle lanes on the noninterstate state highway system, as well as related facilities.

(2) To finance construction of high occupancy vehicle lanes on local arterials, as well as related facilities.

Moneys received by an agency under this chapter shall be used in addition to, and not as a substitute for, moneys currently used by the agency for the purposes specified in this section.

Counties may contract with cities or the state department of transportation for construction of high occupancy vehicle lanes and related facilities, and may issue general obligation bonds to fund such construction and use funds received under this chapter to pay the principal and interest on such bonds. [1990 c 43 § 19.]

81.100.090 Interlocal agreements. Counties imposing a tax under this chapter shall enter into an agreement through the interlocal cooperation act with the department of transportation. The agreement shall provide an opportunity

for the department of transportation, cities and transit agencies having within their boundaries a portion of the existing or planned high occupancy vehicle system as contained in the regional transportation plan, to coordinate programming and operational decisions affecting the high occupancy vehicle system. If two or more adjoining counties impose a tax under RCW 81.100.030 or 81.100.060, the counties shall jointly enter one interlocal agreement with the department of transportation. [1990 c 43 § 20.]

81.100.100 Urban public transportation system. The high occupancy vehicle system is an urban public transportation system as defined in RCW 47.04.082. [1990 c 43 § 21.]

81.100.900 Construction—Severability—Headings—1990 c 43. See notes following RCW 81.100.010.

High capacity transportation account: RCW 47.78.010.

81.104.010 Purpose. Increasing congestion on Washington's roadways calls for identification and implementation of high capacity transportation system alternatives. The legislature believes that local jurisdictions should coordinate and be responsible for high capacity transportation policy development, program planning, and implementation. The state should assist by working with local agencies on issues involving rights of way, partially financing projects meeting established state criteria including development and completion of the high occupancy vehicle lane system, authorizing local jurisdictions to finance high capacity transportation systems through voter-approved tax options, and providing technical assistance and information. [1992 c 101 § 18; 1991 c 318 § 1; 1990 c 43 § 22.]

81.104.015 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "High capacity transportation system" means a system of public transportation services within an urbanized region operating principally on exclusive rights of way, and the supporting services and facilities necessary to implement such a system, including interim express services and high occupancy vehicle lanes, which taken as a whole, provides a substantially higher level of passenger capacity, speed, and service frequency than traditional public transportation systems operating principally in general purpose roadways.

(2) "Regional transit system" means a high capacity transportation system under the jurisdiction of one or more transit agencies except where a regional transit authority created under chapter 81.112 RCW exists, in which case "regional transit system" means the high capacity transportation system under the jurisdiction of a regional transit authority.

(3) "Transit agency" means city-owned transit systems, county transportation authorities, metropolitan municipal corporations, and public transportation benefit areas. [1992 c 101 § 19.]

81.104.020 State policy roles. The department of transportation's current policy role in transit is expanded to include other high capacity transportation development as part of a multimodal transportation system.

(1) The department of transportation shall implement a program for high capacity transportation coordination, planning, and technical studies with appropriations from the high capacity transportation account.

(2) The department shall assist local jurisdictions and regional transportation planning organizations with high capacity transportation planning efforts. [1991 c 318 § 2; 1990 c 43 § 23.]

81.104.030 Policy development outside central Puget Sound—Voter approval. (1) In any county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders, except for any county having a population of more than one million or a county that has a population more than four hundred thousand and is adjacent to a county with a population of more than one million, transit agencies may elect to establish high capacity transportation service. Such agencies shall form a regional policy committee with proportional representation based upon population distribution within the designated service area and a representative of the department of transportation, or such agencies may use the designated metropolitan planning organization as the regional policy committee.

Transit agencies participating in joint regional policy committees shall seek voter approval within their own service boundaries of a high capacity transportation system plan and financing plan. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only

those voters residing within the service area in the state of Washington.

(2) Transit agencies in counties adjoining state or international boundaries are authorized to participate in the regional high capacity transportation programs of an adjoining state or Canadian province. [1995 2nd sp.s. c 14 § 541; 1993 c 428 § 1; 1992 c 101 § 20; 1991 c 318 § 3; 1991 c 309 § 2; (1991 c 363 § 155 repealed by 1991 c 309 § 6); 1990 c 43 § 24.]

Severability—1995 2nd sp.s. c 14: See note following RCW 43.105.017.

81.104.040 Policy development in central Puget Sound—Voter approval. Transit agencies in each county with a population of one million or more, and in each county with a population of from two hundred ten thousand to less than one million bordering a county with a population of one million or more that are authorized on January 1, 1991, to provide high capacity transportation planning and operating services must establish through interlocal agreements a joint regional policy committee with proportional representation based upon the population distribution within each agency's designated service area, as determined by the parties to the agreement.

(1) The membership of the joint regional policy committee shall consist of locally elected officials who serve on the legislative authority of the existing transit systems and a representative from the department of transportation. Nonvoting membership for elected officials from adjoining counties may be allowed at the committee's discretion.

(2) The joint regional policy committee shall be responsible for the preparation and adoption of a regional high capacity transportation implementation program, which shall include the system plan, project plans, and a financing plan. This program shall be in conformance with the regional transportation planning organization's regional transportation plan and consistent with RCW 81.104.080.

(3) The joint regional policy committee shall present an adopted high capacity transportation system plan and financing plan to the boards of directors of the transit agencies within the service area or to the regional transit authority, if such authority has been formed. The authority shall proceed as prescribed in RCW 81.112.030. [1992 c 101 § 21; 1991 c 318 § 4; 1990 c 43 § 25.]

81.104.050 Expansion of service. Regional high capacity transportation service may be expanded beyond the established district boundaries through interlocal agreements among the transit agencies and any regional transit authorities in existence. [1992 c 101 § 22; 1991 c 318 § 5; 1990 c 43 § 26.]

81.104.060 State role in planning and implementation. (1) The state's planning role in high capacity transportation development as one element of a multimodal transportation system should facilitate cooperative state and local planning efforts.

(2) The department of transportation may serve as a contractor for high capacity transportation system and project design, administer construction, and assist agencies autho-

rizied to provide service in the acquisition, preservation, and joint use of rights of way.

(3) The department and local jurisdictions shall continue to cooperate with respect to the development of high occupancy vehicle lanes and related facilities, associated roadways, transfer stations, people mover systems developed either by the public or private sector, and other related projects.

(4) The department in cooperation with local jurisdictions shall develop policies which enhance the development of high speed interregional systems by both the private and the public sector. These policies may address joint use of rights of way, identification and preservation of transportation corridors, and joint development of stations and other facilities. [1991 c 318 § 6; 1990 c 43 § 27.]

81.104.070 Responsibility for system implementation. (1) The state shall not become an operating agent for regional high capacity transportation systems.

(2) Agencies providing high capacity transportation service are responsible for planning, construction, operations, and funding including station area design and development, and parking facilities. Agencies may implement necessary contracts, joint development agreements, and interlocal government agreements. Agencies providing service shall consult with affected local jurisdictions and cooperate with comprehensive planning processes. [1990 c 43 § 28.]

81.104.080 Regional transportation planning. Where applicable, regional transportation plans and local comprehensive plans shall address the relationship between urban growth and an effective high capacity transportation system plan, and provide for cooperation between local jurisdictions and transit agencies.

(1) Regional high capacity transportation plans shall be included in the designated regional transportation planning organization's regional transportation plan review and update process to facilitate development of a coordinated multimodal transportation system and to meet federal funding requirements.

(2) Interlocal agreements between transit authorities, cities, and counties shall set forth conditions for assuring land uses compatible with development of high capacity transportation systems. These include developing sufficient land use densities through local actions in high capacity transportation corridors and near passenger stations, preserving transit rights of way, and protecting the region's environmental quality. The implementation program for high capacity transportation systems shall favor cities and counties with supportive land use plans. In developing local actions intended to carry out these policies cities and counties shall insure the opportunity for public comment and participation in the siting of such facilities, including stations or transfer facilities. Agencies providing high capacity transportation services, in cooperation with public and private interests, shall promote transit-compatible land uses and development which includes joint development.

(3) Interlocal agreements shall be consistent with state planning goals as set forth in chapter 36.70A RCW. Agreements shall also include plans for concentrated

employment centers, mixed-use development, and housing densities that support high capacity transportation systems.

(4) Agencies providing high capacity transportation service and other transit agencies shall develop a cooperative process for the planning, development, operations, and funding of feeder transportation systems. Feeder systems may include existing and future intercity passenger systems and alternative technology people mover systems which may be developed by the private or public sector.

(5) Cities and counties along corridors designated in a high capacity transportation system plan shall enter into agreements with their designated regional transportation planning organizations, for the purpose of participating in a right of way preservation review process which includes activities to promote the preservation of the high capacity transportation rights of way. The regional transportation planning organization shall serve as the coordinator of the review process.

(a) Cities and counties shall forward all development proposals for projects within and adjoining to the rights of way proposed for preservation to the designated regional transportation planning organizations, which shall distribute the proposals for review by parties to the right of way preservation review process.

(b) The regional transportation planning organizations shall also review proposals for conformance with the regional transportation plan and associated regional development strategies. The designated regional transportation planning organization shall within ninety days compile local and regional agency comments and communicate the same to the originating jurisdiction and the joint regional policy committee. [1991 c 318 § 7; 1990 c 43 § 29.]

81.104.090 Department of transportation responsibilities—Funding of planning projects. The department of transportation shall be responsible for distributing amounts appropriated from the high capacity transportation account, which shall be allocated by the department of transportation based on criteria in subsection (2) of this section. The department shall assemble and participate in a committee comprised of transit agencies eligible to receive funds from the high capacity transportation account for the purpose of reviewing fund applications.

(1) State high capacity transportation account funds may provide up to eighty percent matching assistance for high capacity transportation planning efforts.

(2) Authorizations for state funding for high capacity transportation planning projects shall be subject to the following criteria:

(a) Conformance with the designated regional transportation planning organization's regional transportation plan;

(b) Local matching funds;

(c) Demonstration of projected improvement in regional mobility;

(d) Conformance with planning requirements prescribed in RCW 81.104.100, and if five hundred thousand dollars or more in state funding is requested, conformance with the requirements of RCW 81.104.110; and

(e) Establishment, through interlocal agreements, of a joint regional policy committee as defined in RCW 81.104.030 or 81.104.040.

(3) The department of transportation shall provide general review and monitoring of the system and project planning process prescribed in RCW 81.104.100. [1995 c 269 § 2602; 1993 c 393 § 2; 1991 c 318 § 8; 1990 c 43 § 30.]

Effective date—1995 c 269: See note following RCW 13.40.025.

Part headings not law—Severability—1995 c 269: See notes following RCW 13.40.005.

Effective date—1993 c 393: See RCW 47.66.900.

81.104.100 Planning process. To assure development of an effective high capacity transportation system, local authorities shall follow the following planning process:

(1) Regional, multimodal transportation planning is the ongoing urban transportation planning process conducted in each urbanized area by its regional transportation planning organization. During this process, regional transportation goals are identified, travel patterns are analyzed, and future land use and travel are projected. The process provides a comprehensive view of the region's transportation needs but does not select specified modes to serve those needs. The process shall identify a priority corridor or corridors for further study of high capacity transportation facilities if it is deemed feasible by local officials.

(2) High capacity transportation system planning is the detailed evaluation of a range of high capacity transportation system options, including: Do nothing, low capital, and ranges of higher capital facilities. To the extent possible this evaluation shall take into account the urban mass transportation administration's requirements identified in subsection (3) of this section.

High capacity transportation system planning shall proceed as follows:

(a) Organization and management. The responsible local transit agency or agencies shall define roles for various local agencies, review background information, provide for public involvement, and develop a detailed work plan for the system planning process.

(b) Development of options. Options to be studied shall be developed to ensure an appropriate range of technologies and service policies can be evaluated. A do-nothing option and a low capital option that maximizes the current system shall be developed. Several higher capital options that consider a range of capital expenditures for several candidate technologies shall be developed.

(c) Analysis methods. The local transit agency shall develop reports describing the analysis and assumptions for the estimation of capital costs, operating and maintenance costs, methods for travel forecasting, a financial plan and an evaluation methodology.

(d) The system plan submitted to the voters pursuant to RCW 81.104.140 shall address, but is not limited to the following issues:

(i) Identification of level and types of high capacity transportation services to be provided;

(ii) A plan of high occupancy vehicle lanes to be constructed;

(iii) Identification of route alignments and station locations with sufficient specificity to permit calculation of costs, ridership, and system impacts;

(iv) Performance characteristics of technologies in the system plan;

(v) Patronage forecasts;

(vi) A financing plan describing: Phasing of investments; capital and operating costs and expected revenues; cost-effectiveness represented by a total cost per system rider and new rider estimate; estimated ridership and the cost of service for each individual high capacity line; and identification of the operating revenue to operating expense ratio.

The financing plan shall specifically differentiate the proposed use of funds between high capacity transportation facilities and services, and high occupancy vehicle facilities;

(vii) Description of the relationship between the high capacity transportation system plan and adopted land use plans;

(viii) An assessment of social, economic, and environmental impacts; and

(ix) Mobility characteristics of the system presented, including but not limited to: Qualitative description of system/service philosophy and impacts; qualitative system reliability; travel time and number of transfers between selected residential, employment, and activity centers; and system and activity center mode splits.

(3) High capacity transportation project planning is the detailed identification of alignments, station locations, equipment and systems, construction schedules, environmental effects, and costs. High capacity transportation project planning shall proceed as follows: The local transit agency shall analyze and produce information needed for the preparation of environmental impact statements. The impact statements shall address the impact that development of such a system will have on abutting or nearby property owners. The process of identification of alignments and station locations shall include notification of affected property owners by normal legal publication. At minimum, such notification shall include notice on the same day for at least three weeks in at least two newspapers of general circulation in the county where such project is proposed. Special notice of hearings by the conspicuous posting of notice, in a manner designed to attract public attention, in the vicinity of areas identified for station locations or transfer sites shall also be provided.

In order to increase the likelihood of future federal funding, the project planning processes shall follow the urban mass transportation administration's requirements as described in "Procedures and Technical Methods for Transit Project Planning", published by the United States department of transportation, urban mass transportation administration, September 1986, or the most recent edition. Nothing in this subsection shall be construed to preclude detailed evaluation of more than one corridor in the planning process.

The department of transportation shall provide system and project planning review and monitoring in cooperation with the expert review panel identified in RCW 81.104.110. In addition, the local transit agency shall maintain a continuous public involvement program and seek involvement of other government agencies. [1992 c 101 § 23; 1991 sp.s. c 15 § 68; 1991 c 318 § 9; 1990 c 43 § 31.]

Construction—Severability—1991 sp.s. c 15: See note following RCW 46.68.110.

81.104.110 Independent system plan oversight. The legislature recognizes that the planning processes described in RCW 81.104.100 provide a recognized framework for guiding high capacity transportation studies. However, the process cannot guarantee appropriate decisions unless key study assumptions are reasonable.

To assure appropriate system plan assumptions and to provide for review of system plan results, an expert review panel shall be appointed to provide independent technical review for development of any system plan which is to be funded in whole or in part by the imposition of any voter-approved local option funding sources enumerated in RCW 81.104.140.

(1) The expert review panel shall consist of five to ten members who are recognized experts in relevant fields, such as transit operations, planning, emerging transportation technologies, engineering, finance, law, the environment, geography, economics, and political science.

(2) The expert review panel shall be selected cooperatively by the chair of the legislative transportation committee, the secretary of the department of transportation, and the governor to assure a balance of disciplines. In the case of counties adjoining another state or Canadian province the expert review panel membership shall be selected cooperatively with representatives of the adjoining state or Canadian province.

(3) The chair of the expert review panel shall be designated by the appointing authorities.

(4) The expert review panel shall serve without compensation but shall be reimbursed for expenses according to chapter 43.03 RCW.

(5) The panel shall carry out the duties set forth in subsections (6) and (7) of this section until the date on which an election is held to consider the high capacity transportation system and financing plans. Funds appropriated for expenses of the expert panel shall be administered by the department of transportation.

(6) The expert panel shall review all reports required in RCW 81.104.100(2) and shall concentrate on service modes and concepts, costs, patronage and financing evaluations.

(7) The expert panel shall provide timely reviews and comments on individual reports and study conclusions to the governor, the legislative transportation committee, the department of transportation, the regional transportation planning organization, the joint regional policy committee, and the submitting lead transit agency. In the case of counties adjoining another state or Canadian province, the expert review panel shall provide its reviews, comments, and conclusions to the representatives of the adjoining state or Canadian province.

(8) The legislative transportation committee shall contract for consulting services for expert review panels. The amount of consultant support shall be negotiated with each expert review panel by the legislative transportation committee and shall be paid from appropriations for that purpose from the high capacity transportation account. [1991 c 318 § 10; 1991 c 309 § 3; 1990 c 43 § 32.]

Reviser's note: This section was amended by 1991 c 309 § 3 and by 1991 c 318 § 10, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

81.104.120 Commuter rail service—Voter approval.

(1) Transit agencies and regional transit authorities may operate or contract for commuter rail service where it is deemed to be a reasonable alternative transit mode. A reasonable alternative is one whose passenger costs per mile, including costs of trackage, equipment, maintenance, operations, and administration are equal to or less than comparable bus, entrained bus, trolley, or personal rapid transit systems.

(2) A county may use funds collected under RCW 81.100.030 or 81.100.060 to contract with one or more transit agencies or regional transit authorities for planning, operation, and maintenance of commuter rail projects which:

(a) Are consistent with the regional transportation plan; (b) have met the project planning and oversight requirements of RCW 81.104.100 and 81.104.110; and (c) have been approved by the voters within the service area of each transit agency or regional transit authority participating in the project. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington. The phrase "approved by the voters" includes specific funding authorization for the commuter rail project.

(3) The utilities and transportation commission shall maintain safety responsibility for passenger rail service operating on freight rail lines. Agencies providing passenger rail service on lines other than freight rail lines shall maintain safety responsibility for that service. [1993 c 428 § 2; 1992 c 101 § 24; 1990 c 43 § 33.]

81.104.130 Financial responsibility. Agencies providing high capacity transportation service shall determine optimal debt-to-equity ratios, establish capital and operations allocations, and establish fare-box recovery return policy. [1990 c 43 § 34.]

81.104.140 Dedicated funding sources. (1) Agencies authorized to provide high capacity transportation service, including transit agencies and regional transit authorities, are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, and 81.104.170, are authorized only for agencies located in (a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection. In any county with a population of one million or more or in any county having a population of four hundred thousand or more bordering a county with a population of one million or more, these funding sources may be imposed only by a regional transit authority.

(2) Agencies planning to construct and operate a high capacity transportation system should also seek other funds, including federal, state, local, and private sector assistance.

(3) Funding sources should satisfy each of the following criteria to the greatest extent possible:

(a) Acceptability;

(b) Ease of administration;

(c) Equity;

(d) Implementation feasibility;

(e) Revenue reliability; and

(f) Revenue yield.

(4) Agencies participating in regional high capacity transportation system development are authorized to levy and collect the following voter-approved local option funding sources:

(a) Employer tax as provided in RCW 81.104.150;

(b) Special motor vehicle excise tax as provided in RCW 81.104.160; and

(c) Sales and use tax as provided in RCW 81.104.170.

Revenues from these taxes may be used only to support those purposes prescribed in subsection (10) of this section. Before the date of an election authorizing an agency to impose any of the taxes enumerated in this section and authorized in RCW 81.104.150, 81.104.160, and 81.104.170, the agency must comply with the process prescribed in RCW 81.104.100 (1) and (2) and 81.104.110. No construction on exclusive right of way may occur before the requirements of RCW 81.104.100(3) are met.

(5) Authorization in subsection (4) of this section shall not adversely affect the funding authority of transit agencies not provided for in this chapter. Local option funds may be used to support implementation of interlocal agreements with respect to the establishment of regional high capacity transportation service. Except when a regional transit authority exists, local jurisdictions shall retain control over moneys generated within their boundaries, although funds may be commingled with those generated in other areas for planning, construction, and operation of high capacity transportation systems as set forth in the agreements.

(6) Agencies planning to construct and operate high capacity transportation systems may contract with the state for collection and transference of voter-approved local option revenue.

(7) Dedicated high capacity transportation funding sources authorized in RCW 81.104.150, 81.104.160, and 81.104.170 shall be subject to voter approval by a simple majority. A single ballot proposition may seek approval for one or more of the authorized taxing sources. The ballot title shall reference the document identified in subsection (8) of this section.

(8) Agencies shall provide to the registered voters in the area a document describing the systems plan and the financing plan set forth in RCW 81.104.100. It shall also describe the relationship of the system to regional issues such as development density at station locations and activity centers, and the interrelationship of the system to adopted land use and transportation demand management goals within the region. This document shall be provided to the voters at least twenty days prior to the date of the election.

(9) For any election in which voter approval is sought for a high capacity transportation system plan and financing plan pursuant to RCW 81.104.040, a local voter's pamphlet shall be produced as provided in chapter 29.81A RCW.

(10) Agencies providing high capacity transportation service shall retain responsibility for revenue encumbrance, disbursement, and bonding. Funds may be used for any purpose relating to planning, construction, and operation of high capacity transportation systems and commuter rail

systems, personal rapid transit, busways, bus sets, and entrained and linked buses. [1992 c 101 § 25. Prior: 1991 c 318 § 11; 1991 c 309 § 4; (1991 c 363 § 157 repealed by 1991 c 309 § 6); 1990 c 43 § 35.]

81.104.150 Employer tax. Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, public transportation benefit areas, and regional transit authorities may submit an authorizing proposition to the voters and if approved may impose an excise tax of up to two dollars per month per employee on all employers located within the agency's jurisdiction, measured by the number of full-time equivalent employees, solely for the purpose of providing high capacity transportation service. The rate of tax shall be approved by the voters. This tax may not be imposed by: (1) A transit agency when the county within which it is located is imposing an excise tax pursuant to RCW 81.100.030; or (2) a regional transit authority when any county within the authority's boundaries is imposing an excise tax pursuant to RCW 81.100.030. The agency imposing the tax authorized in this section may provide for exemptions from the tax to such educational, cultural, health, charitable, or religious organizations as it deems appropriate. [1992 c 101 § 26; 1990 c 43 § 41.]

81.104.160 Motor vehicle excise tax—Sales and use tax on car rentals. (1) Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, public transportation benefit areas, and regional transit authorities may submit an authorizing proposition to the voters, and if approved, may levy and collect an excise tax, at a rate approved by the voters, but not exceeding eighty one-hundredths of one percent on the value, under chapter 82.44 RCW, of every motor vehicle owned by a resident of the taxing district, solely for the purpose of providing high capacity transportation service. In any county imposing a motor vehicle excise tax surcharge pursuant to RCW 81.100.060, the maximum tax rate under this section shall be reduced to a rate equal to eighty one-hundredths of one percent on the value less the equivalent motor vehicle excise tax rate of the surcharge imposed pursuant to RCW 81.100.060. This rate shall not apply to vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16.079, *46.16.080, 46.16.085, or 46.16.090.

(2) An agency imposing a tax under subsection (1) of this section may also impose a sales and use tax solely for the purpose of providing high capacity transportation service, in addition to the tax authorized by RCW 82.14.030, upon retail car rentals within the agency's jurisdiction that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of tax shall bear the same ratio to the rate imposed under RCW 82.08.020(2) as the excise tax rate imposed under subsection (1) of this section bears to the excise tax rate imposed under RCW 82.44.020 (1) and (2). The base of the tax shall be the selling price in the case of a sales tax or the rental value of the vehicle used in the case of a use tax. The revenue collected under this subsection shall be used in the same manner as excise taxes under subsection (1) of this section. [1992 c 194 § 13; 1992 c 101 § 27; 1991 c 318 § 12; 1990 c 43 § 42.]

Reviser's note: (1) This section was amended by 1992 c 101 § 27 and by 1992 c 194 § 13, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

* (2) RCW 46.16.080 was repealed by 1994 c 262 § 28, effective July 1, 1994.

Legislative intent—1992 c 194: See note following RCW 82.08.020.

Effective dates—1992 c 194: See note following RCW 46.04.466.

81.104.170 Sales and use tax. Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, public transportation benefit areas, and regional transit authorities may submit an authorizing proposition to the voters and if approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter, solely for the purpose of providing high capacity transportation service.

The tax authorized pursuant to this section shall be in addition to the tax authorized by RCW 82.14.030 and shall be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing district. The maximum rate of such tax shall be approved by the voters and shall not exceed one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax). The maximum rate of such tax that may be imposed shall not exceed nine-tenths of one percent in any county that imposes a tax under RCW 82.14.340, or within a regional transit authority if any county within the authority imposes a tax under RCW 82.14.340. [1992 c 101 § 28; 1990 2nd ex.s. c 1 § 902; 1990 c 43 § 43.]

Severability—1990 2nd ex.s. c 1: See note following RCW 82.14.300.

81.104.180 Pledge of revenues for bond retirement. Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, public transportation benefit areas, and regional transit authorities are authorized to pledge revenues from the employer tax authorized by RCW 81.104.150, the special motor vehicle excise tax authorized by RCW 81.104.160, and the sales and use tax authorized by RCW 81.104.170, to retire bonds issued solely for the purpose of providing high capacity transportation service. [1992 c 101 § 29; 1990 c 43 § 44.]

81.104.190 Contract for collection of taxes. Cities that operate transit systems, county transportation authorities, metropolitan municipal corporations, public transportation benefit areas, and regional transit systems may contract with the state department of revenue or other appropriate entities for administration and collection of any tax authorized by RCW 81.104.150, 81.104.160, and 81.104.170. [1992 c 101 § 30; 1990 c 43 § 45.]

81.108.010 Purpose. State and national policy directs that the management of low-level radioactive waste be accomplished by a system of interstate compacts and the development of regional disposal sites. The Northwest regional compact, comprised of the states of Alaska, Hawaii, Idaho, Montana, Oregon, Utah, and Washington, has as its disposal facility the low-level radioactive waste disposal site located near Richland, Washington. This site is expected to be the sole site for disposal of low-level radioactive waste for compact members effective January 1, 1993. Future closure of this site will require significant financial resources.

Low-level radioactive waste is generated by essential activities and services that benefit the citizens of the state. Washington state's low-level radioactive waste disposal site has been used by the nation and the Northwest compact as a disposal site since 1965. The public has come to rely on access to this site for disposal of low-level radioactive waste, which requires separate handling from other solid and hazardous wastes. The price of disposing of low-level radioactive waste at the Washington state low-level radioactive waste disposal site is anticipated to increase when the federal low-level radioactive waste policy amendments act of 1985 is implemented and waste generated outside the Northwest compact states is excluded.

When these events occur, to protect Washington and other Northwest compact states' businesses and services, such as electrical production, medical and university research, and private industries, upon which the public relies, there will be a need to regulate the rates charged by the operator of Washington's low-level radioactive waste disposal site. This chapter is adopted pursuant to section 8, chapter 21, Laws of 1990. [1991 c 272 § 1.]

81.108.020 Definitions. Definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the Washington utilities and transportation commission.

(2) "Effective rate" means the highest permissible rate, calculated as the lowest contract rate plus an administrative fee, if applicable, determined pursuant to RCW 81.108.040.

(3) "Extraordinary volume" means volumes of low-level radioactive waste delivered to a site caused by nonrecurring events, outside normal operations of a generator, that are in

excess of twenty thousand cubic feet or twenty percent of the preceding year's total volume at such site, whichever is less.

(4) "Extraordinary volume adjustment" means a mechanism that allocates the potential rate reduction benefits of an extraordinary volume between all generators and the generator responsible for such extraordinary volume as described in RCW 81.108.070.

(5) "Generator" means a person, partnership, association, corporation, or any other entity whatsoever that, as a part of its activities, produces low-level radioactive waste.

(6) "Inflation adjustment" means a mechanism that adjusts the maximum disposal rate by a percentage equal to the change in price levels in the preceding period, as measured by a common, verifiable price index as determined in RCW 81.108.040.

(7) "Initial rate proceeding" means the proceeding described in RCW 81.108.040.

(8) "Maximum disposal rate" means the rate described in RCW 81.108.050.

(9) "Site" means a location, structure, or property used or to be used for the storage, treatment, or disposal of low-level radioactive waste for compensation within the state of Washington.

(10) "Site operator" means a low-level radioactive waste site operating company as defined in RCW 81.04.010.

(11) "Volume adjustment" means a mechanism that adjusts the maximum disposal rate in response to material changes in volumes of waste deposited at the site during the preceding period so as to provide a level of total revenues sufficient to recover the costs to operate and maintain the site. [1991 c 272 § 2.]

81.108.030 Commission—Powers. (1) The commission shall have jurisdiction over the sites and site operators as set forth in this chapter.

(2)(a) The commission shall establish rates to be charged by site operators. In establishing the rates, the commission shall assure that they are fair, just, reasonable, and sufficient considering the value of the site operator's leasehold and license interests, the unique nature of its business operations, the site operator's liability associated with the site, its investment incurred over the term of its operations, and the rate of return equivalent to that earned by comparable enterprises. The rates shall only take effect following a finding that the site operator is a monopoly pursuant to RCW 81.108.100.

(b) In exercising the power in this subsection the commission may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at the objective of prescribing and authorizing fair, just, reasonable, and sufficient rates. The relation of site operator expenses to site operator revenues may be deemed the proper test of a reasonable return.

(3) In all respects in which the commission has power and authority under this chapter, applications and complaints may be made and filed with it, process issued, hearings held, opinions, orders, and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for review to the superior court filed therewith, appeals filed with the appellate courts of this state, considered and disposed of by

said courts in the manner, under the conditions, and subject to the limitations, and with the effect specified in this title for public service companies generally.

(4) At any time after January 1, 1992, the commission may: (a) Prescribe a system of accounts for site operators using as a starting point the existing system used by site operators; (b) audit the books of site operators; (c) obtain books and records from site operators; (d) assess penalties; and (e) require semiannual reports regarding the results of operations for the site.

(5) The commission may adopt rules necessary to carry out its functions under this chapter. [1991 c 272 § 4.]

81.108.040 Rates—Initial determination—Fees. (1)

On or before March 1, 1992, site operators shall file a request with the commission to establish an initial maximum disposal rate. The filing shall include, at a minimum, testimony, exhibits, workpapers, summaries, annual reports, cost studies, proposed tariffs, and other documents as required by the commission in rate cases generally under its jurisdiction.

(2) After receipt of a request, the commission shall set the request for a hearing and require the site operator to provide for notice to all known customers that ship or deliver waste to the site. The proceedings before the commission shall be conducted in accordance with chapter 34.05 RCW and rules of procedure established by the commission.

(3) No later than January 1, 1993, the commission shall establish the initial maximum disposal rates that may be charged by site operators.

(4) In the initial rate proceeding the commission also shall determine the factors necessary to calculate the inflation, volume, and extraordinary volume adjustments.

(5) The commission also shall determine the administrative fee, which shall be a percentage or an amount that represents increased administrative costs associated with acceptance of small volumes of waste by a site operator. The administrative fee may be revised by the commission from time to time upon its own motion or upon the petition of an interested person.

(6) The rates specified in this section shall only take effect following a finding that the site operator is a monopoly pursuant to RCW 81.108.100. [1991 c 272 § 5.]

81.108.050 Maximum rates—Revisions. (1) The

maximum disposal rates that a site operator may charge generators shall be determined in accordance with this section. The rates shall include all charges for disposal services at the site.

(2) Initially, the maximum disposal rates shall be the initial rates established pursuant to RCW 81.108.040.

(3) Subsequently, the maximum disposal rates shall be adjusted semiannually in January and July of each year to incorporate inflation and volume adjustments. Such adjustments shall take effect thirty days after filing with the commission unless the commission authorizes that the adjustments take effect earlier, or the commission contests the calculation of the adjustments, in which case the commission may suspend the filing. A site operator shall provide notice to its customers concurrent with the filing.

(4)(a) Subsequently, a site operator may also file for revisions to the maximum disposal rates due to:

(i) Changes in any governmentally imposed fee, surcharge, or tax assessed on a volume or a gross revenue basis against or collected by the site operator, including site closure fees, perpetual care and maintenance fees, business and occupation taxes, site surveillance fees, leasehold excise taxes, commission regulatory fees, municipal taxes, and a tax or payment in lieu of taxes authorized by the state to compensate the county in which a site is located for that county's legitimate costs arising out of the presence of that site within that county; or

(ii) Factors outside the control of the site operator such as a material change in regulatory requirements regarding the physical operation of the site.

(b) Revisions to the maximum disposal rate shall take effect thirty days after filing with the commission unless the commission suspends the filing or authorizes the proposed adjustments to take effect earlier.

(5) Upon establishment of a contract rate pursuant to RCW 81.108.060 for a disposal fee, the site operator may not collect a disposal fee that is greater than the effective rate. The effective rate shall be in effect so long as such contract rate remains in effect. Adjustments to the maximum disposal rates may be made during the time an effective rate is in place. Contracts for disposal of extraordinary volumes pursuant to RCW 81.108.070 shall not be considered in determining the effective rate.

(6) The site operator may petition the commission for new maximum disposal rates at any time. Upon receipt of such a petition, the commission shall set the matter for hearing and shall issue an order within seven months of the filing of the petition. The petition shall be accompanied by the documents required to accompany the filing for initial rates. The hearing on the petition shall be conducted in accordance with the commission's rules of practice and procedure.

(7) This section shall only take effect following a finding that the site operator is a monopoly pursuant to RCW 81.108.100. [1991 c 272 § 6.]

81.108.060 Contracted disposal rates. (1) At any time, a site operator may contract with any person to provide a contract disposal rate lower than the maximum disposal rate.

(2) A contract or contract amendment shall be submitted to the commission for approval at least thirty days before its effective date. The commission may approve the contract or suspend the contract and set it for hearing. If the commission takes no action within thirty days of filing, the contract or amendment shall go into effect according to its terms. Each contract filing shall be accompanied with documentation to show that the contract does not result in discrimination between generators receiving like and contemporaneous service under substantially similar circumstances and provides for the recovery of all costs associated with the provision of the service.

(3) This section shall only take effect following a finding that the site operator is a monopoly pursuant to RCW 81.108.100. [1991 c 272 § 7.]

81.108.070 Extraordinary volume adjustment. (1) In establishing the extraordinary volume adjustment, unless the site operator and generator of the extraordinary volume agree to a contract disposal rate, one-half of the extraordinary volume delivery shall be priced at the maximum disposal rate and one-half shall be priced at the site operator's incremental cost to receive the delivery. Such incremental cost shall be determined in the initial rate proceeding.

(2) For purposes of the subsequent calculation of the volume adjustment, one-half of the total extraordinary volume shall be included in the calculation.

(3) This section shall only take effect following a finding that the site operator is a monopoly pursuant to RCW 81.108.100. [1991 c 272 § 8.]

81.108.080 Complaint—Hearing. (1) At any time, the commission or an interested person may file a complaint against a site operator alleging that the rates established pursuant to RCW 81.108.040 or 81.108.050 are not in conformity with the standards set forth in RCW 81.108.030 or that the site operator is otherwise not acting in conformity with the requirements of this chapter. Upon filing of the complaint, the commission shall cause a copy of the complaint to be served upon the site operator. The complaining party shall have the burden of proving that the maximum disposal rates determined pursuant to RCW 81.108.050 are not just, fair, reasonable, or sufficient. The hearing shall conform to the rules of practice and procedure of the commission for other complaint cases.

(2) The commission shall encourage alternate forms of dispute resolution to resolve disputes between a site operator and any other person regarding matters covered by this chapter. [1991 c 272 § 9.]

81.108.090 Revenue statement—Fees—Delinquent fee payments. (1) A site operator shall, on or before May 1, 1992, and each year thereafter, file with the commission a statement showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one percent of the amount of the gross operating revenue, exclusive of site surveillance fees, perpetual care and maintenance fees, site closure fees, and state or federally imposed out-of-region surcharges.

(2) Fees collected under this chapter shall reasonably approximate the cost of supervising and regulating site operators. The commission may order a decrease in fees by March 1st of any year in which it determines that the moneys then in the radioactive waste disposal companies account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating site operators.

(3) Fees collected under this section or under any other provision of this chapter shall be paid to the commission and shall be transmitted to the state treasurer within thirty days to be deposited to the credit of the public service revolving fund.

(4) Any payment of a fee imposed by this chapter made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the

rate of one percent per month. [1994 c 83 § 5; 1991 c 272 § 10.]

81.108.100 Exemptions—Monopolies—Hearings—Rates. (1) A low-level waste disposal site operator is exempt as specified in RCW 81.108.030(2)(a), 81.108.040(6), 81.108.050(7), 81.108.060(3), and 81.108.070(3) unless a monopoly situation exists with respect to the site operated by such site operator. A monopoly situation exists if either of the following is present:

(a) No disposal facility is available to Northwest compact generators of low-level radioactive waste other than the site or sites operated by such site operator or its affiliates; or

(b) Disposal rates at other sites are not reasonable alternatives for Northwest compact generators, considering: Disposal rates at other facilities; current disposal rates charged by the site operator; historic relationships between the site operator's rates and rates at other facilities; and changes in the operator's rates considering changes in waste volumes, taxes, and fees. A monopoly situation does not exist if either of the following facilities operates or is projected to operate after December 31, 1992:

(i) Any existing low-level radioactive waste disposal site outside the state of Washington, other than facilities operated by affiliates of a site operator, provided that such site or sites do not charge disposal rates that discriminate against Northwest compact generators, except to the extent, through December 31, 1994, such discrimination is authorized by amendment of current federal law.

(ii) An existing facility within the Northwest compact not receiving low-level radioactive waste offers to receive such waste under substantially similar terms and conditions.

(2) The exemption shall be in effect until such time as the commission finds, after notice and hearing, upon motion by the commission or upon petition by any interested party, that a monopoly situation exists or will exist as of January 1, 1993. The finding shall be based upon application of the criteria set forth in this section. The commission may assess a site operator for all of the commission's costs of supervision and regulation prior to and relative to determining whether the exemption applies to the site operator. If the commission determines that a site operator is not subject to the exemption, it shall collect its costs of supervision and regulation under RCW 81.108.090.

(3) When an exemption is in effect, any increase in the rates charged by the operator effective January 1, 1993, for services other than the base rate for disposal of solid material in packages of twelve cubic feet or less shall be no more than the percentage increase in the base rate in effect on January 1, 1993. [1991 c 272 § 11.]

81.108.110 Competitive companies—Exemptions. (1) At any time after this chapter has been implemented with respect to a site operator, such site operator may petition the commission to be classified as competitive. The commission may initiate classification proceedings on its own motion. The commission shall enter its final order with respect to classification within seven months from the date of filing of a company's petition or the commission's motion.

(2) The commission shall classify a site operator as a competitive company if the commission finds, after notice and hearing, that the disposal services offered are subject to competition because the company's customers have reasonably available alternatives. In determining whether a company is competitive, the commission's consideration shall include, but not be limited to:

(a) Whether the system of interstate compacts and regional disposal sites established by federal law has been implemented so that the Northwest compact site located near Richland, Washington is the exclusive site option for disposal by customers within the Northwest compact states;

(b) Whether waste generated outside the Northwest compact states is excluded; and

(c) The ability of alternative disposal sites to make functionally equivalent services readily available at competitive rates, terms, and conditions.

(3) The commission may reclassify a competitive site operator if reclassification would protect the public interest as set forth in this section.

(4) Competitive low-level radioactive waste disposal companies shall be exempt from commission regulation and fees during the time they are so classified. [1991 c 272 § 12.]

81.108.900 Construction. Nothing in this chapter shall be construed to affect the jurisdiction of another state agency. [1991 c 272 § 13.]

81.108.901 Effective dates—1991 c 272. (1) Sections 1 through 15 and 22 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions. Sections 1 through 14 and 22 of this act shall take effect July 1, 1991, and section 15 of this act shall take effect immediately [May 20, 1991].

(2) Sections 16 through 21 and 23 of this act shall take effect January 1, 1993. [1991 c 272 § 24.]

81.112.010 Findings—Intent. The legislature recognizes that existing transportation facilities in the central Puget Sound area are inadequate to address mobility needs of the area. The geography of the region, travel demand growth, and public resistance to new roadways combine to further necessitate the rapid development of alternative modes of travel.

The legislature finds that local governments have been effective in cooperatively planning a multicounty, high capacity transportation system. However, a continued multijurisdictional approach to funding, construction, and operation of a multicounty high capacity transportation system may impair the successful implementation of such a system.

The legislature finds that a single agency will be more effective than several local jurisdictions working collectively at planning, developing, operating, and funding a high capacity transportation system. The single agency's services must be carefully integrated and coordinated with public transportation services currently provided. As the single agency's services are established, any public transportation services currently provided that are duplicative should be eliminated. Further, the single agency must coordinate its activities with other agencies providing local and state roadway services, implementing comprehensive planning, and implementing transportation demand management programs and assist in developing infrastructure to support high capacity systems including but not limited to feeder systems, park and ride facilities, intermodal centers, and related roadway and operational facilities. Coordination can be best achieved through common governance, such as integrated governing boards.

It is therefore the policy of the state of Washington to empower counties in the state's most populous region to create a local agency for planning and implementing a high capacity transportation system within that region. The authorization for such an agency, except as specifically provided in this chapter, is not intended to limit the powers of existing transit agencies. [1992 c 101 § 1.]

81.112.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Authority" means a regional transit authority authorized under this chapter.

(2) "Board" means the board of a regional transit authority.

(3) "Service area" or "area" means the area included within the boundaries of a regional transit authority.

(4) "System" means a regional transit system authorized under this chapter and under the jurisdiction of a regional transit authority.

(5) "Facilities" means any lands, interest in land, air rights over lands, and improvements thereto including vessel terminals, and any equipment, vehicles, vessels, and other components necessary to support the system. [1992 c 101 § 2.]

81.112.030 Regional transit authority. Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.

The authority shall be formed in the following manner:

(1) The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

(2) The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

(3) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days following each county's decision to participate in the authority.

(4) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

(5) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies' plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

(6) If the authority determines that major modifications to the plan are necessary before the initial ballot proposition is submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to act by motion or ordinance to confirm or rescind their continued participation in the authority.

(7) If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority's board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(8) The authority shall place on the ballot within two years of the authority's formation, a single ballot proposition to authorize the imposition of taxes to support the implementation of an appropriate phase of the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan approved by the authority's board before the submittal of a proposition to the voters shall contain an equity element which:

(a) Identifies revenues anticipated to be generated by corridor and by county within the authority's boundaries;

(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and

(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.

A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the projects identified in the proposition. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993; nor may the authority issue bonds or form any local improvement district prior to July 1, 1993.

(9) If the vote on a proposition fails, the board may redefine the proposition, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised proposition or a different proposition to the voters. No single proposition may be submitted to the voters more than twice. The authority may place additional propositions on the ballot to impose taxes to support additional phases of plan implementation.

If the authority is unable to achieve a positive vote on a proposition within two years from the date of the first election on a proposition, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority. [1994 c 44 § 1; 1993 sp.s. c 23 § 62; 1992 c 101 § 3.]

Effective dates—1993 sp.s. c 23: See note following RCW 43.89.010.

81.112.040 Board appointments—Voting—Expenses. (1) The regional transit authority shall be governed by a board consisting of representatives appointed by the county executive and confirmed by the council or other legislative authority of each member county. Member-

ship shall be based on population from that portion of each county which lies within the service area. Board members shall be appointed initially on the basis of one for each one hundred forty-five thousand population within the county. Such appointments shall be made following consultation with city and town jurisdictions within the service area. In addition, the secretary of transportation or the secretary's designee shall serve as a member of the board and may have voting status with approval of a majority of the other members of the board. Only board members, not including alternates or designees, may cast votes.

Each member of the board, except the secretary of transportation or the secretary's designee, shall be:

(a) An elected official who serves on the legislative authority of a city or as mayor of a city within the boundaries of the authority;

(b) On the legislative authority of the county, if fifty percent of the population of the legislative official's district is within the authority boundaries; or

(c) A county executive from a member county within the authority boundaries.

When making appointments, each county executive shall ensure that representation on the board includes an elected city official representing the largest city in each county and assures proportional representation from other cities, and representation from unincorporated areas of each county within the service area. At least one-half of all appointees from each county shall serve on the governing authority of a public transportation system.

Members appointed from each county shall serve staggered four-year terms. Vacancies shall be filled by appointment for the remainder of the unexpired term of the position being vacated.

The governing board shall be reconstituted, with regard to the number of representatives from each county, on a population basis, using the official office of financial management population estimates, five years after its initial formation and, at minimum, in the year following each official federal census. The board membership may be reduced, maintained, or expanded to reflect population changes but under no circumstances may the board membership exceed twenty-five.

(2) Major decisions of the authority shall require a favorable vote of two-thirds of the entire membership of the voting members. "Major decisions" include at least the following: System plan adoption and amendment; system phasing decisions; annual budget adoption; authorization of annexations; modification of board composition; and executive director employment.

(3) Each member of the board is eligible to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060 and to receive compensation as provided in RCW 43.03.250. [1994 c 109 § 1; 1992 c 101 § 4.]

81.112.050 Area included—Elections. (1) At the time of formation, the area to be included within the boundary of the authority shall be that area set forth in the system plan adopted by the joint regional policy committee. Prior to submitting the system and financing plan to the voters, the authority may make adjustments to the boundaries

as deemed appropriate but must assure that, to the extent possible, the boundaries: (a) Include the largest-population urban growth area designated by each county under chapter 36.70A RCW; and (b) follow election precinct boundaries. If a portion of any city is determined to be within the service area, the entire city must be included within the boundaries of the authority.

(2) After voters within the authority boundaries have approved the system and financing plan, elections to add areas contiguous to the authority boundaries may be called by resolution of the regional transit authority, after consultation with affected transit agencies and with the concurrence of the legislative authority of the city or town if the area is incorporated, or with the concurrence of the county legislative authority if the area is unincorporated. Only those areas that would benefit from the services provided by the authority may be included and services or projects proposed for the area must be consistent with the regional transportation plan. The election may include a single ballot proposition providing for annexation to the authority boundaries and imposition of the taxes at rates already imposed within the authority boundaries. [1992 c 101 § 5.]

81.112.060 Powers. An authority shall have the following powers:

(1) To establish offices, departments, boards, and commissions that are necessary to carry out the purposes of the authority, and to prescribe the functions, powers, and duties thereof.

(2) To appoint or provide for the appointment of, and to remove or to provide for the removal of, all officers and employees of the authority.

(3) To fix the salaries, wages, and other compensation of all officers and employees of the authority.

(4) To employ such engineering, legal, financial, or other specialized personnel as may be necessary to accomplish the purposes of the authority. [1992 c 101 § 6.]

81.112.070 General powers. In addition to the powers specifically granted by this chapter an authority shall have all powers necessary to implement a high capacity transportation system and to develop revenues for system support. An authority may contract with the United States or any agency thereof, any state or agency thereof, any public transportation benefit area, any county, county transportation authority, city, metropolitan municipal corporation, special district, or governmental agency, within or without the state, and any private person, firm, or corporation for: (1) The purpose of receiving gifts or grants or securing loans or advances for preliminary planning and feasibility studies; (2) the design, construction, or operation of high capacity transportation system facilities; or (3) the provision or receipt of services, facilities, or property rights to provide revenues for the system. An authority shall have the power to contract pursuant to RCW 39.33.050. In addition, an authority may contract with any governmental agency or with any private person, firm, or corporation for the use by either contracting party of all or any part of the facilities, structures, lands, interests in lands, air rights over lands and rights of way of all kinds which are owned, leased, or held by the other party and for the purpose of

planning, constructing, or operating any facility or performing any service that the authority may be authorized to operate or perform, on such terms as may be agreed upon by the contracting parties. Before any contract for the lease or operation of any authority facilities is let to any private person, firm, or corporation, a general schedule of rental rates for equipment with or without operators applicable to all private certificated carriers shall be publicly posted, and for other facilities competitive bids shall first be called upon such notice, bidder qualifications, and bid conditions as the board shall determine. This shall allow use of negotiated procurements. [1992 c 101 § 7.]

81.112.080 Additional powers—Acquisition of facilities—Disposal of property—Rates, tolls, fares, charges. An authority shall have the following powers in addition to the general powers granted by this chapter:

(1) To carry out the planning processes set forth in RCW 81.104.100;

(2) To acquire by purchase, condemnation, gift, or grant and to lease, construct, add to, improve, replace, repair, maintain, operate, and regulate the use of high capacity transportation facilities and properties within authority boundaries including surface, underground, or overhead railways, tramways, busways, buses, bus sets, entrained and linked buses, ferries, or other means of local transportation except taxis, and including escalators, moving sidewalks, personal rapid transit systems or other people-moving systems, passenger terminal and parking facilities and properties, and such other facilities and properties as may be necessary for passenger, vehicular, and vessel access to and from such people-moving systems, terminal and parking facilities and properties, together with all lands, rights of way, property, equipment, and accessories necessary for such high capacity transportation systems. When developing specifications for high capacity transportation system operating equipment, an authority shall take into account efforts to establish or sustain a domestic manufacturing capacity for such equipment. The right of eminent domain shall be exercised by an authority in the same manner and by the same procedure as or may be provided by law for cities of the first class, except insofar as such laws may be inconsistent with the provisions of this chapter. Public transportation facilities and properties which are owned by any city, county, county transportation authority, public transportation benefit area, or metropolitan municipal corporation may be acquired or used by an authority only with the consent of the agency owning such facilities. Such agencies are hereby authorized to convey or lease such facilities to an authority or to contract for their joint use on such terms as may be fixed by agreement between the agency and the authority.

The facilities and properties of an authority whose vehicles will operate primarily within the rights of way of public streets, roads, or highways, may be acquired, developed, and operated without the corridor and design hearings that are required by RCW 35.58.273 for mass transit facilities operating on a separate right of way;

(3) To dispose of any real or personal property acquired in connection with any authority function and that is no longer required for the purposes of the authority, in the same manner as provided for cities of the first class. When an

authority determines that a facility or any part thereof that has been acquired from any public agency without compensation is no longer required for authority purposes, but is required by the agency from which it was acquired, the authority shall by resolution transfer it to such agency;

(4) To fix rates, tolls, fares, and charges for the use of such facilities and to establish various routes and classes of service. Fares or charges may be adjusted or eliminated for any distinguishable class of users. [1992 c 101 § 8.]

81.112.090 Agreements with operators of high capacity transportation services. Except in accordance with an agreement made as provided in this section, upon the date an authority begins high capacity transportation service, no person or private corporation may operate a high capacity transportation service within the authority boundary with the exception of services owned or operated by any corporation or organization solely for the purposes of the corporation or organization and for the use of which no fee or fare is charged.

The authority and any person or corporation legally operating a high capacity transportation service wholly within or partly within and partly without the authority boundary on the date an authority begins high capacity transportation service may enter into an agreement under which such person or corporation may continue to operate such service or any part thereof for such time and upon such terms and conditions as provided in such agreement. Such agreement shall provide for a periodic review of the terms and conditions contained therein. Where any such high capacity transportation service will be required to cease to operate within the authority boundary, the authority may agree with the owner of such service to purchase the assets used in providing such service, or if no agreement can be reached, an authority shall condemn such assets in the manner and by the same procedure as is or may be provided by law for the condemnation of other properties for cities of the first class, except insofar as such laws may be inconsistent with this chapter.

Wherever a privately owned public carrier operates wholly or partly within an authority boundary, the Washington utilities and transportation commission shall continue to exercise jurisdiction over such operation as provided by law. [1992 c 101 § 9.]

81.112.100 Transfer of local government powers to authority. An authority shall have and exercise all rights with respect to the construction, acquisition, maintenance, operation, extension, alteration, repair, control and management of high capacity transportation system facilities that are identified in the system plan developed pursuant to RCW 81.104.100 that any city, county, county transportation authority, metropolitan municipal corporation, or public transportation benefit area within the authority boundary has been previously empowered to exercise and such powers shall not thereafter be exercised by such agencies without the consent of the authority. Nothing in this chapter shall restrict development, construction, or operation of a personal rapid transit system by a city or county.

An authority may adopt, in whole or in part, and may complete, modify, or terminate any planning, environmental

review, or procurement processes related to the high capacity transportation system that had been commenced by a joint regional policy committee or a city, county, county transportation authority, metropolitan municipality, or public transportation benefit area prior to the formation of the authority. [1992 c 101 § 10.]

81.112.110 Acquisition of existing system—Components. If an authority acquires any existing components of a high capacity transportation system, it shall assume and observe all existing labor contracts relating to the transportation system and, to the extent necessary for operation of facilities, all of the employees of such acquired transportation system whose duties are necessary to operate efficiently the facilities acquired shall be appointed to comparable positions to those which they held at the time of such transfer, and no employee or retired or pensioned employee of such transportation systems shall be placed in any worse position with respect to pension seniority, wages, sick leave, vacation or other benefits that he or she enjoyed as an employee of the transportation system prior to such acquisition. At such times as may be required by such contracts, the authority shall engage in collective bargaining with the duly appointed representatives of any employee labor organization having existing contracts with the acquired transportation system and may enter into labor contracts with such employee labor organization. Facilities and equipment which are acquired after July 1, 1993, related to high capacity transportation services which are to be assumed by the authority as specifically identified in the adopted system plan shall be acquired by the authority in a manner consistent with RCW 81.112.070 through 81.112.100. [1992 c 101 § 11.]

81.112.120 Treasurer—Funds—Auditor—Bond. The board of an authority, by resolution, shall designate a person having experience in financial or fiscal matters as treasurer of the authority. The board may designate, with the concurrence of the treasurer, the treasurer of a county within which the authority is located. Such a treasurer shall possess all of the powers, responsibilities, and duties the county treasurer possesses for a public transportation benefit area authority related to investing surplus authority funds. The board shall require a bond with a surety company authorized to do business in the state of Washington in an amount and under the terms and conditions the board, by resolution, from time to time finds will protect the authority against loss. The premium on any such bond shall be paid by the authority.

All authority funds shall be paid to the treasurer and shall be disbursed by the treasurer only on warrants issued by the authority upon orders or vouchers approved by the board.

The treasurer shall establish a special fund, into which shall be paid all authority funds, and the treasurer shall maintain such special accounts as may be created by the authority into which shall be placed all money as the board may, by resolution, direct.

If the treasurer of the authority is the treasurer of a county, all authority funds shall be deposited with the county depository under the same restrictions, contracts, and security

as provided for county depositories. If the treasurer of the authority is some other person, all funds shall be deposited in such bank or banks authorized to do business in this state that have qualified for insured deposits under any federal deposit insurance act as the board, by resolution, shall designate.

The authority may by resolution designate a person having experience in financial or fiscal matters, as the auditor of the authority. Such auditor shall possess all of the powers, responsibilities, and duties related to creating and maintaining funds, issuing warrants, and maintaining a record of receipts and disbursements.

The board may provide and require a reasonable bond of any other person handling moneys or securities of the authority, but the authority shall pay the premium on the bond. [1992 c 101 § 12.]

81.112.130 General obligation bonds. Notwithstanding RCW 39.36.020(1), an authority may at any time contract indebtedness or borrow money for authority purposes and may issue general obligation bonds in an amount not exceeding, together with any existing indebtedness of the authority not authorized by the voters, one and one-half percent of the value of the taxable property within the boundaries of the authority; and with the assent of three-fifths of the voters therein voting at an election called for that purpose, may contract indebtedness or borrow money for authority purposes and may issue general obligation bonds therefor, provided the total indebtedness of the authority shall not exceed five percent of the value of the taxable property therein. Such bonds shall be issued and sold in accordance with chapter 39.46 RCW.

The term "value of the taxable property" shall have the meaning set forth in RCW 39.36.015. [1992 c 101 § 13.]

81.112.140 Revenue bonds. (1) An authority may issue revenue bonds to provide funds to carry out its authorized functions without submitting the matter to the voters of the authority. The authority shall create a special fund or funds for the sole purpose of paying the principal of and interest on the bonds of each such issue, into which fund or funds the authority may obligate itself to pay such amounts of the gross revenue of the high capacity transportation system constructed, acquired, improved, added to, or repaired out of the proceeds of sale of such bonds, as the authority shall determine and may obligate the authority to pay such amounts out of otherwise unpledged revenue that may be derived from the ownership, use, or operation of properties or facilities owned, used, or operated incident to the performance of the authorized function for which such bonds are issued or out of otherwise unpledged fees, tolls, charges, tariffs, fares, rentals, special taxes, or other sources of payment lawfully authorized for such purpose, as the authority shall determine. The principal of, and interest on, such bonds shall be payable only out of such special fund or funds, and the owners of such bonds shall have a lien and charge against the gross revenue of such high capacity transportation system or any other revenue, fees, tolls, charges, tariffs, fares, special taxes, or other authorized sources pledged to the payment of such bonds.

Such revenue bonds and the interest thereon issued against such fund or funds shall be a valid claim of the owners thereof only as against such fund or funds and the revenue pledged therefor, and shall not constitute a general indebtedness of the authority.

(2) Notwithstanding subsection (1) of this section, such bonds may be issued and sold in accordance with chapter 39.46 RCW. [1992 c 101 § 14.]

81.112.150 Local improvement districts authorized—Special assessment bonds. (1) An authority may form a local improvement district to provide any transportation improvement it has the authority to provide, impose special assessments on all property specially benefited by the transportation improvements, and issue special assessment bonds or revenue bonds to fund the costs of the transportation improvement. Local improvement districts shall be created and assessments shall be made and collected pursuant to chapters 35.43, 35.44, 35.49, 35.50, 35.51, 35.53, and 35.54 RCW.

(2) The board shall by resolution establish for each special assessment bond issue the amount, date, terms, conditions, denominations, maximum fixed or variable interest rate or rates, maturity or maturities, redemption rights, registration privileges, if any, covenants, and form, including registration as to principal and interest, registration as to principal only, or bearer. Registration may include, but not be limited to: (a) A book entry system of recording the ownership of a bond whether or not physical bonds are issued; or (b) recording the ownership of a bond together with the requirement that the transfer of ownership may only be effected by the surrender of the old bond and either the reissuance of the old bond or the issuance of a new bond to the new owner. Facsimile signatures may be used on the bonds and any coupons. The maximum term of any special assessment bonds shall not exceed thirty years beyond the date of issue. Special assessment bonds issued pursuant to this section shall not be an indebtedness of the authority issuing the bonds, and the interest and principal on the bonds shall only be payable from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund that the authority has created. The owner or bearer of a special assessment bond or any interest coupon issued pursuant to this section shall not have any claim against the authority arising from the bond or coupon except for the payment from special assessments made for the improvement for which the bonds were issued and any local improvement guaranty fund the authority has created. The authority issuing the special assessment bonds is not liable to the owner or bearer of any special assessment bond or any interest coupon issued pursuant to this section for any loss occurring in the lawful operation of its local improvement guaranty fund. The substance of the limitations included in this subsection shall be plainly printed, written, or engraved on each special assessment bond issued pursuant to this section.

(3) Assessments shall reflect any credits given by the authority for real property or property right donations made pursuant to RCW 47.14.030.

(4) The board may establish and pay moneys into a local improvement guaranty fund to guarantee special

assessment bonds issued by the authority. [1992 c 101 § 15.]

81.112.160 County assessor's duties. It shall be the duty of the assessor of each component county to certify annually to a regional transit authority the aggregate assessed valuation of all taxable property within the boundaries of the authority as the same appears from the last assessment roll of the county. [1992 c 101 § 16.]

81.112.170 Interim financing. A regional transit authority may apply for high capacity transportation account funds and for central Puget Sound account funds for high capacity transit planning and system development.

Transit agencies contained wholly or partly within a regional transit authority may make grants or loans to the authority for high capacity transportation planning and system development. [1992 c 101 § 17.]

Effective date—1967 ex.s. c 26: See note following RCW 82.01.050.

82.02.020 State preempts certain tax fields—Fees prohibited for the development of land or buildings—Voluntary payments by developers authorized—Limitations—Exceptions. (*Effective until July 1, 1997.*) Except only as expressly provided in RCW 67.28.180 and 67.28.190 and the provisions of chapter 82.14 RCW, the state preempts the field of imposing taxes upon retail sales of tangible personal property, the use of tangible personal property, parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances, and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. Except as provided in RCW 82.02.050 through 82.02.090, no county, city, town, or other municipal corporation shall impose any tax, fee, or charge, either direct or indirect, on the construction or reconstruction of residential buildings, commercial buildings, industrial buildings, or on any other building or building space or appurtenance thereto, or on the development, subdivision, classification, or reclassification of land. However, this section does not preclude dedications of land or easements within the proposed development or plat which the county, city, town, or other municipal corporation can demonstrate are reasonably necessary as a direct result of the proposed development or plat to which the dedication of land or easement is to apply.

This section does not prohibit voluntary agreements with counties, cities, towns, or other municipal corporations that allow a payment in lieu of a dedication of land or to mitigate a direct impact that has been identified as a consequence of a proposed development, subdivision, or plat. A local government shall not use such voluntary agreements for local off-site transportation improvements within the geographic boundaries of the area or areas covered by an adopted transportation program authorized by chapter 39.92 RCW. Any such voluntary agreement is subject to the following provisions:

(1) The payment shall be held in a reserve account and may only be expended to fund a capital improvement agreed upon by the parties to mitigate the identified, direct impact;

(2) The payment shall be expended in all cases within five years of collection; and

(3) Any payment not so expended shall be refunded with interest at the rate applied to judgments to the property owners of record at the time of the refund; however, if the payment is not expended within five years due to delay attributable to the developer, the payment shall be refunded without interest.

No county, city, town, or other municipal corporation shall require any payment as part of such a voluntary agreement which the county, city, town, or other municipal corporation cannot establish is reasonably necessary as a direct result of the proposed development or plat.

Nothing in this section prohibits cities, towns, counties, or other municipal corporations from collecting reasonable fees from an applicant for a permit or other governmental approval to cover the cost to the city, town, county, or other municipal corporation of processing applications, inspecting and reviewing plans, or preparing detailed statements required by chapter 43.21C RCW.

This section does not limit the existing authority of any county, city, town, or other municipal corporation to impose special assessments on property specifically benefitted thereby in the manner prescribed by law.

Nothing in this section prohibits counties, cities, or towns from imposing or permits counties, cities, or towns to impose water, sewer, natural gas, drainage utility, and drainage system charges: PROVIDED, That no such charge shall exceed the proportionate share of such utility or system's capital costs which the county, city, or town can demonstrate are attributable to the property being charged: PROVIDED FURTHER, That these provisions shall not be interpreted to expand or contract any existing authority of counties, cities, or towns to impose such charges.

Nothing in this section prohibits a transportation benefit district from imposing fees or charges authorized in RCW 36.73.120 nor prohibits the legislative authority of a county, city, or town from approving the imposition of such fees within a transportation benefit district.

Nothing in this section prohibits counties, cities, or towns from imposing transportation impact fees authorized pursuant to chapter 39.92 RCW.

Nothing in this section prohibits counties, cities, or towns from requiring property owners to provide relocation assistance to tenants under RCW 59.18.440 and 59.18.450.

This section does not apply to special purpose districts formed and acting pursuant to Titles 54, 56, 57, or 87 RCW, nor is the authority conferred by these titles affected. [1990

82.02.020 State preempts certain tax fields—Fees prohibited for the development of land or buildings—Voluntary payments by developers authorized—Limitations—Exceptions. (Effective July 1, 1997.) Except only as expressly provided in RCW 67.28.180 and 67.28.190 and the provisions of chapter 82.14 RCW, the state preempts the field of imposing taxes upon retail sales of tangible personal property, the use of tangible personal property, parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances, and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. Except as provided in RCW 82.02.050 through 82.02.090, no county, city, town, or other municipal corporation shall impose any tax, fee, or charge, either direct or indirect, on the construction or reconstruction of residential buildings, commercial buildings, industrial buildings, or on any other building or building space or appurtenance thereto, or on the development, subdivision, classification, or reclassification of land. However, this section does not preclude dedications of land or easements within the proposed development or plat which the county, city, town, or other municipal corporation can demonstrate are reasonably necessary as a direct result of the proposed development or plat to which the dedication of land or easement is to apply.

This section does not prohibit voluntary agreements with counties, cities, towns, or other municipal corporations that allow a payment in lieu of a dedication of land or to mitigate a direct impact that has been identified as a consequence of a proposed development, subdivision, or plat. A local government shall not use such voluntary agreements for local off-site transportation improvements within the geographic boundaries of the area or areas covered by an adopted transportation program authorized by chapter 39.92 RCW. Any such voluntary agreement is subject to the following provisions:

(1) The payment shall be held in a reserve account and may only be expended to fund a capital improvement agreed upon by the parties to mitigate the identified, direct impact;

(2) The payment shall be expended in all cases within five years of collection; and

(3) Any payment not so expended shall be refunded with interest at the rate applied to judgments to the property owners of record at the time of the refund; however, if the payment is not expended within five years due to delay attributable to the developer, the payment shall be refunded without interest.

No county, city, town, or other municipal corporation shall require any payment as part of such a voluntary agreement which the county, city, town, or other municipal corporation cannot establish is reasonably necessary as a direct result of the proposed development or plat.

Nothing in this section prohibits cities, towns, counties, or other municipal corporations from collecting reasonable fees from an applicant for a permit or other governmental approval to cover the cost to the city, town, county, or other municipal corporation of processing applications, inspecting and reviewing plans, or preparing detailed statements required by chapter 43.21C RCW.

This section does not limit the existing authority of any county, city, town, or other municipal corporation to impose special assessments on property specifically benefitted thereby in the manner prescribed by law.

Nothing in this section prohibits counties, cities, or towns from imposing or permits counties, cities, or towns to impose water, sewer, natural gas, drainage utility, and drainage system charges: PROVIDED, That no such charge shall exceed the proportionate share of such utility or system's capital costs which the county, city, or town can demonstrate are attributable to the property being charged: PROVIDED FURTHER, That these provisions shall not be interpreted to expand or contract any existing authority of counties, cities, or towns to impose such charges.

Nothing in this section prohibits a transportation benefit district from imposing fees or charges authorized in RCW 36.73.120 nor prohibits the legislative authority of a county, city, or town from approving the imposition of such fees within a transportation benefit district.

Nothing in this section prohibits counties, cities, or towns from imposing transportation impact fees authorized pursuant to chapter 39.92 RCW.

Nothing in this section prohibits counties, cities, or towns from requiring property owners to provide relocation assistance to tenants under RCW 59.18.440 and 59.18.450.

This section does not apply to special purpose districts formed and acting pursuant to Titles 54, 57, or 87 RCW, nor is the authority conferred by these titles affected. 82.02.050 Impact fees—Intent—Limitations. (1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(4) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

(a) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

(b) Additional demands placed on existing public facilities by new development; and

(c) Additional public facility improvements required to serve new development.

If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible. SEPA: RCW 43.21C.065.

82.02.060 Impact fees—Local ordinances—Required provisions. The local ordinance by which impact fees are imposed:

(1) Shall include a schedule of impact fees which shall be adopted for each type of development activity that is subject to impact fees, specifying the amount of the impact fee to be imposed for each type of system improvement. The schedule shall be based upon a formula or other method of calculating such impact fees. In determining proportionate share, the formula or other method of calculating impact fees shall incorporate, among other things, the following:

(a) The cost of public facilities necessitated by new development;

(b) An adjustment to the cost of the public facilities for past or future payments made or reasonably anticipated to be made by new development to pay for particular system improvements in the form of user fees, debt service payments, taxes, or other payments earmarked for or prorable to the particular system improvement;

(c) The availability of other means of funding public facility improvements;

(d) The cost of existing public facilities improvements; and

(e) The methods by which public facilities improvements were financed;

(2) May provide an exemption for low-income housing, and other development activities with broad public purposes, from these impact fees, provided that the impact fees for such development activity shall be paid from public funds other than impact fee accounts;

(3) Shall provide a credit for the value of any dedication of land for, improvement to, or new construction of any system improvements provided by the developer, to facilities that are identified in the capital facilities plan and that are required by the county, city, or town as a condition of approving the development activity;

(4) Shall allow the county, city, or town imposing the impact fees to adjust the standard impact fee at the time the fee is imposed to consider unusual circumstances in specific cases to ensure that impact fees are imposed fairly;

(5) Shall include a provision for calculating the amount of the fee to be imposed on a particular development that permits consideration of studies and data submitted by the developer to adjust the amount of the fee;

(6) Shall establish one or more reasonable service areas within which it shall calculate and impose impact fees for various land use categories per unit of development;

(7) May provide for the imposition of an impact fee for system improvement costs previously incurred by a county, city, or town to the extent that new growth and development will be served by the previously constructed improvements provided such fee shall not be imposed to make up for any system improvement deficiencies. [1990 1st ex.s. c 17 § 44.]

Severability—Part, section headings not law—1990 1st ex.s. c 17: See RCW 36.70A.900 and 36.70A.901.

82.02.070 Impact fees—Retained in special accounts—Limitations on use—Administrative appeals. (1) Impact fee receipts shall be earmarked specifically and retained in special interest-bearing accounts. Separate accounts shall be established for each type of public facility for which impact fees are collected. All interest shall be retained in the account and expended for the purpose or purposes for which the impact fees were imposed. Annually, each county, city, or town imposing impact fees shall provide a report on each impact fee account showing the source and amount of all moneys collected, earned, or received and system improvements that were financed in whole or in part by impact fees.

(2) Impact fees for system improvements shall be expended only in conformance with the capital facilities plan element of the comprehensive plan.

(3) Impact fees shall be expended or encumbered for a permissible use within six years of receipt, unless there exists an extraordinary and compelling reason for fees to be held longer than six years. Such extraordinary or compelling reasons shall be identified in written findings by the governing body of the county, city, or town.

(4) Impact fees may be paid under protest in order to obtain a permit or other approval of development activity.

(5) Each county, city, or town that imposes impact fees shall provide for an administrative appeals process for the

appeal of an impact fee; the process may follow the appeal process for the underlying development approval or the county, city, or town may establish a separate appeals process. The impact fee may be modified upon a determination that it is proper to do so based on principles of fairness. The county, city, or town may provide for the resolution of disputes regarding impact fees by arbitration. [1990 1st ex.s. c 17 § 46.]

Severability—Part, section headings not law—1990 1st ex.s. c 17: See RCW 36.70A.900 and 36.70A.901.

82.02.080 Impact fees—Refunds. (1) The current owner of property on which an impact fee has been paid may receive a refund of such fees if the county, city, or town fails to expend or encumber the impact fees within six years of when the fees were paid or other such period of time established pursuant to RCW 82.02.070(3) on public facilities intended to benefit the development activity for which the impact fees were paid. In determining whether impact fees have been encumbered, impact fees shall be considered encumbered on a first in, first out basis. The county, city, or town shall notify potential claimants by first class mail deposited with the United States postal service at the last known address of claimants.

The request for a refund must be submitted to the county, city, or town governing body in writing within one year of the date the right to claim the refund arises or the date that notice is given, whichever is later. Any impact fees that are not expended within these time limitations, and for which no application for a refund has been made within this one-year period, shall be retained and expended on the indicated capital facilities. Refunds of impact fees under this subsection shall include interest earned on the impact fees.

(2) When a county, city, or town seeks to terminate any or all impact fee requirements, all unexpended or unencumbered funds, including interest earned, shall be refunded pursuant to this section. Upon the finding that any or all fee requirements are to be terminated, the county, city, or town shall place notice of such termination and the availability of refunds in a newspaper of general circulation at least two times and shall notify all potential claimants by first class mail to the last known address of claimants. All funds available for refund shall be retained for a period of one year. At the end of one year, any remaining funds shall be retained by the local government, but must be expended for the indicated public facilities. This notice requirement shall not apply if there are no unexpended or unencumbered balances within an account or accounts being terminated.

(3) A developer may request and shall receive a refund, including interest earned on the impact fees, when the developer does not proceed with the development activity and no impact has resulted. [1990 1st ex.s. c 17 § 47.]

Severability—Part, section headings not law—1990 1st ex.s. c 17: See RCW 36.70A.900 and 36.70A.901.

82.02.090 Impact fees—Definitions. Unless the context clearly requires otherwise, the following definitions shall apply in RCW 82.02.050 through 82.02.090:

(1) "Development activity" means any construction or expansion of a building, structure, or use, any change in use

of a building or structure, or any changes in the use of land, that creates additional demand and need for public facilities.

(2) "Development approval" means any written authorization from a county, city, or town which authorizes the commencement of development activity.

(3) "Impact fee" means a payment of money imposed upon development as a condition of development approval to pay for public facilities needed to serve new growth and development, and that is reasonably related to the new development that creates additional demand and need for public facilities, that is a proportionate share of the cost of the public facilities, and that is used for facilities that reasonably benefit the new development. "Impact fee" does not include a reasonable permit or application fee.

(4) "Owner" means the owner of record of real property, although when real property is being purchased under a real estate contract, the purchaser shall be considered the owner of the real property if the contract is recorded.

(5) "Proportionate share" means that portion of the cost of public facility improvements that are reasonably related to the service demands and needs of new development.

(6) "Project improvements" mean site improvements and facilities that are planned and designed to provide service for a particular development project and that are necessary for the use and convenience of the occupants or users of the project, and are not system improvements. No improvement or facility included in a capital facilities plan approved by the governing body of the county, city, or town shall be considered a project improvement.

(7) "Public facilities" means the following capital facilities owned or operated by government entities: (a) Public streets and roads; (b) publicly owned parks, open space, and recreation facilities; (c) school facilities; and (d) fire protection facilities in jurisdictions that are not part of a fire district.

(8) "Service area" means a geographic area defined by a county, city, town, or intergovernmental agreement in which a defined set of public facilities provide service to development within the area. Service areas shall be designated on the basis of sound planning or engineering principles.

(9) "System improvements" mean public facilities that are included in the capital facilities plan and are designed to provide service to service areas within the community at large, in contrast to project improvements. [1990 1st ex.s. c 17 § 48.]

Severability—Part, section headings not law—1990 1st ex.s. c 17: See RCW 36.70A.900 and 36.70A.901.

82.02.100 Impact fees—Exception, mitigation fees paid under chapter 43.21C RCW. A person required to pay a fee pursuant to RCW 43.21C.060 for system improvements shall not be required to pay an impact fee under RCW 82.02.050 through 82.02.090 for those same system improvements. [1992 c 219 § 2.]

82.02.1001 Legislative fiscal committees—Report on impacts of manufacturers' tax exemption—Provision of data by agencies. The legislative fiscal committees shall report to the legislature by December 1, 1999, on the economic impacts of the manufacturers' tax exemption. This

report shall analyze employment and other relevant economic data from before and after the enactment of the tax exemptions authorized under chapter 3, Laws of 1995 1st sp. sess. and shall measure the effect on the creation or retention of family wage jobs and diversification of the state's economy. Analytic techniques may include, but not be limited to, comparisons of Washington to other states that did not enact business tax changes, comparisons across Washington counties based on usage of the tax exemptions, and comparisons across similar firms based on their use of the tax exemptions. In performing the analysis, the legislative fiscal committees shall consult with business and labor interests. The department or [of] revenue, the employment security department, and other agencies shall provide to the legislative fiscal committees such data as the legislative fiscal committees may request in performing the analysis required under this section. [1995 1st sp.s. c 3 § 15.]

(1996 Ed.)

Finding, purpose—1989 c 302: "(1) The legislature finds that chapter 9, Laws of 1982 2nd ex. sess. was intended to extend state public utility taxation to electrical energy generated in this state for eventual distribution outside this state. The legislature further finds that chapter 9, Laws of 1982 2nd ex. sess. was held unconstitutional by the Thurston county superior court in *Washington Water Power v. State of Washington* (memorandum opinion No. 83-2-00977-1). The purpose of *Part I of this act is to recognize the effect of that decision by correcting the relevant RCW sections to read as though the legislature had not enacted chapter 9, Laws of 1982 2nd ex. sess., and thereby make clear the effect of subsequent amendments in *Part II of this act.

(2) The purpose of *Part II of this act is to provide a constitutional means of replacing the revenue lost as a result of the *Washington Water Power* decision." [1989 c 302 § 1.]

The amount of the tax as to such persons shall be computed by multiplying 0.484 percent of the value of the article so distributed as of the time of such distribution. Delivery trucks or vans will not under the purposes of this section be considered to be retail stores or outlets. As to persons engaging in activities defined in RCW 82.04.120 (the definition of the term "to manufacture"), an amount not to exceed the tax actually paid under chapter 82.08 RCW (Retail Sales Tax) or chapter 82.12 RCW (Use Tax) by such persons or their lessors or their contract vendors, on materials, labor and services in the construction of new buildings or the enlarging of existing buildings directly used in such activities. Where a building is used partly for manufacturing and partly for other purposes the applicable tax credit shall be determined by apportionment of the costs of construction under such rules as the department of revenue shall provide. For purposes of this section the term "buildings" shall mean and include only those structures used to house or shelter manufacturing activities, including the usual lighting, heating, ventilating and sanitary plumbing facilities. The term shall include plant offices and warehouses or other storage facilities for the storage of raw materials or finished goods when such facilities are essential to and an integral part of a factory, mill or manufacturing plant, but shall not include manufacturing or industrial fixtures or equipment such as tanks, conveyor systems, cranes, industrial machinery and related facilities irrespective of whether or not such fixtures or equipment are affixed to the realty. Notwithstanding the foregoing, the term "buildings" shall also include potlines and furnaces used directly

This credit shall be allowable only against tax payable by the manufacturer and measured by the value of products or gross proceeds of sales of articles, substances or commodities manufactured in this state, and shall be allowable only against any tax payable which is attributable to manufacturing occurring in the particular factory, mill or manufacturing plant in which such buildings are located.

No tax credit claimed shall be deducted on any return until such claim has been approved by the department of revenue or until ninety days after such claim has been submitted to the department of revenue for approval. This credit shall not be allowable for tax paid on purchases of material, labor or services on which the supplier thereof became entitled to compensation prior to July 1, 1964 or subsequent to January 1, 1971: PROVIDED, That the credit shall be allowable for the tax paid on such purchases pursuant to any contract entered into prior to January 1, 1971 if such tax is paid on such contract purchases prior to July 1, 1972: AND PROVIDED FURTHER, That with respect only to the construction of buildings used directly in the manufacturing of metals, this credit shall be allowable for tax paid on all purchases pursuant to construction which was in progress on January 1, 1971, and was completed after that date.

Any credits granted prior to July 1, 1969 pursuant to this section shall not be affected by chapter 257, Laws of 1969 ex. sess. [1971 ex.s. c 299 § 6; 1969 ex.s. c 257 § 1; 1967 ex.s. c 89 § 1; 1965 ex.s. c 173 § 26.]

(3) Persons taxable under RCW 82.04.240 or 82.04.260 subsection (4) shall be allowed a credit against those taxes for any extracting taxes paid with respect to extracting the ingredients of the products so manufactured in this state. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the manufacturing of those products.

(4) Persons taxable under RCW 82.04.230, 82.04.240, or subsection (2), (3), (4), (5), or (7) of RCW 82.04.260 with respect to extracting or manufacturing products in this

state shall be allowed a credit against those taxes for any (i) gross receipts taxes paid to another state with respect to the sales of the products so extracted or manufactured in this state, (ii) manufacturing taxes paid with respect to the manufacturing of products using ingredients so extracted in this state, or (iii) manufacturing taxes paid with respect to manufacturing activities completed in another state for products so manufactured in this state. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the extraction or manufacturing of those products.

(5) For the purpose of this section:

(a) "Gross receipts tax" means a tax:

(i) Which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which the deductions allowed would not constitute the tax an income tax or value added tax; and

(ii) Which is also not, pursuant to law or custom, separately stated from the sales price.

(b) "State" means (i) the state of Washington, (ii) a state of the United States other than Washington, or any political subdivision of such other state, (iii) the District of Columbia, and (iv) any foreign country or political subdivision thereof.

(c) "Manufacturing tax" means a gross receipts tax imposed on the act or privilege of engaging in business as a manufacturer, and includes (i) the taxes imposed in RCW 82.04.240 and subsections (2), (3), (4), (5), and (7) of RCW 82.04.260, and (ii) similar gross receipts taxes paid to other states.

(d) "Extracting tax" means a gross receipts tax imposed on the act or privilege of engaging in business as an extractor, and includes the tax imposed in RCW 82.04.230 and similar gross receipts taxes paid to other states.

(e) "Business", "manufacturer", "extractor", and other terms used in this section have the meanings given in RCW 82.04.020 through 82.04.212, notwithstanding the use of those terms in the context of describing taxes imposed by other states. [1994 c 124 § 4; 1987 2nd ex.s. c 3 § 2; 1985 c 190 § 1; 1981 c 172 § 5; 1967 ex.s. c 149 § 16; 1965 ex.s. c 173 § 12; 1961 c 15 § 82.04.440. Prior: 1959 c 211 § 3; 1951 1st ex.s. c 9 § 1; 1950 ex.s. c 5 § 2; 1949 c 228 § 2-A; 1943 c 156 § 3; 1941 c 178 § 3; 1939 c 225 § 3; 1937 c 227 § 3; 1935 c 180 § 6; Rem. Supp. 1949 § 8370-6.]

Retroactive application—1994 c 124: "Except as otherwise provided in section 6 of this act, section 4 of this act applies retrospectively to all tax reporting periods on or after June 23, 1987." [1994 c 124 § 7.]

Legislative findings and intent—1987 2nd ex.s. c 3: "The legislature finds that the invalidation of the multiple activities exemption contained in RCW 82.04.440 by the United States Supreme Court now requires adjustments to the state's business and occupation tax to achieve constitutional equality between Washington taxpayers who have conducted and will continue to conduct business in interstate and intrastate commerce. It is the intent of chapter 3, Laws of 1987 2nd ex. sess. and sections 4 through 7 of this act to preserve the integrity of Washington's business and occupation tax system and impose only that financial burden upon the state necessary to establish parity in taxation between such taxpayers.

Thus, chapter 3, Laws of 1987 2nd ex. sess. and sections 4 through 7 of this act extends [extend] the system of credits originated in RCW 82.04.440 in 1985 to provide for equal treatment of taxpayers engaging in extracting, manufacturing or selling regardless of the location in which any of such activities occurs. It is further intended that RCW 82.04.440, as amended by section 2, chapter 3, Laws of 1987 2nd ex. sess. and sections 4 through 7 of this act, shall be construed and applied in a manner that will eliminate unconstitutional discrimination between taxpayers and ensure the

preservation and collection of revenues from the conduct of multiple activities in which taxpayers in this state may engage." [1994 c 124 § 5; 1987 2nd ex.s. c 3 § 1.]

Application to prior reporting periods—1987 2nd ex.s. c 3: "If it is determined by a court of competent jurisdiction, in a judgment not subject to review, that relief is appropriate for any tax reporting periods before August 11, 1987, in respect to RCW 82.04.440 as it existed before August 11, 1987, it is the intent of the legislature that the credits provided in RCW 82.04.440 as amended by section 2, chapter 3, Laws of 1987 2nd ex. sess. and section 4 of this act shall be applied to such reporting periods and that relief for such periods be limited to the granting of such credits." [1994 c 124 § 6; 1987 2nd ex.s. c 3 § 3.]

Severability—1987 2nd ex.s. c 3: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 2nd ex.s. c 3 § 4.]

Severability—1985 c 190: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1985 c 190 § 8.]

Effective dates—1981 c 172: See note following RCW 82.04.240.

Recommendations for additional legislation shall be included in such reports if such legislation is needed to assure that the economic stimulus provided by this 1974 act is balanced by increased revenues." [1974 ex.s. c 169 § 1.]

Severability—1974 ex.s. c 169: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1974 ex.s. c 169 § 10.]

Effective date—1974 ex.s. c 169: "This act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect on May 10, 1974." [1974 ex.s. c 169 § 11.]

(8) The department shall use the information required under subsection (7) of this section to perform three assessments on the tax credit program authorized under this section. The assessments will take place in 1997, 2000, and 2003. The department shall prepare reports on each assessment and deliver their reports by September 1, 1997, September 1, 2000, and September 1, 2003. The assessments shall measure the effect of the program on job creation, the number of jobs created for Washington residents, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

(9) For the purpose of this section:

(a) "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership as determined under rules adopted by the department, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the credit provided in this section. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.

(b) "Qualified research and development" shall have the same meaning as in RCW 82.63.010.

(c) "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.

(d) "Taxable amount" means the taxable amount subject to the tax imposed in this chapter required to be reported on the person's combined excise tax returns during the year in which the credit is claimed, less any taxable amount for which a credit is allowed under RCW 82.04.440.

(10) This section shall expire December 31, 2004. [1994 sp.s. c 5 § 2.]

Findings—Effective date—1994 sp.s. c 5: See RCW 82.63.005 and 82.63.900.

82.04.4453 Credit—Ride-sharing, public transportation, or nonmotorized commuting incentives—Penalty—Report to legislature. (Expires December 31, 2000.) (1) Employers in this state who are taxable under this chapter and provide financial incentives to their employees for ride sharing, for using public transportation, or for using nonmotorized commuting before June 30, 2000, shall be allowed a credit for amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, or for using nonmotorized commuting, not to exceed sixty dollars per employee per year. The credit shall be equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per year. For ride sharing in vehicles carrying two persons, the credit shall be equal to the amount paid to or on behalf of each employee multiplied by thirty percent, but may not exceed sixty dollars per employee per year. The credit may not exceed the amount of tax that would otherwise be due under this chapter.

(2) Application for tax credit under this chapter may only be made in the form and manner prescribed in rules adopted by the department.

(3) The credit shall be taken not more than once quarterly and not less than once annually against taxes due for the same calendar year in which the amounts for which credit is claimed were paid to or on behalf of employees for ride sharing, for using public transportation, or for using nonmotorized commuting and must be claimed by the due date of the last tax return for the calendar year in which the payment is made.

(4) The director shall on the 25th of February, May, August, and November of each year advise the state treasurer of the amount of credit taken during the preceding calendar quarter ending on the last day of December, March, June, and September, respectively.

(5) On the first of April, July, October, and January of each year, the state treasurer based upon information provided by the department shall deposit a sum equal to the dollar amount of the credit provided under subsection (1) of this section from the air pollution control account to the general fund.

(6) The commute trip reduction task force shall determine the effectiveness of this tax credit as part of its ongoing evaluation of the commute trip reduction law and report no later than December 1, 1997, to the legislative transportation committee and to the fiscal committees of the house of representatives and the senate. The report shall include information on the amount of tax credits claimed to date and recommendations on future funding for the tax credit program.

(7) Any person who knowingly makes a false statement of a material fact in the application for a credit under subsection (1) of this section is guilty of a gross misdemeanor.

(8) A person may not receive credit for amounts paid to or on behalf of the same employee under both this section and RCW 82.16.048. [1996 c 128 § 1; 1994 c 270 § 2.]

Effective date—Expiration date—1996 c 128: "(1) This act takes effect July 1, 1996.

(2) This act expires December 31, 2000." [1996 c 128 § 7.]

Finding—1994 c 270: "Transportation demand strategies that reduce the number of vehicles on Washington state's highways, roads, and streets, and provide attractive and effective alternatives to single-occupancy travel can improve ambient air quality, conserve fossil fuels, and forestall the need for capital improvements to the state's transportation system. The legislature has required many public and private employers in the state's largest counties to implement transportation demand management programs to reduce the number of single-occupant vehicle travelers during the morning and evening rush hours. The legislature finds that additional transportation demand management strategies are necessary to mitigate the adverse social, environmental, and economic effects of automobile dependency and traffic congestion. While expensive capital improvements, including dedicated busways and commuter rail systems, may be necessary to improve the region's mobility, they are only part of the solution. All public and private entities that attract single-occupant vehicle drivers must develop imaginative and cost-effective ways to encourage walking, bicycling, carpooling, vanpooling, bus riding, and telecommuting. It is the intent of the legislature to revise those portions of state law that inhibit the application of imaginative solutions to the state's transportation mobility problems and to encourage many more public and private employers to adopt effective transportation demand management strategies." [1994 c 270 § 1.]

Expiration date—1994 c 270: "This act shall expire December 31, 2000." [1996 c 128 § 6; 1994 c 270 § 6.]

82.04.4454 Credit—Ride-sharing, public transportation, or nonmotorized commuting incentives—Ceiling. (Expires December 31, 2000.) (1) The department shall keep a running total of all credits granted under RCW 82.04.4453 and 82.16.048 during each calendar year, and shall disallow any credits that would cause the tabulation for any calendar year to exceed one million five hundred thousand dollars.

(2) No employer shall be eligible for tax credits under RCW 82.04.4453 and 82.16.048 in excess of one hundred thousand dollars in any calendar year.

(3) No employer shall be eligible for tax credits under RCW 82.04.4453 in excess of the amount of tax that would otherwise be due under this chapter.

(4) No portion of an application for credit disallowed under this section may be carried back or carried forward. [1996 c 128 § 2; 1994 c 270 § 3.]

Effective date—Expiration date—1996 c 128: See note following RCW 82.04.4453.

Finding—Expiration date—1994 c 270: See notes following RCW 82.04.4453.

82.04.4455 Credit—Ride-sharing, public transportation, or nonmotorized commuting incentives—Definitions. (Expires December 31, 2000.) The definitions set forth in this section apply to RCW 82.04.4453, 82.04.4454, 82.16.048, and 82.16.049 unless the context clearly requires otherwise.

(1) "Public agency" means any county, city, or other local government agency or any state government agency, board, or commission.

(2) "Public transportation" means the same as "public transportation service" as defined in RCW 36.57A.010 and includes passenger services of the Washington state ferries.

(3) "Nonmotorized commuting" means commuting to and from the workplace by an employee by walking or running or by riding a bicycle or other device not powered by a motor.

(4) "Ride sharing" means the same as "commuter ride sharing" as defined in RCW 46.74.010, including ride sharing on Washington state ferries. [1996 c 128 § 5.]

Effective date—Expiration date—1996 c 128: See note following RCW 82.04.4453.

82.04.450 Value of products, how determined. (1) The value of products, including byproducts, extracted or manufactured shall be determined by the gross proceeds derived from the sale thereof whether such sale is at wholesale or at retail, to which shall be added all subsidies and bonuses received from the purchaser or from any other person with respect to the extraction, manufacture, or sale of such products or byproducts by the seller, except:

(a) Where such products, including byproducts, are extracted or manufactured for commercial or industrial use;

(b) Where such products, including byproducts, are shipped, transported or transferred out of the state, or to another person, without prior sale or are sold under circumstances such that the gross proceeds from the sale are not indicative of the true value of the subject matter of the sale.

(2) In the above cases the value shall correspond as nearly as possible to the gross proceeds from sales in this state of similar products of like quality and character, and in similar quantities by other taxpayers, plus the amount of subsidies or bonuses ordinarily payable by the purchaser or by any third person with respect to the extraction, manufacture, or sale of such products: PROVIDED, That the value of a product manufactured or produced for purposes of serving as a prototype for the development of a new or improved product shall correspond: (a) To the retail selling price of such new or improved product when first offered for sale; or (b) to the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale. The department of revenue shall prescribe uniform and equitable rules for the purpose of ascertaining such values. [1983 1st ex.s. c 55 § 3; 1975 1st ex.s. c 278 § 42; 1961 c 15 § 82.04.450. 82.04.460 Business within and without state—Apportionment. (1) Any person rendering services taxable under RCW 82.04.290 and maintaining places of business both within and without this state which contribute to the rendition of such services shall, for the purpose of computing tax liability under RCW 82.04.290, apportion to this state that portion of his gross income which is derived from services rendered within this state. Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of his total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.

(2) Notwithstanding the provision of subsection (1) of this section, persons doing business both within and without the state who receive gross income from service charges, as defined in RCW 63.14.010 (relating to amounts charged for granting the right or privilege to make deferred or installment payments) or who receive gross income from engaging in business as financial institutions within the scope of

chapter 82.14A RCW (relating to city taxes on financial institutions) shall apportion or allocate gross income taxable under RCW 82.04.290 to this state pursuant to rules promulgated by the department consistent with uniform rules for apportionment or allocation developed by the states.

(3) The department shall by rule provide a method or methods of apportioning or allocating gross income derived from sales of telephone services taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. The rules shall be, so far as feasible, consistent with the methods of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an equitable and constitutionally permissible division of the services. [1985 c 7 § 154; 1983 2nd ex.s. c 3 § 28; 1975 1st ex.s. c 291 § 9; 1961 c 15 § 82.04.460. Prior: 1941 c 178 § 5; 1939 c 225 § 4; Rem. Supp. 1941 § 8370-8a.]

82.04.470 Resale certificate—Burden of proof—Tax liability—Rules—Resale certificate defined. (1) Unless a seller has taken from the buyer a resale certificate, the burden of proving that a sale of tangible personal property, or of services, was not a sale at retail shall be upon the person who made it.

(2) If a seller does not receive a resale certificate at the time of the sale, have a resale certificate on file at the time of the sale, or obtain a resale certificate from the buyer within a reasonable time after the sale, the seller shall remain liable for the tax as provided in RCW 82.08.050, unless the seller can demonstrate facts and circumstances according to rules adopted by the department of revenue that show the sale was properly made without payment of sales tax.

(3) Resale certificates shall be valid for a period of four years from the date the certificate is provided to the seller.

(4) The department may provide by rule for suggested forms for resale certificates or equivalent documents containing the information that will be accepted as resale certificates. The department shall provide by rule the categories of items or services that must be specified on resale certificates and the business classifications that may use a blanket resale certificate.

(5) As used in this section, "resale certificate" means documentation provided by a buyer to a seller stating that the purchase is for resale in the regular course of business, or that the buyer is exempt from retail sales tax, and containing the following information:

- (a) The name and address of the buyer;
- (b) The uniform business identifier or revenue registration number of the buyer, if the buyer is required to [be] registered;
- (c) The type of business engaged in;
- (d) The categories of items or services to be purchased for resale or that are exempt, unless the buyer is in a business classification that may present a blanket resale certificate as provided by the department by rule;

- (e) The date on which the certificate was provided;
- (f) A statement that the items or services purchased either: (i) Are purchased for resale in the regular course of business; or (ii) are exempt from tax pursuant to statute;

- (g) A statement that the buyer acknowledges that the buyer is solely responsible for purchasing within the categories specified on the certificate and that misuse of the resale or exemption privilege claimed on the certificate subjects the buyer to a penalty of fifty percent of the tax due, in addition to the tax, interest, and any other penalties imposed by law;

- (h) The name of the individual authorized to sign the certificate, printed in a legible fashion;

- (i) The signature of the authorized individual; and

- (j) The name of the seller. [1993 sp.s. c 25 § 701; 1983 2nd ex.s. c 3 § 29; 1975 1st ex.s. c 278 § 43; 1961 c 15 § 82.04.470. Prior: 1935 c 180 § 9; RRS § 8370-9.]

82.04.480 Sales in own name—Sales as agent.

Every consignee, bailee, factor, or auctioneer having either actual or constructive possession of tangible personal property, or having possession of the documents of title thereto, with power to sell such tangible personal property in his or its own name and actually so selling, shall be deemed the seller of such tangible personal property within the meaning of this chapter; and further, the consignor, bailor, principal, or owner shall be deemed a seller of such property to the consignee, bailee, factor, or auctioneer.

The burden shall be upon the taxpayer in every case to establish the fact that he is not engaged in the business of selling tangible personal property but is acting merely as broker or agent in promoting sales for a principal. Such claim will be allowed only when the taxpayer's accounting records are kept in such manner as the department of revenue shall by general regulation provide. [1975 1st ex.s. c 278 § 44; 1961 c 15 § 82.04.480. Prior: 1935 c 180 § 10; RRS § 8370-10.]

82.04.500 Tax part of operating overhead. It is not the intention of this chapter that the taxes herein levied upon persons engaging in business be construed as taxes upon the purchasers or customers, but that such taxes shall be levied upon, and collectible from, the person engaging in the business activities herein designated and that such taxes shall constitute a part of the operating overhead of such persons. Local sales tax: Chapter 82.14 RCW.

82.08.010 Definitions. For the purposes of this chapter:

(1) "Selling price" means the consideration, whether money, credits, rights, or other property except trade-in property of like kind, expressed in the terms of money paid or delivered by a buyer to a seller without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes other than taxes imposed under this chapter if the seller advertises the price as including the tax or that the seller is paying the tax, or any other expenses whatsoever paid or accrued and without any deduction on account of losses; but shall not include the amount of cash discount actually taken by a buyer; and shall be subject to modification to the extent modification is provided for in RCW 82.08.080.

When tangible personal property is rented or leased under circumstances that the consideration paid does not represent a reasonable rental for the use of the articles so rented or leased, the "selling price" shall be determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe;

(2) "Seller" means every person, including the state and its departments and institutions, making sales at retail or retail sales to a buyer or consumer, whether as agent, broker, or principal, except "seller" does not mean the state and its departments and institutions when making sales to the state and its departments and institutions;

(3) "Buyer" and "consumer" include, without limiting the scope hereof, every individual, receiver, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise, municipal corporation, quasi municipal corporation, and also the state, its departments and institutions and all political subdivisions thereof, irrespective of the nature of the activities engaged in or functions performed, and also the United States or any instrumentality thereof;

(4) The meaning attributed in chapter 82.04 RCW to the terms "tax year," "taxable year," "person," "company," "sale," "sale at retail," "retail sale," "sale at wholesale," "wholesale," "business," "engaging in business," "cash discount," "successor," "consumer," "in this state" and "within this state" shall apply equally to the provisions of this chapter. (2) For purposes of this section and RCW 82.12.02565:

(a) "Machinery and equipment" means industrial fixtures, devices, and support facilities, and tangible personal property that becomes an ingredient or component thereof, including repair parts and replacement parts. "Machinery and equipment" includes pollution control equipment installed and used in a manufacturing operation or research and development operation to prevent air pollution, water pollution, or contamination that might otherwise result from the manufacturing operation or research and development operation.

(b) "Machinery and equipment" does not include:

(i) Hand tools;

(ii) Property with a useful life of less than one year;

(iii) Buildings, other than machinery and equipment that is permanently affixed to or becomes a physical part of a building; and

(iv) Building fixtures that are not integral to the manufacturing operation or research and development operation that are permanently affixed to and become a physical part of a building, such as utility systems for heating, ventilation, air conditioning, communications, plumbing, or electrical.

(c) Machinery and equipment is "used directly" in a manufacturing operation or research and development operation if the machinery and equipment:

(i) Acts upon or interacts with an item of tangible personal property;

(ii) Conveys, transports, handles, or temporarily stores an item of tangible personal property at the manufacturing site;

(iii) Controls, guides, measures, verifies, aligns, regulates, or tests tangible personal property;

(iv) Provides physical support for or access to tangible personal property;

(v) Produces power for, or lubricates machinery and equipment;

(vi) Produces another item of tangible personal property for use in the manufacturing operation or research and development operation;

The term does not include the production of electricity by a light and power business as defined in RCW 82.16.010 or the preparation of food products on the premises of a person selling food products at retail.

(e) "Cogeneration" means the simultaneous generation of electrical energy and low-grade heat from the same fuel.

(f) "Research and development operation" means engaging in research and development as defined in RCW 82.63.010 by a manufacturer or processor for hire. [1996 c 247 § 2; 1996 c 173 § 3; 1995 1st sp.s. c 3 § 2.]

Reviser's note: This section was amended by 1996 c 173 § 3 and by 1996 c 247 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—Intent—1996 c 247: See note following RCW 82.08.02566.

Findings—Intent—1996 c 173: "The legislature finds that the health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in the state's manufacturing industries.

The legislature also finds that sales and use tax exemptions for manufacturing machinery and equipment enacted by the 1995 legislature have improved Washington's ability to compete with other states for manufacturing investment, but that additional incentives for manufacturers need to be adopted to solidify and enhance the state's competitive position.

The legislature intends to accomplish this by extending the current manufacturing machinery and equipment exemptions to allow a sales tax exemption for labor and service charges for repairing, cleaning, altering, or improving machinery and equipment, and a sales and use tax exemption for repair and replacement parts with a useful life of one year or more." [1996 c 173 § 1.]

Findings—1995 1st sp.s. c 3: "The legislature finds and declares that:

(1) The health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in our state's private sector;

(2) The state's private sector must be encouraged to commit to continuous improvement of process, products, and services and to deliver high-quality, high-value products through technological innovations and high-performance work organizations;

(3) The state's opportunities for increased economic dealings with other states and nations of the world are dependent on supporting and attracting a diverse, stable, and competitive economic base of private sector employers;

(4) The state's current policy of applying its sales and use taxes to machinery, equipment, and installation labor used in manufacturing, research and development, and other activities has placed our state's private sector at a competitive disadvantage with other states and serves as a significant disincentive to the continuous improvement of products, technology, and

modernization necessary for the preservation, stabilization, and expansion of employment and to ensure a stable economy; and

(5) It is vital to the continued development of economic opportunity in this state, including the development of new businesses and the expansion or modernization of existing businesses, that the state of Washington provide tax incentives to entities making a commitment to sites and operations in this state." [1995 1st sp.s. c 3 § 1.]

Findings—Intent—1996 c 247: "The legislature finds that the health, safety, and welfare of the people of the state of Washington are heavily dependent upon the continued encouragement, development, and expansion of opportunities for family wage employment in the state's manufacturing industries.

The legislature also finds that sales and use tax exemptions for manufacturing machinery and equipment enacted by the 1995 legislature have improved Washington's ability to compete with other states for manufacturing investment, but that additional incentives for manufacturers need to be adopted to solidify and enhance the state's competitive position.

The legislature intends to accomplish this by extending the current manufacturing machinery and equipment exemptions to include machinery and equipment used for research and development with potential manufacturing applications." [1996 c 247 § 1.]

Effective date—1996 c 162: "This act shall take effect July 1, 1996." [1996 c 162 § 3.]

Finding—Intent—1991 c 250: "(1) The legislature finds:

The tax imposed by this chapter shall not apply to sales of passenger motor vehicles which are to be used for commuter ride sharing or ride sharing for persons with special transportation needs, as defined in RCW 46.74.010, if the ride-sharing vehicles are exempt under RCW 82.44.015 for thirty-six consecutive months beginning within thirty days of application for exemption under this section. Finding—1993 c 488: "The legislature finds that ride sharing and vanpools are the fastest growing transportation choice because of their flexibility and cost-effectiveness. Ride sharing and vanpools represent an effective means for local jurisdictions, transit agencies, and the private sector to assist in addressing the requirements of the Commute Trip Reduction Act, the Growth Management Act, the Americans with Disabilities Act, and the Clean Air Act." [1993 c 488 § 1.]

Annual recertification rule—Report—1993 c 488: "The department shall adopt by rule a process requiring annual recertification upon renewal for vehicles registered under RCW 46.16.023 to discourage abuse of tax exemptions under RCW 82.08.0287, 82.12.0282, and 82.44.015. In case any seller fails to collect the tax herein imposed or having collected the tax, fails to pay it to the department in the manner prescribed by this chapter, whether such failure is the result of his or her own acts or the result of acts or conditions beyond his or her control, he or she shall, nevertheless, be personally liable to the state for the amount of the tax, unless the seller has taken from the buyer in good faith a properly executed resale certificate under RCW 82.04.470.

The tax required by this chapter to be collected by the seller shall be stated separately from the selling price in any sales invoice or other instrument of sale. On all retail sales through vending machines, the tax need not be stated separately from the selling price or collected separately from the buyer. For purposes of determining the tax due from the buyer to the seller and from the seller to the department it shall be conclusively presumed that the selling price quoted in any price list, sales document, contract or other agreement between the parties does not include the tax imposed by this chapter, but if the seller advertises the price as including the tax or that the seller is paying the tax, the advertised price shall not be considered the selling price.

Where a buyer has failed to pay to the seller the tax imposed by this chapter and the seller has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the buyer for collection of the tax, in which case a penalty of ten percent may be added to the amount of the tax for failure of the buyer to pay the same to the seller, regardless of when the tax may be collected by the department; and all of the provisions of chapter 82.32 RCW, including those relative to interest and penalties, shall apply in addition; and, for the sole purpose of applying the various provisions of chapter 82.32 RCW, the twenty-fifth day of the month following the tax period in which the purchase was made shall be considered as the due date of the tax. 82.08.055 Advertisement of price. A seller may advertise the price as including the tax or that the seller is paying the tax, subject to the following conditions:

(1) Unless the advertised price is one in a listed series, the words "tax included" are stated immediately following the advertised price and in print size at least half as large as the advertised price;

(2) If the advertised prices are listed in a series, the words "tax included in all prices" are placed conspicuously at the head of the list and in the same print size as the advertised prices;

(3) If a price is advertised as "tax included," the price listed on any price tag shall be shown in the same manner; and

(4) All advertised prices and the words "tax included" are stated in the same medium, be it oral or visual, and if oral, in substantially the same inflection and volume. [1985 c 38 § 2.]

82.08.060 Collection of tax—Methods and schedules. The department of revenue shall have power to adopt rules and regulations prescribing methods and schedules for the collection of the tax required to be collected by the seller from the buyer under this chapter. The methods and schedules prescribed shall be adopted so as to eliminate the collection of fractions of one cent and so as to provide that the aggregate collections of all taxes by the seller shall, insofar as practicable, equal the amount of tax imposed by this chapter. Such schedules may provide that no tax need be collected from the buyer upon sales below a stated sum and may be amended from time to time to accomplish the purposes set forth herein. [1975 1st ex.s. c 278 § 47; 1961 c 15 § 82.08.060. Prior: 1951 c 44 § 2; 1941 c 76 § 4; 1935 c 180 § 22; Rem. Supp. 1941 § 8370-22.]

82.08.065 Collection of tax and fee on mobile homes by county auditors or director of licensing—Remittance. In the collection of the sales tax on mobile homes, the department of revenue may designate the county auditors of the several counties of the state as its collecting agents. Upon such designation, it shall be the duty of each county auditor to collect the tax and the fee at the time the mobile home dealer or selling agent applies for a new certificate of ownership for such mobile home in the instance where transfer of ownership was from a mobile home dealer or person deemed a selling agent under RCW 82.04.480, except where the applicant presents a written statement signed by the department of revenue or its duly authorized agent showing that no retail sales tax or use tax is legally due. The term "mobile home" as used in this section means a mobile home as defined in RCW 46.04.302. It shall be the duty of every mobile home dealer or selling agent to declare upon the application for a new certificate of ownership the selling price paid for the mobile home. Any person willfully misrepresenting, or failing or refusing to declare upon the application, such selling price shall be guilty of a gross misdemeanor.

Each county auditor who acts as agent of the department of revenue shall at the time of remitting license fee receipts on motor vehicles subject to the provisions of RCW 82.12.045 pay over and account to the state treasurer for all sales tax revenue collected under this section, after first deducting as his or her collection fee the sum of two dollars for each mobile home upon which the tax has been collected.

Any applicant who has paid sales tax to a county auditor under this section may apply to the department of revenue for refund thereof if he has reason to believe that such tax was not legally due and owing. No refund is allowed unless application therefor is received by the department of revenue within four years after payment of the tax. Upon receipt of an application for refund the department of revenue shall consider the same and issue its order either granting or denying it and if refund is denied the taxpayer shall have the right of appeal as provided in RCW 82.32.170, 82.32.180, and 82.32.190.

The provisions of this section shall be construed as cumulative of other methods prescribed in chapters 82.04 to 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter. The department of revenue shall have power to adopt such rules as may be necessary to administer the provisions of this section. Any duties required by this section to be performed by the county auditor may be performed by the director of licensing but no collection fee shall be deductible by the director of licensing in remitting sales tax revenue to the state treasurer. [1991 c 327 § 5; 1990 c 171 § 8; 1987 c 89 § 1.]

Effective date—1990 c 171 §§ 6, 7, 8: See note following RCW 82.45.090.

82.08.080 Vending machine and other sales. The department of revenue may authorize a seller to pay the tax levied under this chapter upon sales made under conditions of business such as to render impracticable the collection of the tax as a separate item and waive collection of the tax from the customer. Where sales are made by receipt of a coin or coins dropped into a receptacle that results in delivery of the merchandise in single purchases of smaller

(1996 Ed.)

value than the minimum sale upon which a one cent tax may be collected from the purchaser, according to the schedule provided by the department under authority of RCW 82.08.060, and where the design of the sales device is such that multiple sales of items are not possible or cannot be detected so as practically to assess a tax, in such a case the selling price for the purposes of the tax imposed under RCW 82.08.020 shall be sixty percent of the gross receipts of the vending machine through which such sales are made. No such authority shall be granted except upon application to the department and unless the department, after hearing, finds that the conditions of the applicant's business are such as to render impracticable the collection of the tax in the manner otherwise provided. The department, by regulation, may provide that the applicant, under this section, furnish a proper bond sufficient to secure the payment of the tax. [1986 c 36 § 2; 1975 1st ex.s. c 278 § 48; 1963 c 244 § 2; 1961 c 15 § 82.08.080. Prior: 1937 c 227 § 8; 1935 c 180 § 24; RRS § 8370-24.]

82.08.100 Tax may be paid on cash receipts basis if books are so kept—Exemption for debts deductible as worthless. The department of revenue, by general regulation, shall provide that a taxpayer whose regular books of account are kept on a cash receipts basis may file returns based upon his cash receipts for each reporting period and pay the tax herein provided upon such basis in lieu of reporting and paying the tax on all sales made during such period. A taxpayer filing returns on a cash receipts basis is not required to pay such tax on debts which are deductible as worthless for federal income tax purposes. 82.08.110 Sales from vehicles. In the case of a person who has no fixed place of business and sells from one or more vehicles, each such vehicle shall constitute a "place of business" within the meaning of chapter 82.32 RCW. [1961 c 15 § 82.08.110. Prior: 1935 c 180 § 26; RRS § 8370-26.]

82.08.120 Refunding or rebating of tax by seller prohibited—Penalty. Whoever, excepting as expressly authorized by this chapter, refunds, remits, or rebates to a buyer, either directly or indirectly and by whatever means, all or any part of the tax levied by this chapter shall be guilty of a misdemeanor. The violation of this section by any person holding a license granted by the state or any political subdivision thereof shall be sufficient grounds for the cancellation of the license of such person upon written notification by the department of revenue to the proper officer of the department granting the license that such person has violated the provisions of this section. Before any license shall be canceled hereunder, the licensee shall be entitled to a hearing before the department granting the license under such regulations as the department may prescribe. 82.08.130 Resale certificate—Purchase and resale—Rules. If a buyer normally is engaged in both consuming and reselling certain types of articles of tangible personal property and is not able to determine at the time of purchase whether the particular property acquired will be consumed or resold, the buyer may use a resale certificate for the entire purchase if the buyer principally resells the articles according to the general nature of the buyer's business. The buyer shall account for the value of any articles purchased with a resale certificate that are used by the buyer and remit the sales tax on the articles to the department.

A buyer who pays a tax on all purchases and subsequently resells an article at retail, without intervening use by the buyer, shall collect the tax from the purchaser as otherwise provided by law and is entitled to a deduction on the buyer's tax return equal to the cost to the buyer of the property resold upon which retail sales tax has been paid. The deduction is allowed only if the taxpayer keeps and preserves records that show the names of the persons from whom the articles were purchased, the date of the purchase, the type of articles, the amount of the purchase, and the tax that was paid. The department shall provide by rule for the refund or credit of retail sales tax paid by a buyer for purchases that are later sold at wholesale without intervening use by the buyer. 82.12.010 Definitions. For the purposes of this chapter:

(1)(a) "Value of the article used" shall mean the consideration, whether money, credit, rights, or other property except trade-in property of like kind, expressed in terms of money, paid or given or contracted to be paid or given by the purchaser to the seller for the article of tangible personal property, the use of which is taxable under this chapter. The term includes, in addition to the consideration paid or given or contracted to be paid or given, the amount of any tariff or duty paid with respect to the importation of the article used. In case the article used is acquired by lease or by gift or is extracted, produced, or manufactured by the person using the same or is sold under conditions wherein the purchase price does not represent the true value thereof, the value of the article used shall be determined as nearly as possible according to the retail selling price at place of use of similar products of like quality and character under such rules as the department of revenue may prescribe.

(b) In case the articles used are acquired by bailment, the value of the use of the articles so used shall be in an amount representing a reasonable rental for the use of the articles so bailed, determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe. In case any such articles of tangible personal property are used in respect to the construction, repairing, decorating, or improving of, and which become or are to become an ingredient or component of, new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing or attaching of any such articles therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation, then the value of the use of such articles so used shall be determined according to the retail selling price of such articles, or in the absence of such a selling price, as nearly as possible according to the retail selling price at place of use of similar products of like quality and character or, in the absence of either of these

selling price measures, such value may be determined upon a cost basis, in any event under such rules as the department of revenue may prescribe.

(c) In the case of articles owned by a user engaged in business outside the state which are brought into the state for no more than one hundred eighty days in any period of three hundred sixty-five consecutive days and which are temporarily used for business purposes by the person in this state, the value of the article used shall be an amount representing a reasonable rental for the use of the articles, unless the person has paid tax under this chapter or chapter 82.08 RCW upon the full value of the article used, as defined in (a) of this subsection.

(d) In the case of articles manufactured or produced by the user and used in the manufacture or production of products sold or to be sold to the department of defense of the United States, the value of the articles used shall be determined according to the value of the ingredients of such articles.

(e) In the case of an article manufactured or produced for purposes of serving as a prototype for the development of a new or improved product, the value of the article used shall be determined by: (i) The retail selling price of such new or improved product when first offered for sale; or (ii) the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale;

(2) "Use," "used," "using," or "put to use" shall have their ordinary meaning, and shall mean the first act within this state by which the taxpayer takes or assumes dominion or control over the article of tangible personal property (as a consumer), and include installation, storage, withdrawal from storage, or any other act preparatory to subsequent actual use or consumption within this state;

(3) "Taxpayer" and "purchaser" include all persons included within the meaning of the word "buyer" and the word "consumer" as defined in chapters 82.04 and 82.08 RCW;

(4) "Retailer" means every seller as defined in RCW 82.08.010 and every person engaged in the business of selling tangible personal property at retail and every person required to collect from purchasers the tax imposed under this chapter;

(5) The meaning ascribed to words and phrases in chapters 82.04 and 82.08 RCW, insofar as applicable, shall have full force and effect with respect to taxes imposed under the provisions of this chapter. "Consumer," in addition to the meaning ascribed to it in chapters 82.04 and 82.08 RCW insofar as applicable, shall also mean any person who distributes or displays, or causes to be distributed or displayed, any article of tangible personal property, except newspapers, the primary purpose of which is to promote the sale of products or services. Any person wilfully misrepresenting, or failing or refusing to declare upon his application, such value shall be guilty of a gross misdemeanor.

Each county auditor who acts as agent of the department of revenue shall at the time of remitting license fee receipts on motor vehicles subject to the provisions of this section pay over and account to the state treasurer for all use tax revenue collected under this section, after first deducting as his collection fee the sum of two dollars for each motor vehicle upon which the tax has been collected. All revenue received by the state treasurer under this section shall be credited to the general fund. The auditor's collection fee shall be deposited in the county current expense fund. A duplicate of the county auditor's transmittal report to the state treasurer shall be forwarded forthwith to the department of revenue.

No refund shall be allowed unless application therefor is received by the department of revenue within two years after payment of the tax. The provisions of this section shall be construed as cumulative of other methods prescribed in chapters 82.04 to 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter. The department of revenue shall have power to promulgate such rules and regulations as may be necessary to administer the provisions of this section. Any duties required by this section to be performed by the county auditor may be performed by the director of licensing but no collection fee shall be deductible by said director in remitting use tax revenue to the state treasurer. 82.14.010 Legislative finding—Purpose. The legislature finds that the several counties and cities of the state lack adequate sources of revenue to carry out essential county and municipal purposes. The legislature further finds that the most efficient and appropriate methods of deriving revenues for such purposes is to vest additional taxing powers in the governing bodies of counties and cities which they may or may not implement. The legislature intends, by enacting this chapter, to provide the means by which essential county and municipal purposes can be financially served should they choose to employ them. [1970 ex.s. c 94 § 1.]

Such tax shall be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW, upon the occurrence of any taxable event within the county or city as the case may be: PROVIDED, That except as provided in RCW 82.14.230, this sales and use tax shall not apply to natural or manufactured gas. The authority to impose a tax under this subsection is intended in part to compensate local government for any losses from the phase-out of the property tax on business inventories. [1989 c 384 § 6; 1982 1st ex.s. c 49 § 17; 1970 ex.s. c 94 § 4.]

Within ten days, the filing officer shall confer with the petitioner concerning form

Legislative finding, declaration—1971 ex.s. c 296: "The legislature finds that adequate public transportation systems are necessary to the economic, industrial and cultural development of the urban areas of this state and the health, welfare and prosperity of persons who reside or are employed in such areas or who engage in business therein and such systems are increasingly essential to the functioning of the urban highways of the state. The legislature further finds and declares that fares and tolls for the use of public transportation systems cannot maintain such systems in solvent financial conditions and at the same time meet the need to serve those who cannot reasonably afford or use other forms of transportation. The legislature further finds and declares that additional and alternate means of financing adequate public transportation service are necessary for the cities, metropolitan municipal corporations and counties of this state which provide such service." Severability—1971 ex.s. c 296: "If any provision of this 1971 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1971 ex.s. c 296 § 5.]

82.14.046 Sales and use tax equalization payments from local transit taxes. Beginning with distributions made to municipalities under RCW 82.44.150 on January 1, 1996, municipalities as defined in RCW 35.58.272 imposing local transit taxes, which for purposes of this section include the sales and use tax under RCW 82.14.045, the business and occupation tax under RCW 35.95.040, and excise taxes under RCW 35.95.040, shall be eligible for sales and use tax equalization payments from motor vehicle excise taxes distributed under RCW 82.44.150 as follows:

(1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each municipality imposing local transit taxes and the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW for the previous calendar year calculated for a sales and use tax rate of one-tenth percent. For purposes of this section, the department of revenue shall determine a local transit tax rate for each municipality for the previous calendar year. The tax rate shall be equivalent to the sales and use tax rate for the municipality that would have generated an amount of revenue equal to the amount of local transit taxes collected by the municipality.

(2) For each tenth of one percent of the local transit tax rate, the state treasurer shall apportion to each municipality

receiving less than eighty percent of the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW as determined by the department of revenue under subsection (1) of this section, an amount when added to the per capita level of revenues received the previous calendar year by the municipality, to equal eighty percent of the state-wide weighted average per capita level of revenues determined under subsection (1) of this section. In no event may the sales and use tax equalization distribution to a municipality in a single calendar year exceed: (a) Fifty percent of the amount of local transit taxes collected during the prior calendar year; or (b) the maximum amount of revenue that could have been collected at a local transit tax rate of three-tenths percent in the prior calendar year.

(3) For a municipality established after January 1, 1995, sales and use tax equalization distributions shall be made according to the procedures in this subsection. Sales and use tax equalization distributions to eligible new municipalities shall be made at the same time as distributions are made under subsection (2) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new municipality has received a full year's worth of local transit tax revenues as of the January sales and use tax equalization distribution.

(a) Whether a newly established municipality determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October sales and use tax equalization distribution shall depend on the date the system first imposes local transit taxes.

(i) A newly established municipality imposing local transit taxes taking effect during the first calendar quarter shall be eligible to receive funds under this subsection beginning with the July sales and use tax equalization distribution of that year.

(ii) A newly established municipality imposing local transit taxes taking effect during the second calendar quarter shall be eligible to receive funds under this subsection beginning with the October sales and use tax equalization distribution of that year.

(iii) A newly established municipality imposing local transit taxes taking effect during the third calendar quarter shall be eligible to receive funds under this subsection beginning with the January sales and use tax equalization distribution of the next year.

(iv) A newly established municipality imposing local transit taxes taking effect during the fourth calendar quarter shall be eligible to receive funds under this subsection beginning with the April sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new municipality should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from local transit taxes that the new municipality would have received had the municipality received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (2) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the local transit taxes have been imposed.

(c) The department of revenue shall advise the state treasurer of the amounts calculated under (b) of this subsection and the state treasurer shall distribute these amounts to the new municipality from the motor vehicle excise tax distributed under RCW 82.44.150(2)(d).

(4) A municipality whose governing body implements a tax change that reduces its local transit tax rate after January 1, 1994, may not receive distributions under this section. [1995 c 298 § 1; 1994 c 241 § 2.]

82.14.048 Sales and use taxes for public facilities districts. The governing board of a public facilities district under chapter 36.100 RCW may submit an authorizing proposition to the voters of the district, and if the proposition is approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter.

The tax authorized in this section shall be in addition to any other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the public facilities district. The rate of tax shall equal one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax.

Moneys received from any tax imposed under this section shall be used for the purpose of providing funds for the costs associated with the financing, design, acquisition, construction, equipping, operating, maintaining, remodeling, repairing, and reequipping of its public facilities. The tax is in addition to other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall not exceed 0.017 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

The department of revenue shall perform the collection of such taxes on behalf of the county at no cost to the county.

(3) Moneys collected under this section shall only be used for the purpose of paying the principal and interest payments on bonds issued by a county to construct a baseball stadium.

(4) No tax may be collected under this section before January 1, 1996, and no tax may be collected under this section unless the taxes under RCW 82.14.360 are being collected. 82.14.070 Consistency and uniformity with other taxes—Rules—Ordinances—Effective dates. It is the intent of this chapter that any local sales and use tax adopted pursuant to this chapter be as consistent and uniform as possible with the state sales and use tax and with other local

sales and use taxes adopted pursuant to this chapter. It is further the intent of this chapter that the local sales and use tax shall be imposed upon an individual taxable event simultaneously with the imposition of the state sales or use tax upon the same taxable event. The rule making powers of the state department of revenue contained in RCW 82.08.060 and 82.32.300 shall be applicable to this chapter. The department shall, as soon as practicable, and with the assistance of the appropriate associations of county prosecutors and city attorneys, draft a model resolution and ordinance. No resolution or ordinance or any amendment thereto adopted pursuant to this chapter shall be effective, except upon the first day of a calendar month. [1970 ex.s. c 94 § 10.]

82.14.080 Deposit of tax prior to due date—Credit against future tax or assessment—When fund designation permitted—Use of tax revenues received in connection with large construction projects. The taxes provided by this chapter may be deposited by any taxpayer prior to the due date thereof with the treasurer or other legal depository for the benefit of the funds to which they belong to be credited against any future tax or assessment that may be levied or become due from the taxpayer: PROVIDED, That the taxpayer may with the concurrence of the legislative authority designate a particular fund of such county or city against which such prepayment of tax or assessment is made. Such prepayment of taxes or assessments shall not be considered to be a debt for the purpose of the limitation of indebtedness imposed by law on a county or city.

By agreement made pursuant to chapter 39.34 RCW, counties or cities may utilize tax revenues received under the authority of this chapter in connection with large construction projects, including energy facilities as defined in RCW 80.50.020, for any purpose within their power or powers, privileges or authority exercised or capable of exercise by such counties or cities including, but not limited to, the purpose of the mitigation of socioeconomic impacts that may be caused by such large construction projects: PROVIDED, That the taxable event need not take place within the jurisdiction where the socioeconomic impact occurs if an intergovernmental agreement provides for redistribution. 82.14.090 Payment of tax prior to taxable event—When permitted—Deposit with treasurer—Credit against future tax—When fund designation permitted. When permitted by resolution or ordinance, any tax authorized by this chapter may be paid prior to the taxable event to which it may be attributable. Such prepayment shall be made by deposit with the treasurer or other legal depository for the benefit of the funds to which they belong. They shall be credited by any county or city against any future tax that may become due from a taxpayer: PROVIDED, That the taxpayer with the concurrence of the legislative authority may designate a particular fund of such county or city against which such prepayment of tax is made. Prepayment of taxes under this section shall not relieve any taxpayer from remitting the full amount of any tax imposed under the authority of this chapter upon the occurrence of the taxable event. [1982 c 211 § 3.]

82.14.200 County sales and use tax equalization account—Allocation procedure. There is created in the state treasury a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110(1)(f). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

The department of revenue shall establish a governmental price index as provided in this subsection. The base year for the index shall be the end of the third quarter of 1982. Prior to November 1, 1983, and prior to each November 1st thereafter, the department of revenue shall establish another index figure for the third quarter of that year. The department of revenue may use the implicit price deflators for state and local government purchases of goods and services calculated by the United States department of commerce to establish the governmental price index. Beginning on January 1, 1984, and each January 1st thereafter, the one hundred fifty thousand dollar base figure in this subsection shall be adjusted in direct proportion to the percentage change in the governmental price index from 1982 until the year before the adjustment. Distributions made under this subsection for 1984 and thereafter shall use this adjusted base amount figure.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (6) and (7) of this section. When computing distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (2) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (2) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the total distribution under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) Subsequent to the distributions under subsection (4) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a fourth distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (3) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the distributions under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(6) Revenues distributed under this section in any calendar year shall not exceed an amount equal to seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties during the previous calendar year. If distributions under subsections (3) through (5) of this section cannot be made because of this limitation, then distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties.

(7) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsections (3) through (5) of this section, then the distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) through (5) of this section to the counties.

(8) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be credited and transferred to the state general fund. 82.14.210 Municipal sales and use tax equalization account—Allocation procedure. There is created in the state treasury a special account to be known as the "municipal sales and use tax equalization account." Into this account shall be placed such revenues as are provided under RCW 82.44.110(1)(e). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each city and the state-wide weighted average per capita level of revenues for all cities imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city not imposing the sales and use tax under RCW 82.14.030(2) an amount from the municipal sales and use tax equalization account equal to the amount distributed to the city under RCW 82.44.155, multiplied by forty-five fifty-fifths.

(3) Subsequent to the distributions under subsection (2) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for all cities as determined by the department of revenue under subsection (1) of this section, an amount from the municipal sales and use tax equalization account sufficient, when added to the per capita level of revenues received the previous calendar year by the city, to equal seventy percent of the state-wide weighted average per capita level of revenues for all cities determined under subsection (1) of this section, subject to reduction under subsection (6) of this section.

(4) Subsequent to the distributions under subsection (3) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a third distribution from the municipal sales and use tax equalization account. The distribution to each qualifying city shall be equal to the distribution to the city under subsection (3) of this section, subject to the reduction under subsection (6) of this section. To qualify for the distributions under this subsection, the city must impose the tax under RCW 82.14.030(2) for the entire calendar year. Cities imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) For a city with an official incorporation date after January 1, 1990, municipal sales and use tax equalization distributions shall be made according to the procedures in this subsection. Municipal sales and use tax equalization distributions to eligible new cities shall be made at the same time as distributions are made under subsections (3) and (4) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new city has received a full year's worth of revenues under RCW 82.14.030(1) as of the January municipal sales and use tax equalization distribution.

(a) Whether a newly incorporated city determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October municipal sales and use tax equalization distribution shall depend on the date the city first imposes the tax authorized under RCW 82.14.030(1).

(i) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of January 1st shall be eligible to receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of that year.

(ii) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of February 1st, March 1st, or April 1st shall be eligible to receive funds under this subsection beginning with the July municipal sales and use tax equalization distribution of that year.

(iii) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of May 1st, June 1st, or July 1st shall be eligible to receive funds under this subsection beginning with the October municipal sales and use tax equalization distribution of that year.

(iv) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of August 1st, September 1st, or October 1st shall be eligible to receive funds under this subsection beginning with the January municipal sales and use tax equalization distribution of the next year.

(v) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of November 1st or December 1st shall be eligible to receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new city should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from the tax authorized under RCW 82.14.030(1) that the new city would have received had the city received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (3) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the tax authorized under RCW 82.14.030(1) is imposed.

(c) A new city imposing the tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution calculated under (b) of this subsection shall receive another distribution from the municipal sales and use tax equalization account. This distribution shall be equal to the calculation made under (b)(ii) of this subsection, prorated by

the number of months the city imposes the tax authorized under RCW 82.14.030(2) at the full rate.

(d) The department of revenue shall advise the state treasurer of the amounts calculated under (b) and (c) of this subsection and the state treasurer shall distribute these amounts to the new city from the municipal sales and use tax equalization account subject to the limitations imposed in subsection (6) of this section.

(e) Revenues estimated under this subsection shall not affect the calculation of the state-wide weighted average per capita level of revenues for all cities made under subsection (1) of this section.

(6) If inadequate revenues exist in the municipal sales and use tax equalization account to make the distributions under subsection (3), (4), or (5) of this section, then the distributions under subsections (3), (4), and (5) of this section shall be reduced ratably among the qualifying cities. At such time during the year as additional funds accrue to the municipal sales and use tax equalization account, additional distributions shall be made under subsections (3), (4), and (5) of this section to the cities.

(7) If the level of revenues in the municipal sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be apportioned among the several cities within the state ratably on the basis of population as last determined by the office of financial management: PROVIDED, That no such distribution shall be made to those cities receiving a distribution under subsection (2) of this section. 82.14.230 Natural or manufactured gas—Cities may impose use tax. (1) The governing body of any city, while not required by legislative mandate to do so, may, by resolution or ordinance for the purposes authorized by this chapter, fix and impose on every person a use tax for the privilege of using natural gas or manufactured gas in the city as a consumer.

(2) The tax shall be imposed in an amount equal to the value of the article used by the taxpayer multiplied by the rate in effect for the tax on natural gas businesses under RCW 35.21.870 in the city in which the article is used. 82.14.300 Local government criminal justice assistance—Finding. The legislature finds and declares that local government criminal justice systems are in need of assistance. Many counties and cities are unable to provide sufficient funding for additional police protection, mitigation

of congested court systems, public safety education, and relief of overcrowded jails.

In order to ensure public safety, it is necessary to provide fiscal assistance to help local governments to respond immediately to these criminal justice problems, while initiating a review of the criminal justice needs of cities and counties and the resources available to address those needs.

To provide for a more efficient and effective response to these problems, the legislature encourages cities and counties to coordinate strategies against crime and use multijurisdictional and innovative approaches in addressing criminal justice problems. [1995 c 312 § 83; 1990 2nd ex.s. c 1 § 1.]

Short title—1995 c 312: See note following RCW 13.32A.010.

82.14.310 County criminal justice assistance account—Distributions based on crime rate and population. (1) The county criminal justice assistance account is created in the state treasury.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under RCW 82.44.110, shall be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city shall be as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iv) Distributions and eligibility for distributions in the 1989-91 biennium shall be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions shall be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall

not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures. [1995 c 398 § 11; 1993 sp.s. c 21 § 1; 1991 c 311 § 1; 1990 2nd ex.s. c 1 § 102.]

Effective dates—1993 sp.s. c 21: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993, except for section 4 of this act, which shall take effect immediately [May 28, 1993], and sections 1 through 3, 5, and 7 of this act, which shall take effect January 1, 1994." (3) The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under RCW 82.44.110, shall be distributed at such times as distributions are made under RCW 82.44.150. The distributions shall be made as follows:

(a) Unless reduced by this subsection, thirty percent of the moneys shall be distributed ratably based on population as last determined by the office of financial management to those cities eligible under subsection (2) of this section that have a crime rate determined under subsection (2)(a) of this section which is greater than one hundred seventy-five

percent of the state-wide average crime rate. No city may receive more than fifty percent of any moneys distributed under this subsection (a) but, if a city distribution is reduced as a result of exceeding the fifty percent limitation, the amount not distributed shall be distributed under (b) of this subsection.

(5) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located.

(6) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and publications and public educational efforts designed to provide information and assistance to parents in dealing with runaway or at-risk youth. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. 82.14.330 Municipal criminal justice assistance account—Distributions based on crime rate, population, and innovation. (1) The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under RCW 82.44.110, shall be distributed to the cities of the state as follows:

(a) Twenty percent appropriated for distribution shall be distributed to cities with a three-year average violent crime rate for each one thousand in population in excess of one hundred fifty percent of the state-wide three-year average violent crime rate for each one thousand in population. The three-year average violent crime rate shall be calculated using the violent crime rates for each of the preceding three years from the annual reports on crime in Washington state as published by the Washington association of sheriffs and police chiefs. Moneys shall be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

(b) Sixteen percent shall be distributed to cities ratably based on population as last determined by the office of financial management, but no city may receive less than one thousand dollars.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection shall be distributed at such times as distributions are made under RCW 82.44.150.

Moneys distributed under this subsection shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(2) In addition to the distributions under subsection (1) of this section:

(a) Fourteen percent shall be distributed to cities that have initiated innovative law enforcement strategies, includ-

ing alternative sentencing and crime prevention programs. No city may receive more than one dollar per capita under this subsection (2)(a).

(b) Twenty percent shall be distributed to cities that have initiated programs to help at-risk children or child abuse victim response programs. No city may receive more than fifty cents per capita under this subsection (2)(b).

(c) Twenty percent shall be distributed to cities that have initiated programs designed to reduce the level of domestic violence within their jurisdictions or to provide counseling for domestic violence victims. No city may receive more than fifty cents per capita under this subsection (2)(c).

(d) Ten percent shall be distributed to cities that contract with another governmental agency for a majority of the city's law enforcement services.

Moneys distributed under this subsection shall be distributed to those cities that submit funding requests under this subsection to the department of community, trade, and economic development based on criteria developed under RCW 82.14.335. Allocation of funds shall be in proportion to the population of qualified jurisdictions, but the distribution to a city shall not exceed the amount of funds requested. Cities shall submit requests for program funding to the department of community, trade, and economic development by November 1 of each year for funding the following year. The department shall certify to the state treasurer the cities eligible for funding under this subsection and the amount of each allocation.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection, less any moneys appropriated for purposes under RCW 82.44.110, shall be distributed at the times as distributions are made under RCW 82.44.150. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

If a city is found by the state auditor to have expended funds received under this subsection in a manner that does not comply with the criteria under which the moneys were received, the city shall be ineligible to receive future distributions under this subsection until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund. The director may allow noncomplying use of moneys received under this subsection upon a showing of hardship or other emergent need.

(3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located. The department of community, trade, and economic development shall adopt criteria to be used in making grants to cities under RCW 82.14.330(2). In developing the criteria, the department shall create a temporary advisory committee consisting of the director of community, trade, and economic development, two representatives nominated by the association of Washington cities, and two representatives nominated by the Washington association of sheriffs and police chiefs. [1995 c 399 § 213; 1993 sp.s. c 21 § 4.]

82.14.340 Additional sales and use tax for criminal justice purposes—Referendum—Expenditures. The legislative authority of any county may fix and impose a sales and use tax in accordance with the terms of this chapter, provided that such sales and use tax is subject to repeal by referendum, using the procedures provided in RCW 82.14.036. The referendum procedure provided in RCW 82.14.036 is the exclusive method for subjecting any county sales and use tax ordinance or resolution to a referendum vote.

The tax authorized in this section shall be in addition to any other taxes authorized by law and shall be collected from those persons who are taxable by the state pursuant to chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within such county. The rate of tax shall equal one-tenth of one percent of the selling price (in the case of a sales tax) or value of the article used (in the case of a use tax).

When distributing moneys collected under this section, the state treasurer shall distribute ten percent of the moneys to the county in which the tax was collected. The remainder of the moneys collected under this section shall be distributed to the county and the cities within the county ratably based on population as last determined by the office of financial management. In making the distribution based on population, the county shall receive that proportion that the unincorporated population of the county bears to the total population of the county and each city shall receive that proportion that the city incorporated population bears to the total county population.

Moneys received from any tax imposed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to

the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

In the expenditure of funds for criminal justice purposes as provided in this section, cities and counties, or any combination thereof, are expressly authorized to participate in agreements, pursuant to chapter 39.34 RCW, to jointly expend funds for criminal justice purposes of mutual benefit. Such criminal justice purposes of mutual benefit include, but are not limited to, the construction, improvement, and expansion of jails, court facilities, and juvenile justice facilities. 82.14.350 Sales and use tax for juvenile detention facilities and jails—Colocation. (1) A county legislative authority in a county with a population of less than one million may submit an authorizing proposition to the county voters, and if the proposition is approved by a majority of persons voting, fix and impose a sales and use tax in accordance with the terms of this chapter for the purposes designated in subsection (3) of this section.

(2) The tax authorized in this section shall be in addition to any other taxes authorized by law and shall be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county. The rate of tax shall equal one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax.

(3) Moneys received from any tax imposed under this section shall be used solely for the purpose of providing funds for costs associated with financing, design, acquisition, construction, equipping, operating, maintaining, remodeling, repairing, reequipping, and improvement of juvenile detention facilities and jails.

(4) Counties are authorized to develop joint ventures to collocate juvenile detention facilities and to collocate jails. [1995 2nd sp.s. c 10 § 1.]

82.14.360 Special stadium sales and use taxes. (1) The legislative authority of a county with a population of one million or more may impose a special stadium sales and

use tax upon the retail sale or use within the county by restaurants, taverns, and bars of food and beverages that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall not exceed five-tenths of one percent of the selling price in the case of a sales tax, or value of the article used in the case of a use tax. The tax imposed under this subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event. As used in this section, "restaurant" does not include grocery stores, mini-markets, or convenience stores.

(2) The legislative authority of a county with a population of one million or more may impose a special stadium sales and use tax upon retail car rentals within the county that are taxable by the state under chapters 82.08 and 82.12 RCW. The rate of the tax shall not exceed two percent of the selling price in the case of a sales tax, or rental value of the vehicle in the case of a use tax. The tax imposed under this subsection is in addition to any other taxes authorized by law and shall not be credited against any other tax imposed upon the same taxable event.

(3) The revenue from the taxes imposed under this section shall be used for the purpose of principal and interest payments on bonds, issued by the county, to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. Revenues from the taxes authorized in this section may be used for design and other preconstruction costs of the baseball stadium until bonds are issued for the baseball stadium. The county shall issue bonds, in an amount determined to be necessary by the public facilities district, for the district to acquire, construct, own, and equip the baseball stadium. The county shall have no obligation to issue bonds in an amount greater than that which would be supported by the tax revenues under this section, RCW 82.14.0485, and 36.38.010(3) (a) and (b). If the revenue from the taxes imposed under this section exceeds the amount needed for such principal and interest payments in any year, the excess shall be used solely:

(a) For early retirement of the bonds issued for the baseball stadium; and

(b) If the revenue from the taxes imposed under this section exceeds the amount needed for the purposes in (a) of this subsection in any year, the excess shall be placed in a contingency fund which may only be used to pay unanticipated capital costs on the baseball stadium, excluding any cost overruns on initial construction.

(4) The taxes authorized under this section shall not be collected after June 30, 1997, unless the county executive has certified to the department of revenue that a professional major league baseball team has made a binding and legally enforceable contractual commitment to:

(a) Play at least ninety percent of its home games in the stadium for a period of time not shorter than the term of the bonds issued to finance the initial construction of the stadium;

(b) Contribute forty-five million dollars toward the reasonably necessary preconstruction costs including, but not limited to architectural, engineering, environmental, and legal services, and the cost of construction of the stadium, or to any associated public purpose separate from bond-financed property, including without limitation land acquisition, parking facilities, equipment, infrastructure, or other similar

costs associated with the project, which contribution shall be made during a term not to exceed the term of the bonds issued to finance the initial construction of the stadium. If all or part of the contribution is made after the date of issuance of the bonds, the team shall contribute an additional amount equal to the accruing interest on the deferred portion of the contribution, calculated at the interest rate on the bonds maturing in the year in which the deferred contribution is made. No part of the contribution may be made without the consent of the county until a public facilities district is created under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium. To the extent possible, contributions shall be structured in a manner that would allow for the issuance of bonds to construct the stadium that are exempt from federal income taxes; and

(c) Share a portion of the profits generated by the baseball team from the operation of the professional franchise for a period of time equal to the term of the bonds issued to finance the initial construction of the stadium, after offsetting any losses incurred by the baseball team after *the effective date of chapter 14, Laws of 1995 1st sp. sess. Such profits and the portion to be shared shall be defined by agreement between the public facilities district and the baseball team. The shared profits shall be used to retire the bonds issued to finance the initial construction of the stadium. If the bonds are retired before the expiration of their term, the shared profits shall be paid to the public facilities district.

(5) No tax may be collected under this section before January 1, 1996. Before collecting the taxes under this section or issuing bonds for a baseball stadium, the county shall create a public facilities district under chapter 36.100 RCW to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium.

(6) The county shall assemble such real property as the district determines to be necessary as a site for the baseball stadium. Property which is necessary for this purpose that is owned by the county on October 17, 1995, shall be contributed to the district, and property which is necessary for this purpose that is acquired by the county on or after October 17, 1995, shall be conveyed to the district.

(7) The proceeds of any bonds issued for the baseball stadium shall be provided to the district.

(8) As used in this section, "baseball stadium" means "baseball stadium" as defined in RCW 82.14.0485.

(9) The taxes imposed under this section shall expire when the bonds issued for the construction of the baseball stadium are retired, but not later than twenty years after the taxes are first collected. [1995 3rd sp.s. c 1 § 201; 1995 1st sp.s. c 14 § 7.]

82.14B.010 Findings. The legislature finds that the state and counties should be provided with an additional revenue source to fund enhanced 911 emergency communication systems throughout the state on a multicounty, county-wide, or district-wide basis. The legislature further finds that the most efficient and appropriate method of deriving additional revenue for this purpose is to impose an excise tax on the use of switched access lines. [1991 c 54 § 9; 1981 c 160 § 1.]

Referral to electorate—1991 c 54: See note following RCW 38.52.030.

82.14B.020 Definitions. As used in this chapter:

(1) "Emergency services communication system" means a multicounty, county-wide, or district-wide radio or landline communications network, including an enhanced 911 telephone system, which provides rapid public access for coordinated dispatching of services, personnel, equipment, and facilities for police, fire, medical, or other emergency services.

(2) "Enhanced 911 telephone system" means a public telephone system consisting of a network, data base, and on-premises equipment that is accessed by dialing 911 and that enables reporting police, fire, medical, or other emergency situations to a public safety answering point. The system includes the capability to selectively route incoming 911 calls to the appropriate public safety answering point that operates in a defined 911 service area and the capability to automatically display the name, address, and telephone number of incoming 911 calls at the appropriate public safety answering point.

(3) "Switched access line" means the telephone service line which connects a subscriber's main telephone(s) or equivalent main telephone(s) to the local exchange company's switching office.

(4) "Local exchange company" has the meaning ascribed to it in RCW 80.04.010.

(5) "Radio access line" means the telephone number assigned to or used by an end user for two-way local wireless voice service available to the public for hire from a radio communications service company. Radio access lines include, but are not limited to, radio-telephone communications lines used in cellular telephone service, personal

communications services, and network radio access lines, or their functional and competitive equivalent. Radio access lines do not include lines that provide access to one-way signalling service, such as paging service, or to communications channels suitable only for data transmission, or to nonlocal radio access line service, such as wireless roaming service, or to a private telecommunications system.

(6) "Radio communications service company" has the meaning ascribed to it in RCW 80.04.010.

(7) "Private telecommunications system" has the meaning ascribed to it in RCW 80.04.010. [1994 c 96 § 2; 1991 c 54 § 10; 1981 c 160 § 2.]

Finding—Intent—1994 c 96: "(1) The legislature finds that:

(a) Emergency services communication systems, including enhanced 911 telephone systems, are currently funded with revenues from state and local excise taxes imposed on the use of switched access lines;

(b) Users of cellular communication systems and other similar wireless telecommunications systems do not use switched access lines and are not currently subject to these excise taxes; and

(c) The volume of 911 calls by users of cellular communications systems and other similar wireless telecommunications systems has increased in recent years.

(2) The intent of this act is to acknowledge the recommendations regarding 911 emergency communication system funding as detailed in the report to the legislature dated November 1993, entitled "Taxation of Cellular Communications in Washington State," to authorize imposition and collection of the twenty-five cent county tax discussed in chapter 6 of that report, and to require the department of revenue to continue the *study of such funding as detailed in the report." [1994 c 96 § 1.]

***Reviser's note:** See 1992 c 218 and 1994 c 96 § 6.

Effective dates—1994 c 96: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 23, 1994], except section 5 of this act shall take effect January 1, 1995." [1994 c 96 § 8.]

82.14B.030 County enhanced 911 excise tax on use of switched access lines and radio access lines authorized—Amount—State enhanced 911 excise tax—Amount. (1) The legislative authority of a county may impose a county enhanced 911 excise tax on the use of switched access lines in an amount not exceeding fifty cents per month for each switched access line. The amount of tax shall be uniform for each switched access line. Each county shall provide notice of such tax to all local exchange companies serving in the county at least sixty days in advance of the date on which the first payment is due.

(2) The legislative authority of a county may also impose a county 911 excise tax on the use of radio access lines located within the county in an amount not exceeding twenty-five cents per month for each radio access line. The amount of tax shall be uniform for each radio access line. The county shall provide notice of such tax to all radio communications service companies serving in the county at least sixty days in advance of the date on which the first payment is due. Any county imposing this tax shall include in its ordinance a refund mechanism whereby the amount of any tax ordered to be refunded by the judgment of a court of record, or as a result of the resolution of any appeal therefrom, shall be refunded to the radio communications service company or local exchange company that collected the tax, and those companies shall reimburse the users who paid the tax. The ordinance shall further provide that to the extent

the users who paid the tax cannot be identified or located, the tax paid by those users shall be returned to the county.

(3) Beginning January 1, 1992, a state enhanced 911 excise tax is imposed on all switched access lines in the state. For 1992, the tax shall be set at a rate of twenty cents per month for each switched access line. Until December 31, 1998, the amount of tax shall not exceed twenty cents per month for each switched access line and thereafter shall not exceed ten cents per month for each switched access line. The tax shall be uniform for each switched access line. Tax proceeds shall be deposited by the treasurer in the enhanced 911 account created in RCW 38.52.540.

(4) By August 31st of each year the state enhanced 911 coordinator shall recommend the level for the next year of the state enhanced 911 excise tax to the utilities and transportation commission. The commission shall by the following October 31st determine the level of the state enhanced 911 excise tax for the following year. [1994 c 96 § 3; 1991 c 54 § 11; 1981 c 160 § 3.]

82.14B.040 Collection of tax. The state enhanced 911 tax and the county enhanced 911 tax on switched access lines shall be collected from the user by the local exchange company providing the switched access line. The county 911 tax on radio access lines shall be collected from the end user by the radio communications service company providing the radio access line to the end user. The amount of the tax shall be stated separately on the billing statement which is sent to the user. [1994 c 96 § 4; 1991 c 54 § 12; 1981 c 160 § 4.]

Finding—Intent—Effective dates—1994 c 96: See notes following RCW 82.14B.020.

Referral to electorate—1991 c 54: See note following RCW 38.52.030.

82.14B.050 Use of proceeds. The proceeds of any tax collected under this chapter shall be used by the county only for the emergency services communication system. [1981 c 160 § 5.]

82.14B.060 Administration and collection. A county legislative authority imposing a tax under this chapter shall establish by ordinance all necessary and appropriate procedures for the administration and collection of the tax, which ordinance shall provide for reimbursement to the telephone companies for actual costs of administration and collection of the tax imposed. The ordinance shall also provide that the due date for remittance of the tax collected shall be thirty days following the collection month. [1981 c 160 § 6.]

82.14B.070 Emergency service communication districts—Authorized—Consolidation—Dissolution. In lieu of providing a county-wide system of emergency service communication, the legislative authority of a county may establish one or more less than county-wide emergency service communication districts within the county for the purpose of providing and funding emergency service

communication systems. An emergency service communication district is a quasi-municipal corporation, shall constitute a body corporate, and shall possess all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, and to sue and be sued.

The county legislative authority shall be the governing body of an emergency service communication district. The county treasurer shall act as the ex officio treasurer of the emergency services communication district. The electors of an emergency service communication district are all registered voters residing within the district.

A county legislative authority proposing to consolidate existing emergency service communication districts shall conduct a hearing at the time and place specified in a notice published at least once, not less than ten days prior to the hearing, in a newspaper of general circulation within the emergency service communication districts. All hearings shall be public and the county legislative authority shall hear objections from any person affected by the consolidation of the emergency service communication districts. Following the hearing, the county legislative authority may consolidate the emergency service communication districts, if the county legislative authority finds the action to be in the public interest and adopts a resolution providing for the action. The county legislative authority shall specify the manner in which consolidation is to be accomplished.

A county legislative authority proposing to dissolve an existing emergency service communication district shall conduct a hearing at the time and place specified in a notice published at least once, not less than ten days prior to the hearing, in a newspaper of general circulation within the emergency service communication district. All hearings shall be public and the county legislative authority shall hear objections from any person affected by the dissolution of the emergency service communication district. Following the hearing, the county legislative authority may dissolve the emergency service communication district, if the county legislative authority finds the action to be in the public interest and adopts a resolution providing for the action. The county legislative authority shall specify the manner in which dissolution is to be accomplished and shall supervise the liquidation of any assets and the satisfaction of any outstanding indebtedness. [1994 c 54 § 1; 1987 c 17 § 1.]

82.14B.090 Emergency service communication districts—Emergency service communication system—Financing—Excise tax. An emergency service communication district is authorized to finance and provide an emergency service communication system and to finance the system by imposing the excise tax authorized in RCW 82.14B.030. [1991 c 54 § 13; 1987 c 17 § 3.]

under RCW 82.14B.070 and 82.14B.090. [1991 c 54 § 14; 1987 c 17 § 4.]

Referral to electorate—1991 c 54: See note following RCW 38.52.030.

82.14B.900 Severability—1981 c 160. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1981 c 160 § 7.]

Intent—1981 c 144: "The legislature recognizes that there have been significant changes in the nature of the telephone business in recent years. Once solely the domain of regulated monopolies, the telephone business has now been opened up to competition with respect to most of its services and equipment. As a result of this competition, the state and local excise tax structure in the state of Washington has become discriminatory when applied to regulated telephone company transactions that are similar in nature to those consummated by nonregulated competitors. Telephone companies are forced to operate at a significant state and local tax disadvantage when compared to these nonregulated competitors.

To remedy this situation, it is the intent of the legislature to place telephone companies and nonregulated competitors of telephone companies on an equal excise tax basis with regard to the providing of similar goods and services. Therefore competitive telephone services shall for excise tax purposes only, unless otherwise provided, be treated as retail sales under the applicable state and local business and occupation and sales and use taxes. This shall not affect any requirement that regulated telephone companies have under Title 80 RCW, unless otherwise provided.

Nothing in this act affects the authority and responsibility of the Washington utilities and transportation commission to set fair, just, reasonable, and sufficient rates for telephone service." [1981 c 144 § 1.]

Severability—1981 c 144: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1981 c 144 § 12.]

Effective date—1981 c 144: "This act shall take effect on January 1, 1982." [1981 c 144 § 13.]

This deduction is allowed only with respect to water distribution, light and power, gas distribution or other public service businesses which furnish water, electrical energy, gas or any other commodity in the performance of public service businesses;

(3) Amounts actually paid by a taxpayer to another person taxable under this chapter as the latter's portion of the consideration due for services furnished jointly by both, if the total amount has been credited to and appears in the gross income reported for tax by the former;

(4) The amount of cash discount actually taken by the purchaser or customer;

(5) The amount of credit losses actually sustained by taxpayers whose regular books of accounts are kept upon an accrual basis;

(6) Amounts derived from business which the state is prohibited from taxing under the Constitution of this state or the Constitution or laws of the United States;

(7) Amounts derived from the distribution of water through an irrigation system, for irrigation purposes;

(8) Amounts derived from the transportation of commodities from points of origin in this state to final destination outside this state, or from points of origin outside this state to final destination in this state, with respect to which the carrier grants to the shipper the privilege of stopping the shipment in transit at some point in this state for the purpose of storing, manufacturing, milling, or other processing, and thereafter forwards the same commodity, or its equivalent, in the same or converted form, under a through freight rate from point of origin to final destination; and amounts derived from the transportation of commodities from points of origin in the state to an export elevator, wharf, dock or ship side on tidewater or navigable tributaries thereto from which such commodities are forwarded, without intervening transportation, by vessel, in their original form, to interstate or foreign destinations: PROVIDED, That no deduction will be allowed when the point of origin and the point of delivery to such an export elevator, wharf, dock, or ship side are located within the corporate limits of the same city or town;

(9) Amounts derived from the production, sale, or transfer of electrical energy for resale or consumption outside the state;

(10) Amounts derived from the distribution of water by a nonprofit water association and used for capital improvements by that nonprofit water association;

(b) Forty percent of wholesale power cost paid during the reporting period, if the light and power business has more than five and one-half but less than eleven customers per mile.

(c) Thirty percent of the wholesale power cost paid during the reporting period, if the light and power business has more than eleven but less than seventeen customers per mile of line.

If more than fifty percent of the kilowatt hours sold by a light and power business are sold to irrigators, then only sales to nonirrigators shall be used to calculate the average electric power rate for that light and power business. For purposes of this subsection, the department shall determine state average electric power rate each year based on the most recent available data and shall inform taxpayers of its determination.

(4) Four hundred thousand dollars per month. [1996 c 145 § 1; 1994 c 236 § 1.]

82.18.010 Definitions. For purposes of this chapter:

(1) "Solid waste collection business" means every person who receives solid waste for transfer, storage, or disposal including but not limited to all collection services, public or private dumps, transfer stations, and similar operations.

(2) "Person" shall have the meaning given in RCW 82.04.030 or any later, superseding section.

(3) "Solid waste" means garbage, trash, rubbish, or other material discarded as worthless or not economically viable for further use. The term does not include hazardous or toxic waste nor does it include material collected primarily for recycling or salvage.

(4) "Taxpayer" means that person upon whom the solid waste collection tax is imposed. [1989 c 431 § 78; 1986 c 282 § 6.]

82.18.020 Solid waste collection tax—Revenue to public works assistance account per RCW 82.18.040. There is imposed on each person using the solid waste services of a solid waste collection business a solid waste collection tax equal to three and six-tenths percent of the consideration charged for the services. [1989 c 431 § 79; 1986 c 282 § 7.]

Section captions not law—1989 c 431: See RCW 70.95.902.

82.18.030 Collection of tax. The person collecting the charges made for using the solid waste collection business shall collect the tax imposed in this chapter. If any person charged with collecting the tax fails to bill the taxpayer for the tax, or in the alternative has not notified the taxpayer in writing of the imposition of the tax, or having collected the tax, fails to pay it to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she shall, nevertheless, be personally liable to the state for the amount of the tax. [1989 c 431 § 84; 1986 c 282 § 8.]

82.18.040 Collection of tax—Payment to state. Taxes collected under this chapter shall be held in trust until paid to the state. Except for taxes received under *RCW 82.18.100, taxes so received by the state shall be deposited in the public works assistance account created in RCW 43.155.050. Any person collecting the tax who appropriates or converts the tax collected shall be guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. If a taxpayer fails to pay the tax imposed by this chapter to the person charged with collection of the tax and the person charged with collection fails to pay the tax to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the tax.

The tax shall be due from the taxpayer within twenty-five days from the date the taxpayer is billed by the person collecting the tax.

The tax shall be due from the person collecting the tax at the end of the tax period in which the tax is received from the taxpayer. If the taxpayer remits only a portion of the total amount billed for taxes, consideration, and related charges, the amount remitted shall be applied first to payment of the solid waste collection tax and this tax shall have priority over all other claims to the amount remitted. [1989 c 431 § 85; 1986 c 282 § 9.]

government or to services rendered under a contract therewith. [1989 c 431 § 86; 1986 c 282 § 10.]

82.18.060 No multiple taxation of single transaction. To prevent pyramiding and multiple taxation of a single transaction, the solid waste collection taxes imposed in this chapter shall not apply to any solid waste collection business using the services of another solid waste collection business for the transfer, storage, processing, or disposal of the waste collected during the transaction.

To be eligible for this exemption, a person first must be certified by the department of revenue as a solid waste collection business. [1989 c 431 § 87; 1986 c 282 § 11.]

82.18.070 Applicability of general administrative provisions. Chapter 82.32 RCW applies to the taxes imposed under this chapter. [1989 c 431 § 88; 1986 c 282 § 12.]

82.18.080 Enforcement. The department of revenue shall have the power to enforce the taxes imposed in this chapter through appropriate rules. [1989 c 431 § 89; 1986 c 282 § 13.]

82.18.900 Severability—1986 c 282. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1986 c 282 § 22.]

82.19.030 Rule-making authority tax—Items subject to—Reporting and accounting. (1) The department of revenue, by rule, may, if such is required, define those items subject to tax under RCW 82.19.020. In making any such definitions, the department of revenue shall be guided by the following standards:

(a) It is the purpose of this chapter to accomplish effective control of litter within this state;

(b) It is the purpose of this chapter to allocate a portion of the cost of administration of this chapter to those industries manufacturing and/or selling products and the packages, wrappings, or containers thereof which are reasonably related to the litter problem within this state.

(2) Instead of requiring each business to separately account for taxable and nontaxable products under this chapter, the department may provide, by rule, that the tax imposed in this chapter be reported and paid based on a percentage of total sales for a particular type of business if the department determines that the percentage reasonably approximates the taxable activity of the particular type of business. [1992 c 175 § 5; 1971 ex.s. c 307 § 14. Formerly RCW 70.93.140.]

82.21.920	Effective date—1989 c 2.
82.21.921	Severability—1989 c 2.

82.21.010 Intent of pollution tax. It is the intent of this chapter to impose a tax only once for each hazardous substance possessed in this state and to tax the first possession of all hazardous substances, including substances and products that the department of ecology determines to present a threat to human health or the environment. However, it is not intended to impose a tax on the first possession of small amounts of any hazardous substance (other than petroleum and pesticide products) that is first possessed by a retailer for the purpose of sale to ultimate consumers. This chapter is not intended to exempt any person from tax liability under any other law. [1989 c 2 § 8 (Initiative Measure No. 97, approved November 8, 1988).]

82.21.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Hazardous substance" means:

(a) Any substance that, on March 1, 1989, is a hazardous substance under section 101(14) of the federal comprehensive environmental response, compensation, and liability act of 1980, 42 U.S.C. Sec. 9601(14), as amended by Public Law 99-499;

(b) Petroleum products;

(c) Any pesticide product required to be registered under the federal insecticide, fungicide and rodenticide act; and

(d) Any other substance, category of substance, and any product or category of product determined by the director of ecology by rule to present a threat to human health or the environment if released into the environment. The director of ecology shall not add or delete substances from this definition more often than twice during each calendar year. For tax purposes, changes in this definition shall take effect on the first day of the next month that is at least thirty days after the effective date of the rule. The word "product" or

"products" as used in this paragraph (d) means an item or items containing both: (i) One or more substances that are hazardous substances under (a), (b), or (c) of this subsection or that are substances or categories of substances determined under this paragraph (d) to present a threat to human health or the environment if released into the environment; and (ii) one or more substances that are not hazardous substances.

(2) "Petroleum product" means plant condensate, lubricating oil, gasoline, aviation fuel, kerosene, diesel motor fuel, benzol, fuel oil, residual oil, liquefied or liquefiable gases such as butane, ethane, and propane, and every other product derived from the refining of crude oil, but the term does not include crude oil.

(3) "Possession" means the control of a hazardous substance located within this state and includes both actual and constructive possession. "Actual possession" occurs when the person with control has physical possession. "Constructive possession" occurs when the person with control does not have physical possession. "Control" means the power to sell or use a hazardous substance or to authorize the sale or use by another.

(4) "Previously taxed hazardous substance" means a hazardous substance in respect to which a tax has been paid under this chapter and which has not been remanufactured or reprocessed in any manner (other than mere repackaging or recycling for beneficial reuse) since the tax was paid.

(5) "Wholesale value" means fair market wholesale value, determined as nearly as possible according to the wholesale selling price at the place of use of similar substances of like quality and character, in accordance with rules of the department.

(6) Except for terms defined in this section, the definitions in chapters 82.04, 82.08, and 82.12 RCW apply to this chapter. [1989 c 2 § 9 (Initiative Measure No. 97, approved November 8, 1988).]

82.21.030 Pollution tax. (1) A tax is imposed on the privilege of possession of hazardous substances in this state. The rate of the tax shall be seven-tenths of one percent multiplied by the wholesale value of the substance.

(2) Moneys collected under this chapter shall be deposited in the toxics control accounts under RCW 70.105D.070.

(3) Chapter 82.32 RCW applies to the tax imposed in this chapter. The tax due dates, reporting periods, and return requirements applicable to chapter 82.04 RCW apply equally to the tax imposed in this chapter. [1989 c 2 § 10 (Initiative Measure No. 97, approved November 8, 1988).]

82.21.040 Exemptions. The following are exempt from the tax imposed in this chapter:

(1) Any successive possession of a previously taxed hazardous substance. If tax due under this chapter has not been paid with respect to a hazardous substance, the department may collect the tax from any person who has had possession of the hazardous substance. If the tax is paid by any person other than the first person having taxable possession of a hazardous substance, the amount of tax paid shall constitute a debt owed by the first person having taxable possession to the person who paid the tax.

(2) Any possession of a hazardous substance by a natural person under circumstances where the substance is used, or is to be used, for a personal or domestic purpose (and not for any business purpose) by that person or a relative of, or person residing in the same dwelling as, that person.

(3) Any possession of a hazardous substance amount which is determined as minimal by the department of ecology and which is possessed by a retailer for the purpose of making sales to ultimate consumers. This exemption does not apply to pesticide or petroleum products.

(4) Any possession of alumina or natural gas.

(5) Persons or activities which the state is prohibited from taxing under the United States Constitution.

(6) Any persons possessing a hazardous substance where such possession first occurred before March 1, 1989. [1989 c 2 § 11 (Initiative Measure No. 97, approved November 8, 1988).]

82.21.050 Credits. (1) Credit shall be allowed in accordance with rules of the department of revenue for taxes paid under this chapter with respect to fuel carried from this state in the fuel tank of any airplane, ship, truck, or other vehicle.

(2) Credit shall be allowed, in accordance with rules of the department, against the taxes imposed in this chapter for any hazardous substance tax paid to another state with respect to the same hazardous substance. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to that hazardous substance. For the purpose of this subsection:

(a) "Hazardous substance tax" means a tax:

(i) Which is imposed on the act or privilege of possessing hazardous substances, and which is not generally imposed on other activities or privileges; and

(ii) Which is measured by the value of the hazardous substance, in terms of wholesale value or other terms, and in the determination of which the deductions allowed would not constitute the tax an income tax or value added tax.

(b) "State" means (i) the state of Washington, (ii) a state of the United States other than Washington, or any political subdivision of such other state, (iii) the District of Columbia, and (iv) any foreign country or political subdivision thereof. [1989 c 2 § 12 (Initiative Measure No. 97, approved November 8, 1988).]

Balance determinations by the department under this section are final and shall not be used to challenge the validity of any tax imposed under this section. For each subsequent calendar quarter, tax shall be imposed under this section during the entire calendar quarter unless:

(a) Tax was imposed under this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than fifteen million dollars; or

(1) "Barrel" means a unit of measurement of volume equal to forty-two United States gallons of crude oil or petroleum product.

(2) "Crude oil" means any naturally occurring liquid hydrocarbons at atmospheric temperature and pressure coming from the earth, including condensate and natural gasoline.

(3) "Department" means the department of revenue.

(4) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

(5) "Navigable waters" means those waters of the state and their adjoining shorelines that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

(6) "Person" has the meaning provided in RCW 82.04.030.

(7) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as a fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

(8) "Taxpayer" means the person owning crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal in this state from a waterborne vessel or barge and who is liable for the taxes imposed by this chapter.

(9) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of travelling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine. [1992 c 73 § 6; 1991 c 200 § 801.]

Severability—1992 c 73: See RCW 90.56.905.

82.23B.020 Oil spill response tax—Oil spill administration tax—Study of tax credits. (1) An oil spill response tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge at the rate of two cents per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge at the rate of three cents per barrel of crude oil or petroleum product.

(3) The taxes imposed by this chapter shall be collected by the marine terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the imposition of the taxes, or having collected the taxes, fails to pay them to the depart-

ment in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she shall, nevertheless, be personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine terminal operator shall relieve the owner from further liability for the taxes.

(4) Taxes collected under this chapter shall be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected shall be guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected shall be stated separately from other charges made by the marine terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes shall be due from the marine terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine terminal operator or to the department, shall constitute a debt from the taxpayer to the marine terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, shall be guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department shall give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department shall provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator shall relieve the marine terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section shall be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill administration account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management shall determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and shall not be used to challenge the validity of any tax imposed under this chapter. The office of financial management shall promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the

tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than twenty-five million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than fifteen million dollars.

(11) The *office of marine safety, the department of revenue, and the department of community, trade, and economic development shall study tax credits for taxpayers employing vessels with the best achievable technology and the best available protection to reduce the risk of oil spills to the navigable waters of the state and submit the study to the appropriate standing committees of the legislature by December 1, 1992. [1995 c 399 § 214; 1992 c 73 § 7; 1991 c 200 § 802.]

*Reviser's note: The office of marine safety was transferred to the department of ecology and renamed the integrated oil spill prevention and response program by 1995 2nd sp.s. c 14 § 515, effective January 1, 1996, until June 30, 1997.

Severability—1992 c 73: See RCW 90.56.905.

82.23B.030 Exemption. The taxes imposed under this chapter shall only apply to the first receipt of crude oil or petroleum products at a marine terminal in this state and not to the later transporting and subsequent receipt of the same oil or petroleum product, whether in the form originally received at a marine terminal in this state or after refining or other processing. [1992 c 73 § 9; 1991 c 200 § 803.]

Severability—1992 c 73: See RCW 90.56.905.

82.23B.040 Credit—Crude oil or petroleum exported or sold for export. (2) "Indian tribal organization" means a federally recognized Indian tribe, or tribal entity, and includes an Indian wholesaler or retailer that is owned by an Indian who is an enrolled tribal member conducting business under tribal license or similar tribal approval within Indian country. For purposes of this chapter "Indian country" is defined in the manner set forth in 18 U.S.C. Sec. 1151.

(3) "Precollection obligation" means the obligation of a seller otherwise exempt from the tax imposed by this chapter to collect the tax from that seller's buyer.

(4) "Retailer" means every person, other than a wholesaler, who purchases, sells, offers for sale or distributes any one or more of the articles taxed herein, irrespective of quantity or amount, or the number of sales, and all persons operating under a retailer's registration certificate.

(5) "Retail selling price" means the ordinary, customary or usual price paid by the consumer for each package of cigarettes, less the tax levied by this chapter and less any similar tax levied by this state.

(6) "Stamp" means the stamp or stamps by use of which the tax levy under this chapter is paid or identification is made of those cigarettes with respect to which no tax is imposed.

(7) "Wholesaler" means every person who purchases, sells, or distributes any one or more of the articles taxed herein to retailers for the purpose of resale only.

(8) The meaning attributed, in chapter 82.04 RCW, to the words "person," "sale," "business" and "successor" applies equally in this chapter. [1995 c 278 § 1; 1961 c 15 § 82.24.010. Prior: 1959 c 270 § 9; 1949 c 228 § 14; 1935 c 180 § 83; Rem. Supp. 1949 § 8370-83.]

82.24.030 Stamps. The stamps must be affixed on the smallest container or package that will be handled, sold, used, consumed, or distributed, to permit the department to readily ascertain by inspection, whether or not such tax has been paid or whether an exemption from the tax applies.

(2) Except as otherwise provided in this chapter, every person shall cause to be affixed on every package of cigarettes, stamps of an amount equaling the tax due thereon or stamps identifying the cigarettes as exempt before he or she sells, offers for sale, uses, consumes, handles, removes, or otherwise disturbs and distributes the same: **PROVIDED,** That where it is established to the satisfaction of the department that it is impractical to affix such stamps to the smallest container or package, the department may authorize the affixing of stamps of appropriate denomination to a large container or package. (b) Any wholesaler in the state who is licensed under Washington state law and who furnishes a surety bond in a sum satisfactory to the department, shall be permitted to set aside, without affixing the stamps required by this chapter, such part of the wholesaler's stock as may be necessary for the conduct of the wholesaler's business in making sales to persons in another state or foreign country or to instrumentalities of the federal government. Such unstamped stock shall be kept separate and apart from stamped stock.

(2) Every wholesaler licensed under Washington state law shall, at the time of shipping or delivering any of the articles taxed herein to a point outside of this state or to a federal instrumentality, make a true duplicate invoice of the same which shall show full and complete details of the sale or delivery, whether or not stamps were affixed thereto, and shall transmit such true duplicate invoice to the department, at Olympia, not later than the fifteenth day of the following calendar month. For failure to comply with the requirements of this section, the department may revoke the permission granted to the taxpayer to maintain a stock of goods to which the stamps required by this chapter have not been affixed.

Effective dates—Severability—1971 ex.s. c 299: See notes following RCW 82.04.050.

82.24.080 Legislative intent—Taxable event—Tax liability. (1) It is the intent and purpose of this chapter to levy a tax on all of the articles taxed under this chapter, sold, used, consumed, handled, possessed, or distributed within this state and to collect the tax from the person who first sells, uses, consumes, handles, possesses (either physically or constructively, in accordance with RCW 82.24.020) or distributes them in the state. It is further the intent and purpose of this chapter that whenever any of the articles taxed under this chapter is given away for advertising or any other purpose, it shall be taxed in the same manner as if it were sold, used, consumed, handled, possessed, or distributed in this state.

(2) It is also the intent and purpose of this chapter that the tax shall be imposed at the time and place of the first taxable event and upon the first taxable person within this state. Any person whose activities would otherwise require payment of the tax imposed by subsection (1) of this section but who is exempt from the tax nevertheless has a precollection obligation for the tax that must be imposed on the first taxable event within this state. A precollection obligation may not be imposed upon a person exempt from the tax who sells, distributes, or transfers possession of cigarettes to another person who, by law, is exempt from the tax imposed by this chapter or upon whom the obligation for collection of the tax may not be imposed. Failure to pay the tax with respect to a taxable event shall not prevent tax liability from arising by reason of a subsequent taxable event.

(3) In the event of an increase in the rate of the tax imposed under this chapter, it is the intent of the legislature that the first person who sells, uses, consumes, handles, possesses, or distributes previously taxed articles after the effective date of the rate increase shall be liable for the additional tax, or its precollection obligation as required by this chapter, represented by the rate increase. The failure to pay the additional tax with respect to the first taxable event after the effective date of a rate increase shall not prevent tax liability for the additional tax from arising from a subsequent taxable event. [1995 c 278 § 5; 1993 c 492 § 308; 1972 ex.s. c 157 § 4; 1961 c 15 § 82.24.080. 82.24.090 Records—Preservation—Reports. (1) Every wholesaler or retailer subject to the provisions of this chapter shall keep and preserve for a period of five years an accurate set of records. These records must show all transactions relating to the purchase and sale of any of the articles taxed under this chapter and show all physical inventories performed on those articles, all invoices, and a record of all stamps purchased. All such records and all stock of taxable articles on hand shall be open to inspection at all reasonable times by the department of revenue or its duly authorized agent.

(2) All wholesalers shall within fifteen days after the first day of each month file with the department of revenue a report of all drop shipment sales made by them to retailers within this state during the preceding month. The report shall show the name and address of the retailer to whom the cigarettes were sold, the kind and quantity, and the date of delivery thereof. [1995 c 278 § 6; 1975 1st ex.s. c 278 § 62; 1961 c 15 § 82.24.090. Prior: 1941 c 178 § 14; 1939 c 225 § 24; 1935 c 180 § 84; Rem. Supp. 1941 § 8370-84.]

Construction—Severability—1975 1st ex.s. c 278: See notes following RCW 11.08.160.

82.24.100 Forgery or counterfeiting of stamps—Penalty. To forge or counterfeit any stamp of the kind herein provided is a felony. [1961 c 15 § 82.24.100. Prior: 1935 c 180 § 85; RRS § 8370-85.]

82.24.110 Other offenses—Penalties. (1) Each of the following acts is a gross misdemeanor and punishable as such:

(a) To sell, except as a licensed wholesaler engaged in interstate commerce as to the article being taxed herein, without the stamp first being affixed;

(b) To sell in Washington as a wholesaler to a retailer who does not possess and is required to possess a current cigarette retailer's license;

(c) To use or have in possession knowingly or intentionally any forged or counterfeit stamps;

(d) For any person other than the department of revenue or its duly authorized agent to sell any stamps not affixed to any of the articles taxed herein whether such stamps are genuine or counterfeit;

(e) To violate any of the provisions of this chapter;

(f) To violate any lawful rule made and published by the department of revenue;

(g) To use any stamps more than once;

(h) To refuse to allow the department of revenue or its duly authorized agent, on demand, to make full inspection of any place of business where any of the articles herein taxed are sold or otherwise hinder or prevent such inspection;

(i) Except as provided in this chapter, for any retailer to have in possession in any place of business any of the articles herein taxed, unless the same have the proper stamps attached;

(j) For any person to make, use, or present or exhibit to the department of revenue or its duly authorized agent, any invoice for any of the articles herein taxed which bears an untrue date or falsely states the nature or quantity of the goods therein invoiced;

(k) For any wholesaler or retailer or his or her agents or employees to fail to produce on demand of the department of revenue all invoices of all the articles herein taxed or stamps bought by him or her or received in his or her place of business within five years prior to such demand unless he or she can show by satisfactory proof that the nonproduction of the invoices was due to causes beyond his or her control;

(l) For any person to receive in this state any shipment of any of the articles taxed herein, when the same are not stamped, for the purpose of avoiding payment of tax. It is presumed that persons other than dealers who purchase or receive shipments of unstamped cigarettes do so to avoid payment of the tax imposed herein;

(m) For any person to possess or transport in this state a quantity of sixty thousand cigarettes or less unless the proper stamps required by this chapter have been affixed or unless: (i) Notice of the possession or transportation has been given as required by RCW 82.24.250; (ii) the person transporting the cigarettes has in actual possession invoices or delivery tickets which show the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of the cigarettes so transported; and (iii) the cigarettes are consigned to or purchased by any person in this state who is authorized by this chapter to possess unstamped cigarettes in this state.

(2) It is unlawful for any person knowingly or intentionally to possess or to transport in this state a quantity in excess of sixty thousand cigarettes unless the proper stamps required by this chapter are affixed thereto or unless: (a) Proper notice as required by RCW 82.24.250 has been given; (b) the person transporting the cigarettes actually possesses invoices or delivery tickets showing the true name and address of the consignor or seller, the true name and address of the consignee or purchaser, and the quantity and brands of the cigarettes so transported; and (c) the cigarettes are consigned to or purchased by a person in this state who is authorized by this chapter to possess unstamped cigarettes in this state. (ii) A conveyance subject to forfeiture under this section by reason of any act or omission of which the owner thereof establishes to have been committed or omitted without his or her knowledge or consent;

(iii) A conveyance encumbered by a bona fide security interest if the secured party neither had knowledge of nor consented to the act or omission.

(c) Any vending machine used for the purpose of violating the provisions of this chapter.

(2) Property subject to forfeiture under this chapter may be seized by any agent of the department authorized to collect taxes or law enforcement officer of this state upon process issued by any superior court or district court having jurisdiction over the property. Seizure without process may be made if:

(a) The seizure is incident to an arrest or a search under a search warrant or an inspection under an administrative inspection warrant; or

(2) Upon notification or seizure by the department or upon receipt of property subject to forfeiture under this chapter from any other person, the department shall list and particularly describe the property seized in duplicate and have the property appraised by a qualified person not employed by the department or acting as its agent. Listing and appraisal of the property shall be properly attested by the department and the appraiser, who shall be allowed a reasonable appraisal fee. No appraisal is required if the property seized is judged by the department to be less than one hundred dollars in value.

(3) The department shall cause notice to be served within five days following the seizure or notification to the department of the seizure on the owner of the property seized, if known, on the person in charge thereof, and on any other person having any known right or interest therein, of the seizure and intended forfeiture of the seized property. The notice may be served by any method authorized by law or court rule including but not limited to service by mail. If service is by mail it shall be by both certified mail with return receipt requested and regular mail. Service by mail shall be deemed complete upon mailing within the five-day period following the seizure or notification of the seizure to the department.

(4) If no person notifies the department in writing of the person's claim of ownership or right to possession of the items seized within fifteen days of the date of the notice of seizure, the item seized shall be considered forfeited.

(5) If any person notifies the department, in writing, of the person's claim of ownership or right to possession of the items seized within fifteen days of the date of the notice of seizure, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the director or the director's designee, except that any person asserting a claim or right may bring an action for return of the seized items in the superior court of the county in which such property was seized, if the aggregate value of the article or articles involved is more than five hundred dollars. A hearing before the seizing agency and any appeal therefrom shall be in accordance with chapter 34.05 RCW. The burden of proof by a preponderance of the evidence shall be upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the items seized. The department shall promptly return the article or articles to the claimant upon a determination that the claimant is the present lawful owner or is lawfully entitled to possession thereof of the items seized. (*Effective January 1, 1997.*) (1) Any additional tax liability arising from a tax rate increase under this chapter shall be paid, along with reports and returns prescribed by the department, on or before the last day of the month in which the increase becomes effective.

(2) If not paid by the due date, interest shall apply to any unpaid tax. Interest shall be calculated at the rate as computed under RCW 82.32.050(2) from the date the tax became due until the date of payment.

(3) If upon examination of any returns or from other information obtained by the department it appears that a tax or penalty has been paid less than that properly due, the department shall assess against the taxpayer such additional amount found to be due. The department shall notify the taxpayer by mail of the additional amount due, including any applicable penalties and interest. The taxpayer shall pay the additional amount within thirty days from the date of the notice, or within such further time as the department may provide.

(4) All of chapter 82.32 RCW applies to tax rate increases except: RCW 82.32.050(1) and 82.32.270. [1996 c 149 § 10; 1995 c 278 § 13.]

A violation of this section is a misdemeanor. [1986 c 321 § 4.]

Policy—Intent—1986 c 321: "It is the policy of the legislature to encourage competition by reducing the government's role in price setting. It is the legislature's intent to leave price setting mainly to the forces of the marketplace. In the field of cigarette sales, the legislature finds that the goal of open competition should be balanced against the public policy disallowing use of cigarette sales as loss leaders. To balance these public policies, it is the intent of the legislature to repeal the unfair cigarette sales below cost act and to declare the use of cigarettes as loss leaders as an unfair practice under the consumer protection act." [1986 c 321 § 1.]

Savings—1986 c 321: "A cigarette wholesalers or retailers license issued by the department of licensing under RCW 19.91.130 in good standing on the July 1, 1991, constitutes a license under RCW 82.24.500." [1986 c 321 § 11.]

The department of revenue may refrain from the issuance of any license under this chapter if the department has reasonable cause to believe that the applicant has wilfully withheld information requested for the purpose of determining the eligibility of the applicant to receive a license, or if the department has reasonable cause to believe that information submitted in the application is false or misleading or is not made in good faith. Each such license shall expire on the master license expiration date, and each such license shall be continued annually if the licensee has paid the required fee and complied with all the provisions of this chapter and the rules of the department of revenue made pursuant thereto. [1986 c 321 § 5.]

If a wholesaler sells or intends to sell cigarettes at two or more places of business, whether established or temporary, a separate license with a license fee of one hundred fifteen dollars shall be required for each additional place of business. Each license, or certificate thereof, and such other evidence of license as the department of revenue requires, shall be exhibited in the place of business for which it is issued and in such manner as is prescribed for the display of a master license. The depart-

ment of revenue shall require each licensed wholesaler to file with the department a bond in an amount not less than one thousand dollars to guarantee the proper performance of the duties and the discharge of the liabilities under this chapter. The bond shall be executed by such licensed wholesaler as principal, and by a corporation approved by the department of revenue and authorized to engage in business as a surety company in this state, as surety. The department of revenue has full power and authority to revoke or suspend the license or permit of any wholesale or retail cigarette dealer in the state upon sufficient cause appearing of the violation of this chapter or upon the failure of such licensee to comply with any of the provisions of this chapter.

(2) A license shall not be suspended or revoked except upon notice to the licensee and after a hearing as prescribed by the department of revenue. The department of revenue, upon a finding by same, that the licensee has failed to comply with any provision of this chapter or any rule promulgated thereunder, shall, in the case of the first offender, suspend the license or licenses of the licensee for a period of not less than thirty consecutive business days, and, in the case of a second or plural offender, shall suspend the license or licenses for a period of not less than ninety consecutive business days nor more than twelve months, and, in the event the department of revenue finds the offender has

been guilty of willful and persistent violations, it may revoke the license or licenses.

(3) Any person whose license or licenses have been so revoked may apply to the department of revenue at the expiration of one year for a reinstatement of the license or licenses. The license or licenses may be reinstated by the department of revenue if it appears to the satisfaction of the department of revenue that the licensee will comply with the provisions of this chapter and the rules promulgated thereunder.

82.27.010 Definitions. As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Enhanced food fish" includes all species of food fish, except all species of tuna, mackerel, and jack; shellfish; and anadromous game fish, including byproducts and parts thereof, originating within the territorial and adjacent waters of Washington and salmon originating from within the territorial and adjacent waters of Oregon, Washington, and British Columbia, and all troll-caught Chinook salmon originating from within the territorial and adjacent waters of southeast Alaska. As used in this subsection, "adjacent" waters of Oregon, Washington, and Alaska are those comprising the United States fish conservation zone; "adjacent" waters of British Columbia are those comprising the Canadian two hundred mile exclusive economic zone; and "southeast Alaska" means that portion of Alaska south and east of Cape Suckling to the Canadian border. For purposes of this chapter, point of origination is established by a document which identifies the product and state or province in which it originates, including, but not limited to fish tickets, bills of lading, invoices, or other documentation required to be kept by governmental agencies.

(2) "Commercial" means related to or connected with buying, selling, bartering, or processing.

(3) "Possession" means the control of enhanced food fish by the owner and includes both actual and constructive possession. Constructive possession occurs when the person has legal ownership but not actual possession of the enhanced food fish.

(4) "Anadromous game fish" means steelhead trout and anadromous cutthroat trout and Dolly Varden char and includes byproducts and also parts of anadromous game fish, whether fresh, frozen, canned, or otherwise.

(5) "Landed" means the act of physically placing enhanced food fish (a) on a tender in the territorial waters of Washington; or (b) on any land within or without the state of Washington including wharves, piers, or any such extensions therefrom. 82.27.020 Excise tax imposed—Deduction—Measure of tax—Rates—Additional tax imposed. (1) In addition to all other taxes, licenses, or fees provided by law there is established an excise tax on the commercial possession of enhanced food fish as provided in this chapter. The tax is levied upon and shall be collected from the owner of the enhanced food fish whose possession constitutes the taxable event. The taxable event is the first possession in Washington by an owner. Processing and handling of enhanced food fish by a person who is not the owner is not a taxable event to the processor or handler.

(2) A person in possession of enhanced food fish and liable to this tax may deduct from the price paid to the person from which the enhanced food fish (except oysters) are purchased an amount equal to a tax at one-half the rate levied in this section upon these products.

(3) The measure of the tax is the value of the enhanced food fish at the point of landing.

(4) The tax shall be equal to the measure of the tax multiplied by the rates for enhanced food fish as follows:

(a) Chinook, coho, and chum salmon and anadromous game fish: Five and twenty-five one-hundredths percent.

(b) Pink and sockeye salmon: Three and fifteen one-hundredths percent.

(c) Other food fish and shellfish, except oysters: Two and one-tenth percent.

(d) Oysters: Eight one-hundredths of one percent.

The legislature recognizes that license fees obtained from sports fishermen support the majority of the production of these game fish. The legislature finds that commercial operations which benefit from the commercial harvest of these fish should pay a tax to assist in the funding of these facilities. However, the intent of the legislature is not to support the commercial harvest of steelhead and other game fish." [1983 c 284 § 8.]

Severability—Effective dates—1982 1st ex.s. c 35: See notes following RCW 82.08.020.

Such documentation includes, but is not limited to fish tickets, bills of lading, invoices, or other documentation required to be kept by governmental agencies. [1995 2nd sp.s. c 7 § 1; 1985 c 413 § 3; 1980 c 98 § 3.]

Effective date—1995 2nd sp.s. c 7: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995." [1995 2nd sp.s. c 7 § 2.]

82.27.040 Credit for taxes paid to another taxing authority. A credit shall be allowed against the tax imposed by RCW 82.27.020 upon enhanced food fish with respect to any tax previously paid on that same enhanced food fish to any other legally established taxing authority. To qualify for a credit, the owner of the enhanced food fish must have documentation showing a tax was paid in another jurisdiction. [1985 c 413 § 4; 1980 c 98 § 4.]

82.27.050 Application of excise taxes' administrative provisions and definitions. All of the provisions of chapters 82.02 and 82.32 RCW shall be applicable and have full force and effect with respect to taxes imposed under this chapter. The meaning attributed to words and phrases in chapter 82.04 RCW, insofar as applicable, shall have full force and effect with respect to taxes imposed under this chapter. [1980 c 98 § 5.]

82.27.060 Payment of tax—Remittance—Returns. The taxes levied by this chapter shall be due for payment monthly and remittance therefor shall be made within twenty-five days after the end of the month in which the taxable activity occurs. The taxpayer on or before the due date shall make out a signed return, setting out such information as the department of revenue may require, including the gross measure of the tax, any deductions, credits, or exemptions claimed, and the amount of tax due for the preceding monthly period, which amount shall be transmitted to the department along with the return.

The department may relieve any taxpayer from the obligation of filing a monthly return and may require the return to cover other periods, but in no event may periodic returns be filed for a period greater than one year. In such cases tax payments are due on or before the last day of the month next succeeding the end of the period covered by the return. [1990 c 214 § 1; 1980 c 98 § 6.]

82.27.070 Deposit of taxes. All taxes collected by the department of revenue under this chapter shall be deposited in the state general fund except for the excise tax on anadromous game fish, which shall be deposited in the wildlife fund. [1988 c 36 § 61; 1983 c 284 § 7; 1980 c 98 § 7.]

Reviser's note: Throughout chapter 82.29A RCW the term "this 1976 amendatory act" has been changed to "this chapter, RCW 84.36.451 and 84.40.175." This 1976 amendatory act [1975-'76 2nd ex.s. c 61] also repealed chapter 82.29 RCW, RCW 84.36.450, 84.36.455, and 84.36.460.

82.29A.010 Legislative findings and recognition. The legislature hereby recognizes that properties of the state of Washington, counties, school districts, and other municipal corporations are exempted by Article 7, section 1 of the state Constitution from property tax obligations, but that private lessees of such public properties receive substantial benefits from governmental services provided by units of government.

The legislature further recognizes that a uniform method of taxation should apply to such leasehold interests in publicly owned property.

The legislature finds that lessees of publicly owned property are entitled to those same governmental services and does hereby provide for a leasehold excise tax to fairly compensate governmental units for services rendered to such lessees of publicly owned property. [1975-'76 2nd ex.s. c 61 § 1.]

82.29A.020 Definitions. As used in this chapter the following terms shall be defined as follows, unless the context otherwise requires:

(1) "Leasehold interest" shall mean an interest in publicly owned real or personal property which exists by virtue of any lease, permit, license, or any other agreement, written or verbal, between the public owner of the property and a person who would not be exempt from property taxes if that person owned the property in fee, granting possession and use, to a degree less than fee simple ownership: PROVIDED, That no interest in personal property (excluding land or buildings) which is owned by the United States, whether or not as trustee, or by any foreign government shall constitute a leasehold interest hereunder when the right to use such property is granted pursuant to a contract solely for the manufacture or production of articles for sale to the United States or any foreign government. The term "leasehold interest" shall include the rights of use or occupancy by others of property which is owned in fee or held in trust by a public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if the property is listed on or is within a district listed on any federal or state register of historical sites. The term "leasehold interest" shall not include road or utility easements or rights of access, occupancy or use granted solely for the purpose of removing materials or products purchased from a public owner or the lessee of a public owner.

(2) "Taxable rent" shall mean contract rent as defined in subsection (a) of this subsection in all cases where the lease or agreement has been established or renegotiated through competitive bidding, or negotiated or renegotiated in accordance with statutory requirements regarding the rent payable, or negotiated or renegotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor: PROVIDED, That after January 1, 1986, with respect to any lease which has been in effect for ten years or more without renegotiation, taxable rent may be established by procedures set forth in subsection (b) of this subsection. All other leasehold interests shall be subject to the determination of taxable rent under the terms of subsection (b) of this subsection.

For purposes of determining leasehold excise tax on any lands on the Hanford reservation subleased to a private or public entity by the department of ecology, taxable rent shall include only the annual cash rental payment made by such entity to the department of ecology as specifically referred to as rent in the sublease agreement between the parties and shall not include any other fees, assessments, or charges imposed on or collected by such entity irrespective of whether the private or public entity pays or collects such other fees, assessments, or charges as specified in the sublease agreement.

(a) "Contract rent" shall mean the amount of consideration due as payment for a leasehold interest, including: The total of cash payments made to the lessor or to another party for the benefit of the lessor according to the requirements of the lease or agreement, including any rents paid by a sublessee; expenditures for the protection of the lessor's interest when required by the terms of the lease or agreement; and expenditures for improvements to the property to the extent that such improvements become the property of

the lessor. Where the consideration conveyed for the leasehold interest is made in combination with payment for concession or other rights granted by the lessor, only that portion of such payment which represents consideration for the leasehold interest shall be part of contract rent.

"Contract rent" shall not include: (i) Expenditures made by the lessee, which under the terms of the lease or agreement, are to be reimbursed by the lessor to the lessee or expenditures for improvements and protection made pursuant to a lease or an agreement which requires that the use of the improved property be open to the general public and that no profit will inure to the lessee from the lease; (ii) expenditures made by the lessee for the replacement or repair of facilities due to fire or other casualty including payments for insurance to provide reimbursement for losses or payments to a public or private entity for protection of such property from damage or loss or for alterations or additions made necessary by an action of government taken after the date of the execution of the lease or agreement; (iii) improvements added to publicly owned property by a sublessee under an agreement executed prior to January 1, 1976, which have been taxed as personal property of the sublessee prior to January 1, 1976, or improvements made by a sublessee of the same lessee under a similar agreement executed prior to January 1, 1976, and such improvements shall be taxable to the sublessee as personal property; (iv) improvements added to publicly owned property if such improvements are being taxed as personal property to any person.

Any prepaid contract rent shall be considered to have been paid in the year due and not in the year actually paid with respect to prepayment for a period of more than one year. Expenditures for improvements with a useful life of more than one year which are included as part of contract rent shall be treated as prepaid contract rent and prorated over the useful life of the improvement or the remaining term of the lease or agreement if the useful life is in excess of the remaining term of the lease or agreement. Rent prepaid prior to January 1, 1976, shall be prorated from the date of prepayment.

With respect to a "product lease", the value of agricultural products received as rent shall be the value at the place of delivery as of the fifteenth day of the month of delivery; with respect to all other products received as contract rent, the value shall be that value determined at the time of sale under terms of the lease.

(b) If it shall be determined by the department of revenue, upon examination of a lessee's accounts or those of a lessor of publicly owned property, that a lessee is occupying or using publicly owned property in such a manner as to create a leasehold interest and that such leasehold interest has not been established through competitive bidding, or negotiated in accordance with statutory requirements regarding the rent payable, or negotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor, the department may establish a taxable rent computation for use in determining the tax payable under authority granted in this chapter based upon the following criteria: (i) Consideration shall be given to rental being paid to other lessors by lessees of similar property for similar purposes over similar periods of time; (ii) consideration shall be given to what would be considered a fair rate of return on the market value of the

property leased less reasonable deductions for any restrictions on use, special operating requirements or provisions for concurrent use by the lessor, another person or the general public.

(3) "Product lease" as used in this chapter shall mean a lease of property for use in the production of agricultural or marine products to the extent that such lease provides for the contract rent to be paid by the delivery of a stated percentage of the production of such agricultural or marine products to the credit of the lessor or the payment to the lessor of a stated percentage of the proceeds from the sale of such products.

(4) "Renegotiated" means a change in the lease agreement which changes the agreed time of possession, restrictions on use, the rate of the cash rental or of any other consideration payable by the lessee to or for the benefit of the lessor, other than any such change required by the terms of the lease or agreement. In addition "renegotiated" shall mean a continuation of possession by the lessee beyond the date when, under the terms of the lease agreement, the lessee had the right to vacate the premises without any further liability to the lessor.

(5) "City" means any city or town. [1991 c 272 § 23; 1986 c 285 § 1; 1979 ex.s. c 196 § 11; 1975-'76 2nd ex.s. c 61 § 2.]

Effective dates—1991 c 272: See RCW 81.108.901.

Effective date—1979 ex.s. c 196: See note following RCW 82.04.240.

82.29A.030 Tax imposed—Credit—Additional tax imposed. (1) There is hereby levied and shall be collected a leasehold excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest on and after January 1, 1976, at a rate of twelve percent of taxable rent: PROVIDED, That after the computation of the tax there shall be allowed credit for any tax collected pursuant to RCW 82.29A.040.

(2) An additional tax is imposed equal to the rate specified in RCW 82.02.030 multiplied by the tax payable under subsection (1) of this section. [1983 2nd ex.s. c 3 § 18; 1982 1st ex.s. c 35 § 11; 1975-'76 2nd ex.s. c 61 § 3.]

Construction—Severability—Effective dates—1983 2nd ex.s. c 3: See notes following RCW 82.04.255.

Severability—Effective dates—1982 1st ex.s. c 35: See notes following RCW 82.08.020.

82.29A.040 Counties and cities authorized to impose tax—Maximum rate—Credit—Collection. The legislative body of any county or city is hereby authorized to levy and collect a leasehold excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest in publicly owned property within the territorial limits of such county or city. The tax levied by a county under authority of this section shall not exceed six percent and the tax levied by a city shall not exceed four percent of taxable rent: PROVIDED, That any county ordinance levying such tax shall contain a provision allowing a credit against the county tax for the full amount of any city tax imposed upon the same taxable event.

The department of revenue shall perform the collection of such taxes on behalf of such county or city. [1975-'76 2nd ex.s. c 61 § 4.]

82.29A.050 Payment—Due dates—Collection and remittance—Liability—Reporting. (1) The leasehold excise taxes provided for in RCW 82.29A.030 and 82.29A.040 shall be paid by the lessee to the lessor and the lessor shall collect such tax and remit the same to the department of revenue. The tax shall be payable at the same time as payments are due to the lessor for use of the property from which the leasehold interest arises, and in the case of payment of contract rent to a person other than the lessor, at the time of payment. The tax payment shall be accompanied by such information as the department of revenue may require. In the case of prepaid contract rent the payment may be prorated in accordance with instructions of the department of revenue and the prorated portion of the tax shall be due, one-half not later than May 31 and the other half not later than November 30 each year.

(2) The lessor receiving taxes payable under the provisions of this chapter shall remit the same together with a return provided by the department, to the department of revenue on or before the last day of the month following the month in which the tax is collected. The department may relieve any taxpayer or class of taxpayers from the obligation of filing monthly returns and may require the return to cover other reporting periods, but in no event shall returns be filed for a period greater than one year. The lessor shall be fully liable for collection and remittance of the tax. The amount of tax until paid by the lessee to the lessor shall constitute a debt from the lessee to the lessor. The tax required by this chapter shall be stated separately from contract rent, and if not so separately stated for purposes of determining the tax due from the lessee to the lessor and from the lessor to the department, the contract rent does not include the tax imposed by this chapter. Where a lessee has failed to pay to the lessor the tax imposed by this chapter and the lessor has not paid the amount of the tax to the department, the department may, in its discretion, proceed directly against the lessee for collection of the tax: PROVIDED, That taxes due where contract rent has not been paid shall be reported by the lessor to the department and the lessee alone shall be liable for payment of the tax to the department.

(3) Each person having a leasehold interest subject to the tax provided for in this chapter arising out of a lease of federally owned or federal trust lands shall report and remit the tax due directly to the department of revenue in the same manner and at the same time as the lessor would be required to report and remit the tax if such lessor were a state public entity. [1992 c 206 § 6; 1975-'76 2nd ex.s. c 61 § 5.]

Effective date—1992 c 206: See note following RCW 82.04.170.

(2) A lessee, or a sublessee in the case where the sublessee is responsible for paying the tax imposed under this chapter, of property used for residential purposes may petition the county board of equalization for a change in appraised value when the department of revenue establishes taxable rent under RCW 82.29A.020(2)(b) based on an appraisal done by the county assessor at the request of the department. The petition must be on forms prescribed or

approved by the department of revenue and any petition not conforming to those requirements or not properly completed shall not be considered by the board. The petition must be filed with the board within the time period set forth in RCW 84.40.038. A decision of the board of equalization may be appealed by the taxpayer to the board of tax appeals as provided in RCW 84.08.130.

A sublessee, in the case where the sublessee is responsible for paying the tax imposed under this chapter, of property used for residential purposes may petition the department for a change in taxable rent when the department of revenue establishes taxable rent under RCW 82.29A.020(2)(b).

Any change in tax resulting from an appeal under this subsection shall be allocated to the lessee or sublessee responsible for paying the tax.

(3) This section shall not authorize the issuance of any levy upon any property owned by the public lessor.

(4) In selecting leasehold excise tax returns for audit the department of revenue shall give priority to any return an audit of which is specifically requested in writing by the county assessor or treasurer or other chief financial officer of any city or county affected by such return. Notwithstanding the provisions of RCW 82.32.330, findings of fact and determinations of the amount of taxable rent made pursuant to the provisions of this chapter shall be open to public inspection at all reasonable times. The counties and cities shall contract, prior to the effective date of an ordinance imposing a leasehold excise tax, with the department of revenue for administration and collection. The department of revenue shall deduct a percentage amount, as provided by such contract, not to exceed two percent of the taxes collected, for administration and collection expenses incurred by the department. The remainder of any portion of any tax authorized by RCW 82.29A.040 which is collected by the department of revenue shall be deposited by the state department of revenue in the local leasehold excise tax account hereby created in the state treasury. Moneys in the local leasehold excise tax account may be spent only for distribution to counties and cities imposing a leasehold excise tax. [1985 c 57 § 84; 1981 2nd ex.s. c 4 § 8; 1975-'76 2nd ex.s. c 61 § 8.]

Severability—1981 2nd ex.s. c 4: See note following RCW 43.85.130.

82.29A.100 Distributions by county treasurers.

Any moneys received by a county from the leasehold excise tax provided for under RCW 82.29A.040 shall be distributed proportionately by the county treasurer in accordance with RCW 84.56.230 as though such moneys were receipts from regular ad valorem property tax levies within such county: **PROVIDED**, That no distribution shall be made to the state or any city: **AND PROVIDED FURTHER**, That the pro rata calculation for proportionate distribution to taxing districts shall not include consideration of any rate(s) of levy by the state or any city. [1975-'76 2nd ex.s. c 61 § 10.]

82.29A.110 Consistency and uniformity of local leasehold tax with state leasehold tax—Model ordinance.

It is the intent of this chapter that any local leasehold excise tax adopted pursuant to this chapter be as consistent and uniform as possible with the state leasehold excise tax. It is further the intent of this chapter that the local leasehold excise tax shall be imposed upon an individual taxable event simultaneously with the imposition of the state leasehold excise tax upon the same taxable event. The department shall, as soon as practicable, and with the assistance of the appropriate associations of county prosecutors and city attorneys, draft a model ordinance. [1975-'76 2nd ex.s. c 61 § 11.]

82.29A.120 Allowable credits. After computation of the taxes imposed pursuant to RCW 82.29A.030 and 82.29A.040 there shall be allowed the following credits in determining the tax payable:

(1) With respect to a leasehold interest other than a product lease, executed with an effective date of April 1, 1986, or thereafter, or a leasehold interest in respect to which the department of revenue under the authority of RCW 82.29A.020 does adjust the contract rent base used for computing the tax provided for in RCW 82.29A.030, there shall be allowed a credit against the tax as otherwise computed equal to the amount, if any, that such tax exceeds the property tax that would apply to such leased property without regard to any property tax exemption under RCW 84.36.381, if it were privately owned by the lessee or if it were privately owned by any sublessee if the value of the credit inures to the sublessee. For lessees and sublessees who would qualify for a property tax exemption under RCW 84.36.381 if the property were privately owned, the tax otherwise due after this credit shall be reduced by a percentage equal to the percentage reduction in property tax that would result from the property tax exemption under RCW 84.36.381.

(2) With respect to a product lease, a credit of thirty-three percent of the tax otherwise due. [1994 c 95 § 2; 1986 c 285 § 2; 1975-'76 2nd ex.s. c 61 § 12.]

The provisions of this chapter shall apply with respect to the taxes imposed under chapters 82.04 through 82.29A RCW of this title, under chapter 84.33 RCW, and under other titles, chapters, and sections in such manner and to such extent as indicated in each such title, chapter, or section. [1984 c 204 § 26; 1983 c 3 § 219; 1981 c 148 § 12; 1961 c 15 § 82.32.010. Prior: 1935 c 180 § 185; RRS § 8370-185.]

Purpose—Severability—Effective dates—1981 c 148: See notes following RCW 84.33.110.

82.32.020 Definitions. For the purposes of this chapter:

The meaning attributed in chapters 82.01 through 82.27 RCW to the words and phrases "tax year," "taxable year," "person," "company," "gross proceeds of sales," "gross income of the business," "business," "engaging in business," "successor," "gross operating revenue," "gross income," "taxpayer," and "value of products" shall apply equally to the provisions of this chapter. [1983 c 3 § 220; 1961 c 15 § 82.32.020. Prior: 1935 c 180 § 186; RRS § 8370-186.]

82.32.030 Registration certificates—Threshold levels. (1) Except as provided in subsection (2) of this section, if any person engages in any business or performs any act upon which a tax is imposed by the preceding chapters, he or she shall, under such rules as the department of revenue shall prescribe, apply for and obtain from the department a registration certificate. Such registration certificate shall be personal and nontransferable and shall be valid as long as the taxpayer continues in business and pays the tax accrued to the state. In case business is transacted at two or more separate places by one taxpayer, a separate registration certificate for each place at which business is transacted with the public shall be required. Each certificate shall be numbered and shall show the name, residence, and

place and character of business of the taxpayer and such other information as the department of revenue deems necessary and shall be posted in a conspicuous place at the place of business for which it is issued. Where a place of business of the taxpayer is changed, the taxpayer must return to the department the existing certificate, and a new certificate will be issued for the new place of business. No person required to be registered under this section shall engage in any business taxable hereunder without first being so registered. The department, by rule, may provide for the issuance of certificates of registration to temporary places of business.

(2) Unless the person is a dealer as defined in RCW 9.41.010, registration under this section is not required if the following conditions are met:

(a) A person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than twelve thousand dollars per year;

(b) The person's gross income of the business from all activities taxable under chapter 82.16 RCW is less than twelve thousand dollars per year;

(c) The person is not required to collect or pay to the department of revenue any other tax or fee which the department is authorized to collect; and

(d) The person is not otherwise required to obtain a license subject to the master application procedure provided in chapter 19.02 RCW. [1996 c 111 § 2. Prior: 1994 sp.s. c 7 § 446; 1994 sp.s. c 2 § 2; 1992 c 206 § 8; 1982 1st ex.s. c 4 § 1; 1979 ex.s. c 95 § 1; 1975 1st ex.s. c 278 § 77; 1961 c 15 § 82.32.030; prior: 1941 c 178 § 19, part; 1937 c 227 § 16, part; 1935 c 180 § 187, part; Rem. Supp. 1941 § 8370-187, part.]

Findings—Purpose—1996 c 111: "The legislature finds that small businesses play a vital role in the state's current and future economic health. The legislature also finds that the state's excise tax reporting and registration requirements are unduly burdensome for small businesses incurring little or no tax liability. The legislature recognizes the costs associated in complying with the reporting and registration requirements that are hindering the further development of those businesses. For these reasons the legislature with this act simplifies the tax reporting and registration requirements for certain small businesses." [1996 c 111 § 1.]

82.32.045 Taxes—When due and payable—Reporting periods—Verified annual returns—Relief from filing requirements. (1) Except as otherwise provided in this chapter, payments of the taxes imposed under chapters 82.04, 82.08, 82.12, 82.14, and 82.16 RCW, along with reports and returns on forms prescribed by the department, are due monthly within twenty-five days after the end of the month in which the taxable activities occur.

(2) The department of revenue may relieve any taxpayer or class of taxpayers from the obligation of remitting

monthly and may require the return to cover other longer reporting periods, but in no event may returns be filed for a period greater than one year. For these taxpayers, tax payments are due on or before the last day of the month next succeeding the end of the period covered by the return.

(3) The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

(4) Notwithstanding subsections (1) and (2) of this section, the department may relieve any person of the requirement to file returns if the following conditions are met:

(a) The person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than twenty-four thousand dollars per year;

(b) The person's gross income of the business from all activities taxable under chapter 82.16 RCW is less than twenty-four thousand dollars per year; and

(c) The person is not required to collect or pay to the department of revenue any other tax or fee which the department is authorized to collect. [1996 c 111 § 3; 1983 2nd ex.s. c 3 § 63; 1982 1st ex.s. c 35 § 27; 1981 c 172 § 7; 1981 c 7 § 1.]

Effective date—1981 c 7: "This act shall take effect October 1, 1981." [1981 c 172 § 9; 1981 c 7 § 5.]

82.32.050 Deficient tax or penalty payments—Interest—Limitations. (Effective until January 1, 1997.)

(1) If upon examination of any returns or from other information obtained by the department it appears that a tax or penalty has been paid less than that properly due, the department shall assess against the taxpayer such additional amount found to be due and shall add thereto interest at the rate of nine percent per annum from the last day of the year in which the deficiency is incurred until the date of payment for tax liabilities arising before January 1, 1992. For tax liabilities arising after December 31, 1991, until the date of payment, the rate of interest shall be variable and computed as provided in subsection (2) of this section. The rate so computed shall be adjusted on the first day of January of each year. The department shall notify the taxpayer by mail of the additional amount and the same shall become due and shall be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(2) For the purposes of this section, the rate of interest to be charged to the taxpayer shall be an average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate shall be computed by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually, for the months of January, April, July, and October of the immediately preceding calendar year as published by the United States secretary of the treasury.

(3) No assessment or correction of an assessment for additional taxes, penalties, or interest due may be made by the department more than four years after the close of the tax year, except (a) against a taxpayer who has not registered as required by this chapter, (b) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (c) where a taxpayer has executed a written waiver of such limitation. The execution of a written waiver shall also extend the period for making a refund or credit as provided in RCW 82.32.060(2). [1992 c 169 § 1; 1991 c 142 § 9; 1989 c 378 § 19; 1971 ex.s. c 299 § 16; 1965 ex.s. c 141 § 1; 1961 c 15 § 82.32.050. Effective date—Applicability—1992 c 169: "(1) This act shall take effect July 1, 1992.

(2) This act is effective for all written waivers that remain enforceable as of July 1, 1992." [1992 c 169 § 4.]

Effective date—1991 c 142 §§ 9-11: "Sections 9 through 11 of this act shall take effect January 1, 1992." [1991 c 142 § 13.]

Effective dates—Severability—1971 ex.s. c 299: See notes following RCW 82.04.050.

82.32.050 Deficient tax or penalty payments—Interest—Limitations. (Effective January 1, 1997.) (1) If upon examination of any returns or from other information obtained by the department it appears that a tax or penalty has been paid less than that properly due, the department shall assess against the taxpayer such additional amount found to be due and shall add thereto interest on the tax only at the rate of nine percent per annum from the last day of the year in which the deficiency is incurred until the date of payment for tax liabilities arising before January 1, 1992. For tax liabilities arising after December 31, 1991, until the date of payment, the rate of interest shall be variable and computed as provided in subsection (2) of this section. The rate so computed shall be adjusted on the first day of January of each year. The department shall notify the taxpayer by mail of the additional amount and the same shall become due and shall be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(2) For the purposes of this section, the rate of interest to be charged to the taxpayer shall be an average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate shall be computed by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually, for the months of January, April, July, and October of the immediately preceding calendar year as published by the United States secretary of the treasury.

(3) No assessment or correction of an assessment for additional taxes, penalties, or interest due may be made by the department more than four years after the close of the tax year, except (a) against a taxpayer who has not registered as required by this chapter, (b) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (c) where a taxpayer has executed a written waiver of such limitation. The execution of a written waiver shall also extend the period for making a refund or credit as provided in RCW 82.32.060(2).

(4) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department of revenue and that has a statutorily defined due date. [1996 c 149 § 2; 1992 c 169 § 1; 1991 c 142 § 9; 1989 c 378 § 19; 1971 ex.s. c 299 § 16; 1965 ex.s. c 141 § 1; 1961 c 15 § 82.32.050. Prior: 1951 1st ex.s. c 9 § 5; 1949 c 228 § 20; 1945 c 249 § 9; 1939 c 225 § 27; 1937 c 227 § 17; 1935 c 180 § 188; Rem. Supp. 1949 § 8370-188.]

Findings—Intent—1996 c 149: "The legislature finds that a consistent application of interest and penalties is in the best interest of the residents of the state of Washington. The legislature also finds that the goal of the department of revenue's interest and penalty system should be to encourage taxpayers to voluntarily comply with Washington's tax code in a timely manner. The administration of tax programs requires that there be consequences for those taxpayers who do not timely satisfy their reporting and tax obligations, but these consequences should not be so severe as to discourage taxpayers from voluntarily satisfying their tax obligations.

It is the intent of the legislature that, to the extent possible, a single interest and penalty system apply to all tax programs administered by the department of revenue." [1996 c 149 § 1.]

Effective date—1996 c 149: "This act shall take effect January 1, 1997." [1996 c 149 § 20.]

Effective date—Applicability—1992 c 169: "(1) This act shall take effect July 1, 1992.

(2) This act is effective for all written waivers that remain enforceable as of July 1, 1992." [1992 c 169 § 4.]

Effective date—1991 c 142 §§ 9-11: "Sections 9 through 11 of this act shall take effect January 1, 1992." [1991 c 142 § 13.]

Severability—1991 c 142: See RCW 82.32A.900.

Effective dates—Severability—1971 ex.s. c 299: See notes following RCW 82.04.050.

82.32.060 Excess payment of tax, penalty, or interest—Credit or refund—Payment of judgments for refund. (1) If, upon receipt of an application by a taxpayer for a refund or for an audit of the taxpayer's records, or upon an examination of the returns or records of any taxpayer, it is determined by the department that within the statutory period for assessment of taxes, penalties, or interest prescribed by RCW 82.32.050 any amount of tax, penalty, or interest has been paid in excess of that properly due, the excess amount paid within, or attributable to, such period shall be credited to the taxpayer's account or shall be refunded to the taxpayer, at the taxpayer's option. Except as provided in subsections (2) and (3) of this section, no refund or credit shall be made for taxes, penalties, or interest paid more than four years prior to the beginning of the calendar year in which the refund application is made or examination of records is completed.

(2) The execution of a written waiver under RCW 82.32.050 or 82.32.100 shall extend the time for making a refund or credit of any taxes paid during, or attributable to, the years covered by the waiver if, prior to the expiration of the waiver period, an application for refund of such taxes is made by the taxpayer or the department discovers a refund or credit is due.

(3) Notwithstanding the foregoing limitations there shall be refunded or credited to taxpayers engaged in the performance of United States government contracts or subcontracts the amount of any tax paid, measured by that portion of the amounts received from the United States, which the taxpayer is required by contract or applicable federal statute to refund

or credit to the United States, if claim for such refund is filed by the taxpayer with the department within one year of the date that the amount of the refund or credit due to the United States is finally determined and filed within four years of the date on which the tax was paid: PROVIDED, That no interest shall be allowed on such refund.

(4) Any such refunds shall be made by means of vouchers approved by the department and by the issuance of state warrants drawn upon and payable from such funds as the legislature may provide. However, taxpayers who are required to pay taxes by electronic funds transfer under RCW 82.32.080 shall have any refunds paid by electronic funds transfer.

(5) Any judgment for which a recovery is granted by any court of competent jurisdiction, not appealed from, for tax, penalties, and interest which were paid by the taxpayer, and costs, in a suit by any taxpayer shall be paid in the same manner, as provided in subsection (4) of this section, upon the filing with the department of a certified copy of the order or judgment of the court. Except as to the credits in computing tax authorized by RCW 82.04.435, interest at the rate of three percent per annum shall be allowed by the department and by any court on the amount of any refund, credit, or other recovery allowed to a taxpayer for taxes, penalties, or interest paid by the taxpayer before January 1, 1992. For refunds or credits of amounts paid or other recovery allowed to a taxpayer after December 31, 1991, the rate of interest shall be the rate as computed for assessments under RCW 82.32.050(2), less one percentage point. 82.32.070 Records to be preserved—Examination—Estoppel to question assessment. Every person liable for any fee or tax imposed by chapters 82.04 through 82.27

RCW shall keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of any tax for which he may be liable, which records shall include copies of all federal income tax and state tax returns and reports made by him. All his books, records, and invoices shall be open for examination at any time by the department of revenue. In the case of an out-of-state person or concern which does not keep the necessary books and records within this state, it shall be sufficient if it produces within the state such books and records as shall be required by the department of revenue, or permits the examination by an agent authorized or designated by the department of revenue at the place where such books and records are kept. Any person who fails to comply with the requirements of this section shall be forever barred from questioning, in any court action or proceedings, the correctness of any assessment of taxes made by the department of revenue based upon any period for which such books, records, and invoices have not been so kept and preserved.

Any person claiming a credit against the tax imposed by chapter 82.04 RCW by reason of the provisions of RCW 82.04.435 shall keep and preserve until the claim has been verified or allowed by the department of revenue sufficient books, records and invoices to prove the right to and amount of such claim for credit, and no such claim shall be allowed by the department of revenue unless such books, records and invoices have been kept and preserved. [1983 c 3 § 221; 1967 ex.s. c 89 § 2; 1961 c 15 § 82.32.070. Prior: 1951 1st ex.s. c 9 § 7; 1935 c 180 § 190; RRS § 8370-190.]

82.32.080 Payment by check—Electronic funds transfer—Mailing returns or remittances—Time extension—Deposits—Records—Payment must accompany return. Payment of the tax may be made by uncertified check under such regulations as the department shall prescribe, but, if a check so received is not paid by the bank on which it is drawn, the taxpayer, by whom such check is tendered, shall remain liable for payment of the tax and for all legal penalties, the same as if such check had not been tendered.

Payment of the tax is to be made by electronic funds transfer if the amount of the tax due in a calendar year is two hundred forty thousand dollars or more, provided that until January 1, 1992, electronic funds transfer shall be required only if the tax due is one million eight hundred thousand dollars or more. After January 1, 1992, the department may by rule provide for tax thresholds between two hundred forty thousand dollars and one million eight hundred thousand dollars for mandatory use of electronic funds transfer. All taxes administered by this chapter are subject to this requirement except the taxes authorized by chapters 82.14A, 82.14B, 82.24, 82.27, 82.29A, and 84.33 RCW. It is the intent of this section to require electronic funds transfer for those taxes reported on the department's combined excise tax return or any successor return.

A return or remittance which is transmitted to the department by United States mail shall be deemed filed or received on the date shown by the post office cancellation mark stamped upon the envelope containing it, except as otherwise provided in this chapter.

The department, for good cause shown, may extend the time for making and filing any return, and may grant such reasonable additional time within which to make and file returns as it may deem proper, but any permanent extension granting the taxpayer a reporting date without penalty more than ten days beyond the due date, and any extension in excess of thirty days shall be conditional on deposit with the department of an amount to be determined by the department which shall be approximately equal to the estimated tax liability for the reporting period or periods for which the extension is granted. In the case of a permanent extension or a temporary extension of more than thirty days the deposit shall be deposited within the state treasury with other tax funds and a credit recorded to the taxpayer's account which may be applied to taxpayer's liability upon cancellation of the permanent extension or upon reporting of the tax liability where an extension of more than thirty days has been granted.

The department shall review the requirement for deposit at least annually and may require a change in the amount of the deposit required when it believes that such amount does not approximate the tax liability for the reporting period or periods for which the extension is granted.

The department shall keep full and accurate records of all funds received and disbursed by it. Subject to the provisions of RCW 82.32.105 and 82.32.350, the department shall apply the payment of the taxpayer first against penalties and interest, and then upon the tax, without regard to any direction of the taxpayer.

The department may refuse to accept any return which is not accompanied by a remittance of the tax shown to be due thereon. When such return is not accepted, the taxpayer shall be deemed to have failed or refused to file a return and shall be subject to the procedures provided in RCW 82.32.100 and to the penalties provided in RCW 82.32.090. The above authority to refuse to accept a return shall not apply when a return is timely filed and a timely payment has been made by electronic funds transfer. 82.32.085 Electronic funds transfer—Generally. "Electronic funds transfer" means any transfer of funds, other than a transaction originated by check, drafts, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, or computer or magnetic tape so as to order, instruct, or authorize a financial institution to debit or credit an account.

The electronic funds transfer is to be completed so that the state receives collectible funds on or before the next banking day following the due date.

The department shall adopt rules necessary to implement the provisions of RCW 82.32.080 and this section. The rules shall include but are not limited to: (1) Coordinating

the filing of tax returns with payment by electronic funds transfer; (2) form and content of electronic funds transfer; (3) voluntary use of electronic funds transfer with permission of the department; (4) use of commonly accepted means of electronic funds transfer; (5) means of crediting and recording proof of payment; and (6) means of correcting errors in transmission. Any changes in the threshold of tax shall be implemented with a separate rule-making procedure. [1990 c 69 § 3.]

82.32.090 Late payment—Disregard of written instructions—Evasion—Penalties. (*Effective until January 1, 1997.*) (1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there shall be assessed a penalty of five percent of the amount of the tax; and if the tax is not received within thirty days after the due date, there shall be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within sixty days after the due date, there shall be assessed a total penalty of twenty percent of the amount of the tax. No penalty so added shall be less than five dollars.

(2) If payment of any tax assessed by the department of revenue is not received by the department by the due date specified in the notice, or any extension thereof, the department shall add a penalty of ten percent of the amount of the additional tax found due. No penalty so added shall be less than five dollars.

(3) If a warrant be issued by the department of revenue for the collection of taxes, increases, and penalties, there shall be added thereto a penalty of five percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting or tax liabilities, the department shall add a penalty of ten percent of the amount of the additional tax found due because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department of revenue has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department shall not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions shall apply only to the taxpayer addressed or referenced on such documents. Any specific written instructions by the department of revenue shall be clearly identified as such and shall inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection.

(5) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due shall be added.

(6) The aggregate of penalties imposed under this section for failure to pay a tax due on a return by the due date, late payment of any tax, increase, or penalty, or issuance of a warrant shall not exceed thirty-five percent of the tax due, or twenty dollars, whichever is greater.

(7) The department of revenue may not impose both the evasion penalty and the penalty for disregarding specific written instructions on the same tax found to be due. 82.32.090 Late payment—Disregard of written instructions—Evasion—Penalties. (*Effective January 1, 1997.*) (1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there shall be assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there shall be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received on or before the last day of the second month following the due date, there shall be assessed a total penalty of twenty percent of the amount of the tax. No penalty so added shall be less than five dollars.

(2) If payment of any tax assessed by the department of revenue is not received by the department by the due date specified in the notice, or any extension thereof, the department shall add a penalty of ten percent of the amount of the additional tax found due. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions shall apply only to the taxpayer addressed or referenced on such documents. (5) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due shall be added.

(6) The aggregate of penalties imposed under subsections (1), (2), and (3) of this section shall not exceed thirty-five percent of the tax due, or twenty dollars, whichever is greater. This subsection does not prohibit or restrict the application of other penalties authorized by law.

(7) The department of revenue may not impose both the evasion penalty and the penalty for disregarding specific written instructions on the same tax found to be due.

(8) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department of revenue, and that has a statutorily defined due date. 82.32.100 Failure to file returns or provide records—Assessment of tax by department—Penalties and interest. (1) If any person fails or refuses to make any return or to make available for examination the records required by this chapter, the department shall proceed, in such manner as it may deem best, to obtain facts and information on which to base its estimate of the tax; and to

this end the department may examine the records of any such person as provided in RCW 82.32.110.

(2) As soon as the department procures such facts and information as it is able to obtain upon which to base the assessment of any tax payable by any person who has failed or refused to make a return, it shall proceed to determine and assess against such person the tax and any applicable penalties or interest due, but such action shall not deprive such person from appealing the assessment as provided in this chapter. The department shall notify the taxpayer by mail of the total amount of such tax, penalties, and interest, and the total amount shall become due and shall be paid within thirty days from the date of such notice.

(3) No assessment or correction of an assessment may be made by the department more than four years after the close of the tax year, except (a) against a taxpayer who has not registered as required by this chapter, (b) upon a showing of fraud or of misrepresentation of a material fact by the taxpayer, or (c) where a taxpayer has executed a written waiver of such limitation. 82.32.105 Waiver or cancellation of interest or penalties. (*Effective until January 1, 1997.*) If the department of revenue finds that the payment by a taxpayer of a tax less than that properly due or the failure of a taxpayer to pay any tax by the due date was the result of circumstances beyond the control of the taxpayer, the department of revenue shall waive or cancel any interest or penalties imposed under this chapter with respect to such tax. The department of revenue shall prescribe rules for the waiver or cancellation of interest or penalties imposed by this chapter. Notwithstanding the foregoing the amount of any interest which has been waived, canceled or refunded prior to May 1, 1965 shall not be reassessed according to the provisions of this chapter. 82.32.105 Waiver or cancellation of penalties or interest—Rules. (*Effective January 1, 1997.*) (1) If the department of revenue finds that the payment by a taxpayer of a tax less than that properly due or the failure of a taxpayer to pay any tax by the due date was the result of circumstances beyond the control of the taxpayer, the department of revenue shall waive or cancel any penalties imposed under this chapter with respect to such tax.

(2) The department shall waive or cancel the penalty imposed under RCW 82.32.090(1) when the circumstances under which the delinquency occurred do not qualify for waiver or cancellation under subsection (1) of this section if:

(a) The taxpayer requests the waiver for a tax return required to be filed under RCW 82.32.045, 82.23B.020, 82.27.060, 82.29A.050, or 84.33.086; and

(b) The taxpayer has timely filed and remitted payment on all tax returns due for that tax program for a period of twenty-four months immediately preceding the period covered by the return for which the waiver is being requested.

(3) The department shall waive or cancel interest imposed under this chapter if:

(a) The failure to timely pay the tax was the direct result of written instructions given the taxpayer by the department; or

(b) The extension of a due date for payment of an assessment of deficiency was not at the request of the taxpayer and was for the sole convenience of the department.

(4) The department of revenue shall adopt rules for the waiver or cancellation of penalties and interest imposed by this chapter. [1996 c 149 § 17; 1975 1st ex.s. c 278 § 78; 1965 ex.s. c 141 § 8.]

The department of revenue or its duly authorized agent may examine any books, papers, records, or other data, or stock of merchandise bearing upon the amount of any tax payable or upon the correctness of any return, or for the purpose of making a return where none has been made, or in order to ascertain whether a return should be made; and may require the attendance of any person at a time and place fixed in a summons served by any sheriff in the same manner as a subpoena is served in a civil case, or served in like manner by an agent of the department of revenue.

The persons summoned may be required to testify and produce any books, papers, records, or data required by the department with respect to any tax, or the liability of any person therefor.

The director of the department of revenue, or any duly authorized agent thereof, shall have power to administer an oath to the person required to testify; and any person giving false testimony after the administration of such oath shall be guilty of perjury in the first degree.

If any person summoned as a witness before the department, or its authorized agent, fails or refuses to obey the summons, or refuses to testify or answer any material questions, or to produce any book, record, paper, or data when required to do so, the person is subject to proceedings for contempt, and the department shall thereupon institute contempt of court proceedings in the superior court of Thurston county or of the county in which such person resides. Failure of the taxpayer to receive such notice or order whether served or mailed shall not release the taxpayer from any tax or any increases or penalties thereon. Whenever any taxpayer quits business, or sells out, exchanges, or otherwise disposes of his business or his stock of goods, any tax payable hereunder shall become immediately due and payable, and such taxpayer shall, within ten days thereafter, make a return and pay the tax due; and any person who becomes a successor shall become liable for the full amount of the tax and withhold from the purchase price a sum sufficient to pay any tax due from the taxpayer until such time as the taxpayer shall produce a receipt from the department of revenue showing payment in full of any tax due or a certificate that no tax is due and, if such tax is not paid by the taxpayer within ten days from the date of such sale, exchange, or disposal, the successor shall become liable for the payment of the full amount of tax, and the payment thereof by such successor shall, to the extent thereof, be deemed a payment upon the purchase price, and if such payment is greater in amount than the purchase price the amount of the difference shall become a debt due such successor from the taxpayer.

No successor shall be liable for any tax due from the person from whom he has acquired a business or stock of goods if he gives written notice to the department of revenue of such acquisition and no assessment is issued by the department of revenue within six months of receipt of such notice against the former operator of the business and a copy thereof mailed to such successor. (1) Upon termination, dissolution, or abandonment of a corporate or limited liability company business, any officer, member, manager, or other person having control or supervision of retail sales tax funds collected and held in trust under RCW 82.08.050, or who is charged with the responsibility for the filing of returns or the payment of retail sales tax funds collected and held in trust under RCW 82.08.050, shall be personally liable for any unpaid taxes and interest and penalties on those taxes, if such officer or other person wilfully fails to pay or to cause to be paid any taxes due from the corporation pursuant to chapter 82.08 RCW. For the purposes of this section, any retail sales taxes that have been paid but not collected shall be deductible from the retail sales taxes collected but not paid.

For purposes of this subsection "wilfully fails to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(2) The officer, member or manager, or other person shall be liable only for taxes collected which became due during the period he or she had the control, supervision, responsibility, or duty to act for the corporation described in subsection (1) of this section, plus interest and penalties on those taxes.

(3) Persons liable under subsection (1) of this section are exempt from liability in situations where nonpayment of the retail sales tax funds held in trust is due to reasons beyond their control as determined by the department by rule.

(4) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

(5) This section applies only in situations where the department has determined that there is no reasonable means of collecting the retail sales tax funds held in trust directly from the corporation.

(6) This section does not relieve the corporation or limited liability company of other tax liabilities or otherwise impair other tax collection remedies afforded by law.

(7) Collection authority and procedures prescribed in this chapter apply to collections under this section. [1995 c 318 § 2; 1987 c 245 § 1.]

82.32.150 Contest of tax—Prepayment required—Restraining orders and injunctions barred.

All taxes, penalties, and interest shall be paid in full before any action may be instituted in any court to contest all or any part of such taxes, penalties, or interest. No restraining order or injunction shall be granted or issued by any court or judge to restrain or enjoin the collection of any tax or penalty or any part thereof, except upon the ground that the assessment thereof was in violation of the Constitution of the United States or that of the state. [1961 c 15 § 82.32.150. Prior: 1935 c 180 § 198; RRS § 8370-198.]

82.32.160 Correction of tax—Administrative procedure—Conference—Determination by department.

Any person having been issued a notice of additional taxes, delinquent taxes, interest, or penalties assessed by the department, may within thirty days after the issuance of the original notice of the amount thereof or within the period covered by any extension of the due date thereof granted by the department petition the department in writing for a correction of the amount of the assessment, and a conference for examination and review of the assessment. The petition shall set forth the reasons why the correction should be granted and the amount of the tax, interest, or penalties, which the petitioner believes to be due. The department shall promptly consider the petition and may grant or deny it. If denied, the petitioner shall be notified by mail thereof forthwith. If a conference is granted, the department shall fix the time and place therefor and notify the petitioner thereof by mail. After the conference the department may make such determination as may appear to it to be just and lawful and shall mail a copy of its determination to the petitioner. If no such petition is filed within the thirty-day period the assessment covered by the notice shall become final.

The procedures provided for herein shall apply also to a notice denying, in whole or in part, an application for a pollution control tax exemption and credit certificate, with such modifications to such procedures established by departmental rules and regulations as may be necessary to accommodate a claim for exemption or credit. 82.32.170 Reduction of tax after payment—Petition—Conference—Determination by department.

Any person, having paid any tax, original assessment, additional assessment, or corrected assessment of any tax, may apply to the department within the time limitation for refund provided in this chapter, by petition in writing for a correction of the amount paid, and a conference for examination and review of the tax liability, in which petition he shall set forth the reasons why the conference should be granted, and the amount in which the tax, interest, or penalty, should be refunded. The department shall promptly consider the petition, and may grant or deny it. If denied, the petitioner shall be notified by mail thereof forthwith; if a conference is granted, the department shall notify the petitioner by mail of the time and place fixed therefor. 82.32.180 Court appeal—Procedure. Any person, except one who has failed to keep and preserve books, records, and invoices as required in this chapter and chapter 82.24 RCW, having paid any tax as required and feeling aggrieved by the amount of the tax may appeal to the

superior court of Thurston county, within the time limitation for a refund provided in chapter 82.32 RCW or, if an application for refund has been made to the department within that time limitation, then within thirty days after rejection of the application, whichever time limitation is later. In the appeal the taxpayer shall set forth the amount of the tax imposed upon the taxpayer which the taxpayer concedes to be the correct tax and the reason why the tax should be reduced or abated. The appeal shall be perfected by serving a copy of the notice of appeal upon the department within the time herein specified and by filing the original thereof with proof of service with the clerk of the superior court of Thurston county.

The trial in the superior court on appeal shall be de novo and without the necessity of any pleadings other than the notice of appeal. The burden shall rest upon the taxpayer to prove that the tax as paid by the taxpayer is incorrect, either in whole or in part, and to establish the correct amount of the tax. In such proceeding the taxpayer shall be deemed the plaintiff, and the state, the defendant; and both parties shall be entitled to subpoena the attendance of witnesses as in other civil actions and to produce evidence that is competent, relevant, and material to determine the correct amount of the tax that should be paid by the taxpayer. Either party may seek appellate review in the same manner as other civil actions are appealed to the appellate courts.

It shall not be necessary for the taxpayer to protest against the payment of any tax or to make any demand to have the same refunded or to petition the director for a hearing in order to appeal to the superior court, but no court action or proceeding of any kind shall be maintained by the taxpayer to recover any tax paid, or any part thereof, except as herein provided.

The provisions of this section shall not apply to any tax payment which has been the subject of an appeal to the board of tax appeals with respect to which appeal a formal hearing has been elected. 82.32.210 Tax warrant—Filing—Lien—Effect. If any fee, tax, increase, or penalty or any portion thereof is not paid within fifteen days after it becomes due, the department of revenue may issue a warrant under its official seal in the amount of such unpaid sums, together with interest thereon at the rate of one percent of the amount of such warrant for each thirty days or portion thereof after the date of such warrant. If, however, the department of revenue believes that a taxpayer is about to cease business, leave the state, or remove or dissipate the assets out of which fees, taxes or penalties might be satisfied and that any tax or penalty will not be paid when due, it may declare the fee, tax or penalty to be immediately due and payable and may issue a warrant immediately.

The department shall file a copy of the warrant with the clerk of the superior court of any county of the state in which real and/or personal property of the taxpayer may be found. Upon filing, the clerk shall enter in the judgment docket, the name of the taxpayer mentioned in the warrant and in appropriate columns the amount of the fee, tax or portion thereof and any increases and penalties for which the warrant is issued and the date when the copy is filed, and thereupon the amount of the warrant so docketed shall become a specific lien upon all goods, wares, merchandise, fixtures, equipment, or other personal property used in the conduct of the business of the taxpayer against whom the warrant is issued, including property owned by third persons who have a beneficial interest, direct or indirect, in the operation of the business, and no sale or transfer of the personal property in any way affects the lien. The lien shall not be superior, however, to bona fide interests of third persons which had vested prior to the filing of the warrant when the third persons do not have a beneficial interest, direct or indirect, in the operation of the business, other than the securing of the payment of a debt or the receiving of a regular rental on equipment: **PROVIDED, HOWEVER,** That the phrase "bona fide interests of third persons" does not include any mortgage of real or personal property or any other credit transaction that results in the mortgagee or the holder of the security acting as trustee for unsecured creditors of the taxpayer mentioned in the warrant who executed the chattel or real property mortgage or the document evidencing the credit transaction. The amount of the warrant so docketed shall thereupon also become a lien upon the title to and interest in all other real and personal property of the taxpayer against whom it is issued the same as a judgment in a civil case duly docketed in the office of the clerk. The warrant so docketed shall be sufficient to support the issuance of writs of garnishment in favor of the state in the manner provided by law in the case of judgments wholly or

partially unsatisfied. [1987 c 405 § 15; 1983 1st ex.s. c 55 § 8; 1967 ex.s. c 89 § 3; 1961 c 15 § 82.32.210. Prior: 1955 c 389 § 38; prior: 1951 1st ex.s. c 9 § 13; 1949 c 228 § 225, part; 1937 c 227 § 20, part; 1935 c 180 § 202, part; Rem. Supp. 1949 § 8370-202, part.]

82.32.215 Revocation of certificate of registration.

If any warrant issued under this chapter is not paid within thirty days after it has been filed with the clerk of the superior court, or if any taxpayer is delinquent, for three consecutive reporting periods, in the transmission to the department of revenue of retail sales tax collected by him, the department of revenue may, by order issued under its official seal, revoke the certificate of registration of the taxpayer against whom the warrant was issued, and, if the order is entered, a copy thereof shall be posted in a conspicuous place at the main entrance to the taxpayer's place of business and shall remain posted until such time as the warrant has been paid. Any certificate so revoked shall not be reinstated, nor shall a new certificate of registration be issued to the taxpayer, until the amount due on the warrant has been paid, or provisions for payment satisfactory to the department of revenue have been entered, and until the taxpayer has deposited with the department of revenue such security for payment of any taxes, increases, and penalties, due or which may become due in an amount and under such terms and conditions as the department of revenue may require, but the amount of the security shall not be greater than one-half the estimated average annual liability of the taxpayer. [1983 1st ex.s. c 55 § 9.]

Effective dates—1983 1st ex.s. c 55: See note following RCW 82.08.010.

82.32.220 Execution of warrant—Levy upon property—Satisfaction. The department of revenue may issue an order of execution, pursuant to a filed warrant, under its official seal directed to the sheriff of the county in which the warrant has been filed, commanding him to levy upon and sell the real and/or personal property of the taxpayer found within his county, or so much thereof as may be necessary, for the payment of the amount of the warrant, plus the cost of executing the warrant, and return the warrant to the department of revenue and pay to it the money collected by virtue thereof within sixty days after the receipt of the warrant. The sheriff shall thereupon proceed upon the same in all respects and with like effect as prescribed by law with respect to execution or other process issued against rights or property upon judgments of the superior court.

The sheriff shall be entitled to fees as provided by law for his services in levying execution on a superior court judgment and the clerk shall be entitled to a filing fee as provided by law, which shall be added to the amount of the warrant.

The proceeds received from any sale shall be credited upon the amount due under the warrant and when the final amount due is received, together with interest, penalties, and costs, the judgment docket shall show the claim for taxes to be satisfied and the clerk of the court shall so note upon the

docket. Any surplus received from any sale of property shall be paid to the taxpayer or to any lien holder entitled thereto. If the return on the warrant shows that the same has not been satisfied in full, the amount of the deficiency shall remain the same as a judgment against the taxpayer which may be collected in the same manner as the original amount of the warrant. In the discretion of the department of revenue, an order of execution of like terms, force, and effect may be issued and directed to any agent of the department authorized to collect taxes, and in the execution thereof such agent shall have all the powers conferred by law upon sheriffs, but shall not be entitled to any fee or compensation in excess of the actual expenses paid in the performance of such duty, which shall be added to the amount of the warrant. 82.32.235 Notice and order to withhold and deliver property due or owned by taxpayer—Bond—Judgment by default. In addition to the remedies provided in this chapter the department is hereby authorized to issue to any person, or to any political subdivision or department of the state, a notice and order to withhold and deliver property of any kind whatsoever when there is reason to believe that there is in the possession of such person, political subdivision or department, property which is or shall become due, owing, or belonging to any taxpayer against whom a warrant has been filed.

The notice and order to withhold and deliver shall be served by the sheriff of the county wherein the service is made, or by his deputy, or by any duly authorized representative of the department, provided that service by such persons may also be made by certified mail, with return receipt requested, upon those persons, or political subdivision or department, to whom the notice and order to withhold and deliver is directed. Any person, or any political subdivision or department upon whom service has been made is hereby required to answer the notice within twenty days exclusive of the day of service, under oath and in writing, and shall make true answers to the matters inquired of in the notice.

In the event there is in the possession of any such person or political subdivision or department, any property which may be subject to the claim of the department, such property shall be delivered forthwith to the department of revenue or its duly authorized representative upon demand to be held in trust by the department for application on the

indebtedness involved or for return, without interest, in accordance with final determination of liability or nonliability, or in the alternative, there shall be furnished a good and sufficient bond satisfactory to the department conditioned upon final determination of liability.

Should any person or political subdivision fail to make answer to an order to withhold and deliver within the time prescribed herein, it shall be lawful for the court, after the time to answer such order has expired, to render judgment by default against such person or political subdivision for the full amount claimed by the department in the notice to withhold and deliver, together with costs. [1987 c 208 § 1; 1975 1st ex.s. c 278 § 85; 1971 ex.s. c 299 § 22; 1963 ex.s. c 28 § 11.]

82.32.237 Notice and order to withhold and deliver—Continuing lien—Effective date. Upon service, the notice and order to withhold and deliver shall constitute a continuing lien on property of the taxpayer and upon wages due, owing, or belonging to the taxpayer. The department shall include in the caption of the notice and order to withhold and deliver "continuing lien." The effective date of a notice and order to withhold and deliver served under RCW 82.32.235 shall be the date of service thereof. [1987 c 208 § 2.]

82.32.240 Tax constitutes debt to the state—Priority of lien. Any tax due and unpaid and all increases and penalties thereon, shall constitute a debt to the state and may be collected by court proceedings in the same manner as any other debt in like amount, which remedy shall be in addition to any and all other existing remedies.

In all cases of probate, insolvency, assignment for the benefit of creditors, or bankruptcy, involving any taxpayer who is, or decedent who was, engaging in business, the claim of the state for said taxes and all increases and penalties thereon shall be a lien upon all real and personal property of the taxpayer, and the mere existence of such cases or conditions shall be sufficient to create such lien without any prior or subsequent action by the state, and in all such cases it shall be the duty of all administrators, executors, guardians, receivers, trustees in bankruptcy or assignees for the benefit of creditors, to notify the department of revenue of such administration, receivership or assignment within sixty days from the date of their appointment and qualification.

The lien provided for by this section shall attach as of the date of the assignment for the benefit of creditors or of the initiation of the probate, insolvency, or bankruptcy proceedings: PROVIDED, That this sentence shall not be construed as affecting the validity or priority of any earlier lien that may have attached previously in favor of the state under any other section of this title.

Any administrator, executor, guardian, receiver or assignee for the benefit of creditors not giving the notification as provided for above shall become personally liable for payment of the taxes and all increases and penalties thereon

to the extent of the value of the property subject to administration that otherwise would have been available for the payment of such taxes, increases, and penalties by the administrator, executor, guardian, receiver, or assignee.

As used in this section, "probate" includes the nonprobate claim settlement procedure under chapter 11.42 RCW, and "executor" and "administrator" includes any notice agent acting under chapter 11.42 RCW. 82.32.245 Search for and seizure of property—Warrant—Procedure. (1) When there is probable cause to believe that there is property within this state, not otherwise exempt from process or execution, in the possession or control of any taxpayer against whom a tax warrant has been filed which remains unsatisfied, any judge of the superior court or district court in the county in which such property is located may, upon the request of the sheriff or agent of the department authorized to collect taxes, issue a warrant directed to such officers commanding the search for and seizure of the property described in the request for warrant.

(2) Application for, issuance, and execution and return of the warrant authorized by this section and for return of any property seized shall be in accordance with the criminal rules of the superior court and the justice court.

(3) The sheriff or agent of the department shall levy execution upon property seized pursuant to this section as provided in RCW 82.32.220 and 82.32.230.

(4) Nothing in this section shall require the application for and issuance of any warrant not otherwise required by law. [1985 c 414 § 3.]

82.32.260 Payment condition to dissolution or withdrawal of corporation. In the case of any corporation organized under the laws of this state, the courts shall not enter or sign any decree of dissolution, nor shall the secretary of state file in his office any certificate of dissolution, and in the case of any corporation organized under the laws of another jurisdiction and admitted to do business in this state, the secretary of state shall withhold the issuance of any certificate of withdrawal, until proof, in the form of a certificate from the department of revenue, has been furnished by the applicant for such dissolution or withdrawal, that every license fee, tax, increase, or penalty has been paid or provided for. [1975 1st ex.s. c 278 § 87; 1961 c 15 § 82.32.260. Prior: 1935 c 180 § 204; RRS § 8370-204.]

sources outside the state of Washington taxes including interest and penalties thereon imposed under this title and RCW 84.33.041.

(2) Only accounts represented by tax warrants filed in the superior court of a county in the state as provided by RCW 82.32.210 may be assigned to a collection agency, and no such assignment may be made unless the department has previously notified or has attempted to notify the taxpayer of his or her right to petition for correction of assessment within the time provided and in accordance with the procedures set forth in chapter 82.32 RCW.

(3) Collection agencies assigned accounts for collection under this section shall have only those remedies and powers that would be available to them as assignees of private creditors. 82.32A.002 Short title. This chapter shall be known and cited as "Washington taxpayers' rights and responsibilities." [1991 c 142 § 1.]

82.32A.005 Finding. (1) The legislature finds that taxes are one of the most sensitive points of contact between citizens and their government, and that there is a delicate balance between revenue collection and taxpayers' rights and responsibilities. The rights, privacy, and property of Washington taxpayers should be protected adequately during the process of the assessment and collection of taxes.

(2) The legislature further finds that the Washington tax system is based largely on voluntary compliance and that taxpayers have a responsibility to inform themselves about applicable tax laws. The legislature also finds that the rights of the taxpayers and their attendant responsibilities are best implemented where the department of revenue provides accurate tax information, instructions, forms, administrative policies, and procedures to assist taxpayers to voluntarily comply with the provisions of the revenue act, Title 82 RCW, and where taxpayers cooperate in the administration of these provisions. [1991 c 142 § 2.]

82.32A.010 Administration of chapter. The department of revenue shall administer this chapter. The department of revenue shall adopt or amend rules as may be necessary to fully implement this chapter and the rights established under this chapter. [1991 c 142 § 3.]

82.32A.020 Rights. The taxpayers of the state of Washington have:

(1) The right to a written explanation of the basis for any tax deficiency assessment, interest, and penalties at the time the assessments are issued;

(2) The right to rely on specific, official written advice and written tax reporting instructions from the department of revenue to that taxpayer, and to have interest, penalties, and in some instances, tax deficiency assessments waived where the taxpayer has so relied to their proven detriment;

(3) The right to redress and relief where tax laws or rules are found to be unconstitutional by the final decision of a court of record and the right to prompt administrative remedies in such cases;

(4) The right to confidentiality and protection from public inquiry regarding financial and business information in the possession of the department of revenue in accordance with the requirements of RCW 82.32.330;

(5) The right to receive, upon request, clear and current tax instructions, rules, procedures, forms, and other tax information; and

(6) The right to a prompt and independent administrative review by the department of revenue of a decision to revoke a tax registration, and to a written determination that either sustains the revocation or reinstates the registration. [1991 c 142 § 4.]

82.32A.030 Responsibilities. To ensure consistent application of the revenue laws, taxpayers have certain responsibilities under chapter 82.32 RCW, including, but not limited to, the responsibility to:

- (1) Register with the department of revenue;
- (2) Know their tax reporting obligations, and when they are uncertain about their obligations, seek instructions from the department of revenue;
- (3) Keep accurate and complete business records;
- (4) File accurate returns and pay taxes in a timely manner;
- (5) Ensure the accuracy of the information entered on their tax returns;
- (6) Substantiate claims for refund;
- (7) Timely pay all taxes after closing a business and request cancellation of registration number; and
- (8) Timely respond to communications from the department of revenue. [1991 c 142 § 5.]

82.32A.040 Taxpayer rights advocate. The director of revenue shall appoint a taxpayer rights advocate. The advocate shall be responsible for directly assisting taxpayers and their representatives to assure their understanding and utilization of the policies, processes, and procedures available to them in the resolution of problems. [1991 c 142 § 6.]

82.32A.050 Taxpayer services program. The department of revenue shall maintain a taxpayer services program consisting of, but not limited to:

- (1) Providing taxpayer assistance in the form of information, education, and instruction in person, by telephone, or by correspondence;
- (2) Conducting tax workshops at locations most conveniently accessible to the majority of taxpayers affected; and
- (3) Publishing written bulletins, instructions, current revenue laws, rules, court decisions, and interpretive rulings of the department of revenue. [1991 c 142 § 7.]

82.32A.900 Severability—1991 c 142. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1991 c 142 § 12.]

Sales and use taxes paid by a holder of a certificate with respect to expenditures incurred for acquisition of a facility prior to the issuance of a certificate covering such facility may be claimed as a tax credit as provided in subsection (2) of this section.

(2) Subsequent to July 30, 1967 the holder of the certificate may, in lieu of accepting the tax exemption provided for in this section, elect to take a tax credit in the total amount of the exemption for the facility covered by such certificate against any future taxes to be paid pursuant to chapters 82.04, 82.12 and 82.16 RCW: PROVIDED, That on and after July 30, 1967 if such person elects to take a tax credit for a facility under this subsection he may not take further credit under RCW 82.04.435. For any application for a certificate or supplement which was filed with the department not later than November 30, 1981, the department shall determine the final cost of the pollution control facility and issue a supplement to the existing certificate or an original certificate stating the cost of the pollution control facility: PROVIDED, That the cost of an existing pollution control facility shall be the depreciated value thereof at the time of application filed pursuant to this section.

(c) The total cumulative amount of such credits allowed for any facility covered by a certificate shall not exceed fifty percent of the cost of such facility.

(d) The total cumulative amount of credits against state taxes authorized by this chapter shall be reduced by the total amount of any federal investment credit or other federal tax credit actually received by the certificate holder applicable to the facility. This reduction shall be made as an offset against the credit claimed in the first reporting period following the allowance of such investment credit, and thereafter as an offset against any credit balance as it shall become available to the certificate holder.

(3) Applicants and certificate holders shall provide the department with information showing the net commercial value of materials captured or recovered by a facility and shall make all pertinent books and records available for examination by the department for the purposes of determining the credit provided by this chapter. [1981 2nd ex.s. c 9 § 3; 1967 ex.s. c 139 § 6.]

(1) The certificate or supplement thereto was obtained by fraud or misrepresentation, or the holder of the certificate has failed substantially without good cause to proceed with the construction, reconstruction, installation or acquisition of a facility or without good cause has failed substantially to operate the facility for the purpose specified by the appropriate control agency in which case the department shall modify or revoke the certificate. If the certificate and/or supplement are revoked, all applicable taxes from which an exemption has been secured under this chapter or against which the credit provided for by this chapter has been claimed shall be immediately due and payable with the maximum interest and penalties prescribed by applicable law. No statute of limitations shall operate in the event of fraud or misrepresentation.

(2) The facility covered by the certificate or supplement thereto is no longer operated primarily for the purpose of the control or reduction of water pollution or the control, capture, and removal of pollutants from the air, as the case may be, or is no longer suitable or reasonably adequate to meet the intent and purposes of chapter 70.94 RCW or chapter 90.48 RCW, in which case the certificate shall be modified or revoked.

(3) Upon the date of mailing by certified mail to the certificate holder of notice of the action of the department modifying or revoking a certificate or supplement, the certificate or supplement shall cease to be in force or shall remain in force only as modified. legislature would have enacted this act without the phrase, clause, subsection or section so held unconstitutional or invalid and the remainder of the act shall not be affected as a result of said part being held unconstitutional or invalid. [1967 ex.s. c 139 § 12.]

82.34.901 Severability—1981 2nd ex.s. c 9. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1981 2nd ex.s. c 9 § 5.]

Property tax exemption for cogeneration facilities: RCW 84.36.485.

82.35.010 Intent. The state of Washington has a large and growing need for electrical energy. The state of Washington possesses a great potential for the generation of electrical or mechanical power and useful heat energy through the process of cogeneration. It is the purpose and intent of the legislature to promote the growth of cogeneration in the state of Washington. [1979 ex.s. c 191 § 1.]

82.35.020 Definitions. As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "Cogeneration" means the sequential generation of electrical or mechanical power and useful heat from the same primary energy source or fuel.

(2) "Cogeneration facility" means any machinery, equipment, structure, process, or property, or any part thereof, installed or acquired for the primary purpose of cogeneration by a person or corporation other than an electric utility.

(3) "Certificate" means a cogeneration tax credit certificate granted by the department.

(4) "Cost" means only the cost of a cogeneration facility which is in addition to the cost that the applicant otherwise would incur to meet the applicant's demands for useful heat. "Cost" does not include expenditures which are offset by cost savings, including but not limited to savings resulting from early retirement of existing equipment.

(5) "Department" means the department of revenue.

(6) "Electric utility" means any person, corporation, or governmental subdivision authorized and operating under the Constitution and laws of the state of Washington which is primarily engaged in the generation or sale of electric energy. [1996 c 186 § 521; 1979 ex.s. c 191 § 2.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

82.35.040 Issuance of certificate—Limitations—Tabulation of costs incurred—Administrative rules. (1) No certificate or supplement may be issued after December 31, 1984. No certificate including a supplement thereto may be issued for cogeneration facility costs in excess of ten million dollars for any application submitted under this chapter.

(2) The department shall keep a running tabulation of the total cogeneration facility costs incurred or planned to be incurred pursuant to certificates or supplements issued under this chapter. The department may not issue any new certificate or any supplement if the certificate or supplement would result in the tabulation exceeding one hundred million dollars. Nothing in this section shall be deemed to bar any certificate holder from amending the certificate or obtaining a supplement thereto so long as the amendment or supplement is issued prior to December 1, 1984, and does not increase the total amount of cogeneration facility costs incurred or planned to be incurred under the original certificate.

(3) The department may adopt any rules under chapter 34.05 RCW it considers necessary for the administration of this chapter. [1982 1st ex.s. c 2 § 3; 1979 ex.s. c 191 § 4.]

82.35.050 Credit against taxes—Conditions—Amount—Limitations. When a cogeneration facility is operational and a certificate pertaining thereto has been issued, a credit may be claimed against taxes imposed under chapter 82.04 RCW, if the due date for payment of the taxes is after the effective date of the certificate: PROVIDED, That the date on which the facility is operational is no more than four years after the date of issuance of the certificate. The amount of the credit shall be three percent of the cost of a facility covered by the certificate for each year the certificate remains in force. The credits shall be cumulative and shall be subject only to the following limitations:

(1) The tax credit shall apply to capital costs only and shall not apply to operating costs.

(2) A person, firm, corporation, or organization which acquires a cogeneration facility shall be entitled to the credit only to the extent that it has previously not been taken. Under no circumstances may a credit be taken more than once against any cost or portion thereof of a cogeneration facility.

(3) No credit exceeding fifty percent of the taxes payable under chapter 82.04 RCW shall be allowed in any reporting period.

(4) The total cumulative amount of the credits allowed for any cogeneration facility covered by a certificate shall not exceed fifty percent of the cost of the cogeneration facility less the total amount of federal investment credit or other federal tax credits applicable to the cogeneration facility.

(5) State credits shall not become available until one year after final cost verification by the department. [1982 1st ex.s. c 2 § 1; 1979 ex.s. c 191 § 5.]

82.35.070 Issuance of certificate or supplement and notice of refusal to issue certificate or supplement—Certified mail. The department shall send a certificate or supplement, when issued, by certified mail to the applicant. Notice of the department's refusal to issue a certificate or supplement shall likewise be sent to the applicant by certified mail. [1979 ex.s. c 191 § 7.]

82.35.080 Revocation of certificate—Grounds—Continuance of certificate—Liability for money saved—Technical assistance. (1) Except as provided in subsection (2) of this section, the department shall revoke any certificate issued under this chapter if it finds that any of the following have occurred with respect to the certificate:

(a) The certificate was obtained by fraud or deliberate misrepresentation;

(b) The certificate was obtained through the use of inaccurate data but without any intention to commit fraud or misrepresentation;

(c) The facility was constructed or operated in violation of any provision of this chapter or provision imposed by the department as a condition of certification; or

(d) The cogeneration facility is no longer capable of being operated for the primary purpose of cogeneration.

(2) If the department finds that there are few inaccuracies under subsection (1)(b) of this section and that cumulatively they are insignificant in terms of the cost or operation of the facility or that the inaccurate data is not attributable to carelessness or negligence and its inclusion was reasonable under the circumstances, then the department may provide for the continuance of the certificate and whatever modification it considers in the public interest.

(3) Any person, firm, corporation, or organization that obtains a certificate revoked under this section shall be liable for the total amount of money saved by claiming the credits and exemptions provided under this chapter and RCW 84.36.485. The total amount of the credits shall be collected as delinquent business and occupation taxes, and the total of the exemptions shall be collected and distributed as delinquent property taxes. Interest shall accrue on the amounts of the credits and exemptions from the date the taxes were otherwise due.

(4) The department of community, trade, and economic development shall provide technical assistance to the department in carrying out its responsibilities under this section. [1996 c 186 § 522; 1979 ex.s. c 191 § 8.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

82.35.900 Severability—1979 ex.s. c 191. If any provision of this 1979 act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1979 ex.s. c 191 § 13.]

82.36.020 Tax imposed—Rate to be computed—Allocation of proceeds. Every distributor shall pay, in addition to any other taxes provided by law, an excise tax to the director at a rate computed in the manner provided in RCW 82.36.025 for each gallon of motor vehicle fuel sold, distributed, or used by him in the state as well as on each gallon upon which he has assumed liability for payment of the tax under the provisions of RCW 82.36.100: PROVIDED, That under such regulations as the director may prescribe sales or distribution of motor vehicle fuel may be made by one licensed distributor to another licensed distributor free of the tax. In the computation of the tax, one-quarter of one percent of the net gallonage otherwise taxable shall be deducted by the distributor before computing the tax due, on account of the losses sustained through handling. The tax imposed hereunder shall be in addition to any other tax required by law, and shall not be imposed under circumstances in which the tax is prohibited by the Constitution or laws of the United States. The tax herein imposed shall be collected and paid to the state but once in respect to any motor vehicle fuel. An invoice shall be rendered by a distributor to a purchaser for each distribution of motor vehicle fuel.

The proceeds of the motor vehicle fuel excise tax collected on the net gallonage after the deduction provided for herein and after the deductions for payments and expenditures as provided in RCW 46.68.090, shall be distributed as provided in RCW 46.68.100. (1) A motor vehicle fuel tax rate of seventeen cents per gallon shall apply to the sale, distribution, or use of motor vehicle fuel.

(2) An additional motor vehicle fuel tax rate of one-third cent per gallon shall apply to the sale, distribution, or use of motor vehicle fuel, and the proceeds from this additional tax rate, reduced by an amount equal to the sum of the payments under RCW 46.68.090(1) (a), (b), and (c) multiplied by the additional tax rate prescribed by this subsection divided by the motor vehicle fuel tax rate provided in this section, shall be deposited in the rural arterial trust account in the motor vehicle fund for expenditures under RCW 36.79.020.

(3) An additional motor vehicle fuel tax rate of one-third cent per gallon shall apply to the sale, distribution, or use of motor vehicle fuel, and the proceeds from this additional tax rate, reduced by an amount equal to the sum of the payments under RCW 46.68.090(1) (a), (b), and (c) multiplied by the additional tax rate prescribed by this subsection divided by the motor vehicle fuel tax rate provided in this section, shall be deposited in the urban arterial trust account in the motor vehicle fund. After June 30, 1995, ninety-five percent of this revenue shall be deposited in the urban arterial trust account in the motor vehicle fund and five percent shall be deposited in the small city account in the motor vehicle fund.

(4) An additional motor vehicle fuel tax rate of one-third cent per gallon shall be applied to the sale, distribution, or use of motor vehicle fuel, and the proceeds from this additional tax rate, reduced by an amount equal to the sum of the payments under RCW 46.68.090(1) (a), (b), and (c) multiplied by the additional tax rate prescribed by this subsection divided by the motor vehicle fuel tax rate provided in this section, shall be deposited in the motor vehicle fund to be expended for highway purposes of the state as defined in RCW 46.68.130.

(5) An additional motor vehicle fuel tax rate of four cents per gallon from April 1, 1990, through March 31, 1991, and five cents per gallon from April 1, 1991, applies to the sale, distribution, or use of motor vehicle fuel. The proceeds from the additional tax rate under this subsection, reduced by an amount equal to the sum of the payments under RCW 46.68.090(1) (a), (b), and (c) multiplied by the additional tax rate prescribed by this subsection divided by the motor fuel tax rate provided in this section, shall be deposited in the motor vehicle fund and shall be distributed by the state treasurer according to RCW 46.68.095. Purpose of state and local transportation funding program—1990 c 42: "(1) The legislature finds that a new comprehensive funding program is required to maintain the state's commitment to the growing mobility needs of its citizens and commerce. The transportation funding program is intended to satisfy the following state policies and objectives:

(a) State-wide system: Provide for preservation of the existing state-wide system and improvements for current and expected capacity needs in rural, established urban, and growing suburban areas throughout the state;

(b) Local flexibility: Provide for necessary state highway improvements, as well as providing local governments with the option to use new funding sources for projects meeting local and regional needs;

(c) Multimodal: Provide a source of funds that may be used for multimodal transportation purposes;

(d) Program compatibility: Implement transportation facilities and services that are consistent with adopted land use and transportation plans and coordinated with recently authorized programs such as the act authorizing creation of transportation benefit districts and the local transportation act of 1988;

(e) Interjurisdictional cooperation: Encourage transportation planning and projects that are multijurisdictional in their conception, development, and benefit, recognizing that mobility problems do not respect jurisdictional boundaries;

(f) Public and private sector: Use a state, local, and private sector partnership that equitably shares the burden of meeting transportation needs.

(2) The legislature further recognizes that the revenues currently available to the state and to counties, cities, and transit authorities for highway, road, and street construction and preservation fall far short of the identified need. The 1988 Washington road jurisdiction study identified a state-wide funding shortfall of between \$14.6 and \$19.9 billion to bring existing roads to acceptable standards. The gap between identified transportation needs and available revenues continues to increase. A comprehensive transportation funding program is required to meet the current and anticipated future needs of this state.

(3) The legislature further recognizes the desirability of making certain changes in the collection and distribution of motor vehicle excise taxes with the following objectives: Simplifying administration and collection of the taxes including adoption of a predictable depreciation schedule for vehicles; simplifying the allocation of the taxes among various recipients; and the dedication of a portion of motor vehicle excise taxes for transportation purposes.

(4) The legislature, therefore, declares a need for the three-part funding program embodied in this act: (a) State-wide funding for highways, roads, and streets in urban and rural areas; (b) local option funding authority, available immediately, for the construction and preservation of roads, streets, and transit improvements and facilities; and (c) the creation of a multimodal transportation fund that is funded through dedication of a portion of motor vehicle excise tax. This funding program is intended, by targeting certain new revenues, to produce a significant increase in the overall capacity of the state, county, and city transportation systems to satisfy and efficiently accommodate the movement of people and goods." [1990 c 42 § 1.]

82.36.032 Penalty for filing fraudulent monthly gallonage return. If any distributor files a fraudulent monthly gallonage return with intent to evade the tax imposed by this chapter, there shall be added to the amount of deficiency determined by the department a penalty equal to twenty-five percent of the deficiency, in addition to all other penalties prescribed by law. [1987 c 174 § 7.]

Effective date—1987 c 174: See note following RCW 82.36.010.

82.36.038 Payment of tax—Due dates—Electronic funds transfer. (1) Except as provided in subsection (2) of this section, the tax due on motor vehicle fuel that is sold, distributed, or used during a month shall be paid on or before the twenty-fifth day of the following month.

(2) If payment of the tax due on motor vehicle fuel that is sold, distributed, or used during a month is made by electronic funds transfer, it shall be made on or before the state business day immediately preceding the last state business day of the following month.

(3) The tax shall be paid by electronic funds transfer whenever the amount due is fifty thousand dollars or more. [1987 c 174 § 3.]

82.36.040 Payment of tax—Penalty for delinquency.

Supp. 1943 § 8327-8, part; prior: 1923 c 81 § 3, part; 1921 c 173 § 5, part.]

Effective date—1987 c 174: See note following RCW 82.36.010.

82.36.045 Distributors—Tax reports—Deficiencies, failure to file, fraudulent filings, misappropriation or conversion—Penalties, liability. (1) If the department determines that the tax reported by a motor vehicle fuel distributor is deficient, the department shall assess the deficiency on the basis of information available to it, and shall add a penalty of two percent of the amount of the deficiency.

(2) If a distributor, whether licensed or not licensed as such, fails, neglects, or refuses to file a motor vehicle fuel tax report the department shall, on the basis of information available to it, determine the tax liability of the distributor for the period during which no report was filed. The department shall add the penalty provided in subsection (1) of this section to the tax. An assessment made by the department under this subsection or subsection (1) of this section is presumed to be correct. In any case, where the validity of the assessment is questioned, the burden is on the person who challenges the assessment to establish by a fair preponderance of evidence that it is erroneous or excessive, as the case may be.

(3) If a distributor files a false or fraudulent report with intent to evade the tax imposed by this chapter, the department shall add to the amount of deficiency a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsections (1) and (2) of this section and all other penalties prescribed by law.

(4) Motor vehicle fuel tax, penalties, and interest payable under this chapter bears interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion of it should have been paid until the date of payment. If a distributor establishes by a fair preponderance of evidence that the failure to pay the amount of tax due was attributable to reasonable cause and was not intentional or willful, the department may waive the penalty. The department may waive the interest when it determines the cost of processing or collection of the interest exceeds the amount of interest due.

(5) Except in the case of a fraudulent report, neglect or refusal to make a report, or failure to pay or to pay the proper amount, the department shall assess the deficiency under subsection (1) or (2) of this section within five years from the last day of the succeeding calendar month after the reporting period for which the amount is proposed to be determined or within five years after the return is filed, whichever period expires later.

(6) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interest

of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(7) A distributor against whom an assessment is made under subsection (1) or (2) of this section may petition for a reassessment within thirty days after service upon the distributor of notice of the assessment. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the distributor has so requested in its petition, shall grant the distributor an oral hearing and give the distributor twenty days' notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment becomes final thirty days after service of notice upon the distributor.

An assessment made by the department becomes due and payable when it becomes final. If it is not paid to the department when due and payable, the department shall add a penalty of ten percent of the amount of the tax.

(8) In a suit brought to enforce the rights of the state under this chapter, the assessment showing the amount of taxes, penalties, interest, and cost unpaid to the state is prima facie evidence of the facts as shown.

(9) A notice of assessment required by this section must be served personally or by mail. If it is served by mail, service shall be made by deposit of the notice in the United States mail, postage prepaid, addressed to the distributor at the most current address furnished to the department.

(10) The tax required by this chapter, to be collected by the seller, is held in trust by the seller until paid to the department, and a seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to collect the tax imposed by this section, or who has collected the tax and fails to pay it to the department in the manner prescribed by this chapter, is personally liable to the state for the amount of the tax. [1996 c 104 § 2; 1991 c 339 § 1.]

82.36.047 Assessments—Warrant; Lien. When an assessment becomes final in accordance with this chapter, the department may file with the clerk of any county within the state a warrant in the amount of the assessment of taxes, penalties, interest, and a filing fee of five dollars. The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant the name of the distributor mentioned in the warrant, the amount of the tax, penalties, interest, and filing fee, and the

date when the warrant was filed: The aggregate amount of the warrant as docketed becomes a lien upon the title to and interest in all real and personal property of the named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of the clerk. The warrant so docketed is sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of a civil judgment, wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee of five dollars. [1991 c 339 § 4.]

82.36.050 Date of mailing deemed date of filing or receipt—Timely mailing bars penalties and tolls statutory time limitations. When any application, report, notice, payment, or claim for credit or refund to be filed with or made to any officer, agent, or employee of the state under the provisions of this chapter has been deposited in the United States mail addressed to such officer, agent or employee, it shall be deemed filed or received on the date shown by the post office cancellation mark on the envelope containing it or on the date it was mailed if proof satisfactory to said officer, agent, or employee of the state establishes that the actual mailing occurred on an earlier date: PROVIDED, HOWEVER, That no penalty for delinquency shall attach, nor will the statutory period be deemed to have elapsed in the case of credit or refund claims, if it is established by competent evidence that such application, report, notice, payment, or claim for credit or refund was timely deposited in the United States mail properly addressed to said officer, agent, or employee of the state, even though never received if a duplicate of such document or payment is filed. [1961 c 15 § 82.36.050. Prior: 1957 c 247 § 4; 1947 c 135 § 1; Rem. Supp. 1947 § 8327-8a.]

82.36.060 Application for distributor's license—Investigation—Fee—Penalty for false statement—Bond or security. Every person, before becoming a distributor or continuing in business as a distributor, shall make an application to the department for a license authorizing the applicant to engage in business as a distributor. Applications for such licenses shall be made to the department on forms to be furnished by the department.

Every application for a distributor's license must contain the following information to the extent it applies to the applicant:

(1) Proof as the department may require concerning the applicant's identity, including but not limited to his or her fingerprints or those of the officers of a corporation making the application;

(2) The applicant's form and place of organization including proof that the individual, partnership, or corporation is licensed to do business in this state;

(3) The qualification and business history of the applicant and any partner, officer, or director;

(4) The applicant's financial condition or history including a bank reference and whether the applicant or any partner, officer, or director has ever been adjudged bankrupt or has an unsatisfied judgment in a federal or state court;

(5) Whether the applicant has been adjudged guilty of a crime that directly relates to the business for which the

license is sought and the time elapsed since the conviction is less than ten years, or has suffered a judgment within the preceding five years in a civil action involving fraud, misrepresentation, or conversion and in the case of a corporation or partnership, all directors, officers, or partners.

After receipt of an application for a license, the director may conduct an investigation to determine whether the facts set forth are true. The director may require a fingerprint record check of the applicant through the Washington state patrol criminal identification system and the federal bureau of investigation before issuance of a license. The results of the background investigation including criminal history information may be released to authorized department personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040.

Before granting any license authorizing any person to engage in business as a distributor, the department shall require applicant to file with the department, in such form as shall be prescribed by the department, a corporate surety bond duly executed by the applicant as principal, payable to the state and conditioned for faithful performance of all the requirements of this chapter, including the payment of all taxes, penalties, and other obligations arising out of this chapter. The total amount of the bond or bonds, required of any distributor shall be fixed by the department and may be increased or reduced by the department at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds required of any distributor, the department shall require a bond or bonds equivalent in total amount to twice the estimated monthly excise tax determined in such manner as the department may deem proper. If at any time the estimated excise tax to become due during the succeeding month amounts to more than fifty percent of the established bond, the department shall require additional bonds or securities to maintain the marginal ratio herein specified or shall demand excise tax payments to be made weekly or semimonthly to meet the requirements hereof.

The total amount of the bond or bonds required of any distributor shall never be less than five thousand dollars nor more than fifty thousand dollars.

No recoveries on any bond or the execution of any new bond shall invalidate any bond and no revocation of any license shall effect the validity of any bond but the total recoveries under any one bond shall not exceed the amount of the bond.

In lieu of any such bond or bonds in total amount as herein fixed, a distributor may deposit with the state treasurer, under such terms and conditions as the department may prescribe, a like amount of lawful money of the United States or bonds or other obligations of the United States, the state, or any county of the state, of an actual market value not less than the amount so fixed by the department.

Any surety on a bond furnished by a distributor as provided herein shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of thirty days from the date upon which such surety has lodged with the department a written request to be released and discharged, but this provision shall not operate

to relieve, release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the thirty day period. The department shall promptly, upon receiving any such request, notify the distributor who furnished the bond; and unless the distributor, on or before the expiration of the thirty day period, files a new bond, or makes a deposit in accordance with the requirements of this section, the department shall forthwith cancel the distributor's license. Whenever a new bond is furnished by a distributor, the department shall cancel his or her old bond as soon as the department and the attorney general are satisfied that all liability under the old bond has been fully discharged.

The department may require a distributor to give a new or additional surety bond or to deposit additional securities of the character specified in this section if, in its opinion, the security of the surety bond theretofore filed by such distributor, or the market value of the properties deposited as security by the distributor, shall become impaired or inadequate; and upon the failure of the distributor to give such new or additional surety bond or to deposit additional securities within thirty days after being requested so to do by the department, the department shall forthwith cancel his or her license. [1996 c 104 § 3; 1994 c 262 § 19; 1973 c 96 § 1; 1961 c 15 § 82.36.060. Prior: 1933 c 58 § 2; RRS § 8327-2.]

82.36.070 Issuance of license—Display—Refusal of issuance—Inspection of records. The application in proper form having been accepted for filing, the filing fee paid, and the bond or other security having been accepted and approved, the department shall issue to the applicant a license to transact business as a distributor in the state, and such license shall be valid until canceled or revoked.

The license so issued by the department shall not be assignable, and shall be valid only for the distributor in whose name issued.

The department shall keep and file all applications and bonds with an alphabetical index thereof, together with a record of all licensed distributors.

Each distributor shall be assigned a license number upon qualifying for a license hereunder, and the department shall issue to each such licensee a license certificate which shall be displayed conspicuously by the distributor at his or her principal place of business. The department may refuse to issue or may revoke a motor vehicle fuel distributor license, to a person:

(1) Who formerly held a motor vehicle fuel distributor's license that, before the time of filing for application, has been revoked or canceled for cause;

(2) Who is a subterfuge for the real party in interest whose license has been revoked or canceled for cause;

(3) Who, as an individual licensee or officer, director, owner, or managing employee of a nonindividual licensee, has had a motor vehicle fuel distributor license revoked or canceled for cause;

(4) Who has an unsatisfied debt to the state assessed under either chapter 82.36, *82.37, 82.38, 82.42, or 46.87 RCW;

(5) Who formerly held as an individual, officer, director, owner, managing employee of a nonindividual licensee, or

subterfuge for a real party in interest, a license issued by the federal government or a state that allowed a person to buy or sell untaxed motor vehicle or special fuel, which license, before the time of filing for application, has been revoked for cause;

(6) Who pled guilty to or was convicted as an individual, corporate officer, director, owner, or managing employee in this or any other state or in any federal jurisdiction of a gross misdemeanor or felony crime directly related to the business or has been subject to a civil judgment involving fraud, misrepresentation, conversion, or dishonesty, notwithstanding chapter 9.96A RCW;

(7) Who misrepresented or concealed a material fact in obtaining a license or in reinstatement thereof;

(8) Who violated a statute or administrative rule regulating fuel taxation or distribution;

(9) Who failed to cooperate with the department's investigations by:

(a) Not furnishing papers or documents;

(b) Not furnishing in writing a full and complete explanation regarding a matter under investigation by the department; or

(c) Not responding to subpoenas issued by the department, whether or not the recipient of the subpoena is the subject of the proceeding;

(10) Who failed to comply with an order issued by the director; or

(11) Upon other sufficient cause being shown.

Before such a refusal or revocation, the department shall grant the applicant a hearing and shall give the applicant at least twenty days' written notice of the time and place of the hearing.

For the purpose of considering an application for a distributor's license, the department may inspect, cause an inspection, investigate, or cause an investigation of the records of this or any other state or of the federal government to ascertain the veracity of the information on the application form and the applicant's criminal and licensing history.

The department may, in the exercise of reasonable discretion, suspend a motor vehicle distributor license at any time before and pending such a hearing for unpaid taxes or reasonable cause. 82.36.080 Penalty for distributing without license—Default assessment. It shall be unlawful for any person to be a distributor without first securing a license from the director.

If any person becomes a distributor without first securing the license required herein the excise tax shall be immediately due and payable on account of all motor vehicle fuel distributed or used by him. The director shall proceed forthwith to determine from the best available sources, the amount of the tax, and he shall immediately assess the tax in the amount found due, together with a penalty of one hundred percent of the tax, and shall make his certificate of such assessment and penalty. In any suit or proceeding to

collect the tax or penalty, or both, such certificate shall be prima facie evidence that the person therein named is indebted to the state in the amount of the tax and penalty therein stated. Any tax or penalty so assessed may be collected in the manner prescribed in this chapter with reference to delinquency in payment of the tax or by an action at law, which the attorney general shall commence and prosecute to final determination at the request of the director. The foregoing remedies of the state shall be cumulative and no action taken pursuant to this section shall relieve any person from the penal provisions of this chapter. [1961 c 15 § 82.36.080. Supp. 1943 § 8327-8, part; prior: 1923 c 81 § 3, part; 1921 c 173 § 5, part.]

82.36.090 Discontinuance or transfer of business—Notice. Whenever a distributor ceases to engage in business as a distributor within the state by reason of the discontinuance, sale, or transfer of his business, he shall notify the director in writing at the time the discontinuance, sale, or transfer takes effect. Such notice shall give the date of discontinuance, and, in the event of a sale or transfer of the business, the date thereof and the name and address of the purchaser or transferee thereof. All taxes, penalties, and interest under this chapter, not yet due and payable, shall become due and payable concurrently with such discontinuance, sale, or transfer, and any such distributor shall make a report and pay all such taxes, interest, and penalties, and surrender to the director the license certificate theretofore issued to him.

If an overpayment of tax was made by the distributor, prior to the discontinuance or transfer of his business, such overpayment may be refunded to such distributor or may be credited to the transferee of such business if such transferee qualifies as a distributor under the provisions of this chapter. 82.36.100 Tax required of persons not classed as distributors—Duties—Procedure—Distribution of proceeds—Penalties. Every person other than a distributor who acquires any motor vehicle fuel within this state upon which payment of tax is required under the provisions of this chapter, or imports such motor vehicle fuel into this state and sells, distributes, or in any manner uses it in this state shall, if the tax has not been paid, apply for a license to carry on such activities, file bond, make reports, comply with all regulations the director may prescribe in respect thereto, and pay an excise tax at the rate computed in the manner provided in RCW 82.36.025 for each gallon thereof so sold, distributed, or used during the fiscal year for which such rate is applicable in the manner provided for distributors, and the director shall issue a license to such person in the manner provided for issuance of licenses to distributors. The proceeds of the tax imposed by this section shall be distributed in the manner provided for the distribution of the motor vehicle fuel excise tax in RCW 82.36.020. However, a distributor licensed under this chapter may deliver motor vehicle fuel to an importer in individual quantities of five hundred gallons or less and assume the liability for payment

of the tax to this state. Under such conditions, the importer is exempt from the requirements of this section. For failure to comply with this chapter such person is subject to the same penalties imposed upon distributors. The director shall pursue against such persons the same procedure and remedies for audits, adjustments, collection, and enforcement of this chapter as is provided with respect to distributors. Nothing in this section may be construed as classifying such persons as distributors. [1983 1st ex.s. c 49 § 28; 1977 ex.s. c 317 § 3; 1967 ex.s. c 83 § 3; 1961 ex.s. c 7 § 2; 1961 c 15 § 82.36.100. 82.36.110 Delinquency—Lien of tax—Notice. If any person liable for the tax imposed by this chapter fails to pay the same, the amount thereof, including any interest, penalty, or addition to such tax, together with any costs that may accrue in addition thereto, shall be a lien in favor of the state upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by such person, whether such property is employed by such person in the prosecution of business or is in the hands of a trustee, or receiver, or assignee for the benefit of creditors, from the date the taxes were due and payable, until the amount of the lien is paid or the property sold in payment thereof.

The lien shall have priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that such lien shall not be valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached prior to the time the department has filed notice of such lien in the office of the county auditor of the county in which the principal place of business of the taxpayer is located.

The auditor, upon presentation of a notice of lien, and without requiring the payment of any fee, shall file and index it in the manner now provided for deeds and other conveyances except that he shall not be required to include, in the index, any description of the property affected by the lien. The lien shall continue until the amount of the tax, together with any penalties and interest subsequently accruing thereon, is paid. The department may issue a certificate of release of lien when the amount of the tax, together with any penalties and interest subsequently accruing thereon, has been satisfied, and such release may be recorded with the auditor of the county in which the notice of lien has been filed.

The department shall furnish to any person applying therefor a certificate showing the amount of all liens for motor vehicle fuel tax, penalties and interest that may be of record in the files of the department against any person under the provisions of this chapter. [1993 c 54 § 3; 1961 c 15 § 82.36.110. Prior: 1933 c 58 § 9, part; RRS § 8327-9, part.]

82.36.120 Delinquency—Notice to debtors—Lien.

If a distributor is delinquent in the payment of an obligation imposed under this chapter, the department may give notice of the amount of the delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to such distributor, or owing any debts to such distributor at the time of receipt by them of such notice. Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice. A person so notified shall neither transfer nor make any other disposition of such credits, personal property, or debts until the department consents to a transfer or other disposition. All persons so notified must, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall deliver upon demand the credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court, upon application of the department and after the time to answer the notice has expired, to render judgment by default against the person for the full amount claimed by the department in the notice to withhold and deliver, together with costs. [1994 c 262 § 21; 1991 c 339 § 3; 1961 c 15 § 82.36.120. Prior: 1933 c 58 § 9, part; RRS § 8327-9, part.]

82.36.130 Delinquency—Tax warrant. If any distributor is in default for more than ten days in the payment of any excise taxes or penalties thereon, the director shall issue a warrant under the official seal of his office directed to the sheriff of any county of the state commanding him to levy upon and sell the goods and chattels of the distributor, without exemption, found within his jurisdiction, for the payment of the amount of such delinquency, with the added penalties and interest and the cost of executing the warrant, and to return such warrant to the director and to pay the director the money collected by virtue thereof within the time to be therein specified, which shall not be less than twenty nor more than sixty days from the date of the warrant. The sheriff to whom the warrant is directed shall proceed upon it in all respects and with like effect and in the same manner as prescribed by law in respect to executions issued against goods and chattels upon judgment by a court of record and shall be entitled to the same fees for his services to be collected in the same manner. [1961 c 15 § 82.36.130. Prior: 1933 c 58 § 9, part; RRS § 8327-9, part.]

82.36.140 State may pursue remedy against distributor or bond. In a suit or action by the state on any bond filed with the director recovery thereon may be had without first having sought or exhausted its remedy against the distributor; nor shall the fact that the state has pursued, or is in the course of pursuing, any remedy against the distributor waive its right to collect the taxes, penalties, and interest by

proceeding against such bond or against any deposit of money or securities made by the distributor. [1961 c 15 § 82.36.140. Prior: 1933 c 58 § 9, part; RRS § 8327-9, part.]

82.36.150 Records to be kept by distributors and producers. Every distributor shall keep a true and accurate record on such form as the director may prescribe of all stock of petroleum products on hand, of all raw gasoline, gasoline stock, diesel oil, kerosene, kerosene distillates, casing-head gasoline and other petroleum products needed in, or which may be used in, compounding, blending, or manufacturing motor vehicle fuel; of the amount of crude oil refined, the gravity thereof and the yield therefrom, as well as of such other matters relating to transactions in petroleum products as the director may require. Every distributor shall take a physical inventory of the petroleum products at least once during each calendar month and have the record of such inventory and of the other matters mentioned in this section available at all times for the inspection of the director. Upon demand of the director every distributor shall furnish a statement under oath as to the contents of any records to be kept hereunder.

Every producer shall keep a true and accurate record in such form as may be prescribed by the director of all manufacture and distribution of casing-head gasoline, kerosene distillates and other petroleum products used in, or which may be used in, the blending, compounding, or manufacturing of motor vehicle fuel, and every broker shall likewise keep a true and accurate record of all purchases of such petroleum products in such manner as to disclose the vendor, the quantity purchased, the correct description of the commodity, and the means of transportation from such broker to the vendee. All records required by this section shall be available at all times for the inspection of the director or his representative who may require a statement under oath as to contents thereof. [1965 ex.s. c 79 § 5; 1961 c 15 § 82.36.150. Prior: 1933 c 58 § 10; RRS § 8327-10; prior: 1921 c 173 § 6, part.]

82.36.160 Records to be preserved by distributors and dealers. Every distributor shall maintain in the office of his or her principal place of business in this state, for a period of five years, records of motor vehicle fuel received, sold, distributed, or used by the distributor, in such form as the director may prescribe, together with invoices, bills of lading, and other pertinent papers as may be required under the provisions of this chapter.

Every dealer purchasing motor vehicle fuel taxable under this chapter for the purpose of resale, shall maintain within this state, for a period of two years a record of motor vehicle fuels received, the amount of tax paid to the distributor as part of the purchase price, together with delivery tickets, invoices, and bills of lading, and such other records as the director shall require. [1996 c 104 § 5; 1961 c 15 § 82.36.160. Prior: 1957 c 247 § 7; 1933 c 58 § 11; RRS § 8327-11; prior: 1921 c 173 § 6, part.]

82.36.170 Additional reports. The director may, from time to time, require additional reports from distributors, brokers, dealers, or producers with reference to any of the matters herein concerned. Such reports shall be made

and filed on forms prepared by the director. [1961 c 15 § 82.36.170. Prior: 1933 c 58 § 12; RRS § 8327-12; prior: 1921 c 173 § 9.]

82.36.180 Examinations and investigations. The director, or his duly authorized agents, may make such examinations of the records, stocks, facilities, and equipment of distributors, producers, brokers, and service stations, and such other investigations as he may deem necessary in carrying out the provisions of this chapter. If such examinations or investigations disclose that any reports of distributors of motor vehicle fuel theretofore filed with the director pursuant to the requirements of this chapter have shown incorrectly the gallonage of motor vehicle fuel distributed or the tax accruing thereon, the director may make such changes in subsequent reports and payments of such distributors as he may deem necessary to correct the errors disclosed.

Every such distributor or such other person not maintaining records in this state so that an audit of such records may be made by the director or his duly authorized representative shall be required to make the necessary records available to the director at his request and at his designated office within this state; or, in lieu thereof, the director or his duly authorized representative shall proceed to any out-of-state office at which the records are prepared and maintained to make such examination. [1967 ex.s. c 89 § 6; 1965 ex.s. c 79 § 6; 1961 c 15 § 82.36.180. Prior: 1939 c 177 § 3; 1933 c 58 § 13; RRS § 8327-13; prior: 1921 c 173 § 6, part.]

82.36.190 Revocation of licenses. The department shall revoke the license of any distributor refusing or neglecting to comply with any provision of this chapter. The department shall mail by registered mail addressed to such distributor at his last known address a notice of intention to cancel, which notice shall give the reason for cancellation. The cancellation shall become effective without further notice if within ten days from the mailing of the notice the distributor has not made good his default or delinquency.

The department may cancel any license issued to any distributor, such cancellation to become effective sixty days from the date of receipt of the written request of such distributor for cancellation thereof, and the department may cancel the license of any distributor upon investigation and sixty days notice mailed to the last known address of such distributor if the department ascertains and finds that the person to whom the license was issued is no longer engaged in the business of a distributor, and has not been so engaged for the period of six months prior to such cancellation. No license shall be canceled upon the request of any distributor unless the distributor, prior to the date of such cancellation, pays to the state all taxes imposed by the provisions of this chapter, together with all penalties accruing by reason of any failure on the part of the distributor to make accurate reports or pay said taxes and penalties.

In the event the license of any distributor is canceled, and in the further event that the distributor pays to the state all excise taxes due and payable by him upon the receipt, sale, or use of motor vehicle fuel, together with any and all penalties accruing by reason of any failure on the part of the

distributor to make accurate reports or pay said taxes and penalties, the department shall cancel the bond filed by the distributor. [1990 c 250 § 80; 1961 c 15 § 82.36.190. Prior: 1933 c 58 § 14; RRS § 8327-14.]

Severability—1990 c 250: See note following RCW 46.16.301.

82.36.200 Carriers of motor vehicle fuel—Examination of records, stocks, etc. The director or his authorized agents may at any time during normal business hours examine the records, stocks, facilities and equipment of any person engaged in the transportation of motor vehicle fuel within the state of Washington for the purpose of checking shipments or use of motor vehicle fuel, detecting diversions thereof or evasion of taxes on same in enforcing the provisions of this chapter. [1965 ex.s. c 79 § 7; 1961 c 15 § 82.36.200. Prior: 1957 c 218 § 1; 1953 c 157 § 1; 1943 c 84 § 3; 1933 c 58 § 15; Rem. Supp. 1943 § 8327-15.]

82.36.210 Carriers of motor vehicle fuel on highways—Invoice, bill of sale, etc., required—Inspections—Impounding—Penalty—Enforcement. Every person operating any conveyance for the purpose of hauling, transporting or delivering motor vehicle fuel in bulk to points in this state from any point without this state, shall before entering upon the public highways of this state with such conveyance, have and possess during the entire time they are hauling motor vehicle fuel, an invoice, bill of sale, or other statement showing the true name and address of the seller or consignor, the name of the purchaser or consignee, if any, and the number of gallons. The person hauling such motor vehicle fuel shall at the request of any sheriff, deputy sheriff, constable, highway patrolman, or authorized representative of the department, or other person authorized by law to inquire into, or investigate said matters, produce and offer for inspection such invoice, bill of sale, or other statement and shall permit such official to inspect and gauge the contents of the vehicle. If the hauler fails to produce the invoice, bill of sale, or other statement, or if when produced it fails to disclose the aforesaid information, the officer or other person authorized to make inquiry, shall take and impound the motor vehicle fuel together with the conveying equipment until the tax on the motor vehicle fuel, together with penalty equal to one hundred percent of the tax, and other expenses, charges, and costs have been paid. In case of default, and the taking and impounding herein provided for, the tax, damages, and costs shall be collected, even though the full excise tax may have already been paid on the motor vehicle fuel. In case the tax, damages and other charges are not paid within forty-eight hours after the taking of said property, the director may proceed to sell it in the mode and manner provided by law for the sale of personal property under execution. [1965 ex.s. c 79 § 8; 1961 ex.s. c 21 § 30; 1961 c 15 § 82.36.210. Prior: 1933 c 58 § 16; RRS § 8327-16.]

82.36.220 Exemptions—Tourists. Every person who imports motor vehicle fuel into this state for his own use in equipment other than motor vehicles shall not, for that reason alone, be required to secure a distributor's license or to comply with any of the provisions of this chapter imposed

upon a distributor or with the provisions of RCW 82.36.100; but such person shall make a report verified under oath and file the same with the director on or before the tenth day of the succeeding month, showing the number of gallons of motor vehicle fuel so imported and the number of gallons of such motor vehicle fuel used during the preceding month, the name of the person from whom the motor vehicle fuel was purchased, the date of purchase, the place of storage, and the manner of use or intended use together with a description of the equipment in which the same is used. These reports shall be filed upon blanks furnished by the director: PROVIDED, That any person coming into this state in an aircraft or motor boat shall not be required to make such a report in respect to any motor vehicle fuel carried in the fuel tanks of such vehicle for the purpose of propelling such vehicle, and every person coming into this state in a motor vehicle who shall transport in the fuel tanks of such vehicle motor vehicle fuel for the propulsion thereof shall be subject to all the provisions of the motor vehicle fuel importer use tax act applying to taxation of fuel in vehicles coming into this state, but if the motor vehicle fuel so brought into the state be removed from the fuel tanks of such vehicles or used for any purpose other than the propulsion of the vehicles, the person so importing motor vehicle fuel shall be subject to all the provisions of this chapter applying to distributors. The director shall have the right, in order to establish the validity of any exemption, to examine the books and records of the claimant for such purpose, and the failure of the claimant to accede to the demand for such examination shall constitute a waiver of all rights to the exemption herein granted. [1963 ex.s. c 22 § 20; 1961 ex.s. c 21 § 31; 1961 c 15 § 82.36.220. Prior: 1957 c 247 § 9; prior: 1949 c 220 § 13, part; 1943 c 84 § 4, part; 1939 c 177 § 4, part; 1933 c 58 § 17, part; Rem. Supp. 1949 § 8327-17, part.]

82.36.230 Exemptions—Imports, exports, federal sales. The provisions of this chapter requiring the payment of taxes do not apply to motor vehicle fuel imported into the state in interstate or foreign commerce and intended to be sold while in interstate or foreign commerce, nor to motor vehicle fuel exported from this state by a qualified distributor nor to any motor vehicle fuel sold by a qualified distributor to the armed forces of the United States or to the national guard for use exclusively in ships or for export from this state. The distributor shall report such imports, exports and sales to the department at such times, on such forms, and in such detail as the department may require, otherwise the exemption granted in this section is null and void, and all fuel shall be considered distributed in this state fully subject to the provisions of this chapter. Each invoice covering exempt sales shall have the statement "Ex Washington Motor Vehicle Fuel Tax" clearly marked thereon.

To claim any exemption from taxes under this section on account of sales by a licensed distributor of motor vehicle fuel for export, the purchaser shall obtain from the selling distributor, and such selling distributor must furnish the purchaser, an invoice giving such details of the sale for export as the department may require, copies of which shall be furnished the department and the entity of the state or foreign jurisdiction of destination which is charged by the laws of that state or foreign jurisdiction with the control or

monitoring, or both, of the sales or movement of motor vehicle fuel in that state or foreign jurisdiction.

To claim any exemption from taxes under this section on account of sales of motor vehicle fuel to the armed forces of the United States or to the national guard, the distributor shall be required to execute an exemption certificate in such form as shall be furnished by the department, containing a certified statement by an authorized officer of the armed forces having actual knowledge of the purpose for which the exemption is claimed. Any claim for exemption based on such sales shall be made by the distributor within six months of the date of sale. The provisions of this section exempting motor vehicle fuel sold to the armed forces of the United States or to the national guard from the tax imposed hereunder do not apply to any motor vehicle fuel sold to contractors purchasing such fuel either for their own account or as the agents of the United States or the national guard for use in the performance of contracts with the armed forces of the United States or the national guard.

The department may at any time require of any distributor any information the department deems necessary to determine the validity of the claimed exemption, and failure to supply such data will constitute a waiver of all right to the exemption claimed. The department is hereby empowered with full authority to promulgate rules and regulations and to prescribe forms to be used by distributors in reporting to the department so as to prevent evasion of the tax imposed by this chapter.

Upon request from the officials to whom are entrusted the enforcement of the motor fuel tax law of any other state, the District of Columbia, the United States, its territories and possessions, the provinces, or the Dominion of Canada, the department may forward to such officials any information which the department may have relative to the import or export of any motor vehicle fuel by any distributor: PROVIDED, That such governmental unit furnish like information to this state. 82.36.240 Sales to state or political subdivisions not exempt. Nothing in this chapter shall be construed to exempt from the payment of the tax any motor vehicle fuel sold and delivered to or used by the state or any political subdivision thereof, or any inflammable petroleum products other than motor vehicle fuel, used by the state, or any political subdivision thereof, in the propulsion of motor vehicles as herein defined. [1961 c 15 § 82.36.240. Prior: 1957 c 247 § 11; prior: 1949 c 220 § 13, part; 1943 c 84 § 4, part; 1939 c 177 § 4, part; 1933 c 58 § 17, part; Rem. Supp. 1949 § 8327-17, part.]

82.36.245 Exemption—Sales to foreign diplomatic and consular missions. Sales of motor vehicle fuel to qualified foreign diplomatic and consular missions and their qualified personnel, made under rules prescribed by the director, are exempt from the tax imposed under this chapter if the foreign government represented grants an equivalent

exemption to missions and personnel of the United States performing similar services in the foreign country. Only those foreign diplomatic and consular missions and their personnel which are determined by the United States department of state as eligible for the tax exemption, may claim this exemption under rules prescribed by the director. [1989 c 193 § 2.]

82.36.250 Nongovernmental use of fuels, etc., acquired from United States government—Tax—Unlawful to procure or use. Any person who purchases or otherwise acquires motor vehicle fuel upon which the tax has not been paid, from the United States government, or any of its agents or officers, for use not specifically associated with any governmental function or operation or so acquires inflammable petroleum products other than motor vehicle fuel and uses the same in the propulsion of motor vehicles as herein defined, for a use not associated with any governmental function or operation, shall pay to the state the tax herein provided upon the motor vehicle fuel, or other inflammable petroleum products so acquired. It shall be unlawful for any person to use or to conspire with any governmental official, agent, or employee for the use of any requisition, purchase order, or any card or any authority to which he is not specifically entitled by government regulations, for the purpose of obtaining any motor vehicle fuel or other inflammable petroleum products upon which the state tax has not been paid. [1961 c 15 § 82.36.250. Prior: 1957 c 247 § 12; prior: 1949 c 220 § 13, part; 1943 c 84 § 4, part; 1939 c 177 § 4, part; 1933 c 58 § 17, part; Rem. Supp. 1949 § 8327-17, part.]

82.36.260 Extension of time for filing exportation certificates or claiming exemptions. The director shall have authority to extend the time prescribed under this chapter for filing exportation certificates or claiming exemption for sales to the armed forces: PROVIDED, That written request is filed with the director showing cause for failure to do so within or prior to the prescribed period. [1965 ex.s. c 79 § 11; 1961 c 15 § 82.36.260. Prior: 1957 c 247 § 13; prior: 1949 c 220 § 13, part; 1943 c 84 § 4, part; 1939 c 177 § 4, part; 1933 c 58 § 17, part; Rem. Supp. 1949 § 8327-17, part.]

Any person desiring to claim a refund shall obtain a permit from the department by application therefor on such form as the department shall prescribe, which application shall contain, among other things, the name and address of the applicant, the nature of the business and a sufficient description for identification of the machines or equipment in which the motor vehicle fuel is to be used, for which refund may be claimed under the permit. The permit shall bear a permit number and all applications for refund shall bear the number of the permit under which it is claimed. The department shall keep a record of all permits issued and a cumulative record of the amount of refund claimed and paid thereunder. Such permit shall be obtained before or at the time that the first application for refund is made under the provisions of this chapter. No refund shall be made for motor vehicle fuel consumed by any motor vehicle as herein defined that is required to be registered and licensed as provided in chapter 46.16 RCW; and is operated over and along any public highway except that a refund shall be allowed for motor vehicle fuel consumed:

(1) In a motor vehicle owned by the United States that is operated off the public highways for official use;

(2) By auxiliary equipment not used for motive power, provided such consumption is accurately measured by a metering device that has been specifically approved by the department or is established by either of the following formulae:

(a) For fuel used in pumping fuel or heating oils by a power take-off unit on a delivery truck, refund shall be allowed claimant for tax paid on fuel purchased at the rate of three-fourths of one gallon for each one thousand gallons of fuel delivered: PROVIDED, That claimant when presenting his claim to the department in accordance with the provisions of this chapter, shall provide to said claim, invoices of fuel oil delivered, or such other appropriate information as may be required by the department to substantiate his claim; or

(b) For fuel used in operating a power take-off unit on a cement mixer truck or load compactor on a garbage truck, claimant shall be allowed a refund of twenty-five percent of the tax paid on all fuel used in such a truck; and

(c) The department is authorized to establish by rule additional formulae for determining fuel usage when operating other types of equipment by means of power take-off units when direct measurement of the fuel used is not feasible. The department is also authorized to adopt rules regarding the usage of on board computers for the production of records required by this chapter; and

(3) Before December 31, 1992, in a commercial vehicle as defined in RCW 46.04.140 or a farm vehicle as defined in RCW 46.04.181, if the motor vehicle fuel consumed contains nine and one-half percent or more by volume of alcohol and the commercial vehicle or farm vehicle is operated off the public highways of this state. 82.36.305 Refunds to dealer delivering fuel exclusively for marine use—Limitations—Supporting certificate. Any dealer who delivers motor vehicle fuel exclusively for marine use into the fuel tanks connected to the engine of any marine vessel (excluding any amphibious vehicle) owned or operated by the purchaser of the fuel, said dealer having paid the tax on such fuel levied or directed to be paid as provided in this chapter, either directly by the collection of such tax by the vendor from the dealer or indirectly by the adding of the amount of the tax to the price of such fuel, shall be entitled to and shall be refunded the amount of the tax so paid. The refund shall be applicable only if the person to whom the dealer sold the fuel holds a permit issued pursuant to the provisions of RCW 82.36.270 at the time of sale. Each invoice covering such sale shall have the statement, "Ex Washington Motor Vehicle Fuel Tax," clearly marked thereon.

In addition to the claim to be filed under RCW 82.36.310 the dealer shall also file a certificate supporting such refund in such form and detail as the director may require. The certificate shall contain a statement signed by the purchaser of the fuel to the effect that the fuel so purchased will be used solely for marine use. The dealer may either file a separate certificate obtained from the purchaser for each delivery of fuel thereto or he may file one certificate covering all deliveries made to such purchaser during any given calendar month. [1965 ex.s. c 79 § 12; 1961 c 15 § 82.36.305. Prior: 1957 c 218 § 16.]

82.36.306 Remedies for violation of RCW 82.36.305—Rules—Coloring of fuel exclusively for marine use, samples may be taken. If any person who purchases motor vehicle fuel exclusive of tax under the provisions of RCW 82.36.305 uses or permits such fuel to be used for purposes other than marine use as set forth in this chapter, he shall immediately become liable for the motor vehicle fuel tax imposed thereon and shall for a period of five years thereafter become ineligible for any permit under RCW 82.36.270. The foregoing remedies shall be cumulative and no action taken pursuant thereto shall relieve any person from the penal provisions of this chapter.

The department is hereby empowered with full authority to promulgate rules and regulations and to prescribe forms necessary for the enforcement of the provisions relating to such sales and use of motor vehicle fuel. This shall include authority to require distributors and dealers to color motor

vehicle fuel so sold with a coloring matter to be prescribed and furnished without cost by the department. It shall be unlawful to use or to permit the use of the fuel so colored for any purpose other than that provided under RCW 82.36.305. The department, in order to ascertain whether the fuel so colored has been unlawfully used, may take samples of fuel from fuel tanks of motor vehicles and conduct such other examinations as it may deem necessary. [1973 c 96 § 4; 1961 c 15 § 82.36.306. Prior: 1957 c 218 § 17.]

82.36.310 Claim of refund. Any person claiming a refund for motor vehicle fuel used or exported as in this chapter provided shall not be entitled to receive such refund until he presents to the director a claim upon forms to be provided by the director with such information as the director shall require, which claim to be valid shall in all cases be accompanied by the original invoice or invoices issued to the claimant at the time of the purchases of the motor vehicle fuel, approved as to invoice form by the director: PROVIDED, That in the event of the loss or destruction of the original invoice or invoices, the person claiming a refund may submit in lieu thereof a duplicate copy of such invoice certified by the vendor, but no payment of refund based upon such duplicate invoice shall be made until after expiration of such statutory period specified in RCW 82.36.330 for filing of refund applications.

Any person claiming refund by reason of exportation of motor vehicle fuel shall in addition to the invoices required furnish to the director the export certificate therefor, and the signature on the exportation certificate shall be certified by a notary public. In all cases the claim shall be signed by the person claiming the refund, if it is a corporation, by some proper officer of the corporation, or if it is a limited liability company, by some proper manager or member of the limited liability company. 82.36.320 Information may be required. Any person claiming refund on motor vehicle fuel used other than in motor vehicles as herein provided, and any person purchasing motor vehicle fuel from a dealer who is claiming refund on account of the sale of such fuel under RCW 82.36.305 may be required by the director to also furnish information regarding the amount of motor vehicle fuel purchased from other sources or for other purposes during the period reported for which no refund is claimed. [1961 c 15 § 82.36.320. Prior: 1957 c 218 § 8; prior: 1945 c 38 § 1, part; 1943 c 84 § 5, part; 1937 c 219 § 2, part; 1935 c 109 § 2, part; 1933 c 58 § 18, part; Rem. Supp. 1945 § 8327-18, part; prior: 1923 c 81 § 4, part.]

82.36.330 Payment of refunds—Penalty. Upon the approval of the director of the claim for refund, the state treasurer shall draw a warrant upon the state treasury for the amount of the claim in favor of the person making such claim and the warrant shall be paid from the excise tax collected on motor vehicle fuel: PROVIDED, That the state

treasurer shall deduct from each marine use refund claim an amount equivalent to one cent per gallon and shall deposit the same in the coastal protection fund created by RCW 90.48.390. Applications for refunds of excise tax shall be filed in the office of the director not later than the close of the last business day of a period thirteen months from the date of purchase of such motor fuel, and if not filed within this period the right to refund shall be forever barred, except that such limitation shall not apply to claims for loss or destruction of motor vehicle fuel as provided by the provisions of RCW 82.36.370. Any person or the member of any firm or the officer or agent of any corporation who makes any false statement in any claim required for the refund of excise tax, as provided in this chapter, or who collects or causes to be repaid to him or to any other person any such refund without being entitled to the same under the provisions of this chapter shall be guilty of a gross misdemeanor. 82.36.335 Distributor may obtain credit on tax in lieu of collection and refund. In lieu of the collection and refund of the tax on motor vehicle fuel used by a distributor in such a manner as would entitle a purchaser to claim refund under this chapter, credit may be given the distributor upon his tax return in the determination of the amount of his tax. [1961 c 15 § 82.36.335. Prior: 1957 c 218 § 14.]

82.36.340 Examination of books and records. The director may in order to establish the validity of any claim for refund require the claimant, or, in the case of a dealer filing a claim for refund as provided by RCW 82.36.305, the person to whom such fuel was sold, to furnish such additional proof of the validity of the claim as the director may determine, and may examine the books and records of the claimant or said person to whom the fuel was sold for such purpose. The records shall be sufficient to substantiate the accuracy of the claim and shall be in such form and contain such information as the director may require. The failure to maintain such records or to accede to a demand for an examination of such records may be deemed by the director as sufficient cause for denial of all right to the refund claimed on account of the transaction in question. [1961 c 15 § 82.36.340. Prior: 1957 c 218 § 10; prior: 1945 c 38 § 1, part; 1943 c 84 § 5, part; 1937 c 219 § 2, part; 1935 c 109 § 2, part; 1933 c 58 § 18, part; Rem. Supp. 1945 § 8327-18, part; prior: 1923 c 81 § 4, part.]

82.36.350 Fraudulent invoices—Penalty. If upon investigation the director determines that any claim has been supported by an invoice or invoices fraudulently made or altered in any manner to support the claim, he may suspend the pending and all further refunds to any such person

making the claim for a period not to exceed one year. [1961 c 15 § 82.36.350. Prior: 1957 c 218 § 11; prior: 1945 c 38 § 1, part; 1943 c 84 § 5, part; 1937 c 219 § 2, part; 1935 c 109 § 2, part; 1933 c 58 § 18, part; Rem. Supp. 1945 § 8327-18, part; prior: 1923 c 81 § 4, part.]

82.36.360 Separate invoices for nontaxed fuel. When motor vehicle fuel is sold to a person who claims to be entitled to a refund of the tax, the seller of such motor vehicle fuel shall make and deliver at the time of sale separate invoices for each purchase on invoice forms approved by the director showing the name and address of the seller, the name and address of the purchaser, the number of gallons of motor vehicle fuel so sold, and the date of such purchase. All invoices shall be legibly written and shall be void if any corrections or erasures appear on the face thereof. [1961 c 15 § 82.36.360. Prior: 1957 c 218 § 12; prior: 1945 c 38 § 1, part; 1943 c 84 § 5, part; 1937 c 219 § 2, part; 1935 c 109 § 2, part; 1933 c 58 § 18, part; Rem. Supp. 1945 § 8327-18, part; prior: 1923 c 81 § 4, part.]

82.36.370 Refunds for fuel lost or destroyed through fire, flood, leakage, etc. (1) A refund shall be made in the manner provided in this chapter or a credit given allowing for the excise tax paid or accrued on all motor vehicle fuel which is lost or destroyed, while applicant shall be the owner thereof, through fire, lightning, flood, wind storm, or explosion.

(2) A refund shall be made in the manner provided in this chapter or a credit given allowing for the excise tax paid or accrued on all motor vehicle fuel of five hundred gallons or more which is lost or destroyed, while applicant shall be the owner thereof, through leakage or other casualty except evaporation, shrinkage or unknown causes: PROVIDED, That the director shall be notified in writing as to the full circumstances surrounding such loss or destruction and the amount of the loss or destruction within thirty days from the day of discovery of such loss or destruction.

(3) Recovery for such loss or destruction under either subsection (1) or (2) must be susceptible to positive proof thereby enabling the director to conduct such investigation and require such information as he may deem necessary.

In the event that the director is not satisfied that the fuel was lost or destroyed as claimed, wherefore required information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, he may deem as sufficient cause the denial of all right relating to the refund or credit for the excise tax on motor vehicle fuel alleged to be lost or destroyed. [1967 c 153 § 5; 1965 ex.s. c 79 § 15; 1961 c 15 § 82.36.370. Supp. 1945 § 8327-18, part; prior: 1923 c 81 § 4, part.]

82.36.375 Time limitation on erroneous payment credits or refunds and notices of additional tax. Unless otherwise provided any credit for erroneous overpayment of tax made by a distributor to be taken on a subsequent return or any claim of refund for tax erroneously overpaid by a distributor, pursuant to the provisions of RCW 82.36.090, must be so taken within three years after the date on which

the overpayment was made to the state. Failure to take such credit or claim such refund within the time prescribed in this section shall constitute waiver of any and all demands against this state on account of overpayment hereunder.

Except in the case of a fraudulent report or neglect or refusal to make a report every notice of additional tax, penalty or interest assessed hereunder shall be served on the distributor within three years from the date upon which such additional taxes became due. [1965 ex.s. c 79 § 16.]

82.36.380 Violations—Penalties. (1) It is unlawful for a person or corporation to evade a tax or fee imposed under this chapter.

(2) Evasion of taxes or fees under this chapter is a class C felony under chapter 9A.20 RCW. In addition to other penalties and remedies provided by law, the court shall order a person or corporation found guilty of violating subsection (1) of this section to:

(a) Pay the tax or fee evaded plus interest, commencing at the date the tax or fee was first due, at the rate of twelve percent per year, compounded monthly; and

(b) Pay a penalty of one hundred percent of the tax evaded, to the transportation fund of the state. [1995 c 287 § 2; 1961 c 15 § 82.36.380. Prior: 1949 c 234 § 2, part; 1933 c 58 § 19, part; Rem. Supp. 1949 § 8327-19, part; prior: 1921 c 173 § 12, part.]

Each shipment illegally diverted or illegally returned shall be a separate offense, and the unit of each shipment shall be the cargo of one vessel, or one railroad carload, or one automobile truck load, or such truck and trailer load, or one drum, or one barrel, or one case or one can. [1996 c 104 § 6; 1961 c 15 § 82.36.390. Prior: 1949 c 234 § 2, part; 1933 c 58 § 19, part; Rem. Supp. 1949 § 8327-19, part; prior: 1921 c 173 § 12, part.]

82.36.400 Other offenses—Penalties. It shall be unlawful for any person to commit any of the following acts:

(2) To lend to, or knowingly permit the use of, by one not entitled thereto, any motor vehicle fuel distributor's license issued to the person lending it or permitting it to be used;

(3) To display or to represent as one's own any motor vehicle fuel distributor's license not issued to the person displaying the same;

(4) To use a false or fictitious name or give a false or fictitious address in any application or form required under the provisions of this chapter, or otherwise commit a fraud in any application, record, or report;

(5) To refuse to permit the director, or any agent appointed by him in writing, to examine his books, records, papers, storage tanks, or other equipment pertaining to the use or sale and delivery of motor vehicle fuels within the state.

Except as otherwise provided, any person violating any of the provisions of this chapter shall be guilty of a gross misdemeanor and shall, upon conviction thereof, be sentenced to pay a fine of not less than five hundred dollars nor more than one thousand dollars and costs of prosecution, or imprisonment for not more than one year, or both. At least once each fiscal year, the director shall request the state treasurer to refund from the motor vehicle fund, to the aeronautics account created under RCW 82.42.090, an amount equal to 0.028 percent of the gross motor vehicle fuel tax less an amount equal to aircraft fuel taxes transferred to that account as a result of nonhighway refunds claimed by motor fuel purchasers. The refund shall be considered compensation for unclaimed motor vehicle fuel that is used in aircraft for purposes taxable under RCW 82.42.020. The director shall also remit from the motor vehicle fund the taxes required by RCW 82.12.0256(3)(c) for the unclaimed refunds, provided that the sum of the amount refunded and the amount remitted in accordance with RCW 82.12.0256(3)(c) shall not exceed the unclaimed refunds. State patrolmen shall aid the director in the enforcement of this chapter and, for this purpose, are declared to be peace officers, and given police power and authority throughout the state to arrest on view, without writ, rule, order, or process, any person known to have violated any of the provisions of this chapter. [1961 c 15 § 82.36.430. Prior: 1933 c 58 § 22; RRS § 8327-22.]

82.36.435 Enforcement and administration—Rule-making authority. The department shall enforce the provisions of this chapter and may adopt and enforce reasonable rules relating to the administration and enforcement thereof. [1981 c 342 § 5.]

Effective date—Severability—1981 c 342: See notes following RCW 82.36.010.

82.36.440 State preempts tax field. The tax levied in this chapter is in lieu of any excise, privilege, or occupational tax upon the business of manufacturing, selling, or distributing motor vehicle fuel, and no city, town, county, township or other subdivision or municipal corporation of the state shall levy or collect any excise tax upon or measured by the sale, receipt, distribution, or use of motor vehicle fuel, except as provided in RCW 82.80.010 and 82.47.020. [1991 c 173 § 4; 1990 c 42 § 204; 1979 ex.s. c 181 § 5; 1961 c 15 § 82.36.440. Prior: 1933 c 58 § 23; RRS § 8327-23.]

Effective date—1979 ex.s. c 181: "This 1979 act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1979." [1979 ex.s. c 181 § 10.]

Severability—1979 ex.s. c 181: "If any provision of this 1979 act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 181 § 8.]

82.36.450 Agreement with tribe for imposition, collection, use. The department of licensing may enter into an agreement with any federally recognized Indian tribe located on a reservation within this state regarding the imposition, collection, and use of this state's motor vehicle fuel tax, or the budgeting or use of moneys in lieu thereof, upon terms substantially the same as those in the consent decree entered by the federal district court (Eastern District of Washington) in *Confederated Tribes of the Colville Reservation v. DOL, et al.*, District Court No. CY-92-248-JLO. [1995 c 320 § 2.]

Legislative recognition, belief—1995 c 320: "The legislature recognizes that certain Indian tribes located on reservations within this state

dispute the authority of the state to impose a tax upon the tribe, or upon tribal members, based upon the distribution, sale, or other transfer of motor vehicle and other fuels to the tribe or its members when that distribution, sale, or other transfer takes place upon that tribe's reservation. While the legislature believes it has the authority to impose state motor vehicle and other fuel taxes under such circumstances, it also recognizes that all of the state citizens may benefit from resolution of these disputes between the respective governments." [1995 c 320 § 1.]

Severability—1995 c 320: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 c 320 § 4.]

Effective date—1995 c 320: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 11, 1995]." [1995 c 320 § 5.]

82.38.010 Statement of purpose. The purpose of this chapter is to supplement the Motor Vehicle Fuel Tax Act, chapter 82.36 RCW, by imposing a tax upon all fuels not taxed under said Motor Vehicle Fuel Tax Act used for the propulsion of motor vehicles upon the highways of this state. [1979 c 40 § 1; 1971 ex.s. c 175 § 2.]

82.38.020 Definitions. As used in this chapter:

(1) "Person" means every natural person, fiduciary, association, or corporation. The term "person" as applied to an association means and includes the partners or members thereof, and as applied to corporations, the officers thereof.

(2) "Department" means the department of licensing.

(3) "Highway" means every way or place open to the use of the public, as a matter of right, for the purpose of vehicular travel.

(4) "Motor vehicle" means every self-propelled vehicle designed for operation upon land utilizing special fuel as the means of propulsion.

(5) "Special fuel" means and includes all combustible gases and liquids suitable for the generation of power for propulsion of motor vehicles, except that it does not include motor vehicle fuel as defined in chapter 82.36 RCW.

(6) "Bulk storage" means the placing of special fuel by a special fuel dealer into a receptacle other than the fuel supply tank of a motor vehicle.

(7) "Special fuel dealer" means any person engaged in the business of delivering special fuel into the fuel supply tank or tanks of a motor vehicle not then owned or controlled by him, or into bulk storage facilities for subsequent use in a motor vehicle. For this purpose the term "fuel supply tank or tanks" does not include cargo tanks even though fuel is withdrawn directly therefrom for propulsion of the vehicle.

(9) "Service station" means any location at which fueling of motor vehicles is offered to the general public.

(10) "Unbonded service station" means any service station at which an unbonded special fuel dealer regularly makes sales of special fuel by means of delivery thereof into the fuel supply tanks of motor vehicles.

(11) "Bond" means: (a) A bond duly executed by such special fuel dealer or special fuel user as principal with a corporate surety qualified under the provisions of chapter 48.28 RCW which bond shall be payable to the state of Washington conditioned upon faithful performance of all requirements of this chapter, including the payment of all taxes, penalties, and other obligations of such dealer, arising out of this chapter; or (b) a deposit with the state treasurer by the special fuel dealer or special fuel user, under such terms and conditions as the department may prescribe, a like amount of lawful money of the United States or bonds or other obligations of the United States, the state of Washington, or any county of said state, of an actual market value

not less than the amount so fixed by the department; or (c) such other instruments as the department may determine and prescribe by rule to protect the interests of the state and to insure compliance of the requirements of this chapter.

(12) "Lessor" means any person (a) whose principal business is the bona fide leasing or renting of motor vehicles without drivers for compensation to the general public, and (b) who maintains established places of business and whose lease or rental contracts require such motor vehicles to be returned to the established places of business.

(13) "Natural gas" means naturally occurring mixtures of hydrocarbon gases and vapors consisting principally of methane, whether in gaseous or liquid form.

(14) "Standard pressure and temperature" means fourteen and seventy-three hundredths pounds of pressure per square inch at sixty degrees Fahrenheit.

(15) "Evasion" or "evade" means to diminish or avoid the computation, assessment, or payment of authorized taxes or fees through:

(a) A knowing: False statement, misrepresentation of fact, or other act of deception; or

(b) An intentional: Omission, failure to file a return or report, or other act of deception. [1995 c 287 § 3; 1994 c 262 § 22; 1988 c 122 § 1; 1979 c 40 § 2; 1971 ex.s. c 175 § 3.]

82.38.030 Tax imposed—Special fuel for import exempt—Variable rate to be computed—Collection—Misappropriation or conversion—Penalties, liability. (1) There is hereby levied and imposed upon special fuel users a tax at the rate computed in the manner provided in RCW 82.36.025 per gallon or each one hundred cubic feet of compressed natural gas measured at standard pressure and temperature on the use of special fuel in any motor vehicle operated upon the highways of this state during the fiscal year for which such rate is applicable.

(2) The tax shall be collected by the special fuel dealer and shall be paid over to the department as hereinafter provided: (a) With respect to all special fuel delivered by a special fuel dealer into supply tanks of motor vehicles or into storage facilities used for the fueling of motor vehicles at unbonded service stations in this state; or (b) in all other transactions where the purchaser is not the holder of a valid special fuel license issued pursuant to this chapter allowing the purchase of untaxed special fuel, except sales of special fuel for export. To claim an exemption on account of sales by a licensed special fuel dealer for export, the purchaser shall obtain from the selling special fuel dealer, and such selling special fuel dealer must furnish the purchaser, an invoice giving such details of the sale for export as the director may require, copies of which shall be furnished the department and the entity of the state or foreign jurisdiction of destination which is charged by the laws of that state or foreign jurisdiction with the control or monitoring or both, of the sales or movement of special fuel in that state or foreign jurisdiction.

(3) The tax shall be paid over to the department by the special fuel user as hereinafter provided with respect to the taxable use of special fuel upon which the tax has not previously been imposed.

It is expressly provided that delivery of special fuel may be made without collecting the tax otherwise imposed, when such deliveries are made by a bonded special fuel dealer to special fuel users who are authorized by the department as hereinafter provided, to purchase fuel without payment of tax to the bonded special fuel dealer.

(4) The tax required by this chapter, to be collected by the seller, is held in trust by the seller until paid to the department, and a seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross misdemeanor in accordance with the theft and anticipatory provisions of Title 9A RCW. A person, partnership, corporation, or corporate officer who fails to collect the tax imposed by this section, or who has collected the tax and fails to pay it to the department in the manner prescribed by this chapter, is personally liable to the state for the amount of the tax. [1996 c 104 § 7; 1989 c 193 § 3; 1983 1st ex.s. c 49 § 30; 1979 c 40 § 3; 1977 ex.s. c 317 § 5; 1975 1st ex.s. c 62 § 1; 1973 1st ex.s. c 156 § 1; 1972 ex.s. c 135 § 2; 1971 ex.s. c 175 § 4.]

Severability—Effective date—1983 1st ex.s. c 49: See RCW 36.79.900 and 36.79.901.

Effective dates—Severability—1977 ex.s. c 317: See notes following RCW 82.36.010.

82.38.040 Deliveries not requiring tax collection. The delivery of special fuel may be made without collecting the tax otherwise imposed when deliveries are made into vehicle refrigeration units, mixing units, or other equipment powered by separate motors from separate fuel tanks, on invoices showing the vehicle unit or license number and such other information as may be prescribed by the department. [1990 c 250 § 81; 1973 1st ex.s. c 156 § 2; 1971 ex.s. c 175 § 5.]

Severability—1990 c 250: See note following RCW 46.16.301.

82.38.050 Tax liability on leased motor vehicles. Except as otherwise provided in this chapter, every special fuel user shall be liable for the tax on special fuel used in motor vehicles leased to the user for thirty days or more and operated on the highways of this state to the same extent and in the same manner as special fuel used in his own motor vehicles and operated on the highways of this state: PROVIDED, That a lessor who is engaged regularly in the business of leasing or renting for compensation motor vehicles and equipment he owns without drivers to carriers or other lessees for interstate operation, may be deemed to be the special fuel user when he supplies or pays for the special fuel consumed in such vehicles, and such lessor may be issued a license as a special fuel user when application and bond have been properly filed with and approved by the department for such license. Any lessee may exclude motor vehicles of which he or she is the lessee from reports and liabilities pursuant to this chapter, but only if the motor vehicles in question have been leased from a lessor holding a valid special fuel user's license.

Every such lessor shall file with the application for a special fuel user's license one copy of the lease form or

service contract the lessor enters into with the various lessees of the lessor's motor vehicles. When the special fuel user's license has been secured, such lessor shall make and assign to each motor vehicle leased for interstate operation a photocopy of such license to be carried in the cab compartment of the motor vehicle and on which shall be typed or printed on the back the unit or motor number of the motor vehicle to which it is assigned and the name of the lessee. Such lessor shall be responsible for the proper use of such photocopy of the license issued and its return to the lessor with the motor vehicle to which it is assigned.

The lessor shall be responsible for fuel tax licensing and reporting, as required by this chapter, on the operation of all motor vehicles leased to others for less than thirty days. [1990 c 250 § 82; 1983 c 242 § 1; 1971 ex.s. c 175 § 6.]

Severability—1990 c 250: See note following RCW 46.16.301.

82.38.060 Tax computation on mileage basis. In the event the tax on special fuel imported into this state in the fuel supply tanks of motor vehicles for taxable use on Washington highways can be more accurately determined on a mileage basis the department is authorized to approve and adopt such basis. When a special fuel user imports special fuel into or exports special fuel from the state of Washington in the fuel supply tanks of motor vehicles, the amount of special fuel consumed in such vehicles on Washington highways shall be deemed to be such proportion of the total amount of such special fuel consumed in his entire operations within and without this state as the total number of miles traveled on the public highways within this state bears to the total number of miles traveled within and without the state. The department may also adopt such mileage basis for determining the taxable use of special fuel used in motor vehicles which travel regularly over prescribed courses on and off the highways within the state of Washington. In the absence of records showing the number of miles actually operated per gallon of special fuel consumed, fuel consumption shall be calculated at the rate of one gallon for every: (1) Four miles traveled by vehicles over forty thousand pounds gross vehicle weight; (2) seven miles traveled by vehicles twelve thousand one to forty thousand pounds gross vehicle weight; (3) ten miles traveled by vehicles six thousand one to twelve thousand pounds gross vehicle weight; and (4) sixteen miles traveled by vehicles six thousand pounds or less gross vehicle weight. [1996 c 90 § 1; 1989 c 142 § 1; 1971 ex.s. c 175 § 7.]

82.38.070 Refunds for worthless accounts receivable. A special fuel dealer shall be entitled, under rules and regulations prescribed by the department, to a credit of the tax paid over to the department on those sales of special fuel for which the dealer has received no consideration from or on behalf of the purchaser, which have been declared by the dealer to be worthless accounts receivable, and which have been claimed as bad debts for federal income tax purposes. The amount of the tax refunded shall not exceed the amount of tax imposed by this chapter on such sales. If a refund has been granted under this section, any amounts collected for application against the accounts on which such a refund is based shall be reported with the first return filed after such collection, and the amount of refund received by the dealer

based upon the collected amount shall be returned to the department. In the event the refund has not been paid, the amount of the refund requested by the dealer shall be adjusted by the department to reflect the decrease in the amount on which the claim is based. The department may require the dealer to submit periodical reports listing accounts which are delinquent for ninety days or more. [1990 c 250 § 83; 1971 ex.s. c 175 § 8.]

Severability—1990 c 250: See note following RCW 46.16.301.

82.38.075 Natural gas, propane—Annual license fee in lieu of special fuel tax for use in motor vehicles—Schedule—Decal or other identifying device. In order to encourage the use of nonpolluting fuels, an annual license fee in lieu of the tax imposed by RCW 82.38.030 shall be imposed upon the use of natural gas as defined in this chapter or on liquified petroleum gas, commonly called propane, which is used in any motor vehicle, as defined in RCW 46.04.320, which shall be based upon the following schedule as adjusted by the formula set out below:

VEHICLE TONNAGE (GVW)	FEE
0 - 6,000	\$ 45
6,001 - 10,000	\$ 45
10,001 - 18,000	\$ 80
18,001 - 28,000	\$110
28,001 - 36,000	\$150
36,001 and above	\$250

To determine the actual annual license fee imposed by this section for a registration year, the appropriate dollar amount set out in the above schedule shall be multiplied by the motor vehicle fuel tax rate in cents per gallon as established by RCW 82.36.025 effective on July 1st of the preceding calendar year and the product thereof shall be divided by 12 cents.

The department of licensing, in addition to the foregoing fee, shall charge a further fee of five dollars as a handling charge for each license issued.

The director of licensing shall be authorized to prorate the vehicle tonnage fee so that the annual license required by this section will correspond with the staggered vehicle licensing system.

A decal or other identifying device issued upon payment of these annual fees shall be displayed as prescribed by the department as authority to purchase this fuel.

Persons selling or dispensing natural gas or propane may not sell or dispense this fuel for their own use or the use of others into tanks of vehicles powered by this fuel which do not display a valid decal or other identifying device as provided in this section.

Vehicles registered in jurisdictions outside the state of Washington are exempt from this section.

Any person selling or dispensing natural gas or propane into the tank of a motor vehicle powered by this fuel, except as prescribed in this chapter, is subject to the penalty provisions of this chapter. [1983 c 212 § 1; 1981 c 129 § 1; 1979 c 48 § 1; 1977 ex.s. c 335 § 1.]

Effective date—1979 c 48: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1979." [1979 c 48 § 2.]

Effective date—1977 ex.s. c 335: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1977." [1977 ex.s. c 335 § 2.]

82.38.080 Exemptions. There is exempted from the tax imposed by this chapter, the use of fuel for: (1) Street and highway construction and maintenance purposes in motor vehicles owned and operated by the state of Washington, or any county or municipality; (2) publicly owned fire fighting equipment; (3) special mobile equipment as defined in RCW 46.04.552; (4) power pumping units or other power take-off equipment of any motor vehicle which is accurately measured by metering devices that have been specifically approved by the department or which is established by either of the following formulae: (a) Pumping propane, or fuel or heating oils or milk picked up from a farm or dairy farm storage tank by a power take-off unit on a delivery truck, at the rate of three-fourths of one gallon for each one thousand gallons of fuel delivered or milk picked up: **PROVIDED,** That claimant when presenting his claim to the department in accordance with the provisions of this chapter, shall provide to said claim, invoices of propane, or fuel or heating oil delivered, or such other appropriate information as may be required by the department to substantiate his claim; or (b) operating a power take-off unit on a cement mixer truck or a load compactor on a garbage truck at the rate of twenty-five percent of the total gallons of fuel used in such a truck; and (c) the department is authorized to establish by rule additional formulae for determining fuel usage when operating other types of equipment by means of power take-off units when direct measurement of the fuel used is not feasible. The department is also authorized to adopt rules regarding the usage of on board computers for the production of records required by this chapter; (5) motor vehicles owned and operated by the United States government; (6) heating purposes; (7) moving a motor vehicle on a public highway between two pieces of private property when said moving is incidental to the primary use of the motor vehicle; (8) transportation services for persons with special transportation needs by a private, nonprofit transportation provider regulated under chapter 81.66 RCW; and (9) notwithstanding any provision of law to the contrary, every urban passenger transportation system and carriers as defined by chapters 81.68 and 81.70 RCW shall be exempt from the provisions of this chapter requiring the payment of special fuel taxes. For the purposes of this section "urban passenger transportation system" means every transportation system, publicly or privately owned, having as its principal source of revenue the income from transporting persons for compensation by means of motor vehicles and/or trackless trolleys, each having a seating capacity for over fifteen persons over prescribed routes in such a manner that the routes of such motor vehicles and/or trackless trolleys, either alone or in conjunction with routes of other such motor vehicles and/or trackless trolleys subject to routing by the same transportation system, shall not extend for a distance exceeding twenty-five road miles beyond the corporate limits of the county in which the original starting points of such motor vehicles are located: **PROVIDED,** That no refunds or credits shall be granted on fuel used by any urban transportation vehicle or vehicle operated pursuant to chapters 81.68

and 81.70 RCW on any trip where any portion of said trip is more than twenty-five road miles beyond the corporate limits of the county in which said trip originated. [1996 c 244 § 6; 1993 c 141 § 2; 1990 c 185 § 1; 1983 c 108 § 4; 1979 c 40 § 4; 1973 c 42 § 1. Prior: 1972 ex.s. c 138 § 2; 1972 ex.s. c 49 § 1; 1971 ex.s. c 175 § 9.]

Effective date—1972 ex.s. c 138: See note following RCW 82.36.280.

82.38.082 Exemptions—Special fuel used in logging operations on federal land. There is exempted from the tax imposed by this chapter the use of special fuel for the operation of a motor vehicle as a part of or incidental to logging operations upon a highway under federal jurisdiction within the boundaries of a federal area if the federal government requires a fee for the privilege of operating the motor vehicle upon the highway, the proceeds of which are reserved for constructing or maintaining roads in the federal area, or requires maintenance or construction work to be performed on the highway for the privilege of operating the motor vehicle on the highway. [1987 c 294 § 1.]

82.38.086 Intent—Reflection of tax credit in price. To encourage the production and use of alcohol as an alternative motor fuel, it is the intent of the legislature that the tax credit provided in *RCW 82.38.085 be reflected in the retail price of alcohol blended fuels to make these fuels competitive with other fuels. [1981 c 342 § 6.]

*Reviser's note: RCW 82.38.085 expired December 31, 1992.

Effective date—Severability—1981 c 342: See notes following RCW 82.36.010.

82.38.090 Special fuel dealers', users' licenses—Collection of tax. It shall be unlawful for any person to act as a special fuel dealer or a special fuel user in this state unless such person is the holder of an uncanceled special fuel dealer's or a special fuel user's license issued to him or her by the department.

A special fuel dealer's license authorizes a person to deliver previously untaxed special fuel into the fuel supply tanks of motor vehicles, collect the special fuel tax on behalf of the state at the time of delivery, and remit the taxes collected to the state as provided herein. A licensed special fuel dealer may also deliver untaxed special fuel into bulk storage facilities of a licensed special fuel user or dealer without collecting the special fuel tax. Special fuel dealers, when making deliveries of special fuel into bulk storage to any person not holding a valid special fuel license, must collect the special fuel tax at time of delivery, unless the person to whom the delivery is made is specifically exempted from the tax as provided herein.

A special fuel user's license authorizes a person to purchase special fuel into bulk storage for use in motor vehicles either on or off the public highways of this state without payment of the special fuel tax at time of purchase. Holders of special fuel licenses are all subject to the bonding, reporting, tax payment, and record-keeping provisions of this chapter. All purchases of special fuel by a licensed special fuel user directly into the fuel supply tank of a motor vehicle are subject to the special fuel tax at time of purchase. Special authorization may be given to farmers,

logging companies, and construction companies to purchase special fuel directly into the supply tanks of nonhighway equipment or into portable slip tanks for nonhighway use without payment of the special fuel tax.

Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight not exceeding twenty-six thousand pounds are not required to be licensed. Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight exceeding twenty-six thousand pounds, or having three or more axles regardless of weight, or a combination of vehicles, when the combination exceeds twenty-six thousand pounds gross vehicle weight, must comply with the licensing and reporting requirements of this chapter. A copy of the license must be carried in each motor vehicle entering this state from another state or province. [1995 c 20 § 13; 1994 c 262 § 23; 1993 c 54 § 6; 1991 c 339 § 6; 1990 c 250 § 84; 1986 c 29 § 2; 1979 c 40 § 5; 1971 ex.s. c 175 § 10.]

Severability—1995 c 20: See RCW 70.149.901.

Severability—1990 c 250: See note following RCW 46.16.301.

82.38.100 Trip permits. (1) Any special fuel user operating a motor vehicle into this state for commercial purposes may make application for a trip permit in lieu of a special fuel user's license required in RCW 82.38.090 and 82.38.120 which shall be good for a period of three consecutive days beginning and ending on the dates specified on the face of the permit issued, and only for the vehicle for which it is issued.

(2) Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety, signed, and dated by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, vehicle license number, or vehicle identification number invalidates the permit. A violation of, or a failure to comply with, this subsection is a gross misdemeanor.

(3) For each permit issued, there shall be collected a filing fee of one dollar, an administrative fee of ten dollars, and an excise tax of nine dollars. Such fees and tax shall be in lieu of the special fuel tax otherwise assessable against the permit holder for importing and using special fuel in a motor vehicle on the public highways of this state and no report of mileage shall be required with respect to such vehicle. Trip permits will not be issued if the applicant has outstanding fuel taxes, penalties or interest owing to the state or has had a special fuel license revoked for cause and the cause has not been removed.

(4) Blank permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(5) All fees and excise taxes collected by the department for trip permits shall be credited and deposited in the same manner as the special fuel tax collected under this chapter

and shall not be subject to exchange, refund, or credit. [1983 c 78 § 1; 1979 c 40 § 6; 1973 1st ex.s. c 156 § 3; 1971 ex.s. c 175 § 11.]

82.38.110 Application for license—Investigation—Fee—Penalty for false statement—Bond—Requirements. Application for a special fuel dealer's license or a special fuel user's license shall be made to the department. The application shall be filed upon a form prepared and furnished by the department and shall contain such information as the department deems necessary.

Every application for a special fuel dealer's license must contain the following information to the extent it applies to the applicant:

(1) Proof as the department may require concerning the applicant's identity, including but not limited to his or her fingerprints or those of the officers of a corporation making the application;

(2) The applicant's form and place of organization including proof that the individual, partnership, or corporation is licensed to do business in this state;

(3) The qualification and business history of the applicant and any partner, officer, or director;

(4) The applicant's financial condition or history including a bank reference and whether the applicant or any partner, officer, or director has ever been adjudged bankrupt or has an unsatisfied judgment in a federal or state court;

(5) Whether the applicant has been adjudged guilty of a crime that directly relates to the business for which the license is sought and the time elapsed since the conviction is less than ten years, or has suffered a judgment within the preceding five years in a civil action involving fraud, misrepresentation, or conversion and in the case of a corporation or partnership, all directors, officers, or partners.

After receipt of an application for a license, the director may conduct an investigation to determine whether the facts set forth are true. The director may require a fingerprint record check of the applicant through the Washington state patrol criminal identification system and the federal bureau of investigation before issuance of a license. The results of the background investigation including criminal history information may be released to authorized department personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040.

No special fuel dealer's license may be issued to any person or continued in force unless such person has furnished bond, as defined in RCW 82.38.020, in such form as the department may require, to secure his or her compliance with this chapter, and the payment of any and all taxes, interest, and penalties due and to become due hereunder. The requirement of furnishing a bond shall be waived for special fuel dealers who only deliver special fuel into the fuel tanks of marine vessels.

The department may require a special fuel user to post a bond if the special fuel user, after having been licensed, has failed to file timely reports or has failed to remit taxes due, or when an investigation or audit indicates problems

severe enough that the department, in its discretion, determines that a bond is required to protect the interests of the state. The department may also adopt rules prescribing conditions that, in the department's discretion, require a bond to protect the interests of the state.

The total amount of the bond or bonds required of any special fuel dealer or special fuel user shall be equivalent to three times the estimated monthly fuel tax, determined in such manner as the department may deem proper: **PROVIDED**, That those special fuel dealers having held a special fuel license for five or more years without having said license suspended or revoked by the department shall be permitted to reduce the amount of their bond to twice the estimated monthly tax liability: **PROVIDED FURTHER**, That the total amount of the bond or bonds shall never be less than five hundred dollars nor more than fifty thousand dollars. [1996 c 104 § 8; 1988 c 122 § 2; 1983 c 242 § 2; 1979 c 40 § 7; 1977 c 26 § 1; 1973 1st ex.s. c 156 § 4; 1971 ex.s. c 175 § 12.]

82.38.120 Issuance of license—Refusal—Inspection of records—Posting—Display—Duration—Transferability. Upon receipt and approval of an application and bond, if required, the department shall issue to the applicant a license to act as a special fuel dealer or a special fuel user. However, the department may refuse to issue a special fuel dealer's license or a special fuel user's license to any person:

(1) Who formerly held either type of license which, prior to the time of filing for application, has been revoked for cause;

(2) Who is a subterfuge for the real party in interest whose license prior to the time of filing for application, has been revoked for cause;

(3) Who, as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, has had a special fuel license revoked for cause;

(4) Who has an unsatisfied debt to the state assessed under either chapter 82.36, 82.38, or 46.87 RCW;

(5) Who formerly held as an individual, officer, director, owner, managing employee of a nonindividual licensee, or subterfuge for a real party in interest, a license issued by the federal government or a state that allowed a person to buy or sell untaxed motor vehicle or special fuel, which license, before the time of filing for application, has been revoked for cause;

(6) Who pled guilty to or was convicted as an individual, officer, director, owner, or managing employee of a nonindividual licensee in this or any other state or in any federal jurisdiction of a gross misdemeanor or felony crime directly related to the business or has been subject to a civil judgment involving fraud, misrepresentation, conversion, or dishonesty, notwithstanding chapter 9.96A RCW;

(7) Who misrepresented or concealed a material fact in obtaining a license or in reinstatement thereof;

(8) Who violated a statute or administrative rule regulating fuel taxation or distribution;

(9) Who failed to cooperate with the department's investigations by:

(a) Not furnishing papers or documents;

(b) Not furnishing in writing a full and complete explanation regarding a matter under investigation by the department; or

(c) Not responding to subpoenas issued by the department, whether or not the recipient of the subpoena is the subject of the proceeding;

(10) Who failed to comply with an order issued by the director; or

(11) Upon other sufficient cause being shown.

Before such refusal, the department shall grant the applicant a hearing and shall grant the applicant at least twenty days written notice of the time and place thereof.

The department shall determine from the information shown in the application or other investigation the kind and class of license to be issued. For the purpose of considering any application for a special fuel dealer's license, the department may inspect, cause an inspection, investigate, or cause an investigation of the records of this or any other state or of the federal government to ascertain the veracity of the information on the application form and the applicant's criminal and licensing history.

All licenses shall be posted in a conspicuous place or kept available for inspection at the principal place of business of the owner thereof. License holders shall reproduce the license by photostat or other method and keep a copy on display for ready inspection at each additional place of business or other place of storage from which special fuel is sold, delivered or used and in each motor vehicle used by the license holder to transport special fuel purchased by him or her for resale, delivery or use. Every licensed special fuel user operating a motor vehicle registered in a jurisdiction other than this state shall reproduce the license and carry a photocopy thereof with each motor vehicle being operated upon the highways of this state.

A special fuel dealer may use special fuel in motor vehicles owned or operated by the dealer without securing a license as a special fuel user but the dealer is subject to all other conditions, requirements, and liabilities imposed herein upon a special fuel user.

Each special fuel dealer's license and special fuel user's license shall be valid until the expiration date if shown on the license, or until suspended or revoked for cause or otherwise canceled.

No special fuel dealer's license or special fuel user's license shall be transferable. [1996 c 104 § 9; 1995 c 274 § 21; 1990 c 250 § 85; 1979 c 40 § 8; 1973 1st ex.s. c 156 § 5; 1971 ex.s. c 175 § 13.]

Severability—1990 c 250: See note following RCW 46.16.301.

82.38.130 Revocation, cancellation, and surrender of license—Bond. The department may revoke the license of any special fuel dealer, or special fuel user for any of the grounds constituting cause for denial of a license set forth in RCW 82.38.120 or for other reasonable cause. Before revoking such license the department shall notify the licensee to show cause within twenty days of the date of the notice why the license should not be revoked: **PROVIDED**, That at any time prior to and pending such hearing the department may, in the exercise of reasonable discretion, suspend such license.

The department shall cancel any license to act as a special fuel dealer, or a special fuel user immediately upon surrender thereof by the holder.

Any surety on a bond furnished by a special fuel dealer or special fuel user as provided herein shall be released and discharged from any and all liability to the state accruing on such bond after the expiration of forty-five days from the date which such surety shall have lodged with the department a written request to be released and discharged, but this provision shall not operate to relieve, release, or discharge the surety from any liability already accrued or which shall accrue before the expiration of the forty-five day period. The department shall promptly, upon receiving any such request, notify the special fuel dealer or special fuel user who furnished the bond, and unless the special fuel dealer or special fuel user shall, on or before the expiration of the forty-five day period, file a new bond, in accordance with the requirements of this section, or make a deposit in lieu thereof as provided in RCW 82.38.020(11), the department forthwith shall cancel the special fuel dealer's or special fuel user's license.

The department may require a special fuel dealer or special fuel user to give a new or additional surety bond or to deposit additional securities of the character specified in RCW 82.38.020(11) if, in its opinion, the security of the surety bond therefor filed by such special fuel dealer or special fuel user, or the market value of the properties deposited as security by such special fuel dealer or special fuel user, shall become impaired or inadequate. Upon failure of the special fuel dealer or special fuel user to give such new or additional surety bond or to deposit additional securities within forty-five days after being requested to do so by the department, or after he shall fail or refuse to file reports and remit or pay taxes at the intervals fixed by the department, the department forthwith shall cancel his or her license. [1994 c 262 § 24; 1979 c 40 § 9; 1977 c 26 § 2; 1971 ex.s. c 175 § 14.]

82.38.140 Special fuel records. (1) Every special fuel dealer, special fuel user, and every person importing, manufacturing, refining, dealing in, transporting, or storing special fuel in this state shall keep for a period of not less than five years open to inspection at all times during the business hours of the day to the department or its authorized representatives, a complete record of all special fuel purchased or received and all of such products sold, delivered, or used by them. Such records shall show:

- (a) The date of each receipt;
- (b) The name and address of the person from whom purchased or received;
- (c) The number of gallons received at each place of business or place of storage in the state of Washington;
- (d) The date of each sale or delivery;
- (e) The number of gallons sold, delivered, or used for taxable purposes;
- (f) The number of gallons sold, delivered, or used for any purpose not subject to the tax imposed herein;
- (g) The name, address, and special fuel license number of the purchaser if the special fuel tax is not collected on the sale or delivery;

(h) The inventories of special fuel on hand at each place of business at the end of each month.

(2)(a) All special fuel users using special fuel in vehicles licensed for highway operation shall maintain detailed mileage records on an individual vehicle basis.

(b) Such operating records shall show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle.

(c) In the absence of operating records that show both on-highway and off-highway usage of special fuel on a daily basis for each vehicle, fuel consumption must be computed under RCW 82.38.060.

(3) Persons using special fuel for heating purposes only are not required to maintain records of fuel usage.

(4) Invoices shall be prepared for sales and deliveries of special fuel in the manner and containing such information as may be prescribed by the department.

Every special fuel dealer or special fuel user making such sales or deliveries of special fuel and every person so receiving and purchasing special fuel must each retain one copy of each such invoice as part of the dealer's permanent records for the time and purposes above provided.

(5) Every special fuel user shall keep, in addition to the dealer's records of deliveries into motor vehicles, a complete record as prescribed by the department of the total gallons of special fuel used for other purposes during each month and the purposes for which said special fuel was used.

(6) Subsections (1)(f), (2)(b), and (5) of this section do not apply to special fuel users when the special fuel is used off-highway in farming, construction, or logging operations. Upon filing a special fuel user tax report, every such special fuel user shall certify and bear the burden of proof as to the number of gallons of special fuel used off-highway. [1996 c 104 § 10; 1996 c 90 § 2; 1995 c 274 § 22; 1988 c 51 § 1; 1979 c 40 § 10; 1971 ex.s. c 175 § 15.]

Reviser's note: This section was amended by 1996 c 90 § 2 and by 1996 c 104 § 10, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

82.38.150 Periodic tax reports. For the purpose of determining the amount of liability for the tax herein imposed, and to periodically update license information, each special fuel dealer and each special fuel user shall file tax reports with the department, on forms prescribed by the department. Special fuel dealers shall file the reports at the intervals as shown in the following schedule:

Estimated Yearly Tax Liability	Reporting Frequency
\$ 0 - \$100	Yearly
\$101 - 250	Semi-yearly
\$251 - 499	Quarterly
\$500 and over	Monthly

Special fuel users whose estimated yearly tax liability is two hundred fifty dollars or less, shall file a report yearly, and special fuel users whose estimated yearly tax liability is more than two hundred fifty dollars, shall file reports quarterly.

The department shall establish the reporting frequency for each applicant at the time the special fuel license is issued. If it becomes apparent that any special fuel licensee

is not reporting in accordance with the above schedule, the department shall change the licensee's reporting frequency by giving thirty days' notice to the licensee by mail to the licensee's address of record. A report shall be filed with the department even though no special fuel was used, or tax is due, for the reporting period. Each tax report shall contain a declaration by the person making the same, to the effect that the statements contained therein are true and are made under penalties of perjury, which declaration shall have the same force and effect as a verification of the report and is in lieu of such verification. The report shall show such information as the department may reasonably require for the proper administration and enforcement of this chapter. For counties within which an additional excise tax on special fuel has been levied by that jurisdiction under RCW 82.80.010, the report must show the quantities of special fuel sold, distributed, or withdrawn from bulk storage by the reporting dealer or user within the county's boundaries and the tax liability from its levy. The special fuel dealer or special fuel user shall file the report on or before the twenty-fifth day of the next succeeding calendar month following the period to which it relates.

Subject to the written approval of the department, tax reports may cover a period ending on a day other than the last day of the calendar month. Taxpayers granted approval to file reports in this manner will file such reports on or before the twenty-fifth day following the end of the reporting period. No change to this reporting period will be made without the written authorization of the department.

If the final filing date falls on a Saturday, Sunday, or legal holiday the next secular or business day shall be the final filing date. Such reports shall be considered filed or received on the date shown by the post office cancellation mark stamped upon an envelope containing such report properly addressed to the department, or on the date it was mailed if proof satisfactory to the department is available to establish the date it was mailed.

The department, if it deems it necessary in order to insure payment of the tax imposed by this chapter, or to facilitate the administration of this chapter, has the authority to require the filing of reports and tax remittances at shorter intervals than one month if, in its opinion, an existing bond has become insufficient.

The department may permit any special fuel user whose sole use of special fuel is in motor vehicles or equipment exempt from tax as provided in RCW 82.38.075 and 82.38.080 (1), (2), (3), (8), and (9), in lieu of the reports required in this section, to submit reports annually or as requested by the department, in such form as the department may require.

A special fuel user whose sole use of special fuel is for purposes other than the propulsion of motor vehicles upon the public highways of this state shall not be required to submit the reports required in this section. [1996 c 104 § 11; 1995 c 274 § 23; 1991 c 339 § 15; 1990 c 42 § 203; 1988 c 23 § 1; 1983 c 242 § 3; 1979 c 40 § 11; 1973 1st ex.s. c 156 § 6; 1971 ex.s. c 175 § 16.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective date—1988 c 23: "This act shall take effect January 1, 1989." [1988 c 23 § 2.]

82.38.160 Computation and payment of tax—Electronic funds transfer. (1) The tax imposed by this chapter shall be computed as follows: (a) With respect to special fuel upon which the tax has been collected by the seller thereof as a special fuel dealer, by multiplying the tax rate per gallon provided in this chapter by the number of gallons of special fuel delivered subject to the special fuel tax; (b) with respect to special fuel on which the tax has not been paid to a special fuel dealer in this state and which has been consumed by the purchaser thereof as a special fuel user, by multiplying the tax rate per gallon provided in this chapter by the number of gallons of special fuel consumed by him in the propulsion of a motor vehicle on the highways of this state.

(2) Except as provided in subsection (3) of this section, the tax return shall be accompanied by a remittance payable to the state treasurer covering the tax moneys collected by the special fuel dealer or the amount determined to be due hereunder by licensed users of special fuels during the preceding reporting period.

(3) If the tax is paid by electronic funds transfer and the reporting period ends on the last day of a calendar month, the tax shall be paid on or before the state business day immediately preceding the last state business day of the month following the end of the reporting period. If the tax is paid by electronic funds transfer and the reporting period ends on a day other than the last day of a calendar month as provided in RCW 82.38.150, the tax shall be paid on or before the state business day immediately preceding the last state business day of the thirty-day period following the end of the reporting period.

(4) The tax shall be paid by electronic funds transfer whenever the amount due is fifty thousand dollars or more. [1987 c 174 § 5; 1979 c 40 § 12; 1971 ex.s. c 175 § 17.]

Effective date—1987 c 174: See note following RCW 82.36.010.

82.38.170 Civil and statutory penalties—Deficiency assessments—Interest—Mitigation of assessments—Cancellation of vehicle registrations. (1) If any special fuel dealer or special fuel user fails to pay any taxes collected or due the state of Washington by said dealer or user within the time prescribed by RCW 82.38.150 and 82.38.160, said dealer or user shall pay in addition to such tax a penalty of ten percent of the amount thereof.

(2) If it be determined by the department that the tax reported by any special fuel dealer or special fuel user is deficient it may proceed to assess the deficiency on the basis of information available to it and there shall be added to this deficiency a penalty of ten percent of the amount of the deficiency.

(3) If any special fuel dealer or special fuel user, whether or not he or she is licensed as such, fails, neglects, or refuses to file a special fuel tax report, the department may, on the basis of information available to it, determine the tax liability of the special fuel dealer or the special fuel user for the period during which no report was filed, and to the tax as thus determined, the department shall add the penalty and interest provided in subsection (2) of this section. An assessment made by the department pursuant to this subsection or to subsection (2) of this section shall be presumed to be correct, and in any case where the validity

of the assessment is drawn in question, the burden shall be on the person who challenges the assessment to establish by a fair preponderance of the evidence that it is erroneous or excessive as the case may be.

(4) If any special fuel dealer or special fuel user shall establish by a fair preponderance of evidence that his or her failure to file a report or pay the proper amount of tax within the time prescribed was due to reasonable cause and was not intentional or willful, the department may waive the penalty prescribed in subsections (1), (2), and (3) of this section.

(5) If any special fuel dealer or special fuel user shall file a false or fraudulent report with intent to evade the tax imposed by this chapter, there shall be added to the amount of deficiency determined by the department a penalty equal to twenty-five percent of the deficiency, in addition to the penalty provided in subsection (2) of this section and all other penalties prescribed by law.

(6) Any fuel tax, penalties, and interest payable under this chapter shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount or any portion thereof should have been paid until the date of payment: PROVIDED, That the department may waive the interest when it determines that the cost of processing the collection of the interest exceeds the amount of interest due.

(7) Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter.

(8) Except in the case of a fraudulent report or of neglect or refusal to make a report, every deficiency shall be assessed under subsection (2) of this section within five years from the twenty-fifth day of the next succeeding calendar month following the reporting period for which the amount is proposed to be determined or within five years after the return is filed, whichever period expires the later.

(9) Any special fuel dealer or special fuel user against whom an assessment is made under the provisions of subsections (2) or (3) of this section may petition for a reassessment thereof within thirty days after service upon the special fuel dealer or special fuel user of notice thereof. If such petition is not filed within such thirty day period, the amount of the assessment becomes final at the expiration thereof.

If a petition for reassessment is filed within the thirty day period, the department shall reconsider the assessment and, if the special fuel dealer or special fuel user has so requested in his or her petition, shall grant such special fuel dealer or special fuel user an oral hearing and give the special fuel dealer or special fuel user ten days' notice of the time and place thereof. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment shall become final thirty days after service upon the special fuel dealer or special fuel user of notice thereof.

Every assessment made by the department shall become due and payable at the time it becomes final and if not paid to the department when due and payable, there shall be added thereto a penalty of ten percent of the amount of the tax.

(10) Any notice of assessment required by this section shall be served personally or by mail; if by mail, service shall be made by depositing such notice in the United States mail, postage prepaid addressed to the special fuel dealer or special fuel user at his or her address as the same appears in the records of the department.

(11) Any licensee who has had either their special fuel user license or special fuel dealer license, or both, revoked shall pay a one hundred dollar penalty prior to the issuance of a new license.

(12) Any person who, upon audit or investigation by the department, is found to have not paid special fuel taxes as required by this chapter shall be subject to cancellation of all vehicle registrations for vehicles utilizing special fuel as a means of propulsion. Any unexpired Washington tonnage on the vehicles in question may be transferred to a purchaser of the vehicles upon application to the department who shall hold such tonnage in its custody until a sale of the vehicle is made or the tonnage has expired. [1996 c 104 § 12; 1995 c 274 § 24; 1994 c 262 § 25; 1991 c 339 § 7; 1987 c 174 § 6; 1983 c 242 § 4; 1979 c 40 § 13; 1977 c 26 § 3; 1973 1st ex.s. c 156 § 7; 1972 ex.s. c 138 § 3; 1971 ex.s. c 175 § 18.]

Effective date—1987 c 174: See note following RCW 82.36.010.

Effective date—1972 ex.s. c 138: See note following RCW 82.36.280.

82.38.180 Refunds and credits. Any person who has paid a special fuel tax either directly or to the vendor from whom it was purchased may file a claim for a refund of the tax so paid and shall be reimbursed and repaid the amount of:

(1) Any taxes previously paid on special fuel used for purposes other than for the propulsion of motor vehicles upon the public highways in this state.

(2) Any taxes previously paid on special fuel exported for use outside of this state. Special fuel carried from this state in the fuel tank of a motor vehicle is deemed to be exported from this state.

(3) Any tax, penalty or interest erroneously or illegally collected or paid.

(4) Any taxes previously paid on all special fuel which is lost or destroyed, while applicant shall be the owner thereof, through fire, lightning, flood, wind storm, or explosion.

(5) Any taxes previously paid on all special fuel of five hundred gallons or more which is lost or destroyed while applicant shall be the owner thereof, through leakage or other casualty except evaporation, shrinkage, or unknown causes.

Recovery for such loss or destruction under either subsection (4) or (5) of this section must be susceptible to positive proof thereby enabling the department to conduct such investigation and require such information as they may deem necessary. In the event that the department is not satisfied that the fuel was lost or destroyed as claimed

because information or proof as required hereunder is not sufficient to substantiate the accuracy of the claim, they may deem such as sufficient cause to deny all right relating to the refund or credit for the excise tax paid on special fuel alleged to be lost or destroyed. [1972 ex.s. c 138 § 4; 1971 ex.s. c 175 § 19.]

Effective date—1972 ex.s. c 138: See note following RCW 82.36.280.

82.38.190 Procedures for claiming refunds or credits. (1) Claims under RCW 82.38.180 shall be filed with the department on forms prescribed by the department and shall show the date of filing and the period covered in the claim, the number of gallons of special fuel used for purposes subject to tax refund, and such other facts and information as may be required. Every such claim shall be supported by an invoice or invoices issued to or by the claimant, as may be prescribed by the department, and such other information as the department may require.

(2) Any amount determined to be refundable by the department under RCW 82.38.180 shall first be credited on any amounts then due and payable from the special fuel dealer or special fuel user or to any person to whom the refund is due, and the department shall then certify the balance thereof to the state treasurer, who shall thereupon draw his warrant for such certified amount to such special fuel dealer or special fuel user or any person: PROVIDED, HOWEVER, That the department shall deduct fifty cents from all such refunds as a filing fee, which fee shall be deducted from the warrant issued in payment of such refund to defray expenses in furnishing the claim forms and other forms provided for in this chapter.

(3) No refund or credit shall be approved by the department unless a written claim for refund or credit stating the specific grounds upon which the claim is founded is filed with the department:

(a) Within thirteen months from the date of purchase or from the last day of the month following the close of the reporting period for which the refundable amount or credit is due with respect to refunds or credits allowable under RCW 82.38.180, subsections (1), (2), (4) and (5), and if not filed within this period the right to refund shall be forever barred.

(b) Within three years from the last day of the month following the close of the reporting period for which the overpayment is due with respect to the refunds or credits allowable under RCW 82.38.180(3). The department shall refund any amount paid that has been verified by the department to be more than ten dollars over the amount actually due for the reporting period. Payment credits shall not be carried forward and applied to subsequent tax returns.

(4) Within thirty days after disallowing any claim in whole or in part, the department shall serve written notice of its action on the claimant.

(5) Interest shall be paid upon any refundable amount or credit due under RCW 82.38.180(3) at the rate of one percent per month from the last day of the calendar month following the reporting period for which the refundable amount or credit is due.

The interest shall be paid:

(a) In the case of a refund, to the last day of the calendar month following the date upon which the person

making the overpayment, if he has not already filed a claim, is notified by the department that a claim may be filed or the date upon which the claim is approved by the department, whichever date is earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

If the department determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

(6) No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this state or against any officer of the state to prevent or enjoin the collection under this chapter of any tax or any amount of tax required to be collected. [1996 c 91 § 4; 1979 c 40 § 14; 1973 1st ex.s. c 156 § 8; 1972 ex.s. c 138 § 5; 1971 ex.s. c 175 § 20.]

Effective date—1996 c 91: See note following RCW 46.87.150.

Effective date—1972 ex.s. c 138: See note following RCW 82.36.280.

82.38.200 Suits for recovery of taxes illegally or erroneously collected. (1) No suit or proceeding shall be maintained in any court for the recovery of any amount alleged to have been overpaid under RCW 82.38.180 unless a claim for refund or credit has been duly filed pursuant to RCW 82.38.190.

(2) Within ninety days after the mailing of the notice of the department's action upon a claim filed pursuant to RCW 82.38.190, the claimant may bring an action against the department on the grounds set forth in the claim in a court of competent jurisdiction in Thurston county for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed. Failure to bring action within the time specified constitutes a waiver of any demand against the state on account of the alleged overpayments.

(3) If the department fails to mail notice of action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the department of its intention on the claim, consider the claim disallowed and bring an action against the department, on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

(4) If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any special fuel tax due and payable from the plaintiff. The balance of the judgment shall be refunded to the plaintiff.

(5) In any judgment, interest shall be allowed at the rate of twelve percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant, but not more than thirty days, the date to be determined by the department. [1971 ex.s. c 175 § 21.]

82.38.210 Tax lien—Filing required. If any special fuel dealer, supplier, or user liable for the remittance of tax imposed by this chapter fails to pay the same, the amount thereof, including any interest, penalty, or addition to such tax, together with any costs that may accrue in addition thereto, shall be a lien in favor of the state upon all franchis-

es, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by such person, whether such property is employed by such person for personal or business use or is in the hands of a trustee, or receiver, or assignee for the benefit of creditors, from the date the taxes were due and payable, until the amount of the lien is paid or the property sold in payment thereof. The lien shall have priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that such lien shall not be valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached prior to the time the department has filed and recorded notice of such lien as hereinafter provided.

In order to avail itself of the lien hereby created, the department shall file with any county auditor a statement of claim and lien specifying the amount of delinquent taxes, penalties and interest claimed by the department. From the time of filing for record, the amount required to be paid shall constitute a lien upon all franchises, property and rights to property, whether real or personal, then belonging to or thereafter acquired by such person in the county. Any lien as provided in this section may also be filed in the office of the secretary of state. Filing in the office of the secretary of state shall be of no effect, however, until the lien or copy thereof shall have been filed with the county auditor in the county where the property is located. When a lien is filed in compliance herewith and with the secretary of state, such filing shall have the same effect as if the lien had been duly filed for record in the office of the auditor in each county of this state. [1979 c 40 § 15; 1971 ex.s. c 175 § 22.]

82.38.220 Notice of delinquency to persons controlling property of user or dealer—Transfer or disposition of property, credits, or debts prohibited—Delivery to department—Lien. In the event any special fuel user or special fuel dealer is delinquent in the payment of any obligation imposed under this chapter, the department may give notice of the amount of such delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to such user or dealer or owing any debts to such user or dealer, at the time of the receipt by them of such notice. Any person so notified shall neither transfer nor make other disposition of such credits, personal property, or debts until the department consents to a transfer or other disposition. All persons so notified must, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall immediately deliver such credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court, upon

application of the department and after the time to answer the notice has expired, to render judgment by default against the party named in the notice to withhold and deliver for the full amount claimed by the department in the notice to withhold and deliver, together with costs. [1994 c 262 § 26; 1983 c 242 § 5; 1979 c 40 § 16; 1971 ex.s. c 175 § 23.]

82.38.230 Delinquency—Seizure and sale of property. Whenever any special fuel user, supplier or dealer is delinquent in the payment of any obligation imposed hereunder, and such delinquency continues after notice and demand for payment by the department, the department shall proceed to collect the amount due from the user, supplier or dealer in the following manner: The department shall seize any property subject to the lien of said excise tax, penalty, and interest and thereafter sell it at public auction to pay said obligation and any and all costs that may have been incurred on account of the seizure and sale. Notice of such intended sale and the time and place thereof shall be given to such delinquent user, supplier or dealer and to all persons appearing of record to have an interest in such property. The notice shall be given in writing at least ten days before the date set for the sale by enclosing it in an envelope addressed to such user, supplier or dealer at his address as the same appears in the records of the department and, in the case of any person appearing of record to have an interest in such property, addressed to such person at his last known residence or place of business, and depositing such envelope in the United States mail, postage prepaid. In addition, the notice shall be published for at least ten days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper of general circulation in such county, the notice shall be posted in three public places in the county for a period of ten days. The notice shall contain a description of the property to be sold, together with a statement of the amount due hereunder, the name of the user, supplier or dealer and the further statement that unless such amount is paid on or before the time fixed in the notice the property will be sold in accordance with law.

The department shall then proceed to sell the property in accordance with the law and the notice, and shall deliver to the purchaser a bill of sale or deed which shall vest title in the purchaser. If upon any such sale the moneys received exceed the amount due to the state hereunder from the delinquent user, supplier or dealer, the excess shall be returned to such user, supplier or dealer and his receipt obtained therefor. If any person having an interest in or lien upon the property has filed with the department prior to such sale, notice of such interest or lien, the department shall withhold payment of any such excess to such user, supplier or dealer pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of such user, supplier or dealer shall not be available, the department shall deposit such excess with the state treasurer as trustee for such user, supplier or dealer, his heirs, successors, or assigns: PROVIDED, That prior to making any seizure of property as herein provided for, the department may first serve upon the user's, supplier's, or dealer's bondsman a notice of the

delinquency, with a demand for the payment of the amount due. [1979 c 40 § 17; 1971 ex.s. c 175 § 24.]

82.38.235 Warrant on assessment—Superior court filing—Lien—Writs of execution and garnishment. Whenever any assessment shall have become final in accordance with the provisions of this chapter, the department may file with the clerk of any county within the state a warrant in the amount of the assessment of taxes, penalties plus interest and a filing fee of five dollars. The clerk of the county wherein the warrant is filed shall immediately designate a superior court cause number for such warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the special fuel user, supplier or dealer mentioned in the warrant, the amount of the tax, penalties, interest and filing fee and the date when such warrant was filed. The aggregate amount of such warrant as docketed shall become a lien upon the title to, and interest in all real and personal property of named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. Such warrant so docketed shall be sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of civil judgment, wholly or partially unsatisfied. The clerk of the court shall be entitled to a filing fee of five dollars, which shall be added to the amount of the warrant. [1979 c 40 § 22.]

82.38.240 Delinquency—Collection by civil action. Whenever any special fuel user or special fuel dealer is delinquent in the payment of any obligation hereunder the department may transmit notice of such delinquency to the attorney general who shall at once proceed to collect by appropriate legal action the amount due the state from such user or dealer. In any suit brought to enforce the rights of the state hereunder, a certificate by the department showing the delinquency shall be prima facie evidence of the amount of the obligation, of the delinquency thereof and of compliance by the department with all provisions of this chapter relating to such obligation. [1971 ex.s. c 175 § 25.]

82.38.250 Remedies cumulative. The foregoing remedies of the state in this chapter shall be cumulative and no action taken by the department shall be construed to be an election on the part of the state or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this chapter. [1971 ex.s. c 175 § 26.]

82.38.260 Administration and enforcement. The department shall enforce the provisions of this chapter, and may prescribe, adopt, and enforce reasonable rules and regulations relating to the administration and enforcement thereof. The Washington state patrol and its officers shall aid the department in the enforcement of this chapter, and, for this purpose, are declared to be peace officers, and given police power and authority throughout the state to arrest on sight any person known to have committed a violation of the provisions of this chapter.

The department or its authorized representative is hereby empowered to examine the books, papers, records and equipment of any special fuel dealer, special fuel user, or any person dealing in, transporting, or storing special fuel as defined in this chapter and to investigate the character of the disposition which any person makes of such special fuel in order to ascertain and determine whether all taxes due hereunder are being properly reported and paid. The fact that such books, papers, records and equipment are not maintained in this state at the time of demand shall not cause the department to lose any right of such examination under this chapter when and where such records become available.

The department or its authorized representative is further empowered to investigate the disposition of special fuel by any person where the department has reason to believe that untaxed special fuel has been diverted to a use subject to the taxes imposed by this chapter without said taxes being paid in accordance with the requirements of this chapter.

For the purpose of enforcing the provisions of this chapter it shall be presumed that all special fuel delivered to service stations as well as all special fuel otherwise received by a special fuel dealer or a special fuel user into storage and dispensing equipment designed to fuel motor vehicles is delivered by the special fuel dealer or special fuel user into the fuel supply tanks of motor vehicles and consumed in the propulsion of motor vehicles on the highways of this state, unless the contrary is established by satisfactory evidence.

The department shall, upon request from the officials to whom are entrusted the enforcement of the special fuel tax law of any other state, the District of Columbia, the United States, its territories and possessions, the provinces or the Dominion of Canada, forward to such officials any information which he or she may have relative to the receipt, storage, delivery, sale, use, or other disposition of special fuel by any special fuel dealer or special fuel user, provided such other state or states furnish like information to this state.

Returns required by this chapter, exclusive of schedules, itemized statements and other supporting evidence annexed thereto, shall at all reasonable times be open to the public. [1995 c 274 § 25; 1979 c 40 § 18; 1971 ex.s. c 175 § 27.]

For the purpose of any investigation or proceeding under this chapter, the director or any officer designated by him may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the director deems relevant or material to the inquiry.

The failure to obey an order of the court may be punishable by contempt. [1979 c 40 § 20.]

82.38.280 State preempts tax field. The tax levied in this chapter is in lieu of any excise, privilege, or occupational tax upon the business of manufacturing, selling, or distributing special fuel, and no city, town, county, township or other subdivision or municipal corporation of the state shall levy or collect any excise tax upon or measured by the sale, receipt, distribution, or use of special fuel, except as provided in RCW 82.80.010 and 82.47.020. [1982 c 161 § 1.]

82.41.020 Definitions. As used in this chapter unless the context clearly requires otherwise:

(4) "State" means a state, territory, or possession of the United States, the District of Columbia, a foreign country, or a state or province of a foreign country;

(5) "Base state" means the state in which the motor carrier is legally domiciled, or in the case of a motor carrier who has no legal domicile, the state from or in which the motor carrier's vehicles are most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled;

(7) "Licensee" means a motor carrier who has been issued a fuel tax license under a motor fuel tax agreement. [1982 c 161 § 2.]

82.41.030 Motor fuel tax cooperative agreement authorized—Prohibition. The department may enter into a motor fuel tax cooperative agreement with another state or states which provides for the administration, collection, and enforcement of each state's motor fuel taxes on motor fuel used by motor carriers. The agreement shall not contain any provision which exempts any motor vehicle, owner, or operator from complying with the laws, rules, and regulations pertaining to vehicle licensing, size, weight, load, or operation of motor vehicles upon the public highways of this state. [1982 c 161 § 3.]

82.41.040 Amount of tax collected for this state. The amount of the tax imposed and collected on behalf of this state under an agreement entered into under this chapter shall be determined as provided in chapter 82.38 RCW. [1995 c 274 § 26; 1982 c 161 § 4.]

82.41.050 Provisions of agreement. An agreement entered into under this chapter may provide for:

(1) Defining the classes of motor vehicles upon which taxes are to be collected under the agreement;

(2) Establishing methods for base state fuel tax licensing, license revocation, and tax collection from motor carriers on behalf of the states which are parties to the agreement;

(3) Establishing procedures for the granting of credits or refunds on the purchase of excess tax-paid fuel;

(4) Defining conditions and criteria relative to bonding requirements, including criteria for exemption from bonding;

82.41.060 Credits—Refunds. Any licensee purchasing more tax-paid motor fuel in this state than the licensee uses in this state during the course of a reporting period shall be permitted a credit against future tax liability for the

excess tax-paid fuel purchased. Upon request, this credit may be refunded to the licensee by the department in accordance with the agreement. [1982 c 161 § 6.]

82.41.070 Audits. The agreement may require the department to perform audits of licensees, or persons required to be licensed, based in this state to determine whether motor fuel taxes to be collected under the agreement have been properly reported and paid to each state party to the agreement. The agreement may authorize other states to perform audits on licensees, or persons required to be licensed, based in their states on behalf of the state of Washington and forward the audit findings to the department. Such findings may be served upon the licensee or such other person in the same manner as audits performed by the department.

The agreement shall not preclude the department from auditing the records of any person who has used motor fuels in this state. Any licensee or person required to be licensed from whom the department has requested records shall make the records available at the location designated by the department or may request the department to audit such records at that licensee's or person's place of business. In case of contumacy by or refusal to obey a subpoena issued to any person, any court of competent jurisdiction, upon application by the director, may issue to that person an order requiring him to appear before the director, or the officer designated by the director, to produce testimony or other evidence touching the matter under investigation or in question. The failure to obey an order of the court may be punishable by contempt. [1982 c 161 § 8.]

82.41.090 Appeal procedures. The agreement shall specify procedures by which a licensee may appeal a license revocation or audit assessment by the department. Such appeal procedures shall be in accordance with chapters 34.05 and 82.38 RCW. [1982 c 161 § 9.]

82.41.100 Exchange of information. The agreement may require each state to forward to other states any information available which relates to the acquisition, sale, use, or movement of motor fuels by any licensee or person required to be licensed. The department may further disclose to other states information which relates to the

persons, offices, motor vehicles and other real and personal property of persons licensed or required to be licensed under the agreement. [1982 c 161 § 10.]

[1982 c 161 § 11.]

There is hereby levied, and there shall be collected by every distributor of aircraft fuel, an excise tax at the rate computed under RCW 82.42.025 on each gallon of aircraft fuel sold, delivered or used in this state: PROVIDED HOWEVER, That such aircraft fuel excise tax shall not apply to fuel for aircraft that both operate from a private, non-state-funded airfield during at least ninety-five percent of the aircraft's normal use and are used principally for the application of pesticides, herbicides, or other agricultural chemicals: PROVIDED FURTHER, That there shall be collected from every consumer or user of aircraft fuel either the use tax imposed by RCW 82.12.020, as amended, or the retail sales tax imposed by RCW 82.08.020, as amended, collection procedure to be as prescribed by law and/or rule or regulation of the department of revenue. The taxes imposed by this chapter shall be collected and paid to the state but once in respect to any aircraft fuel.

The tax required by this chapter, to be collected by the seller, is held in trust by the seller until paid to the department, and a seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter is guilty of a felony, or gross

82.42.025 Computation of aircraft fuel tax rate. (1)

During the fifth month of each fiscal half-year ending June 30th and December 31st of each year, the department of licensing shall compute an aircraft fuel tax rate to the nearest one-half cent per gallon of aircraft fuel by multiplying three percent times the weighted average retail sales price of aircraft fuel, per gallon, sold within the state in the third month of the fiscal half-year. The department shall determine the weighted average retail sales price of aircraft fuel by state-wide sampling and survey techniques designed to reflect these prices for the third month of the fiscal half-year. The department shall establish reasonable guidelines for its sampling and survey methods.

(2) The excise tax rate computed under subsection (1) of this section or five cents per gallon, whichever is greater, shall apply to the sale, distribution, or use of aircraft fuel beginning the fiscal half-year following computation of the rate and shall remain in effect for each succeeding fiscal half-year until a subsequent computation requires a change in the rate. For the period May 1, 1983, through June 30, 1983, the aircraft fuel tax shall be five cents per gallon. [1983 c 49 § 2; 1982 1st ex.s. c 25 § 3.]

Severability—Effective date—1982 1st ex.s. c 25: See notes following RCW 82.42.010.

82.42.030 Exemptions. The provision of RCW 82.42.020 imposing the payment of an excise tax on each gallon of aircraft fuel sold, delivered or used in this state shall not apply to aircraft fuel sold for export, nor to aircraft fuel used for the following purposes: (1) The operation of aircraft when such use is by any air carrier or supplemental air carrier operating under a certificate of public convenience and necessity under the provisions of the Federal Aviation Act of 1958, Public Law 85-726, as amended; (2) the operation of aircraft for testing or experimental purposes; (3) the operation of aircraft when such operation is for the training of crews in Washington state for purchasers of aircraft who are certified air carriers; and (4) the operation of aircraft in the operations of a local service commuter: PROVIDED, That the director's determination as to a particular activity for which aircraft fuel is used as being an exemption under this section, or otherwise, shall be final.

To claim an exemption on account of sales by a licensed distributor of aircraft fuel for export, the purchaser shall obtain from the selling distributor, and such selling distributor must furnish the purchaser, an invoice giving such details of the sale for export as the director may require, copies of which shall be furnished the department and the entity of the state or foreign jurisdiction of destination which

is charged by the laws of that state or foreign jurisdiction with the control or monitoring or both, of the sales or movement of aircraft fuel in that state or foreign jurisdiction. [1989 c 193 § 4; 1982 1st ex.s. c 25 § 4; 1967 ex.s. c 10 § 3.]

Severability—Effective date—1982 1st ex.s. c 25: See notes following RCW 82.42.010.

82.42.040 Collection of tax—Procedure—Licensing—Surety bond or other security—Records, reports, statements—Application—Investigation—Fee—Penalty for false statement.

The director shall by rule and regulation adopted as provided in chapter 34.05 RCW (Administrative Procedure Act) set up the necessary administrative procedure for collection by the department of the aircraft fuel excise tax as provided for in RCW 82.42.020, placing the responsibility of collection of said tax upon every distributor of aircraft fuel within the state; he may require the licensing of every distributor of aircraft fuel and shall require such a corporate surety bond or security of any distributor or person not otherwise bonded under provisions of chapter 82.36 RCW as is provided for distributors of motor vehicle fuel under RCW 82.36.060; he shall provide such forms and may require such reports or statements as in his determination shall be necessary for the proper administration of this chapter. The director may require such records to be kept, and for such periods of time, as deemed necessary for the administration of this chapter, which records shall be available at all times for the director or his representative who may require a statement under oath as to the contents thereof.

Every application for a distributor's license must contain the following information to the extent it applies to the applicant:

(1) Proof as the department may require concerning the applicant's identity, including but not limited to his or her fingerprints or those of the officers of a corporation making the application;

(2) The applicant's form and place of organization including proof that the individual, partnership, or corporation is licensed to do business in this state;

(3) The qualification and business history of the applicant and any partner, officer, or director;

(4) The applicant's financial condition or history including a bank reference and whether the applicant or any partner, officer, or director has ever been adjudged bankrupt or has an unsatisfied judgment in a federal or state court;

(5) Whether the applicant has been adjudged guilty of a crime that directly relates to the business for which the license is sought and the time elapsed since the conviction is less than ten years, or has suffered a judgment within the preceding five years in a civil action involving fraud, misrepresentation, or conversion and in the case of a corporation or partnership, all directors, officers, or partners.

After receipt of an application for a license, the director may conduct an investigation to determine whether the facts set forth are true. The director may require a fingerprint record check of the applicant through the Washington state patrol criminal identification system and the federal bureau of investigation before issuance of a license. The results of the background investigation including criminal history information may be released to authorized department

personnel as the director deems necessary. The department shall charge a license holder or license applicant a fee of fifty dollars for each background investigation conducted.

An applicant who makes a false statement of a material fact on the application may be prosecuted for false swearing as defined by RCW 9A.72.040. [1996 c 104 § 14; 1982 1st ex.s. c 25 § 5; 1969 ex.s. c 254 § 3; 1967 ex.s. c 10 § 4.]

Severability—Effective date—1982 1st ex.s. c 25: See notes following RCW 82.42.010.

82.42.050 Failure of distributor to file report or statement—Determination by director of amount sold, delivered or used—Basis for tax assessment—Penalty—Records public. Should any distributor fail to file any report or statement, as shall be required by rule and regulation of the director, showing the total number of gallons of aircraft fuel sold, delivered or used by a distributor within the state during the preceding calendar month, the director shall proceed forthwith to determine from the best available sources such amount and said determination shall be presumed to be correct for that period, until proved by competent evidence to be otherwise. The director shall immediately assess the excise tax in the amount so determined, adding thereto a penalty of ten percent for failure to report. Such penalty shall be cumulative of other penalties herein provided. All statements or reports required to be filed with the director as required in this section shall be public records. [1969 ex.s. c 254 § 4; 1967 ex.s. c 10 § 5.]

The amount of aircraft fuel excise tax imposed under RCW 82.42.020 for each month shall be paid to the director on or before the twenty-fifth day of the month thereafter, and if not paid prior thereto, shall become delinquent at the close of business on that day, and a penalty of ten percent of such excise tax must be added thereto for delinquency. Any aircraft fuel tax, penalties, and interest payable under the provisions of this chapter shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the close of the monthly period for which the amount or any portion thereof should have been paid until the date of payment. RCW 82.36.070 applies to the issuance, refusal, or revocation of a license issued under this chapter. The provisions of RCW 82.36.110 relating to a lien for taxes, interests or penalties due, shall be applicable to the collection of the aircraft fuel excise tax provided in RCW 82.42.020, and the provisions of RCW 82.36.120, 82.36.130 and 82.36.140 shall apply to any distributor of aircraft fuel with respect to the aircraft fuel excise tax imposed under RCW 82.42.020. [1996 c 104 § 15; 1969 ex.s. c 254 § 5; 1969 c 139 § 4; 1967 ex.s. c 10 § 6.]

The provisions of RCW 82.42.020 requiring the payment of an aircraft fuel excise tax on aircraft fuel shall not apply to aircraft fuel imported into the state in interstate or foreign

commerce and intended to be sold while in interstate or foreign commerce, nor to aircraft fuel exported from this state, nor to aircraft fuel sold to the United States government or any agency thereof: PROVIDED, That exemptions granted under this section shall be null and void unless full conformance is made with the requisite administrative procedure set forth for procuring such exemptions under rules and regulations of the director promulgated under the provisions of this chapter. Except as provided in RCW 82.42.030, nothing in this chapter shall be construed to exempt the state or any political subdivision thereof from the payment of the aircraft excise fuel tax provided in RCW 82.42.020. When setting up rules and regulations as provided for in RCW 82.42.040, the director shall provide for such refund procedure as deemed necessary to carry out the provisions of this chapter, and full compliance with such provisions shall be essential before receipt of any refund thereunder. [1982 1st ex.s. c 25 § 6; 1971 ex.s. c 156 § 4; 1967 ex.s. c 10 § 7.]

[1967 ex.s. c 10 § 10.]

82.42.110 Tax upon persons other than distributors—Imposition—Collection—Distribution—Enforcement. Every person other than a distributor who acquires any aircraft fuel within this state upon which payment of tax is required under the provisions of this chapter, or imports such aircraft fuel into this state and sells, delivers, or in any manner uses it in this state shall, if the tax has not been paid, be subject to the provisions of RCW 82.42.040 provided for distributors and shall pay a tax at the rate computed under RCW 82.42.025 for each gallon thereof so sold, delivered, or used in the manner provided for distributors. The proceeds of the tax imposed by this section shall be distributed in the manner provided for the distribution of the aircraft fuel tax in RCW 82.42.090. For failure to comply with the terms of this chapter, such person shall be subject to the same penalties imposed upon distributors. The director shall pursue against such persons the same procedure and remedies for audits, adjustments, collection, and enforcement of this chapter as is provided with respect to distributors. Nothing herein shall be construed as classifying such persons as distributors. [1982 1st ex.s. c 25 § 9; 1971 ex.s. c 156 § 5.]

82.42.120 Mitigation of assessments. Except in the case of violations of filing a false or fraudulent report, if the department deems mitigation of penalties and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter. [1991 c 339 § 8.]

82.44.015 Ride-sharing passenger motor vehicles excluded—Notice—Liability for tax. For the purposes of this chapter, in addition to the exclusions under RCW 82.44.010, "motor vehicle" shall not include passenger motor vehicles used primarily for commuter ride sharing and ride sharing for persons with special transportation needs, as defined in RCW 46.74.010. The registered owner of one of these vehicles shall notify the department of licensing upon termination of primary use of the vehicle in commuter ride sharing or ride sharing for persons with special transportation needs and shall be liable for the tax imposed by this chapter, prorated on the remaining months for which the vehicle is licensed.

To qualify for the tax exemption, those passenger motor vehicles with five or six passengers, including the driver, used for commuter ride-sharing, must be operated either within the state's eight largest counties that are required to develop commute trip reduction plans as directed by chapter 70.94 RCW or in other counties, or cities and towns within those counties, that elect to adopt and implement a commute trip reduction plan. Additionally at least one of the following conditions must apply: (1) The vehicle must be operated by a public transportation agency for the general public; or (2) the vehicle must be used by a major employer, as defined in RCW 70.94.524 as an element of its commute trip reduction program for their employees; or (3) the vehicle must be owned and operated by individual employees and must be registered either with the employer as part of its commute trip reduction program or with a public transportation agency serving the area where the employees live or work. Individual employee owned and operated motor vehicles will require certification that the vehicle is registered with a major employer or a public transportation agency. Major employers who own and operate motor vehicles for their employees must certify that the commuter ride-sharing arrangement conforms to a carpool/vanpool element contained within their commute trip reduction program. [1996 c 244 § 7; 1993 c 488 § 3; 1982 c 142 § 1; 1980 c 166 § 3.]

(1) An excise tax is imposed for the privilege of using in the state any motor vehicle, except those operated under reciprocal agreements, the provisions of RCW 46.16.160 as now or hereafter amended, or dealer's licenses. The annual amount of such excise tax shall be two percent of the value of such vehicle.

(2) An additional excise tax is imposed, in addition to any other tax imposed by this section, for the privilege of using in the state any such motor vehicle, and the annual amount of such additional excise shall be two-tenths of one percent of the value of such vehicle.

(3) Effective with October 1992 motor vehicle registration expirations, a clean air excise tax is imposed in addition to any other tax imposed by this section for the privilege of using in the state any motor vehicle as defined in RCW

The annual amount of the additional excise tax shall be two dollars and twenty-five cents. Effective with July 1994 motor vehicle registration expirations, the annual amount of additional excise tax shall be two dollars.

(4) An additional excise tax is imposed on truck-type power units that are used in combination with a trailer to transport loads in excess of forty thousand pounds combined gross weight. The annual amount of such additional excise tax shall be fifty-eight one-hundredths of one percent of the value of the vehicle.

The department shall distribute the additional tax collected under this subsection as follows:

(a) For each trailing unit subject to subsection (5) of this section, an amount equal to the clean air excise tax prescribed in subsection (3) of this section shall be distributed in the manner prescribed in RCW 82.44.110(3);

(2) The reissuance of title and registration for a truck-type power or trailing unit because of the installation of body or special equipment shall be treated as a sale, and the value of the truck-type power or trailing unit at that time, as determined by the department from such information as may be available, shall be considered the latest purchase price.

(3) For the purpose of determining the tax under this chapter, the value of a motor vehicle other than a truck-type power or trailing unit shall be the manufacturer's base suggested retail price of the vehicle when first offered for sale as a new vehicle, excluding any optional equipment, applicable federal excise taxes, state and local sales or use taxes, transportation or shipping costs, or preparatory or delivery costs, multiplied by the applicable percentage listed in this subsection based on year of service of the vehicle.

If the manufacturer's base suggested retail price is unavailable or otherwise unascertainable at the time of initial registration in this state, the department shall determine a value equivalent to a manufacturer's base suggested retail price as follows:

(a) The department shall determine a value using any information that may be available, including any guidebook, report, or compendium of recognized standing in the automotive industry or the selling price and year of sale of the vehicle. The department may use an appraisal by the county assessor. In valuing a vehicle for which the current value or selling price is not indicative of the value of similar vehicles of the same year and model, the department shall establish a value that more closely represents the average value of similar vehicles of the same year and model.

(b) The value determined in (a) of this subsection shall be divided by the applicable percentage listed in this subsection to establish a value equivalent to a manufacturer's base suggested retail price. The applicable percentage shall be based on the year of service of the vehicle for which the value is determined.

No additional tax shall be imposed under this chapter upon any vehicle upon the transfer of ownership thereof if the tax imposed with respect to such vehicle has already been paid for the registration year or fraction of a registration year in which transfer of ownership occurs. 82.44.120 Refunds, collections of erroneous amounts—Claims—False statement, penalty. Whenever any person has paid a motor vehicle license fee, and together therewith has paid an excise tax imposed under the provisions of this chapter, and the director determines that the payor is entitled to a refund of the entire amount of the license fee as provided by law, then the payor shall also be entitled to a refund of the entire excise tax collected under the provisions of this chapter. In case the director determines that any person is entitled to a refund of only a part of the license fee so paid, the payor shall be entitled to a refund of the difference, if any, between the excise tax collected and that which should have been collected.

In case no claim is to be made for the refund of the license fee or any part thereof, but claim is made by any person that he or she has paid an erroneously excessive amount of excise tax, the department shall determine in the manner generally provided in this chapter the amount of such excess, if any, that has been paid and shall certify to the state treasurer that such person is entitled to a refund in such amount.

In any case where due to error, a person has been required to pay an excise tax pursuant to this chapter and a vehicle license fee pursuant to Title 46 RCW which amounts to an overpayment of ten dollars or more, such person shall be entitled to a refund of the entire amount of such overpayment, regardless of whether or not a refund of the overpayment has been requested. Conversely, if due to error, the department or its agents has failed to collect the full amount of the license fee and excise tax due, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax.

Any claim for refund of an erroneously excessive amount of excise tax or overpayment of excise tax with a motor vehicle license fee must be filed with the director within three years after the claimed erroneous payment was made.

If the department approves the claim it shall notify the state treasurer to that effect, and the treasurer shall make

such approved refunds from the general fund and shall mail or deliver the same to the person entitled thereto.

Any person making any false statement under which he or she obtains any amount of refund to which he or she is not entitled under the provisions of this section is guilty of a gross misdemeanor. 82.44.150 Apportionment and distribution of motor vehicle excise taxes generally. (1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be

supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(1)(g), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within each county that has a population of one hundred seventy-five thousand or more and has an interstate highway within its borders; except that in a case of a municipality located in a county that has a population of one hundred seventy-five thousand or more that does not have an interstate highway located within its borders, that sum shall be deposited in the passenger ferry account;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy

and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and RCW 82.14.046.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under RCW 82.14.046; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under RCW 82.14.046.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under RCW 82.14.046. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and

82.44.190 Transportation infrastructure account—Deposits and distributions—Subaccounts. The transportation infrastructure account is hereby created in the transportation fund. Public and private entities may deposit moneys in the transportation infrastructure account from federal, state, local, or private sources. Proceeds from bonds or other financial instruments sold to finance surface transportation projects from the transportation infrastructure account shall be deposited into the account. Principal and interest payments made on loans from the transportation infrastructure account shall be deposited into the account. Moneys in the account shall be available for purposes specified in RCW 82.44.195. Expenditures from the transportation infrastructure account shall be subject to appropriation by the legislature. To the extent required by federal law or regulations promulgated by the United States secretary of transportation, the state treasurer is authorized to create separate subaccounts within the transportation infrastructure account. [1996 c 262 § 2.]

Effective date—1996 c 262: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 29, 1996]." [1996 c 262 § 5.]

82.44.195 Transportation infrastructure account—Highway infrastructure account—Finding—Intent—Purpose—1996 c 262. The legislature finds that new financing mechanisms are necessary to provide greater flexibility and additional funds for needed transportation infrastructure projects in the state. The creation of a financing mechanism, like the one contained in section 350 of the national highway system designation act of 1995, P.L. 104-59, relating to a state infrastructure bank program, will enable the state and local jurisdictions to use federal, state, local, or private funds to construct surface transportation projects for various modes of transportation. It is the intent of the legislature that accounts be created in the state treasury and dedicated funding sources be established to generate revenue to support transportation projects financed with the proceeds of bonds or other financial instruments issued against this dedicated revenue and other revenues which may be available to these accounts. P.L. 104-59 allows the deposit of certain federal highway and transit funds into these accounts to leverage other forms of investment in transportation infrastructure by expanding the eligible uses of the federal funds. Other public and private entities may also deposit funds into these accounts to leverage transportation investments. The purpose of chapter 262, Laws of 1996 is to provide, from these accounts, authorization for loans, grants, or other means of assistance, in amounts equal to all or part of the cost, to public or private entities building surface transportation facilities in this state. It is the further intent of the legislature that projects representing critical mobility or economic development needs and involving various transportation modes and jurisdictions receive top priority in the use of these funds. Funds from the accounts created in chapter 262, Laws of 1996 may be used to support the issuance of public or private debt, to provide credit enhancement for such debt, for direct loans to public or private entities, or for other purposes necessary to facilitate investment in surface transportation facilities in this state. [1996 c 262 § 1.]

Effective date—1996 c 262: See note following RCW 82.44.190.

82.44.900 Severability—Construction—1961 c 15. If any provision of this chapter relating either to the apportionment or allocation of the revenue derived from the excise tax thereby imposed, or to any appropriation made by this chapter, be adjudged unconstitutional, such adjudication shall not be held to render unconstitutional or ineffectual the remaining portions of said chapter or any part thereof: PROVIDED, HOWEVER, That except as otherwise hereinabove provided by this section, if any section or part of a section of this chapter be adjudged unconstitutional, this entire chapter shall thereupon be and become inoperative and of no force or effect whatsoever. [1961 c 15 § 82.44.900. Prior: 1943 c 144 § 17; Rem. Supp. 1943 § 6312-131.]

[1982 c 176 § 3; 1980 c 154 § 15.]

Purpose—1980 c 154: "It is the intent of this 1980 act to simplify the bookkeeping procedures for the state treasurer's office and for the school districts but not to impact the amount of revenues covered by this 1980 act to the various counties and other taxing districts." [1980 c 154 § 16.]

Severability—1980 c 154: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 154 § 21.]

82.45.010 "Sale" defined. (1) As used in this chapter, the term "sale" shall have its ordinary meaning and shall include any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and

title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration. For purposes of this subsection, all acquisitions of persons acting in concert shall be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department of revenue shall adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department shall consider the following:

(a) Persons shall be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(b) When persons are not commonly owned or controlled, they shall be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions shall be considered separate acquisitions.

(3) The term "sale" shall not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer of any leasehold interest other than of the type mentioned above.

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse to the other in accordance with the terms of a decree of divorce or in fulfillment of a property settlement agreement.

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter

has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or children: PROVIDED, That if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse, or children voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (1) the transferor and/or the transferor's spouse or children, (2) a trust having the transferor and/or the transferor's spouse or children as the only beneficiaries at the time of the transfer to the trust, or (3) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or children, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes shall become due and payable on the original transfer as otherwise provided by law.

(o) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of section 332, 337, 351, 368(a)(1), 721, or 731 of the Internal Revenue Code of 1986, as amended. [1993 sp.s. c 25 § 502; 1981 c 93 § 1; 1970 ex.s. c 65 § 1; 1969 ex.s. c 223 § 28A.45.010. Prior: 1955 c 132 § 1; 1953 c 94 § 1; 1951 2nd ex.s. c 19 § 1; 1951 1st ex.s. c 11 § 7. Formerly RCW 28A.45.010, 28.45.010.]

Findings—Intent—1993 sp.s. c 25: "(1) The legislature finds that transfers of ownership of entities may be essentially equivalent to the sale of real property held by the entity. The legislature further finds that all transfers of possession or use of real property should be subject to the same excise tax burdens.

(2) The legislature intends to apply the real estate excise tax of chapter 82.45 RCW to transfers of entity ownership when the transfer of entity ownership is comparable to the sale of real property. The legislature intends to equate the excise tax burdens on all sales of real property and transfers of entity ownership essentially equivalent to a sale of real property under chapter 82.45 RCW." 82.45.030 "Selling price," "total consideration paid or contracted to be paid," defined. (1) As used in this chapter, the term "selling price" means the true and fair value of the property conveyed. If property has been conveyed in an arm's length transaction between unrelated persons for a valuable consideration, a rebuttable presumption exists that the selling price is equal to the total consideration paid or contracted to be paid to the transferor, or to another for the transferor's benefit.

(2) If the sale is a transfer of a controlling interest in an entity with an interest in real property located in this state, the selling price shall be the true and fair value of the real property owned by the entity and located in this state. If the true and fair value of the real property located in this state cannot reasonably be determined, the selling price shall be determined according to subsection (4) of this section.

(3) As used in this section, "total consideration paid or contracted to be paid" includes money or anything of value, paid or delivered or contracted to be paid or delivered in return for the sale, and shall include the amount of any lien, mortgage, contract indebtedness, or other incumbrance, either given to secure the purchase price, or any part thereof, or remaining unpaid on such property at the time of sale.

Total consideration shall not include the amount of any outstanding lien or incumbrance in favor of the United States, the state, or a municipal corporation for taxes, special benefits, or improvements.

(4) If the total consideration for the sale cannot be ascertained or the true and fair value of the property to be valued at the time of the sale cannot reasonably be determined, the market value assessment for the property maintained on the county property tax rolls at the time of the sale shall be used as the selling price. 82.45.032 "Real estate," "real property," "used mobile home," "mobile home," "used floating home," and "floating home" defined. Unless the context clearly

requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Real estate" or "real property" means any interest, estate, or beneficial interest in land or anything affixed to land, including the ownership interest or beneficial interest in any entity which itself owns land or anything affixed to land. The term includes used mobile homes, used floating homes, and improvements constructed upon leased land.

(2) "Used mobile home" means a mobile home which has been previously sold at retail and has been subjected to tax under chapter 82.08 RCW, or which has been previously used and has been subjected to tax under chapter 82.12 RCW, and which has substantially lost its identity as a mobile unit at the time of sale by virtue of its being fixed in location upon land owned or leased by the owner of the mobile home and placed on a foundation (posts or blocks) with fixed pipe connections with sewer, water, and other utilities.

(3) "Mobile home" means a mobile home as defined by RCW 46.04.302, as now or hereafter amended.

(4) "Used floating home" means a floating home in respect to which tax has been paid under chapter 82.08 or 82.12 RCW.

(5) "Floating home" means a building on a float used in whole or in part for human habitation as a single-family dwelling, which is not designed for self propulsion by mechanical means or for propulsion by means of wind, and which is on the property tax rolls of the county in which it is located. [1993 sp.s. c 25 § 504; 1986 c 211 § 1; 1984 c 192 § 1; 1979 ex.s. c 266 § 1. Formerly RCW 28A.45.032.]

82.45.033 "Controlling interest" defined. As used in this chapter, the term "controlling interest" has the following meaning:

(1) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(2) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity. [1993 sp.s. c 25 § 505.]

82.45.035 Determining selling price of leases with option to purchase—Mining property—Payment, security when selling price not separately stated. The state department of revenue shall provide by rule for the determination of the selling price in the case of leases with option to purchase, and shall further provide that the tax shall not be payable, where inequity will otherwise result, until and unless the option is exercised and accepted. A conditional sale of mining property in which the buyer has the right to terminate the contract at any time, and a lease and option to buy mining property in which the lessee-buyer has the right

to terminate the lease and option at any time, shall be taxable at the time of execution only on the consideration received by the seller or lessor for execution of such contract, but the rule shall further provide that the tax due on any additional consideration paid by the buyer and received by the seller shall be paid to the county treasurer (1) at the time of termination, or (2) at the time that all of the consideration due to the seller has been paid and the transaction is completed except for the delivery of the deed to the buyer, or (3) at the time when the buyer unequivocally exercises an option to purchase the property, whichever of the three events occurs first.

The term "mining property" means property containing or believed to contain metallic minerals and sold or leased under terms which require the purchaser or lessor to conduct exploration or mining work thereon and for no other use. The term "metallic minerals" does not include clays, coal, sand and gravel, peat, gypsite, or stone, including limestone.

The state department of revenue shall further provide by rule for cases where the selling price is not separately stated or is not ascertainable at the time of sale, for the payment of the tax at a time when the selling price is ascertained, in which case suitable security may be required for payment of the tax, and may further provide for the determination of the selling price by an appraisal by the county assessor, based on the full and true market value, which appraisal shall be prima facie evidence of the selling price of the real property. [1969 ex.s. c 223 § 28A.45.035. Prior: 1967 ex.s. c 149 § 1; 1959 c 208 § 1; 1951 2nd ex.s. c 19 § 3. Formerly RCW 28A.45.035, 28.45.035.]

82.45.060 Tax imposed on sale of property—Additional tax imposed. (1) There is imposed an excise tax upon each sale of real property at the rate of one and twenty-eight one-hundredths percent of the selling price. An amount equal to seven and seven-tenths percent of the proceeds of this tax to the state treasurer shall be deposited in the public works assistance account created in RCW 43.155.050.

(2) There is imposed an additional excise tax through June 30, 1989, upon each sale of real property at the rate of six one-hundredths of one percent of the selling price. The tax imposed under this subsection shall be deposited in the conservation area account under *RCW 79.71.110. [1987 c 472 § 14; 1983 2nd ex.s. c 3 § 20; 1982 1st ex.s. c 35 § 14; 1980 c 154 § 2; 1969 ex.s. c 223 § 28A.45.060. Prior: 1951 1st ex.s. c 11 § 5. Formerly RCW 28A.45.060, 28.45.060.]

82.45.070 Tax is lien on property—Enforcement. The tax herein provided for and any interest or penalties thereon shall be a specific lien upon each piece of real property sold from the time of sale until the tax shall have

been paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages. [1969 ex.s. c 223 § 28A.45.070. Prior: 1951 1st ex.s. c 11 § 9. Formerly RCW 28A.45.070, 28.45.070.]

82.45.080 Tax is seller's obligation—Choice of remedies. 82.45.090 Payment of tax and fee—Evidence of payment—Recording—Sale of beneficial interest. (1) Except for a sale of a beneficial interest in real property where no instrument evidencing the sale is recorded in the official real property records of the county in which the property is located, the tax imposed by this chapter shall be paid to and collected by the treasurer of the county within which is located the real property which was sold. In collecting the tax the treasurer shall act as agent for the state. The county treasurer shall cause a stamp evidencing satisfaction of the lien to be affixed to the instrument of sale or conveyance prior to its recording or to the real estate excise tax affidavit in the case of used mobile home sales and used floating home sales. A receipt issued by the county treasurer for the payment of the tax imposed under this chapter shall be evidence of the satisfaction of the lien imposed hereunder and may be recorded in the manner prescribed for recording satisfactions of mortgages. No instrument of sale or conveyance evidencing a sale subject to the tax shall be accepted by the county auditor for filing or recording until the tax shall have been paid and the stamp affixed thereto; in case the tax is not due on the transfer, the instrument shall not be so accepted until suitable notation of such fact has been made on the instrument by the treasurer.

(2) For a sale of a beneficial interest in real property where a tax is due under this chapter and where no instrument is recorded in the official real property records of the county in which the property is located, the sale shall be reported to the department of revenue within five days from the date of the sale on such returns or forms and according to such procedures as the department may prescribe. Such forms or returns shall be signed by both the transferor and the transferee and shall be accompanied by payment of the tax due. Any person who intentionally makes a false statement on any return or form required to be filed with the department under this chapter shall be guilty of perjury. However, revenues (a) pledged by such counties and cities to debt retirement prior to April 30, 1992, may continue to be used for that purpose until the original debt for which the revenues were pledged is retired, or (b) committed prior to April 30, 1992, by such counties or cities to a project may continue to be used for that purpose until the project is completed.

(3) In lieu of imposing the tax authorized in RCW 82.14.030(2), the legislative authority of any county or any city may impose an additional excise tax on each sale of real property in the unincorporated areas of the county for the county tax and in the corporate limits of the city for the city tax at a rate not exceeding one-half of one percent of the selling price.

(4) Taxes imposed under this section shall be collected from persons who are taxable by the state under chapter 82.45 RCW upon the occurrence of any taxable event within the unincorporated areas of the county or within the corporate limits of the city, as the case may be.

(5) Taxes imposed under this section shall comply with all applicable rules, regulations, laws, and court decisions regarding real estate excise taxes as imposed by the state under chapter 82.45 RCW.

[1994 c 272 § 1; 1992 c 221 § 1; 1990 1st ex.s. c 17 § 36; 1982 1st ex.s. c 49 § 11.]

Legislative declaration—1994 c 272: "The legislature declares that, in section 13, chapter 49, Laws of 1982 1st ex. sess., effective July 1, 1982, its original intent in limiting the use of the proceeds of the tax authorized in RCW 82.46.010(2) to "local capital improvements" was to include in such expenditures the acquisition of real and personal property associated with such local capital improvements. Any such expenditures made by cities, towns, and counties on or after July 1, 1982, are hereby declared to be authorized and valid." [1994 c 272 § 2.]

Expenditures prior to June 11, 1992: "All expenditures of revenues collected under RCW 82.46.010 made prior to June 11, 1992, are deemed to be in compliance with RCW 82.46.010." [1992 c 221 § 4.]

Any referendum petition to repeal a county or city ordinance imposing a tax or altering the rate of the tax authorized under *RCW 82.46.010(2) shall be filed with a filing officer, as identified in the ordinance, within seven days of passage of the ordinance. Within ten days, the filing officer shall confer with the petitioner concerning form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title shall be posed as a question so that an affirmative answer to the question and an affirmative vote on the measure results in the tax or tax rate increase being imposed and a negative answer to the question and a negative vote on the measure results in the tax or tax rate increase not being imposed. The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner shall have thirty days in which to secure on petition forms the signatures of not less than fifteen percent of the registered voters of the county for county measures, or not less than fifteen percent of the registered voters of the city for city measures, and to file the signed petitions with the filing officer. Each petition form shall contain the ballot title and the full text of the measure to be referred. The filing officer shall verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the filing officer shall submit the referendum measure to the county or city voters at a general or special election held on one of the dates provided in RCW 29.13.010 as determined by the county legislative authority or city council, which election shall not take place later than one hundred twenty days after the signed petition has been filed with the filing officer.

After April 22, 1983, the referendum procedure provided for in this section shall be the exclusive method for subjecting any county or city ordinance imposing a tax or increasing the rate under *RCW 82.46.010(2) to a referendum vote.

Any county or city tax authorized under *RCW 82.46.010(2) that has been imposed prior to April 22, 1983, is not subject to the referendum procedure provided for in this section. [1983 c 99 § 3.]

- (a) The tax shall be the obligation of the purchaser; and
- (b) The tax does not apply to the acquisition of conservation areas by the county.

The county may enforce the obligation through an action of debt against the purchaser or may foreclose the lien on the property in the same manner prescribed for the foreclosure of mortgages.

The tax shall take effect thirty days after the election at which the taxes are authorized.

(2) No tax may be imposed under subsection (1) of this section unless approved by a majority of the voters of the county voting thereon for a specified period and maximum rate after:

82.49.040 Depreciation schedule for use in determining fair market value. The department of revenue shall prepare at least once each year a depreciation schedule for use in the determination of fair market value for the purposes of this chapter. The schedule shall be based upon information available to the department of revenue pertaining to the current fair market value of vessels. The fair market value of a vessel for the purposes of this chapter shall be based on the most recent purchase price depreciated according to the year of the most recent purchase of the vessel. The most recent purchase price is the consideration, whether money, credit, rights, or other property expressed in terms of money, paid or given or contracted to be paid or given by the purchaser to the seller for the vessel. [1983 c 7 § 11.]

82.49.050 Appraisal of vessel by department of revenue. (1) If a vessel has been acquired by lease or gift, or the most recent purchase price of a vessel is not known to the owner, the department of revenue shall appraise the vessel before registration.

(2) If after registration the department of revenue determines that the purchase price stated by the owner is not a reasonable representation of the true fair market value of a vessel at the time of purchase, the department of revenue shall appraise the vessel.

(3) If a vessel is homemade, the owner shall make a notarized declaration of fair market value. The fair market value of the vessel for the purposes of this chapter shall be the declared value, unless after registration the department of revenue determines that the declared value is not a reasonable representation of the true fair market value of the vessel in which case the department of revenue shall appraise the vessel.

(4) If the department of revenue appraises a vessel, the fair market value of the vessel for the purposes of this chapter shall be the appraised value. If the vessel has been registered before appraisal, the department of revenue shall refund any overpayment of tax to the owner or notify the owner of any additional tax due. The owner shall pay any additional tax due within thirty days after notification by the department. [1983 c 7 § 12.]

82.49.060 Disputes as to appraised value or status as taxable—Petition for conference or reduction of tax—Appeal to board of tax appeals—Independent appraisal.

(1) Any vessel owner disputing an appraised value under RCW 82.49.050 or disputing whether the vessel is taxable, may petition for a conference with the department as provided under RCW 82.32.160, or for reduction of the tax due as provided under RCW 82.32.170.

(2) Any vessel owner having received a notice of denial of a petition or a notice of determination made for the owner's vessel under RCW 82.32.160 or 82.32.170 may appeal to the board of tax appeals as provided under RCW 82.03.190. In deciding a case appealed under this section, the board of tax appeals may require an independent appraisal of the vessel. The cost of the independent appraisal shall be apportioned between the department and the vessel owner as provided by the board. [1993 c 33 § 1; 1983 c 7 § 13.]

Effective date—1993 c 33: "This act shall take effect January 1, 1994." [1993 c 33 § 8.]

82.49.065 Refunds, collections of erroneous amounts—Claims—Penalty for false statement. Whenever any person has paid a vessel license fee, and with the fee has paid an excise tax imposed under this chapter, and the director of licensing determines that the payor is entitled to a refund of the entire amount of the license fee as provided by law, then the payor shall also be entitled to a refund of the entire excise tax collected under this chapter together with interest at the rate specified in RCW 82.32.060. If the director determines that any person is entitled to a refund of only a part of the license fee paid, the payor shall be entitled to a refund of the difference, if any, between the excise tax collected and that which should have been collected together with interest at the rate specified in RCW 82.32.060. The state treasurer shall determine the amount of such refund by reference to the applicable excise tax schedule prepared by the department of revenue in cooperation with the department of licensing.

If no claim is to be made for the refund of the license fee, or any part of the fee, but claim is made by any person that he or she has paid an erroneously excessive amount of excise tax, the department of licensing shall determine in the manner generally provided in this chapter the amount of such excess, if any, that has been paid and shall certify to the state treasurer that the person is entitled to a refund in that amount together with interest at the rate specified in RCW 82.32.060.

If due to error a person has been required to pay an excise tax pursuant to this chapter and a license fee under chapter 88.02 RCW which amounts to an overpayment of ten dollars or more, such person shall be entitled to a refund of the entire amount of such overpayment, together with interest at the rate specified in RCW 82.32.060, regardless of whether a refund of the overpayment has been requested. If due to error the department or its agents has failed to collect the full amount of the license fee and excise tax due, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax and any penalties or interest at the rate specified in RCW 82.32.050.

If the department approves the claim, it shall notify the state treasurer to that effect and the treasurer shall make such approved refunds and the other refunds provided for in this section from the general fund and shall mail or deliver the same to the person entitled to the refund.

[Title 82 RCW—page 194]

82.50.425 Valuation of travel trailers and campers.

For the purpose of determining the tax under this chapter, the value of a travel trailer or camper is the manufacturer's base suggested retail price of the travel trailer or camper when first offered for sale as new, excluding any optional equipment, applicable federal excise taxes, state and local sales or use taxes, transportation or shipping costs, or preparatory or delivery costs, multiplied by the applicable percentage listed in this section based on the year of service.

If the manufacturer's base suggested retail price is unavailable or otherwise unascertainable at the time of initial

registration in this state, the department shall determine a value equivalent to a manufacturer's base suggested retail price as follows:

(1) The department shall determine a value using any information that may be available, including any guidebook, report, or compendium of recognized standing in the automotive industry or the selling price and year of sale of the travel trailer or camper. The department may use an appraisal by the county assessor. In valuing a travel trailer or camper for which the current value or selling price is not indicative of the value of similar travel trailers or campers of the same year and model, the department shall establish a value that more closely represents the average value of similar travel trailers or campers of the same year and model. If the travel trailer or camper is home-built, the value shall not be less than the cost of construction.

(2) The value determined in subsection (1) of this section shall be divided by the applicable percentage listed in this section to establish a value equivalent to a manufacturer's base suggested retail price. The applicable percentage shall be based on the year of service of the travel trailer or camper for which the value is determined.

MULTISTATE TAX COMPACT

Article I. Purposes.

The purposes of this compact are to:

1. Facilitate proper determination of state and local tax liability of multistate taxpayers, including the equitable apportionment of tax bases and settlement of apportionment disputes.
2. Promote uniformity or compatibility in significant components of tax systems.
3. Facilitate taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration.
4. Avoid duplicative taxation.

Article II. Definitions.

As used in this compact:

1. "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States.
2. "Subdivision" means any governmental unit or special district of a state.
3. "Taxpayer" means any corporation, partnership, firm, association, governmental unit or agency or person acting as a business entity in more than one state.
4. "Income tax" means a tax imposed on or measured by net income including any tax imposed on or measured by an amount arrived at by deducting expenses from gross income, one or more forms of which expenses are not specifically and directly related to particular transactions.
5. "Capital stock tax" means a tax measured in any way by the capital of a corporation considered in its entirety.
6. "Gross receipts tax" means a tax, other than a sales tax, which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which no deduction is allowed which would constitute the tax an income tax.
7. "Sales tax" means a tax imposed with respect to the transfer for a consideration of ownership, possession or custody of tangible personal property or the rendering of services measured by the price of the tangible personal property transferred or services rendered and which is required by state or local law to be separately stated from the sales price by the seller, or which is customarily separately stated from the sales price, but does not include a tax imposed exclusively on the sale of a specifically identified commodity or article or class of commodities or articles.
8. "Use tax" means a nonrecurring tax, other than a sales tax, which (a) is imposed on or with respect to the exercise or enjoyment of any right or power over tangible personal property incident to the ownership, possession or custody of that property or the leasing of that property from another including any consumption, keeping, retention, or other use of tangible personal property and (b) is complementary to a sales tax.
9. "Tax" means an income tax, capital stock tax, gross receipts tax, sales tax, use tax, and any other tax which has a multistate impact, except that the provisions of Articles III, IV and V of this compact shall apply only to the taxes specifically designated therein and the provisions of Article IX of this compact shall apply only in respect to determinations pursuant to Article IV.

Article III. Elements of Income Tax Laws.
Taxpayer Option, State and Local Taxes.

1. Any taxpayer subject to an income tax whose income is subject to apportionment and allocation for tax purposes pursuant to the laws of a party state or pursuant to the laws of subdivisions in two or more party states may elect to apportion and allocate his income in the manner provided by the laws of such state or by the laws of such states and subdivisions without reference to this compact, or may elect to apportion and allocate in accordance with Article IV. This election for any tax year may be made in all party states or subdivisions thereof or in any one or more of the party states or subdivisions thereof without reference to the election made in the others. For the purposes of this paragraph, taxes imposed by subdivisions shall be considered separately from state taxes and the apportionment and allocation also may be applied to the entire tax base. In no instance wherein Article IV is employed for all subdivisions of a state may the sum of all apportionments and allocations to subdivisions within a state be greater than the apportionment and allocation that would be assignable to that state if the apportionment or allocation were being made with respect to a state income tax.

Taxpayer Option, Short Form.

2. Each party state or any subdivision thereof which imposes an income tax shall provide by law that any taxpayer required to file a return, whose only activities within the taxing jurisdiction consist of sales and do not include owning or renting real estate or tangible personal property, and whose dollar volume of gross sales made during the tax year within the state or subdivision, as the case may be, is not in excess of \$100,000 may elect to report and pay any tax due on the basis of a percentage of such volume, and shall adopt rates which shall produce a tax which reasonably approximates the tax otherwise due. The multistate tax commission, not more than once in five years, may adjust the \$100,000 figure in order to reflect such changes as may occur in the real value of the dollar, and such adjusted figure, upon adoption by the commission, shall replace the \$100,000 figure specifically provided herein. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this paragraph.

Coverage.

3. Nothing in this article relates to the reporting or payment of any tax other than an income tax.

Article IV. Division of Income.

1. As used in this article, unless the context otherwise requires:

(a) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(b) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

(c) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

(d) "Financial organization" means any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, credit union, cooperative bank, small loan company, sales finance company, investment company, or any type of insurance company.

(e) "Nonbusiness income" means all income other than business income.

(f) "Public utility" means any business entity (1) which owns or operates any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, except by pipe line, or the production, transmission, sale, delivery, or furnishing of electricity, water or steam; and (2) whose rates of charges for goods or services have been established or approved by a federal, state or local government or governmental agency.

(g) "Sales" means all gross receipts of the taxpayer not allocated under paragraphs of this article.

(h) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

(i) "This state" means the state in which the relevant tax return is filed or, in the case of application of this article to the apportionment and allocation of income for local tax purposes, the subdivision or local taxing district in which the relevant tax return is filed.

2. Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in this article. If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this article, the taxpayer may elect to allocate and apportion his entire net income as provided in this article.

3. For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if (1) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax, or (2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. Rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this article.

5.(a) Net rents and royalties from real property located in this state are allocable to this state.

(b) Net rents and royalties from tangible personal property are allocable to this state: (1) If and to the extent that the property is utilized in this state, or (2) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(c) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6.(a) Capital gains and losses from sales of real property located in this state are allocable to this state.

(b) Capital gains and losses from sales of tangible personal property are allocable to this state if (1) the property had a situs in this state at the time of the sale, or (2) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(c) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

7. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

8.(a) Patent and copyright royalties are allocable to this state: (1) If and to the extent that the patent or copyright is utilized by the payer in this state, or (2) if and to the extent that the patent copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(b) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(c) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All business income shall be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is three.

10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

14. Compensation is paid in this state if:

(a) The individual's service is performed entirely within the state;

(b) The individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

(c) Some of the service is performed in the state and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or (2) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

16. Sales of tangible personal property are in this state if:

(a) The property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(b) The property is shipped from an office, store, warehouse, factory, or other place of storage in this state and (1) the purchaser is the United States government or (2) the taxpayer is not taxable in the state of the purchaser.

17. Sales, other than sales of tangible personal property, are in this state if:

(a) The income-producing activity is performed in this state; or

(b) The income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

18. If the allocation and apportionment provisions of this article do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(a) Separate accounting;

(b) The exclusion of any one or more of the factors;

(c) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(d) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

Article V. Elements of Sales
and Use Tax Laws.

Tax Credit.

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

Exemption Certificates, Vendors May Rely.

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

Article VI. The Commission.

Organization and Management.

1.(a) The multistate tax commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or his designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under paragraph 1(e) of this article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The

commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental entity.

(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

Committees.

2.(a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice chairman, treasurer and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

Powers.

3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:

(a) Study state and local tax systems and particular types of state and local taxes.

(b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.

(c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.

(d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

Finance.

4.(a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this paragraph.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under paragraph (1)(i) of this article: PROVIDED, That the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under paragraph 1(i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VII. Uniform Regulations and Forms.

1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax, or prescribing uniform tax forms. The commission may also act with respect to the provisions of Article IV of this compact.

2. Prior to the adoption of any regulation, the commission shall:

(a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.

(b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

Article VIII. Interstate Audits.

1. This article shall be in force only in those party states that specifically provide therefor by statute.

2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records, and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission within the state of which he is a resident: PROVIDED, That such state has adopted this article.

4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks

an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in which the object of the order being sought is situated. The provisions of this paragraph apply only to courts in a state that has adopted this article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

6. Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.

8. In no event shall the commission make any charge against a taxpayer for an audit.

9. As used in this article, "tax," in addition to the meaning ascribed to it in Article II, means any tax or license fee imposed in whole or in part for revenue purposes.

Article IX. Arbitration.

1. Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of Article VII.

2. The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.

3. Whenever a taxpayer who has elected to employ Article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of Article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.

4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or

agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this paragraph shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if he is an officer or employee or is otherwise affiliated with any party to the arbitration proceeding. Residence within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this paragraph.

5. The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.

6. The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.

7. The board shall have power to administer oaths, take testimony, subpoena and require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena, and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoena, and the court may punish failure to obey the order as a contempt. The provisions of this paragraph apply only in states that have adopted this article.

8. Unless the parties otherwise agree the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless he is required on account of his service to forego the regular compensation attaching to his public employment, but any such board member shall be entitled to expenses.

9. The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.

10. The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board; the board's written statement of its reasons therefor; the record of the board's proceedings; and any other documents required by the arbitration rules of the commission to be filed.

11. The commission shall publish the determinations of boards together with the statements of the reasons therefor.

12. The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.

13. Nothing contained herein shall prevent at any time a written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceeding.

Article X. Entry into Force and Withdrawal.

1. This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

2. Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

3. No proceeding commenced before an arbitration board prior to the withdrawal of a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

Article XI. Effect on Other Laws and Jurisdiction.

Nothing in this compact shall be construed to:

(a) Affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement Article III 2 of this compact.

(b) Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax: PROVIDED, That the definition of "tax" in Article VIII 9 may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to Article VI 3 may apply.

(c) Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.

(d) Supersede or limit the jurisdiction of any court of the United States.

Article XII. Construction and Severability.

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the Constitution of any state participating therein, the compact shall remain in full force and effect as to the

remaining party states and in full force and effect as to the state affected as to all severable matters. [1967 c 125 § 1.]

82.60.010 Legislative findings and declaration. The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The legislative [legislature] further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that

policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature hereby establishes a tax deferral program to be effective solely in distressed areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed areas of the state. [1985 c 232 § 1.]

(b) The lessor/owner of a qualified building is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

ment that otherwise qualifies for exemption under RCW 82.08.02565 or 82.12.02565, for purposes of determining the portion of the investment project that qualifies for deferral as an eligible investment project; and

The department shall assess interest at the rate provided for delinquent excise taxes, but not penalties, retroactively to the date of deferral.

(5) If, on the basis of a report under this section or other information, the department finds that an investment project qualifying for deferral under RCW 82.60.040(1) (b) or (c) has failed to comply with any requirement of RCW 82.60.045 for any calendar year for which reports are required under subsection (1) of this section, twelve and one-half percent of the amount of deferred taxes shall be immediately due. The department shall assess interest at the rate provided for delinquent excise taxes, but not penalties, retroactively to the date of deferral.

(6) Notwithstanding any other subsection of this section, deferred taxes need not be repaid on machinery and equipment for lumber and wood products industries, and sales of or charges made for labor and services, of the type which qualifies for exemption under RCW 82.08.02565 or 82.12.02565 to the extent the taxes have not been repaid before July 1, 1995.

(7) Notwithstanding any other subsection of this section, deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under RCW 82.08.02565; and

If the department determines that an investment project for which an exemption is granted under this chapter competes with an investment project for which a deferral is granted under this chapter, the department shall study the impacts on the project for which a deferral is granted and report to the fiscal committees of the legislature concerning revenue matters. [1994 sp.s. c 1 § 8.]

(4) "Eligible investment project" means:

(a) Construction of new buildings and the acquisition of new related machinery and equipment when the buildings, machinery, and equipment are to be used for either manufacturing or research and development activities, which construction is commenced prior to December 31, 1995; or

(b) Acquisition prior to December 31, 1995, of new machinery and equipment to be used for either manufacturing or research and development if the machinery and equipment is housed in a new leased structure. The lessor/owner of the structure is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

[Title 82 RCW—page 208]

(c) Acquisition of all new or used machinery, equipment, or other personal property for use in the production or casting of aluminum at an aluminum smelter or at facilities related to an aluminum smelter, if the plant was in operation prior to 1975 and has ceased operations or is in imminent danger of ceasing operations for economic reasons, as determined by the department, and if the person applying for a deferral (i) has consulted with any collective bargaining unit that represented employees of the plant pursuant to a collective bargaining agreement that was in effect either immediately prior to the time the plant ceased operations or during the period when the plant was in imminent danger of ceasing operations, on the proposed operation of the plant and on the terms and conditions of employment for wage and salaried employees and (ii) has obtained a written concurrence from the bargaining unit on the decision to apply for a deferral under this chapter; or

(d) Modernization projects involving construction, acquisition, or upgrading of equipment or machinery, including services and labor, which are commenced after May 19, 1987, and are intended to increase the operating efficiency of existing plants which are either aluminum smelters or aluminum rolling mills or of facilities related to such plants, if the plant was in operation prior to 1975, and if the person applying for a deferral (i) has consulted with any collective bargaining unit that represents employees of the plant on the proposed operation of the plant and the terms and conditions of employment for wage and salaried employees and (ii) has obtained a written concurrence from the bargaining unit on the decision to apply for a deferral under this chapter.

(5) "Manufacturing" means all activities of a commercial or industrial nature wherein labor or skill is applied, by hand or machinery, to materials so that as a result thereof a new, different, or useful substance or article of tangible personal property is produced for sale or commercial or industrial use and includes the production or fabrication of specially made or custom-made articles.

82.61.060 Repayment schedule. (1) The recipient shall begin paying the deferred taxes in the third year after the date certified by the department as the date on which the construction project is operationally complete or the plant resumes operation, as appropriate. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

Repayment Year	% of Deferred Tax Repaid
1	10%
2	15%
3	20%
4	25%
5	30%

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest shall not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes is not extinguished by insolvency or other failure of the recipient. [1987 c 497 § 4; 1985 ex.s. c 2 § 5.]

TAX DEFERRALS FOR HIGH TECHNOLOGY BUSINESSES

82.63.005	Findings—Intent to create a contract.

82.63.080	Report to governor and legislature.
82.63.900	Effective date—1994 sp.s. c 5.

82.63.005 Findings—Intent to create a contract. The legislature finds that high-wage, high-skilled jobs are vital to the economic health of the state's citizens, and that targeted tax incentives will encourage the formation of high-wage, high-skilled jobs. The legislature also finds that tax incentives should be subject to the same rigorous requirements for efficiency and accountability as are other expenditure programs, and that tax incentives should therefore be focused to provide the greatest possible return on the state's investment.

The legislature also finds that high-technology businesses are a vital and growing source of high-wage, high-skilled jobs in this state, and that the high-technology sector is a key component of the state's effort to encourage economic diversification. However, the legislature finds that many high-technology businesses incur significant costs associated with research and development and pilot scale manufacturing many years before a marketable product can be produced, and that current state tax policy discourages the growth of these companies by taxing them long before they become profitable.

The legislature further finds that stimulating growth of high-technology businesses early in their development cycle, when they are turning ideas into marketable products, will build upon the state's established high-technology base, creating additional research and development jobs and subsequent manufacturing facilities.

For these reasons, the legislature hereby establishes a program of business and occupation tax credits for qualified research and development expenditures. The legislature also hereby establishes a tax deferral program for high-technology research and development and pilot scale manufacturing fa-

ilities. The legislature declares that these limited programs serve the vital public purpose of creating employment opportunities in this state. The legislature further declares its intent to create a contract within the meaning of Article I, section 23 of the state Constitution as to those businesses that make capital investments in consideration of the tax deferral program established in this chapter. [1994 sp.s. c 5 § 1.]

82.63.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Advanced computing" means technologies used in the designing and developing of computing hardware and software, including innovations in designing the full spectrum of hardware from hand-held calculators to super computers, and peripheral equipment.

(2) "Advanced materials" means materials with engineered properties created through the development of specialized processing and synthesis technology, including ceramics, high value-added metals, electronic materials, composites, polymers, and biomaterials.

(3) "Applicant" means a person applying for a tax deferral under this chapter.

(4) "Biotechnology" means the application of technologies, such as recombinant DNA techniques, biochemistry, molecular and cellular biology, genetics and genetic engineering, cell fusion techniques, and new bioprocesses, using living organisms, or parts of organisms, to produce or modify products, to improve plants or animals, to develop microorganisms for specific uses, to identify targets for small molecule pharmaceutical development, or to transform biological systems into useful processes and products or to develop microorganisms for specific uses.

(5) "Department" means the department of revenue.

(6) "Electronic device technology" means technologies involving microelectronics; semiconductors; electronic equipment and instrumentation; radio frequency, microwave, and millimeter electronics; optical and optic-electrical devices; and data and digital communications and imaging devices.

(7) "Eligible investment project" means an investment project which either initiates a new operation, or expands or diversifies a current operation by expanding, renovating, or equipping an existing facility. The lessor or owner of the qualified building is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(8) "Environmental technology" means assessment and prevention of threats or damage to human health or the environment, environmental cleanup, and the development of alternative energy sources.

(9) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction or improvement of the project.

(10) "Person" has the meaning given in RCW 82.04.030.

(11) "Pilot scale manufacturing" means design, construction, and testing of preproduction prototypes and models in the fields of biotechnology, advanced computing, electronic device technology, advanced materials, and environmental technology other than for commercial sale. (12) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for pilot scale manufacturing or qualified research and development, including plant offices and other facilities that are an essential or an integral part of a structure used for pilot scale manufacturing or qualified research and development. If a building is used partly for pilot scale manufacturing or qualified research and development, and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under rules adopted by the department.

(13) "Qualified machinery and equipment" means fixtures, equipment, and support facilities that are an integral and necessary part of a pilot scale manufacturing or qualified research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment, instrumentation, and other devices used in a process of experimentation to develop a new or improved pilot model, plant process, product, formula, invention, or similar property; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; vats, tanks, and fermenters; operating structures; and all other equipment used to control, monitor, or operate the machinery. For purposes of this chapter, qualified machinery and equipment must be either new to the taxing jurisdiction of the state or new to the certificate holder, except that used machinery and equipment may be treated as qualified machinery and equipment if the certificate holder either brings the machinery and equipment into Washington or makes a retail purchase of the machinery and equipment in Washington or elsewhere.

(14) "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(15) "Recipient" means a person receiving a tax deferral under this chapter.

(16) "Research and development" means activities performed to discover technological information, and technical and nonroutine activities concerned with translating technological information into new or improved products, processes, techniques, formulas, inventions, or software. The term includes exploration of a new use for an existing drug, device, or biological product if the new use requires separate licensing by the federal food and drug administration under chapter 21, C.F.R., as amended. The term does not include adaptation or duplication of existing products where the products are not substantially improved by application of the technology, nor does the term include surveys and studies, social science and humanities research, market research or testing, quality control, sale promotion and service, computer

software developed for internal use, and research in areas such as improved style, taste, and seasonal design. [1995 1st sp.s. c 3 § 12; 1994 sp.s. c 5 § 3.]

Findings—Effective date—1995 1st sp.s. c 3: See notes following RCW 82.08.02565.

82.63.020 Application—Assessment reports.

Application for deferral of taxes under this chapter must be made before initiation of construction of, or acquisition of equipment or machinery for the investment project. The application shall be made to the department in a form and manner prescribed by the department. The department shall prepare reports on each assessment and deliver their reports by September 1, 1997, September 1, 2000, and September 1, 2003. The assessments shall measure the effect of the program on job creation, the number of jobs created for Washington residents, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects. (3) This section shall expire July 1, 2004. [1994 sp.s. c 5 § 5.]

82.63.045 Repayment not required—Repayment schedule for unqualified investment project—Exceptions.

(1) Except as provided in subsection (2) of this section, taxes deferred under this chapter need not be repaid.

(2) If, on the basis of a report under RCW 82.63.020 or other information, the department finds that an investment project is used for purposes other than qualified research and development or pilot scale manufacturing at any time during the calendar year in which the investment project is certified by the department as having been operationally completed, or at any time during any of the seven succeeding calendar years, a portion of deferred taxes shall be immediately due according to the following schedule:

Year in which use occurs	% of deferred taxes due
1	100%
2	87.5%
3	75%
4	62.5%
5	50%
6	37.5%
7	25%
8	12.5%

The department shall assess interest at the rate provided for delinquent taxes, but not penalties, retroactively to the date of deferral.

(3) Notwithstanding subsection (2) of this section, deferred taxes on the following need not be repaid:

The city or county may provide that:

(a) The tax is paid by the operator or owner of the motor vehicle;

(b) The tax applies to all parking for which a fee is paid, whether paid or leased, including parking supplied with a lease of nonresidential space;

(c) The tax is collected by the operator of the facility and remitted to the city or county;

(d) The tax is a fee per vehicle or is measured by the parking charge;

(e) The tax rate varies with zoning or location of the facility, the duration of the parking, the time of entry or exit, the type or use of the vehicle, or other reasonable factors; and

(f) Tax exempt carpools, vehicles with handicapped decals, or government vehicles are exempt from the tax.

(3) "Commercial parking business" as used in this section, means the ownership, lease, operation, or management of a commercial parking lot in which fees are charged. "Commercial parking lot" means a covered or uncovered area with stalls for the purpose of parking motor vehicles.

(4) The rate of the tax under subsection (1) of this section may be based either upon gross proceeds or the number of vehicle stalls available for commercial parking use. The rates charged must be uniform for the same class or type of commercial parking business.

(5) The county or city levying the tax provided for in subsection (1) or (2) of this section may provide for its payment on a monthly, quarterly, or annual basis. Each local government may develop by ordinance or resolution rules for administering the tax, including provisions for reporting by commercial parking businesses, collection, and enforcement.

(6) The proceeds of the commercial parking tax fixed and imposed under subsection (1) or (2) of this section shall be used strictly for transportation purposes in accordance with RCW 82.80.070. [1990 c 42 § 208.]

82.80.040 Street utility—Establishment. A city or town may elect by action of its legislative authority to own, construct, maintain, operate, and preserve all or any described portion of its streets as a separate enterprise and facility, known as a street utility, and from time to time add other existing or new streets to that street utility, with full power to own, construct, maintain, operate, and preserve such streets. The legislative authority of the city or town may include as a part of the street utility, street lighting, traffic control devices, sidewalks, curbs, gutters, parking facilities, and drainage facilities. The legislative authority of the city or town is the governing body of the street utility. [1991 c 141 § 1. Prior: 1990 c 42 § 209.]

82.80.050 Street utility—Charges, credits. A city or town electing to own, construct, maintain, operate, and preserve its streets as a separate street utility may levy periodic charges for the use or availability of the streets in a total annual amount of up to fifty percent of the actual costs for maintenance, operation, and preservation of facilities under the jurisdiction of the street utility. The rates charged for the use must be uniform for the same class of service and all business and residential properties must be subject to the utility charge. Charges imposed on businesses shall be measured solely by the number of employees and shall not exceed the equivalent of two dollars per full-time equivalent employee per month. Charges imposed against owners or occupants of residential property shall not exceed two dollars per month per housing unit as defined in RCW 35.95.040. Charges authorized in this section shall not be imposed against owners of property: (1) Exempt under RCW 84.36.010; (2) exempt from the leasehold tax under chapter 82.29A RCW; or (3) used for nonprofit or sectarian purposes, which if said property were owned by such organization would qualify for exemption under chapter 84.36 RCW. The charges shall not be computed on the basis of an ad valorem charge on the underlying real property and improvements. This section shall not be used as a basis to directly or indirectly charge transportation impact fees or mitigation fees of any kind against new development. A city or town may contract with any other utility or local government to provide for billing and collection of the street utility charges.

In classifying service furnished within the general categories of business and residential, the city or town legislative authority may in its discretion consider any or all of the following factors: The difference in cost of service to the various users or traffic generators; location of the various users or traffic generators within the city or town; the difference in cost of maintenance, operation, construction, repair, and replacement of the various parts of the enterprise and facility; the different character of the service furnished to various users or traffic generators within the city or town; the size and quality of the street service furnished; the time of use or traffic generation; capital contributions made to the facility including but not limited to special assessments; and any other matters that present a reasonable difference as a ground for distinction, or the entire category of business or residential may be established as a single class. The city or town may reduce or exempt charges on residential properties to the extent of their occupancy by low-income senior citizens and low-income disabled citizens as provided in RCW 74.38.070(1), or to the extent of their occupancy by the needy or infirm.

The charges shall be charges against the property and the use thereof and shall become liens and be enforced in the same manner as rates and charges for the use of systems of sewerage under chapter 35.67 RCW.

Any city or town ordinance or resolution creating a street utility must contain a provision granting to any business a credit against any street utility charge the full amount of any commuter or employer tax paid for transportation purposes by that business. [1991 c 141 § 2. Prior: 1990 c 42 § 210.]

82.80.060 Use of other proceeds by utility. The city or town electing to own, construct, maintain, operate, and preserve its streets and related facilities as a utility under this chapter may finance the construction, operation, maintenance, and preservation through local improvement districts, utility local improvement districts, or with proceeds from general obligation bonds and revenue bonds payable from the charges issued in accordance with chapter 35.41, 35.92, or 39.46 RCW, or any combination thereof. The city or town may use, in addition to the charges authorized by RCW 82.80.050, funds from general taxation, money received from the federal, state, or other local governments, and other funds made available to it. The proceeds of the charges authorized by RCW 82.80.050 shall be used strictly for transportation purposes in accordance with this chapter and RCW 82.80.070. [1991 c 141 § 3. Prior: 1990 c 42 § 211.]

82.80.070 Use of revenues. (1) The proceeds collected pursuant to the exercise of the local option authority of RCW 82.80.010, 82.80.020, 82.80.030, and 82.80.050 (hereafter called "local option transportation revenues") shall be used for transportation purposes only, including but not limited to the following: The operation and preservation of roads, streets, and other transportation improvements; new construction, reconstruction, and expansion of city streets, county roads, and state highways and other transportation improvements; development and implementation of public transportation and high-capacity transit improvements and programs; and planning, design, and acquisition of right of way and sites for such transportation purposes. The proceeds collected from excise taxes on the sale, distribution, or use of motor vehicle fuel and special fuel under RCW 82.80.010 shall be used exclusively for "highway purposes" as that term is construed in Article II, section 40 of the state Constitution.

(2) The local option transportation revenues shall be expended for transportation uses consistent with the adopted transportation and land use plans of the jurisdiction expending the funds and consistent with any applicable and adopted regional transportation plan for metropolitan planning areas.

(3) Each local government with a population greater than eight thousand that levies or expends local option transportation funds, is also required to develop and adopt a specific transportation program that contains the following elements:

(a) The program shall identify the geographic boundaries of the entire area or areas within which local option transportation revenues will be levied and expended.

(b) The program shall be based on an adopted transportation plan for the geographic areas covered and shall identify the proposed operation and construction of transportation improvements and services in the designated plan area intended to be funded in whole or in part by local option transportation revenues and shall identify the annual costs applicable to the program.

(c) The program shall indicate how the local transportation plan is coordinated with applicable transportation plans for the region and for adjacent jurisdictions.

(d) The program shall include at least a six-year funding plan, updated annually, identifying the specific public and

private sources and amounts of revenue necessary to fund the program. The program shall include a proposed schedule for construction of projects and expenditure of revenues. The funding plan shall consider the additional local tax revenue estimated to be generated by new development within the plan area if all or a portion of the additional revenue is proposed to be earmarked as future appropriations for transportation improvements in the program.

(4) Local governments with a population greater than eight thousand exercising the authority for local option transportation funds shall periodically review and update their transportation program to ensure that it is consistent with applicable local and regional transportation and land use plans and within the means of estimated public and private revenue available.

(5) In the case of expenditure for new or expanded transportation facilities, improvements, and services, priorities in the use of local option transportation revenues shall be identified in the transportation program and expenditures shall be made based upon the following criteria, which are stated in descending order of weight to be attributed:

(a) First, the project serves a multijurisdictional function;

(b) Second, it is necessitated by existing or reasonably foreseeable congestion;

(c) Third, it has the greatest person-carrying capacity;

(d) Fourth, it is partially funded by other government funds, such as from the state transportation improvement board, or by private sector contributions, such as those from the local transportation act, chapter 39.92 RCW; and

(e) Fifth, it meets such other criteria as the local government determines is appropriate.

(6) It is the intent of the legislature that as a condition of levying, receiving, and expending local option transportation revenues, no local government agency use the revenues to replace, divert, or loan any revenues currently being used for transportation purposes to nontransportation purposes. The association of Washington cities and the Washington state association of counties, in consultation with the legislative transportation committee, shall study the issue of nondiversion and make recommendations to the legislative transportation committee for language implementing the intent of this section by December 1, 1990.

(7) Local governments are encouraged to enter into interlocal agreements to jointly develop and adopt with other local governments the transportation programs required by this section for the purpose of accomplishing regional transportation planning and development.

(8) Local governments may use all or a part of the local option transportation revenues for the amortization of local government general obligation and revenue bonds issued for transportation purposes consistent with the requirements of this section. [1991 c 141 § 4. Prior: 1990 c 42 § 212.]

82.80.080 Distribution of taxes. The state treasurer shall distribute revenues, less authorized deductions, generated by the local option taxes authorized in RCW 82.80.010 and 82.80.020, levied by counties to the levying counties, and cities contained in those counties, based on the relative per capita population. County population for purposes of this section is equal to one and one-half of the unincorporated

ed population of the county. In calculating the distributions, the state treasurer shall use the population estimates prepared by the state office of financial management and shall further calculate the distribution based on information supplied by the departments of licensing and revenue, as appropriate. [1990 c 42 § 213.]

82.80.090 Referendum. A referendum petition to repeal a county or city ordinance imposing a tax or fee authorized under RCW 82.80.020 and 82.80.030 must be filed with a filing officer, as identified in the ordinance, within seven days of passage of the ordinance. Within ten days, the filing officer shall confer with the petitioner concerning form and style of the petition, issue an identification number for the petition, and write a ballot title for the measure. The ballot title shall be posed as a question so that an affirmative answer to the question and an affirmative vote on the measure results in the tax or fee being imposed and a negative answer to the question and a negative vote on the measure results in the tax or fee not being imposed. The petitioner shall be notified of the identification number and ballot title within this ten-day period.

After this notification, the petitioner has thirty days in which to secure on petition forms the signatures of not less than fifteen percent of the registered voters of the county for county measures, or not less than fifteen percent of the registered voters of the city for city measures, and to file the signed petitions with the filing officer. Each petition form must contain the ballot title and the full text of the measure to be referred. The filing officer shall verify the sufficiency of the signatures on the petitions. If sufficient valid signatures are properly submitted, the filing officer shall submit the referendum measure to the county or city voters at a general or special election held on one of the dates provided in RCW 29.13.010 as determined by the county or city legislative authority, which election shall not take place later than one hundred twenty days after the signed petition has been filed with the filing officer.

The referendum procedure provided in this section is the exclusive method for subjecting any county or city ordinance imposing a tax or fee under RCW 82.80.020 and 82.80.030 to a referendum vote. [1990 c 42 § 214.]
