## **REQUEST FOR PROPOSALS OCEAN-GOING VESSEL SHORE POWER**

### **I. BACKGROUND**

The California Air Resources Board (CARB) regulates at-berth emissions for certain ocean-going vessels while docked at identified Ports. The goal of the regulations is to reduce green-house gas (GHG) and particulate emissions by providing electric shore power to vessels while docked. Roughly 90% of ocean-going shippers bound for the west coast of the US dock in California. Much of the remaining 10% use Washington's ports.

In 2024 the Legislature directed the Joint Transportation Committee (JTC) to hire a consultant to study the impacts of implementing regulations modeled on California's at-berth regulations in Washington. This study requires identifying statutory, regulatory, and infrastructure changes necessary to implement the program. The study must include projected emission reductions in green-house gases (GHG). It must also identify potential impacts to labor, shipping costs, and port competitiveness. Finally, the study requires identification of infrastructure needs and costs to implement shore power in Washington.

As part of the analysis the successful Consultant team is required to coordinate with Washington's Department of Ecology and Department of Transportation as well as representatives from Washington ports, shippers, utilities, trucking industry, impacted labor unions and environmental organizations.

The project will be delivered in two (2) phases:

- Phase I: the successful Consultant will identify how the California shore power regulations could be applied to Washington. Phase I also includes analysis of projected reductions in GHG emissions and particulate air pollution. A report on the findings in Phase I is due by June 30, 2025.
- Phase II: builds on the work of Phase I by analyzing the infrastructure needed to implement the California standards in Washington and working with potentially impacted shippers, ports, and labor groups to identify the impacts of the California standards on these specified groups. Phase II findings and a final report to the Legislature on Phases I and II are due by December 31, 2025.

## **II. SCOPE OF WORK**

**Purpose:** The purpose of this project is to study the impacts of Washington adapting California's emissions standards for ocean-going vessels in titles 13 and 17 of the California Code of Regulations for use in Washington.

### **Staff Technical team**

A Staff Technical Team (STT) will work with the Consultant. Participants of the STT should include staff from the:

- JTC
- House and Senate Transportation Committees,
- The Department of Ecology
- Representatives of the following entities:
  - Washington ports
  - Shippers serving Washington ports
  - Utilities potentially supplying shore power
  - Washington's trucking industry
  - Potentially impacted labor unions
  - Environmental organizations
- Others as deemed appropriate by the JTC

The Consultant will work with the Staff Technical Team throughout the study, soliciting input, presenting draft materials before they are shared publicly, and reviewing findings, recommendations, and draft reports.

## **III. TASKS TO BE COMPLETED IN STUDY**

The tasks described below are based on the [study proviso](#) included in the 2024 Supplemental Transportation Budget. The description of the tasks is not intended to fully encompass the study tasks, but instead provides the Consultant with a potential framework for the study.

**Consultants are encouraged to recommend additions and/or alternatives to better accomplish the study's stated objectives.**

**PHASE I:** Note: Because the project schedule crosses biennium lines, Phase II of the project is dependent on reauthorization of the study to continue into the 2025-27 biennium. That decision will be made by the Legislature as it works on the new transportation budget during the 2025 legislative session.

### **Task 1: IDENTIFY SCOPE OF APPLYING CALIFORNIA REGULATORY STANDARDS IN WASHINGTON.**

For Task 1 the Consultant will familiarize themselves with and present to the Technical Team on the scope of the potential application of the California Standards in Washington, including potential modifications. This includes but is not limited to:

- Analysis of requirements of California's regulatory framework
- Identification of potential modifications necessary for the standards to work in Washington
- Compliance with Federal Requirements

- Identification of potentially affected ports, vessel traffic (including shippers), labor groups, and utilities
- Analysis of ocean-going vessel traffic to Washington, including an analysis of whether the first U.S. Port of call is in Washington or another state, and a comparison of Washington’s vessel traffic with California’s. This will include but not be limited to: identification of destination, frequency, and duration of docking of different classifications of ocean-going vessels at potentially affected ports. The Consultant will use the ocean-going vessel classification system used in the California Code of Regulations.
- Resources needed by regulatory entity to adopt and implement California standards.

Deliverable: Draft report chapter

## **Task 2: EMISSION REDUCTIONS**

For Task 2 the Consultant will utilize the potentially covered ocean-going vessel traffic identified in Task 1 to estimate emission reductions for GHG and particulate air pollution if Washington adopted California’s shore power regulations. This should include emission reduction estimates for various vessel traffic regulatory thresholds.

Deliverable: Draft report chapter

## **PHASE II:**

Because the project schedule crosses biennial periods, Phase II of the project is dependent on reauthorization of the study to continue into the 2025-27 biennium. That decision will be made by the Washington State Legislature as it works on the new transportation budget during the 2025 legislative session.

## **Task 3: IDENTIFY INFRASTRUCTURE NEEDS AND COSTS AT POTENTIALLY AFFECTED PORTS**

For Task 3 the Consultant will identify infrastructure needs and costs at potentially affected ports. This will include but not be limited to:

- Identify needed infrastructure enhancements at potentially covered ports
- Identifying number of berths potentially effected
- Cost of infrastructure enhancements per berth, recognizing this may be different at different ports or different berths within the same port
- Costs of other landside infrastructure enhancements

Deliverable: Draft report chapter

## **Task 4: IDENTIFY AND QUANTIFY POTENTIAL IMPACTS ON LABOR COSTS, SHIPPING COSTS, AND PORT COMPETITIVENESS**

For Task 4 the Consultant will identify the potential impacts to labor, shippers, and ports if the California Regulations were adopted in Washington. The Consultant will then build on that information to identify the potential costs of those impacts, including any benefits or risks related to competitiveness of Washington ports.

Deliverable: Draft report chapter

## **Task 5: COORDINATE WITH STAFF TECHNICAL TEAM (STT)**

The Consultant will work with a STT throughout the study, soliciting input, presenting draft materials before they are shared publicly, and reviewing findings and draft reports.

STT membership is identified above under the scope of work section. JTC staff will provide contact information for Technical Team members. The Consultant will be responsible for convening the STT after initial JTC contact. The Consultant should generally expect to provide copies of all materials needed for meetings with the STT.

Though the Consultant should strive to incorporate input from the STT, the final estimates and impacts in the study report will be determined by the Consultant.

### **Task 6: Presentations**

The Consultant will attend and provide study updates at the following meetings:

- June 2025 JTC meeting in Olympia to provide a study overview and report on Phase I findings to the full JTC
- December 2025 JTC meeting in Olympia to present the findings and recommendations from the Draft Final Report
- Potential of one presentation each to the House and Senate Transportation Committees during the 2026 legislative session, at the Committees' discretion. These two presentations would likely occur on the same day in January or February 2026. The Consultant would provide an overview of the study findings and recommendations.

### **Task 7: Draft and Final Reports**

The Consultant will prepare draft reports in phases for the study that includes an Executive Summary highlighting study findings as well as the deliverables described above in Tasks 1-4.

#### **Phase I:**

The Consultant must deliver the draft report on Phase I to the JTC Project Manager by May 15, 2025. Staff Technical Team comments and suggestions must be considered for incorporation into the draft final Phase I report and delivered to the JTC by June 13, 2025.

#### **Phase II:**

The Consultant must deliver the draft report on Phase II to the JTC Project Manager by November 15, 2025. STT comments and suggestions must be considered for incorporation into the draft final report and delivered to the JTC by December 5, 2025. The final report on both Phases I and II is due to the House and Senate Transportation Committees by December 31, 2025.

The Consultant shall work with the JTC Project Manager on review of the draft reports and incorporate any needed changes.

Deliverable: Draft and final reports

**13. LIMITATION OF AUTHORITY** -- Only the JTC shall have the express, implied, or apparent authority to alter, amend, modify or waive any clause or condition of this contract. Furthermore, any alteration, amendment, modification, or waiver of any clause or condition of this contract is not effective or binding unless made in writing and signed by the JTC.

**14. NONASSIGNABILITY** -- Neither this contract, nor any claim arising under this contract, shall be transferred or assigned by the Contractor.

**15. NONDISCRIMINATION** -- During the performance of this contract, the Contractor shall comply with all federal and state nondiscrimination laws, regulations, and policies.

**16. NONCOMPLIANCE WITH NONDISCRIMINATION LAWS** -- In the event of the Contractor's noncompliance or refusal to comply with any nondiscrimination law, regulation, or policy, this contract may be rescinded, canceled, or terminated in whole or in part, and the Contractor may be declared ineligible for further contracts with JTC. The Contractor shall, however, be given a reasonable time in which to cure this noncompliance. Any dispute may be resolved in accordance with the "Disputes" procedure set forth herein.

**17. PAYMENT OF TAXES** -- Contractor shall pay all applicable taxes assessed on the compensation received under this contract and shall identify and pay those taxes under Contractor's federal and state identification number(s).

**18. PUBLICITY** -- The Contractor agrees not to publish or use any advertising or publicity materials in which the state of Washington or JTC's name is mentioned, or language used from which the connection with the state of Washington's or JTC's name may reasonably be inferred or implied, without the prior written consent of JTC.

**19. RECORDS, DOCUMENTS AND REPORTS** -- The Contractor shall maintain books, records, documents, data and other evidence of accounting procedures and practices which sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this contract. These records shall be subject at all reasonable times to inspection, review, or audit by personnel duly authorized by the JTC, State Auditor or state or federal officials so authorized by law, regulation, or contract. The Contractor will retain all books, records, documents, and other materials relevant to this contract for six (6) years after the date of final payment and make them available for inspection by persons authorized under this provision.

If any litigation, claim or audit is started before the expiration of the six (6) year period, the records shall be retained until all litigation claims, or audit findings involving the records have been resolved.

**20. REGISTRATION WITH DEPARTMENT OF REVENUE** -- The Contractor shall complete registration with the Department of Revenue, <http://dor.wa.gov/Content/Home/Default.aspx>, and be responsible for payment of all taxes due on payments made under this contract.

**21. RIGHT OF INSPECTION** -- The Contractor shall provide right of access to its facilities to the JTC, or any of its officers, or to any other authorized agent or official of the state of Washington or the federal government at all reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance under this contract.

**22. RIGHTS IN DATA** -- Unless otherwise provided, data which originates from this contract shall be "works for hire" as defined by the U.S. Copyright Act and shall be owned by JTC. Data shall include, but not be limited to: working papers, reports, documents, pamphlets, advertisements, books, magazines, surveys, studies, computer programs, films, tapes, and/or sound reproductions. Ownership includes the right to copyright, patent, register, and the ability to transfer these rights.

Data which is delivered under the contract, but which does not originate therefrom shall be transferred to JTC with a nonexclusive, royalty-free, irrevocable license to publish, translate, reproduce, deliver, perform, dispose of, and to authorize others to do so; *provided*, that such license shall be limited to the extent which the Contractor has a right to grant such a license. The Contractor shall exert all reasonable effort to advise JTC, at the time of delivery of data furnished under this contract, of all known or potential invasions of privacy contained therein and of any portion of such document which was not produced in the performance of this contract. JTC shall receive prompt written notice of each notice of claim of copyright infringement received by the Contractor with respect to any data delivered under this contract. JTC shall have the right to modify or remove any restrictive markings placed upon the data by the Contractor.

**23. SAFEGUARDING OF INFORMATION** -- The use or disclosure by any party of any information concerning JTC for any purpose not directly connected with the administration of JTC or the Contractor's responsibilities with respect to services provided under this contract is prohibited except by written consent of the JTC.

**24. SAVINGS** -- In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date of this contract and prior to normal completion, JTC may terminate the contract under the "Termination for Convenience" clause, without the five-day notice requirement, subject to renegotiation under those new funding limitations and conditions.

**25. SCOPE OF CONTRACT** -- This contract and the attachments incorporate all the contracts, covenants, and understandings between the parties concerning the subject matter, and all such covenants, agreements, and understandings have been merged into this contract. No prior contract or understandings, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this contract.

**26. SEVERABILITY** -- The provisions of this contract are intended to be severable. If any term or provision is illegal or invalid for any reason whatsoever, such illegality or invalidity shall not affect the validity of the remainder of the contract.

**27. SUBCONTRACTING** -- Neither the Contractor nor any Subcontractor shall enter into subcontracts for any of the work contemplated under this contract without obtaining prior written approval of the JTC.

**28. TERMINATION FOR CAUSE** -- In the event the JTC determines the Contractor has failed to comply with the conditions of this contract in a timely manner, the JTC has the right to suspend or terminate this contract. In such event the Contractor shall be liable for damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, e.g., cost of the mailing, advertising, and staff time.

A termination shall be deemed a "Terminate for Convenience" if it is determined that the Contractor (i) was not in default, or (ii) failure to perform was outside of his or her control, fault or negligence.

**29. TERMINATION FOR CONVENIENCE** -- Except as otherwise provided in this contract, the JTC may, by five (5) days written notice, beginning on the second day after the mailing, terminate this contract in whole or in part when it is in the best interests of JTC. If this contract is so terminated, JTC shall be liable only for payment in accordance with the terms of this contract for services rendered prior to the effective date of termination.

**30. TERMINATION PROCEDURE** -- Upon termination of this contract, JTC, in addition to any other rights provided in this contract, may require the Contractor to deliver to JTC any property specifically

produced or acquired for the performance of such part of this contract as has been terminated. The provisions of the "Treatment of Assets" clause shall apply in such property transfer.

JTC shall pay to the Contractor the agreed upon price, if separately stated, for completed work and services accepted by JTC, and the amount agreed upon by the Contractor and JTC for (i) completed work and services for which no separate price is stated, (ii) partially completed work and services, (iii) other property or services which are accepted by JTC, and (iv) the protection and preservation of property, unless the termination is for default, in which case the JTC shall determine the extent of the liability of JTC. Failure to agree with such determination shall be a dispute within the meaning of the "Disputes" clause of this contract. JTC may withhold from any amounts due the Contractor such sum as the JTC determines to be necessary to protect JTC against potential loss or liability.

The rights and remedies of JTC provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

After receipt of a notice of termination, and except as otherwise directed by the JTC, the Contractor shall:

1. Stop work under the contract on the date, and to the extent specified, in the notice;
2. Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portion of the work under the contract as is not terminated;
3. Assign to JTC, in the manner, at the times, and to the extent directed by the JTC, all of the rights, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case JTC has the right, at its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;
4. Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the JTC to the extent the JTC may require, which approval or ratification shall be final for all the purposes of this clause;
5. Transfer title to JTC and deliver in the manner, at the times, and to the extent directed by the JTC any property which, if the contract has been completed, would have been required to be furnished to JTC;
6. Complete performance of such part of the work as shall not have been terminated by the JTC; and
7. Take such action as may be necessary, or as the JTC may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which JTC has or may acquire an interest.

**31. WAIVER OF DEFAULT** -- Waiver of any default shall not be deemed to be a waiver of any subsequent default. Waiver of breach of any provision of the contract shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of the contract unless stated to be such in writing, signed by the JTC and attached to the original contract.
