Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.150.390 and 2023 c 417 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW 28A.150.260 (4) (a), (5), (6), and (8) and 28A.150.415.

(2) The excess cost allocation to school districts shall be based on the following:

(a) A district's annual average head count enrollment of students ages three and four and those five year olds not yet enrolled in kindergarten who are eligible for and receiving special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.2;

(b) (i) Subject to the limitation in (b) (ii) of this subsection (2) and subject to adjustments under section 2 of this act, a district's annual average enrollment of resident students who are eligible for and receiving special education, excluding students ages three and four and those five year olds not yet enrolled in kindergarten, multiplied by the district's base allocation per full-time equivalent student, multiplied by the special education cost multiplier rate of:

(A) ~~((Beginning in the 2020-21 school year, either:~~

~~(I) 1.0075 for students eligible for and receiving special education and reported to be in the general education setting for 80 percent or more of the school day; or~~

~~(II) 0.995 for students eligible for and receiving special education and reported to be in the general education setting for less than 80 percent of the school day;~~

~~(B) Beginning in the 2023-24 school year, either:~~

~~(I)) 1.12 for students eligible for and receiving special education and reported to be in the general education setting for 80 percent or more of the school day; or~~

~~((II)) (B) 1.06 for students eligible for and receiving special education and reported to be in the general education setting for less than 80 percent of the school day.~~

(ii) ~~((If)) (A) Except as provided in (b) (ii) (B) of this subsection, if the enrollment percent exceeds ((15 percent)) the funded enrollment limit, the excess cost allocation calculated under (b) (i) of this subsection must be adjusted by multiplying the allocation by ((15 percent)) the funded enrollment limit divided by the enrollment percent.~~

(B) School districts with fewer than 2,500 full-time equivalent students, school districts that received safety net awards under RCW 28A.150.392(2)(f) in the prior school year, and school districts where at least 10 percent of enrollment is identified as having a military parent are not subject to a funded enrollment limit.

(3) As used in this section:

(a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (4)(a), (5), (6), and (8) and the allocation under RCW 28A.150.415, to be divided by the district's full-time equivalent enrollment.

(b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.

(c) "Enrollment percent" means the district's resident annual average enrollment of students who are eligible for and receiving special education, excluding students ages three and four and those five year olds not yet enrolled in kindergarten and students enrolled in institutional education programs, as a percent of the district's annual average full-time equivalent basic education enrollment.

(d) "Funded enrollment limit" means:

(i) In the 2023-24 school year, 15 percent;

(ii) In the 2024-25 school year, 15.5 percent;

(iii) In the 2025-26 and 2026-27 school years, 16 percent; and

(iv) Beginning in the 2027-28 school year, all students eligible for and receiving special education must generate excess cost allocations under this section.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.155 RCW to read as follows:

(1)(a) As part of its monitoring of special education programs, the office of the superintendent of public instruction must determine whether school districts and charter schools are overidentifying students as eligible for special education or overproviding special education services to students beyond what is required by their individualized education programs.

(b) If a school district or charter school is determined to be overidentifying students as eligible for special education or overproviding special education services to students beyond what is required by their individualized education programs, then the office of the superintendent of public instruction must intervene and establish a corrective action plan with the school district or charter school.

(c) The office of the superintendent of public instruction must communicate any determination resulting in a corrective action plan under this subsection to the state auditor.

(2) In the school year following a determination resulting in a corrective action under subsection (1) of this section, the state auditor must audit for compliance with the corrective action plan and part B of the federal individuals with disabilities education act a school district or charter school with an enrollment percent for special education that exceeds 16 percent.

The state auditor must report the audit findings to the office of the superintendent of public instruction.

(3) If the state auditor finds that a school district or charter school audited as required by subsection (2) of this section has not timely implemented corrective actions identified by the office of the superintendent of public instruction, the office of the superintendent of public instruction must adjust the excess cost allocation calculated under RCW 28A.150.390(2)(b)(i) by multiplying the allocation by 16 percent divided by the enrollment percent of the school district or charter school if the enrollment percent exceeds 16 percent.

(4) As used in this section, "enrollment percent" has the same meaning as in RCW 28A.150.390."

Representative Duerr moved the adoption of the striking amendment (1066):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that:

(1) Washington state, through its extensive purchasing power, can reduce embodied carbon in the built environment, improve human and environmental health, grow economic competitiveness, and promote high labor standards in manufacturing by incorporating climate and other types of pollution impacts and the quality of working conditions into the procurement process.

(2) Washington state is home to multiple world-class manufacturers that are investing heavily in reducing the carbon intensity of their products and that provide family-wage jobs that are the foundation for a fair and robust economy. Washington's procurement practices should encourage manufacturers and others to meet high environmental and labor standards and reduce their environmental footprint.

(3) The private sector is increasingly demanding low carbon building materials that support good jobs in manufacturing. This market demand has rapidly accelerated innovation and led to increased production of low carbon building materials. As one of the largest consumers of building materials, Washington state has an opportunity to leverage its purchasing power to do even more to send a clear signal to the market of the growing demand for low carbon building materials.

(4) With its low carbon electric grid and highly skilled workforce, Washington state is well-positioned to capture the growing demand for low carbon building materials and create and sustain a new generation of good, high-wage clean manufacturing jobs.

(5) Washington has demonstrated a deep commitment to ensuring that the transition to a low carbon economy is fair and creates family-wage jobs. Both the clean energy transformation act and the climate commitment act tie public investments in infrastructure to reducing greenhouse gas emissions and to high road construction labor standards. Integrating manufacturing working conditions into the procurement process reaffirms and is consistent with the state's commitment to a fair transition.

(6) A robust state and domestic supply of low carbon materials is critical for building a fair economy and meeting the needs of the low carbon transition, including securing the clean energy supply chain.

(7) Environmental product declarations are the best available tool for reporting product-specific environmental impacts using a life-cycle assessment and informing the procurement of low carbon building materials. Environmental product declarations cannot be used to compare products across different product categories or different functional units.

(8) The buy clean and buy fair policies established in this act are critical to reduce embodied carbon in the built environment, a goal identified by the Washington state 2021 energy strategy to meet the state's greenhouse gas emission limits, governor Inslee's Executive Order 20-01 on state efficiency and environmental performance, and the Pacific coast collaborative's pathbreaking low carbon construction task force.

(9) Reducing embodied carbon in the built environment requires a holistic, comprehensive approach that includes designing buildings with a lower-embodied carbon footprint and making lower carbon products. Policies like the buy clean and buy fair policies established in this act are an important tool for increasing the manufacture of lower carbon products.

(10) The 2021-2023 biennium budgets made critical progress on the buy clean and buy fair policies in this act by funding the creation of a publicly accessible database to facilitate reporting and promote transparency on building materials purchased for state-funded infrastructure projects and two large buy clean and buy fair pilot projects. This ongoing work to create a database to facilitate reporting of environmental impacts and labor conditions from pilot projects has provided a strong foundation to inform future work on buy clean and buy fair policies.

(11) Providing financial assistance to small manufacturers to support the production of environmental product declarations will help small manufacturers offset costs they might incur when pursuing state contracting as a result of the requirements of this act.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Actual production facilities" means the final manufacturing facility and the facilities at which production processes occur that contribute to 70 percent or more of the product's cradle-to-gate global warming potential, as reflected in the environmental product declaration.

(2) "Awarding authority" means:

(a) Institutions of higher education as defined in RCW 28B.92.030;

(b) The department of enterprise services, the department of natural resources, the state parks and recreation commission, the department of fish and wildlife, and the department of transportation; and

(c) Any other state government agency that receives funding from the omnibus capital appropriations act for a public works project contracted directly by the state agency.

(3) "Covered product" includes:

(a) Structural concrete products, including ready mix, shotcrete, precast, and concrete masonry units;

(b) Reinforcing steel products, specifically rebar and posttensioning tendons;

(c) Structural steel products, specifically hot rolled sections, hollow sections, metal deck, and plate; and

(d)(i) Engineered wood products, such as cross-laminated timber per ANSI form no. PRG 320, glulam beams, laminated veneer lumber, parallel strand lumber, dowel laminated timber, nail laminated timber, glulam laminated timber, prefabricated wood joists per ASTM D5055, wood structural panel per product standard 1 or product standard 2, solid sawn lumber per product standard 20, structural composite lumber per ASTM D5456, and structural sawn lumber.

(ii) For the purposes of this subsection (3)(d):

(A) "ANSI" means the American national standards institute.

(B) "ASTM" means the American society for testing and materials.

(C) "Product standard" means a voluntary product standard published by the United States department of commerce national institute of standards and technology.

(4) "Covered project" means:

(a) A construction project larger than 50,000 gross square feet as defined in the Washington state building code, chapter 51-50 WAC; or

(b) A building renovation project where the cost is greater than 50 percent of the assessed value and the project is larger than 50,000 gross square feet of occupied or conditioned space as defined in the Washington state building code, chapter 51-50 WAC.

(5) "Department" means the department of commerce.

(6) "Employee" means any individual who is in an employment relationship with the organization.

(7) (a) "Environmental product declaration" means a type III environmental product declaration, as defined by the international organization for standardization standard 14025 or similarly robust life-cycle assessment methods that have uniform standards in data collection consistent with the international organization for standardization standard 14025, industry acceptance, and integrity. When available, the environmental product declaration must be supply chain specific.

(b) For the purposes of this subsection, "supply chain specific" means an environmental product declaration that includes supply chain specific data for production processes that contribute 70 percent or more of a product's cradle-to-gate global warming potential, as defined in international organization for standardization standard 21930, and reports the overall percentage of supply chain specific data included.

(8) "Full time" means an employee in a position that:

(a) The employer intends to be filled for at least 52 consecutive weeks or 12 consecutive months, excluding any leaves of absence; and

(b) Requires the employee to work, excluding overtime hours, 35 hours per week for 52 consecutive weeks, 455 hours a quarter, or 1,820 hours during a period of 12 consecutive months.

(9) "Health product declaration" means a supply chain specific health product declaration, as defined by the health product declaration open standard maintained by the health product declaration collaborative, that has robust methods for product manufacturers and their ingredient suppliers to uniformly report and disclose information about product contents and associated health information.

(10) "Part time" means an employee in a position that:

(a) The employer intends to be filled for at least 52 consecutive weeks or 12 consecutive months, excluding any leaves of absence; and

(b) Working hours are less than those required for a full-time employee, as defined in this section.

(11) "Product and facility specific report" means an environmental product

declaration whereby the environmental impacts can be attributed to a single manufacturer and a specific manufacturing or production facility.

(12) (a) "Scope 2 greenhouse gas emissions" are indirect greenhouse gas emissions associated with the purchase of electricity, steam, heat, or cooling.

(b) For purposes of this section, "greenhouse gas" has the same meaning as in RCW 70A.45.010.

(13) "Supplier code of conduct" means a policy created by a manufacturer that outlines steps taken to ensure that its suppliers adhere to ethical practices, such as compliance with child and forced labor laws, antidiscrimination practices, freedom of association, and safe workplace conditions.

(14) "Temporary" means an employee in a position that is intended to be filled for a period of less than 52 consecutive weeks or 12 consecutive months. Positions in seasonal employment are temporary positions.

(15) "Total case incident rate" means the number of work-related injuries per 100 full-time workers during a one-year period, as defined by the occupational safety and health administration. Total case incident rate is calculated by multiplying the number of occupational safety and health administration recordable injuries and illnesses by 200,000 and dividing by number of hours worked by all employees.

(16) "Working conditions" means the average number of employees by employment type: Full time, part time, and temporary.

NEW SECTION. Sec. 3. (1) (a) Beginning July 1, 2025, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project larger than 100,000 gross square feet submit the following data for each covered product used before substantial completion, including at a minimum:

(b) Beginning July 1, 2027, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project submit the data required by (a) of this subsection for each covered product used before substantial completion.

(c) The selected firm for a contract for a covered project shall provide the data required by this subsection for at least 90 percent of the cost of each of the covered products used in the project.

(2) The selected firm for a contract for a covered project is required to collect and submit from product suppliers the information required in subsection (1) (a) (ii) through (vi) of this section. The

selected firm is not required to verify the information received from product suppliers.

(3)(a) Beginning July 1, 2025, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project larger than 100,000 gross square feet to ask their suppliers to report for each covered product used before substantial completion, including at a minimum:

(i) Names and locations, including state or province and country, of the actual production facilities; and

(ii) Working conditions at the actual production facilities for all employees, full-time employees, part-time employees, and temporary employees. In cases in which the supplier does not have this information, the selected firm for a contract for a covered project must ask suppliers to provide a report on steps taken to reasonably obtain the data and provide suppliers' self-reports to the awarding authority.

(b) Beginning July 1, 2027, an awarding authority must require in all newly executed construction contracts that the successful bidder for a construction contract for a covered project to meet the requirements of (a) of this subsection for each covered product used before substantial completion.

(c) The selected firm is not required to verify the information reported by product suppliers pursuant to this subsection.

(d) The selected firm for a contract for a covered project shall meet the requirement in (a) of this subsection for at least 90 percent of the cost of each of the covered products used in the project.

(4) If a supply chain specific environmental product declaration is not available, a product and facility specific report may be submitted.

(5) This section does not apply to a covered product for a particular covered project if the awarding authority determines, upon written justification provided to the department, that the requirements in this section would cause a significant delay in completion, significant increase in overall project cost, or result in only one product supplier being able to provide the covered product.

(6) An awarding authority must include the information and reporting requirements in this section in a specification for bids for a covered project.

(7) Subject to funds appropriated for this specific purpose, the department may provide financial assistance to small businesses, as defined in RCW 19.85.020, to help offset the costs to the small business of producing an environmental product declaration required under this section. Such financial assistance supports the production of environmental product declarations and achievement of reductions of embodied carbon in the built environment while ensuring that small manufacturers are not put at a competitive disadvantage in state contracting as a result of the requirements of this chapter.

(8) Compliance with the requirements in this section may not be used as a basis for a waiver from apprenticeship utilization

requirements in any other statute, rule, regulation, or law.

NEW SECTION. Sec. 4. By July 1, 2025, and to the extent practicable, specifications for a bid or proposal for a project contract by an awarding authority may only include performance-based specifications for concrete used as a structural material. Awarding authorities may continue to use prescriptive specifications on structural elements to support special designs and emerging technology implementation.

NEW SECTION. Sec. 5. (1) The department must continue to develop, maintain, and refine the publicly accessible database funded by the 2021-2023 omnibus operating appropriations act and created by the department in conjunction with the University of Washington college of built environments for selected firms for contracts for covered projects to submit the data required in section 3 of this act to the department and to promote transparency. The department may consult with the University of Washington college of built environments.

(2) The database maintained pursuant to subsection (1) of this section must publish global warming potential as reported in the environmental product declarations.

(3) By July 1, 2025, the department must:

(a) Further elaborate covered product definitions using applicable material industry standards;

(b) Develop measurement and reporting standards to ensure that data is consistent and comparable, including standards for reporting product quantities;

(c) Create model language for specifications, bid documents, and contracts to support the implementation of section 3 of this act; and

(d) Produce an educational brief that:

(i) Provides an overview of embodied carbon;

(ii) Describes the appropriate use of environmental product declarations, including the necessary preconditions for environmental product declarations to be comparable;

(iii) Outlines reporting standards, including covered product definitions, standards for reporting product quantities, and working conditions;

(iv) Describes the data collection and reporting process for all information required in section 3 (1)(a) and (3)(a) of this act;

(v) Provides instructions for the use of the database; and

(vi) Lists applicable product category rules for covered products.

(4) The department may contract for the use of nationally or internationally recognized databases of environmental product declarations for purposes of implementing this section.

NEW SECTION. Sec. 6. (1) By December 1, 2024, the department must convene a

technical work group that includes the following representatives:

(a) One industry professional in design, one industry professional in structural design, one industry professional in specification, and one industry professional in construction who are recommended by leading associations of Washington business;

(b) Two representatives each from Washington manufacturers of:

(i) Steel;

(ii) Wood; and

(iii) Concrete;

(c) A representative from the department of enterprise services;

(d) A representative from the department of transportation;

(e) A representative from the department of ecology;

(f) One representative each from three environmental groups that focus on embodied carbon and climate change;

(g) Three representatives from labor unions, including two from unions that represent manufacturing workers and one representative from the building and construction trades;

(h) A representative from the minority and women-owned business community;

(i) A representative from the University of Washington college of built environments; and

(j) Representatives of other agencies and independent experts as necessary to meet the objectives of the technical work group as described in this section.

(2) The department may form subgroups with members who have subject matter expertise or industry experience to develop technical information, recommendations, and analysis specific to individual material types, and the feasibility of supply chain specific environmental product declarations. The recommendations must, where possible, align with state and national principles and laws for environmental product declaration development.

(3) The department may contract with the University of Washington college of built environments in convening the technical work group.

(4) The purpose of the technical work group is to identify opportunities for and barriers to growth of the use and production of low carbon materials, promote high labor standards in manufacturing, and preserve and expand low carbon materials manufacturing in Washington.

(5) By September 1, 2025, the technical work group must submit a report to the legislature and the governor that includes:

(a) A low carbon materials manufacturing plan that recommends policies to preserve and grow the in-state manufacturing of low carbon materials and accelerate industrial decarbonization. For this plan, the technical work group must:

(i) Examine barriers and opportunities to maintain and grow a robust in-state supply of low carbon building materials including, but not limited to, state and domestic supply of raw materials and other supply chain challenges, regulatory barriers, competitiveness of local and domestic manufacturers, cost, and data availability

from local, state, national, and foreign product suppliers; and

(ii) Identify opportunities to encourage the continued conversion to lower carbon cements, including the use of performance-based specifications and allowing Type 1-L cement in specifications for public projects;

(b) Recommendations for consistent treatment in the reporting for covered products; and

(c) Consideration of how additional information relevant to reducing embodied carbon through strategies including, but not limited to, product life-cycle assessments could be incorporated into future reporting.

(6) (a) By September 1, 2026, the technical work group must submit a report on policy recommendations, including any statutory changes needed, to the legislature and the governor. The report must consider policies to expand the use and production of low carbon materials, preserve and expand low carbon materials manufacturing in Washington, including opportunities to encourage continued conversion to lower carbon blended cements in public projects, and support living wage manufacturing jobs.

(b) For this report, the technical work group must:

(i) Summarize data collected pursuant to section 3 of this act, the case study analysis funded by the 2021-2023 omnibus operating appropriations act, and the pilot projects funded by the 2021-2023 omnibus capital appropriations act. The summary must include product quantities, global warming potential, health product declarations, supplier codes of conduct, and any obstacles to the implementation of this chapter;

(ii) Evaluate options for collecting reported working condition information from product suppliers, including hourly wages, employee benefits, and total case incident rates, and for aligning these reporting requirements with existing reporting requirements for preferential tax rates, credits, exemptions, and deferrals;

(iii) Make recommendations for improving environmental production declaration data quality including, but not limited to, integrating reporting on variability in facility, product, and upstream data for key processes;

(iv) Make recommendations for consideration of scope 2 greenhouse gas emissions mitigation through green power purchases, such as energy attribute certificates and power purchase agreements;

(v) Identify barriers and opportunities to the effective use of the database maintained under section 5 of this act and the data collected pursuant to this chapter;

(vi) Identify emerging and foreseeable trends in local, state, federal, and private policy on embodied carbon and the procurement and use of low carbon materials and opportunities to promote consistency across public and private embodied carbon and low carbon materials policies, rules, and regulations; and

(vii) Recommend approaches to designing lower embodied carbon state building projects.

(7)(a) The department may update reporting standards and requirements based on input from the technical work group.

(b) The department must provide updated guidance on reporting standards by January 1, 2027.

(8) This section expires January 1, 2028.

"PURPOSE OF ACT

NEW SECTION. **Sec. 1.** The purposes of this act are to: Protect students from physically harmful and emotionally traumatic practices of chemical restraint, mechanical restraint, and isolation; prohibit the use of physical restraint imposed solely for purposes of student discipline or staff convenience; improve the safety and well-being of all staff and students by increasing the training and technical assistance provided to staff; and enhance the public accountability of school districts and other providers of public educational services.

DEFINITIONS

NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.600 RCW to read as follows:

The definitions in this section apply throughout RCW 28A.600.485, 28A.600.486, 28A.155.210, and sections 4, 7 through 9, and 13 through 18 of this act unless the context clearly requires otherwise.

(1) "Behavioral intervention plan" means the individualized plan developed for a student and implemented by staff for the purpose of changing, replacing, modifying, or eliminating a student's behavior or behaviors of concern.

(2) "Chemical restraint" means a drug or chemical administered by staff to a student to control the student's behavior or restrict the student's freedom of movement that is not: (a) Prescribed by a licensed health professional acting within the scope of the practice of that health profession for the standard treatment of a student's medical or psychiatric condition; (b) administered by a licensed health professional acting within the scope of the practice of that health profession or administered by designated staff delegated and trained by the licensed health professional under RCW 28A.210.260; or (c) administered in accordance with the student's medical or psychiatric treatment plan.

(3) "Educational service" means instruction and other activities delivered or sponsored by a school district or other provider of public educational services, for example: General education services; special education services; medical services; safety and security services; transportation services; and any developmental, corrective, or other supportive services necessary for a student eligible for special education

services to benefit from special education services.

(4) "Functional behavioral assessment" means the process or evaluation used by staff to understand the cause or purpose of a student's specific behavior or behaviors of concern in a specific environment.

(5) "Imminent" means the state or condition of being likely to occur at any moment or near at hand, rather than distant or remote.

(6) "Intensive crisis prevention and response training" means a training program approved by the office of the superintendent of public instruction under section 13(4) of this act.

(7) "Isolation," also known as seclusion, means the involuntary separation of a student from all other people, by staff, in a room or other enclosed area from which the student is not free to leave. "Isolation" does not include: (a) A time away, which is a student-selected behavior management technique that provides a student with an opportunity for self-calming, where the student is separated from others for a limited period, in a setting that is staff-monitored and from which the student may leave at any time; (b) staff temporarily confining a student alone in a classroom, office, or common area because the student's behavior poses an imminent likelihood of serious harm to the staff who had been in the room with the student, provided the student's confinement ends as soon as it is practicable for additional staff to intervene; or (c) a room clear, except as provided in rule by the office of the superintendent of public instruction.

(8) "Likelihood of serious harm" means a substantial risk that:

(a) Harm will be inflicted by the student upon his or her own person, as evidenced by threats or attempts to commit suicide, or inflict harm on oneself; or

(b) Harm will be inflicted by the student upon another, as evidenced by behavior that places another person or persons in reasonable fear of sustaining such harm.

(9) "Mechanical restraint" means staff use of a device to restrict a student's freedom of movement. "Mechanical restraint" does not include: (a) A device used by staff or a student: (i) As prescribed by a licensed health professional acting within the scope of the practice of that health profession; (ii) as documented in a student's individualized education program under Part B of the federal individuals with disabilities education act, Title 20 U.S.C. Sec. 1400 et seq. or a student's plan developed under section 504 of the rehabilitation act of 1973; or (iii) for a specific therapeutic, orthopedic, or medical purpose, when used for its designed purpose; or (b) the use of vehicle safety restraints when used as intended during the transport of a student in a vehicle.

for the purpose of enabling the student to learn or model the physical movement necessary for the development of a desired competency.

(12) "Physical restraint" means physical contact by one or more staff that immobilizes or reduces the ability of a student to move the student's arms, legs, torso, or head freely. "Physical restraint" does not include chemical restraint, mechanical restraint, physical escort, or physical prompt.

(14) "Restraint" includes chemical restraint, mechanical restraint, and physical restraint.

(15) "Room clear" means the procedure used by staff in an emergency to direct all students, except for any students causing the emergency, to leave a room. Except as provided in rule of the office of the superintendent of public instruction, a room clear is not isolation.

(16) "Staff" means an employee or contractor of a school district or other provider of public educational services. "Staff" does not include licensed or certified health professionals of inpatient health care facilities.

(17) "Student behavior management" means the knowledge and skills to:

USE OF STUDENT ISOLATION AND RESTRAINT

Sec. 3. RCW 28A.600.485 and 2015 c 206 s 3 are each amended to read as follows:

(1) ~~((The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.~~

(a) ~~"Isolation" means restricting the student alone within a room or any other form of enclosure, from which the student may not leave. It does not include a student's voluntary use of a quiet space for self-calming, or temporary removal of a student from his or her regular instructional area to an unlocked area for purposes of carrying out an appropriate positive behavior intervention plan.~~

(b) ~~"Restraint" means physical intervention or force used to control a student, including the use of a restraint device to restrict a student's freedom of movement. It does not include appropriate use of a prescribed medical, orthopedic, or therapeutic device when used as intended, such as to achieve proper body position, balance, or alignment, or to permit a student to safely participate in activities.~~

(c) ~~"Restraint device" means a device used to assist in controlling a student, including but not limited to metal handcuffs, plastic ties, ankle restraints, leather cuffs, other hospital-type restraints, pepper spray, tasers, or batons. Restraint device does not mean a seat harness used to safely transport students. This section shall not be construed as encouraging the use of these devices.~~

(2) ~~The provisions of this section apply to all students, including those who have an individualized education program or plan developed under section 504 of the rehabilitation act of 1973. The provisions of this section apply only to incidents of restraint or isolation that occur while a student is participating in school-sponsored instruction or activities.~~

(3) (a) ~~An individualized education program or plan developed under section 504 of the rehabilitation act of 1973 must not include the use of restraint or isolation as a planned behavior intervention unless a student's individual needs require more specific advanced educational planning and the student's parent or guardian agrees. All other plans may refer to the district policy developed under subsection (3)(b) of this section. Nothing in this section is intended to limit the provision of a free appropriate public education under Part B of the federal individuals with disabilities education improvement act or section 504 of the federal rehabilitation act of 1973.~~

(b) ~~Restraint or isolation of any student is permitted only when reasonably necessary to control spontaneous behavior that poses an imminent likelihood of serious harm, as defined in RCW 70.96B.010. Restraint or isolation must be closely monitored to prevent harm to the student, and must be discontinued as soon as the likelihood of serious harm has dissipated. Each school~~

~~district shall adopt a policy providing for the least amount of restraint or isolation appropriate to protect the safety of students and staff under such circumstances.~~

(4) ~~Following the release of a student from the use of restraint or isolation, the school must implement follow-up procedures. These procedures must include: (a) Reviewing the incident with the student and the parent or guardian to address the behavior that precipitated the restraint or isolation and the appropriateness of the response; and (b) reviewing the incident with the staff member who administered the restraint or isolation to discuss whether proper procedures were followed and what training or support the staff member needs to help the student avoid similar incidents.~~

(5) ~~Any school employee, resource officer, or school security officer who uses isolation or restraint on a student during school-sponsored instruction or activities must inform the building administrator or building administrator's designee as soon as possible, and within two business days submit a written report of the incident to the district office. The written report must include, at a minimum, the following information:~~

(a) ~~The date and time of the incident;~~
(b) ~~The name and job title of the individual who administered the restraint or isolation;~~

(c) ~~A description of the activity that led to the restraint or isolation;~~

(d) ~~The type of restraint or isolation used on the student, including the duration;~~

(e) ~~Whether the student or staff was physically injured during the restraint or isolation incident and any medical care provided; and~~

(f) ~~Any recommendations for changing the nature or amount of resources available to the student and staff members in order to avoid similar incidents.~~

(6) ~~The principal or principal's designee must make a reasonable effort to verbally inform the student's parent or guardian within twenty-four hours of the incident, and must send written notification as soon as practical but postmarked no later than five business days after the restraint or isolation occurred. If the school or school district customarily provides the parent or guardian with school-related information in a language other than English, the written report under this section must be provided to the parent or guardian in that language.~~

(7) (a) ~~Beginning January 1, 2016, and by January 1st annually, each school district shall summarize the written reports received under subsection (5) of this section and submit the summaries to the office of the superintendent of public instruction. For each school, the school district shall include the number of individual incidents of restraint and isolation, the number of students involved in the incidents, the number of injuries to students and staff, and the types of restraint or isolation used.~~

(b) ~~No later than ninety days after receipt, the office of the superintendent of public instruction shall publish to its website the data received by the districts. The office of the superintendent of public~~

instruction may use this data to investigate the training, practices, and other efforts used by schools and districts to reduce the use of restraint and isolation.)

Application. This section applies during the provision of educational services:

(a) To all students, including those who have an individualized education program or plan developed under section 504 of the rehabilitation act of 1973, of a school district or other provider of public educational services; and

(b) To all staff of a school district or other provider of public educational services, except for staff who are licensed or certified health professionals of an inpatient health care facility.

(2) Prohibited isolation and restraint.

(a) The staff of any school district or other provider of public educational services are prohibited from using the following interventions on any student during the provision of educational services:

(i) Chemical restraint;

(ii) Corporal punishment as prohibited by RCW 28A.150.300;

(iii) Isolation or physical restraint that is contraindicated based on the student's disability or health care needs or medical or psychiatric condition as documented in:

(A) An individual health plan or other health care management plan;

(B) A behavioral intervention plan;

(C) An individualized education program under Part B of the federal individuals with disabilities education act, Title 20 U.S.C. Sec. 1400 et seq.; or

(D) A plan developed under section 504 of the federal rehabilitation act of 1973;

(iv) Mechanical restraint;

(v) Physical restraint or physical escort that is life-threatening, restricts breathing, or restricts blood flow to the brain, including prone, supine, and wall restraints; and

(vi) Noxious spray and other aversive intervention as prohibited in rule of the office of the superintendent of public instruction.

(b) Except as authorized under subsection (4)(b) of this section, neither a student nor the student's parent or legal guardian may consent, or be asked to consent, to the use of interventions that are prohibited under this subsection (2).

(3) Limited use of physical restraint.

The staff of any school district or other provider of public educational services may physically restrain a student during the provision of educational services only when:

(a) The student's behavior poses an imminent likelihood of serious harm to the student or to others;

(b) Less restrictive interventions would be ineffective in stopping the imminent likelihood of serious harm to the student or to others;

(c) The least amount of force necessary is used to protect the student or another person from an imminent likelihood of serious harm to the student or to others; and

(d) The physical restraint of the student ends immediately upon the cessation of the

imminent likelihood of serious harm to the student or to others.

(4) Limited use of isolation. (a) Subject to the limitations in (b) of this subsection (4), the staff of any school district or other provider of public educational services may isolate a student during the provision of educational services only when:

(i) The student's behavior poses an imminent likelihood of serious harm to the student or to others;

(ii) Less restrictive interventions would be ineffective in stopping the imminent likelihood of serious harm to the student or to others;

(iii) The least amount of force necessary is used to protect the student or another person from an imminent likelihood of serious harm to the student or to others;

(iv) During isolation, the student is under the constant visual supervision of the staff;

(v) The isolation of the student ends immediately upon the cessation of the imminent likelihood of serious harm to the student or to others; and

(vi) Beginning August 1, 2029, the staff isolating the student has received intensive crisis prevention and response training.

(b) Except as provided in (c) of this subsection (4), beginning August 1, 2025, the staff of any school district or other provider of public educational services are prohibited from isolating any student in prekindergarten through grade five during the provision of educational services, unless requested by the parent or legal guardian of the student and unless authorized as follows:

(i) Two licensed health professionals, acting within the scope of practice for their health professions, have recommended and provided instructions for staff to isolate the student under specified circumstances and conditions that include the conditions described in (a) of this subsection (4). At least one of the licensed health professionals must not be an employee or contractor of the school district or provider of public educational services serving the student. For the purposes of this subsection (4)(b)(i), "licensed health professional" means a licensed behavior analyst, mental health counselor, osteopathic physician, physician, psychiatric nurse, psychiatric nurse practitioner, psychiatrist, or psychologist; and

(ii) The parent or legal guardian of the student provides uncoerced, fully informed, advanced, written consent for the staff to isolate the student as recommended under (b)(i) of this subsection (4).

(c)(i) Through July 31, 2029, or an exemption expiration date established by the office of the superintendent of public instruction, the limitations of (b) of this subsection (4) do not apply to any school district or other providers of public educational services serving students in any of grades prekindergarten through five that have claimed an exemption by August 1, 2025, using the process established under section 18 of this act. The purpose of the exemption is to delay the onset of the prohibition on isolating prekindergarten through grade five

students until staff have received student behavior management training and intensive crisis prevention and response training as described in the staff training plan prepared under section 8 of this act.

(ii) School districts and other providers of public educational services that claim an exemption must: (A) Engage with the technical assistance provided by the office of the superintendent of public instruction, and (B) provide the training described in the staff training plan prepared under section 8 of this act, as soon as practicable.

(5) Isolation rooms. (a) School districts and other providers of public educational services are prohibited from designing new construction or remodeling buildings to include a room or other enclosed area solely for purposes of isolating a student in any grade.

(b) Beginning August 1, 2029, school districts and other providers of public educational services are prohibited from approving, equipping, or constructing a room or other enclosed area solely for purposes of isolating a student in prekindergarten through grade five, except to comply with subsection (4)(b) of this section.

(c) The provisions of this subsection (5) do not apply to a state-operated psychiatric hospital that serves students.

(6) School resource officers. Nothing in this section prohibits a school resource officer as defined in RCW 28A.320.124 from carrying out the lawful duties of a commissioned law enforcement officer.

(7) Provision of free appropriate public education. Nothing in this section is intended to limit the provision of a free appropriate public education under Part B of the federal individuals with disabilities education improvement act or section 504 of the federal rehabilitation act of 1973.

(8) Definitions. The definitions in section 2 of this act apply to this section.

principal, other building administrator, or designee shall work with the staff who used, or directed the use of, isolation, restraint, or room clear to prepare a written daily incident report that describes all incidents involving the student during the date for which the report applies. The daily incident reports must be submitted to the school district superintendent or other chief administrator of the provider of public educational services, within two business days of the date for which the report applies. At a minimum, the written report must include:

For the prior month, or other relevant period, the summary must also include the number of team incident reviews conducted under subsection (2)(c) of this section and the number of incident reports submitted under (a) of this subsection (3). A summary does not have to be submitted in months that there are no incidents of student isolation or restraint or room clears.

(c) The school district superintendent or other chief administrator of a provider of public educational services shall prepare a summary of the daily incident reports submitted under (a) of this subsection (3), at least annually and as required by the school district board of directors or other governing body of a provider of public educational services. Concerning impact fee deferrals.

Beginning on page 1, line 4, strike all of section 1 and insert the following:

"Sec. 1. RCW 82.02.050 and 2015 c 241 s 1 are each amended to read as follows:

(1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) (a) ~~((1))~~ Counties, cities, and towns collecting impact fees must, by September 1, ~~((2016))~~ 2025, adopt and maintain a system for the deferred collection of impact fees for single-family detached and attached residential construction. The deferral system must include a process by which an applicant for a building permit for ~~((a))~~ single-family detached or attached residences may ~~((request a deferral of the full impact fee payment. The deferral system offered by a county, city, or town under this subsection (3) must include one or more of the following options:~~

~~(A) Deferring collection of the impact fee payment until final inspection;~~

~~(B) Deferring collection of the impact fee payment until certificate of occupancy or equivalent certification; or~~

~~(C) Deferring collection of the impact fee payment until the time of closing of the first sale of the property occurring after the issuance of the applicable building permit.~~

~~(ii) Counties, cities, and towns utilizing the deferral process required by this subsection (3)(a)) execute a promissory note in favor of the county, city, or town imposing the impact fee for the full value of the impact fees imposed. The note must come due at the time provided for in (b) of this subsection (3). The note must identify each impact fee that it covers and the total amount of fees that are due. The note must be recorded with the county auditor at the expense of the applicant. If lots have not been created on the subdivision, the note~~

must be recorded for the entire subdivision. The payment of the fees detailed in the promissory note is the legal responsibility of the applicant.

(b) The promissory note must include a provision for payment of the impact fee:

(i) At the time of the issuance of a certificate of occupancy or equivalent certification for the lot or unit;

(ii) At the time of the closing of the first sale of the lot or unit occurring after the issuance of the applicable building permit; or

(iii) At the time of final inspection.

(c)(i) If a county, city, or town has determined that payment of the impact fees is due at the time of the issuance of the certificate of occupancy or equivalent certification or at the time of the final inspection, the county, city, or town may withhold certification of final inspection, the certificate of occupancy, or equivalent certification until the impact fees have been paid in full. If the applicant has not paid in full by the time of the first sale of the lot or unit occurring after the issuance of the applicable building permit, then the impact fees are due immediately at the time of sale.

(ii) If the full impact fees have not been paid within one month of the sale of the first sale of the lot or unit occurring after the issuance of the applicable building permit, then the note bears interest at the rate provided for in RCW 82.32.050(2). The rate must be adjusted on the first day of January of each year for use in computing interest for that calendar year. The county treasurer must provide the county, city, or town covered by the promissory note with the variable rate on or before December 31st of the year preceding the year in which the rate applies.

(iii) In addition to the interest provided for in (c)(ii) of this subsection (3), if an applicant has not paid the impact fees in full within one month of the first sale of the lot or unit occurring after the issuance of the applicable building permit, the applicant must additionally be assessed a penalty of five percent of the total amount remaining due on the promissory note. If the promissory note has not been paid in full within two months of the time of the first sale of the lot or unit occurring after the issuance of the applicable building permit, the applicant must instead be assessed a penalty of 10 percent of the total amount remaining due on the promissory note. If the promissory note has not been paid in full within three months of the time of the first sale of the lot or unit occurring after the issuance of the applicable building permit, the applicant must instead be assessed a penalty of 20 percent of the total amount remaining due on the promissory note.

(iv) The interest and penalties provided for in this subsection (3)(c) are collectible only from the applicant and may not be a lien against the property sold by the applicant for which the impact fees were due. Owners of an applicant who has not paid the impact fees in full within one month of the first sale of the lot or unit occurring after the issuance of the applicable

building permit are personally liable for the full amount of the note, unless the sale has been recorded in the official county property record.

~~((iii))~~(d) The amount of impact fees that may be deferred under this subsection (3) must be determined by the fees in effect at the time the applicant applies for a deferral.

~~((iv))~~ Unless an agreement to the contrary is reached between the buyer and seller, the payment of impact fees due at closing of a sale must be made from the seller's proceeds. In the absence of an agreement to the contrary, the seller bears strict liability for the payment of the impact fees.

~~(b))~~(e) The applicant must provide written disclosure of a deferral agreement to a property buyer as required by chapter 64.06 RCW.

(f) The term of an impact fee deferral under this subsection (3) may not exceed ~~((eighteen))~~ 18 months from the date of building permit issuance.

~~((c))~~ Except as may otherwise be authorized in accordance with (f) of this subsection (3), an applicant seeking a deferral under this subsection (3) must grant and record a deferred impact fee lien against the property in favor of the county, city, or town in the amount of the deferred impact fee. The deferred impact fee lien, which must include the legal description, tax account number, and address of the property, must also be:

(i) In a form approved by the county, city, or town;

(ii) Signed by all owners of the property, with all signatures acknowledged as required for a deed, and recorded in the county where the property is located;

(iii) Binding on all successors in title after the recordation; and

(iv) Junior and subordinate to one mortgage for the purpose of construction upon the same real property granted by the person who applied for the deferral of impact fees.

(d)(i) If impact fees are not paid in accordance with a deferral authorized by this subsection (3), and in accordance with the term provisions established in (b) of this subsection (3), the county, city, or town may institute foreclosure proceedings in accordance with chapter 61.12 RCW.

(ii) If the county, city, or town does not institute foreclosure proceedings for unpaid school impact fees within forty-five days after receiving notice from a school district requesting that it do so, the district may institute foreclosure proceedings with respect to the unpaid impact fees.

(e)(i) Upon receipt of final payment of all deferred impact fees for a property, the county, city, or town must execute a release of deferred impact fee lien for the property. The property owner at the time of the release, at his or her expense, is responsible for recording the lien release.

(ii) The extinguishment of a deferred impact fee lien by the foreclosure of a lien having priority does not affect the obligation to pay the impact fees as a condition of final inspection, certificate

~~of occupancy, or equivalent certification, or at the time of closing of the first sale.~~

~~((f)) (g) A county, city, or town with an impact fee deferral process on or before April 1, 2015, is exempt from the requirements of this subsection (3) if the deferral process delays all impact fees and remains in effect after September 1, 2016.~~

~~((g) (i) Each applicant for a single-family residential construction permit, in accordance with his or her contractor registration number or other unique identification number, is entitled to annually receive deferrals under this subsection (3) for the first twenty single-family residential construction building permits per county, city, or town. A county, city, or town, however, may elect, by ordinance, to defer more than twenty single-family residential construction building permits for an applicant. If the county, city, or town collects impact fees on behalf of one or more school districts for which the collection of impact fees could be delayed, the county, city, or town must consult with the district or districts about the additional deferrals. A county, city, or town considering additional deferrals must give substantial weight to recommendations of each applicable school district regarding the number of additional deferrals. If the county, city, or town disagrees with the recommendations of one or more school districts, the county, city, or town must provide the district or districts with a written rationale for its decision.~~

~~((ii)) (h) For purposes of this subsection (3) ((g)), an "applicant" includes an entity that controls the applicant, is controlled by the applicant, or is under common control with the applicant.~~

~~((h) Counties, cities, and towns may collect reasonable administrative fees to implement this subsection (3) from permit applicants who are seeking to delay the payment of impact fees under this subsection (3).~~

~~(i) In accordance with RCW 44.28.812 and 43.31.980, counties, cities, and towns must cooperate with and provide requested data, materials, and assistance to the department of commerce and the joint legislative audit and review committee.)~~

~~(4) The impact fees:~~

~~(a) Shall only be imposed for system improvements that are reasonably related to the new development;~~

~~(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and~~

~~(c) Shall be used for system improvements that will reasonably benefit the new development.~~

~~(5) (a) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its development regulations under chapter 36.70A RCW, continued authorization to collect and~~

~~expend impact fees is contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:~~

~~(i) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;~~

~~(ii) Additional demands placed on existing public facilities by new development; and~~

~~(iii) Additional public facility improvements required to serve new development.~~

~~(b) If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible."~~
